The McKibbon Hotel Group, Inc. owns several hospitality related developments in downtown Asheville including the Aloft Hotel, the AC Hotel which is currently under development, and the recently approved One West Tower at Pack Square renovation project. Through this investment in and familiarity with the City of Asheville, McKibbon has recognized firsthand, the fact that the City has an affordable housing crisis and therefore, has offered to make a donation of $250,000 to the City's Housing Trust Fund.

The Housing Trust Fund is the primary City-funded investment tool to incentivize affordable housing production. Since creating the Fund in 2001, The City has investment almost $10 million toward the production of almost 1,000 units of affordable housing in Asheville. Demand for the fund exceeds the amounts available to lend. $1.6 million in requests were received this year with less than $1 million available to lend from the Housing Trust Fund.

The McKibbon Hotel Group, Inc. has provided a Gift Memorandum of Understanding which needs to be executed by the City to accept the donation. Per the terms of this MOU, upon issuance of the certificate of occupancy for One West Tower at Pack Square Renovation project (anticipated Spring 2018-check), McKibbon shall transmit, as an irrevocable gift/donation, the sum of $250,000.00 to the City for the City of Asheville Housing Trust Fund for the sole use and purpose of providing affordable housing within the corporate limits of the City.

Pro:

- Provides a significant additional contribution to City's Housing Trust Fund; may encourage other private investors to make similar donations

Con:

- None

This will add $250,000 to the City's Housing Trust Fund.

City staff recommends City Council adopt a resolution authorizing the City Manager to execute the Gift Memorandum with the McKibbon Hotel Group, Inc. and accept a donation of $250,000 for the City's Housing Trust Fund.

RESOLUTION BOOK NO. 37 - PAGE 375

I. RESOLUTION TO SUPPORT THE "BAN THE BOX" INITIATIVE BY AMENDING THE CITY EMPLOYMENT APPLICATION TO NO LONGER REQUIRE DISCLOSURE OF PAST CRIMINAL HISTORY DURING THE INITIAL JOB APPLICATION PROCESS FOR CERTAIN POSITIONS WITHIN THE CITY

This item was removed from the Consent Agenda for discussion and/or an individual vote.

Mayor Manheimer asked for public comments on any item on the Consent Agenda, but received none.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Councilman Smith moved for the adoption of the Consent Agenda, with the deletion of Consent Agenda I. This motion was seconded by Councilman Bothwell and carried unanimously.

ITEM REMOVED FROM THE CONSENT AGENDA FOR INDIVIDUAL VOTE

I. RESOLUTION NO. 16-29 - RESOLUTION TO SUPPORT THE "BAN THE BOX" INITIATIVE BY AMENDING THE CITY EMPLOYMENT APPLICATION TO NO LONGER REQUIRE DISCLOSURE OF PAST CRIMINAL HISTORY DURING THE INITIAL JOB APPLICATION PROCESS FOR CERTAIN POSITIONS WITHIN THE CITY

Summary: Over the past several months Human Resources Staff has been reviewing the City's Personnel and related administrative policies, evaluating best practices and trends among other local government and private sector employers. This review has included recruitment and selection policy and associated practices and processes, and this memo specifically addresses the City's practice of asking applicants about criminal convictions at the time of application submittal.

There is a national movement widely known as "ban the box", that continues to gain momentum. These initiatives provide applicants a fair chance by removing the conviction history question on the job application and delaying the background check inquiry until later in the hiring process; thus employers consider a job candidate's qualifications first, without the stigma of a conviction record. While there is variety in how "ban the box" policies have been applied and implemented, they generally establish parameters for when, and to what extent, an employer may ask about or use criminal history for employment purposes. Generally, they require postponing the inquiry until an applicant has an opportunity to be considered (after an interview or once an applicant is a finalist or has received a conditional offer) and after the employer has determined in good faith that the specific components of a background check that are appropriate. Most include exceptions if the position is of a sensitive nature or if a background check is required by another law (such as jobs involving child care, financial services, education and law enforcement). In 2012, the U.S. Equal Employment Opportunity Commission (EEOC) endorsed removing the conviction question from job applications and deferring inquiries about criminal history until after the application phase as a best practice.

The City's current application asks the following questions:

- Have you ever been convicted of an offense against the law other than a minor traffic violation? Failure to report a conviction will exclude you from consideration. Please do not disclose any conviction that has been expunged from your record.

- If you answered "yes" to the above conviction question please explain the nature of the conviction and the date. Please include if the conviction was a felony or a misdemeanor. It is important to disclose all convictions that have not been expunged from your record. Failure to report a conviction will exclude you from consideration.

Based on the review, the City is prepared to make changes to its current application process and remove questions regarding criminal history from the employment application for those jobs that do not have a public safety or statutory requirement. This change is anticipated to be implemented by the end of January 2016.

To address public safety/statutory requirements of some jobs, the actual job posting will include additional information on automatic disqualifiers and the application process will include supplemental questions based on these qualifications – which will help identify candidates who do not meet those requirements.

In addition to the electronic changes to the application, HR staff will communicate with and/or train all Department hiring managers, and other appropriate staff, to inform them of the change.

The City will not change the policy of conducting a background check on all final candidates for employment. The goal remains to ensure the safety and security of the public and

employees while providing an opportunity to our citizens, recognizing the relationship of employment to reduced rates of recidivism.

Next Steps:

- Testing of the removal and implementation of the removal of conviction history questions from the employment application. This includes removal of questions and response from previous applications.
- Review and update of appropriate administrative policies to reflect the change in practice and process.
- Training provided to appropriate staff on updated administrative policies and changes implemented.
- Review and modify, if necessary, the general information on the City's Employment website.
- Review of job posting details and the use of supplemental questions to identify opportunities to enhance recruitment and selection efforts.
- Finalize any additional language that may need to be included in the job postings and additional language on the application to inform applicants that a background check will be conducted.
- Post implementation evaluation to ensure no further adjustments or revisions are needed.
- Post implementation report to City Manager's Office 60 to 90 days after implementation.

The following is the current language candidates are asked to accept and certify prior to submitting their application.

- By clicking on the "Accept" button, I hereby certify that every statement I have made in this application is true and complete to the best of my knowledge. I understand that any false or incomplete answer may be grounds for not employing me or for dismissing me after I begin work. I understand that I will have to produce documentation verifying identity and employment eligibility in the U.S. I understand that I may be required to verify any and all information given on this application. I understand that this completed application is the property of the City of Asheville and will not be returned. I understand City of Asheville may contact prior employers and other references. I understand that I must notify the Human Resources Division of any changes in my name, address, or phone number.

Below is draft of the language that will be added to the certification and acceptance portion of the application process:

> *The City's Policy requires background checks to be conducted on final internal or external candidate(s) applying for any position with the City of Asheville. The type of information that will be collected as part of a background check includes, but is not limited to: reference checks, social security verification, education verification, criminal conviction record check, and, if applicable, a credit history check, sex offender registry and motor vehicle records check.*
>
> *Background checks must be in compliance with all federal and state statutes, such as the Fair Credit Reporting Act (FCRA). The checks must be consistent with the guidelines set forth by these laws requiring organizations to obtain a candidate's written authorization before obtaining a criminal background report, motor vehicle records check or credit report; and to properly store and dispose of information derived from such reports.*

Councilman Young said that this resolution embodies a roadmap that our City will collectively follow and hopefully municipalities around the state will follow the direction that this

ban the box initiative is moving. He felt this will help formerly incarcerated families heal and move forward as everyone deserves an opportunity for gainful employment.

Ms. Dee Williams thanked Councilman Young for helping achieve this effort and spoke in support of the resolution.

Councilman Bothwell said that we used to consider our prisons as correctional institutions and realized when people had served their time they had hopefully found a better way to live their lives. This is an important step to let people get through the application process and then explain their situation.

Councilman Young moved for the adoption of Resolution No. 16-29. This motion was seconded by Vice-Mayor Wisler and carried unanimously.

RESOLUTION BOOK NO. 37 - PAGE 376

III. PRESENTATIONS & REPORTS:

A. EQUITABLE DEVELOPMENT REPORT - BUILDING BLOCKS FOR SUSTAINABLE COMMUNITIES

Urban Planner Sasha Vrtunski said that Asheville was selected in early 2015 to receive technical assistance from the Environmental Protection Agency (EPA) in the form of a 2-day workshop on Equitable Development. Equitable development is an approach for creating communities and regions where residents of all incomes, races, and ethnicities participate in and benefit from decisions that shape the places where they live. In July, several EPA staff and their consultant, as well as other federal officials, visited Asheville and toured the East of the Riverway area. A community meeting was held in the evening at the Dr. Wesley Grant Sr. Center. This was followed the next day by a workshop with a smaller group of community stakeholders and partners.

The report is a summary of that workshop and an analysis of the community input. The purpose of the workshop was to educate participants on equitable development as a tool to address sustainable, affordable and livable communities and to provide a forum for input on how equitable development might be applied in Asheville. Workshop outcomes included participants (1) learning about equitable development and examples in other places; and (2) brainstorming ideas about how to move our community forward around four main goal areas. The purpose of the report is to summarize the input of community workshop participants, and provide best practices for city staff and community agencies to consider in projects as our community continues to grow. The report gives an opportunity to explore the perspective of subject matter experts from outside of the Asheville community.

The report summary contains a summary of ideas from a community meeting and 30 workshop participants. It recommended best practices from around the United States, and included roles for local government, anchor institutions, citizens groups and non-profits. The small groups focused on 4 main areas resulting in recommendations: (1) communication and engagement; (2) affordable housing; (3) local investment; and (4) preserving and celebrating history through the arts.

In the focus area of improve community engagement and enhance communication, an example is that several historically African-American neighborhoods have been meeting to look at community based economic development strategies. An opportunity would be in the upcoming Comprehensive Plan, which will offer opportunities for the City and neighborhood residents to build relationships and engage in a dialogue around development.

In the focus area of preserving existing and providing more affordable housing choices, an example would be at the Glen Rock at 372 Depot Street - mixed use, affordable housing projects that provide units within reach of folks below 60% AMI. An opportunity would be that community members are exploring a Community Land Trust model which could develop permanently affordable housing.

In the focus area of local investment and community-building commitments by existing and new community institutions and businesses, an example would be that Green Opportunities work with local employers to connect their trainees with jobs. An opportunity is that City and local anchor institutions work with local contractors to identify barriers to hiring local workers for major construction projects.

In the focus area of preserving community identity by promoting the arts community and celebrating local African-American history, an example would be that Town Branch Greenway will incorporate local history along the trail with educational signage. An opportunity is that public art installations as a part of the RADTIP could connect local artists, community members with adjacent neighborhoods.

The ideas in the report were suggested by workshop participants and EPA's consultants and have not been analyzed by City staff to determine their feasibility or legality in North Carolina.

City staff intends to analyze the report's suggested strategies for applicability in Asheville and integrate the report's strategies and approaches, to the extent possible, in city projects, planning and engagement efforts. Staff will share the document with workshop participants and the broader community to maximize the potential for strategy integration in not only city government projects but all sectors of the community.

Ms. Vrtunski responded to various questions raised by Councilman Smith.

IV. PUBLIC HEARINGS:

A. PUBLIC HEARING TO CONSIDER A SUBSTANTIAL AMENDMENT TO THE 2015-16 CONSOLIDATED ANNUAL ACTION PLAN FOR COMMUNITY DEVELOPMENT BLOCK GRANT (CDBG) AND HOME FUNDS TO THE U.S. DEPT. OF HOUSING AND URBAN DEVELOPMENT

RESOLUTION NO. 16-30 - RESOLUTION TO AUTHORIZE SUBSTANTIAL AMENDMENT #1 TO THE 2015-16 CONSOLIDATED ANNUAL ACTION PLAN FOR COMMUNITY DEVELOPMENT BLOCK GRANT (CDBG) AND HOME FUNDS TO THE U.S. DEPT. OF HOUSING AND URBAN DEVELOPMENT

Community Development Manager Heather Dillashaw said that this is the consideration of a resolution to authorize substantial amendment #1 of the City's 2015-16 Consolidated Annual Action Plan for Community Development Block Grant (CDBG) and HOME Funds to the U.S. Dept. of Housing & Urban Development. . This public hearing was advertised on January 15 and 22, 2016.

Nine hundred and twenty-eight thousand, sixty-four dollars of HOME funds awarded in the FY15-16 cycle need to be reallocated, due to development projects not moving forward. Community Development staff, at the direction of the Asheville Regional Housing Consortium, sought proposals from HOME-eligible subrecipients and for developments proposed by Community Housing Development Organizations (CHDOs). Six applications were received requesting a total of $1,566,817.

After reviewing applications, hearing presentations by applicants and Board discussion, the Consortium recommends the following allocations:

Applicant	Project	Request	Recommended
Givens Estate	Gerber Village Phase I	$463,000	$150,000
Henderson County Habitat for Humanity	Dodd Meadows Phase III	$125,000	$50,000
Housing Assistance Corporation	Oklawaha Village	$425,000	$375,000
Madison County	Rural Rehabilitation	$100,000	$53,064
Mountain Housing Opportunities & Farmbound Holdings, LLC	Pinnacle Point	$425,000	$300,000
TOTALS		**$1,566,817**	**$928,064**

1. Givens Estate Gerber Village Phase I. 120 units of affordable housing will be built in Phase I, for households at 60% or less AMI. This recommendation is to add $150,000 to an original HOME grant award of $100,000. Construction costs increased unexpectedly during initial phases of construction
2. Henderson County Habitat for Humanity. Dodd Meadows Phase III adds an additional 3 homes to the existing Dodd Meadows subdivision. These homes will be sold to households between 30% and 80% AMI for Henderson County. This recommendation is to add $50,000 to an original HOME grant award of $109,528.
3. Housing Assistance Corporation. This Community Housing Development Organization project is a 78 unit multi-family development in the city of Hendersonville. 16 units will be occupied by households at 80% or less of AMI; 62 will be occupied by households at 90% or less of AMI for Henderson County. The recommended award is $375,000.
4. Madison County, Rural Housing Rehabilitation. Madison County will contract with the Community Housing Coalition of Madison County to rehab 2-4 homes belonging to low and very-low income homeowners to eliminate the threat to life, health or safety and incorporate energy efficiency improvements. The recommended award is $53,064.
5. Mountain Housing Opportunities and Farmbound Holdings, LLC, Pinnacle Point. 60 unit multi-family development to be built in South Asheville. 12 units will be affordable to households at 60% AMI or less. 48 will be affordable to households at 100% AMI or less. The recommended award is $300,000.

In accordance with the City's Citizen Participation Plan, the proposed allocations have been available for public review and comment for 30 days. Contracts for HOME are executed only with the project is ready for implementation and all other funding is firmly committed. Disbursement of grant funds occurs after contracts are signed, and on a reimbursement basis.

These proposed projects directly support Council's 2015-2016 Strategic Plan in Focus Area 2, Affordability and Economic Mobility Significant funding for affordable housing is a major characteristics of the 2015-2016 Annual Plan. Of special note are the allocations for tax credit rental projects that would create 120 units for low income persons in Asheville (Gerber Village Phase I), 12 non-tax credit units in Asheville for low income persons (Pinnacle Point) 78 units for families in Henderson County (Oklawaha Village).

Pros:

- The development projects will create 151 new units of affordable housing for low-income households in the Consortium area and provide significant construction employment.
- Additionally, 4 low-income households will be able to preserve the affordability of their homes.

- Reflects the carefully considered recommendations of the Asheville Regional Housing Consortium.
- The recommendations are consistent with the priorities in the 2015-2019 Asheville Regional Consolidated Plan for the Use of HOME and CDBG Funds.

Con:

- It is not possible to fund all the applications received, nor to fund fully each request. Applicants may need to seek additional funds from other sources to make their projects feasible.

All funds being reallocated in this process are federal HOME funds received by the City of Asheville for the purpose of affordable housing. No City of Asheville general funds are affected by this process.

The Asheville Regional Housing Consortium recommends that the City Council approved the proposed Substantial Amendment to the 2015-16 Annual Action Plan for CDBG and HOME funds.

Mayor Manheimer opened the public hearing at 5:25 p.m. and when no one spoke, she closed the public hearing at 5:25 p.m.

Mayor Manheimer said that members of Council have previously received a copy of the resolution and it would not be read.

Councilman Smith moved for the adoption of Resolution No. 16-30. This motion was seconded by Vice-Mayor Wisler and carried unanimously.

RESOLUTION BOOK NO. 37 – PAGE 377

B. PUBLIC HEARING TO CONSIDER A MODIFIED CONDITIONAL ZONING SITE PLAN FOR PROPERTY LOCATED AT 329 ROCKWOOD ROAD FOR THE DEVELOPMENT OF AN 108 ROOM HOTEL CONTAINED IN A 7-STORY BUILDING WITH ASSOCIATED PARKING AND SITE-WORK

ORDINANCE NO. 4478 - ORDINANCE TO MODIFY A CONDITIONAL ZONING SITE PLAN FOR PROPERTY LOCATED AT 329 ROCKWOOD ROAD FOR THE DEVELOPMENT OF AN 108 ROOM HOTEL CONTAINED IN A 7-STORY BUILDING WITH ASSOCIATED PARKING AND SITE-WORK

Principal Planner Shannon Tuch said that this is the consideration of a request to modify a conditional zoning site plan for property located at 329 Rockwood Road for the development of an 108 room hotel contained in a 7-story building with associated parking and site-work. This public hearing was advertised on January 15 and 22, 2016.

The applicant is requesting review of an amendment to a previously approved Highway Business conditional zoning (HB-CZ) and site plan approval (Ord. No. 4242), in accordance with Section 7-7-8 of the Unified Development Ordinance (UDO), for a 7-story, 108-room hotel and related site improvements.

The subject property is located at 329 Rockwood Rd. approximately .7 miles from the Asheville Regional Airport and identified in the Buncombe County land records with the PIN 9643-75-1885. The site is 2.05 acres and was previously graded and prepared for development before a lease was secured and land use determined. The site rises in elevation from Rockwood Road to the prepared building pad approximately 20-feet above the road. Like the subject property, the surrounding properties are all zoned HB and support typical auto-oriented business including the high turnover restaurant to the west, and other similar land uses. The property owner is PMHB,

LLC and the applicant is Justin Church.

The project consists of a single 7-story, 108-room hotel with lobby and amenity areas for guests. The total square footage for the building is 71,367 square feet with a height of 82'-6". The current proposal is a modest increase over a previously approved plan that included a 60,474 square foot building supporting 100 rooms resulting in a difference of 10,893 square feet and eight rooms. Both proposals included seven stories and limit the height to 82'-8". A modification for the height of the building to exceed the 60-feet normally allowed in HB was the primary reason for the original 2013 conditional zoning request. Other than the removal of four parking spaces needed to accommodate changes to the building footprint and surrounding hardscaped areas, the site plan for the project is unchanged and includes landscaping, sidewalk, a new retaining wall and parking lot improvements.

The property is accessed off of Rockwood Rd. through a driveway that is shared with the restaurant to the west. The shared driveway rises approximately 20-feet from Rockwood Road to the base floor elevation of the hotel and helps to terrace the site with the use of block retaining walls on either side of the driveway. The city standard sidewalk along Rockwood Road is proposed and included in the site plans, however, an accessible route from the hotel to Rockwood Rd. was found to be infeasible with this modification carried over from the previous approval. An area of safe dispersal will be required as an alternative within the project site.

Off-street parking requirements for a 108-room hotel requires a minimum of 54 spaces but permits up to a maximum of 108 spaces. The proposed project includes 95 total spaces, falling within the permissible range. Handicap accessible and bicycle parking are also provided.

A variety of landscape improvements are required with this project including: street trees, parking lot, building impact, retaining wall and dumpster screening. Open space is also required at a rate of 15% of the total site area or 13,068 square feet. Open space requirements may be satisfied by either providing adequate space on-site or through paying a fee in lieu (or a combination of the two).

The October 22, 2013, approval included two modifications which still apply. These include:

1) Approval to exceed the maximum height allowed for a building in the HB zoning district from 60'-0" to 82'-8"
2) An exemption from the requirement for an accessible sidewalk from the hotel to Rockwood Rd.

Additionally, given the project's proximity to the Asheville Regional Airport and the proposed height of the structure, a determination of "No Hazard to Air Navigation" from the Federal Aviation Administration (FAA) is recommended to be required prior to the issuance of any development permits. This determination was previously obtained with the former project approval but has since expired. The applicant is actively seeking renewal of that determination.

This proposal was approved with conditions by the Technical Review Committee on December 21, 2015, and the Planning & Zoning Commission reviewed this request at their meeting on January 6, 2016, and voted unanimously in support of the project.

No communication has been received from the public as of the writing of this report. This project requires review by the City Council and Final TRC prior to zoning approval.

In 2013 the property owner, PMHB LLC, requested a conditional zoning from the existing HB zoning to HB-CZ for the sole purpose of modifying the height for a new multi-story hotel. The modification request proposed to exceed the 60-foot height maximum normally allowed in the HB zoning district to allow a building height of 82'-8". The conditional zoning was approved and the

height modification was granted and remains in effect today. The current amendment seeks to change the approved site plan that went with the 2013 conditional zoning in order to increase the size of the hotel building and number of rooms.

There have been no recent zoning actions in the area.

The subject property is surrounded on all sides by HB zoning supporting a number of different suburban, automobile-oriented businesses including strip retail and service businesses, a high turnover restaurant and light manufacturing. The proposed hotel building will be taller than all the buildings in the immediate area but is less than 0.70 mile (as the crow flies) to the Asheville Regional Airport terminal and tower. A number of other multi-story hotels are within a reasonable proximity of the airport, most of which are between 3-5 stories tall.

The proposed project is compliant with the *Asheville City Development Plan 2025* in that it: 1) provides appropriately-scaled commercial infill development where there is existing infrastructure; and 2) it supports the growth of the Asheville Regional Airport consistent with the general aviation and commercial air traffic demands as well as the operational needs of the Airport.

The proposed project most closely aligns with the 2015-16 Strategic Plan Focus Area of Economic Growth and Sustainability by supporting an economic development and community investment opportunity.

Considerations:

- Current proposal expands the previously approved plan by increasing the square footage of the building by 10,893 square feet from 60,474 to 71,367 (an increase of approximately 18%), and from 100 rooms to 108 rooms (an increase of 8%).
- A modification to exceed the height limit in the HB zoning district and to waive a sidewalk connection from the hotel to Rockwood Rd. was granted in 2013 and is not under consideration as part of this application.
- Changes to parking lot layout and other site improvements are minor.
- The subject property is less than a mile from the Asheville Regional Airport terminal entrance and less than 1000 feet to the nearest edge of the property.

Based on policies stated in the Comprehensive Plan and other plans staff finds this request to be reasonable and in furtherance of the public interest and recommends support of the proposed conditional zoning amendment as proposed.

Councilman Young confirmed that this project was already approved in 2013, but they had to find a new flag to represent them which required them to add 8 more rooms and an additional 10,893 square feet.

Mayor Manheimer opened the public hearing at 5:31 p.m.

Mr. Justin Church, civil engineer for the project representing the developer, said that that is basically the same project that was approved in the fall of 2013. After approval, the developer ran into some issues with the franchise and they had to look for another flag company. He explained the changes are because each franchise has a prototype and that is why there are minor building changes.

Mr. Timothy Sadler suggested Council add conditions that the applicant build a better building that will reduce Co2 emissions and that they prioritize procuring local food for their hotel.

Mayor Manheimer closed the public hearing at 5:34 p.m.

Councilman Smith said that when Council offers a height variance they often seek what is the community benefit to allow that variance. Ms. Tuch responded that in this case, the only reason for the conditional zoning was for the height modification. The property was zoned Highway Business already. In this particular case because the project is in close proximity to the Airport and it will helps serve that particular economic hub for North Carolina, she felt it was deemed appropriate to grant that additional height modification.

Councilman Smith said that recently Council approved a hotel for downtown where the developer worked with the City and agreed to provide living wages to full-time employees, include local business in any retail, contribute to the Housing Trust Fund, and be an advocate for an equitable distribution of the occupancy tax in the area. He asked if the developer would be willing to condition and agree to any of these actions.

Mr. Church, who is only representing the developer, said that he could not commit to any of those conditions. He said that when the height modification was granted, their stance was that the existing height was not consistent with some of the adjacent structures.

Councilman Bothwell agreed that it would be nice to get some additional community benefits from the developer; however, the project has already been approved with essentially the same plan.

Mayor Manheimer said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Bothwell moved to approve the Highway Business Conditional Zoning (HB-CZ) amendment request seeking to increase the size and number of rooms of a previously approved hotel development plan from 60,474 square feet to 71,367 square feet, and from 100 rooms to 108 rooms, with the submitted conditions, site plan and elevations, and find that the request is reasonable, is in the public interest and is consistent with the Comprehensive Plan and other adopted plans in the following ways: 1) it provides appropriately-scaled commercial infill development where there is existing infrastructure; 2) it supports the growth of the Asheville Regional Airport consistent with the general aviation and commercial air traffic demands as well as the operational needs of the Airport; and 3) it supports an economic development and community investment opportunity. This motion was seconded by Vice-Mayor Wisler and carried on a 6-1 vote, with Councilman Smith voting "no."

ORDINANCE BOOK NO. 30 – PAGE 220

C. PUBLIC HEARING TO CONSIDER CONDITIONAL ZONING PROPERTY LOCATED AT 60 MILLS GAP ROAD FROM INDUSTRIAL DISTRICT TO HIGHWAY BUSINESS DISTRICT/CONDITIONAL ZONING FOR THE DEVELOPMENT OF A 272 UNIT MULTI-FAMILY DEVELOPMENT

At the applicant's request, Councilman Bothwell moved to continue this public hearing until April 26, 2016. This motion was seconded by Vice-Mayor Wisler and carried unanimously.

V. UNFINISHED BUSINESS:

VI. NEW BUSINESS:

Regarding the HUB Community & Economic Development Alliance, it was the consensus of Council to readvertise for the seat since three of the four candidates withdrew from consideration.

A. RESOLUTION NO. 16-31 - RESOLUTION APPOINTING MEMBERS TO THE AFFORDABLE HOUSING ADVISORY COMMITTEE

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that there currently exists three vacancies on the Affordable Housing Advisory Committee.

Mr. James Mastrogiacomo resigned from the Committee, thus leaving an unexpired term until September 1, 2017; Robin Raines resigned from the Committee, thus leaving an unexpired term until September 1, 2016; and Ms. Laura Simmelink has resigned from the Commission, thus leaving an unexpired term until September 2, 2017.

The following individuals have applied for the vacancies: Eric McDaniel, Kama Ward, Zachary Eden, Sage Turner, Laura Collins, Charlene Jones, Arthur Myers, Emily Coleman-Wolf, Barry Bialik, Richard Fort, John Brigham, Rita Yerby, Jo Ikelheimer, Mark Collins and Amy Murphy-Nugen.

On January 12, 2016, Councilman Bothwell moved to appoint Jo Ikelheimer and interview Barry Bialik, Laura Collins and Richard Fort. This motion was seconded by Councilman Smith and carried unanimously.

After Council spoke highly of all candidates, Barry Bialik received 5 votes; Laura Collins received 7 votes; and Richard Fort received 2 votes. Therefore, Barry Bialik was appointed to serve the unexpired term of Mr. Mastrogiacomo, term to expire September 1, 2017, or until his successor has been appointed; (2) Laura Collins was appointed to serve the unexpired term of Ms. Simmelink, term to expire September 1, 2017, or until her successor has been appointed; and (3) per the motion on January 12, 2016, Jo Ikelheimer was appointed to serve the unexpired term of Ms. Raines, term to expire September 1, 2016, and then a full three-year term, term to expire September 1, 2019, or until her successor has been appointed.

RESOLUTION BOOK NO. 37 – PAGE 378

B. RESOLUTION NO. 16-32 - RESOLUTION APPOINTING MEMBERS TO THE DOWNTOWN COMMISSION

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that the terms of Brent Campbell, Rebecca Hecht, Dane Barrager and Pam Winkler, as members on the Downtown Commission, expired on December 31, 2015.

The following individuals have applied for the vacancy: John Menkes, Constance Richards, Drea Jackson, Audra Gaiziunas, Rae Geoffrey, Kelly Prime, Carter B. Webb, Sage Turner, Mike Marcus, Franzi Charen, Andrew Fletcher, Taryn Gentry, John Monroe and John Kloeckner.

On January 12, 2016, Vice-Mayor Wisler moved to reappoint Dane Barrager, Brent Campbell and Pamela Winkler and interview Franzi Charen, Sage Turner, Andrew Fletcher and Mike Marcus. This motion was seconded by Councilman Young and carried unanimously.

After Council spoke highly of all candidates, Sage Turner received no votes; Mike Marcus received no votes; Andrew Fletcher received two votes; and Franzi Charen received 5 votes. Therefore, (1) Franzi Charen was appointed to serve a three-year term, term to expire December 31, 2018, or until her successor has been appointed; and (2) per the motion on January 12, 2016, Brent Campbell, Dane Barrager and Pam Winkler were each reappointed to each serve a three-year term respectively, terms to expire December 31, 2018, or until their successors have been appointed.

RESOLUTION BOOK NO. 37 - PAGE 379

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

Ms. Vicki Meath spoke to Council about transit reform and the 2015 survey summary of riders and businesses showing that there is strong support for evening bus service. Additional research should focus on the specific routes and times for extending bus service. She asked Council to look for funding to extend that evening service.

Mr. Vijay Kapoor, south Asheville resident, thanked Council for their patience in working with the south Asheville residents regarding the rapid growth and lack of a transportation plan associated with the proposed conditional zoning for 60 Mills Gap Road, which public hearing has been continued until April 26, 2016.

Ms. Priscilla Ndiaye urged City Council to work on a plan to renovate the Walton Street Park and Pool.

Ms. Dee Williams urged Council to continue to seek community benefits in projects.

Mr. Timothy Sadler supported expanding evening bus service, and hoped that Council will work with the community employers to market the Passport Program which will help support the additional funding needed for expanding evening bus service.

Ms. Carmon Ramos-Kennedy spoke in support of the ban the box resolution; and clarified that the 2015 survey Ms. Meath spoke about said that Just Economics is not advocating raising the fees to pay for the evening service.

Closed Session

At 6:07 p.m., Councilman Young moved to go into closed session for the following reasons: (1) To prevent disclosure of information that is privileged and confidential, pursuant to the laws of North Carolina, or not considered a public record within the meaning of Chapter 132 of the General Statutes. The law that makes the information privileged and confidential is N.C.G.S. 143-318.10(a) (3). The statutory authorization is contained in N.C.G.S. 143-318.11(a)(1); (2) To consult with an attorney employed by the City about matters with respect to which the attorney-client privilege between the City and its attorney must be preserved. The statutory authorization is contained in N.C. Gen. Stat. § 143-318.11(a)(3). This motion was seconded by Councilman Bothwell and carried unanimously.

At 6:41 p.m., Councilman Bothwell moved to come out of closed session. This motion was seconded by Councilwoman Mayfield and carried unanimously.

VIII. ADJOURNMENT:

Vice-Mayor Wisler adjourned the meeting at 6:41 p.m.

Magdalen Burleson
CITY CLERK

Esther Manheimer
MAYOR

Friday – January 29, 2016 - 8:45 a.m.
200 College Street - County Administration Bldg

Retreat

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Cecil Bothwell; Councilman Brian D. Haynes; Councilwoman Julie V. Mayfield; Councilman Gordon D. Smith; Councilman W. Keith Young; City Manager Gary W. Jackson; City Attorney Robin T. Currin; and City Clerk Magdalen Burleson

Absent: None

Mayor Manheimer welcomed everyone to the City Council Annual Retreat.

RESOLUTION NO. 16-34 - RESOLUTION AMENDING THE 2016 CITY COUNCIL MEETING SCHEDULE TO CANCEL THE FEBRUARY 9, 2016, CITY COUNCIL FORMAL MEETING

After Mayor Manheimer asked for comments from members of the public and none were received, Councilwoman Mayfield moved for the adoption of Resolution No. 16-34. This motion was seconded by Councilman Young and carried unanimously.

RESOLUTION BOOK NO. 37 - PAGE 383

Mayor Manheimer then convened the retreat and introduced Ms. A. Tyler St. Clair, who would be facilitating the retreat. Ms. St. Clair said the purpose of the retreat is to enable City Council to work together to identify a collective vision for the City, shorter term priorities to achieve the vision, along with roles and operating guidelines that will enhance effectiveness among Council members and staff. She then outlined the goals of the retreat, which are (1) increase the understanding and appreciation of fellow Council members in order to enhance the ability of the Council to provide collective leadership for the City; (2) review a model that can assist the Council in providing effective governance and maximize staff efforts in achieving the Council's policy direction; (3) gain and understanding of each individual Council member's perspectives on important leadership issues, assets, needs, and desired change initiatives for the City; (4) develop a collective vision with desired future states that will provide clear, long term policy direction; (5) identify and agree on shorter term Council priorities that will achieve the vision and its desired future states; (6) clarify roles and develop a set of operating guidelines to maximize the effectiveness of working relationships among Council members and Council/staff members; (7) identify specific actions to communicate the Council's vision and priorities to stakeholders and to solidify accountability through staff work planning efforts; and (8) identify next steps for addressing Council's leadership work to include staff follow-up with a comprehensive strategic plan.

Roles for council members include (1) focus on opportunity to create a united Council; (2) seek a clear vision and aligned priorities; (3) listen/hear others to arrive at consensus; (4) recognize that policy making requires choices; (5) synthesize; bring it together; and 96) use time wisely. Council then performed a brief team building/climate setting.

Council reviewed the Local Elected Leadership model which is a model that can assist them in providing effective governance for the City.

Ms. St. Clair explained the characteristics of an effective vision - 20 years out (vivid, unique, challenging, clarity, focused and shared). She asked Council to think about the City of Asheville in the most visionary, ideal, and strategic state that it could be in 20 years from now, keeping a possibility-oriented perspective. A vision brainstorming session was held to identify/discuss individual perspectives on important leadership issues, assets, needs, and desired change initiatives for the City. After considerable discussion and review, eight strategic

target areas were identified as follows: Energy & the Environment; Housing; Transportation; Fiscal Management; Local Economy; Land Use/Development; Equity & Diversity; and Engagement and Collaboration.

For each strategic target area, Council broke into groups to write a desire future paragraph describing the way Asheville will be in 2036. After Council reviewed all paragraphs, Ms. St. Clair said that she would provide Council with the draft 2036 vision plan for the continued review of Council the following day.

Ms. St. Clair briefly reviewed the day's activities and outlined the agenda for the following day.

At 5:10 p.m., Mayor Manheimer recessed the meeting until tomorrow morning at 8:45 a.m. and announced that City Council will gather for dinner later that evening.

Saturday – January 30, 2016 - 8:45 a.m.
200 College Street - County Administration Bldg

Continuation of Retreat

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Cecil Bothwell; Councilman Brian D. Haynes; Councilwoman Julie V. Mayfield; Councilman Gordon D. Smith; Councilman W. Keith Young; City Manager Gary W. Jackson; City Attorney Robin T. Currin; and City Clerk Magdalen Burleson

Absent: None

Ms. St. Clair reviewed the session that took place yesterday and gave a quick overview of the agenda for today. Council then reviewed the following 2036 draft vision, noting that Vice-Mayor Wisler and Councilwoman Mayfield would make minor tweaks to the vision (gaining consensus of Council), after which it would be placed on the February 23, 2016, agenda for adoption.

> "Asheville is a great place to live because we care about people, we invest in our city, and we celebrate our natural and cultural heritage. We have built a city for everyone. Our urban environment and locally-based economy support workers and businesses, families and tourists, and people of all ages. Cultural diversity and social and economic equity are evident in all that we do. Our neighborhoods are strong, participation in civic life is widespread and collaborative partnerships are the foundation of our success.
>
> We are successful because we have a ...
>
> EQUITY AND DIVERSITY
>
> Asheville is an inclusive and diverse community. We define diversity broadly, including but not limited to all races, ages, sexual orientation, gender identification, socio-economic backgrounds, and cultural beliefs. We believe in creating a fair and balanced society, where everyone can participate and has the opportunity to fulfill their potential and has access to healthy, affordable food. Asheville promotes and supports minority business as a means to strengthening its overall local economy. We use a racial equity lens to review and achieve our city's strategic goals in health, education, housing and economic mobility.

LAND USE AND PLANNING

Asheville promotes community through thoughtful, resident led planning. The city's diverse citizenry is reflected in its land uses and commerce. Asheville's unique character is preserved in its historic structures, and honored in new development. Innovative planning results in pedestrian oriented development for residents of all ages and abilities, harmonized with an integrated transportation system. Thoroughfares are lined with thriving businesses, mixed with residential and office uses. Neighborhoods are socioeconomically diverse with a range of affordable housing choices. Green spaces, parks, greenways, community gardens, and edible landscapes are abundant throughout the city.

ENERGY AND THE ENVIRONMENT

Asheville has earned a reputation as a green leader. The first city in North Carolina to issue green bonds, it has continued to finance infrastructure improvements with innovative green financing tools. Environmentally aware and active Asheville residents swiftly adopted new technology and conservation efforts in response to global climate change. The City is powered by locally generated clean sources of energy and air quality problems have disappeared. Views of surrounding mountains have regained clarity unknown since the late 1800s.

But clean energy is only one facet of this Appalachian gem. Recognized as a Tree City USA for decades, streets, greenways and parks embody an urban forest. Emphasis on local resilience has spurred the use of municipal land for gardening, farming and urban orchards. Known as a food destination city, most restaurants serve locally grown foods.

Thanks to an extremely high-quality water source, nestled amidst towering peaks, Asheville has attracted dozens of clean-energy companies that depend on clean water - from breweries to high tech start-ups to restaurants and food manufacturers. Our modern transportation system has increased options that reduce carbon emissions. Successful waste, recycling and curbside composting programs have greatly reduced the city's landfill needs.

A HOME FOR EVERYONE

Asheville is a city with abundant housing choices for people at all economic levels and stages of life. Chronic homelessness is a thing of the past and rapid rehousing strategies abound thanks to an effective network of service providers. Housing is affordable not only because of reasonable prices but because of low energy and transportation costs. Innovative and historic housing options, from tiny homes and co-housing to apartments and single-family homes, are available throughout Asheville. Asheville's conventional public housing communities have been transformed into a diverse mix of public, affordable, and market rate homes within vibrant neighborhoods.

MOVING PEOPLE

Whether you drive a car, take the bus, ride a bike or walk, getting around Asheville is easy. Public transportation is widespread, frequent, and reliable. Sidewalks, greenways, and bike facilities get us where we want to go safely and keep us active and healthy. It is easy to live in Asheville without a car and still enjoy economic, academic, and social success.

THRIVING LOCAL ECONOMY

Asheville is unique in its locally focused economy. Our local businesses are vibrant. No matter where you are in the city, you see the diversity of customers, employees, and business owners. Our historic buildings are home to funky, eclectic businesses that reflect the character of the city. A creative economy of artists, makers, and innovators is thriving.

We are a city that values its workers, paying living wages and offering benefits that ensure both security and opportunity. Businesses that share those values locate, start, and grow in Asheville. Our economy is diverse, offering a range of career opportunities. Plentiful educational options, workforce development, access to capital, economic incentives, and a culture that values homegrown businesses are what make our economy strong. Our public and private partners have demonstrated unity of purpose. If you do your part, you will find opportunity for success.

FORWARD TOGETHER/WORKING TOGETHER

Asheville prides itself on building and growing partnerships to achieve our vision. If you live, work or play here, you want to be involved and you have a voice. When you join a citizen board or commission, you are supported by training and empowerment. Our regional and state government partners constructively collaborate with us. Diverse interest groups work together to tackle problems and enhance our community. City government is trusted and transparent. We use the latest technologies and methods to communicate, engage and empower community participants. Neighborhood engagement allows residents the opportunity to express thoughts, visions and concrete plans that build a collective and harmonious community. When you live in Asheville, you belong and are valued.

STRONG MANAGEMENT

Asheville has an AAA+ bond rating. We use our debt capacity and revenue wisely in order to maintain and improve the City's infrastructure and invest in our public employees. We strive to control our costs and provide the highest possible level of service. Asheville is an employer of choice, taking great care of our employees through a high performing and supportive environment, competitive salaries and benefits. We have a diverse revenue base that enables us to plan far into the future and to benefit from our growth. Our individual and corporate citizens generously invest in our community through partnerships and public/private projects that enrich the quality of life in the city."

Through consensus, Council then worked to identify three-year priorities to achieve the vision, along with discussing expectations regarding the priorities. The following priorities will be reviewed by City staff and and develop a staff work plan/organizational strategic plan:

Equity and Diversity

- Institute racial equity toolkit per the Governmental Alliance of Race and Equity (GARE)
  - Consider how the Equitable Development Strategy is integrated with this priority
  - Note that implementation following findings will be needed;
- Review the goals and programming in Parks and Recreation and determine the role that it should play in meeting the needs of citizens and racial equity
- Develop/formalize the partnership with the Asheville City Schools Foundation to support middle school and after school programs that close the achievement gap

- In partnership with others, participate in a community dialogue and potential strategies to honor the history and contributions of the African American community in Asheville, beginning with a community-led effort to install a monument for the African American heritage

Land Use and Planning

- Revisit the Food Action Plan and achieve clarify regarding goals and strategies and timetables
- Revise the Comprehensive Plan
- Implement an effective neighborhood planning process that includes making resources and expertise available to neighborhoods so their input into the Comprehensive Planning process is effective
- Develop a plan for the Haywood Street land use and implement as appropriate
- Adopt new levels of review and design guidelines to protect and preserve downtown

Energy & the Environment

- Implement Zero-Waste Asheville, including effective implementation of a pilot program and change management strategies for Pay as You Throw and use of composting programs
- Meet the goals of the Carbon Reduction Plan
- Implement the Clean Energy Framework and support the partnership with Duke Energy & Buncombe County to reduce energy demand through promotion/implementation of new programs as appropriate

A Home for Everyone

- Continue to work with partners to redevelop Lee Walker Heights
- Implement the Comprehensive Housing Affordability Strategy
  - Explore innovative homes, such as tiny homes and container housing
- Analyze city-owned land and establish a strategy for sale or lease for affordable housing
- Complete redevelopment of the former Parks Maintenance property
- Develop a partnership with Buncombe County to achieve greater levels of affordable housing, to include complementary strategies

Moving People

- Continue to implement the Transit Master Plan
  - Analysis of opportunities to expand transit into the County
- Find additional resources for the management of the transit system
- Implement recommendations of the parking studies as appropriate
- Take appropriate steps to implement the Multimodal Transportation Master Plan
- Complete the appropriate phases of River Arts District Transportation Improvement Plan
- Complete to work toward achieving City goals on I-26

Thriving Local Economy

- Develop and implement Buncombe Community Capital loan program, with an emphasis on minority business
- Research and recommend a portfolio of options/toolbox for small local business support
  - Zoning retention
  - Minority business
  - Economic incentives
  - Communication regarding work opportunity tax credit
- Evaluate the success of past tax economic incentives

Working Together

- Identify and implement strategies to get more diversity on city boards and commissions
- Develop a strategy to effectively vet policy initiatives through boards and commissions (i.e., clearinghouse, clarification of roles, orientation, charters, reporting)
- Develop an effective training program for boards and commissions
- Develop an effective working relationship with the N.C. Dept. of Transportation so state transportation investments reflect local values and transportation plans
- Identify and expand opportunities for partnerships with Buncombe County, to include energy, transportation, affordable housing, greenway extension, solid waste, parks and recreation facilities and other amenities
- Support the development and implementation of a more effective Council state legislative agenda

Strong Management

- Identify and evaluate all community agreements including leased properties and develop a system to monitor those agreement
- Examine new revenue streams and make recommendations regarding the viability - Develop a dedicated revenue stream for multimodal infrastructure (i.e., annual municipal vehicle tax)
  - Develop a plan to enhance funding from Tourism Development Authority
  - Leveraging private partnerships
  - Food/Beverage
  - Bond Referendum
- Explore alternatives for post-retirement health insurance benefit for new hires (since 2012)
- Develop a financing program for updating, maintaining and fixing all City-owned property and infrastructure
  - Analysis of deferred maintenance
  - Update infrastructure plans

It was the consensus of Council to move forward with the next steps as outlined by Ms. St. Clair as follows:

1. Ms. St. Clair will send a session report
2. City Manager will distribute the session report
3. Get the 2036 Vision ready to adopt
   a. Council Subcommittee (Vice-Mayor Wisler and Councilwoman Mayfield) will tweak the vision
   b. The Council Subcommittee will forward the tweaked vision to the City Clerk, who will then place the revised vision in Council boxes
   c. Council will review the tweaked vision and send comments to the Council Subcommittee
   d. 2036 Vision will be placed on the February 23, 2016, agenda for adoption
4. Communicate vision
   a. Communication and Public Engagement Division will develop a communication plan
   b. Social media, publications, plan to share at events
5. Staff will take Council's visions and priorities and develop a staff work plan/organizational strategic plan to show:
   a. A work plan for each priority

b. Identification of big pieces that may be very expensive with implications for the budget; consideration of how to integrate them into the march budget worksessions
c. Identification of current work that fits with priorities
d. Action steps with timelines
e. How these can be incorporated into core services

6. Staff will come back to Council for endorsement of the priorities
   a. Bring it back as a package
   b. Schedule discussion of priorities into a March budget worksession

7. Consider a reporting cycle that will keep Council informed

8. Consider revisiting the Vision after every election, with priorities being revisited every year.

Mayor Manheimer adjourned the meeting at 4:00 p.m.

Magdalen Bowleson
City Clerk

Esther E. Manheimer
Mayor

Tuesday – February 23, 2016 - 5:00 p.m.

Regular Meeting

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Cecil Bothwell; Councilman Brian D. Haynes; Councilwoman Julie V. Mayfield; Councilman Gordon D. Smith; Councilman W. Keith Young; City Manager Gary W. Jackson; City Attorney Robin T. Currin; and City Clerk Magdalen Burleson

Absent: None

PLEDGE OF ALLEGIANCE

Mayor Manheimer led City Council in the Pledge of Allegiance.

I. PROCLAMATIONS:

II. CONSENT AGENDA:

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON JANUARY 26, 2016; AND THE CITY COUNCIL RETREAT MINUTES HELD ON JANUARY 29-30, 2016

B. MOTION APPROVING THE BOARD OF ALCOHOLIC BEVERAGE CONTROL'S TRAVEL POLICIES ADOPTED JANUARY 26, 2016

Summary: In order to meet the requirements of Chapter 18B-700, Article 7 (g) (2), the Asheville ABC Board seeks to continue to use the travel policies of its appointing authority, the City of Asheville. Section (g) (2) states, "The local board shall annually provide the appointing authority's written confirmation of such approval ..." The ABC Board approved the current policy on January 26, 2016. This year the ABC Board incorporated all the elements to changes in the City's Travel Policy.

The Asheville ABC Board is requesting formal written confirmation of the approval of the Asheville Board of Alcoholic Control Travel Policy.

C. ORDINANCE NO. 4479 - BUDGET AMENDMENT FROM ASHEVILLE-BUNCOMBE TECHNICAL COMMUNITY COLLEGE IN ORDER TO INSTALL A TRAFFIC SIGNAL AT THE INTERSECTION OF VICTORIA ROAD AND FERNIHURST DRIVE

Summary: The consideration of a budget amendment in the amount of $50,000 to accept funding from Asheville-Buncombe Technical Community College in order to install a traffic signal at the intersection of Victoria Road and Fernihurst Drive.

Asheville-Buncombe Technical Community College's (A-B Tech) recent construction of a 650-space parking garage on Fernihurst Drive and the growth of the college's programs have caused the pedestrian and vehicular traffic at the subject intersection to meet traffic signal warrants. A-B Tech has requested the City to partner with them to install a traffic signal and they have agreed to provide most of the necessary funding. The Traffic Engineering Division will furnish a traffic signal controller and cabinet out of its inventory (valued at $15,000). In addition, the Traffic Engineering Division will purchase the remaining equipment and will prepare and manage the contract for the installation of the traffic signal including the appropriate inspections.

Pros:

- Provides a needed traffic signal at a busy intersection on a city-maintained street.

- Provides ADA accessible pedestrian features at an intersection heavily used by pedestrians.
- Encourages pedestrians to use an accessible and protected crossing.
- Funding provided by A-B Tech ($50,000).
- Good partnership opportunity between the City and A-B Tech.

Cons:

- City is providing the signal controller and cabinet (valued at $15,000).
- City is preparing and managing the contract including inspections.
- City is responsible for future maintenance cost.

The total estimated cost of the project is $65,000. A-B Tech will provide $50,000 for the project and the City will provide the signal controller and cabinet (valued at $15,000) out of its inventory. Future ongoing maintenance costs will be absorbed by the Transportation Department's (Traffic Engineering Division) operating budget.

Staff recommends that City Council approve a budget amendment in the amount of $50,000 to accept and expend funds provided by A-B Tech to install a traffic signal at the intersection of Victoria Road and Fernihurst Drive.

ORDINANCE BOOK NO. 30 - PAGE 227

D. RESOLUTION NO. 16-35 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT WITH COOPER CONSTRUCTION COMPANY INC. FOR THE ANGLE STREET BRICK SIDEWALK REHABILITATION PROJECT

Summary: The consideration of a resolution authorizing the City Manager to execute a contract in the amount of $161,999 plus a contingency of 20% ($32,400) with Cooper Construction Company, Inc. for the project known as Angle Street Brick Sidewalk Rehabilitation, City of Asheville Project #TR-15-16-010.

This contract is for the rehabilitation of brick sidewalks along Angle Street in Biltmore Village. Currently, the sidewalks have numerous trip hazards that have resulted in several falls by pedestrians. The trip hazards have been caused by a combination of tree roots pushing sections of the sidewalks out of alignment and a lack of lateral support for the sidewalks. This contract will address both issues. The project was advertised on December 15, 2015, and bids were opened on January 14, 2016, with the following results:

Cooper Construction Company, Inc., Flat Rock, NC	$161,999
Graham County Land Company, LLC, Robbinsville, NC	$227,020
Patton Construction Group, Inc., Arden, NC	$242,200

The project has been coordinated with AB Tech and Asheville High School to minimize the impact it will have on access to the campus during the school year. Staff has also coordinated with Public Works on a related street project to ensure that the overlay of this road will occur upon completion of the water line installation. The coordination of these activities will help to reduce the impact and inconvenience to local residents and other users of this road.

Pros:

- Will correct a number of sidewalk trip hazards on Angle Street.
- Will address ADA issues such as lack of or improper ADA ramps.

Cons:

- Project management and contract administration will consume staff time.

- Will not address all of Biltmore Village.

The Public Works Department has set aside $250,000 for the proposed Angle Street Brick Sidewalk Rehabilitation project as part of the $2.0 million FY 2016 Streets and Sidewalk Program CIP allocation.

City staff recommends City Council adopt the attached resolution awarding the contract to Cooper Construction, Inc. and authorizing the City Manager to execute a contract in the amount of $161,999 plus a contingency of 20% ($32,400) with Cooper Construction Company, Inc. for the project known as Angle Street Brick Sidewalk Rehabilitation, City of Asheville Project # TR-15-16-010.

RESOLUTION BOOK NO. 37 - PAGE 384

E. MOTION SETTING A PUBLIC HEARING ON MARCH 8, 2016, TO CONSIDER RENAMING TWO DISCONNECTED PORTIONS OF MERRITT STREET TO "BIRD DOG WAY" FOR THE SOUTH SECTION AND "MERRITT PARK LANE" FOR THE NORTH SECTION

Summary: The consideration of a motion setting a public hearing for March 8, 2016, to consider renaming two disconnected portions of Merritt Street to "Bird Dog Way" for the south section and "Merritt Park Lane" for the north section.

The duplication of street names has the potential for misdirection or miscommunication, which can hinder the response of emergency services. The attached map shows two street segments with the exact same duplicated name. Property owners along the south section of Merritt Street brought this to staff's attention when they petitioned the City of Asheville to rename their portion to "Bird Dog Way." Both the north and south street segments are currently City maintained streets. The street segments no longer connect. No useable street surface is located between these street segments. Staff learned of another street named Merritt located outside the City limits in the nearby 28806 zip code. Therefore staff recommends the north section be renamed "Merritt Park Lane." Only one house address would be affected by this renaming. The owner / occupants of that home are the persons petitioning for the re-naming.

The Public Safety Committee reviewed a request to eliminate the duplicate street name on January 25, 2016, and they recommended it be forwarded to the full Council for approval.

Pro:

- Potential emergency response will be enhanced with specific unique street names.

Con:

- Cost of labor of replacing two street name signs.

The cost to re-install new street name sign blades to the existing poles are about $100 each and is included in the current operating budget for the Transportation Department.

City staff recommends City Council set a public hearing for March 8, 2016, to consider renaming two disconnected portions of Merritt Street to "Bird Dog Way" for the south section and "Merritt Park Lane" for the north section.

F. ORDINANCE NO. 4480 - ORDINANCE AMENDING THE FISCAL YEAR 2015-16 FEES & CHARGES MANUAL

PROPOSAL TO CONDUCT A 90-DAY TEST OF SINGLE-SPACE ELECTRONIC METERS FOR ON-STREET METERED PARKING

Summary: The consideration of a proposal for the Parking Services Division to conduct a 90-day test of single-space electronic (smart) meters for on-street metered parking and, in furtherance thereof, an amendment to the Fiscal Year 2015-16 Fees and Charges Manual to remove the convenience fee for credit/debit cards usage at on-street parking meters.

90-Day Test of Single-Space (Smart) Meters for On-Street Metered Parking.

Currently, parking meters are only located in the downtown central business district as determined by City Council (Asheville Code Section # 19-162 Meter Zones) and there are 765 metered on-street parking spaces in this area. The existing parking meters only accept coins and most of them have been in place for several years. The City also uses "Passport Parking" (a pay-by-phone system), which enables customers to use a debit or credit card.

Due to ever increasing and ongoing maintenance issues, staff is planning to begin replacing the parking meters in Fiscal Year 2016-17. Originally, we hoped to be able to find new parking meters that only accepted coins but our research is verifying that the equipment is becoming obsolete and we are concerned that in a very few years, it might not be available any longer. So, we are now considering single-space smart meters.

In order to help with our decision process, we will be conducting a 90-day test period at 35 parking spaces in the Grove Arcade area beginning in March 2016 using IPS M5 parking meters. These parking meters will accept coins, debit cards, credit cards, and Passport Parking. In addition, they are capable of variable pricing which is one of the strategies that will be researched in the Comprehensive Parking Study (RFP was released during January 2016). The parking meters use a comprehensive web-based management system (changes are accomplished via computer input) compared to the existing parking meters that require a person to physically go to each meter in order to make various changes.

Overview of Fees and Charges Manual Convenience Fee

The City Council began to assess a $0.25 convenience fee for credit/debit card usage at on-street parking meters on August 14, 2012 (Ordinance # 4105). At the time this action was originally taken, Passport Parking was going to be tested, so this ordinance was enacted specifically for that system. However, once the City begins to test the electronic (smart) meters, this convenience fee would also apply to the use of credit/debit cards at electronic on-street parking meters.

In 2013, Visa and MasterCard changed their practices regarding the assessment of convenience fees for users of Visa and MasterCard credit and charge cards. While these companies allow the City to charge these users a convenience fee, they require the City to comply with certain requirements prior to doing so, including notice, disclosure, and rate requirements.

City staff has been working with the applicable parties to meet Visa and MasterCard's requirements. In the meantime, in order to allow Parking Services to proceed with the test of electronic meters, and to uniformly and consistently charge all users of these electronic meters, staff recommends that we stop charging the convenience fee for all users of on-street parking meters. The City will absorb any convenience fees into operating expenses along with the credit card fees.

This item was reviewed by the Finance Committee on January 26, 2016. The Finance Committee endorsed the recommended action and directed that it move forward to City Council for their review and action. Additionally, the Transportation Department Director, with concurrence

from the Chief Financial Officer, suggested that the City make the convenience fee optional, to make it easier for the City to reinstate the fee in the future if the City chooses.

The Legal Department reviewed the proposal from Finance Committee and recommended that we not make any fees in the Fees and Charges Manual optional; so that users are clearly informed of any fees. Therefore, staff recommends that we stop charging the convenience fee for on-street parking meters, by removing the fee from the Fiscal Year 2015-16 Fees and Charges Manual, and absorb the cost into operating expenses along with the credit card fees.

Pros:

- Enables customers to directly use credit or debit cards at meters, in addition to cash and Passport Parking.
- Enhances the Passport Parking option by "pushing" the data to the actual smart meter.
- All users of on-street parking meters are charged equally, regardless of the method of payment.

Cons:

- City absorbs convenience fees in operating budget (13% +/- of revenue generated by Passport Parking).
- City already absorbs credit card fees in operating budget (16% +/- of revenue generated by Passport Parking).

The total anticipated cost of the 90-day test is about $800 and is currently budgeted in the Fiscal Year 2015-16 Parking Enterprise Fund Operating Budget. In addition, the total anticipated annual cost of the convenience fees is about $21,000 which equates to 13% +/- of the revenue generated by Passport Parking. This cost is currently budgeted in the Fiscal Year 2015-16 Parking Enterprise Fund Operating Budget.

Staff recommends that City Council approve a proposal for the Parking Services Division to conduct a 90-day test of single-space electronic (smart) meters for on-street metered parking and an amendment to the Fiscal Year 2015-16 Fees and Charges Manual to remove the convenience fee for credit/debit cards usage at on-street parking meters.

ORDINANCE BOOK NO. 30 - PAGE 229

G. RESOLUTION NO. 16-36 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A LICENSE AGREEMENT WITH VERIZON D/B/A BELL ATLANTIC MOBILE TO INSTALL ANTENNAS, CONDUIT, CABLING AND RELATED EQUIPMENT AT THE US CELLULAR CENTER

Summary: The consideration of a resolution authorizing the City Manager to execute a License Agreement with Bell Atlantic Mobile of Asheville, Inc. d/b/a/ Verizon Wireless for floor and cabling space within the building and antenna space on the roof on city-owned property at 87 Haywood Street, known as the U.S. Cellular Center.

The City of Asheville owns property at 87 Haywood Street, Asheville, NC, PIN #9649-31-3304-00000, known as the U.S. Cellular Center. Recently, Bell Atlantic Mobile of Asheville, Inc. d/b/a/ Verizon Wireless approached the City with a request to install cellular communication infrastructure within the building in order to better serve their customers. This infrastructure includes in-building equipment that will serve as boosters to cellular signal, and a roof antenna to support transmission of the signal. Verizon also wishes to secure an equipment room on the exhibition level of the US Cellular Center, within an existing storage room.

In consideration for this license, the City will receive a rental payment of $9,600 per year, for a total term of ten (10) years. The rental rate will increase by 3% each year beginning in year three. Verizon will install a separate sub-meter for power and pay all associated fees for power

and installation. All exposed cabling and conduit to be covered or painted to the same color as the existing ceiling to blend in. There will be no signage using the name or logo associated with 'Verizon Wireless' within, or on the facility, inclusive of the door accessing Verizon's equipment room located on the Exhibition Level Additionally, Verizon Wireless has agreed to install fiber optic lines throughout the building for the City's use, which upon installation will become the property of the City.

Staff, including U.S. Cellular Center management, information services and real estate management have reviewed this request and see no conflict with the ongoing operations of the U.S. Cellular Center. Real estate staff consulted with other municipal real estate departments in the City of Charlotte and City of Greensboro and confirmed that the pricing structure is considered fair market value for this type of installation. The installation of fiber optic cabling will serve the US Cellular Center by allowing future opportunity for wireless internet services as well as opportunity for installation of another in-building system with another wireless service provider. In order to ensure compliance with the US Cellular Center Naming Rights Agreement, staff contacted and they have no objection.

The Notice of Intent to enter into a License Agreement with USCOC was published on January 8, 2016, in the Asheville Citizen-Times. Over thirty days have passed since the publication and authorization to execute the License Agreement is being requested.

Pros:

- Additional Revenue to the US Cellular center
- Verizon to install fiber optic cabling for the City's use at no cost to the City, which will become property of the City
- Patrons of the US Cellular Center will see enhanced cellular signal for specific phone plans

Cons:

- None

In consideration for this license, the City will receive a rental payment of $9,600 per year, and proceeds will benefit the US Cellular Center Enterprise fund.

City staff recommends City Council adopt a resolution authorizing the City Manager to execute a License Agreement with Bell Atlantic Mobile of Asheville, Inc. d/b/a/ Verizon Wireless for floor and cabling space within the building and antenna space on the roof on city-owned property at 87 Haywood Street, PIN #9649-31-3304-00000, known as the U.S. Cellular Center.

RESOLUTION BOOK NO. 37 - PAGE 385

H. RESOLUTION NO. 16-37 - RESOLUTION AUTHORIZING THE MAYOR TO ENTER INTO A JOINT JURISDICTIONAL AGREEMENT WITH THE BOARD OF TRUSTEES OF ASHEVILLE-BUNCOMBE TECHNICAL COMMUNITY COLLEGE AND BUNCOMBE COUNTY TO EXPAND THE AB-TECH POLICE DEPARTMENT'S JURISDICTION

Summary: The consideration of a resolution authorizing the Mayor to enter into an agreement with the Board of Trustees of Asheville Buncombe Technical Community College ("A-B Tech") and Buncombe County to allow A-B Tech's Police Department to perform law enforcement activities and have the powers of arrest on real property leased by A-B Tech from the County in the vicinity of Victoria Road.

A-B Tech is expanding its campus onto property leased from the County at 93 Victoria Road (Pin# 9648-33-7732), and has requested the City and County enter into an agreement granting its police force authority to perform law enforcement activities and arrests on that specific

property as well other contiguous property owned by the County and leased by A-B Tech. Pursuant to N.C. Gen. Stat. § 115-21.1(b) the board of trustees of any community college that establishes a campus law enforcement agency may enter into joint agreements with the governing board of any municipality to extend the law enforcement authority of campus police officers into the municipality's jurisdiction.

The Asheville Police Department will continue to support the A-B Tech Police Department by providing additional public safety response to crimes in progress and technical law enforcement services such as investigative support or forensic processing per the terms of an existing mutual aid agreement.

Pros:

- Provides the A-B Tech Police Department with consistent jurisdiction to perform law enforcement activities and employ the power of arrest on property controlled by A-B Tech.
- Minimizes the need for response from the Asheville Police Department.

Cons:

- None noted.

There is no known fiscal impact associated with this amendment.

Staff recommends approval of a resolution authorizing the Mayor to enter into an agreement with the Board of Trustees of A-B Tech and Buncombe County to allow A-B Tech's Police Department to perform law enforcement activities and have the powers of arrest on real property leased by A-B Tech from the County in the vicinity of Victoria Road.

RESOLUTION BOOK NO. 37 - PAGE 386

I. RESOLUTION NO. 16-38 - RESOLUTION AUTHORIZING THE CITY MANAGER TO RECEIVE FUNDS FROM THE ASHEVILLE PARKS AND GREENWAYS FOUNDATION AND FRIENDS OF CONNECT BUNCOMBE TO CONDUCT A GREENWAY FEASIBILITY STUDY IN EAST ASHEVILLE

ORDINANCE NO. 4481 - BUDGET AMENDMENT TO APPROPRIATE DONATIONS TO FUND GREENWAY FEASIBILITY STUDY

Summary: The consideration of (1) a resolution authorizing the City Manager to receive funds from the Asheville Parks and Greenways Foundation and Friends of Connect Buncombe to conduct a greenway feasibility study in East Asheville; and (2) the associated budget amendment in the amount of $37,000 to appropriate the donations to fund the study.

The Asheville Parks and Greenway Foundation and the Friends of Connect Buncombe have raised monies from various fundraising projects to fund a feasibility study for the first segment of the Swannanoa River Greenway Corridor. The Swannanoa River Greenway Corridor – Phase One will be a multi-use trail suitable for bike and pedestrian use. The study area will begin at the intersection of the South Tunnel Rd. and Swannanoa River Rd. It will terminate at the City-owned Nature Center and Recreation Park. This segment of greenway will also have connections to the River Bend Shopping Center and Highlands Brewing Co. The chosen consultant will work with an intra-departmental team within the City. This team will provide assistance via surveying and other in-house technical issues.

Once finished, this feasibility study will poise this project for engineering and final design work.

Pros:

- This project will be 100% funded by donations from private entities.
- This will be the first greenway study on the east side of town.

Con:

- Staff support will be needed to conduct this study

No monetary requirements needed from the City.

City staff recommends City Council approve a resolution authorizing the City Manager to accept donations to conduct this greenway feasibility study, and a budget amendment in the $37,000 to appropriate the donations to fund the study.

Ms. Linda Giltz, representing Friends of Connect Buncombe, presented Mayor Manheimer with a check in the amount of $15,000. On behalf of City Council, Mayor Manheimer thanked the Friends of Connect Buncombe and the Asheville Parks and Greenways Foundation for their donations.

RESOLUTION BOOK NO. 37 - PAGE 387
ORDINANCE BOOK NO. 30 - PAGE 231

J. RESOLUTION NO. 16-39 - RESOLUTION AUTHORIZING THE APPROVAL OF HOUSING TRUST FUND LOANS TO BEAUCATCHER PROPERTIES, LLC; BIOTAT, LLC; GROCE UNITED METHODIST CHURCH; HEARTHSTONE, LLC; AND LEAH AND JAMES KIM

Summary: The consideration of a resolution authorizing the approval of Housing Trust Fund loans to Beaucatcher Properties, LLC ($390,000), Biotat, LLC ($520,000), Groce United Methodist Church ($30,000), Hearthstone, LLC ($128,000), and Leah and James Kim ($150,000).

Staff received six (6) Housing Trust Fund (HTF) applications for a total of $1,330,000 requested funds. These applications were presented to the Housing and Community Development Committee (HCD) on January 19, 2016 and each was evaluated on its own merit. The HCD Committee allocated $1,218,000 to the applicants.

The following applications have been recommended by the HCD for approval:

1) *Virginia Avenue*: Beaucatcher Properties LLC for the construction of a 6-unit affordable rental development in West Asheville, $90,000.

2) *Simpson Street*: Beaucatcher Properties LLC for the construction of a 60-unit 100% affordable rental development in south-east Asheville, $300,000.

3) *Smith Mill Place*: Biotat, LLC for the construction of a 72-unit rental development including 36 affordable units in West Asheville, $520,000.

4) *Epworth Building*: Groce United Methodist Church for the construction of a 2 affordable rental units housing homeless with children in East Asheville, $30,000.

5) *Commonwealth Court*: Hearthstone, LLC for the construction of 16 affordable rental units in South Asheville, $128,000.

6) *25 White Pine:* Leah and James Kim (Sole Proprietors) for the construction of 15 affordable units for veterans, $150,000.

Beaucatcher Properties, LLC ($390,000)

Virginia Avenue ($90,000) - Beaucatcher Commons, LLC, has proposed a 6-unit infill development project including 3 lots on 0.5 total acres with a 3-BR single-family home and one garage apartment on each lot (the garages are also for rent, but are in addition to the unit rentals and are open to tenants outside the affordable housing market). The single-family homes will house those earning 80% AMI or less will have a 30 year affordability period and the garage apartments will house those earning 60% AMI or less (including vouchers – 50% AMI) with a 20 year affordability period. The project site is in West Asheville located 1 mile south of Haywood Road, .75 miles to a transit stop (.5 as the crow flies), and 3 miles to downtown. The site has sewer and water already on site and no zoning changes or conditional use permits are required. The project will have energy efficiency features such as air conditioner, heat pump, attic insulation, windows, low-flow toilets and shower heads. No units will be fully ADA accessible.

The application request results in the following terms, conditions, estimated development costs and subsidy allocation:

Proposed Loan Terms and Conditions							
	60% AMI Units	80% AMI Units	Loan Amount	Subsidy Per Unit	Interest Rate	Term (Years)	Type
Single Family Homes		3	$45,000	$15,000	4.50%	30	Fully Amortizing
Garage Apartments	3		$45,000	$15,000	2%	20	Interest Only (Special Terms)
Total	6		$90,000				

Proposed Total Development Costs and Subsidy Allocations						
Total Loan Amount	Total Development Cost	Loan % of Total Development Cost	Total cost per unit	Est. Cost Per Square Foot	Additional Subsidy Request	Total Subsidy Per Unit
$90,000	$673,000	13%	$112,167	$97	None	$15,000

Buncombe County has committed $28,000 to the project and developer has committed $40,000 in land equity, but no other financing commitments have been made. Conventional financing is expected in March 2016 and construction is anticipated to start in June 2016. The site is under contract and is scheduled to close in March 2016. As proposed, there is sufficient cash flow to cover the proposed debts and may even be in access. Developer has successfully completed projects with this model in the past and is ready to start when financing is secured.

Pros:

- Meets strategic goals by providing 50% 1-BR units @ 60% AMI
- Has $28,000 financial commitment from Buncombe County
- 30 Year and 20 Year affordability periods – single-family and ADU respectively
- Offers homelessness transition from vouchers through Homeward Bound (50% AMI)
- Developer has history of successful projects of this kind

Cons:

- No conventional financing commitment has been received –$485,000 proposed

- Location better suited for automobile owning tenants
- Project has a high debt-coverage ratio (1.41), which suggests full subsidy may not be necessary for project viability

Simpson Street ($300,000) - Beaucatcher Commons, LLC, has also proposed a 60-unit rental development project with 60 1-BR units and all rents below 60% AMI and/or voucher accepted (50% AMI). The project is in its early planning stages and only concept plans and elevations are prepared at this time, but the project is designed to be modular construction with parking provided under the buildings; it will contain energy efficiency features, 5% of the units will be fully ADA accessible, and have a 20 year affordability period. The project does require a 100% bonus density increase and conditional use permit, which requires City Council approval. The applicant is also applying for a Land Use Incentive Grant with an estimated seven (7) year benefit. The developer does have successful experience with Housing Trust Fund loans, but not at this scale of development (60 units).

The proposed project is on a 1.43 acre site located just off of Tunnel Road and Swannanoa River Road behind Target. It is zoned River District and is in a primarily industrial area. Residential is permitted, but Planning and Zoning approvals have not been obtained. It is 3 miles from downtown, and is within 1/4 mile of jobs and services, as the crow flies, but walking and driving distance to transit and services is 0.9 miles. Developer has committed to improving the transit gaps for these residents by supporting walkway development along utility easement, providing shuttle transportation to existing transit stop, and/or advocate for bus stop along Swannanoa River Road.

The application request results in the following terms, conditions, estimated development costs and subsidy allocation:

Proposed Loan Terms and Conditions					
60% AMI Units	**Loan Amount**	**Subsidy Per Unit**	**Interest Rate**	**Term (Years)**	**Type**
60	$300,000	$5,000	2%	20	Interest Only (Special Terms)

Proposed Total Development Costs and Subsidy Allocations							
Total Loan Amount	**Total Development Cost**	**Loan % of Total Development Cost**	**Total cost per unit**	**Est. Cost Per Square Foot**	**Additional Subsidy Request***	**Total Subsidy**	**Total Est. Subsidy Per Unit**
$300,000	$3,628,600	8%	$60,476	$70	$275,300	$575,300	$9,588
** Land Use Incentive Grant – estimated 10 year benefit*							

Cost estimates are still early and could change once plans are drawn. No additional financing commitments have been made on the project and the conventional loan commitment is expected in November 2016 with construction scheduled to start in December 2016. The site is under contract and expected to close in September 2016. If the Land Use Incentive Grant is approved, then the pro forma will show a high cash flow and the full subsidy may not be required. Developer is seeking a site specific market study at this time, but is currently referring to the Bowen Report.

Pros:

- 60 1-BR units serving 60% AMI or less including 50% AMI voucher accepted
- Low subsidy per unit, $5,000
- 20 Year affordability period
- Offers homelessness transition through vouchers through Homeward Bound

Cons:

- Project is in its early stages and cost estimates could change
- Needs conditional zoning and bonus density increase
- No additional financial commitments to date
- If LUIG is approved, full subsidy amount may not be required
- Distance to transit may impact LUIG application and create auto dependency
- Site specific market study has been provided
- Developer does not have experience at this level of service (60 units)

Biotat, LLC – Smith Mill Place ($520,000) - Biotat, LLC, has proposed a 72-unit development project with 36 affordable units for households earning 60% AMI or less using 100% vouchers (50% AMI). Units are both 1 and 3 bedrooms (18 of each) and the site is owned by the developer (3.71-acres). The developer recently returned $200,000 of Housing Trust Fund funds awarded for this site as a hard-to-house project, but revised the plan with this proposal. The developer requests an amount that exceeds the HTF policy, but the developer has submitted a waiver to increase the allowable amount to $520,000 from a policy maximum of $200,000 based on a $14,444 subsidy per unit. The waiver also requested a graduated interest rate of 2%, which is detailed below. The developer guarantees a twenty (20) year affordability period with the possibly of making them permanently affordable and hopes to offer additional units at the affordable rate. Plans for this project have been submitted and CZ has been approved; no further zoning changes, conditional uses, or bonus densities are required. Developer will apply for a Land Use Incentive Grant, which anticipates a 10 year tax rebate. The developer has extensive experience in smaller projects and has partnered with large scale partners to complete this project.

The proposed projected is located in West Asheville just off of New Leicester Highway, near the intersection of Patton Avenue and is within 1/4 mile of jobs, services, and transit, and is 3.5 miles to downtown. The project will seek Energy Star Certification and includes twelve (12) fully ADA accessible units– 4 in each building. No site specific market study has been provided, but developer guarantees rents at 60% AMI or less if voucher holders are unattainable.

The application request results in the following terms, conditions, estimated development costs and subsidy allocation:

Proposed Loan Terms and Conditions					
60% AMI Units	**Loan Amount**	**Subsidy Per Unit**	**Interest Rate**	**Term (Years)**	**Type**
36	$520,000	$14,444	2% graduated*	20	Graduated Interest Only (Special Terms)
** Year 1-5 @ .05%, year 6-10 @ 1%, year 11-15 @ 1.5%, year 16-20 @ 2%. This is an average yearly rate of 1.14%. This proposal allows cash to remain in the project to perform for investors and perform for the Housing Trust Fund.*					

Proposed Total Development Costs and Subsidy Allocations								
Total Loan Amount	**Total Development Cost**	**Loan % of Total Development Cost**	**Total cost per unit**	**Est. Cost Per Square Foot**	**Additional Subsidy Request***	**Total Subsidy**	**Total Est. Subsidy Per Affordable Unit**	**Total Est. Subsidy Per Unit**
$520,000	$6,504,551	8%	$90,341	$97	$298,370	$818,370	$22,733	$11,366
** Land Use Incentive Grant – 10 year estimated benefit*								

The project meets many of the City's strategic goals by providing 36 affordable units (18 1-BR) in a location close to transit and amenities. The units will support 60% AMI or less and can house veterans and homeless (50% AMI). The project plans are approved and partners are in place. No additional financing commitments have been made on the project, but the conventional loan commitment is expected in March 2016 and construction is scheduled to start in May 2016. Developer is ready to begin construction as soon as financial commitments are made. The developer has also orchestrated a strong team to complete this project and although a site specific market study was not provided, the number of affordable units (36) is needed. Pro forma shows enough cash to satisfy the proposed performing debt.

Pros:

- Developer commits 36 affordable units (60% AMI) and is 100% voucher accepted (50% AMI)
- Includes eighteen (18) 1-BR units
- Development site within ¼ mile of jobs, services, groceries, and transit
- 20 Year affordability commitment with goal of permanent affordability
- Plans are approved, cost estimates are final, and project is shovel ready
- Energy efficiency with Energy Star and System Vision certification

Cons:

- $520,000 request exceeds the amount permitted by the HTF policy
- 2% graduated interest only request; 1.14% actual interest over the life of the loan
- No other financing commitments have been made
- No market study demonstrating 36 units can be 100% voucher supported

Groce United Methodist Church – Epworth Building ($30,000) - Groce United Methodist Church has proposed the renovation of their education building to create two (2) 2-bedroom apartments and house homeless with children; both units will house voucher holders (50% AMI or less) and will have a 20 year affordability period. The project will be in partnership with Homeward Bound who will be responsible for identifying the families and doing case management, while Groce United Methodist will be responsible for developing and managing the units. The units will be on the same site as the church and will be maintained by the Board of Trustees, who do have experience managing a $1 million renovation and who consists of diverse professional backgrounds including home contracting and engineering. Project plans are ready for rehab and all that is needed are building permits and final commitments from a conventional lender.

The proposed projected is located on Tunnel Road in Beverly Hills just west of the VA Hospital. The site is within 1/4 mile of jobs, services, and transit, and is 4 miles to downtown. The project will not meet any energy efficiency standards, but both units will be fully ADA accessible.

The application request results in the following terms, conditions, estimated development costs and subsidy allocation:

Proposed Loan Terms and Conditions					
60% AMI Units	Loan Amount	Subsidy Per Unit	Interest Rate	Term (Years)	Type
2	$30,000	$15,000	0%	20	Fully Amortizing (Special Terms)

Proposed Total Development Costs and Subsidy Allocations							
Total Loan Amount	Total Development Cost	Loan % of Total Development	Total cost per unit	Est. Cost Per Square Foot	Additional Subsidy Request	Total Subsidy	Total Est. Subsidy

		Cost					Per Unit
$30,000	$117,432	26%	$58,716	$101	None	$30,000	$15,000

No additional financing commitments have been made on the project, but a conventional loan is sought and a commitment is expected in April 2016. Developer also has relationship with bank and plans on using equity to finance the rehab. Construction is anticipated to start April 29, 2016. Project plans have been submitted for the rehabilitation and are building permit ready. Parcel is zoned residential (RM-6).

Pros:

- Offers housing for homeless families with children at 50% AMI or less (niche market)
- Development site within ¼ mile of transit and ½ mile to jobs, services, and groceries
- Architectural/construction plans are building permit ready
- Refinance of property will provide conventional loan

Con:

- Conventional loan has not been committed

Hearthstone, LLC - Commonwealth Court ($128,000) - Hearthstone Innovative Homes, LLC, owned by Joseph Kimmel and Bob Scheiderich with the primary partner being Eblen Charities, are proposing a 16-unit rental development on a .72 acres site for households earning 60% AMI or less. All units are two-bedroom apartments. The site is owned by the developer and does have P&Z zoning approvals for 8 units, but is requesting a 100% bonus density increase, which is required to go through P&Z, TRC and City Council for approvals. The Land Use Incentive Grant is an option for this project, but has not been committed by the developer. The project development team is still being structured but is backed by strong financial assets. Project has draft plans and cost estimates, but they could change as project progresses. The developer does have experience with both minor and major subdivisions, but not with local subsidies.

The proposed projected is located in South Asheville, just off of Sweeten Creek Road, south of the Sweeten Creek Road and Interstate-40 Junction. The site is within 1/4 mile of jobs, services, and transit, and is 4.3 miles to downtown. The project will have energy efficiency components and one of the proposed units will be fully ADA accessible – per building code requirements.

The application request results in the following terms, conditions, estimated development costs and subsidy allocation:

Proposed Loan Terms and Conditions					
60% AMI Units	Loan Amount	Subsidy Per Unit	Interest Rate	Term (Years)	Type
16	$128,000	$8,000	2%	15	Interest Only (Special Terms)

Proposed Total Development Costs and Subsidy Allocations							
Total Loan Amount	Total Development Cost	Loan % of Total Development Cost	Total cost per unit	Est. Cost Per Square Foot	Additional Subsidy Request*	Total Subsidy	Total Est. Subsidy Per Unit
$128,000	$1,410,347	9%	$88,147	$153	None	$128,000	$8,000

Applicant may apply for a Land Use Incentive Grant, but has not committed

The land is the only equity in the project. No additional financing commitments have been made on the project and the conventional loan commitment is expected in April 2016. Construction is anticipated to start in April 2016, as well. The project shows sufficient cash flow to perform on the debts.

Pros:

- Infill development close to transit and amenities
- Provides 16 2-BR units for 60% AMI or less
- The developer has local experience and strong financial backing
- Project is anticipated to start in April 2016

Cons:

- Land is the only equity in the project and no other financial commitments received
- Density Bonus requires City Council approval
- High cost per square foot ($153)
- Developer is new to local subsidy and affordable housing

Leah and James Kim – 25 White Pine ($150,000) - Leah and James Kim, sole proprietors, own the site at 25 White Pine Drive, where they currently house veterans in 11 units. The proposed project will add an additional fifteen (15) 1-BR units to the site and will accept all tenants through the VASH program (50% AMI). The project will have a 15 year affordability period, with the possibility of making it permanent. Project is in the early planning stages and does require a zoning change and conditional use permit. The project also requires city improvements including increased street width, curb and gutter, fire hydrants, sewer and water extensions, and sidewalks. The full extent of these improvements is still being discussed and will likely be determined in the conditional use permit process.

The site is 1.48 acres and is within walking distance (1/4 miles) to transit stops, jobs, grocery, and other amenities. It is within 2.3 miles of downtown and is located just off of Tunnel Road next to the Asheville Mall. The proposed project will be Energy Star Certified. One of units will have full ADA accessibility with one additional unit being equipped to have partial accessibility.

The application request results in the following terms, conditions, estimated development costs and subsidy allocation:

Proposed Loan Terms and Conditions					
60% AMI Units	**Loan Amount**	**Subsidy Per Unit**	**Interest Rate**	**Term (Years)**	**Type**
15	$150,000	$10,000	0%	15	Amortizing (Special Terms)

Proposed Total Development Costs and Subsidy Allocations							
Total Loan Amount	**Total Development Cost**	**Loan % of Total Development Cost**	**Total cost per unit**	**Est. Cost Per Square Foot**	**Additional Subsidy Request***	**Total Subsidy**	**Total Est. Subsidy Per Unit**
$150,000	$1,107,800	14%	$73,853	$153	$38,460	$188,460	$12,564
* *Land Use Incentive Grant – 12 year estimated benefit*							

No additional financing commitments have been made, but the conventional loan commitment is expected in the fall 2016 with construction scheduled to start in the winter of 2016. The subsidy is needed for the project, but land is the only equity in the project.

This project has also been analyzed in two ways: as a standalone project (15 new units) and in combination of the existing 11 units on site (26 units). The standalone project does show a marginal cash flow for the first four years, but in combination, the project shows significant cash flow that can cover any deficits in the stand-alone performance. Staff feels the developer has sufficient cash coverage in the existing 11 units that can cover any shortfalls in the development of an additional 15 units.

Pros:

- Project has 15 units that are 100% VASH voucher housing veterans (50% AMI)
- Project is 100% 1-BR units
- Subsidy/unit request, $10,000
- Development site within ¼ mile of jobs, services, groceries, and transit
- Energy efficiency with Energy Star 2.0 certification

Cons:

- Project is in preliminary stages and final cost estimates can change
- No other financing commitments have been received
- City requirements for streetscape improvements are not yet known
- Cash flow is low, but may be backed by income on existing 11 units
- Can project sustain 100% VASH vouchers?
- High cost per square foot ($153)

The Housing Trust Fund's projected balance for June 30, 2016 is $1,074,795. This amount is contingent upon the receipt of all scheduled loan repayments and the sale of two pieces of property the City currently owns: the Villas property and Sky Loft condominium. These two properties have a combined conservative estimated resale value of $285,520. If neither sale is executed, then the fund will have an estimated $780,000 cash balance on June 30, 2016. Based on the development schedules of the proposed projects, staff anticipates adequate cash flow in the Housing Trust Fund to cover all draw requests in FY-2015-16. If the HTF is allocated a similar amount in FY 2016-17 as in previous years, then no budget transfer for FY 16-17 would be anticipated either. In the unlikely event the Housing Trust Fund does not receive funding for FY-16-17 comparable to previous years, then the City can access the $500,000 of FY15-16 unused Capital Improvement Program (CIP) funds to cover any shortfalls.

The Housing and Community Development Committee recommends City Council approve a resolution approving the following loans subject to the developers meeting all program requirements for loan closing:

1. $90,000 to Beaucatcher Properties, LLC for the development of six (6) rental units on Virginia Avenue: three (3) 3-BR single family homes (80% AMI) and three (3) 1-BR garage apartments (60% AMI including vouchers 50% AMI) on three (3) lots. No additional conditions required. Loans are to be made immediately available for disbursement following loan closing.

    a. $45,000 to be repaid as a fully amortizing loan at 4.5% interest for 30 years.
    b. $45,000 to be repaid in annual interest-only payments at 2.00% interest with principal deferred for a term of 20 years.

2. $300,000 to Beaucatcher Properties, LLC for the development of sixty (60) multifamily rental units on Simpson Street (1-BR, 60% AMI including vouchers 50% AMI), amortized at 2.00% annual interest-only with principle deferred for 20 years. On the condition that

developer improve transit access by either contributing to walkway improvements along utility easement by installing lights, providing private transportation services for residents, or something thereof. Loan is to be made immediately available for disbursement following loan closing.

3. $520,000 to Biotat, LLC for the development of seventy-two (72) multifamily rental units, on Oak Hill Drive (thirty-two (32) dedicated affordable units; eighteen (18) 1-BR, eighteen (18) 3-BR; 60% AMI including vouchers 50% AMI), amortized at 2.00% graduated annual interest-only with principle deferred for 20 years. The graduated interest payment is as follows: year 1-5 at .05%, year 6-10 at 1%, year 11-15 at 1.5%, year 16-20 at 2%. This is an average yearly rate of 1.14%. There are no additional conditions on this project. Loan is to be made immediately available for disbursement following loan closing.

4. $30,000 to Groce United Methodist Church for the development of two (2) rental units for homeless with children on Tunnel Road (2-BR, 60% AMI including vouchers 50% AMI), amortized at 0% annual interest-only with principle deferred for 20 years. On the condition that developer installs energy star appliances and other green features when possible. Loan is to be made immediately available for disbursement following loan closing.

5. $128,000 to Hearthstone, LLC for the development of sixteen (16) rental units for on Booker Street (2-BR, 60% AMI), amortized at 2% annual interest-only with principle deferred for 15 years. There are no additional conditions on this project. Loan is to be made immediately available for disbursement following loan closing.

6. $150,000 to Leah and James Kim for the development of fifteen (15) rental units for veterans on White Pine Drive (1-BR, 60% AMI including vouchers 50% AMI), amortized at 0% annual interest-only with principle deferred for 15 years. There are no additional conditions on this project. Loan is to be made immediately available for disbursement following loan closing.

RESOLUTION BOOK NO. 37 – PAGE 388

K. RESOLUTION NO. 16-40 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT AGREEMENT WITH BUCKEYE BRIDGE, LLC, FOR THE VICTORIA ROAD WATERLINE IMPROVEMENTS PROJECT

Summary: The consideration of the following items relative to the Victoria Road Waterline Improvements Project ('Project'): (1) a resolution authorizing the City Manager to enter into a construction agreement with Buckeye Bridge, LLC for the bid amount of $673,514.50; and (2) a contingency amount of $81,000.50 for a total project budget in the amount of $754,515.00.

On January 12, 2016, the WRD issued an Advertisement for Bids for the Victoria Road Waterline Improvements Project. This Project consists of the installation of approximately 5,000 Linear Feet of 12-inch Ductile Iron Pipe (DIP) with related appurtenances and materials required in order to complete the work. The Project will replace existing undersized and failing waterline in order to improve hydraulics, aid fire protection and increase reliability for the entire length of Victoria Road. This Project will also include asphalt and/or concrete pavement repair and restoration of any grassed areas disturbed.

On February 2, 2016, the WRD received six (6) bids for the Project. Companies responding were:

1. Buckeye Bridge LLC – Canton, NC, $673,514.50
2. Cooper Construction Company, Inc. – Hendersonville, NC, $746,413.00

3. Davis Grading, Inc. – Shelby, NC, $786,426.00
4. Patton Construction Group, Inc. – Asheville, NC, $681,760.00
5. Thomas Construction Company, Inc. – Johnson City, TN, $799,865.00
6. T&K Utilities, Inc. – Asheville, NC, $804,950.00

Following a review of the bids by City staff, Buckeye Bridge, LLC was selected as the lowest responsible, responsive bidder in the amount of $673,514.50. A contingency amount of $81,000.50 has been added for a total project budget in the amount of $754,515.00.

Pros:

- This project will replace existing waterlines that are undersized, provide inadequate for fire protection, and have a high risk of failure causing costly repairs for the WRD and frequent outages for the customers with a durable, reliable sustainable water system for the project neighborhoods.
- This project is aligned with the City and the WRD goal of continued investment and improvement of the City's water system through Capital Improvement Projects, in order to provide safe and reliable service.
- Approval of the construction contract to the lowest responsible, responsive bidder will invest City funds in the local economy.

Con:

- Failure to award a construction contract would prevent the completion of this waterline system improvement and goal of continued investment in our infrastructure.

The funding needed for this construction agreement is currently allocated within the Victoria Road Waterline Improvements Project in the Water Resources Capital Improvement Projects (CIP) Fund.

City staff recommends City Council authorize the following relative to the Victoria Road Waterline Improvements Project: (1) a resolution authorizing the City Manager to enter into a construction agreement with Buckeye Bridge, LLC for the bid amount of $673,514.50; and (2) a contingency amount of $81,000.50 for a total project budget in the amount of $754,515.00.

RESOLUTION BOOK NO. 37 - PAGE 390

L. RESOLUTION NO. 16-41 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONSTRUCTION AGREEMENT WITH PATTON CONSTRUCTION GROUP INC. FOR THE WATER SERVICE RENEWALS WEST PROJECT

Summary: The consideration of the following items relative to the Water Service Renewals West Project ('Project'): (1) a resolution authorizing the City Manager to enter into a construction agreement with Patton Construction Group, Inc., for the bid amount of $346,800.00; and (2) a contingency amount of $34,680.00 for a total project budget in the amount of $381,480.00.

On January 8, 2016, the WRD issued a Request for Bids for the Project. The scope of the project is to renew existing water services that have been identified as sub-standard as part of the department's ongoing Automated Meter Reading (AMR) water meter conversion project in the Western part of the Water Distribution system. There will be 115 water services scattered across 78 streets renewed as part of this project, including new meter boxes, new meter setters, new connections to the existing house lines, and approximately 2,550 Linear Feet of copper line. This project will also include asphalt and/or concrete pavement repair and restoration of any grassed areas disturbed during the water service renewal project.

On February 9, 2016, Water Resources received two (2) bids for the project. Companies responding were:

1. Patton Construction Group, Inc. – Asheville, NC; $346,800.00
2. Cooper Construction Company, Inc. – Hendersonville, NC; $490,286.00

A review team comprised of City staff reviewed the bids and selected Patton Construction Group, Inc. as the lowest responsible, responsive bidder in the amount of $346,800.00. A contingency amount of $34,680.00 has been added for a total project budget in the amount of $381,480.00.

Pros:
- Approval of the project will allow Water Resources to renew existing, sub-standard water services to residential houses.
- The project will provide a local company with work for several months.

Con:
- This is not a required project to effectively operate the water system.

The funding needed for this construction agreement is currently allocated within the Automated Meter Reading (AMR) Project in the Water Resources Capital Improvement Projects (CIP) Fund.

City staff recommends City Council authorize the following relative to the Water Service Renewals West Project: (1) a resolution authorizing the City Manager to enter into a construction agreement with Patton Construction Group, Inc., for the bid amount of $346,800.00; and (2) a contingency amount of $34,680.00 for a total project budget in the amount of $381,480.00.

RESOLUTION BOOK NO. 37 - PAGE 392

M. RESOLUTION NO. 16-42 - RESOLUTION AUTHORIZING AN INCREASE IN THE CITY MANAGER'S AUTHORITY TO THE EXISTING CONTRACT WITH TENNOCA CONSTRUCTION COMPANY AND FOR THE CITY TO RECEIVE FUNDS FROM THE METROPOLITAN SEWERAGE DISTRICT FOR PARTNERSHIP FOR THE CONSTRUCTION SERVICES NECESSARY FOR THE COMPLETION OF THE CRAVEN STREET IMPROVEMENTS PROJECT

ORDINANCE NO. 4483 - BUDGET AMENDMENT FOR CRAVEN STREET IMPROVEMENTS PROJECT

Summary: The consideration of a resolution authorizing an increase in the City Manager's authority to the existing contract with Tennoca Construction Company and for the City to receive $35,000 from the Metropolitan Sewerage District (MSD) for the construction services necessary to complete the Craven Street Improvements Project; and a budget amendment in the amount of $35,000 to accept partnership funding from MSD.

On June 12, 2012 City Council approved a contract with ColeJenest & Stone for professional services for the design of the Craven Street Improvement project. This project includes improvements to the existing two lane roadway by implementing a complete street approach to the design. The new facility will include bike lanes, sidewalk, stormwater improvements, stream restoration, greenway, parking areas and two-way vehicular traffic. The bids for the project were opened on June 17, 2014 and the City of Asheville determined Tennoca Construction Company to be the low responsive and responsible bidder for the project. On June 24, 2014, City Council approved the contract with Tennoca Construction Company, Inc. for up to $6,901,570.66.

The City has three funding partners on this project, Golden Leaf Foundation has provided $300,000, the Economic Development Administration from the Department of Commerce has partnered to provide approximately $1.12M, and the Clean Water Management Trust Fund through RiverLink has provided $365,000 toward this great project. The remaining cost of the project is being paid through the Stormwater, Water, Parking Funds and General Fund utilizing a combination of pay-go funds and debt proceeds.

Within the scope of the project, Tennoca is performing the construction services necessary to provide improved transportation connections (including pedestrian, bike and vehicular) to the Craven Street area. New Belgium Brewery (NBB) is continuing their project and anticipates being complete in the spring of 2016. The City's project will be completed this summer.

The City and NBB has an existing Memorandum of Understanding (MOU) in place, which has allowed the city and NBB to partner on cost saving measures for both projects. The MOU has allowed partnerships on portions of the project including grading for the Stormwater Best Management Practices and Stream Restoration; the large box culvert, included in the City's contract, which occupies both the City's right of way and falls within NBB property; and efficient use of brownfield material on site, saving the cost of transportation offsite to a landfill. Upon completion of the project it is currently estimated that NBB will reimburse the city approximately $170,000 for these combined efforts.

An opportunity arose to partner with the Tourism Development Authority (TDA) for the work associated with the trail head. This agreement has added $150,000 in partnership revenue for this project which was not considered in the original budgeted contract. Additionally, the Metropolitan Sewerage District (MSD) has agreed to partner on the sewer work along the greenway, adding $35,000 in funding toward this project.

As the project has progressed, construction has proved extremely challenging. As noted above, the site was a brownfield, which complicated estimates. Construction plans have been required to be revised in order to successfully continue the project, creating additional cost relative to the original construction budget.

This project follows the commitment made to New Belgium Brewery to make improvements in this area. The project further benefits the environment by placing Stormwater Best Management Practices' devices in place to provide water quality treatment in the area. The project also helps to develop multimodal transportation connections.

Pros:

- Improvements to the transportation facility in this area, including vehicles, pedestrians and bike facilities
- Allows the project to be finalized
- Provides safe access for the citizens that visit this area
- Promotes the environment through water quality devices and stream restoration
- Makes safety improvements to the Hazel Mill and Craven Street intersection
- Provides bike lanes, sidewalk and a greenway to the area

Con:

- Continued coordination of the project requires significant staff time.

The budgeted construction contract amount, including a 15% contingency, totals $6,901,570.66. The additional contract authority of $185,000 that is requested will bring the total construction budget to $7,086,570.66. The City has secured the additional $185,000 toward this project.

City staff recommends City Council approve a resolution increasing the City Manager contract authority for the existing contract with Tennoca Construction Company which currently is $6,901,570.66 by an additional $185,000 for a total authorized contract amount of $7,086,570.66, and authorizing the City to accept $35,000 for the Metropolitan Sewerage District partnership funds for the project; and (2) a budget amendment in the amount of $35,000 to accept partnership funding from MSD.

RESOLUTION BOOK NO. 37 - PAGE 394
ORDINANCE NO. 30 - PAGE 235

N. RESOLUTION NO. 16-43 - RESOLUTION OF INTENT TO SET A PUBLIC HEARING ON MARCH 22, 2016, TO CONSIDER THE PERMANENTLY CLOSING OF AN UNNAMED ALLEY LOCATED NEAR 119 AND 121 SAND HILL ROAD

Summary: The consideration of a resolution of intent to permanently close an unnamed alley located near 119 and 121 Sand Hill Road and setting the public hearing on March 22, 2016.

N. C. Gen. Stat. sec 160A-299 grants cities the authority to permanently close streets and alleys.

Pursuant to this statute, adjoining property owner, Debra Carter, owner of parcels 9638-04-0283, 9638-04-0025 and 9648-04-0159, and Katherine Wersel (on behalf of Vivianne Wersel), owner of parcel 9638-04-0395 have requested the City of Asheville to permanently close the unnamed alley located near 119 and 121 Sand Hill Rd. A copy of this resolution of intent shall be sent by registered or certified mail to all property owners abutting the unnamed alley, not joining in the petition to close.

The Multimodal Transportation Commission met on October 28, 2015, and approved the closure.

Pros:

- There will be no future compromise of ingress/egress to other property
- The closure would allow for more efficient use of the existing adjacent properties
- Meets Council's goals of efficient land use and planning.

Con:

- None

There will be no fiscal impact related to this closure.

City staff recommends City Council adopt the resolution of intent to permanently close an unnamed alley located near 119 and 121 Sand Hill Road and set the public hearing on March 22, 2016.

RESOLUTION BOOK NO. 37 - PAGE 395

O. RESOLUTION NO. 16-44 - RESOLUTION OF INTENT TO SET A PUBLIC HEARING ON MARCH 22, 2016, TO CONSIDER THE PERMANENTLY CLOSING OF AN UNNAMED ALLEY LOCATED BETWEEN OTEEN PARK PLACE AND PINE CONE DRIVE

Summary: The consideration of a resolution of intent to permanently close an unnamed alley located between Oteen Park Place and Pine Cone Drive and setting a public hearing on March 22, 2016.

N. C. Gen. Stat. sec. 160A-299 grants cities the authority to permanently close streets and alleys.

Pursuant to this statute, adjoining property owners, Edison and Lillian Degobbi, owners of parcel 68-26-6877, and Paul Ray, owner of parcel 9668-26-6765 have requested the City of Asheville to permanently close the unnamed alley located between Oteen Park Place and Pine Cone Dr. A copy of this resolution of intent shall be sent by registered or certified mail to all property owners abutting the unnamed alley, not joining in the petition to close.

The Multimodal Transportation Commission met on January 27, 2016, and approved the closure.

Pros:

- There will be no future compromise of ingress/egress to other property
- The closure would allow for more efficient use of the existing adjacent properties
- Meets Council's goals of efficient land use and planning.

Con:

- None

There will be no fiscal impact related to this closure.

City staff recommends City Council adopt the resolution of intent to permanently close an unnamed alley located between Oteen Park Place and Pine Cone Drive, and set a public hearing on March 22, 2016.

RESOLUTION BOOK NO. 37 - PAGE 397

P. ORDINANCE NO. 4482 - BUDGET AMENDMENT FOR ACQUISITION OF STORM CONTROL MATERIALS AND EQUIPMENT REPAIR AND ACQUISITION

Summary: The consideration of a budget amendment, in the amount of $431,000, from unassigned General Fund fund balance for the purpose of the acquisition of storm control materials and equipment repair and acquisition.

For the Fiscal Year 2015/2016, the original budget for storm control materials was $150,000. This value allowed us to fill our salt storage facility to capacity prior to the winter season. Our salt storage facility when at maximum capacity holds approximately 4000 tons of material. As a result of minor snowfalls, various ice locations due to water breaks or frozen runoff, and the large scale snowfall of January 22nd (Winter Storm Jonas), we are now at less than ½ capacity of our facility. This is also after we have ordered and received approximately 1300 tons of salt to re-stock what had been used as of the completion of all snow removal after the January 22nd (Winter Storm Jonas) event. In addition to the need more material we have also had several pieces of equipment that have been broken and been pushed to or beyond their usable life cycle. All of the equipment that is in this state is either snow plows or salt/sand spreaders. These pieces of equipment are vital to any snow removal efforts moving forward. In addition to snow storm control materials this line item is also used for the purchase of material such as stone, erosion control measures and concrete in flooding events that cause damage or destruction of city owned roads and sidewalks.

Pros:

- The availability of this material will position the Public Works Department such that it can properly respond to weather events that hamper the safe travel of the public.
- Replacing old worn out equipment will allow for less down time thus a faster removal time of snow from city streets.

Cons:

- The purchase of these material and equipment will consume and City Funds.
- Payment requires an appropriation from unassigned General Fund fund balance.

The additional funds for storm control materials will come from unassigned fund balance in the General Fund. The General Fund ended Fiscal Year 2014/15 with approximately $16.65 million in unassigned fund balance. After this appropriation, General Fund fund balance will be approximately $16.22 million or 15.7% of the current General Fund budget.

City staff recommends City Council a budget amendment for the funding to adequately stock storm control materials for the remainder of the fiscal year.

ORDINANCE BOOK NO. 30 - PAGE 233

R. RESOLUTION NO. 16-45 - RESOLUTION AMENDING CRITERIA 6 OF THE CITY'S ADOPTED CRITERIA FOR A DESIGN-BUILD DELIVERY METHOD OF CONSTRUCTION CONTRACTS TO MAKE IT CONSISTENT WITH THE CURRENT STATUTORY LANGUAGE OF N.C. GEN. STAT. SEC. 143-128.1A

Summary: The consideration of a resolution amending the established criteria for design-build delivery method for construction contracts.

On June 24, 2014, the City Council adopted Resolution 14-138 establishing the criteria for a Design-Build Method for Construction Contracts pursuant to N.C. Gen. Stat. sec. 143-128.1A, and authorizing the City Manager or his designee to review and approve the written criteria for each individual design-build project to ensure compliance with these adopted criteria. Later that year, the NC Legislature slightly amended the wording of one of these adopted criteria, Criteria 6, in Session Law 2014-42 and therefore, the City's criteria needs to be amended to reflect this change.

The beginning of Criteria 6 of the adopted Design-Build Delivery Method currently reads as follows:

Criteria 6: The criteria utilized by the City, including a comparison of the costs and benefits of using the design-build delivery method of a given project in lieu of the other delivery methods identified.

Session Law 2014-42, revised this Criteria 6 by replacing the terms "*costs and benefits*" with the terms "*advantages and disadvantages*". The City's adopted Criteria 6 needs to be updated to reflect this change.

Pro:

- The amendment will make the City's adopted Design-Build Delivery Method Criteria consisted with the current law.

Con:

- None noted.

Staff recommends that City Council adopt a resolution amending Criteria 6 of the City's adopted criteria for a Design-Build Method for Construction Contracts to make it consistent with the current statutory language of N.C.G.S. 143-128.1A.

RESOLUTION BOOK NO. 37 - PAGE 399

R. MOTION ADOPTING CITY COUNCIL'S 2036 VISION

Summary: In January 2016, Asheville City Council created a 20-year vision for the city. This Council vision reflects Asheville's unique character and the aspirations for the community. While recognizing that portions of the vision are not in direct control of local government and resources may be constrained, Council plans to use the vision as a guide when developing policies and priorities.

City management will use the adopted Council vision and the three-year short-range priorities to create a strategic work plan. In developing the strategic work plan, management will analyze existing and potential resources. The Council vision and progress on the strategic work plan will be communicated through an engaging multi-channel communication effort to include traditional and social media as well as communication networks involving community groups, boards and commissions.

DRAFT 2036 VISION

Asheville is a great place to live because we care about people, we invest in our city, and we celebrate our natural and cultural heritage. Our city is for everyone. Our urban environment and locally-based economy support workers, entrepreneurs and business owners, families and tourists, and people of all ages. Cultural diversity and social and economic equity are evident in all that we do. Our neighborhoods are strong, participation in civic life is widespread, and collaborative partnerships are the foundation of our success.

Here's what makes us special.

A DIVERSE COMMUNITY

Asheville is an inclusive, diverse community. We define diversity broadly, including but not limited to all races, ages, sexual orientations, gender identification, socio-economic backgrounds, and cultural beliefs. We have created a fair and balanced society where everyone can participate and has the opportunity to fulfill their potential because they have access to healthy, affordable food, transportation, quality education, and living wage jobs. Asheville promotes and supports minority business as a means of strengthening our local economy. We use a racial equity lens to review and achieve our city's strategic goals in health, education, housing, and economic mobility.

A WELL-PLANNED AND LIVABLE COMMUNITY

Asheville promotes community through thoughtful, resident-led planning that results in pedestrian oriented development for all ages and abilities, harmonized with an integrated transportation system. Asheville's unique character is reflected in our land use, preserved in our historic structures, and honored when incorporated in new development. Thoroughfares are lined with thriving businesses mixed with residential and office uses, and neighborhoods are socioeconomically diverse with a range of affordable housing choices. Open spaces, parks, greenways, community gardens, and edible landscapes are abundant throughout the city.

A CLEAN AND HEALTHY ENVIRONMENT

Asheville continues to be a leader in innovative technologies and conservation efforts in response to global climate change. The City is powered by locally-generated, clean sources of energy, and air quality problems have disappeared.

Views of surrounding mountains have regained clarity unknown since the late 1800s.

Clean energy is not the only priority when preserving our high quality of life. Recognized as a Tree City USA for decades, streets, greenways, and parks embody an urban forest. Emphasis on local resilience spurs the use of municipal land for gardening, farming, and urban orchards. Known as a food destination city, most restaurants serve locally grown foods.

Thanks to an extremely high-quality water source nestled in the gentle folds of the Blue Ridge Mountains, Asheville continues to attract companies that depend on clean water - from breweries to high tech start-ups to restaurants and food manufacturers. Our modern transportation system has increased options that reduce carbon emissions. Successful waste, recycling, and curbside composting programs have greatly reduced the city's landfill needs.

QUALITY AFFORDABLE HOUSING

Asheville is a city with abundant housing choices for people at all economic levels and stages of life. Chronic homelessness is a thing of the past and rapid rehousing strategies abound thanks to an effective network of service providers. Housing is affordable not only because of reasonable prices but also because of low energy and transportation costs. Innovative and historic housing options, from tiny homes and co-housing to apartments and single-family homes, are available throughout the city. Asheville's former public housing communities have been transformed into a diverse mix of affordable and market rate homes within vibrant neighborhoods.

TRANSPORTATION AND ACCESSIBILITY

Whether you drive a car, take the bus, ride a bike or walk, getting around Asheville is easy. Public transportation is widespread, frequent, and reliable. Sidewalks, greenways, and bike facilities get us where we want to go safely and keep us active and healthy. It is easy to live in Asheville without a car and still enjoy economic, academic, and social success.

THRIVING LOCAL ECONOMY

Asheville is unique in its locally-focused economy. Our local businesses are vibrant and, no matter where you are in the city, you see a diversity of customers, employees, and business owners. Our historic buildings are home to funky, eclectic businesses that reflect the character of the city, and a creative economy of artists, makers, and innovators is thriving.

As an employer, the City values its workers by paying living wages and offering benefits that ensure both security and opportunity. Businesses of all types that share those values locate, start, and grow in Asheville, offering a wide range of career opportunities. Plentiful educational options, workforce development, access to capital, economic incentives, and a culture that values homegrown businesses make our economy strong. Our public and private partners have demonstrated a unity of purpose. If you do your part, you will find opportunity for success.

CONNECTED AND ENGAGED COMMUNITY

We pride ourselves on building and growing partnerships – with regional and

state governments, nonprofits, the private sector, and neighborhood associations to name a few - to achieve our vision. If you live, work, or play here, you want to be involved and you have a voice. When you join a citizen board or commission, the City provides training and support. Diverse interest groups work together to tackle problems, and neighborhood engagement enables residents to express thoughts, visions, and concrete plans that build a collective and harmonious community. City government is trusted and transparent, and we use the latest technologies and methods to communicate with, engage, and empower community participants. When you live in Asheville, you belong and are valued.

SMART CITY

Asheville has an AAA bond rating. We use our debt capacity and revenue wisely in order to maintain and improve the City's infrastructure and invest in our public employees. We strive to control our costs and still provide the highest possible level of service. We have a diverse revenue base that enables us to plan far into the future and to benefit from our growth. Our individual and corporate citizens generously invest in our community through partnerships and public/private projects that enrich the quality of life in the city.

Mayor Manheimer asked for public comments on any item on the Consent Agenda, but received none.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Vice-Mayor Wisler moved for the adoption of the Consent Agenda. This motion was seconded by Councilman Young and carried unanimously.

III. PRESENTATIONS & REPORTS:

A. REDUCING BARRIERS FOR INFILL HOUSING

Urban Planner Vaidila Satvika said that the 2015 Asheville Housing Needs Assessment concluded that the Asheville region has a significant gap in housing supply across all housing types, family size and income. The region's supply of housing is limited and the price of for-sale properties and rentals is on the rise. Approximately 43% of Asheville's renter households are considered to be cost-burdened, paying more than 30% of their incomes on housing costs. Further, one in five renters in Asheville are severely cost burdened, paying over 50% of their incomes on housing-related costs. Asheville's owner-occupied households are not much better off—one in three homeowners are cost burdened.

When taking into account both the cost of housing as well as the cost of transportation associated with the location of the home, we better understand the true cost of housing and housing-related decisions. In Asheville, 75% of the workforce commutes by driving alone. This is important to note because transportation options and location efficiency significantly affect the cost of housing.

In 2012, the Center for Neighborhood Technology (CNT) reviewed transportation costs as it relates to the location of housing and recommended that both land use and transportation policies should be reviewed and adjusted. The report's executive summary states "that the low-density, car-dependent development pattern that has dominated our landscapes over the last several decades is not only detrimental to the environment but also more expensive compared to location efficient areas where people can meet their needs with fewer cars and fewer miles." The report further indicates that individuals will only drive less if they can live closer to the jobs, schools, shops and other amenities they need, and if other modes of travel become more

appealing than single-occupancy vehicles. In sum, we need to move forward with plans and policies that support more compact, mixed-use development, and fewer subsidies for single-occupancy vehicle travel. Toward this end, consideration needs to be given to density requirements throughout the city, and whether there are opportunities to increase density in strategic locations.

Asheville's current residential density including all land is about one and a half units per acre. If one looks at only residentially-zoned parcels, the density is about three units per acre. In certain older neighborhoods, like Montford, residential density is closer to six units per acre, while some blocks within the same neighborhood reaching densities closer to 15 units per acre. Older neighborhoods are typically denser because they were designed before the dominance of the private automobile and before urban planners began separating residential use types. For this reason, in places like Montford and Chestnut Hills, single-family homes can be found adjacent to apartment buildings and there is more variety in lot sizes. The result in these locations is more efficient land use patterns, more varied housing choices for residents, and walkable neighborhoods. These neighborhoods are the densest and some of the most sought after locations in Asheville that are seeing increases in renovations and continued reinvestment.

A review of Asheville's historic code demonstrates the regulatory framework that supported a greater diversity of housing than we have today. Asheville's 1948 code allowed for denser neighborhoods by incentivizing multifamily development. A property owner was allowed to build two units on any lot that permitted multifamily development. Additionally, the owner could add one unit for every 500 square feet (SF) of additional lot area. Under the 1948 regulations, for example, a property owner with a 10,000 SF lot could build 12 dwelling units whereas today's rules would only permit two. This change is prevalent in newer neighborhoods that are primarily single-family and auto-oriented. The zoning change that discarded this multifamily incentive is a significant contributor to the lack of multifamily and varied housing options in Asheville today.

Current Plans and Policies

There are a number of current plans and policies that address the city's housing shortage, as well as recent policy decisions that were adopted by City Council:

General Plans: The city's 2025 Comprehensive Plan and the City Council Strategic Operating Plan for Fiscal Year 2015-16 are consistent and clear in policy direction to develop more housing. The 2025 Comprehensive Plan's first land use goal states that "The City should pursue compatible adaptive reuse, redevelopment and infill development, while ensuring that sufficient infrastructure capacity exists or will be provided to accommodate this development." Goal three states that "The City should permit and encourage transit supportive density (8-16 units/acre) along and adjacent to major corridors and at logical transit nodes"; and, goal five states that "The City should encourage the construction of affordable housing throughout the community."

The City Council's Strategic Operating Plan reiterates these goals by directing staff to "Research, develop and propose incentives for infill and redevelopment," and to "promote affordable housing located close to the CBD, jobs and transportation", and to "expand Asheville's supply of quality, affordable homes for current and future residents."

Commercial Districts: In 2014, City Council adopted Ordinance No. 4374 to promote residential density in certain commercial districts. This update increased the density between 10-88% and further doubled those densities for projects that incorporate at least 20% affordable units. This ordinance made commercial corridors and districts more attractive for developers of mixed-use projects with the goal that low-rise, commercial buildings will slowly be replaced with mixed-use, higher-density projects.

Residential Districts: In 2015, City Council adopted Ordinance No. 4431 that increased the allowable size of accessory dwelling units (ADUs), while also permitting ADUs on nonconforming lots as long as setbacks and other criteria are met. The intent of these wording amendments was to increase the supply of housing that is compatible with existing residential neighborhoods, incentivize infill housing and making efficient use of existing housing stock.

Downtown: In the Central Business District (CBD there is no maximum density but the current residential density is only about four units per acre, where seven to 16 units per acre is typically preferred for optimum transit performance.

Nevertheless, the CBD has experienced increases in multifamily and mixed-use development over the past few years. Since 2010, there have been 700 residential units proposed for renovation or new construction. That number may seem high but in actuality the CBD can accommodate significant residential growth because of the available development capacity, walkability, and access to goods and services that are already in place. As an example, the CBD area includes about 370 acres of land and if all of Asheville's projected residential growth between now and 2020 (approximately 3,000 households) would locate only in downtown there would be more than enough land to accommodate it. The resulting density would only reach about 15 units per acre, which is a density that is under the 16 units per acre that is recommended in the 2025 Comprehensive Plan.

Strategies for Small-Scale Infill Housing

Within residential districts, there is more that can be accomplished by removing barriers to infill housing in order to allow property owners and small-scale developers to help meet the city's housing needs. The intent of the following strategies is to bring housing options back into balance so that neighborhoods become denser, more varied, and walkable, as they once were intended. These UDO amendments would give more flexibility to landowners so that scarce land can be used more efficiently to offset the negative effects of sprawling development.

The following strategies are proposed to be studied in greater detail. Staff believes that with Council support, up to three of these could become UDO wording amendments within the 2016 calendar year:

- Cottage Developments
- Multifamily Districts
- Lot Standards
- Tiny House Zoning
- Higher Density Residential Buffer Zone
- Conservation Development
- Sustainable Development

Cottage Developments: Ordinance #3489 allows the cluster of housing between five to 12 units that are not subject to underlying density limitations in the RS8, RM6, RM8, and RM16 zoning districts. Cottage developments promote smaller housing units that focus on community. Review the ordinance's standards for lot size, separation requirements, site and parking requirements, number of units permitted, and pertinent zoning districts.

Multifamily Review: The UDO prescribes the number of units allowed per a parcel's area, regardless of the type of unit. There is a zoning disincentive to build multifamily units leading to a lack of rental units and varied housing options. Review of standards for multifamily developments and study community character in multifamily districts.

Lot Standards: Asheville is challenged with steep slopes and flood areas that reduce buildable land, and the 1997 UDO prescribed one-size-fits-all lot standards. Development

standards are inflexible and do not take into account natural features and unusually shaped parcels. Review lot standards.

Tiny House Zoning: The UDO defines minimum lot sizes irrespective of house size. There is a disincentive to build small because land is a significant cost component of home ownership. Review possible options for a tiny house overlay zoning district that would link lot standards to house size, making it more affordable for those interested in "small living" to purchase property for a small home.

Higher Density Residential Buffer Zone: The highest residential density district is RM16 (12-17 units/acre) and staff continues to review projects that are appropriate for higher densities. Commercial/Industrial areas are higher impact uses that often border residential zones. The UDO's highest density residential district (RM16) fails to offer sufficient density and scale to meet city goals adjacent to these higher impact zones. Investigate standards and possible locations for a higher density residential overlay zone.

Conservation Development: Asheville is challenged with steep slopes and river buffers that reduce buildable land and lot subdivision lacks flexibility. Conservation Development (or Cluster Development) is the grouping of separate residential parcels on a development site in order to use the undeveloped land to protect the natural landscape or to consolidate open space, recreation area or agriculture land. The UDO does not have an allowance for this type of development. Investigate standards to create a Conservation Development ordinance to encourage developers to preserve trees, sensitive land, and open space.

Sustainable Development: Ordinance #3980 provides density bonuses for projects that promote sustainable development practices but to date this part of the UDO (Sec. 7-16-1(b)(69)) has not been used. Investigate the regulations to determine why Sustainable Developments have not been used and make revisions to make a viable ordinance.

Public Outreach & Engagement

If authorized to proceed by City Council, Planning & Urban Design staff will work with the Communication & Public Engagement Department to develop a communication plan and community engagement process for proposed UDO wording amendments related to the above strategies.

After Mr. Satvika responded to questions raised by Council, it was the consensus of Council to authorize City staff to work with the Communication & Public Engagement Department to develop a communication plan and community engagement process for proposed UDO wording amendments related to the above strategies, along with an implementation schedule.

IV. PUBLIC HEARINGS:

V. UNFINISHED BUSINESS:

VI. NEW BUSINESS:

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

Mr. Geoff Kemmish was concerned about the route of the Beaucatcher Greenway and asked that alternative routes be re-evaluated.

Mr. Teal Brown spoke in support of the infill housing tools, especially tiny homes.

Ms. Phyllis Pedersen asked for regulations that require tiny home property owners to be responsible for water run-off that was not there prior to the tiny home being built. In addition she asked for City buses to be free on election day.

Mr. Brew Davis was concerned about after-hour building permits and asked that consideration be given to the noise ordinance hours.

Ms. Kelly Palmatier supported the more infill housing tools, especially tiny homes.

VIII. ADJOURNMENT:

Mayor Manheimer adjourned the meeting at 5:39 p.m.

Magdalen Burleson
CITY CLERK

Esther E. Manheimer
MAYOR

Tuesday – March 8, 2016 - 5:00 p.m.

Regular Meeting

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Cecil Bothwell; Councilman Brian D. Haynes; Councilwoman Julie V. Mayfield; Councilman Gordon D. Smith; Councilman W. Keith Young; City Manager Gary W. Jackson; City Attorney Robin T. Currin; and City Clerk Magdalen Burleson

Absent: None

PLEDGE OF ALLEGIANCE

Mayor Manheimer led City Council in the Pledge of Allegiance.

ANNOUNCEMENTS

Mayor Manheimer was pleased to announce the UNC-Asheville Big South Men's Basketball Championship and also the UNC-Asheville Women's Basketball Big South regular season crown. She also said that the City of Asheville enjoyed hosting the Southern Conference Basketball Championship and Wrestling Tournament last weekend.

I. PROCLAMATIONS:

A. PROCLAMATION PROCLAIMING MARCH 10, 2016, AS "ZELDA FITZGERALD DAY"

Mayor Manheimer read the proclamation proclaiming March 10, 2016, as "Zelda Fitzgerald Day" in the City of Asheville. She presented the proclamation to Mr. James MacKenzie, who briefed City Council on some activities taking place during the day.

II. CONSENT AGENDA:

At the request of Vice-Mayor Wisler, Consent Agenda Item "E" was removed from the Consent Agenda for discussion and/or an individual vote.

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON FEBRUARY 23, 2016

B. RESOLUTION NO. 16-46- RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO AN AGREEMENT WITH THE N.C. DEPT. OF TRANSPORTATION TO PROVIDE A SECTION 5307 CAPITAL GRANT TO BE USED FOR THE STATE MATCH TO PURCHASE A REPLACEMENT VAN FOR HENDERSON COUNTY'S TRANSIT SYSTEM

Summary: The consideration of a resolution authorizing the City Manager to enter into an agreement with the N.C. Dept. of Transportation (NCDOT) to provide a Section 5307 Capital Grant in the amount of $5,112 to be used for the State match to purchase a replacement van for Henderson County's transit system.

As a result of the 2000 Census, the City of Asheville was reclassified from a non-urbanized area to an urbanized area with a population greater than 200,000 persons and now includes municipalities in Buncombe, Haywood, and Henderson counties. After the reclassification, Henderson County's transit system became part of the transit systems operating in the overall urbanized area. The Federal Transit Administration named the City of Asheville the designated recipient and as a result, the City of Asheville oversees all of the Federal funding

administration. The City of Asheville and Henderson County have signed a sub-recipient agreement that specifies how the funds are disbursed. The City of Asheville is accountable to the Federal Transit Administration regarding the use of all Federal funds and owns all the capital items that Henderson County purchases with Federal funds.

The estimated total cost of the subject project is $51,128. Federal funds will provide $37,834, covered with grant NC-90-X395; this grant requires a match of $13,294, $5,112 provided by NCDOT and the remaining $8,182 provided by Henderson County. The City of Asheville performs all of the administrative tasks including the bidding process, requests for funding, review of documentation, and reporting.

Pros:

- The van will produce savings in maintenance and fuel costs.
- The Federal Transit Administration (FTA) provides 74% of the total estimated project cost.
- Henderson County provides 16% of the total estimated project cost and NCDOT provides the remaining 10%.
- There is **no** cost obligation for the City of Asheville other than administrative expenses.

Con:

- The City of Asheville is responsible for administrative expenses including staff time to oversee the project.

The total estimated project cost is $51,128, with 74% or $37,834 coming from Federal funds, 26% or $13,294 coming from Henderson County and the NCDOT. There is no direct fiscal impact to the City of Asheville, however the City's cost of administering the project is not recovered.

City staff recommends that City Council approve a resolution authorizing the City Manager to enter into an agreement with the N.C. Dept. of Transportation in the amount of $5,112, as State match to purchase one van for Henderson County.

RESOLUTION BOOK NO. 37 - PAGE 401

C. RESOLUTION NO. 16-47 - RESOLUTION TO ACCEPT EMERGENCY SOLUTIONS GRANT FUNDS FOR FISCAL YEAR 2016 AND PROVIDE FUNDING TO SELECTED AGENCIES

Summary: The consideration of a resolution accepting the 2016 Emergency Solutions Grant in order to fund local agencies.

In the process approved by Council at the October 27, 2016, Council meeting, the City submitted a timely application to the State of North Carolina Division of Aging and Adult Services (DAAS), Housing and Homeless Unit for Emergency Solutions Grant funding. Funding recommendations were made to the Housing and Community Development Committee by the Homeless Initiative Advisory Committee. These recommendations followed a process that included submittal of letters of intent from eligible agencies, review and preliminary selection by the ESG Subcommittee of the Advisory Committee, and endorsement of those recommendations by the Asheville Homeless Coalition and the Homeless Initiative Advisory Committee. The recommendations were reviewed by the Housing and Community Development Committee and recommended for approval.

We have received a contract from DAAS, with the following agency awards:

	Emergency Response	Housing Stabilization	HMIS	Total
Organization				
Helpmate	$ 28,000			$ 28,000
Homeward Bound		$ 61,379		$ 61,379
Salvation Army	$ 19,586			$ 19,586
City of Asheville			$ 10,000	$ 10,000
TOTAL AWARD	**$ 47,586**	**$ 61,379**	**$ 10,000**	**$ 118,965**

The award of funds was conditional on providing to the State additional information needed and/or assurances. All of the State's requirements have been met by the agencies being recommended for the grant award.

Pro:

- ESG funding is a key funding resource for emergency shelter, and is an important resource for rapid re-housing of persons experiencing homelessness.

Con:

- None noted.

Program funding is entirely from the US Department of Housing and Urban Development, through the State of North Carolina. Existing community development division staff will administer the program. No general funds are requested to support this program. Budget for this grant was included in the adopted FY 2015-16 Special Revenue Fund budget; however staff had estimated that total funding would be higher than the actual amount received. The budget will be reduced downward to reflect the actual amount.

The Housing and Community Development Committee recommends acceptance of these funds, and subgranting of those funds to the agencies for the programs approved by the State Division of Aging and Adult Services (DAAS), Housing and Homeless Unit.

RESOLUTION BOOK NO. 37 - PAGE 402

D. RESOLUTION NO. 16-48 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE AN AMENDMENT TO THE EXISTING LEASE AGREEMENT WITH BELLSOUTH TELECOMMUNICATIONS, INC., D/B/A AT&T NORTH CAROLINA FOR PART OF THE SURFACE PARKING LOT LOCATED AT 24 O.HENRY AVENUE

Summary: The consideration of a resolution authorizing the City Manager to execute an amendment to the existing lease agreement between Bellsouth Telecommunications, Inc., d/b/a AT&T North Carolina and the City of Asheville for part of the surface parking lot located at 24 O.Henry Avenue.

In 2011, the City of Asheville entered into a lease agreement with Bellsouth Telecommunications, Inc., d/b/a AT&T North Carolina (AT&T) for public parking on AT&T property located at 24 O.Henry Avenue (identified as PIN # 9649-20-5843-00000). This action was taken in response to a deficit of public parking in that area as identified in the 2008 City of Asheville Comprehensive Parking Plan. For the past five years, the lease area has provided 47 public parking spaces in proximity to the U.S. Cellular Center, Grove Arcade, and the Haywood Street retail and business corridor. The lot is operated as a multi-user lot for monthly parkers, Indigo Hotel, merchants of Grove Arcade, Citizen-Times employees, and hourly parking. All monthly spaces are rented with a waiting list for vacancies. The hourly spaces are well used.

The current lease is set to expire in August 2016 and AT&T contacted City staff to understand if the City has interest in continuing the lease in that location. AT&T is agreeable to an extension of the parking lot lease for another 5 years. Since the monthly rental rate of $2,585 on the parking lot remained flat for the initial 5 year term, AT&T has proposed to increase the rent to $2,844 per month and add a provision that will provide for a 2% annual increase in the rent over the next 5 years. This rate is in line with downtown prices for monthly parking.

Existing terms of the lease will continue, such as AT&T's rights associated with emergency use. Given the responsibilities of a public utility, AT&T North Carolina reserves the right to use 20 of the 47 spaces in the event of an emergency, with rent to be abated if the use by AT&T exceeds 7 days.

Pros:

- Optimum location for downtown public parking
- Continues to utilize existing private surface parking for public benefit
- Annual revenues routinely exceed annual expenses

Con:

- None

The subject lease amendment includes an annual lease payment of $34,128 with 2% annual increases thereafter. The costs will be incorporated into the FY 16-17 operating budget of the Parking Enterprises Fund and city staff anticipates that the annual revenues would exceed annual expenses by approximately $3,000 per year.

City staff recommends City Council adopt a resolution authorizing the City Manager to execute an amendment to the lease agreement with Bellsouth Telecommunications, Inc., d/b/a AT&T North Carolina on behalf of the City of Asheville.

RESOLUTION BOOK NO. 37 - PAGE 403

E. RESOLUTION AUTHORIZING THE CITY MANAGER TO IMPLEMENT A FARE-FREE DAY ON MARCH 15, 2016, IN ORDER TO INCREASE OPPORTUNITIES FOR VOTERS ON ELECTION DAY

This item was removed from the Consent Agenda for discussion and/or an individual vote.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Councilman Bothwell moved for the adoption of the Consent Agenda. This motion was seconded by Councilman Smith and carried unanimously.

ITEM REMOVED FROM THE CONSENT AGENDA FOR DISCUSSION AND/OR AN INDIVIDUAL VOTE

E. RESOLUTION NO. 16-51 - RESOLUTION AUTHORIZING THE CITY MANAGER TO IMPLEMENT A FARE-FREE DAY ON MARCH 15, 2016, IN ORDER TO INCREASE OPPORTUNITIES FOR VOTERS ON ELECTION DAY

Summary: Voting is the foundation of our democracy. March 15 is the primary election day for President, U.S. Senate, Governor, Lieutenant Governor, Attorney General, Commissioner of Labor, Treasurer, and Buncombe County Commission. Barriers to voting include difficulty accessing transportation. The Asheville City Council affirms that all registered voters should have

access to the polls. Fare-free transit days are an inexpensive way to demonstrate support for the population that does not have access to affordable transportation.

The City Manager is hereby authorized to implement a fare-free day on March 15, 2016, in order to reduce barriers to voting.

Vice-Mayor Wisler said that while she is supportive of this fare-free day, she would like to see other things that the City can do along these lines to help people get out and vote and actually incentivize voting as opposed to the day just being a fare-free day for everyone.

Councilman Smith said that he would support a fare-free day for the November General Election as well, noting that Council was advised that this would help the elderly get to their polling precincts.

Councilman Young was fully supportive of this effort as everyone should have the ability to exercise their civic duty and vote. Voting should be easy and accessible.

Councilwoman Mayfield said that the Multimodal Transportation Commission recommended further study, including issues like making it available for early voting, and using the free fare as an incentive, rather than just granting a fare-free day to people whether they vote or not.

City Manager Jackson said that staff will work with the Multimodal Transportation Commission on those issues.

Councilman Young moved for the adoption of Resolution No. 16-51. This motion was seconded by Councilman Smith and carried unanimously.

RESOLUTION BOOK NO. 37 - PAGE 406

III. PRESENTATIONS & REPORTS:

A. LEE WALKER HEIGHTS MASTER PLAN

Mr. David Nash, Chief Operating Officer of the Housing Authority, reviewed with Council the Lee Walker Heights Master Plan. He showed the current site and location, noting that 43 key goals and strategies from various City plans are highlighted and addressed in their Master Plan. He outlined the top ten City of Asheville policy priorities address by the Lee Walker Heights Redevelopment Project, along with a chart of Asheville-Buncombe Jobs and Gross Rent Affordability. He then summarized the numerous residential participation opportunities.

Two residents of Lee Walker Heights spoke in support of the Project and how the Housing Authority has included residents in every step of the way.

Mr. Patel, representing David Baker Architects, showed the proposed site plan, along with the different phases, floor plans and views of what the neighborhood would look like.

When Councilman Bothwell asked about additional density on the property, Mr. Nash replied that they have maximized the number of units that they can without building structured parking on the site, which would add significant cost to the site.

Mayor Manheimer appreciated the community involvement piece as it's vital to the success of this transformational concept.

B. UPDATE ON BODY WORN CAMERA IMPLEMENTATION

Police Chief Tammy Hooper provided Council with the Asheville Police Department's Body Worn Camera Implementation Fact Sheet. She then explained the history of the body worn camera implementation. The Police Department began researching body worn cameras in 2014 and spent more than a year of researching and testing. They started the implementing the plan in January 2016. She then explained the implementation plan noting that approximately 180 sworn officers serving in functional operations will be equipped with body worn cameras.

In Fiscal Year 2016, $142,258 is for 60 body worn cameras with unlimited video storage with a five year warranty/maintenance plan. Reoccurring annual costs for storage and maintenance is $78,414, with a $70,000 estimated cost for a Law Enforcement Technology Specialist (salary and benefits). Additional purchases in Fiscal Year 2017 and Fiscal Year 2018 for 120 remaining body worn cameras and support staff and equipment will be budgeted. The timeline will be accelerated if grant funding is received. She then explained the fiscal impact in the Fiscal Year 2016 budget, along with the administrative policy overview.

The administrative policy (1) was adopted by the Chief of Police as part of the Department Policy Manual; (2) is based on model policy issued b IACP and aligned with recommendations contained in PERF's "Implementing Body Worn Camera Program" report; (3) was vetted by the City Attorney's Office to ensure compliance with law; and (4) addresses rules and procedures for body camera use including when the camera is activated, who can view footage, and storage and retention. Officers will active body worn cameras to record all contacts with citizens in the performance of official duties with exceptions for circumstances where operating it may not be appropriate (hospital emergency room or other area where patients receiving treatment, at request of crime victim, or where footage would reveal identity of child victim of abuse). Officers must document and report to supervisors any instances where camera is not used.

Assistant City Attorney John Maddux said that regarding recordings - access/review, typically investigative in nature and not usually public records under N. C. Gen. Stat. sec. 132-1.4; like other recordings, will not be subject to release to the media or members of the public under North Carolina's public records law. The recordings will be reviewed by supervisors in chain of command, Chief, Professional Standards sworn staff, City Attorney's Office, and any other person designed by the Chief. Persons making complaints regarding an officer's actions or behavior who are the subject of a video recording, parent or legal guardian of minor subject of video, or deceased subject's next of kin or legally authorized designee shall be permitted to review the specific video footage upon request.

Chief Hooper said that regarding retention, retention shall be for the minimum time provided in the North Carolina Municipal Records Retention and Disposition Schedule. All recordings not flagged for evidentiary retention shall be retained for a maximum of 60 days after they are created, at which time they will be destroyed through an automated process.

Next steps include (1) continuing the implementation plan; (2) monitoring legislative action relative to body worn camera (retention, etc.); (3) monitor and pursue any grant funding opportunities fur future phases; and (4) complete an assessment as to the status of the program at the end of 2016.

Chief Hooper responded to various questions/comments from Council, some being, but are not limited to: can the 60 days retention period of the videos be extended and under what circumstances do videos require additional retention; further explanation on the pending bill in the legislature; what will monthly random audits entail if it is disclosed that an officer may be involved in any adverse action or does not comply with the standards of APD or the law; how was the 60 day retention period of videos arrived at; what would be the problem with people in the videos being able to obtain a copy; at what point would a video become a personnel record; request for cost breakdown information of the 180 body worn cameras; will every APD officer have a camera;

should the policy be amended to allow an incapacitated adult to review specific video footage upon request; and will the footage be reviewed as part of the officer's annual evaluation.

The following individuals voiced comments relative to the Police Department's Body Worn Camera Implementation Policy:

Mr. Sean McNeal - provided Council with a copy from the American Civil Liberties Union of a model act for regulating the use of wearable body cameras by law enforcement.
Christopher Chiaronmonte
Michael Collins

After hearing the questions/responses, Councilman Young felt Chief Hooper did an excellent job in crafting this policy following available best practices considering we are embarking on new territory when it comes to body worn cameras.

Councilman Bothwell, Chair of the Public Safety Committee, felt that we are in good middle ground with this policy.

C. QUARTERLY FINANCIAL REPORT AND BUDGET PLANNING UPDATE

Director of Finance and Management Services Barbara Whitehorn provided the Council with a review of (1) the quarterly financial report outlining the economic and financial drivers; (2) quarterly budget process; (3) budget theme linkages between Council and management; (4) General Fund revenues and expenditures; (5) fee recommendations; and (6) the budget process.

IV. PUBLIC HEARINGS:

A. PUBLIC HEARING TO CONSIDER RENAMING TWO DISCONNECTED PORTIONS OF MERRITT STREET TO "BIRD DOG WAY" FOR THE SOUTH SECTION AND "MERRITT PARK LANE" FOR THE NORTH SECTION

RESOLUTION NO. 16-49 - RESOLUTION TO RENAME TWO DISCONNECTED PORTIONS OF MERRITT STREET TO "BIRD DOG WAY" FOR THE SOUTH SECTION AND "MERRITT PARK LANE" FOR THE NORTH SECTION

Mr. Stuart Rohrbaugh, Emergency Access Coordinator, said that this is the consideration of a resolution to consider renaming two disconnected portions of Merritt Street to "Bird Dog Way" for the south section and "Merritt Park Lane" for the north section. This public hearing was advertised on February 26, 2016.

The duplication of street names has the potential for misdirection or miscommunication, which can hinder the response of emergency services. He provided a map that shows two street segments with the exact same duplicated name. Property owners along the south section of Merritt Street brought this to staff's attention when they petitioned the City of Asheville to rename their portion to "Bird Dog Way." Both the north and south street segments are currently City maintained streets. The street segments no longer connect. No useable street surface is located between these street segments. Staff learned of another street named Merritt located outside the City limits in the nearby 28806 zip code. Therefore staff recommends the north section be renamed "Merritt Park Lane." Only one house address would be affected by this renaming. The owner / occupants of that home are the persons petitioning for the re-naming.

The Public Safety Committee reviewed a request to eliminate the duplicate street name on January 25, 2016, and they recommended it be forwarded to the full Council for approval.

Pro:

- Potential emergency response will be enhanced with specific unique street names.

Con:

- Cost of labor of replacing two street name signs.

The cost to re-install new street name sign blades to the existing poles are about $100 each and is included in the current operating budget for the Transportation Department.

City staff recommends City Council adopt a resolution renaming two disconnected portions of Merritt Street to "Bird Dog Way" for the south section and "Merritt Park Lane" for the north section.

Mayor Manheimer opened the public hearing at 6:43 p.m., and when no one spoke, she closed the public hearing at 6:43 p.m.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Young moved for the adoption of Resolution No. 16-49. This motion was seconded by Vice-Mayor Wisler and carried unanimously.

RESOLUTION BOOK NO. 37 - PAGE 404

V. UNFINISHED BUSINESS:

A. RESOLUTION NO. 16-50 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT WITH THE ASHEVILLE DESIGN CENTER

ORDINANCE NO. 4484 - BUDGET AMENDMENT FOR ASHEVILLE DESIGN CENTER CONTRACT

APPROVAL OF ADVISORY TEAM ORGANIZATIONS

Director of Planning & Urban Design Todd Okolichany said that this is the consideration of (1) a resolution authorizing the City Manager to enter into an agreement with the Asheville Design Center related to a community visioning process for city-owned properties located at 68-76 Haywood Street and 33-37 Page Avenue in the city's Central Business District (CBD); (2) a budget amendment in the amount of $15,000, from unassigned fund balance to contracted services, for the facilitation of a community visioning process for the aforementioned properties; and, (3) approval of an Advisory Team for this initiative.

At its December 12, 2015, meeting, the City Council directed staff to review alternatives for a potential process for the future use and design of two city-owned properties located at 68-76 Haywood Street. The two subject properties – which measure approximately 0.55 acres in total - are located on the southern side of the intersection of Haywood Street and Page Avenue. One of the properties is currently being leased to a company for construction staging purposes. The lease runs through July 31, 2016.

The Haywood Street properties have a long and well documented history of potential development opportunities. Their location within the city's CBD make them very desirable as urban infill sites. The property was acquired for the purpose of constructing a parking garage with adjacent private development. The property was then proposed for a hotel development that did

not occur. In the past year, the Economic Development Coalition solicited offers from developers for the purpose of developing an office building with an adjoining pocket park.

Many community members have expressed interest in a public space at this location, especially as the downtown continues to grow. A public process will be undertaken as part of the city's efforts to update its Comprehensive Plan in 2016-2017 in order to effectively sort through conflicting expectations, values and ideals for downtown parks and other types of public spaces in general; however, there is a current desire by the City Council to engage the public in an open process for a future vision for the Haywood Street properties so that these properties can begin to contribute to the downtown's dynamic environment and vibrancy.

In an effort to define the scope of the project, city-owned property located at 33/35 and 37 Page Avenue have been included. These properties are located just southwest of the Haywood Street parcels, directly across Battery Park Alley, and are currently being used as a surface parking lot (37 Page Avenue) and a vacant building (33/35 Page Avenue). The property at 33/35 Page Avenue, a part of the original plan for a parking garage at Haywood Street, was acquired to provide alternate access to the rear of properties on Haywood Street and Page Avenue. Currently these properties are served by an alley between the property at 68-76 Haywood Street and 37 Page Avenue. When combined with the city-owned Haywood Street properties and the surrounding rights-of-way, the Page Avenue properties create a larger study area and potential larger master planning opportunity for this area. It should be noted that Council direction on 33/35 Page Avenue is being sought under a separate memorandum and item on the March 8, 2016 Council meeting agenda.

The Asheville Design Center proposes to work with City staff to facilitate a community visioning process for city-owned properties at 68-76 Haywood Street and 33-37 Page Avenue in downtown Asheville. The outcomes will be designed to inform future actions on the subject sites and surrounding rights-of-way, which may include a design competition and/or a Request for Qualifications/Proposals (to be completed under a separate phase and as determined by City Council).

The project's scope will include strategic planning and coordination with an Advisory Team, key stakeholders, as well as the broadest community interests who express a desire to participate in an open, democratic "town hall" process of consensus building. The Asheville Design Center will work with City staff to form an Advisory Team for the public visioning process and implementation plan. The Advisory Team will have representation, at minimum, from the following organizations (in no particular order), plus three at-large members:

- City of Asheville Recreation Board;
- Asheville Downtown Commission;
- Historic Resources Commission of Asheville & Buncombe County (HRC);
- Public Art and Cultural Commission (PACC);
- Buncombe County liaison;
- Asheville Downtown Association;
- The Basilica of St. Lawrence;
- Friends of St. Lawrence Green;
- Grove Arcade;
- Battery Park Hotel/Vanderbilt Apartments representative(s);
- Downtown Asheville Residential Neighbors (DARN);
- And Asheville Area Chamber of Commerce.

The at-large members would apply and be appointed by City Council in the same process as boards and commission appointees.

Engagement with local stakeholders and property owners will inform a long-term vision for the properties, while also serving to identify opportunities for temporary installations to enliven the space now and suggest appropriate permanent uses on the site over time.

The Asheville Design Center will also conduct site visits to existing nearby Downtown public spaces, including Pritchard Park and Pack Square Park, in order to review existing programming and design elements, while observing best practices and potential impediments to successful placemaking.

The Asheville Design Center proposes to undertake the following major tasks over the course of approximately seven months:

Task 1: Initial Project Analysis Tasks
Task 2: Information Gathering and Synthesis
Task 3: Public Engagement
Task 4: Final Visioning Documentation and Presentations

On January 26, 2016, and February 16, 2016, Planning and Urban Design staff presented a recommended process for the city-owned properties at 68-76 Haywood Street and 33-37 Page Avenue to the Planning and Economic Development Committee. The committee recommended the process contained in this memorandum, including the hiring of the Asheville Design Center to conduct a community visioning and public engagement process for the study area. The Planning and Economic Development Committee deferred the decision to include 33/35 Page Avenue to City Council.

At its November 4, 2015, retreat, the Downtown Commission also made a recommendation to City Council that they initiate a meaningful public process that is transparent to develop a plan for the Haywood Street property and surrounding rights-of-way. The Downtown Commission requested that the city engage the Asheville Design Center to facilitate the process with the public.

The contract with Asheville Design Center would have a financial impact of $15,000 to the city. The overall project cost is $30,000, which includes the city's financial commitment plus the following additional funding sources:

- $5,000 from the Asheville Downtown Association
- $5,000 from Friends of St. Lawrence Green
- $1,500 anonymous donor
- $500 Michael McDonough
- $200 DARN
- $2,800 (pending funds from other sources)

For the city's $15,000 commitment, a budget amendment, from unassigned fund balance to contracted services, is required.

City staff resources would also be required to manage the project, coordinate with the consultant team, participate in the public engagement and visioning process, provide relevant information and data on existing plans, maps, utility and roadway information, etc., promote engagement opportunities and regularly share updates through multiple communication channels, and coordinate/provide potential meeting locations for the public. Staff resources are anticipated from the following departments: Planning and Urban Design, Parks and Recreation, Communication and Public Engagement, Transportation, Community and Economic Development, Public Works and Legal Services.

Unless directed otherwise, the proposed visioning process would take approximately seven months to complete. As noted, the outcomes of the visioning process will be designed to

inform future actions for the study area, which may include a design competition and/or a Request for Qualifications/Proposals (to be completed under a separate phase and as determined by City Council). Funding for design, construction and maintenance of a newly activated space is not currently in the city's budget.

City staff recommends that City Council (1) adopt a resolution authorizing the City Manager to enter into an agreement with the Asheville Design Center related to a community visioning process for city-owned properties located at 68-76 Haywood Street and 33-37 Page Avenue; (2) authorize a budget amendment in the amount of $15,000, from unassigned fund balance to contracted services, for the facilitation of a community visioning process for the aforementioned properties; and, (3) approve the Advisory Team for this initiative.

Mr. Chris Joyell, Executive Director of the Asheville Design Center, discussed the proposed scope of work for the visioning process, which will ultimately give them input to produce the materials for Request for Proposals.

At the request of Councilwoman Mayfield, it was the consensus of Council to include a representative of the Civic Center Commission.

At the request of Councilman Bothwell, it was the consensus of Council to include a representative of the busker's alliance.

At the request of Vice-Mayor Wisler, it was the consensus of Council to ask Mr. Okolichany to draft some specific questions that Council can review to send out with applications, in order to make sure Council is not duplicating people already being represented. Council will review the applications/responses and determine who, if any, to interview.

Mr. Timothy Sadler felt that the Advisory Team consists largely of the government and business community. He suggested Council incorporate other public groups that may be directly impacted with the project.

Mr. Christopher Chiaronmonte felt that a representative from one of the homeless coalitions be on the Advisory Team.

Mr. Andrew Craig, President of Asheville Sister Cities, and Mr. Russ Martin, Past President of the Asheville Sister Cities, recommended a representative from Asheville Sister Cities be appointed to the Advisory Team.

Ms. Diana Davidson, representing the Downtown Area Residents Association, spoke in support of the Asheville Design Center's scope of work and was excited to give their input.

Mr. Bob Swanson noted that there is a group of facilitators that meet regularly in this area that have done facilitation before.

Mayor Manheimer asked that staff make a special effort to reach out to the property owner of the alley regarding easement rights.

Councilman Smith noted that there will be broad community engagement meetings and urged anyone interested to attend the public visioning process.

Mayor Manheimer said that members of Council have previously received copies of the resolution and ordinance and they would not be read.

Councilman Bothwell moved for the adoption of Resolution No. 16-50. This motion was seconded by Vice-Mayor Wisler and carried unanimously.

RESOLUTION BOOK NO. 37 - PAGE 405

Vice-Mayor Wisler moved for the adoption of Ordinance No. 4484. This motion was seconded by Councilman Smith and carried unanimously.

ORDINANCE BOOK NO. 30 - PAGE 237

Vice-Mayor Wisler moved to approve the Advisory Team outlined above, with the addition of a representative from the busker's association and the Civic Center Commission. This motion was seconded by Councilwoman Mayfield and carried unanimously.

B. MOTION TO PROCEED WITH THE DEMOLITION OF CITY-OWNED BUILDING AT 33-35 PAGE AVENUE

ORDINANCE NO. 4485 - BUDGET AMENDMENT FOR 33-35 PAGE AVENUE

Assistant City Manager Paul Fetherston said that the purpose of this staff report is to provide the City Council with an update on the condition, estimates and next steps relative to the City-owned building located at 33/35 Page Avenue within the Central Business District; and a potential budget amendment up to a maximum amount of $138,805 from unassigned fund balance.

In 2002, the City of Asheville (City) purchased the land and improvements at 33/ 35 Page Avenue for $850,000 through the Parking Services Capital Project Fund. In August 2004, the City and the local Sister Cities organization entered into a lease for space at 33D Page Avenue for a period of one month – month to month thereafter with language articulating "In no event shall this lease remain in effect for more than one year from the date of commencement." The Lease specifically indicated the following: (a) the City planned to demolish the structure, (b) that no improvements or normal maintenance to the property would be provided by the City, and (c) that the Lessee was responsible for maintenance and accepted the premises as is.

In late November 2015, City staff was contacted by Sister Cities indicating that the building was in disrepair and that recent rain damage had caused interior ceiling tiles to collapse. In response to this contact, City building inspectors toured the facility on December 3 to determine conditions of the premises and observed a large amount of water intrusion inside the building, evidence of water within the electrical system, standing water on the roof and active water leaks throughout. As a result, the City's building inspectors posted the property as unsafe for occupancy and required that the building remain vacant until life-safety items were addressed. Since that time, the Sister Cities moved out and the City disconnected the electricity, secured and restricted access to the building.

In an effort to keep the City Council informed, an update was provided to the Governance Committee during its December 8 meeting. At that time, staff provided rough estimates for various options related to the building with the understanding that staff would seek quotes for the various options during December. The rough estimates as of December 8, detailed below, were based on previous estimates received by the City escalated for time and conditions, as well as staff experience in similar projects.

ITEM	Estimate-Dec 8
Secure the building – NOT for occupancy (roof repairs, etc.)	$150,000
Secure the building – FOR occupancy (no up fits, etc.)	$500,000
Demolition	$200,000

As with standard protocol within Development Services, the City has approximately 90 days from the date the building was posted as unsafe to develop a plan and next steps (March 4,

2016). City staff has communicated with the City's building inspectors the timing of this discussion regarding next steps at its March 8 regular meeting.

During the December 8 meeting, the Governance Committee requested the following information relative to 33/35 Page Avenue.

Request	Response
Is there a reversionary clause or condition that would be triggered (based on how the purchase of 33/35 Page Avenue was funded) if the property were to be sold to a third party?	While there is no reversionary clause of condition involved, it is important to note that the property was purchased through the Parking Services Capital Project Fund with the anticipation that the property would be utilized for purposes that were consistent with the Fund. Any transfer for a different purpose would require a formal budget amendment by City Council (repayment of the Fund). It is recommended that legal counsel be sought prior to any such budget amendment.
Market Value for 33/35 Page Avenue	8,900 square foot building Built in 1958 Acreage = 0.11 acres (4,791.6 square feet) Zoning: Central Business District Total Tax Value: $739,900 Land Value for Tax Purposes: $335,400 Building Value for Tax Purposes: $404,500 An appraisal of the property has not been completed.

Following the December 8 Governance Committee meeting, staff worked to obtain the following updated estimates from third party vendors to complete work on the building in support of the options originally outlined. It is important to note that based on the estimated cost of the work, a more formal competitive process would be required before work could be completed.

ITEM	Estimate
Secure the building – NOT for occupancy to include: roof repairs, cleaning roof drains and scuppers, labor and material, dumpsters and fees stop water penetration into building – new downspout and gutter, replace PVC, caulking, lift, debris removal, install steel screening for gas piping) 15% Contingency TOTAL	$33,400 5,010 $38,410
Secure the building – NOT for occupancy to include: Above referenced roof and water penetration work PLUS Secure interior by removing water damages ceiling tile, drywall and plaster; remove all carpet; dry out building and remediate extensive mold; remove damaged wood framing; treat all exposed framing; check all electrical boxes and repair as needed; get HVAC operational; 15% contingency TOTAL	$120,700 18,105 $138,805
Secure the building – FOR occupancy: Since significant remediation of the interior of the building would be required (wall removal and other interior modifications), the final design of the interior spaces would be	Not available

needed in order to secure third party estimates.	
Demolition of the structure including ground treatment	$100,000
Add 15% contingency	15,000
	$115,000

The Governance Committee was presented with this information during its January 12 meeting at which time the Committee requested that the item be presented to the City Council for consideration and direction

Staff requests City Council direction on next steps regarding the city-owned building at 33/35 Page Avenue. Identified options for such direction include the following:

- Secure the building (minimal): $38,410
- Secure the building (maximum): $138,805
- Demolition: 115,000

If Council chooses demolition, there will have to be a competitive process to secure estimates and then depending on that amount, they may need Council approval for the contract. There are also additional process steps necessary to demolish the building. Mr. Jack Thomson, Executive Director of The Preservation Society of Asheville-Buncombe County, advised him that the Historic Preservation Master Plan was adopted by City Council in 2015, which should require the Historic Resources Commission (HRC) to review and give their recommendation. It was Mr. Fetherston's opinion that the Master Plan was not codified so those do not apply. However, even though the Plan is not codified, Council can ask staff to have the Historic Resources Commission (HRC) review and give their recommendation. In addition to a competitive process, we would have to go to the Downtown Commission for review and recommendation.

Mr. Fetherston said that Council should have received a copy of an e-mail from Asheville Sister Cities about their interest in the property and their interest to keep the facility and allow them to engage in a lease once the building is renovated.

In furtherance of City Council direction, action on a budget ordinance amendment will be required to allocate funding from unassigned fund balance. Following City Council direction, staff will meet with the Building Inspector to review the plans for the structure as required.

In response to Vice-Mayor Wisler, Mr. Fetherston said that if you secure the building with the $38,400 option, that would be just to secure the roof to stop the water penetration. It doesn't stop the growth of the mold or stabilize anything on the inside.

In response to Councilman Smith, Mr. Fetherston further explained that in 2015 City Council adopted the Historic Preservation Master Plan, which identified buildings (which 33-35 Page Avenue was a contributing building in 2011). The Plan sets forth recommendations for the City to begin looking at rules and regulations if there were any demolitions or treatment of buildings within that district. The Plan has not been codified so there has been no change in process. The Plan did recommend that any demolition would go through the HRC, and Council can ask staff to schedule an HRC review.

Councilman Bothwell was not sure how anyone can decide if the building is worth $138,805 to gut and have it ready for someone else to do something else with. He felt a buyer would be probably just demolish the building.

Mr. Fetherston said that the Governance Committee had asked about the fair market value of the building. While we do not have an appraisal, we did look at the taxes and we are pretty confident that the property is worth $850,000 if not more. Based on some of the conversations with our Real Estate Manager, she was confident that if the building is allowed to remain on the property it will be a detriment to the value.

Councilwoman Mayfield said that from a fiscal standpoint and future of the property standpoint, the demolition option seems to make the most sense to her. However, even though the Historic Preservation Master Plan is not codified, we should make use of the processes we have in place - a Downtown Commission and an HRC. If this is a contributing structure in the historic preservation sense of that term, then she recommended we ask the opinion of our HRC.

When Councilwoman Mayfield asked if a decision had to be made tonight, Mr. Fetherston replied no but staff is seeking direction in order to comply with the protocol that within 90 days we are supposed to have an action plan. The longer the water intrusion goes on the condition of the building worsens. Councilwoman Mayfield then suggested sending this to the HRC and the Downtown Commission for their input.

Councilman Smith was leaning towards demolition, largely due to some of the site constraints on the Haywood Street property. Being able to factor this into that would be very helpful. Not knowing whether this would be part of open space or a built environment, it may lead to the fulfillment of City Council's strategic goals. He would like this on the table as we have the Haywood Street conversation.

In response to Councilman Haynes, Mr. Fetherston said that Asheville Sister Cities sent an e-mail that said they do not want the City to demolish the building, but to spend the required amount to repairing the roof, treating the mold, repairing plumbing, and getting the electrical system up to code. They would once again occupy the premises and accept responsibility for upkeep and even find additional occupants for other available space in the building, which would financially benefit the City. They would also be amenable to paying an negotiated amount of rent.

Councilman Young said that based on the last time this issue was before the Governance Committee, the fiscal health and stability of the organization possibly would not allow them to do take on some of these tasks. He wondered how that changed since December. In response, Mr. Craig said that Asheville Sister Cities is a strong organization and they will go through fund raising events. In the event they have the opportunity, they will continue to find ways to fund improvements.

When Mayor Manheimer asked what Asheville Sister Cities is offering to help the City bring the building up to occupancy. Mr. Craig said the City would spend the $138,805 (in addition to the electrical and plumbing), and he anticipated Asheville Sister Cities would spend around $75-80,000 to advance the building to a safe level.

When Mayor Manheimer asked what it would cost the City to bring the building up to occupancy, General Services Director James Ayers said to secure the building for occupancy would be approximately $500,000.

Councilwoman Mayfield felt it didn't make sense to spend $38,410 just to secure the roof to stop water penetration; and it doesn't make sense to spend $138,805 because the building still not be available for occupancy. There is a big gap to make the building for occupancy, even with what the City is willing to spend, along with what Asheville Sister Cities is willing to spend. She noted the Planning & Urban Design Director's recommendation for the public process on the Haywood Street site includes this property. She said that the HRC meets tomorrow and suggested Council ask them to review this building.

Mr. Fetherston said that if Council chooses demolition, staff will get together a timeline to get it before the Downtown Commission, and if Council would like staff to take the extra step and to to the HRC, they can also do that. He would bring their recommendation back to Council. He said he could talk to the HRC Director to see if they can get it on their agenda for review.

City Attorney Currin said that if Council sends this to the HRC, they will need to define the question to make sure the HRC is looking at what Council wants them to review.

Mr. Jack Thomson, Executive Director of The Preservation Society of Asheville-Buncombe, said that the building at 33-35 Page Avenue was listed in the National Register when the Downtown District was created in 1979. In 2011 the District was reviewed and this building was acknowledged as a contributing structure to the District. City Council adopted the Historic Preservation Master Plan and this would be the first demolition of a contributing structure in the District. He urged Council to follow the Plan recently adopted. The rush to demolish this building as a way to facilitate the planning effort is inaccurate and he felt there was no rush to demolish the building.

Mr. Andrew Craig, President of Asheville Sister Cities, said that regardless of the decision City Council takes on this building they will continue to be an advocate for our City both here and abroad. They would like to help the City rehabilitate 33-35 Page. He noted the City has kindly provided them with space at the Parks & Recreation offices for meetings and storage for 90 days. Should the City be willing to go the extra mile and prepare the building close to an occupancy state, Asheville Sister Cities will rehabilitate the interior of the space and solicit additional tenants for other areas of the building. He felt that Asheville Sister Cities is a downtown organization and they need exposure to facilities, to programs and to people and visitors.

Ms. Karen Korp, speaking on behalf of Asheville Sister Cities, urged City Council to work with Asheville Sister Cities in order for them to occupy this building again.

Mr. Christopher Chiaronmonte suggested Asheville Sister Cities pay for securing the building if they want to remain in it.

Mr. Russ Martin, Past President of Asheville Sister Cities, explained how 33-35 Page Avenue has meaning for them and how it has served them very well. They are willing to be a part of the rehabilitation and to help maintain an income producing asset for the City.

Mr. Timothy Sadler suggested using funds from the Affordable Housing Trust Fund to renovate the building and allow Asheville Sister Cities to stay on the lower level.

In response to Mayor Manheimer, Mr. Fetherston said that Asheville Sister Cities is temporarily occupying space and storage in the Parks & Recreation administrative building by the WNC Nature Center. Until we do our inventory of the Facilities Master Plan, the City does not have any space they can offer.

In response to Councilman Young, Mr. Fetherston said that Asheville Sister Cities has been in that building since 2004 at $1 for rent. The estimated rent for that building escalating till now would be approximate $12.00/square foot ($20,000 a year).

Councilman Bothwell said that property was purchased to be demolished for a parking deck, and part of the agreement was that the space was free because it could be demolished at any time.

Vice-Mayor Wisler stressed that the City's agreements with non-profits need to be reviewed often and expectations clarified with both parties. Regarding the Historic Preservation Master Plan, she didn't know that the 33-35 Page was in such disrepair and was not sure we would have committed to preserving it had we known it would cost $500,000 to get it occupied again. She could not justify spending that kind of money for occupancy.

Vice-Mayor Wisler moved to proceed with demolition of 33-35 Page Avenue. This motion was seconded by Councilman Bothwell.

Councilwoman Mayfield understood that Asheville Sister Cities acquaints this building with their organizational identity and she respected that. Hopefully there could be another wonderful place downtown that might not have the history of this building. She noted that the Historic Preservation Master Plan does not prevent Council from demolishing this building, but in adopting the Plan we indicated we wanted to have a little more process around demolition of historic buildings in downtown. She would like to see more of that process (HRC review) if there is time within that 90 day period.

In response to Councilwoman Mayfield, Mr. Fetherston said it was his understanding that the Downtown Commission has mandatory review with voluntary compliance. For the HRC, it would be a voluntary review.

Councilwoman Mayfield recommended an HRC review (at their March 9 meeting if at all possible); the Downtown Commission review, and then back to City Council as soon as possible. She stressed we have citizen commissions in place that are to provide Council with expertise.

Councilman Smith said that Councilwoman Mayfield's thoughts should be the process. But the fact that it came to Council first, and based on what he is hearing, he feels there is a majority of Council to move ahead in large part of its context with the Haywood Street site and the price tag associated with any of the renovations. He definitely wants to see those processes in place as well rather than come to Council first, go to the Commissions, then come back to Council.

In response to Mayor Manheimer, Mr. Fetherston said that the demolition contract will have to go out for bid for a certain period of time (60-90 days).

Mayor Manheimer said that within that timeframe the Downtown Commission and the HRC will have an opportunity to review this. Councilman Smith replied that the process this time was not ideal and it's not ideal to create unrealistic expectations amongst citizen commissions if Council is already at a decision-making point.

Councilman Haynes felt the Downtown Commission and the HRC should review this as they have the expertise to advise Council.

When Mayor Manheimer asked is this should be sent to the HRC for review during this 60-90 time period, City Attorney Currin advised Council that if they do send it to HRC, that Council define the question asked of them.

The motion made by Vice-Mayor Wisler to proceed with demolition of 33-35 Page Avenue, and seconded by Councilman Bothwell carried on a 6-1 vote, with Councilman Haynes voting "no".

Mayor Manheimer said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Smith moved for the adoption of Ordinance No. 4485. This motion was seconded by Councilman Young and carried unanimously.

ORDINANCE BOOK NO. 30 - PAGE 239

VI. NEW BUSINESS:

A. RESOLUTION NO. 16-52 - RESOLUTION APPOINTING A MEMBER TO THE HUB COMMUNITY ECONOMIC DEVELOPMENT ALLIANCE

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that because Julie Mayfield is now a seated member of City Council, there currently exists a vacancy on the HUB Community Economic Development Alliance until August 22, 2018.

The following individuals have applied for the vacancy: Hunter Goosman, Ed Manning, Grant Millin, Kendra Sherrod, Cheri Torres, Rebecca Crandall, Rita Yerby, Mark Collins, Sandra Frempong, Nick Hinton and Keaton Edwards.

On March 8, 2016, it was the consensus of Boards & Commissions Committee to appoint Sandra Frempong.

Vice-Mayor Wisler moved to appoint Sandra Frempong as a member of the HUB Community Economic Development Alliance, to fill the unexpired term of Councilwoman Mayfield, term to expire August 22, 2018, or until her successor has been appointed. This motion was seconded by Councilman Bothwell and carried unanimously.

RESOLUTION BOOK NO. 37 - PAGE 407

B. RESOLUTION NO. 16-53 - RESOLUTION APPOINTING A MEMBER TO THE MULTIMODAL TRANSPORTATION COMMISSION

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that because Julie Mayfield is now a seated member of City Council, there currently exists a vacancy on the Multimodal Transportation Committee for a member representing transit interests until July 1, 2018.

The following individuals have applied for the vacancy: Mike Zukoski, Kelly Prime, Meredith Gregory, Eric Workman, Richard Rozzelle, Keaton Edwards, Seth Connelly, Michael Speciale, Devin Clancy, Adam Charnack and Kimberly Roney.

It was the consensus of the Boards & Commissions Committee, at the suggestion of the Transit Committee and the Multimodal Transportation Commission, to interview Adam Charnack and Kimberly Roney.

Councilwoman Mayfield said that she has had some communication with Mr. Charnack, Chair of the Transit Committee, and he said that he would be happy to have Ms. Roney as a member of the Multimodal Transportation Committee as well as the Transit Committee.

Councilman Bothwell moved to appoint Kimberly Roney as a member of the Multimodal Transportation Committee, to fill the unexpired term of Councilwoman Mayfield, term to expire July 1, 2018, 2018, or until her successor has been appointed. This motion was seconded by Councilman Smith and carried unanimously.

RESOLUTION BOOK NO. 37 - PAGE 408

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

The following individuals spoke regarding measures to address bathroom use as it relates to gender identity: Christopher Chiaronmonte, Andrew Sluder, Lacey Winter, Chris Oaks, Terry Garby and another individual. Mayor Manheimer explained what happened in Charlotte saying that no action on the existing non-discrimination ordinance was planned by the Asheville City Council.

Mr. Rick Clemenzi, representing Net Zero Foundation, talked about the clear and healthy environment out of the 2036 vision.

Mr. Timothy Sadler spoke about (1) integrating Lee Walker Heights into an innovation district; (2) the City partnering with Asheville Tourists to build a small parking deck in the area of McCormick Field; and (3) body worn cameras being a good investment.

Mr. Mac Swicegood, representing the Council of Independent Business Owners, urged Council to support I-26 from Buncombe County through Henderson County.

Closed Session

At 8:36 p.m., Councilman Young moved to go into closed session for the following reasons: (1) To prevent disclosure of information that is privileged and confidential, pursuant to the laws of North Carolina, or not considered a public record within the meaning of Chapter 132 of the General Statutes. The law that makes the information privileged and confidential is N.C.G.S. 143-318.10(a). The statutory authority Is contained in N.C. Gen. Stat. sec. 143-318.11 (a) (1); and (2) To consult with an attorney employed by the City about matters with respect to which the attorney-client privilege between the City and its attorney must be preserved, including, but not limited to, a lawsuit involving the following parties: Robert H. Frost and the City of Asheville. The statutory authorization is N.C. Gen. Stat. sec. 143-318.11(a)(3); and (3) To establish or to instruct the City's staff or negotiating agents concerning the position to be taken by or on behalf of the City in negotiating the terms of a contract for the acquisition of real property by purchase, option, exchange or lease. The statutory authorization is contained in N.C. Gen. Stat. § 143-318.11(a)(5). This motion was seconded by Vice-Mayor Wisler and carried unanimously.

At 9:15 p.m., Councilman Bothwell moved to come out of closed session. This motion was seconded by Councilwoman Mayfield and carried unanimously.

VIII. ADJOURNMENT:

Mayor Manheimer adjourned the meeting at 9:15 p.m.

Magdalen Burleson
CITY CLERK

Esther E. Manheimer
MAYOR

Tuesday – March 22, 2016 - 3:00 p.m.

Budget Worksession

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Cecil Bothwell; Councilman Brian D. Haynes; Councilwoman Julie V. Mayfield; Councilman Gordon D. Smith; Councilman W. Keith Young; City Manager Gary W. Jackson; City Attorney Robin T. Currin; and City Clerk Magdalen Burleson

Absent: None

City Manager Jackson was pleased to announce that the Association for Financial Professionals granted Barbara Whitehorn the highly regarded designation of Certified Treasury Professional effective July 1, 2015.

Director of Finance and Management Services Barbara Whitehorn used a PowerPoint while she provided the Council with a brief discussion of the Base Budget and the Capital Improvement Program (CIP), including the current cash flows and flexibility. She then explained the revenue forecast, expenditures and economic climate of the Operating Budget. She then explained some of the multi-year fee recommendations.

Issues and discussion included (1) new vehicle license fee - options and use of the fee revenue; (2) transit; (3) affordable housing - context and commitments, proposals and dedicated funding; and (4) Fire CIP and Operations - AFD operations and proposed CIP.

There was then an informational sharing of the Thomas Wolfe Auditorium.

Throughout Ms. Whitehorn's presentation and discussion, she responded to various questions/comments from Council, and those which could not be readily responded to would be provided to Council in a memorandum format. Some questions raised include: what is the 4.6% increase, based on trend, for the state utility taxes; breakdown of transit system subsidy increase of $569,000; clarification of the Other Post Employment Benefits Trust funding; implementation of Pay as You Throw is critical and the period for behavioral change may require a strong pilot program into a phased implementation; what can the new revenue stream of vehicle license fee be used for; breakdown of the $4.25 Million for Lee Walker Heights; and what is the next step for the Thomas Wolfe Auditorium.

At the April 12 worksession, staff will be asking for recommendations. She then reviewed the upcoming dates associated with adoption of the budget.

At 4:19 p.m., Mayor Manheimer adjourned the worksession.

Tuesday – March 22, 2016 - 5:00 p.m.

Regular Meeting

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Cecil Bothwell; Councilman Brian D. Haynes; Councilwoman Julie V. Mayfield; Councilman Gordon D. Smith; Councilman W. Keith Young; City Manager Gary W. Jackson; City Attorney Robin T. Currin; and City Clerk Magdalen Burleson

Absent: None

PLEDGE OF ALLEGIANCE

Mayor Manheimer led City Council in the Pledge of Allegiance.

I. PROCLAMATIONS:

A. NORTH LEXINGTON AVENUE GREAT MAIN STREET AWARD

Director of Planning & Urban Design Todd Okolichany gave a brief introduction to the award and provided a very short history of Lexington Avenue. He then recognized some local visionaries. Mr. Adrian Vassallo introduced and recognized community members from Lexington Avenue and the downtown area. Mayor Manheimer then said that Lexington Avenue is a community of over 200 small business entrepreneurs who call this funky and eclectic avenue their home. They have provided the hard work and sweat equity and so, have created the unique character and vibe for the street in each of their businesses. They bring their energy and ideas to Lexington every day and this is what was recognized in the Great Streets Award.

B. PROCLAMATION PROCLAIMING MARCH 29, 2016, AS "WELCOME HOME VIETNAM VETERAN'S DAY"

Vice-Mayor Wisler read the proclamation proclaiming March 29, 2016, as "Welcome Home Vietnam Veteran's Day" in the City of Asheville. She presented the proclamation to Mr. Ron Mangilit, proud Vietnam Veteran.

C. PROCLAMATION PROCLAIMING APRIL 6, 2016, AS "TARTAN DAY"

Councilman Bothwell read the proclamation proclaiming April 6, 2016, as "Tartan Day" in the City of Asheville. He presented the proclamation to Mr. Judson Lohr, who briefed City Council on some activities taking place during the day.

II. CONSENT AGENDA:

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON MARCH 8, 2016

B. RESOLUTION NO. 16-54 - RESOLUTION AUTHORIZING THE CITY MANAGER TO AMEND AN EXISTING CONTRACT WITH SITEWORKS STUDIOS FOR THE CLINGMAN FOREST AND TOWN BRANCH GREENWAYS

Summary: The consideration of a resolution authorizing the City Manager to amend an existing architectural and engineering services contract in the amount of $45,000 with Sitework Studios, PLLC, for the project known as the Clingman Forest and Town Branch Greenways.

In preparation for Federal Grant approval of the Plans, Specifications, and Engineering Estimates (PS&E) package, additional documentation is required for the Clingman Forest Greenway and Town Branch Greenway projects. This contract amendment is to compensate Siteworks Studios, PLLC to finalize the PS&E package for Federal Highway Administration review and approval.

City Council initially adopted a resolution authorizing the City Manager to enter into a contract with Siteworks Studios in January 2013, Resolution No. 13-3, original contract amount of $370,000. The contract was amended to $495,000.00 to include preparation of engineering construction documents for the Five Points Roundabout in September 2013, Resolution No. 13-200. This amendment will amend the contract amount to be $540,000.

A summary of the greenway projects, the funding mechanism, and the bidding process follows:

The Clingman Forest Greenway and Town Branch Greenway constitute a priority alternative transportation corridor through the core of the East of the Riverway Target Area. These multi-modal greenways will eventually connect with the Beaucatcher Greenway and comprise a significant and important portion of the River-To-Ridge Initiative.

Clingman Forest Greenway – The Clingman Forest Greenway will stretch between Aston Park at Hilliard Avenue and Clingman Avenue. The off-road, 0.5-mile trail will largely follow the unopened city right-of-way of Eugene Avenue through a wooded ravine. Secondary trails to rock outcrops along the perennial stream will be considered as well as connections to Asheville Middle School, YWCA, Aston Towers, and other destinations.

Town Branch Greenway – The Town Branch Greenway will extend from Depot Street, in the River Arts District, to the intersection of Phifer and McDowell Street. The 1.3-mile corridor will begin adjacent to Green's Market on Depot Street and extend off-road along the rear of the Dr. Wesley Grant, Sr. Southside Center and fire station and out to South French Broad Avenue. The off-road trail will pick up across the street and extend through the wooded ravine along Town Branch Creek to Congress Street. The greenway will cross Congress Street, follow the creek through City park property, cross over Choctaw Street and extend north through city property along Old Asheland Avenue. The corridor will terminate at the intersection of Phifer and McDowell Street.

The development of final design and construction documents for the Clingman Forest and Town Branch Greenways is one of the deliverables of the East of the Riverway Sustainable Multi-Modal Neighborhood Program, supported by a TIGER II Planning Grant awarded to the City of Asheville by the US Department of Transportation.

City Council appropriated funds for staff to proceed with a land acquisition within these corridors by allocating funds in the CIP budgets of 2010-11 and 2011-12.

In February 2009, City Council approved the Parks, Recreation Cultural Arts, and Greenways Master Plan which identifies Clingman Forest and Town Branch Greenways as priority greenways.

Staff followed the municipal and required Federal Transportation Administration "Request for Qualifications" (RFQ) procurement processes to seek qualified, professional firms to develop final design and construction documents. Staff received eight applications, and a panel of staff and community members reduced this pool to three finalists. After thorough review and evaluation, the review panel recommended Sitework Studios, located at 352 Depot Street, Asheville, North Carolina as the most qualified to perform the architectural and engineering services for the Clingman Forest and Town Branch Greenways. Staff successfully negotiated a final scope of work and project budget with Sitework Studios. Per the February 2012 RFQ, the consultant was to provide all paperwork associated with the construction documents that are needed to obtain the necessary permits.

Pros:

- Expand the ability to provide recreation resources to a number of residences and
- neighborhoods that can be linked to this corridor
- Provide a critical linkage in the River to Ridge Initiative
- Enhance multi-modal transportation in the community
- Compliment the recent improvements made by the City and private sector in these
- neighborhoods

- Engage community members in the design process
- Complements other multi-modal transportation planning efforts in the community

Con:

- Once complete, the project will require additional maintenance resources.

Sufficient budget is included the adopted CIP to fund the change order request for this contract.

City staff recommends City Council adopt a resolution authorizing the City Manager to amend the current contract with Sitework Studios to develop the architectural and engineering construction documents for the Clingman Forest and Town Branch Greenways for an amount not to exceed $45,000.

RESOLUTION BOOK NO. 37 - PAGE 409

C. RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A LETTER OF INTENT AND ACCEPT SEVERAL GREENWAY EASEMENTS FOR THE RHODODENDRON GREENWAY GREENWAY

This item was removed from the Consent Agenda for an individual vote.

D. MOTION TO WAIVE THE CITY COUNCIL RULES ON BOARDS & COMMISSIONS WHICH LIMIT BOARD MEMBERS TO NO MORE THAN TWO CONSECUTIVE THREE YEAR TERMS, TO ALLOW A SEATED ASHEVILLE ABC BOARD MEMBER WHO IS APPOINTED TO THE N.C. ASSN. OF ABC BOARDS TO HAVE HIS/HER TERM AUTOMATICALLY EXTENDED FOR AN ADDITIONAL THREE-YEAR TERM. IF, HOWEVER, THE TERM OF THE SEATED ABC BOARD MEMBER EXPIRES ON THE N.C. ASSN. OF ABC BOARDS, THEN SAID SEATED ASHEVILLE ABC BOARD MEMBER WILL RESIGN IMMEDIATELY

E. RESOLUTION NO. 16-56 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT WITH THE N.C. DEPT. OF PUBLIC SAFETY, DIVISION OF EMERGENCY MANAGEMENT, TO PROVIDE A REGIONAL HAZARDOUS MATERIALS EMERGENCY RESPONSE TEAM SIX - ASHEVILLE

Summary: The consideration of a resolution authorizing the City Manager to accept a contract agreement with the N.C. Dept. of Public Safety, Division of Emergency Management, to provide a Regional Hazardous Materials Emergency Response Team Six - Asheville.

The N.C. Dept. of Public Safety (NCDPS) has offered a contract agreement to the City of Asheville (City) for Hazardous Materials Emergency Response Services for the contract years of July 1, 2016, through June 30, 2020. The City has been a regional hazardous materials provider since FY 1994-1995. The State of North Carolina provides funding that fully supports the operational costs of the program.

North Carolina is divided into seven geographical regions for the purpose of hazardous material emergency response. The NCDPS contracts with municipalities across North Carolina to respond into the geographical regions and provide technician level hazardous materials emergency response. The Region 6 areas encompass the westernmost twenty counties.

This action will be reviewed by the Finance Committee during its March 22 meeting, and if anything other than support, will be mentioned at the Council meeting.

Pros:

- The State of North Carolina provides the hazardous materials response truck, all response equipment and provides for administrative costs of operating the team. In addition, the state funds extensive training for members of the Asheville Fire Department to enable us to competently handle hazardous materials emergencies.
- The City has full use of the truck and all specialty equipment. Without the state hazardous materials contract, taxpayers would need to provide much of the resources necessary to properly respond to emergencies within the city. With the contract, the City benefits from the equipment and resources being funded at the state level, rather than at the local level.
- During the eighteen years that the City has provided regional hazardous materials response services, there have been no difficulties or disadvantages
- Firefighter and citizen safety will be enhanced.

Con:

- None have been identified or known at this time.

This contract generates approximately $69,000 in revenue for the City which is expended on operating our hazardous materials emergency response program.

City staff recommends City Council authorize the City Manager to enter into the four year contract agreement with the NCDPS to provide regional hazardous materials emergency response for Region 6.

RESOLUTION BOOK NO. 37 - PAGE 411

F. RESOLUTION NO. 16-57 - RESOLUTION AUTHORIZING THE CITY OF ASHEVILLE TO APPLY FOR A GRANT FROM THE US DEPT. OF HOMELAND SECURITY TO OBTAIN FUNDING FOR NINE ADDITIONAL FIREFIGHTER POSITIONS

Summary: The consideration of a resolution authorizing the City of Asheville Fire Department (Fire Department) to apply for a grant in the amount of $868,032 from the U.S. Dept. of Homeland Security to obtain funding for nine additional firefighter positions.

Recently, the U.S. Dept. of Homeland Security solicited submissions for the FY 2015 Staffing for Adequate Fire and Emergency Response (SAFER) program which is a two year grant opportunity for fire departments to increase or maintain the number of trained, 'front line' firefighters within communities. The grant, which provides 100% funding for the additional firefighter's salaries and benefits over two years, requested the submission of applications by March 25, 2016 with grant awards being made between June 1 – September 30. Recipients awarded under the grant program have no obligation to retain the SAFER funded positions after the conclusion of the grant funded period.

The SAFER grant opportunity could enable the Fire Department to utilize funding that supports the maintenance of trained, front line firefighters within the community.

Pros:

- Hiring nine new firefighters will help reduce overtime.
- The grant covers 100% of the cost for these firefighters for two years.

Cons:

- In year three (FY 2019), the City would be responsible for assuming the full cost of firefighters added by the grant. However, since the grant is non-matching the City would

not have to absorb the costs if it chose not to. The firefighters would be absorbed into the Fire Department's current full time equivalent (FTE) count.

If awarded, the grant would provide the City with $434,016 each year for two years. In year three, the City could chose to absorb the $434,016 annually. The additional positions will also assist to offset annual overtime expenses due to increased staffing per shift would increase the number of personnel available to meet current minimum staffing requirements.

City staff recommends that City Council authorize a SAFER grant application in the amount of $868,032 from the U.S. Dept. of Homeland Security to obtain funding for 9 additional firefighter positions.

RESOLUTION BOOK NO. 37 - PAGE 412

G. RESOLUTION NO. 16-58 - RESOLUTION AUTHORIZING THE CITY OF ASHEVILLE TO APPLY FOR A GRANT FROM THE US DEPT. OF HOMELAND SECURITY TO OBTAIN FUNDING FOR FIRE PREVENTION AND LIFE SAFETY PROGRAMS, AND TO ACCEPT GRANT FUNDING IF AWARDED

Summary: The consideration of a resolution authorizing the City of Asheville Fire Department (Fire Department) to apply for a grant in the amount of $110,000 from the U.S. Dept. of Homeland Security to obtain funding for fire prevention and life safety programs, and to accept grant funding if awarded.

The U.S. Department of Homeland Security has recently issued guidance for the Fiscal Year (FY) 2015 Assistance to Firefighters Grant (AFG) program specific to Fire Prevention & Safety (FP&S). This is a grant opportunity for fire departments to purchase needed equipment to improve fire safety and injuries in the community as well as enhance firefighter safety and service delivery. Towards that end, if the grant request is approved, the Fire Department would purchase materials necessary for a comprehensive home fire safety program, digital fire extinguisher training props and an inflatable fire safety house. The Fire Department is not alone in this effort, Fire is Everyone's Fight™ is a national effort led by the U.S. Fire Administration (USFA) to lower the number of home fires and home fire injuries in America. Partnering with USFA adds resources and support to programs to make sure the Fire Department is successful by speaking out with a unified message of fire prevention and safety to the public. The goal is to change how people think about fire and fire prevention by getting into the community to address the broadest possible audience. All eligible applicants seeking a FP&S Grant to carry out an activity shall agree to make available non-federal funds to carry out such activity in an amount equal to and not less than five (5) percent of the grant awarded, or $5,500.

Staff recommends participation in the AFG Program for the following reasons:

- Assist in decreasing the risk of death in home fires and provide greater safety for firefighters.
- If awarded, the City would be able to utilize grant funds for the purchase of equipment.
- If awarded, the City would be able to directly improve fire safety in the City of Asheville.

Pros:

- Improved safety and efficiency of firefighters when responding to dangerous environments.
- Decrease the occupant alerting and fire department response times for fires and carbon monoxide incidents in 400 homes by installation of smoke alarms, carbon monoxide alarms, street address identification and stove top fire extinguishing agent.
- Provide fire extinguisher classes to a greater number citizens as well as businesses in our community.

- Enhance the fire safety of our high risk communities which include our children under 6 years of age, persons with disabilities, as well as our older citizens.

Con:

- 5% share amount of the total purchase cost required $5,500

This grant would increase the Fire Department's budget request as these funds are not already programmed into the budget. It will allow a greater amount of funding for prevention and life safety initiatives.

City staff recommends that City Council authorize the Fire Department to apply for a grant in the amount of $110,000 from the U.S. Dept. of Homeland Security to obtain funding for equipment and supplies necessary for a comprehensive home fire safety program, fire extinguisher training props, an inflatable fire safety house and to accept the grant funding if awarded.

RESOLUTION BOOK NO. 37 - PAGE 413

H. RESOLUTION NO. 16-59 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A 99 YEAR GROUND LEASE FOR 48 ACRES OF REAL PROPERTY AT 98 DESOTA STREET WITH DUKE ENERGY PROGRESS

Summary: The consideration of a resolution authorizing the City Manager to enter into a 99 Year Ground Lease for 48 acres of real property at 98 Desota Street with Duke Energy Progress.

In 2014, Duke Energy Progress (formerly known as Progress Energy of the Carolinas, and Carolina Power & Light) agreed to donate 48 acres of real property at 98 Desota Street to the City of Asheville for the French Broad River Greenway West and City Council passed a resolution to accept the donation. However, the donation transaction was not completed and since that time, Duke upgraded the existing transmission lines on the property and the City began work on the greenway design for the property. The City and Duke Energy have had several conversations on the real estate transaction and at this time both parties agree that a long-term ground lease is the most appropriate method to grant the property to the City. Duke has offered to enter into a 99 Year Lease with the City for a $1 per year. This long term ground lease would serve as the primary land conveyance to the City to support implementation of the French Broad River Greenway – West Bank.

The long term ground lease is the preferred property transfer because Duke Energy maintains significant infrastructure on the subject property, including an electric substation and transmission lines that traverse the property along its western-most boundary. A long term ground lease would allow Duke, as land owner, to maintain this infrastructure and at the same time allow the City to install the French Broad River Greenway West. This leasing structure is typical for Duke Energy when working with cities or counties to permit public access at or near Duke infrastructure. For example, Duke and Buncombe County have a long-term ground lease for the County park at Lake Julian.

A long-term lease of this property will enable the City to secure 48 acres of open space, construct the French Broad River Greenway – West Bank, and explore opportunities to create edible and pollinator landscapes where possible.

Pros:

- Provides for multi-modal transportation along the French Broad River adjacent to the West Asheville Neighborhood and River Arts District

- Donation of land from Duke Energy Progress via a 99-year ground lease at $1 per year
- Lease will permit Duke to continue to maintain the electrical infrastructure located on the property

Con:

- None

No fiscal impact is noted for the long-term ground lease.

City staff recommends City Council to adopt the resolution authorizing the City Manager to enter into a 99 Year Ground Lease with Duke Energy Progress.

RESOLUTION BOOK NO. 37 - PAGE 414

I. RESOLUTION NO. 16-60 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A PUBLIC/PRIVATE STORMWATER AGREEMENT FOR PATTON PLACE APARTMENTS

ORDINANCE NO. 4486 - BUDGET AMENDMENT FOR THE STORMWATER RELOCATION AGREEMENT FOR PATTON PLACE APARTMENTS

Summary: The consideration of a resolution authorizing the City Manager to execute a public/private stormwater agreement with the developer/owner of 248 Patton Avenue (Delray at Patton Avenue, LLC), to construct a new storm drainage system within the public right of way beginning on Haywood Road continuing on Patton Avenue to the intersection with Pearl Street and traveling down Pearl Street to Hilliard Avenue where it will end at the connection with an existing storm drainage system on Hilliard Avenue; and the associated budget amendment in the amount of $600,000 from Stormwater fund balance to provide budget authorization for the City's cost share amount.

During the investigation of a future development for 248 Patton Avenue, the development team approached the City of Asheville concerning a potential partnership for new infrastructure located within the public right of way. The development team had discovered issues to an existing drainage system located downstream of their property which the pipe was totally blocked. Through previous research by the City's legal staff, it was determined that during the early 1900's the City had constructed the drainage structure in this location, but there were no established easements or rights of way where the system currently exists.

Through previous City legal team research, it was discovered that there was special legislative language written that stated the City would not be responsible for the ongoing maintenance of the existing system, which is currently not functioning as constructed.

As staff discussed the potential partnership with the development team, a plan to relocate the system within the public rights of way and reconnect the system along Hilliard Avenue became the most cost effective and viable option to add new drainage infrastructure and solve the drainage issues currently existing along the private properties.

The City's stormwater staff is currently working with an engineering consulting team to develop a comprehensive assessment of our stormwater systems. As part of this process, areas were identified that had outstanding issues. One area of concern was located along Carter and Ann Street. Currently water is flooding a church during heavy rain events due to damaged infrastructure that lies outside of the city's control. A project has been identified that will alleviate this issue and falls within the next few construction seasons. The project partnerships the City is working on with Delray Ventures will aid this future Stormwater capital improvement project by keeping the entire system within public right of way.

The city will partner with this project with a 50%/50% cost share up to a maximum of $600,000. The plan would be for the development team to design and construct the new stormwater system and the City would then reimburse the development team up to 50% of the cost of design and construction not to exceed $600,000.

This work will involve placing a new storm drainage system beginning on Haywood Road continuing on Patton Avenue to the intersection with Pearl Street and traveling down Pearl Street to Hilliard Avenue where it will end at the connection with an existing storm drainage system on Hilliard Avenue. The project will be within existing public rights of way and will not need additional easements to make the connections.

Staff recommends that a new pipe be installed as noted above.

Pros:

- If approved, the construction team would be able to move quickly on the construction of the new pipe, minimizing future damage to properties.
- The project will provide this infrastructure to be located within the public right of way
- Pearl Avenue currently has minimum storm drainage infrastructure and this project will allow new drainage infrastructure to be installed.
- This project will maximize city's stormwater funding to allow for more infrastructures to be installed through this public private partnership.
- This project would compliment previously identified stormwater infrastructure needs.

Cons:

- The City Stormwater Utility is paying a portion of the cost of the project.
- The city will be responsible for the ongoing maintenance of this system

: The estimate for this project is $1,660,000. A maximum of $600,000 is proposed to be funded by the Stormwater Utility Enterprise Fund using fund balance. The remaining cost is proposed to be paid by the private property owners. The project will be completed by the developer's construction team.

By City policy, the Stormwater Fund must maintain a fund balance equal to 8% of annual expenses. At the end of FY 2014-15, the Stormwater Fund balance exceeded the policy target by approximately $2.0 million. Based on this historical amount and budget performance in the current fiscal year, staff is confident that Stormwater Fund balance will continue to exceed City policy at the end of FY 2015-16 even after the $600,000 appropriation associated with this project.

Staff recommends City Council approve a resolution authorizing the City Manager to execute a public/private stormwater agreement with the developer/owner of 248 Patton Avenue (Delray at Patton Avenue, LLC), to construct a new storm drainage system within the public right of way beginning on Haywood Road continuing on Patton Avenue to the intersection with Pearl Street and traveling down Pearl Street to Hilliard Avenue where it will end at the connection with an existing storm drainage system on Hilliard Avenue; and the associated budget amendment in the amount of $600,000 from Stormwater fund balance to provide budget authorization for the City's cost share amount.

RESOLUTION BOOK NO. 37 - PAGE 415
ORDINANCE BOOK NO. 30 - PAGE 241

J. RESOLUTION NO. 16-61 - RESOLUTION AUTHORIZING THE CITY MANAGER TO CONVEY A SANITARY SEWER EASEMENT TO CIP

CONSTRUCTION & DEVELOPMENT INC. FOR THEIR BUSBEE MOUNTAIN VIEW SUBDIVISION ON WEST CHAPEL ROAD

Summary: The consideration of a resolution authorizing the City Manager to convey a sanitary sewer easement to CIP Construction & Development Inc. for their Busbee Mountain View Subdivision on West Chapel Road.

Michael Cook of CIP Construction and Development Inc. is developing the Busbee Mountain View subdivision on West Chapel Road. They have been working with Development Services for plan review and permitting. A home has been built on one of the lots and they are requesting a Certificate of Occupancy (COs). It was during this process that the City discovered that a sewer line had been installed on a small corner of city property without an easement being obtained. Apparently a water easement was obtained by the developer from Water Resources in 2014. MSD will not grant any COs, permanent or temporary until this easement is obtained. If the City of Asheville grants this easement, then upon execution, it will be conveyed to MSD. The City Attorney's office was contacted by the developer's attorney asking that the easement be granted. The matter has been referred to Real Estate for processing. The developer's attorney has provided an easement agreement and a plat. It has been approved by MSD and their Planning and Development Manager has indicated that he will accept it once it is signed.

The sewer line has already been installed and they are requesting 108.69 square feet of permanent easement. Real Estate has notified the developer's counsel that there would be a $170 real estate transaction fee along with a value based on the tax assessed value of the land which is $221. The total amount will be $391.

Pro:

- Granting this easement encourages infill development within city limits

Con:

- Developers should be strenuously encouraged to obtain easements prior to installing infrastructure on city property.

The City is requiring a real estate transaction fee plus an assessment of the value of the land comprising the permanent easement.

City staff recommends City Council approve a resolution authorizing the City Manager to convey 108.69 square foot permanent easement across a city owned parcel at West Chapel Road.

RESOLUTION BOOK NO. 37 - PAGE 416

K. RESOLUTION NO. 16-62 - RESOLUTION AMENDING RESOLUTION NO. 16-16 REGARDING THE PRIVATE SALE OF CITY-OWNED REAL PROPERTY ON STATE STREET TO REFLECT THAT ONLY THREE OF THE HOMES TO BE BUILT BY MOUNTAIN HOUSING OPPORTUNITIES WERE TO BE DEED RESTRICTED

Summary: The consideration of a technical correction to Resolution No. 16-16 approving an offer by Mountain Housing Opportunities to purchase, by private sale, real property owned by the City of Asheville located off State Street.

On January 26, 2016, Council approved Resolution 16-16, approving the sale of a small (.18 acres) parcel off State Street in West Asheville to Mountain Housing Opportunities.

As stated in the staff report for that meeting, MHO offered to purchase the property from the City on the following terms:

- Purchase Price: $34,700. This is the appraised value of the site.
- City to provide non-warranty deed
- MHO will develop 3 single family homes on this site or adjacent property that will be sold to households with incomes below 80% AMI
- City to loan $34,700 to MHO with the following terms:
    - Zero Interest to MHO during construction.
    - Upon sale, loan funds will be transferred/loaned to 3 income eligible households with the City as a lender –3rd mortgage, deferred for 30 years with an equity sharing clause due upon repayment.

MHO indicated that they planned to develop 12 single family homes in total, In addition to the 3 homes committed as part of the State Street lot acquisition, 3 additional homes (for a total of 6) are planned to be sold affordably, pending the site being adequate for density of 12 homes and the availability of additional needed subsidy.

The original resolution incorrectly required a deed restriction for six (6) affordable homes, not the three (3) that MHO can commit to at this time. This amended resolution makes the correction to require that three (3) homes be deed restricted.

Pros:

- Three units of affordable for-sale housing will be created.

Con:

- None

No City funding is requested other than making the value of the land available as a loan.

Staff recommends approval of the amended resolution that changes the number of deed restricted homes from six homes to three homes. No other changes are proposed.

RESOLUTION BOOK NO. 37 - PAGE 417

L. RESOLUTION NO. 16-63 - RESOLUTION AUTHORIZING THE CITY MANAGER TO SUBMIT A GRANT APPLICATION TO THE PARKS AND RECREATION TRUST FUND, AND TO AUTHORIZE THE CITY MANAGER TO SIGN A LETTER OF COMMITMENT TO PROVIDE MATCHING FUNDS IF THE CITY IS AWARDED THE GRANT

Summary: The consideration of a resolution (1) authorizing the City Manager to submit a grant application to the Parks and Recreation Trust Fund for recreation and park amenities on City owned property designed for public use; (2) to authorize the City Manager to sign a letter of commitment to provide matching funds if the City is awarded the grant; and (3) to accept the grant funds if awarded.

The Parks and Recreation Trust Fund (PARTF) provides dollar-for-dollar matching grants to local governments for the acquisition and/or development of park and recreational projects to serve the general public. The City is requesting the maximum funding of $500,000 with this application. A project must be located on a single site. The City is requesting funds for recreation and park amenities on the East Bank of the French Broad River Greenway.

Pros:

- Provides public recreational resources and amenities

- The PARTF grant is a significant funding opportunity that will allow the City to move forward on these investments.
- The City has already shown a commitment to improving the parks and greenway infrastructure on the East Bank of the French Broad River as a part of the East of The Riverway Plan
- The City already has the required matching funds to move forward with this project

Con:

- None

Matching funds for this grant are already in place via the existing Capital Improvement Program.

City staff recommends City Council adopt a resolution authorizing the City Manager to submit a grant application for the PARTF grant; and to authorize the City Manager to sign a letter of commitment to provide matching funds if the City is awarded the grant.

RESOLUTION BOOK NO. 37 - PAGE 418

M. RESOLUTION NO. 16-64- RESOLUTION ESTABLISHING A CITY OF ASHEVILLE, BUNCOMBE COUNTY AND DUKE ENERGY PROGRESS "ENERGY INNOVATION TASK FORCE"

Summary: The consideration of a joint City/County/Utility resolution establishing the Energy Innovation Task Force.

On October 23, 2013, Asheville City Council adopted the Resolution 13-228 Supporting Clean Energy Economy which includes the following six action items:

1. Support a local clean energy future for the City and the region;
2. Call on Duke Energy Progress to partner with the City to help meet its carbon reduction goals by decreasing reliance on fossil fuels including transitioning from coal to electricity provided by clean, renewable energy sources while continuing to meet the company's obligation to provide affordable and reliable electricity to all customers 24 hours a day, 7 days a week;
3. Call on Duke Energy to continue and expand its investments in and programs supporting renewable energy, energy efficiency and energy conservation;
4. Call on Duke Energy to stop the spread of coal ash pollution and remediate existing coal ash pollution;
5. Develop a Clean Energy Partnership Progress Report that documents the achievements of this new partnership with Duke Energy, and;
6. Seek input from a variety of stakeholders when identifying collaboration opportunities for this partnership, which was adopted as an amendment to the Resolution as it was presented (this was added as an amendment to the resolution by Mayor Terry Bellamy as reflected in the meeting minutes).

After the resolution was adopted, the Sustainability Advisory Committee on Energy & the Environment (SACEE) formed an Energy Task Force and invited stakeholders to participate in a community input process. Two sessions were held in August and September 2014, and a final session in July 2015. During the first input session participants were asked to brainstorm action items on what a community clean energy plan would address; including areas of focus in policy, programming, education outreach and projects. Participants were able to prioritize action items through a survey and results were vetted during the second session. The final session in July 2015, the participants were give the framework in which the prioritized action items were developed into the Community Clean Energy Policy Framework.

A resolution adopting the Community Clean Energy Policy Framework was approved by City Council on October 27, 2015 as a guide for ongoing policy decisions and City staff work plans. The Clean Energy Framework included an effort to launch a collaborative partnership with Duke Energy Progress to build a foundation for a longer term community energy efficiency, clean renewable energy sources; decreasing the City's reliance on fossil fuels.

In early December of 2015 representatives from the City of Asheville, Buncombe County, Duke Energy and interested non-governmental organizations began meeting to discuss this partnership, which has developed into the Energy Innovation Task Force.

This Energy Innovation Task Force will be made up of governmental, business (large, institutional and commercial), non-profit finance and environmental advocacy groups, shown below. Duke Energy supports the resolution and has served as a co-convener of this group.

Industry	Organization	Representative
Environmental Advocacy	Sierra Club	Kelly Martin
Utilities	Duke	Jason Walls
Local City Government	City of Asheville, City Council	Julie Mayfield
Local County Government	Buncombe County Board of Commissioners	Brownie Newman
Non-Profits	Green Opportunities	George Jones
Institutional Users	Mission Hospital	Sonya Greck
Development	Biltmore Farms	Paul Szurek
Industrial Users	New Belgium	Jim Spencer
Hotel Industry	BCTDA	Himanshu Karvir
Institutions Higher Education	UNCA	Ed Katz
Banking	Self Help Credit Union	Jane Hatley
Local Business Association	Asheville Chamber	Toby Weas
City Advisory Board	SACEE	Sonia Marcus
Green Development	Green Building Council	Sam Ruark
Solar	Sundance Power	Dave Hollister

The task force will focus its work around:

- Education/training/communication through active community engagement to drive more energy-efficient behavior.
- Technology development and implementation through deliberate investment in distributed energy resources (primarily solar) and storage.
- Greater access to and promotion of energy efficiency products/programs and demand-side management offerings.

Pros:

- Continues sustainability efforts including carbon footprint reductions and a clean energy economy through a partnership with Buncombe County, Duke Energy, and community stakeholders.
- Reducing energy consumption will make our community less dependent on fossil fuels and more reliant on renewable energy.
- Duke Energy Progress has agreed to postpone or avoid the construction of an additional turbine engine at the Lake Julian power plant if our community demonstrates less reliance on the fuel powered plant.

- Opportunity to provide the residents of Buncombe County and City of Asheville a cleaner, affordable and smarter energy future.
- The successful collaboration of public and private partnerships moving the Western North Carolinas into a clean energy future.

Cons:

- The funding to implement the recommendations has not been identified.

City staff recommends that City Council adopt the resolution establishing the joint City/County/Utility Energy Innovation Task Force.

Councilwoman Mayfield said that in October of 2013, City Council adopted a resolution calling on Duke Energy Progress to create a partnership to help reduce the City of Asheville's reliance on fossil fuels and energy use generally. More recently when Duke Energy Progress revised its Modernization Plan it also suggested a partnership between the City, the County and itself with that same goal to reduce our overall energy use, to avoid construction of additional fossil fuel capacity in the early 2020s. She asked that the Task Force be amended to include a representative from GE Aviation. She explained how this Task Force is precedent-setting in North Carolina.

Mr. Benji Burrell spoke in support of this Task Force.

Mr. Jason Walls, representing Duke Energy Progress, said that they were delighted to be a partner on this Task Force and they look forward to getting started.

RESOLUTION BOOK NO. 37 - PAGE 419

Mayor Manheimer asked for public comments on any item on the Consent Agenda.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Councilman Smith moved for the adoption of the Consent Agenda, with an amendment to the Energy Innovation Task Force to include a representative from GE Aviation. This motion was seconded by Vice-Mayor Wisler and carried unanimously.

ITEMS REMOVED FROM THE CONSENT AGENDA FOR INDIVIDUAL VOTES

C. RESOLUTION NO. 16-55 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A LETTER OF INTENT AND ACCEPT SEVERAL GREENWAY EASEMENTS FOR THE RHODODENDRON GREENWAY GREENWAY

Councilwoman Mayfield recused herself from voting because the greenway runs behind her home and her homeowners association is one of her parties to this agreement. Even though she stepped out of the negotiations when she was elected to Council, she asked to be recused from voting.

Summary: The consideration of a resolution authorizing the City Manager to execute a Letter of Intent and accept several greenway easements that are granted by property owners Mountain Sun Building & Design, Davenport Park Homeowners Association, Inc., and Green Development, LLC, that lie contiguously along Rhododendron Creek between Shelburne Road and Estes Court.

In 2015, the City was contacted by the owner of Mountain Sun Building & Design, LLC and the Davenport Park Homeowners Association, Inc. to discuss the possibility of the donations

of easements on their properties for the Rhododendron Greenway. The homeowners' association believed they had previously granted a greenway easement to the City on their property but that with a new greenway easement from Mountain Sun, a different alignment would be more logical. At this time, staff has not been able to find any record of another greenway easement but will allow language in the legal document that allows the annulment of prior easements. Green Development, LLC, the developer of Davenport Park subdivision, consulted with the City during these negotiations and also agreed to provide additional easements on three contiguous parcels that will be developed in the future.

The three property owners have agreed to donate the following easements:

Property Owner	PIN	Size of Easement
Mountain Sun Building & Design, LLC	9628-92-4520	6070 SF / /0.1393 AC
Davenport Park Homeowners Association, Inc.	9628-92-7134	12,253 SF / 0.2813 AC
Green Development, LLC	9628-92-6562 9628-92-6513 9628-92-5672	1449 SF / 0.0333 AC 1411 SF / 0.0324 AC 3571 SF / 0.1477 AC

The total size of the combined easements is 24,754 square feet or 0.57 acres.

Rhododendron Creek Greenway, as seen on the Greenway Master Plan begins at Hominy Creek Greenway on Shelburne Rd. near the former Armory and extends to Sand Hill Road near Vance School. Implementation of this greenway is not in the near future, but staff agrees that donation of these easements areas beneficial to the City and fit with the planned alignment.

The City has drafted a Letter of Intent which outlines the major conditions regarding the offer and acceptance of the greenway easements. These include the following:

- Easements will be donated to the City at no cost.
- The granting property owners acknowledge and agree that while the City has conceptually identified the Rhododendron Creek Greenway Corridor of the Asheville Greenway Master Plan, the City has no current action to implement this greenway corridor as a paved trail or otherwise and by accepting these greenway easement donations, the City will not be making this greenway project a priority and will have no obligation to maintain or make any improvements to the easement areas unless, and until, the greenway project is implemented.
- By accepting this offer of donation, the City recognizes that this property represents the preferred location of the greenway corridor rather than the property along the east side of Rhododendron Creek and the City further agrees to amend the any greenway easement that was granted to it by the Davenport Park HOA regarding PIN 962-92-5672, to reflect this new alignment along the west side of the creek.
- Any and all terms associated with the donation and acceptance of these greenway easements are subject to the final approval of the City of Asheville. Monthly updates were given to the Greenway Committee but due to time sensitivity of this agreement on the developers' part, no vote was taken. Nor was this issue brought to the Multimodal Transportation Commission.

Pros:

- Accepting the easement will provide legal access to the land area needed for the Rhododendron Creek Greenway.

- The property owners propose to donate the easement at no cost to the City.

Con:

- None noted.

No monetary consideration involved in this conveyance.

City staff recommends City Council approve a resolution authorizing the City Manager to execute the Letter of Intent, and to accept and sign easements totaling 24,754 square feet on private property for purposes of land banking easements for Rhododendron Creek Greenway.

Councilman Bothwell moved for the adoption of Resolution No. 16-55. This motion was seconded by Councilman Young and carried unanimously (with Councilwoman Mayfield being recused from voting).

III. PRESENTATIONS & REPORTS:

A. UPDATE ON HOMESTAY PERMITTING PROGRAM

Director of Development Services Jason Nortz said that this report is an update on the Homestay Permitting Process enacted via a wording amendment that was adopted on November 17, 2015. The data in this report spans a time frame from November 18, 2015, to March 1, 2016.

Due to strong demand for home based lodging, City Council passed a text amendment to Section 7-16-1(c)(9) to modify the requirements for a Homestay Permit. Some of the major changes to the requirements for Homestay Permitting were:

- The removal of a 500-foot separation requirement (between homestays)
- The removal of the minimum home size requirement of 2,500 sf.
- The removal of the need for additional off-street parking
- The removal of the requirement to provide a morning meal
- Only one homestay shall be permitted per lot
- Provisions requiring appropriate insurance
- Provisions for a required annual inspection
- Requirement that a maximum of no more than two (2) bedrooms be used for the homestay.

With these and other smaller changes, a Homestay shall:

- Be operated by a full time resident
- Meet all applicable life safety codes
- Exist as the only homestay on the parcel
- Provide all proper insurance policies
- Pay all applicable taxes.

Applications for the Homestay permit are submitted to and reviewed by the Development Services Department (DSD). In response to the changes made by this text amendment, the DSD retained a Development Review Specialist working within the Planning & Zoning Division to carry out all Homestay related tasks and conduct all Short-Term Rental enforcement activities. Additionally, the DSD produced a single page application, checklist and guide to be used when preparing a submittal for this permit.

The DSD began receiving applications for Homestay permits under the new provisions on November 18, 2015. Through March 1, 2016, there have been 52 applications submitted for the

Homestay permits. The properties subject to these applications have been primarily focused within a few neighborhoods.

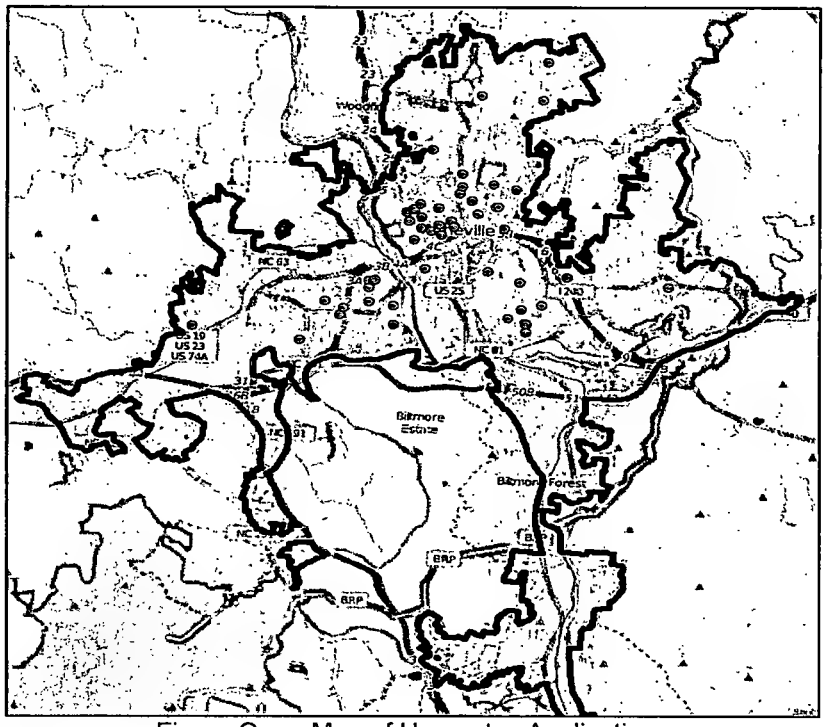

Figure One. Map of Homestay Applications

As the above map shows, the majority of the properties for which a Homestay use is desired are located generally in the area known as "North Asheville". To date, approximately 85% of homestay permit applications have been approved and issued. The table below (figure two) contains further information related to Homestay permitting thus far.

Number of Applications Submitted	**52**
Number of Permits Issued	**46**
Average Total Home Size	**2,049 sf**
Average Homestay Area Size	**293 sf**
Average Percentage of Total Home Size	**15%**
Average # of Bedrooms	**1.5**
Average Age of Structure	**70 years**
Homestays Providing Off-Street Parking	**72% (33 sites)**

Figure Two. Homestay Data Through 3.1.2016

Enforcement: Along with creating new allowances for Homestay uses, the ordinance changes also set forth a commitment to enforcement of these rules in the form of identifying and notifying properties that are in violation of the allowances. At the onset of the new regulations, there were also several ongoing enforcement cases that now had the opportunity to convert to legal Homestay uses through the permitting process. Prior to the adoption of the Homestay

amendment, there were over 50 existing short-term rental violations. Roughly 22 percent have come into compliance through the Homestay permitting process. Since the adoption of the changes to the Homestay Ordinance, the City has received 17 complaints that have resulted in active enforcement for violation of the Homestay Ordinance or operation of a short-term rental where it is prohibited by zoning district.

Thus far, proactive enforcement has been promoted through the review of the various online advertising outlets for short-term rentals (i.e.; Air BnB, VRBO), responsive investigation of complaints made via email, phone and the Asheville App and visual surveys conducted by the Development Review Specialist. Moving forward, proactive enforcement is planned to be enhanced through possible partnerships regarding homestay tax revenue information received by Buncombe County and other short-term rental websites.

Staff Concerns: Through the administration of the revised permitting program, staff has encountered many different scenarios through homestay applications and enforcement. Included among these concerns are:

- Possible false representation of residency;
- Floorplans not representing legally permitted building work;
- Accurately identifying livable space and unit separation;
- Correctly identifying possible violation locations based upon limited information provided online (such as the lack of exterior photos of properties); and
- Continuing press and recognition of the value of the short-term rental market in Asheville.

Next Steps: Staff will continue to explore ways to more proactively enforce short-term rental violations as well as look at other ways to enhance the efficiency of the program. Our next 4 month update will be in July.

In response to Councilwoman Mayfield, Mr. Nortz said that of the 50 existing homestays that were in non-compliance before the update to the ordinance, 11 have since been permitted, 33 are no longer in violation, and 6 are pending follow-up from our Development Review Specialist.

When Councilman Bothwell asked if there was a predominant violation, Enforcement Officer Shannon Morgan said that most violations were basically operating a short term rental without a permit, or operating a short term rental with no one living in the residence.

In response to Councilwoman Mayfield, Mr. Nortz felt that are people who are trying to comply with our ordinance but there is a good portion of properties that are operating as illegal short term rentals and we are working on pro-active enforcement of those.

Councilman Bothwell wondered if the lack of applications predominately reflects that people are operating illegally or really reflects that there weren't as many as we thought there were in the first place.

In response to Councilman Smith, Mr. Nortz explained the concern of possible false representation of residency and said they are working on a process to deal with that now.

B. QUARTERLY I-26 CONNECTOR UPDATE

Transportation Director Ken Putnam brief Council on the quarterly I-26 Connector update as follows: (1) purpose of the quarterly updates; (2) benchmark data - December 16, 2015 (City comments regarding the Draft Environmental Impact Statement submitted to Raleigh); (3) post-hearing meeting on January 25, 2016; (4) working group created; and (5) working group's first meeting on March 24, 2016.

Councilwoman Mayfield said that the City's working group is made up of herself, Vice-Mayor Wisler, City Transportation Director Ken Putnam, Director of Planning & Urban Design Todd Okolichany, Chair of the Multimodal Transportation Commission Bruce Emory; and Alan McGuinn, with the Asheville Design Center. She said they will be working with the N.C. Dept. of Transportation to work through the City's/public's concerns.

IV. PUBLIC HEARINGS:

A. PUBLIC HEARING TO CONSIDER THE PERMANENT CLOSING OF AN UNNAMED ALLEY LOCATED NEAR 119 AND 121 SAND HILL ROAD

RESOLUTION NO. 16-65 - RESOLUTION TO PERMANENTLY CLOSE AN UNNAMED ALLEY LOCATED NEAR 119 AND 121 SAND HILL ROAD

Stormwater Division Manager McCray Coates said that this is the consideration of a resolution to permanently close an unnamed alley located near 119 and 121 Sand Hill Road. This public hearing was advertised on February 26, March 4, 11 and 18, 2016.

N. C. Gen. Stat. sec 160A-299 grants cities the authority to permanently close streets and alleys.

Pursuant to this statute, adjoining property owner, Debra Carter, owner of parcels 9638-04-0283, 9638-04-0025 and 9648-04-0159, and Katherine Wersel (on behalf of Vivianne Wersel), owner of parcel 9638-04-0395 have requested the City of Asheville to permanently close the unnamed alley located near 119 and 121 Sand Hill Rd.

The Multimodal Transportation Commission met on October 28, 2015, and approved the closure.

Pros:

- There will be no future compromise of ingress/egress to other property
- The closure would allow for more efficient use of the existing adjacent properties
- Meets Council's goals of efficient land use and planning.

Con:

- None

There will be no fiscal impact related to this closure.

City staff recommends City Council adopt the resolution to permanently close an unnamed alley located near 119 and 121 Sand Hill Road.

Mayor Manheimer opened the public hearing at 5:30 p.m., and when no one spoke, she closed the public hearing at 5:30 p.m.

Mayor Manheimer said that members of Council have previously received a copy of the resolution and it would not be read.

Vice-Mayor Wisler moved for the adoption of Resolution No. 16-65. This motion was seconded by Councilwoman Mayfield and carried unanimously.

RESOLUTION BOOK NO. 37 – PAGE 421

B. PUBLIC HEARING TO CONSIDER THE PERMANENT CLOSING OF AN UNNAMED ALLEY LOCATED BETWEEN OTEEN PARK PLACE AND PINE CONE DRIVE

RESOLUTION NO. 16-66 - RESOLUTION TO PERMANENTLY CLOSE AN UNNAMED ALLEY LOCATED BETWEEN OTEEN PARK PLACE AND PINE CONE DRIVE

Stormwater Division Manager McCray Coates said that this is the consideration of a resolution to permanently close an unnamed alley located between Oteen Park Place and Pine Cove Drive. This public hearing was advertised on February 26, March 4, 11 and 18, 2016.

N. C. Gen. Stat. sec 160A-299 grants cities the authority to permanently close streets and alleys.

Pursuant to this statute, adjoining property owners, Edison and Lillian Degobbi, owners of parcel 68-26-6877, and Paul Ray, owner of parcel 9668-26-6765 have requested the City of Asheville to permanently close the unnamed alley located between Oteen Park Place and Pine Cone Drive. A copy of this resolution was sent by registered or certified mail to all property owners abutting the unnamed alley not joining in the petition to close.

The Multimodal Transportation Commission met on January 27, 2016, and approved the closure.

Pros:

- There will be no future compromise of ingress/egress to other property
- The closure would allow for more efficient use of the existing adjacent properties
- Meets Council's goals of efficient land use and planning.

Con:

- None

There will be no fiscal impact related to this closure.

City staff recommends City Council adopt the resolution to permanently close an unnamed alley located between Oteen Park Place and Pine Cone Drive.

Mayor Manheimer opened the public hearing at 5:32 p.m., and when no one spoke, she closed the public hearing at 5:32 p.m.

Mayor Manheimer said that members of Council have previously received a copy of the resolution and it would not be read.

Councilman Bothwell moved for the adoption of Resolution No. 16-66. This motion was seconded by Vice-Mayor Wisler and carried unanimously.

RESOLUTION BOOK NO. 37 – PAGE 423

C. PUBLIC HEARING TO CONSIDER REZONING THE COMMUNITY BUSINESS I DISTRICT PORTION OF SPLIT-ZONED PROPERTY (COMMUNITY BUSINESS I DISTRICT AND RM-8 RESIDENTIAL MULTI-FAMILY MEDIUM DENSITY DISTRICT) LOCATED AT 338 HILLIARD AVENUE TO CENTRAL BUSINESS DISTRICT AND AN AMENDMENT TO THE OFFICIALLY ADOPTED HEIGHT ZONE MAP

ORDINANCE NO. 4487 - ORDINANCE TO REZONE THE COMMUNITY BUSINESS I DISTRICT PORTION OF SPLIT-ZONED PROPERTY (COMMUNITY BUSINESS I DISTRICT AND RM-8 RESIDENTIAL MULTI-FAMILY MEDIUM DENSITY DISTRICT) LOCATED AT 338 HILLIARD AVENUE TO CENTRAL BUSINESS DISTRICT

ORDINANCE NO. 4488 - ORDINANCE AMENDING THE OFFICIALLY ADOPTED HEIGHT ZONE MAP

Assistant Director of Planning & Urban Design Alan Glines said that this is the consideration of an ordinance to rezone the the Community Business I District portion of split-zoned property (Community Business I District and RM-8 Residential Multi-Family Medium Density District) located at 338 Hilliard Avenue, to Central Business District; and an amendment to the officially adopted Height Zone Map. This public hearing was advertised on March 11 and 18, 2016.

The site proposed for rezoning consists of a single parcel currently split zoned between Residential Multifamily Medium Density District (RM8) and Community Business I District (CBI), approximately 2.35 acres in size, located at 338 Hilliard Avenue. There are several existing structures on the parcel, which has been used as a city park maintenance facility since 1975. The parcel has frontage on both Clingman and Hilliard Avenues and has the potential to provide a prominent entrance into the West End Clingman Avenue Neighborhood (WECAN) and downtown. The site drops off at the southern end of the parcel where a natural drainage swale has out fall from underground pipes that provide stormwater runoff from the downtown area. This portion of the property corresponds with the RM8 section of the site and is part of the Clingman Forest Greenway currently under construction.

The City of Asheville, the owner, is proposing a standard rezoning of the CB 1 portion of a single parcel to Central Business District (CBD) with an amendment to the Height Zone Map to expand the Intermediate Height Zone. No specific development is proposed with this request. The Council and staff have worked together to identify city-owned parcels that could be used to meet city goals. The Residential Multifamily Medium Density District (RM 8) zoned portion of the parcel is not proposed to be rezoned in this application.

Recent Zoning Actions – Nearby on Hilliard Avenue and Asheland Avenue, a number of rezonings have occurred to expand the CBD zoned area. The parcel at 200 Asheland Avenue was approved for CBD rezoning in September 2015. The properties at 226 and 230 Hilliard Avenue were rezoned in 2014. The properties at 86 Asheland and 172 Asheland Avenue was similarly rezoned in 2013. Staff continues to pursue a large-area rezoning along Asheland Avenue with an informational meeting for the neighborhood being planned for March 2016. The vision for the downtown area was studied during the Downtown Master Plan process and expanding the boundaries of the CBD is consistent with the goals of the plan. Also nearby, the Patton Place Apartment project was approved in 2015 at 246 Patton Avenue at the corner of Clingman Avenue and Patton Avenue and will contain 116 residential units and associated parking.

Downtown Guidelines / Special Zoning Considerations – The rezoning request to CBD requires an adjustment to the Height Zone Map which governs the height for future buildings. Staff and the Downtown Commission recommend that the Intermediate Height Zone be applied to this parcel. The Intermediate Height Zone has been applied to parcels along Clingman Avenue and Hilliard Avenue as a buffer from Taller Height zone areas. In addition, any future development would be required to comply with CBD design requirements and review standards.

The rezoning request and the amendment to the Height Zone Map were considered by the Downtown Commission at their meeting on January 8, 2016, and were unanimously recommended for approval. Information was also shared at the West End/Clingman Avenue

Neighborhood (WECAN) board meeting on February 4, 2016. Staff answered general questions about the application and next steps if the zoning is approved.

The Planning and Zoning Commission reviewed the request at their meeting on March 2, 2016, and voted unanimously to recommend approval. Although no one spoke during the public hearing, after the meeting, several neighbors asked questions of staff about the rezoning application.

The area to the north and west of the site are zoned CBD. The Central Business District is the only non-residential zone in the vicinity of the developable portion of the parcel. Uses in this area include residential, commercial and vacant parcels. To the east, Aston Park is residentially zoned and contains restrictions on all non-public uses. It includes the Tennis Center, a playground and walking paths. The park provides a buffer to commercial and higher density residential areas in the CBD and S. French Broad to the east and south. As previously noted, the RM8 portion of the subject property is proposed to remain residentially zoned. It is expected that this area will be used to provide support for Aston Park and the Clingman Forest Greenway, which is consistent with uses allowed for residentially zoned parcels.

The Comprehensive Plan recommends higher density infill development in areas where there are options for employment, transportation and recreation following a more sustainable development pattern. The Downtown Master Plan makes greater residential infill a priority for downtown especially in the neighborhoods surrounding the traditional downtown core. The West End Clingman Avenue Master Plan recommends that the area surrounding Clingman and Hilliard Avenues become the location of mixed-use development with commercial and residential uses.

City Council's 2036 Vision places an emphasis on a Well Planned and Livable Community by encouraging thriving mixed-use areas with business and residential uses linked by an integrated transportation system. This location has the potential to be redeveloped meeting these goals.

Considerations:

- The rezoning is consistent with the vision of growth for the area
- An isolated zoning classification on an single parcel is eliminated
- Adopted plans encourage higher density infill in the Central Business
- The Intermediate Height Zone has been applied to other parcels in the vicinity of this parcel

Staff recommends approval of the proposed rezoning, finding that the request is consistent with City-adopted plans and strategic goals for development in this area.

Mayor Manheimer opened the public hearing at 5:39 p.m. on the rezoning and the amendment to the height zone map.

Ms. Charlene Mayfield, resident in the area, was concerned that the elderly residents on her street were not notified of this change. Mr. Glines explained that the rezoning only affects the area closest to Hilliard Avenue, and that there is no development proposed on the RS-8 portion (affecting Ms. Mayfield) and no connection between the CBD property and Charles Street. He said staff went to the WECAN meeting and sent letters to property owners on Charles Street. The RS-8 portion will remain as is, which is to support the other uses in the area and the greenway (parking). He said that to reach that parking would be from Hilliard Avenue.

Mayor Manheimer closed the public hearing at 5:42 p.m. on the rezoning and the amendment to the height zone map.

Mayor Manheimer said that members of Council have previously received copies of the ordinances and they would not be read.

Councilman Bothwell moved to approve the zoning map amendment for the portion of the property zoned Community Business One (CB 1) to Central Business District (CBD), including the amendment to the Height Zone map in the same area and find that the request is reasonable, is in the public interest, and is consistent with the Comprehensive Plan and other adopted plans in that, (1) the rezoning is consistent with the vision of growth for the area; and, (2) the request aligns with goals for a well-planned and livable community. This motion was seconded by Vice-Mayor Wisler and carried unanimously.

ORDINANCE NO. 4487 - ORDINANCE BOOK NO. 30 – PAGE 243
ORDINANCE NO. 4488 - ORDINANCE BOOK NO. 30 - PAGE 246

PUBLIC HEARING TO SEEK CITIZEN COMMENTS ON THE RELEASE OF A DEED RESTRICTION ON THE CITY-OWNED PROPERTY LOCATED AT 338 HILLIARD AVENUE

RESOLUTION NO. 16-67 - RESOLUTION AUTHORIZING ACTIONS FOR RELEASE OF U.S. DEPT. OF HOUSING AND URBAN DEVELOPMENT DEED RESTRICTION AND APPROVAL OF THE REQUEST FOR PROPOSALS PROCESS FOR THE DISPOSITION OF CITY-OWNED PROPERTY LOCATED AT 338 HILLIARD AVENUE FOR AFFORDABLE HOUSING

Assistant Community & Economic Development Manager Jeff Staudinger said that this public hearing is to seek citizen comments on the release of a deed restriction on the City-owned property located at 338 Hilliard Avenue. This public hearing was advertised on March 11 and 18, 2016.

Also, requested is considerations contained in the Request for Proposals (RFP) for the disposition of that City-owned property (Parks Maintenance Facility) for affordable housing.

Repurposing City-owned property for affordable housing is a mechanism to increase housing supply, supported by Council at their October 2014 worksession on affordable housing. As reported at that worksession, the property at 338 Hilliard was the first property targeted for that repurposing.

In order to achieve that, a suitable site for relocation of the parks maintenance facility function was needed. It has been determined that the city-owned 75 Shelburne Road site meets the facility needs. Capital funds have been budgeted to support the relocation to that site, which is now being planned. Staff anticipates that move will occur prior to January 1, 2017.

The site for redevelopment of affordable housing is about .75 acre of the total 2.5 acre site. The southern portion of the site will be available for use as Aston Park Tennis Center and Clingman Forest Greenway parking,

Staff investigated the suitability of the subject site for affordable housing. Phase 1 and Phase 2 environmental assessments have been performed, as has geotechnical testing. The site has evidence of historical use as a gas station, and some minor soils remediation may be necessary. The site also was filled, and this information will inform the choice of building foundation systems. No red flags to development were discovered. Staff has also initiated rezoning of the parcel to Central Business District, and anticipates completion of that process on March 22, 2016.

1) Public Hearing Release of Deed - The site is subject to a deed restriction associated with original acquisition funding provided by the US Department of Housing and Urban Development (HUD), limiting the parcel's use to "open space." HUD has informed the City that that the current Parks Maintenance parcel can be used for whatever purposes

the City wishes. If funded under the now discontinued Neighborhood Facilities program, the restrictions have already been released, under a blanket ruling from HUD. If the source was CDBG, the property would either need to be used in a manner that meets a National Objective (which affordable housing would do); or the City would need to reimburse the CDBG program in the amount of the fair market value of the property, less any amount of the value created through purchase or improvements attributed to non-CDBG funds.

Because the funding program that led to the deed restriction is not clear, staff recommends treating the property as funded through CDBG, and holding a public hearing, to comply with CDBG regulations. The proposed use as affordable housing meets a national CDBG objective, and therefore the property can be used for this purpose without requiring any repayment of CDBG funds.

2) Considerations for Request for Proposals - Staff is preparing a Request for Proposals (RFP) to solicit concrete proposals from qualified developers to redevelop the .75 acre site on that property for affordable housing.

The RFP outlines the minimum qualifications required to submit a proposal; the project objectives of the City; how the response to those objectives and how qualifications will be scored; the required proposal submittals; the review process; the selection process; and a timeline. Staff proposes that a staff committee, under the Director of Community and Economic Development, be charged with the review of proposals, and making a recommendation to Council of the developer for the project. The Housing and Community Development Committee and the Planning and Economic Development Committee reviewed the Objectives and Timeline, and their input was incorporated into the proposed RFP.

Proposals will be scored for their response to the proposal Objectives:

Housing Program Objectives:

1. Income Targeting:

Requirement:

- A minimum of 51% of all units must be affordable to and leased to households earning 80% or less of Area Median Income.
- The highest score will be awarded to proposals with the highest percentage of units affordable to and to be leased to households earning 80% or less of Area Median Income.

Other Competitive Factors:

- Percentage of Units to be leased to households earning 60% or less of area median income.
- Percentage of Units to be leased to households earning 30% or less of area median income.

2. Maximum Rents:

Requirement:

- The maximum gross rents will be 30% of the targeted incomes and only families and seniors whose incomes are at or below the targeted incomes will be eligible to occupy the housing.

Other Competitive Factor

- Percentage of units with rents lower than 30% of the targeted incomes.

3. Minimum Number, Mix and Sizes of Housing Units:

Requirement:

- At least 40 units must be proposed in the development.

- At least 50% of the units must be proposed as 1-BR units, and 15% of the units as 3-BR units.

Competitive Factors;

- Maximizing the number of units within the site constraints.

4. Term of Affordability

- The unit must be affordable to the income targeted households for a period of no less than 20 years.

Competitive Factors:

- Commitment to longer term of affordability, including but not limited to permanent affordability.

Design Objectives:

1. Sustainability:

Competitive Factors:

- To maximize the overall sustainability of the Development through the integrated use of sustainable building elements, including those that improve indoor air quality, reduce resource consumption, and approach zero-energy consumption.
- Third-party certification of sustainability measures.

2. Housing Habitability

Competitive Factors:

- Appropriately sized units and unit layouts.
- Appropriately located and accessible interior resident amenities such as on-site laundry facilities, and community gathering spaces.
- Exterior amenities such as open spaces accessible only to residents.

3. Urban Design:

Competitive Factors:

- To reinforce the city street pattern and provide for substantial street trees and plantings along the sidewalks, and thoughtful landscaping.
- To consider the scale of neighborhood buildings
- To recognize the relationship of the development to the River Arts District, the Clingman Forest Greenway and Aston Park.

4. Neighborhood/Community Amenities:

Competitive Factors:

- To provide benefits to the broader community by incorporating community-oriented amenities such as an after-school program open to older non-resident children or a senior center open to non-resident seniors.

Financial Objectives

1. Use of City Financing

Competitive Factors:

- The value of the property, whether purchased or leased, is the primary City resource available to subsidize the project. Note: If the property is sold, it will be subject to competitive bidding (upset bid) unless there is a commitment that at least 20% of the units will be affordable to and leased by household at or below 60% of AMI, in which case the City would be authorized to sell as a private negotiated sale.
- The least use of other City subsidy resources as permanent financing.

Preliminary Timeline:

RFP issued by City	Friday, April 15, 2016

Pre-submission meeting at the site	Thursday, April 24 2016
Proposal Submission Deadline	Monday, June 6, 2016
Preliminary Scoring for Minimum Qualifications by Selection Panel and Notice to Respondents	Friday, June 17, 2016
Developer team interviews (if necessary)	Week of June 20, 2016
Staff review and recommendation of development team	Tuesday, July 12, 2016
HCD Committee Review	Tuesday, July 26, 2016
City Council review and approval	Tuesday, August 2016
Contract for Sale or Lease developed, reviewed and approved	September, 2016
Contract executed (potential leaseback of property to City)	October, 2016
Plans and Permits developed and approved	March, 2017
Mobilization, demolition and commencement of construction	May , 2017
Completion of construction, occupancy	April, 2018

Pros:

- The process will lead to the creation of new affordable housing.
- The process will inform future city-land repurposing.
- The process will provide the City with the best value for its resources.
- The City will retain most of the subject parcel for access and parking uses.

Con:

- Any issues with the relocation of the current site function could delay the anticipated outcome.

Fiscal Impact:

- The cost of the relocation of the current parks maintenance facility is budgeted in the City's 2016 Capital Improvement budget.
- The amount of City affordable housing subsidy that will be required to achieve the objectives is currently unknown, but anticipated to be all or a portion of the value of the land that could otherwise be received in a market-based sale of the property.
- The cost of developing parking and improved access to serve the Tennis Center is not known at this time.

Staff recommends approval of actions for the release of the deed restriction on City-owned property located at 338 Hilliard Avenue; and approval of the consideration of the RFP for the disposition of approximately .75 acre located at 338 Hilliard Avenue

Mayor opened the public hearing at 5:51 p.m.

Mr. Timothy Sadler asked that emphasis on building performance be placed on the scorecard on the RFP.

Mayor Manheimer closed the public hearing at 5:52 p.m.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Smith moved for the adoption of Resolution No. 16-67. This motion was seconded by Vice-Mayor Wisler and carried unanimously.

V. UNFINISHED BUSINESS:

VI. NEW BUSINESS:

A. ORDINANCE NO. 4489 - ORDINANCE ADOPTING THE 2016-17 FEES & CHARGES MANUAL

Finance and Management Services Director Barbara Whitehorn said that this is the consideration of an ordinance adopting proposed fee adjustments for Fiscal Year (FY) 2016-17.

The proposed FY 2016-17 fee adjustments were reviewed by the Council Finance Committee on February 23, 2016. She provided Council with a full list of the proposed fees and charges that was presented to the Finance Committee. A summary of Finance Committee recommendations is shown below. As staff continues preparation of the FY 2016-17 Manager's Recommended Budget, there may be additional fee adjustments that are brought forward as part of the budget process in May.

Fee Change Summary:

Parks & Recreation
- Aston Park increases according to schedule; $22k
- Adjustment to WNC Nature Center fees (no change to admissions)

Solid Waste
- Fee Increase from $10.50 to $14/mo.; $1.1 million

Stormwater Fee
- 5% overall increase; $252k

Water Rate Increases
- 1.5% single family, multi-family and small commercial
- 3.5% large commercial and manufacturing
- $473k

US Cellular Center
- Various fees and charges changes; $28k

Motor Vehicle Fee
- Recommend $30/year fee, increase of $20
- $1.4 million in additional restricted revenue

Parking Fund fees
- Parking study currently underway

Development Services Department fees
- Fees to be evaluated
- Cost recovery
- Benchmarking

Councilman Smith wanted to know what the relation is between the solid waste increase and the possible roll-out of the Pay as You Throw Program. He understands this increase is intended to get us closer to a full cost recovery. The idea behind Pay as You Throw is people who send less material to the landfill will be able to pay less. For him to be supportive of this

increase, he will need to be confident that we will be able to move forward with ways for people to decrease their fees with regard to solid waste. Ms. Whitehorn responded and Councilwoman Mayfield noted that the Pay as You Throw program may still be an option to implement mid-year as it is still a work in progress.

Regarding the motor vehicle fee increase to be slated for street maintenance, Councilwoman Mayfield noted that 60.8% of our streets rank either poor or very poor. This increase will help in addressing the backlog of needs and free up some of the General Fund money to be used for other priorities. Councilman Smith also noted that currently Powell Bill funds are used for street maintenance; however, there is a concern that the General Assembly may no longer make those funds available to cities.

City Manager Gary Jackson said that transit fees are not included in this recommendation. At this point, staff is focusing on budget worksessions as the means for Council to tell staff if they would like to pursue other forms and means to fund transit programming. We currently use General Fund dollars, ridership revenues, parking transfer, grant funds, etc. All those options are available to Council as we put together the plan going forward. Staff hopes to get direction from City Council regarding transit on April 12.

Councilman Smith could not support this based on the solid waste fee and the uncertainty of the Pay as You Throw Program.

When Mayor Manheimer asked for public comments, none were received.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the ordinance and it would not be read.

Councilman Bothwell moved for the adoption of Ordinance No. 4489. This motion was seconded by Councilwoman Mayfield and carried on a 6-1 vote, with Councilman Smith voting "no".

ORDINANCE BOOK NO. 30 – PAGE 249

B. MOTION ACCEPTING THE HAYWOOD ROAD CORRIDOR PARKING STUDY

Transportation Director Ken Putnam said that this is the consideration of a resolution to accept the Haywood Road Corridor Parking Study.

The Haywood Road Vision Plan, which was adopted by City Council via Resolution No. 14-37 on February 25, 2014, recommended that a parking study be prepared along the Haywood Road Corridor. The plan was developed through an initiative by the West Asheville Business Association (WABA) and interested local residents to improve the corridor and identify revitalization strategies. An initial meeting was held in 2002 involving local residents, business owners, and City staff to discuss the successes of Haywood Road and opportunities for improvement. This group formed the Haywood Road Corridor Committee and the committee met regularly from 2003 through 2007 and again from 2010 through 2013 to develop the vision plan.

City staff contracted with Kimley-Horn and Associates, Inc. during September 2014 to perform a parking study along the Haywood Road Corridor. The study was accomplished in two phases. Phase I included collecting, summarizing, and analyzing the existing data, meeting with the directly affected stakeholders, and documenting concerns and suggestions. It was completed during June 2015 at a cost of $53,400.

Phase II included collecting, summarizing, and analyzing the existing data along the neighborhood streets in the study area, meeting with the stakeholders who live along the neighborhood streets, developing and analyzing strategies to manage parking demand,

developing recommendations, and preparing the final report that would include potential projects to be considered in the capital improvements process. Phase II has been completed at an anticipated cost of $48,800 and the report is going through the review process.

The projection of future parking demand includes (1) estimate of development in 2022 assuming shared parking; development projections provided by Planning Department; and (3) 180 additional parking spaces needed for projected development.

This item was reviewed by the Planning and Economic Development Committee on February 16, 2016, and they recommended that it move forward to City Council for their review and approval. This item was also reviewed by the Multi-Modal Transportation Commission on January 27, 2016, and their comments have been incorporated into the report.

Pros:

- Accomplished a recommendation from the Haywood Road Vision Plan.
- Inventoried parking supply along the Haywood Road Corridor.
- Identified potential parking deficiencies and issues along the Haywood Road Corridor.
- Provides recommendations to balance parking supply and demand.

Con:

- Cost of potential projects which may be included in the capital improvements process in future years (potential projects may compete with other needed projects).

There is no immediate fiscal impact regarding the subject action. The total cost of the parking study was $102,200 and it was covered by the Parking Enterprises operating budget during FY 2014-15 and FY 2015-16.

Staff recommends that City Council accept the Haywood Road Corridor Parking Study that was prepared by Kimley-Horn and Associates, Inc.

Mr. Fred Burchett, Principal at Kimley-Horn, summarized the data collection. Using charts, he showed the Haywood Road on-street parking in various scenarios, along with their public outreach. He explained the projection of future parking demand. Finally, their recommendations were (1) add parking supply for bicycles and autos by entering into shared parking agreements; (2) construct additional parking supply at Hanover and Haywood; (3) implement residential permit parking program; (4) implement fee for on-street parking in areas with high parking demand; and (5) enhance enforcement of parking regulations. Recommendations are co-dependent.

Councilman Smith was excited to see some of the ideas, especially the residential permit parking program. He said that he would be interested in ways we might look at revenue from private parking lot agreements in addition to the on-street parking areas. He hoped we would also look at expanding mobility and parking options.

In response to Vice-Mayor Wisler regarding the cost and timing of implementing the recommendations , Mr. Putnam said that they are trying to lay out a 10-year parking Capital Improvement Project Program. Once they plug in where they will do all the needs over the next 10 years, the financial model they will be using will help them set the stage to come to Council with a recommendation on what the parking fees will need to be set. They plan to start plugging in some of these recommendations in the year 2018 and to use 2017 to fully vet what the procedures would be for the residential permit parking program. He envisioned the residential permit parking program to be City-wide guidelines, similar to the Traffic Calming Policy. In crafting the residential permit parking program guidelines, staff will utilize some of our advisory committees.

In response to Councilman Bothwell, Mr. Burchett said that the parking demand was higher in the evenings but varied from place to place.

Councilman Bothwell pointed out that may people are using Uber drivers and was that taken into account for future parking demands. Mr. Burchett said that there are no good data sources in the industry now on how to accommodate for that.

In response to Councilwoman Mayfield, Mr. Burchett said that they did contact some churches to see about shared parking agreements. He did say that some were concerned about the trash left in the lot and the City might have to step in with some type of cleaning agreement.

Councilwoman Mayfield said that there was a semi-offer from the Chamber of Commerce leadership to work with the City in contacting with some of the private lot property owners for shared parking arrangements.

Councilman Smith moved to accept the Haywood Road Corridor Parking Study. This motion was seconded by Councilman Bothwell.

Mayor Manheimer pointed out that if we just accept the report, staff will not have been given direction to move forward with any of the recommendations.

Mr. Putnam said that staff would like to proceed with the idea of developing the residential permit parking program.

Therefore, Councilman Smith withdrew his motion.

Councilman Smith then moved to accept the Haywood Road Corridor Parking Study and authorize staff to explore the following: (1) residential parking permit program; (2) efforts towards securing private parking lot agreements; (3) potential for metering Haywood Road; and, (4) continue attention to multimodal transportation. This motion was seconded by Councilman Bothwell.

Regarding enforcement, Vice-Mayor Wisler said that she can support staff looking into these items; however, she would need to understand the cost implications before any implementation.

When Mayor Manheimer asked for public comments, none were received.

The motion made by Councilman Smith and seconded by Councilman Bothwell carried unanimously.

RESOLUTION BOOK NO. 37 – PAGE 426

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

Mr. Christopher Chiaronmonte spoke about time.

Mr. Ron Greenberg spoke about a fire pit at his neighbor's house at 23 Nixon Terrace, which is affecting his well-being and health.

Mr. Timothy Sadler suggested using a lottery system to cap the number of homestays. He also spoke about trash in downtown Asheville and the possible use of a gentrification fee.

Ms. Dana Davis, representing the Asheville Parks and Greenways Foundation, spoke in support of the Beaucatcher Greenway plans.

Ms. Jane Bilello, Chair of the Asheville Teaparty, and Mr. Paul Valone, President of the Grass Roots North Carolina Forum for Firearms Education, spoke to Council about the City complying with the no weapons signs in the parks, and hoped for a permanent solution of the signs.

Ms. Jane Mathews spoke about the homestay ordinance.

Mr. William Spoon was concerned about the number of trees to be cut for the Beaucatcher Greenway.

Closed Session

At 7:12 p.m., Councilman Young moved to go into closed session for the following reasons: (1) To prevent disclosure of information that is privileged and confidential, pursuant to the laws of North Carolina, or not considered a public record within the meaning of Chapter 132 of the General Statutes. The law that makes the information privileged and confidential is N.C.G.S. 143-318.10(a)(3). The statutory authorization is contained in N.C.G.S. 143-318.11(a)(1); (2) To consult with an attorney employed by the City about matters with respect to which the attorney-client privilege between the City and its attorney must be preserved, including, but not limited to, a potential lawsuit. The statutory authorization is contained in N.C. Gen. Stat. § 143-318.11(a)(3); (3) To establish or to instruct the City's staff or negotiating agents concerning the position to be taken by or on behalf of the City in negotiating the terms of a contract for the acquisition of real property by purchase, option, exchange or lease. The statutory authorization is contained in N.C. Gen. Stat. § 143-318.11(a)(5); and (4) To discuss matters relating to the location or expansion of industries. The statutory authorization is contained in N.C. Gen. Stat. § 143-318.11(a)(4). This motion was seconded by Councilman Bothwell and carried unanimously.

At 8:36 p.m., Councilwoman Mayfield moved to come out of closed session. This motion was seconded by Councilman Bothwell and carried unanimously.

VIII. ADJOURNMENT:

Mayor Manheimer adjourned the meeting at 8:36 p.m.

Magdalen Burleson
CITY CLERK

Esther E. Manheimer
MAYOR

Tuesday – April 12, 2016 - 3:00 p.m.

Budget Worksession

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Cecil Bothwell; Councilman Brian D. Haynes; Councilwoman Julie V. Mayfield; Councilman Gordon D. Smith; Councilman W. Keith Young; City Manager Gary W. Jackson; City Attorney Robin T. Currin; and City Clerk Magdalen Burleson

Absent: None

Director of Finance and Management Services Barbara Whitehorn used a PowerPoint to provided Council with information that the base budget is balanced.

She explained the restructuring the plan for employee compensation and health care (1) 3.5% pool allocated; (2) market adjustments and other changes - $500,000; and (3) healthcare changes (a) additional tier - employee plus children; and (b) premium increases across the board.

She expanded the operating budget (on-going) investments which included: (1) a Diverse Community (a) Equity Program Manager; (2) Transportation & Accessibility (a) transit improvement of funding of Multimodal Transportation Commission No. 1 priority for S3 - more flexibility of bus service to Airport; (3) A Clean & Healthy Environment (a) Solid Waste Service Improvements - Sanitation Equipment Operator; (b) Food (a) Add $85,000 for Strategic Partnerships ($40,000 for LEAF Programming and $45,000 for IRL Programming); and (5) A Smart City (a) Project Manager in Information Technology to address increased work order volume; (b) Planner/Urban Designer for the Downtown Master Plan and other projects; and (c) Crime Prevention Analyst. She then reviewed the Fiscal Year 2017-18 Public Safety planning.

One-time strategic goal investments include (1) South Slope/Downtown Visioning ($150,000); (2) Real Estate & Facilities Diagnostics ($357,000); (3) Deferred Maintenance Fund ($200,000); (4) Parks & Recreation Services & Facilities Assessment ($60,000); (5) Staff Created Solutions Fund ($100,000); (6) Program and Process Improvements (a) actuarial analysis of OPEB ($25,000); (b) Health Fund and Health Care Actuarial Study ($150,000); (c) Payroll & Benefits Audit ($90,000); and (d) Organizational Development & Performance Management ($100,000); and (7) Proposed Buncombe Community Capital Fund - $250,000 Seed Capital for a $1 Million Small Business Loan Program.

Using charts, Ms. Whitehorn then reviewed the Fund Balance Analysis. Her recommended fund balance recommendations included (1) allocate $850,000 to one-time investments in strategic goal areas; (2) reserve $1 Million for Lee Walker Heights; (3) reserve $1.3 Million in infrastructure capital reserve; and (4) allocate $1.75 Million to unrestricted, unassigned fund balance - 16.9%.

Issues and discussion included (1) goal area recommendations; (2) unrestricted fund balance, general fund; and (3) employee compensation & benefits.

Throughout Ms. Whitehorn's presentation, she and other staff members responded to various questions/comments from Council, and those which could not be readily responded to would be provided to Council in a memorandum format. Some questions raised included whether it would be better to wait until the disparity study has occurred before hiring an Equity Program Manager in order to better understand the skill-set needed; approximately when will the Equity Program Manager be hired; City Manager Jackson to route initial Equity Program and objectives through the Governance Committee and then develop the job description; what costs are associated with the Backyard Composting Program; will we work with other partners for waste reduction efforts; what is involved with the Food Action Plan coordination; explanation of the costs associated with LEAF Programming; request for complete list of formalized relationships with all

non-profits to include process on how funds are awarded (application process; agreement, etc.), total amounts to include any in-kind donations, grants, etc., and whether they are one-time allocations or on-going; what is the Downtown Association's partnership regarding the July 4 celebration; how will the Small Business Loan Program be different from other loan programs; what outcomes are anticipated from the Crime Prevention Analyst; request for information on the Downtown District, understanding it is not being proposed for funding in Fiscal Year 2016-17; more information relative to the need for Fire Station 14; need for ultimate Council decision on vacant Fire Station on Merrimon Avenue; explanation of federal requirement to have 4 firefighers per truck; request for additional information concerning the need for $150,000 for the South Slope/Downtown Visioning; request to have a good understanding of the City's real estate assets, with maintenance status on each, how they were purchased and if there are any restrictions; is the actuarial analysis of OPED and the Health Fund and Health Care Actuarial Study needed at this time; consensus to rename the South Slope/Downtown Visioning to include a range of services around growth and development city-wide; what does the 3.5% salary increase to City employ come to in dollars; and, consensus to see less in the Section 108 Fund for Lee Walker Heights Project.

Direction was given to Ms. Whitehorn to not only add the additional bus on S3 to the Airport at $384,000, but to also add the extended hours (8 additional) for buses at a cost of $250,000 and to add the City Transportation Planner Positions at a cost of $73,000.

Direction given to Ms. Whitehorn to continue with the direction of funding in Fiscal Year 2017-18 the Fire Station #14 (with request to see if the $750,000 price could be reduced and if there are any other ways to address the coverage issue), along with the Asheville Police Department Downtown District.

Direction given to Ms. Whitehorn to look at a range of 16.4 to 16.5 unrestricted, unassigned fund balance.

Ms. Whitehorn then reviewed the upcoming dates associated with adoption of the budget.

At 4:45 p.m., Mayor Manheimer adjourned the worksession.

Tuesday – April 12, 2016 - 5:00 p.m.

Regular Meeting

Present: Mayor Esther E. Manheimer, Presiding (recused from meeting at 7:18 p.m.); Vice-Mayor Gwen C. Wisler; Councilman Cecil Bothwell; Councilman Brian D. Haynes; Councilwoman Julie V. Mayfield; Councilman Gordon D. Smith; Councilman W. Keith Young; City Manager Gary W. Jackson; City Attorney Robin T. Currin; and City Clerk Magdalen Burleson

Absent: None

PLEDGE OF ALLEGIANCE

Mayor Manheimer led City Council in the Pledge of Allegiance.

I. PROCLAMATIONS:

A. EMPLOYEE RECOGNITION

City Manager Jackson recognized chief codes official Mark Matheny for receiving an award from the International Code Council (ICC) as Code Official of the Year for Region VIII. Region VIII includes Georgia, Tennessee, South and North Carolina.

Mayor Manheimer thanked Mr. Matheny and all employees on what they do on behalf of the City of Asheville and City Council. She was proud of City staff and looked forward to highlighting more accomplishments.

B. SIGNING OF 2X4 FOR THE FIRST WALL FOR THE ASHEVILLE AREA HABITAT FOR HUMANITY HOUSE BUILT IN RECOGNITION OF GENEROUS SUPPORT FROM THE CITY OF ASHEVILLE AND BUNCOMBE COUNTY

Mayor Manheimer recognized Mr. Andy Barnett, Executive Director of the Asheville Area Habitat for Humanity, who then recognized Ms. Tera Jabs.

He said that next week Asheville Area Habitat for Humanity will be celebrating its relationship with the City of Asheville and the County of Buncombe by beginning to build a new house. This affordable, Green Built NC house is named in honor of the public funds that helped create the infrastructure for the West Asheville subdivision, where it will be the last and 25th house constructed.

The house is located on Soulshine Court, a new street built off Johnston Boulevard and named for a Warren Haynes song, in honor of the musician's years of commitment to Asheville Area Habitat. The street was created with a combination of funds from Housing and Urban Development's HOME program through the City of Asheville and grants and loans from Buncombe County's Affordable Housing Services Program. This creative collaboration between the County, the City, a private foundation and a nonprofit demonstrate the commitment needed from many sources to address the affordable housing crisis faced by so many Buncombe County residents.

The energy-efficient 3-bedroom house will be purchased by a Tera Jabs, a single mother with two children, who works for another nonprofit performing intake services for veterans. Like so many others in our County, she works hard on behalf of others but falls short in her ability to purchase a safe, affordable home for her family without a hand up. After completing 200 hours of sweat equity – or volunteer labor helping to build her house – she will close on the home and begin paying a zero-percent interest mortgage.

House construction begins on April 12 and will be completed by mid-October.

Mayor Manheimer was pleased to note that when completed, the City/County House will be the 293rd house built by Asheville Area Habitat for Humanity in Buncombe County.

C. PROCLAMATION PROCLAIMING APRIL AS "PARKINSON'S DISEASE AWARENESS MONTH"

Councilman Bothwell read the proclamation proclaiming April, 2016, as "Parkinson's Disease Awareness Month" in the City of Asheville. He presented the proclamation to Nancy and Jim Hall, and others, who briefed City Council on some activities taking place during the month.

D. PROCLAMATION PROCLAIMING APRIL, 2016, AS "CHILD ABUSE PREVENTION MONTH"

Councilman Smith read the proclamation proclaiming April, 2016, as "Child Abuse Prevention Month" in the City of Asheville. He presented the proclamation to Mr. Geoff Sidoli and Ms. Jennifer Nehlsen who briefed City Council on some activities taking place during the month.

E. PROCLAMATION PROCLAIMING APRIL 18, 2016, AS "LINEMAN APPRECIATION DAY"

Vice-Mayor Wisler read the proclamation proclaiming April 18, 2016, as "Lineman Appreciation Day" in the City of Asheville. She presented the proclamation to Mr. Jason Walls, representing Duke Energy Progress, and linemen who briefed City Council on some activities taking place during the day.

II. CONSENT AGENDA:

A. **APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON MARCH 22, 2016**

B. **RESOLUTION NO. 16-68 - RESOLUTION AUTHORIZING THE POSSESSION AND/OR CONSUMPTION OF ALCOHOLIC BEVERAGES AND/OR UNFORTIFIED WINE AT THE RACE TO THE TAP CATAWBA**

RESOLUTION NO. 16-69 - RESOLUTION AUTHORIZING THE POSSESSION AND/OR CONSUMPTION OF ALCOHOLIC BEVERAGES AND/OR UNFORTIFIED WINE AT THE INTERLUDE CLOSING PARTY

RESOLUTION NO. 16-70 - RESOLUTION AUTHORIZING THE POSSESSION AND/OR CONSUMPTION OF ALCOHOLIC BEVERAGES AND/OR UNFORTIFIED WINE AT EARTH FARE 5K

RESOLUTION NO. 16-71 - RESOLUTION AUTHORIZING THE POSSESSION AND/OR CONSUMPTION OF ALCOHOLIC BEVERAGES AND/OR UNFORTIFIED WINE AT THE BEER CITY FESTIVAL

RESOLUTION NO. 16-72 - RESOLUTION AUTHORIZING THE POSSESSION AND/OR CONSUMPTION OF ALCOHOLIC BEVERAGES AND/OR UNFORTIFIED WINE AT ASHEVILLE VEGANFEST

RESOLUTION NO. 16-73 - RESOLUTION AUTHORIZING THE POSSESSION AND/OR CONSUMPTION OF ALCOHOLIC BEVERAGES AND/OR UNFORTIFIED WINE AT THE CLIPS BEER & FILM TOUR

RESOLUTION NO. 16-74 - RESOLUTION AUTHORIZING THE POSSESSION AND/OR CONSUMPTION OF ALCOHOLIC BEVERAGES AND/OR UNFORTIFIED WINE AT THE BEER CITY CUP

RESOLUTION NO. 16-75 - RESOLUTION AUTHORIZING THE POSSESSION AND/OR CONSUMPTION OF ALCOHOLIC BEVERAGES AND/OR UNFORTIFIED WINE AT THE BLUE RIDGE PRIDE FESTIVAL

RESOLUTION NO. 16-76 - RESOLUTION AUTHORIZING THE POSSESSION AND/OR CONSUMPTION OF ALCOHOLIC BEVERAGES AND/OR UNFORTIFIED WINE AT THE HOWL-O-WEEN WALKATHON

RESOLUTION NO. 16-77 - RESOLUTION AUTHORIZING THE POSSESSION AND/OR CONSUMPTION OF ALCOHOLIC BEVERAGES AND/OR UNFORTIFIED WINE AT THE ZERO-PROSTATE CANCER RUN/WALK

Summary: The consideration of resolutions making provisions for the possession and consumption of malt beverages and/or unfortified wine at Race to the Taps Catawba, Interlude Closing Party, Earth Fare 5K, Beer City Festival, Asheville VeganFest, Clips Beer & Film Tour, Beer City Cup, Blue Ridge Pride Festival, Howl-o-Ween Walkathon, and Zero-Prostate Cancer Run/Walk.

- Asheville Humane Society has requested through the City of Asheville Community & Economic Development Department that City Council permit them to serve beer and/or unfortified wine at Race to the Taps Catawba and allow for consumption at this event.

  Race to the Taps Catawba will be held on Saturday, April 23, 2016 from 12:00 p.m. to 4:00 p.m. within the boundaries of Banks Avenue as per the area limits referenced on the accompanying site map.

- Black Mountain College Museum + Arts Center has requested through the City of Asheville Community & Economic Development Department that City Council permit them to serve beer and/or unfortified wine at Interlude Closing Party and allow for consumption at this event.

  Interlude Closing Party will be held on Friday, April 29, 2016 from 6:00 p.m. to 10:00 p.m. within the boundaries of Walnut Street as per the area limits referenced on the accompanying site map.

- Asheville Track Club has requested through the City of Asheville Community & Economic Development Department that City Council permit them to serve beer and/or unfortified wine at Earth Fare 5K and allow for consumption at this event.

  Earth Fare 5K will be held on Saturday, May 14, 2016 from 6:30 a.m. to 11:30 a.m. within the boundaries of Carrier Park as per the area limits referenced on the accompanying site map.

- Asheville Brewers Alliance has requested through the City of Asheville Community & Economic Development Department that City Council permit them to serve beer and/or unfortified wine at Beer City Festival and allow for consumption at this event.

  Beer City Festival will be held on Saturday, May 28, 2016 from 1:00 p.m. to 7:00 p.m. within the boundaries of Pack Square Park as per the area limits referenced on the accompanying site map.

- Brother Wolf Animal Rescue has requested through the City of Asheville Community & Economic Development Department that City Council permit them to serve beer and/or unfortified wine at Asheville VeganFest and allow for consumption at this event.

  Asheville VeganFest will be held on Sunday, June 12, 2016 from 11:00 a.m. to 5:00 p.m. within the boundaries of Pack Square Park as per the area limits referenced on the accompanying site map.

- Asheville on Bikes has requested through the City of Asheville Community & Economic Development Department that City Council permit them to serve beer and/or unfortified wine at Clips Beer & Film Tour and allow for consumption at this event.

  Clips Beer & Film Tour will be held on Friday, August 26, 2016 from 6:30 p.m. to 10:00 p.m. within the boundaries of Pack Square Park as per the area limits referenced on the accompanying site map.

- WNC Soccer Foundation has requested through the City of Asheville Community & Economic Development Department that City Council permit them to serve beer and/or unfortified wine at Beer City Cup and allow for consumption at this event.

Beer City Cup will be held on Sunday, September 4, 2016 from 8:00 a.m. to 10:00 p.m. within the boundaries of Memorial Stadium as per the area limits referenced on the accompanying site map.

- Blue Ridge Pride Center has requested through the City of Asheville Community & Economic Development Department that City Council permit them to serve beer and/or unfortified wine at Blue Ridge Pride Festival and allow for consumption at this event.

  Blue Ridge Pride Festival will be held on Saturday, October 1, 2016 from 11:30 a.m. to 7:00 p.m. within the boundaries of Pack Square Park as per the area limits referenced on the accompanying site map.

- Brother Wolf Animal Rescue has requested through the City of Asheville Community & Economic Development Department that City Council permit them to serve beer and/or unfortified wine at Howl-o-Ween Walkathon and allow for consumption at this event.

  Howl-o-Ween Walkathon will be held on Saturday, October 29, 2016 from 11:30 a.m. to 3:00 p.m. within the boundaries of Carrier Park as per the area limits referenced on the accompanying site map.

- Zero-The End to Prostate Cancer has requested through the City of Asheville Community & Economic Development Department that City Council permit them to serve beer and/or unfortified wine at Zero-Prostate Cancer Run/Walk and allow for consumption at this event.

  Zero-Prostate Cancer Run/Walk will be held on Saturday, November 5, 2016 from 8:00 a.m. to 1:00 p.m. within the boundaries of Carrier Park as per the area limits referenced on the accompanying site map.

Pro:

- Allows fundraising opportunities for Asheville Humane Society, Black Mountain College Museum + Arts Center, Asheville Track Club, Asheville Brewers Alliance, Brother Wolf Animal Rescue, Asheville on Bikes, WNC Soccer Foundation, Blue Ridge Pride Center, and Zero-The End to Prostate Cancer

Con:

- Potential for public safety issues

There is no fiscal impact.

City staff recommends City Council adopt resolutions authorizing the City Manager to approve a resolution making provisions for the possession and consumption of malt beverages and/or unfortified wine at Race to the Taps Catawba, Interlude Closing Party, Earth Fare 5K, Beer City Festival, Asheville VeganFest, Clips Beer & Film Tour, Beer City Cup, Blue Ridge Pride Festival, Howl-o-Ween Walkathon, and Zero-Prostate Cancer Run/Walk.

C. RESOLUTION NO. 16-78 - RESOLUTION AUTHORIZING THE CITY MANAGER TO AMEND AN EXISTING CONTRACT WITH APPALACHIAN PAVING AND CONCRETE INC. FOR THE PROJECT KNOWN AS CONCRETE REPAIR - UTILITY CUTS

Summary: The consideration of a resolution authorizing the City Manager to amend an existing concrete repair contract in the amount of $50,000 with Appalachian Paving and Concrete, Inc., for the project known as Concrete Repair – Utility Cuts.

City Council initially adopted a resolution authorizing the City Manager to enter into a contract with Appalachian Paving and Concrete, Inc. in October, 2014, (resolution #14-238), in the amount of $257,183.75 plus a contingency of $42,816.25 (17%), for the repair of concrete infrastructure that has been damaged by the installation of utilities. Due to the volume of utility cuts that have been repaired by the contractor, the previously approved funding has been nearly exhausted.

The City is in the process of executing a new contract to perform these services (which is also on this agenda). This increase in funding is being requested to ensure that repair work can continue until the replacement contract, Concrete Repair – Utility Cuts FY15-16 (on this agenda), can be approved and fully implemented.

Pro:

- Provides for the timely repair on concrete infrastructure that has been damaged by the installation of utilities.

Con:

- Project management and contract administration will consume staff time.

The Street Cut Utility Program is an enterprise fund that is funded by fees paid by the four partners participating in the program. The partners will be billed 100% of the repair cost meaning that the City realizes full cost recovery.

City staff recommends City Council adopt a resolution authorizing the City Manager to amend the current contract with Appalachian Paving and Concrete to repair concrete infrastructure damage by utility installation for an amount not to exceed $50,000.

RESOLUTION BOOK NO. 37 - PAGE 456

D. RESOLUTION NO. 16-79 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT WITH NELSON/NYGAARD CONSULTING ASSOCIATES INC. TO PREPARE A COMPREHENSIVE PARKING STUDY

ORDINANCE NO. 4490 - BUDGET AMENDMENT TO FUND COMPREHENSIVE PARKING STUDY

Summary: The consideration of (1) a resolution authorizing the City Manager to enter into a general services contract in the amount of $120,000 including contingencies (the contract amount is $109,433) with Nelson \ Nygaard Consulting Associates, Inc. to prepare a comprehensive parking study; and (2) a budget amendment in the amount of $45,000 from current year parking services revenue to provide sufficient budget authorization to fully encumber the contract.

Although the Parking Enterprises Fund has been and continues to be very healthy, staff continues to receive requests regarding parking needs on a regular basis. In order to address these needs and to make the most efficient use of the overall limited funds, staff is moving

forward with plans to develop a long-term parking program including a 10-year capital improvements program.

As a first step, the comprehensive parking study when completed will serve as a guide to help City staff and City Council formulate policy direction to address parking needs during the next 10 to 15 years. The study will include a background section listing general statutes and City ordinances related to parking functions, a benchmarking section providing information on public on-street and off-street parking facilities for 50 peer cities, a section on various parking strategies used throughout the United States that are thoroughly researched and described including pros and cons and probable costs for each strategy, a detailed analysis regarding a downtown shuttle to include two phases; specifically, the first phase would only include the downtown central business district and the second phase would include the downtown central business district, Biltmore Village, the River Arts District, and Haywood Road in West Asheville, and a section on various funding strategies used throughout the United States that are thoroughly researched and described including pros and cons for each strategy. In addition, a 10-year financial model will be prepared that will help staff determine when additional debt could be incurred including any fee and rate increases that would be needed to meet the anticipated capital needs (The 10-year financial model will be completed and submitted to the City by June 1, 2016 so that it can be tested and tweaked if necessary to enable staff to proceed with the appropriate analyses for a possible parking rate increase that might go into effect on January 1, 2017).

Five proposals were received and after a thorough review, the Selection Committee decided that Nelson \ Nygaard Consulting Associates, Inc. would be able to provide the best final product to the City. The Selection Committee included staff from the Transportation Department, the Planning Department, and the Finance Department. A member of the Multi-Modal Transportation Commission was also part of the Selection Committee but was unable to participate.

Pros:

- Reference guide to help set policy direction to address parking needs.
- Balance parking supply and demand throughout the City of Asheville.
- Provides a 10-year financial model to help staff make recommendations regarding possible rate increases.

Con:

- More potential projects for the capital improvement program.

The amount of the contract is $120,000 including contingencies (the contract amount is $109,433). Transportation Department staff has identified $75,000 in the existing Parking Enterprise Fund operating budget for the contract. In order to have sufficient budget authorization to encumber the full contract amount of $120,000, staff is recommending a budget amendment in the amount of $45,000. Funding for the budget amendment will come from Parking Services revenues that are performing better than budget in the current fiscal year. Through nine months of FY 2015-16, revenues in the Parking Enterprise Fund operating budget have been trending 9% higher than the budgeted amount.

City staff recommends that City Council approve a resolution authorizing the City Manager to enter into a general services contract in the amount of $120,000 including contingencies (the contract amount is $109,433) with Nelson \ Nygaard Consulting Associates, Inc. to prepare a comprehensive parking study, and a budget amendment in the amount of $45,000 from current year parking services revenue to provide sufficient budget authorization to fully encumber the contract.

RESOLUTION BOOK NO. 37 - PAGE 457
ORDINANCE BOOK NO. 30 - PAGE 259

E. RESOLUTION NO. 16-80 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT WITH APPALACHIAN PAVING & CONCRETE INC. FOR THE CONCRETE REPAIR CONTRACT - UTILITY CUTS

Summary: The consideration of a resolution authorizing the City Manager to execute a contract in the amount of $253,654.83 plus a contingency of $46,345 (18%) for a total of $300,000.00 with Appalachian Paving and Concrete, Inc. for the project known as Concrete Repair – Utility Cuts, City of Asheville Project # SP 15-16-001.

As part of the Street Cut Utility Program, utilities that damage public concrete infrastructure during the installation or maintenance of their underground infrastructure do not perform repairs to the concrete. This is the third year that a private contractor has performed this service. The project was advertised on January 28, 2016 and bids were opened on February 25, 2016 with the following results:

Appalachian Paving and Concrete, Inc., Swannanoa, NC	$253,654.83
Patton Construction Group, Arden, NC	$274,420.00
Armen Construction Group, Charlotte, NC	$368,895.00

Pro:

- Provides for the timely repair on concrete infrastructure that has been damaged by the installation of utilities.

Con:

- Project management and contract administration will consume staff time.

The Street Cut Utility Program is an enterprise fund that is funded by fees paid by the four partners participating in the program. The partners will be billed 100% of the repair cost meaning that the City realizes full cost recovery.

City staff recommends City Council adopt the resolution awarding the contract to Appalachian Paving and Concrete, Inc. and authorizing the City Manager to execute on behalf of the City of Asheville a contract in the amount of $253,654.83 plus a contingency of $46,345 (18%) with Appalachian Paving and Concrete, Inc. for the project known as Concrete Repair – Utility Cuts, City of Asheville Project # SP-15-16-001.

RESOLUTION BOOK NO. 37 - PAGE 458

F. RESOLUTION NO. 16-81 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT WITH NOVUS ARCHITECTS TO DEVELOP FACILITY ASSESSMENT AND ARCHITECTURAL CONCEPT DESIGN SERVICES FOR MCCORMICK FIELD

Summary: The consideration of a resolution authorizing the City Manager to enter into a contract with Novus Architects to develop facility assessment and architectural concept design services for McCormick Field for an amount not to exceed $180,000.

The City of Asheville (City) issued a Request for Qualifications (RFQ) for architectural services for the facility assessment and conceptual design improvements to McCormick Field. The primary goal of the project is to provide the City and its partner, the Asheville Tourists, a comprehensive understanding of the current conditions of the facility, existing maintenance concerns, and what future capital improvement opportunities are possible for the facility in order to maximize investments in the property for its highest and best use.

In response to the RFQ, the City received eight Statements of Qualifications.

1. CHA, Raleigh, NC
2. Clark Nexen, Asheville, NC
3. Clark Patterson Lee, Asheville, NC
4. LS3P/AECOM, Greenville, NC
5. Mathews Architecture, Asheville, NC
6. Novus Architects/Ewing Cole, Asheville, NC
7. Odell, Charlotte, NC
8. Padgett Freeman Architects, Asheville, NC

After thorough review and evaluation, staff recommended Novus Architects, 24 South Pack Square; Suite 400, Asheville, North Carolina as the most qualified to perform the architectural services for the McCormick Field assessment and concept studies.

Pros:

- Novus Architects has provided architectural services on previous renovations to McCormick Field when doing business as Bowers, Ellis, & Watson Architects. Novus will partner with Ewing Cole, a leading firm with extensive experience in sport stadium design and engineering.
- This project will allow the City to identify deferred maintenance and possible capital improvement projects for McCormick Field.

Con:

- None

The $180,000 to support the Novus Architects contract to develop facility assessment and architectural services for McCormick Field is budgeted in the capital improvement budget in the Parks and Recreation Department.

Staff recommends City Council adopt a resolution authorizing the City Manager to enter into a contract with Novus Architects to develop facility assessment and architectural services for McCormick Field for an amount not to exceed $180,000.

RESOLUTION BOOK NO. 37 - PAGE 459

G. RESOLUTION NO. 16-82 - RESOLUTION AMENDING THE 2016 CITY COUNCIL MEETING SCHEDULE

Summary: The consideration of amending the 2016 City Council meeting schedule as follows: (1) addition of formal meeting on Tuesday, May 17, 2016, at 5:00 p.m. in the Council Chamber, 2nd Floor of City Hall; (2) reschedule Fiscal Year 2016-17 Annual Operating Budget public hearing from May 24, 2016, to May 17, 2016; and (3) cancel the May 24, 2016, formal meeting.

RESOLUTION BOOK NO. 37 - PAGE 460

H. ORDINANCE NO. 4491 - BUDGET AMENDMENT TO FUND THE INSTALLATION OF A CROSSWALK ALONG AMBOY ROAD

Summary: The consideration of a budget amendment in the City's General Capital Projects Fund in the amount of $25,000 from Tourism Product Development Funds (TPDF) from the Buncombe County Tourism Development Authority (BCTDA) to fund the installation of a crosswalk along Amboy Road.

At its January 12, 2016, meeting, City Council approved a resolution authorizing the City Manager to sign a grant agreement with Buncombe County Tourism Development Authority

(BCTDA) for $1 million in Tourism Product Development Funds (TPDF). A portion of that funding ($25,000) was designated for the installation of a crosswalk along Amboy Road to support safe pedestrian access to the French Broad River at Amboy River Park. Work began on that project last month. In order to accurately account for the use of the funds, staff is recommending the establishment of a project in the City's General Capital Projects Fund, and a budget amendment to appropriate the revenue and provide authorization for the expenses in that fund.

Pro:

- Provides budget authorization for expenditure of TPDF grant funds previously accepted by City Council.

Con:

- None

The grant from the TPDF was for two projects, the Beaucatcher Greenway and the Amboy Road Crosswalk & River Access. The grant includes a 50% City match. The match requirement is met through the City's contribution to the Beaucatcher Greenway project and $25,000 in grant funding provided by RiverLink.

Staff recommends that the City Council adopt a budget amendment in the City's General Capital Projects Fund in the amount of $25,000 from Tourism Product Development Funds (TPDF) from the Buncombe County Tourism Development Authority (BCTDA) to fund the installation of a crosswalk along Amboy Road.

ORDINANCE BOOK NO. 30 - PAGE 261

I. RESOLUTION NO. 16-83 - RESOLUTION AFFIRMING THE DIGNITY OF LESBIAN, GAY, BISEXUAL, AND TRANSGENDER PEOPLE AND CALLING FOR THE REPEAL OF SESSION LAW 2016-3/HOUSE BILL 2

Mayor Manheimer said that Council has worked on a more enhanced resolution that was originally posted. She noted that several other cities have passed resolutions opposing House Bill 2. She said that Governor Pat McCrory said that he will ask the General Assembly to reinstate people's right to sue in state court for discrimination - undoing a portion of House Bill 2 law.

Said resolution reads: "WHEREAS, on February 22, 2016, the Charlotte City Council demonstrated admirable leadership by approving a local ordinance that adds marital status, familial status, sexual orientation, gender identity, and gender expression to its list of categories protected from discrimination in city contracting and public accommodations; and WHEREAS, on March 23, 2016, in response to the Charlotte ordinance, the North Carolina General Assembly in special session ratified, and Governor Pat McCrory signed, House Bill 2 (Session Law 2016-3), the Public Facilities Privacy & Security Act; and WHEREAS, House Bill 2 appears to repeal the Charlotte ordinance by establishing new statewide standards for what constitutes discriminatory practice in employment and public accommodations; and by establishing new statewide requirements for bathrooms and changing facilities in all public agencies, including schools; and WHEREAS, the omission of sexual orientation, gender identity, gender expression, and other categories from the statewide list of categories protected from discrimination means that not only do protections on these bases appear to be unavailable under state law, but further, that local governments appear to be preempted from offering these protections to their residents; and WHEREAS, the legislation also appears to eliminate the right of any person to bring a civil action in a North Carolina court for a claim of discrimination in employment or public accommodations on account of race, religion, color, national origin, age, or biological sex (as well as handicap for employment only); and WHEREAS, by enacting House Bill 2, our state's political leaders have once again taken extreme measures to attempt to diminish the legislative authority of local governments, and have once again used the laws of the State of North Carolina to codify

discrimination and division rather than to advance the rights and dignity of North Carolinians; and WHEREAS, the legislation, its brief twelve-hour legislative history, and lawmakers' public statements clearly demonstrate a discriminatory intent; a lack of knowledge and understanding of the experiences of transgender people; and a lack of respect for the dignity of lesbian, gay, bisexual, and transgender (LGBT) people on the part of the General Assembly and Governor McCrory; and WHEREAS, the legislation is inconsistent with the Equal Protection Clause of the United States Constitution, which provides that no state shall deny to any person within its jurisdiction "the equal protection of the laws" (US Const amend XIV, § 1); and the legislation is mean-spirited and "born of animosity toward the class of persons affected" (*Romer v Evans*, 517 US 620 [1996]); and WHEREAS, the General Assembly expended an estimated $42,000 to hold an urgent special session to enact House Bill 2, meanwhile neglecting to act with urgency to address real challenges facing the people of North Carolina: the state's 18% poverty rate (including 25% of children and 27% of African Americans); expansion of the Medicaid program and access to high-quality health care for all; funding for public education, including historically black colleges and universities; protection of the natural environment; mitigation of and adaptation to the effects of global climate change; and job opportunities and fair and living wages for all workers; and WHEREAS, Asheville is a community dedicated to the principles of equality, nondiscrimination, and full inclusion and engagement by any resident in the civil rights, benefits, and privileges of all residents; and WHEREAS, Asheville has a proud history of advancing the rights of LGBT North Carolinians, including creating a domestic partner registry and extending eligibility for employment benefits to same-sex partners of City employees; and among the first to support civil marriage for same-sex couples. NOW, THEREFORE, BE IT RESOLVED: SECTION 1. The Asheville City Council reaffirms its support for protecting and advancing the constitutional rights and equitable treatment of all residents and its opposition to discrimination, prejudice, homophobia, and transphobia. SECTION 2. The Asheville City Council applauds the people of Charlotte and the members of the Charlotte City Council for their historic achievement, and particularly for their courageous leadership in standing for dignity and equality in North Carolina's largest city. SECTION 3. The Asheville City Council extends gratitude to the Buncombe County Board of Commissioners, which approved a resolution regarding House Bill 2 on April 5, 2016. SECTION 4. The Asheville City Council urges the North Carolina General Assembly to repeal House Bill 2 at the earliest opportunity. Meanwhile, Council will look to the court system for remedy, seeking opportunities to partner with other local jurisdictions and advocacy organizations in taking appropriate legal action against this unconstitutional legislation; to adopt appropriate local ordinances to advance the cause of equal protection; and to encourage other local governments to exercise their legislative authority to promote equal protection and nondiscrimination. SECTION 5. The Asheville City Council encourages all businesses providing public accommodations in Asheville and throughout North Carolina to demonstrate their support for the dignity of all people by openly welcoming LGBT people to their places of business, and by providing gender-nonspecific bathroom facilities for their customers and employees wherever practicable. SECTION 6. The Asheville City Council encourages all municipalities, counties, and boards of education in North Carolina to adopt similar resolutions at a special meeting or at their next regular meeting calling for the repeal of House Bill 2. SECTION 7. The Asheville City Council asks the city clerk to send copies of this resolution to the members of the Buncombe County delegation to the General Assembly, the chair of the Buncombe County Board of Commissioners, and the mayor of the City of Charlotte."

Councilman Bothwell was appalled that our General Assembly adopted House Bill 2. He was not surprised that businesses have pulled out of North Carolina and are refusing to come to Buncombe County. He was pleased that Asheville will join the voices pointing out that many parts of House Bill 2 are unconstitutional and is entirely wrong.

Councilman Haynes said that with tonight's resolution we show our strong support for Charlotte's ordinance and the brave Council members who backed it. We also show our disdain for the highly discriminatory bill passed by the North Carolina legislature and immediately signed into law by Governor Pat McCrory. In addition, there was fear based propaganda spread that Charlotte's ordinance would both cause and allow predatory behavior. This could not have been

further from the truth. What this ordinance would have done is prohibit discrimination against LGBT people while allowing transgenders to use the restroom of the gender with which they identify. So, he would ask that those folks who felt that Raleigh acted properly with their reaction to Charlotte's ordinance, re-examine this through a lens of love and tolerance. These resolutions which are being passed across this great state should not be feared but instead celebrated. Since the time that Republicans gained control of both the legislature and the Governor's Mansion, they have forced their will on local governments. They have labeled our great city the cesspool of sin. Like a school bully they have taken away control of both our water and our Airport leaving us with little recourse. We have seemingly been forbidden to set our own minimum wage, to require contractors to pay a living wage, to pass inclusionary zoning, and to require developers to meet environmental standards. All in an attempt to prevent us from being the forward thinking progressive city we envision, a visionary place that strives for social equity while battling income equity. The Reverend Dr. William Barber challenged local governments to unite in a form of Political Civil Disobedience. To pass their own minimum wage ordinances and force Raleigh to react. It has long been said that the only way to stop a bully is to stand up to them. He was proudly supporting tonight's resolution calling for repeal of House Bill 2.

Fifteen individuals spoke in support of Asheville's resolution and in opposition of House Bill 2. One individual spoke in opposition of the ordinance.

Mayor Manheimer said that for her six years on City Council, the Council has done a number of things to try to reinforce that Asheville is a city that is a welcoming community and it strives to be a safe community for all of our citizens and residents. We have tried to do that through domestic partner registry and through offering same sex benefits to our employees. If there is one silver lining to this - it provides us with an opportunity to reiterate to our community that we stand together and that we see all of citizens as equals and that we won't tolerate, in her opinion, a fairly juvenile act on the part of the legislature. She assumes it is due in part to our political season. We are better than that and we will continue to be a strong community together here in Asheville and that will take constant work.

Councilman Young said that in the aftermath of what the North Carolina General Assembly adopted on March 23, he immediately sent the following message to his fellow Council members to let them know where he stood: "All, in light of the regressive legislation that has been passed by our state government, he has come to the personal conclusion that this egregious act requires condemnation. It erodes local government, it tramples decades of non-discrimination policies, and portions of the bill can even be determined to open up almost all forms of discrimination including those by the color of your skin. To believe these policies do not affect people in Asheville or others across the state are foolish. Despite anyone's personal reserves I will not stand idle while hatred looms under the blanket of religion or a straw argument about safety. These same arguments were made to continue despicable policies that enslaved millions and discriminated against blacks throughout our country's history. As the only minority member of Council I see this as a blatant act of discrimination. For those who stand idle and watch the horrors of our government in action, you are but equals and might as well have stood on the floor of the state house and championed this bill yourself. To take this lightly is to be complacent of our nations history. History that is less than 60 years old. This bill steps on the poor and brushes inclusiveness inside. I urge you to not fear retribution from the state or reelection because those that support this bill would not vote for us anyway. I believe you have to wrestle with your own consciousness to decide where you stand. I believe we all share the same heartfelt thoughts, but heartfelt action in defense of equality is the concrete that binds us together. It binds us with people who face discrimination everyday, including me. I stand firmly in my conviction that last night the state of North Carolina set out to firmly and definitely pass legislation weighted in discrimination. Our fight is not a fight for just LGBT or blacks or Hispanics or women. In my mind this is a fight for everyone who is not a white male. Discrimination in any form is deplorable. I don't stand by quietly. I will make a personal choice to speak out, and will attend today the Campaign for Southern Equality's rally at 5:00 p.m. My formal request now is to anyone on this Council who is not scared, embarrassed, or feels awkward about the optics to

stand up against all forms of discrimination and racism to join me today. I stand to be dinged up the most by speaking out, possibly based on my religious views. However, my Christianity teaches me love and acceptance. What others may choose to practice and justify within my faith is something foreign to me. Something I have never agreed with. You don't have to be of any faith to practice love and acceptance - just be a decent human being. Also, I request to immediately at the next Council meeting to have prepared resolution that is the embodiment of what I have said in this email. That we believe the bill opens up the doors for discrimination of all sorts and as a community we do not accept discrimination. To be fearful of retribution when standing on the side of an unpopular cause against those with all the power is the embodiment of "The Struggle." The embodiment of the civil rights movement! The courage of Dr. King! The fearlessness of Rosa Parks and many other historical figures. A righteous cause deserves a righteous defender. Evil sometimes hides in plain sight. It hides under the cover of religion. It hides under the cover of an argument of safety. It hides under the cover of the color of your skin. Truth be told, right now it is not hiding. And if you cannot see it, right now, at this very moment, we are in bad shape. If we choose to sit back for any reason, we give strengthen to another struggle and we will soon, very soon 'Make American Great Again'!"

Vice-Mayor Wisler urged supporters of the resolution to reach out to legislators and let your voice be heard.

Councilwoman Mayfield was interested in exploring other ways to guard against discrimination.

RESOLUTION BOOK NO. 37 - PAGE 461

J. RESOLUTION NO. 16-84 - RESOLUTION WAIVING PERMIT FEES ASSOCIATED WITH THE CONSTRUCTION/RENOVATION OF THE ASHEVILLE ART MUSEUM AT 2 SOUTH PACK SQUARE

Summary: The consideration of a resolution granting a permit fee waiver to the Asheville Art Museum (AAM) associated with construction at 2 South Pack Square (City-owned facility).

The AAM, which incorporated in 1948, has occupied an important place in the City's visual arts community in various locations – Charlotte Street, BB&T Building on Biltmore, Montford, and the Civic Center. In 1992, the AAM moved into its current location on South Pack Square – supplemented by an expansion in 1999 that now occupies approximately 24,000 square feet. In early 2016, the AAM culminated over ten years of planning and a capital campaign by starting the renovation and construction of the existing facility. When complete, the renovation and construction will result in a 55,000 square foot museum. With construction anticipated to be completed in early 2018, major demolition and reconstruction is anticipated to start in July 2016.

AAM, which is a tenant in the City-owned facility under a lease approved in 2014, has requested a waiver of permit fees. Based on a construction cost estimate of $18 million provided by AAM, staff estimates the value of the permit fee waiver to be approximately $90,000.

The City's policy limits the waiver of permit fees to property owned, operated, and occupied by the City. In the instance where a property is owned, operated and occupied by the City, permits for work conducted on such properties must be obtained but no permit fees paid. In this instance, while the building at 2 South Pack Square is owned by the City, it is neither occupied nor operated by City.

Pros:

- Supports local non-profit reinvestment of funds into public infrastructure improvement
- Enhances the improvement of a publicly-owned facility

Cons:

- Removes up to $90,000 from City's revenue stream collectible as a permit fee.
- Provides a permit fee waiver for a property that is owned by but not operated or occupied by the City as indicated in the permit fee waiver policy.

If approved, is the removal of up to $90,000 in permit fees from the City's revenue stream.

City staff requests City Council direction on a resolution granting a permit fee waiver for an amount up to $90,000 to the Asheville Art Museum associated with construction and renovation at 2 South Pack Square (City-owned facility).

Upon inquiry of Vice-Mayor Wisler, City Manager Jackson said that there is a precedent for waiving fees for the Art Museum.

RESOLUTION BOOK NO. 37 – PAGE 463

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Vice-Mayor Wisler moved for the adoption of the Consent Agenda, with the revised Resolution No. 16-83. This motion was seconded by Councilman Bothwell and carried unanimously.

III. PRESENTATIONS & REPORTS:

IV. PUBLIC HEARINGS:

A. PUBLIC HEARING TO CONSIDER AN AMENDMENT TO THE UNIFIED DEVELOPMENT ORDINANCE FOR THE PURPOSE OF UPDATING AND COORDINATING STANDARDS AFFECTING THE REVIEW AND RECORDATION OF SUBDIVISIONS

ORDINANCE NO. 4492 - ORDINANCE AMENDING THE UNIFIED DEVELOPMENT ORDINANCE TO AMEND THE STANDARDS REGULATING SUBDIVISIONS AND THE SUBDIVISION REVIEW PROCESS

Principal Planner Shannon Tuch said that this is the consideration of an ordinance to amend the Unified Development Ordinance for the purpose of revising and clarifying existing regulations affecting the review and administration of the City's subdivision standards. This public hearing was advertised on April 1 and 8, 2016.

At least since 1960, the City of Asheville has had standards regulating divisions of land. When a division of land is for the purpose of sale or development then it is referred to as a "subdivision". Prior to 1997 when the current ordinance was adopted, subdivision standards were codified and maintained as a separate land development ordinance. In 1997, all land development ordinances were compiled into one chapter, Chapter 7, and comprises what we now call the Unified Development Ordinance, commonly referred to as the UDO.

Since its adoption, the sections of the UDO that regulate subdivisions have been revised and updated several times in an effort to stay consistent with the North Carolina General Statutes and with city policies and goals. Standards affecting subdivisions are found primarily in Articles XV (Subdivision Standards) and V (Development Review Procedures) and collectively address, among other things:

- The purpose of having subdivision standards,
- What constitutes a subdivision as opposed to other exempt divisions of land,

- The plan submittal and plat recordation process,
- Infrastructure requirements; and,
- Subdivision parcel requirements and the coordination of these standards with other land development standards.

Over the last 18+ years, amendments to the subdivision standards, as well as other general amendments to the UDO and related documents, have resulted in a lack of cohesiveness in the subdivision provisions. In an effort to address this and to update and clarify the standards, this amendment proposes to re-draft and replace the existing code related to subdivisions. The basic development standards that control lot dimensions, access and infrastructure; however, would remain the same and are not proposed to change.

A similar update to the City of Asheville Standard Specifications and Details Manual has also been performed and was recently revised and updated on June 9, 2015.

Pursuant to North Carolina General Statutes § 160A-371 through 377, a division of land that is for the purpose of sale or development, and is found to meet other local standards for infrastructure, lot dimensions and access is reviewed and permitted as a "subdivision". These same statutes authorize cities to establish standards and review procedures for subdivisions designed to provide for the "orderly growth and development of the city", including standards for public infrastructure and community facilities.

Subdivisions are regulated by three sections of the UDO - Section 7-2-5 (Definitions); Section 7-5-8 (Subdivision Plat Approvals); and Section 7-15-1 (Subdivision Regulations). The City of Asheville differentiates two types of subdivisions: minor subdivisions and major subdivisions. A minor subdivision includes the division of land where the road infrastructure already exists. A major subdivision is the division of land where the extension or creation of new road infrastructure is required to provide access and frontage to the newly created lots. The dimensional requirements for new parcels vary depending on the zoning district while the infrastructure requirements are the same, regardless of the zoning.

While infrastructure standards strive for consistency, it is not uncommon to find that legitimate site constraints prevent full compliance with the city's preferred standard. In these instances, the city's Engineer, or his or her designee, may consider alternatives that are found to provide a comparable or appropriate level of service, provided they do not negatively impact on-going city maintenance. This process is specified in the City of Asheville Standard Specifications and Details Manual and is different and separate from an appeal of a subdivision approval, which is addressed in the UDO.

The review of all subdivisions is ministerial in nature and does not require City Council approval until 50 or more lots are created. For these larger subdivisions, as with other larger multi-family developments of 50 units or more, a Level III/CUP review is also required and can be processed concurrently with the major subdivision review. Once approved, the applicant/developer may submit the applicable site permits for the public infrastructure, which typically includes roads, sidewalks, street lights, water lines and sewer lines. Only when this infrastructure has passed all inspections, or a financial surety in lieu of this infrastructure is provided, may the final subdivision plat that legally creates the lots be recorded. After the plat is recorded, the owner/developer is free to sell or develop the lots and may also pursue a request to have the city take over maintenance of the infrastructure.

Much of the recommended changes in the proposed subdivision amendment are designed to clarify and update the language. There are, however, some more substantive changes, the most significant of which is the proposal to remove the final review and approval of a major subdivision from the Planning and Zoning Commission and return it to the Technical Review Committee (TRC).

For many years after the UDO was adopted, the TRC was the final review and approving body for major subdivisions. This was changed in 2011 and final review and approval was shifted to the Planning and Zoning Commission to explore whether there was a community benefit to holding a public hearing and providing the opportunity for public input. This change has had a mixed response and questionable success.

Section 7-2-5 removes language regarding exempt subdivisions.

In Section 7-5-8, the proposed amendment recommends moving the final review and approval from the Planning and Zoning Commission back to the TRC. This change is in alignment with the Planning & Zoning Commission's established priorities for 2016 where the Commission has cited concerns over having limited understanding of the technical standards and limited authority on ministerial reviews, impacting their ability to respond to community concerns. Moving the final review and approval back to the TRC focuses the conversation on the subdivision's ability to comply with the technical standards and places the approval responsibility on the technical experts. It also proposes enhanced notification.

Other substantive changes are grouped and summarized as follows:

Sec. 7-5-8. Subdivision Plat Approvals

(a) Major Subdivisions

1. Substitute "designated staff" for "planning and development director". Application processing and review responsibilities are shared between the Planning and Urban Design and Development Services departments, and are coordinated with other technical city departments. To keep the code language more flexible, this change is recommended and repeated throughout the applicable code sections.
2. Revise public notification requirements. Pursuant to North Carolina General Statutes, public notification for subdivisions is not required. However, providing public notification helps the community to be informed and is therefore proposed to be retained in the amendment, but with changes. Similar to the current public notification requirements for major subdivisions, the proposed amendment requires a posted sign on the subject property, and it is also highly recommended that the developer meet with neighborhood representatives. The amendment proposes that the TRC's decision on the major subdivision application be mailed to property owners within 200 feet of the subject property, which would replace the current standard of a mail notification prior to the Planning and Zoning Commission meeting. This change would continue to go above the State's public notification standard by keeping property owners informed, while providing notice.
3. Remove opportunity to revise a denied preliminary plat. The TRC may make one of three decisions when reviewing the proposed preliminary plat. They may approve, approve with conditions or deny. These reviews are ministerial so if a preliminary plat is disapproved, then there is always the option to revise and resubmit under a new application and it is unnecessary to attempt to codify this process.
4. Amend and relocate language related to appeals of subdivision decisions. Remove reference to the Planning and Zoning Commission's decision and relocate the appeal process to the end of the article where it can address both major and minor subdivisions.
5. Clarify that preliminary plat approval may be extended for up to one year. Duplicated language from elsewhere in the subsection to be repeated under the *Approvals* heading.
6. Remove duplicative language regarding guarantees. Remove duplicative language and refer to Sec. 7-15-1 detailing the steps needed to supply a guarantee in lieu of construction improvements.
7. Remove appeal to Asheville City Council. Appeals of subdivision plat approvals, by statute, must go to the Buncombe County Superior Court.

Ms. Tuch said that Councilwoman Mayfield suggested the following amendment for enhanced notification requirement to Section 7-5-8 (major subdivisions). This has been reviewed by Planning and Legal staff and both felt the suggestion was a good one. " Neighborhood Meeting. The developer is required to meet with representatives of the neighborhood in which the proposed project is located. This meeting is to allow the developer to explain the proposed project, be informed about neighborhood concerns, and explore opportunities to address those concerns in cooperation with the neighborhood. The meeting must be held in the pre-application stage no more than four months prior to the submittal date and must be at a location and time designed to allow interested neighbors to attend. It is recommended, but not required, that the developer retain a neutral third party to facilitate the meeting. The developer shall provide notice of the meeting by first class mail to all property owners within 200 feet at least ten days before the meeting. A written report of the meeting must be submitted with the major subdivision application."

(b) Minor Subdivisions

1. Substitute "designated staff" for "planning and development director". Same as above.
2. Amend and relocate language regarding appeals and violations to the end of the section. Appeals and violations of any subdivision, minor or major, follow the same process and by placing this language at the end of the subsection, keeps it from being repeated unnecessarily.
3. Remove language regarding modifications. Requests for modifications to infrastructure standards must follow the process included in the City of Asheville Standard Specifications and Details Manual.

Sec. 7-15-1. Subdivision Plat Approvals

1. Substitute "designated staff" for "planning and development director". Same as above.
2. Clarify subdivisions from other exempt divisions of land. Add statutory language defining subdivision to be followed by exemptions.
3. Remove limits on exempt divisions of land. Generally found not to be necessary. Other development standards require the extension of infrastructure in order to obtain permits so cumulative exempt divisions of land do not negatively affect the built environment.
4. Remove planned communities language. The Planned Community Act addresses property ownership and management and is unrelated to subdivision standards.
5. Remove Designation of approval agency. The statutes describe who is authorized to be the approving body on subdivision matters but it is not necessary to designate in the UDO and, given the shared responsibilities between Planning and Urban Design and the Development Services departments, it is best not to designate.
6. Update language on the option to provide a guarantee in lieu of construction improvements & remove language allowing an agreement in lieu of a performance guarantee. Update language to be simpler, more clear and consistent with statutes and remove the language that allowed an agreement in lieu of a performance guarantee. The agreement option was added during the recession and is no longer applicable.
7. Remove language on modifications. Same as above.
8. Amend and relocate language on phased development. Phased development is not a subdivision standard so it is recommended that it be relocated to the end of the article and that minor revisions are also made.
9. Remove two definitions. These are repeated in Article II – Definitions along with other definitions related to subdivisions. These are duplicative and should be removed.

Staff recommends approval of the wording amendment text modifying subdivision standards and review process as the amendment would revise and clarify existing regulations and is consistent with the Comprehensive Plan and other adopted plans in that it promotes infill development, updates development standards for orderly growth and development, and assists with the coordination of property development for access and transportation needs.

Councilwoman Mayfield suggested the enhanced notification requirement because people want an opportunity to be heard. This will allow an opportunity for the neighbors to have early interaction with the developer about what is going to happen in their neighborhood. It is critical that we allow neighbors an opportunity to speak and create a forum for real improvements to the development.

Mayor Manheimer opened the public hearing at 6:48 p.m.

When Mr. Timothy Sadler suggested that notices be mailed not only to property owners but residents of the properties, City Attorney Currin said the only way to track property owners is to use the County's tax records. He also requested the developer be required to send out a press release of the proposed project.

Mayor Manheimer closed the public hearing at 6:53 p.m.

There was a brief discussion, initiated by Councilwoman Mayfield, about requiring the developer to post a sign on the property announcing the neighborhood meeting. Ms. Tuch said that there may be a way to do that but it would be very difficult to enforce.

Mayor Manheimer suggested this be brought back in one year for an update the enhanced neighborhood meeting with developers.

Mayor Manheimer said that members of Council have previously received a copy of the ordinance and it would not be read.

Vice-Mayor Wisler moved to approve the revised wording amendments to UDO Sections 7-2-5, 7-5-8 and 7-15-1, which modify the subdivision standards and review process, as amended by adding the new enhanced notification requirement, and find that the requests are reasonable, are in the public interest, and are consistent with the Comprehensive Plan and other adopted plans in the following ways: the amendments (1) promote infill development; (2) update development standards for orderly growth and development; and, (3) assist in coordinating the development of property for access and transportation needs. This motion was seconded by Councilman Bothwell and carried unanimously.

ORDINANCE BOOK NO. 30 – PAGE 263

At 6:53 p.m., Mayor Manheimer announced a short recess.

BEGINNING OF CHANGE IN AGENDA:

NEW BUSINESS A:

A. RESOLUTION NO. 16-85 - RESOLUTION ADOPTING THE LEGISLATIVE AGENDA FOR THE SHORT SESSION

Mayor Manheimer said that this is the consideration of the Legislative Agenda for the 2016 Session of the North Carolina General Assembly.

Councilwoman Mayfield explained a deletion in what was sent out to the Council: The following statement under Environmental Stewardship has been removed: "Support legislation that strengthens the requirements for the clean up and disposal of coal ash in coal ash ponds along the French Broad River in a manner that is equitable to rate payers."

The agenda is below:

Municipal Authority
Like all municipalities in North Carolina, Asheville has unique economic, environmental, and cultural interests. Maintaining municipal authority to promote, regulate, and celebrate these interests is essential to enable local officials to best address local needs.

- Support legislation which preserves and/or enhances municipal authority, specifically:
  - Support legislation which enables municipalities' authority to opt in to regulating digital dispatching ("car sharing") services.
  - Continue municipal authority to establish and maintain Municipal Service Districts (MSD).

Municipal Revenue
The fiscal health and responsibility of municipalities require stable revenue sources that are proportionate to the need for local services. Responsible fiscal management requires the protection of revenue sources both under, and outside of, municipal control.

- Support legislation that enhances municipal fiscal sustainability, including:
  - Support legislation which restores lost revenue due to the repeal of Privilege License Tax authority.
  - Seek legislation to give municipalities the option to use electronic legal public notices in lieu of newspaper publication.
  - Oppose sales tax distribution reform that would decrease sales tax revenue to Asheville.

Mandates
Unfunded and burdensome legislative and regulatory mandates undermine the efficiency, effectiveness and success of municipal programs and services.

- Support legislation which enhances revenue for public education and transportation infrastructure without negatively impacting existing municipal revenues.

City Services
The City of Asheville, which provides high quality services to meet the dynamic needs of its residents, requires adequate authority and flexibility to finance, operate, and manage these services.

- Oppose legislation that limits or removes local control over public utility systems.
- Oppose legislation that limits municipal control of enterprise funds.
- Oppose legislation that removes or limits the authority of municipal building code enforcement officers. Proposals to remove building code enforcement officers' authority to order corrections during construction compromises public safety by limiting when corrections may occur solely to the design and review phase.

Transportation
A core responsibility of North Carolina's cities and towns is to provide for the safety and well-being of all transportation users while maximizing the gains to commercial and economic activity, arts, culture and entertainment, and quality of life for our residents, visitors and businesses.

- Maintain Powell Bill funding for municipal transportation infrastructure.
- Increase state funding for and preserve municipal authority to regulate, fund, and build multi-modal projects, including bike lanes, sidewalks, and traditional transit apparatuses. Preserve bicycle safety regulatory authority at the local level.
- Continue regional collaboration through active Municipal Planning Organizations (MPO) empowered to address region-specific transportation issues.
- Continue intergovernmental partnerships to plan, design, and build the I-26 connector.
- Maintain the independence of state transportation funding priorities through the data-driven Strategic Mobility Formula established by the Strategic Transportation Investments law (STI).

Economic Vitality

An economically vital community enables Asheville to provide for opportunity, mobility, and a high quality of life for its residents.

- Restore funding of the state's Housing Trust Fund.
- Increase funding of the Workforce Housing Loan Program.
- Restore the State Affordable Housing Tax Credit.

Community Standards

Asheville, the largest city in Western North Carolina, is nationally known for its natural beauty, rich architectural legacy, and entrepreneurial energy. In order to promote economic vitality in a manner that maintains the unique features that make our community a desirable place to live, work, and play, municipalities and local officials need to be enabled with the tools and authority to make local decisions.

- Oppose legislation that removes or limits local control of the regulation of trees.
- Oppose legislation that preempts municipal authority to regulate design and aesthetic controls in historic districts.

Environmental Stewardship

As a community committed to sustainability and environmental stewardship, Asheville needs adequate regulatory authority in order to maximize its partnership in environmental protection with state and federal agencies. As a city with a proud mountain heritage and identified as a destination for ecotourism and "green" industry, the Blue Ridge mountain region's natural beauty is recognized as a great benefit to the community. Environmental protection is essential to a high quality of life, cultural heritage, and economic development.

- Oppose legislation that would limit municipal authority to regulate environmental standards such as erosion control or stormwater quality.
- Continue to support the effective clean up and disposal of coal ash across the state.
- Increase funding to the state's natural resource focused trust funds.

Councilman Bothwell suggested (and it was agreed to by Council) that under Economic Vitality, repeal of Session Law 2016-3/House Bill 2 should be added.

When Mayor Manheimer asked for public comments, none were received.

Councilman Bothwell moved for the adoption of Resolution No. 16-85, with the addition to Economic Vitality as outlined above. This motion was seconded by Councilwoman Mayfield and carried unanimously.

RESOLUTION BOOK NO. 37 – PAGE 464

END OF CHANGE TO AGENDA

V. UNFINISHED BUSINESS:

A. CONSIDERATION OF BEAUCATCHER GREENWAY PLANS

Councilman Bothwell moved to recuse Mayor Manheimer from participating in this matter due to a conflict of interest. She explained that one of her law partners represents someone who owns land affected by the Beaucatcher Greenway. This motion was seconded by Councilman Young and carried unanimously.

At 7:18 p.m., Mayor Manheimer left the dais and was not present for the remainder of the meeting.

City Greenway Coordinator Lucy Crown said that this is a review of the Beaucatcher Greenway section of the River-to-Ridge Greenway and Trail Network before proceeding to construction.

The City of Asheville (City) is in the formative state of developing a comprehensive greenway system that meets the needs and desires of the community. Greenways connect people to the places they live, work and play as well as preserve open space to promote air and water quality. Greenways consistently rank high on the community's list of infrastructure priorities and the city has been working diligently since the 1980's to advance the community's greenways goals.

Director of Parks & Recreation Roderick Simmons said that in 1920, City planner John Nolen started to author the first city plan (Nolen Plan) that delineated a circle of parks surrounding Asheville and major city parks in neighborhoods. The key component of the park system was an expansive overlook park along Beaucatcher Mountain, and open space connecting it to downtown Asheville and the surrounding neighborhoods.

The Nolen Plan, completed in 1922, identified a linear park along the Beaucatcher ridgeline overlooking downtown Asheville. Nolen's plan led to important land conservation by the City in 2008, without which today's Beaucatcher Greenway would not be possible. This action, along with a number of other key steps taken to implement concepts outlined in the Nolen Plan particular to the Beaucatcher Greenway, is highlighted below.

2008

- A key component of the implementation of the concepts outlined in the Nolen Plan occurred in 2008 with the acquisition of thirty acres of woodland covering the slope of Beaucatcher Mountain. The $2.6 million acquisition was the result of a successful funding partnership that included The Trust for Public Land, Buncombe County, City of Asheville, private donors and the State of North Carolina Parks & Recreation Trust Fund (PRTF). Asheville City Council (City Council) directed staff to apply for the PRTF grant for the land acquisition that would facilitate the development of Beaucatcher Greenway.

  The grant funds were awarded with the following conditions:

  "The site plan as submitted with this application is to be completed over a five year period. The first and second year will entail securing funds to survey, plan and design the park. The second and third year will involve fundraising to construct the project as well as developing construction drawings. The fourth and fifth year will entail project construction."

2009

- The Parks, Recreation Cultural Arts, and Greenways Master Plan, which supports the development of the Beaucatcher Greenway, was adopted by City Council.
- The Asheville Downtown Master Plan, which supports the development of vista parks to provide permanent public views of the downtown via the Beaucatcher Greenway, was adopted by City Council.
- A land exchange between the City and with owners of Festiva was approved by the City Council to enhance and extend the Beaucatcher Greenway experience.

2012

- $1.2 million was appropriated by City Council in the City's Capital Improvement Program (CIP) for pre-development cost such as acquiring easements, land surveys, conceptual design and construction drawings for the development of the Beaucatcher Greenway as

required by the land acquisition PRTF grant. Construction costs were expected to be added to the remaining budget when estimates became available.

2013

- City Council authorized a contract in the amount of $310,000 with Stewart Engineering, Inc. (project engineers) for Architectural and Engineering Services related to the design and development of construction documents for the Beaucatcher Greenway as an urban forest greenway.

  The project engineer has a proven track record for land design that limits environmental impacts, provides innovative stormwater management, reduces negative impact on water quality, reuses existing infrastructure, protecting green space and natural areas has help establish a reputation for being the best greenway designer in the state. In addition, the project engineer balances technical expertise with a commitment to safety, community health, aesthetic beauty and environmental stewardship.

  In recognition of its efforts in the field, Stewart Engineering was awarded the 2015 Landscape Architecture Firm of the Year by the NC State University faculty in Landscape Architecture.

The River to Ridge Greenway Network

The River to Ridge Greenway Network, which is intended to establish Asheville's first set of connected greenways, consists of the following: The Beaucatcher Greenway, French Broad River Greenways on the east and west banks, Town Branch Greenway; and Clingman Forest Greenway.

When necessary and appropriate, portions of these greenways will be connected by on-road facilities referred to as 'Greenway Connectors' that will provide improved pedestrian and bike facilities and wayfinding. When build out is completed (anticipated by 2020), the River to Ridge Greenway Network will be 10.25 miles of connected greenways.

The Beaucatcher Greenway

The Experience - The Beaucatcher Greenway provides a true mountain terrain experience with stunning views of downtown and the western mountains. As the City's population grows, public access to this type of urban outdoor experience will become more important.

Based on (i) a projected population increase of 14% by 2020; and (ii) plans to increase density through new zoning laws that will allow infill development and housing on smaller lots, access to quick and free open space and recreation opportunities will be a highly desirable and important amenity for maintaining the sense of place for which Asheville is recognized.

The Beaucatcher Greenway, which has been included in several planning efforts that received broad public participation and support including the 2008 Asheville Greenway Master Plan and 2012 Update, has been identified as a high priority project.

The Route and Design - The proposed Beaucatcher Greenway, a 1.25 mile route along a wooded corridor with commanding views of downtown Asheville, will connect the old White Fawn Reservoir (future park) and the old Beaucatcher Reservoir (future park) and is intended to serve as a major connection to Memorial Stadium, Mountainside Park, McCormick Field and the Town Branch Greenway corridor.

Traveling from McCormick Field parking lot to Helen's Bridge along the side of Beaucatcher Mountain, the completed trail will consist of a 10-foot wide asphalt trail that is accessible for trail users of all ages, abilities, and socio-economic demographics. Equitable access will be provided to incredible vistas of downtown Asheville nestled in the surrounding Blue Ridge Mountains.

As the City develops its young greenway system into a mature connected network, design efforts are focused on assets that are in harmony with the environment and infrastructure. The Beaucatcher Greenway is being designed with the guiding principles that impacts will be (a) minimal on the existing natural green space, private property, and (b) safe for pedestrians, hikers, bikers, and drivers. The community's strong value for and commitment to the environment has been communicated to the project engineers in order to ensure a design that minimizes impact on trees, stormwater system, and environment. Staff recognizes these are vital, functioning parts of the city's infrastructure and ecosystem.

Materials used along the greenway for walls, signs, seating and other amenities will complement the area's natural environment, cultural history, architectural influences and adjacent landforms. The selected materials will create a consistent feel along the greenway and trailheads that results in an identity for the Beaucatcher Greenway and connecting parks.

The Alignment - The first section of the Beaucatcher Greenway focuses on the following:

- off-road connection to Memorial Stadium,
- an on-road section along White Fawn Dr, and
- an off-road section beginning at the existing terminus of White Fawn Drive that ultimately connects to Ardmion Park.

Because of the steep grades along the route from Memorial Stadium, switchbacks will 1) be necessary to achieve accessible grades for all trail users and 2) minimize runoff.

The second section of the Beaucatcher Greenway focuses on the off-and on-road segments along Ardmion Park. Due to limited width, the on-road section design includes sidewalk and 'sharrows.' Sharrows are pavement markings that alert drivers that cyclist will likely be present on the road. Sharrows do not create a separate bike lane but rather signal that the road is to be shared.

Lastly, the third final section continues to focus on the off-road greenway segment which follows the right of way along Ardmion Park to its connection with Beaumont Street. The on-road portion trail along the Beaumont Street and College Street is a combination of sidewalk and sharrows leading up to the Helen's Bridge access.

Environmental Assessment - A formal environmental assessment as outlined in National Environmental Protection Act (NEPA) was not required for the Beaucatcher Greenway for the following reasons:

1. The funding sources secured to complete this project do not require the completion of an environmental assessment; and
2. Since 98% of the Beaucatcher Greenway corridor is located within or adjacent to a disturbed right-of-way (previously graded and sometimes in the form of paved streets) or disturbed drives (previously graded), an informal environmental assessment is considered reasonable in terms of best practices and cost. The project engineer was directed to locate the greenway within the existing rights-of-ways to minimize environmental impacts.

In order to ensure that the greenway construction would have minimal environmental impact, the project engineer was directed to assess the siting of the greenway in terms of various

important environmental conditions. Assessments included but were not limited to forest ecology survey, tree survey, soils analysis, stream analysis, important cultural features, and stormwater impacts

Comprehensive Tree Survey - A comprehensive tree survey was conducted with the the goal of providing useful information on the trees in order to help the project engineers make informed decisions about the greenway alignment. Based on the information received from the survey, the project engineers were able to decide what to do with the trees as it pertains to the greenway alignment. This information allowed the project engineers to determine which trees needed to be retained, and which trees could be removed.

The survey revealed information such as:

- Species of the tree based on scientific name.
- Physical measurements of the tree such as height and diameter.
- Age of the tree.
- Overall health of the tree.
- Life expectancy.

The comprehensive tree survey gave a good sense of what is on the particular pieces of land surround this greenway alignment. A summary of the results follows:

Summary	*Total*	*To Remain*	*To Be Removed*
Trees within Greenway Alignment	**408**	**301**	**104**

Breakdown by Greenway Map Section

DESCRIPTION SECTION 1	Total Trees	To Remain	To be Removed
Total Trees 1" to 10"	41	34	7
Total Trees 11" to 23"	87	76	11
Total Trees 24" or larger	33	25	8
	161	**135**	**26**

DESCRIPTION SECTION 2	Total Trees	To Remain	To be Removed
Total Trees 1" to 10"	49	25	24
Total Trees 11" to 23"	63	36	27
Total Trees 24" or larger	6	6	0
	118	**67**	**51**

DESCRIPTION SECTION 3	Total Trees	To Remain	To be Removed
Total Trees 1" to 10"	48	33	15
Total Trees 11" to 23"	60	48	12
Total Trees 24" or larger	21	18	3
	129	**99**	**30**

Greenway Design Alternatives - The current alignment was developed following the exploration of various alternatives. Factors considered in determining alignment alternatives included but were not limited to construction costs, Americans with Disabilities Act (ADA) compliance, environmental impacts, neighborhood input, and constructability. As the project engineers developed the greenway design, the existing conditions of the forest were assessed for environmental sensitivity. The Beaucatcher Greenway has been designed and will be constructed in a manner that minimizes impact on the existing natural green space, private property, and is safe for pedestrians, bikers, and drivers.

Community Input - During March 2016, the City actively sought community input about the Beaucatcher Greenway. The opportunities for input included (a) a public informational open house on March 16; (b) a Beaucatcher Greenway website offered through the project engineer with a function for feedback; and (c) an 'Open City Hall' on-line engagement tool available for public comment from March 22 to April 3.

In the Open City Hall forum, there were 332 attendees who contributed 5.6 hours of public comments. There were 92 on-forum statements and 20 off-forum (unverified) statements.

The information through these various avenues was compiled and categorized into five groups:

- **Yes!:** Absolute support of the greenway plan;
- **Yes, but...:** General support of the greenway and its progress with constructive criticism such as a preference to not using asphalt;
- **No because:** Unsatisfied with the greenway for a particular reason but would like the greenway if that issue were fixed;
- **No! :** Absolutely not in favor of the greenway; and
- **? :** Input is unclear or does not give enough information to be categorized (e.g., "Trees are good.").

The following table summarizes the results of the March 2016 community input efforts. All comments are available on the Project Page:

Response	Paper surveys	Online survey	Open City Hall	Total
Yes!	61	13	89	163
Yes, but...	14	4	7	2
No because	4	12	8	24
No!	7	5	7	19
?	1	4	1	6

Beaucatcher Greenway Project Funding and Budget - The Beaucatcher Greenway budget, which is part of the City's Capital Improvement Program (CIP), is comprised of funds from 2012 limited obligation bonds (LOBs) and a Tourism Product Development Fund (TPDF) grant awarded in 2015. It is important to note that the City is not eligible to receive the TPDF grant funding until the project is completed as specified in the grant award. To date, $331,811 of the City's contribution has been spent. With the additional funding from TPDF, the available project budget is $1,854,970. Stormwater staff reviewed the preliminary plans and do not anticipate a

need to allocate stormwater funds towards the project in order to address stormwater or erosion control issues.

The following is the budget to-date revenues and expenditures:

Beaucatcher Overlook 29.62 Acres	$575,000.00
Land Acq and Surveying for Greenway	$17,346.50
Cost in Design YTD	$294,132.87
Remaining Encumbrance	$37,678.31
Total Cost to Date	**$349,157.68**
Remaining City dedicated funds	$929,969.00
TPDF Grant	$925,000.00
Total dedicated funding remaining	**$1,854,969.00**
Total invested in the project	**$2,779,126.68**

The project engineer, which completed approximately 95% of the construction drawings and specifications, has provided preliminary cost estimates for the Beaucatcher Greenway. Based on the preliminary estimates detailed below, the completion of the Beaucatcher Greenway needs an additional appropriation of $972,137 for a total investment of $3,751,264.

In order to meet the financial needs of this project, funds previously planned for the John B. Lewis soccer field turf replacement will be reallocated to the Beaucatcher project. Turf replacement will proceed; the TPDF awarded grant funds speeding up the timeline of the turf project and allowing the reallocation of funds.

The reallocation of funds does not affect the cash flows or debt model. Unless otherwise directed, staff will proceed with the reallocation of funds from turf replacement to Beaucatcher Greenway.

Component	Base bid cost	% of base bid
L3 White Fawn Drive to Ardmion off road section	600,304	23.4
L4 Ardmion Park Road on Road Section • Has value engineering options that the project engineer is evaluating	269,094	10.5
L5 Alexander Drive to Skyclub/ Petersons • Has value engineering options that the project engineer is evaluating	758,399	29.5
L6 Skyclub on Road Section	268,174	10.4
L7 South Beaumont/ College Drive One Way Option on road section Skyclub Roadway to Lower Helen's Bridge • This is a value engineered component	283,639	11.0

L8REV - White Fawn Drive on Road Section	188,011	7.3
L9 Memorial Stadium to White Fawn Drive Off Road Section • Has value engineering options that the project engineer is evaluating	202,474	7.9
Total Probable Base Bid	**2,570,096**	**100**
Construction Phase Contingency	257,010	10%
Total Construction Cost (TCC)	**2,827,106**	**110%**

The table below outlines the estimated cost per mile for the project and how it compares with other completed or designed greenway projects.

Designs not completed -In Progress (Cost of the project unknown)

Name	Length in Miles	Targeted Start of Construction	Estimated assumption of unknown cost
Greenway Connectors	1.09	FY 17	$120,000
French Broad River Greenway West- Progress Energy	1.2	FY 17	$2,809,262
French Broad River Greenway - East	2.2	FY 17	$2,500,000
Beaucatcher Overlook Greenway	1.25	FY 16	$2,827,106
Total	5.74		

Design and Cost Estimations Completed

Name	Length in Miles	Targeted Start of Construction	Completed Cost Estimates (Projected budget)
Town Branch Greenway	0.72	FY 17	$2,465,930
Clingman Forest Greenway	0.45	FY 17	$2,761,563
Total	1.17		

Miles of Greenways under Construction

Name	Length in Miles	Construction Started	Approved budget for project

French Broad River West- New Belgium (Craven)	0.45	FY 15-16	$2,913,090
Total	0.45		

White Fawn Reservoir connector - Upon completion of the Beaucatcher Greenway, a connection to the future park will need to be built at the greenway terminus. This connector is not designed and cost estimates are not available at this time.

As outlined in this report, the Beaucatcher Greenway has been a project in development for some time. City Council has taken actions over the past several years to (i) adopt plans that support the construction of the Beaucatcher Greenway; and (ii) allocate funding through the City's CIP and TPDF grant funding. The design phase of the Greenway is nearing completion as anticipated in the Architectural and Engineering Services contract approved by City Council in 2013. In accordance with that policy direction, unless otherwise directed, staff is prepared to

(a) complete the design phase;
(b) move into the competitive bid process for construction of the Greenway; and
(c) include the reallocation of capital funds for the John B. Lewis soccer field turf replacement project to the completion of the Beaucatcher Greenway in the Recommended FY 2016-2017 to FY 2020/2021 Capital Improvement Program. The soccer field turf replacement project is funded through the Asheville Buncombe Youth Soccer Association and TPDF grant funding.

Once the bid process is complete, a bid award and contract for construction would proceed to the City Council for approval.

Ms. Iona L. Thomas, Bicycle & Pedestrian Practice Manager for Stewart Engineering Inc., reviewed with Council the current design, alternative design options, and addressed questions about potential design alternatives. With the three alternate design options (Beaumont Street; Ardmion Park Driveway; and Memorial to White Fawn) explained earlier, will result in roughly ½ Million in savings to the project.

Vice-Mayor Wisler opened for public comment at 8:05 p.m. explaining that unless directed by Council, staff will proceed with the RFP process (to include alternative design options). Once the bid process is complete, a bid award and contract for construction would proceed to City Council for approval.

The following individuals noted that even though most are not opposed to greenways, they do have concerns, some being, but are not limited to: maximum grade is too high; too many high retaining walls; views from homes will be views of retaining walls; tree removals; safety of people using the greenway and also those who live next to it; vehicular vs. greenway traffic conflicts; need for bear-proof fencing and warning signs; Sky Club is not a park and owners should not have strangers walking by their property; people already ask to get through Sky Club gates; historic ambiance will be adversely affected; materials are not consistent with the Sky Club; concern of extent of asphalt paving; erosion should be a priority; progressive landscapers should donate or bid on sections to show how it should be built; concern about crime in the area of the greenway; and rock erosion should be addressed:

Mr. Geoff Kimmish
Ms. Nancy Brown, President of the Skyclub Association
Mr. Steve Rasmussen
Previous resident of the Skyclub
Ms. Jan Kubiniec

The following individuals spoke in support of the Beaucatcher Greenway (and encouraged City staff and consultants to continue to seek ways to minimize impacts and address concerns of the community) for several reasons, some being, but are not limited to: dual greenway-sidewalk design which will combine a traditional greenway path through wooded areas and will transition to an urban pathway and sidewalk when the route approaches residential areas; greenway will provide both transportation and recreation benefits; greenway is just steps from downtown and will connect two future privately-funded mountain parks at either end enabling people to see great views without having to drive far or own a house on the mountain; studies show that being in nature positively impacts physical and mental health; greenway will enable people of all ages and abilities to easily access the 30-acre wooded property; the greenway will be well-used since over 5,000 people live within ¼ mile of the greenway; the diverse surrounding neighborhood has a median household income of approximately $31,000 and some of the most affordable housing is adjacent to the greenway; the greenway will serve as an important transportation connector to the Kenilworth neighborhood providing an alternative route for those residents to access downtown; greenway will also connect to downtown residents and workers of Mission Hospital and adjacent medical offices; centrally located greenway will be an asset to central and east Asheville neighborhoods which are currently underserved as most of the greenways are in north and west Asheville and the River Arts District; construction of the trailhead at Memorial Stadium since it has ample parking and restrooms and will alleviate the problem of visitors parking on or near White Fawn Drive; the trail embodies equity and access; if the project is stalled, it will have a rippling effect in the donors of the community; 1,038 people have signed a petition in support of the greenway; greenway will help reduce cars on the road resulting in a reduction of automobile and pedestrian traffic accidents; support for modifications described by consultant that will reduce costs and environmental impacts; greenways are essential to the quality of life; and more people on the greenway will make it safer for everyone:

Mr. Bruce Emory, Chair of the Multimodal Transportation Commission
Ms. Mary Weber, member of the Multimodal Transportation Commission and Chair of the Greenway Committee
Ms. Suzanne Molloy, President of Friends of Connect Buncombe
Ms. Dana Davis, Board member on the Board of Asheville Parks and Greenways Foundation
Ms. Linda Giltz, former Chair and member of the Greenway Committee
Ms. Terri March
Ms. Sharron Trammell, resident on Beaucatcher Mountain
Ms. Kim Roney, member of the Multimodal Transportation Commission
Mr. Mike Soule, Director of Asheville on Bikes
Ms. Claudia Nix, Kenilworth resident
Mr. Bob Roepnack, representing Friends of the Beaucatcher Overlook Park and Asheville Greenworks
Mr. Tom Sawyer, real estate investor

Vice-Mayor Wisler closed public comments at 9:07 p.m.

In response to Councilman Bothwell, Ms. Thomas said that the greenway follows the existing roadway grade.

Councilman Bothwell was pleased with some of the alternatives will save money in addition to eliminating some of the massive retaining walls, possibility of not removing the gate, cutting fewer trees, and saving the red oak tree. He believes we would be better off to do flat stretches of the greenway first because it should be cheaper, but would favor moving forward with the RFP.

Councilman Smith said it was time to get this greenway completed since we have the money, support and expertise.

City Manager Jackson said that at this time staff will go out for bid with the design (and alternates) and it will come back to Council for action on a contract with the lowest responsible bidder(s) with costs associated, with a budget amendment, if necessary.

VI. NEW BUSINESS:

B. BOARDS & COMMISSIONS

Regarding the Haywood Street Advisory Team, the following individuals applied for this vacancy: Grant Millin, Byron Greiner, Rob Carroll, Leslie LeBlanc, Gary Anderson, Susan Jones, Richard Fort and John Tyler Barnes. It was the consensus of Council to re-advertise to ensure that the applicant pool represents a broad cross section of the community.

RESOLUTION NO. 16-86 - RESOLUTION APPOINTING A MEMBER TO THE PUBLIC ART & CULTURAL COMMISSION

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing a member to the Public Art & Cultural Commission.

Ms. Jenny Bowen has resigned as a member, thus leaving an unexpired term until June 30, 2017.

The following individuals applied for this vacancy: Monika Gross, Audra Gaiziunas, Ron Laboray, Matthew Lands and Alyssa Dryfus.

On April 12, 2016, the Boards & Commissions Committee recommended appointing Ron Laboray.

Vice-Mayor Wisler moved to appoint Ron Laboray as a member to the Public Art & Cultural Commission to serve the unexpired term of Ms. Bowen, term to expire June 30, 2017, or until his has been appointed. This motion was seconded by Councilman Bothwell and carried unanimously.

RESOLUTION BOOK NO. 37 – PAGE 467

RESOLUTION NO. 16-87 - RESOLUTION APPOINTING MEMBERS TO THE RECREATION BOARD

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing a member to the Recreation Board.

Ms. Laura Carlson has resigned as a member, thus leaving an unexpired term until June 30, 2017. In addition, Mr. Forrest Merithew has resigned, thus leaving an unexpired term until June 30, 2018.

The following individuals applied for this vacancy: Megan Archer, Zachary Eden, Ken Miller, Sheneika Smith and Tiffany DE'Bellott.

On April 12, 2016, the Boards & Commissions Committee recommended appointing Megan Archer and Sheneika Smith.

Vice-Mayor Wisler moved to (1) appoint Sheneika Smith as a member to the Recreation Board to serve the unexpired term of Ms. Carlson, term to expire June 30, 2017, or until her has been appointed; and (2) appoint Megan Archer as a member to the Recreation Board to serve the unexpired term of Mr. Merithew, term to expire June 30, 2018, or until her successor has been appointed. This motion was seconded by Councilman Smith and carried unanimously.

RESOLUTION BOOK NO. 37 – PAGE 468

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

VIII. ADJOURNMENT:

Vice-Mayor Wisler adjourned the meeting at 9:21 p.m.

Magdalen Bourasson
CITY CLERK

Esther Manheim
MAYOR

Tuesday – April 26, 2016 - 5:00 p.m.

Regular Meeting

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Cecil Bothwell; Councilman Brian D. Haynes; Councilman Gordon D. Smith; Councilman W. Keith Young; City Manager Gary W. Jackson; City Attorney Robin T. Currin; and City Clerk Magdalen Burleson

Absent: Councilwoman Julie V. Mayfield (City business)

PLEDGE OF ALLEGIANCE

Mayor Manheimer led City Council in the Pledge of Allegiance.

I. PROCLAMATIONS:

A. PROCLAMATION PROCLAIMING APRIL 26, 2016, AS "UNC-ASHEVILLE WOMEN'S BASKETBALL DAY"

PROCLAMATION PROCLAIMING APRIL 26, 2016, AS "UNC-ASHEVILLE MEN'S BASKETBALL DAY"

Mayor Manheimer read the proclamations proclaiming April 26, 2016, as "UNC-Asheville Women's Basketball Day" and "UNC-Asheville Men's Basketball Day" in the City of Asheville. She presented the proclamations to Coaches Mick McDevitt and Brenda Mock Kirkpatrick, and several players.

B. PROCLAMATION PROCLAIMING APRIL 26, 2016, AS "SUPPORT PUBLIC SCHOOLS DAY"

Vice-Mayor Wisler read the proclamation proclaiming April 26, 2016, as "Support Public Schools Day" in the City of Asheville. She presented the proclamation to Mr. Steve Agan, Asheville City Schools Foundation Board Member; Ms. Debby Maugans, President of the ACS Foundation Board; Ms. Kate Pett, Executive Director of the ACS Foundation; Mr. Spencer Cranfill, ACS Foundation Advocacy Coordinator; and others who briefed City Council on some activities taking place during the day.

C. PROCLAMATION PROCLAIMING MAY, 2016, AS "BUILDING SAFETY MONTH"

Councilman Bothwell read the proclamation proclaiming May, 2016, as "Building Safety Month" in the City of Asheville. He presented the proclamation to Director of Development Services Jason Nortz and Chief Code Official Mark Matheny, who briefed City Council on some activities taking place during the month.

II. CONSENT AGENDA:

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON APRIL 12, 2016

B. RESOLUTION NO. 16-88 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A LEASE OF CITY-OWNED PROPERTY AT 224 LOUISIANA AVENUE WITH THE UNITED STATES OF AMERICA FOR CONTINUED OPERATIONS OF AN ARMY RESERVE CENTER

Summary: The consideration of a resolution authorizing the City Manager to execute a lease of city-owned property at 224 Louisiana Avenue with the United States of America for continued operations of an Army Reserve Center.

The City of Asheville owns approximately 8.857 acres of real property at 224 Louisiana Avenue. The property has been leased to the USA for public purposes since 1950's. The existing improvements, including a single-story gym, office building and vehicle garage, were constructed by the USA. Currently, the 81st Regional Support Command (RSC) of the US Army Reserve operates out of the facility, serving as a base of operations for 3 units including an Engineering, Medical and Training Unit. There are 12 full-time staff on premises and approximately 200 soldiers reporting in to this site.

The City initially leased the property to the USA in 1950 for 50 years at a rental rate of $1 per year. When the lease expired in 2000, both parties agreed to establish a new lease at fair market value, for a term of 6 years. In 2006 and thereafter in 2011, Council authorized lease arrangements for this use, at rental rates consistent with fair market value and at reasonable terms.

The current lease with the USA expired December 31, 2015 and the lease has continued on a month to month basis. At this time, the USA has requested a lease of the property for a period of 5 years. City staff procured an appraisal to determine the fair market value of the lease, and the new rental rate is recommended at the appraisal amount of $110,000 per year. This rate is comparable to the current rate of $99,700 per year. Over the five year term of the lease, staff recommends increasing this rate at 3% per year to maintain consistency with fair market value. The proceeds of the lease benefit the City's General Fund and are allocated as part of the Council budget process each year.

There are land use considerations that provide context to the recommendation concerning the lease proposal. The City of Asheville also owns the adjoining parcel to the west of 224 Louisiana Avenue, a 7+ acre tract known as the Falconhurst property. This parcel was donated to the City of Asheville by the Conservation Trust for North Carolina for the purpose of forest preservation. The deed into the City was accompanied by a conservation easement with several land use restrictions. The restrictions limit built improvements to a great degree, and specify that the property can be used for unpaved, mulched walking trails and passive recreational uses. The Southern Appalachian Highland Conservancy performs an annual audit of the property to monitor the City's compliance to the deed restrictions and the health of the forest. Currently the Falconhurst property is not accessible to the general public and the City has not allocated staff, maintenance or capital budget dollars to improve the property to allow for public access. The City property at the US Army Reserve Center is the only city-owned point of access into the Falconhurst property, however certain homeland security, safety, and control measures needed for the operation of the US Army Reserve Center discourages and prevents any public access to the Falconhurst property through the leased area.

The city-property at 224 Louisiana is in close proximity to the commercial corridor of Patton Avenue. Staff expects that the Comprehensive Planning efforts will inform the future vision and land use for the Patton Avenue corridor and in turn, provide land use considerations for the future use of the city property as well. The recent Council visioning process established that the creation of affordable housing and the maintenance of high-performing city-service facilities are critical to the City's future. This parcel of city-owned land, together with the Falconhurst Natural Area, presents an opportunity for the City to consider in terms of future use.

It is evident in discussions with the tenant that the relocation of an Army Reserve Center requires generous lead-time and an action by the U.S. Congress. The revenue from the property benefits the General Fund and is fair market value. The City planning efforts will inform the vision for the corridor and the site and the timeline for the Comprehensive Planning process is aligned with the term requested for the lease renewal.

On March 22, 2016, the Finance Committee recommended approval of the lease proposal from the USA of 5 years, $110,000 per year, with 3% annual increases, for the continued use of the property as an Army Reserve Center. This action aligns with the City Council 2036 Vision by complying with the goal of being a 'Smart City' in that lease revenue allows the City to diversify its revenue base. This action also supports the City's intent to be a 'Connected and Engaged Community', through a continued relationship with the Federal Government and local/regional reservists via this lease arrangement.

Pros:

- Lease rate at fair market value that benefits the City's General Fund
- Lease term aligns with City Comprehensive Planning efforts

Con:

- None noted.

Consistent lease revenue benefits the general fund at $110,000 per year plus 3% annual increases in that rate each year thereafter.

Staff recommends adopting the following resolution to authorize the City Manager to execute a lease of city-owned property at 224 Louisiana Avenue to the United States of America for continued operations of an Army Reserve Center – 81st RSC.

Councilman Smith hoped that at the conclusion of this lease that the City tries to repurpose the site for housing or other City uses, including the greenway linkage.

RESOLUTION BOOK NO. 38 - PAGE 1

C. RESOLUTION NO. 16-89 - RESOLUTION WHITE ASH DRIVE EAST AS A CITY-MAINTAINED STREET

Summary: The consideration of a resolution to accept White Ash Drive East as a city-maintained street.

Code of Ordinances Sec. 7-15-1(f)(4)a requires that streets dedicated for public use be accepted by resolution of the City Council. Biltmore Park agreed to a voluntary annexation contingent to the acceptance of the streets in Biltmore Park provided they are constructed to City standards. White Ash Drive East was constructed to City standards but inadvertently never accepted by the City for public maintenance (Previously, Yellowood Lane, a section of Red Cedar Lane, a section of White Ash Drive, and Shortia Lane were inadvertently not accepted but City Council approved these streets as city-maintained streets on May 24, 2011).

White Ash Drive East from White Ash Drive to Viburnum Lane / Dearborn Street is a developer-constructed street that has an average width of 23 feet with valley curb, a length of 0.22 mile, and a right-of-way width of 45 to 50 feet.

Following City Council's approval of this resolution, the subject street will be added to the official Powell Bill List.

Pros:

- Complies with the voluntary annexation agreement with Biltmore Farms that the City would accept streets built to City standards.
- The City of Asheville will receive Powell Bill Funds from the North Carolina Department of Transportation (NCDOT) to help maintain the street.

- The street provides access in a residential community.

Con:

- Powell Bill Funds will not cover 100% of the total cost to maintain the street.

There will be no initial financial impact to the City, although the responsibility of maintenance will belong to the Public Works Department. The City will receive Powell Bill Funds in the future to help maintain the street.

Staff recommends that City Council accept White Ash Drive East as a city-maintained street.

RESOLUTION BOOK NO. 38 - PAGE 2

D. RESOLUTION NO. 16-90 - RESOLUTION ACCEPTING OCASO DRIVE, PACIFICO DRIVE AND VERANO COURT AS CITY-MAINTAINED STREETS

Summary: The consideration of a resolution to accept Ocaso Drive, Pacifico Drive, and Verano Court as city-maintained streets.

Code of Ordinances Sec. 7-15-1(f)(4)a requires that streets dedicated for public use be accepted by resolution of the City Council. When originally constructed, the Bonito Ocaso Subdivision was a gated, private community and the streets were privately-maintained. The Bonito Ocaso Homeowners Association has removed the gates and asked the city to accept the streets as city-maintained streets.

Ocaso Drive from Crowell Farms Drive to Pacifico Drive is a developer-constructed street that has an average width of 22 feet with valley curb, a length of 0.29 mile, and a right-of-way width of 45 feet.

Pacifico Drive from Crowell Farms Drive to Ocaso Drive is a developer-constructed street that has an average width of 22 feet with valley curb, a length of 0.25 mile, and a right-of-way width of 45 feet.

Verano Court from Pacifico Drive to its dead-end is a developer-constructed street that has an average width of 22 feet with valley curb, a length of 0.04 mile, and a right-of-way width of 45 feet.

City staff has inspected the subject streets and determined that they were constructed according to current standards as indicated in the City of Asheville's Standard Specifications and Details Manual.

Following City Council's approval of this resolution, the subject streets will be added to the official Powell Bill List.

Pros:

- The City of Asheville will receive Powell Bill Funds from the North Carolina Department of Transportation (NCDOT) to help maintain the street.
- The streets provide access in a residential community.

Con:

- Powell Bill Funds will not cover 100% of the total cost to maintain the street.

There will be no initial financial impact to the City, although the responsibility of maintenance will belong to the Public Works Department. The City will receive Powell Bill Funds in the future to help maintain the street.

Staff recommends that City Council accept Ocaso Drive, Pacifico Drive, and Verano Court as city-maintained streets.

RESOLUTION BOOK NO. 38 - PAGE 4

E. RESOLUTION NO. 16-91 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT WITH CAROLINA CORNERSTONE CONSTRUCTION INC. TO RENOVATE THE CARRIER PARK MULTI-PURPOSE BUILDING

ORDINANCE NO. 4493 - BUDGET AMENDMENT FOR CARRIER PARK MULTI-PURPOSE BUILDING RENOVATIONS

Summary: The consideration of 1) a resolution authorizing the City Manager to enter into a contract with Carolina Cornerstone Construction, Inc. to renovate the Carrier Park multi-purpose building in the amount of $274,108.00 plus a contingency of $15,892.00 for a total of $290,000.00; 2) a budget amendment in the amount of $290,000.00 from Parks and Recreation Department General Fund deferred maintenance operating budget to establish a capital project in the General Capital Projects Fund.

The existing structure, including registration areas, storage, systems and restrooms at Carrier Park have exceeded their life expectancy, are in poor condition and have conditions that constitute code violations. As a result, funding has been identified within the City's capital improvement plan and the Parks and Recreation Department deferred maintenance cost center for the renovation.
In support of this capital improvement project, the City issued an Advertisement for Bids for construction of the renovations and received three bids plus alternates.

1. Carolina Cornerstone Construction, Inc., Asheville, NC ($274,108.00)
2. B. Allen Construction, Candler, NC ($275,783.84)
3. Patton Construction Group, Inc., Arden, NC ($288,600.00)

After thorough review and evaluation, staff selected Carolina Cornerstone Construction, Inc., PO Box 6779, Asheville, N.C., as the lowest, responsible bidder. The base bid plus alternates accepted was $274,108.00.

The Parks and Recreation Department deferred maintenance cost center in the General Fund is designated for minor repairs and improvements for parks and recreation facilities. There are projects budgeted on the cost center in the current fiscal year that relate to capital projects. This includes $290,000 for the cost of renovation of the Carrier Park Multi-Purpose Building ($274,108.00) plus contingency ($15,892.00).

Staff requests City Council to approve the budget amendment in the amount of $290.000.00 to increase the capital project for the Carrier Park multi-purpose building renovation in the General Capital Project Fund from the Parks and Recreation Department deferred maintenance budget.

Pros:

-
- Corrects accessibility and code compliance issues.
- Improves security of storage of equipment used for roller-hockey, cycling and other park uses.
- Improves security and function of the registration area.
- Improves safety and service of restrooms, including replacement of outdated/broken fixtures and finishes.

- Creates a gender neutral, family changing and restroom area

Con:

- During renovation, alternative arrangements will be required for on-site storage and event registration.
- Portable restrooms will be required during renovation.

The $274,108.00 plus contingency of $15,892.00 to support the Carolina Cornerstone Construction, Inc. contract to renovate the Carrier Park multi-purpose building is budgeted in the Parks and Recreation Department General Fund operating budget as part of the deferred maintenance budget. Due to the nature and size of the project, Finance staff recommends the contract be budgeted in the General Capital Projects Fund rather than the General Fund. A budget amendment is required to move the funding between the two funds.

Staff recommends that the City Council adopt 1) a resolution authorizing the City Manager to enter into a contract with Carolina Cornerstone Construction, Inc., to renovate the Carrier Park multi-purpose building for an amount of 274,108.00 plus a contingency of 15,892.00 for a total of $290,000.00; and 2) a budget amendment in the amount of $290,000.00 from Parks and Recreation Department General Fund deferred maintenance operating budget to establish a capital project in the General Capita Projects Fund.

RESOLUTION BOOK NO. 38 - PAGE 6
ORDINANCE BOOK NO. 30 - PAGE 274

F. RESOLUTION NO. 16-92 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO AN AGREEMENT WITH THE N.C. DEPT. OF TRANSPORTATION TO FUND THE APPRENTICE/INTERN PROGRAM FOR FISCAL YEAR 2016-17

Summary: The consideration of a resolution authorizing the City Manager to enter into an agreement with the N.C. Dept. of Transportation (NCDOT) to fund the Apprentice/Intern Program for Fiscal Year (FY) 2016-17.

The NCDOT Public Transportation Apprenticeship Program gives current college seniors the opportunity to work in the field of public transportation management upon receiving their undergraduate degree. The 12-month program, which starts July 1st, provides exposure to all aspects of a transit system and allows apprentices to gain experience in managing public transportation operations.

The City applied for this program and was granted funding. A selection program will be conducted by the NCDOT before the beginning of the fiscal year. The apprentice will work in the Transportation Planning Division, Transportation Department, performing transit specific tasks, as required by the grant. The apprentice will assist with route planning, analysis of transit related surveys and procurement processes and special projects.

FY 2016-17 funding totals $32,432. The NCDOT will provide 90% of the anticipated funding ($29,188), and the City will provide the remaining 10% ($3,244). The grant funding and the City's local match in the amount of $3,244 are currently budgeted in the Transportation Department's proposed budget for Fiscal Year 2017.

Pros:

- The subject grant supplements funding for an apprentice position for FY 2016-17.
- The subject grant enables the City of Asheville to use $29,188 in State funds for transit planning activities.

Con:

- A 10% local match in the amount of $3,244 is required.

The total grant funding for Fiscal Year 2016-17 is $32,432. The City is required to provide a 10% local match in the amount of $3,244. The anticipated grant funding and the City's local match in the amount of $3,244 are currently budgeted in the proposed Transit Services fund.

City staff recommends that City Council adopt a resolution authorizing the City Manager to enter into an agreement with the NCDOT to fund the Apprentice/Intern program for FY 2016-17.

RESOLUTION BOOK NO. 38 - PAGE 7

G. RESOLUTION NO. 16-93 - RESOLUTION AUTHORIZING THE CITY MANAGER ENTER INTO A CONTRACT WITH ROGERS GROUP INC. FOR THE ASPHALT PAVING IMPROVEMENTS 2016 PROJECT

ORDINANCE NO. 4494 - BUDGET AMENDMENT FOR THE ASPHALT PAVING IMPROVEMENTS 2016 PROJECT

Summary: The consideration of (1) a resolution authorizing the City Manager to execute, on behalf of the City of Asheville, a contract in the amount of $1,798,261.65 plus a contingency of 11.47% ($206,255.95) with Rogers Group, Inc. for the project known as Asphalt Paving Improvements – Fiscal Year 2016, City of Asheville Project #ST-15-16-002, and further authorizing the execution any change orders to said contract which may arise during construction of said project up to the budgeted amount of $2,004,517.60; and (2) a budget amendment in the amount of $110,517.60 to appropriate previously unbudgeted revenue from the Metropolitan Sewerage District (MSD) and Buncombe County Schools associated with the paving program, and to move savings from FY2014-15 projects in the General Fund over to the FY 2015-16 paving project in the General Capital Projects Fund.

The following list of streets was put together to be addressed by this contract:

Asphalt Paving FY16			
Street	From	To	Length (LF)
Braddock Way	All		4,000
Lakeshore Drive	Merrimon Avenue	Mt. Vernon Place	1,125
N. Bear Creek Road	Patton Avenue	Old County Home Road	6,534
N. Oak Forest Drive	All		2,211
Westridge Drive	N. Oak Forest Drive	Springside Road	1,200
Old Haw Creek Road	Middlebrook Road	Bethesda Road	5,026
Middlebrook Road	Old Haw Creek Road	New Haw Creek Road	1,216
Patton Avenue	N. French Broad	College Street	1,257
Washington Road	All		1,900
Broad Street	Washington Road	N. Liberty Street	425
Victoria Road	Meadow Road	McDowell Street	5,685
W. Chapel Road	Hendersonville Road	Marietta Street	1,188
Woodland Road	Sunset Parkway	Ridgewood Place	2,200
		Total	33,967

			6.43 miles

The project was advertised on February 26, 2016, and due to an insufficient number of bids, advertised again on March 23, 2016. Bids were opened on March 31, 2016, with the following results:

Rogers Group, Inc. of Nashville, TN,	$1,798,261.65
Harrison Construction Company of Asheville, NC	$2,099,495.36

A 11.47% contingency ($206,255.95) has been added to allow payment for any unforeseen costs that typically arise during construction and to do additional street resurfacing. The work produced from this contract would fix a number of roads that are in need of repair.

Pros:

- Will repair approximately 6.43 miles of roadways within the Asheville City limits.
- Will improve mobility and safety on city streets.

Con:

- Construction will be disruptive to adjacent residences and businesses.

The total budget for this project, including contingency, is $2,004,517.60. The budget amendment allows for the use of previously unbudgeted revenue along with savings from FY 2014-15 projects.

City staff recommends City Council adopt (1) the resolution awarding the contract to Rogers Group, Inc. for the Asphalt Paving Improvements – Fiscal Year 2016 Project and execute any change orders; and (2) adopt the associated budget amendment.

At the request of Councilman Smith, Public Works Director Greg Shuler spoke about how the City rates streets for repaving, the condition of Michigan Avenue (cost to repave the entire section is $650,000), and their attempt to communicate with citizens on when their streets may be expected to be paved.

Mr. Alan Ditmore felt that if roads are repaved, they only encourage speeding.

RESOLUTION BOOK NO. 38 - PAGE 8
ORDINANCE BOOK NO. 30 - PAGE 276

H. RESOLUTION NO. 16-94 - RESOLUTION SETTING A PUBLIC HEARING ON MAY 10, 2016, TO CONSIDER THE ISSUANCE OF 2016 LIMITED OBLIGATION BOND ANTICIPATION NOTES

Summary: The consideration of a resolution authorizing and directing the City Manager or the Chief Financial Officer, with advice from the City Attorney and Bond Counsel, to proceed and negotiate on behalf of the City for the financing of the 2016 Projects for a principal amount not to exceed $46,000,000 under the Contract Amendment to be entered into in accordance with the provisions of Section 160A-20 of the General Statutes of North Carolina.

The issuance of Limited Obligation Bonds (LOBs) represents a construction debt issue in the City's draw-program financing for the City's Capital Improvement Program (CIP). Proceeds will replenish City funds for reimbursement resolutions in place that have allowed interim funding of the City's CIP adopted in FY 2013-14 through Treasurer's cash. The LOBs will also allow projects to continue as scheduled in the CIP.

Representatives from the City and the City's Financial Advisors, DEC Associates, met with the LGC on April 8, 2016, and received preliminary approval to proceed with an RFP for the bonds. A formal LGC application will be filed for approval at the June LGC meeting.

Pro:

- Allows the City to move forward with the draw program funding of the CIP.

Con:

- None noted.

Fiscal Impact: This is the first debt issued as part of the long-term capital program. This short-term draw LOBs issue is expected to be refinanced with long-term obligations next year. This issue will reimburse Treasurer's cash and provide funding for ongoing projects. Debt service is conservatively estimated at $540,000 in interest beginning in FY 2016-17. The first principal payment is due in FY 2018-19 and will be approximately $1.8 million. Principal payments will remain at $1.8 million from FY 2019-2026 while shorter-lived assets are amortized. Principal payments will drop below $1 million after FY 2025-26.

Staff recommends that City Council approve the resolution as it is proposed.

RESOLUTION BOOK NO. 38 - PAGE 9

I. ORDINANCE NO. 4495 - BUDGET AMENDMENT TO INCREASE THE BUDGET TO PURCHASE A VAN ON BEHALF OF HENDERSON COUNTY'S APPLE COUNTRY TRANSIT SYSTEM

Summary: The consideration of a budget amendment in the amount of $5,233, from the N.C. Dept. of Transportation and Henderson County, to increase the budget to purchase a van on behalf of Henderson County's Apple Country Transit System.

As a result of the 2000 Census, the City of Asheville was reclassified from a non-urbanized area to an urbanized area with a population greater than 200,000 persons and now includes municipalities in Buncombe, Haywood, and Henderson counties. After the reclassification, Henderson County's transit system became part of the transit systems operating in the overall urbanized area. The Federal Transit Administration named the City of Asheville the designated recipient and as a result, the City of Asheville oversees all of the Federal funding administration. The City of Asheville and Henderson County have signed a sub-recipient agreement that specifies how the funds are disbursed. The City of Asheville is accountable to the Federal Transit Administration regarding the use of all Federal funds and owns all the capital items that Henderson County purchases with their share of the Federal funds.

The estimated total cost of the subject project is $59,161. Federal funds will provide $38,046 covered with grant NC-90-X395; this grant requires a match of $18,315 provided by the North Carolina Department of Transportation ($5,112) and Henderson County ($13,203), plus $2,800 for the title and tag. The City of Asheville performs all of the administrative tasks including the bidding process, requests for funding, review of documentation, and reporting. A State contract is in place and City staff will order the van as soon as the budget is amended.

Pros:

- The van will produce savings in maintenance and fuel costs.
- The Federal Transit Administration (FTA) provides 67% of the total estimated project cost.
- Henderson County provides 23% of the total estimated project cost plus tag and title's costs and the NCDOT provides close to 10%.
- There is **no** cost obligation for the City of Asheville other than administrative expenses.

Con:

- The City of Asheville is responsible for administrative expenses including staff time to oversee the project.

The total estimated project cost is $59,161, with 67% or $38,046 coming from Federal funds, 23% or $13,203 and tag and title in the amount of $2,800 coming from Henderson County and 10% coming from NCDOT in the amount of $5,112. There is no direct fiscal impact to the City of Asheville, however the City's cost of administering the project is not recovered.

City staff recommends that City Council to adopt the budget amendment to increase the budget to purchase a van for Henderson County's transit system.

ORDINANCE BOOK NO. 30 - PAGE 278

J. RESOLUTION NO. 16-95 - RESOLUTION AUTHORIZING THE CITY MANAGER TO AMEND A CONTRACT WITH SITEWORK STUDIOS, PLLC, FOR GEOTECHNICAL ASSESSMENTS FOR THE TOWN BRANCH GREENWAY

Summary: The consideration of a resolution authorizing the City Manager to amend an existing architectural and engineering services contract with Sitework Studios, PLLC in the amount of $37,000 for geotechnical design services along the Town Branch Greenway portion of the "Clingman Forrest and Town Branch Greenways" Project.

City Council had previously adopted a resolution authorizing the City Manager to enter into a contract with Siteworks Studios in January 2013, for $370,000. That original contract was amended to $495,000 in September 2013 to include preparation of engineering construction documents for the Five Points Roundabout. The contract was amended in March 2016 to $540,000 to update the plans, specifications, and engineering estimates in order to comply with Federal (versus State) procurement requirements.

A retaining wall is planned along Old Asheland Ave for the Town Branch Greenway as part of the project. The geotechnical engineering assessment (soil samples, analysis, and design adjustments) related to the retaining wall were intended to be a responsibility of the contractor in the construction phase. Staff recommends performing this analysis now, prior to the start of construction. Both options are acceptable contracting practices, in line with previous City and DOT projects. Performing this assessment now mitigates the potential for interruptions during construction, and provides an opportunity for more favorable bid pricing.

Pros:

- Provides additional information to potential bidders, resulting in more favorable total construction cost.
- Mitigates the potential for interruptions during construction, which affects both construction costs and disruptions to the community.

Con:

- Consuming staff time during design phase rather than during construction phase.

Sufficient budget is included the adopted CIP to fund the change order request for this contract.

City staff recommends City Council adopt a resolution authorizing the City Manager to amend the current contract with Sitework Studios to provide geotechnical design services for the Town Branch Greenway for an amount not to exceed $37,000.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Councilman Smith moved for the adoption of the Consent Agenda. This motion was seconded by Vice-Mayor Wisler and carried unanimously.

III. PRESENTATIONS & REPORTS:

A. UPDATE ON DOWNTOWN PLANNING AND DEVELOPMENT POLICIES

Director of Planning and Urban Design Todd Okolichany said that this is a staff briefing that summarizes public input and results from a community forum held on March 23, 2016, concerning Central Business District (CBD) related topics, including development review thresholds, preferred review process for the largest projects (Level III projects) and considerations for lodging facilities.

At the December 8, 2015, City Council meeting, staff gave a presentation to Council regarding the aforementioned topics. Staff provided an additional presentation to the Planning & Economic Development Committee on January 26, 2016, concerning these issues. With support from the Downtown Commission, staff held a CBD Development Forum on March 23, 2016. The agenda covered an overview of the CBD, history of the 2009 Downtown Master Plan, current development review thresholds and recent development trends. At the forum, public input was also sought on the following items:

- Levels of review for projects in the CBD:
  - Level II (projects between 20,000 square feet and 175,000 square feet and below 145 feet tall) v. Level III projects (projects greater than 175,000 square feet and taller than 145 feet)
  - Rationale for the current development review process
  - Are the current development review thresholds appropriate?
  - What would the impacts be if the thresholds were changed?
- The process for Level III projects in the CBD:
  - Conditional zoning v. conditional use permits. Pros/cons of both tools
  - Should the city consider expanding conditional zoning within the CBD?
- Hotels in/around the CBD:
  - The current review process for hotel proposals
  - What are the public's concerns?
  - Should hotels be evaluated differently than other development proposals?

There was a large turnout for the forum with attendance estimated at about 125 people. Attendees were invited to fill out comment cards regarding the three subject areas and to participate in table discussions specific to each topic. The results from the forum have been transcribed and a summary provided below:

1. **Review thresholds**
   In general there was not clear consensus that the review thresholds need to be adjusted at all. In fact most of the responses from the comment cards did not favor moving the threshold. The staff notes indicate a wide range of opinion on this topic from: leaving the thresholds in place because things are working smoothly; expanding requirements for quality design; and adjusting the maximum height and Level II thresholds. One particular item of note was broad interest from attendees to have additional communication about large scale projects. Some ideas focused on wider public notice for the required developer-sponsored neighborhood meeting or for meeting information to be posted to

the City web site for example. One participant summarized that concern about development seems to relate to the need for additional communication.

2. **Process for reviewing large projects**
When projects do qualify for the Level III threshold, Council reviews projects in the Traditional Downtown Core as conditional zoning (CZ) applications. For project outside of the core, they are reviewed as conditional use permits (CUPs). Although there were not many comment cards received regarding this topic (six cards received in total), four of the responses indicated a preference for expanding the conditional zoning option. The staff notes on this issue provide a recommendation that City Council have a meeting with the developer early on in the review process.

3. **Consideration for hotels**
Attendees were asked if there was any concern about hotels and what if any changes should be made to the review process. Of the meeting attendees who filled out a comment card specific to hotels, the majority did not feel that hotels should be singled out or treated differently from other development proposals. Some people did not agree with this and felt that Council should review all hotels, with one person suggesting a trial period of three years.

After the forum, staff was invited to attend a local chapter meeting of the North Carolina Lodging Association on April 7, 2016. Staff provided the same presentation that was shared at the CBD Development Forum. There were some comments from attendees about the way Council reviews projects using the CZ process. Hoteliers seem to be concerned that they may not know what to provide within the project scope during a CZ process and that City Council may exact requirements that they may not be able to meet. The CUP process, which requires seven standards to be met for project approval, was preferred, as well as the predictability of design standards.

At the North Carolina Lodging Association meeting, there was also broad comment about the need for hotels to provide sufficient parking for their projects. Hoteliers realize that since most guests arrive at their destination by private automobile, then parking should be sufficiently provided for.

Staff presented the results of the CBD Development Forum to the Downtown Commission meeting on April 8, 2016. The Commission's discussion focused on the various meeting notification options for the developer-sponsored meeting throughout the development review process and the notification process currently in use.

The current notification process for Level II and III projects in the CBD includes:

- Developer meeting with the neighborhood prior to project submittal
- Development plans are posted to the city website and are available to the public throughout the review process
- Notice of public meetings (Planning and Zoning Commission and City Council published in newspaper no later than 10 days before the meeting)
- Mailed notices to adjacent property owners within 200 feet of the subject property (for developer/neighborhood meeting, Downtown Commission, Planning and Zoning Commission and City Council) no later than 10 days before the meeting
- City "Z" signs posted at the property (Planning and Zoning Commission and City Council)
- Meeting agendas posted to city website Downtown Commission, Planning and Zoning Commission and City Council)

At the Downtown Commission meeting, it was discussed that even though the city notification process exceeds state requirements that some nearby property owners are not aware

of some projects in the CBD. For example, an interested citizen residing outside the 200 foot radius for notifications would need to find the information on the city website among the other postings and announcements. As a limitation to the mailed notice, tenants of a property do not receive notice, only the property owner. Also, the developer meetings with the neighborhood often do not occur until just before the Technical Review Committee submittal.

On April 19th, staff presented the results of the CBD Development Forum and prior Commission meetings to the Planning & Economic Development Committee. The Committee instructed staff to provide options to City Council for strengthening the public notification process for developments in the CBD.

Based on the input received at the CBD Development Forum, as well as input received from the Planning and Economic Development Committee and Downtown Commission, staff is providing the following options for improving the public notification process in the CBD:

1. City "Z" sign (or similar style sign) posted for developer/neighborhood and Downtown Commission meetings
2. Developer/neighborhood meetings required to take place no later than a certain date before the Technical Review Committee submittal (e.g. one month prior)
3. Developer preparation of a summary report of the developer/neighborhood meeting
4. Recommend the use of a professional facilitator for developer/neighborhood meetings
5. Use of city website for improved communication with the public
6. Archive documents, reports and plans from past public meetings on the city's website

This report is being provided for informational purposes. Staff seeks guidance from City Council based on the information in this report, including consideration of options for improving public notification of Level II and Level III development projects in the CBD.

In response to Councilman Bothwell, Mr. Okolichany said that over the past couple of years, approximately 20 projects were proposed in the downtown area. Out of that 20, only 4 were over the 175,000 sq. ft. threshold and three of those four were Buncombe County projects. If the threshold was 100,000 sq. ft., he guessed that possibly 8 would have required City Council review.

Councilman Haynes felt that Council should be reviewing hotels differently.

Councilman Smith felt that back in 2010 when Council changed the review thresholds it was to start the economic engine downtown. Since that has now shifted, he felt it was an appropriate time to revisit the threshold limits. He also supported conditional zonings as it give Council/developer/public opportunities to craft solutions to community concerns. He advocated for a study with a third party around tourism with participation with the City, County and Tourism Development Authority.

City Attorney Currin responded to Councilman Bothwell about making minimum wage requirements a condition on a conditional use permit or a conditional zoning.

After discussion about the conditional zoning vs. conditional use permit process in the traditional core of downtown, it was the consensus to wait until more public comment is received before making any decision on that topic.

Former Mayor Terry Bellamy explained to Council several reasons why the thresholds were raised.

There was considerable discussion regarding the need to expand public input into this process. In summary, it was the consensus of Council to (1) have staff work with the Communication and Public Engagement Division about using the tool of Open City Hall to expand

public input on these topics (including a menu of options for additional notice requirements, the conditional use permit vs. conditional zoning in the traditional downtown core area, and the downtown design review guidelines); and (2) have staff look at other cities that have different review processes to see if the level of review changes the kind of development they see.

IV. PUBLIC HEARINGS:

A. PUBLIC HEARING TO CONSIDER CONDITIONAL ZONING PROPERTY LOCATED AT 60 MILLS GAP ROAD FROM INDUSTRIAL DISTRICT TO HIGHWAY BUSINESS DISTRICT/CONDITIONAL ZONING FOR THE DEVELOPMENT OF A 272 UNIT MULTI-FAMILY DEVELOPMENT

At the applicant's request, Councilman Bothwell moved to continue this public hearing until June 14, 2016. This motion was seconded by Councilman Young and carried unanimously.

B. PUBLIC HEARING TO RECEIVE COMMENTS REGARDING THE CONSOLIDATED ACTION PLAN FOR FISCAL YEAR 2016-17 WHICH SETS OUT THE PROPOSED USE OF FEDERAL COMMUNITY DEVELOPMENT BLOCK GRANT AND HOME INVESTMENT PARTNERSHIP ACT FUNDS FOR THE COMING YEAR

RESOLUTION NO. 16-96 - RESOLUTION AUTHORIZING SUBMISSION OF THE CITY'S CONSOLIDATED ANNUAL ACTION PLAN FOR 2016-17 TO THE U.S. DEPT. OF HOUSING AND URBAN DEVELOPMENT

Community Development Manager Heather Dillashaw said that this is a public hearing to receive comments regarding the proposed Consolidated Action Plan for Fiscal Year (FY) 2016-17, which sets out the proposed use of federal Community Development Block Grant (CDBG) and HOME Investment Partnership Act (HOME) funds for the coming fiscal year; followed immediately by Council's consideration of a resolution authorizing submission of this Consolidated Action Plan to the US Department of Housing and Urban Development. This public hearing was advertised on April 15 and 21, 2016.

The City will have $1,074,541 in CDBG funds and $1,332,304 in HOME funds available for the fiscal year beginning July 1, 2016. The City's Housing and Community Development Committee has made recommendations for the use of CDBG funds, which must be used in housing or community development programs in Asheville, and the Asheville Regional Housing Consortium has recommended uses for the HOME funds, which must be used for housing programs within the four-county Consortium area (Buncombe, Henderson, Madison, and Transylvania counties).

Below is the summary of annual action plan for 2016-17:

CDBG PROGRAM

Proposed Use of Funds:

2016-2017 PROGRAM	Funding Recommend.
Asheville Area Habitat for Humanity - Home Repair	$ 40,000
Asheville Area Habitat for Humanity - Homeowner Education	$ 50,000
Asheville City Schools Foundation - Improving Success for Asheville's Youth	$ 18,000
Bountiful Cities - Urban Agriculture Partnership	$ 28,000

Eagle Market Street Development Corporation - Empowering Residents	$ 30,000
Green Opportunities - Job Training and Placement	$ 125,000
Helpmate - Domestic Violence Services	$ 19,000
Homeward Bound - AHOPE Coordinated Assessment	$ 48,904
Homeward Bound - Pathways to Permanent Housing	$ 80,000
Housing Authority of the City of Asheville - Lee Walker Heights	$ 135,720
Mountain BizWorks - Business Training	$ 60,000
Mountain Housing Opportunities - Tier 1 & 2 Emergency Home Repair	$ 110,000
OnTrack - Financial Capabilities	$ 20,000
Pisgah Legal Services - Homelessness Prevention Project	$ 41,000
The Support Center - Reaching Innovative Solutions for Entrepreneurs	$ 40,000
YWCA - Drop in Childcare	$ 13,000
City of Asheville - Section 108 Repayment	$ 15,567
City of Asheville - Program Administration	$ 200,350
RECOMMENDED FUNDING	**$ 1,074,541**

HOME INVESTMENT PARTNERSHIP PROGRAM

Proposed Use of Funds:

2016-2017 PROGRAM	Funding Recommend.
Asheville Area Habitat for Humanity - Direct Homeowner Assistance	$ 50,000
FGM Development – Perry Lane	$ 355,431
Henderson County Habitat for Humanity – Dodd Meadows Phase 4	$ 130,800
Homeward Bound – Asheville Tenant Based Rental Assistance	$ 55,000
Housing Assistance Corporation - Oklawaha Village Apartments	$ 100,000
Housing Authority of the City of Asheville – Lee Walker Heights	$ 400,000
Mountain Housing Opportunities – East Haven Apartments	$ 143,472
City of Asheville - Program Administration	$ 97,601
RECOMMENDED FUNDING	**$ 1,332,304**

Allocations are consistent with the Consolidated Strategic Housing & Community Plan for 2015-2019, adopted by City Council April 28, 2015.

Pros:

- Approval of the Action Plan paves the way for the receipts of over $2,400,000 of HUD funding to the City and region, which will be used to create affordable housing and create jobs.
- HUD funding will leverage approximately $34,900,000 of additional funding for these projects.

- Reflects the carefully considered recommendations of the City's Housing & Community Development Committee and the Asheville Regional Housing Consortium.

Con:

- It is not possible to fund all the applications received, and most of those funded will receive less than the amount requested.

The Action Plan is fully funded from federal CDBG & HOME entitlement grants, unused funds from previous completed projects, and estimated program income. Staff costs to administer the program are also fully paid from federal sources. The funded programs will provide new construction and other economic activity in the City and region, creating and sustaining employment.

Staff recommends approval of the resolution authorizing submission of the City's Consolidated Annual Action Plan for 2016-17 to the U. S. Dept. of Housing and Urban Development.

Councilman Smith, Chair of the Housing & Community Development Committee, noted that we have many more requests than funding, which funding dwindles down year after year.

Mayor Manheimer opened the public hearing at 6:18 p.m.

Mr. Alan Ditmore stressed that we need to focus on affordable housing.

Mr. Christopher Chiaronmonte spoke about the need of smaller affordable houses.

Mr. Timothy Sadler hoped Council would think about the "My Dad Taught Me That" Program.

Mayor Manheimer closed the public hearing at 6:25 p.m.

Mayor Manheimer said that members of Council have previously received a copy of the resolution and it would not be read.

Councilman Bothwell moved for the adoption of Resolution No. 16-96. This motion was seconded by Councilman Haynes and carried unanimously.

RESOLUTION BOOK NO. 38 – PAGE 14

C. PUBLIC HEARING TO CONSIDER CONDITIONAL ZONING OF PROPERTY LOCATED AT 11 WAYSIDE DRIVE FROM RM-6 RESIDENTIAL MULTI-FAMILY LOW DENSITY DISTRICT TO COMMUNITY BUSINESS I DISTRICT/CONDITIONAL ZONING FOR THE OPERATION OF A SHORT-TERM RENTAL WITHIN AN EXISTING STRUCTURE

Mayor Manheimer said that on Friday, April 22, 2016, Mr. George Tsiros, the applicant, withdrew his conditional zoning application.

D. PUBLIC HEARING TO CONSIDER CONDITIONAL ZONING OF PROPERTY LOCATED AT 50 WILBAR AVENUE FROM RM-16 RESIDENTIAL MULTI-FAMILY HIGH DENSITY DISTRICT TO URBAN PLACE DISTRICT/ CONDITIONAL ZONING FOR THE REDEVELOPMENT OF AN EXISTING HOUSING COMMUNITY, EXTENSION OF PUBLIC INFRASTRUCTURE, AND THE CREATION OF PASSIVE AND ACTIVE RECREATION AND OPEN SPACE

ORDINANCE NO. 4496 - ORDINANCE TO CONDITIONALLY ZONE PROPERTY LOCATED AT 50 WILBAR AVENUE FROM RM-16 RESIDENTIAL MULTI-FAMILY HIGH DENSITY DISTRICT TO URBAN PLACE DISTRICT/ CONDITIONAL ZONING FOR THE REDEVELOPMENT OF AN EXISTING HOUSING COMMUNITY, EXTENSION OF PUBLIC INFRASTRUCTURE, AND THE CREATION OF PASSIVE AND ACTIVE RECREATION AND OPEN SPACE

Principal Planner Shannon Tuch said that this is the consideration of an ordinance to conditionally zone property located at 50 Wilbar Avenue from RM-16 Residential Multi-Family High Density District to Urban Place District/Conditional Zoning for the redevelopment of an existing housing community, extension of public infrastructure, and the creation of passive and active recreation and open space. This public hearing was advertised on April 15 and 22, 2016.

Ms. Tuch said that the applicant is requesting conditional zoning for one parcel located at 50 Wilbar Ave. from Residential Multi-Family High Density (RM-16) to Urban Place Conditional Zone (UP - CZ) in accordance with Section 7-7-8 of the Unified Development Ordinance (UDO) to allow for the redevelopment of an existing residential community that will provide: 199 new residential units; 10,975 square feet of non-residential/commercial space; new road, sidewalk, open space and outdoor amenity areas; and the extension of new transportation and public utility infrastructure.

The site is located south of the city's Central Business District (CBD) in the southeast corner of the intersection of Short Coxe Ave. and McDowell St./Southside Ave. The subject property is 11.59 acres that sits above the surrounding area but is shielded from view by a thick vegetated buffer that surrounds the community on three sides while relatively open to the east where it abuts the commercial properties fronting Biltmore Ave. The property is also relatively flat with mild topography across most of the site until it reaches the edges where it drops in elevation down to the surrounding streets. The PIN is 9648-36-5793 and the property owner is listed as the Asheville Housing Authority.

The applicant is proposing to rezone the property from RM-16 to UP-CZ to allow for a complete redevelopment and expansion of the existing Lee Walker Heights community through the construction of seven new, multi-story buildings that will house 199 residential units constructed in two phases. There are four building types proposed with the building details and phases represented in the table below:

Building Type	Number of Units	Square Footage	Number of Stories	Buildings in Phase I	Buildings in Phase II
Building 1	51	54,759	3	0	1
Building 2	100	116,118	4	1	0
Building 3	8/each	9,646	2	1	2
Building 4	12/each	13,476	3	1	1

In addition to the residential units, this project will provide: 10,975 square feet of nonresidential community or commercial space; the extension of public infrastructure (road, water lines, sewer lines, stormwater, and sidewalk); off-street parking; walking paths; active recreation space and passive open space.

Access to the property remains unchanged and is from Short Coxe Ave. via Wilbar Ave.

where Wilbar Ave. will be renamed and re-built as part of the project, and a new 50-foot public right-of-way will be extended throughout. Sidewalks are required for the re-construction of the new roads and along all existing road frontages. The Urban Place zoning district requires sidewalks that are a minimum of 10-feet in width, although the applicant is requesting a reduction in the required width at various locations throughout the site. Additional internal sidewalks, courtyards and walking paths also help to provide access throughout the whole development.

179 parking spaces are scattered throughout the development and are found in a combination of traditional parking lot spaces with on-street parking spaces. The Urban Place zoning district allows for a 50% reduction in required parking which is utilized with this project, although not to its fullest, and the UDO requirement for off-street parking is satisfied.

Landscaping is required as part of the redevelopment and includes street trees along all road frontages; building impact, street buffer and parking lot landscaping on the site; and dumpster screening around all dumpster locations. Full landscape compliance is shown with the exception of some street trees where topographic and site constraints prevent full compliance. The project also includes the preservation of the existing natural, wooded buffer that surrounds the property on north, west and south sides.

Open space is also required in this zoning district with a requirement equal to 5% (0.57 acres) of the lot area to be designated as open space. Open space is provided and is well in excess of the minimum required.

The Urban Place zoning includes specific *Design and Operational Standards* that address building orientation, well-defined operable entrances at regular intervals, and fenestration requirements for the ground and upper levels and treatments to break up long façades. All design and operational standards will be met with the following exceptions:

1) Ground level window/opening fenestration totaling less than 40% at the ground floor for the residential portions of the facades,
2) Upper story window/opening fenestration totaling less than 25% of the total façade, and
3) Failing to evenly distribute the glazing across the ground levels of Buildings 1 and 2.

As an alternative, the project proposes to meet a minimum fenestration requirement of 20% for all residential street-facing facades (ground level and upper story) and 40% for the non-residential or commercial ground floor portions of the façade. The project will also be requesting to exceed the maximum 0 to 15-foot setback in certain locations for Building 2, or where additional space is desired due to front porch stoops for building types 3 & 4.

This proposal was approved with conditions by the Technical Review Committee (TRC) on March 21, 2016, and requires review by the Planning and Zoning Commission, City Council and Final TRC prior to zoning approval. No communication has been received from the public as of the writing of this report.

The Planning and Zoning Commission reviewed this project at their April 6, 2016 meeting and voted 5:0 (two members absent) to approve the conditional zoning request. Members of the development team added detail and context regarding the project and answered several questions from the Commissioners.

The applicant wishes to rezone the residential RM-16 property in order to allow for a denser, mixed-use urban development.

Conditions - This project includes a number of recommended conditions found in the B1-Conditions list. Modifications and special conditions to note include:

1. The minimum 10-foot wide sidewalk is proposed on either side of Walker Plaza Ave. and

on one side for a portion of Lee Garden Ave.; 6-foot wide back-of-curb sidewalks are proposed in all other locations.
2. A reduction in the street tree requirement along a portion of Lee Garden Ave. (10 trees total).
3. Building 2 and building types 3 & 4 exceed the maximum setback in designated areas. Building 2 is setback 16-32 feet; Building types 3 & 4 are setback 15-25 feet in designated areas.
4. Sidewalk adjacent to some of the on-street parking spaces is not provided (note: these spaces are in excess of the minimum required).
5. All buildings will provide openings totaling a minimum of 20% on all street facing residential facades, and a minimum of 40% on all non-residential or commercial street facing facades.
6. At least 96 units will be affordable to households earning at or below 60% of the Area Median Income (AMI) for a minimum period of 30 years.

There is a separate but simultaneous Level II application for an 18-unit townhome development directly north of the subject property (zoned CBD) known as *88 Southside*. There have also been a number of individual rezonings along Asheland Ave. that have occurred over the last several years which has, in turn, influenced the initiation of the *CBD Expansion and Zoning Study for Asheland Ave. and Southside Ave.* that is currently on the Planning & Urban Design's departmental work plan.

The property is zoned RM-16 and surrounded on all sides by non-residential zoning including: Central Business District (CBD) to the north; Regional Business (RB) to the east; Institutional (INST) and Office Business (OB) to the south; and OB to the west. The surrounding uses are a mix of office and institutional uses, mostly healthcare related, with a few undeveloped or vacant properties to the north and east of the project area. The undeveloped property directly north of the subject property is currently in review for an 18-unit, multi-story townhome development.

The Asheville City Development Plan 2025 highlights the importance of smart growth and very specifically identifies 1) the need for, and value of, affordable housing in Asheville and, 2) the benefits of new urbanism. This project supports the goal of providing safe and affordable housing through a redevelopment that increases the number of affordable and workforce units available in the city. The project also includes elements of new urbanism through the use of higher density, multi-story building designs leaving room for public open and community spaces and by including the improvement and extension of pedestrian and transportation infrastructure making the community more walkable, livable and interconnected.

The redevelopment of the Lee Walker Heights community aligns with the 2036 Council vision in the following areas:

- **A diverse community** – the new units will increase the supply of housing to those who earn below the area median income making living in the heart of the city attainable to a greater number of people.
- **A well-planned and livable community** – the redesign of this community applies principles of new urbanism through well designed higher density residential construction, the creation and preservation of open recreation and community space, and significant pedestrian and transportation infrastructure that provides connections within the community with the opportunity for additional connections to the larger community in the future.
- **Quality affordable housing** – the older public housing units will be replaced with new, well designed units that achieve a higher construction standard through innovative financing and other subsidies. Almost half of all units are committed to be affordable for a period of 30 years to households earning at or below 60% of the AMI.

- **Transportation and accessibility** – new road and sidewalk infrastructure will be rebuilt and extended as part of the project in addition to other pedestrian connections within the community.
- **Connected and engaged community** – the final design for the project is the result of a long and engaged visioning process with the residents and other community members to understand the needs and wants of current and future residents. The redevelopment also involves various partners from the private, non-profit and government sectors.

Considerations:

- Will temporarily displace existing residents.
- Does not fully meet the design and operational standards for window fenestration.
- Does not fully meet the technical standards for sidewalk widths, maximum setbacks and street trees.
- Doubles the existing density while preserving the number of affordable units.
- While density is increased, the project is well below the allowable density of 64 units/acre (742 units).
- New construction successfully employs some principles of smart growth (denser, more urban form).
- Adds almost 11,000 square feet of non-residential community or commercial space.
- Creates significant outdoor recreation, open and gathering spaces.
- Preserves existing wooded buffer areas.
- Provides improved transportation connections and internal pedestrian connections.

Based on policies stated in the Comprehensive Plan and other plans staff finds this request to be reasonable, and within the best public interest, and recommends support of the proposed conditional zoning amendment as proposed.

Mayor Manheimer opened the public hearing at 6:39 p.m.

Mr. Alan Ditmore said that there will not be enough affordable housing to justify the demolition of the existing structures. He also felt that the units should be much smaller.

Mr. Gene Bell, Executive Director of the Housing Authority of the City of Asheville, said that this redevelopment will change people's lives. Their first objective was to give their residents an opportunity to live in updated, modern housing. Secondly, this has been a very inclusive process and they have made every effort to engage the community.

A resident at Lee Walker Heights said that the Housing Authority listened and worked with the residents to address any of their concerns.

Sir Charles Gardner, President of the Resident Council of the Housing Authority, felt that this is not a mixed community since all 96 deeply affordable are located in one area. Mr. David Nash, Chief Executive Officer of the Housing Authority, explained that due to HUD requirements all 96 units must be replaced in the first phase of the construction. After all buildings are built, they intend to go back to HUD to request that the units be evenly spread through the buildings.

A resident at Lee Walker Heights spoke in support of this project and that the children need space to play.

Mayor Manheimer closed the public hearing at 6:54 p.m.

Mayor Manheimer said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Smith moved to approve the Urban Place Conditional Zoning (UP-CZ) request to allow for the redevelopment and expansion of an existing housing development for 199 new residential units and 10,975 square feet of nonresidential/commercial space, to be constructed in two phases for a total of seven buildings along with the submitted conditions, site plan and elevations, and find that the request is reasonable, is in the public interest and is consistent with the Comprehensive Plan and other adopted plans in the following ways: 1) expands affordable and workforce housing choices in the city; 2) supports smart growth by increasing density and improving transportation and pedestrian infrastructure; and 3) promotes community involvement and strategic partnerships. This motion was seconded by Vice-Mayor Wisler and carried unanimously.

ORDINANCE BOOK NO. 30 - PAGE 280

V. UNFINISHED BUSINESS:

A. LEE WALKER HEIGHTS

RESOLUTION NO. 16-97 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A MEMORANDUM OF UNDERSTANDING WITH DUKE ENERGY PROGRESS FOR THE PURCHASE OF PROPERTY AT 319 BILTMORE AVENUE FOR THE PURPOSE OF PROVIDING MIXED USE DEVELOPMENT WITH SIGNIFICANT MIXED INCOME HOUSING

Assistant City Attorney Jannice Ashley said that this is the consideration of a resolution authorizing the City Manager to enter into a Memorandum of Understanding ("MOU") with Duke Energy Progress (Duke Energy) for the purchase of property at 319 Biltmore Avenue, known as the Matthews Ford property, ("the Biltmore Ave. Property") for the purpose of providing mixed use development with significant mixed income housing.

Our community is facing an affordable housing crisis as identified in the 2015 Housing Assessment and Market Study identified a significant need for affordable housing in our community. The needs have continued to grow.

The City of Asheville has been working with the Housing Authority of the City of Asheville (HACA) to redevelop Lee Walker Heights, adjacent to the Biltmore Ave. Property, into a mixed income transformational community. The vision is to create an opportunity for citizens at all income levels to be a part of a thriving community where all members are valued equally.

It is important to have the built environment constructed in a manner that facilitates this vision. Some examples of this include having multiple access locations to the community, providing opportunity for various income housing dispersed among the community, etc. The Biltmore Ave. property when connected both physically and visually to Lee Walker Heights provides that opportunity. The Matthews Ford site is approximately 5.5 acres and could be developed to include an additional 200 to 300 units of residential housing.

The MOU includes the following proposed terms:

- Purchase Price: $5.3 Million
- Additional Consideration: The City will provide all necessary easements and right-of-ways on and across City-owned property to Duke Energy, for Duke's electrical infrastructure (lines and facilities) planned to be completed in the next 8 years located in the City of Asheville corporate limits.
- Option Period for the City of Asheville to purchase the referenced property: 8 years. The City's ability to exercise the Option will be contingent on Duke being reasonably satisfied with the City of Asheville's regulations governing substation location in effect at the time the City or assignee desires to exercise the Option.

- Right to Assign: The Option would be assignable.
- Access Easement: Upon execution of the Option Agreement, Duke Energy also agrees to grant to the City a non-exclusive, permanent access easement through the Biltmore Avenue property for purposes of allowing ingress and egress from adjacent Lee Walker Heights property to Biltmore Avenue. The exact location of the easement will be mutually determined by the parties but will be of sufficient width to accommodate the building of a public street to include bike, pedestrian and transit facilities. Additionally, Duke Energy will allow an easement for temporary grading on the site that is mutually determined by the parties.
- Zoning Approval: Upon execution of the Option Agreement, Duke Energy working in coordination with the City agrees to submit a rezoning application for the Property to be rezoned from its current zoning of Highway Business (HB) to Urban Place Conditional Zoning (UP-CZ).

Pros:

- The MOU will provide an opportunity to improve the redevelopment potential of Lee Walker Heights, a public housing project that has limited connectivity into a transformational mixed use/mixed income development.
- The MOU will provide an additional multimodal transportation connection to Lee Walker Heights.
- The MOU will provide a mechanism to allow the Biltmore Ave. property site to be graded in a way that future development will be integrated into the Lee Walker redevelopment.
- The acquisition and rezoning of the property will allow for the future development of a significant number of affordable housing units.
- The Option is transferable.
- The price of the property is the price that Duke Energy paid for it when they purchased it in 2014.

Con:

- HACA is in the process of applying for state tax credits. HACA will not be able to move forward on the redevelopment of Lee Walker Heights without the financial assistance these tax credits provide. However, since the City is entering into an Option to Purchase only, it is not obligated to purchase the Biltmore Ave. Property if it is no longer needed as part of larger redevelopment plan.

The cost of the property is $5.3 million. The City may choose to assign the option to HACA or another developer. If that occurs, that party would be responsible for paying for the property. If the City of Asheville purchases the property funding would need to be identified in the budget year the property is purchased.

Staff recommends City Council adopt the resolution authorizing the City Manager to enter into a MOU with Duke Energy for the purchase of property at 319 Biltmore Avenue, known as the Matthews Ford property, for the purpose of providing mixed use development with significant mixed income housing and to execute any other documents necessary for this transaction.

In response to Vice-Mayor Wisler, Ms. Ashley explained that the easement will be attached to the property immediately and permanently.

A lady spoke about her concern of the welfare of the vulnerable population at Lee Walker Heights. She suggested that the residents be afforded provisions under the Uniform Relocation Act rather than the Housing Choice Voucher Program. She provided suggestions to Council to help landlords contribute to the affordable housing crisis. Mr. Nash explained that the residents are covered under the Uniform Relocation Act and the Housing Authority's relocation plan, noting that anyone living in the development when the project begins will have the right to return.

Mr. Timothy Sadler suggested Council look at solar options for this development. Mr. Nash responded that the buildings will be solar ready and they would be happy to receive estimates from solar companies.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Vice-Mayor Wisler moved for the adoption of Resolution No. 16-97. This motion was seconded by Councilman Haynes and carried unanimously.

RESOLUTION BOOK NO. 38 – PAGE 15

RESOLUTION NO. 16-98 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A LETTER OF COMMITMENT TO THE HOUSING AUTHORITY OF THE CITY OF ASHEVILLE FOR THE PURPOSES OF REDEVELOPING LEE WALKER HEIGHTS INTO A MIXED INCOME DEVELOPMENT

Assistant Community & Economic Development Director Jeff Staudinger said that this is the consideration of a funding request from the Asheville Housing Authority for the redevelopment of Lee Walker Heights.

The Asheville Housing Authority and their co-developer Mountain Housing Opportunities is seeking Council approval of a funding commitment of $4.2 million to support the redevelopment of Lee Walker Heights. The proposed project will demolish existing buildings on the 11 acre site, install new public infrastructure, and construct 212 units of housing affordable to households earning 60% or less of the area median income. The project would be accomplished in two phases. Phase 1 would include the demolition, infrastructure and the construction of 120 units of housing (of which 96 units would be replacement units for those now there). Phase 2 would construct an additional 92 units of affordable housing.

The project also envisions the eventual construction of a mixed use commercial-residential property on the 4.1 acre former Matthews Ford site, with frontage on Biltmore Avenue. This property is currently owned by Duke Energy, which has agreed to grant the City an option to purchase the property. This option also provides a conditional approval for an easement to the Lee Walker Heights property, which could be exercised during the Phase 1 construction period, and which would therefore provide direct pedestrian and vehicular access to the Lee Walker Heights site from Biltmore Avenue.

Lee Walker Heights is the oldest public housing community in the City of Asheville with 96 units constructed in 1949-1950 and is severely physically distressed. The buildings are antiquated barracks style row houses, and are cramped and inaccessible to people with disabilities. Although proximate to Mission Hospital and other employment opportunities, the development is isolated by large roads and commercial development from the both the commercial Biltmore Avenue corridor and the nearest residential neighborhood. It has one way in and out, and a narrow one-way street through the development.

Efforts to develop a plan for revitalization of this community have been underway for some years. HUD Choice Neighborhood grant applications were submitted in 2011 and 2013, but federal budget cuts severely curtailed this successor to the HOPE VI program, and Asheville's efforts were not successful. A successful application by the Housing Authority to the pilot HUD Rental Assistance Demonstration program opened a new pathway for the Housing Authority to pursue revitalization. In 2014, after a well-subscribed Request for Proposals process, the Housing Authority chose Mountain Housing Opportunities as their co-developer, and began a resident engagement and master planning process for the redevelopment.

The result of the master planning process is the proposed 212-unit redevelopment plan. The Housing Authority determined that the federal Low Income Housing Tax Credit (LIHTC) program, administered by the NC Housing Finance Agency, provides the most feasible financing vehicle to achieve that plan. If successful, the LIHTC program will provide approximately 50% of the project cost in the form of equity. Successful applicants must raise the remainder of the funds needed for development from other sources. The challenge is that rents must be able to be affordable to households earning 60% or less of median income. This requirement constrains the amount of debt the project can support. The application process is underway, with a complete application deadline of May 13, 2016. Tax credits for 120 units- the maximum that can be requested- will be applied for then.

Therefore, the Housing Authority is seeking the direct support of the City of Asheville in helping to bridge the gap between funding available through tax credits and debt, and the project cost. In summary, the project proposed sources and uses is as follows:

			(per unit)
Funding Sources			
Private Equity (LIHTC)	16,828,400	52%	79,400
Mortgage	8,660,000	27%	40,800
Other and Local	6,080,000	19%	28,700
Owner	986,700	3%	4,700
	32,555,100		153,600
Development Costs			
Construction/Related	26,805,900	82%	126,400
Financing	1,333,800	4%	6,300
Legal/Compliance	591,300	2%	2,800
Other Soft Costs	2,814,000	9%	13,300
Reserves	1,010,100	3%	4,800
	32,555,100		153,600

The Asheville Housing Authority is seeking $4.2 million in gap financing from the City of Asheville, or $20,000 per unit for the proposed build-out of 212 units. The funds, if granted, would be devoted to the construction of on-site infrastructure, including earth moving, and the construction of water, sewer, storm water, roadway and sidewalks. The Housing Authority has indicated that it will seek the remainder of the other local/other funds from non-City sources.

Staff has analyzed the request, and determined that the allocation of local government funds of $20,000 per unit is within the range of funds committed by other governments to similar projects, and also in line with prior City support for affordable housing developments in the City of Asheville.

The requested funding can be generated through using multiple funding resources. These resources could include City Fund Balance, CIP and Housing Trust Funds, HUD HOME and CDBG Funds, and HUD Section 108 funds.

The HOME and CDBG funds have been recommended for the project as part of the 2016-2017 Annual Action Plan. Staff discussed the HUD Section 108 loan with HUD officials, who confirmed the eligibility of the project and availability of the amount. Assuming the award of tax credits, staff will work at that time to develop a specific funding package that will provide the best mix of funding to most effectively use the resources available to the City and project goals.

Pros:

- The proposed project will transform the City's most economically and physically distressed public housing community;
- The project will allow all households in residence at the time of relocation to return to the newly developed community;
- The redevelopment will provide significantly improved access to public transportation, and medical and downtown job and service centers;
- The project will provide affordable rental housing over 200 households earning 60% or less of area median income;
- The proposed project has a significant economic impact. Construction wages and material purchases will positively affect the local and regional economy.
- The proposed project will create a locational-efficient residential development that will be affordable for at least 30 years.
- The Housing Authority has indicated its commitment to request no additional funds from the City of Asheville for the completion of the proposed 212 units.

Cons:

- Cost estimates are not yet fully developed, and project costs as presented may change as it moves towards development;
- While the project will create mixed income housing relative to its current public housing demographic, it does not currently include housing for households with incomes above 60% of median income;
- If annual CDBG allocations are used for the repayment of the HUD Section 108, funding available for other CDBG-eligible activities in Asheville will be reduced.
- The viability of the project depends on the competitive award of LIHTC funds.

As noted above, City staff has identified the funding resources currently available to meet the requested amount of $4.2 million. The city's commitment would be conditional on the award of tax credits. HOME and Section 108 funds must be loaned to the Housing Authority, which will in turn loan the funds to the project on a 0% deferred payment basis for a term of 40 years. Other funds may be granted or loaned to the Housing Authority. The Housing Authority requests that the other funds be granted to them. The City funding would be used for infrastructure construction, and payouts would be based upon a negotiated schedule of performance.

Staff recommends that Council authorize the City Manager to provide a letter of commitment of $4.2 million to the Asheville Housing Authority for the purpose of supporting the construction of 212 units of affordable housing on the current Lee Walker Heights public housing site. This commitment is conditional on the award of 9% Low Income Housing Tax Credits to the project by the North Carolina Housing Finance Agency in the 2016 LIHTC competition, with award announcements expected in August 2016.

In response to Vice-Mayor Wisler, Mr. Staudinger explained the timing of the expenditures.

Mr. Staudinger responded to Councilman Bothwell regarding the elevation difference between the Matthews Ford property and the Lee Walker Heights property, explaining that fill from the Lee Walker Heights grading will be used to equalize the difference for accessible access to the Biltmore Avenue property.

Councilman Young moved to adopt the resolution, but was concerned about using funds earmarked for affordable housing projects. Councilman Smith seconded the motion.

Mayor Manheimer clarified that the City has excess funds from this year to direct towards the $4.2 Million, which will allow us to avoid using the Capital Improvement Plan funds earmarked for affordable housing. This is about affordable housing and it addresses the need of a

community that is under-served. The people who are living in Lee Walker Heights are participating in what their future will look like and the City is here to help in that community vision.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Young moved for the adoption of Resolution No. 16-98. This motion was seconded by Councilman Smith and carried unanimously.

RESOLUTION BOOK NO. 38 – PAGE 16

Closed Session

At 7:28 p.m., Councilman Young moved to go into closed session for the following reasons: (1) To prevent disclosure of information that is privileged and confidential, pursuant to the laws of North Carolina, or not considered a public record within the meaning of Chapter 132 of the General Statutes. The law that makes the information privileged and confidential is N.C. Gen. Stat. § 143-318.10(a)(3). The statutory authorization is contained in N.C. Gen. Stat. § 143-318.11(a)(1); and (2) To consult with an attorney employed by the City about matters with respect to which the attorney-client privilege between the City and its attorney must be preserved. The statutory authorization is contained in N.C. Gen. Stat. § 143-318.11(a)(3). This motion was seconded by Vice-Mayor Wisler and carried unanimously.

At 8:04 p.m., Councilman Bothwell moved to come out of closed session. This motion was seconded by Councilman Smith and carried unanimously.

VI. NEW BUSINESS:

A. HORSE DRAWN CARRIAGES

ORDINANCE NO. 4497 - ORDINANCE TO REPEAL THE ORDINANCE PERMITTING AND REGULATING THE GENERAL OPERATION OF HORSE-DRAWN CARRIAGES ON THE CITY STREETS

Assistant City Attorney Jannice Ashley said that this is the consideration of the repeal of the Horse Drawn Carriage Ordinance (City Code, Ch. 18, Article IV).

In 1990, the City of Asheville adopted standards permitting and regulating Horse Drawn Carriage operations (Ordinance No. 1840) and in 1993, readopted this ordinance in full via Ordinance No. 2032. These standards are a subsection of Chapter 18, Taxicabs and Vehicles for Hire and comprise the entirety of Article IV of this Chapter. There were several minor amendments to this article in 1994, 1995, and 1996 although the body of the ordinance appears to have remained unchanged from when it was first adopted.

Shortly after adoption in 1993, at least two separate businesses began operating. Not much is known about these pioneering businesses but it is believed that one closed not long after it started, while the other persisted for some time but also eventually closed up a season or two later (there may have been one other short-lived operation within the last 10 years but any specific record is lacking). Staff has been told that the standards were drafted with the benefit of input from a stakeholder group that represented a number of different perspectives but with a specific focus on animal safety & health, as well as public safety.

While the elements of a horse-drawn carriage operation have changed little in the last 20 years, the Asheville downtown has changed dramatically. The level of activity, both on and off the street is significantly higher and Asheville is now in the position of having to reconcile a number of competing concerns and interests as it relates to the downtown area. At present, there

is one horse-drawn carriage business operating in downtown Asheville (Asheville Horse & Carriage Tours, LLC) which has been operating since August 2013. Just prior to the start of this business, in May 2013, a concerned citizen sent an email to City Council asking that horse-drawn carriages be banned from the downtown area because of concerns for the safety of the horses and the public. Since horse-drawn carriages were permitted by ordinance, and the City did not have any documented negative history in regard to such operations, Asheville Horse & Carriage was permitted to operate after working closely with City Staff to ensure that all of the requirements of the ordinance were followed.

Updates on the horse-drawn carriage operation were provided to the Public Safety Committee on June 24, 2013, by Shannon Tuch, the interim Development Services Director and then again on October 28, 2013, by Ken Putnam, the Transportation Director. The latter report concluded that neither the Transportation Department nor the Asheville Police Department (the department responsible for administering the taxi, vehicle for-hire, and horse-drawn carriage ordinance) were aware of any public safety issues, from a traffic perspective, that were being caused by the horse-drawn carriage operation. Since that time, according APD records, there have been no reported accidents in the last three years that have involved a horse-drawn carriage, no serious complaints and it appears that Asheville Horse & Carriage Tours, LLC has been operating successfully and in compliance with all requirements throughout its tenure.

Nonetheless, several citizens have continued to raise concerns about the operation of horse-drawn carriages related to animal health and safety as well as public safety, particularly given the increased activity in the City's CBD. In response to these concerns, the Governance Committee met twice, on December 8, 2015, and March 8, 2016, to consider the matter. During the December meeting, the Committee heard concerns from Asheville Voice for Animals and requested that Staff provide information on reported accidents/complaints concerning the operation of the horse-drawn carriage. At the March meeting, the Committee received the requested information from the Staff who reported that there had been no accidents or complaints regarding the operation. The Committee also heard from representatives of Voices for Animals regarding general concerns about the operation of horse-drawn carriages in Asheville and also heard from Catherine Hunter, the owner of Asheville Horse & Carriage Tours, LLC, who spoke in support of her business. The Committee then directed Staff to eliminate the current ordinance permitting the general operation of horse-drawn carriages and to draft a franchise agreement ordinance which would allow Ms. Hunter to continue with her horse-drawn carriage business.

Staff recommends that City Council repeal the City's Horse Drawn Carriage Ordinance (City Code, Ch. 18, Article IV), effective May 30, 2016.

Councilman Bothwell was uncomfortable with horses on streets with vehicles. He didn't see motorized vehicles and horses together in an urban setting.

Mr. Christopher Chiaronmonte did not support eliminating the ordinance as the owner is making a living with his business.

Ms. Catherine Hunter, owner of Asheville Horse and Carriage Tours, explained how passionate she is about the health and welfare of her horses, noting she has rescued and rehabilitated a lot of horses. She felt those against her business are well intentioned, but misinformed. She also felt the majority of the people downtown like having a horse drawn carriage. She provided Council with her credentials, along with a brochure of the 12 most common myths about carriage horses debunked.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the ordinance and it would not be read.

Vice-Mayor Wisler moved for the adoption of Ordinance No. 4497. This motion was seconded by Councilman Bothwell and carried unanimously.

ORDINANCE BOOK NO. 30 – PAGE 287

ORDINANCE NO. 4498 - FIRST READING OF AN ORDINANCE GRANTING A FRANCHISE AGREEMENT WITH ASHEVILLE HORSE AND CARRIAGE TOURS, LLC, FOR THE OPERATION OF A HORSE DRAWN CARRIAGE BUSINESS WITHIN THE CITY OF ASHEVILLE

Assistant City Attorney Jannice Ashley said that this is the consideration of an ordinance granting a franchise agreement for the operation of a horse-drawn carriage business within the City of Asheville.

Asheville Horse and Carriage Tours, LLC has been operating a horse-drawn carriage business in the City since August of 2013. At that time, the City Code allowed the operation of horse-drawn carriages pursuant to Ordinance 1840 adopted in 1990 and Ordinance No. 2032 which was adopted in 1993. On April 26, 2016, City Council voted to repeal both of these ordinances, but directed City staff to work with Asheville Horse and Carriage owner, Catherine Hunter, on a Franchise Agreement that would enable her to continue her business which has been operated successfully and in compliance with city regulations throughout its tenure. The terms of the franchise agreement in terms of hours of operation, carriage equipment and conditions, and care of the horses are substantially the same as they were under the City Code. The horse-drawn carriages will operate in the downtown Central Business District (CBD) on city-maintained and state-maintained streets that have a posted speed limit less than 35 mph. Hours of operation will be between the hours of 9:00 AM and Midnight, Monday through Friday, with some exceptions for the busiest hours of the weekday, and between the hours of 9:00 AM and Midnight, Saturday, Sunday and Holidays. The City reserves the right to change the hours of operation at its sole discretion with a 30-day notice. Other significant conditions of the Franchise Agreement include provisions for the health and safety of the horses such as quarterly certifications by a licensed veterinarian certifying each animal has been examined and is in good health and able to draw the horse-drawn carriage, limitations on the number of hours and days a horse may work and in what weather conditions, and annual inspections of stable facilities by both a veterinarian and the Transportation Director; provisions regarding the qualifications of drivers/operators, such a requirement for specific training in the operation of horse-drawn carriages; provisions regarding the condition and safety of the carriages, such as requirements to have signals and lights or lanterns and for the carriages to be inspected every six months; and the ability of the City to terminate the franchise agreement for non-compliance or, upon notice, for other reasons it deems necessary.

She has written the franchise agreement term to be indefinite because it was the sense of the Governance Committee to allow Ms. Hunter to allow her business. However, the City always has the option to terminate the franchise agreement if there is any violations of the agreement, or for any reason upon 180 days notice to Ms. Hunter.

The operation of Asheville Horse and Carriage Tours, LLC's business has been reviewed in the past by the Council's Public Safety Committee on June 24, 2013, and October 28, 2013. Those reports concluded that the business had demonstrated compliance with all City requirements and stated that neither the Asheville Police Department nor the Transportation Department were aware of any public safety issues related to the business. The Governance Committee considered the repeal of the horse-drawn carriage ordinance but the issuance of a franchise agreement to Asheville Horse and Carriage, the one existing horse-drawn carriage business, at both its December 8, 2015, and March 8, 2016, meetings and recommended repeal of the ordinance but the granting of the franchise agreement to Asheville Horse and Carriage at the March 8th meeting.

Pros:

- Allows an existing, successful and compliant horse-drawn carriage business to continue despite the repeal of the City's general horse-drawn carriage ordinance.

- Enhances the visitor experience to downtown Asheville.
- No direct fiscal impact to the City.

Con:

- Animal advocacy groups have expressed concern about allowing the operation of any horse-drawn carriages in the City.

There is no known fiscal impact for the subject franchise agreement.

Staff recommends that City Council approve an ordinance granting a franchise agreement to Asheville Horse and Carriage Tours, LLC for the operation of a horse-drawn carriage business within the City of Asheville. This ordinance will require a second reading, which will take place on May 10, 2016.

In response to Councilman Bothwell, Ms. Ashley said that the franchise agreement is not assignable, except to another entity owned by Asheville Horse and Carriage Tours with written agreement from the City.

Councilman Haynes moved to grant the franchise agreement but limit the term of the franchise agreement to one year. This motion was seconded by Councilman Bothwell.

Councilman Young said that since there has been no documentation about the mistreatment of the horses and because this is Ms. Hunter's only income, he recommended a e-year term on the franchise agreement. He stressed that he too has compassion for animals, but he has compassion for people too to earn a living.

In response to Councilman Young, Ms. Hunter said she hoped to transition out of this business in three years. She will be publishing a book this year about horses and with the sale of her book and teaching seminars, she feels that will be her next income. However, in the meantime, she needs to pay the rent, buy feed, etc. Taking care of the horses is not cheap.

Councilman Young offered a friendly amendment that the franchise agreement not be transferrable and that the franchise agreement be extended for a total of three years. Councilman Haynes did not accept the friendly amendment.

Councilman Young then moved to amend the main motion to grant the franchise agreement but that the agreement not be transferrable and that the agreement be extended for a total of two years. This amendment was seconded by Councilman Smith and carried on a 4-2 vote, with Councilman Haynes and Councilman Bothwell voting "no."

Mr. Christopher Chiaronmonte supported granting the franchise agreement.

Representatives from Asheville Voice for Animals, along with other animal rights activists spoke in opposition of the franchise agreement for several reasons, but mainly due to the health and safety of the horses and public safety. They urged Council to eliminate horse drawn carriages from our streets.

Ms. Catherine Hunter, owner of Asheville Horse and Carriage Tours, asked for Council to consider granting her a franchise with an indefinite term and that it be transferrable.

Council then voted on the amended main motion to grant the franchise agreement with the agreement not being transferrable and with a term of two years. Said motion carried unanimously.

Ms. Ashley reminded Council that the ordinance will require a second reading, which will take place on May 10, 2016.

ORDINANCE BOOK NO. 30 – PAGE 288

C. RESOLUTION NO. 16-99 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT WITH SKIDMORE OWNINGS AND MERRILL, PLLC, FOR THE PURPOSE OF DEVELOPING THE CITY OF ASHEVILLE COMPREHENSIVE 2025 PLAN UPDATE

Planning & Urban Design Director Todd Okolichany said that this is the consideration of a resolution authorizing the City Manager to enter into an contract with Skidmore Owings and Merrill, PLLC, for the purpose of developing the City of Asheville Comprehensive Plan Update.

The purpose of the comprehensive plan is to set forth goals and policies for sustainable growth and development over the next 10-20 years and beyond. The plan will establish a vision for Asheville and include policy guidance, reflecting the community's vision for the location and form of future development, while ensuring sufficient infrastructure, parks and other community services.

The City's current comprehensive plan, titled "Asheville City Development Plan 2025" was adopted in 2003. The plan focused on:

- Continued investment and redevelopment in areas with sufficient infrastructure
- Strategies to encourage mixed-use development
- Introduction of multi-modal transportation planning and implementation
- Strategies to confront a lack of affordable housing
- Fostering economic growth in key sectors of the community: high-tech, manufacturing, medical and entrepreneurship
- Continued revitalization efforts to support downtown Asheville and other special districts

Overall the comprehensive plan has been a success. It has focused our conversations as a community and has helped the city maintain a high quality of life and a robust local economy. Since 2003:

- The population has increased by 16,000 to an estimated 89,000 people
- The city has attracted investment by a number of dynamic modern employers
- Revitalization efforts have expanded to include the downtown area, Biltmore Village, the River Arts District and Haywood Road, resulting in new investment and sustainable growth
- The city is advancing plans for multi-modal transportation improvements, including greenways, sidewalks and transit

Challenges remain and need additional focus and solutions provided through the comprehensive planning process. Some of these challenges include the following:

- Service sector expansion is raising concerns about growth in lower wage paying job sectors
- Affordable housing continues to be a major challenge for residents of Asheville
- There is an ongoing dialogue focused on developing a more resilient economy
- There is a growing need to identify strategies for climate change adaptation
- Continued need to align land use decision with multimodal transportation planning to meet common goals

Staff released a Request for Proposals (RFP) to solicit planning consultant services to assist the City in updating its comprehensive plan, with a focus on the following six principles, considered as industry standards for creating sustainable places.

1. Ensure a livable built environment by integrating multimodal transportation with housing goals to ensure connectivity and mobility while enhancing community character and place making.
2. Live in harmony with nature and mitigate the effects of climate change by reducing the city's reliance on traditional energy sources while living in balance with the natural systems around us.
3. Maintain a resilient and diversified economy so that our economy with be better protected from fluctuations in the market, and residents will have access to employment and other entrepreneurial opportunities.
4. Promote community equity and housing that meets the needs of current and future residents of the community by ensuring access to safe and affordable housing, community wellness and economic mobility.
5. Encourage healthy communities by maintaining a healthy lifestyle and access to recreational and outdoor activities community-wide.
6. Enhance partnerships and further responsible regionalism by participating in dialogues with other communities on regional issues and participating in partnerships with local and regional agencies and communities for the good of the region.

The City received nine proposals in response to the RFP. A committee consisting of the following participants was formed to review the proposals and select a consultant team: Todd Okolichany, Director of Planning and Urban Design; Alan Glines Assistant Director of Planning and Urban Design; Stacy Merten, Project Manager; Amber Weaver, Chief Sustainability Officer; Mariate Echeverry, Transportation Manager; Al Kopf, Parks and Recreation Manager; Jeremy Goldstein, Chair, Planning and Zoning Commission; and Kristy Carter, Vice Chair, Planning and Zoning Commission. Skidmore Owings and Merrill, PLLC, was selected by the committee, following an interview process with the four top ranking firms.

Skidmore, Owings and Merrill (SOM) has organized a diverse group of highly creative individuals who bring together a deep understanding of comprehensive planning with national expertise in strategic thinking, urban design, engineering and placemaking. The project will be managed by SOM staff. The consultant team also includes Design Workshop, a locally-based firm specializing in landscape architecture, design and placemaking; Chipley Consulting, a certified Disadvantaged Business Enterprise and Small Professional Services Firm that specializes in community engagement and is based in Asheville; Development Strategies, an economic development consultant; and Vanasse Hangen Brustlin (VHB), transportation professionals.

SOM proposes a 15 month planning process, including extensive public engagement that is designed to establish a new vision for Asheville through the Comprehensive Plan Update. Specifically, the plan will include strategies related to land use, transportation, economic development, infrastructure, housing, livability, place-making, open space, streetscapes, climate change, sustainability and resiliency.

The Comprehensive Plan Update will ensure that Asheville continues to be forward thinking and plan ahead in order to remain a diverse, livable, clean and healthy community that provides economic opportunities, transportation alternatives and affordable housing for everyone as specified in the Asheville City Council 2036 Vision.

The contract with SOM would have a financial impact of $264,345 to the city. The base fee for the contract is $204,845. Enhancements to the base fee include $7,500 each for 1) additional public engagement; 2) high performance design strategies; and, 3) environmental

guidelines, for a total of $22,500 in additional services. The contract also includes a fee not to exceed $37,000, for reimbursable expenses related to the project.

The Fiscal Year 2016 budget included $200,000 for this project. Staff has identified an additional $64,345 to cover the cost of the contract utilizing savings elsewhere in the General Fund budget, primarily from fuel.

City staff resources would also be required to manage the project, coordinate with the consultant team, participate in the public engagement and visioning process, provide relevant information and data on existing plans, maps, utility and roadway information, etc., coordinate press releases and updates on the city's website, and coordinate/provide potential meeting locations for the public. Additionally, the City will form a Technical Advisory Team. Staff resources are anticipated from the following departments: Planning and Urban Design, Development Services, Parks and Recreation, Office of Sustainability, Community and Public Engagement, Transportation, Community and Economic Development, Public Works and Legal Services.

City staff recommends that City Council adopt a resolution authorizing the City Manager to enter into a contract with Skidmore Owings and Merrill, PLLC, for the purposes of developing the City of Asheville Comprehensive Plan Update.

Councilman Bothwell felt that Asheville has local expertise for some services in the plan.

When Mayor Manheimer asked for public comments, none were received.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Vice-Mayor Wisler moved for the adoption of Resolution No. 16-99. This motion was seconded by Councilman Smith and carried unanimously.

RESOLUTION BOOK NO. 38 – PAGE 17

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

Mr. Christopher Chiaronmonte spoke to Council about his ethnic heritage.

VIII. ADJOURNMENT:

Mayor Manheimer adjourned the meeting at 9:15 p.m.

Magdalen Bamberson
CITY CLERK

Esther E. Manheimer
MAYOR

Tuesday – May 10, 2016 - 5:00 p.m.

Regular Meeting

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Cecil Bothwell; Councilman Brian D. Haynes; Councilwoman Julie V. Mayfield; Councilman Gordon D. Smith; Councilman W. Keith Young; City Manager Gary W. Jackson; City Attorney Robin T. Currin; and City Clerk Magdalen Burleson

Absent: None

PLEDGE OF ALLEGIANCE

Mayor Manheimer led City Council in the Pledge of Allegiance.

Mayor Manheimer asked for a moment of silence for Mr. Isaac Coleman who died today of cancer.

I. PROCLAMATIONS:

A. PROCLAMATION PROCLAIMING MAY, 2016, AS "MOTORCYCLE AWARENESS MONTH"

Councilman Young read the proclamation proclaiming May, 2016, as "Motorcycle Awareness Month" in the City of Asheville. He presented the proclamation to Ms. Crystal Buckner, representing the Concerned Bikers Association of North Carolina, who outlined some activities taking place during the month.

B. PROCLAMATION PROCLAIMING MAY 15-21, 2016, AS "NATIONAL PUBLIC WORKS WEEK"

Vice-Mayor Wisler read the proclamation proclaiming May 15-21, 2016, as "National Public Works Week" in the City of Asheville. She presented the proclamation to Public Works Director Greg Shuler who introduced employees from the various Public Works Divisions.

C. PROCLAMATION PROCLAIMING JUNE 6-12, 2016, AS "HEMP HISTORY WEEK"

Councilman Bothwell read the proclamation proclaiming June 6-12, 2016, as "Hemp History Week" in the City of Asheville. He presented the proclamation to Mr. Timothy Sadler, and others, who outlined some activities taking place during the week.

D. PROCLAMATION PROCLAIMING MAY, 2016, AS "LYME DISEASE AWARENESS MONTH"

Councilman Smith read the proclamation proclaiming May, 2016, as "Lyme Disease Awareness Month" in the City of Asheville. He presented the proclamation to Ms. Jan Dooley, Mr. Rick Cormier, and others, who outlined some activities taking place during the month.

II. CONSENT AGENDA:

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON APRIL 26, 2016

B. SECOND AND FINAL READING OF ORDINANCE NO. 4498 GRANTING A

FRANCHISE AGREEMENT WITH ASHEVILLE HORSE AND CARRIAGE TOURS, LLC, FOR THE OPERATION OF A HORSE DRAWN CARRIAGE BUSINESS WITHIN THE CITY OF ASHEVILLE

Summary: The first reading of this ordinance was heard by City Council on April 26, 2016. At Council's April 26, 2016, meeting, they voted unanimously to approve the granting of the Franchise Agreement to Asheville Horse and Carriage, LLC with the following amendments to the originally proposed franchise ordinance: 1) that the term of the franchise agreement be limited to a period of two (2) years; and 2) the franchise agreement be non-transferable.

Additionally, after the April 26th meeting, the Transportation Director met with members of the APD staff, including animal services officers, who have been monitoring the horse drawn carriage operation to date. They had several suggestions for clarifying the proposed franchise ordinance requirements including better means of identification of the horse(s) (i.e. microchip), clarification regarding in-harness rest period, and additional documentation to be kept in a daily log by the carriage operator. These suggested revisions have been incorporated into the franchise ordinance.

ORDINANCE BOOK NO. 30 - PAGE 288

C. **RESOLUTION NO. 16-100 - RESOLUTION AUTHORIZING THE MAYOR TO EXECUTE A FEDERAL AVIATION ADMINISTRATION GRANT FOR THE ASHEVILLE REGIONAL AIRPORT TO REHABILITATE RUNWAY AND ACQUIRE AIRCRAFT RESCUE AND FIREFIGHTING VEHICLE**

Summary: The consideration of a resolution authorizing the Mayor to approve a Grant Offer from the Federal Aviation Administration (FAA) in the amount of $12,260,258.

The FAA has offered a grant agreement to the Asheville Regional Airport. This grant, in the amount of $12,260,258 for the following: rehabilitate runway (Phase 4 Site Preparation and NAVAIDs Installation, Permanent Runway 16/34), and acquire aircraft rescue and firefighting vehicle.

Staff recommends adoption of the resolution authorizing the Mayor to execute the grant agreement for Project No. 3-37-0005-046-2016.

RESOLUTION BOOK NO. 38 - PAGE 18

D. **RESOLUTION NO. 16-101 - RESOLUTION AUTHORIZING THE POSSESSION AND/OR CONSUMPTION OF ALCOHOLIC BEVERAGES AND/OR UNFORTIFIED WINE AT THE THE ASHEVILLE VEGFEST ON MAY 15, 2016**

RESOLUTION NO. 16-102 - RESOLUTION AUTHORIZING THE POSSESSION AND/OR CONSUMPTION OF ALCOHOLIC BEVERAGES AND/OR UNFORTIFIED WINE AT THE DOWNTOWN AFTER FIVE EVENTS ON MAY 20, JUNE 17, JULY 15 AND AUGUST 19, 2016

RESOLUTION NO. 16-103 - RESOLUTION AUTHORIZING THE POSSESSION AND/OR CONSUMPTION OF ALCOHOLIC BEVERAGES AND/OR UNFORTIFIED WINE AT THE ASHEVILLE HALF MARATHON ON JUNE 4, 2016

RESOLUTION NO. 16-104 - RESOLUTION AUTHORIZING THE POSSESSION AND/OR CONSUMPTION OF ALCOHOLIC BEVERAGES AND/OR UNFORTIFIED WINE AT THE ARTS TO PEOPLE FESTIVAL ON SEPTEMBER 4, 2016

RESOLUTION NO. 16-105 - RESOLUTION AUTHORIZING THE POSSESSION AND/OR CONSUMPTION OF ALCOHOLIC BEVERAGES AND/OR UNFORTIFIED WINE AT THE AIA ASHEVILLE DESIGN AWARDS GALA ON SEPTEMBER 8, 2016

Summary: The consideration of resolutions authorizing the City Manager to approve a resolution making provisions for the possession Asheville Vegfest, Downtown After 5, the Asheville Half Marathon, the Arts to People Festival, and the AIA Asheville Design Awards Gala.

and consumption of malt beverages and/or unfortified wine at Asheville Vegan Society has requested through the City of Asheville Community & Economic Development Department that City Council permit them to serve beer and/or unfortified wine at Asheville Vegfest and allow for consumption at this event.

Asheville Vegfest will be held on Sunday, May 15, 2016 from 10:00 a.m. to 6:00 p.m. within the boundaries of Pack Square Park as per the area limits referenced on the accompanying site map.

- Asheville Downtown Association has requested through the City of Asheville Community & Economic Development Department that City Council permit them to serve beer and/or unfortified wine at Downtown After 5 and allow for consumption at this event.

  Downtown After 5 will be held on Fridays, May 20, June 17, July 15, August 19, and September 16, 2016 from 5:00 p.m. to 10:00 p.m. within the boundaries of Lexington Avenue as per the area limits referenced on the accompanying site map.

- Iron Girls has requested through the City of Asheville Community & Economic Development Department that City Council permit them to serve beer and/or unfortified wine at the Asheville Half Marathon and allow for consumption at this event.

  Asheville Half Marathon will be held on Saturday, June 4, 2016 from 7:00 a.m. to 12:00 p.m. within the boundaries of Pack Square Park as per the area limits referenced on the accompanying site map.

- Arts 2 People has requested through the City of Asheville Community & Economic Development Department that City Council permit them to serve beer and/or unfortified wine at the Arts to People Festival and allow for consumption at this event.

  Arts 2 People Festival will be held on Sunday, September 4, 2016 from 11:00 a.m. to 10:00 p.m. within the boundaries of Lexington Avenue, Hiawassee Street, and Walnut Street as per the area limits referenced on the accompanying site map.

- AIA Asheville has requested through the City of Asheville Community & Economic Development Department that City Council permit them to serve beer and/or unfortified wine at the AIA Asheville Design Awards Gala and allow for consumption at this event.

  AIA Asheville Design Awards Gala will be held on Thursday, September 8, 2016 from 7:00 p.m. to 9:30 p.m. within the boundaries of Pack Square Park as per the area limits referenced on the accompanying site map.

Pro:

- Allows fundraising opportunities for the Asheville Vegan Society, Asheville Downtown Association, Iron Girls, Arts 2 People, and AIA Asheville

Con:

- Potential for public safety issues

Staff recommends City Council adopt a resolution authorizing the City Manager to approve a resolution making provisions for the possession and consumption of malt beverages and/or unfortified wine at Asheville Vegfest, Downtown After 5, Asheville Half Marathon, Arts 2 People Festival, and the AIA Asheville Design Awards Gala.

RESOLUTION NO. 16-105 - RESOLUTION BOOK NO. 38 - PAGE 31

E. RESOLUTION NO. 16-106 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CHANGE ORDER WITH W.K. DICKSON & CO. INC. FOR THE HORIZON HILLS WATERLINE IMPROVEMENT PROJECT

Summary: The consideration of a resolution authorizing the City Manager to execute a change order with W. K. Dickson & Co., Inc., to increase the engineering design services contract in the amount of $9,170 from a total contract amount of $309,830 to $319,000 for the Horizon Hill Waterline Improvement Project.

On July 23, 2013, City Council awarded the engineering design services contract to W. K. Dickson & Co., Inc., for the Horizon Hill Waterline Improvement Project. The contract consisted of a survey, a hydraulic analysis, engineering design, construction administration, and other related professional services for new 6-inch and 8-inch waterlines within the Horizon Hill area neighborhoods. During the course of the project, issues arose that required additional work and time from the engineering consultant. This additional work and effort was needed in order to meet the project objective of replacing existing substandard and failing waterlines in favor of new waterlines to create improved water service and fire protection.

The additional engineering services create the need for a change order to increase the contract amount by an additional $9,170 for a total contract amount of $319,000.

This project is identified as a need in the City of Asheville Water Resources Department's Capital Improvement Plan, and this action allows us to comply with that plan.

Pro:

- Approval of the change order will allow the City to complete the engineering services for the entire project.

Con:

- If the change order is not approved, then the project cannot be completed.

The funding needed for the change order is currently allocated within the Horizon Hill Waterline Replacement Project in the Water Resources Capital Improvement Projects fund. No budget amendment is necessary.

Current Amount of W. K. Dickson & Co., Inc. Contract	$309,830
Amount Needed for Change Order	$ 9,170
Total Amount for Engineering Contract	$319,000

The amount remaining in the Horizon Hill Waterline Replacement Project will be saved for the construction portion of the project. Staff will seek Council approval of contracts associated with this project if the amount of the contract requires Council approval per the City of Asheville Procurement, Purchasing and Contracting Policy.

City staff recommends City Council approval of the resolution authorizing the City Manager to execute a change order with W. K. Dickson & Co., Inc., to increase the engineering design services contract in the amount of $9,170 from a total contract amount of $309,830 to $319,000 for the Horizon Hill Waterline Improvement Project.

RESOLUTION BOOK NO. 38 - PAGE 34

F. ORDINANCE NO. 4500 - ORDINANCE GRANTING A FRANCHISE AGREEMENT FOR THE OPERATION OF A LOW SPEED VEHICLE SHUTTLE SERVICE WITHIN THE CITY OF ASHEVILLE

Summary: The consideration of an ordinance granting a franchise agreement for the operation of a low speed vehicle shuttle service within the City of Asheville.

City staff has been working with a representative of the Hilton Garden Inn who is interested in providing a low speed vehicle shuttle service as an amenity for their guests within the City of Asheville under the business name of Hilton Garden Inn Asheville Downtown. The service would operate in the downtown Central Business District (CBD) on city-maintained and state-maintained streets that have a posted speed limit less than 35 mph.

By definition (NCGS # 20-4.01(27)h), a low speed vehicle is a four-wheeled electric vehicle whose top speed is greater than 20 mph but less than 25 mph. It is **not** a golf cart! The vehicle(s) must be equipped with headlamps, stop lamps, turn signal lamps, tail lamps, reflex reflectors, parking brakes, rearview mirrors, windshields, windshield wipers, speedometer, seat belts, and a vehicle identification number. In addition, the vehicle(s) must be insured, registered and licensed in North Carolina.

The shuttle service will operate between the hours of 9:00 am and 12:00 am seven days per week with as many as two vehicles. The City reserves the right to change the hours of operation at its sole discretion with a 30-day notice. The shuttle service will provide an alternative transportation service to the hotel guests to various points of interest in the downtown central business district in an effort to minimize traffic congestion and the need for them to use their vehicles once they are parked at the hotel site.

This request has been reviewed by the Transportation Department, the Legal Department, and the Asheville Police Department and at this time, all concerns have been addressed. A previous franchise agreement has been approved for a different company but it has not started operating yet.

This item has been reviewed by the Council's Public Safety Committee and it received the Committee's endorsement on April 25, 2016.

Pros:

- Supports diversified job growth and business development.
- Minimizes vehicular traffic congestion and the need for parking.
- Enhances the visitor experience to downtown Asheville.
- No direct fiscal impact to the City.

Con:

- Could impact vehicular traffic flow.

There is no known fiscal impact for the subject franchise agreement.

Staff recommends that City Council approve an ordinance granting a franchise agreement to Hilton Garden Inn Asheville Downtown for the operation of a low speed vehicle shuttle service within the City of Asheville.

ORDINANCE BOOK NO. 30 - PAGE 299

G. RESOLUTION NO. 16-107 - RESOLUTION NAMING FIRE STATION 6 IN MEMORY OF FIREFIGHTER RAYMOND J. FLOWERS

Summary: The consideration of naming Fire Station 6 after City of Asheville (City) Firefighter Raymond J. Flowers.

City Firefighter Raymond Flowers tragically lost his life on May 26th, 1982, while fighting a fire at 926 Haywood Road, in the West Asheville Baptist Church. The Fire Department requests that Firefighter Flowers be remembered by naming Fire Station 6 after Raymond J. Flowers. This request was reviewed and recommended by the Public Safety Committee at its April 25th meeting.

Pros:

- Having a City owned facility that has been named in memory of a public servant who has died in the line of duty is an ultimate recognition of their public service and sacrifice.
- This naming of a city facility is in accordance with the City's policy for naming buildings for distinguished service in firefighting.

Con:

- None have been identified or known at this time.

The purchase of a plaque commemorating the naming would be the associated expense to this consideration.

Staff recommends that the City Council name Fire Station 6 after Raymond J. Flowers.

RESOLUTION BOOK NO. 38- PAGE 35

H. RESOLUTION NO. 16-108 - RESOLUTION AUTHORIZING THE CITY MANAGER TO DONATE POLICE SHOTGUNS TO THE TOWN OF LAUREL PARK POLICE DEPARTMENT

Summary: The consideration of a resolution authorizing the City Manager to donate police shotguns to another local North Carolina police department.

The City of Asheville Police Department (APD) currently retains eight (8) surplus Remington model 870 12 gauge police shotguns, which were purchased in the early 1990's. It has been determined there is no future need for these items due to the department's transition to police rifles to adhere to current best practices. The current market value of these shotguns is approximately $200 each for a total of $1,600.

The Town of Laurel Park, North Carolina (Laurel Park) has identified a legitimate need for these shotguns. Laurel Park, which does not currently have a budget line that enables the purchase of these shotguns, maintains a need exclusively for the purpose of law enforcement functions. Chief of Police, Bobbie Trotter, would be assigning these shotguns to her patrol officers since these officers are not currently equipped with police shotguns.

Pros:

- Provide needed assistance to local law enforcement agency to further meet their safety goals for their community and law enforcement officers.
- Ensure that the shotguns remain in the law enforcement capacity.

Con:

- Not receiving approximately $1,600 in trade-in value for the shotguns to purchase future firearms for APD.

As noted above, the donation of these eight shotguns would eliminate approximately $1,600 of trade-in value that the police department could apply to a future purchase.

City staff recommends City Council approve a resolution authorizing the City Manager to donate the eight identified police shotguns to the Town of Laurel Park.

RESOLUTION BOOK NO. 38 - PAGE 36

I. RESOLUTION NO. 16-109 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT WITH B. ALLEN CONSTRUCTION INC. TO RENOVATE THE SPORTS COURT AND PARK PLAZA AT CARRIER PARK

Summary: The consideration of a resolution authorizing the City Manager to enter into a contract with B. Allen Construction, Inc. to renovate the Sport Courts and Park Plaza at Carrier Park in the amount of $298,840 plus a contingency of $25,160 for a total of $324,000.

During the capital maintenance review process within the Parks and Recreation Department, it has been determined that the existing sport courts and picnic plaza at Carrier Park have met or exceeded their useful lives resulting in continual maintenance needs and conditions that constitute safety concerns for park users. The existing inline hockey rink and basketball court were constructed in the 1990's as part of the original park construction. Over the years issues with drainage and ever increasing attendance in the park has contributed to the deterioration of these park features.

The scope of the project includes the following:

- New inline hockey rink system will provide a safer play experience and durability. The City reached out to the Asheville Hockey League to determine the best mutually agreed upon course of action, products, etc. that meets the leagues long-term needs at the rink.
- Larger paved picnic table area, spectator seating area, grading and drainage modifications, additional bench seating, and trash and recycling containers. As a part of a larger project, these improvements will be completed in a cost beneficial manner.

The project was budgeted at $350,000. This cost estimate was based upon value engineering with the project architect and engineer regarding design, building materials and infrastructure to achieve the lowest cost possible.

In support of this capital improvement project, the City issued an Advertisement for Bids for construction of the renovations and received two bids.

1. B. Allen Construction, Candler, NC ($298,840)
2. Patton Construction Group, Inc., Arden, NC ($365,000)

After thorough review and evaluation, staff selected B. Allen Construction, Inc., PO Box 797, Candler, North Carolina, as the lowest, responsible bidder. The base bid accepted was $298,840.

Pros:

- Improves level of service of the facility through the implementation of code compliant upgrades and correcting accessibility issues.
- Improves safety of the facility by replacing uneven and cracked surfaces from years of patching and repairing; replacement of outdated and broken fixtures and finishes.

- Improves performance of sport courts area through ongoing care and maintenance.

Con:

- The courts and rink will be closed during renovations. The majority of work is scheduled to take place between the spring and fall seasons for the Asheville Hockey League.

The $298,840 plus contingency of $25,160 to support the B. Allen Construction, Inc. contract to renovate the Carrier Park Sport Courts and Park Plaza is budgeted in the general capital improvement fund for Parks and Recreation Department.

Staff recommends that the City Council adopt a resolution authorizing the City Manager to enter into a contract with B. Allen Construction, Inc., to renovate Carrier Park Sport Courts and Park Plaza for an amount of $298,840 plus contingency of $25,160 for a total of $324,000.

RESOLUTION BOOK NO. 38 - PAGE 37

J. ORDINANCE NO. 4499 - BUDGET AMENDMENT FROM DONATIONS FOR PROGRAMS AND SERVICES WITHIN THE PARKS AND RECREATION DEPARTMENT

Summary: The consideration of a budget amendment in the amount of $11,000 from donations for programs and services within the Parks and Recreation Department.

The City of Asheville (City) has received miscellaneous donations totaling $11,000 support programs and services within the Parks and Recreation Department. Funds will be used to support the projects listed below.

The $11,000 will be used to purchase supplies, materials and equipment for Fiscal Year 2016 activities at recreation centers and senior programs.

Pro:

- Provide funds to support programs and services

Con:

- None

These donations enhance parks and recreation programs and services at no impact to the General Fund operating budget.

Staff recommends City Council to approve a budget amendment in the amount of $11,000 from donations for programs and services within the Parks and Recreation Department.

ORDINANCE BOOK NO. 30 - PAGE 297

K. RESOLUTION NO. 16-110 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO CONTRACTS WITH WIRELESS COMMUNICATIONS INC. FOR REPLACEMENT OF THE CITY OF ASHEVILLE'S MICROWAVE COMMUNICATIONS SYSTEM

Summary: The consideration of the City of Asheville entering into contracts, not to exceed $343,479, with the most responsive bidder for replacement of the City of Asheville's microwave communications system.

As part of the City's public safety radio project budget, a structured Request for Proposals (RFP) process sought a third-party vendor to replace the current system's end of life

microwave system. The microwave system provides wireless connectivity between the City's radio towers.

Based on operational requirements, expert guidance from Trott Communications Group, and scoring from public safety and IT staff representatives on the evaluation committee, the team's recommendation is to move forward with the most responsive vendor proposal as shown by the scoring matrix developed during the RFP process. Four vendor proposals were received during this process. The top scoring vendor proposal, from Wireless Communications, Inc. based in Charlotte, NC, scored 87/100. It includes specifics as to the experience of the supplier with the proposed solution, support capabilities and quality of service. A "best and final offer" was obtained from this vendor, with an additional option (to be determined at project end) to provide additional redundancy.

Pros:

- Allows City of Asheville to replace a system that has reached the end of its supported lifecycle
- Addresses needs identified in the scope of the public safety radio system upgrade project
- Improves the availability of support for critical communications paths

Con:

- None noted

This procurement is funded via the City of Asheville's Capital Improvement Budget

City staff recommends City Council adopt a resolution authorizing the City Manager to enter into contracts with Wireless Communications, Inc. for replacement of the City of Asheville's microwave communications systems.

RESOLUTION BOOK NO. 38 - PAGE 38

L. MOTION TO MOVE FORWARD WITH APPOINTMENT OF A COMPREHENSIVE PLAN ADVISORY COMMITTEE

Summary: The consideration of a motion to move forward with appointment of an Advisory Committee to oversee the Comprehensive Plan update process and approval of supplemental questions for Advisory Committee at-large members.

At its meeting on April 26, 2016, the Asheville City Council approved the contract with Skidmore Owings and Merrill, PLLC (SOM) for the purpose of developing the City of Asheville Comprehensive 2025 Plan Update. The purpose of the Comprehensive Plan is to set forth goals and policies for sustainable growth and development over the next 10-20 years and beyond. The plan will establish a vision for Asheville and include policy guidance, reflecting the community's vision for the location and form of future development, while ensuring sufficient infrastructure, parks and other community services.

The project's scope will include a 15 to 17 month planning process, including extensive public engagement that is designed to establish a new vision for Asheville. The plan will include strategies related to land use, multimodal transportation, economic development, social equity, infrastructure, housing, livability, placemaking, open space, climate change adaptation, and sustainability.

The contract with SOM anticipates that the City Council will appoint an Advisory Committee that will meet periodically with SOM and City staff as the project progresses to help guide the planning process.

Staff proposes that the Advisory Committee will have representation, at minimum, from the following organizations (in no particular order), plus three at-large members:

- Planning and Zoning Commission;
- African American Heritage Committee;
- Recreation Board;
- Downtown Commission;
- Historic Resources Commission of Asheville & Buncombe County (HRC);
- Public Art and Cultural Commission (PACC);
- Buncombe County liaison;
- Sustainability Advisory Committee on Energy and the Environment (SACEE);
- Multimodal Transportation Commission;
- Affordable Housing Advisory Committee;
- Neighborhood Advisory Committee; and,
- Asheville Area Chamber of Commerce/Economic Development Coalition.

The at-large members would apply and be appointed by City Council in the same process as board and commission appointees. In addition to the standard application questions, staff suggests the following supplemental questions for the at-large members:

1. What do you see as the major challenges facing Asheville in the next 10 years?
2. What do you see as the major opportunities available to Asheville in the next 10 years?

City staff recommends that City Council make a motion to approve an Advisory Committee to guide the Comprehensive Plan update process and approval of supplemental questions for Advisory Committee at-large members.

Mayor Manheimer asked for public comments on any item on the Consent Agenda, but received none.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Councilman Bothwell moved for the adoption of the Consent Agenda. This motion was seconded by Councilman Haynes and carried unanimously.

III. PRESENTATIONS & REPORTS:

A. STATE OF THE AIRPORT ADDRESS

Mr. Lew Bleiweis, Executive Director of the Greater Asheville Regional Airport Authority, updated City Council on the 2015 Highlights of the Greater Asheville Regional Airport Authority. From a record year of passengers and the addition of a new airline base of operations, to the commissioning of temporary runway 17-25 (a major milestone in Project SOAR, our 4-phase airfield redevelopment project), "growth" was the theme of their year. He gave an overview of their air service; facility and infrastructure growth; Project SOAR; Airport industry leadership and awards; Department of Public Safety; community connections; and finances. They are our region's local airport, and will continue to work diligently to ensure this important asset serves our region well for years to come.

When Councilwoman Mayfield asked if the Airport was doing anything with renewable energy with their new parking garage, Mr. Bleiweis said that they are talking with Duke Energy on some options and they are also putting in electrical charges in the garage.

B. BUDGET PRESENTATION & FINANCIAL UPDATE

Budget Presentation

Finance and Management Services Director Barbara Whitehorn provided Council the economic context of the budget including the (1) challenges (a) staffing and compensation; (b) healthcare; and (c) construction and labor costs; and (2) relief (a) sales tax collections; (b) property tax growth; and (c) management initiatives.

She provided key proposed budget facts of the total operating budget of $170.4 Million. She said (1) no property tax rate increase (47.5 cent per $100 valuation); (2) fees and charges increase (a) user-based fees; and (b) reduced subsidy by taxpayers; and (c) incorporates Council's strategic themes.

She then outlined some uses of the General Fund Balance being Lee Walker Heights, infrastructure reserve, deferred maintenance reserve, one-time investments; and unrestricted, unassigned increase.

Ms. Whitehorn responded to various questions from Council, noting that those she could not immediately respond to would be sent to Council in a memorandum format at the end of the week.

It was the consensus of Council that if there is more Fund Balance than anticipated, that it be designated to the Lee Walker Heights project with a reduction of the Community Development Block Grant funds for that project.

At the request of Councilman Smith, it was the consensus of Council to have $2,000 designated for the annual Festival of Neighborhoods event sponsored by the Neighborhood Advisory Committee.

Councilman Smith asked for more information on the roll-out of the Pay as You Throw Program prior to the June 14 meeting.

At the request of Vice-Mayor Wisler, it was the consensus of Council that the budget include the estimate for where we plan to end out the year, in addition to the current year budget.

In response to Councilwoman Mayfield, City Manager Jackson said that staff did not cut any strategic investments to fund operating budget investments Council requested at the April 12 worksession, e.g., additional transit improvements.

Financial Update

The Financial information in the following report reflects the City's overall financial position for the fiscal year through March 2016. Actual revenues and expenses for Fiscal Year 2015-16 reflect preliminary results due to the timing of report presentation:

Amendments. The General Fund budget presented in this third quarter report reflects the adopted budget of $103,148,627 along with the following budget amendments approved by City Council through March 31, 2016:

Adopted Budget	103,148,627
Budget Amendments:	
Insurance Recovery – Signal Pole	10,526
Grant – Senior Center & Harvest House	7,600
AB Tech Partnership – Traffic Signal	50,000
Donation – E. Asheville Greenway Study	37,000
Fund Balance – Storm Control Material/Equip.	431,000

Fund Balance – Haywood St. Visioning	15,000
Fund Balance – Page Ave. Demolition	115,000
3/31/2016 Budget	$103,814,753

Revenues. Through March 31, 2016, the City has collected $86.8 million in General Fund revenue, which represents approximately 84% of the total General Fund revenue budget. Revenue collections through the first three quarters of this fiscal year are very similar to where they were one year ago in terms of budget versus actual. The City has received eight months of sales tax revenue, and collections are up 5.6% compared to the prior year. In the intergovernmental category, utility tax revenue is projected to exceed budget by $600,000 due to the continuing impact of changes the state made to the distribution formula in the prior year. Development Services Department (DSD) revenue is up approximately $100,000 compared to the same time last fiscal year but continues to run slightly under budget estimates. With the bulk of property tax revenue received in December and January, that revenue source is now at 95% of budget. Overall, based on collection trends through the first three quarters, staff is currently projecting that ***FY 2015-16 General Fund revenue will exceed budget by $1.0 million or 1.0%.***

Expenditures. General Fund expenditures through March 31, 2016 totaled $68.3 million or 66% of budget, which is typical for this point in the fiscal year. Personnel expenses, the largest component of the General Fund budget, are slightly under budget through the first three quarters. With fuel prices continuing to be low, expenditures for fleet (fuel and maintenance) were at 58% of budget at the end of March. Overall, staff is projecting that ***FY 2015-16 expenditures (including contract and purchase order commitments) will finish the year under budget by $1.9 million (98.1% of adopted budget plus amendments).***

Fund Balance. The City began FY 2015-16 with unassigned fund balance of $16.6 million. Based on ***current revenue and expenditure projections for FY 2015-16, staff estimates that unassigned fund balance at June 30, 2016 will be $19.0 million or 18.7% of estimated expenditures.***

IV. PUBLIC HEARINGS:

A. PUBLIC HEARING TO CONSIDER THE ISSUANCE OF 2016 LIMITED OBLIGATION BOND ANTICIPATION NOTES

Finance and Management Services Director Barbara Whitehorn said that this public hearing is to receive public comments on the proposed execution and delivery of an installment financing contract for various capital projects and acquisitions included in the City's Capital Improvement Program to be delivered in FY 2016-17.

This public hearing is related to the City issuing debt in the form of an interim credit facility, a type of bond anticipation note. This note will be a Limited Obligation Bond (LOB).

The overall debt program is a draw program model, meaning that rather than borrowing the full amount of funding today for several years of projects, we will use short term debt while projects are in process, then issue long-term debt upon completion (about every two years). This model enables the City to finance projects only as they become useful assets, paying debt service over the life of the asset itself, rather than during construction. The City will pay interest on debt as we utilize the funds instead of paying interest on full, permanent financing ahead of the need for funds. This method saves thousands of dollars in interest over the life of the debt.

The projects funded with this interim credit facility are the first phase of the Capital Improvement Program begun in FY 2013-14. The associated long-term debt, which will be comprised of both LOBs and Special Obligation Bonds (SOBs) is anticipated to be issued toward the end of FY 2016-17. This will be 20-year fixed rate debt.

Under the provisions of Section 160A-20 of the General Statutes of North Carolina, installment financing contracts involving real property require a public hearing in which the public may comment on the proposed financing. On April 26, 2016, City Council approved a Resolution authorizing the negotiation of an amendment to an installment financing contract and setting the public hearing for up to $46 million for the issuance of the interim limited obligation bonds on the Capital Improvement Program.

The debt will be issued as short-term Limited Obligation Bonds. This form of obligation has been used previously by the City to construct the 51 Biltmore parking garage. Limited Obligation Bonds (LOBs), also sometimes called Certificates of Participation (COPs), have been used by the City several times, including the 2012 LOBs to repair and renovate City Hall, construction and renovation of the Municipal and Water Maintenance Buildings and Grove Arcade in 1997. As limited obligations of the City, debt repayment is payable solely from currently budgeted appropriations of the City. When construction of the projects are completed or near completed, the City will use long-term LOBs to take-out the short-term LOBs in order to permanently finance the projects.

Pros:

- Allows the City to move forward with the FY 2016 debt financing while complying with all applicable statutes and regulations.
- Reimburses City Treasurer's Cash for construction expenditures to date.

Con:

- None noted.

The total amount projected for identified capital projects and reimbursement of Treasurer's Cash of approximately $44 million. The public hearing states that the amendment to the installment financing contract may be in a principal amount not to exceed $46 million in the event that project estimates change between the time the resolution is approved and the amendment to the installment financing contract is executed.

Staff recommends that City Council receive public comment regarding the financing and the project during the public hearing.

Mayor Manheimer opened the public hearing at 6:00 p.m., and when no one spoke, she closed the public hearing at 6:00 p.m.

Mayor Manheimer said that Council will consider the final approval of the amendment to the installment financing contract on May 17, 2016, and closing on the transaction in June of 2016.

V. UNFINISHED BUSINESS:

VI. NEW BUSINESS:

A. BOARDS AND COMMISSIONS

Regarding the Chair of the Civil Service Board seat, it was the consensus of Council to delay action on this until the June 28, 2016, meeting.

Regarding the Haywood Street Advisory Team, the following individuals applied for this vacancy: Grant Millin, Byron Greiner, Rob Carroll, Leslie LeBlanc, Gary Anderson, Susan Jones, Richard Fort, John Tyler Barnes, David Nutter, Bruce Hazzard, Kevin Teater, Susan Andrew, Janet Whitworth, Geronimo Owen and Beth Stickle. It was the consensus of Council to interview Richard Fort, Geronimo Owen, David Nutter, Gary Anderson, Susan Andrew and Leslie LeBlanc.

RESOLUTION NO. 16-111 - RESOLUTION APPOINTING A MEMBER TO THE CIVIC CENTER COMMISSION

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing a member to the Civic Center Commission.

Mr. Bill Russell has resigned from the Civic Center Commission, thus leaving an unexpired term until June 30, 2017. In addition, there will be a vacancy, left by Mr. Bill Jones on June 30, 2016.

The following individuals applied for this vacancy: Corey Atkins, Jaime Taylor and Joe Greene.

On April 12, 2016, the Boards & Commissions Committee recommended appointing Corey Atkins and Joe Greene.

Vice-Mayor Wisler moved to (1) appoint Corey Atkins to serve the unexpired term of Mr. Russell, term to expire June 30, 2017, or until his successor has been appointed; and (2) appoint Joe Greene to serve a three-year term, term to begin July 1, 2016, or until his successor has been appointed. This motion was seconded by Councilman Smith and carried unanimously.

RESOLUTION BOOK NO. 38 - PAGE 39

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

Ms. Cindy Oak, representing the Family to Family Program in the Reynolds School District, and others, urged Council to work closely with the Buncombe County Commissioners and Buncombe County School Board to provide a public bus route at least 5 days a week, 8 hours a day from River Ridge Shopping Center to the Reynolds campus, a distance of 1.9 miles, in order to remove the transportation barrier for impoverished students and their families in the Reynolds district. After a brief discussion, City Manager Jackson was directed to include this item on the next Joint City Manager/County Manager agenda.

Ms. Maureen Quinn spoke to Council about the need for a new aquatics center. City Manager Jackson said that it's his understanding that the Buncombe County Schools will be proposing this, under the County umbrella, for the Tourism Development Authority's Product Development funding.

Mr. John Brigham felt that City Council should dissolve the Asheville City Schools and merge them into the Buncombe County School System.

Councilman Smith assured the public that City Council is aware of the housing crisis. He is looking forward to reviewing our current strategies in regards to housing affordability and also looking to move as far as we are legally able to address this crisis substantially and as quickly as we can.

Councilwoman Mayfield updated Council on her recent trip to the Rocky Mountain Institute E-Lab Accelerator Workshop. She said that they accomplished what they hoped to which is to come up with a foundational framework for how we are going to move this region to clean energy and avoid construction of additional fossil fuel capacity in the early 2020's. She encouraged the public to attend the Energy Innovation Task Force meetings.

Closed Session

At 6:31 p.m., Councilman Young moved to go into closed session for the following reasons: (1) To prevent disclosure of information that is privileged and confidential, pursuant to the laws of North Carolina, or not considered a public record within the meaning of Chapter 132 of the General Statutes. The law that makes the information privileged and confidential is N.C. Gen. Stat. § 143-318.10(a)(3). The statutory authorization is contained in N.C. Gen. Stat. § 143-318.11(a)(1); (2) To consult with an attorney employed by the City about matters with respect to which the attorney-client privilege between the City and its attorney must be preserved. The statutory authorization is contained in N.C. Gen. Stat. § 143-318.11(a)(3); and (3) To discuss matters relating to the location or expansion of industries. The statutory authorization is contained in N.C. Gen. Stat. § 143-318.11(a)(4). This motion was seconded by Councilman Bothwell and carried unanimously.

At 7:30 p.m., Councilman Bothwell moved to come out of closed session. This motion was seconded by Councilman Haynes and carried unanimously.

VIII. ADJOURNMENT:

Mayor Manheimer adjourned the meeting at 7:30 p.m.

Magdalen Bowlson
CITY CLERK

Edwin C. Manheimer
MAYOR

Tuesday – May 17, 2016 - 5:00 p.m.

Regular Meeting

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Cecil Bothwell; Councilman Brian D. Haynes; Councilwoman Julie V. Mayfield; Councilman Gordon D. Smith; Councilman W. Keith Young; City Manager Gary W. Jackson; City Attorney Robin T. Currin; and City Clerk Magdalen Burleson

Absent: None

PLEDGE OF ALLEGIANCE

Mayor Manheimer led City Council in the Pledge of Allegiance.

Mayor Manheimer noted that today the N.C. Supreme Court heard Asheville's water case. The City will hopefully know their opinion in August, 2016.

I. PROCLAMATIONS:

A. RECOGNITION OF CITY OF ASHEVILLE YOUTH LEADERSHIP ACADEMY STUDENTS

Mayor Manheimer nine years ago, former Mayor Terry Bellamy and the Asheville City Council envisioned a new program that would place students with meaningful summer internships with City departments and partnering organizations throughout Asheville. This program would empower its students to get involved in their communities, support them in their quest for college, and reward them with a generous scholarship. After a rigorous application process, 25 CAYLA students are placed in prestigious summer internships that allow them to explore careers and learn from caring adult professionals. Members of the CAYLA Class of 2016 interned with valuable community partners, including the Asheville Area Chamber of Commerce, Moog Music, CarePartners, and the Red Cross of WNC. Each Friday during the summer, the students attended day-long leadership workshops that focused on career exploration. Students not only learned about their own skills and interests, they also met community professionals from the six primary career clusters and took a variety of field trips to see careers in action. Of the graduating seniors, all have been accepted to four-year colleges – and many have earned significant merit scholarships, including the Dell Scholarship, Community Foundation of WNC awards, and the local Civitan and Rotary scholarships. This year, the total merit scholarship money earned by CAYLA students since 2008 will surpass $1.1 million. Beginning last June, the CAYLA students began planning in-depth social justice projects. They organized the MLK Youth Summit, which brought together more than 50 teenagers from all of Buncombe County's high schools to discuss issues of importance to youth. This semester, the students taught a class each week for Asheville City Schools Foundation's IRL afterschool program at AMS. Over the years, CAYLA students have given more than 3,400 volunteer hours to our community. In recognition of their accomplishments and the critical role they will play in Asheville's future, the City of Asheville awards each CAYLA student a scholarship in the amount of $2,000. We are proud of the leadership that the CAYLA students exhibit each day, and look forward to hearing of their achievements in the years to come.

With that, she provided a certificate to the following 2016 CAYLA students: CeeCret Allen, Dana Campbell Jr., D'Angelo Elliott, Fatima Gonzalez, Nadia May, Candida Alas-Ortega, Mercy Beveridge, Korina Dariy, Itzel Garcia, Shamone Jones, Josue Lomeli-Garcia, Jamie Rhodes, Kanaje Allen, Jayla Bunn, Raekwon Griffin, Taekwon Griffin, Ella Heldreth-Schmitt, Jaylen Hooker, Phoenix Keyser, Cindy Marquez, Caroline Penland, Rudy Perez, Cedetria Tranchant, Satorrius Uddyback, and Kimberly Vargas.

Mayor Manheimer praised Erika Germer for her hard work on this program.

II. CONSENT AGENDA:

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON MAY 10, 2016

B. ORDINANCE NO. 4500 - SECOND AND FINAL READING OF ORDINANCE NO. 4500 GRANTING A FRANCHISE AGREEMENT FOR THE OPERATION OF A LOW SPEED VEHICLE SHUTTLE SERVICE WITHIN THE CITY OF ASHEVILLE

Summary: The first reading of this ordinance was heard by City Council on May 10, 2016.

ORDINANCE BOOK NO. 30 - PAGE 299

C. RESOLUTION NO. 16-112 - RESOLUTION AUTHORIZING THE CITY MANAGER TO SIGN UTILITY RELOCATION AGREEMENTS WITH DUKE ENERGY AND OTHER UTILITY PROVIDERS FOR THE RIVER ARTS DISTRICT TRANSPORTATION IMPROVEMENT PROJECT

Summary: The consideration of a resolution authorizing the City Manager to sign Utility Relocation Agreements for the River Arts District Transportation Improvement Project (RADTIP) Project with Duke Energy and other secondary utility providers for the project.

The RADTIP project is moving toward the construction phase in early 2017. In advance of that time, private utility companies will begin relocation of the utilities as necessary to construct the project. The main provider, Duke Energy will begin relocation activities in the summer of 2016.

The City will enter into a Utility Relocation Agreement (URA), which includes a commitment from the City to reimburse Duke Energy and other utility providers for the costs of the improvements. The costs associated with Duke Energy, along with smaller costs associated with secondary utility providers are already part of the FY17 capital budget for RADTIP construction. The estimated breakdown of costs to Duke Energy is as follows:

Duke Transmission – Riverside Drive	$1,034,000
Duke Transmission – Amboy	$ 300,000
Duke Distribution	$2,750,000
SUBTOTAL	$4,084,000
Contingency 20%	$ 816,800
TOTAL	$4,900,800

The RADTIP project has been in the planning phase since 2010 and is now beginning to move into the construction phase. Utility relocation is scheduled to begin in the fall. This fits into the City Council's visioning plan by helping to create a well-planned and livable city, transportation and accessibility, and a clean and healthy environment. This project implements a portion of the Wilma Dykeman Riverway Plan and is part of the Tiger VI Program.

Pros:

- Able to move into the construction phase of the RADTIP Project.
- Consolidate and upgrade utilities in the corridor.

Con:

- Relocation work will potentially be disruptive to business owners and tenants in the area.

The funds for utility relocation are part of the Fiscal Year 2017 capital budget for RADTIP construction.

Staff recommends that City Council adopt a resolution authorizing the City Manager to sign Utility Relocation Agreements with Duke Energy and other secondary utility providers for the RADTIP project.

RESOLUTION BOOK NO. 38 - PAGE 40

D. RESOLUTION NO. 16-113 - RESOLUTION AUTHORIZING THE CITY MANAGER TO SIGN A GRANT AGREEMENT WITH THE FEDERAL HIGHWAY ADMINISTRATION TO RECEIVE $14,600,000 IN TIGER VI TRANSPORTATION FUNDS

Summary: The consideration of a resolution authorizing the City Manager to sign a grant agreement with the Federal Highway Administration to receive $14,600,000 in TIGER VI Transportation Funds.

In April of 2014, City Council authorized staff to submit a grant application to the Federal Highway Administration for TIGER VI Transportation funds to construct a network of multi-modal transportation improvements in the riverfront and in the East of the Riverway area.

In September 2014, the Federal Highway Administration announced that the City of Asheville is a recipient of TIGER VI funds in the amount of $14,600,000. Following that award announcement staff has been working to complete all of the necessary pre-construction requirements in order to be able to sign the grant agreement to receive the funds.

The TIGER VI Projects include the River Arts District Transportation Improvement Project, Clingman Forest Greenway, Town Branch Greenway, French Broad Greenway, Livingston St. and Five Points. TIGER VI grant funds are a critical part of completing these projects. This project meets the goals of City Council's vision by helping to build a well-planned and livable community and building transportation and accessibility. This action complies with the City's plans to complete the riverfront projects.

Pro:

- Provides critical funding to complete City projects

Con:

- There are no cons for this approval

All of the projects in the TIGER VI program are in the City's Capital Improvement Program. The projects are funded through a combination of City funds, TIGER VI funds and other minor grants. Project cost estimates will be refined prior to bid.

Staff recommends City Council adopt a resolution authorizing the City Manager to sign a grant agreement with the Federal Highway Administration to receive $14,600,000 in TIGER VI Transportation Funds.

RESOLUTION BOOK NO. 38 - PAGE 41

E. RESOLUTION NO. 16-114 - RESOLUTION APPROVING AN AMENDMENT TO AN INSTALLMENT FINANCING CONTRACT TO PROVIDE FOR THE FINANCING OF ADDITIONAL PROJECTS

Mayor Manheimer said that City Council held a public hearing on the issuance of the 2016 Limited Obligation Bond Anticipation Notes on May 10, 2016.

This is the consideration of a resolution directing the City Manager and Chief Financial Officer to pursue debt financing for capital projects with a draw program including issuing an interim Limited Obligation Bond (LOB) as construction financing for projects to be permanently financed upon completion with LOBs and Special Obligation Bonds (SOBs), and to approve the documentation related to the LOB financing.

The City has reimbursement resolutions for Council approved capital projects authorized as part of the FY 2014, 2015 and 2016 Budgets This LOB draw program will reimburse the City for costs incurred to date for those projects and allow the City to complete many of the projects.

As a next step in the process, staff is seeking City Council's approval to complete the LOB financing with Bank of America, N.A., as the purchaser of the LOB, which provided the lowest cost financing for the draw program interim financing. The resolution also authorizes the City Manager and Chief Financial Officer to proceed with the LOB financing and execute and deliver the necessary documents to complete the financing.

Pro:

- Allows the City to move forward with the Capital Improvement Program and Draw Program financing.

Con:

- None noted.

Staff recommends that City Council approve the resolution as it is proposed.

RESOLUTION BOOK NO. 38 - PAGE 42

F. ORDINANCE NO. 4503 - BUDGET AMENDMENT FROM INSURANCE RECOVERY FUNDS FOR A DAMAGED BUS SHELTER

Summary: The consideration of a budget amendment in the Transit Capital Fund in the amount of $7,981.82 from insurance recovery funds for a damaged bus shelter to utilize towards the repair of the bus shelter.

On February 20, 2016, a bus shelter located at 85 Tunnel Road was damaged by a third-party and the City settled the property damage claim for $7,981.82. The Transportation Department seeks to utilize the settlement funds to repair said bus shelter.

Pro:

- Provides funding for Transportation Department bus shelter repair.

Con:

- None.

The insurance recovery funds are held in the City Property & Liability Fund. Upon City Council approval, the funds will be transferred to the City Transit Capital Fund to be utilized to repair the bus shelter.

City staff recommends City Council adopt the budget amendment in the Transit Capital Fund in the amount of $7,981.82 so the funds may be applied towards bus shelter repairs located at 85 Tunnel Road.

ORDINANCE BOOK NO. 30 - PAGE 308

G. INFRASTRUCTURE GRANTS

RESOLUTION NO. 16-116 - RESOLUTION AUTHORIZING THE CITY MANAGER TO SUBMIT A LETTER OF INTENT FOR THE "MAJOR WORKS PATHWAY" MULTI-YEAR FUNDING FROM THE BUNCOMBE COUNTY TOURISM DEVELOPMENT AUTHORITY FOR PRODUCT DEVELOPMENT FUNDS

Summary: The consideration of a resolution authorizing the City Manager to submit a letter of intent to the Tourism Development Authority (TDA) and to request $20 M in funding for South Slope infrastructure improvements over the next 7 years to include complete street improvements, pedestrian and bike improvements at the intersection of Biltmore Avenue and Charlotte Street, gateway to the South Slope and a parking deck constructed with innovative renewable energy sources.

The Buncombe County Tourism Development Authority's Strategic Destination Development Plan published in 2006 recognized the need to continue to develop "cultural districts," distinct areas defined by unique attributes that compliment Asheville's culture and extend the Asheville experience. The plan specifically called for defining a framework of cultural districts and investing in one already forming area, the River Arts District, while creating welcoming gateways, beautification and interconnectivity between these areas.

Similarly, in 2014, the City of Asheville approved the designation of three "Innovation Districts," areas surrounding the Central Business District (an existing Innovation District approved in 2012) that are targeted for capital investment and infrastructure improvements. These improvements, in turn, will provide the foundation for additional private investment and growth, similar to the efforts that promoted downtown's resurgence over the last 30 years. The three innovation districts include the River Arts District, the South Slope Extension District and the Charlotte Street Corridor District.

During the last two funding cycles of the Tourism Product Development Fund, the BCTDA recognized the value of investing in connecting downtown to the River Arts District by awarding funding to the River to Ridge: Riverfront Destination Development Project – a project that includes a Riverfront Arts and Culture Dispensary, pedestrian walkway connections, boat ramps and an outdoor recreation experience that connects from scenic Beaucatcher Overlook Park to Downtown and South Slope to the River Arts District and New Belgium Brewery.

In 2015, the TDA revised the process to receive TPDF funding. They developed a "Major Works Pathway" process that could potentially commit multi-year funding to large projects. City staff have been working with the TDA to identify projects that would meet the City's needs by improving the pedestrian and bicycle experience in downtown while also improving the downtown/south slope experience for citizens and tourist. The concept is to successfully expand the footprint of downtown Asheville into a thriving, sustainable and prosperous network of Innovation Districts that offer more of the experiences. By investing in gateways, connectivity, beautification, parking and recreational assets like McCormick Field, we are laying the groundwork for entrepreneurs, artists, restaurateurs, brewers and other private investors to expand the magical spirit of downtown to its surrounding areas and neighborhoods.

Capital investments envisioned for the district include:

- A defined South Slope gateway where Biltmore Avenue, McCormick Place and Southside Avenue intersect;
- Street, sidewalk and pedestrian improvements with wayfinding to improve access to Asheville's walkable "Ale Trail" throughout the South Slope District. The Asheville In Motion (AIM) plan calls for Lexington Avenue, Coxe Avenue and Biltmore Avenue to improved to complete streets.
- Infrastructure improvements surrounding McCormick Field to better connect the venue to the Brewery District – including a potential signature pedestrian bridge across Biltmore Avenue - and encourage private, mixed-use development surrounding the facility, and;
- Construction of a mixed-use building with a public parking deck near the intersection of Southside, Biltmore Avenue and Charlotte Streets. This parking garage could include renewable energy sources and battery storage.

This direction aligns with the City Council's Vision in the following ways: (1) *A WELL-PLANNED AND LIVABLE COMMUNITY* - Asheville promotes community through thoughtful, resident-led planning that result in pedestrian oriented development for all ages and abilities, harmonized with an integrated transportation system; (2) *A CLEAN AND HEALTHY ENVIRONMENT* - Asheville continues to be a leader in innovative technologies and conservation efforts in response to global climate change; and (3) *TRANSPORTATION AND ACCESSIBILITY* - Whether you drive a car, take the bus, ride a bike or walk, getting around Asheville is easy. Public transportation is widespread, frequent, and reliable. Sidewalks, greenways, and bike facilities get us where we want to go safely and keep us active and healthy. It is easy to live in Asheville without a car and still enjoy economic, academic, and social success.

Pros:

- Provides funding to construct complete streets for three of the top nine recommended streets in the Asheville In Motion (AIM) Plan.
- Improves street and sidewalk conditions in the South Slope Innovation District.
- Makes safety improvements to the intersection of Biltmore and Charlotte Street.
- Provides a parking garage in the South Slope that would include renewable energy sources including solar and battery storage. This asset would serve as an innovative solution to reducing reliance on fossil fuels.
- Provides infrastructure that encourages infill development with walkability.
- Provides placemaking to the south entrance to downtown.
- Expands the footprint of downtown into the South Slope by improving multimodal transportation options.
- The City would leverage $28 M with an investment of $3 M from the parking enterprise fund and $1 M from the general fund.
- The City will seek funding for curtaining and associated improvements to the Thomas Wolfe Auditorium in the regular cycle of TPDF.

Cons:

- Matching funds would be provided from NCDOT STP-DA funding on your agenda tonight.
- Funding for major renovations to the Thomas Wolfe Auditorium will be requested from TPDF in future years.

Staff plans to match the funding for these projects with grants from STP-DA funding also on your agenda for May 10, 2016 as well as potential innovative energy efficiency grants and funding from the parking fund for acquisition, design and permitting of the parking garage.

The total request from the TPDF is $20 million over 7 years with the following tentative schedule.

Schedule of Projects and Funding

Project	FY 2017	FY 2018	FY 2019	FY 2020	FY 2021	FY 2022	FY 2023
Gateway		$500 K (design & ROW acquisition)		$2 M (construction)			
Ped, Transit and Bike Intersection Improvements at Biltmore and Charlotte		$500 K (design & ROW acquisition)		$2 M (construction)			
Complete Street Improvements		$3.5 M (design & ROW acquisition)			$6 M (construction)		
Innovative Energy Parking Deck	$2.5 M (acquisition and design)			$13 M (construction)			

Sources of Funding

Source	FY 2017	FY 2018	FY 2019	FY 2020	FY 2021	FY 2022	FY 2023	Total
TPDF	0	0	$4 M	$4 M	$4 M	$4 M	$4 M	$ 20 M
STP-DA	0	$1 M	$2 M	$1 M	0	0	0	$4 M
Parking Enterprise	$1 M	$1 M	$1 M	0	0	0		$3 M
General Fund	0	$ 0.5 M	$ 0.5 M	0	0	0	0	$1 M
Energy Efficiency Grants	0	$ 0.5 M	$ 0.5 M	$1 M	0	0	0	$2 M
Total	$1 M	$3 M	$8 M	$6 M	$4 M	$4 M	$4 M	$30 M

Staff recommends approval of a resolution authorizing the City Manager to submit a letter of intent to the Tourism Development Authority (TDA) and to request $20 M in funding for South Slope improvements over the next 7 years to include complete street improvements, pedestrian and bike improvements at the intersection of Biltmore Avenue and Charlotte Street, gateway to the South Slope and a parking deck constructed with innovative renewable energy sources.

RESOLUTION BOOK NO. 38 - PAGE 46

RESOLUTION NO. 16-117 - RESOLUTION AUTHORIZING THE CITY MANAGER TO APPLY TO THE FRENCH BROAD RIVER METROPOLITAN PLANNING ORGANIZATION FOR GRANTS OF FEDERAL TRANSPORTATION FUNDS

Summary: The consideration of a resolution authorizing the City Manager to apply to the French Broad River Metropolitan Planning Organization (MPO) for grants of federal transportation funds, and if the applications are successful, to accept grants and sign necessary agreements with the MPO or appropriate state or federal agencies to receive the funds.

The MPO has opened a call for projects to use federal Surface Transportation Program – Directly Attributable (STP-DA) funds and Transportation Alternative Program (TAP) funding sources. The MPO expects to have approximately $14 million in STP-DA and TAP funding

available for federal fiscal years 2018 and 2019, $13.2 million in STP-DA and $1.06 million in TAP. This is a competitive call open to all local governments and to the two NCDOT divisions in the four-county MPO area.

Staff is pursuing funding for the following projects:

- Planning, environmental documents, and construction documents for three complete street projects in the South Slope district which are identified as transformative in the Asheville in Motion (AIM) plan: Coxe Avenue, Lexington Avenue and Biltmore Avenue, at an estimated cost of $5 million, with 80% funded by the grant. This project is planned as preparatory for future construction grant requests.

- Update of the city's 2004 Pedestrian Plan and older public right-of-way ADA Transition Plan at an estimated cost of $175,000, with 80% funded by the grant.

- Construction of River to Ridge Greenway Network connector routes, including pedestrian and bicycle facilities, street crossings, wayfinding between Clingman Forest, Town Branch and Beaucatcher Greenways, and making the connection to the French Broad River East greenway via RADTIP improvements, at an estimated cost of $1.75 million, with 60% funded by the grant. This project builds upon a prior MPO grant for design of the connectors.

Each of these projects supports the initial implementation of the AIM plan and vision of the South Slope as a district that is a place in itself and yet connected to the rest of downtown, McCormick Field, Memorial Stadium and future mountainside parks, the River Arts District, and the larger city.

The MPO application requires expression of City Council's willingness to program the local match if selected to receive the grant. In all cases, while the local match cannot be other federal funds, it could be from other grant funding.

If received, these projects will be added to the city's capital and operating budgets.

Pros:

- Allows the City of Asheville to leverage to up to an estimated $5.1 million in federal transportation investment
- Allows the City of Asheville to begin implementation of three complete street projects identified as transformative in the AIM plan
- Allows the City of Asheville to update the city's 12 year old pedestrian master plan
- Allows the City of Asheville to update an element of city compliance with the Americans with Disabilities Act
- Allows the City of Asheville to construct clear and comfortable connections between three upcoming greenways, making them part of a growing network of transportation pathways

Con:

- Commits the city to funding to the match, at least for the time the applications are pending.

If successful, the grant applications will allow the city to leverage up to an estimated $5.1 million in federal funding for these projects, with a city match of up to an estimated $1.7 million.

City staff recommends City Council adopt a resolution authorizing the City Manager to apply to the French Broad River Metropolitan Planning Organization (MPO) for grants of federal transportation funds, and if the applications are successful, to accept grants and sign necessary agreements with the MPO or state or federal agencies to receive the funds, and to express the intention to provide the required local match.

RESOLUTION BOOK NO. 38 - PAGE 47

RESOLUTION NO. 16-118 - RESOLUTION AUTHORIZING THE CITY MANAGER TO SUBMIT A PRELIMINARY AND FINAL GRANT APPLICATION TO THE BUNCOMBE COUNTY TOURISM DEVELOPMENT AUTHORITY FOR 2016 TOURISM PRODUCT DEVELOPMENT FUND CYCLE

Summary: The consideration of a resolution authorizing the City Manager to submit a preliminary application and final application, and accept if awarded, a grant from the Buncombe County Tourism Development Authority (TDA) through the Tourism Product Development Fund (TDPF) for funding to support improvements at the U.S. Cellular Center.

The Buncombe County TDA's 2016 grant cycle for the TDPF opens in June of this year. TDPF grants support construction of brick and mortar projects that will add new or increase existing room nights in Buncombe County. The City of Asheville (City) contemplates submitting a preliminary application on June 1, 2016. The TDA will review preliminary applications to determine eligibility, short list and invite potential grantees to submit a more extensive final application. Preliminary applicants will receive notification of eligibility on June 29, 2016. If the City receives an invitation to continue with the grant process, a more extensive final application is due on August 31, 2016. The Buncombe County TDA will announce grant awardees and amounts on or before October 26, 2016.

Staff recommends applying for $1,975,000 in TPDF grant funds that will support TPDF guidelines and City Capital Improvement Project construction costs of $3.3 Million. The City's project will, if funded, construct a comprehensive set of improvements and enhancements to the facility which will increase the venue's ability to host larger conferences and additional concert/performance events. The project will create a new venue within the facility by developing a theater system inside the ExploreAsheville.com arena with a flexible attendee capacity between 2,500 and 4,500 as needed. The project elements are:

- Arena Theater System and Sound & Light Package: Purchase & installation of equipment and materials to create a flexible capacity theater within the ExploreAsheville.com Arena. This theater system will come equipped with the necessary curtaining, trussing, sound and light equipment necessary for a basic concert or performance event. Sound and light components are mobile equipment which will have the ability for use in both the Thomas Wolfe Auditorium and the ExploreAsheville.com Arena, allowing for more frequent use and ability to generate additional event dates.
- Meeting room renovation: Conversion of a current storage area to a permanent meeting room equal in capacity to the facility's second largest room, complete with all necessary audio/visual and internet needs. As the USCC has added additional meeting/conference events, meeting planners have identified additional meeting room space as essential for larger meetings.
- Required Related Infrastructure: Converting storage space into meeting space & creating the theater curtain wall system will require additional infrastructure updates to the facility in order for all components to function. This includes expanding current storage areas in the facility exhibit level, Internet infrastructure enhancements and significant improvements to the facility's HVAC system to successfully accommodate the curtaining system and additional conditioned meeting space, as well as conditioned storage space.

This proposed preliminary application was presented to and unanimously supported by the Civic Center Commission at the May 3rd monthly meeting. The City Council Planning & Economic Development Committee will review the proposal prior to the full City Council meeting on May 17, 2016, and the PED recommendation will be provided at the Council meeting.

This application aligns with City Council's 2036 Vision as follows: (1) Smart City: Leveraging funding for necessary improvements to city property and infrastructure through external TDA sources allows for the City to maintain and improve the City's infrastructure in a fiscally responsible manner. These improvements also allow the facility to more flexibility to clients and therefore enhances the facility's revenue base; (2) A Clean & Healthy Environment: Related Infrastructure associated with the project will include improvements to the facility's HVAC systems. These improvements were highlighted items of priority in the 'Building Energy Analysis Report' conducted in 2015 by Griffith Engineering, commissioned by the city's sustainability department; and (3) Transportation & Accessibility: Improvements to this facility extends the usable life of the facility and increases the amount of public leisure and entertainment activities within downtown which is the most accessible area of the City through all means of transportation.

Pros:

- Maintain and improve the City's infrastructure.
- The TDPF is a significant funding opportunity that would be the keystone to allowing these improvements to take place.
- The potential improvements will allow the facility to operate one step closer to revenue neutral.

Con:

- None

The Buncombe County TDA may choose to not award, partially award or fully award the grant request of $1,975,000. If any award is offered the City would experience a positive impact to the budget. Any award is contingent upon the availability of matching funds. These funds have been identified by staff as the U.S. Cellular Center capital fund, General Fund, In Kind contributions & potentially the Green CIP.

An announcement of an award would begin the process of the city developing a grant agreement with Buncombe County TDA that further defines the specific funding amounts and project elements included in the partnership effort. Through proposed partnerships like these, staff continues to develop diverse funding sources for future opportunities and improvements that will increase the City's fiscal sustainability.

Staff recommends City Council adopt a resolution authorizing the City Manager to submit and accept if awarded, a preliminary and final grant application to the Buncombe County Tourism Development Authority (TDA) for the Tourism Product Development Funding (TDPF) to support renovations and improvements at the U.S. Cellular Center.

Councilwoman Mayfield was pleased to highlight the two TDA applications, one of which will allow a multi-year funding application for $20 Million of funding for Asheville's infrastructure needs.

RESOLUTION BOOK NO. 38 - PAGE 48

H. RESOLUTION NO. 16-119 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ACCEPT COMMUNITY WASTE REDUCTION AND RECYCLING GRANT FUNDS FROM THE N.C. DEPT. OF ENVIRONMENTAL QUALITY

ORDINANCE NO. 4501 - BUDGET AMENDMENT TO ACCEPT COMMUNITY WASTE REDUCTION AND RECYCLING GRANT FUNDS FROM THE N.C. DEPT. OF ENVIRONMENTAL QUALITY

Summary: The consideration of a resolution authorizing the City Manager to accept Community Waste Reduction and Recycling (CWRAR) grant funds from the North Carolina Department of Environmental Quality (NCDEQ) (formerly NCDENR); and a budget amendment in the amount of $29,813 in the Special Revenue Fund to budget the grant and the City's match.

In October 2015, the City of Asheville partnered with the Housing Authority of the City of Asheville (HACA) to launch a recycling pilot project for the 280 public housing units of the Erskine, Walton and Livingston Street communities. With CWRAR funding from NCDEQ, "Big Blue" 96-gallon recycling roll carts were distributed to each residence and significant outreach was conducted. These residents are now collectively recycling over 1,500 pounds of materials every week. The City has been awarded a second grant to expand this recycling project to 388 more units in the communities of Deaverview and Hillcrest in Fiscal Year 2017.

The total cost for the project is $29,813. The CWRAR grant would require a 20% cash match from the City of Asheville. Thus $4,969 would be contributed by the City, from the sustainability street light savings in the general fund, while the grant would cover the remaining $24,844.

Pros:

- Provides more equitable access to recycling services for residents of public housing
- Helps to meet City's waste reduction goal while leveraging state funding

Con:

- None can be identified

As noted above the total cost of the project is $29,813, with the grant covering $24,844 or 80% of the cost. The 20% City match of $4,969 will come from sustainability street light savings that have been designated for green projects.

City staff recommends City Council adopt a resolution authorizing the City Manager to accept $24,844 in grant monies from NCDENR; and a budget amendment in the amount of $29,813 in the Special Revenue Fund to budget the grant and the City's match.

Councilwoman Mayfield was pleased to highlight that this will expand recycling into the communities of Deaverview and Hillcrest.

RESOLUTION BOOK NO. 38 - PAGE 49
ORDINANCE BOOK NO. 30 - PAGE 304

I. RESOLUTION NO. 16-120 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ACCEPT A GRANT FROM THE APPALACHIAN REGIONAL COMMISSION TO CONDUCT THE ENTREPRENEURIAL IMPACT OF OUTDOOR SPECIAL EVENTS

ORDINANCE NO. 4502 - BUDGET AMENDMENT TO ACCEPT GRANT FUNDS FOR ENTREPRENEURIAL IMPACT OF OUTDOOR SPECIAL EVENTS RESEARCH STUDY

Summary: The consideration of a resolution authorizing the City Manager to accept and execute a grant agreement with the Appalachian Regional Commission, and a budget amendment in the amount of $25,000 to appropriate the grant funding in the FY 2015-16 budget.

The Appalachian Regional Commission (ARC) offers grants to create opportunities for self-sustaining economic development and improved quality of life for the people of Appalachia. City Council adopted a resolution on August 25, 2015 authorizing an application for grant assistance to ARC for a research study that would identify the impact of special events as

strategic assets for Asheville and surrounding local economies. Funding in the amount of $25,000 was authorized from the current Community & Economic Development budget to meet the required 1:1 match. The total project budget included $50,000 for contracted consultant services with 20% allocated to the development of survey instruments, 50% for data collection, 20% for technical analysis and 10% for report preparation.

On April 22, 2016, ARC notified the City of Asheville that the application for grant assistance was approved. The project titled, The Entrepreneurial Impact of Outdoor Special Events, will study the impact of special events on entrepreneurship, generate data to support the development of policy recommendations designed to motivate entrepreneurship and job creation through special events, and create a practical, research-based survey tool that can be shared with surrounding communities in the region.

Pros:

- Strengthens the City's relationship with the North Carolina Department of Commerce and the Appalachian Regional Commission
- Provides critical data with which to base sound policy recommendations
- Creates opportunities to engage, support and partner with the private sector
- Establishes a platform to share City efforts and provide assistance throughout the region

Con:

- None noted at this time.

The fiscal impact of the City's support to this grant is matching funds in an amount not to exceed $25,000 from the existing Community and Economic Development budget.

City staff recommends that City Council authorize the City Manager to execute a grant agreement between the Appalachian Regional Commission and the City of Asheville, and adopt the associated budget amendment in the amount of $25,000 to appropriate the grant funding in the FY 2015-16 budget.

RESOLUTION BOOK NO. 38 - PAGE 50
ORDINANCE NO. 30 - PAGE 306

J. RESOLUTION NO. 16-121 - RESOLUTION AUTHORIZING THE POSSESSION AND/OR CONSUMPTION OF ALCOHOLIC BEVERAGES AND/OR UNFORTIFIED WINE AT THE MOUNTAIN SPORTS FESTIVAL

RESOLUTION NO. 16-122 - RESOLUTION AUTHORIZING THE POSSESSION AND/OR CONSUMPTION OF ALCOHOLIC BEVERAGES AND/OR UNFORTIFIED WINE AT THE COMMUNITY CONCERT

RESOLUTION NO. 16-123 - RESOLUTION AUTHORIZING THE POSSESSION AND/OR CONSUMPTION OF ALCOHOLIC BEVERAGES AND/OR UNFORTIFIED WINE AT THE INGLES INDEPENDENCE DAY CELEBRATION

Summary: The consideration of authorizing the City Manager to approve resolutions making provisions for the possession and consumption of malt beverages and/or unfortified wine at the Mountain Sports Festival, the Community Concert, and the Ingles Independence Day Celebration.

- Mountain Sports Festival has requested through the City of Asheville Community & Economic Development Department that City Council permit them to serve beer and/or unfortified wine at the Mountain Sports Festival and allow for consumption at this event.

The Mountain Sports Festival will be held on Friday, May 27, 2016 from 4:00 p.m. to 10:00 p.m., Saturday, May 28, 2016 from 10:00 a.m. to 10:00 p.m., and Sunday, May 29, 2016 from 10:00 a.m. to 6:00 p.m. within the boundaries of Carrier Park as per the area limits referenced on the accompanying site map.

- Asheville Downtown Association has requested through the City of Asheville Community & Economic Development Department that City Council permit them to serve beer and/or unfortified wine at the Community Concert and allow for consumption at this event.

  The Community Concert will be held on Saturday, June 11, 2016 from 6:00 p.m. to 9:30 p.m. within the boundaries of Pack Square Park as per the area limits referenced on the accompanying site map.

- Asheville Downtown Association has requested through the City of Asheville Community & Economic Development Department that City Council permit them to serve beer and/or unfortified wine at the Ingles Independence Day Celebration and allow for consumption at this event.

  The Ingles Independence Day Celebration will be held on Monday, July 4, 2016 from 12:00 p.m. to 10:00 p.m. within the boundaries of Pack Square Park as per the area limits referenced on the accompanying site map.

Pro:

- Allows fundraising opportunities for the Mountain Sports Festival and the Asheville Downtown Association

Con:

- Potential for public safety issues

Staff recommends City Council authorize the City Manager to approve resolutions making provisions for the possession and consumption of malt beverages and/or unfortified wine at the Mountain Sports Festival, the Community Concert, and the Ingles Independence Day Celebration.

RESOLUTION NO. 16-121 - RESOLUTION BOOK NO. 38- PAGE 51
RESOLUTION NO. 16-122 - RESOLUTION BOOK NO. 38- PAGE 54
RESOLUTION NO. 16-123 - RESOLUTION BOOK NO. 38- PAGE 57

K. RESOLUTION NO. 16-124 - RESOLUTION AMENDING THE COMPOSITION OF THE CITIZENS-POLICE ADVISORY COMMITTEE

Summary: The consideration of a resolution amending the membership of the Citizen Police Advisory Committee (CPAC).

As outlined in the background summary regarding the creation of CPAC, the current composition of the voting members of the body include the following:

- Five representatives of the north, east, south, west and central areas of the City;
- Chair of the Asheville-Buncombe Community Relations Council (ABCRC);
- Asheville Housing Authority Chair or designee; and
- Two ad-hoc members appointed by the Committee.

Terms of all CPAC voting members (with the exception of ad-hoc members) are limited to two consecutive periods of three-years. Ad hoc members are currently appointed by CPAC without any terms. It appears as though CPAC is the only board, commission or committee within the City that appoints some of its own membership and without term limitation. The current ad-

hoc positions have been in place since 2013 (purpose related to driving under the influence) and 2015 (public housing resident representation), respectively.

Non-voting members of CPAC include a City Council liaison, Chief of Police, and Police Officer (Sergeant in Community Relations or designee).

On February 29, 2016, the ABCRC was officially dissolved. As a result, the CPAC seat formerly dedicated to the ABCRC Chair no longer exists. In an effort to identify what to do with the former seat – if anything – input from the CPAC body was sought for which it had discussion during its regular meetings of March 2, April 6 and May 4. As a part of those discussions, staff identified concerns relative to the manner in which CPAC was appointing ad-hoc members to its body including service for periods without limitation.

During its May 4 Regular Meeting, CPAC voted unanimously to support the following motions in reference to its membership:

- Vice Chair Holt motioned to recommend to the Boards and Commissions Committee of City Council that the Citizens Police Advisory Committee set a term limit of 12 months on Ad Hoc seats. Allen Brailsford seconded. The motion carried on an 8-0 vote.

- Carol Rogoff Hallstrom motioned to recommend to the Boards and Commissions Committee of City Council that the Asheville Buncombe Community Relations Council seat be converted to a seat for a resident of a property owned by the Asheville Housing Authority. Larry Holt seconded. The motion carried on a 7-0 vote. Cooke, Joslin, Hallstrom, Holt, Gurney, Brailsford, and Gardner voted in support of the motion; Applewhite abstained.

It is important to note that while CPAC understands that the new Asheville Housing Authority resident seat would be appointed through an open City Council process, it recommends that the current resident ad-hoc member (Sir Charles Gardner) be appointed for the initial term.

On May 10, 2016, the City Council Boards & Commissions Committee unanimously recommended: (1) the seat formerly held by the Chair of the Asheville-Buncombe Community Relations Council (dissolved March 1, 2016) be converted into a seat for a resident of property owned by the Asheville Housing Authority; and (2) the two current ad hoc seats become at-large seats with three-year terms.

Staff recommends that City Council amend the CPAC membership to (1) convert the seat formerly held by the Chair of the Asheville-Buncombe Community Relations Council be converted into a seat for a resident of property owned by the Asheville Housing Authority; and (2) the two current ad hoc seats become at-large seats appointed by City Council with three-year terms.

RESOLUTION BOOK NO. 38 - PAGE 60

Mayor Manheimer asked for public comments on any item on the Consent Agenda, but received none.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Councilman Bothwell moved for the adoption of the Consent Agenda. This motion was seconded by Vice-Mayor Wisler and carried unanimously.

III. PRESENTATIONS & REPORTS:

A. RESOLUTION NO. 16-125 - RESOLUTION ADOPTING THE ASHEVILLE IN MOTION PLAN

Transportation Planning Manager Mariate Echeverry said that this is the consideration of a resolution accepting the Asheville in Motion (AIM) plan, the City of Asheville Mobility Plan.

In order to address the City's growing transportation needs, and to create a coordinated strategy to prioritize multimodal improvements the City of Asheville engaged in the development of a Multimodal Transportation Plan, the Asheville in Motion Plan. The City hired Kimley-Horn and Associates, Inc. to develop the plan. The plan was funded by the Metropolitan Planning Organization as part of the Unified Planning Work Program in the amount of $200,000, and $86,000 from the General Operating fund for a total project budget of $336,000.

The AIM plan creates a vision for Asheville providing a cohesive strategy and a method to prioritize projects. The vision begins by embracing the Complete Streets philosophy with an aim toward improving multimodal connections.

Projects are selected based on five criteria:

- Economic Vitality for projects that support and catalyze the community's economy.
- Social Equity, for projects that provide transportation options to underserved communities.
- Community Vibrancy, which reflects how the project will contribute to the urban fabric and the sense of place of a specific community.
- Travel Mode Shift, for projects that encourage travelers to diversify how they move around, either walking, biking or riding transit, instead of driving.
- Public Sentiment, which reflects public support.

Once the projects are selected, the AIM plan incorporates different tools unique to Asheville that determine the type of multimodal improvements that can take place on a specific road, taking into consideration the neighborhood that the road is serving and the right of way constraints:

- Framework plans, that consider individual system level plans for pedestrian, bicycles, and transit. These framework plans define how the different modes of transportation are developed and where the priorities are. The framework plans include policies and projects as needed.
- Street Type, which reflects the way how our community uses the road network using a new set of street categories.
- Community Types, which is a method to incorporate community context (land use and urban form).
- Blended Typology, which is a method to consider right of way constraints, based on street types and community types.

In addition, the plan recommends Transformative Projects, which are projects that combined create an interconnected network, providing access to jobs, education, recreation, and encouraging a healthy life style. These projects represent a coordinated strategy for the immediate future (next 15 years).

The AIM plan was supported by a very robust public outreach process. There were more than 15 outreach events, including a symposium that featured a mobility fair and an expert panel; a week-long design charette; and a public rollout.

The stakeholder engagement process brought citizens, business, non-profits, and elected officials giving them the opportunity to speak directly to the consultants. All those events combined drew more than 300 citizens.

There was intensive public input at the symposium that was complemented by the results of an online survey: the Metroquest received more than 1,200 responses and almost 20,000 data points. The input from all these public sessions informed the development of the plan and the policy and project recommendations.

The final report was posted on Open City Hall for three weeks.

The process was overseen by the Project Oversight Committee which was composed by representatives of different agencies, such as: Housing Authority, UNC-Asheville, A-B Tech, Airport Authority, Asheville on Bikes, Warren Wilson College, Asheville Area Chamber of Commerce, Just Economics, Mission Hospital, North Carolina Department of Transportation, the French Broad Metropolitan Planning Organization and members of the Multimodal Transportation Commission.

The AIM plan was endorsed by the Multimodal Transportation Commission at their April meeting.

Pros:

- Establishes a vision for multimodal transportation improvements that provides enhanced mobility options to the citizens of Asheville.
- Develops a cohesive strategy to prioritize transportation projects and multimodal improvements.
- Positions the City of Asheville in an advantageous position to access transportation funding.

Con:

- None at this time.

There is no direct fiscal impact as part of this action.

City staff recommends City Council consider a resolution adopting the Asheville in Motion plan, the City of Asheville Mobility Plan.

Mr. Stephen Stansbery, consultant Kimley-Horn & Associates, explained that AIM is an important process intended to consolidate a variety of mode specific plans into a cohesive strategy that expresses a method for prioritizing space and transportation investments in a constrained setting. AIM accomplishments include (1) developed a unique way to consider community context; (2) developed a street typology unique to Asheville; (3) updated/modernized the bike master plan; (4) created a new method of identifying priority projects; and (5) identified ways to better align transportation investments with a variety of community priorities. He then explained the community engagement process. The AIM toolbox will have (1) a method for considering individual systems-level plans for pedestrian, bicycle, greenway and transit; (2) a new set of street type categories; (3) a consistent method for considering community context; and (4) a method for dealing with constrained physical setting (insufficient right-of-way, widening).

Councilwoman Mayfield was glad to see land use and transportation come together in a Plan. She was hopeful that this will take us down the road to prioritizing our projects and making investments to help with the mode shift. She also hoped that we can move quickly into a discussion about resources and how we pay for all of this infrastructure change and implementation.

When Mr. Ken Michalove asked the cost of the study and the cost to implement it, Ms. Echeverry said that the cost of the study was $336,000 with $200,000 coming from Federal Highway Administration funds. She did not know the cost of implementation yet.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilwoman Mayfield moved for the adoption of Resolution No. 16-125. This motion was seconded by Councilman Bothwell and carried unanimously.

RESOLUTION BOOK NO. 38 – PAGE 61

IV. PUBLIC HEARINGS:

A. PUBLIC HEARING RELATIVE TO ADOPTION OF THE FISCAL YEAR 2016-17 ANNUAL OPERATING BUDGET

Director of Finance and Management Services Barbara Whitehorn said that City Council conducts a public hearing each year to receive public input on the Proposed Annual Operating Budget prior to adoption of the Annual Budget Ordinance. This public hearing was advertised on May 6, 2016.

The Fiscal 2016/2017 Proposed Annual Operating Budget was presented to City Council on May 10, 2016. The Fiscal Year 2016/2017 Proposed Budget is balanced with an Ad Valorem tax rate of $0.475 per $100 of assessed value, which represents no change to the current year tax rate. All essential City services are continued in the Proposed Budget. A copy of the Proposed Budget is available for public inspection in the City Clerk's office. The Proposed Budget is also available for viewing on the City's website.

In accordance with the North Carolina Local Government Budget and Fiscal Control Act, a summary of the Proposed Budget along with a notice of the Public Hearing was published on May 6, 2016. Adoption of the Fiscal 2016/2017 Budget Ordinance is scheduled for June 14, 2016 at the regularly scheduled City Council meeting. The Proposed Budget may be changed by City Council in any way before adoption. It may also be changed by budget amendment after adoption, with the only exception being the Ad Valorem Tax rate, which cannot be changed once the Budget is adopted.

She then explained some changes as follows:

Infrastructure reserve	$1.1 Mil
Deferred maintenance reserve	$200,000
One-time investments	$760,000
Unrestricted, unassigned increase	$1.46 Mil
Lee Walker Heights	$2.18 Mil
	Total $5.7 Mil

Also, per Council, she added $2,000 for the Festival of Neighborhoods and $106,000 for a Development Services Department short-term rental position and equipment.

Staff recommends City Council conduct the public hearing on the City of Asheville Fiscal Year 2016/2017 Proposed Annual Operating Budget and include public input in its consideration of the Budget.

Mayor Manheimer opened the public hearing at 5:38 p.m.

Ms. Maureen Quinn spoke about the need for development of a new indoor aquatic center.

Ms. Jackson felt we should be investing in infrastructure and transit and not the crime analyst position, which she hoped would not perpetuate a racist and classist analysis.

A gentleman thanked City Council for making transit a priority in this year's budget.

Mr. Ken Michalove urged Council to remove the funding for Pack Place Capital Improvements as he felt the action is political favoritism.

Rev. Amy Cantrell thanked Council for their investment in transit and hoped that the new crime analyst position will not perpetuate a racist and classist analysis.

Mr. Chris Peterson spoke in opposition of several items in the budget, including, but not limited to increase in fees and charges, funding in the River District, transit, Fund Balance, etc.

Mr. Bruce Emory, Chair of the Multimodal Transportation Commission, thanked City Council for the additional funding for transit and looked for to implementation over the next year.

Mr. Anthony Mitchell, Vice-Chair of the Transit Committee, hoped that Council will continue to make transit a priority.

Ms. Desiree Smith said that the City needs more affordable housing, transit, etc, and not a new crime analyst position.

Mayor Manheimer closed the public hearing at 6:05 p.m.

At Councilman Smith's suggestion, City Manager Jackson said that staff will include the purpose and outcomes anticipated from the new crime analyst position on the City's website, along with the highlights of budget on-line.

Mayor Manheimer said that adoption of the Fiscal Year 2016-17 Annual Operating Budget will occur on June 14, 2016.

B. PUBLIC HEARING TO CONSIDER A CONDITIONAL USE PERMIT FOR THE CONSTRUCTION OF A TWO-STORY 75,000 SQUARE FOOT RETAIL BUILDING AND A ONE-STORY 8,000 SQUARE FOOT RETAIL BUILDING ON PROPERTY LOCATED AT 800 BREVARD ROAD, ASHEVILLE N.C.

City Clerk Burleson administered the oath to anyone who anticipated speaking on this matter.

City Attorney Currin reviewed with Council the conditional use process which is a quasi-judicial permit hearing. At this public hearing, all the testimony needs to be sworn and due process protections afforded to the applicant.

Principal Planner Shannon Tuch submitted into the record City Exhibit 1 (Affidavit of Publication), City Exhibit 2 (Certification of Mailing of Notice to Property Owners); and City Exhibit 3 (Staff Report).

She said that this is the consideration of a conditional use permit for the construction of a two-story 75,000 square foot retail building and a one-story 8,000 square foot retail building on property located at 800 Brevard Road. This public hearing was advertised on May 6 and 13, 2016.

Ms. Tuch said that the applicant Asheville Retail Associates, LLC, is requesting review of site plans for the construction of two new retail structures totaling 83,000 square feet along with related parking and other site improvements (Aerial - Attachment to City Exhibit 3). This project is considered a Level III review pursuant to Section 7-5-9(a) and 7-5-9(a)(1)(c) of the city's Unified Development Ordinance (UDO), which designates a Level III review for projects with more than 100,000 square feet of gross floor area. Level III projects are reviewed as Conditional Use

Permits.

The project address is 800 Brevard Rd. and includes two parcels (Site Plans - Attachment to City Exhibit 3). Building 3A (75,000 s.f.) is located on PIN 9626.76-8165 which is approximately 8.9 acres in size and also includes the recently constructed Field & Stream building. Building 3B (8,000 s.f.) is located on PIN 9626.86-3724 which is approximately 44.8 acres in size and supports the majority of the recently renovated outlet mall. A third parcel supporting the retail anchor Dillard's is owned separately and not included in this application. The site has been previously developed and is relatively flat with good visibility and access.

This project constitutes the third phase of the Asheville Outlets mall development and includes the construction of a new two-story, 75,000 square foot retail building along with a smaller 8,000 square foot single-story retail building on a separate parcel. Both buildings are proposed where surface parking currently exists and will result in the reconfiguration and reconstruction of those parking areas.

The 83,000 square feet of new construction is in proximity to a recently constructed 52,000 square foot retail building (Field & Stream) and the UDO combines these projects for purposes of review (Sec. 7-5-9(a)(1)c) (Elevations - Attachment to City Exhibit 3). Specifically, this requirement states:

> (c) Properties located within 500 feet of each other, under the same ownership and/or developed by the same developer over a period of three years or less shall be considered to be one development and reviewed as such.

When combined all three buildings result in 135,000 square feet of new construction, meeting the review threshold for a Level III, Conditional Use Permit application.

Access to the mall can be achieved from one of four access points. The main entrance and a secondary entrance are located off of Brevard Rd. while the other two entrances are located off of Ridgefield Blvd. Internal sidewalks are provided as part of the project, however, the developer chose to pay a fee-in-lieu for sidewalks required along street frontages (Brevard Rd. and Ridgefield Blvd.) so no sidewalk is proposed in these areas.

The new construction will remove a number of existing parking spaces resulting in a net loss of off-street spaces. Despite the removal of spaces, the total parking count will remain well above the minimum number of spaces required. When evaluated as one large retail center, the overall parking numbers will continue to fall within the min/max range for off-street parking requirements based on the entire mall area. The project also complies with off-street parking when evaluated per individual parcel. Bicycle parking requirements are reduced given the net reduction in vehicular parking spaces so the project remains in compliance from the previous phases of development.

The developer had previously worked with Transportation staff on identifying an appropriate location for a new transit shelter and recently constructed the one that is currently in use; however, the location of the new shelter has not proven to be as efficient as desired resulting in route delays. Transportation staff and the developer will continue to explore a more suitable site and will relocate the shelter if a mutually agreed upon alternative is identified, however, this is not a condition of this project.

Landscaping for the new construction will be required and includes building impact, street trees and parking lot landscaping. The proposed plans demonstrate full compliance with these requirements.

The previous two phases of the mall development were exempted from open space

requirements, however, because Phase 3 is new construction it will require open space which is assessed based on the existing parcel area. Given the Regional Business zoning and the suburban style of development, the open space requirement is 15% of the total lot area which results in 1.33 acres of open space required. This requirement is satisfied through a mix of perimeter landscape areas as well as the open-air courtyard areas that meander through the mall.

This project is classified as a multi-tenant retail structure and per UDO section 7-16-2(d)(10)(c) this project must be reviewed for compliance with the city's Supplemental Development Standards for Large Retail Structures (Appendix 7-F). This information has been supplied by the applicant and verified by staff and demonstrates the ability to meet a number of building design requirements selected from a menu of design options including elements such as: landscape buffering; window fenestration; roof features; façade articulation & relief; building materials; entrance features; and pedestrian and transportation amenities.

The site is currently zoned Regional Business (RB) and the use proposed is permitted by-right and the applicant will meet the standards of the District with this development proposal. The majority of the surrounding properties are similarly zoned RB along with some Commercial Industrial (CI) zoned property to the southwest and county zoning to the east across the interstate.

This proposal was approved with conditions by the Technical Review Committee (TRC) on April 4, 2016, and requires a quasi-judicial review by City Council and a Final TRC review prior to final zoning approval or the issuance of any permits.

This project was also reviewed by the Planning and Zoning Commission at their May 4, 2016, meeting where the project was approved unanimously.

Section 7-16-2(c) of the Unified Development Ordinance (UDO) states that Asheville City Council shall not approve the conditional use application and site plan unless and until it makes certain findings based on the evidence and the testimony received at the public hearing or otherwise appearing in the record of the case. The applicant has provided a statement on these findings (Attachment to City Exhibit 3).

Staff finds that the relevant standards of the City have been met or can be met with this application.

Mr. W. Louis Bissette Jr., attorney representing the applicant, was pleased to work with this developer who took a deteriorating mall and renovated it to this successful and aesthetically pleasing mall that employs over 1,000 employees. He asked that the application be included as an exhibit (Applicant Exhibit 1). He spoke in support of the additions and asked for favorable consideration.

Mr. Chris Day, engineer on the project with Civil Design Concepts, said that they utilized existing infrastructure and a Traffic Impact Analysis was performed with no issues for mitigation.

Mayor Manheimer opened the public hearing at 6:19 p.m., and when no one spoke, she closed the public hearing at 6:19 p.m.

Councilman Bothwell moved to recommend approval of the conditional use permit for Asheville Outlets, Phase 3 located at 800 Brevard Rd. because it meets the seven conditional use standards as demonstrated by the applicant. This motion was seconded by Councilman Young and carried unanimously.

City Attorney Currin said that the Findings of Fact and Conclusions of Law will be placed on the June 14, 2016, agenda.

C. PUBLIC HEARING TO CONSIDER AN AMENDMENT TO ASHEVILLE OUTLETS PREVIOUSLY APPROVED SIGN PACKAGE

ORDINANCE NO. 4504 - ORDINANCE AMENDING THE ASHEVILLE OUTLETS PREVIOUSLY APPROVED SIGN PACKAGE

Principal Planner Shannon Tuch said that this is the consideration of an amendment to the Asheville Outlets previously approved sign package. This public hearing was advertised on May 6 and 13, 2016.

Ms. Tuch said that the applicant is requesting the review of an amendment to a previously approved signage plan for the Asheville Outlets to expand the number of tenant panels on the free-standing multi-tenant sign for the project area.

The project address is 800 Brevard Rd. and includes two parcels: PIN 9626.76-8165 which is approximately 8.9 acres in size and includes the recently constructed Field & Stream outdoor store, and PIN 9626.86-3724 is approximately 44.8 acres in size and supports the majority of the recently renovated outlet mall. A third parcel supporting the retail anchor Dillard's is owned separately and not owned by Asheville Retail Associates LLC, however, a shared sign easement/agreement is held between the parties.

The applicant would like to amend the signage plan approved on April 22, 2014. The scope of this amendment is limited to a single free-standing, multi-tenant sign located at the main entrance on Brevard Rd. The applicant would like to redesign the sign to maintain the same total square footage limited to 200 square feet, but would like to have the sign accommodate up to 10 tenant panels rather than the six panels previously approved. The proposed change would reduce the height of the sign by two feet from 24 feet high down to 22 feet high, but widen the sign from 12 feet to 22 feet.

Per Sec. 7-13-10 of the Unified Development Ordinance (UDO), a Level III development project or commercial project that is over 5 acres in size, may apply for a "signage plan" as an alternative to following the city's standard sign ordinances. In reviewing a signage plan, Council is asked to consider:

a. The extent to which the proposed signage plan deviates from the sign allowances otherwise applicable in this article.
b. The rationale provided by the applicant for the deviations.
c. The extent to which the signage plan promotes city goals for way-finding, pedestrian-orientation, and business identification.
d. The degree to which the signage plan creatively and effectively addresses the issues and constraints unique to the site with regard to signage.

This proposal is reviewed by City Council only and does not require any other reviews. If approved by Council, the applicant will submit a sign permit application to verify compliance with Council's decision.

The original signage plan was approved in April 2014 and was subsequently amended in April 2015. The approval and amendment allowed for:

- Freestanding Development Identification Signage (total of 5 signs, including the sign in question)
- Attached Identification Signage
- Banners on building facades and parking lot light poles
- Vehicular Directional Signs (total of 6 signs)
- Parking Area Location Signs

- Service Door Identity Signs

Retail/restaurant/entertainment are identified as one of the "Key Economic Development Trends" and flexibility with development standards to meet a large retail center's identification needs serves as an effective development incentive.

The Asheville Outlets Sign Plan Amendment is not directly reflected in the 2036 Council vision but is most closely aligned with the goals for a "Well Planned and Livable Community" and a "Thriving Local Economy" by encouraging creativity in business identification and wayfinding.

Considerations:

- Provides clear and recognizable signage for a major regional shopping center.
- The current and proposed signs both comply with the city's standards for a multi-tenant development sign.
- Is consistent with a coordinated and unifying theme for the development.
- Reduces the height, but increases the width, of the sign.
- Reduces the area dedicated to some or all of the tenants, making the text less legible to vehicular traffic.

Based on policies stated in the Comprehensive Plan and other plans staff does find this request to be reasonable and within the best public interest and recommends support of the proposed signage plan amendment as proposed.

Mr. W. Louis Bissette, Jr., attorney representing the applicant, was available for questions.

In response to Councilwoman Mayfield, Ms. Tuch explained how the sign is measured.

Mayor Manheimer opened the public hearing at 6:25 p.m., and when no one spoke, she closed the public hearing at 6:25 p.m.

When Councilman Smith suggested exploring policy options to further housing atop big box retail, Vice-Mayor Wisler suggested that this be added to the list of the comprehensive plan of items to be considered.

Mayor Manheimer said that members of Council have previously received a copy of the ordinance and it would not be read.

Vice-Mayor Wisler moved to approve the signage plan amendment to increase the number of tenant panels from six to 10 on the primary multi-tenant development sign, and find that the request is reasonable, is in the public interest, and is consistent with the Comprehensive Plan and other adopted plans in that it provides clear and recognizable signage for a major regional shopping center. This motion was seconded by Councilman Haynes and carried unanimously.

ORDINANCE BOOK NO. 30 - PAGE 310

D. PUBLIC HEARING TO CONSIDER AN AMENDMENT TO THE UNIFIED DEVELOPMENT ORDINANCE REGARDING HOMESTAYS AND ACCESSORY DWELLING UNITS

ORDINANCE NO. 4505 - ORDINANCE AMENDING THE UNIFIED DEVELOPMENT ORDINANCE REGARDING HOMESTAYS AND ACCESSORY DWELLING UNITS

Mayor Manheimer said that since the last time this was addressed, we have three new Council members and there has been a lot of e-mails and research into this issue. She said that City Council cannot dictate what happens with the room tax and they can't do anything with the sales tax. Council has gotten a lot of communications from the public in support or in opposition, along with ideas to shape the issue of whether or not Accessory Dwelling Units (ADUs) should be allowed to be used as a homestay. Some suggestions include (1) capping the number of ADUs that would be allowed for a homestay in the City; (2) whether to allow newly constructed ADUs to be used as homestays or just grandfather in the existing ones; (3) make all ADUs homestays a conditional use permit (CUP) application process (all come to City Council for consideration); (4) make the CUP non-transferrable (no one could sell their ADU to someone else without going through the CUP process); (5) create a Task Force to make recommendations to Council around these issues; and (6) instead of banning all newly constructed ADU's from this process, to have a cooling off period of perhaps 5 years where you could not use the new ADU as a homestay. She encouraged the public to also comment on some of these suggestions, or others.

Principal Planner Shannon Tuch said that this is the consideration of an ordinance to amend the Unified Development Ordinance to expand the options for a homestay operation by allowing the use of an Accessory Dwelling Unit for guest accommodations when the property owner or resident manager resides on the same property and clarification of the current residency requirements. This public hearing was advertised on May 6 and 13, 2016.

Over the last two years, the City of Asheville has been engaged in a long and public conversation over the proliferation of short term rentals in the city's jurisdiction, and how best to regulate these rentals. Following a great deal of public input, the City Council has decided to retain its longtime prohibition on unoccupied, whole house (or dwelling unit) rentals in residential districts. However, on November 17, 2015, Council approved an ordinance amending standards for Homestays. This amendment removed several barriers and made it easier to establish a Homestay as a form of short-term rental that requires a full-time resident (resident-manager) of the property, who lives in the home on a permanent, full-time basis, and who is present when lodgers are present. This is reinforced in the *Unified Development Ordinance* (UDO) definition for Homestay which is as follows:

> *Homestay* means a private, resident occupied dwelling, with up to two guest rooms where overnight lodging accommodations are provided to transients for compensation and where the use is subordinate and incidental to the main residential use of the building. A homestay is considered a "Lodging" use under this UDO.

While the amendment successfully expanded the opportunity to obtain a Homestay permit, it did not allow the use of an ADU on the property to be used as part of the Homestay operation since these units were, by definition and by design, separate units and could not be occupied by both the resident(s) and guests. On December 8, 2015, the Asheville City Council requested that staff reexamine the use of ADUs as part of a Homestay and share its findings with the Planning & Economic Development Committee (PED).

A report was shared with the PED Committee on January 26, 2016, and Committee members reviewed draft text that could be considered to allow ADUs to be used as part of a Homestay. In addition to this review, committee members requested that staff provide more research and information and specifically asked for:

1) Data on the impacts this change could have on (affordable) housing and neighborhoods,
2) Feedback from neighborhood groups regarding their concerns, and
3) Benchmarking practices from other cities.

Additionally, related to Homestay regulation but not included in the original request from Council, staff has identified the need to clarify the resident-manager requirement in the Homestay standards and has included this clarified language in the same draft ordinance. This amendment

does not change the existing resident-manager requirement. It is intended to more clearly explain what is required to meet this requirement, by clarifying what is considered i) a full time resident; and ii) being present when lodgers are present.

Data & Metrics - In reviewing the request from the PED, staff looked into the ability to collect specific metrics related to housing and ADUs. Unfortunately, much of this data proved unavailable including the total number of historic ADUs in Asheville. It is known, however, that ADUs have been a development option in Asheville's single family neighborhoods since 1997 when the UDO was adopted and that there are numerous ADUs that pre-date any restrictions. While it is difficult to identify the total number of ADUs in Asheville, 37 permits were issued in the last two years.

Asheville also has access to various statistics and metrics from the recently completed *Asheville, North Carolina Region, Housing Needs Assessment* report which was updated in 2015. Basic metrics on affordable housing and related issues were gleaned from this document and are listed below:

- Between 2015-2020 the Asheville population is projected to grow 7.1% with household growth projected at 7.6% (p. Asheville-49)
- Asheville's rental housing is operating at an overall 0.9% vacancy rate with no vacancy among the tax credit and subsidized housing *(p. Asheville-49)*
- 43% of Asheville households will have incomes below $35,000 *(p. Asheville-5)*
- A household that is considered cost burdened spends over 30% of its income on housing (30% equals $875/month for a household earning $35,000/year) *(p. Regional-7)*
- Multi-family rents range from $832-3,300/month for the region *(p. Asheville-8)*
- The rental rates for vacation rentals are at least four times higher than conventional units *(p. Asheville-28)*
- A subleased room in a home rents for $300-710/month *(p. Asheville-29)*
- Over half of the Asheville population rents and does not own property *(p. Asheville-9)*

In addition, the following statistic was recently pulled from a news story on housing in the City of Asheville:

- The median rent for a two-bedroom unit in Asheville is $1,180/month, the highest in the state amongst the 10 large NC cities studied *(Asheville Citizen Times, April 12, 2016, Mike Cronin)*

Feedback from Committees and Neighborhood Groups - In addressing these items, staff met with a number of different stakeholder groups, city appointed committees and other community groups. The following is a summary of those meetings.

Affordable Housing Advisory Committee – Staff summarized the Council's request at the Committee's February 5, 2016, meeting. Committee members explained that the group had previously voted to not endorse the expansion of the Homestay ordinance to allow the use of ADUs citing that the support to allow accessory dwelling units by-right came from recognizing the need for housing, especially smaller more affordable units. The proposal to allow ADUs to be used for Homestays was felt to be contrary to that previous policy support and would have the effect of diminishing the availability of housing. Additionally, several members noted that loans will not be issued for the purpose of constructing an ADU and that individuals who are able to construct one are doing so through other resources such as savings, refinancing a mortgage or obtaining a home equity loan. In all instances, it was noted that these are households with resources not available to many community members.

Neighborhood Advisory Committee – This committee received a summary report on February 22, 2016, from staff and expressed support for the idea of soliciting feedback from residents and offered to help spread the request through their contacts. At least one member of the group questioned how the information would be used by Council in their decision.

Housing & Community Development Committee – Staff provided an update at two separate meetings of the HCD Committee. In the first meeting held on February 16, 2016, a summary of the Council's direction was presented along with ideas for input gathering. The HCD supported the outreach but recommended that staff consider developing a survey tool to make it easier for individuals to respond. This recommendation was followed and resulted in the *Open City Hall* survey discussed later in this report (see **Survey #1** below). During the second meeting held on April 12, 2016, the committee members heard an update from staff regarding the community input and other survey results. A motion to not support the expansion of the Homestay ordinance to allow the use of ADUs was made and passed unanimously (3:0).

Other stakeholder groups - In addition to the city appointed committees, staff also met with the Coalition of Asheville Neighborhoods, Grace Neighborhood Association and the Asheville Board of Realtors. In all instances, staff provided a brief summary of the Council's request and answered questions about the process and current ordinance.

Prior to the creation of the *Open City Hall* survey, individual members of the community emailed their thoughts on the subject. These individual responses are included as an attachment to this report and overlap, to some degree, with the responses received through the on-line survey. It should also be noted that one neighborhood association, Grove Park – Sunset Mountain, voted as an association to not support the opportunity to allow the use of ADUs as part of a Homestay operation.

Surveys - Recognizing the interest and value in data and community input, staff performed three separate surveys in an effort to understand: 1) community sentiment; 2) how other communities regulate ADUs as a short-term rental option; and, 3) how ADUs are currently being used in Asheville. A brief summary of these surveys follows with more detail included as attachments to this report.

Survey #1 – Using the city's new communication and public engagement tool, *Open City Hall*, the city invited stakeholders to respond to a short four-question survey that gauged community support for the use of ADUs for guest accommodations. The survey remained open for 17 days and it received 489 responses. Those who responded strongly supported the use of ADUs as a Homestay (76.3% v. 27.3%), but also disproportionately represented property owners as opposed to renters (89.6% v. 8.8%). The survey also asked respondents to identify potential impacts that may be experienced with the five most common responses being:

- Parking problems
- No impacts
- Noise
- Loss of housing
- Increased traffic/turnover

Survey #2 – This survey sought to benchmark how other cities regulated both ADUs and Homestays/short-term rentals. This survey includes responses from a number of North Carolina cities as well as other cities across the country that were of a similar size to Asheville and/or had been identified as having a relatively strong tourist economy. Of the 16 communities surveyed, only three did not allow ADUs. Of the 13 cities that did allow ADUs, six cities allowed them to be used for short-term renting and all included some special standards such as: minimum stay, a limit on the number of people and separation

requirements. The special standards for three of those cities included a requirement that the owner reside on the property.

Survey #3 – Staff contacted 13 Asheville property owners who were recently issued permits for an ADU that asked about their use or intended use of the ADU. Of the 13 individuals surveyed, seven were renting with one of those rentals being a Homestay – the rental rates ranged from $600-$850/month. The remaining six units were reserved primarily for friends and family (four respondents) or were being personally occupied (two respondents). When asked if they would consider a Homestay in the future seven respondents indicated "yes" while six replied "no".

Compliance with Comprehensive Plan:

Part 1 – The portion of the wording amendment to allow the use of ADUs as part of a Homestay operation for guest accommodations complies with City's Comprehensive Plan as it relates to Economic Development Goals and Strategies by reviewing and amending city development regulations and incentives to meet the technological and social changes of the local economic development situation. This same text language may also be contrary to the City's Comprehensive Plan as it relates to protecting, preserving and enhancing existing neighborhoods by potentially introducing business activity and related nuisances to existing residential neighborhoods.

Part 2 - The proposed language to clarify residency requirements is supported by the Comprehensive Plan in that it serves to effectively regulate the Homestay operation by maintaining oversight on the property, thereby controlling or mitigating any nuisance related issues.

2036 Council Vision Considerations:

Part 1 - The wording amendment to allow the use of ADUs as part of a Homestay operation can be seen to align with the 2036 Council vision in the following areas:

- **A Thriving and Local Economy.** This amendment seeks to expand an economic opportunity to Asheville residents that allows them to benefit from, and support, the existing tourism industry.
- **A Connected and Engaged Community.** Consideration of this amendment includes community input that was gathered through various tools and outreach efforts.

This same language may also be contrary to the 2036 Council vision goal of:

- **Quality Affordable Housing.** Introducing a potentially disruptive non-residential activity to a residential neighborhood may negatively impact the quality of life for those residents and, as an unintended consequence, incentivize the conversion of long-term housing into homestay operations.

The Planning & Zoning Commission reviewed the amendment at their May 4, 2016, regular meeting. Twelve members of the public spoke with seven individuals speaking in favor of the amendment to allow the use of an ADU as part of a Homestay operation and five speaking against. There was no public comment regarding the proposed clarification on residency requirements. After some deliberation, a motion to approve the wording amendment (both parts) failed 2:5. A second motion to 1) deny the use of an ADU as part of a homestay operation, and 2) to approve the clarifying language passed 5:2.

This amendment must receive approval from the Asheville City Council before going into effect.

Ms. Tuch noted that homestay permits are issued annually, so if there is a decision to move forward with the amendments and there was concern or unintended consequences, it

would be possible do a 12-month pilot and change the standards back and within a 12-month period regain compliance. Mayor Manheimer mentioned a number of other options to control or limit the activity or impacts of using ADUs as part of a homestay operation. Regarding the overall cap, she suggested some consideration be given as to what determines that number; and consideration be given to a city-wide cap or break it down by district or census track or some other defined area. Another option is a separation requirement. Limiting the number of days within a calendar year is impossible to enforce, so the option of a cooling off period has been suggested. Because the permits are issued on an annual basis we could enter into a period where someone has a homestay permit for a period of time (perhaps 1 year) and at the end of that year then the cooling off period (perhaps 1 or 2 years). Another part of that option might be for all new ADUs to enter immediately into the cooling off period, which would help discourage constructing new ADUs for the sole purpose of short term rentals.

This proposal appears to support some goals but may not support others. Prioritizing community goals is a policy decision and is best deferred to the appropriate decision makers. The supplemental research is informational, but not conclusive.

Mayor Manheimer opened the public hearing at 6:42 p.m.

The following individuals spoke in opposition of the wording amendment to expand the options for a homestay operation by allowing the use of an Accessory Dwelling Unit (ADU) for guest accommodations when the property owner or resident manager resides on the same property, for various reasons, some being, but are not limited to: commercial intrusion into residential neighborhoods, parking problems; noise; trash; loss of housing:

Mike Lewis
Casey Campfield, local business owner and local homeowner
Chuck Freeman
President of the Haw Creek Community Association
Barber Melton, member of the Coalition of Asheville Neighborhoods and member of the Affordable Housing Committee
David Rodgers
Will Hornaday
A resident on Nix Street
Janet Hart, resident on Baird Street
Grace Curry
Andrew Fletcher
Jane Mathews

The following individuals spoke in support of the wording amendment for various reasons, but mainly for the economic opportunity of local residents to benefit from the existing tourism industry and also to enable them to use this income to remain in their homes:

A resident
An operator of a homestay
Rebecca Robertson
Helen Powell-Busch, resident in the 5 Points Neighborhood
John Farquhar
Brandee Boggs
Jackson Tierney, Montford resident
Jonathan Wainscott
Anne Doherty
A resident

Ms. Billie Laughlin suggested Council defer a decision until after the Comprehensive Plan process is completed.

Mayor Manheimer closed the public hearing at 8:24 p.m.

Councilman Smith moved to approve the wording amendment modifying the standards in Sec. 7-16-1(c)(9)(c) and find that the request is reasonable, is in the public interest, and is consistent with the Comprehensive Plan and other adopted plans by clarifying zoning standards that regulate activities in order to promote harmony and compatibility with the surrounding neighborhoods. This motion was seconded by Councilman Bothwell and carried unanimously. This is clarifying the current residency requirements.

ORDINANCE BOOK NO. 30 - PAGE 335

Councilman Smith said that is an emerging and evolving issue. He has been an ADU resident here in Asheville and felt that was an important experience for him. He said we know: that 50% of Asheville's residents are renters; that Asheville is in severe multi-year housing crisis at all price points; that we have skyrocketing housing prices due to lack of supply; Asheville has the highest rents in North Carolina; Asheville was named the 6th most unsustainable housing market in the nation; short term rentals reduce housing supply; people are being pushed out of long term rentals to make room for short term rentals; expansion of homestays has been opposed by the Affordable Housing Advisory Committee, the Housing & Community Development Committee, Planning & Zoning Commission, Coalition of Asheville Neighborhoods, Children First Communities and Schools, Haw Creek Neighborhood Association, Grove Park Sunset Neighborhood Association and the Albemarle Park residents; out of state people are buying home to illegally rent short-term; the use has exploded since it's become more clear that the use is illegal; last year the rationale for expanding the ability to build an ADU on your property was to address the long-term rental housing crisis; cities all over are trying different ways to approach this; when housing developers come before Council, they ask them to mind the housing crisis and to mind the concerns of the neighbors; our current enforcement is inadequate and needs to be improved; cohesive neighborhoods are safer neighborhoods; and residential zoning has meaning and value. In trying to address the affordable housing crisis, Council is taking a multitude of tactics because they know there is no one thing that will solve this problem. Last year City Council made it easier for people to have homestays so they could tap into the local tourist market without jeopardizing affordable housing stock. He said that long-term renters in ADUs are not known and the number of existing ADUs is unknown. He said there is a deep division in Asheville on how to proceed and this Council voiced its displeasure and unwillingness to support the displacement of residents in Lee Walker Heights. He opposes the expansion of ADUs to the homestay operation for two reasons (1) we are in a historically severe housing crisis and anything that can reduce our housing stock is reckless and irresponsible; and (2) there are serious reasonable and historical concerns about commercializing our neighborhoods to open houses up to tourists all over Asheville. One issue that gives him pause is that some people report that they need this income to pay their mortgage, and he doesn't want anyone to be kicked out of their house. He asked Council to take a patient and prudent approach that we not worsen our housing crisis and we not radically alter the meaning of residential zoning and the neighborhoods that that zoning creates. Given a few years, he was confident we will understand these public policy options a lot better and get to a better place.

Councilman Smith then moved to deny the wording amendment modifying the standards in Sec. 7-14-3(b)(3)(a)(3) and find that the request is not reasonable, is not in the public interest, and is not consistent with the Comprehensive Plan in that it: (1) introduces a potentially disruptive use/activity in single family neighborhoods; and (2) will likely result in the reduction of housing in a market where housing is in scarce supply. This motion was seconded by Councilwoman Mayfield.

Councilman Smith said he will also make a motion for the creation of a Task Force to examine policy and processes regarding ADUs by people in dire straights who can't long-term

rent and who may lose their homes, and to refer the duration, make-up and purview of this Task Force to the Governance Committee with final approval to be made by City Council.

Councilman Bothwell said that he stayed in a homestay in Berlin and it was a wonderful experience. His bottom line is that black markets are impossible to regulate. The reason we don't know how many short term rentals there are in the City because outside of the ones that are legal in the commercial areas, they are not legal. We are not going to get control of an international internet operation at a local level. Until we make them legal, licensed, regulated and inspected, we will not get a handle on this issue. There is agreement on Council that they do not want to legalize whole home short term rentals. He suggested having legal homestays add their license to the ads in order for our enforcement staff to immediately identify if the property is legal or not. If we expand ADUs as a homestay operation we can immediately say that they must show their license number in the ad. He explained how the data on the internet is completely unreliable. When Council tries to get developers to add affordable units in large projects, Council incentivizes them with cash (tax breaks). We are not offering tax breaks to homeowners to keep their homes affordable. He believed the best way forward is to find a way to legalize ADUs as short-term rentals, find a way to grandfather the existing ones, and find a way to restrict new construction of ADUs so they cannot immediately short-term rent them. He felt that a lot of people got into the business completely innocent and did not know they were breaking the law. Some people invest significant amounts of money into ADUs. We felt we need to move forward with one of the options described. He suggested this be remanded back to City staff to look for answers in the shorter term. He said that the reports show that short-term rentals are not a big factor in affordable housing. He also noted that short term rental people keep up their properties better than our long-term landlords. He will vote against the motion because he is in favor of a path for legalization.

Councilman Young acknowledged this is a very complex and delicate issue. Affordable housing and the preservation of the fabric of our neighborhoods has been two common threads from e-mails and phone calls. There are a lot of assumptions being made on both sides. One is that if we pass this ordinance, we will erode affordable housing. The other assumption is that the actual homeowners that are doing this will make a concerted effort to rent long-term. And then another assumption is that if they rent long-term that the unit will be affordable. It is hard for him to limit the rights and enjoyment and use of one group of homeowners for the use and enjoyment of another group of homeowners. He has no sympathy for people who have purchased or built homes above their means with the anticipation of utilizing a service that is illegal. People have a personal responsibility to govern themselves accordingly and minimize their own risks. However, he will respect their rights to utilize their property in the way they see fit, with the understanding the City Council reserves the right to regulate that process and minimize the scope of intrusion on neighborhoods or neighbors. Lastly, he did not see anyone in the audience nor has he received any input from the African American neighborhoods. He said those people are struggling on a whole different level. Some can't even be approved for a home loan, let alone being allowed to rent a portion of their home for extra income. He will continue to remain objective but will also see this argument from his point of view - a battle of wills between middle and upper middle-class neighbors. And, if you own a home in Asheville you are de facto middle class. He will continue to lend his voice to solve this issue in a timely manner. He will vote against the motion with the hopes that we can come up with something different.

Councilwoman Mayfield agreed that this is a complex issue. She will support the motion because process is extremely important to her. We take issues like this through the City's processes, e.g., vetting it through all the different boards and commissions who voted not to change the rules. Those recommendations carry a lot of weight with her and even though she will not always agree with them, she will need to have a good reason to disagree with them. Another reason why she will not vote to change the rules is a policy reason. The previous Council made two ADU changes last year in order to expand the availability of housing in our community - not affordable, but housing generally. She agrees with that policy objective. This is only the first step in a whole series of policy changes that will get to the goal of increasing the

availability of housing stock by making it easier to build smaller homes, easier to build multi-unit structures on existing parcels of land, etc. We have to be cognizant of that policy objective behind each one of those and make sure we are not frustrating it by allowing all of that new expansion long-term housing to go into the short-term rental market. She is sensitive to the pleas from people about the fact that their ADU is the reason they can stay in their house. She is not interested in displacing anyone. She felt that a Task Force is a good idea, but it needs to be time limited to 3-4 months.

Councilman Haynes supported allowing ADUs to become part of the homestay operations and they should be highly regulated. He supported looking having staff investigate all the options. He could possibly support a Task Force if it had a short timeline. His main concern is that he knows that people need these rentals in order to survive in our town.

Vice-Mayor Wisler said that just taking the lid off of all ADUs doesn't address some of the uniqueness of ADUs. She feels there is a lot of room for compromise and opportunities to maybe allow some ADUs to be homestays, but she is convinced that there needs to be limitations and we don't currently have the right solution. She did not feel we are ready yet to allow all ADUs without some other regulations around it.

Mayor Manheimer said that she continues to have concerns about the integrity of neighborhoods. But she also worries about people who are being priced out of the home they may have purchased and are struggling to be able to stay in our community. She is more comfortable with the ADU concept because there is a long-term tenant or owner there to address issues that might come up with visitors. She liked exploring the idea of a cap, but we don't have any idea of the number of ADU's in our community. She felt a go-slow approach is a lot easier to manage than trying to open it up and then having to rein it back in. She also would be interested in exploring the idea of a CUP process which would allow Council to vet all applications and give the neighbors an opportunity to be heard. Our affordable housing crisis in Asheville is extreme and is also happening in other communities also struggling with this issue. She felt we need to find a balance that addresses the needs for those that are living in our community that are struggling to make sure they can continue to pay their mortgage with those residents that are here and enjoying their neighbor. She said that it is clear that one purpose of residential zoning is so your neighbor can't run a business out of their home. Yet running a homestay out your home is in essence operating a business out of your home - it's just a home-type business. But, the reason that we have those regulations in place is to preserve the integrity of our neighborhoods and to be able to give people some stability in their investment.

When Councilman Young asked if Councilman Smith would be willing to withdraw or table his motion in order to move in a different direction, Councilman Smith said that he would not because he he wanted to have as much clarity as possible with the knowledge that he will offer another motion to create a Task Force around the concerns raised. Councilwoman Mayfield agreed with Councilman Smith about the need for clarity.

The motion made by Councilman Smith and seconded by Councilwoman Mayfield carried on a 4-3 vote, with Councilman Bothwell, Councilman Haynes and Councilman Young voting "no.

Councilman Smith said if Council can find a way to allow those in dire straights, for whom long-term rental is impossible, in order to stay in their house, he moved to create a Task Force to examine policy and processes regarding the use of ADUs by people in dire straights who may lose their homes, and to refer the duration, make-up and purview of this Task Force to the Governance Committee with final approval to be made by City Council.

Councilman Bothwell said that every developer before Council advises them that without a tax break, their deal would fall through. He wondered how people would prove they are in dire straights. He noted the City does not perform need assessments.

Councilman Smith withdrew his motion.

Councilwoman Mayfield then moved to create a Task Force to look at policies and procedures around the issue of ADUs as homestays taking into consideration specifically the concerns expressed at this meeting specifically including (1) concerns around new ADUs being used as short-term rentals and therefore frustrating the policy objective of the rules City Council adopted last year; (2) concerns about people needing the income from ADUs and short-term rentals to remain in their home and in the City; and (3) exploring other strategies, including a cap or cooling off period, that will achieve the policy concern of City Council, and to refer the duration, make-up and purview of this Task Force to the Governance Committee with final approval to be made by City Council.

Councilman Bothwell felt it would make sense to create a Task Force to look ADUs as a use for the homestay operation. And, then the Task Force can look at options.

Councilwoman Mayfield said clearly City Council is not lifting the lid on all ADUs existing today and in the future to be used as short-term rentals. This next step is trying to address the concerns that have been expressed around people needing to stay in their homes and not wanting to frustrate the policy objective of the rules City Council adopted last year.

Councilman Smith seconded Councilwoman Mayfield's motion.

Councilman Bothwell asked for a friendly amendment to suspend enforcement efforts of existing ADUs until the Task Force report is received and acted upon by City Council. Because this is a separate issue which will need to be addressed by City Attorney Currin, Councilman Bothwell withdrew his friendly amendment request.

The motion made by Councilwoman Mayfield and seconded by Councilman Smith carried unanimously.

Councilman Bothwell then moved to suspend enforcement efforts of existing ADUs until the Task Force report is received and acted upon by City Council. This motion was seconded by Councilman Haynes.

City Attorney Currin explained that since the City already has enforcements underway with fines accrued, she didn't think the Council can take a blanket approach of forgiveness. And, more important, the Courts are clear that the City has an obligation to enforce their ordinances and there are cases when they don't, a citizen can bring an action and force the City to enforce their ordinances. Thirdly, ADUs are not a legal use to rent as a homestay, so basically the motion says that the City will let people violate the ordinance until it is amended and that can be problematic because it's not a legal use. The City will be enforcing the ordinance not to allow whole houses to be used as short-term rentals but allowing others to violate the law.

Councilman Bothwell now understood the reasoning behind not suspending enforcement efforts and withdrew his motion. But, he felt that if the Task Force takes six months, people may have to move out of town because they can't afford their house anymore, or they may have made financial plans around something they didn't even know was illegal. He was not comfortable with leaving people hanging.

At the request of Councilman Haynes, Mayor Manheimer said that she will convene a special Governance Committee meeting at which time they will offer suggestions for the make-up of the Task Force and bring it back to Council for their consideration at the June 14 meeting.

V. UNFINISHED BUSINESS:

VI. NEW BUSINESS:

A. RESOLUTION NO. 16-115 - RESOLUTION APPOINTING MEMBERS TO THE HAYWOOD STREET ADVISORY TEAM

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing three at-large members to the Haywood Street Advisory Team.

The following individuals applied for this vacancy: Grant Millin, Byron Greiner, Rob Carroll, Leslie LeBlanc, Gary Anderson, Susan Jones, Richard Fort, John Tyler Barnes, David Nutter, Bruce Hazzard, Kevin Teater, Susan Andrew, Janet Whitworth, Geronimo Owen and Beth Stickle.

On April 12, 2016, City Council instructed the City Clerk to arrange interviews for Richard Fort, Geronimo Owen, David Nutter, Gary Anderson, Susan Andrew and Leslie LeBlanc. Mr. Fort and Ms. LeBlanc were unable to attend the interview.

After Council spoke highly of the candidates, Geronimo Owen received 5 votes; David Nutter received 5 votes; Gary Anderson received 3 votes; Susan Andrew received 5 votes; Leslie LeBlanc received 2 votes; and Richard Fort received 1 vote. Therefore, David Nutter, Geronimo Owen and Susan Andrew were appointed as members to the Haywood Street Advisory Team.

RESOLUTION BOOK NO. 38 – PAGE 45

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

VIII. ADJOURNMENT:

Mayor Manheimer adjourned the meeting at 9:25 p.m.

Magdalen Bowleson
CITY CLERK

Esther E. Manheimer
MAYOR

Tuesday – June 14, 2016 - 5:00 p.m.

Regular Meeting

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Cecil Bothwell; Councilman Brian D. Haynes; Councilwoman Julie V. Mayfield; Councilman Gordon D. Smith; Councilman W. Keith Young; City Manager Gary W. Jackson; City Attorney Robin T. Currin; and City Clerk Magdalen Burleson

Absent: None

PLEDGE OF ALLEGIANCE

Mayor Manheimer led City Council in the Pledge of Allegiance.

Mayor Manheimer asked for a moment of silence for the victims and families of the tragedy in Orlando, Florida.

I. PROCLAMATIONS:

A. PROCLAMATION PROCLAIMING JUNE 16-25, 2016, AS "POLLINATION CELEBRATION WEEK"

Councilman Bothwell read the proclamation proclaiming June 16-25, 2016, as "Pollination Celebration Week" in the City of Asheville. He presented the proclamation to Ms. Phyllis Stiles, who briefed City Council on some activities taking place during the week.

II. CONSENT AGENDA:

At the request of City staff, Mayor Manheimer asked for an addition to the Agenda to amend the 2016 City Council meeting schedule.

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON MAY 17, 2016

B. RESOLUTION NO. 16-126 - RESOLUTION AUTHORIZING THE MAYOR TO EXECUTE CONTRACTS WITH CHERRY BEKAERT LLP FOR AUDITING SERVICES FOR FISCAL YEAR 2015-16 AND PENSION CENSUS DATA TESTING FOR CALENDAR YEAR 2015

Summary: The consideration of a resolution authorizing the Mayor to execute contracts with Cherry Bekaert LLP for auditing services for fiscal year 2015 – 2016 and pension census data testing for calendar year 2015.

North Carolina General Statute §159-34 requires that local governments have its accounts audited each fiscal year and submit a copy of the audit report and financial statements to the Local Government Commission. In response to the aforementioned general statute, staff recommends retaining the services of Cherry Bekaert LLP to conduct the audit of the city's accounts for the fiscal year ending June 30, 2016. The estimated fee for fiscal year 2015-2016 audit and financial statement preparation is $88,000.

In addition to the regular annual audit required by the general statutes and discussed above, the City is required to have its pension census data tested this year. Government Accounting Standards Board (GASB) Statement 67 "Financial Reporting for Pension Plans" introduced new reporting requirements. These requirements have prompted a new procedure by the NC Office of State Auditor (OSA) to select several employer participants in the Local

Government Employees' Retirement System (LGERS) each year and require those units to engage their independent auditors to provide assurance to the OSA on the accuracy of the pension census data supplied to LGERS for their actuarial studies. The City of Asheville was chosen by the OSA for calendar year 2015 testing. The fee for this service, also provided by Cherry Bekaert LLP, is $5,000 and will be contracted separate and apart from the City's annual audit.

The Audit Policy portion of City Council's Financial Policies which states that the City "shall enter into multiyear agreements of not more than five years in duration through a series of single-year contracts as consistent with applicable legal requirements." This will be the fourth consecutive year of contracting Cherry Bekaert LLP to perform the City's audit. No competitive bid process was conducted this year.

Pro:

- Contracting with Cherry Bekaert LLP aligns with City Council's financial policy and will help ensure the timely and successful completion of the annual audit.

Con:

- None noted.

Fees of $88,000 for the annual audit and $5,000 for the pension data testing have been proposed and are included in the Finance Department's portion of the annual operating budget.

Staff recommends adoption of the resolution authorizing the Mayor to execute contracts with Cherry Bekaert LLP in the amount of $88,000 for auditing services for fiscal year 2015-2016 and $5,000 for pension data testing services for calendar year 2015.

RESOLUTION BOOK NO. 38 - PAGE 62

C. RESOLUTION NO. 16-127 - RESOLUTION SUPPORTING STRATEGIC EVENT PARTNERSHIP AGREEMENTS AND CONTINUATION OF FEE DISCOUNTS FOR EVENTS PRODUCED BY 501c NON-PROFIT ORGANIZATIONS

Summary: The consideration of a resolution supporting strategic event partnership agreements, and continuation of fee discounts for events produced by 501c non-profit organizations.

In October 2013, outdoor special event administration became a function of the Community & Economic Development department with a focus on cultivating outside partnerships to capitalize on the benefits of special events, leveraging event programs to maximize economic and community development returns. At the City Council meeting on May 27, 2014 a resolution was passed establishing three-year event partnership agreements with the Asheville Downtown Association, YMI Cultural Center, and Community Betterment Foundation/Folk Heritage Committee supporting events including but not limited to the Asheville Holiday Parade, Downtown After 5, Goombay, and Shindig on the Green at a combined maximum in-kind support value of $125,000 per year. A 75% reduction in property use and event permit fees continued for all other outdoor special events open to the public and produced on public property by registered 501c non-profit organizations.

City staff has worked through each partnership to establish goals, track performance over time, and manage in-kind service delivery costs. Efforts to serve a diverse community have been accomplished through performance measures tracked by city staff.

Calendar year 2016 is the final year of the City's current strategic event partnership agreements. A request for proposals seeking partners for years 2017-2019 was released and proposals were received as outlined in Table A. To partner with all organizations for the scope of

work and value proposed, an in-kind and cash total of $188,364 would be required for year 1, $166,864 for year 2, and $166,864 for year 3. *The higher amount in year 1 is based on a request from LEAF to secure partnership funding beginning with the 16-17 fiscal year in the amount of $21,500 to allow support for the 2016 LEAF Downtown festival. A list of the proposers and support requested by each is provided in Table A, below.

TABLE A

Organizations	Cash Reimbursement	In-Kind & Fee Waivers	Total Per Year
5 Point Film Festival	$15,000	$15,000	$30,000
Appalachian Sustainable Agriculture Project	$0	$16,747	$16,747
Asheville Area Arts Council	$0	$9,336	$9,336
Asheville Downtown Association	$0	$61,225	$61,225
Asheville Grown Business Alliance	Undefined	Undefined	$0
Community Betterment Foundation/Folk Heritage Committee	$0	$15,008	$15,008
*LEAF	$0	*$48,650/$27,150	$27,150
Mountain Sports Festival	$0	$5,478	$5,478
RiverLink	$0	$1,920	$1,920
Total Year 1 (2017) Support Value (*incl. LEAF Downtown in 2016)			**$188,364**
Total Annual Support Value (2018 & 2019: Years 2 & 3)			**$166,864**

Staff led a proposal evaluation process employing the assistance of two groups: staff members from the Special Event Review Team, and a five-member stakeholder team comprised of City board and commission representatives. An additional level of review by Finance delivered observations on the financial health derived from budget information provided with each proposal.

Staff presented its findings and recommendations to the Planning & Economic Development Committee (PED) on April 19, 2016. Staff recommendations included establishing partnership agreements with LEAF, the Asheville Downtown Association, the Community Betterment Foundation/Folk Heritage Committee, the Asheville Area Arts Council, Appalachian Sustainable Agriculture Project, and RiverLink at a total combined maximum in-kind commitment of $118,000 per year. Staff also recommended the continuation of fee reductions to registered 501c non-profit organizations at a rate of 50% off standard property use and permit fees when the events are open to the public and produced on public property.

PED reviewed the staff recommendations, and felt that the proposals submitted align with the 2036 council vision in the areas of support for a diverse community, a well-planned and livable community, a thriving local economy, and a connected and engaged community. As a smart city, the City of Asheville invests in partnerships that enrich the quality of life for its citizens.

A motion to recommend to City Council to fund all proposals at 100% of requested amounts was unanimously approved, including LEAF in 2016, but excluded a $15,000 per year cash request from 5 Point Film Festival. This motion also supported the continuation of fee reductions to 501c non-profit organizations at the current rate of 75% off standard property use and permits fees.
Pros:

- Allows the City to leverage resources for programming and events that serve a wider and more diverse audience
- Creates performance-driven public-private partnerships that employ events as a tool to stimulate the local economy while providing quality cultural experiences and opportunities for community engagement
- 3-year terms allow time for outcomes to be evaluated and provides multi-year consistency to effectively scale special event initiatives
- Supports non-profit organizations

Cons:

- Overtime for Police, Fire and Public Works staff
- Lost revenue for permits, parking fees and property use fees

In-kind support and fee discounts result in lost revenue, and labor support results in increased personnel expenses. Associated expense and revenue impacts are accounted for under existing department budgets for outdoor special event support.

The Planning & Economic Development Committee recommends City Council adopt a resolution authorizing the City Manager to approve a resolution permitting the Community & Economic Development department to execute strategic event partnership agreements with the Asheville Downtown Association, Appalachian Sustainable Agriculture Project, LEAF, Community Betterment Foundation/Folk Heritage Committee, RiverLink, Asheville Area Arts Council, Mountain Sports Festival and 5 Point Film Festival at an in-kind maximum value of $173,364 for year 1, $151,864 for year 2, and $151,864 for year 3, and the continuation of discounts to registered 501c non-profit organizations at a rate of 75% off standard property use and permit fees for outdoor special events that are open to the public and produced on public property.

RESOLUTION BOOK NO. 38 - PAGE 63

D. RESOLUTION NO. 16-128 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT WITH PINNACLE LANDSCAPING LLC TO PROVIDE GROUND MAINTENANCE SERVICES AT PACK SQUARE PARK. GRACE'S GARDEN AND PRITCHARD PARK

Summary: The consideration of a resolution authorizing the City Manager to enter into a contract with Pinnacle Landscaping, LLC to provide grounds maintenance services at Pack Square Park, Grace's Garden and Pritchard Park in the amount of $139,915 plus a contingency of $15,000 for a total of $154,915.

The grounds maintenance contract for Pack Square Park, Grace's Garden and Pritchard Park consist of the provision of all labor, supervision, equipment, materials, and supplies necessary to perform various grounds maintenance services.

The City of Asheville (City) prohibits the use of all herbicides including glyphosate on City property. Pinnacle Landscaping, LLC will use environmentally friendly weed control methods as approved by the City and specifically stated in the grounds maintenance contract. Edible plant materials will be considered in the landscape materials in compliance with the City's Food Action Plan and in coordination with the Office of Sustainability.

In support of this operations project, the City issued an Advertisement for Bids for annual grounds maintenance and received three bids.

1. Pinnacle Landscape, LLC, Asheville, North Carolina ($139,915)
2. Locust Property Management, Inc., Charlotte, North Carolina ($150,000)
3. Rivertop Contracting, Inc., Swannanoa, North Carolina ($198,190)

After thorough review and evaluation, staff selected Pinnacle Landscape, LLC, 61 Dillingham Road, Asheville, North Carolina as the lowest, responsible bidder. The base bid is $139,915 plus a contingency of $15,000 for unit costs associated with repairs to landscaping, irrigation, and seasonal maintenance items such as snow removal for a total of $154,915. Pinnacle Landscape, LLC held the ground maintenance contract for Pack Square Park for the Fiscal Year (FY) 2014-2016. Grace's Garden and Pritchard Park are an addition to the scope of work for the FY 2017 contract.

The grounds maintenance contract will extend until June 30, 2017, with the option for two (2), twelve (12) month renewals based on contractor performance.

Pro:

- Supports the efficient delivery of core park maintenance services.

Con:

- None

The $139.915 plus contingency of $15,000 for a total of $154,915 to support the Pinnacle Landscape, LLC contract to provide grounds maintenance services at Pack Square Park, Grace's Garden and Pritchard Park is budgeted in the general fund operating budget for the Parks and Recreation Department.

Staff recommends that City Council adopt a resolution authorizing the City Manager to enter into a contract with Pinnacle Landscape, LLC to provide grounds maintenance services at Pack Square Park, Grace's Garden and Pritchard Park in the amount of $139,915 plus a contingency of $15,000 for a total of $154,915.

RESOLUTION BOOK NO. 38 - PAGE 64

E. ORDINANCE NO. 4506 - BUDGET AMENDMENT FOR THE PROCUREMENT AND INSTALLATION OF LED EXTERIOR LIGHTING AT TWO TRANSIT FACILITIES

Summary: The consideration of a budget amendment in the amount of $6,000 from General Fund Sustainability funds to increase the original project budget for the procurement and installation of LED exterior lighting at two Transit facilities.

In February 2015, City Council approved a project budget of $10,000 for exterior lighting upgrades at both the Asheville Redefines Transit station on Coxe Avenue as well as the Transit Maintenance Facility on West Haywood Street. Funding from the Federal Transportation Administration provided $8,000 toward the project and the City's Sustainability program covered the remaining $2,000.

This project was then delayed due to staff workload. Bids were finally solicited in April of 2016, and the winning bid came in at $14,507.06. In order to have enough funding to award the bid and provide for a contingency, staff is requesting a budget amendment in the amount of $6,000 from General Fund Sustainability funds.

Pros:

- Energy saving opportunity will cut energy consumption of exterior lighting in half
- Better, brighter light will create a safer environment for both ART riders and ART staff

Cons:

- None foreseen

The lighting project will be paid with a combination of $8,000 FTA grant money and $8,000 from the City's Sustainability program.

City staff recommends City Council adopt a budget in the amount of $6,000 from General Fund Sustainability funds to increase the original project budget for the procurement and installation of LED exterior lighting at two Transit facilities.

ORDINANCE BOOK NO. 30 - PAGE 337

F. RESOLUTION NO. 16-129 - RESOLUTION AUTHORIZING THE CITY MANAGER TO SIGN AN ADOPT-A-PARK AGREEMENT WITH JUST FOLKS TO INCLUDE A WAIVER OF PERMIT FEES FOR TRIANGLE PARK FOR FISCAL YEAR 2016-17

Summary: The consideration of a resolution authorizing the City Manager to sign an Adopt-a-Park Agreement with Just Folks to include a waiver of permit fees for Triangle Park for Fiscal Year (FY) 2016-2017.

Just Folks is a local non-profit organization whose primary purpose is to support community-building activities in the Eagle/Market Street area known as "The Block". Beginning in 2012, City Council has annually approved a resolution authorizing the City Manager to sign an Adopt-a-Park Agreement with Just Folks that includes a $2,500 waiver of park use fees at the reduced rate provided for local non-profits.

The waiver makes it possible for Just Folks to produce events that activate Triangle Park by providing a variety of positive activities including music festivals, community cookouts and other community-building events in the park. These events contribute to more positive use of the area and result in the park being used by a more diverse group of city residents and visitors.

Beginning with the FY 2016-2017 agreement, Just Folks is expanding its events to require the use of tents and food preparation. The addition requires fees to include park use, tent use and fire permits. The additional permits increases fees from the historic amount of $2,500 in previous fiscal years to $3,058 in Fiscal Year 2016-2017.

Just Folks is requesting renewal of its Adopt-a-Park Agreement with the City for FY 2016-2017, and the $3,058 fees for park use, tent use and fire permits be waived as part of the agreement.

Pros:

- Strategic partnerships allow the City to leverage programming and events to reach a wider and more diverse audience.
- Provides additional quality cultural programming and diversity in a park that is generally not used for this type of event.
- Reduces staff time in processing fee and permitting waiver requests related to this group's events.
- Consistent with other partnerships for park programming in key community development areas.
- Creates a sense of place in an historic area of the city.

Con:

- The reduction in park use and permit fees result in lost revenue for the City; however, the City has not budgeted for this revenue.

The value of the waived park use, tent use, and fire permit fees is $3,058; however, this revenue is not included in the FY 2016-2017 budget.

Staff recommends that City Council authorize the City Manager to sign the Adopt-a-Park Agreement with Just Folks including a fee waiver for park use, tent use, and fire permit fees up to $3,058 associated with programming in Triangle Park.

RESOLUTION BOOK NO. 38 - PAGE 65

G. RESOLUTION NO. 16-130 - RESOLUTION APPOINTING A MEMBER TO THE MILLS RIVER PARTNERSHIP BOARD OF DIRECTORS

Summary: The City of Asheville has an unfilled seat on the Board of Directors for the Mills River Partnership. Mr. Marc Hunt be and he is hereby appointed as a member to the Mills River Partnership Board of Directors to serve a three-year terms, term to expire June 14, 2019, or until his successor has been appointed.

RESOLUTION BOOK NO. 38 - PAGE 66

H. MOTION ADOPTING THE FINDINGS OF FACT AND CONCLUSIONS OF LAW FOR THE CONDITIONAL USE PERMIT FOR THE ASHEVILLE OUTLETS LOCATED AT 800 BREVARD ROAD, ASHEVILLE, N.C.

Summary: This public hearing was held on May 17, 2016.

I. RESOLUTION NO. 16-131 - RESOLUTION REAFFIRMING RESOLUTION NO. 15-104 APPROVING THE ISSUANCE OF BONDS BY THE HOUSING AUTHORITY OF THE CITY OF ASHEVILLE FOR SPRUCE HILL APARTMENTS

Summary: The consideration of a resolution re-affirming Resolution No. 15-104 approving the issuance of bonds by the Housing Authority of the City of Asheville for the Spruce Hill Apartments.

As explained in the Staff Report presented to City Council on June 9, 2015, SP Affordable Housing Group III LLC (SP) has requested that the Asheville Housing Authority issue up to $10,000,000 in multi-family revenue bonds for the acquisition and renovation of Spruce Hill Apartments, consisting of 174 affordable apartments, located off Old Haw Creek Road in East Asheville. SP is seeking to keep these units affordable, using a combination of 4% Low Income Housing Tax Credits and bond debt.

Spruce Hill Apartments was constructed in 1975/1976 through the Federal Housing Administration ("FHA") 236 program, which provided the project with below-market rate financing in exchange for 104 rent-restricted units (60% of project units). This mortgage and its interest reduction payment subsidy are scheduled to expire in October 2017. The proposed prepayment of the 236 mortgage serves two purposes. First, it allows for a recapitalization of the Property with LIHTC equity and attractive long-term debt that will allow for a beneficial capital injection. Second, it triggers the issuance of HUD tenant protection vouchers to all qualifying residents. These vouchers act as a safety net for residents who might otherwise be rent burdened as existing subsidies expire.

The remaining 70 units (40% of project units) are supported by a project-based Section 8 Housing Assistance Payment ("HAP") contract. This contract will be extended for a 20-year term as part of the proposed recapitalization plan.

All units at Spruce Hill will be affordable to households earning no more than 60% of Area Median Income for 30 years. 18 units will be affordable to households at 50% of Area Median Income.

The resident-in-place renovation will address a variety of project needs ranging from deferred maintenance items to project upgrades that will let Spruce Hill compete favorable with market rate product. The proposed scope of work includes new siding and insulation; new design elements including entryway canopies; full kitchen and bathroom renovations including energy efficient appliances and fixtures throughout; new durable flooring; new kitchen countertops; fire alarm and electrical upgrades; new HVAC systems and energy-efficient hot water tanks; ADA-accessible play structures; and improved landscaping and signage.

At present, there are no ADA compliant units at Spruce Hill. As part of the renovation, nine (9) units will receive ADA upgrades, as will all common areas, including the basketball court and new play structures, will be made accessible. These capital improvements will extend the Property's useful life, while hopefully improving quality of life for Spruce Hill's residents.

SP Affordable Housing Group III LLC is the affordable housing arm of Seattle-based Security Properties, one of the largest owners, operators, and developers of multi-family housing in the United States. Security Properties was founded more than 45 years ago as a syndicator of low income housing properties prior to the introduction of the Section 42 LIHTC program in 1986. Today, Security Properties owns approximately 16,000 units nationwide, of which 8,600 are affordable. Since its formation in 1969, Security Properties and its partners have invested over $1.0 billion of equity in multifamily real estate, representing a portfolio value of nearly $4.0 billion.

The IRS requires that any bonds issued by Housing Authority for developments such as this have the approval of the plan of financing by City Council, following a public hearing with respect to such plan. On May 27, 2015 the Housing Authority held a public hearing, and there were no comments.

On June 9, 2015, the City Council adopted Resolution No. 15-104 approving in the principle the issuance of up to $10 Million Multi-Family Housing Revenue Bonds to provide financing for the acquisition and renovation of Spruce Hill Apartments. In May of this year, the City was informed by the Housing Authority's Counsel, that the financing process had taken longer than anticipated and that the approved bonds had not yet been issued. Counsel also informed the City that the IRS Code requires that bonds of the Housing Authority approved by the City must be issued within one year of the date of such approval. Therefore, a resolution re-affirming the City Council's prior approval of the bond issuance is required.

Pro:

- 174 units of affordable housing will be preserved and renovated.

Con:

- None.

This financing plan does not require City investment, and maintains and improves residential tax base.

Staff recommends that City Council approve the resolution re-affirming the approval of the issuance by the Housing Authority of the City of Asheville up to $10,000,000 of multi-family bonds for the Spruce Hill Apartments acquisition and renovation.

RESOLUTION BOOK NO. 38 - PAGE 67

J. RESOLUTION NO. 16-132 - RESOLUTION AUTHORIZING THE POSSESSION AND/OR CONSUMPTION OF ALCOHOLIC BEVERAGES AND/OR UNFORTIFIED WINE AT THE KRUGER BROTHERS CONCERT PRE-RECEPTION

RESOLUTION NO. 16-133 - RESOLUTION AUTHORIZING THE POSSESSION AND/OR CONSUMPTION OF ALCOHOLIC BEVERAGES AND/OR UNFORTIFIED WINE AT BEAT THE HEAT

RESOLUTION NO. 16-134 - RESOLUTION AUTHORIZING THE POSSESSION AND/OR CONSUMPTION OF ALCOHOLIC BEVERAGES AND/OR UNFORTIFIED WINE AT THE ASHEVILLE RUNNING EXPERIENCE

Summary: The consideration of authorizing the City Manager to approve resolutions making provisions for the possession and consumption of malt beverages and/or unfortified wine at the Kruger Brothers Concert Pre-Reception, Beat the Heat, and the Asheville Running Experience.

- Wild South has requested through the City of Asheville Community & Economic Development Department that City Council permit them to serve beer and/or unfortified wine at the Kruger Brothers Concert Pre-Reception and allow for consumption at this event.

  The Kruger Brothers Concert Pre-Reception will be held on Friday, June 24, 2016 from 5:00 p.m. to 9:00 p.m., within the boundaries of Church Street between the intersections of Commerce Street and Aston Street, as per the area limits referenced on the accompanying site map.

- Friends of the WNC Nature Center has requested through the City of Asheville Community & Economic Development Department that City Council permit them to serve beer and/or unfortified wine at Beat the Heat and allow for consumption at this event.

  Beat the Heat will be held on Friday, July 22, 2016 from 6:00 p.m. to 8:00 p.m. within the boundaries of the WNC Nature Center as per the area limits referenced on the accompanying site map.

- Blue Ridge Roller Derby, Inc. has requested through the City of Asheville Community & Economic Development Department that City Council permit them to serve beer and/or unfortified wine at the Asheville Running Experience and allow for consumption at this event.

  The Asheville Running Experience will be held on Saturday, August 20, 2016 from 5:00 a.m. to 8:00 p.m. within the boundaries of Coxe Avenue between the intersections of Banks Avenue and Hilliard Avenue as per the area limits referenced on the accompanying site map.

Pro:

- Allows fundraising opportunities for Wild South, Friends of the WNC Nature Center, and Blue Ridge Roller Derby, Inc.

Con:

- Potential for public safety issues

Staff recommends City Council authorize the City Manager to approve resolutions making provisions for the possession and consumption of malt beverages and/or unfortified wine at the Kruger Brothers Concert Pre-Reception, Beat the Heat, and the Asheville Running Experience.

RESOLUTION NO. 16-132 - RESOLUTION BOOK NO. 38 - PAGE 68
RESOLUTION NO. 16-133 - RESOLUTION BOOK NO. 38 - PAGE 71
RESOLUTION NO. 16-134 - RESOLUTION BOOK NO. 38 - PAGE 74

K. RESOLUTION NO. 16-135 - RESOLUTION AMENDING THE ASHEVILLE STANDARD SPECIFICATIONS AND DETAILS MANUAL

Summary: The consideration of an amendment to the City's Standard Specifications and Details Manual.

The City's Standard Specifications and Details Manual provides design guidelines and technical specifications for construction activities related to streets, sidewalks, water systems, storm drainage, parking lots, and pavement structure. The Manual outlines the City's minimum construction standards and is applicable to projects on both public and private property.

The Manual is intended to be periodically updated so that it continues to reflect generally accepted professional technical standards and specifications and City policies. City Council is required to approve all revisions and updates to the Manual, and the most recent update was approved by City Council on June 9, 2015.

The Manual sets forth a process by which a developer/property owner may request and be granted an alternation, modification or waiver of the Manual's requirements. City Staff recommends amending the Manual, to clarify the effect that obtaining such approval has on determining whether the requirements of the Manual have been met. Specifically, City Staff recommends adding language that states: "projects which are granted an alteration, modification or waiver under this process are deemed to be in compliance with the requirements of this Manual with respect to the provision(s) so altered, modified or waived." This amendment is recommended, in part, to clarify the relationship between the Manual and development standards set forth in the UDO that require compliance with adopted City plans and manuals.

Pros:

- Continues to provide minimum design and construction standards, guidelines, and specifications.
- Clarifies that projects which are granted an alteration, modification or waiver under this process are deemed to be in compliance with the requirements of this manual with respect to the provisions so altered, modified or waived
- Clarifies what constitutes compliance for UDO development standards that require compliance with the Manual.

Con:

- There are no known negative impacts.

There is no known fiscal impact associated with this action.

City staff recommends that City Council approve a resolution amending the Standard Specifications and Details Manual.

RESOLUTION BOOK NO. 38 - PAGE 77

L. RESOLUTION NO. 16-136 - RESOLUTION AUTHORIZING THE CITY MANAGER TO SIGN AN AGREEMENT WITH BUNCOMBE COUNTY FOR ONE-TIME FUNDING FOR THE COMMUNITY-BASED GROUP CHANGING TOGETHER

Summary: The consideration of a resolution authorizing the City Manager to sign an agreement with Buncombe County (the "County") for one-time funding, in the amount of $35,000, for two crime prevention programs coordinated by the County Contractor, SPARC Network, LLC, and involving the work of the community-based group, Changing Together.

The Asheville Police Department (APD) has received a request for $35,000 in one-time funding from the community-based group, Changing Together (CT) to help offset the loss of the program's primary grant funding.

Changing Together works in collaboration with APD to coordinate the Violent Criminal Initiative (VCI) and the Domestic Violence Intimate Partner (DVIP) Initiative. These programs rely on coordinated efforts between Federal , State and Local Law Enforcement Agencies including the District Attorney's Office, North Carolina Department of Corrections/Probation, APD and the Buncombe County Sheriff's Office. Partnering agencies coordinate efforts to assist in identifying subjects that could benefit from community accountability meetings referred to as "Call Ins."

During "Call Ins," offenders are addressed by all partnering law enforcement agencies and offered support services provided by various partner agencies/non-profit agencies. The goal is to minimize the chance offenders will reoffend by offering a variety of social services. The City has been an ongoing partner since the program's inception and launch in 2011.

The Changing Together program is housed under the SPARC Network, LLC which provides contracted programming for Buncombe County Health and Human Services. The proposed agreement would be between the City of Asheville and Buncombe County and would rely upon the performance measures currently assessed by the County.

Pros:
- Changing Together provides programming that supports the mission of APD.
- The City has a history of partnering with Changing Together – programmatic oversight of grant requirements was overseen by the City's Communication and Public Engagement Division (CAPE) in previous years and APD provided $6,600 in support in the current fiscal year.
- APD has identified savings in its current FY 2015-16 budget to fund the request.
- Through its contract with the SPARC Network, LLC, Buncombe County has systems in place to measure performance outcomes.

Cons:
- Request was received outside the normal process for funding Strategic Partner agencies.
- Funding Changing Together sets a precedent for other agencies whose mission closely aligns with APD's.

The fiscal impact of the City's support is $35,000 from the existing FY 2015-16 Police Department budget.

Staff recommends that the City Council authorize the City Manager to sign an agreement with Buncombe County for one-time funding, in the amount of $35,000, for two crime prevention programs coordinated by the County Contractor, SPARC Network, LLC and involving the work of the community-based group, Changing Together.

City Manager Jackson responded to Councilwoman Mayfield regarding the process cycles of funding to outside partners.

RESOLUTION BOOK NO. 38 - PAGE 79

M. RESOLUTION NO. 16-137 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT WITH 4 SEASONS SITE & DEMO INC. FOR THE DEMOLITION OF 33-35 PAGE AVENUE

Summary: The consideration of a resolution authorizing the City Manager to execute, on behalf of the City of Asheville, a contract in the amount of $98,788 plus a contingency of 16.4% ($16,212) with 4 Seasons Site & Demo Inc. for the project known as 33 & 35 Page Avenue

Demolition, City of Asheville Project # ED-15-16-001, and further authorizing the execution any change orders to said contract which may arise during demolition of said building up to the budgeted amount of $115,000.

City Council has asked that this building be demolished, and a budget amendment in the amount of $115,000 was approved at Council's March 8, 2016, meeting for this project. The project was advertised on April 22, 2016. Bids were opened on May 3, 2016, with the following results:

4 Seasons Site & Demo of Wilmington NC,	$ 98,788
Empire Dismantlement of Grand Island NY,	$109,750
Mitch Contracting of Fairview NC,	$127,000
NHM of Asheville NC,	$130,000
Patton Construction Group of Asheville NC,	$130,590
B Allen Construction of Candler NC,	$157,400

A 16.4% contingency ($16,212) has been added to allow payment for any unforeseen costs that typically arise during demolition projects. The work produced from this contract would demolish a vacant building in poor condition and make space for a future project.

Pros:

- Will demolish a vacant building in poor condition downtown.
- Will abate the asbestos in the building
- Will create space for a future project.

Con:

- Demolition will be disruptive to adjacent residences and businesses.

The total budget for this project, including contingency, is $115,000. As noted above, a budget of $115,000 was established for this project in March 2015 using unassigned General Fund fund balance.

City staff recommends City Council adopt the resolution awarding the contract to 4 Seasons Site & Demo Inc. for the 33 & 35 Page Avenue Demolition Project and giving the City Manager the authority to execute any change orders up to the budgeted amount.

RESOLUTION BOOK NO. 38 - PAGE 80

N. RESOLUTION NO. 16-138 - RESOLUTION APPROVING AN INSTALLMENT FINANCING AGREEMENT WITH WELLS FARGO FOR THE FISCAL YEAR 2016 CAPITAL IMPROVEMENT PROGRAM ACQUISITION OF VEHICLES AND OTHER EQUIPMENT

Summary: The consideration of a resolution authorizing execution of a $5,520,000 installment financing contract for Fiscal Year (FY) 2016 Capital Improvement Program (CIP) Vehicles and Other Equipment.

Appropriations for FY 2016 include $5,520,000 for various vehicles, computer equipment and fire department equipment with the capital expenditures financed through debt proceeds.

On May 24, 2016, the City distributed a Request for Proposal (RFP) seeking competitive bids for the financing to selected financing partners willing to take a UCC filing for the security of the financing. Three proposals were received, the most favorable of which was submitted by Wells Fargo Bank, NA (the Bank) at an interest rate of 1.25% per annum for a term of 48 months (computer equipment) and 59 months (vehicles).

The proposed resolution authorizes an installment financing contract between the City of Asheville and the Bank for the purchase of the vehicles and computer equipment and it authorizes the City Manager, City Attorney, Finance Director and City Clerk to execute and deliver any and all necessary documents. The contract will place a security interest in the vehicles and computer equipment in favcr of the Bank in order to secure the City's obligation under the contract. Pursuant to a previously adopted reimbursement resolution, proceeds from this financing contract will allow the City to reimburse itself for the cost of the vehicles and computer equipment which have already been procured.

Pros:

- Provides funding of capital expenditures at a very favorable effective interest rate.
- Financing capital purchases spreads the cost of acquisition over several years of the useful life of the asset.
- Reimbursing this capital purchase with the proceeds of the financing, as opposed to paying for the purchase by using the City's available cash balances, increases currently available funds through restoration of fund balance.
- The financing conforms to the approved Financing Plan for capital expenditures.

Con:

- Financing the purchase increases nominally the lifetime cost of the acquisition due to the payment of interest and closing costs on the amount financed.

The annual debt service payments for this financing range between approximately $1,243,000 in the first year and approximately $801,000 in the fifth year. Funds are included in the City's FY 2016-17 proposed debt service budget to cover this cost.

City staff recommends that City Council adopt the resolution authorizing the City Manager to execute an installment purchase contract and closing process with Wells Fargo for the acquisition of the vehicles and computer equipment.

RESOLUTION BOOK NO. 38 - PAGE 81

O. RESOLUTION NO. 16-139 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONSTRUCTION ENGINEERING AND INSPECTION CONTRACT WITH VAUGHN & MELTON CONSULTING ENGINEERS FOR THE HENDERSONVILLE ROAD SIDEWALK IMPROVEMENTS PROJECT

Summary: The consideration of a resolution authorizing the City Manager to execute a construction engineering and inspection (CEI) contract with Vaughn & Melton Consulting Engineers (Vaughn & Melton), for the amount of $192,698.76 plus 20% contingency and any change orders within the project budget for the project known as Hendersonville Road Sidewalk Improvements Project, City of Asheville Project #ENG-12-13-015, pending concurrence with award by the N.C. Dept. of Transportation (NC DOT).

The 4.5-mile stretch of Hendersonville Road (US 25) from Seminole Street to Long Shoals Road is populated by many commercial properties, offices, and residential complexes, and lacks consistent pedestrian infrastructure. The project connects existing isolated sidewalks with the construction of approximately 13,000 linear feet of new sidewalk, and also includes new retaining walls, storm water drainage structures, a pedestrian boardwalk, pedestrian crossing signal facilities, and all associated appurtenances. Federal funding administered through the North Carolina Department of Transportation will account for 80% of the project, with the City of Asheville matching the remaining 20%.

A request for qualifications (RFQ) was issued on September 28, 2015, and the following firms submitted RFQ packages:

A. Morton Thomas & Associates	Charlotte, NC
Michael Baker Engineering	Asheville, NC
Vaughn & Melton	Asheville, NC

Following the municipal and required NC DOT RFQ procurement process, a panel of staff members performed a thorough review and evaluation and recommended Vaughn & Melton of Asheville, North Carolina as the most qualified. However, the CEI contract was not awarded at that time due to an NC DOT offer to provide CEI services. NC DOT has been providing inspection services for the project, but is unable to continue for the remainder of the project due to staffing issues. Following NC DOT notice of discontinuation of CEI services, staff successfully negotiated a final scope of work and project budget with Vaughn & Melton, and are awaiting NC DOT's review of the Vaughn & Melton proposal.

Pros:

- Provides connectivity for needed linkage.
- Ensures pedestrian safety.
- Confirms investment in community infrastructure

Con:

- Project management and contract administration will consume staff time and resources.

Funding for this project is already included in the City's adopted Capital Improvement Program. As noted above, federal funding administered through the N.C. Dept. of Transportation will cover 80% of the project costs, with the City of Asheville matching the remaining 20%.

City staff recommends City Council adopt the resolution awarding the contract to Vaughn & Melton Consulting Engineers, pending concurrence with award by the NC DOT, and authorizing the City Manager to execute on behalf of the City of Asheville a contract in the amount of $192,698.76 plus a contingency of 20% ($38,539.75), for a total of $231,238.51 with Vaughn & Melton Consulting Engineers, LLC for the project known as Hendersonville Road (US 25) Sidewalk Improvements Project.

RESOLUTION BOOK NO. 38 - PAGE 83

P. RESOLUTION NO. 16-140 - RESOLUTION AUTHORIZING THE CITY MANAGER TO SIGN A CONTRACT AMENDMENT WITH DAVENPORT ENGINEERING INC. FOR ADDITIONAL PROFESSIONAL SERVICES ON THE LIVINGSTON STREET COMPLETE STREET PROJECT

Summary: The consideration of a resolution authorizing the City Manager to amend an existing engineering services contract with Davenport Engineering, Inc. in the amount of $8,000 plus a contingency of 14% of the amended contract amount ($37,000) to to develop additional construction documents and specifications required to comply with Federal requirements for the project known as Livingston Complete Street.

City Council had previously adopted a resolution authorizing the City Manager to enter into a contract with Davenport Engineering Inc. in August 2015, for $250,000. This original contract resulted in the development of plans, estimates and environmental documentation.

The Livingston Complete Street project will improve Livingston Street and a portion of Depot Street from approximately 372 Depot Street to Victoria Road. This project is one of the City's TIGER VI projects. The project includes improving the corridor for pedestrians, bicyclists and transit users while maintaining functionality for motorized vehicles.

Pro:

- The additional documents and specifications are required to secure Federal funding.

Con:

- Adds up to $45,000 dollars to the design cost of the project.

Sufficient budget is included in the adopted CIP to fund the change order request for this contract.

City staff recommends City Council adopt a resolution authorizing the City Manager to amend the current contract with Davenport Engineering, Inc. to provide additional construction documents and specifications for the Livingston Complete Street Project in the amount of $8,000 plus a contingency of 14% of the amended contract amount ($37,000).

RESOLUTION BOOK NO. 38 - PAGE 84

RESOLUTION NO. 16-141 - RESOLUTION AMENDING THE 2016 CITY COUNCIL MEETING SCHEDULE

Summary: The 2016 City Council meeting scheduled is amended as follows: (1) A worksession on a bond referendum has been scheduled for Monday, June 20, 2016, at 3:00 p.m. in Room 623 of City Hall; (2) A worksession on a bond referendum has been scheduled for Tuesday, June 28, 2016, at 10:00 a.m. in the 4th Floor Training Room of the Municipal Building; (3) A formal meeting is hereby scheduled on Tuesday, July 5, 2016, beginning at 5:00 p.m. in the Council Chamber, Second Floor of City Hall. (Note: The July 12, 2015, City Council meeting has been previously cancelled.); (4) The formal meeting previously cancelled on August 9, 2016, is hereby re-established. Said meeting will be held beginning at 5:00 p.m. in the Council Chamber, Second Floor of City Hall; and (5) The formal meeting scheduled on August 23, 2016, is hereby cancelled.

RESOLUTION BOOK NO. 38 - PAGE 85

Mayor Manheimer asked for public comments on any item on the Consent Agenda, but received none.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Councilman Bothwell moved for the adoption of the Consent Agenda. This motion was seconded by Councilman Haynes and carried unanimously.

III. PRESENTATIONS & REPORTS:

A. QUARTERLY I-26 CONNECTOR UPDATE

Transportation Director Ken Putnam updated Council on the I-26 Connector Project, noting that the N.C. Dept. of Transportation (NCDOT) selected for Section A - Widening; Section B - Alternative 4-B; and Section C - Alternative F-1. The then presented the tentative schedule as follows: Mid 2017 - final Environmental Impact State; Late 2017 - design public hearing; 2019 - Section C right-of-way acquisition; 2021 - Section C construction and Section B right-of-way acquisition; 2014 - Section B construction; and future years - Section A right-of-way acquisition and construction. The City of Asheville looks forward to continuing the positive working relationship between the city's working group and the N.C. Dept. of Transportation to address these issues, and looks forward to positive decisions emerging from those discussions.

Councilwoman Mayfield said that the NCDOT is about to recreate an aesthetics committee who will have input on what the project looks like, e.g., landscaping, sound walls, bridge design, aesthetic treatments, etc. For anyone interested in this committee, please contact the City's Transportation Director Ken Putnam who will forward the information to the NCDOT.

B. LEGISLATIVE UPDATE

Mayor Manheimer updated the Council on some disturbing legislation being introduced this week: (1) House Bill 483 (land use bill) which will revise how conditional zonings, conditional use permits and Board of Adjustment appeals are handled, etc.; and (2) redistricting of Asheville.

Mayor Manheimer said that we have not received the N.C. Supreme Court's opinion on our water lawsuit. The next date opinions are issued will be August 19, 2016.

IV. PUBLIC HEARINGS:

A. PUBLIC HEARING TO CONSIDER CONDITIONAL ZONING PROPERTY LOCATED AT 60 MILLS GAP ROAD FROM INDUSTRIAL DISTRICT TO HIGHWAY BUSINESS DISTRICT/CONDITIONAL ZONING FOR THE DEVELOPMENT OF A 272 UNIT MULTI-FAMILY DEVELOPMENT

Mayor Manheimer said that the applicant has requested this public hearing be continued until June 28, 2016. Vice-Mayor Wisler moved to continue this public hearing until June 28, 2016. This motion was seconded by Councilman Young and carried unanimously.

B. PUBLIC HEARING TO CONSIDER CONDITIONAL ZONING OF PROPERTY LOCATED AT 55 MIAMI CIRCLE AND 70 ALLEN AVENUE FROM RM-16 RESIDENTIAL MULTI-FAMILY HIGH DENSITY DISTRICT AND INSTITUTIONAL DISTRICT TO INSTITUTIONAL DISTRICT/CONDITIONAL ZONING FOR THE DEVELOPMENT OF 290 MULTI-FAMILY UNITS CONTAINED WITHIN 4 BUILDINGS, WITH CONDITIONS MODIFYING LANDSCAPE STANDARDS

ORDINANCE NO. 4507 - ORDINANCE TO CONDITIONALLY ZONE PROPERTY LOCATED AT 55 MIAMI CIRCLE AND 70 ALLEN AVENUE FROM RM-16 RESIDENTIAL MULTI-FAMILY HIGH DENSITY DISTRICT AND INSTITUTIONAL DISTRICT TO INSTITUTIONAL DISTRICT/CONDITIONAL ZONING FOR THE DEVELOPMENT OF 290 MULTI-FAMILY UNITS CONTAINED WITHIN 4 BUILDINGS, WITH CONDITIONS MODIFYING LANDSCAPE STANDARDS

Urban Planner Jessica Bernstein said that this is the consideration of an ordinance to conditionally zone property located at 55 Miami Circle and 70 Allen Avenue from RM-16 Residential Multi-Family High Density District and Institutional District to Institutional District/Conditional Zoning for the development of 290 multi-family units contained within 4 buildings, with conditions modifying landscape standards. This public hearing was advertised on June 3 and 10, 2016.

Ms. Bernstein said that the applicant is requesting review of a conditional zoning request from Residential Multi-Family High Density District (RM-16) and Institutional (INST) to Institutional Conditional Zone (INST-CZ), in accordance with Section 7-7-8 of the Unified Development Ordinance (UDO), for the construction of a multi-unit residential development.

The project site consists of two parcels with a combined area of approximately 11.39 acres in South Asheville, just north of Long Shoals Road. The larger parcel (55 Miami Circle, 7.66 acres) is zoned Institutional and the other lot (70 Allen Avenue, 3.73 acres) is zoned RM-16.

Nearby zoning includes Institutional, RM-16, RS-8 and RS-2.

The area is developed with a mix of uses including apartments, single-family homes, educational and recreational uses (TC Roberson High School and the Zeugner/Skyland Recreational Center to the east and north) and commercial uses along Long Shoals and Hendersonville Roads. There are approximately 55 mobile homes currently occupied on the Miami Circle parcel, which will be removed. A sewer line and vacant single-family home are to be removed from the Allen Avenue parcel. There is a stream and associated buffer running across the northwest corner of the Allen Avenue lot.

The applicant is proposing to construct a multi-family development consisting of 290 residential units in eight separate buildings. Plans indicate 258 one and two-bedroom units and 32 three-bedroom configurations. Two buildings are shown as four-stories (maximum height 42 feet); four as three-four splits (maximum height 33 feet) and two with two-stories (maximum height 20 feet). There is also clubhouse and maintenance buildings and a pool.

There are three vehicular access points into the site; one is off of Miami Circle, which connects to Long Shoals Road; the second access is from Allen Avenue, which connects to Hendersonville Road; and the third is through the southern end of the site to Long Shoals Road and is intended to be the project's primary access point. The applicant is proposing for the Miami Circle access point to be restricted to emergency vehicles only and would include a siren-activated gate.

A network of internal sidewalks and walking paths are proposed throughout the site and a public sidewalk is proposed along the short stretch of Miami Circle frontage. Additionally, there is a sidewalk proposed along the primary entrance driveway to Long Shoals Road *(see staff proposed conditions regarding additional sidewalk considerations)*.

Due to the number of units proposed, a range between 322 and 612 parking spaces is required; 420 are proposed. Parking is distributed around the site and also includes a minimum of 13 accessible spaces and at least 21 bike parking spaces.

The project is required to comply with landscaping standards, including a Type A (20 foot wide) property line buffer along the eastern edge of the site where properties are zoned RM-16 and a Type B (30 foot) buffer against RS-2 to the south. Additionally, the proposal includes street buffers, street trees, parking lot and building impact landscaping, dumpster screening and tree save area (3.417 acres). There are several proposed encroachments into the property line buffer as detailed in the conditions for the project, resulting in a request to provide a reduced buffer along a portion of the project boundary. Additionally there is a stream buffer that will be maintained through the center of the site.

Fifteen percent of the project area is required to be dedicated as open space, which is approximately 1.71 acres and is shown on plans.

There are several retaining walls shown on site plans; additional information will be provided at Final Technical Review Committee (TRC) review regarding wall heights to determine the extent of screening compliance needed.

Building height in the Institutional District is limited to forty feet within 100 feet of a residentially-zoned property; this project appears to comply as the taller buildings are outside of this area.

Conditions - This project includes a number of recommended conditions found in the B1-Conditions list. Modifications and special conditions to note include:

1. Small portions of the community building, pool and driveway encroach into the 30 foot

property line buffer along the southern end of the project area.

2. A sidewalk will be provided along Miami Circle to link the project site to the Buncombe County School property with a walking path to be extended into the TC Roberson High School campus (exact location of the walking path to be determined with the school representatives but proposal loosely follows the existing access driveway from Miami Circle and is shown on exhibit D).
3. Staff recommends that the applicant work with property owners to extend the sidewalk along Miami Circle southwards to connect down to Long Shoals Road. As of the writing of this report, the applicant has not agreed to this enhanced condition and there does not appear to be sufficient room in the existing right-of-way to provide the sidewalk.
4. The project shall contain at least 10% affordable units at rent standards not to exceed 80% Area Median Income (AMI) as published in the 2016 Affordable Housing Standards. This commitment will stand for a time period not less than 15 years and will be deed restricted. Staff recommends that the project will contain at least 20% affordable units; the applicant has not agreed to this enhanced condition (20%).

At the Planning & Zoning Commission meeting, the developer agreed to pursue a condition that they would contribute $250,000 into a fund to be managed by the City and its partners for use in relocating current residents of the property. After distribution of the funds for relocation use, any money that remains will be put in the City's Housing Trust Fund to be used for affordable housing development.

After several meetings with City staff, the applicant, current owner, residents and their advocates, the proposal has been modified that the applicant will provide $250,000 directly to the residents to be distributed equally among the households. There will be an additional $40,000 contribution from the current owners to the City's Housing Trust Fund to assist in the development of affordable units elsewhere in the City. Staff anticipates these transfers to occur via a Memorandum of Understanding following City Council's approval.

This proposal was approved with conditions by the Technical Review Committee (TRC) on April 18, 2016, and requires review by the City Council and Final TRC prior to zoning approval.

At their meeting on May 4, 2016, the Planning & Zoning Commission reviewed this request and ultimately recommended approval by a 7-0 vote. Their vote included the condition noted above regarding the financial contribution offered by the developer (which has been since modified as described above). Members of the public were present at the hearing to comment on the impact of displacement on current long-time residents and the need to provide time and assistance to these families who are losing their homes.

Staff has met with many current residents and members of the public regarding this project; primary concerns are related to the displacement of the families currently occupying the approximately 55 manufactured houses on the site and the approximately 63 school children within these families. Concerns have been raised about the ability for relocation of the manufactured housing units (which is unlikely due to the age of the units and related HUD restrictions) and the impact on the permanent housing situation for these residents. City staff from the Community Development Department has been working closely with community partners on assisting with relocation assistance and housing issues for the affected residents.

Regarding density, under the current zoning on the sites, a total of approximately 295 units would be allowed (approximately 230 allowed currently on the Institutional parcel [246 proposed] and 65 allowed currently on the smaller RM-16 lot [44 proposed]). By conditionally zoning both parcels as a combined project, 342 units would be allowed by right and can be spread out over the full acreage. The project is proposing 290 apartments or approximately 25 units per acre (gaining greater density on the parcel currently zoned Institutional).

A proposal for a major subdivision creating 29 single-family lots on the Allen Avenue

parcel was approved by the Planning & Zoning Commission in April 2015 (BP 15-02454 PZ); this application effectively replaces that approval. There is a Level I application currently under review for a Pizza Hut at the corner of Miami Circle and Long Shoals Road (BP 16-01283) and a number of commercial developments recently reviewed and approved along the Long Shoals Road corridor.

The multi-family residential development is considered compatible with the surrounding uses and zoning in the area. Institutional zoning anticipates and allows for a higher-density residential component and this location places families and residents within walking distance to schools (K-12), recreational uses, commercial uses and transit (Hendersonville Road). Staff's suggested condition to extend sidewalks along Miami Circle to Long Shoals Road and within the TC Roberson school campus would further the positive integration of the proposed project into the area, provide protection for pedestrians against the increased vehicular traffic, and provide a safer route for school children that walk to area schools.

Several elements of this proposal are directly aligned with the *Asheville City Development Plan 2025* including "higher-density residential infill development"; density above the minimum necessary to improve and enhance transit; safe routes for pedestrian and the proposed inclusion of dedicated affordable housing.

The staff suggested condition on sidewalk extension along Miami Circle would improve compliance with the *Plan* with sidewalk extensions to improve pedestrian safety and access and to connect residential uses to shopping, employment options, the high school and transit. Also, the recommended increase in the affordable housing set-aside, from 10% to 20%, would better align the project with the affordable housing policies of the *Plan* due to the project's proposal to remove the existing 55 mobile homes.

Regarding other adopted plans and the dedication to affordable housing, the City's recently completed *Housing Needs Assessment* (2015) contains a section on mobile home rental units and indicates an average rental range per unit of approximately $595-795 in Buncombe County (the rent in this existing mobile home park is approximately $225 per month). The rental range on manufactured housing in the area is significantly lower than the rental range that will be offered once the development would be completed (according to affordable housing standards at 80% AMI). This considerable disparity between what is considered to be "affordable" verses the low rents which serve a specific population of City residents that will be lost through this development demonstrates the concerning displacement of a population that will not be easily re-served and re-housed.

The proposal aligns with the 2036 Council vision in the following areas:

- *A Well-Planned and Livable Community* – The project is ideally situated, placing higher-density residential development proximate to complementary uses.
- *Transportation and Accessibility* - Sidewalk connections to the school campus and Long Shoals Road will create safe pedestrian routes to school, recreation, transit and shopping.
- *Quality Affordable Housing* – The applicant is proposing to include 10% of the units as affordable (29 units); staff is suggesting 20% (58 units). Additionally, at least $40,000 will be dedicated to the Housing Trust Fund for the creation of affordable housing throughout the City.

Considerations:

- Appropriately sites higher-density residential development proximate to educational, recreational and commercial uses and within one-tenth of a mile to transit (S3).
- Provides sidewalk connections to adjacent school use along Miami Circle.
- Project will contain at least 10% affordable units at rent standards not to exceed 80% Area Median Income (AMI) as published in the 2016 Affordable Housing Standards. This commitment will stand for a time period not less than 15 years. ***Staff suggests raising***

this amount to at least 20% of the units to more closely mirror the number of existing units that are being removed.

- Development displaces residents in mobile home units that have been in place for several decades, with residents paying rents significantly below even the current standards for 60% AMI.

Based on policies stated in the Comprehensive Plan and other plans, such *as the Housing Needs Assessment and City Council's 2036 Vision Considerations*, staff finds this request to be reasonable and within the public interest and recommends support of the proposed conditional zoning as proposed. However, while recognizing the contribution offered to the Housing Trust Fund staff does still recommend that the applicant increase the amount of actual dedicated affordable units to 20% to equal the number of affordable units being displaced and to continue to work to provide sidewalk along the full extent of Miami Circle to Long Shoals Road to further meet the City's stated goals.

In response to Councilman Smith, Ms. Bernstein said that the mobile home park was established decades ago and noted that residential is allowed in the Institutional District.

In response to Councilman Bothwell, Ms. Bernstein said that the current owners have legally issued notices and can proceed with eviction regardless of this conditional zoning application. The owner has the right to construct 295 units with the existing zoning; however, they are asking for this conditional zoning to allow them to put a greater number of units on the Institutional parcel and then less than the number of maximum units on the other parcel. This conditional zoning application will make it a more comprehensive project.

Mr. Chris Day, representing Civil Design Concepts, explained the specifics of the project. They had met multiple times with Buncombe County Schools and will construct a walking path into the TC Roberson campus from Miami Circle following the existing driveway. The new plan is for the Miami Circle access point to be restricted to emergency vehicles only with a siren-activated gate. They will open up Lance Lane (for the residents of the development to use to reach Long Shoals Road) to mitigate the traffic concerns of school traffic driving onto Miami Circle being in conflict with traffic from the development.

Councilman Bothwell urged the developer to leave existing healthy trees as much as possible. Mr. Day said that along the property line there is an existing creek that will have 30-foot setback buffers so there will be a 60-foot wide area that will remain undisturbed.

Mr. W. Louis Bissette, Jr., attorney for the applicant, said that there has been a lot of discussion with the existing mobile home park community, including their representatives at St. Barnabas Catholic Church, Pisgah Legal Services, Homeward Bound, etc. The developer is prepared to do two things (1) commit 10% affordable units at rent standards not to exceed 80% Area Median Income for a period of not less than 15 years; and (2) contribute $290,000 for the relocation needs of the mobile home park community. Prior discussion was that the developer would contribute $250,000 for relocation needs and $40,000 to the City's Affordable Housing Trust Fund. The developer is prepared to do either one of these things. He then detailed how the $290,000 would be distributed on an equal basis amongst the 55 mobile home residents via Homeward Bound. After City Council approval, between 30-45 days, each home would receive $2,272 (requirements would be that (1) a survey be submitted - all mobile home residents have this survey; (2) a termination agreement signed; and (3) that all residents be current on rent/utilities). Homeward Bound and St. Barnabas will be available to help any residents who need help to complete paperwork or have them pick up their checks. When they receive the $2,272 check, they would need to sign a termination agreement and agree to vacate the property in 60 days. When the developer closes on the property (90-120 after Council approval), each home would receive $3,000. He noted that the 15 households that have already vacated the property will also receive receive the total $5,272 relocation assistance). He felt that the

developer could not up the affordable units to 20% but felt that the $290,000 actually goes to the people who need it the most.

When Vice-Mayor asked about the staff recommendation for sidewalks along Miami Circle to Long Shoals Road, Mr. Bissette replied that they don't control the property.

Councilman Bothwell asked if the developer would be willing to make the affordable units 20 years instead of 15 years, Mr. Bissette responded that since the developer will pay an administrative fee to Homeward Bound, in addition to the $290,000 for relocation assistance, the developer is at his limit as to what he can do.

When Councilman Young asked about the requirements to receive the first check, Mr. Bissette explained that the three requirements (survey, termination agreement and current on rent/utilities), he said that if they are not current on their rent/utilities, the amount could be deducted from their first check. He noted that there are less than five households that are currently in arrears on anything. He said that St. Barnabas has a program to help people if they need it.

Vice-Mayor Wisler asked if the developer would consider adding one month free rent on the land in addition to the $2,272 in order to help with relocation cash flow. Mr. Bissette replied that would be something the current owner (Miami Made LLC - all local people) would need to consider, not the developer. He also noted that the additional one-month rent is not something the residents requested and since the developer is not the owner of the property, he felt providing the one month free rent would be difficult.

Mr. Jim Lowder, Acting Executive Director of Homeward Bound of WNC, said that even though this is out of their normal work, they were happy to participate. Since none of the families are currently homeless, they would not quality for any kind of funding they might have available, so this gives them an opportunity to make sure none become homeless. He was also happy that there will be 290 units needed for housing in our area.

Deacon Rudy Triana of St. Barnabas Catholic Church, speaking on behalf of the 55 mobile home residents, said that they have had countless meetings with the developer, along with the President and Board Members of the Lakeview Mobile Home Park Association. At their last meeting, the Board voted unanimously for them to try to negotiate more with developers. As a result, the developers have graciously and generously came up with the current offer and the Association has agreed with the offer and the disbursement schedule. All residents have assured him that all rents/utilities will be paid. He hoped the disbursement will take place prior to residents having to move so the relocation assistance will help them with deposits and other necessary relocation expenses. He thanked Council for helping those without a voice.

There was discussion, initiated by Councilwoman Mayfield, about a possible condition to make sure that the tenants receive the full amount ($5,272) before they have to vacate the property. Mr. Bissette said that the developer feels that the closing will happen prior to the residents having to vacate; however, if the closing is postponed he would encourage the developer to extend the 60 days within which to vacate the property. Regarding a condition, City Attorney Currin said that financial agreements between third parties are not something that should be written into a zoning ordinance.

In response to Councilman Bothwell, Deacon Triana said that the Association has only seen bullet points of the agreement, not the executed agreement. Mr. Bissette responded that there is a Memorandum of Understanding with Homeward Bound that spells out the proposal; however, it is not signed yet. There will not be an agreement with the residents because they will be paying money to Homeward Bound to distribute it.

Mayor Manheimer announced a short recess in order for Deacon Triana, the President of the Association, Homeward Bound and the developer to review the unsigned Memorandum of Understanding and sign if it agreeable.

Mr. Bissette provided a signed Memorandum of Agreement between the developer Nicholas S. Hathaway (Director of Development who has the authority to sign on behalf of Hathaway Development, LLC) and Jim Lowder (Acting Executive Director who has the authority to sign on behalf of Homeward Bound of WNC). The Agreement, executed today, states in part that "(1) Developer shall contribute a total of $290,000 (the "Resident Fund") to Homeward in accordance with the following schedule: (a) $125,000 will be paid within 45 days following the Asheville City Council's approval of the Project; and (b) $165,000 will be paid at the time of Developer's closing of the acquisition of the Property from Miami Made, LLC ("Seller") the current owner of the Property. (2) Developer and Homeward shall develop a survey/questionnaire (the "Questionnaire") for Homeward to distribute to the Resident Households. (3) Developer shall cause the Seller to deliver to each of the Resident Households the 60-day notices to vacate/notice to quit as provided for under North Carolina General Statute Section 42-14. Such notices shall be delivered on July 1, 2016. (4) Developer will pay Homeward a reasonable administrative fee, as payment for its services hereunder (the "Admin Fee"). Such Admin Fee shall be paid at the conclusion of Homeward's administration of the Resident Fund in accordance with the Memorandum of Understanding. (5) Homeward shall administer and distribute the Resident Fund in accordance with the following terms, conditions and procedures: (a) The resident Fund shall be distributed equally to all Resident Households satisfying the conditions set forth herein, up to a maximum of 55 Resident Households; (b) Such Resident Household must be current on its rent and utility obligations with the Seller prior to receiving any distribution from the Resident Fund; (c) Such Resident Household must have executed and delivered a termination agreement, terminating such Resident Household's lease and relinquishing any rights to the Property, prior to receiving any distribution from the Resident Fund; and (d) All claims from the Resident Fund must be submitted to Homeward no later than December 31, 2016, and no Resident Household shall have any claims after such date. Further, unclaimed funds remaining in the Resident Fund after such date shall be paid to Homeward, to be applied first towards the Admin Fee, and then to general operating account of Homeward." (6) Homeward shall communicate with Resident Households and neighboring churches and associated interests to educate them on the Resident Fund and to advocate support for the Project in the community and at the Asheville City Council meeting in which the Project is presented. (7) This MOU shall be binding upon and inure to the benefit of the parties and their successors and assigns, including any affiliate of Developer formed for purposes of the Project. Any notices to be given hereunder shall be in writing to the parties at the address set beneath their signatures below." The Resident Association representative, Deacon Triana, Homeward Bound and the developer all have a signed copy of the Agreement.

The President of the Resident Association thanked City Council for their support.

Mayor Manheimer opened the public hearing at 7:00 p.m.

Christopher Chiaronmonte felt the residents should be assured they will have the total amount of relocation assistance prior to vacating their property. He also wondered how much Homeward Bound will be paid for their administrative fee.

Mayor Manheimer closed the public hearing at 7:03 p.m.

In response to Councilman Smith, the President of the Residents Association said that the residents currently pay $225/month for land rent and also a unit fee. Mr. Bissette said that in the new development a one-bedroom units will be $850, and $762 (maximum $895 with utilities) for the affordable one-bedroom units.

When Councilman Smith asked how many units are in the current mobile home park, the president of the Residents Association said there are 55 units and approximately 60 school age children.

Councilman Smith said that a community is not just about houses, but neighbors helping neighbors. This will be the end of a neighborhood. He was troubled by the precedent this sets as Council is being asked to sanction the elimination of a neighborhood/community. He said that Council will be breaking up a decade long community. While he appreciated the agreement, the residents really do not have a lot of leverage. He understood that $8-11,000 per household would be more in line of what it would cost to relocate and that doesn't even figure in the loss of family. And he also understood that the developer need not pay any relocation assistance money. Normally he would vote against this as he would never want to displace 55 families, but if Council says no, then the families would not receive anything and the developer can develop the property anyway. This way Council is trying to at least let the residents receive something. This is a real bind; however, he will follow the neighborhood's lead and support the conditional zoning because he wants to make sure the neighborhood gets all they can. He does not, however, support the displacement of entire neighborhoods. Council is appreciative of the developer's contribution, but not the displacement of residents. He also felt that the developer's contribution of 10% affordable units (29 units) at $833/month (three times of what the residents are paying now for half the number of units) is instant gentrification.

Councilman Young and Councilwoman Mayfield agreed with Councilman Smith's comments.

Mayor Manheimer said this is one of the frustrating topics where cities don't have the authority to provide for residents in this type of situation, other than through tools of our zoning process, which is not a perfect way to deal with this situation. She was pleased how organized the community has been and how well they have communicated amongst themselves and come up with that they wanted even though ultimately it is the demise of their community. She felt the Council's vote is more in support of the work the residents have done in getting to this point. In the future, she hoped Council will look at any other possible rules that a city might be able to adopt to deal with a situation like this.

Councilman Bothwell was also deeply sympathetic to the breakup of this neighborhood, but we can't ignore the lack of housing in our community. With this development, we will get six times as many units on this property. It will address the housing shortage.

Councilman Smith suggested building in relocation reimbursement into this kind of development where people will be displaced. City Attorney Currin said that there may be ways that Council may be able to preserve the communities, other than necessarily telling the developer that they need to make a financial contribution.

Mayor Manheimer said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Bothwell moved to approve the conditional zoning request from Residential Multi-Family High Density District (RM-16) and Institutional (INST) to Institutional Conditional Zone (INST-CZ) with the requested conditions for the development of a multi-family residential project and find that the request is reasonable, is in the public interest, and is consistent with the Comprehensive Plan and other adopted plans in that: (1) The proposal places higher density residential development in an area proximate and walkable to transit, commercial, educational and recreational uses; (2) The project includes pedestrian connections to community uses and transit; and (3) The project includes dedicated affordable housing units (a minimum of 10% of the units at 80% AMI for a minimum of 15 years). This motion was seconded by Vice-Mayor Wisler and carried unanimously.

ORDINANCE BOOK NO. 30 - PAGE

V. UNFINISHED BUSINESS:

A. ORDINANCE NO. 4508 - ORDINANCE ADOPTING THE FISCAL YEAR 2016-17 ANNUAL OPERATING BUDGET AND AMENDMENTS TO THE FEES & CHARGES MANUAL

Director of Finance & Management Services Barbara Whitehorn said that this is the consideration of an ordinance to adopt the Fiscal Year 2016-17 Annual Budget.

The Fiscal 2015/2016 Proposed Annual Operating Budget was presented to City Council on May 10, 2016. In accordance with the North Carolina Local Government Budget and Fiscal Control Act, a summary of the Proposed Budget along with a notice of the Public Hearing was published on May 6, 2016. City Council conducted a public hearing on the Proposed Budget on May 17, 2016. The Fiscal 2016/2017 Proposed General Fund Budget is balanced with an Ad Valorem tax rate of $0.475 per $100 of assessed value, remaining the same as the current year tax rate. All essential City services are maintained in the Proposed Budget.

Changes to the Proposed Budget - Since the Proposed Budget was presented to City Council, there have been some adjustments per Council direction that have altered the budget that is presented tonight for Council adoption.

- **Use of Fund Balance:** At the May 10 City Council meeting, Council requested that approximately $800,000 in additional funds expected to be realized from net income as of the March 31, 2016 third quarter financial report, which would otherwise flow into unrestricted, unallocated fund balance, be reserved for the Lee Walker Heights Project. This allocation brings the fund balance allocation to that project to $2,180,000. This change has no effect on 2016/2017 operating revenue or expenditures.

- **Additional Resources Dedicated to the Short-Term Rental Program (Homestay):** Funding for additional staffing and related equipment has been added to the 2016/2017 budget. This position is funded through an increase in Development Services revenue. The total revenue and expense added to the General Fund operating budget is $130,000.

- **Dedication of funds for the Festival of Neighborhoods**: Councilmember Smith asked that $2,000 be added to the General Fund operating budget to assist with the funding of the Festival of Neighborhoods. Revenue estimates for Development Services were reevaluated with the addition of the FTE discussed above, and $2,000 was added to offset this increase.

- **Sustainability "Green Fund":** Greenworks recycling, composting and education - $15,000.

Pros:

- Ensures City's compliance with North Carolina General Statutes that require local governments to adopt a balanced budget ordinance by July 1 of each year.
- General Fund Budget is balanced with no fund balance appropriation for ongoing operating expenses and all essential City services are continued.

Con:

- None.

As noted above, the Proposed FY 2016/2017 General Fund budget is balanced with no fund balance appropriation for ongoing operating expenses. Based on revenue and expenditure

projections for FY 2015/2016, staff estimates that the City's unassigned fund balance in the General Fund will be $22.4 million on June 30, 2016. The following reservations and dedications will be made per Council direction:

Lee Walker Heights	$2,180,000
Infrastructure Reserve	1,100,000
Deferred Maintenance	200,000
One-Time Investments	760,000

The remaining $18,160,000 in unrestricted, unallocated fund balance is 16.4% of General Fund total budgeted expenditures for FY 2016/2017. Council adopted a policy of a minimum 15% unrestricted, unallocated fund balance and set a goal for June 30, 2016 of 16.5% at the April 26 worksession. Additional revenues and/or savings realized in the fourth quarter of FY 2015/2016 may increase the percentage slightly.

Staff requests that Council adopt the FY 2016/2017 Annual Budget Ordinance with the changes noted above.

Councilman Smith was very interested in the Pay As You Throw program and assuming that the City remain on their proposed one-year rollout time period, this garbage fee increase will be temporary for those who chose to participate in the program.

Mayor Manheimer stated that since the public hearing was held on May 24, 2016, no public comment would be accepted.

Mayor Manheimer said that members of Council have previously received a copy of the ordinance and it would not be read.

Vice-Mayor Wisler moved for the adoption of Ordinance No. 4508, as amended above. This motion was seconded by Councilman Bothwell and carried unanimously.

ORDINANCE BOOK NO. 30 – PAGE 352

VI. NEW BUSINESS:

A. BOARDS & COMMISSIONS

Accessory Dwelling Unit Task Force - It was the consensus of Council to adopt the following recruitment statement regarding the Task Force: "The City of Asheville is recruiting a community Task Force to help shape decisions about Accessory Dwelling Unit (ADU) homestay rentals. The City of Asheville currently does not allow full-home short-term rentals in residential neighborhoods but does permit homestays provided certain conditions can be satisfied. A homestay is a legal form of short-term renting where the owner or resident manager resides on the property full-time. Under Asheville's current homestay rules, an ADU may not be used as part of a homestay operation; although, ADUs (such as garage apartments and cottages) can be legally used for long-term rentals in residentially zoned areas, with "long-term" defined as anything rented for one month or longer.

Task Force members will be expected to attend approximately six meetings between July and September 2016 to research, discuss and recommend programmatic and land use regulations related to the potential use of ADUs as part of a homestay operation. The Task Force will not be responsible for researching, discussing or recommending changes to either general standards regulating homestays, nor to the position to continue to prohibit whole-house rentals, as City Council recently approved an ordinance (on November 17, 2015) that addresses these issues.

The City seeks a range of collaborative, solution-oriented participants to serve on the Task Force of up to 12 people. The City Council will appoint a group that will work respectfully together to create well-informed recommendations for programmatic and land-use regulations in the Fall of 2016. The City recommends stakeholder groups nominate individuals to apply to represent their collective interests. Applicants should understand both sides of the debate, the vacation home rental industry, the land use process and/or have other pertinent experience.

There will be approximately eight at-large Task Force seats to be filled by members of the community via an application process. The City intends to distribute those seats evenly among:

- Concerned neighbors who are impacted by the ADU short-term rentals
- Members of the community who own, manage or benefit from such rentals
- Renters
- Neutral but interested individuals

There will be four other seats filled by representatives from the following stakeholder groups:

- Asheville Short-Term Rental Advocates
- Asheville Neighborhood Advisory Committee
- Land of the Sky Association of Realtors
- Asheville Affordable Housing Advisory Committee

The above groups will nominate three individuals each from their respective organizations. In June 2016, the city's Governance Committee will select one representative from each of the four groups to serve on the ADU Task Force.

Regular attendance for the task force is crucial for this effort. The first meeting is anticipated in July 2016.

Each applicant also needed to indicate whether they are (1) a concerned neighbor who is impacted by the ADU short-term rentals; (2) a member of the community who owns, manages or benefits from such rentals; (3) a renter; or (4) a neutral but interested individual. In addition, the following responses to the questions needed to be included with each application: (1) What do you see as the major challenges faced in Asheville's current housing market; (2) What would you envision as the preferred outcome of this task force; and (3) As a member of this task force, it is expected that you will be fair and act in the best interest of the larger Asheville community. Please indicate whether you have any conflicts with this statement."

The following individuals applied for one of the eight at-large seats on the ADU Task Force: Carol Polsgrove, Nan Chase, Sarah Nie, John Farquhar, David Raphael Smith, Lisa Nanney, Brenda L. Crawford, Kama Ward, Jackson Tierney, Wendy Dean, Andrew Pardue, Alan Escovitz, Marian Patten, George Kroncke, Jane Mathews, Brandee Boggs, David Rodgers, Robert Michel, Maggie Smith, Carter Webb and Greta Bush.

It was the consensus of the Governance Committee on June 14, and the agreement of City Council, to readvertise, with an emphasis on recruiting renters.

African American Heritage Commission - Since no one applied for the vacancy, it was the consensus of Council to re-advertise for this seat.

Comprehensive Plan Advisory Committee - It was the consensus of Council to adopt the following recruitment statement regarding the Advisory Committee: "The City of Asheville will be undertaking a 15 to 17 month process to update the City of Asheville Comprehensive Plan. The plan will act as a resource for policy decisions by reflecting the community's vision for the

location and form of future development, while ensuring sufficient infrastructure, parks and other community services. The city has retained the services of Skidmore Owings and Merrill (SOM) to lead this effort. SOM will work with city staff to facilitate the planning process, which will include extensive public engagement.

The purpose of the Comprehensive Plan is to set forth goals and policy opportunities for sustainable growth and development over the next 10-20 years and beyond. The plan will include strategies related to land use, multimodal transportation, economic development, social equity, infrastructure, housing, livability, placemaking, open space, climate change adaptation, and sustainability.

Scope of the Comprehensive Plan Advisory Committee: SOM will work with city staff to form an Advisory Team to provide input and feedback on the planning and public engagement process. The Advisory Team will represent a broad diversity of interests on topics relevant to the Comprehensive Plan and will have representation, at minimum, from the following committees/organizations (in no particular order), plus three at-large members:

- Planning and Zoning Committee;
- African American Heritage Committee;
- City of Asheville Recreation Board;
- Asheville Downtown Commission;
- Historic Resources Commission of Asheville & Buncombe County (HRC);
- Public Art and Cultural Commission (PACC);
- Buncombe County liaison;
- Downtown Commission;
- Sustainability Advisory Committee on Energy and the Environment (SACEE);
- Asheville Multi-modal Transportation Commission;
- Asheville Affordable Housing Advisory Committee;
- Neighborhood Advisory Committee; and
- Asheville Area Chamber of Commerce.

With respect to the at-large member seats, preference will be given to candidates who broaden the diversity of interests represented on the committee.

The Advisory Committee will be involved throughout the community visioning process. The scope of the Advisory Committee includes, at a minimum, the following tasks:

- Attend a workshop with SOM's Planning Team and city staff during the Assessment Phase of the project to review deliverables related to data collection, benchmarking and public/stakeholder engagement.
- Attend 2 workshops with SOM's Planning Team and city staff during the Strategy and Vision Phase of the project to provide input on strategies related to public engagement, economic development, physical opportunity scenarios and the establishment of Asheville's Principles and Goals.
- Attend a teleconference with SOM's Planning Team and city staff at the Draft Comprehensive Plan Phase of the project to review a draft progress package and attend a follow-up workshop with SOM's Planning Team and city staff to review and comment on the Final Draft of the Plan.
- Attend a workshop with SOM's Planning Team and city staff for a presentation on the Final Comprehensive Plan.

In addition, the following responses to the questions needed to be included with each application: (1) What do you see as the major challenges facing Asheville in the next 10 years; (2) What do you see as the major opportunities available to Asheville in the next 10 years; and (3)

Do you have any affiliation with an existing City of Asheville Board or Commission? If so, please indicate the Board or Commission."

The following individuals applied for an at-large seat: Cate Ryba, Laura Evans, Kevin Teater, Suzanne Devane, Barber Melton, Marjorie McGuirk, Robert Carroll, Rachel Murdaugh, Mike Marcus, Jane Mathews, Sabrah n'haRaven, Linda Giltz and Blake Esselstyn.

It was the consensus of City Council to readvertise since they are looking for geographical diversity.

Multimodal Transportation Commission - The following individuals have applied for a vacancy: Meredith Gregory, Eric Workman, Richard Rozzelle, Keaton Edwards, Seth Connelly, Michael Speciale, Devin Clancy, Adam Charnack, Kevin Teater and David Nutter. It was the consensus of Council to postpone appointments until recommendations are received from the Multimodal Transportation Commission.

WNC Regional Air Quality Control Agency - The following individuals applied for the vacancy: Robert Lane and Joel Storrow. It was the consensus of Council to interview both candidates.

RESOLUTION NO. 16-142 - RESOLUTION APPOINTING A MEMBER TO THE GREATER ASHEVILLE REGIONAL AIRPORT AUTHORITY

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that the term of Stephanie Brown, as a member of the Greater Asheville Regional Airport Authority, expires on June 30, 2016.

No one applied for the vacancy.

It was the consensus of the Boards & Commissions Committee to reappoint Ms. Brown to serve a four-year term.

Councilman Smith moved to reappoint Stephanie Brown to serve as a member of the Greater Asheville Regional Airport Authority, to serve a four-year term, term to expire June 30, 2020, or until her successor has been appointed. This motion was seconded by Councilwoman Mayfield and carried unanimously.

RESOLUTION BOOK NO. 38 – PAGE 86

RESOLUTION NO. 16-143 - RESOLUTION APPOINTING A MEMBER TO THE CITIZENS-POLICE ADVISORY COMMITTEE

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that on May 17, 2016, City Council amended the composition to (1) convert the Asheville-Buncombe Community Relations Council seat to a seat dedicated to a resident of property owned by the Housing Authority; and (2) convert the two current ad hoc member seats to at-large seats appointed by City Council with three-year terms.

The following individuals applied for the two at-large seats: Lisa Thomson, Fred Cooke and Allison Scott.

It was the consensus of the Boards & Commissions Committee to appoint Allison Scott and re-advertise for the other at-large seat.

Councilman Smith moved to appoint Allison Scott to serve as an at-large member of the Citizens-Police Advisory Committee, to serve a three-year term, term to expire June 30, 2019, or

until her successors have been appointed. This motion was seconded by Councilman Young and carried unanimously.

RESOLUTION BOOK NO. 38 - PAGE 87

RESOLUTION NO. 16-144 - RESOLUTION APPOINTING MEMBERS TO THE ASHEVILLE-BUNCOMBE HISTORIC RESOURCES COMMISSION

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that the terms of David Nutter and Woody Farmer, as members of the Asheville-Buncombe Historic Resources Commission, expire on July 1, 2016.

The following individuals have applied for a vacancy: Craig Cline, Guy Cothran and Helen Glenn Court.

The Boards & Commission Committee recommended reappointing Mr. Farmer and appointing Craig Cline.

Councilman Smith moved to (1) reappoint Woody Farmer to serve an additional three-year term, term to expire July 1, 2019, or until his successor has been appointed; and (2) appoint Craig Cline to serve a three-year term, term to expire July 1, 2019, or until his successor has been appointed. This motion was seconded by Councilman Bothwell and carried unanimously.

RESOLUTION BOOK NO. 38 – PAGE 88

RESOLUTION NO. 16-145 – RESOLUTION APPOINTING A MEMBER TO THE NEIGHBORHOOD ADVISORY COMMITTEE

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that the terms of DeWayne Barton (representing 28806 or 28728 zip code); and Teddy Jordan (at-large member) expire on July 1, 2016. In addition, Alan Escovitz (at-large member) resigned, thus leaving an unexpired term until July 1, 2016.

The following individual applied for a vacancy: Billie Harper Buie.

It was the consensus of the Boards & Commissions Committee, and recommendation from the Neighborhood Advisory Commission, to appoint Billie Buie and re-advertise for the other seats.

Councilman Smith moved to appoint Billie Buie (Alan Escovitz at-large member) to serve a three-year term, term to expire July 1, 2019, or until her successor has been appointed. This motion was seconded by Councilman Young and carried unanimously.

RESOLUTION BOOK NO. 38- PAGE 89

RESOLUTION NO. 16-146 - RESOLUTION APPOINTING MEMBERS TO THE PUBLIC ART & CULTURAL COMMISSION

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that Jaan Ferree (term to expire June 30, 2017) and K. Johnson Bowles (term to expire June 30, 2018), have resigned from the Public Art & Cultural Commission.

The following individuals applied for this vacancy: Matthew Lands, Alyssa Dreyfus and Andrew Fletcher.

It was the consensus of the Boards & Commissions Committee to appoint Andrew Fletcher and Alyssa Dreyfus.

Councilman Smith moved to (1) appoint Andrew Fletcher as a member to the Public Art & Cultural Commission to serve the unexpired term of Ms. Ferree, term to expire June 30, 2017, or until his successor has been appointed; and (2) appoint Alyssa Dreyfus as a member to the Public Art & Cultural Commission to serve the unexpired term of Mr. Bowles, term to expire June 30, 2018, or until her successor has been appointed. This motion was seconded by Councilman Young and carried unanimously.

RESOLUTION BOOK NO. 38 – PAGE 90

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

Ms. Diane Allen, bus operator and Union President for the Amalgamated Transit Union Local 128, Ms. Kim Roney, member of the Transit Committee and Multimodal Transportation Commission, and Ms. Sabrah n'haRaven all expressed concerns and disappointment regarding the Request for Proposals and ultimate recommendation to contract with First Transit for the management of the operation of the Asheville Transit System.

Ms. Nina Hart, resident on Wellington Street, along with other area residents, showed pictures and explained the issue of massive flooding that occurs after a heavy rain on Wellington St., in the Hall Fletcher neighborhood. Although the city's storm water managers have been out to survey the situation, they have been mostly unresponsive, and have advised them, despite laws that pertain to hydraulic trespass, to direct the water into our neighbor's yard, and that is not acceptable. Using photos, they showed how fences are knocked down, neighbor's homes flood, the street is impassible, and having a "river" in their neighborhood is not acceptable. Flooding appears to be a combination of new construction (new culverts created from construction up above on Bradley St. too,) and an inadequate mitigation system for the stream running through the Hall Fletcher Elementary School property. They asked that the City mitigate all stormwater from Hall Fletcher Elementary School, Bradley Street, Collin Street, E. Indiana Street, and Frances Street so that it is not directed into the residents' private properties but rather into City storm drains. They also asked the the City be responsible and pay for mitigation on residents' private property where land and homes have been affected by outdated stormwater runoff practices. And, the asked that Development Services implement new, progressive regulations at building sites for managing stormwater runoff. City Manager Jackson was directed (1) to contact a third-party engineer and see what their recommendation is for a scope of work and associated public/private participation costs; and (2) research the City's 1992 resolution regarding storm water drainage.

Christopher Chiaronmonte spoke to Council.

Two individuals spoke to Council asking for assistance in hooking up 218 Summer Drive and surrounding homes in Arden to City water (with Duke Energy Progress paying for the hookup), due to their proximity to the coal ash plant and their contaminated water. Councilwoman Mayfield suggested (and Council agreed) that they e-mail her a copy of the water test results to see how we can get this problem addressed.

At the request of Councilman Bothwell, it was the consensus of Council to instruct the City Manager to review the tree ordinance to see if there are ways to help protect trees.

Councilwoman Mayfield announced that the Energy Innovation Task Force has created four working groups (programs, technology, peak reduction and community engagement) and encouraged interested people to apply.

VIII. ADJOURNMENT:

Mayor Manheimer adjourned the meeting at 8:23 p.m.

Magdalen Bullion
CITY CLERK

Esther E. Manheimer
MAYOR

Tuesday – June 20, 2016 - 3:00 p.m.
Room 623 - City Hall

Worksession on Bond Referendum

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Cecil Bothwell; Councilman Brian D. Haynes; Councilwoman Julie V. Mayfield; Councilman Gordon D. Smith; Councilman W. Keith Young; City Manager Gary W. Jackson; City Attorney Robin T. Currin; and City Clerk Magdalen Burleson

Absent: None

City Manager Jackson explained the purpose of the bond referendum. He explained that the additional revenue that could be realized from a bond referendum would allow Council to prioritize projects that are planned for 10 said that the City embarked on a comprehensive capital improvement program (CIP) beginning in Fiscal year 2013, when Council raised the tax rate $.02 for economic development projects and $.01 for maintenance of existing infrastructure and facilities. The CIP is at capacity; no additional projects can or more years into the future and address critical community needs.

Director of Finance and Management Services Barbara Whitehorn then outlined the General Obligation Bond Presentation Agenda - (1) Criteria to establish "Bond Ready" Projects; (2) Bond Question Categories; (3) Category Options; and (4) Recommendations.

Staff has evaluated Master Plans and existing CIP to develop the following criteria to determine which projects could be included in a 2016 bond referendum: (1) The project ties to an existing Master Plan; (2) The project has been previously discussed with Council; and (3) The project addresses a previously identified need.

Based upon the criteria, the following categories have been identified: (1) Affordable Housing; (2) Infrastructure (horizontal); (3) Parks and Recreation (parks and facilities); and (4) Public Safety facilities.

- **Affordable Housing.** Potential investments in affordable housing include dedicating additional funds to the Housing Trust Fund and the Affordable Homeownership Developer Loan program, as well as establishing a community land trust. Alternatively, there is potential for the redevelopment of city-owned land for affordable housing.

  Affordable Housing Options include (1) Housing Trust Fund Enhancement for Rental Development - Existing Structure in Place; (2) Affordable Homeownership Developer Loan Program - Secondary Construction Loans to Developers; (3) Establishment of a Community Land Trust - Contribution to a Non-Profit Third-Party; and (4) Redevelopment of Existing City-Owned Land - Key Parcels Identified and City Control of Process.

  Affordable Housing recommendations: Housing Trust Fund Enhancement, Affordable Homeownership Developer Loan Program and Community Land Trust; OR Redevelopment of Existing City-Owned Land. Total of $15 million.

- **Streets, Sidewalks and Greenways**. Streets resurfacing including pedestrian and bicycle improvements, and the replacement of traffic signals is recommended according to prioritization through the Pavement Condition Index (PCI) and area of the City. In fiscal years 2014-16, staff identified critical sidewalk needs including repair and rebuild of existing sidewalks and the addition of needed linkages. Further implementation of the Greenway Master Plan through greenway connectors and expansion of the system is also recommended.

Infrastructure Options include (1) Sidewalks - Identified critical needs throughout City; (2) Streets - According to Pavement Condition Index (PCI), Location and Impact; (3) Intersection, Pedestrian and Bicycle Improvements - Signals at Intersections in Central Business District; and Bike Lanes and Pedestrian Safety Improvements in tandem with Streets and Sidewalks – Advancing the Asheville in Motion (AIM plan); and (4) Greenways - Advancing the Greenway Master Plan.

Infrastructure recommendations: (1) Sidewalk Projects: $10,000,000; and (2) Streets & Related Projects: $20,000,000. Total of $30 million.

Transportation Infrastructure and Related Improvements:

Project	Primary	Priority/PCI	Area of City
Haywood Street	Sidewalk, other improvements	A	Central
Martin Luther King Jr. Drive	Resurfacing, Sidewalk	23, A	Central
Caledonia Road	Resurfacing, Sidewalk	47, A	East
Kenilworth Road	Sidewalk	A	East
Lakeshore Drive	Resurfacing, Sidewalk	34, A	North
N. Charlotte Street	Resurfacing, Sidewalk	40, A	North
Fulton Street	Sidewalk	A	North
Royal Pines Drive	Resurfacing	41	South
Caribou Road	Resurfacing, Sidewalk	49, A	South
Brooklyn Road	Resurfacing, Sidewalk	53, A	South
All Souls Crescent	Sidewalk	A	South
State Street	Resurfacing, Sidewalk	35, A	West
Old Haywood Road	Resurfacing, Sidewalk	45, A	West
Sulphur Springs Road	Resurfacing, Sidewalk	49, A	West
Vermont Avenue	Sidewalk	A	West
New Haw Creek Road	Sidewalk	NEW	East
Airport Road	Sidewalk	NEW	South
Swannanoa River Road	Sidewalk	NEW	South
Hill Street	Sidewalk	NEW	West
Johnston Boulevard	Sidewalk	NEW	West
Mills Gap Road	Sidewalk	NEW	South
Gerber Road	Sidewalk	NEW	South
Tunnel Road (gaps and connections)	Sidewalk	NEW	East
Patton Avenue (gaps and connections)	Sidewalk	NEW	West
Rock Hill Road	Sidewalk	NEW	South
Onteora Boulevard	Sidewalk	NEW	East
Overlook Road	Sidewalk	NEW	South
Intersection Upgrades/Replacements	Safety	n/a	Central
Greenway Connectors, extensions	Greenways	NEW	City-wide

The above list totals more than $45 million in improvements and additions to the City's sidewalk network. Staff recommends consideration of a $30 million bond in order to improve the streets infrastructure and PCI, and to further the Multimodal Transportation Master Plan.

- **Public Safety Facilities.** The AFD and APD stations and substations have been neglected for some time and need considerable upgrades and renovation to reach current code requirements, including the addition of sprinklers to some building and structural repair to others. These are prioritized by greatest need.

  Public Safety Facilities Options include (1) Fire Stations and Police Substations - Aging and outdated buildings; and Built in 1950s- 1970s; (2) Municipal Building - Staff outgrowing space; and Ongoing parking issues; and (3) Increasing maintenance and repair costs.

  Public safety facilities recommendations: (1) Fire Stations and Police Department Facilities (a) Municipal Building Improvements; (b) Police Sub-Station Improvements; (c) Fire Station Improvements; and (d) Parking Improvements. Total of $13 million.

  Public Safety Facilities:

Station/Substation	Approximate Year Built	Location
Municipal Building	1925	Central
AFD Station #12	1985	Haw Creek, East
AFD Station #9; Oakley Police Resource Center	1980	Oakley, East
AFD Station #7	1975	UNCA, North
AFD Station #5	1975	Hendersonville and Caribou, South
AFD Station #2	1975	Livingston and South French Broad, Central
AFD Station #3	1980	Oregon Avenue, West
AFD Station #8	1975	Tunnel Road, East
AFD Station #6, West Asheville Police Resource Center	1954	Haywood Road, West

The total cost to completely renovate all fire and police stations and resource centers far exceeds available resources. Staff recommends dedicating $13 million to the most critical needs including significant improvements to the Municipal Building, the oldest building in Public Safety's portfolio.

- **Parks and Recreation.** Staff used the Parks Master Plan to identify priorities for facilities and parks upgrades, including the Wesley S. Grant Sr. Center and Jake Rusher Park, ballpark improvements and lighting upgrades, improvements to playgrounds and safety, and the expansion of the park system in south Asheville.

  Parks & Recreation Options include (1) Significant Park & Facility Upgrades - Priorities according to Parks Master Plan; and 2-3 Major Projects; (2) Land Acquisition for Future Park Development - Areas of City Lacking Park Facilities; (3) Ball Field and Lighting Improvements; and (4) Playground and Court Improvements.

  Parks & Recreation recommendations: (1) Major Park Upgrades - $13,000,000; (a) Wesley Grant Sr. Center, Phase II; (b) Jake Rusher Park; and (c) Others as funding allows; (2) Ball Fields and Lighting - $2,000,000; and (3) Playgrounds and Courts - $2,000,000. Total of $17 million.

  Recreation and Parks Facilities Improvements:

Project	Primary	Master Plan?	Area of City
Wesley Grant Sr.	Continuation of vision	Yes	Central

Center Phase II			
Memorial/Mountainside Stadium	Structural and aesthetic improvements	Yes	Central
Jake Rusher Park	Major park facility upgrade	Yes	South
Montford Park Complex	Parking and improvements	Yes	North
Richmond Hill Park Restrooms	Addition of Restrooms	Yes	East
Outdoor Courts and Playgrounds	Rebuild, resurface; upgrades and equipment replacement	Yes	City-wide
Ball Fields and Lighting	Upgrades and conversion of lighting to LED	Yes	North & South
Land Acquisition	Purchase land to build parks in areas of the City lacking park facilities	Yes	North & South

The above list totals approximately $17 million in improvements.

Director of Communication and Public Engagement Dawa Hitch said said that best practices in City-sponsored communications of bond referendums include two important steps prior to questions being placed on the ballot:

- Public Engagement to determine the types of projects to place on the ballot
- Multi-channel education campaigns

Public Engagement - In determining the types of projects to include in the bond package, municipalities approach this stage in ways that best align with community needs and/or preferences. Common strategies include citizen committees, surveys, input sessions and polls. Asheville residents regularly provide input on preferences for City investments. Examples include the Downtown Master Plan; Parks Recreation and Cultural Arts Master Plan, Affordable Housing Plan, Asheville in Motion (multi-modal transportation) Plan and the Plan-on-a-Page Plans many neighborhoods are currently designing. The Citizen Surveys © conducted in 2008 and 2015 also indicate preferences and/or satisfaction with City investments.

The public participation aspects of these city plans, created a solid foundation for identifying categories and projects appropriate for a bond referendum. These plans and the public participation that created them influenced the projects outlined for today's work session. Moving forward, polling is an option to better understand community priorities at this current point in time. Another consideration is a current Board or Commission such as the Neighborhood Advisory Committee which has representation from across the City and could offer a broad perspective on priorities.

Examples from other cities:

- The City of Winston-Salem, in its 2014 bond referendum, relied on a citizen committee to identify community needs. The committee considered projects in two categories: 1) areas of disrepair, and 2) future needs for building an attractive community. In the end, the City of Winston-Salem's $139.2 million bond package included 42 projects across the city that addressed needs in the areas of parks and recreation, public safety, streets and sidewalk, housing, and economic development/infrastructure.
- The City of Hickory also collaborated with a citizen committee in narrowing down the projects that eventually made up the bond package. Hickory's $35.5 bond package includes three major projects: 1) "Riverwalk," 2) "Citywalk," 3) Streetscapes/Gateways with a final $4.5 million designated for a community park.

- The City of Charlotte has a long standing bond program and has used public input in various forms over the years, including some level of polling, to determine community priorities. Most recently, Charlotte's program has been branded a Community Investment Plan (CIP) and incorporates a high level of public engagement in the planning and implementation of the funds. The engagement includes community meetings, surveys and collaborative meetings with City planners and project managers.

The proposed projects reflect community input and priorities gathered in master planning processes and the most recent Citizen Survey. More fine-tuning opportunities include (1) polling the community regarding priority projects; and (2) gathering input from a current organized group/board/commission.

Education Campaigns - Once priority projects are identified, a multi-channel education campaign maximizes community understanding of general obligation bonds and the projects to be included on the ballot. All of the City's resources would be available for dissemination including, but not limited to: webpage, community meetings, newsletters, City Source, fact sheets, brochures, Frequently Asked Questions, PowerPoint presentations, social media and video production.

These materials would be available for any advocacy or position groups that form regarding the referendum.

Discussion surrounded the four categories identified by staff; the possibility of making progress in both of the affordable housing options/recommendations; the effect upon property taxes; why some projects are not identified since more time is necessary for analyzing and planning; what is the timeframe for completing the bond projects; how specific do the bond questions need to be; if this bond referendum is successful, possible bond referendums in future years; Homeownership Developer Loan Program and if it can work in tandem with the redevelopment of City-owned properties; acknowledgement that these potential bond projects would not come into fruitation until after 2025 based on current capacity of the CIP (noting though that some may because of the allocation of other funding sources or other allocations); need to identify major projects for the bond referendum, but will have ability for flexibility; request to include some transit station improvements; how prudent is this bond referendum from a city management and financial standpoint; how much internal staff will be required for administration of the projects (noting that some management will be able to be capitalized through the project but other costs coming out of the General Fund or other funding sources); obtaining input from relevant boards/commissions; and can we use more informal methods to do reader polls.

Additional information requested by City Council included: a side by side comparison of the CIP next to this list for a more global review of what can be accomplished with a bond referendum; geographic map for major projects; how this bond referendum aligns with successful bond referendums in other cities; sense of how far along we are in the plan for the projects so Council can get a sense of how close the estimates are from a dollar perspective, as well as the work plan; need additional information on the public safety facilities (noting it has not been discussed by the Public Safety Committee); information on what is identified in the Transit CIP and their priorities; where we are with debt per citizen if the bond program moves forward; information on what type of taxpayer increase will be necessary to cover the project and administrative costs, going beyond just the building construction (maintenance, etc.); information on how Asheville's taxes are compared to other North Carolina cities; additional linkage of parks to the Master Plan; and request to see what the benefits would be for the taxpayers in the four categories. City Manager Jackson said that he would work on providing this information to Council prior to their next worksession on June 28. He also asked that if Council had other questions, to please e-mail them to him and he would attempt to get that information prior to the next worksession as well.

Council agreed that public input in important and would be interested in receiving that prior to the decision of placing the questions on the ballot. Some Council felt that the $75 Million bond referendum proposed is a little high.

Mayor Manheimer personally had a concern about the public safety facilities, along with the affordable housing category.

City Manager Jackson acknowledged that if all projects are approved by the bond referendum that it will require a significant amount of project management, outside engineering services, etc., that is built into the estimates. He felt confident in staff's ability to complete the projects in 5-7 years, but did not recommend any more projects. He even suggested Council scale back the list to some degree.

Mayor Manheimer suggested the polling topics include (1) Affordable Housing; (2) Infrastructure (horizontal); (3) Parks and Recreation (parks and facilities); and (4) Public Safety facilities." She also suggested subtopics as outlined in the presentation. Councilwoman Mayfield also suggested questions related to potential increases to tax bill.

It was the consensus of Council to instruct Ms. Hitch to begin the process of polling, with said contract amount of a sample size of 330 being in the $5-10,000 range; and also the consensus for staff to move forward with the four broad categories recommended by staff.

Mayor Manheimer adjourned the meeting at 4:28 p.m.

Magdalen Burleson
CITY CLERK

Esther E. Manheimer
MAYOR

Tuesday – June 28, 2016 - 10:00 a.m.
Municipal Building

Worksession on Bond Referendum

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Cecil Bothwell; Councilman Brian D. Haynes; Councilwoman Julie V. Mayfield; Councilman Gordon D. Smith; Councilman W. Keith Young; City Manager Gary W. Jackson; City Attorney Robin T. Currin; and City Clerk Magdalen Burleson

Absent: None

City Manager Jackson recapped where we are up to today.

Director of Finance and Management Services Barbara Whitehorn provided the Council with the property tax history and context.

Ms. Whitehorn then reviewed the following four main categories, with assistance from Public Works Director Greg Shuler, Transportation Director Ken Putnam, Director of Parks & Recreation Roderick Simmons, Assistant City Manager Paul Fetherston, Community Development Manager Jeff Staudinger, and Assistant City Manager Cathy Ball. They then outlined each subproject justification and amount, and asked if these are the categories that Council wants to see on the ballot.

1. Parks and Recreation - Funding Recommendation $17 Million.

Option Justification: The City of Asheville – located in the heart of the Blue Ridge Mountains – has a history and culture that supports the benefits of cultural and recreational opportunities within the community. As outlined in the City Council adopted Parks, Recreation, Cultural Arts, and Greenways Master Plan (2009), the City must invest in improvements to existing facilities, programs, development of new parks and facilities in order to maintain and enhance the level of service in Parks and Recreation.

This proposed package of investments in Parks and Recreation was developed in conjunction with the following principles:

- Assuring high quality facilities by concentrating facility improvement efforts on bringing older facilities up-to-date as neighborhood centers before adding new community-wide center elements to the system
- Providing for facilities and resources across the community that meet level of service needs within those areas
- Focus on improvements of assets across the community in a manner that maximizes access to quality resources community-wide and within each area of the community, or through centralized and accessible resources

As outlined below, a bond package that focuses investments within these areas enables the community to complete significant capital maintenance and improvement projects that otherwise would not be completed within the next 5-10 years, if not later. In addition, the investments enable the community to maximize its resources on long-term improvements rather than in a piece-meal manner that is focused on short term reactionary maintenance efforts in an environment of competing interests for limited resources.

Recommended Projects:

Project	Area	Amount

Wesley Grant Center Phase II	Central	$4.65 Million
Memorial/Mountainside Stadium	Central	$4.075 Million
Jake Rusher Park	South	$825,000
Montford Park Complex Improvements	North	$1.7 Million
Richmond Hill Park Restrooms	East	$520,000
Outdoor Courts and Playgrounds	City-Wide	$2.03 Million
Ball Fields Lighting	North & South	$1.2 Million
Land Acquisition for Parks	North & South	$2 Million
	Total	$17 Million

2. Infrastructure - Funding Recommendation $30 Million.

Option Justification: The City's infrastructure plays a vital role in connecting people to places safely for work and play. Improved transit, bikeways, greenways and mobility have been identified as priorities for our city by the Asheville in Motion mobility plan, the Transit Master Plan, the Greenway Master Plan, City Council's 2036 Vision and the citizen of Asheville.

Recommended Projects:

- Streets and Bikeway Improvements
- Sidewalk Maintenance
- New Sidewalks
- Transportation Safety
- Greenway

Streets and Bikeways	$15,500,000
Sidewalk Improvements	$ 3,535,000
New Sidewalk Projects	$ 6,320,000
Transportation Safety	$ 1,900,000
Greenways	$ 4,600,000
Total	$31,855,000

3. Public Safety - Funding Recommendation $13 Million.

Option Justification: City-wide Facilities Overview - Currently, the City of Asheville provides operations, services and programs to a community base of approximately 87,882 (2014) residents, and these services support between three and nine million visitors annually. Such operations, services and programs are provided by an employee base of 1,203 located in over 60 facilities located across the city. The facilities from which these operations, services and programs are based vary in age and condition. Each year, capital funding of $275,000 (Facility Upgrades) and $150,000 (Roof Replacements) is allocated to address capital improvements and renovations for all facilities. General fund dollars pay for operations & maintenance costs such as utilities and contracted services (e.g., elevator maintenance), and there is a separate general fund allocation of $363,000 to pay for day-to-day repairs and maintenance.

Public Safety Facilities Overview - The City provides public safety services (Police, Fire and Rescue) on a 24 hour/7 day per week basis to the residents and visitors within the community through an employee base of 545 (45% of City employees). The facilities from which these public safety services are provided include the Municipal Building (located at 100 Court Plaza), remote fire stations, and police sub-stations, plus a number of support facilities for equipment and other purposes. As noted later in this report, the age and condition of each facility vary. There is no dedicated funding stream for capital improvements or renovations for public safety facilities, so these buildings compete with

all City-owned facilities for the total annual capital allocation of $425,000 for Facility Upgrades & Roof Replacements and any available general fund dollars for repairs & maintenance.

This proposed package of investments in Public Safety facilities was developed in conjunction with the following principles:

- Assuring facilities through which critical public safety services can be provided in a manner that meets level of service needs across the community and within each respective area;
- Focus on improvements to facilities through which critical public safety services can be provided in an equitable manner community-wide and within each area of the community;
- Prioritize renovations at facilities with the highest level of occupancy or use, which is 24/7 at the proposed locations.

As outlined below, a bond package that focuses investments within these areas enables the community to complete significant capital maintenance and improvement projects that otherwise would not be completed within the next 5-10 years, if not later. In addition, the investments enable the community to maximize its resources on long-term improvements rather than in a piece-meal manner that is focused on short term reactionary maintenance efforts in an environment of competing interests for limited resources.

Recommended Projects:

PROJECT	AREA	AMOUNT	TIMING without bond	TIMING with bond
Municipal Building Renovations and Improvements	Downtown with City-wide impacts	$8 million total Renovations-$3 million Expansion-$5 million	Unknown as no funding allocated	Renovations complete within 2-3 years; Expansion complete within 4-5 years
Remote Fire Station and Police Sub-Station Renovations	Specific community locations with City-wide impacts	$5 million	Unknown as no funding allocated	Renovations complete within 2 years
TOTAL		$13 million		

4. Affordable Housing Programs - Funding Recommendation $30 Million.

Option Justification: Asheville is in an affordable housing crisis that continues to worsen each year. Even with the increase in the number of rental units on the market, rental prices are still increasing. The Affordable Housing Score Card completed in January 2014 states that, "In 2013, the Asheville Consortium assisted with 402 affordable housing units, while the city of Durham assisted with 167 units." Even with our successful accomplishments, it is not enough.

The Bowen Report of January, 2015, stated that the City needs more than 7,000 housing units affordable to low and moderate income families by 2020. Our current pace to meet that need, supporting 100- 200 new units a year through our existing funding, falls far short of meeting that need, and short of Council's goal of 2,800 new units by 2022.

Additional funding dedicated to affordable housing will help provide new housing solutions, as well as creates economic benefit through job creation, materials purchasing and secondary spending.

Many of the programs recommended in this package will require additional resources in the early years of the bond to establish processes and procedures. The staffing demands become less onerous as the programs become more established.

The city's comprehensive affordable housing strategy includes the recommendation for additional dedicated funding for affordable housing through:

- Creating diverse housing choices in every neighborhood.
- Facilitating the creation of a variety of housing options in every part of the city, including existing single-family neighborhoods and commercial districts.

Recommended Programs/Initiatives:

1.	Homeownership Developer Loan Program	- $7 Million
2.	Increased Housing Trust Fund	- $5 Million
3.	Community Land Trust Formation	- $3 Million
4.	Land Banking or Repurposing City Owned Land	- $15 Million
	Total	- $30 Million

Ms. Whitehorn then reviewed the remaining 6 week schedule, noting that staff goes to the Local Government Commission (LGC) to present the purpose and scope on Friday, July 1, 2016. At this meeting, the maximum scope and all categories must be determined.

Councilwoman Mayfield asked that $250,000 be dedicated to the renovations of the Thomas Wolfe Cabin. It was the consensus of Council to include that in the proposal under the Parks and Recreation category.

After discussion and staff responses to questions/comments, Council then each identified their preferences on the project categories, along with how much funding should be dedicated to each category and to the whole. It was the consensus of Council to rename "Infrastructure" to "Transportation."

Mayor Manheimer: Transportation - entire $32 Million; Parks and Recreation - entire $17 Million; Public Safety - Zero; and Affordable Housing - $5 Million (only for Housing Trust Fund). Total of $54 Million.

Vice-Mayor Wisler: Transportation - $25 Million; Parks and Recreation - $10-15 Million range; Public Safety - Zero; and Affordable Housing - $5 Million (only for Housing Trust Fund). Total $40-45 Million.

Councilman Young - Transportation - entire $30 Million; Parks and Recreation - $11 Million; Public Safety - Zero; and Affordable Housing - $20 Million (no Housing Trust Fund). Total $61 Million.

Councilman Smith - Transportation - entire $32 Million; Parks and Recreation - entire $17 Million; Public Safety - Zero; and Affordable Housing - $21 Million. Total $70 Million.

Councilwoman Mayfield - Transportation - entire $32 Million; Parks and Recreation - $15 Million (no land acquisition for parks); Public Safety - $10 Million (expansion only); and Affordable Housing - $23 Million (no Homeownership Developer Loan Program). Total $80 Million.

Councilman Bothwell - Transportation - entire $32 Million; Parks and Recreation - entire $17,000; Public Safety - Zero; and Affordable Housing - $15 Million (no land banking or repurposing City-owned land). Total $64 Million.

Councilman Haynes - Transportation - entire $32 Million; Parks and Recreation - entire $17 Million; Public Safety - Zero; and Affordable Housing - $25 Million (no Housing Trust Fund). Total $74 Million.

After a brief discussion about whether to leave Public Safety as a category to advance to the LGC and have it as a polling question, it was the consensus of Council to remove that as an item to move forward to the LGC. Council agreed that this particular issue needed to receive review by the Public Safety Committee and the full Council.

It was the consensus of Council to have the following three categories presented to the LGC: (1) Transportation - $32 Million; (2) Parks and Recreation - $17 Million; and (3) Affordable Housing - $25 Million. Total - $74 Million. Council also will work towards a bond reduction amount of approximately $50-60 Million.

Mayor Manheimer adjourned the worksession at 11:55 a.m.

Tuesday – June 28, 2016 - 5:00 p.m.

Regular Meeting

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Cecil Bothwell; Councilman Brian D. Haynes; Councilwoman Julie V. Mayfield; Councilman Gordon D. Smith; Councilman W. Keith Young; City Manager Gary W. Jackson; City Attorney Robin T. Currin; and City Clerk Magdalen Burleson

Absent: None

PLEDGE OF ALLEGIANCE

Mayor Manheimer led City Council in the Pledge of Allegiance.

I. PROCLAMATIONS:

A. RESOLUTION NO. 16-147 - RESOLUTION IN MEMORY OF ISAAC COLEMAN

Councilman Young read the resolution in memory of Isaac Coleman and presented it to Ms. Wanda Coleman. Ms. Coleman, on behalf of his family, hoped that everyone would remember what Isaac stood for.

Resolution No. 16-147 was adopted by acclamation.

RESOLUTION BOOK NO. 38 – PAGE 91

II. CONSENT AGENDA:

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON JUNE 14, 2016 AND THE WORKSESSION HELD ON JUNE 20, 2016

B. ORDINANCE NO. 4509 - BUDGET AMENDMENT FROM DUKE ENERGY PROGRESS FOR ENERGY EFFICIENCY REBATES

Summary: The consideration of a budget amendment, in the amount of $6,708.90, from Duke Energy Progress for energy efficiency rebates.

The funds received are from Duke Energy Progress for the upgrade of the exterior spotlights on City Hall. The new LED lights use 1/10 of the energy of the previous metal halide lights. The received funds will go into sustainability programming, which will fund further energy efficiency upgrades and other green initiatives.

Pro:

- Accepting these funds will allow the city to continue investing in improving in public energy infrastructure.

Con:

- None can be identified.

The $6,708.90 will be used as revenue to further fund sustainability programming.

City staff recommends City Council accept $6,708.90 from Duke Energy Progress for energy efficiency rebates.

ORDINANCE BOOK NO. 30 - PAGE 359

C. RESOLUTION NO. 16-148 - RESOLUTION APPOINTING A MEMBER TO THE CITIZENS-POLICE ADVISORY COMMITTEE

Summary: On May 17, 2016, City Council amended the composition of the Citizens-Police Advisory Committee to (1) convert the Asheville-Buncombe Community Relations Council seat to a seat dedicated to a resident of property owned by the Housing Authority; and (2) convert the two current ad hoc member seats to at-large seats appointed by City Council with three-year terms.

Mr. Sir Charles Gardner, 14 Granada Street, Asheville, N.C., be and he is hereby appointed to the seat dedicated to a resident of property owned by the Housing Authority, to serve a three-year term, term to begin immediately and expire June 30, 2019, or until his successor has been appointed.

RESOLUTION BOOK NO. 38 - PAGE 92

D. RESOLUTION NO. 16-149 - RESOLUTION REAPPOINTING ALAN COXIE AS CHAIR TO THE CIVIL SERVICE BOARD

Summary: It is the responsibility of City Council to appoint the Chair of the Civil Service Board and the Chair of the Civil Service Board shall be appointed annually by City Council.

In 2013, a process was established for future appointments to the chair role of the Civil Service Board. Said process offered members of the Civil Service Board to express interest in serving as Chair.

On April 14, 2016, all members were advised to contact City Clerk Burleson if they were interested in serving as Chair. Mr. Alan Coxie was the only interested member. The term of the current Chair Alan Coxie expired on June 25, 2016.

Mr. Alan Coxie be and he is hereby reappointed as Chairman of the Civil Service Board to serve a one-year term until his successor is duly appointed or until his term on the Civil Service Board expires, whichever occurs first.

RESOLUTION BOOK NO. 38 - PAGE 93

E. RESOLUTION NO. 16-150 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ACCEPT ADDITIONAL EMERGENCY SOLUTIONS GRANT FUNDS FOR RAPID RE-HOUSING AND ADMINISTRATION

Summary: The consideration of a resolution authorizing the City Manager to accept additional Emergency Solutions Grant funds for Rapid Re-housing and Administration.

The State of North Carolina has awarded 2015-16 Emergency Solutions Grant (ESG) funds to the City of Asheville in order to fund local agencies to provide emergency shelter and rapid rehousing services for homeless individuals and families, as well as administrative support for the City of Asheville. Due to high outcomes in FY14-15, additional Rapid Re-housing money and administration support has been awarded.

The City of Asheville has been granted an additional $30,372 in the FY16 cycle for the following activities:

	Emergency Response	Housing Stabilization	Administration	Total
Organization				
Homeward Bound		$ 28,372		$ 28,372
City of Asheville			$ 2,000	$ 2,000
TOTAL AWARD		**$ 28,372**	**$ 2,000**	**$ 30,372**

The award of funds was limited to Homeward Bound and the City of Asheville, as the other ESG recipients do not perform Rapid Re-housing or Administration activities. All of the State's requirements have been met by the agencies being recommended for the additional grant funds.

Pro:

- Approval of the Amendment allows additional homeless households to move to permanent housing in 2016.

Con:

- None noted.

The Emergency Solutions Grant is fully funded from the State of North Carolina Division of Aging and Adults Services, Housing and Homeless Unit.

Staff recommends approval of the resolution authorizing acceptance of an additional $30,372 in Emergency Solutions Grant funds from the State Division of Aging and Adult Services (DAAS), Housing and Homeless Unit.

RESOLUTION BOOK NO. 38 - PAGE 94

F. RESOLUTION NO. 16-151 - RESOLUTION AUTHORIZING THE CITY TO APPLY FOR FUNDS THROUGH THE US OFFICE OF JUSTICE 2016 EDWARD BYRNE JUSTICE ASSISTANCE GRANT - LOCAL SOLICITATION

Summary: The consideration of a resolution authorizing the City to apply for funds through the US Office of Justice 2016 Edward Byrne Justice Assistance Grant –Local Solicitation in the amount of $55,150.

The City of Asheville Police Department (APD) requests authorization to apply for the Byrne JAG – Local Solicitation. This is a predetermined amount of funds based on the Part 1 Uniform Crime Reporting Crimes. If the grant is approved the Asheville Police Department

and Buncombe County Sheriff's Department will be allocated $55,150 based on the award matrix, with Asheville receiving $43,902 and Buncombe County receiving $11,248. The distribution of funds would be approved through a signed Memorandum of Understanding.

Funds will be utilized to purchase Taser devices which will serve to enhance officer safety and potentially reduce the propensity for injury that offenders could be exposed to during altercations with officers. Effective Taser applications have demonstrated the capability to incapacitate threatening subjects by using an electrical charge to target the motor nerves that control movement. Ideally, these devices facilitate effective restraint while reducing the opportunity for injury to all involved parties, thereby potentially reducing workers' compensation claims and liability claims.

There will be an expense of $43,902 by the APD for the purchase of approximately 30 Tasers. The Buncombe County Sheriff's Department will be awarded $11,248 for its identified needs. This accounts for the total allocation of $55,150 for this grant.

This is a 100% funded non-local match grant that will serve to enhance officer safety for substantially more patrol officers and potentially reduce the probability of injury for threatening offenders.

Pros:

- Increasing the number of Tasers for patrol officers will enhance officer safety and that of the community
- Increased accountability because of the downloadable content related to deployments
- Costs of the devices could offset the costs incurred by workers' compensation or liability claims

Cons:

- Additional burden on future operations budget for the cost of maintenance and replacement after the approximate five-year service life of the device
- Additional training costs associated with purchasing the training cartridges at an approximate cost of $40 per year per device.

If the grant is awarded, there is no local match required, however there would be maintenance and replacement costs for the equipment that would need to be included in future fiscal year budgets.

Staff recommends City Council adopt the resolution authorizing the City Manager to apply for grant funds through US Office of Justice Programs in the amount of $55,150.

RESOLUTION BOOK NO. 38 - PAGE 95

G. RESOLUTION NO. 16-152 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE AN INTERLOCAL AGREEMENT WITH BUNCOMBE COUNTY FOR PHASE II OF THE COMPOSTING FEASIBILITY STUDY

Summary: The consideration of an Intergovernmental Agreement between Buncombe County and City of Asheville to continue a partnership to study the implementation of an organic waste processing operation at the Buncombe County Landfill.

In February 2013, City Council approved Resolution 13-178 authorizing The City of Asheville and Buncombe County partnership to perform a feasibility study for an organic waste processing operation. The study focused on organic waste generated by residential units in the

City with the objective of determining the most cost effective and sustainable means of collecting, hauling and processing organic waste from the City.

The study included a waste composition field audit that estimate a percentage of the organics in the post-recycled waste stream from residential units within the City. Organic waste identified for the study included: food waste, food-contaminated paper products, household plants and yard debris. The audit yielded 26% organic waste within the post-recycled waste stream.

Through the Phase I Organic Waste Study, it was concluded that the best method for processing organic waste was by an anaerobic digester based on estimates for capital expenditures, annual operations and maintenance, and revenue from power sales.

Phase II of the study will focus on waste generation projections in Asheville and Buncombe County, projected program costs and landfill capacity.

Phase II tasks to be completed:

1. Introductory report,
2. Refine current and future waste generation projections,
3. Estimate the amount of organic waste available for the proposed processing facility,
4. Evaluate MSW collection system modification options,
5. Project future solid waste program costs and landfill capacity,
6. Draft final report, and
7. Meetings.

Pros:

- Addresses Resolution 14-27 Waste Reduction Goal and Benchmarks
- Continued effort towards Zero Waste Asheville
- Evaluate the feasibility of a large scale organics program for the residents of Asheville

Con:

- None foreseen

Phase II of the study will be performed by Environmental Infrastructure Consulting and proposed a cost of $75,000. The City has agreed to reimburse the County for one half the cost of this work, $37,500. Sustainability funds will be used for the Phase II study.

City staff recommends City Council adopt the Intergovernmental Agreement with Buncombe County to continue the organics study.

RESOLUTION BOOK NO. 38 - PAGE 96

H. ORDINANCE NO. 4510 - ORDINANCE ENACTING A 25 MILES PER HOUR SPEED LIMIT ON VARIOUS SECTIONS OF STREETS IN THE CITY OF ASHEVILLE

Summary: The consideration of an ordinance to enact and/or change the speed limits on various sections of streets in the City of Asheville.

According to state law (NCGS # 20-141), the statutory speed limit in North Carolina is 35 mph inside municipal corporate limits for all vehicles and 55 mph outside municipal corporate limits for all vehicles except for school buses and school activity buses.

Furthermore, local authorities may authorize by ordinance higher speeds or lower speeds than the statutory 35 mph speed limit on locally-maintained streets provided that the higher speed

limit cannot exceed 55 mph. Speed limits authorized by local authorities are effective when the appropriate signs are erected.

City staff recently completed traffic engineering investigations and determined that a 25 mph speed limit would be reasonable and safe on Beaver Valley Road from Beaverdam Road to End of City Maintenance, Charlotte Street from Orchard Street to Woodlink Road, Davenport Road from Brevard Road to End of City Maintenance, Gudger Road from Sand Hill Road to Sand Hill School Road, Holly Ridge Drive from Westridge Drive to Bevlyn Drive, Homeway Road from Appalachian Way to Lakeside Drive, Inglewood Road from Elk Mountain Scenic Highway to Windsor Road, Iris Street from Shady Oak Lane to London Road, Reed Street from US 25A Sweeten Creek Road to Fielding Street, School Road East from Onteora BLVD to End of City Maintenance, Sulphur Springs Road from US 19/23 Bus Haywood Road to Mimosa Road, Westridge Drive from Overlook Road to Springside Road.

Pros:

- City staff has been able to respond favorably to citizen's requests.
- The new speed limits will be consistent with roads of like character and design.
- This action will also bring some of the roads into line with our speed limit policies
- Based on the 85th percentile speeds, most drivers would adhere to the recommended speed limits on these roads.

Cons:

- The initial cost to install the appropriate speed limit signs is about $1,500.00.
- Typically, speed limit signs have a serviceable life of five to seven years.

The initial cost to install the appropriate speed limit signs is about $1,500.00 and is included in the current operating budget for the Transportation Department.

City staff recommends that City Council approve an ordinance enacting a 25 mph speed limit on Beaver Valley Road from Beaverdam Road to End of City Maintenance, Charlotte Street from Orchard Street to Woodlink Road, Davenport Road from Brevard Road to End of City Maintenance, Gudger Road from Sand Hill Road to Sand Hill School Road, Holly Ridge Drive from Westridge Drive to Bevlyn Drive, Homeway Road from Appalachian Way to Lakeside Drive, Inglewood Road from Elk Mountain Scenic Highway to Windsor Road, Iris Street from Shady Oak Lane to London Road, Reed Street from US 25A Sweeten Creek Road to Fielding Street, School Road East from Onteora BLVD to End of City Maintenance, Sulphur Springs Road from US 19/23 Bus Haywood Road to Mimosa Road Westridge Drive from Overlook Road to Springside Road.

At the suggestion of Vice-Mayor Wisler, it was the consensus of Council to have the Traffic Engineer brief the Public Safety Committee on the City's current policy regarding the City-wide 35 miles per hour speed limit and the possibility of reducing it to 25 miles per hour.

ORDINANCE BOOK NO. 30 - PAGE 361

I. RESOLUTION NO. 16-153 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE AN EASEMENT FROM THE ASBURY UNITED METHODIST CHURCH FOR PARKING IMPROVEMENTS

Summary: The consideration of a resolution authorizing the City Manager to accept by donation or otherwise, an easement of real property for parking and sidewalk improvements on Kimberly Avenue at the Asbury Memorial United Methodist Church.

Asheville City Streets Department has been working with the Asbury Memorial United Methodist Church (Asbury Church) to relocate the sidewalk and alter the parking along Kimberly Avenue at their property located at 171 Beaverdam Road. An easement from the church would be needed to make these improvements. The Church is located at Beaverdam Road and

Kimberly Avenue and the PIN for this parcel is 9740-54-3475. The City is requesting 4,500 square feet or 0.103 acres of permanent easement. The Church had indicated that they are donating this easement.

Pro: The installation of public infrastructure on Kimberly Avenue will increase safety for pedestrians and vehicles using this street.

Con: The City would be responsible for ongoing maintenance of improvements.

No fiscal impact as the Asbury Church expects to grant the easement at no cost to the City.

City staff recommends that the City Council approve a resolution authorizing the City Manager to accept the easement in real property through donation or otherwise for the purpose of implementing these street improvements on Kimberly Avenue.

RESOLUTION BOOK NO. 38 - PAGE 97

J. RESOLUTION NO. 16-154 - RESOLUTION SETTING A PUBLIC HEARING ON JULY 26, 2016, TO CONSIDER A LAND USE INCENTIVE GRANT FOR SMITH MILL PLACE (BIOTAT LLC)

Summary: The consideration of a resolution setting a public hearing on July 26, 2016, to consider a land use incentive grant for Smith Mill Place (Biotat LLC).

The developer of Smith Mill Place, Biotat LLC, has applied for a Land Use Incentive Grant per the policy adopted by Council, and amended on September 22, 2015.

Biotat LLC, represented by Ward Griffin, seeks to develop a 3.71 acre site, located at 29 Oak Hill Road. The developer estimates a total development cost of $6.95 million. The project consists of 72 residential rental apartments (36 one-bedroom units, and 36 three-bedroom apartments) in three, three story buildings.

The project, as presented to staff, appears to meet the following Eligibility Requirements,

- The proposed development consists of three or more dwelling units for rent;
- At least 10% of the units will meet the affordability standards set by the City of Asheville for households earning 80% or less of the Area Median Income.
- The affordable units will be affordable to and leased to income-eligible households for at least 15 years.
- The proposed development must be located inside the city limits.
- The proposed development must be located to provide residents convenient access to jobs, schools and services

Scoring

Affordable Rental Housing - The proposed project will provide 36 units affordable to households at 60% or less of median income, and the developer has committed to the affordability period of 15 years. The project qualifies for 60 points.

Workforce Rental Housing - The proposed project will provide 36 units (the remainder of the units) for households earning 100% of less of median income (this has been verified with the

developer, who indicated 120% of median income in the application), for a period of 20 years. The project qualifies for 15 points.

Superior locational efficiency - The proposed project is within .25 mile of an existing bus-stop served by one-half hour ART transit frequency. The project qualifies for 10 points.

Long term affordability - The proposed project will be committed to serving households at the designated rental rates for a period of 20 years. This qualifies the project for 10 points.

Staff has scored the project with 95 points, and the developer agrees with that scoring. The project qualifies for a Nine and One-Half Year (9.5) Land Use Incentive Grant.

The Housing and Community Development Committee reviewed the application at their meeting on June 14, 2016, and unanimously recommended approval of the Land Use Incentive Grant as outlined in this staff report.

Pros:

- The proposed project will provide affordable rental housing to 60 households earning 60% or less of area median income, for a period of at least 20 years;
- The proposed project addresses the pressing need for affordable one-bedroom apartments;
- The proposed project has a significant economic impact. Construction wages and material purchases will positively affect the local and regional economy.

Cons:

- Cost estimates are not yet fully developed, and project costs as presented may change as it moves towards development.

Estimated value of Land Use Incentive: The current assessed value of the property is $243,100. The developer's estimate of completed project taxable value is $6,949,313. The current annual city tax, based on current assessed value, is $1,154.73. The annual estimated city tax post completion, based on the developer's estimate of value is $33,009.24. Therefore, the estimated annual Land Use Incentive Grant would be $31,854.51, the exact amount to be determined by the length, in years, of the grant award, and the actual assessed value of the development upon completion. If approved for 9.5 years, the estimated Grant would be $302,617.86. The subsidy per affordable and workforce unit would be $4,203. The subsidy amount per affordable and workforce unit/year would be $210.

The estimated amount of fees payable for Zoning Permit, Building Permit, Driveway Permit, Grading Permit, Plan Review Fees and Water Service Connection Fee is $162,000. The value of each 10% of the fee rebate would be $16,200. The exact amount would be determined by the percentage of fee rebate awarded as part of the Land Use Incentive Grant. If approved at the 95 point level, the fee rebate would be $153,900, which is $2,138 per unit.

This project has been approved for a Housing Trust Fund loan. The loan amount approved is $520,000, for a loan term of 20 years, with a graduated 2% interest rate. The HTF loan per affordable unit is $14,444. The total estimated subsidy per affordable unit, if the LUIG is approved, would be $20,785.

Staff recommends that Council set a public hearing on July 26, 2016, to hear and act upon the request of Biotat LLC for a Land Use Incentive Grant.

RESOLUTION BOOK NO. 38 - PAGE 98

K. RESOLUTION NO. 16-155 - RESOLUTION AUTHORIZING THE APPROVAL OF THE 2016-17 STRATEGIC PARTNERSHIP FUND GRANTS

Summary: The consideration of a resolution approving the recommendations of the Housing & Community Development (HCD) Committee for the 2016-17 Strategic Partnership Fund.

The HCD Committee received applications from 21 eligible organizations for Strategic Partnership Funds for 2016-17. The HCD Committee considered these applications at their meeting on June 7, 2016, and now recommends 16 applications for funding. The recommendations are:

AGENCY	**AWARD**
Asheville Area Arts Council	$10,000
Appalachian Sustainable Agriculture Project	$5,000
Asheville Design Center	$2,000
Bountiful Cities	$11,000
Children First	$20,000
Residents' Council – Asheville Housing Authority	$10,000
Homeward Bound	$30,000
My Daddy Taught Me That	$20,000
OnTrack Financial	$12,000
One Youth at a Time	$5,000
Partners Unlimited	$5,000
Project Lighten Up	$3,500
Read to Succeed	$4,000
WNC New Economy Coalition	$6,900
United Way 211	$2,000
YWCA	$12,000
TOTAL	**$158,400**

Total recommended funding is $158,400. This amount is unchanged from last year's Strategic Partnership Fund Program.

Pros:

- Approval of the Strategic Partnership Fund provides operating support to Asheville-based organizations that are providing direct services for Asheville residents.

- The Strategic Partnership Fund reflects the carefully considered recommendations of the City's Housing & Community Development Committee.

Con:

- Budget constraints continue to curtail the availability of funds; supported organizations will need to find alternate sources of program support. All worthy proposals could not be funded.

Strategic Partnership Funds are funded from the City's general fund. The funding recommendations do not exceed the fiscal limits included in the FY 2016-2017 Budget of $158,400.

The HCD Committee recommends approval of the 2016-17 Strategic Partnership Fund grants as presented.

RESOLUTION BOOK NO. 38 – PAGE 99

L. RESOLUTION NO. 16-156 - RESOLUTION REJECTING ALL OF THE BIDS SUBMITTED FOR THE JOHN B. LEWIS SOCCER COMPLEX SYNTHETIC TURF REPLACEMENT PROJECT

Summary: The consideration of a resolution rejecting all of the bids submitted for the John B. Lewis Soccer Complex Synthetic Turf Replacement project.

The John B. Lewis Soccer Complex opened in 2005 and features four soccer fields. The fields were installed with synthetic turf with an expected lifespan of ten years. As a result, the fields have exceeded their useful life and the turf is worn and needs to be replaced.

ABYSA, who will be funding a majority of the construction cost, directly engaged an engineer to design the project and provide the specifications for the turf replacement which include the bid evaluation process.

The City was responsible for conducting the public bid process for this formal construction project. The City issued an Advertisement for Bids (bid #298-bidjbl) for the Turf Replacement (a formal construction process subject to NCGS 143-129) and on May 31, 2016, there were four bids received and opened.

Initial evaluation of all of the bids was conducted by the engineer who had written the project specifications and then provided his assessment to City staff for final review.

During this review staff concluded that in certain aspects, these evaluations were inconsistent with the City's standard evaluative process and the public bidding statutes.

And therefore, due to these concerns, it would be in the best interest of the City to reject all bids and start the process anew with the City staff assuming responsibility for the project's entire process for construction.

North Carolina General Statute §143-129 authorizes the rejection of bids for any reason determined by the governing body to be in the best interest of the City.

Additionally, it was made clear in the instructions for this Turf Replacement Bid, as with all City bids, that the City reserves the right to reject any and all bids.

Therefore, staff is requesting that the City Council reject the bids for the project. ABYSA is working with the Buncombe County Tourism Product Development Fund Committee to get an extension of the grant they were awarded for this project.

City staff recommends that the City Council reject all of the bids submitted for the John B. Lewis Soccer Complex Synthetic Turf Replacement project opened on May 31, 2016.

RESOLUTION BOOK NO. 38 - PAGE 101

M. RESOLUTION NO. 16-157 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A MUTUAL AID AGREEMENT AND MEMORANDUM OF AGREEMENT WITH LAND OF SKY REGIONAL COUNCIL TO PURSUE REGIONAL GIGABIT BROADBAND ADVANCEMENT IN IN WESTERN NORTH CAROLINA AND SUPPORT A LAND OF SKY GRANT APPLICATION

Summary: The consideration of a resolution authorizing the City Manager to enter into a Mutual Agreement and Memorandum of Agreement with Land of Sky Regional Council (Land of Sky) to pursue regional gigabit broadband advancement in Western North Carolina; and to support a Land of Sky grant application.

For Council's review are three documents relative to Asheville's participation in the initiative led by Land of Sky, called "West – Next Generation Network" (WestNGN). The initiative seeks to expand high-speed Internet service at gigabit speeds. The City's Finance committee will review these documents at their June 28 meeting.

The first of the documents is the Mutual Agreement. This spells out the work of the steering committee and overall goals. The second document is the Memorandum of Agreement, which spells out Asheville's contractual relationship with Land of Sky to provide technical assistance and project management. Specifically, Land of Sky will be contracting with an individual or firm to draft an RFP to achieve goals related to expanding high speed ("gigabit") service in the region. Land of Sky will also be compiling data and administering an RFP release and response process. Land of Sky will also apply for an Appalachian Regional Commission (ARC) grant to support the effort, and staff proposes to supply a letter of support.

Pros:

- This effort is built on a model used elsewhere (Research Triangle)
- Regional collaboration between cities including Fletcher, Hendersonville, and Asheville
- Gigabit network availability has shown to be a positive in municipalities like Kansas City and Chattanooga

Con:

- Some cost associated with the effort.

Regional municipal partners are cooperating to cover Land of Sky costs. Asheville's share will be $11,893 and will be funded within the existing FY 2015-16 ITS Departmental budget.

City staff recommends City Council approve a resolution authorizing the City Manager to enter into a Mutual Agreement and Memorandum of Agreement with Land of Sky Regional Council to pursue regional gigabit broadband advancement in Western North Carolina; and to support a Land of Sky grant application.

RESOLUTION BOOK NO. 38 - PAGE 102

O. RESOLUTION NO. 16-158 - RESOLUTION AUTHORIZING THE MAYOR TO CONVEY AN EASEMENT TO DUKE ENERGY PROGRESS FOR THE CONSTRUCTION OF UNDERGROUND PRIMARY ELECTRIC CAPABILITIES FOR WHITE LABS ON SOUTH CHARLOTTE STREET

Summary: The consideration of a resolution authorizing the Mayor to convey an easement to Duke Energy Progress for the construction of underground primary electric capabilities for White Labs on South Charlotte Street.

White Labs has requested that Duke Energy Progress (DEP) construct underground primary electric capabilities with padmount transformer location at their site on Charlotte Street. This property at 172 S. Charlotte Street (PIN #9648-58-2843) is owned by the City of Asheville and White Labs has a recorded lease to upfit the structure and operate their business on this site for five years. In order to construct these improvements, DEP will have to cross city property and therefore, DEP is requesting 2,978 square feet or .068 acres of permanent easement. The easement is five (5) feet on either side of the cable center line for a total of ten (10) feet and ten (10) feet from the edge of the transformer pad.

White Labs is a yeast manufacturing business that was recruited to locate in Asheville and is a vital part of the craft brewery industry. They plan to operate a 26,000 square foot combination laboratory, production facility and tasting room. They will be creating 65 jobs and plan to make a $8.1 million investment over five years.

Pro: Granting this easement is part of the revitalization a downtown city property. The site which is still owned by the City of Asheville will have upgraded capabilities for electrical energy.

Con: None

City staff recommends City Council approve a resolution authorizing the Mayor to convey this permanent utility easement across a city owned parcel on S. Charlotte Street.

RESOLUTION BOOK NO. 38 - PAGE 103

Mayor Manheimer asked for public comments on any item on the Consent Agenda, but received none.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Councilwoman Mayfield moved for the adoption of the Consent Agenda. This motion was seconded by Vice-Mayor Wisler and carried unanimously.

III. PRESENTATIONS & REPORTS:

A. STORMWATER ANNUAL REPORT

Stormwater Services Manager McCray Coates provided Council with an update on the Stormwater program and the projects included in the 10-Year Capital Improvement Plan.

Following the record breaking rainfall year of 2013, staff has continued to receive concerns from citizens related to stormwater issues. Staff has produced an annual report of projects which the stormwater utility has been working on over the past year. This is a detailed report that identifies larger scale projects such as the Craven Street Improvement project which targets stormwater control measures such as pervious parking, a stream restoration, a constructed wetland and several rain gardens; to projects that are re-establishing a ditch along a neighborhood street. The report also identifies the various partners that the Stormwater Division is working with. The report gives an update on the status of the current neighborhood projects such as the Westover Project which is nearing completion, and the Morris Street stormwater improvement project which is in the easement acquisition stage and a contract is anticipated to be let for construction later this summer. Also included is the larger flood mitigation project partnering with the Corps of Engineers along the Swannanoa River.

Staff has also entered into a contract with Brown and Caldwell to perform a city wide stormwater assessment and develop a 10-year capital improvement projects (CIP) list which will guide the program moving forward related to larger capital projects.

In order to get accurate information, Brown and Caldwell has conducted an assessment of the City's drainage system. This assessment has identified potential issues, provided concepts toward solutions to these issues and has prepared a 10-year Capital Improvement Plan. The CIP plan prioritized projects for future implementation.

As this CIP list has been developed, consideration to many important factors have been considered including the age and material type of the infrastructure, the proximity to critical infrastructure (hospitals, schools, power supply substations, etc), proximity to private infrastructure, roadway flooding issues, drainage structure size, drainage area impacted, green infrastructure opportunities and partnership opportunities. Part of the scope of services from the consultant is to develop a decision matrix that staff can utilize as situations change within projects which may shift priorities. This is key as partnership opportunities may arise and infrastructure issues may worsen.

The recommended multi-year capital improvement plan and the associated projects included in this report will come to Council as part of the annual budget process. Projects would potentially be funded with a mixture of pay-as-you-go contributions from the Stormwater Operating Fund and the issuance of long-term debt, either limited obligation bonds (LOBs) or revenue bonds. Debt service on any bond issuances would be funded with revenue from the stormwater fee.

The City has a goal to continue to be stewards of the environment. Through this assessment, Brown and Caldwell will also assist in identifying and prioritizing watersheds for further studies. The team has identified opportunities to implement green infrastructure practices into the projects selected and opportunities for localized flood mitigation projects. Localized flooding is a rising concern for the citizens of Asheville.

Mr. Carl McDonald, Project Manager for Brown and Caldwell, reviewed with Council the 10-Year CIP projects and their locations.

Mr. Coates and Mr. McDonald responded to various questions/comments from Council.

IV. PUBLIC HEARINGS:

A. PUBLIC HEARING TO CONSIDER REZONING PROPERTY LOCATED AT 9999 LOOKOUT DRIVE FROM RS-4 RESIDENTIAL SINGLE-FAMILY MEDIUM DENSITY DISTRICT TO RS-8 RESIDENTIAL SINGLE-FAMILY HIGH DENSITY DISTRICT

ORDINANCE NO. 4511 - ORDINANCE TO REZONE PROPERTY LOCATED AT 9999 LOOKOUT DRIVE FROM RS-4 RESIDENTIAL SINGLE-FAMILY MEDIUM DENSITY DISTRICT TO RS-8 RESIDENTIAL SINGLE-FAMILY HIGH DENSITY DISTRICT

Urban Planner Vaidila Satvika said that this is the consideration of an ordinance to rezone property located at 99999 Lookout Drive from RS-4 Residential Single-Family Medium Density District to RS-8 Residential Single-Family High Density District. This public hearing was advertised on June 17 and 24, 2016.

The area of the subject property is approximately 0.13 acres, measuring 60 feet wide along Lookout Drive, and 100 feet long. The lot is currently vacant and is a legally established

nonconforming lot based on the development standards of the Residential Medium Density Single-Family (RS4) zoning district. Historically, the lot was part of a larger Hy-Vu Terrace subdivision that established 34 parcels on this block, which is reflected in the Office of the Register of Deeds for Buncombe County in Plat Book 10, at Page 110.

The applicant has requested a standard rezoning from Residential Medium Density Single-Family (RS4) zoning district to Residential High Density Single-Family (RS8) zoning district.

The subject lot measures 5,662 square feet in area and is approximately 60 feet wide, which is a dimension that is much closer to the standards for RS8 than those of RS4, which require a minimum area of 10,000 square feet and a lot width of at least 80 feet.

Rezoning to RS8 would bring the parcel into dimensional conformity because it would then meet the minimum lot requirements, which include a 5000 square foot area minimum and minimum width of fifty feet. No subdivision would be permitted under the proposed rezoning. The biggest impact would be that the front and rear setbacks would go from 25 to 15 feet, and side setbacks would be reduced from 10 to 6 feet. The applicant would be allowed to build a home 10 feet closer to the street.

Considering this parcel is immediately adjacent to RS8, staff believes that RS8 would be a more appropriate zoning designation.

The Asheville City Development Plan 2025 encourages compatible "adaptive reuse, redevelopment and infill development" and states, "areas within the existing urban fabric that are vacant should be targeted for compatible infill development that takes advantage of existing infrastructure". Staff feels this rezoning would be compatible with the goals of the Comprehensive Plan.

This action aligns with the 2036 Council Vision in the following area: *A Well-Planned and Livable Community* – the proposed rezoning promotes thoughtful resident-led planning that will result in infill development that is compatible with the goals of the Comprehensive Plan.

Considerations

- Rezoning would reduce front and rear setbacks from 25 to 15 feet and side setbacks from 10 to 6 feet
- The lot size would become a parcel that is conforming to RS8 zoning district standards

Based on the above findings and the analysis provided in the report, staff finds this request to rezone 99999 Lookout Drive from RS4 to RS8 to be appropriate and consistent with the context of the neighborhood and broader city goals.

Mayor Manheimer opened the public hearing at 5:29 p.m., and when no one spoke, she closed the public hearing at 5:29 p.m.

Mayor Manheimer said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Bothwell moved to approve the zoning map amendment from RS-4 Residential Medium Density Single-Family zoning district to RS-8 Residential High Density Single-Family zoning district and find that the request is reasonable; is in the public interest and is consistent with the Comprehensive Plan and other adopted plans in that: (1) the zoning change will encourage the adaptive reuse of vacant property; and (2) promote compatible infill development within the urban fabric of the city by establishing a conforming residential lot. This motion was seconded by Councilman Haynes and carried unanimously.

ORDINANCE BOOK NO. 30 – PAGE 363

B. PUBLIC HEARING TO CONSIDER A CONDITIONAL USE PERMIT FOR PROPERTY LOCATED AT 1401 TUNNEL ROAD FOR THE CONSTRUCTION OF A SIX-STORY, 88-UNIT VETERAN HOUSING DEVELOPMENT

City Clerk Burleson administered the oath to anyone who anticipated speaking on this matter.

City Attorney Currin reviewed with Council the conditional use process which is a quasi-judicial permit hearing. At this public hearing, all the testimony needs to be sworn and due process protections afforded to the applicant.

Principal Planner Shannon Tuch submitted into the record City Exhibit 1 (Affidavit of Publication), City Exhibit 2 (Certification of Mailing of Notice to Property Owners); and City Exhibit 3 (Staff Report).

She said that the applicant Asheville Buncombe County Christian Ministries (ABCCM) is requesting review of site plans for the construction of a six story, 50,150 square feet apartment building supporting 88 multi-family units, along with related parking and other site improvements. This project is considered a Level III review pursuant to Section 7-5-9(a) of the city's Unified Development Ordinance (UDO), which designates a Level III review for projects with more than 50 residential units (Attachment to City Exhibit 3 - Location Map). Level III projects are reviewed as Conditional Use Permits.

The project is located on a single parcel located at 1401 Tunnel Rd. in east Asheville, PIN 9668-94-7987. The project site is 4.54 acres and is zoned River. The Swannanoa River borders the property on the southern and eastern sides with the river's regulated floodway and floodplain occupying a significant portion of the property on these sides. The property has mild to moderate topography and slopes downward towards the river.

The proposed project includes the construction of a new six-story, multi-family structure that would house 88 new dwelling units (Attachments to City Exhibit 3 - Aerial Map; Site Plan; Building Elevation; and Exterior Elevations). The first and sixth floors will not contain any residential units with the first floor including structured parking and some residential amenities such as laundry, bathrooms, mailboxes, etc.; the sixth floor will contain meeting space and a service kitchen; and floors two through five will contain a mix of studio and two-bedroom units. The building is proposed to be constructed in two phases with the northern module to be constructed first. There is an existing single story brick building that will be demolished before the construction of Phase II. In addition to the building, a small parking lot, access drive and minor landscaping are also proposed. The property owner/developer also owns and operates the existing veteran housing located at 1329 Tunnel Rd. which abuts the subject property along the southwest side. Internal access between the properties will be provided along this shared property boundary.

The project is unique in that it proposes to use cross-laminated timber (CLT) construction for this project. While new to the United States market, CLT is generally regarded as a sustainable building material with numerous benefits including: solid construction using a sustainable raw material, short construction times and efficiency through pre-fabrication, space gain and low thermal conductivity.

There are currently two access points to the property from Tunnel Rd. The easternmost entrance will be closed with the construction of Phase I while the westernmost entrance will be maintained and become the primary entrance to the property. The existing veterans housing property located to the west of the subject property also has two well-marked entrances that may be used to access 1401 Tunnel Rd. through an internal cross-connection between the parcels.

Pedestrian access is also provided with an existing five-foot public sidewalk along the property frontage and internal sidewalks as required for accessibility.

The property provides housing for low income individuals and the UDO uniquely calculates the off-street parking requirement with a min/max requirement of one to two spaces per unit regardless of the number of bedrooms. As a result, the proposed 88 units would require a minimum of 88 parking spaces and be allowed a maximum of 176 spaces. The new construction will provide 34 new parking spaces, 22 of which are structured parking and 12 are surface parking. The remaining 54 spaces will be shared with the existing veteran housing development to the west. When combined, the two projects will provide 206 parking spaces in total meeting the minimum requirement for 200 low income, residential units (112 existing, 88 proposed). This project and the existing property are also eligible for a 20% reduction in parking per UDO Sec. 7-8-19(f)(9).

Landscaping for the new construction will be required and includes street trees, parking lot, building impact and tree save landscape requirements. The proposed site plans show compliance, or the ability to comply, with all required landscaping.

Open space is also required for this project and is classified as a "Suburban" development and requires 15% of the lot area to be set aside for open space with this project supplying open space well in excess of the minimum required.

The subject property is zoned River which has more robust setbacks and landscape requirements for the project. A flood permit is also required although the structure will be placed entirely outside of both the 100 and 500-year regulatory flood hazard areas exceeding the regulatory requirements.

The site is currently zoned River (RV) and the use proposed is permitted by-right and the applicant will meet the standards of the District with this development proposal. The surrounding properties on the south side of Tunnel Rd. are similarly zoned River and the majority of the property across Tunnel Rd. is zoned Highway Business (HB).

This proposal was approved with conditions by the Technical Review Committee (TRC) on May 16, 2016, and requires a quasi-judicial review by City Council and a Final TRC review prior to final zoning approval or the issuance of any permits.

The Planning and Zoning Commission also reviewed and approved the proposal (7:0) at their June 1, 2016, meeting. One member of the public requested consideration of a "net zero" carbon footprint associated with building for the project.

Section 7-16-2(c) of the Unified Development Ordinance (UDO) states that Asheville City Council shall not approve the conditional use application and site plan unless and until it makes certain findings based on the evidence and the testimony received at the public hearing or otherwise appearing in the record of the case. The applicant has provided a statement on these findings.

Staff finds that the relevant standards of the City have been met or can be met with this application.

Mr. Crawford Murphy, architect and representative of ABCCM, said that the building is a much needed facility for veterans. He explained that the building is vertical due to the topography (floodplain) of the site, and the economy of the use of the cross-laminated timber for construction. He explained the unique structure. He was also pleased to note that every public space meets all Americans with Disability standards. He asked that the statement on how the project meets the seven conditional use standards be included as an attachment (Attachment to City Exhibit 3).

Mr. Murphy responded to Mayor Manheimer regarding the use of the CLT process and the advantages of its use; along with the reasoning behind the enclosed exterior staircase,

Mayor Manheimer opened the public hearing at 5:50 p.m., and when no one spoke, she closed the public hearing.

Mayor Manheimer said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Smith moved to recommend approval of the conditional use permit for the ABCCM Veterans' Housing Project located as 1401 Tunnel Road because it meets the seven conditional use standards as demonstrated by the applicant. This motion was seconded by Councilman Bothwell and carried unanimously.

City Attorney Currin said that the Findings of Fact and Conclusions of Law will be placed on the July 26, 2016, agenda.

C. PUBLIC HEARING TO CONSIDER AN AMENDMENT TO A PREVIOUSLY APPROVED CONDITIONAL ZONING ORDINANCE TO (1) REZONE PORTIONS OF THE PROPERTY AT 311 AND 315 OLD HAW CREEK ROAD FROM INSTITUTIONAL DISTRICT/CONDITIONAL ZONING TO RS-4 RESIDENTIAL SINGLE-FAMILY MEDIUM DENSITY DISTRICT, RS-4/CZ RESIDENTIAL SINGLE-FAMILY MEDIUM DENSITY DISTRICT/CONDITIONAL ZONING, AND INSTITUTIONAL DISTRICT/CONDITIONAL ZONING; (2) MODIFY THE SITE PLAN AND PROPOSED USES TO REMOVE STUDENT HOUSING FROM THE PROJECT PLAN; AND (3) ALLOW CONDITIONS TO REDUCE SETBACKS, PROVIDE SIDEWALKS AND ALLOW PARKING WITHIN A PROPERTY LINE BUFFER

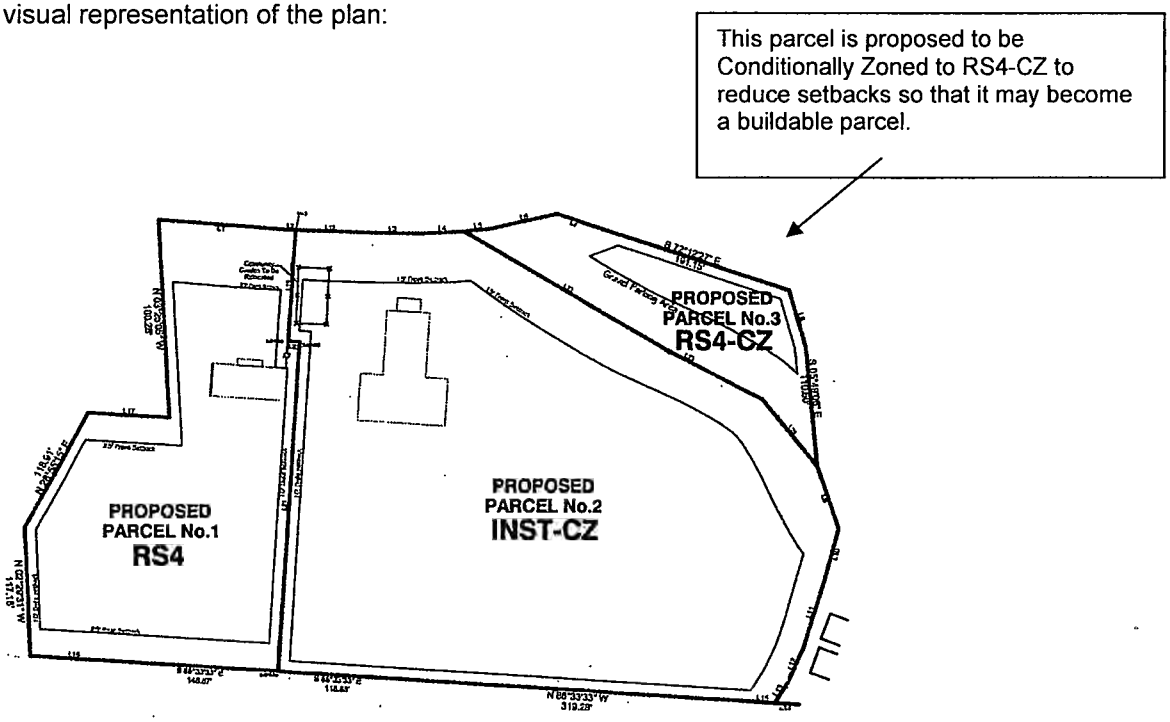
ORDINANCE NO. 4512 - ORDINANCE TO AMEND A PREVIOUSLY APPROVED CONDITIONAL ZONING ORDINANCE TO (1) REZONE PORTIONS OF THE PROPERTY AT 311 AND 315 OLD HAW CREEK ROAD FROM INSTITUTIONAL DISTRICT/CONDITIONAL ZONING TO RS-4 RESIDENTIAL SINGLE-FAMILY MEDIUM DENSITY DISTRICT, RS-4/CZ RESIDENTIAL SINGLE-FAMILY MEDIUM DENSITY DISTRICT/CONDITIONAL ZONING, AND INSTITUTIONAL DISTRICT/CONDITIONAL ZONING; (2) MODIFY THE SITE PLAN AND PROPOSED USES TO REMOVE STUDENT HOUSING FROM THE PROJECT PLAN; AND (3) ALLOW CONDITIONS TO REDUCE SETBACKS, PROVIDE SIDEWALKS AND ALLOW PARKING WITHIN A PROPERTY LINE BUFFER

Urban Planner Vaidila Satvika said that this is the consideration of an ordinance to amend a previously approved conditional zoning ordinance to (1) rezone portions of the property at 311 and 315 Old Haw Creek Road from Institutional District/Conditional Zoning to RS-4 Residential Single-Family Medium Density District, RS/4/CZ Residential Single-Family Medium Density District/Conditional Zoning, and Institutional District/Conditional Zoning; (2) modify the site plan and proposed uses to remove student housing from the project plan; and (3) allow conditions to reduce setbacks, provide sidewalks and allow parking within a property line buffer. This public hearing was advertised on June 17 and 24, 2016.

In accordance with Section 7-7-8 of the City's Unified Development Ordinance (UDO), the applicant is requesting review of a conditional zoning amendment to revise the site plan and associated conditions of Ordinance 4449, a conditional zoning ordinance that was adopted by City Council on September 8, 2015.

The project area consists of a single 6.16-acre parcel located at 311 & 315 Old Haw Creek Road with secondary frontage along Bethesda Road. The parcel is zoned Institutional – Conditional Zone (INST-CZ) and contains a church and minister's parsonage, and a cemetery that measures nearly 69,000 square feet, occupying one quarter of the property. The site is primarily surrounded by residential uses. The site is immediately north and adjacent to Haw Creek Elementary School, a school of approximately 410 students in grades kindergarten through fifth.

The applicant is seeking to amend a site plan primarily to remove student housing from the proposed uses and site plan, to rezone the portion of land at the parsonage back to RS4, and to rezone the portion of land north of Bethesda Road to RS4-CZ in order to subsequently subdivide those portions of property for future residential construction. See diagram below for a visual representation of the plan:



This parcel is proposed to be Conditionally Zoned to RS4-CZ to reduce setbacks so that it may become a buildable parcel.
PROPOSED PARCEL No.3 RS4-CZ
PROPOSED PARCEL No.1 RS4
PROPOSED PARCEL No.2 INST-CZ

Access to the property is from either Old Haw Creek Road or Bethesda Road. There will be two parking areas, one accessed from Old Haw Creek Road, the other from Bethesda Road. The third parking area to the rear of the property where the tiny homes were previously proposed has been removed.

There are currently 35 parking spaces on the premises. Based on the mix of uses and the expected overlap, the project requires 31 spaces but will provide 36 parking spaces including two accessible spaces. Bike parking will be provided.

Along the street, a new sidewalk measuring at least five feet wide is proposed along the length of the church property adjacent to Old Haw Creek Road and Bethesda Road. A sidewalk will also be provided south along the cemetery through the property to make it easier for visitors to access the cemetery and to provide a direct connection to support school drop off and pickups.

The site is along the ART bus route E2 with a bus stop across the street from the site.

Landscaping is required for this project including street trees, parking lot landscaping, street buffer, building impact landscaping, and a property line buffer.

The open space requirement is 15% of the lot area for the proposed INST-CZ parcel,

which totals 0.59 acres of open space and more than two acres of open space will be provided - the project is providing more open space than was previously approved.

The INST-CZ parcel will provide a 30-foot-wide property line Type B buffer along the western and southern property line. The applicant is requesting modifications to the property line buffer to permit the existing driveway to be located along the approved property line buffer that will now be located between the church and the residentially-zoned parsonage parcel. The modification would place the same number of plantings but they would be dispersed throughout the property line buffer. The proposed alternative compliance is detailed below.

Conditions Relating to Development Standards:

1. Sec. 7-11-3(d): *Prohibitions in a buffer.* Parking Areas; Driveways or drive aisles, other than approved openings, are specifically prohibited from encroaching into required buffer areas.
    a. The same number of trees and shrubs will be planted within the property line buffer but will be disbursed throughout the area.

This project was reviewed earlier as a Conditional Zoning that was approved by City Council on September 8, 2015. Conditional Zoning amendments are not required to be reviewed by TRC per UDO Section 7-7-8(c)(6) but are required to be approved by City Council.

We have received one letter in opposition to the proposal from the property owner adjacent to the portion of land that is requesting reduced setbacks. The letter states that the parcel should not have setbacks reduced because it is buildable without modified setbacks. Although this is technically true, it would limit the location of the home to one spot, restrict its shape, and it would make the inclusion of a garage and/or accessory structures challenging if not viable.

The site was rezoned from RS-4 to INST-CZ on September 8, 2015. The site is surrounded by residential properties zoned RS-4, most of which are single-family residential. There is a pocket of RM-6 zoning to the north of the site, which is mostly used as a place of worship.

The requested amendment calls for the currently-zoned INST-CZ district to be rezoned into three parts: RS4 (1.65 acres), RS4-CZ (0.56 acres), and INST-CZ (3.95 acres). The RS4 zoning would bring the land under the parsonage back to its earlier zoning. The church would continue to be zoned INST-CZ, with no changes to the proposed uses (See B.1 Conditions list). The portion of land to the north of Bethesda Road would be rezoned to RS4-CZ in order to allow reduced setbacks to create a buildable parcel. The setbacks on that parcel would be as follows:

- The front setback (along Bethesda Road) will be reduced from 25 feet to 15 feet
- The corner setback (along Old Haw Creek Road) will be compliant with RS4 zoning, which is 50% of the standard front setback: 12.5 feet
- The rear setback would be reduced from 25 feet to 10 feet
- The side setback will be compliant with RS4 zoning: 10 feet

The proposal calls for changes to the site plan that will have a lower overall impact than previously proposed, with exception to the reduced setbacks on the portion of land between Old Haw Creek Road and Bethesda Road, which would allow a home to be placed closer to the property line than is permitted in RS4. In order to convert that long and narrow portion of land into a fully viable residential parcel, the reduced setbacks seem to be a reasonable condition.

Student housing will be provided off site and the newly-created residentially-zoned land will subsequently provide needed long-term housing. Overall, the amendment will have fewer negative impacts on the neighborhood than the previously adopted proposal.

The proposal complies with policies adopted by the City. As stated in the *City Development Plan 2025,* reusing older buildings is "the most sustainable construction" and helps to preserve and protect neighborhood vitality.

This action aligns with the 2036 Council Vision in the following areas: (1) *A Well-Planned and Livable Community* – the proposed rezoning promotes thoughtful resident-led planning that will result in infill development that is compatible with the goals of the Comprehensive Plan; and (2) *A Connected and Engaged Community* – the proposed rezoning provides co-working spaces that bring community members together to share a work environment.

Considerations:

- Student housing is removed from the site plan and proposed uses
- Conditions will allow two lots to be rezoned to RS4 and RS4-CZ and to be subsequently subdivided for residential purposes as permitted in the underlying zoning district
- Associated site work and grading will be reduced

Staff recommends approval of the proposed conditional zoning amendment to remove student housing from the project and to rezone portions of the property to RS4, RS4-CZ, and INST-CZ because the plan is consistent with the earlier proposal and will have fewer negative impacts. This recommendation includes approval of the property line buffer modification as described above and specified on the conditions list.

In response to Councilwoman Mayfield, Mr. Satvika explained that the setbacks for the RS-4/CZ portion is to allow the developer more area to build a home and possibly a permitted accessory structure.

When Councilwoman Mayfield asked if the setback might be reduced in a different way, Mr. Sean Rice, contractor for Haw Creek Commons, said that they requested the setbacks because of the odd shape of the lot. He was agreeable to reducing their requested rear setback from 10 feet to 15 feet.

Mayor Manheimer opened the public hearing at 5:59 p.m., and when no one spoke, she closed the public hearing at 5:59 p.m.

Mayor Manheimer said that members of Council have previously received a copy of the ordinance and it would not be read.

Vice-Mayor Wisler moved to approve the conditional zoning amendment request for Haw Creek Commons at 311 & 315 Old Haw Creek Road, to amend the zoning of the property from Institutional District – Conditional Zone (INST-CZ) to Institutional District – Conditional Zone (INST-CZ), Residential Single Family Medium Density (RS4), and Residential Single Family Medium Density– Conditional Zone (RS4-CZ) based on the revised site plan and conditions list (with the conditions amended that the rear setback be 15 feet) and find that the request is reasonable, is in the public interest, and is consistent with the Comprehensive Plan and other adopted plans in the following ways: (1) The development is existing and was deemed appropriate through the 2015 conditional zoning process; (2) by removing student housing and associated tiny homes from the project plan, the proposed plan will be less impactful on the land and on the neighborhood than the earlier proposal. This motion was seconded by Councilwoman Mayfield and carried unanimously.

ORDINANCE BOOK NO. 30 - PAGE 366

D. PUBLIC HEARING TO CONSIDER CONDITIONAL ZONING PROPERTY LOCATED AT 60 MILLS GAP ROAD FROM INDUSTRIAL DISTRICT TO

HIGHWAY BUSINESS DISTRICT/CONDITIONAL ZONING FOR THE DEVELOPMENT OF A 272 UNIT MULTI-FAMILY DEVELOPMENT

ORDINANCE NO. 4513 - ORDINANCE TO CONDITIONALLY ZONE PROPERTY LOCATED AT 60 MILLS GAP ROAD FROM INDUSTRIAL DISTRICT TO HIGHWAY BUSINESS DISTRICT/CONDITIONAL ZONING FOR THE DEVELOPMENT OF A 272 UNIT MULTI-FAMILY DEVELOPMENT

Mayor Manheimer said that on January 26, 2016, a motion was made to continue this public hearing, at the applicant's request, until April 26, 2016. On April 26, 2016, at the applicant's request, this public hearing was continued until June 14, 2016. On June 14, 2016, at the applicant's request, this public hearing was continued until this date.

Urban Planner Vaidila Satvika said that this is the consideration of a request to conditionally zone property located at 60 Mills Gap Road from Industrial District to Highway Business District/Conditional Zoning for the development of a 272 unit multi-family development on 15.3 acres. This public hearing was advertised on January 15 and 22, 2016.

The subject site is located at 60 Mills Gap Road (PIN 9655-35-7074) and measures 15.3 acres. The site is currently zoned IND. It was previously home to Plasticorp, a plastic injection molding company that closed its operations. The existing one-story, metal and brick building measures approximately 81,000 square feet. The building and related site features are proposed to be removed as part of the development application.

Adjacent zoning includes IND to the north, Commercial Industrial (CI) to the west and southwest, and High Density Multi-Family (RM16) to the southeast.

The applicant is seeking to construct a 272-unit multi-family development contained within two, four-story buildings, plus a clubhouse, for a total of 334,184 square feet. The buildings will have a height of 46 feet as measured to the highest roof peak. The total disturbed area for the residential project equals approximately seven acres. The applicant has agreed to set aside 15% of the dwelling units (41) as affordable units.

The affordable units will be provided at rental rates not to exceed 80% area median income (AMI) as published by the Affordable Housing Standards of the year the units become available. The developer has committed to providing the affordable units for a period of 15 years. Per Affordable Housing Standards, rent standards may be allowed to increase annually with any increases in AMI over the agreed-upon period but shall not be required to be decreased below the rates set for the year the project receives its certificate of occupancy.

Vehicular access to the site will be provided at both Sweeten Creek Road and Mills Gap Road. Sidewalks are proposed for Sweeten Creek Road and Mills Gap Road, which connect to internal pedestrian paths within the development to connect the buildings with parking areas and site amenities.

Parking will be provided for 401 vehicles, including 10 accessible spaces, as well as 20 bicycle spaces, which meets the parking requirements for the project.

The project is required to comply with requirements for street trees, parking lot landscaping, building impact, dumpster screening, tree save (4.6 acres) and open space areas. In total 270 trees and 724 shrubs will be planted. Tree save and open space proposed plantings will be refined as the applicant surveys the existing trees to determine tree credits.

Fifteen percent of the total lot area (2.3 acres) is required to be dedicated as open space, which will be met.

As per the City's Unified Development Ordinance (UDO) Section 7-7-8(d), a conditional zoning application shall be reviewed by the City's Technical Review Committee (TRC), and the Planning and Zoning Commission shall hold a public hearing to review the application and make a recommendation to City Council for approval or denial, or to continue the consideration in order to receive further information.

- This proposal was reviewed by the TRC and was approved with conditions on December 21, 2015.
- The project was reviewed by the Planning and Zoning Commission on November 19, 2015 and, after being continued,
- The project was reviewed again by the Planning and Zoning Commission on January 6, 2016 with changes to the original site plan. These changes included removal of the proposed commercial component of the project and the inclusion of affordable housing units. The Planning and Zoning Commission recommended approving the proposal (6-1) based partially on the project providing 20% affordable housing units for a period of 10 years.

In the six months since the P&Z Commission reviewed the project, the following has transpired:

- The applicant met with the community on two occasions to discuss the project
- The applicant has changed the proposed affordability of units from 20% for 10 years to 15% for 15 years

The proposal requires a change in zoning due to the fact that the maximum residential density in the IND zoning district is two units per acre, which would result in only 31 units allowed on the subject site. The current proposal for 272 dwelling units on 15.3 acres requires a zoning district that allows at least 18 units per acre. The conditional zoning request to HB would allow 35 units per acre.

This site contains a nearly five acre area that is mostly flat where the previous plastics manufacturer operated, and which is essential for industrial operations in order to navigate trucks in, around and out of a facility. As such, the site is well suited for industrial purposes. In order to create more local jobs and to raise the area's average wage, it is important to protect key industrial parcels that will attract and serve future businesses that seek to expand or relocate to Asheville, such as advanced manufacturing, the sector with the largest capital investment according to the Asheville 5x5 Plan, launched with support from the City of Asheville in 2010 in order to create more jobs and capital investment in the area.

From one perspective, rezoning the property for residential purposes would diminish the City's limited stock of viable industrial properties and would thereby move in a direction counter to the established public policy of the City to preserve industrial property for industrial purposes. A November 19, 2015, letter from the Economic Development Coalition (EDC) of Asheville-Buncombe County supports this point by acknowledging the importance of preserving viable industrial property when possible. Nevertheless, the EDC also expresses that the parcel in question is not best suited for national and global clients, citing expensive cost of land, population, and traffic concerns.

Staff has concerns that the existing infrastructure, in particular the roads and lack of sidewalks, as well as limited transit service, are not well suited for the proposed residential use of the subject property. The project's traffic impact study (TIS) states that the level of service for nearby intersections is problematic. The traffic impact study's conclusion states:

> *"... the study area is currently experiencing significant periods of congestion, delay and poor levels-of-service due to the recent significant residential and retail growth in the area*

coupled with a roadway infrastructure (two-lane, two-way roadways along Mills Gap Road and Sweeten Creek Road) that is underdeveloped for the traffic volumes present."

Since 2013, the City has permitted the construction of over 800 residential units within two miles of this project. Within one mile there are nearly 600 apartments that are currently in development that are not yet generating traffic. It should be noted that the city requirement for traffic impact studies mitigates the increase in traffic associated with the subject proposal only, and that the TIS associated with the project is not required to take into consideration the cumulative traffic associated with projects that are not yet constructed. As per UDO Section 7-11-6, previously approved projects that resulted in total peak hour trips equal to or greater than 100 peak hour trips were required to submit a TIS.

The TIS references two N.C. Dept. of Transportation (NC DOT) projects as potentials for mitigation, including the future widening of Sweeten Creek Road from two lanes to four lanes; however, these projects are not currently slated for construction until 2021 and 2022.

There are currently no sidewalks adjacent to or within the vicinity of the subject site. The applicant has proposed new sidewalks directly adjacent to the site and has proposed a new off-site sidewalk on Mills Gap Road, near the Norfolk Southern train tracks, which would connect to the existing sidewalk network between Sweeten Creek Road and Hendersonville Road. When completed, this sidewalk network would result in an approximately quarter mile walk between the subject site and the existing bus stop (S3 line) on Hendersonville Road. That bus service currently maintains a service frequency of about one and a half hours. Staff believes the vehicular-oriented and suburban nature of the surrounding area is not conducive to pedestrians. Furthermore, the planned widening of Sweeten Creek Road will result in additional lanes of traffic that pedestrians would have to traverse if walking toward Hendersonville Road.

This project deals with multiple, competing city goals, including the protection of scarce industrial property; the provision of affordable housing; and providing infill and adaptive reuse of property. The landscape of industrial operations has changed significantly in recent years and it is understandable that each parcel of industrial land may not be currently necessary for industrial purposes within current market conditions. Nevertheless, within the environment of the continued housing crisis, how are we to determine which industrial property to protect if every parcel is available for residential purposes?

Staff supports the production of more affordable housing units but believes there is an abundance of appropriately-zoned land for residential development that would not have the negative side effect of placing downward pressure on viable industrial land.

In December 2014, the City took a proactive step to protect scarce industrial property by down zoning Commercial Industrial (CI) districts to allow eight residential units per acre rather than 16. Although that Ordinance (No. 4374) increased residential densities in commercial areas for all other districts, it reduced the number of units by 50% for CI zoned properties in order to reduce housing market pressure on industrially-zoned land.

The City's Comprehensive Plan highlights that one of the main factors contributing to economic development becoming such a critical issue is the loss of land suitable for industrial purposes for other uses. The City's Smart Growth Land Use policies further emphasize this point by stating that industrially-zoned land should be reserved for industrial purposes. Further, the Sustainable Economic Development Strategic Plan (2000) notes the shortage of industrial sites within the City as an area of concern, stating that the City should seek to ensure the availability of suitable sites to meet the business needs of the City's future.

The Comprehensive Plan also encourages the construction of affordable housing that is compatible with existing neighborhoods and community development patterns. The Comprehensive Plan further encourages compatible, adaptive reuse for infill development.

Considerations:

- Rezoning Industrial land for residential purposes (272 units)
- 15% affordable units (41) provided for 15 years of affordability

Based on policies stated in the Comprehensive Plan and other plans, staff does not find this request to be reasonable or within the best public interest because there is other land available within districts that permit this scale of residential development without negatively impacting scarce industrial property; therefore, staff cannot recommend support of the proposed rezoning as proposed.

It should be noted that the Planning and Zoning Commission voted 6-1 to approve the proposal because it includes affordable units; the proposal is an adaptive reuse of a vacant property close to transit and other community services; and the developer will make traffic related improvements as a part of the project that will help to mitigate any potential traffic impacts related to the proposal. Planning and Zoning Commission meeting minutes and recommendation form are a part of this record.

Council may find that these benefits outweigh the concerns relating to the protection of industrial property and other noted concerns. The Comprehensive Plan supports (Goal III) and encourages transit supportive density along and adjacent to major corridors and at logical transit nodes and (Goal V) encourages the construction of affordable housing throughout the community. Likewise, Council's current 2036 Vision seeks affordable housing to be "transformed into a diverse mix of affordable and market rate homes within vibrant neighborhoods."

Mr. Satvika responded to Councilman Young when he questioned whether this parcel is viable industrial land. Mr. Satvika felt that even though the property may not be the best site for a multi-national national business, but there are plenty of Asheville-based businesses that are looking to expand.

In response to Councilman Young, Mr. Satvika said that residential development is allowed in a lot of other districts, not just residential.

Director of Planning & Urban Design Todd Okolichany noted that he was told that as early as 12 months ago the property was being used to store parts for a local industrial company.

Mr. W. Louis Bissette, Jr., attorney representing the developer, said that after holding two community meetings and listening to the neighborhood, the applicant has agreed to several conditions to lessen the impact on the neighborhood, specifically noting (1) preservation of large oak trees; (2) at least 15% of affordable units for a time period of not less than 15 years from the date of the issuance of the Certificate of Occupancy; and (3) a number of traffic enhancements, which shall be completed prior to the issuance of building permits. They have also agreed to the following two additional conditions raised by the neighborhood (1) construct an auxiliary right turn lane with at least 200 feet of storage along eastbound Mills Gap Road; and (2) the developer/owner will not begin work on the demolition of existing structures, infrastructure, or site work (including grading, utilities and stormwater) and proposed NC DOT road improvements until January 2017. At that time, that work, together with the proposed intersection improvements, will begin as the first phase of the project. Furthermore, the developer has agreed that the City will not be required to issue a building permit for any part of the actual housing of vertical construction until at least January 2018. These efforts will be coordinated with the NC DOT projects (Mills Gap Road Project and Sweeten Creek Road Project). He did not believe the area remains viable for industrial development. Most of the prior industrial uses in this general area have ended. This site has been for sale as an industrial property for a number of years with few, if any, indications of interest for that type of use. He clarified that the property was leased for three months (with no employees) for a storage facility for a company that is building a plant in Haywood County. He said that he has a letter from Mr. Ben Teague, Executive Director of the Economic Development

Coalition dated November 19, 2015, which states in part "I do not believe this property is not best suited for industrial development for the high standards of our national and global industrial clients. Furthermore, the cost to purchase the property and build another facility is far too expensive to accommodate industrial development. The current facility is the lowest quality and even if used would not attract significant job numbers or a pay rate which would advance our community. The density of population and traffic concerns surrounding the property are also a contributing complication which make shipping for a logistical hub difficult." He said that the City also has a housing crisis and this project can help alleviate that crisis by 272 units being added to the housing stock. He said that the developer has removed the commercial uses from the original project and added several traffic mitigation measures to the project. This project will not increase the severity of the current traffic situation. The project will provide an additional $650,000 per year in ad valorem taxes for the City and County. In addition, environmental reviews and assessments reveal no evidence of recognized environmental conditions in connection with the property. He asked for Council's support.

Mr. Chris Day, engineer with Civil Design Concepts, explained the original project and after hearing community input how the project was revised. Removing the commercial components reduced traffic associated with the project by 40% in the morning peak hours and by 70% in the afternoon peak hours. The road improvements associated with this project are not designed to solve the current traffic problems, but designed to mitigate traffic associated with this project. He then briefly outlined the road improvements. The project also includes 450 feet of off-site sidewalk on Mills Gap Road across the railroad tracks to connect to the recently installed Palisades sidewalk on Mills Gap Road. Sidewalk/pedestrian crossing is subject to design standards of the railroad operator. The developer has committed to put in all the NC DOT traffic improvements on the front end of the project so that they would be in place prior to the building permit being pulled in 2018. Regarding the sidewalk that crosses the railroad, he has had numerous conversations with the railroad, and even though the railroad has said that they have no issue with allowing the developer to do that crossing, it is currently only a two-lane road that crosses the railroad tracks. Since one of the NC DOT Transportation Improvement Projects will widen that area, the developer wants to make sure that project is coordinated with the NC DOT plans and railroad. He asked that all work within the railroad right-of-way be coordinated with the NC DOT for proper design, installation and timing of that work.

Mr. Rusty Pulliam, developer of the proposed project, also explained why he felt this parcel is not a viable industrial site. Everything behind the parcel is zoned residential. The building has been vacant for 9 years and the current value is $148,000. It is located 3.5 miles from I-26 but it is hard to get a tractor-trailer in and out of the site. He acknowledged that the neighborhood meetings were very beneficial in coming up with a revised plan, and stressed that this is the highest and best use of the property. He cited the need for housing stock and said he is setting a precedent of offering 15% affordable units for at least 15 years. He felt they have crafted the right project for this location and asked for Council's support.

Mr. Fred Caligiuri, managing partner for Mills Gap LLC, said that he bought the property in December of 2012 and paid $1.3 Million (which was lower than the asking price since they closed it quicker). The listing price now is $2.5 Million. The property is now under contract for sale now and conditioned upon this rezoning.

In response to Councilman Haynes, Mr. Caligiuri said that typically values for apartment use is in the range of $8-10,000 per unit.

When Councilman Haynes was concerned that other developers would want to buy industrial land and request it to be rezoned because residential zoning would increase the value of the property. City Attorney Currin stated that Council would consider each zoning case on its own merit.

Mayor Manheimer opened the public hearing at 6:53 p.m.

The following individuals spoke in support of the conditional zoning for various reasons, some being, but are not limited to: affordable housing and housing stock is needed; needed housing for those that work in south Asheville; not a viable parcel for industrial use; additional tax base for the City; when it was an industrial plant, 300 employees would leave the plant at the same time in the evenings causing an extensive traffic back-up; will produce jobs during construction; and road improvements by this developer will help traffic:

Pastor Spencer Hardaway, Rock Hill Mission Baptist Church
Michael Woods, Executive Director of the Western Carolina Rescue Ministry
Carr Swicegood, resident on Cane Creek Road
Gloria Williams, resident on Mills Gap Road
Jim Andrews
Pat Deck, resident in Givens Estate
Scott Dedman, Executive Director of Mountain Housing Opportunities
One of the 400 residents who signed letter expressing concern
Ben Teague, Executive Director of Economic Development Coalition and Senior Vice-President of the Chamber of Commerce
John Spake, resident on Mills Gap Road
Scott Rogers, Executive Director of Asheville-Buncombe County Christian Ministry
Kenneth Williams, resident on Mills Gap Road

Mr. Vijay Kapoor, south Asheville resident & Business Community Organization, reviewed a PowerPoint, stating that their efforts throughout this process was to objectively analyze the proposal and ensure that the voices of South Asheville residents were heard. Over 400 individuals signed a letter expressing concern about this project at some time in the process (note: some residents' minds may have changed as the proposal itself changed; and many of these same residents emailed Planning & Zoning and City Council members about their concerns). They set up a group – South Asheville Resident & Business Community Organization – and a webpage that updated residents on the proposed project. On May 18, 2016, we held a residents-only town hall meeting to discuss the project. Based on feedback we received from the town hall meeting as well as conversations we have had with residents, it seems that most residents fall into the following three categories:

Group 1 - Not until Sweeten Creek Road is widened

- Some residents oppose the project because they do not believe that the current road infrastructure can support another apartment complex
  - Traffic routinely backs up at this intersection, particularly during the PM rush
- They point to the fact that South Asheville is in the midst of an apartment boom, with the full effects of that future traffic not yet felt, and that the Sweeten Creek Road and Mills Gap Road intersection is already over capacity
- They also note that a lot of undeveloped land along Sweeten Creek and Mills Gap Road can be developed by right with several parcels already for sale
- Most residents in this group do not appear to be opposed to apartments at that site *per se*, but do not believe that this is the right time for this project

Sweeten Creek Road Widening Timetable -Project #U-2801A

- Summer 2016 – External Scoping Meeting
  - Meeting purpose is to discuss purpose and need statement for project; public is not invited. City Transportation Department staff member will attend
- Fall 2016 – Public Meeting
- 2019 - Environmental Assessment (EA) Approval
- 2020 – Finding of No Significant Impact (FONSI) Approval

  - A FONSI is issued when environmental analysis and interagency review during the EA process find a project to have no significant impact on the quality of the environment
- 2020 – Right of Way Acquisition
- 2022 – Construction (letting of contract)
- *2024 – Assuming two years to complete construction*

Group 2 - Use site as Park or Community Center

- Another group of residents shares similar concerns to the first group, but would like to see the City acquire this parcel and place either a community center or a park on it
- They note that while the City overall has 54 parks and 11 community centers, South Asheville only has 2 parks and 1 community center

Group 3 - Permit Project, but Add Two Additional Conditions to Address Traffic

- While not excited about more development, a third group of residents feels that this site will not sit vacant and that a residential apartment complex would have a lower impact on traffic than other likely uses
  - Developers not affiliated with this project have told us that this site could be used for a shopping center or other retail/commercial uses which would create more traffic
- These residents would like to keep this corridor mostly residential given all the commercial activity on Hendersonville Road
- This group, however, has concerns that the developer's proposed improvements as agreed to at P&Z do not fully mitigate the increased traffic from the site and want the following two changes to the conditions approved at P&Z:
  - 1. Extend new right-hand turn lane on Mills Gap Road to have over 200 feet of storage, rather than initially proposed 100 feet
  - 2. Complete traffic improvements at beginning of project

- This group's rationale for its position is as follows:
  - The traffic improvements, particularly the addition of a new right hand turn lane on Mills Gap Road, should improve traffic flow at the intersection. We have little hope that NCDOT would make this improvement on its own
  - Given that this site will not sit vacant, an apartment complex which will not come on-line until 2020, would have a lower impact on traffic than other likely uses
    - Assuming that the NCDOT timeline holds, Sweeten Creek widening would be complete around 2024. The apartment complex would be complete in 2020, meaning that there would be approximately 4 years between the opening of the complex and the completion of the widening
  - The pedestrian amenities – particularly the signal heads/crosswalks and the extension of the sidewalk along Mills Gap Road across the railroad tracks – would likely not happen any time soon if NCDOT would have to make these improvements

In conclusion, he thanked Council Members, Planning & Zoning members, and City Staff for the significant assistance and time that they dedicated to this difficult issue. Regardless of the outcome, residents of South Asheville should know that their concerns were taken very seriously and that Council Members and City Staff went out of their way to listen. This process highlights the need for residents, the City, the County and NCDOT to address this intersection and infrastructure and comprehensive planning generally in the South Asheville area. This will become particularly important as planning for the Sweeten Creek Road widening project begins. A group of communities along the Sweeten Creek corridor has already organized into a group called the Sweeten Creek Association of Neighborhoods (SCAN)

The following individuals spoke in opposition of the conditional zoning for various reasons, some being, but are not limited to: opposition to 4-story buildings because it blocks mountain views; traffic and flooding concerns; and request project be delayed until action completion of Sweeten Creek Road widening project:

Marlene Johnson, resident in Crowfields on Hendersonville Road
David Herbert, south Asheville resident

Mayor Manheimer closed the public hearing at 7:40 p.m.

In response to Councilman Haynes, Mr. Kapoor said that of the 400 people who signed a letter expressing concern about the project, he guessed approximately half have now changed their minds as the proposal changed and they understood the project more.

Councilman Young said that he recalled the tremendous opposition when this project was first presented; however, the applicant has met with the community in order to rectify some of their concerns and to mitigate some of their issues. This being an industrial parcel, it would seem that job creation would be a benefit; however, considering we need housing stock this area seems to be appropriate for residential. In addition, he felt this area is doing well in job creation itself.

Councilman Bothwell and Councilman Haynes both had concerns, but their concerns have been satisfied.

Councilwoman Mayfield felt this area is transitioning from industrial to residential. She felt this process is a great example of how an open-minded developer and open-minded community can make positive changes in development. She felt we all need to be watching the NC DOT projects to make sure they build what the City and the residents want.

Councilman Bothwell asked that the northeast corner of the property has mature trees and he hoped as many of them could be saved.

Mayor Manheimer agreed with Councilwoman Mayfield and hoped the City will be able to continue this zoning tool to help manage the growth of Asheville.

Mayor Manheimer said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Young moved to approve the conditional zoning request from Industrial (IND) to Highway Business Conditional Zone (HB CZ) for the construction of a 272-unit multi-family development located at the intersection of Sweeten Creek Road and Mills Gap Road (with the revised conditions agreed upon by the developer and Group 3); and find that the request is reasonable, is in the public interest, and is consistent with the Comprehensive Plan and other adopted plans because the project (1) will provide necessary rental housing through the adaptive reuse of property for residential infill development, and (2) the developer will mitigate traffic congestion through infrastructure enhancements that will be completed before the issuance of the certificate of occupancy. This motion was seconded by Councilwoman Mayfield and carried unanimously.

ORDINANCE BOOK NO. 30 – PAGE 372

Closed Session

At 7:50 p.m., Councilman Young moved to go into closed session for the following reasons: (1) To prevent disclosure of information that is privileged and confidential, pursuant to the laws of North Carolina, or not considered a public record within the meaning of Chapter 132

of the General Statutes. The law that makes the information privileged and confidential is N.C. Gen. Stat. § 143-318.10(a)(3). The statutory authorization is contained in N.C. Gen. Stat. § 143-318.11(a)(1); and (2) To consult with an attorney employed by the City about potential matters with respect to which the attorney-client privilege between the City and its attorney must be preserved. The statutory authorization is contained in N.C. Gen. Stat. § 143-318.11(a)(3). This motion was seconded by Vice-Mayor Wisler and carried unanimously.

At 8:22 p.m., Councilman Bothwell moved to come out of closed session. This motion was seconded by Vice-Mayor Wisler and carried unanimously.

V. UNFINISHED BUSINESS:

VI. NEW BUSINESS:

A. RESOLUTION NO. 16-160 - RESOLUTION AUTHORIZING THE CITY MANAGER TO REJECT ALL PROPOSALS FOR THE MANAGEMENT OF THE DAILY OPERATION OF THE ASHEVILLE TRANSIT SYSTEM

RESOLUTION NO. 16-161 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXTEND THE MASS TRANSIT MANAGEMENT AGREEMENT WITH FIRST TRANSIT INC. ON A MONTH-TO-MONTH BASIS TO MANAGE THE OPERATION OF THE ASHEVILLE REDEFINES TRANSIT SYSTEM

Assistant City Attorney Cathy Ball said that this is the consideration of (1) a resolution authorizing the City Manager to reject all proposals for the management of the Asheville Transit System based on inadequacies and inconsistencies in the Request for Proposal (RFP) process; and (2) a resolution authorizing the City Manager to extend the current contract with First Transit on a month-to-month basis as needed to revise the RFP process.

Since North Carolina law prohibits municipalities from engaging in collective bargaining, the City of Asheville must hire a management company to operate the transit system. The management company is a party to a 13(c) Labor Agreement with the Amalgamated Transit Union Local 128 covering all hourly employees. A collective bargaining agreement between Transit Management of Asheville, a subsidiary of First Transit, Inc., and the ATU Local 128 is in place until January 31, 2017.

The three-year contract with First Transit expired on December 31, 2015. This contract was extended for six months and will expire on June 30, 2016. During the extension staff released a RFP with the intent to modify the conditions in the current management contract. A summary has been provided to City Council of the RFP Process. Both firms were deemed to have met requirements necessary to move forward for interviews by the evaluation committee. Based on interviews, the evaluation committee recommended First Transit. Subsequent updates were made at the Multimodal Transportation Advisory Committee (MMTC) and Transit Committee. The MMTC recommended selection of First Transit but revisited the topic at their next meeting and had concerns about its original vote. The Transit Committee recommended selection of McDonald Transit.

Concerns were raised about the RFP process. In response, the City Manager's Office and City Attorney's Office reviewed the RFP and selection process in consultation with the Federal Transit Administration (FTA). Specifically, the RFP process was unclear on what basis the award would be made and should be made based on the criteria specifically listed in RFP. Additionally, the interview scores should not have been completed separately but should have been combined with the proposal scores. In summary, the process utilized was not specifically stated in the RFP. This conclusion leads us to recommend rejection of all proposals. Additionally,

based on consultation with the FTA, we believe the most appropriate process to follow going forward is to redo the RFP process.

Transit management contract expenses are included in the FY 2016-17 budget.

Staff recommends Council consider (1) a resolution authorizing the City Manager to reject all proposals for the management of the Asheville Transit System based on inadequacies and inconsistencies in the Request for Proposal (RFP) process; and (2) a resolution authorizing the City Manager to extend the current contract with First Transit on a month-to-month basis as needed to revise the RFP process.

In response to Ms. Diane Allen, City Manager Jackson explained that his office, with assistance of the City Attorney's Office will take direct involvement in this process. They will clear about the criteria and stick to that criteria. They will complete the process as quickly as possible, but at least a minimum of 4-6 months. The first thing they need to do is prioritize getting it right in order to take away any opportunities for legal objections to the award when it comes back to Council.

Assistant City Manager Ball said that a revised RFP will be sent out as a result of the guidance received by the FTA. It will be revised to be in compliance. We will have to be very clear about how we will go about awarding it.

City Manager Jackson said that all stakeholders will see communication giving our understanding of how the process should be run, based upon concurrence of the FTA. With that they will be able to describe how the process will be structured and should have an expectation of steps and a timeline.

Amy Cantrell, representing Just Economics, stated that they want a management company that operates in the best interest of riders, drivers and the City of Asheville. She hoped there would be some way to include the input of folks that have on-the-ground experience into the process.

Councilman Bothwell moved to adopt Resolution No. 16-160 authorizing the City Manager to reject all proposals for the management of the Asheville Transit System received from the RFP process. This motion was seconded by Councilwoman Mayfield and carried unanimously.

RESOLUTION BOOK NO. 38 - PAGE 105

Councilman Bothwell moved to adopt Resolution No. 16-161, authorizing the City Manager to extend the current contract with First Transit on a month-to-month basis as needed to revise the RFP process. This motion was seconded by Councilman Young and carried unanimously.

RESOLUTION BOOK NO. 38 - PAGE 106

B. RESOLUTION NO. 16-159 - RESOLUTION APPOINTING A MEMBER TO THE WNC REGIONAL AIR QUALITY AGENCY

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that the term of Loyd Kirk, as a member of the WNC Regional Air Quality Agency, expires on July 1, 2016.

The following individuals applied for a vacancy: Robert Lane and Joel Storrow. On June 14, 2016, City Council asked the City Clerk to arrange interviews for both candidates.

After speaking highly of both candidates, Robert Lane received 3 votes and Joel Storrow received 4 votes. Therefore, Joel Storrow was appointed to serve as a member of the WNC Regional Air Quality Agency, to serve a six-year term, term to expire July 1, 2022, or until his successor has been appointed.

RESOLUTION BOOK NO. 38 – PAGE 104

C. RESOLUTION NO. 16-162 - RESOLUTION APPOINTMENT MEMBERS TO THE ACCESSORY DWELLING UNIT TASK FORCE

Vice-Mayor Wisler said that there will be approximately eight at-large Task Force seats to be filled by members of the community. The City intends to distribute those seats evenly among:

- Concerned neighbors who are impacted by the ADU short-term rentals
- Members of the community who own, manage or benefit from such rentals
- Renters
- Neutral but interested individuals

There will be four other seats filled by representatives from the following stakeholder groups:

- Asheville Short-Term Rental Advocates
- Asheville Neighborhood Advisory Committee
- Land of the Sky Association of Realtors
- Asheville Affordable Housing Advisory Committee

The following individuals applied for one of the eight at-large seats on the ADU Task Force: Nan Chase, Sarah Nie, John Farquhar, David Raphael Smith, Lisa Nanney, Brenda L. Crawford, Kama Ward, Jackson Tierney, Wendy Dean, Andrew Pardue, Alan Escovitz, Marian Patten, George Kroncke, Jane Mathews, Brandee Boggs, David Rodgers, Robert Michel, Maggie Smith, Carter Webb, Greta Bush, Terry Guthrie, Jennifer Woodward, Rachel Larson, Philip Lenowitz, Barber Melton, Israel Hill, Patrick Conant, Amy Kemp, Chip Craig, Kelly Prime, Randall Barnett and Nick King.

It was the recommendation of the Governance Committee, and consensus of Council to appoint Jane Mathews, David Rodgers, John Farquhar, Jackson Tierney, Israel Hill, Kelly Prime, Wendy Dean and Carter Webb.

In addition, it was the recommendation of the Governance Committee and consensus of Council to appoint (1) Kama Ward to represent the Asheville Short-Term Rental Advocates; (2) Greta Bush to represent the Asheville Neighborhood Advisory Committee; (3) Randall Barnett to represent the Land of the Sky Association of Realtors; and Barber Melton to represent the Asheville Affordable Housing Advisory Committee.

RESOLUTION BOOK NO. 38 - PAGE 107

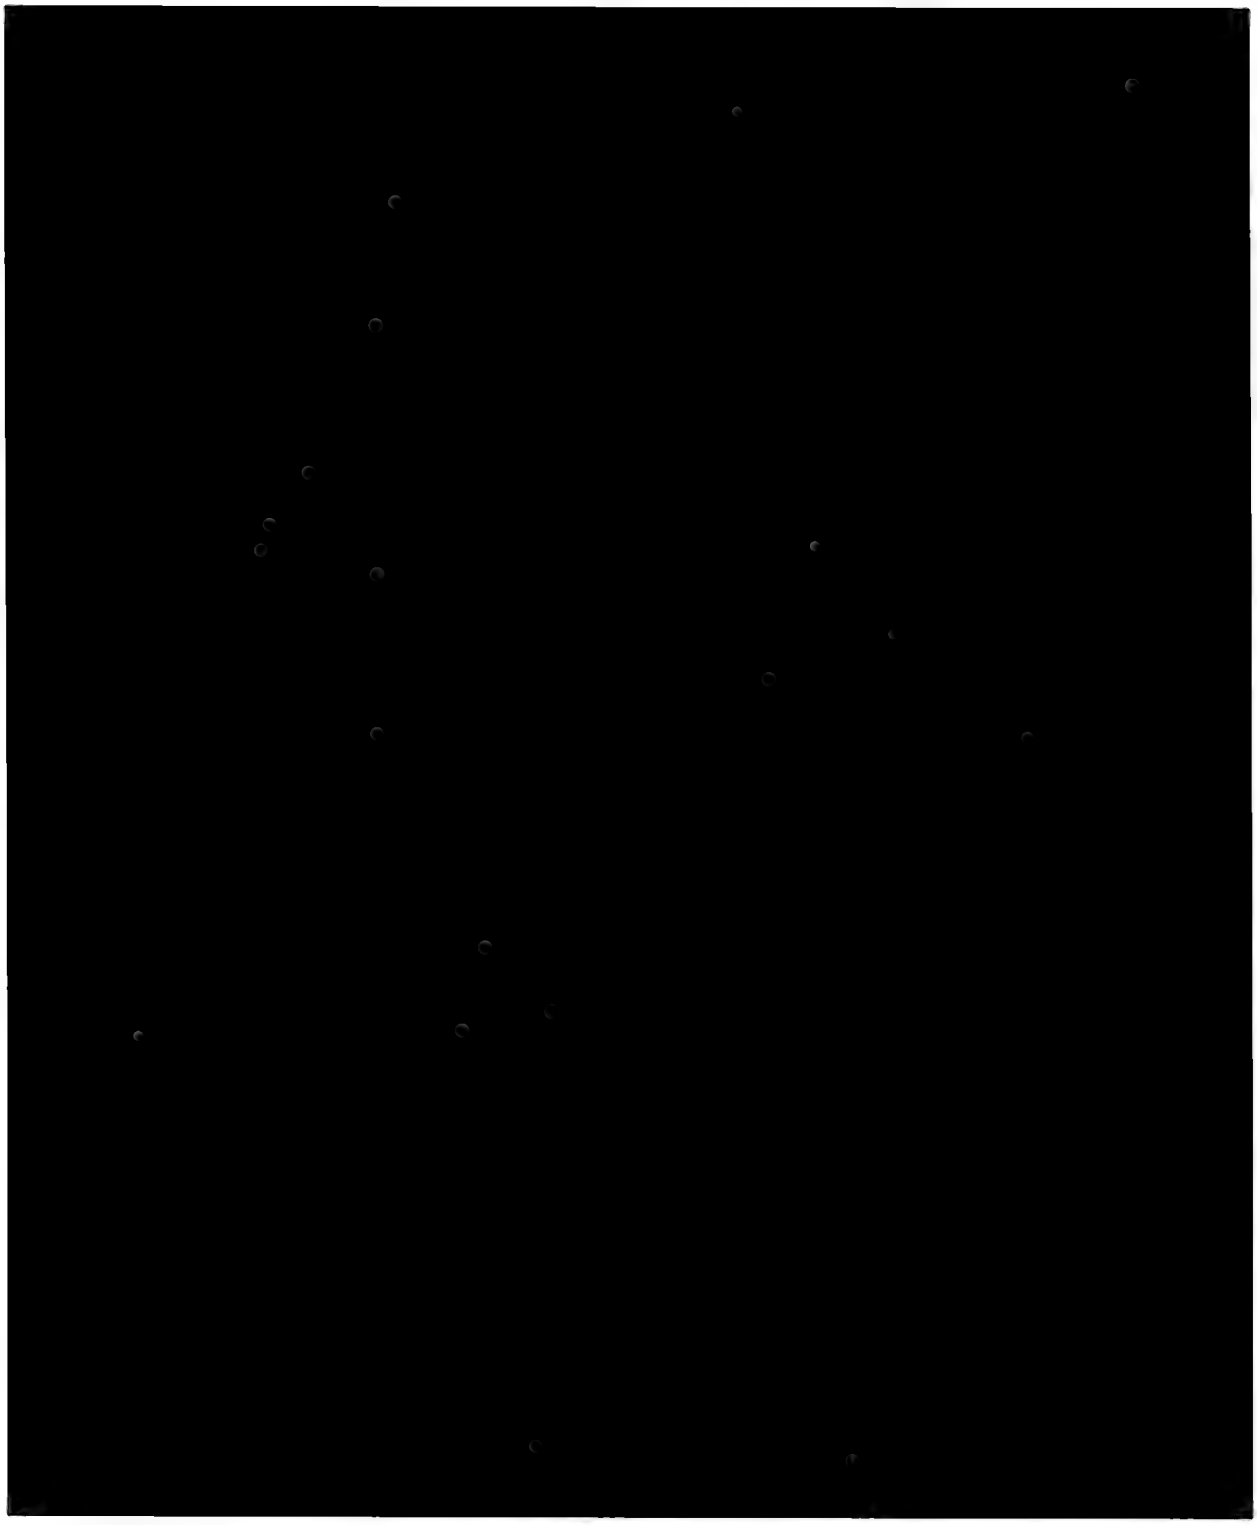
VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

VIII. ADJOURNMENT:

Mayor Manheimer adjourned the meeting at 8:41 p.m.

Magdalen Burleson
CITY CLERK

Esther E. Manheimer
MAYOR



BUNCOMBE COUNTY

CITY OF ASHEVILLE

CITY COUNCIL

MINUTES

VOLUME: 94

(JULY 5, 2016 – JUNE 13, 2017)
(PAGES: INDEX – 509)

AAR Roofing & Sheet Metal - Agrmt for Bingham Rd Roof Repairs, 212
ABC - Lease with ABC for 172 Charlotte St, 385

Tuesday – July 5, 2016 - 5:00 p.m.

Regular Meeting

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Cecil Bothwell; Councilman Brian D. Haynes; Councilwoman Julie V. Mayfield; Councilman Gordon D. Smith; Councilman W. Keith Young; City Manager Gary W. Jackson; City Attorney Robin T. Currin; and City Clerk Magdalen Burleson

Absent: None

PLEDGE OF ALLEGIANCE

Mayor Manheimer led City Council in the Pledge of Allegiance.

Mayor Manheimer said that regarding the officer-involved shooting this weekend, the City will place on their website homepage information regarding the on-going investigation, to include the Police Department Use of Force Police, the phone number of the State Bureau of Investigation to report information, and any City-issued press releases. This information will be available no later than tomorrow.

I. PROCLAMATIONS:

Mayor Manheimer read the following resolution: "WHEREAS, the I-26 and I-240 corridors are critical to local and regional residents, visitors, interstate travelers, and regional commerce; and WHEREAS, Alternatives 4 and 4B were the alternatives most strongly supported by the residents of Asheville and endorsed by City Council; WHEREAS, the selection of Alternate 4B selection will put the interstate on a new location from the Patton Avenue interchange across the French Broad River, just north of the Captain Jeff Bowen bridges, and connect with U.S. 19/23/70; and WHEREAS, the selection of Alternate 4B will return Patton Ave to a surface street, allowing the opportunity to create a new gateway into downtown and a truly urban, multi-modal boulevard with new, infill development – all of which will help Asheville grow sustainably and create opportunities for economic investment and development; and WHEREAS, this alternative has the least amount of impact on the Burton Street community and would provide the opportunity for a new connection from Hillcrest directly to Patton Ave; and WHEREAS, this decision will help ensure the project provides benefits to the residents of Asheville in addition to those travelling through our city; and WHEREAS, there are still improvements needed to make this project context and neighborhood sensitive and to ensure it aligns with the City of Asheville's strategic vision and goals, including making the footprint as small as possible, minimizing the noise and visual impacts on all Asheville neighborhoods and historic resources, designing new bridges that will contribute to Asheville's scenic beauty, including more bike/pedestrian facilities, and maintaining accessibility to and the scenic nature of the French Broad River as an amenity for residents and visitors. NOW, THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF ASHEVILLE THAT: The City of Asheville is grateful to the North Carolina Department of Transportation and other state and federal agencies for responding to public input and selecting the Alternate 4B option in section B of the I-26 Connector project; and the City of Asheville looks forward to continuing the positive working relationship between the city's working group and NCDOT to address the remaining issues, and looks forward to positive decisions emerging from those discussions that will continue to improve the project for the residents of Asheville."

Mr. David Brown, Board of Transportation member representing Division 13, and Mr. Jay Swain, Division Engineer for Division 13, thanked City Council for this acknowledgement and will look forward to continuing to work with City staff and City Council.

2

Vice-Mayor Wisler moved for the adoption of Resolution No. 16-163. This motion was seconded by Councilwoman Mayfield and carried unanimously.

RESOLUTION BOOK NO. 38 - PAGE 108

II. CONSENT AGENDA:

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON JUNE 28, 2016

B. RESOLUTION NO. 16-164 - RESOLUTION AUTHORIZING THE CITY MANAGER TO AMEND A GENERAL SERVICES CONTRACT WITH BREKFORD INC. FOR UP TO AN ADDITIONAL TWO YEARS FOR PARKING CITATION MANAGEMENT SERVICES

Summary: The consideration of a resolution authorizing the City Manager to amend a general services contract with Brekford, Inc. to extend the contract term for up to an additional two years and increase the contract amount by $140,000, with the contract amount not to exceed $70,000 per fiscal year, for parking citation management services.

In 2013, Brekford Corporation was selected to provide parking citation management services. The contract was authorized following a Request for Proposals (RFP) and interviews with multiple service providers. Brekford Corporation was chosen as the best platform to achieve the business goals. The contract with Brekford Inc. was for $200,000, not to exceed three years, and expires on June 30, 2016. (See Resolution No. 13-62) Brekford Corporation provides numerous administrative functions previously accomplished in-house, including:

- Cloud based data and application that is not hosted by the City of Asheville,
- Offender look-ups from most U.S. states, territories, and District of Columbia plus most Canadian provinces,
- Credit/debit card and check payment processing sending money directly to City accounts,
- Collection actions,
- State of art citation writers with pictures and real time transmission of citations,
- On-line citation appeals system,
- Integration with the City's Financial system,
- Continual upgrading of citation writing and management platforms, e.g. integrating hand held computerized ticket writers with Passport Parking; our pay-by-cell system.

Brekford Corporation also provides the following consumer friendly functions:

- On-line payment of citations via credit/debit cards,
- On-line appeals.

Current performance of the contractor met or exceeded expectations. Information Technology and Transportation staff both believe the best platform for continuing parking system improvements, underway and envisioned, would be to extend the Brekford Corporation contract for an additional two years.

Pros:

- Continues with a well-tested and integrated citation management system that provides reliable service to staff and citizens alike.
- Continues a relationship with a firm that already has the technology and programs to expand parking operations in new areas, e.g. residential permit parking, if so directed by Council.

- Integrated with City's Financial system.
- Provides continuity in collection efforts for unpaid parking citations.

Con:

- Expenditures of up to $70,000.00 per fiscal year.

The necessary funds are already budgeted in Parking Services' Operating Budget for FY 2016-17.

City staff recommends that City Council approve a resolution authorizing the City Manager to amend a general services contract with Brekford Inc., to extend the contract term for up to an additional two years and increase the contract amount by $140,000 (not to exceed $70,000 per fiscal year), for parking citation management services.

RESOLUTION BOOK NO. 38 - PAGE 109

C. RESOLUTION NO. 16-165 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A PROFESSIONAL ENGINEERING SERVICES SUPPLEMENTAL AGREEMENT WITH CAVANAUGH & ASSOCIATES , P.A., FOR THE NON-REVENUE WATER PROGRAM PHASE II

Summary: The consideration of a resolution authorizing the City Manager to execute a professional engineering services supplemental agreement with Cavanaugh & Associates, P.A., for the Non-revenue Water (NRW) Program Phase II for the not-to-exceed amount of $321,728.50.

The Water Resources Department (WRD) has been working with Will Jernigan at Cavanaugh & Associates, P.A., (Cavanaugh) since 2013 to provide feedback and guidance on reducing the WRD's Non-revenue Water (NRW). Mr. Jernigan is recognized nationally as a leader in Revenue Recovery and Water Auditing and has taught workshops, written technical papers, and helped to pioneer many of the standards adopted by the American Water Works Association (AWWA). More specifically to this project, Mr. Jernigan and other Cavanaugh staff have been the contracted engineers for the Pressure Optimization, Vault Renewals, and NRW Advanced Analytics Project Phase I. To date, Phase I has resulted in a 10% reduction in the department's NRW.

To further continue the effort to reduce NRW, the WRD desires to contract with Cavanaugh for the Non-Revenue Water Program Phase II. This will include three parts for: (1) a Pressure Optimization Analysis, (2) Vault Renewals, and (3) NRW Advanced Analytics. The Pressure Optimization Analysis Phase II for $143,050.00 will focus on implementing optimization recommendations from Cavanaugh's 2015 analysis for the Haw Creek pressure zone and updating the Hydraulic Model. The Vault Renewals Phase II for $100,325.00 will assist with data collection, design, bid package preparation, bid and construction administration for 10 additional vaults and associated piping/metering/appurtenances for large customer water service connections, including: Billy Graham Training Center, Gerber Road, Omni Grove Park Inn, Old Federal Building, Town of Biltmore Forest, Racquet Club Road, Haywood Park Hotel, Woodfin Water District, Southeastern Container, and Southern Concrete. The vaults identified for replacement are either too dangerous to enter and/or obsolete. The NRW Advanced Analytics Phase II for $78,353.50 will include updating the WRD's Water Audit, calculating the current water loss, and provide recommendations to continue to reduce the department's NRW.

Through a Request for Qualifications (RFQ) process for engineering services, the City of Asheville (City) selected nine engineering firms to provide on-call professional services for General Projects. As one of the selected firms, a Master Agreement for On-Call Professional Services for General Projects was executed between Cavanaugh and the City on April 21, 2015.If

approved, the proposed engineering services described herein will be developed into a Supplemental Agreement under the terms and conditions of the executed Master Agreement.

Pros:

- Continuation of this project will aid the department in reducing its non-revenue water rate, lower pressures in the Haw Creek area and help reduce background water leakage in the part of the system, update the Hydraulic Model, and replace unsafe and/or obsolete meter vaults.

Cons:

- The project will take approximately one year for completion, so project results will not be immediate.
- If the project is not continued into Phase II, then Haw Creek will continue to experience higher background water loss associated with high system pressure and large, unsafe/obsolete meter vaults will not be replaced.

The funding needed for this agreement will be funded from the Water Resources Fiscal Year 2016/17 Operating and Capital Improvement Projects (CIP) Funds.

Phase II	Fund	Budget	Amount Needed
Pressure Optimization Analysis	CIP	$ 143,050.00	$ 143,050.00
Vault Renewals*	CIP	500,000.00	100,325.00
NRW Advanced Analytics	Operating	78,353.50	78,353.50
	Total Needed for Cavanaugh Contract		$ 321,728.50

*The remaining budget in the Vault Renewals Capital Improvements Project will be used for the construction portion of the project.

Staff recommends City Council adopt a resolution authorizing the City Manager to execute a professional engineering services supplemental agreement with Cavanaugh & Associates, P.A., for the Non-revenue Water (NRW) Program Phase II for the not-to-exceed amount of $321,728.50.

RESOLUTION BOOK NO. 38 - PAGE 110

D. MOTION (1) CANCELLING THE AUGUST 23, 2016, PUBLIC HEARING TO AMEND CHAPTER 7 OF THE CODE OF ORDINANCES TO ESTABLISH REQUIREMENTS FOR UTILITY SUBSTATIONS; AND (2) SETTING A PUBLIC HEARING TO AMEND CHAPTER 7 OF THE CODE OF ORDINANCES TO ESTABLISH REQUIREMENTS FOR UTILITY SUBSTATIONS ON AUGUST 9, 2016

E. GENERAL OBLIGATION BOND REFERENDUM

Summary: The consideration of adoption of resolutions authorizing staff to proceed with the necessary action to conduct a general obligation bond referendum on November 8, 2016.

The referendum includes $32,000,000 of transportation bonds, $17,000,000 of park improvement bonds, and $25,000,000 of housing bonds. The statutory requirements for the legal process include applying to the Local Government Commission for approval, holding a public hearing on the proposed bond orders, setting of the special referendum, and certification of the results.

The current action is the first of four City Council actions. This first action will specifically authorize: (1) Publication of a notice of intent to apply to the Local Government Commission; (2) Application to the Local Government Commission, and (3) Certain statements of facts concerning the proposed bonds.

Next Steps:

- On July 26, 2016, the bond orders will be introduced, and the City Council will be asked to set a public hearing on the bond orders for August 9, 2016.
- On August 9, the City Council will be asked to hold a public hearing on each of the bond orders, approve the bond orders (including the form and language of the ballot), and set a special bond referendum.
- After November 8, the City Council will be asked to adopt a resolution certifying and declaring the results of the special bond referendum. This action will occur after the Buncombe County Board of Elections certifies the results of the vote.

This action furthers the City Council's strategic themes set forth in January, 2016, by providing funding to address transportation infrastructure needs, ensuring a high quality of life to the residents of the City of Asheville and addressing the City's affordable housing challenge.

Pros:

- Ensures City's compliance with North Carolina General Statutes that require local governments to adopt a balanced budget ordinance by July 1 of each year.
- General Fund Budget is balanced with no fund balance appropriation for ongoing operating expenses and all essential City services are continued.

Con:

- None.

A general obligation bond commits the full faith and credit of the City of Asheville to repayment of the bonded debt. Additional tax levy may be required to fund the debt service over the life of the bonds.

Staff recommends that Council adopt the resolutions authorizing staff to proceed with the necessary action to conduct a general obligation bond referendum on November 8, 2016.

Mr. Sidney Bach requested information on the estimated minimum and maximum property tax increases anticipated in order to service the debt; questioned the timeline for filing the application to the Local Government Commission; and questioned the use of public funds to assist private investment and investor-developers.

Director of Finance and Management Services Barbara Whitehorn said that outside bond counsel has set the timelines; however, she would verify the dates with them.

Mayor Manheimer also noted that this information has been furnished to City Council at their worksessions and as the process proceeds they will broadly broadcast that information.

RESOLUTION NO. 16-166 - RESOLUTION OF THE CITY COUNCIL OF THE CITY OF ASHEVILLE DIRECTING THE PUBLICATION OF NOTICE AND INTENTION TO APPLY TO THE LOCAL GOVERNMENT COMMISSION FOR APPROVAL OF BONDS

WHEREAS, the City Council (the "*City Council*") of the City of Asheville, North Carolina (the "*City*") is considering the issuance of general obligation bonds of the City which shall be for the following purposes and in the following maximum amounts:

$32,000,000 of bonds to provide funds to pay the capital costs of constructing, reconstructing, enlarging, extending and improving certain streets, including streets and roads constituting a part of the State highway system or otherwise the responsibility of the State and including the cost of related studies, streetscape and pedestrian improvements, relocation of utilities, plans and design; acquiring, constructing, reconstructing, widening, extending, paving, resurfacing, grading or improving streets, roads, intersections, pedestrian and bicycle paths; acquiring, constructing, reconstructing or improving sidewalks, curbs, gutters, drains, bridges, overpasses, underpasses and grade crossings and providing related landscaping, lighting and traffic controls, signals and markers; acquiring, constructing, extending and improving greenways, providing related landscaping, retaining walls, storm drainage and any other necessary improvements; and the acquisition of land and rights-of-way in land required therefor;

$25,000,000 of bonds to pay the capital costs of acquiring, constructing, developing, equipping and furnishing housing projects for the benefit of persons of low income, or moderate income, or low and moderate income, including without limitation loans, grants, interest supplements and other programs of financial assistance to persons of low income, or moderate income, or low and moderate income, and developers of housing for persons of low income, or moderate income, or low and moderate income, and construction of infrastructure improvements related thereto and the acquisition of land and rights-of-way required therefor; and

$17,000,000 of bonds to provide funds to pay the capital costs of infrastructure improvements for various parks and recreation facilities of the City, including the cost of related studies, plans and design, acquiring, constructing, reconstructing, improving, installing or providing storm drainage, grade and surface improvements, construction, reconstruction and improvements of recreation fields; construction, reconstruction and improvements of restroom facilities; sidewalks, bike paths and pedestrian trails; paving, resurfacing, grading or improving parking lots, roads and intersections, providing public open space, landscaping and lighting, and acquiring any necessary equipment, land, interests in land and rights-of-way therefor.

NOW, THEREFORE, BE IT RESOLVED by the City Council that the City Clerk is hereby directed to cause a copy of the "NOTICE OF INTENTION TO APPLY TO THE LOCAL GOVERNMENT COMMISSION FOR APPROVAL OF BONDS" to be published in a newspaper of general circulation in the City on or about July 7, 2016.

RESOLUTION BOOK NO. 38 - PAGE 111

RESOLUTION NO. 16-167 - RESOLUTION OF THE CITY COUNCIL OF THE CITY OF ASHEVILLE, NORTH CAROLINA, AUTHORIZING THE CHIEF FINANCIAL OFFICER TO APPLY TO THE LOCAL GOVERNMENT COMMISSION FOR APPROVAL FO THE CITY'S PROPOSED GENERAL OBLIGATION BOND FINANCINGS AND TO SUBMIT SUCH APPLICATION TO THE LOCAL GOVERNMENT COMMISSION

WHEREAS, the City Council (the "*City Council*") of the City of Asheville, North Carolina (the "*City*") proposes to set a public hearing on the following Bond Orders entitled:

> "BOND ORDER AUTHORIZING THE ISSUANCE OF $32,000,000 GENERAL OBLIGATION TRANSPORTATION BONDS OF THE CITY OF ASHEVILLE, NORTH CAROLINA;"
>
> "BOND ORDER AUTHORIZING THE ISSUANCE OF $25,000,000 GENERAL OBLIGATION HOUSING BONDS OF THE CITY OF ASHEVILLE, NORTH CAROLINA;" and
>
> "BOND ORDER AUTHORIZING THE ISSUANCE OF $17,000,000 GENERAL OBLIGATION PARKS AND RECREATION BONDS OF THE CITY OF ASHEVILLE, NORTH CAROLINA;"

WHEREAS, it is necessary, as a condition to the consideration and adoption of the Bond Orders, to submit an Application to the Local Government Commission for Approval of the Bonds, all in the manner required by The Local Government Bond Act.

NOW, THEREFORE, be it resolved by the City Council that the Chief Financial Officer of the City is hereby directed to file with the Local Government Commission an application for its approval of the General Obligation Transportation Bonds, General Obligation Housing Bonds and General Obligation Parks and Recreation Bonds hereinbefore described, on a form prescribed by said Commission, and (1) to request in such application that said Commission approve the City's use of Parker Poe Adams & Bernstein LLP of Charlotte, North Carolina, as bond counsel for the City and (2) to state in such application such facts and to attach thereto such exhibits in regard to such General Obligation Transportation Bonds, General Obligation Housing Bonds and General Obligation Parks and Recreation Bonds and to the City and its financial condition, as may be required by said Commission.

BE IT FURTHER RESOLVED that this Resolution shall become effective on the date of its adoption.

RESOLUTION BOOK NO. 38- PAGE 113

RESOLUTION NO. 16-168 - RESOLUTION OF THE CITY COUNCIL OF THE CITY OF ASHEVILLE, NORTH CAROLINA, MAKING CERTAIN STATEMENTS OF FACT CONCERNING PROPOSED BOND ISSUE

WHEREAS, the City Council (the "*City Council*") of the City of Asheville, North Carolina (the "*City*") is considering the issuance of bonds of the City which shall be for the following purposes and in the following maximum amount:

> $32,000,000 of bonds to provide funds to pay the capital costs of constructing, reconstructing, enlarging, extending and improving certain streets, including streets and roads constituting a part of the State highway system or otherwise the responsibility of the State and including the cost of related studies, streetscape and pedestrian improvements, relocation of utilities, plans and design; acquiring, constructing, reconstructing, widening, extending, paving, resurfacing, grading or improving streets, roads, intersections, pedestrian and bicycle paths; acquiring, constructing, reconstructing or improving sidewalks, curbs, gutters, drains, bridges, overpasses, underpasses and grade crossings and providing related landscaping, lighting and traffic

controls, signals and markers; acquiring, constructing, extending and improving greenways, providing related landscaping, retaining walls, storm drainage and any other necessary improvements; and the acquisition of land and rights-of-way in land required therefor;

$25,000,000 of bonds to pay the capital costs of acquiring, constructing, developing, equipping and furnishing housing projects for the benefit of persons of low income, or moderate income, or low and moderate income, including without limitation loans, grants, interest supplements and other programs of financial assistance to persons of low income, or moderate income, or low and moderate income, and developers of housing for persons of low income, or moderate income, or low and moderate income, and construction of infrastructure improvements related thereto and the acquisition of land and rights-of-way required therefor; and

$17,000,000 of bonds to provide funds to pay the capital costs of infrastructure improvements for various parks and recreation facilities of the City, including the cost of related studies, plans and design, acquiring, constructing, reconstructing, improving, installing or providing storm drainage, grade and surface improvements, construction, reconstruction and improvements of recreation fields; construction, reconstruction and improvements of restroom facilities; sidewalks, bike paths and pedestrian trails; paving, resurfacing, grading or improving parking lots, roads and intersections, providing public open space, landscaping and lighting, and acquiring any necessary equipment, land, interests in land and rights-of-way therefor.

WHEREAS, certain findings of fact by the City Council must be presented to enable the Local Government Commission of the State of North Carolina to make certain determinations as set forth in Section 159-52 the North Carolina General Statutes, as amended.

NOW, THEREFORE, BE IT RESOLVED that the City Council, meeting in open session on the 5th day of July, 2016, has made the following factual findings in regard to this matter:

A. *Facts Regarding Necessity of Proposed Financing.* The proposed bonds are necessary and expedient to pay (1) the capital costs of constructing, reconstructing, enlarging, extending and improving certain streets, including streets and roads constituting a part of the State highway system or otherwise the responsibility of the State and including the cost of related studies, streetscape and pedestrian improvements, relocation of utilities, plans and design; acquiring, constructing, reconstructing, widening, extending, paving, resurfacing, grading or improving streets, roads, intersections, pedestrian and bicycle paths; acquiring, constructing, reconstructing or improving sidewalks, curbs, gutters, drains, bridges, overpasses, underpasses and grade crossings and providing related landscaping, lighting and traffic controls, signals and markers; acquiring, constructing, extending and improving greenways, providing related landscaping, retaining walls, storm drainage and any other necessary improvements; and the acquisition of land and rights-of-way in land required therefor, (2) the capital costs of acquiring, constructing, developing, equipping and furnishing housing projects for the benefit of persons of low income, or moderate income, or low and moderate income, including without limitation loans, grants, interest supplements and other programs of financial assistance to persons of low income, or moderate income, or low and moderate income, and developers of housing for persons of low income, or moderate income, or low and moderate income, and construction of infrastructure improvements related thereto and the acquisition of land and rights-of-way required

therefor and (3) the capital costs of infrastructure improvements for various parks and recreation facilities of the City, including the cost of related studies, plans and design, acquiring, constructing, reconstructing, improving, installing or providing storm drainage, grade and surface improvements, construction, reconstruction and improvements of recreation fields; construction, reconstruction and improvements of restroom facilities; sidewalks, bike paths and pedestrian trails; paving, resurfacing, grading or improving parking lots, roads and intersections, providing public open space, landscaping and lighting, and acquiring any necessary equipment, land, interests in land and rights-of-way therefor.

B. *Facts Supporting the Amount of Bonds Proposed.* The sums estimated for these bonds are adequate and not excessive for the proposed purposes. Estimates for the proposed construction and improvements have been carefully analyzed and determined by persons knowledgeable about the construction and improvements.

C. *Past Debt Management Procedures and Policies.* The City's debt management procedures and policies are excellent and have been carried out in compliance with law. The City employs a Chief Financial Officer to oversee compliance with applicable laws relating to debt management. The City Council requires annual audits of City finances. In connection with these audits, compliance with laws is reviewed. The City is not in default in any of its debt service obligations. The City Attorney reviews all debt-related documents for compliance with laws.

D. *Past Budgetary and Fiscal Management Policies.* The City's budgetary and fiscal management policies have been carried out in compliance with laws. Annual budgets are closely reviewed by the City Council before final approval of budget ordinances. Budget amendments changing a function total or between functions are presented to the City Council at regular City Council meetings. The Chief Financial Officer presents financial information to the City Council which shows budget to actual comparisons annually and otherwise as the City Manager deems necessary or as a member of the City Council may request.

E. *Increase in Taxes; Retirement of Debt.* The increase in taxes, if any, necessary to service the proposed debt will not be excessive. The schedule for issuance anticipates issuing all of the bonds in more than one series during the seven years following the adoption of the bond orders.

RESOLUTION BOOK NO. 38- PAGE 114

Mayor Manheimer asked for public comments on any item on the Consent Agenda, but received none.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

After Mayor Manheimer specifically read the titles of the three bond resolutions, Councilman Bothwell moved for the adoption of the Consent Agenda. This motion was seconded by Councilman Young and carried unanimously.

III. PRESENTATIONS & REPORTS: None

IV. PUBLIC HEARINGS: None

V. UNFINISHED BUSINESS: None

VI. NEW BUSINESS: None

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

VIII. ADJOURNMENT:

Mayor Manheimer adjourned the meeting at 5:14 p.m.

Magdalen Bullock
CITY CLERK

Edwin C. Manheimer
MAYOR

Tuesday – July 26, 2016 - 5:00 p.m.

Regular Meeting

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Cecil Bothwell; Councilman Brian D. Haynes; Councilwoman Julie V. Mayfield; Councilman Gordon D. Smith; Councilman W. Keith Young; City Manager Gary W. Jackson; City Attorney Robin T. Currin; and City Clerk Magdalen Burleson

Absent: None

PLEDGE OF ALLEGIANCE

Mayor Manheimer led City Council in the Pledge of Allegiance.

I. PROCLAMATIONS:

II. CONSENT AGENDA:

Councilwoman Mayfield asked that Consent Agenda "I" be voted on separately due to a conflict of interest.

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON JULY 5, 2016

B. MOTION ADOPTING THE FINDINGS OF FACT AND CONCLUSIONS OF LAW FOR THE CONDITIONAL USE PERMIT FOR 1401 TUNNEL ROAD FOR THE VETERANS' HOUSING PROJECT

Summary: This public hearing was held on June 28, 2016.

C. RESOLUTION NO. 16-169 - RESOLUTION ACCEPTING HOSPITAL DRIVE AS A CITY MAINTAINED STREET

Summary: The consideration of a resolution to accept Hospital Drive as a city-maintained street.

Hospital Drive was constructed in June 2011. Since that time, the City of Asheville has consistently maintained Hospital Drive, including snow removal. On June 3, 2016, the property owner/developer of Hospital Drive sent the City an email, offering to dedicate Hospital Drive to the City for public use and requesting the City to accept Hospital Drive as a City street.

Hospital Drive from US 25 (McDowell Street) to SR 3214 (Biltmore Avenue) is a developer-constructed street that has an average width of 76 feet with 24-inch curb and gutter, a length of 0.14 mile, and a variable right-of-way width of 101 to 102 feet.

Transportation Department staff, Fire Department staff, Planning Department staff, and Public Works Department staff inspected the subject street and determined that it was constructed according to current standards as indicated in the City of Asheville's Standard Specifications and Details Manual.

Following City Council's approval of this resolution, the subject street will be added to the official Powell Bill List.

Pros:

12

- The City of Asheville will receive Powell Bill Funds from the North Carolina Department of Transportation (NCDOT) to help maintain the street.
- The street provides a much needed connection between McDowell Street and Biltmore Avenue.

Con:

- Powell Bill Funds will not cover 100% of the total cost to maintain the street.

There will be no initial financial impact to the City, although the responsibility of maintenance will belong to the Public Works Department. The City will receive Powell Bill Funds in the future to help maintain the street.

Staff recommends that City Council accept Hospital Drive as a City street.

RESOLUTION BOOK NO. 38 - PAGE 117

D. RESOLUTION NO. 16-170 - RESOLUTION AUTHORIZING THE POSSESSION AND/OR CONSUMPTION OF ALCOHOLIC BEVERAGES AND/OR UNFORTIFIED WINE AT THE LEAF DOWNTOWN AVL

RESOLUTION NO. 16-171 - RESOLUTION AUTHORIZING THE POSSESSION AND/OR CONSUMPTION OF ALCOHOLIC BEVERAGES AND/OR UNFORTIFIED WINE AT THE GOOMBAY FESTIVAL

Summary: The consideration of resolutions authorizing the City Manager to approve a resolution making provisions for the possession and consumption of malt beverages and/or unfortified wine at LEAF Downtown AVL and the Goombay Festival.

- LEAF Community Arts has requested through the City of Asheville Community & Economic Development Department that City Council permit them to serve beer and/or unfortified wine at LEAF Downtown AVL and allow for consumption at this event.

  LEAF Downtown AVL will be held on Saturday, July 30, 2016 from 12:00 p.m. to 10:30 p.m., and Sunday, July 31, 2016 from 10:00 a.m. to 7:00 p.m. within the boundaries of Pack Square Park as per the area limits referenced on the accompanying site map.

- YMI Cultural Center has requested through the City of Asheville Community & Economic Development Department that City Council permit them to serve beer and/or unfortified wine at the Goombay Festival and allow for consumption at this event.

  The Goombay Festival will be held on Friday, September 9, 2016 from 5:00 p.m. to 10:00 p.m., Saturday, September 10, 2016 from 10:00 a.m. to 10:00 p.m., and Sunday, September 11, 2016 from 1:00 p.m. to 6:00 p.m. within the boundaries of Pack Square Park as per the area limits referenced on the accompanying site map.

Pro:

- Allows fundraising opportunities for LEAF Community Arts and YMI Cultural Center

Con:

- Potential for public safety issues

There is no fiscal impact.

Staff recommends City Council adopt resolutions authorizing the City Manager to approve a resolution making provisions for the possession and consumption of malt beverages and/or unfortified wine at LEAF Downtown AVL and the Goombay Festival.

RESOLUTION NO. 16-170 - RESOLUTION BOOK NO. 38 - PAGE 119

RESOLUTION NO. 16-171 - RESOLUTION BOOK NO. 38 - PAGE 122

E. RESOLUTION NO. 16-172 - RESOLUTION AUTHORIZING THE CITY MANAGER TO SIGN THE NATIONAL POLLUTION PREVENTION DISCHARGE SYSTEM PHASE II RENEWAL APPLICATION

Summary: The consideration of a resolution authorizing the City Manager to sign the National Pollution Prevention Discharge System (NPDES) Phase II Renewal Application and any other documents necessary in order to comply with the Environmental Protection Agency (EPA) Federal Non-Funded Mandate.

In 1998, EPA adopted a rule known as the NPDES Stormwater Phase II rule. This rule applies to all municipalities with a population less than 100,000 that own or operate a Municipal Separate Storm Sewer System. The City currently is a Phase II compliant city and must renew this permit. The permit is renewed every 5 years.

The NPDES Phase II requirements include continuing to implement the following: Public Education and Outreach, Public Participation and Involvement, Illicit Discharge Detection and Elimination, Construction Site Runoff Control, Post Construction Runoff Control and Pollution Prevention and Good Housekeeping measures.

Pros:

- The City will satisfy all current State and Federal minimum requirements for participation in the NPDES Phase II program
- The City is already a Phase II city and will continue to promote water quality

Con:

- The NPDES program is a non-funded federal mandate to the City.

This program is currently funded under the stormwater utility, no additional impact is expected by the renewal.

City staff recommends that City Council adopt a resolution authorizing the City Manager to sign the National Pollution Discharge Elimination System (NPDES) Phase II Renewal Permit Application and any other paperwork necessary to comply with the EPA Federal Non-Funded Mandate.

RESOLUTION BOOK NO. 38 - PAGE 125

F. RESOLUTION NO. 16-173 - RESOLUTION AUTHORIZING THE CITY MANAGER TO APPLY FOR GRANT FUNDS THROUGH THE N.C. GOVERNOR'S CRIME COMMISSION'S STATE APPROPRIATION COMMITTEE FOR 2016-17 BODY-WORN VIDEO CAMERAS

Summary: The consideration of a resolution authorizing the City to apply for funds through the NC Governor's Crime Commission's State Appropriation Committee—Local Solicitation for a state-issued matching grant in the amount of $100,000.00.

The City of Asheville Police Department (Police Department) requests authorization to apply for the NC Governor's Crime Commission's State Appropriation Committee's 2016-17 Body-Worn Video Cameras - Local Solicitation. If the grant is approved, the Police Department will be allocated $100,000.00 based upon the state-issued matching grant ($1 state for every $2 local) through a Memorandum of Understanding. The Finance Committee considered the item and recommended City Council approval during its June 28 meeting.

Existing Police Department funds would be utilized to purchase 120 BWC systems ($223,474.20), while grant funds would be used to purchase an additional 60 Body-Worn Taser Axon Flex Camera Systems along with accessories through TASER's Officer Safety Program for a total cost of $100,000.00 as a part of the Police Department's Body-Worn Camera program which is intended to achieve the following:

1) enhance the police-community partnership guided by integrity, fairness, respect, and professionalism;
2) produce a "civilizing effect" for both the police officers and citizens;
3) enhance the police-community partnership by decreasing citizen complaints on police officers, to include decreasing the use-of-force complaints;
4) decreasing the number of assaults against police officers; and
5) Augment criminal and internal investigations through audiovisual evidence that corroborates the factual basis of an incident.

Pros:

- Body Worn Cameras should produce a "civilizing effect" that enhances the police-community partnership with decreased citizen complaints on the police; decreased use-of-force complaints; and decreased assaults on police officers.
- Enhanced criminal and internal investigations

Cons:

- Ongoing City funding to sustain the Body-Worn Camera program for future police operations. This includes cost of the Law Enforcement Technology Specialist to manage the program and the cost of maintenance and replacement.
- Five-year service and purchase agreement must be renewed to enable continued use and data storage.
- Ongoing tasks and costs associated with managing devices and data, storing data, providing audio and video for court discovery, and following retention schedules.

If awarded, the City will incur an expense based on the matching grant requirements ($1 state for every $2 local). The total expense for the purchase of the 180 camera systems is $323,474.20. Thus, the COA portion will be $223,474.20 with a grant award of $100,000.00. The five-year service and purchase agreement must be renewed to enable continued use and data storage. As noted above, the general fund impact in FY 2016-17 will be $223,474.20. This amount is already included in the Police Department's adopted FY 2016-17 budget. At the end of the grant, the general fund impact would be approximately $225,000.00 per year to cover additional accessories, safety plan and licenses for 4 additional years. The chart below outlines the general fund impact over the remainder of the proposed Body Worn Video Program implementation.

	Camera Systems, accessories and licenses		Grant	General Fund
Year #01 (FY 2017)	120	$ 223,474.20		$ 223,474.20
*Grant (FY 2017)	60		$ 100,000.00	$ 100,000.00
Year #02 (FY 2018)		$ 215,532.45		$ 215,532.45

Year # 03 (FY 2019)		$ 221,244.00		$ 221,244.00
Year # 04 (FY 2020)		$ 221,244.00		$ 221,244.00
Year # 05 (FY 2021)		$ 221,244.00		$ 221,244.00
Total	180	$ 1,102,738,.65	$ 100,000.00	$ 1,202,738.65

Staff recommends City Council to adopt the resolution authorizing the City Manager to apply for grant funds through the NC Governor's Crime Commission's State Appropriation Committee for the 2016-17 Body-Worn Video Cameras - Local Solicitation in the amount of $100,000.00.

When Councilman Young asked what is needed to get the entire 180 cameras if the grant is not awarded, Police Chief Tammy Hooper explained that the final 60 would be in the Fiscal Year 2017-18 budget. She said that staff will also look for other grant opportunities. The City might know whether they receive the grant or not in the October timeframe.

RESOLUTION BOOK NO. 38 - PAGE 126

G. ORDINANCE NO. 4514 - BUDGET AMENDMENT FOR EMERGENCY SOLUTIONS GRANT

Summary: The consideration of a budget amendment, in the amount of $30,372, from the State Division of Aging and Adult Services, Housing and Homeless Unit, for the Emergency Solutions Grant.

The State of North Carolina awarded 2015-16 funds to the City of Asheville in order to fund local agencies to provide emergency shelter and rapid rehousing services for homeless individuals and families, as well as administrative support for the City of Asheville. Due to high outcomes in FY14-15, additional Rapid Re-housing money and administration support was awarded.

The City of Asheville was granted an additional $30,372 in the FY16 cycle for the following activities:

	Emergency Response	Housing Stabilization	Administration	Total
Organization				
Homeward Bound		$ 28,372		$ 28,372
City of Asheville			$ 2,000	$ 2,000
TOTAL AWARD		$ 28,372	$ 2,000	$ 30,372

The award of funds was limited to Homeward Bound and the City of Asheville, as the other ESG recipients do not perform Rapid Re-housing or Administration activities. All of the State's requirements have been met by the agencies being recommended for the additional grant funds.

Pros:

- The Amendment was inadvertently omitted in the June 28, 2016 City Council approval.
- Approval of the Amendment allows additional homeless households to move to permanent housing in 2016.

Con:

- None noted.

The Emergency Solutions Grant is fully funded from the State of North Carolina Division of Aging and Adults Services, Housing and Homeless Unit.

Staff recommends approval of the budget amendment in the amount of $30,372 in Emergency Solutions Grant funds from the State Division of Aging and Adult Services (DAAS), Housing and Homeless Unit.

ORDINANCE BOOK NO. 30 - PAGE 378

H. ORDINANCE NO. 4515 - ORDINANCE RE-ADOPTING THE CITY OF ASHEVILLE WATER RESOURCES DEPARTMENT POLICY MANUAL

Summary: The consideration of an ordinance authorizing the re-adoption of the City of Asheville Water Resources Department's Policy Manual.

The Water Resources Department Policy Manual (herein "Manual") was last updated and adopted by City Council on December 14, 2010. The Manual must be periodically revised to align with federal and state regulations and to remain relevant with present business practices. Along with grammatical revisions, the substantive revisions to the Manual include, but are not limited to: addition of a table of contents which allows for future revisions to be made by individual sections and better navigation of the document; revisions that align with the Water Design and Construction Manual; revisions that align with federal, state, & local regulations; and revisions that align with present business practices.

Pros:

- Re-adoption of the Manual will ensure that it aligns with federal and state regulations and remains relevant with present business practices.
- Changes provide better document navigation and clearer interpretation.
- Changes align with the Water Design and Construction Manual.
- Changes allow for future revisions to be made by individual sections independently.

Cons:

- Failure to re-adopt the Manual may cause confusion about interpretation of the policies.
- Failure to re-adopt could cause policies to be noncompliant with federal, state, and local regulations and present business practices.

Staff recommends City Council adopt an ordinance authorizing the re-adoption of the City of Asheville Water Resources Department's Policy Manual.

ORDINANCE BOOK NO. 30 - PAGE 380

I. RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A MULTI-YEAR GENERAL SERVICES AGREEMENT WITH MILLS RIVER PARTNERSHIP INC. TO PARTIALLY FUND PROJECTS DIRECTED RELATED TO WATER QUALITY PROTECTION AND/OR IMPROVEMENT IN THE MILLS RIVER WATERSHED

This item was removed from the Consent Agenda due to a conflict of interest with Councilwoman Mayfield.

J. RESOLUTION NO. 16-175 - RESOLUTION AUTHORIZING THE CITY

MANAGER TO APPLY FOR AND RECEIVE FUNDS FROM THE N.C. DEPT. OF TRANSPORTATION BICYCLE AND PEDESTRIAN PLANNING GRANT TO CONDUCT A GREENWAY FEASIBILITY STUDY IN EAST ASHEVILLE: SWANNANOA RIVER CORRIDOR GREENWAY - PHASE I

Summary: The consideration of a resolution authorizing the City Manager to apply to the French Broad River Metropolitan Planning Organization (MPO) for a grant from the N.C. Dept. of Transportation (NCDOT) for bike and pedestrian planning projects; and if the application is successful, to accept grants and sign necessary agreements with the MPO, or state agencies to receive the funds.

The NCDOT Bicycle and Pedestrian Planning grants are small grants to assist with bike and pedestrian planning projects. They typically award 3-4 grants of $100,000 or less per year for projects that need additional financial assistance. If awarded, the City of Asheville would receive the funds in early August. We requested $100,000 to match the $37,000 we currently have for the project. Our matching funds are provided to the City via the Asheville Parks and Greenways Foundation and the Friends of Connect Buncombe.

The East Asheville Greenway is a segment of the Swannanoa River Greenway Corridor. It is a 2.2 mile project that parallels the Swannanoa River Rd and the Swannanoa River from the intersection of S. Tunnel Rd. (Lowe's) to the Azalea Park. This project is identified as a priority project in the recently adopted AIM Plan. This feasibility is supported by the Asheville Greenway Committee and was identified by them as a priority project in 2014.

Once finished, this feasibility study will poise this project for engineering and final design work.

Pros:

- This project will be 100% funded by donations from private entities and granted funds
- This will be the first greenway study on the east side of town.

Con:

- Staff support will be needed to conduct this study

No additional City funds required. These funds, if awarded, would be added to the $37,000 mentioned earlier in the staff report to produce a feasibility study for the first segment of the Swannanoa River Greenway Corridor, known as the East Asheville Greenway.

City staff recommends City Council approve a resolution authorizing the City Manager apply for and receive funds from the NCDOT for a greenway feasibility program.

RESOLUTION BOOK NO. 38 - PAGE 128

K. RESOLUTION NO. 16-176 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXERCISE THE SECOND-YEAR OPTION OF A CONTRACT WITH SAGE SECURITY SOLUTIONS LLC FOR SECURITY PROTECTION SERVICES AT VARIOUS CITY-OWNED FACILITIES

Summary: The consideration of a resolution authorizing the City Manager to: (1) exercise the second-year option to renew the contract in the amount of $40,923.55 with Sage Security Solutions, LLC for security protection services at various facilities owned by the City of Asheville (City) for the second year in the cumulative amount of $122,815.55; and (2) to exercise the option to renew the contract for one (1) additional twelve-month period based on the contactor's satisfactory performance and available budget.

The General Services Department (Department) contracts for maintenance and repair of security protection systems within City facilities. The City entered into a one-year contract with Sage Security Solutions, LLC for FY 2014-2015 for security protection service and new equipment in the amount of $43,222.22, and amended the contract for FY 2015-2016 in the amount of $38,670.70 with an option to renew for one year. By electing to exercise the second year in the amount of $40,923.55, increases the cumulative amount of the contract to $122,815.55, an amount which requires City Council consideration and approval.

Pro: • Supports the efficient delivery of core facility maintenance services.

Con: • None

The $40,923.55 funding required to support this security systems protection contract is budgeted in the Fiscal Year 2016-2017 Department operating budget as part of the Facilities Maintenance division budget.

Staff recommends that City Council adopt a resolution authorizing the City Manager to: (1) 1) exercise the second-year option to renew the contract in the amount of $40,923.55 with Sage Security Solutions, LLC for security protection services at various facilities owned by the City of Asheville (City) for the second year in the cumulative amount of $122,815.55; and (2) 2) to exercise the option to renew the contract for one (1) additional twelve-month period based on the contactor's satisfactory performance and available budget.

RESOLUTION BOOK NO. 38 - PAGE 129

L. RESOLUTION NO. 16-177 - RESOLUTION AUTHORIZING THE CITY MANAGER TO COMPLETE NEGOTIATIONS AND EXECUTE A CONTRACT WITH HYDROCYCLE ENGINEERING FOR THE PROFESSIONAL SERVICES WITH A WATERSHED ASSESSMENT OF THE WELLINGTON STREET AREA

Summary: The consideration of a resolution authorizing the City Manager to complete negotiations and sign a contract with HydroCycle Engineering for the completion of the watershed assessment for the Wellington Street drainage area not to exceed $47,000.

During heavy rainfall events the neighborhood located in the Wellington Street area experience flooding issues due to overland flow. Citizens of this neighborhood, expressed concerns to council in June, in which Council asked Staff to perform a watershed assessment of the area to identify possible solutions to these issues.

The area is primarily a residential area made up of single family homes and the public street infrastructure. Also located in this drainage area is a city school. The drainage infrastructure in this area is a mixture of material types and sizes, of which appear to be undersized for the drainage area upstream of the public roadway.

This watershed assessment will be under $50,000, this will allow the City Manager to sign an exemption from the Mini-Brook Act. If professional services are over the $50,000, a Request for Qualifications and review process would be required for the selection of the design team. City staff has asked HydroCycle Engineering, who was a sub-consultant for the recent City Wide Drainage Assessment, to provide a scope of services for this project. This design team is made up of local engineers who are very familiar with the area and the rain events which our area has been experiencing.

Pros:

- Identify opportunities to solve drainage issues impacting a neighborhood through public private partnerships.

- The project will evaluate green infrastructure and will look to provide localized flood mitigation.
- Utilize the stormwater utility fee for construction related projects

Con:

- The project was not originally identified in this current budget year.

The City's Stormwater Utility will be responsible for the cost for the professional services contract. The total contract for professional services will be less than $50,000. Funding for this contract is included in the adopted FY 2016-17 Stormwater Fund budget.

City staff recommends City Council adopt a resolution authorizing the City Manager to complete negotiations and execute a contract with HydroCycle Engineering for the professional services associated with the watershed assessment for the Wellington Street area. The total cost of the design services for this project is $47,000.

RESOLUTION BOOK NO. 38 - PAGE 130

M. RESOLUTION NO. 16-178 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CONSTRUCTION CONTRACT WITH CAROLINA CORNERSTONE CONSTRUCTION INC. FOR THE 14 RIVERSIDE DRIVE RENOVATION PROJECT

ORDINANCE NO. 4516 - BUDGET AMENDMENT FOR 14 RIVERSIDE DRIVE

Summary: The consideration of (1) a resolution authorizing the City Manager to execute a construction contract with Carolina Cornerstone Construction Inc. in the amount of $724,980 with a 15% contingency of $108,900 any associated change orders for said contract up to the budgeted amount, for the project known as 14 Riverside Drive Renovation project, City of Asheville project number #RAD-15-16-001; and (2) a budget amendment in the amount of $312,939 from debt proceeds to fully fund the contract and other project costs.

The structure at 14 Riverside Drive was built ca. 1930 and is listed on the National Register of Historic Places as a contributing building to the Riverside Industrial Historic District. It was donated to the City, and has not been occupied for many years.

This renovation project fulfills the next step of vision for this building; that being for the facility to serve as a highly visible publicly owned, arts and culture information portal for the greater River Arts District; providing information about the district for visitors on shopping, studios, galleries, recreation opportunities, events, and restaurants. It is also intended to be a destination in its own right, with plans for a public-private-partnership lease, and to serve as flexible space for a gallery, office, studio, retail, or performance space that would be rented to private sector partners.

The project, will include the selective demolition and renovation of the 1745 square foot historic structure and related site improvements, including:

- The construction of a 1300 square foot deck that will wrap around the building on the north and west elevations.
- The interior/common space is designed for flexibility. A large overhead garage style door will open to flow to the deck at the west elevation, facing the river.
- Public facilities including restrooms, and drinking fountain; as well as 13 parking spaces, and sidewalk.
- All improvements will meet current NC Building Code requirements.

- Additionally, the contract will, to the extent reasonable, use "green demolition". Care will be exercised in extracting of older fixtures or equipment for re-use.

The project was advertised on June 6, 2016. Bids were opened on July 6, 2016, with the following results:

Bidder	Base bid
Abbot Construction	$817,099
Carolina Cornerstone	$726,026
H&M Constructors	$898,000

Pros:

- Confirms investment in community revitalization of historic structures in Asheville.
- Replaces an otherwise unusable structure for public purposes.
- Provides public restrooms, interior programmable space for public and artists use, and open space interaction with the city's natural resources.

Con:

- Project management, contract administration, and other staff and budget resources will be consumed that could be used on other City priorities.

Based on revised estimates, the project budget needs to be increased by $312,939 to a new budget of $933,620. This project is funded with a mixture of Tourism Product Development Fund grant funding ($415,000) and debt proceeds. The budget amendment of $312,939 will be fully funded with additional debt proceeds. With the additional debt being financed over a twenty-year amortization period, the estimated increase in annual debt service will be approximately $32,000.

City staff recommends that City Council adopt a resolution awarding the contract to Carolina Cornerstone construction Inc, for the amount of $724,980.00 plus contingency and approve a budget amendment of $312,939 in order to fully fund the construction project.

RESOLUTION BOOK NO. 38 - PAGE 131
ORDINANCE BOOK NO. 30 - PAGE 381

N. RESOLUTION NO. 16-179 - RESOLUTION AUTHORIZING THE CITY MANAGER TO AMEND THE CONTRACT WITH DR. J. PAUL MARTIN (D/B/A ASHEVILLE ADDICTION CONSULTANTS, PA) FOR PHYSICIAN SERVICES

Summary: The consideration of a contract amendment extending the current physician services for the Employee Health Center on a month-to-month basis for a period not to exceed six months and a value not to exceed $60,000.

In July of 2015, Council authorized a twelve-month contract for physician services at the Employee Health Center to be provided by Dr. J. Paul Martin, MD, DBA Asheville Addiction Consultants, PA. The services were to be performed on an hourly basis at a rate of $190.00 per hour. The maximum contract value was $120,000 over twelve months.

A Request for Proposals (RFP) is being issued the week of July 18 to solicit offerings from physicians or physician practices to provide professional services at the Employee Health Center. The current timeline indicates the procurement should be ready for Council review by September 27 with implementation of the new service agreement in October.

While the procurement is in process, it is necessary for physician services to continue at the Employee Health Center. The existing service provider is available to provide physician

services at the current service level and at the current hourly rate. The contract terms indicate the agreement may be terminated with thirty days prior written notice, which has the effect of a month-to-month agreement. The proposed contract amendment would allow up to six months in case of any delays in the implementation of a new service agreement.

Pros:

- Maintains the current service level at the current hourly rate;
- Provides time for the orderly procurement of a physician or physician practice to provide long-term professional services; and
- Allows cancellation of existing services to coincide with implementation of new contract.

Cons:

- None identified.

Funding for physician services is included in the approved FY17 Health Insurance Fund budget, and the proposed expenditures are within the existing budget.

City staff recommends that City Council authorize the City Manager to execute an amendment extending the current physician services contract for a period not to exceed six months and a value not to exceed $60,000.

RESOLUTION BOOK NO. 38 - PAGE 132

O. RESOLUTION NO. 16-180 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ACCEPT, BY DONATION, EASEMENTS OF REAL PROPERTY FOR THE STORMWATER IMPROVEMENTS ALONG PATTON AVENUE, PEARL STREET AND HILLIARD AVENUE

Summary: The consideration of a resolution authorizing the City Manager to accept, by donation, easements of real property for the stormwater improvements located along Patton Avenue, Pearl Street and Hilliard Avenue.

The City of Asheville's Stormwater Division has been working with Delray at Patton Avenue, LLC, on a public private partnership for stormwater improvements. City Council approved the public private partnership on March 22, 2016.

This work includes installing a new storm drainage system, beginning on Patton Avenue to the intersection with Pearl Street, traveling down Pearl Street where it will cross through what is now private property to Hilliard Avenue, where it will end at the connection with an existing storm drainage system on Hilliard Avenue. The original plan was to install the drainage system within the existing public right of way. As the design team has continued their efforts while working closely with City Staff, they have found that the most constructible and cost effective solution is to install a portion of the drainage system across private property, requiring additional stormwater easements. The easements are to be donated by the private partner to the City. As part of the public private agreement, Delray at Patton Place is required to obtain the necessary stormwater easements which will be granted directly to the City and meet the usual City requirements for such easements. Three easements will be granted to the City: an easement from Claude DeBruhl to the City for an area consisting of approximately 2,657 SF; an easement from Claude and William DeBruhl to the City for an area consisting of approximately 2,416 SF; and an easement from Cope Street Complex, LLC to the City for an area consisting of approximately 4,640 SF.

Pros:

- The necessary easements are to be acquired by the development partner and granted to the City at no cost.

- If approved, the construction team would be able to expedite the construction of the new pipe, minimizing future damage to properties.
- Pearl Avenue currently has minimum storm drainage infrastructure and this project will allow new drainage infrastructure to be installed.
- This project will maximize city's stormwater funding to allow for more infrastructures to be installed through this public private partnership.
- This project would complement previously identified stormwater infrastructure needs.

Cons:

- None noted, this public-private stormwater improvement project has already been approved by the Council and the acceptance of these easements will facilitate this process.

No fiscal impact, as Delray at Patton Avenue expects to grant the easement at no cost to the City.

City staff recommends that the City Council approve a resolution authorizing the City Manager to accept, by donation, easements of real property for the stormwater improvements located along Patton Avenue, Pearl Street and Hilliard Avenue.

RESOLUTION BOOK NO. 38 - PAGE 133

P. RESOLUTION NO. 16-181- RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CONTRACT WITH H&M CONSTRUCTORS TO PROVIDE DESIGN SERVICES FOR THE PARKS MAINTENANCE FACILITIES RELOCATION PROJECT

Summary: The consideration of a resolution authorizing the City Manager to enter into a design-build contract with H&M Constructors for the design phase of the Parks Maintenance Relocation project, and to execute any change orders within the budget, in the amount of $151,840 plus a contingency of $30,368 for a total of $182,208.

In support of the reuse of property owned by the City of Asheville (City) for affordable housing initiatives, the Parks Maintenance facilities and operations currently at 338 Hilliard Ave will be relocated. The City-owned property at 75 Shelburne Road, the "Old Armory Site" previously owned by the National Guard, was selected as a workable location for the Parks Maintenance operations.

The site currently houses or serves a number of other City functions including Facility Maintenance, Public Works, and various APD functions. The intent of this site selection was to consolidate City functions at the Armory, and to provide a cost effective intermediate location for Parks Maintenance. A long-term strategic assessment will be determined after the Facilities Asset Master Plan is performed.

Additional facilities and site work are required to accommodate Parks Maintenance functions. The plan includes a 6,000 square foot, pre-engineered building that will provide workspace for equipment maintenance and storage, offices, workshops, and other support functions needed for the staff to perform their day to day tasks. The design, which will meet all City and North Carolina building and zoning codes, will take into consideration the best use of space and resources for all the staff at the site, and will work to maximize logistical flow given the site's layout and topography.

In support of the City's commitment to sustainable practices, the building will be designed and constructed based on industry standard practices for energy efficiency. Additionally, as this

will be a new City-owned building greater than 5,000 square feet, it will be designed, contracted and built to achieve the LEED™ 'Gold Certification' level. This standard is consistent with City Council resolution 07-91, adopting Leadership in Energy and Environmental Design (LEED™) Standards. On 3/15/16, the City Manager approved the use and design build method for this project in accordance with the design build criteria and requirements adopted in City Council resolution 15-45 approved by council on 2/23/16.

A request for qualifications (RFQ) was issued for a design-build delivery method on April 12th, and reissued on May 5th with H&M Constructors submitting a statement of qualifications.

Pros:

- Clears the City-owned property at Hilliard Ave for planned development for affordable housing.
- Provides new energy efficient facilities for employees to work and operate.

Con:

- None

The funds required for this design project are budgeted in the Capital Improvement Program for FY 2016-17.

City staff recommends that City Council adopt a resolution awarding the contract to H&M constructors, in an amount not to exceed $182,208.00, for the Parks Maintenance Relocation project.

RESOLUTION BOOK NO. 38 - PAGE 134

Q. RESOLUTION NO. 16-182 - RESOLUTION AMENDING THE 2016 CITY COUNCIL MEETING SCHEDULE

Summary: The Asheville City Council (1) will schedule a formal meeting on September 6, 2016, beginning at 5:00 p.m. in the Council Chamber, located on the 2nd Floor of City Hall; and (2) cancel the September 13, 2016, formal meeting.

RESOLUTION BOOK NO. 38 - PAGE 135

Mayor Manheimer asked for public comments on any item on the Consent Agenda, but received none.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Councilman Bothwell moved for the adoption of the Consent Agenda. This motion was seconded by Councilwoman Mayfield and carried unanimously.

ITEMS REMOVED FROM THE CONSENT AGENDA FOR INDIVIDUAL VOTES

I. RESOLUTION NO. 16-174 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A MULTI-YEAR GENERAL SERVICES AGREEMENT WITH MILLS RIVER PARTNERSHIP INC. TO PARTIALLY FUND PROJECTS DIRECTED RELATED TO WATER QUALITY PROTECTION AND/OR IMPROVEMENT IN THE MILLS RIVER WATERSHED

Councilwoman Mayfield recused herself from participating in this matter due to a conflict of interest.

24

Summary: The consideration of a resolution authorizing the City Manager to execute a multi-year general services agreement for the entire agreement with the Mills River Partnership, Inc., for the Mills River Watershed Best Management Practices project for a not-to-exceed amount of $180,000.00 over three (3) fiscal years contingent upon funding each year.

On November 12, 2013, City Council authorized a three year agreement between the City of Asheville Water Resources Department (Department) and the Mills River Partnership (MRP) for a not-to-exceed amount of $180,000 ($60,000 per fiscal year) to provide financial support of projects intended to protect and/or improve water quality in the Mills River Watershed. The Department desires to continue to partner with the MRP to help fund water quality projects in the Mills River Watershed. Staff requests Council consideration of a new three year agreement with MRP.

The City of Asheville (City) has an ongoing interest in watershed management. Water quality in the upper watershed continues to be excellent and overall water quality indices have improved during the past 10 years. The strategy now is to focus on efforts to protect and improve water quality. Funding initiatives are to be considered with an understanding of their long-term impact on water quality.

The proposed agreement is reflective of the commitment of the City and Department to financially support projects that are directly related to water quality protection and/or improvement. These activities include selection and installation of Best Management Practices to control contamination of the river from storm runoff, and educational materials and activities. The suggested level of participation is an amount up to $60,000 per fiscal year (approximately $0.01 per CCF system-wide) for a maximum of three fiscal years with the understanding that funding is project-specific and subject to the appropriation of funds.

The level of recommended funding is up to $60,000 per fiscal year for a maximum of three fiscal years with the understanding that funding is project-specific and subject to the appropriation of funds.

Pros:

- Opportunity to partner with the Mills River Partnership to strategically address areas of concern in the Mills River watershed.
- Funding from the City could make some water quality projects feasible for farmers and local landowners.
- Funding from the City could support public education efforts related to water quality protection.
- Projects in the watershed could improve source water and drinking water quality.
- The Department supports efforts to maximize benefits to water quality.

Con:

- If the City does not participate in the funding of specific water quality projects, these projects may not occur and there could be potential negative impacts on water quality.

Any expenditure in the Mills River watershed is subject to review by Department staff. The full amount needed for the three year agreement is currently allocated within the Department's Operating Fund for Fiscal Year 2016-17. The total not-to-exceed contract amount of $180,000 will be encumbered upon City Council approval, even though the MRP will only be allowed to request a not-to-exceed amount of $60,000 per fiscal year for the next three years.

Staff recommends City Council adopt a resolution authorizing the City Manager to execute a multi-year general services agreement for the entire agreement with the Mills River Partnership, Inc., for the Mills River Watershed Best Management Practices project for a not-to-exceed amount of $180,000 over three (3) fiscal years contingent upon funding each year.

Vice-Mayor Wisler moved for the adoption of Resolution No. 16-174. This motion was seconded by Councilman Bothwell and carried unanimously on a 6-0 vote, with Councilwoman Mayfield recused from voting.

RESOLUTION BOOK NO. 38 - PAGE 127

III. PRESENTATIONS & REPORTS:

A. UPDATE ON HOMESTAY PERMITTING PROGRAM

Director of Development Services Jason Nortz said that this report is an update on the Homestay Permitting Process enacted via a wording amendment that was adopted on November 17, 2015. The data in this report spans a time frame from November 18, 2015 to July 1, 2016.

Due to strong demand for homestay lodging, City Council passed a text amendment to Section 7-16-1(c)(9) to modify the requirements for a Homestay. Some of the changes to the requirements are as follows:

- The removal of a 500-foot separation requirement (between homestays)
- The removal of the minimum home size requirement of 2,500 sf.
- The removal of the need for additional off-street parking
- The removal of the requirement to provide a morning meal
- Only one homestay shall be permitted per lot
- Provisions requiring appropriate insurance
- Provisions for a required annual inspection
- Requirement that a maximum of no more than two (2) bedrooms be used for the homestay.
- Expansion of the zoning districts where homestays may be permitted as a use by right or use by right subject to special standards.

With these and other smaller changes, a Homestay shall:

- Be operated by a full time resident of the property
- The full time resident must be present when guests are present
- Meet all applicable life safety codes
- Exist as the only homestay on the parcel
- Provide all proper insurance policies
- Pay all applicable taxes.

Applications for approval of a Homestay are submitted to and reviewed by the Development Services Department (DSD).

The DSD began receiving applications for Homestay permits under the new provisions on November 18, 2015. Through July 1, 2016, there have been 93 applications submitted for the Homestay permits. The properties subject to these applications have been primarily focused within a few neighborhoods. He showed Council a map of the homestay applications.

When the March update was made, the majority of the properties for which a Homestay use was desired were located generally in the area known as "North Asheville". As the map above shows, Homestay permits have been trending to areas west and east of downtown Asheville as well as north. The table below (figure two) contains further information related to Homestay permitting thus far.

Number of Applications Submitted	**93** ⇧
Number of Permits Issued	**81** ⇧
Average Total Home Size	**1,987 sf** ⇩
Average Homestay Area Size	**274 sf** ⇩
Average Percentage of Total Home Size	**15%** ⇔
Average # of Bedrooms	**1.5** ⇔
Average Age of Structure	**65 years** ⇩
Homestays Providing Off-Street Parking	**76%** ⇧

Homestay Data Through 7.1.2016. Arrows Indicate Change From March 2016 Report.

Along with amending the requirements for homestays, the City hired a fulltime staff member for enforcement and increased the fines for violations. At the onset of the new regulations, there were also several ongoing enforcement cases that now had the opportunity to convert to legal Homestay uses through the permitting process. Prior to the adoption of the Homestay amendment, there were over 50 existing short-term rental violations. Roughly 22 percent have come into compliance through the Homestay permitting process. Since the adoption of the changes to the Homestay Ordinance, the City has opened 68 cases that have resulted in active enforcement for violation of the Homestay Ordinance or operation of a short-term rental where it is prohibited by zoning district.

Since the March homestay update was presented, city staff has focused on proactive enforcement which is based upon official observation in addition to complaints. Of the 68 total enforcement cases that have occurred since November, 49% of them have been proactively initiated through City staff investigations. The attached exhibit 4 shows the count of the resolution and status of those opened enforcement cases.

Through the administration of the revised permitting program, staff has encountered many different scenarios through homestay applications and enforcement. Included among these concerns are:

- Adaptation of rental listing websites by actions such as the removal of all location identification information from advertisements;
- Possible false representation of residency;
- Floorplans not representing legally permitted building work;
- Accurately identifying livable space and unit separation; and
- Continuing press and recognition of the value of the short-term rental market in Asheville.

Staff will continue to explore ways to more proactively enforce short-term rental violations as well as look at other ways to enhance the efficiency of the program. The next 4 month update will be in November.

When Councilwoman Mayfield asked how staff is working to address their concerns, Mr. Nortz said that City Council has approved additional resources for homestay permitting and enforcement in the form of 1 ½ full time employee position and associated supplies such as vehicles and computers. In addition, staff is looking at third-party vendors for pro-enforcement.

B. UPDATE ON MAYOR'S DEVELOPMENT TASK FORCE

Director of Development Services Jason Nortz said that in 2009 the City of Asheville created the Development Services Department (Department). The primary purpose of the Department was to create a one stop-shop to help streamline the permit process, improve communication, and create more accountability. In the summer of 2014 the Mayor established the Development Task Force (Task Force). The primary purpose of the Task Force was to identify the most significant barriers to the development process and to make recommendations for improving sound growth and development in the City of Asheville.

Beginning in September of 2014, the City hosted a task force designed to review and discuss challenges associated with developing in the City of Asheville. The group of 23 stakeholders met once a month for four months and identified numerous issues commonly experienced during the development process. In March of 2015 staff from the Development Services Department (DSD) presented the outcomes of that process to City Council.

He reported that there have been numerous accomplishments since staff last provided City Council with an update in March of 2015. The most notable accomplishment which has helped guide staff and establish a level of accountability has been the formation of the Development Customer Advisory Group (DCAG) in September of 2015. The primary purpose of the DCAG is to discuss strategies for implementation of the Task Force recommendations. The DCAG is comprised of 12 stakeholders that meet with DSD staff once a month to review progress, provide input and make recommendations for moving forward. Included as a goal of the DCAG was to provide the Planning and Economic Development Committee with status updates every 6 months. It's worth noting that two of the stakeholders that were on the Task Force are also part of the DCAG.

In addition to the list of recommendations provided by the Task Force the DCAG provided staff with a list of key areas for improvement based on their experiences with the development process. Key areas identified included:

- Fast track process for professionals
- "Can do" attitude
- Better defined processes/checklists
- More online submittals
- Improved communication

The work of the DCAG helps to focus current and future actions, helps identify what resources are needed and works with staff to establish realistic timelines for implementation. He provided Council with a spread sheet which identifies the Task Force recommendations and level of priority. Areas identified as "high" priority included:

1. Simplifying/expediting the submittal and review process
    - Offering formalized early assistance
    - Expanding options for on-line submittals
    - Looking at opportunities for expedited submittals and reviews

2. Improving communication between departments, and between customers and staff
    - Improve permitting system to communicate project status
    - Develop consistency meetings between departments
    - Explore options for sharing/posting valuable information

3. Improving the delivery of our service
    - Implement an electronic lobby queuing system

- Improve permitting system to simplify permit numbers
- Expand hours of operation

Staff has been primarily focused on addressing the "high" priority tasks within the last year. Emphasis has been placed on these efforts due to their overall impact on the efficiency and effectiveness of the services we provide. The following notable accomplishments, which align with the high priority tasks identified above, have been completed in the last year:

1. Expanded hours of operation to a 5 day work week
2. Implemented a formalized Early Assistance Program
3. Implemented a lobby queuing system
4. Numerous Accela Phase II improvements
    a. Created master permit #
    b. Added 5 more permits available for online application (14 total permits)
    c. Automated warning delivered to applicant 2 weeks prior to permit expiration
5. Created a Drop-Off Line to reduce lobby wait times
6. Communication improvements
    a. Formed the Development Customer Advisory Group
    b. Hired office assistant for purposes of answering calls/voice mails/scheduling inspections
    c. Created Planner of the Day phone line for specific land use related questions
    d. Regularly work with Community and Public Engagement Division on press releases to update our customers
7. Improved payment process/online payment option

In addition to tackling the high priority items numerous lower level priority tasks have been completed and are provided in the attached Status Report. Progress is still needed and DSD will continue to work on addressing the recommendations of the Task Force. Efforts will continue to be placed on higher priority items such as:

1. Electronic document review/digital submittals
2. Website upgrades
3. Improved communication/processes with outside agencies (MSD, Air Quality, etc...)
4. Increased consistency on city processes, requirements and deadlines
5. Fee study
6. Online fee estimating tool

This report is being provided as an informational update.

In response to Councilman Smith, City Manager Jackson said that he will provide Council with an update regarding more coordination and communication tools available for neighborhoods to participate in the processes.

In response to Councilman Bothwell, Mr. Nortz said that costs are not increased because even though the building was only open for days for the public, staff worked five days. City Manager Jackson said that there were carbon savings with the 4-day workweek. The real benefit of expanding to five days is to even out the work flow. With the continued pressure of activity and turn-over, maintaining staffing will continue to be the priority to adequately turn around the reviews and to conduct inspections.

IV. PUBLIC HEARINGS:

A. PUBLIC HEARING TO CONSIDER LAND USE INCENTIVE GRANTS FOR SMITH MILL PLACE (BIOTAT LLC)

RESOLUTION NO. 16-183 - RESOLUTION APPROVING A LAND USE INCENTIVE GRANT FOR SMITH MILL PLACE (BIOTAT LLC)

Assistant Community & Economic Development Director Jeff Staudinger said that this is a public hearing to consider approving a land use incentive grant for Smith Mill Place (Biotat LLC). This public hearing was advertised on July 15, 2016.

The developer of Smith Mill Place, Biotat LLC, has applied for a Land Use Incentive Grant per the policy adopted by Council, and amended on September 22, 2015.

Biotat LLC, represented by Ward Griffin, seeks to develop a 3.71 acre site, located at 29 Oak Hill Road. The developer estimates a total development cost of $6.95 million. The project consists of 72 residential rental apartments (36 one-bedroom units, and 36 three-bedroom apartments) in three, three story buildings.

The project meets the following Eligibility Requirements:

- The proposed development consists of three or more dwelling units for rent;
- At least 10% of the units will meet the affordability standards set by the City of Asheville for households earning 80% or less of the Area Median Income.
- The affordable units will be affordable to and leased to income-eligible households for at least 15 years.
- The proposed development must be located inside the city limits.
- The proposed development must be located to provide residents convenient access to jobs, schools and services

Scoring

Affordable Rental Housing - The proposed project will provide 36 units affordable to households at 60% or less of median income, and the developer has committed to more than the minimum affordability period of 15 years (see Long-Term Affordability, below). The project qualifies for 60 points.

Workforce Rental Housing - The proposed project will provide 36 units (the remainder of the units) for households earning 100% of less of median income (this has been verified with the developer, who indicated 120% of median income in the application), for a period of 20 years. The project qualifies for 15 points.

Superior locational efficiency - The proposed project is within .25 mile of an existing bus-stop served by one-half hour ART transit frequency. The project qualifies for 10 points.

Long term affordability - The proposed project will be committed to serving households at the designated rental rates for a period of 20 years. This qualifies the project for 10 points.

Staff has scored the project with 95 points, and the developer agrees with that scoring. The project qualifies for a Nine and One-Half Year (9.5) Land Use Incentive Grant.

The Housing and Community Development Committee reviewed the application at their meeting on June 14, 2016, and unanimously recommended approval of the Land Use Incentive Grant as outlined.

Pros:

- The proposed project will provide affordable rental housing to 60 households earning 60% or less of area median income, for a period of at least 20 years;
- The proposed project addresses the pressing need for affordable one-bedroom apartments;
- The proposed project has a significant economic impact. Construction wages and material purchases will positively affect the local and regional economy.

Con:

- Cost estimates are not yet fully developed, and project costs as presented may change as it moves towards development.

Estimated value of Land Use Incentive: The current assessed value of the property is $243,100. The developer's estimate of completed project taxable value is $6,949,313. The current annual city tax, based on current assessed value, is $1,154.73. The annual estimated city tax post completion, based on the developer's estimate of value is $33,009.24. Therefore, the estimated annual Land Use Incentive Grant would be $31,854.51, the exact amount to be determined by the length, in years, of the grant award, and the actual assessed value of the development upon completion. If approved for 9.5 years, the estimated Grant would be $302,617.86. The subsidy per affordable and workforce unit would be $4,203. The subsidy amount per affordable and workforce unit/year would be $210.

The estimated amount of fees payable for Zoning Permit, Building Permit, Driveway Permit, Grading Permit, Plan Review Fees and Water Service Connection Fee is $162,000. The value of each 10% of the fee rebate would be $16,200. The exact amount would be determined by the percentage of fee rebate awarded as part of the Land Use Incentive Grant. If approved at the 95 point level, the fee rebate would be $153,900, which is $2,138 per unit. Therefore, the total LUIG grant per unit is estimated at $6,341.

Staff recommends that Council approve the request of Biotat, LLC for a 9.5 year Land Use Incentive Grant.

Mayor Manheimer opened the public hearing at 5:31 p.m. and when no one spoke, she closed the public hearing at 5:31 p.m.

Councilman Smith thanked those involved in helping the Land Use Incentive Grant Program work better for the community and for builders.

Mayor Manheimer said that members of Council have previously received a copy of the resolution and it would not be read.

Councilman Smith moved for the adoption of Resolution No. 16-183. This motion was seconded by Vice-Mayor Wisler and carried unanimously.

RESOLUTION BOOK NO. 37 – PAGE 136

B. PUBLIC HEARING TO CONSIDER APPROVING A SIGN PACKAGE FOR INGLE'S MARKETS INC. FOR THE PROPERTY LOCATED AT 863 BREVARD ROAD

Principal Planner Shannon Tuch said that this is the consideration of approving a sign package for a newly reconstructed Ingle's grocery store and various ancillary use(s) located at 863 Brevard Road. This public hearing was advertised on July 15 and 22, 2016.

The subject property consists of a single parcel, 8.06 acres in size, located at 863 Brevard Road, across Brevard Rd. from the entrance to the Asheville Outlets. The parcel is

zoned Regional Business (RB) and is surrounded by a mix of uses and zoning but which is predominately commercial with some low density residential. The site is mostly flat with very good visibility from the main corridor. There is some significant topography at the rear (west end) of the property where retaining walls and graded slopes transition up to the residential neighborhood behind the site.

The applicant, Ingles Markets Inc. is requesting special consideration for a comprehensive signage plan for the new store and gas facilities as allowed per *Unified Development Ordinance* (UDO) Sec. 7-13-10. *Signage Plan.* The signage plan request is associated with the Level II approval for the construction of a new 70,000 square foot Ingle's store with gas facilities to be built where an older store had previously stood. The Level II project was approved in September of 2015 and construction work is nearing completion.

The UDO classifies the Ingles development on Brevard Rd. as a multi-tenant development and all multi-tenant developments are afforded a single free-standing development or joint identification sign and individual, attached signage for each individual business within the development. In lieu of these basic allowances, this signage plan seeks to have two separate free-standing signs along with a variety of attached signage on both the grocery store and the gas/convenience store buildings.

The following tables provide information on each of the signs that has been requested as well as what is normally allowed and to what extent the request exceeds the normal standard.

Attached Signs - Brevard Rd. Ingles (grocery store building)

SIGNS REQUESTED	PROPOSED SIZE	WHAT IS ALLOWED	AMOUNT EXCEEDED
Sign #1 – "Beer & Wine"	22 s.f.	One attached tenant sign at a rate of 1 s.f. per 1 linear foot of building face for each separate business, not to exceed 200 s.f. The main store is a single tenant and has 324 linear feet which would support a single 200 s.f. sign.	Total square footage of front elevation signage is 403 s.f. when dead space is excluded and exceeds allowance by 203 s.f.
Sign #2 – "Rx Drive-Thru"	14 s.f.		
Sign #3 – "American Owned"	45 s.f.		
Sign #4 – "ingles"	257 s.f.		
Sign #5 – "Fresh Foods"	37 s.f.		
Sign #6 – Starbuck's Logo Sign	20 s.f.		
Sign #7 – "Café"	8 s.f.		

Attached Signs – Brevard Rd. Gas Express

SIGNS REQUESTED (GAS CENTER)	PROPOSED SIZE	WHAT IS ALLOWED	AMOUNT EXCEEDED
Front Elevation			
Sign #1 - "Gas Express" on canopy	33 s.f.	One attached tenant sign at a rate of 1 s.f. per	Total square footage of front elevation signage is

Sign #2 – gas price panels on canopy Sign #3 – "Gas Express" on kiosk	39 s.f. 13.6 s.f.	1 linear foot of building face for each separate business, not to exceed 200 s.f. The gas station is a single tenant and the canopy has 154 linear feet which would support a single 154 s.f. sign **note: dead space between signs is normally included*	85.6 s.f. and falls within allowance when dead space is excluded; however, the total number of signs exceed the single sign normally allowed.
Side Elevations Sign #1 - "ingles" on right side canopy Sign #2 - "ingles" on left side canopy	21.5 s.f. 21.5 s.f.	One secondary tenant id sign at a rate of 1 s.f. per 3 linear feet. Side elevations are 24 linear feet and would allow a single 8 s.f. sign	Only one secondary sign permitted (2 proposed) Each canopy sign exceeds allowance by 13.5 feet and two signs are proposed where only one would normally be permitted

Free-standing Monument Signs - Brevard Rd. Ingles & Gas Express

SIGNS REQUESTED	PROPOSED SIZE	WHAT IS ALLOWED	AMOUNT EXCEEDED
Sign #1 - "Gas Express" monument Sign #2 – "ingles" monument sign	95.5 s.f. 15' tall 200 s.f. 25' tall	One free-standing joint identification sign (aka "multi-tenant sign") at a maximum of 200 s.f. and 25 feet tall	Only one free-standing identification sign is allowed (2 proposed). Either sign falls within the allowance but combined they exceed by 100 s.f.

Past Proposals – Four separate signage plan requests, plus one amendment, have been made by Ingles Markets, Inc. in the past with varying success. A summary of those requests are as follows:

Address	Date	Description	Result
1865 Hendersonville Rd. (Skyland Ingles)	9/25/07	Main Store: 7 attached signs; 178 s.f. free-standing sign Gas Express: 3 attached signs; 144 s.f. free-standing sign	Approved unanimously (Reduced Gas Express sign to 125 s.f.)
85 Tunnel Rd. (Tunnel Rd. Ingles)	9/25/07	Main Store: 6 attached signs (no Starbucks); 178 s.f. free-standing sign Gas Express: 3 attached signs; 144 s.f. free-standing sign	Approved unanimously (Reduced Gas Express sign to 125 s.f.)

85 Tunnel Rd. (Tunnel Rd. Ingles)	11/23/07	Adds 16 s.f. Starbucks sign to package	Approved
1141 Tunnel Rd. (Oteen Ingles)	6/23/09	Adds 16 s.f. attached Starbucks sign	Denied, motion fails 3:3
153 Smokey Park Highway (Smoky Park Ingles)	2/22/11	Main Store: 6 attached signs; 180 s.f. free-standing sign Gas Express: 3 attached signs; 112 s.f. free-standing sign	Approved 5:2 (combined with CZ request)

In review of staff notes and meeting minutes, the support expressed included the need for more flexibility within the code for large retailers with large store fronts but was balanced by concerns for over-branding, unnecessary advertising, lack of creativity and the potential for setting an undesirable precedent.

Required Reviews – Per UDO Sec. 7-13-10(4) a request for a signage plan is scheduled for council consideration without review by other bodies. As described in the UDO, the city council shall take the following matters into consideration when reviewing a proposed signage plan:

a. *The extent to which the proposed signage plan deviates from the sign allowances otherwise applicable in this article.*
b. *The rationale provided by the applicant for the deviations.*
c. *The extent to which the signage plan promotes city goals for way-finding, pedestrian-orientation, and business identification.*
d. *The degree to which the signage plan creatively and effectively addresses the issues and constraints unique to the site with regard to signage.*

In addition to the above, UDO Sec. 7-13-10(1) states the purpose of allowing the consideration of a separate signage plan, which is as follows:

The purpose behind this section is to permit creativity in sign design and placement to address site issues and constraints associated with topography, pedestrian-orientation, way-finding and other conditions unique to the subject development.

The applicant has submitted a cover letter outlining their reasons for the request and how they feel that they satisfy these standards.

The Asheville City Development Plan 2025 does not directly address business signage, however, the goal for attractive and effective business identification is related to Land Use and Transportation goals for attractive streetscapes and to Economic Development goals that support business growth and development.

As with the city's comprehensive plan, the Asheville City Council's Vision Goals do not directly address business signage, however, the goal for a Thriving Local Economy and a Well-Planned and Livable Community both have elements related to this request such as supporting local business and allowing for creativity and flexibility in business identification.

Considerations:
Overall:

- The overall project design is suburban in nature and site is located on an urban highway (NC 191).
- Site is flat and has good visibility from the corridor.
- Grocery store is 320 feet from Brevard Rd.; Gas station is 70 feet from Brevard Rd. Both structures are located on the same parcel.

- Proposed signage plan incorporates elements of both single-tenant and multi-tenant sign allowances and exceeds what would be allowed under either scenario.
- This site has two tenants – the ingles grocery market and the ingles gas express. Starbuck's and Chop Stix are not classified as separate tenants.
- The state of NC (Department of Agriculture) requires gas stations to post gas prices.

Attached signs:

- Larger signs are designed to be visible from the road. Faster speeds require larger letters for readability.
- Much signage is trademarked, which allows for faster recognition without requiring reading.
- Smaller signs (on main store) would not be legible from Brevard Rd. and advertise services and products.
- Proposed signage plan incorporates elements of both single-tenant and multi-tenant sign allowances and exceeds both.
- Space between letters on the large attached "ingles" sign could be reduced to reduce overall size.
- "Beer & Wine" attached sign is new and not previously included in sign package requests.

Free-standing signs:

- Multi-tenant free-standing signs are larger than single tenant free-standing signs (200 s.f. versus 125 s.f.) in order to accommodate signage for multiple tenants; Free-standing signs could be combined to reduce sign structures.
- Both free-standing signs include changeable copy panels and are duplicative in purpose.
- Monument signs have mass (square footage) not included in the sign area calculations.

Based on the nature of the activities occurring on the property, the surrounding site context on the commercial corridor, and other technical and non-technical considerations outlined by the applicant, consideration of some special allowances may be warranted; however, the extent of the request may exceed what is reasonable or necessary and could be improved. Staff recommends that the applicant take more time to consider the minimum necessary to accomplish their goals and employ more creative techniques for identification that minimizes advertising/ branding. As an alternative, Council may choose to approve the plan with or without specific conditions.

When Vice-Mayor Wisler asked if this Ingle's sign package request is pretty consistent with their other sign package requests, Ms. Tuch said that this request is similar; however, this is incrementally a little larger and more than some of the past Ingle's requests.

Councilman Bothwell will vote against this as he has others in the past. We have a sign ordinance to regulate signs and everyone should adhere to it. He didn't think that anyone would turn in at the Ingle's monument sign and miss the store.

When Councilwoman Mayfield asked if Council regularly makes sign ordinance exceptions for other businesses, Ms. Tuch said that the Ingle's applications have been a little unique as there have been more of them. There is no other signage plan applicant that has submitted more than one request. There have been a instances of larger campus-like environments, e.g., hospital, airport, etc. Staff doesn't get a lot of signage plan requests - maybe 5-6 since adopted in 2008 or 2009.

Councilman Smith understands that Ingle's is a valuable community partner, but it's hard to justify this because if another grocery provider comes in and requests a similar exception it puts Council in a difficult position. He would prefer staff work with Ingle's to figure out how in the

future the can come into compliance and not have to go through this every time another store wants signage.

When Councilwoman Mayfield asked if other grocery stores come in and ask for exceptions, Ms. Tuch said that it is fairly common for people to ask for exceptions at the Board of Adjustment, but those exceptions are based on physical constraints and hardships that make regular compliance impractical. This process allows consideration beyond physical hardships.

A representative on behalf of Ingles, but employed by Rainbow Sign Company, felt that Ingle's is not asking Council to do something for them that Council wouldn't do for someone else. He said that there are challenges when you have a store Ingle's size and what they offer the citizens and tourists of this area. He pointed out how Ingle's complies with the 2036 Council Vision. He stressed that with the amount of traffic on Brevard Road, they need a sign that can be recognized at a glance. They are trying to do effective communication. He asked Council for their support.

Mr. Preston Kendall, representing Ingle's Markets, said that this store sits off the road and there are conditions in place that if you are heading south on Brevard Road there is motel and you can't see Ingles until you are past the motel. He explained how the other signs are directional signs. He felt that when the ordinance was written, no one was building a 72,000 sq. ft. grocery store. He said that this signage is small compared to what would be allowed if this were a strip shopping center. He then explained the need of each sign, noting it's about visibility and what people can see from the roadway.

Mayor Manheimer opened the public hearing at 6:03 p.m. and when no one spoke, she closed the public hearing at 6:03 p.m.

Since Vice-Mayor Wisler felt that this request is excessive, she moved to continue the sign plan request for Ingles Markets Inc. located at 863 Brevard Road until September 6, 2016, in order for Ingle's to work with City staff and try to come into closer compliance with the sign ordinance. This motion was seconded by Councilman Smith and carried on a 6-1 vote, with Councilman Haynes voting "no."

Mayor Manheimer noted that if Ingle's comes into compliance with the sign ordinance, they will not have to come back to Council.

V. UNFINISHED BUSINESS:

VI. NEW BUSINESS:

A. GENERAL OBLIGATION BOND REFERENDUM

BENCHMARK STUDY RESULTS

Mr. Tige Watts, representing Campaign Research and Strategy, provided Council with the benchmark study results. He reviewed the background and methodology, noting that 403 telephone surveys were conducted with registered voters between the evenings of June 29 and July 1, 2016. The representative sample was randomly selected with respect to voter registration records of the County and are reflective of the turnout from the November 2012 election. The margin of error for this study is 4.9% at a confidence interval of 95%. He then reviewed all the questions posed, and in summary, at this snapshot in time, there is clear indication there is support for all three bond issues. He said that he believed this is one of the strongest baseline for bond packages in quite some time.

Director of Finance and Management Services Barbara Whitehorn said that this is consideration of adoption of resolutions authorizing staff to proceed with the necessary action to conduct a general obligation bond referendum on November 8, 2016.

Adoption of resolutions to conduct a $74,000,000 general obligation bond referendum on November 8, 2016. The referendum includes $32,000,000 of transportation bonds, $17,000,000 of park improvement bonds, and $25,000,000 of housing bonds. The statutory requirements for the legal process include applying to the Local Government Commission (LGC) for approval, holding a public hearing on the proposed bond orders, setting of the special referendum, and certification of the results. The LCG application was timely submitted on July 18, 2016.

The current action is the second of four City Council actions. This second action will specifically authorize:

- Introduction of the bond orders:
  $32,000,000 transportation bonds
  $17,000,000 park improvement bonds
  $25,000,000 housing bonds
- Adoption of a resolution regarding bond orders authorizing the issuance of above mentioned bonds and setting public hearings on the bond orders.

Next Steps:

- On August 9, the City Council will be asked to hold a public hearing on each of the bond orders, approve the bond orders (including the form and language of the ballot), and set a special bond referendum.

- After November 8, the City Council will be asked to adopt a resolution certifying and declaring the results of the special bond referendum. This action will occur after the Buncombe County Board of Elections certifies the results of the vote.

Pros:

- Provides funding for transportation, parks and housing needs as identified in City master plans and Council strategic goals.
- Ensures City's compliance with North Carolina General Statutes.

Con:

- None.

A general obligation bond commits the full faith and credit of the City of Asheville to repayment of the bonded debt. Additional tax levy may be required to fund the debt service over the life of the bonds.

Staff recommends that Council adopt the resolutions authorizing staff to proceed with the necessary action to conduct a general obligation bond referendum on November 8, 2016.

Mayor Manheimer then introduced the following thee bond orders and the resolution of the City of Asheville, North Carolina, regarding Bond Orders authorizing the issuance of $32,000,000 General Obligation Transportation Bonds, $25,000,000 General Obligation Housing Bonds and $17,000,000 General Obligation Parks and Recreation Bonds, and setting a public hearing thereon and directing publication of a notice of said public hearing.

BOND ORDER AUTHORIZING THE ISSUANCE OF $32,000,000 GENERAL OBLIGATION TRANSPORTATION BONDS OF THE CITY OF ASHEVILLE, NORTH CAROLINA

WHEREAS, the City Council of the City of Asheville, North Carolina (the "*City Council*") has ascertained and hereby determines that it is necessary to pay the capital costs of constructing, reconstructing, enlarging, extending and improving certain streets, including streets and roads constituting a part of the State highway system or otherwise the responsibility of the State and including the cost of related studies, streetscape and pedestrian improvements, relocation of utilities, plans and design; acquiring, constructing, reconstructing, widening, extending, paving, resurfacing, grading or improving streets, roads, intersections, pedestrian and bicycle paths; acquiring, constructing, reconstructing or improving sidewalks, curbs, gutters, drains, bridges, overpasses, underpasses and grade crossings and providing related landscaping, lighting and traffic controls, signals and markers; acquiring, constructing, extending and improving greenways, providing related landscaping, retaining walls, storm drainage and any other necessary improvements; and the acquisition of land and rights-of-way in land required therefor; and

WHEREAS, an application has been filed with the Secretary of the Local Government Commission of North Carolina requesting Commission approval of the General Obligation Transportation Bonds hereinafter described as required by the Local Government Bond Act, and the City Clerk has notified the City Council that the application has been accepted for submission to the Local Government Commission.

NOW, THEREFORE, BE IT ORDERED by the City Council of the City of Asheville, North Carolina, as follows:

Section 1. In order to raise the money required for the purposes described above, in addition to any funds which may be made available for such purpose from any other source, General Obligation Transportation Bonds of the City are hereby authorized and shall be issued pursuant to the Local Government Finance Act of North Carolina. The maximum aggregate principal amount of such General Obligation Transportation Bonds authorized by this order shall be $32,000,000.

Section 2. A tax sufficient to pay the principal of and interest on said General Obligation Transportation Bonds when due shall be annually levied and collected.

Section 3. A sworn statement of the City's debt has been filed with the City Clerk and is open to public inspection.

Section 4. This bond order shall take effect when approved by the voters of the City at a referendum scheduled for November 8, 2016.

BOND ORDER AUTHORIZING THE ISSUANCE OF $25,000,000 GENERAL OBLIGATION HOUSING BONDS OF THE CITY OF ASHEVILLE, NORTH CAROLINA

WHEREAS, the City Council of the City of Asheville, North Carolina (the "*City Council*") has ascertained and hereby determines that it is necessary to pay the capital costs of acquiring, constructing, developing, equipping and furnishing housing projects for the benefit of persons of low income, or moderate income, or low and moderate income, including without limitation loans, grants, interest supplements and other programs of financial assistance to persons of low income, or moderate income, or low and moderate income, and developers of housing for persons of low income, or moderate income, or low and moderate income, and construction of infrastructure improvements related thereto, and the relocation of City facilities to make land available for the construction of housing for persons of low income, or moderate income, or low and moderate income, and the acquisition of land and rights-of-way required therefor; and

WHEREAS, an application has been filed with the Secretary of the Local Government Commission of North Carolina requesting Commission approval of the General Obligation Housing Bonds hereinafter described as required by the Local Government Bond Act, and the

City Clerk has notified the City Council that the application has been accepted for submission to the Local Government Commission.

NOW, THEREFORE, BE IT ORDERED by the City Council of the City of Asheville, North Carolina, as follows:

Section 1. In order to raise the money required for the purposes described above, in addition to any funds which may be made available for such purpose from any other source, General Obligation Housing Bonds of the City are hereby authorized and shall be issued pursuant to the Local Government Finance Act of North Carolina. The maximum aggregate principal amount of such General Obligation Housing Bonds authorized by this order shall be $25,000,000.

Section 2. A tax sufficient to pay the principal of and interest on said General Obligation Housing Bonds when due shall be annually levied and collected.

Section 3. A sworn statement of the City's debt has been filed with the City Clerk and is open to public inspection.

Section 4. This bond order shall take effect when approved by the voters of the City at a referendum scheduled for November 8, 2016.

BOND ORDER AUTHORIZING THE ISSUANCE OF $17,000,000 GENERAL OBLIGATION PARKS AND RECREATION BONDS OF THE CITY OF ASHEVILLE, NORTH CAROLINA

WHEREAS, the City Council of the City of Asheville, North Carolina (the "*City Council*") has ascertained and hereby determines that it is necessary to pay the capital costs of infrastructure improvements for various parks and recreation facilities of the City, including the cost of related studies, plans and design, acquiring, constructing, reconstructing, improving, installing or providing storm drainage, grade and surface improvements, construction, reconstruction and improvements of recreation fields; construction, reconstruction and improvements of restroom facilities; sidewalks, bike paths and pedestrian trails; paving, resurfacing, grading or improving parking lots, roads and intersections, providing public open space, landscaping and lighting, and acquiring any necessary equipment, land, interests in land and rights-of-way therefor; and

WHEREAS, an application has been filed with the Secretary of the Local Government Commission of North Carolina requesting Commission approval of the General Obligation Parks and Recreation Bonds hereinafter described as required by the Local Government Bond Act, and the City Clerk has notified the City Council that the application has been accepted for submission to the Local Government Commission.

NOW, THEREFORE, BE IT ORDERED by the City Council of the City of Asheville, North Carolina, as follows:

Section 1. In order to raise the money required for the purposes described above, in addition to any funds which may be made available for such purpose from any other source, General Obligation Parks and Recreation Bonds of the City are hereby authorized and shall be issued pursuant to the Local Government Finance Act of North Carolina. The maximum aggregate principal amount of such General Obligation Parks and Recreation Bonds authorized by this order shall be $17,000,000.

Section 2. A tax sufficient to pay the principal of and interest on said General Obligation Parks and Recreation Bonds when due shall be annually levied and collected.

Section 3. A sworn statement of the City's debt has been filed with the City Clerk and is open to public inspection.

Section 4. This bond order shall take effect when approved by the voters of the City at a referendum scheduled for November 8, 2016.

RESOLUTION NO. 16-184 - RESOLUTION OF THE CITY OF ASHEVILLE, NORTH CAROLINA REGARDING BOND ORDERS AUTHORIZING THE ISSUANCE OF $32,000,000 GENERAL OBLIGATION TRANSPORTATION BONDS, $25,000,000 GENERAL OBLIGATION HOUSING BONDS AND $17,000,000 GENERAL OBLIGATION PARKS AND RECREATION BONDS, SETTING A PUBLIC HEARING THEREON AND DIRECTING PUBLICATION OF A NOTICE OF SAID PUBLIC HEARING

WHEREAS, bond orders entitled:

"BOND ORDER AUTHORIZING THE ISSUANCE OF $32,000,000 GENERAL OBLIGATION TRANSPORTATION BONDS OF THE CITY OF ASHEVILLE, NORTH CAROLINA;"

"BOND ORDER AUTHORIZING THE ISSUANCE OF $25,000,000 GENERAL OBLIGATION HOUSING BONDS OF THE CITY OF ASHEVILLE, NORTH CAROLINA;" and

"BOND ORDER AUTHORIZING THE ISSUANCE OF $17,000,000 GENERAL OBLIGATION PARKS AND RECREATION BONDS OF THE CITY OF ASHEVILLE, NORTH CAROLINA;"

have been introduced at a meeting of the City Council (the "*City Council*") of the City of Asheville, North Carolina this 26th day of July, 2016; and

WHEREAS, the City Council desires to provide for the holding of a public hearing thereon on August 9, 2016 and the submission of a statement of debt in connection therewith as required by The Local Government Bond Act.

NOW, THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF ASHEVILLE, , NORTH CAROLINA that the public hearing on said bond orders shall be held on the 9th day of August, 2016 at 5:00 p.m. in the Council Chamber, 2nd Floor of City Hall, 70 Court Plaza, Asheville, North Carolina.

BE IT FURTHER RESOLVED that the City Clerk is hereby directed to cause a copy of said bond orders to be published with a notice of such hearing in the form prescribed by law in a newspaper of general circulation in the City on or before the 3rd day of August, 2016.

BE IT FURTHER RESOLVED that the Chief Financial Officer is hereby directed to file prior to publication of the bond orders with the notice of such public hearing, a statement setting forth the debt incurred or to be incurred, the net debt of the City, the assessed value of property subject to taxation by the City and the percentage that net debt of the City bears to the assessed value of property subject to taxation.

BE IT FURTHER RESOLVED that this Resolution shall become effective on the date of its adoption.

Councilwoman Mayfield moved for the adoption of Resolution No. 16-184. This motion was seconded by Councilman Smith.

Councilman Smith said that it's good to see these survey results because it lets Council know they are on the right track with a lot of City Council priorities and that Asheville is ready to accelerate progress in all of the bond areas and are willing to invest in it. Should the bonds pass we will get a lot more done a lot faster than we would have otherwise, and establish a bond program for the City of Asheville that may endure for years to come. Regarding the transportation bond order, he understood that the projects have to be capital and projects already talked about and planned for. Regarding the Transit Center and recognizing the needs of the Transit Center, it would be a capital expenditure but we are not at the point in planning where it could be a whole project in a bond package. He suggested we include the planning for the Transit Center in this transportation bond order. Or, alternatively, he suggested Council initiate that process outside of the bond through the capital improvements process and that be parallel to the bond process.

City Manager Jackson didn't know if we have the ability to use a transportation allocation to do the site analysis and renovation plans. Ms. Whitehorn responded that we don't have a lot of solid information about the transportation bond yet; however, she did know what the LGC won't allow us to use bond funds to fund things like a feasibility study or preliminary planning, unless it's part of a larger package. And, they are fairly limited in what kind of planning they will allow.

In response to Councilman Bothwell, Ms. Whitehorn said that when we write the bond question, the question is written in such a way that it leaves the option open for Council to add or remove particular projects. Council could conceivably add that in, but you would have to cut something else out because the total amount cannot change.

Mayor Manheimer noted that Council doesn't have to make that decision at this time. All Council is deciding at this time is whether to advance the planning process for a Transit Center. Council will then need to determine before the August 9 public hearing whether or not the planning monies would come out of the bond package or from a separate capital improvement plan.

Mayor Manheimer said that even though there is flexibility once the bonds are approved, there are expectations from the community. Currently we are making presentations that give lists of roads that will be repaved, sidewalks that will be built, and are developing an interactive tool that people can actually take a tour of the bond and see where this money will be spent. Because we do have community trust that we will spend the money on what we say we will spend the money on, it's important that we stick to that plan. There are other big ticket items not in this bond that will need some creative planning.

Councilman Young said that regardless of whether the bond order passes or not, it's clear that the Transit Center is very important for the future.

Mr. Fred English did not support the bond issue due to the increase in property taxes.

Mr. Sidney Bach felt that Council has not disclosed what it will really cost the taxpayers for financing these bond orders.

City Manager Jackson noted that Asheville has a AAA bond rating because the City's finances are in good health.

The motion made by Councilwoman Mayfield and was seconded by Councilman Smith carried unanimously.

RESOLUTION BOOK NO. 38 - PAGE 137

B. BOARDS & COMMISSIONS

Regarding the Sustainability Advisory Committee, the following individuals applied for the vacancy: Rich Lee, Kendra Sherrod, Brad Rouse April Brown, Emily Boyd, Amanda Fairley, Bridget Herring and Michael Whitmire. It was the consensus of Council to interview Emily Boyd, Bridget Herring and Brad Rouse.

RESOLUTION NO. 16-185 - RESOLUTION APPOINTING A MEMBER TO THE AFRICAN AMERICAN HERITAGE COMMISSION

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that the term of Viola Spells as a member of the African American Heritage Commission expired on July 1, 2016.

The following individuals applied for the vacancy: S. Antanette Mosley and Michael Zuckerman.

It was the consensus of the Boards & Commissions Committee to appoint Ms. Mosley.

Vice-Mayor Wisler moved to appoint S. Antanette Mosley to serve as a member of the African American Heritage Commission, to serve a three-year term, term to expire July 1, 2019, or until her successor has been appointed. This motion was seconded by Councilman Bothwell and carried unanimously.

RESOLUTION BOOK NO. 38 – PAGE 138

RESOLUTION NO. 16-186 - RESOLUTION APPOINTING MEMBERS TO THE CITIZENS-POLICE ADVISORY COMMITTEE

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that on May 17, 2016, City Council amended the composition to (1) convert the Asheville-Buncombe Community Relations Council seat to a seat dedicated to a resident of property owned by the Housing Authority; and (2) convert the two current ad hoc member seats to at-large seats appointed by City Council with three-year terms.

The following individuals applied for the one at-large seats: Lisa Thomson, Larry Layton and Shana McDowell.

It was the consensus of the Boards & Commissions Committee to appoint Shana McDowell.

Vice-Mayor Wisler moved to appoint Shana McDowell to serve as an at-large member of the Citizens-Police Advisory Committee, to serve a three-year term, term to expire June 30, 2019, or until her successor has been appointed. This motion was seconded by Councilman Young and carried unanimously.

RESOLUTION BOOK NO. 38 - PAGE 139

RESOLUTION NO. 16-187 - RESOLUTION APPOINTMENT MEMBERS TO THE COMPREHENSIVE PLAN ADVISORY COMMITTEE

Vice-Mayor Wisler said that the Comprehensive Plan Advisory Team will represent a broad diversity of interests on topics relevant to the Comprehensive Plan and will have representation, at minimum, from the following committees/organizations (in no particular order), plus three at-large members:

- Planning and Zoning Committee;
- African American Heritage Committee;
- City of Asheville Recreation Board;

- Asheville Downtown Commission;
- Historic Resources Commission of Asheville & Buncombe County (HRC);
- Public Art and Cultural Commission (PACC);
- Buncombe County liaison;
- Downtown Commission;
- Sustainability Advisory Committee on Energy and the Environment (SACEE);
- Asheville Multi-modal Transportation Commission;
- Asheville Affordable Housing Advisory Committee;
- Neighborhood Advisory Committee; and
- Asheville Area Chamber of Commerce.

The following individuals applied for one of the three at-large seats on the Comprehensive Plan Advisory Committee: Cate Ryba, Laura Evans, Kevin Teater, Suzanne Devane, Barber Melton Marjorie McGuirk, Robert Carroll, Rachel Murdaugh, Mike Marcus, Jane Mathews, Sabrah n'haRaven, Linda Giltz, Blake Esselstyn, Steven Rasmussen, Michael Sule, Toya Hauf, Joe Archibald, Elizabeth Sterling, Michael Whitmire, Steven Sizemore, Bob Oast, Robert Maddox, Marni Graves and Ryan Israel.

It was the consensus of the Boards & Commissions Committee to appoint Steven Sizemore, Linda Giltz and Blake Esselstyn.

After discussing the many well-qualified individuals, Vice-Mayor Wisler moved to appoint Steven Sizemore, Linda Giltz and Blake Esselstyn to serve as the at-large members to the Comprehensive Plan Advisory Committee. This motion was seconded by Councilman Smith and carried unanimously.

Vice-Mayor Wisler said that these meetings will be open to the public and that staff will be reaching out to the public for input as well.

RESOLUTION BOOK NO. 38 - PAGE 140

RESOLUTION NO. 16-188 - RESOLUTION APPOINTING MEMBERS TO THE MULTIMODAL TRANSPORTATION COMMISSION

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that the terms of Bruce Emory (demonstrated transit interests), James Grode (demonstrated greenway interests), Terri March (demonstrated bike & ped interests), Philip Lenowitz (representative of the Neighborhood Advisory Committee; and Kristy Carter (representative of the Planning & Zoning Commission) expire on July 1, 2016.

The following individuals have applied for a vacancy: Meredith Gregory, Eric Workman, Richard Rozzelle, Keaton Edwards, Seth Connelly, Michael Speciale, Devin Clancy, Adam Charnack, Kevin Teater, David Nutter and Billie Lofland.

It was the consensus of the Boards & Commissions Committee, at the suggestion of the Multimodal Transportation Commission, to reappoint Bruce Emory, Terri March, Philip Lenowitz and Kristy Carter.

It was also the consensus of the Boards & Commissions Committee, at the recommendation of the (1) Greenway Committee to appoint David Nutter; and (2) the Multimodal Transportation Commission, to appoint Billie Lofland.

Vice-Mayor Wisler moved to (1) reappoint Bruce Emory (demonstrated transit interests), Terri March (demonstrated bike & ped interests), Philip Lenowitz (representative of the Neighborhood Advisory Committee; and Kristy Carter (representative of the Planning & Zoning

Commission) to each serve a three-year term respectively, terms to expire July 1, 2019, or until their successors have been appointed; (2) appoint David Nutter (demonstrated greenway interests) to serve a three-year term, term to expire July 1, 2019, or until his successor has been appointed; and (3) appoint Billie Lofland (demonstrated bike and interests) to serve a three-year term, term to expire July 1, 2019, or until her successor has been appointed. This motion was seconded by Councilman Bothwell and carried unanimously.

RESOLUTION BOOK NO. 38 - PAGE 141

RESOLUTION NO. 16-189 – RESOLUTION APPOINTING MEMBERS TO THE NEIGHBORHOOD ADVISORY COMMITTEE

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that the terms of DeWayne Barton (representing 28806 or 28728 zip code); and Teddy Jordan (at-large member) expire on July 1, 2016.

The following individuals applied for a vacancy: Pat Deck and Carter Webb.

It was the consensus of the Boards & Commissions Committee, and recommendation from the Neighborhood Advisory Commission, to appoint Pat Deck. Since no applicants applied for the 28806 or 28728 vacancy, it will be re-advertised.

Vice-Mayor Wisler moved to appoint Pat Deck (at-large member) to serve a three-year term, term to expire July 1, 2019, or until her successor has been appointed. This motion was seconded by Councilwoman Mayfield and carried unanimously.

RESOLUTION BOOK NO. 38- PAGE 142

RESOLUTION NO. 16-190 - RESOLUTION APPOINTING A MEMBER TO THE TREE COMMISSION

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that there currently exists a vacancy (left by the passing of Justin Price) until December 31, 2017.

The following individuals applied for the vacancy: John Brigham and Diane Hillgrove.

It was the consensus of the Boards & Commissions Committee to appoint Diane Hillgrove.

Vice-Mayor Wisler moved to appoint Diane Hillgrove to serve as a member of the Tree Commission, to serve the unexpired term of Mr. Price, term to expire December 31, 2017, or until her successor has been appointed. This motion was seconded by Councilman Bothwell and carried unanimously.

RESOLUTION BOOK NO. 38 – PAGE 143

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

Ms. Donna Dreyling and Mr. Dan Bridges spoke to Council about the disrespect by residents and tourists toward handicapped parking ticket volunteers. They requested the City issue them uniforms or at least shirts for official recognition of their positions.

Mr. Mike Wasmer asked that Council delay the public hearing on August 9, 2016, to establish utility substation regulations in order for the South French Broad neighborhood to understand such a complex issue. Mayor Manheimer said that she understands the concerns raised and that she will be meeting with Duke Energy Progress ("Duke") representatives next

week. After that meeting, a decision will be reached to either delay the public hearing or try to reach a compromise by the August 9 public hearing date. She noted that the City doesn't have authority to tell Duke where it can buy land and site substations; however, the City does have some input is on the buffering. We are running the risk that Duke may make application before we get an ordinance in place. Councilman Bothwell hoped that Duke would consider building a substation that is indistinguishable from a residential home similar to their substation in Charlotte, North Carolina.

Ms. Lia Kaz was appalled about the lack of response to House Bill 972, which makes it illegal for citizens to view police footage. She said we need more accountability between citizens and the police.

Ms. Dee Williams, technical advisor of Black Lives Matter in Asheville, felt that Council should have made more of an effort to personally talk to Jerry Williams' mother. She offered her assistance to help the City change policies and procedures.

Mr. Ray Mapp spoke about domestic terrorism.

A lady felt now is a pivotal time to address the issue of race in Asheville. She also felt there needs to be a bigger push to discuss this and for Council to explore community policing, with therapy for police in their stressful positions.

A member of the Tree Commission's newly formed Subcommittee on Tree Preservation. She spoke about the idea of a public education campaign designed to create awareness of the precious resource of trees. Mayor Manheimer asked that she e-mail her information to Vice-Mayor Wisler, Chair of the City Council Planning & Economic Development Committee, for consideration.

A west Asheville resident was concerned about racial justice issues in Asheville.

Mayor Manheimer said that a member of the Racial Justice Coalition called her and said they came up with an idea of wanting to be involved with the City immediately to look at policies such as the Police Department's use of force policy and their vehicle chase policy. They are also interested in looking at a de-escalation policy, what kind of implicit bias training the City offers to its officers, and what kind of citizen complaint process the City uses. They presented these concepts to the City's Public Safety Committee on July 25, and Police Chief Tammy Hooper responded that she was quite willing to work with the Racial Justice Coalition in this effort. Even though the Coalition is working quickly, they want to be thoughtful about who to include in this process and has not finalized who they will bring to the table to have this important community dialogue. She said that we, as a Council, are struggling and we hear the community and we want to be responsive and inclusive and thoughtful and we are looking for a way to try to constructively move forward.

Closed Session

At 7:33 p.m., Councilman Young moved to go into closed session for the following reasons: (1) To prevent disclosure of information that is privileged and confidential, pursuant to the laws of North Carolina, or not considered a public record within the meaning of Chapter 132 of the General Statutes. The law that makes the information privileged and confidential is N.C. Gen. Stat. § 143-318.10(a)(3). The statutory authorization is contained in N.C. Gen. Stat. § 143-318.11(a)(1); and (2) To consult with an attorney employed by the City about matters with respect to which the attorney-client privilege between the City and its attorney must be preserved, including, but not limited to, a lawsuit involving the following parties: The City of Asheville v. Stewart et al. The statutory authorization is contained in N.C. Gen. Stat. § 143-318.11(a)(3). This motion was seconded by Vice-Mayor Wisler and carried unanimously.

At 8:31 p.m., Vice-Mayor Wisler moved to come out of closed session. This motion was seconded by Councilman Young and carried unanimously.

VIII. ADJOURNMENT:

Mayor Manheimer adjourned the meeting at 8:31 p.m.

Magdalen Bowerson
CITY CLERK

Esther E. Manheimer
MAYOR

Tuesday – August 9, 2016 - 5:00 p.m.

Regular Meeting

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Cecil Bothwell; Councilman Brian D. Haynes; Councilwoman Julie V. Mayfield; Councilman Gordon D. Smith; Councilman W. Keith Young; City Manager Gary W. Jackson; City Attorney Robin T. Currin; and Deputy City Clerk Jaime Matthews

Absent: None

PLEDGE OF ALLEGIANCE

Mayor Manheimer led City Council in the Pledge of Allegiance.

I. PROCLAMATIONS:

II. CONSENT AGENDA:

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON JULY 26, 2016

B. RESOLUTION NO. 16-191 - RESOLUTION AUTHORIZING THE CITY MANAGER EXECUTE A ONE-YEAR CONTRACT EXTENSION WITH RIVERTOP CONTRACTING INC. FOR THE DOWNTOWN CLEANING PROJECT

Summary: The consideration of a resolution authorizing the City Manager to execute, on behalf of the City of Asheville, a one year extension in the amount of $250,026 plus a contingency of 15% ($37,504) with Rivertop Contracting Inc. for the project known as Downtown Cleaning, City of Asheville Project #DC-16-01, and further authorizing the execution of any change orders to said contract which may arise during execution of said project up to the budgeted amount of $300,000.

Rivertop Contracting started working the current contract on October 1, 2015, and will complete work on September 30th, 2016. The proposed extension will take effect on October 1, 2016 and run through September 30, 2017.

The contractor will work in the Central Business District with their primary duty being pressure washing City owned sidewalks. The contractor is also responsible for the non-chemical removal of weeds from City owned sidewalks, tree grates and curblines.

Pros:

- Will result in the most heavily used areas of the CBD being pressure washed completely 4 times in the life of the contract and the lesser used areas being pressure washed completely 2 times in the life of the contract.
- Will result in undesirable vegetation being removed from City sidewalks, curblines and tree grates

Con:

- Project management and contract administration will consume staff time.

$300,000 was budgeted for Downtown Cleaning in the general fund. This amount was approved by City Council and included in the Fiscal Year 2016-2017 budget.

City staff recommends City Council adopt the resolution authorizing the City Manager to execute, on behalf of the City of Asheville, a one year extension of the current Downtown Cleaning contract in the amount of $250,026 PLUS a contingency of 15% ($37,504) with Rivertop Contracting, Inc. for the project known as Downtown Cleaning, City of Asheville Project #DC-16-01 and further authorizing the execution of any change orders to said contract which may arise during execution of said project up to the budgeted amount of $300,000

RESOLUTION BOOK NO. 38 - PAGE 144

C. RESOLUTION NO. 16-192 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ACQUIRE AND ACCEPT AN EASEMENT NEEDED TO INSTALL TWO SIGNAL POLES FOR A TRAFFIC LIGHT AT VICTORIA ROAD AND FERNIHURST DRIVE

Summary: The consideration of a resolution authorizing the City Manager to acquire and accept an easement needed to install two signal poles for a traffic light at Victoria Road and Fernihurst Drive.

Asheville's traffic engineer has been working with AB Tech Community College to install a traffic light at Victoria Road and Fernihurst Drive. The project requires that two signal poles with guy wires be installed on property owned by Buncombe County. Although the land is owned by Buncombe County, the property is currently being used by the Asheville City Schools to operate Asheville High School. The signal poles would be installed near the rear property line of the parcel. The City is requesting a 700 square foot or 0.016 acres of permanent easement to install and maintain two wood poles that will have guy wires. The parcel's PIN is 9648-32-7199 and its physical address is 419 McDowell Street. Authorization from Buncombe County to grant the easement to the City was approved on August 2, 2016.

Pros:

- The installation of public infrastructure at the intersection of Victoria Road and Fernihurst Drive will facilitate the smooth flow of traffic at this well- traveled intersection.
- AB Tech Community College has plans at a later date to use this street as primary access to the college.

Con:

- The City would be responsible for ongoing maintenance of improvements.

None noted, as the easement will be granted to the City for this purpose at no cost to the City.

City staff recommends that the City Council approve a resolution authorizing the City Manager to accept by donation an easement needed to install two signal poles for a traffic light at Victoria Road and Fernihurst Drive.

RESOLUTION BOOK NO. 38 - PAGE 145

D. RESOLUTION NO. 16-193 - RESOLUTION THE MAYOR TO ADOPT THE BUNCOMBE-MADISON REGIONAL HAZARD MITIGATION PLAN

Summary: The consideration of a resolution to adopt the Buncombe Madison Regional Hazard Mitigation Plan.

In an effort to reduce the Nation's mounting natural disaster losses, the U.S. Congress passed the Disaster Mitigation Act of 2000 (DMA 2000) in order to amend the Robert T. Stafford Disaster Relief and Emergency Assistance Act. Section 322 of DMA 2000 emphasizes

the need for state, local, and Tribal government entities to closely coordinate on mitigation planning activities and makes the development of a hazard mitigation plan a specific eligibility requirement for any local or Tribal government applying for federal mitigation grant funds. Therefore, the Federal Emergency Management Agency (FEMA) requires that local governments have an approved Hazard Mitigation plan in place to remain eligible for disaster recovery funding and both pre- and post-disaster hazard mitigation funding. Approved plans must be updated, approved, and adopted every five years. The current plan was approved in 2011 and expires in early Fall of this year.

During the most recent update cycle the North Carolina Division of Emergency Management advocated the transition to regional hazard mitigation planning. The jurisdictions in the Buncombe and Madison Region joined together to create the Buncombe Madison Regional Hazard Mitigation Plan (Plan). This allowed resources to be shared amongst the participating jurisdictions and combining the existing county plans into one multi-jurisdictional plan. Planning efforts began in late 2013.

The Plan was prepared in coordination with FEMA Region IV and the North Carolina Division of Emergency Management (NCDEM) to ensure that it meets all applicable FEMA and state requirements for hazard mitigation plans and was funded through a mitigation planning grant administered by Madison County Emergency Management. FEMA plan approval was granted in late 2015. Upon local adoption, the regional plan will be in effect until 2021.

This matter was heard before the Public Safety Committee on July 25, 2016, and was supported for approval.

Pros:

- An approved hazard mitigation plan establishes the broad community vision and guiding principles for reducing hazard risk, and further proposes specific mitigation actions to eliminate or reduce identified vulnerabilities.
- Communities with an adopted and federally approved hazard mitigation plan thereby become pre-positioned and more likely to receive available mitigation funds before and after the next disaster.

Con:

- None

City staff recommends the City Council adopt a resolution to adopt the Buncombe Madison Regional Hazard Mitigation Plan.

RESOLUTION BOOK NO. 38- PAGE 146

E. RESOLUTION NO. 16-194 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CONTRACT WITH PATTON CONSTRUCTION GROUP, INC. FOR THE CONCRETE MAINTENANCE AND ADA IMPROVEMENTS PROJECT

Summary: The consideration of a resolution authorizing the City Manager to execute a contract in the amount of $184,900 with Patton Construction Group Inc. for the project known as Concrete Maintenance and ADA Improvements Fiscal Year 2017, City of Asheville Project #ST-16-17-001, and further authorizing the execution of any change orders to said contract which may arise during execution of said project up to the budgeted amount of $200,000.

This contract is our annual Concrete Maintenance Contract. This year the maintenance work will be concentrated around several Asheville City schools. The project was advertised on July 7, 2016, and bids were opened on July 28, 2016, with the following results:

Patton Construction Group, Arden, NC	$184,900
J & E Concrete Construction, LLC, Harmony, NC	$198,611
Appalachian Paving and Concrete, Swannanoa, NC	$199,193
Armen Construction, Charlotte, NC	$217,656

Below is list of the proposed project sites to be completed under the maintenance contract:

School	Street
Asheville High	Victoria Road
Claxton Elementary	Hillside, Annandale, Merrimon
Isaac Dickson Elementary	Hill Street
Hall Fletcher Elementary	Ridgelawn and Garden Circle
Oakley Elementary	Liberty and School Road E

Pros:

- Will correct a number of sidewalk issues near City of Asheville schools.
- Addresses pedestrian safety by providing the required sidewalk maintenance.

Con:

- Project management and contract administration will consume staff time.

$200,000 was budgeted for concrete repair and maintenance in the general fund. This amount was approved by City Council and included in the Fiscal Year 2016-2017 budget.

City staff recommends City Council adopt the resolution awarding the contract to Patton Construction Group, Inc. and authorizing the City Manager to execute a contract in the amount of $184,900 with Patton Construction Group, Inc. for the project known as Concrete Maintenance and ADA Improvements FY 17 and further authorizing the execution of any change orders to said contract which may arise during execution of said project up to the budgeted amount of $200,000.

RESOLUTION BOOK NO. 38 - PAGE 147

F. RESOLUTION NO. 16-195 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO AN AGREEMENT WITH THE HOUSING AUTHORITY OF THE CITY OF ASHEVILLE TO FUND AND CONTINUE THE ASHEVILLE POLICE DEPARTMENT HOUSING POLICE UNIT

Summary: The consideration of a resolution authorizing the City Manager to enter into an agreement with the Housing Authority City of Asheville (HACA) which amends and extends the previous Asheville Housing Unit Police Intergovernmental Memorandum of Agreement. (Agreement") which expired 2015.

In December 2012, the City of Asheville (City) and HACA entered into an agreement which provides additional sworn police resources as a way to supplement regular patrols and community policing within HACA developments. The agreement, which expired and whose terms continued to be implemented by both parties, provides for a 9 member APD Public Housing Unit (Housing Unit). Through the proposed extension of the agreement, he APD will continue to:

- be responsible for criminal enforcement, crime prevention, community policing and enforcement of HACA regulations in public housing; and
- partner with the HACA and its residents to foster an atmosphere focusing on community policing to create a safe environment and improve the quality of life in public housing, while simultaneously reducing crime; and

- a continued partner with HACA in funding the Housing Unit.

The HACA will reimburse the City for expenses related to four officers' salary and benefits. This will enable the continued operation of the 9 member unit responsible for providing law enforcement services the 11 public housing communities.

Pros:

- Establish a dedicated number of sworn officers to provide direct law enforcement services to the eleven (11) public housing developments in the City.
- Foster an atmosphere focusing on community policing to create a safe environment and improve the quality of life in public housing.
- Improve lines of communication and cooperation between the residents, staff and the police in public housing.

Cons

- The City is responsible for the initial expenses related to 4 officers, until reimbursed by the HACA.

Funding for four (4) Housing Unit officers salary and benefits, would be through the HACA at an annual cost of approximately $260,000. The City would be required to fund five (5) additional sworn personnel (4 officers and 1 Sergeant) to fully staff the APD Public Housing Unit at an annual cost of approximately $330,000. The revenue and expenses associated with this program are already included in the Police Department's FY 2016-17 budget.

Staff recommends that City Council approve the resolution authorizing the City Manager to enter into an agreement with the Housing Authority City of Asheville to fund and continue operating the APD Public Housing Unit.

RESOLUTION BOOK NO. 38 - PAGE 148

G. RESOLUTION NO. 16-199 - RESOLUTION AUTHORIZING THE POSSESSION AND/OR CONSUMPTION OF ALCOHOLIC BEVERAGES AND/OR UNFORTIFIED WINE AT THE CLIPS BEER & FILM TOUR

RESOLUTION NO. 16-200 - RESOLUTION AUTHORIZING THE POSSESSION AND/OR CONSUMPTION OF ALCOHOLIC BEVERAGES AND/OR UNFORTIFIED WINE AT THE BREWGRASS FESTIVAL

RESOLUTION NO. 16-201 - RESOLUTION AUTHORIZING THE POSSESSION AND/OR CONSUMPTION OF ALCOHOLIC BEVERAGES AND/OR UNFORTIFIED WINE AT RIVERMUSIC

Summary: The consideration of resolutions authorizing the City Manager to approve making provisions for the possession and consumption of malt beverages and/or unfortified wine at Clips Beer & Film Tour, Brewgrass Festival and RiverMusic.

- Asheville on Bikes has requested through the City of Asheville Community & Economic Development Department that City Council permit them to serve beer and/or unfortified wine at Clips Beer & Film Tour and allow for consumption at this event.

  Clips Beer & Film Tour will be held on Friday, August 26, 2016, from 6:30 p.m. to 10:00 p.m. within the boundaries of Pack Square Park as per the area limits referenced on the accompanying site map.

- Asheville Brewers Alliance has requested through the City of Asheville Community & Economic Development Department that City Council permit them to serve beer and/or unfortified wine at the Brewgrass Festival and allow for consumption at this event.

  The Brewgrass Festival will be held on Saturday, September 17, 2016, from 1:00 p.m. – 7:00 p.m. within the boundaries of Memorial Stadium including a fenced extension of the premises as per the area limits referenced on the accompanying site map.

- Riverlink has requested through the City of Asheville Community & Economic Development Department that City Council permit them to serve beer and/or unfortified wine at RiverMusic and allow for consumption at this event.

  RiverMusic will be held on Friday, September 9, and Friday, October 7, 2016, from 5:00 p.m. to 10:00 p.m. within the boundaries of Carrier Park as per the area limits referenced on the accompanying site map.

These actions have no direct connection with the City Council 2036 Vision.

Pro:

- Allows fundraising opportunities for Asheville on Bikes, Asheville Brewers Alliance and Riverlink

Con:

- Potential for public safety issues.

Staff recommends City Council adopt resolutions authorizing the City Manager to approving making provisions for the possession and consumption of malt beverages and/or unfortified wine at Clips Beer & Film Tour, Brewgrass Festival and RiverMusic.

RESOLUTION NO. 16-199 - RESOLUTION BOOK NO. 38 - PAGE 155
RESOLUTION NO. 16-200 - RESOLUTION BOOK NO. 38 - PAGE 158
RESOLUTION NO. 16-201 - RESOLUTION BOOK NO. 38 - PAGE 161

H. RESOLUTION NO. 16-196 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT WITH THE CENTER FOR CRAFT, CREATIVITY & DESIGN IN ORDER TO FUND AN ARTSPACE MARKET AND FEASIBILITY ANALYSIS

Summary: The consideration of a resolution approving $25,000 for the Center for Craft, Creativity & Design to fund an Artspace Market and Feasibility Analysis.

The Center for Craft, Creativity & Design has requested $25,000 from the City of Asheville to support a market analysis regarding artist housing and creative spaces uses for the Center's facilities, to be conducted by Artspace.

Artspace is a national-non-profit organization that has successfully developed artist live/work space throughout the country. Artspace has proposed providing consulting services (Artspace Feasibility Assessment), to The Center for Craft, Creativity & Design (CCCD) to determine the feasibility of artist live/work housing here, and perhaps the development of other dedicated arts services space. According to CCCD Executive Director Stephanie Moore, "The Artspace due diligence process begins with a two-part assessment that works with community and creative sector leaders to 1) identify suitable parcels, and 2) measure the market capacity of the creative sector, including artists and creative sector businesses. The process results in relevant and actionable data to inform and develop arts-based development pro-formas using national best practices. The process includes in-depth community education and stakeholder engagement."

According to Moore, "The Artspace Feasibility Assessment includes an Arts Market Survey, which will provide similar data as the previously proposed AAAC Cultural Resources Asset Inventory, a project that was contingent on funding from the National Endowment for the Arts (NEA). In April 2016, the community was informed that the Cultural Resources Asset Inventory did not receive NEA funding."

The proposed cost of the study is $98,325. Partner commitments to funding include $10,000 from State Senator Terry Van Duyn and $10,000 from the Duke Energy Foundation pending City and County financial support. The Community Foundation of Western North Carolina has invited a $25,000 grant request. Should the City agree to the $25,000 funding request, CCCD would move forward with the first phase, at a cost of $44,850, and continue fundraising to achieve the full two-part study.

The Part 1: Preliminary Feasibility Study & Visit entails a fact-finding process that includes meetings with artists, city officials, funders and community stakeholders. The scope of work includes a three-day visit from Artspace staff to facilitate meetings, give presentations and collect information about potential arts-based development projects, including a preliminary assessment of multiple sites. Customized scope-of-work includes an extended tour of 5-7 potential project sites for new construction or building reuse. The visit would also include a separate meeting with City of Asheville Planning Department staff to review site details, zoning information, etc. The Part 1 Deliverables will be a Preliminary Feasibility Report and a Preliminary Site Matrix Evaluation.

The Part 2 Arts Market Study, at a cost of $53,475, would provide a clear picture of the demand for arts spaces in an area. Artspace recommends that Asheville commission a comprehensive survey, which includes 1) survey of individual artists and creative and 2) arts/cultural organizations and creative businesses.

The Housing and Community Development Committee heard this request at their meeting on July 19, 2016, and voted to recommend its approval to Council.

Pros:

- Provides an economic development analysis of the current CCCD space;
- Creates an assessment of various spaces for their potential use as affordable housing and art facilities;
- Energizes partnerships for the continued assessment and development of infrastructure necessary for the enhancement of the creative economy;
- Provides new perspectives on the issues of gentrification.

Cons:

- The potential for Artspace participation in a local affordable housing project may be small. Their material states, "In an average year we make 15 to 20 feasibility visits to cities around the country; of these, two to four typically lead to projects."
- Funding for affordable housing, particularly for the 9% LIHTC program is extremely competitive. Although allowable under federal law, dedicated artist housing using that resource may be perceived as not meeting the broadest community need.

The $25,000 will be funded from the Affordable Housing allocation within the CIP.

The Housing and Community Development Committee recommends City Council approve the $25,000 request of the Center for Crafts, Creativity & Design to fund an Artspace Market and Feasibility Analysis.

RESOLUTION BOOK NO. 38 - PAGE 149

Mayor Manheimer asked for public comments on any item on the Consent Agenda, but received none.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Councilman Smith moved for the adoption of the Consent Agenda. This motion was seconded by Vice-Mayor Wisler and carried unanimously.

III. PRESENTATIONS & REPORTS:

IV. PUBLIC HEARINGS:

A. GENERAL OBLIGATION BOND REFERENDUM

Director of Finance Barbara Whitehorn said that this is the consideration of (1) holding a public hearing on Bond Order authorizing issuance of $32,000,000 of General Obligation Transportation Bonds of the City of Asheville, North Carolina; (2) holding a public hearing on Bond Order authorizing issuance of $25,000,000 of General Obligation Housing Bonds of the City of Asheville, North Carolina; (3) holding a public hearing on Bond Order authorizing the issuance of $17,000,000 of General Obligation Parks and Recreation Bonds of the City of Asheville, North Carolina; (4) adopting the Transportation Bond Order without change or amendment and direct the Clerk to publish a notice of adoption; (5) adopt the Housing Bond Order without change or amendment and direct the Clerk to publish a notice of adoption; (6) adopt the Parks and Recreation Bond Order without change or amendment and direct the Clerk to publish a notice of adoption; and (7) adopt a resolution setting a special bond referendum and directing the publication of notice of a special bond referendum and notification of the Buncombe County Board of Elections.

Ms. Whitehorn said that this is the consideration of adopting a $74,000,000 general obligation bond referendum on November 8, 2016. The referendum includes $32,000,000 of transportation bonds, $17,000,000 of park and recreation bonds, and $25,000,000 of housing bonds. The statutory requirements for the legal process include applying to the Local Government Commission (LGC) for approval, holding a public hearing on the proposed bond orders, setting of the special referendum, and certification of the results. The LCG application was timely submitted with a date of July 18, 2016.

The current action is the third of four City Council actions. This third action is comprised of the following:

1) Public Hearings
   - Hold public hearing on bond order authorizing the issuance of $32,000,000 of General Obligation Transportation Bonds of the City of Asheville, North Carolina
   - Hold public hearing on bond order authorizing the issuance of $25,000,000 of General Obligation Housing Bonds of the City of Asheville, North Carolina
   - Hold public hearing on bond order authorizing the issuance of $17,000,000 of General Obligation Parks and Recreation Bonds of the City of Asheville, North Carolina

2) Adoption of Bond Orders
   - Adopt the Transportation Bond Order without change or amendment and direct the Clerk to publish a notice of adoption
   - Adopt the Housing Bond Order without change or amendment and direct the Clerk to publish a notice of adoption
   - Adopt the Parks and Recreation Bond Order without change or amendment and direct the Clerk to publish a notice of adoption

3) Adoption of Resolution Setting Special Referendum
   - Adoption by the City Council of a resolution setting a special bond referendum and directing the publication of notice of a special bond referendum and notification of the Buncombe County Board of Elections

After November 8, the City Council will be asked to adopt a resolution certifying and declaring the results of the special bond referendum. This action will occur after the Buncombe County Board of Elections certifies the results of the vote.

This action furthers the City Council's strategic themes set forth in January, 2016, by providing funding to address transportation infrastructure needs, ensuring a high quality of life to the residents of the City of Asheville and addressing the City's affordable housing challenge.

Pros:
- Provides funding for transportation, parks and housing needs as identified in City master plans and Council strategic goals.
- Ensures City's compliance with North Carolina General Statutes.

Con:
- None.

A general obligation bond commits the full faith and credit of the City of Asheville to repayment of the bonded debt. Additional tax levy may be required to fund the debt service over the life of the bonds.

Staff recommends that Council conduct the public hearings and adopt the resolution allowing staff to proceed with the necessary action to conduct a general obligation bond referendum on November 8, 2016.

Deputy City Clerk Matthews then reported to the City Council that the bond orders entitled, **"BOND ORDER AUTHORIZING THE ISSUANCE OF $32,000,000 OF GENERAL OBLIGATION TRANSPORTATION BONDS OF THE CITY OF ASHEVILLE, NORTH CAROLINA," "BOND ORDER AUTHORIZING THE ISSUANCE OF $25,000,000 OF GENERAL OBLIGATION HOUSING BONDS OF THE CITY OF ASHEVILLE, NORTH CAROLINA,"** and **"BOND ORDER AUTHORIZING THE ISSUANCE OF $17,000,000 OF GENERAL OBLIGATION PARKS AND RECREATION BONDS OF THE CITY OF ASHEVILLE, NORTH CAROLINA,"** which were introduced at a meeting of the City Council on July 26, 2016, were published on July 29, 2016, with notice that the City Council would hold a public hearing thereon on August 9, 2016, at 5:00 p.m. She also reported that there had been filed in her office a statement of debt complying with provisions of the Local Government Bond Act, and such statement as filed showed the net indebtedness of the City to be 0.77% of the assessed valuation of property in said City subject to taxation.

PUBLIC HEARING ON BOND ORDER AUTHORIZING THE ISSUANCE OF $32,000,000 OF GENERAL OBLIGATION TRANSPORTATION BONDS OF THE CITY OF ASHEVILLE, NORTH CAROLINA

Mayor Manheimer said that as part of Council's discussion, they talked about the need to possibly include a new transit center or renovate the existing transit center facility in the bond process. Bond counsel advised City Council that they cannot due to the wording of the bond question and the process already followed. However, if Council wanted to allocate some funding, (staff suggests approximately $1,000,000), to make some renovations to the transit center, we can do that within our Capital Improvement Plan budget at a different time.

Mayor Manheimer opened the public hearing at 5:06 p.m. and announced that the City Council would hear anyone who wished to be heard on the questions of validity of the General

Obligation Transportation Bond Order and the advisability of issuing the General Obligation Transportation Bonds.

Mr. Sidney Bach felt that these public hearings are merely window dressings as he felt Council has already determined to foist a poorly-planned, unnecessary pie-in-the-sky $74 Million financial burden upon the City and its residents for years to come. In addition, all the tax increases will be passed along to renters as rent increases, thus creating more unaffordable housing for those already paying high rents. The entire bond package does not include any funds for fire, police, emergency personnel or equipment, or public schools and wondered where Council's priorities lay.

Ms. Betty Council, an African American community activist, said that if the bonds pass she strongly recommended that since over 13+ percent of Asheville's population is African American that Council allot 13-20% of the funds be focused on the African American communities in the three areas of the bonds.

After the City Council heard all persons who requested to be heard in connection with the foregoing questions, Mayor Manheimer closed the public hearing at 5:11 p.m.

Mayor Manheimer noted that there was a public safety bond package Council considered but Council decided it was not appropriate to move forward with that as a bond package. Public safety is a priority of the City and almost every year half of the City's general fund budget is allocated to public safety. Council does keep that as a priority.

Mayor Manheimer also noted that it is her understanding that cities cannot use General Obligation Bonds for teachers and schools. In terms of the fiscal impact of the total bond package, the implication equates to 4.1-cents in property taxes. For example, for a home valued at $275,000 it would mean an annual tax implication of $110 per year, if it was necessary to raise taxes to meet the debt service for these bonds. If Council sees growth in revenues or property values it may not be necessary to raise additional taxes to pay for these bonds.

Councilman Bothwell said that if you are a renter and the unit you are renting happens to be worth $275,000, it could increase your rent by $10/month.

Councilwoman Mayfield moved to adopt the Transportation Bond Order without change or amendment and direct the City Clerk to publish notice of adoption of the Bond Order entitled "Bond Order authorizing the issuance of $32,000,000 of General Obligation Transportation Bonds of the City of Asheville, North Carolina" as introduced at the meeting of the City Council held on July 26, 2016. This motion was seconded by Councilman Bothwell and carried unanimously.

PUBLIC HEARING ON BOND ORDER AUTHORIZING THE ISSUANCE OF $25,000,000 OF GENERAL OBLIGATION HOUSING BONDS OF THE CITY OF ASHEVILLE, NORTH CAROLINA

Mayor Manheimer opened the public hearing at 5:14 p.m. and announced that the City Council would hear anyone who wished to be heard on the questions of validity of the General Obligation Housing Bond Order and the advisability of issuing the General Obligation Housing Bonds.

Mr. Greg Borom, with Children First/Communities in School of Buncombe County, spoke in favor of the Housing Bonds. He was pleased that Council continues to focus on making housing affordable to more families in our community. They asked that Council share data around how the proposed bond will forward Council's goals on racial equity and housing and economic mobility. They also supported the City looking at ways to direct funding towards deeply affordable and extremely affordable housing per HUD's definitions. Around the goals of home ownership, they asked that the City look at ways when the money is available that we can

address closing the racial wealth gap on homeownership lines in the City. Finally, they also support the Housing Trust Fund flexibility.

Mr. Timothy Sadler spoke in favor of the Housing Bonds. He hoped Council will look at creative ways to encourage homeownership, particularly as it pertains to racial equity in our community.

After the City Council heard all persons who requested to be heard in connection with the foregoing questions, Mayor Manheimer closed the public hearing at 5:19 p.m.

Councilman Smith was excited about these bond packages. Council has heard from the community what issues they are facing in their neighborhoods and their lives. Council has been doing its level best to meet those needs. What these bond questions will allow is for the people of Asheville to decide whether to accelerate towards those aspirations that they have communicated to Council. If they choose to do so, Council will stand with them.

Councilman Smith moved to adopt the Housing Bond Order without change or amendment and direct the City Clerk to publish notice of adoption of the Bond Order entitled "Bond Order authorizing the issuance of $25,000,000 of General Obligation Housing Bonds of the City of Asheville, North Carolina" as introduced at the meeting of the City Council held on July 26, 2016. This motion was seconded by Vice-Mayor Wisler and carried unanimously.

PUBLIC HEARING ON BOND ORDER AUTHORIZING THE ISSUANCE OF $17,000,000 OF GENERAL OBLIGATION PARKS AND RECREATION BONDS OF THE CITY OF ASHEVILLE, NORTH CAROLINA

Mayor Manheimer opened the public hearing at 5:20 p.m. and announced that the City Council would hear anyone who wished to be heard on the questions of validity of the General Obligation Parks and Recreation Bond Order and the advisability of issuing the General Obligation Parks and Recreation Bonds.

Mayor Manheimer opened the public hearing at 5:20 p.m. and announced that the City Council would hear anyone who wished to be heard on the questions of validity of the General Obligation Parks and Recreation Bond Order and the advisability of issuing the General Obligation Parks and Recreation Bonds. When no one stepped forward to be heard in connection with the foregoing questions, Mayor Manheimer closed the public hearing at 5:20 p.m.

Mayor Manheimer said that from the polling data, people within the African American community in Asheville, 80% supported the Parks and Recreation Bond Order.

Councilman Bothwell said that there are arguments on both sides of any of the bond orders, but the point of presenting it to the people to vote is to let us have a debate about this from now until the referendum. We will let the people in the community decide whether they want to take on this obligation and make these improvements or not.

Councilman Bothwell moved to adopt the Parks and Recreation Bond Order without change or amendment and direct the City Clerk to publish notice of adoption of the Bond Order entitled "Bond Order authorizing the issuance of $17,000,000 of General Obligation Parks and Recreation Bonds of the City of Asheville, North Carolina" as introduced at the meeting of the City Council held on July 26, 2016. This motion was seconded by Vice-Mayor Wisler and carried unanimously.

RESOLUTION NO. 16-197 - RESOLUTION SETTING A SPECIAL BOND REFERENDUM AND DIRECTING PUBLICATION OF NOTICE OF A SPECIAL BOND REFERENDUM AND NOTIFICATION OF THE BUNCOMBE COUNTY BOARD OF ELECTIONS

Mayor Manheimer opened the public hearing at 5:23 p.m. on setting a special bond referendum and directing publication of notice of a special bond referendum and notification of the Buncombe County Board of Elections. When no one spoke, she closed the public hearing at 5:23 p.m.

Vice-Mayor Wisler moved for the adoption of Resolution No. 16-197, Resolution setting a special bond referendum and directing publication of notice of a special bond referendum and notification of the Buncombe County Board of Elections. This motion was seconded by Councilman Smith and carried unanimously.

RESOLUTION BOOK NO. 38 - PAGE 150

B. PUBLIC HEARING TO CONSIDER AN AMENDMENT TO THE UNIFIED DEVELOPMENT ORDINANCE ESTABLISHING REQUIREMENTS FOR UTILITY SUBSTATIONS

Councilman Bothwell moved to continue the public hearing until September 6, 2016. This motion was seconded by Councilman Young and carried unanimously.

V. UNFINISHED BUSINESS:

VI. NEW BUSINESS:

A. RESOLUTION NO. 16-198 - RESOLUTION APPOINTING A MEMBER TO THE SUSTAINABILITY ADVISORY COMMITTEE ON ENERGY & THE ENVIRONMENT

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that Lawrence Pittman, as a member of the Sustainability Advisory Committee on Energy & the Environment, thus leaving an unexpired term until December 31, 2018.

The following individuals applied for the vacancy: Rich Lee, Kendra Sherrod, Brad Rouse, April Brown, Emily Boyd, Amanda Fairley, Bridget Herring and Michael Whitmire. On July 26, 2016, City Council instructed the City Clerk to arrange interviews for Brad Rouse, Emily Boyd and Bridget Herring.

After Council spoke highly of all candidates, Brad Rouse received 1 vote, Emily Boyd received 2 votes, and Bridget Herring received 4 votes. Therefore, Bridget Herring was appointed to serve as a member of the Sustainability Advisory Committee on Energy & the Environment, to serve the unexpired term of Mr. Pittman, term to expire December 31, 2018, or until her successor has been appointed.

RESOLUTION BOOK NO. 38 – PAGE 154

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

Ms. Terri March spoke about the Open Streets Event, which is a healthy family fun event, on September 18, 2016.

A resident of east Asheville asked Council to sign a letter that honors the International Day for Natural Disaster Reduction on October 12, 2016. To ensure our economic prosperity, to protect our health and children, and to ensure our security and safety, we need to act now to protect forests adequately. He asked that the European Commission on Bioenergy incorporate their concerns into its policy.

Mr. Chris Peterson spoke in opposition of the bond orders due to the financial impact on Asheville taxpayers.

Mr. Timothy Sadler spoke about Hemp X Asheville on August 19-20, 2016, at Highland Brewing Company.

Councilman Smith was pleased with the successful LEAF event on August 6 in downtown Asheville.

Councilman Bothwell said that he makes less than $29,000 per year and our taxes are an amazing bargain. That is why he is willing to continue to support City efforts.

Councilwoman Mayfield said the bond packages are very exciting and now it's up to the community to make their decision about whether they want to support the investments.

Councilwoman Mayfield said that the I-26 Connector meetings are continuing and are productive. Also, she noted that on August 12, there will be the monthly meeting of the Energy Innovation Task Force.

Closed Session

At 5:40 p.m., Councilman Young moved to go into closed session for the following reasons: (1) To prevent disclosure of information that is privileged and confidential, pursuant to the laws of North Carolina, or not considered a public record within the meaning of Chapter 132 of the General Statutes. The law that makes the information privileged and confidential is N.C.G.S. 143-318.10(a)(3). The statutory authorization is contained in N.C.G.S. 143-318.11(a)(1); and (2) To consult with an attorney employed by the City about matters with respect to which the attorney-client privilege between the City and its attorney must be preserved, including litigation involving the following parties: State of North Carolina and the City of Asheville. The statutory authorization is N.C. Gen. Stat. sec. 143-318.11(a)(3). This motion was seconded by Councilman Bothwell and carried unanimously.

At 6:35 p.m., Councilman Bothwell moved to come out of closed session. This motion was seconded by Vice-Mayor Wisler and carried unanimously.

VIII. ADJOURNMENT:

Mayor Manheimer adjourned the meeting at 6:35 p.m.

Magdalen Bledsoe
CITY CLERK

MAYOR

Tuesday – September 6, 2016 - 5:00 p.m.

Regular Meeting

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Cecil Bothwell; Councilman Brian D. Haynes; Councilwoman Julie V. Mayfield; Councilman Gordon D. Smith; Councilman W. Keith Young; City Manager Gary W. Jackson; City Attorney Robin T. Currin; and City Clerk Magdalen Burleson

Absent: None

PLEDGE OF ALLEGIANCE

Mayor Manheimer led City Council in the Pledge of Allegiance.

I. PROCLAMATIONS:

A. EMPLOYEE RECOGNITIONS

City Manager Jackson was pleased to introduce (1) Senior Firefighter Trey Young as being recognized as the WNC Career Firefighter of the Year; and (2) Streets Division Manager Chad Bandy for being the recipient of the American Public Works Association H.W. Kueffner Municipal Service Award.

Mayor Manheimer thanked the employees on what they do on behalf of the City of Asheville and City Council. She was proud of City staff and looked forward to highlighting more accomplishments.

B. PROCLAMATION HONORING KAREN CRAGNOLIN'S SERVICE TO THE COMMUNITY

Mayor Manheimer read the proclamation honoring former Executive Director of RiverLink Karen Cragnolin for her over 30 years of service to the community.

II. CONSENT AGENDA:

At the request of Councilman Haynes, Consent Agenda Items "C" and "E" were removed from the Consent Agenda for discussion and/or individual votes.

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON AUGUST 9, 2016; AND PAGE AMENDMENT TO THE JULY 26, 2016, MINUTES TO CORRECT A TYPOGRAPHICAL ERROR

B. RESOLUTION NO. 16-202- RESOLUTION ACCEPTING NANCY STREET AS A CITY-MAINTAINED STREET

Summary: The consideration of a resolution to accept an extension of Nancy Street as a City street.

Following the terms of a Housing Trust Fund Loan Agreement dated July 9, 2015, between the City of Asheville and Beaucatcher Commons, LLC, an extension of Nancy Street was brought up to current City of Asheville standards to assist in the development of affordable housing for the benefit of low-and-moderate income households. The developer provided funds for the materials and the City's Public Works Department constructed the improvements. On August 2, 2016, Mr. Jeff Staudinger requested via e-mail message that we move forward with the

process to accept an extension of Nancy Street as a City street since the improvements have been completed.

Nancy Street from a point 0.06 mile west of Townview Drive to Townview Drive is a city-constructed street (in partnership with the developer) that has an average width of 16 feet with grass shoulders, a length of 0.06 mile, and a right-of-way width of 30 feet.

Transportation Department staff, Fire Department staff, Planning Department staff, and Public Works Department staff inspected the subject street and determined that it was constructed according to current standards as indicated in the City of Asheville's Standard Specifications and Details Manual.

Following City Council's approval of this resolution, the subject street will be added to the official Powell Bill List.

Pros:

- The City of Asheville will receive Powell Bill Funds from the North Carolina Department of Transportation (NCDOT) to help maintain the street.
- The street provides access to residential communities.

Con:

- Powell Bill Funds will not cover 100% of the total cost to maintain the street.

There will be no initial financial impact to the City, although the responsibility of maintenance will belong to the Public Works Department. The City will receive Powell Bill Funds in the future to help maintain the street.

Staff recommends that City Council accept an extension of Nancy Street as a City street.

RESOLUTION BOOK NO. 38 - PAGE 164

C. RESOLUTION AUTHORIZING THE CITY MANAGER TO RENEW AN AGREEMENT WITH THE U.S. DEPT. OF JUSTICE TO STAFF AND CONTINUE THE DRUG ENFORCEMENT AGENCY ASHEVILLE DUTY POST TASK FORCE

This item was removed from the Consent Agenda for discussion and/or an individual vote.

D. RESOLUTION NO. 16-204 - RESOLUTION AUTHORIZING THE POSSESSION AND/OR CONSUMPTION OF ALCOHOLIC BEVERAGES AND/OR UNFORTIFIED WINE AT THE FARM TO TABLE DINNER EVENT

RESOLUTION NO. 16-205 - RESOLUTION AUTHORIZING THE POSSESSION AND/OR CONSUMPTION OF ALCOHOLIC BEVERAGES AND/OR UNFORTIFIED WINE AT THE BOUNTIFUL CITIES ANNIVERSARY PARTY

RESOLUTION NO. 16-206 - RESOLUTION AUTHORIZING THE POSSESSION AND/OR CONSUMPTION OF ALCOHOLIC BEVERAGES AND/OR UNFORTIFIED WINE AT OKTOBERFEST

Summary: The consideration of resolutions authorizing the City Manager to approve making provisions for the possession and consumption of malt beverages and/or unfortified wine at the Farm to Table Dinner, the Anniversary Party and Oktoberfest.

- Appalachian Sustainable Agriculture Project has requested through the City of Asheville Community & Economic Development Department that City Council permit them to serve

beer and/or unfortified wine at the Farm to Table Dinner and allow for consumption at this event.

The Farm to Table Dinner will be held on Thursday, September 8, 2016 from 6:00 p.m. – 9:00 p.m. within the boundaries of Boston Way as per the area limits referenced on the accompanying site map.

- Bountiful Cities has requested through the City of Asheville Community & Economic Development Department that City Council permit them to serve beer and/or unfortified wine at the Anniversary Party and allow for consumption at this event.

  The Anniversary Party will be held on Saturday, September 24, 2016 from 4:00 p.m. – 10:00 p.m. within the boundaries of Walnut Street as per the area limits referenced on the accompanying site map.

- Asheville Downtown Association has requested through the City of Asheville Community & Economic Development Department that City Council permit them to serve beer and/or unfortified wine at Oktoberfest and allow for consumption at this event.

  Oktoberfest will be held on Saturday, October 8, 2016 from 1:00 p.m. – 6:00 p.m. within the boundaries of Pack Square Park as per the area limits referenced on the accompanying site map.

Pro:

- Allows fundraising opportunities for Appalachian Sustainable Agriculture Project, Bountiful Cities, and the Asheville Downtown Association

Con:

- Potential for public safety issues

There is no fiscal impact

Staff recommends City Council adopt resolutions authorizing the City Manager to approve making provisions for the possession and consumption of malt beverages and/or unfortified wine at the Farm to Table Dinner, Anniversary Party and Oktoberfest.

RESOLUTION NO. 16-204 - RESOLUTION BOOK NO. 38 - PAGE 167
RESOLUTION NO. 16-205 - RESOLUTION BOOK NO. 38 - PAGE 170
RESOLUTION NO. 16-206 - RESOLUTION BOOK NO. 38 - PAGE 173

E. RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CONTRACT WITH PINNACLE LANDSCAPES LLC FOR THE 2016 MEDIAN MAINTENANCE PROJECT

This item was removed from the Consent Agenda for discussion and/or an individual vote.

F. RESOLUTION NO. 16-208 - RESOLUTION AUTHORIZING THE CITY MANAGER TO SIGN A CONTRACT WITH THE N.C. DEPT. OF TRANSPORTATION TO FUND THE METROPOLITAN PLANNING PROGRAM, SECTION 5303 OF THE FEDERAL TRANSIT ADMINISTRATION

Summary: The consideration of a resolution authorizing the City Manager to enter into an agreement with the North Carolina Department of Transportation (NCDOT) to fund the Metropolitan Planning Program, Section 5303 of the Federal Transit Administration (FTA).

The FTA Section 5303 Metropolitan Planning Program is part of the annual Unified Planning Work Program (UPWP) of the French Broad River Metropolitan Planning Organization (FBRMPO), which outlines transportation planning tasks to be performed by the FBRMPO. The Metropolitan Planning Program is designated to pay exclusively for transit planning activities, such as grant administration and reporting activities, short range and long range transit planning, transportation improvement program preparation, Title VI and DBE programs, and planning and operational analyses. The funds are used to supplement the Transit Projects Coordinator position (90% of the grant) and a portion of the Transportation Manager position (the remaining 10%) for time spent on transit planning.

This funding makes possible to have dedicated staff developing and engaging in complex processes such as the transit master plan implementation, route changes, and to develop programs required by the Federal Transit Administration for recipient and sub-recipients to ensure compliance with federal regulations.

FY 2016-17 funding totals $75,000. The subject grant will provide 80% of the anticipated funding ($60,000), the North Carolina Department of Transportation will provide 10% ($7,500), and the City will provide the remaining 10% ($7,500). The grant funding and the City's local match in the amount of $7,500 are currently budgeted in the Transportation Department's approved operating budget for the current fiscal year.

Pros:

- Supplements funding for two existing positions.
- Enables the City of Asheville to use $67,500 in Federal and State funds for transit planning activities.

Con:

- A 10% local match in the amount of $7,500 is required.

The total grant funding for Fiscal Year 2016-17 is $75,000. The City is required to provide a 10% local match in the amount of $7,500. The anticipated grant funding and the City's local match in the amount of $7,500 are currently budgeted in the Transportation Department's operating budget.

City staff recommends that City Council adopt a resolution authorizing the City Manager to enter into an agreement with the North Carolina Department of Transportation to fund the transit planning program, Section 5303 Metropolitan Planning Grant of the Federal Transit Administration for FY 2016-17.

RESOLUTION BOOK NO. 38 - PAGE 177

G. ORDINANCE NO. 4517- BUDGET AMENDMENT TO FUND THE DEVELOPMENT, DEPLOYMENT AND MAINTENANCE OF A WEB-BASED APPLICATION TO ASSIST SMALL BUSINESS OWNERS AND PROSPECTORS WITH THE ZONING AND PERMITTING PROCESS

Summary: The consideration of a budget amendment in the City's Grant Fund in the amount of $50,000 from the United States Small Business Administration (SBA) to fund the development, deployment and maintenance of a web-based application to assist small business owners and prospectors with the zoning and permitting process.

On July 13, 2015 City Council authorized staff to register for the Startup in a Day Competition - Start Small Model. Based upon this registration, the City was awarded a $50,000 prize for the purposes of developing an online tool or application that lets most entrepreneurs identify and begin the application process within one day for all requirements to launch a business in our respective communities. After evaluating the City's permitting and review process

and available options, staff has chosen a third party configurable service to implement this project. In order to accurately account for the use of the funds, staff recommends the establishment of a project in the Grant Projects Fund, and a budget amendment to appropriate the revenue and provide authorization for the expenses in that fund.

Pros:

- Provides budget authorization for the expenditure of SBA awarded funds previously approved for application by City Council.
- Promotes the establishment of a user friendly system to assist Asheville entrepreneurs in obtaining permits to open small businesses.

Con:

- None

As the award is a prize and not a grant, no contribution of matching city resources is required.

Staff recommends that the City Council accept a budget amendment in the City's Grant Projects Fund in the amount of $50,000 from SBA's Startup in a Day to fund the implementation of a web-based application which will assist small business owners and prospectors with the zoning and permitting process.

ORDINANCE BOOK NO. 30 - PAGE 383

H. RESOLUTION NO. 16-209 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ACCEPT THE 2015-16 U.S. DEPT. OF HOUSING AND URBAN DEVELOPMENT 2015-16 CONTINUUM OF CARE COMPETITION GRANTS ON BEHALF OF THE ASHEVILLE-BUNCOMBE CONTINUUM OF CARE

ORDINANCE NO. 4518 - BUDGET AMENDMENT TO ADJUST FOR THE TRANSFER OF THE HOMELESS MANAGEMENT INFORMATION SYSTEM GRANT

Summary: The consideration of (1) a resolution to authorize the acceptance of the 2015-16 Department of Housing and Urban Development 2015-16 Continuum of Care (CoC) Competition Grants on behalf of the Asheville-Buncombe Continuum of Care (CoC NC-501); and (2) a budget amendment in the amount of $51,392 to adjust for the transfer of the Homeless Management Information System grant to the City of Asheville mid-year in last year's grant cycle.

The City of Asheville serves as the Continuum of Care Lead for the Asheville-Buncombe Continuum of Care (CoC). Each CoC Lead is responsible for submitting the community's Collaborative Application to be considered for grant funding from the CoC Competition. For 2015-16, the City was awarded a $67,500 project grant necessary to operate the Homeless Management Information System (HMIS) and $35,892 for CoC Lead Planning costs. The Homeless Initiative Advisory Committee recommended the acceptance of these grants to the Housing and Community Development Committee at their meeting on August 16, 2016, upon review of the 2015-16 CoC Grant Applications by their Finance Sub-Committee.

The Budget Amendment for $51,392 is to adjust for the transfer of the HMIS grant mid-year in last year's grant cycle.

Pro:

- These HUD CoC Grants will provide funding for the costs of operating HMIS for the entire Continuum of Care and a full time City staff position tasked with database administration and CoC planning.

Con:

- None noted.

Program funding is entirely from the US Department of Housing and Urban Development, through the State of North Carolina. Existing Community Development Division staff will administer the program. Matching funds for the CoC Planning Project will come from Buncombe County's allocation supporting the Homeless Initiative. No general funds are requested to support this program.

The Housing and Community Development Committee recommends City Council adopt (1) a resolution authorizing the City Manager to sign all necessary documents with the U.S. Department of Housing and Urban Development to accept the 2015-16 Continuum of Care Competition Grant funds; and 2) a budget amendment in the amount of $51,392 to adjust for the transfer of the HMIS grant to the City of Asheville mid-year in last year's grant cycle.

RESOLUTION BOOK NO. 38 - PAGE 178
ORDINANCE BOOK NO. 30 - PAGE 385

I. RESOLUTION NO. 16-210 - RESOLUTION AUTHORIZING THE CITY MANAGER TO APPLY FOR THE FISCAL YEAR 2016-17 CONTINUUM OF CARE GRANT AND TO ACCEPT ANY SUBSEQUENT AWARD FOR PROJECT FUNDING

Summary: The consideration of a resolution to approve submitting the Fiscal Year 2016-17 Department of Housing and Urban Development Continuum of Care (CoC) Collaborative Grant Application for the annual CoC Competition on behalf of the Asheville-Buncombe Continuum of Care (CoC NC-501) and accepting any funds subsequently awarded, and authorizing the City Manager to sign awarded U.S. Dept. of Housing & Urban Development (HUD) contracts.

The City of Asheville serves as the Continuum of Care (CoC) Lead for the Asheville-Buncombe CoC. Each CoC Lead is responsible for submitting the community's collaborative application for project grant funding from the CoC Competition. For Fiscal Year 2016-17, the Asheville-Buncombe CoC is eligible to apply for $1,170,396 in renewal funding. The renewal projects currently assist in housing more than 147 formerly chronically homeless individuals, including case management. HUD CoC funding also provides financial support necessary to operate the Homeless Management Information System (HMIS). An additional $58,547 is available for a new Permanent Supportive Housing bonus project and $35,128 is available for CoC Lead Planning costs. The Planning grant assists the Community and Economic Development Department in staff costs for CoC responsibilities related to homelessness.

The Homeless Initiative Advisory Committee (HIAC) appointed an ad-hoc Finance Subcommittee, compromised of individuals and agencies who did not apply for CoC funds, to review the Continuum of Care projects and application process and make recommendations to the HIAC with an order of project priority. The Finance Sub-Committee's recommendations were approved unanimously by the HIAC. The HIAC recommended the following projects and order of priority to the Housing and Community Development Committee at their August 16, 2016 meeting for the 2016-17 CoC Collaborative Grant Application.

Tier 1	GIW/ Funding	Project Type	Score/Rank
Shelter Plus Care Asheville-Buncombe: Smoky Mountain Center, LME	$ 315,748	Permanent Supportive Housing	1
Pathways to Permanent Housing Extreme Needs: Homeward Bound of	$ 218,798	Permanent Supportive Housing	2

WNC			
Homeless Management Information System: City of Asheville	$67,500	Homeless Management Information System	3
Pathways to Permanent Housing Extreme Needs 5: Homeward Bound of WNC	$ 152,304	Permanent Supportive Housing	4
Pathways to Permanent Housing Extreme Needs 2: Homeward Bound of WNC	$ 56,244	Permanent Supportive Housing	5
Bridge to Recovery: Homeward Bound of WNC	$ 287,027	Permanent Supportive Housing	6

Tier 2	**GIW/Funding**	**Type**	
Pathways to Permanent Housing Extreme Needs 3: Homeward Bound of WNC	$ 73, 311	Permanent Supportive Housing	7
Housing Support for Domestic Violence Survivors: Helpmate, Inc.	$58,547	Rapid Rehousing: Bonus Project	8

No rank required	**Funding**	**Type**	
CoC Planning Project: City of Asheville	$ 35,128	Planning Grant	n/a

NC-501 Annual Renewal Demand (ARD) is determined by HUD: $1,170,932
Project Applications must be ranked as part of the Collaborative Application into Tier 1 or Tier 2. The Tier percentages are pre-determined by HUD annually:

- Tier 1: is 93% of NC-501's ARD ($1,088,967)
- Tier 2: is the difference between Tier 1 and NC-501's ARD ($81,965) plus the amount available for the CoCs permanent housing bonus (5% of NC 501's ARD =$58,547)
- CoC Planning Project ($35,128) – No rank required

Pro:

- Continuum of Care funding is a key funding resource for permanent supportive housing for homeless individuals and families, as well as operating the Homeless Management Information System, which is necessary for NC-501 to receive this vital funding.

Con:

- Program funding does not meet the full demand for the housing subsidy needed to assist all the low-income homeless households in the community secure permanent housing.

Program funding is entirely from the US Department of Housing and Urban Development. Existing community development division staff will administer the program. Matching funds for

the CoC Planning Project will come from Buncombe County's allocation to the City supporting the Homeless Initiative. No general funds are requested to support this program.

The Housing and Community Development Committee recommends to City Council (1) the order of project priority and submission of the Fiscal Year 2016-17 CoC Collaborative Grant Application; and (2) the adoption of a resolution approving the submission of the 2016-17 Continuum of Care Collaborative Grant Application and authorizing the City Manager to sign all necessary documents with the U.S. Department of Housing and Urban Development to accept the funds subsequently awarded.

RESOLUTION BOOK NO. 38 - PAGE 179

J. RESOLUTION NO. 16-211 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT WITH GUARD-ONE PROTECTIVE SERVICES TO PROVIDE SECURITY GUARD SERVICES AT ASHEVILLE CITY HALL AND THE CITY OF ASHEVILLE PUBLIC WORKS BUILDING/ PERMIT CENTER

Summary: The consideration of a resolution authorizing the City Manager to enter into a contract with Guard-One Protective Services (Guard-One) to provide security guard services at Asheville City Hall (City Hall) and the City of Asheville Public Works Building / Permit Center (Permit Center).

Since 2011, the City has utilized contracted security guard services at City Hall. After five years of service provision by one contractor, in April 2016, the City solicited bids for security guard services at City Hall and received bids from the firms listed below. Upon bid review, the incumbent security firm, Guard-One scored was identified as the most qualified and responsive firm with the most experience providing guard services to public entity facilities that provide a high volume of citizen access. Since receiving bids, the City implemented security guard service at the Permit Center. Following staff review of the bidders, it was determined that Guard-One is the best qualified firm to provide said services at both City locations.

Security Guard Service Bids		
Bidder	**Bid Amount**	**Bid Rank**
Guard-One Protective Services; Alpharetta, GA	$16.95 per hour / guard	1
P&G Security Guard, Inc; Salisbury, NC	$16.25 per hour / guard	2
Absolute Contracting Services, Inc; Dunn, NC	$15.38 per hour / guard	3
Mopel Security Services; Charlotte, NC	$21.29 per hour / guard	4
Security Contracting, Inc.; Raleigh, NC	$16.47 per hour / unarmed guard	5

Pro:

- Provides funding for guard security services at City Hall and City Permit Center to safeguard building occupants and City property assets.

Con:

- None.

The total Fiscal Year 2017 cost of $140,000 was included in the adopted budget in the Risk Management Division of the Finance Department.

Staff recommends City Council adopt a resolution authorizing the City Manager to execute an annual contract beginning July 1, 2016, through June 30, 2017, with Guard-One to provide security guard services at City Hall and the City Permit Center locations for an annual amount not to exceed $140,000.00 with an option to renew the contracted service for four (4) additional years on an annual basis, from July 1, 2017, through June 30, 2021, respectively, pending annual adopted budget allocations by City Council.

Councilman Bothwell questioned if Guard-One is paying a living wage to the security guards. He felt that the City should not be contracting with companies who pay less than a living wage to their employees. Risk Manager Brad Stein responded that he was uncertain if a living wage is paid; however, noted that the company said the 58-cent hourly increase was to pay for the guard's health care increases.

RESOLUTION BOOK NO. 38 - PAGE 180

K. ORDINANCE NO. 4519 - BUDGET AMENDMENT FOR THE BODY-WORN CAMERA PROGRAM

Summary: The consideration of a budget amendment in the Special Revenue Fund in the amount of $299,344.16, from the NC Governor's Crime Commission's State Appropriate Committee, to budget the grant funds and the City match for the 2016-17 Body Worn Camera Program.

During its July 26, 2016 meeting, the City Council authorized the Police Department to make application to the Committee for a grant to fund the implementation of a Body Work Camera Program. On August 23, 2016, the Police Department was informed that the grant has been awarded in the amount of $99,781.16, based upon the state-issued matching grant ($1 state for every $2 local) through a Memorandum of Understanding. The City's match, which totals $199,563 will come from the existing FY 2016-17 Police Department General Fund budget.

During its August 23, 2016 meeting, the Finance Committee was informed of the grant award and need to move the item to the full City Council for approval on September 6, 2016. The grant funds will allow the City to purchase an additional 60 Body-Worn Taser Axon Flex Camera Systems and accessories through TASER's Officer Safety Program as a part of the Police Department's Body-Worn Camera program, accelerating the implementation of the program from two years to one year, which is intended to achieve the following:

1) enhance the police-community partnership guided by integrity, fairness, respect, and professionalism;
2) produce a "civilizing effect" for both the police officers and citizens;
3) enhance the police-community partnership by decreasing citizen complaints on police officers, to include decreasing the use-of-force complaints;
4) decreasing the number of assaults against police officers; and augment criminal and internal investigations through audiovisual evidence that corroborates the factual basis of an incident.

Pros:

- Body Worn Cameras should produce a "civilizing effect" that enhances the police-community partnership with decreased citizen complaints on the police; decreased use-of-force complaints; and decreased assaults on police officers.
- Enhanced criminal and internal investigations

Cons:

- Ongoing City funding to sustain the Body-Worn Camera program for future police operations. This includes cost of the Law Enforcement Technology Specialist to manage the program and the cost of maintenance and replacement.
- Five-year service and purchase agreement must be renewed to enable continued use and data storage.
- Ongoing tasks and costs associated with managing devices and data, storing data, providing audio and video for court discovery, and following retention schedules.

The City will incur an expense based on the matching grant requirements ($1 state for every $2 local). As noted above, the City's match, which totals $199,563 will come from the existing FY 2016-17 Police Department General Fund budget. In total, the City is planning to purchase 180 camera systems in FY 2016-17 at a total cost of $323,255.36. Thus, the COA portion will be $223,474.20 with a grant award of $99,781.16. The five-year service and purchase agreement must be renewed to enable continued use and data storage. At the end of the grant, the general fund impact would be approximately $225,000.00 per year to cover additional accessories, safety plan and licenses for 4 additional years. The chart below outlines the general fund impact over the remainder of the proposed Body Worn Video Program implementation.

	Camera Systems, accessories and licenses		Grant	General Fund
Year #01 (FY 2017)	120	$ 223,474.20		$ 223,474.20
*Grant (FY 2017)	60		$ 99,781.16	$ 99,781.16
Year #02 (FY 2018)		$ 215,532.45		$ 215,532.45
Year # 03 (FY 2019)		$ 221,244.00		$ 221,244.00
Year # 04 (FY 2020)		$ 221,244.00		$ 221,244.00
Year # 05 (FY 2021)		$ 221,244.00		$ 221,244.00
Total	180	$ 1,102,738,.65	$ 99,781.16	$1,202,519.81

Staff recommends that City Council adopt a budget amendment in the Special Revenue Fund in the amount of $299,344.16, from the NC Governor's Crime Commission's State Appropriate Committee, to budget the grant funds and the City match for the 2016-17 Body Worn Camera Program.

ORDINANCE BOOK NO. 30 - PAGE 387

L. RESOLUTION NO. 16-212 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A TEMPORARY LABOR AGREEMENT WITH FIRST AT BLUE RIDGE, INC.

Summary: The consideration of a resolution to allow the City Manager to enter into a not to exceed contract for temporary labor services between the City of Asheville and FIRST at Blue Ridge, INC. (FIRST) for temporary laborers.

The City of Asheville is in need of temporary workers to perform a variety of tasks including work in litter collection, graffiti removal, drainage, traffic control, building maintenance, and other like work for the Public Works Department and the U.S. Cellular Center. These workers perform unskilled labor and are typically used in crews of four to five on an as-needed basis. In August 2013, City Council authorized the City Manager to enter into a temporary labor service agreement with FIRST at Blue Ridge, Inc. (FIRST) for these services. The term of that agreement ended on June 30, 2016.

FIRST is a local non-profit organization operating from 32 Knox Rd. in Ridgecrest, NC. FIRST offers a combination of therapeutic treatment, vocational training, and life skills development for people with chronic substance abuse addictions to assist them in becoming responsible members of society. Participants receive treatment, room and board, transportation and other benefits. The result is positive for the community for the reason that the participants learn to live a productive lifestyle as opposed to being a burden on society. The City of Asheville has utilized FIRST participants with excellent results for over the past ten years.

As of June 30, 2016, the City of Asheville has reached the end of a general services agreement with FIRST for temporary labor services. City staff along with FIRST, desire to enter into an agreement for temporary labor services for two additional years at the prior rate of $9.00/hour; not to exceed $330,000 per fiscal year. The contract amount has been allocated in the following way for fiscal year 2016/2017:

- U.S. Cellular Center $120,000
- Downtown Cleanliness (Streets Division) $107,000
- Sanitation Division $63,000
- Stormwater Division $40,000

Pros:

- Supports employment opportunities for at risk youth and adults.
- Reduced expense for recruiting, hiring and benefits for full-time workers.
- Reduced expense for temporary labor as opposed to traditional temporary labor agencies.
- Carpooling will reduce the negative impact to the environment.
- Supports diversified job growth and business development.
- Enhances diversity in the City as an organization so that the workforce more closely resembles the community.

Con:

- None identified.

The contract amount has been allocated in the adopted U.S. Cellular Center and Public Works operational budgets for Fiscal Year 2016/2017.

Staff recommends City Council adopt a resolution to allow the City Manager to enter into an agreement for temporary labor services between the City of Asheville and FIRST, Inc., not to exceed $330,000 per fiscal year; for an initial term of two (2) years, with the option of continuation for two (2) additional terms each equivalent to a single calendar year.

Councilman Bothwell questioned if the City was paying a living wage to temporary workers. Director of Public Works Greg Shuler responded that their rate is $9/hour, but what the FIRST workers receive in addition to their salary is housing, transportation, job training and life

skills training. He noted that several FIRST employees have applied for and been hired by the City after they completed their time with FIRST.

City Manager Jackson pointed out the effect of this agreement is very similar to day labor programs in other municipalities. In this instance, there is $300,000 worth of work that fills our needs and at the same time provides job training to help get people into permanent positions.

Councilman Haynes asked that future staff reports for service agreements include what the company is paying their employees. He will not support agreements to companies that do not pay a living wage. Mayor Manheimer noted that the City tried to require that all contractors pay a living wage to their employees; however, the state legislature passed legislation saying that we were not allowed to make that a requirement of our contractors. Yet, the City is still subject to the public bidding requirements.

Councilman Haynes felt that if our contractors are not paying a living wage to their employees, then perhaps the City should consider hiring more City employees to perform the work.

In response to Councilwoman Mayfield, City Manager Jackson said that he would investigate on whether the City can include a request for wage rates within our Request for Proposals. Councilwoman Mayfield said that if that is possible, and if they don't pay a living wage, then perhaps they can state what other benefits they are providing to their employees.

RESOLUTION BOOK NO. 38 - PAGE 181

M. RESOLUTION NO. 16-213 - RESOLUTION AUTHORIZING THE EXECUTION BY THE MAYOR OF A FEDERAL AVIATION ADMINISTRATION GRANT AGREEMENT

Summary: The consideration of a resolution authorizing the execution by the Mayor of a Federal Aviation Administration (FAA) Grant Agreement for Project No. 3-37-0005-047-2016 in the amount of $1,409,189.

The FAA has offered a grant agreement to the Asheville Regional Airport. This grant, in an amount of $1,409,189 is for the Airport Project to Rehabilitate Runway (Phase 5 Site Preparation and NAVAIDs Installation, Permanent Runway 17/25), Acquire Aircraft Rescue and Firefighting Vehicle (1,500 gallon).

Pro:

- Supports service enhancements at Airport

Con:

- None noted

Staff recommends adoption of the resolution authorizing the Mayor to execute the grant agreement for Project No. 3-37-0005-047-2016.

RESOLUTION BOOK NO. 38 - PAGE 182

Mayor Manheimer asked for public comments on any item on the Consent Agenda, but received none.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Councilman Bothwell moved for the adoption of the Consent Agenda, with the deletion of Consent Agenda Items "C" and "E". This motion was seconded by Councilwoman Field and carried unanimously.

ITEMS REMOVED FROM THE CONSENT AGENDA FOR INDIVIDUAL VOTES

C. RESOLUTION NO. 16-203 - RESOLUTION AUTHORIZING THE CITY MANAGER TO RENEW AN AGREEMENT WITH THE U.S. DEPT. OF JUSTICE TO STAFF AND CONTINUE THE DRUG ENFORCEMENT AGENCY ASHEVILLE DUTY POST TASK FORCE

Summary: The consideration of a resolution to authorize the City Manager to enter into a renewed agreement between the United States Department of Justice, Drug Enforcement Administration (DEA) and the City of Asheville Police Department (APD) which is set to expire September 31, 2016.

The APD has been an active member of the DEA Task Force at the Asheville Duty Post for a several years. The DEA Task Force is a multi-jurisdictional unit that partners to address the illegal trafficking, sale and distribution of narcotics and dangerous drugs in Western North Carolina. The goal of the targeted reduction of such activities is to have a positive impact on the health and general welfare of our communities. As a member of the DEA Task Force the APD agrees to the following:

- APD will assign one experienced officer for at least 2 years, to work under the direct supervision and control of the DEA supervisory staff.
- APD staff will be required to adhere to the Policy and Procedures of the DEA as well of those of the City of Asheville, and the APD,
- Assigned APD Staff will be deputized as a Task Force Officer of DEA pursuant to 21 U.S.C 878

To accomplish the objectives of the Asheville Duty Post (Task Force) the DEA will assign 3 Agents to the Task Force. Additional DEA support, based on availability of annually appropriated funds, will provide funds and necessary equipment to support the Task Force Members activities. Such support will include: office space, office supplies, travel funds, funds for confidential informants and evidence procurement, training expenses, investigatory equipment, and other support items as needed.

On Monday, August 22, 2016, the Public Safety Committee was received this request and recommended that it be forwarded to City Council for review and approval.

Pros:

- Establish a dedicated Task Force to address the illegal trafficking, sale and distribution of narcotics and dangerous drugs in Western North Carolina.
- Foster an atmosphere focusing on reduction of such activities and to have a positive impact on the health and general welfare of our communities by reducing or eliminating illegal drugs and related crimes.

Con:

- None.

Salary and benefits for a Senior Police Officer position assigned to the DEA Task Force Asheville Duty Post, which are already included in the Adopted FY 2016-17 Police Department Budget.

Staff recommends that City Council approve the resolution authorizing the City Manager

to renew an agreement United States Department of Justice, Drug Enforcement Administration and the City of Asheville Police Department which is set to valid through September 30, 2017.

Police Chief Tammy Hooper briefly explained that this agreement enables the City to assign one detective to the Drug Enforcement Agency Task Force for WNC which enables us to investigate cases outside of Asheville. If we do not review this agreement, we would not be able to investigate cases of drug supplies outside of Asheville and Buncombe County.

Councilman Haynes read the following statement "Let me start by saying that my comments here today are not directed at Chief Hooper or any officers involved locally in the enforcement of drug laws. My issues are with the policy makers who blindly continue down a failed path. When President Nixon declared a War On Drugs in 1971, he made illegal drug use policy enemy number one. He temporarily put marijuana on the list of schedule one drugs pending a commission review. In 1972 that commission unanimously recommended decriminalizing the possession and distribution of marijuana for personal use. Nixon rejected their findings and marijuana remains a schedule one drug. In 1973 he created the DEA or Drug Enforcement Agency to fight his war on drugs. Nixon's Aid John Erlichman stated in 1994 that the war on drugs was started to combat the enemies of the Nixon Administration - the Anti-War Left and the Civil Rights Movement. That by associating Hippies and Blacks with drugs, the administration could disrupt these communities by arresting their leaders, raiding their homes, breaking up meetings, and vilify them night after night on the evening news. According to census data the prison population in 1970 was a little over 198,000. In 1981 when Reagan took office it was 302,000. Fueled by the Reagan Administration's escalation of the war on drugs, that number would rise 134% over the next decade. In 2013 there were 2,220,300 people incarcerated with another 4,700,000 on probation or parole. As with any war, there are causalities. The causalities of the War on Drugs are people of color. Though Blacks and Latinos make up one quarter of the population, they make up 57% of incarcerations. These figures are both staggering and unacceptable. The mass incarcerations along with the existing culture between law enforcement and the black community are both direct results of an ill-conceived and failed war on drugs. It is time to end the ware on drugs. We need to restructure our Criminal Justice System and begin a time of healing for our society. Therefore, I cannot in good conscience vote to re-enter into this agreement."

Councilman Bothwell said that the only way he can make a stand on the war on drugs is to vote against this agreement, even though he does support our police force.

Mr. Timothy Sadler encouraged Council to reach out to President Obama and encourage him to keep his promise to take marijuana off the schedule one drugs.

Ms. Jan Kubiniec noted that a lot of crimes are not from people smoking marijuana.

Mayor Manheimer noted that a recent citizens' survey showed that drugs are the number one problem in our community. The Council has the duty to help our police maintain safety in our community and we must support our officers to handle drug enforcement within Asheville.

Councilman Smith urged Council members, who review items in committee, request that the item be removed from the Consent Agenda for discussion and/or individual vote if they do not receive unanimous support. In this instance, at the Public Safety Committee the only unanimous support was to only forward the action to City Council for their review.

Councilwoman Mayfield moved for the adoption of Resolution No. 16-203. This motion was seconded by Vice-Mayor Wisler and carried on a 4-3 vote, with Councilman Bothwell, Councilman Haynes and Councilman Young voting "no."

RESOLUTION BOOK NO. 38 - PAGE 166

E. RESOLUTION NO. 16-207 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CONTRACT WITH PINNACLE LANDSCAPES LLC FOR THE 2016 MEDIAN MAINTENANCE PROJECT

Summary: The consideration of a resolution authorizing the City Manager to execute a contract with Pinnacle Landscapes, LLC (Pinnacle), for the amount of $110,849.00 plus 20% contingency and any change orders within the project budget for the project known as 2016 Median Maintenance Project, City of Asheville Project #CPM-15-16-003.

The City of Asheville has many median and bulb-out locations in City of Asheville rights-of-way that need landscape improvement and maintenance. The initial phase of this project included obtaining design services for the various locations, including a basic schematic of each site, an assessment of each site's existing vegetation, and development of a maintenance plan for each site. Design services were obtained through an RFQ process, with McGill Associates of Asheville, N.C. chosen for the design portion of the project.

An advertisement for bids was issued for the 2016 Median Maintenance Project on June 13, 2016, and the following firms submitted bids for the project:

Pinnacle Landscapes, LLC	Asheville, NC	$110,849.00
Rivertop Contracting, Inc.	Asheville, NC	$155,267.18
Landmark Landscapes, Inc.	Asheville, NC	$129,922.35
Locust Property Management, LLC	Asheville, NC	$619,000.00

Pinnacle Landscapes, LLC was the lowest responsible bidder with a bid of $110,849.00. Adding in a 20% contingency, the total required budget for construction is $133,018.80. The work produced from this contract would improve the City of Asheville's roadway landscaping and provide a more uniform landscape scheme.

Pros:

- Improves the City's appearance by replacing overgrown vegetation.
- In some cases pedestrian safety is improved by adjusting sight lines at pedestrian crossings.

Con:

- Project management and contract administration will consume staff time and resources.

Funding for this contract is already included in the FY 2016-17 Public Works Department budget.

City staff recommends City Council adopt the resolution awarding the contract to Pinnacle Landscapes, LLC, and authorizing the City Manager to execute on behalf of the City of Asheville a contract in the amount of $110,849.00 plus a contingency of 20% ($22,169.80), for a total of $133,018.80 with Pinnacle Landscapes, LLC for the project known as 2016 Median Maintenance Project.

When Councilman Haynes asked what the employees were paid for this contract, Director of Public Works Greg Shuler said that they know the unit prices; however, he did not know the employee wages. Councilman Haynes stated that he would not support service agreements with companies that do not pay a living wage.

After a brief discussion, initiated by Councilman Bothwell, it was the consensus of Council to ask City Manager Jackson to develop budget options for bringing contract services in-house, beginning with the Finance Committee review this fall.

Councilman Young moved to adopt Resolution No. 16-207. This motion was seconded by Councilman Haynes and carried on a 5-2 vote, with Councilman Bothwell and Councilman Haynes voting "no."

RESOLUTION BOOK NO. 38 - PAGE 176

III. PRESENTATIONS & REPORTS:

A. LEE WALKER HEIGHTS UPDATE

CEO of the Housing Authority David Nash updated City Council on the Lee Walker Heights Project. Unfortunately the Housing Authority was not successful in their application to the N.C. Housing Finance Agency for low income housing tax credits. It is their intention to listen to the feedback and submit another 9% application in January of 2017, or look at the 4% tax credit program which requires more local subsidy, and also which would require them to reach out to the County. A formal request to the County has not been made yet. He hoped that the City will continue to support their commitment.

Mayor Manheimer thanked Mr. Nash for his hard work on this project and hoped that he will continue to keep the City updated on the progress.

B. QUARTERLY I-26 CONNECTOR UPDATE

Transportation Director Ken Putnam said that City staff continues to meet with the N.C. Dept. of Transportation on a regular basis. They have held three meetings and have learned about traffic forecasting, level of service and capacity. They have discussed noise walks, bridges and aesthetics. He was pleased that people in charge of these items are coming to the meetings. He said that City Council will see a menu of the different options you'd like to see on I-26 in the future. Their next meeting is September 20, 2016, and their task will be to bring a betterments list. Future tasks will be the the aesthetics committee.

At the suggestion of Councilman Smith, Mr. Putnam said that at his next update he would provide Council with some visual representations.

At the request of Vice-Mayor Wisler, Mr. Putnam said that he would be happy to add the minutes of these meetings with the N.C. Dept. of Transportation on the City's website.

IV. PUBLIC HEARINGS:

A. PUBLIC HEARING TO CONSIDER AN AMENDMENT TO THE UNIFIED DEVELOPMENT ORDINANCE ESTABLISHING REQUIREMENTS FOR UTILITY SUBSTATIONS

Mayor Manheimer received a letter from Mr. Jason Walls, Duke Energy District Manager for the Asheville Area, on August 9, 2016, which agreed that a delay would provide for the time needed for conversation and collaboration around electrical infrastructure construction in downtown Asheville. Mr. Walls also noted that they will not submit any permits for its three downtown substations until February 1, 2017, at the earliest. Therefore, Councilman Bothwell moved to continue this public hearing until the January 10, 2017, meeting. This motion was seconded by Councilman Young and carried unanimously.

B. CONTINUATION OF PUBLIC HEARING TO CONSIDER APPROVING A SIGN PACKAGE FOR INGLE'S MARKETS INC. FOR THE PROPERTY LOCATED AT 863 BREVARD ROAD

Principal Planner Shannon Tuch said that on July 26, 2016, the Asheville City Council reviewed a request from Ingle's Inc. for a signage plan that exceeds the City's maximum sign allowances. This public hearing was opened and closed on July 26. Council asked Ingle's representatives to improve upon the request in a manner that more closely aligns with city goals and return for reconsideration. The hearing was continued to September 6, 2016.

Ingle's representatives have revised their request to consolidate the two free-standing signs into a single 200 square feet, 25-foot tall monument sign in order to help reduce the sign clutter that comes from competing streetside signs. They have also supplied more information and detail regarding the building façade for the grocery store that breaks the façade into discreet sections where changes in architectural details, window and door fenestration, façade articulation, and materials creates natural breaks in the façade – much like a traditional multi-tenant building may do. In this regard, the newer Ingle's stores distinguish themselves from other large grocery retailers where a uniform façade is more commonplace. Other store examples may include some of the same features but often not as many, or to the same extent, as the Ingle's prototype.

With these details further clarified, Ingle's representatives are respectfully requesting reconsideration of their attached signage on the grocery store building based on the following:

Creativity - the building façade is creatively designed to resemble a multi-tenant building with different occupiable spaces. The architectural detailing, building articulation, varying roof lines, extensive window & door fenestration, and change in materials helps to communicate a building pattern that would normally include tenant signage.

Wayfinding – the overall façade is 324 linear feet and the site is a little over eight acres. Some of the attached signage (café, vineyard, Fresh Foods) helps communicate to the visitor which side of the store certain products or features are located so that they may park close to the most convenient entrance. The "Rx DRIVE-THRU" sign also identifies the location of the drive-through window.

No changes to the gas station signage are proposed as these signs already largely comply.

The "vineyard" sign has been substituted for the previously proposed "beer & wine" sign.

An update to the city's sign code will be required to comply with last summer's federal Supreme Court decision and is currently included in the Planning & Urban Design department's two-year workplan. Staff has been collecting preliminary information on other strategies for sign regulation including a more form based approach. The most common application of this method is to allow a percentage of the total building face (i.e. 3-5%) to be dedicated to signage. In some instances, bonus square footage may be considered when various design features are included, or in lieu of other free-standing signage. If this approach were to be applied, the proposed signage for Ingle's could potentially comply in the future, especially in light of the willingness to eliminate the second free-standing sign.

While an update to the sign code may provide Ingle's with greater opportunity in the future, the preferred strategy and final standards have not been identified or adopted. Any new standards will require review and input from other stakeholders and be balanced against competing goals.

Ms. Tuch said that in the earlier staff report, she found an error. She identified that there was a past application for an additional Starbucks sign at the Oteen store that was not approved. That was actually approved. What was denied was a more recent application in 2012 for a complete sign package for that same Oteen store. 2012 was the last Ingle's sign package that came before City Council and it was denied on a 3-3 vote.

In response to Councilwoman Mayfield, Ms. Tuch said that Ingles has more gas signs that what would normally be allowed. What didn't comply was the second sign on the canopy itself.

In response to Councilman Young, Ms. Tuch said that their sign package still does not comply with the sign ordinance. The sign ordinance does include an option for a site specific - project specific review for a comprehensive signage plan. Ingles is exercising that option. That is a legislative review. Council can use compliance with the ordinance as one means of evaluation, but Council is also open to using other things that may be relevant to this request.

When Councilman Young asked if the pictures shown of other grocery storefronts around Asheville were compliant, Ms. Tuch said that to her knowledge they were.

Mr. Wyatt Stevens, attorney representing Ingles Markets, explained that the 2012 denial related to the addition of a gas station. They wanted to add it to an existing store and that was denied. What they did was created a separate parcel for that tract and submitted it as a new application. He explained that this sign package is identical to what Council approved in 2007 for the Skyland store. Ingles is not asking for anything than what was approved before. Listening to Council's concerns, Ingles revised their sign package to delete one of their monument signs and combine it into one monument sign. That new one monument sign is in compliance with the ordinance. Regarding the front of the store, the sign ordinance only allows 200 sq. feet and Ingles was originally asking for 400 sq. feet. Ingles then reduced their front of the store signage from 403 sq. feet to 246 sq. feet. But they also have an alternate plan they would like Council to consider - a reduction to 320 sq. feet because it looks better. The 246 sq. feet signage looks too small. He then reviewed the site as a whole, e.g., 925 new trees and plants; moved the store from the back of the lot to the front of the lot which reduces the amount of parking in the front of the building which will reduce the amount of black asphalt; use of concrete for employees parking in the back of the building; black roof is now white; added 73 skylights; and further explained how they have reduced the energy usage of this building by 30%. When he showed a picture of an Ingles store in the County, approximately the same 72,000 sq. foot size, he explained the articulation between the elements, which creates a nice pleasing front view of the store. He felt that if they were restricted to 200 sq. ft. most of it would be for the Ingles sign and the other signs would be very small. Regarding the gas station signage, they are requesting two on the front (one is allowed); however, the total square footage is in compliance. On the side they are asking for two signs (one is allowed) and the total square footage exceeds 13.5 square feet. He did not think that was a garish way to sign a building. Ingles can come into compliance; however, they also can do what they did in 2012, which was to create a separate parcel and City Council would not have any input into their sign package for the gas station. He noted that Ingles is a Buncombe County based business and employs 4500 employees in the County, 1500 of who work in the City. The store, which employed 75-80 employees, will now employ approximately 150-160 employees. There is a $15 Million investment in this store alone, and all subcontractors are local, along with the materials for the site. He asked for Council to approve the entire sign package (with the reduction of 403 sq. feet to 320 sq. feet).

When Mayor Manheimer asked what would be the challenge in bringing the gas station signs into compliance with the ordinance, Mr. Stevens said they may be able to take the Ingles sign off on the side elevation. The size of those specific signs might be modified to fit the ordinance. He said they could bring the gas station into compliance if they had to, but prefer for Council to approve what they are proposing.

Vice-Mayor Wisler moved to approve the Ingles sign package with the front of the store signage being no larger than 246 sq. feet, and the gas station signage being brought into compliance with the sign ordinance.

Mr. Preston Kendall, representing the contractor, said that by law they have to be able to post the gas price. He said the combined monument sign was more showing what they could do, not exactly what they were going to put on it. Some of the franchises that they buy say that they have to promote outside. So if we show them what they have, they may have to put some of their signage where the gas price is shown on the monument sign. They would like to keep the gas price on the gas station canopy just in case they don't have room on the monument sign.

When Councilman Young asked how many grocery stores have asked for exceptions to our sign ordinance, Ms. Tuch was not aware of any, although one of the stores she believed there was a pharmacy sign. She was not sure how that got permitted but it was not on a Council level. Mayor Manheimer recalled that Council has approved campus signage packages for Mission Hospital, Airport, Asheville Outlets, and UNC-Asheville.

Mayor Manheimer then opened the public hearing at 6:47 p.m.

Mr. Jonathan Wainscott supported the the proposed sign package and also asked Council to require 8-10 inch address numbers and letters for visibility on the street.

Mayor Manheimer closed the public hearing at 6:49 p.m.

Councilman Bothwell applauded Ingles for saving 30% energy and hoped they put that extra savings into paying their employees a living wage. He could not see the justification for violation of the sign ordinance, especially since other grocery stores have had to comply with the ordinance.

Councilman Bothwell moved to reject the sign plan for Ingles Markets on Brevard Road. This motion was seconded by Councilman Young.

Councilwoman Mayfield said that she might be willing to support the 246 sq. feet front of store signage, but did not support the signs requested for the gas station. She wanted Council to be aware if this passed, that they need to be prepared to approve other sign ordinance out of compliance requests.

When Mayor Manheimer asked what would happen if the motion to deny passes, City Attorney Currin said that (1) if the applicant withdraws prior to a motion being voted upon, they could make a new application and come back through the process again; or (2) if the application is denied, there would be a 365 day waiting period before the applicant could begin the process again.

Councilman Bothwell said that he could support the applicant withdrawing their application.

Mr. Stevens said that the applicant would be willing to withdraw the application for the revised sign package, which includes the front single monument sign (which is compliant), the gas station sign package as originally presented, and the store frontage total square footage of 320. However, he asked Council to consider instead (1) the front single monument sign (which is compliant), (2) a compliant gas station sign package; and (3) 246 square feet with the front signage (ordinance only allows 200 sq. ft.).

Councilman Bothwell would not amend his motion as there would still be a violation of the sign ordinance (front square footage).

Mr. Stevens said that the store is almost finished; and if the applicant has to wait until the next available City Council meeting, it could potentially delay real jobs in this County by 4-8 weeks. Putting the applicant into a position to have to reapply for 246 sq. feet on the front on the store is not reasonable.

Councilman Young reminded the applicant that if he brings the sign package into total compliance with the sign ordinance, he would not have to come back to Council.

Councilman Smith said that Ingles has done so much, and continues to do so much, for the community, however, carving out an exemption for one company strikes him as being unfair.

Mr. Stevens said that Ingles will withdraw their application.

C. PUBLIC HEARING TO CONSIDER THE ISSUANCE OF A CONDITIONAL USE PERMIT FOR THREE PARCELS KNOWN AS 99999, 99999 AND 42 SIMPSON STREET TO ALLOW FOR THE CONSTRUCTION OF SEVEN 10-UNIT MULTI-FAMILY BUILDINGS WITH PARKING BELOW

City Clerk Burleson administered the oath to anyone who anticipated speaking on this matter.

City Attorney Currin reviewed with Council the conditional use process which is a quasi-judicial permit hearing. At this public hearing, all the testimony needs to be sworn and due process protections afforded to the applicant.

After hearing no questions about the procedure, Mayor Manheimer opened the public hearing at 7:04 p.m.

Urban Planner Vaidila Satvika submitted into the record City Exhibit 1 (Affidavit of Publication), City Exhibit 2 (Certification of Mailing of Notice to Property Owners); and City Exhibit 3 (Staff Report).

Mr. Satvika said that this is the consideration of the issuance of a conditional use permit for three parcels known as 99999, 99999 and 42 Simpson Street to allow for the construction of seven 10-unit multifamily buildings with parking below. This project is considered a Level III review pursuant to Section 7-5-9(a) of the city's Unified Development Ordinance (UDO), which designates review for residential projects with more than 50 units. Level III projects are reviewed as Conditional Use Permits.

The site consists of three parcels with a combined area of 1.62 acres located immediately south of Swannanoa River and along the proposed corridor of the Swannanoa River Greenway (Attachment to City Exhibit 3 - Aerial Map). The property is addressed as 42 and 99999 Simpson Street and was formerly an industrial use that is now vacant. Adjacent zoning is River District and in the area uses are primarily industrial.

The developer, Beaucatcher Commons, LLC., is proposing a 70-unit multi-family apartment development on the site with associated parking and improvements related to residential amenities. The development is composed of seven, two-story buildings containing 10 units each (Attachments to City Exhibit 3 - Site Plan, Elevation Drawings). The structures will be constructed on stilts because the site is within a flood area. Parking will be located below each building. All of the apartments will be one-bedroom units.

The project will provide housing units that are 100% affordable at or below 60% of area median income (AMI).

Access to the site will be provided by two driveways, one that will allow both ingress and egress while the other will be egress only. The area will not be paved; the parking and vehicular area will be gravel. A six foot concrete sidewalk will be included along the street.

Parking is provided below each building (56 spaces) and along the sidewalk (17 spaces),

resulting in a total of 73 parking spaces. Pedestrian pathways will provide paved access between buildings and the sidewalk.

The nearest bus stop is located approximately one mile away at the intersection of Wood Avenue and River Hills Road, which requires walking through Target's parking lot to River Hills Road.

The project is required to comply with Section 7-11 of the UDO that includes street trees, parking lot buffer, street buffer, building impact, open space, and tree save standards. The applicant was approved for a reduction in some of the landscape requirements to support the provision of 100% affordable housing. The Tree Commission reviewed and approved the request, as outlined below:

- Street Trees, Street Yard Buffer, Open Space: 100% provided
- Parking Lot Landscaping:
  - Trees required: 17; Trees proposed: 9 (53% proposed)
  - Shrubs required: 67; Shrubs proposed: 34 (51% proposed)
- Building Impact:
  - Trees required: 21; Trees proposed: 11 (52% proposed)
  - Shrubs required: 42; Shrubs proposed: 21 (50% proposed)
- Tree Save:
  - Tree Save required: 0.49 Acres; Tree Save proposed: 0.39 Acres (80% proposed)

The applicant has agreed to provide a permanent easement along the property's riverfront for the future proposed Wilma Dykeman Greenway, a plan adopted by City Council in 2013.

The site is currently zoned River (RIV); the use proposed is permitted by-right and the applicant is proposing to meet the standards of the district with this development proposal.

This proposal was approved with conditions by the Technical Review Committee (TRC) on June 20, 2016, and requires quasi-judicial review by City Council and Final TRC review prior to zoning approval. The Planning & Zoning Commission voted unanimously to support the project.

The Asheville Area Riverfront Redevelopment Commission (AARRC) review is a mandatory review, voluntary compliance process for this application. The AARRC Planning and Design Review subcommittee reviewed and approved the proposal on June 23, 2016. Although the full Commission was not able to meet in August, the design committee confirmed approval to maintain the reasonable process and review timeframe set up by the ordinance.

The Tree Commission reviewed and approved the proposal for Alternative Compliance at their August 15, 2016, meeting.

Section 7-16-2(c) of the Unified Development Ordinance (UDO) states that Asheville City Council shall not approve the conditional use application and site plan unless and until it makes certain findings based on the evidence and the testimony received at the public hearing or otherwise appearing in the record of the case. The applicant has provided a statement on these findings.

Staff finds that the relevant standards of the City have been met or can be met with this application.

In response to Councilman Bothwell, Mr. Satvika said that one building has the Americans with Disabilities Act (ADA) accessible units.

In response to Councilwoman Mayfield, Mr. Satvika said that staff and the applicant are still working on connectivity issues for pedestrians to get to the bus stop.

Mr. Chris Day, representing Civil Design Concepts, reviewed with Council the site plan (Applicant Exhibit 1), along with the design sketch of the unit with the ADA ramp (Applicant Exhibit 2). The applicant is providing over 100 feet of open space between the project and the Swannanoa River, along with dedicated space for the future greenway. The applicant is willing to work with staff and the community on future connections to transit. He said this is a low impact development and briefly reviewed the conditional use findings (Attachment to City Exhibit C).

In response to Councilman Bothwell, Mr. Kirk Booth, applicant, said that the 100% affordable housing will be for 30 years.

When Councilwoman Mayfield asked if the applicant has approached the other property owners regarding the sewer line easement, Mr. Booth said that it is still on his list of things to do.

In response to Councilman Smith, Mr. Booth said that all 70 rental units will be $544/month and they will accept HUD vouchers.

Mr. Timothy Sadler suggested adding the cost of monthly bus passes into the cost of the rents and that will potentially bring enough revenue to the transit budget to extend the transit line to the complex.

Mr. Don Hunley, with McGill Associates, spoke in support of the project.

After rebuttal, Mayor Manheimer closed the public hearing at 7:22 p.m.

Vice-Mayor Wisler moved to recommend approval of the conditional use permit for the Simpson Street Development located at 42 and 99999 Simpson Street with the proposed reductions to landscape requirements as defined by Section 7-11-3 (3) Alternative Compliance because it meets the seven conditional use standards as demonstrated by the applicant. This motion was seconded by Councilman Smith and carried unanimously.

Councilman Smith said this is a leadership project and was grateful for the developer to step up to show how the City and developers can work together to bring more projects like this to the City.

City Attorney Currin said that the Findings of Fact and Conclusions of Law will be presented at the next formal Council meeting on September 27, 2016.

Closed Session

At 7:25 p.m., Councilman Young moved to go into closed session for the following reasons: (1) To prevent disclosure of information that is privileged and confidential, pursuant to the laws of North Carolina, or not considered a public record within the meaning of Chapter 132 of the General Statutes. The law that makes the information privileged and confidential is N.C.G.S. 143-318.10 (a) (3). The statutory authorization is contained in N.C.G.S. 143-318.11(a)(1); and (2) To consult with an attorney employed by the City about matters with respect to which the attorney-client privilege between the City and its attorney must be preserved, including, but not limited to, a potential lawsuit. The statutory authorization is N.C. Gen. Stat. sec. 143-318.11(a)(3). This motion was seconded by Councilman Bothwell and carried unanimously.

At 8:25 p.m., Vice-Mayor Wisler moved to come out of closed session. This motion was seconded by Councilman Young and carried unanimously.

D. PUBLIC HEARING TO CONSIDER CONDITIONAL ZONING OF PROPERTY LOCATED ON 184 NEW HAW CREEK ROAD FROM RM-6 RESIDENTIAL MULTI-FAMILY LOW DENSITY DISTRICT TO COMMUNITY BUSINESS I DISTRICT/CONDITIONAL ZONING TO INCLUDE A NEW TWO-STORY ADDITION BEHIND THE MAIN BUILDING

ORDINANCE NO. 4520 - ORDINANCE TO CONDITIONALLY ZONE PROPERTY LOCATED ON 184 NEW HAW CREEK ROAD FROM RM-6 RESIDENTIAL MULTI-FAMILY LOW DENSITY DISTRICT TO COMMUNITY BUSINESS I DISTRICT/CONDITIONAL ZONING TO INCLUDE A NEW TWO-STORY ADDITION BEHIND THE MAIN BUILDING

Urban Planner Jessica Bernstein said that the applicant is requesting review of a conditional zoning request from Residential Multi-Family Low Density District (RM-6) to Community Business I Conditional Zone (CB1-CZ), in accordance with Section 7-7-8 of the Unified Development Ordinance (UDO), for the adaptive reuse of a former church building to an eating and drinking establishment. The project will include a new two-story building addition behind the main building. The parcel is owned by John Christoph, LLC (applicant) and is PIN 9658.47-7249. This public hearing was advertised on August 26 and September 2, 2016.

The project site, located at 184 New Haw Creek Road, consists of a single parcel of approximately 1.53 acres in East Asheville at the edge of the Haw Creek neighborhood. The site is currently zoned RM-6 and contains a formerly used church building with associated parking. There is a creek running along the western boundary of the project site.

Nearby zoning includes RM-6 on adjacent parcels to the north side of New Haw Creek Road and Highway Business (HB) for the parcels across the street to the south. The area is developed with primarily residential uses, including single-family homes and vacant parcels as well as a multi-family apartment development to the north and a small retail/office use to the south (zoned HB).

The applicant is proposing to adaptively reuse the existing building for a restaurant use. The change of use necessitates a change to zoning and upgrades to the site for compliance with the UDO. There is an expansion proposed for the rear of the existing structure, outdoor dining areas and petanque courts/outdoor seating. The two-story addition will total nearly 2,300 square feet. The second level will provide office space that will be used by the owner in the management of the restaurant. The proposed building and addition will total about 5,280 square feet which is within the allowance for the proposed zoning.

The proposal utilizes the two existing driveways into the site. The westernmost driveway provides two-way access into the parking area and the easternmost driveway is a deeded right-of-way for the apartment use to the north (30 foot right-of-way with 21 feet of pavement). This driveway will service the compost/recycling and delivery area for the restaurant but would not be used by patrons to the site.

A new sidewalk is proposed along the project frontage, meeting the City's standard configuration of five feet of sidewalk with a five foot grass strip.

Due to the number of seats (110) and employees (14), a range between 44 and 62 parking spaces is required; 47 are proposed (six are shown as gravel parking). Parking will be accommodated in the existing parking area location. Since the office space (950 s.f.) will be used to support the restaurant operation, it does not have a separate additional parking requirement. A minimum of two accessible parking spaces are required and four bike parking spots are provided. The placement of the parking requires a condition (see below).

The project is required to comply with landscaping standards, including a type A (20 foot)

property line buffer along three sides, a street buffer at the frontage, street trees, parking lot landscaping and building impact landscaping. There are existing trees on site that will remain and be used towards planting credits. The location of the existing driveway within the eastern property line buffer is an allowable encroachment per Section 7-11-3 of the UDO.

Open space is required for this project with a minimum of 15% of the lot area to be provided. More than this amount is shown on plans. There will be a 30 foot stream buffer preserved along the western side of the property.

Due to the adaptive reuse of the existing site features, the following condition will accompany this request and is included in the B1 conditions list:

1. Parking will be located in the front of the building rather than to the side or rear as typically required in the CBI zoning district.

This proposal was approved with conditions by the Technical Review Committee (TRC) on June 20, 2016, and requires review by the City Council and Final TRC prior to zoning approval. The applicant has participated in two neighborhood meetings.

At the Planning & Zoning Commission meeting on August 3rd, the Commission voted to support the request (6-0) and no public comment was heard. Subsequent to the meeting, staff has spoken with a neighboring property owner who objects to the rezoning and proposed restaurant use and has concerns related to increased traffic, site visibility issues, negative impacts of a food and alcohol-centered business on the streets and as an attractive nuisance for wildlife.

The change in zoning is required because under the current residential zoning, an eating and drinking establishment would not be allowed. The Community Business One zoning district is intended to provide for medium density business and service uses in locations that service multiple neighborhoods and are sensitive to pedestrian populations. The site is close to Tunnel Road, provides a sidewalk along the frontage and is within approximately a tenth of a mile to a transit stop on the E2 route.

Other recent projects in the general vicinity include Haw Creek Commons (CZ approved by City Council on June 28, 2016) and a Best Western Plus on Tunnel Road (Level II project, 2015, under construction).

While typically the City seeks to preserve residential neighborhoods for residential uses, this site has been the location of a non-residential use since 1965 when the current structure was built for a church use. Additionally, the location proximate to Tunnel Road and Highway Business zoning makes this a suitable setting for a transitional business between the higher-intensity uses that are permitted in HB and the residential uses to the north. The applicant will be reusing the existing site layout but will incorporate additional landscaping along the boundaries adjacent to residential zoning to provide additional buffering and screening as well as stream preservation. A condition has also been added to the B1 conditions and agreed to by the applicant that outdoor seating will cease by no later than 10 o'clock pm to lessen night time impacts on residential neighbors. Staff anticipates that this along with the other site improvements will result in a compatible use for this location.

This proposal aligns with several aspects of the *City Development Plan 2025* with respect to incorporating a sidewalk, encouraging bicycling and walking and adaptive reuse of existing structures. Further, the land use section of the *Plan* states that "The City can no longer afford to have land uses fully segregated by type, resulting in people driving long distances to their jobs or to access everyday services". Toward this end, the proposed use can be viewed as a "neighborhood restaurant".

The proposal aligns with the 2036 Council vision in the following areas: (1) *A Well-Planned and Livable Community* – The project reuses an existing structure, incorporates sidewalks, preserves a sensitive environmental area and is suitably situated along the edge of the neighborhood proximate to transit; and (2) *Thriving Local Economy* – The applicant is a local business-owner, proposing to create a neighborhood restaurant and gathering place.

Considerations:

- Adaptive reuse of existing building and site layout preserves a stream buffer
- Additional landscaping provides buffering from adjacent residential uses
- Site has historically been a non-residential use

Based on policies stated in the Comprehensive Plan and other plans, such as the 2036 Council Vision, staff finds this request to be reasonable and within the best public interest and recommends support of the proposed conditional zoning as proposed.

Mayor Manheimer opened the public hearing at 8:28 p.m. and when no one spoke, she closed the public hearing at 8:28 p.m.

When Vice-Mayor Wisler was concerned that people would remain in the outdoor seating area after 10 p.m., the applicant explained that he has a restaurant on Lexington Avenue for the past 11 years and would like to open a second location of that restaurant. They are not a late night operation, but a food service restaurant. They understand how the neighborhood should be respected and noted that they had two neighborhood meetings at which time all questions were addressed. They normally close at 9:30 p.m. The outdoor seating area is a very small part of the restaurant and is on the parking lot side of the lot. They will also have a 3,000 sq. ft. garden to the right of the patio that will also work as a buffer, and there is a huge amount of landscaping (and they will add more) between the apartment complex and their restaurant.

Mayor Manheimer said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Smith moved to approve the conditional zoning request from Residential Multi-Family Low Density District (RM-6) to Community Business I Conditional Zone (CB1-CZ) with the requested condition for the adaptive reuse of the site for an eating and drinking establishment and find that the request is reasonable, is in the public interest, and is consistent with the Comprehensive Plan and other adopted plans in that: (1) the site has historically been a non-residential use, (2) additional landscaping provides buffering from adjacent residential uses; and, (3) reuse of the building and site proposes minimal disturbance and preserves a stream buffer. This motion was seconded by Councilman Bothwell and carried unanimously.

ORDINANCE BOOK NO. 30 - PAGE 389

E. PUBLIC HEARING TO CONSIDER AN AMENDMENT TO THE CONDITIONAL ZONING OF PROPERTY LOCATED AT 7 AND 11 PATTON AVENUE (FORMERLY KNOWN AS ONE WEST TOWER AT PACK SQUARE) TO CONSIDER CHANGES TO THE B1 CONDITIONS CONCERNING THE MIX OF ALLOWED USES AND PARKING ON THE SITE

ORDINANCE NO. 4521 - ORDINANCE TO AMEND THE CONDITIONAL ZONING OF PROPERTY LOCATED AT 7 AND 11 PATTON AVENUE (FORMERLY KNOWN AS ONE WEST TOWER AT PACK SQUARE) TO CONSIDER CHANGES TO THE B1 CONDITIONS CONCERNING THE MIX OF ALLOWED USES AND PARKING ON THE SITE

Director of Planning & Urban Design Todd Okolichany said that this is the consideration of an ordinance to amend the conditional zoning of property located at 7 and 11 Patton Avenue

(formerly One West tower at Pack Square) to consider the mix of allowed uses and parking on the site. This public hearing was advertised on August 26 and September 2, 2016.

Mr. Okolichany said that this conditional zoning proposal was originally approved by City Council on January 12, 2016. The project site consists of the existing 201,000 square foot BB&T building, which will be renovated to become a hotel with condominium units, restaurant spaces, retail and other office and hotel function area. A 35,000 square foot parking structure will be constructed on the west side of the parcel with access from surrounding streets. The project will also make substantial improvements to surrounding sidewalk areas as described in Ordinance No. 4476 and as shown on the approved site plan.

The owner is seeking to amend the number of hotel rooms and condominium units within the project and provide some flexibility with the number of parking spaces provided on-site. Both requests will change the B1 conditions for the project.

Hotel Rooms and Residential Units: The original proposal included 39 residential units intended for sale, and 140 hotel rooms. Additional flexibility was provided in the B1 list that allowed a single floor of the building to convert from hotel rooms (to reduce by 20 hotel rooms) and increase the residential count by seven units. The current proposal is requesting a wider range of hotel rooms and residential units with the following revised condition:

4. The permitted uses on the site are as follows:
   a. 39 to 54 residential units and a hotel with 114 to 140 rooms.

   b. Commercial uses including but not limited to restaurants and retail.

   c. Offices, meeting spaces and other similar uses.

The developer is requesting that the range of hotel rooms and residential units remain flexible within the parameters provided.

A three-level parking structure will be constructed on the west side of the development. The original approval specified 60 spaces be provided. The current request is for the parking to be reduced to provide no less than 55 spaces with the following revised condition:

3. The existing building, which has a total square footage of 200,900 square feet, will be renovated with a new façade finish for the exterior of the building. On the west side of the property there will be a three-level parking structure totaling 35,300 square feet with a minimum of 55 parking spaces, bicycle parking and a guest arrival and departure area.

Staff recommended this reduction to be sure that as building plans are developed the project can comply with the B1 condition concerning parking spaces. The parking spaces will be divided between the hotel arrival area on the top level of the structure with valet parking for hotel guests and two lower levels dedicated for residential parking.

All other conditions for the site will remain in effect for the proposal and will be part of the B1 conditions along with the approved site plan.

Since there are no proposed changes to the site plan, review by the Technical Review Committee is not required. At the Planning and Zoning meeting on August 3rd, the Commission voted unanimously (6-0) to recommend approval of the amendment as proposed.

The property is zoned Central Business District Conditional Zone (CBD CZ) and surrounding properties are zoned Central Business District (CBD). The uses proposed with the

application are compatible with surrounding uses and are expected to occur within the downtown CBD area.

The AC Hotel by Marriott was approved in 2014 at the corner of College Street and Broadway. Parking for hotel guests from the Arras development will be provided for in the AC Hotel parking structure.

The Asheville 2025 Comprehensive Plan recognizes the importance of redevelopment and reinvestment, especially in downtown where higher density development is appropriate and where infrastructure is in place to support the development. The Center City Plan supports high quality architecture with new construction, while respecting historic context and the creation of pedestrian environments and open spaces that are pleasant, visually interesting and welcoming to visitors. The Downtown Master Plan emphasizes the importance of new development projects to improve sidewalks along their frontages to meet defined standards and calls attention to the importance of building caps for taller buildings to enhance the skyline of downtown Asheville.

The proposal aligns with the 2036 Council vision in the following areas: (1) *A Well-Planned and Livable Community* – The project reuses an existing structure, and expands and improves sidewalk areas surrounding the project site enhancing pedestrian connectivity; (2) *Connected and Engaged Community* – The project was reviewed by the Design Review Committee and was recommended for approval by the Downtown Commission during the initial project submittal. The membership of both groups is made up of local community members. The development proposal meets the zoning standards developed through a public process that culminated in the adoption of the Downtown Master Plan; and (3) *Quality Affordable Housing* – Although affordable residential units are not planned for this proposal, the developer agreed to make a voluntary contribution to the affordable housing trust fund.

Based on the above findings and the analysis provided in the report, staff finds this request to be reasonable.

Considerations:

- The proposal is an adaptive reuse of an existing building and was deemed appropriate through the 2016 conditional zoning process
- The mix of uses is accommodated in the building and is enhanced by the infrastructure improvements on the site and surrounding sidewalks
- Parking will be provided for the proposed uses utilizing the on-site parking structure, as well as overflow parking at a nearby hotel property

Staff recommends approval of the amendment to the CBD CZ zoning application with the revised conditions, finding it consistent with City-adopted plans and strategic goals.

Mayor Manheimer opened the public hearing at 8:45 p.m., and when no one spoke, she closed the public hearing at 8:45 p.m.

Mayor Manheimer said that members of Council have previously received a copy of the ordinance and it would not be read.

Vice-Mayor Wisler moved to approve the amendment to the Central Business District Conditional Zoning (CBD CZ) request for 7 and 11 Patton Avenue with the revised conditions, and find that the request is reasonable, is in the public interest and is consistent with the Comprehensive Plan and other adopted plans in the following ways: (1) the proposal is an adaptive reuse of an existing building and was deemed appropriate through the 2016 conditional zoning process; (2) The mix of uses is accommodated in the building and is enhanced by the infrastructure improvements on the site and surrounding sidewalks; and (3) Parking will be provided for the proposed uses utilizing the on-site parking structure, as well as overflow parking

at a nearby hotel property. This motion was seconded by Councilman Bothwell and carried unanimously.

ORDINANCE BOOK NO. 30 - PAGE 397

F. PUBLIC HEARING TO CONSIDER CONDITIONALLY ZONING PROPERTY LOCATED AT 99999 CARIBOU ROAD FROM RS-8 RESIDENTIAL SINGLE-FAMILY HIGH DENSITY DISTRICT TO COMMERCIAL INDUSTRIAL DISTRICT/CONDITIONAL ZONING AND RS-8 RESIDENTIAL-SINGLE FAMILY HIGH DENSITY DISTRICT TO ALLOW FOR THE DEVELOPMENT OF A PARKING LOT TO SERVE AN ADJACENT MEDICAL BUILDING

ORDINANCE NO. 4522 - ORDINANCE TO CONDITIONALLY ZONE PROPERTY LOCATED AT 99999 CARIBOU ROAD FROM RS-8 RESIDENTIAL SINGLE-FAMILY HIGH DENSITY DISTRICT TO COMMERCIAL INDUSTRIAL DISTRICT/CONDITIONAL ZONING AND RS-8 RESIDENTIAL-SINGLE FAMILY HIGH DENSITY DISTRICT TO ALLOW FOR THE DEVELOPMENT OF A PARKING LOT TO SERVE AN ADJACENT MEDICAL BUILDING

Urban Planner Sasha Vrtunski said that this is the consideration of an ordinance to conditionally zone property located at 99999 Caribou Road from RS-8 Residential Single-Family High Density District to Commercial Industrial/Conditional Zoning and RS-8 Residential Single-Family High Density District to allow for the development of a parking lot to serve an adjacent medical building. This public hearing was advertised on August 26 and September 2, 2016.

The applicant project proposes to build a 70 space parking lot to ease the parking shortage for Asheville Eye Associates on Medical Park Drive. The proposed plans include the donation of a portion of the subject property (approximately 30,707 sf) to either the City of Asheville or the Shiloh Community Association for a future use, such as housing or another use allowed under RS-8 zoning.

The project site is 2.36 acres at the northern end of the Shiloh community. The lot is near the end of Booker Street; although, the property only has frontage along Caribou Road via a narrow portion of the lot. The property is partially bounded on the north by Asheville Eye Associates, which is accessed by Medical Park Drive. Also along the north is residential property along Caribou. Residential uses in the RS-8 district surround the rest of the property.

Access to the site is provided by a private driveway that is 24 feet wide and approximately 90 feet long. There are 72 spaces in the new lot, bringing the total number of spaces for Asheville Eye Associates to 281 spaces. This is 28 spaces over the maximum allowed for the building. As a result, 32 spaces in the middle of the lot are proposed to have porous paving. Plans state that eight handicap parking spaces are provided in the main asphalt lot (location not shown on current plans). Four bicycle spaces will be added at the building entrance.

There is public transit access to Asheville Eye Associates; Medical Park Drive is on the S1 line of ART.

Plans show landscaping being provided for Property Line Buffer and Vehicular Usage Area. Additional landscaping is shown for the additional parking as required. The proposed landscaping appears to meet UDO requirements. There are no open space or tree save areas required for a parking lot.

This proposal was approved with conditions by the Technical Review Committee (TRC)

on June 20, 2016 and requires review by the City Council and Final TRC prior to zoning approval.

The Planning and Zoning Commission reviewed this project at their August 3, 2016 meeting and voted 5:0 (one member absent, one member recused) to approve the conditional zoning request. At the Planning and Zoning Commission meeting, Commissioner Hauser acknowledged that the project does not comply with the Shiloh Community Plan. The Commission was supportive of the proposal in part because members of the Shiloh Community Association spoke in favor of the project. The Planning & Zoning Commission is recommending to Council that the Shiloh Community Association receive the donation of the excess land.

Mr. Brian Mitchell, who owns property on Robinson Avenue, expressed concerns about stormwater affecting his property. The applicant's consultant, Equinox Environmental, addressed these concerns by highlighting the proposed stormwater structures planned for the parking lot.

A number of meetings have occurred with community members about the project. Asheville Eye Associates sent a letter to adjacent property owners inviting them to a meeting and met with four families prior to project submittal.

Staff met with Mr. Jeffery Brooks whose property is surrounded by the parcel owned by Asheville Eye Associates. Mr. Brooks' property would be the most impacted by any development on the remaining land to be left as RS-8 if it is accessed from Caribou Road. His concern focused on future development that may occur adjacent to his property and suggested a fence.

Staff and the applicant's design team also met with the Executive Board of the Shiloh Neighborhood Association regarding this project on July 19, 2016. A subsequent community meeting was held on August 1st in order to allow for additional feedback from the larger community. At that meeting, several community members asked questions about the impacts of the project. Overall, the community indicated concerns about increased traffic and density. At the beginning of the process, there were also concerns voiced that rezoning this land to a commercial use could open the door to additional requests for commercial uses in the future (from a parking lot to a more intense use). However, at the Planning and Zoning Commission meeting, members of the Shiloh Community Association expressed their support for the project.

Current zoning is Residential Single Family High Density District (RS-8). The applicant is requesting conditional rezoning to Commercial Industrial Conditional Zone (CI-CZ) for the parking lot area. The remaining property would remain RS-8.

This project includes a number of recommended conditions found in the B1-Conditions list. Modifications and special conditions to note include:

1. The larger portion of the site (72,095 sf) will be rezoned to CI-CZ for the construction and use of a parking lot to serve Asheville Eye Associates, 8 Medical Park Drive.
2. A portion of the property in the Southeast corner, 30,707 sf, will be subdivided and remain RS-8.
3. The subdivision will occur prior to issuance of the Certificate of Occupancy for the parking lot.
4. The RS-8 portion of the property will be donated to the City of Asheville or the Shiloh Community Association (to be finalized at the City Council meeting).
5. A sidewalk along the Medical Park Drive shall be constructed to City of Asheville standards.

The land surrounding the subject parcel is currently zoned RS-8 to the East, South and West. On the northern edge of the parcel, the adjacent zoning is approximately 1/3 RS-8 to the west, and the remaining portion is Commercial Industrial, where Asheville Eye Associates is located. The proposal to leave a portion of the lot zoned RS-8 is compatible with the surrounding zoning. The parking lot use is less compatible as it will be to the rear of several houses along

Robinson Avenue and Caribou Road, and is located near houses on another portion of Robinson Avenue and Booker Street.

Staff believes the project does not comply with the current Comprehensive Plan (Goal 1, Strategy 14) because it does not enhance or strengthen existing neighborhoods, in this case by encroaching commercial uses that are not allowed by the underlying zoning. The applicant has proposed donating a portion of the subject property to the City of Asheville or the Shiloh Community Association as mitigation for the encroachment.

The project proposes to improve the stormwater facilities on the subject property, which supports Goal III of the Water Quality section of the *2025 Comprehensive Plan*, which states "Develop and use best management practices to address the effect of development on stormwater runoff and water quality".

The *Shiloh Community Plan 2025* was adopted by Asheville City Council in 2010. Land use goal #4 is to "Protect, enhance and complement the existing character of Shiloh". Under this goal, strategy 2 states, "Target areas (particularly in the core area) for redevelopment and infill that complement existing development and are, or can be, supported by existing infrastructure (or improved infrastructure)." The plan further states:

> However, outside of this area (intersection of London and West Chapel Roads), it is strongly felt that commercial incursion should be prevented in the Shiloh community. Long threatened by change along the Hendersonville and Sweeten Creek Road corridors, the Shiloh community proposes that the City put in place mechanisms to reduce the impact of these heavy commercial areas and assure that nonresidential development does not further intrude into the neighborhood (39).

This project is not directly fronting on Sweeten Creek Road, but Medical Park is accessed from Sweeten Creek.

Regarding other adopted plans, the City's 2015 *Housing Needs Assessment* concluded that the housing gap is broad in the City of Asheville and spans all incomes and tenures (renters and homeowners). Recent MLS data, reported by Mosaic Realty, shows that the median sale price for a home in the city has risen 7% from last year to $260,000. The proposal would reduce the amount of land that could be used for housing.

This proposal aligns with the 2036 Council vision in the following area: (1) *A Well-Planned and Livable Community* – The project will make Asheville Eye Associates more easily accessible through additional parking and a sidewalk.

The proposal does not align with the 2036 Council vision in the following area: (1) *Quality Affordable Housing* - This project will remove the potential for a number of units to be built. As proposed, it would allow for up to four units to be built on a portion of the land.

Considerations:

- Development of the parking lot would result in the loss of potential housing units – up to 20 units could potentially be developed on this parcel with the existing zoning if access requirements can be met.
- New parking lot will ease parking in the Medical Park area, and is accessed from the existing parking lot, not affecting traffic in the Shiloh community.
- The new parking lot will support the continued success and potential expansion of a local business.
- Project will potentially allow the development of up to four residential units or another use allowed under RS-8 zoning, accessed from Caribou Road, if a portion of the subject property is donated to the city. Alternatively, the applicant has proposed donating this

portion to the Shiloh Community Association, which was supported by the Planning and Zoning Commission.

- Several residential neighbors (Robinson, Caribou) will have a large parking lot to the rear of their properties.

Based on policies stated in the *2025 Comprehensive Plan* and other plans, such as the 2015 *Housing Needs Assessment* and City Council's 2036 Vision, staff does not find this request to be within the best public interest and does not recommend support of the proposed conditional zoning as proposed.

Dr. Robert Wiggins, Administrator of Asheville Eye Associates, explained how they met with their neighbors bordering the property and the Shiloh community to make this a beneficial project for the community and Asheville Eye. They would like to expand their facility to add more skilled jobs; however, it cannot be accomplished without additional property. They have owned the adjacent property for 15 years and would like to donate the unutilized RS-8 portion of the property to the City for affordable housing or to the Shiloh community for a community resource center.

Mr. David Tuch, representing Equinox, explained their treatment of stormwater and felt that any concerns regarding that will be addressed. He then explained their need for additional parking at the medical facilities, which is basically one-stop parking for the entire medical park. They also looked at other parking options, e.g., on-street parking, shared parking, satellite parking, and/or a parking garage; however, either they were cost prohibitive or didn't provide enough parking. They would like to donate approximately 30,000 sq. feet to either the City for affordable housing or to the Shiloh community for a community resource center. Asheville Eye would prefer to donate to the Shiloh community. He felt this is a win-win situation because in the Shiloh Master Plan there is a goal to have a resource center. He asked for Council's support of this project.

When Councilwoman Mayfield asked if the applicant has reached out to the adjoining property owners to the unutilized land to see about consolidation of properties, Mr. Tuch said that they looked at a schematic plan because those property owners were having a challenge to make an affordable housing project work. This might make it easier for access to their parcel.

Mayor Manheimer opened the public hearing at 9:01 p.m.

Ms. Norma Baynes, liaison to the Shiloh Community Association, said that they have met several times with Asheville Eye representatives. They realize that Asheville Eye has been in the Shiloh community for many years and has given service to many communities, as well as the Shiloh community. The Shiloh community supports the development of a parking lot and asks that they donate the unutilized RS-8 land not being used for the parking lot be donated to the Shiloh Community Association.

Mr. Brian Mitchell Sr., adjoining property owner, explained his concern regarding stormwater affecting his property; however, Equinox representatives have met with him and assured him that their stormwater structures planned for the parking lot will not cause him additional stormwater. He had no problem with the parking lot itself.

Mayor Manheimer closed the public hearing at 9:05 p.m.

Mayor Manheimer said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilwoman Mayfield moved to approve the conditional zoning request from Residential Single Family High Density District (RS-8) to RS-8 and Commercial Industrial Conditional Zone (CI-CZ) with the requested conditions for the development of a parking lot on

the CI-CZ portion of the lot; and the remaining portion of the subject property to remain RS-8 as shown on the revised site plan be donated to the Shiloh Community Association, and find that the request is reasonable, is in the public interest and is consistent with the Comprehensive Plan and other adopted plans in the following ways: (1) improves pedestrian access to the complex; (2) provides land for affordable housing or community use opportunities; (3) supports water quality goals through the BMP improvements shown on the site plan; and (4) investment for expanding existing businesses. This motion was seconded by Councilman Smith and carried unanimously.

ORDINANCE BOOK NO. 30 - PAGE 406

V. UNFINISHED BUSINESS:

VI. NEW BUSINESS:

A. RESOLUTION NO. 16-214 - RESOLUTION AUTHORIZING THE SELECTION OF TRIBUTE COMPANIES AS DEVELOPER FOR THE 338 HILLIARD AVENUE CITY-OWNED PROPERTY, AND AUTHORIZE THE CITY MANAGER TO NEGOTIATE THE TERMS OF DISPOSITION AND PERFORMANCE FOR FURTHER COUNCIL APPROVAL

Director of Community & Economic Development Sam Powers said that today is the first day of Mr. Jeff Staudinger's new transition to a part-time employee until his official retirement in June of 2017.

Assistant Director of Community & Economic Development Jeff Staudinger said that this is the consideration of a resolution authorizing the selection of Tribute Companies as developer for the 338 Hilliard Avenue City-owned property, and authorize staff to negotiate the terms of disposition and performance for further Council approval.

A Request for Proposals (RFP) for a developer for affordable housing at the City-owned Parks Maintenance Facility site, located at 338 Hilliard Avenue, was issued May 11, 2016. Two proposals were submitted by the July 11, 2016, deadline. The proposals received were from the Kassinger Development Group, and from Tribute Companies.

Following the Council approved process, a selection team of Jeff Staudinger (CED), Taylor Floyd (Finance), Nikki Reid (CED), Vaidila Satvika (Planning), and Pete Wall (Parks) reviewed and scored the development proposals. The selection team made its recommendation to Sam Powers, the Director of the Community and Economic Development Department. He recommended to the Housing and Community Development Committee that Tribute Companies be selected as the developer.

While both proposals met the minimum requirements contained in the RFP, and both developers met all qualifications, the Tribute Companies proposal has a stronger proposed housing program:

Housing Program Comparison	**Tribute**		**Kassinger**
# of units	60		60
% 80% AMI or below	82%		55%
# 30% AMI	6		0
# 60% AMI	12		12
# 80% AMI	31		21
# 100% AMI	11		0

# Market	0		27
# years affordable	20		25
# 1 BR	35		48
# 2 BR	15		0
# 3 BR	10		12

Tribute additionally pledged two units for homeless households.

Tribute estimated a total development cost of $5.5 million, and proposed to purchase the property from the City for $1.00. They propose to conventionally finance the development and contribute sufficient equity to obtain that financing. Tribute proposes a 20 year period of affordability.

Tribute proposed 30 parking spaces on site, with additional parking possible on site and with spaces available at their other near-by multi-family developments. They propose to provide space for community gardens, and to seek third-party sustainability certification with an emphasis on controlling utility costs. Tribute also presented information regarding design, including interphase with Hilliard Avenue and the Clingman Forest Greenway. Tribute plans include space for a child care center. Tribute met with the WECAN organization, and indicated specific outreach activities, including to public housing residents

Tribute stated that they would require no additional City subsidy to perform according to their proposed program.

Over their proposed 20 year affordability period, the subsidy per affordable unit provided to Tribute through the estimated value of the land would be $19,204, based upon an appraised land value of $937,000. HCD Committee members requested that staff discuss the possibility of a long-term lease with Tribute Companies, and a longer period of affordability.

Staff recommends that the Tribute Companies be chosen as the developer for the city-owned 338 Hilliard Avenue property. This choice will be contingent on satisfactory negotiations for a final development agreement that will include the terms of property transfer, the number and tenure of affordable housing units created, workforce housing and market rate housing units, the term in years during which the housing will remain affordable and at what levels, the type and amount of funding or in-kind assistance provided by the City of Asheville, the physical design and site design of the proposed housing, the internal and external community benefits, community outreach activities, and timeframe for development.

The Housing and Community Development (HCD) Committee reviewed the staff recommendation at their meeting on August 16, 2016, and voted to recommend its approval to Council.

Pros:

- Choosing a developer brings closer to realization the strategy for using City-owned land to directly and positively increase the supply of affordable housing in Asheville.
- The developer affirms that it has the financial capacity to develop the site as proposed, and within the timeframe sought by the City.
- The proposal can be accomplished without the need to apply for additional competitive resources.

Cons:

- The timely relocation of the current Parks Maintenance is required.
- A change in terms from the RFP requirements could result in the need for additional program resources.

As currently proposed, the developer proposes that the City sell the subject property for $1. Therefore, the value of the property is the currently proposed one-time subsidy needed to achieve the affordable housing and other programmatic outcomes. A final proposed fiscal impact will be determined upon Council review and action on the final negotiated terms of disposition and program outcomes.

The HCD Committee recommends that Council approve the selection of Tribute Companies as developer for the 338 Hilliard Avenue City-owned property, and authorizes staff to negotiate the terms of disposition and performance, for further Council approval.

When Councilman Bothwell asked what the value of the property is, Mr. Staudinger responded that it was appraised for $937,000.

Councilman Bothwell suggested the applicant guarantee the housing affordability for 30 or more years.

Vice-Mayor Wisler, member of the HCD Committee, said that the Committee did discuss various issues and Councilman Smith, Chair of the HCD Committee, urged the Council to give additional feedback to the City Manager since Council will have final approval after negotiation.

When Mayor Manheimer asked for public comment, no one spoke.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Smith moved for the adoption of Resolution No. 16-214. This motion was seconded by Councilman Bothwell and carried unanimously.

RESOLUTION BOOK NO. 38 - PAGE 183

B. RESOLUTION NO. 16-215 - RESOLUTION ADOPTING CITY COUNCIL STRATEGIC PRIORITIES

Mayor Manheimer said that this is the consideration of a resolution adopting City Council's 2016-17 Strategic Priorities.

In January 2016, Asheville City Council came together to create a shared 20-year vision for the city. The vision reflects Asheville's unique character and the aspirations of the community as evidenced in private sector investments and public input that has informed current policy and City master plans. Assuming delivery of high quality core services, the 20-year vision is a tool to guide City policy and budget priorities while inspiring innovation and private sector investments aligned with the community's values. This vision was affirmed by council motion in February 2016.

In alignment with the vision, council developed priorities to guide the work of the organization. These priorities fall within the vision categories of:

- A Diverse Community
- A Well-Planned and Livable Community
- A Clean and Healthy Environment
- Quality Affordable Housing
- Transportation and Accessibility
- Thriving Local Economy
- Connected and Engaged Community

- A Smart City

City management used the Council's vision to analyze the strategic priorities including review of existing resources, both existing and potential. Once priorities are adopted, the vision and priorities will be communicated through an engaging multi-channel communication effort to include traditional and social media as well as ongoing relationships with community groups, boards and commissions.

City Manager Jackson will produce a comprehensive quarterly report and Committee Chairs will produce updates on policy initiatives designed to further achievement of strategic priorities.

Pros:

- Provides Council and City staff with an overall direction and goals of the organization.
- Provides Council and City staff with a measure of success.

Con:

- None.

The Strategic Operating Plan will provide direction for Council and the Executive Management Team throughout the budgeting process.

City staff recommends that City Council adopt the resolution adopting Council's 2016-17 Strategic Priorities.

City Manager Jackson then briefly discussed the implementation of the Council's strategic priorities on the staff level. In addition, he explained how each board & commission will have the opportunity to align their goals with Council's goals.

Councilwoman Mayfield suggested under the Diversity Community category that a key task under Goal 1 be to complete the disparity study.

When Mayor Manheimer asked for public comment, no one spoke.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Bothwell moved for the adoption of Resolution No. 16-215. This motion was seconded by Vice-Mayor Wisler and carried unanimously.

RESOLUTION BOOK NO. 38 - PAGE 184

C. RESOLUTION NO. 16-216 – RESOLUTION APPOINTING MEMBERS TO THE AFFORDABLE HOUSING ADVISORY COMMITTEE

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that the terms of Barber Melton, Scott Dedman and Lindsey Simerly Wilson expired on September 1, 2016.

The following individuals applied for a vacancy: Kama Ward, Zachary Eden, Sage Turner, Charlene Jones, Arthur Myers, Emily Coleman-Wolf, Richard Fort, John Brigham, Rita Yerby, Mark Collins, Amy Murphy-Nugen, Bob Swanson, Mark Goldstein and Andrew Mayronne.

It was the consensus of the Boards & Commissions Committee to reappoint Barber Melton and Scott Dedman, and appoint Sage Turner.

Vice-Mayor Wisler moved to (1) reappoint Barber Melton and Scott Dedman to each serve an additional three-year term respectively, terms to expire September 1, 2019, or until their successors have been appointed; and (2) appoint Sage Turner to serve a three year term, term to expire September 1, 2019, or until her successor has been appointed. This motion was seconded by Councilman Bothwell and carried unanimously.

RESOLUTION BOOK NO. 38- PAGE 207

D. RESOLUTION NO. 16-217 – RESOLUTION APPOINTING MEMBERS TO THE RECREATION BOARD

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that Megan Archer has resigned from the Board, thus leaving an unexpired term until June 30, 2018. In addition, Barry Mundt has also resigned from the Board, thus leaving another unexpired term until June 30, 2018.

The following individuals applied for a vacancy: Zachary Eden, Ken Miller, Tiffany DE'Bellott, ZaKiya Bell-Rogers and Ali Mangkang.

It was the consensus of the Boards & Commissions Committee to appoint Zachary Eden and ZaKiya Bell-Rogers.

Vice-Mayor Wisler moved to (1) appoint Zachary Eden to serve the unexpired term of Ms. Archer, term to expire June 30, 2018, or until his successor has been appointed; and (2) appoint ZaKiya Bell-Rogers to serve the unexpired term of Mr. Mundt, term to expire June 30, 2018, or until her successor has been appointed. This motion was seconded by Councilwoman Mayfield and carried unanimously.

RESOLUTION BOOK NO. 38- PAGE 208

E. RESOLUTION NO. 16-219 - RESOLUTION APPOINTING A MEMBER TO THE BUNCOMBE COUNTY TOURISM DEVELOPMENT AUTHORITY

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that the term of Jim Muth (must be an owner or operator of a hotel, motel, bed and breakfast, or vacation rental management company with less than 100 rental units) as a member on the Buncombe County Tourism Development Authority expired on August 30, 2016.

No individual applied for a vacancy.

On a 2-1 vote, with Councilman Smith voting "no", the Boards & Commissions Committee recommended reappointment of Jim Muth.

Councilman Smith noted that Mr. Muth is a friendly person; however, he has not been supportive of the City in regard to the occupancy tax. Councilwoman Mayfield, liaison to the Tourism Development Authority, said that she had had a number of conversations with Mr. Muth and has not walked away with that feeling.

Vice-Mayor Wisler moved to reappoint Jim Muth as a member of the Buncombe County Tourism Development Authority to serve an additional three-year term as a owner or operator of a hotel, motel, bed and breakfast, or vacation rental management company with less than 100 rental units, term to expire August 30, 2019, or until his successor has been appointed. This motion was seconded by Councilwoman Mayfield and carried on a 4-3 vote, with Councilman Bothwell, Councilman Haynes and Councilman Smith voting "no".

RESOLUTION BOOK NO. 38- PAGE 209

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

Mr. Jonathan Wainscott felt that it was time that the City begin conversations about district elections in Asheville.

VIII. ADJOURNMENT:

Mayor Manheimer adjourned the meeting at 9:36 p.m.

Magdalen Burleson
CITY CLERK

Esther E. Manheimer
MAYOR

Tuesday – September 27, 2016 - 5:00 p.m.

Regular Meeting

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Cecil Bothwell; Councilman Brian D. Haynes; Councilwoman Julie V. Mayfield; Councilman Gordon D. Smith; Councilman W. Keith Young; Acting City Manager Cathy Ball; City Attorney Robin T. Currin; and City Clerk Magdalen Burleson

Absent: None

PLEDGE OF ALLEGIANCE

Mayor Manheimer led City Council in the Pledge of Allegiance.

I. PROCLAMATIONS:

A. PROCLAMATION PROCLAIMING SEPTEMBER 27, 2016, AS "AVIATION CAREERS APPRECIATION DAY"

Vice-Mayor Wisler read the proclamation proclaiming September 27, 2016, as "Aviation Careers Appreciation Day" in the City of Asheville. She presented the proclamation to Mr. Timothy Anderson, Chairperson for Aviation Management and Career Pilot Technology at A-B Tech Community College, and others.

B. PROCLAMATION PROCLAIMING OCTOBER 10, 2016, AS "INDIGENOUS PEOPLES' DAY"

Mayor Manheimer read the proclamation proclaiming October 10, 2016, as "Indigenous Peoples' Day" in the City of Asheville. She presented the proclamation to Dr. Trey Adcock, Assistant Professor at UNC-Asheville, and Vice Chief of the Eastern Band of Cherokee Indians Richard Sneed, and others, who thanked City Council for their support.

C. RESOLUTION NO. 16- 224 - RESOLUTION STANDING IN SUPPORT OF STANDING ROCK SIOUX

Councilman Smith read the resolution, in which supports the Standing Rock Sioux Tribe as they exercise their sovereignty in protest of the encroachment upon their ancestral land, water and sacred sites by the Dakota Access Pipeline, and which calls upon the United States and the Army Corps of Engineers to obtain the free, prior and informed consent of the Standing Rock Sioux Tribe, prior to taking any federal action regarding the Dakota Access Pipeline that would harm or destroy the Tribe's ancestral lands, waters and sacred sites.

Vice Chief of the Eastern Band of Cherokee Indians Richard Sneed spoke in support of the resolution and thanked City Council for their support.

A member of the Eastern Band of Cherokee Indians spoke in support of the resolution and felt it was time to look at our environmental resources.

Councilman Bothwell moved for the adoption of Resolution No. 16-224. This motion was seconded by Councilman Young and carried unanimously.

RESOLUTION BOOK NO. 38 – PAGE 217

II. CONSENT AGENDA:

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON SEPTEMBER 6, 2016

B. MOTION APPROVING THE FINDINGS OF FACT AND CONCLUSIONS OF LAW FOR SIMPSON STREET BEAUCATCHER COMMONS LLC)

Summary: This public hearing was held on September 6, 2016.

C. RESOLUTION NO. 16-219 - RESOLUTION SETTING A PUBLIC HEARING ON OCTOBER 11, FOR A LAND USE INCENTIVE GRANT FOR SIMPSON STREET (BEAUCATCHER COMMONS LLC)

Summary: The consideration of a resolution setting a public hearing on October 11, 2016, for a land use incentive grant agreement for Simpson Street (Beaucatcher Commons LLC).

The developer of "Simpson Street," Beaucatcher Commons LLC, has applied for a Land Use Incentive Grant per the policy adopted by Council, and amended on September 22, 2015. Beaucatcher Commons LLC, represented by Kirk Booth, seeks to develop a 1.63 acre site, located at 43 Simpson Street and including two additional adjacent parcels. In his initial proposal, the developer estimated a total development cost of $3.3 million. The LUIG application proposed a project that would consist of 60 one-bedroom units, in six buildings with ten units in each building. The project scale has now been increased by 10 units to 70 units, with an estimated cost of $4 million. This increased scale was approved as a CUP by City Council on September 6, 2016. Kirk intends to make all 70 units affordable.

The project, as presented to staff, appears to meet the following Eligibility Requirements,

- The proposed development consists of three or more dwelling units for rent;
- At least 10% of the units will meet the affordability standards set by the City of Asheville for households earning 80% or less of the Area Median Income.
- The affordable units will be affordable to and leased to income-eligible households for at least 15 years.
- The proposed development must be located inside the city limits.
- The proposed development must be located to provide residents convenient access to jobs, schools and services

Scoring

Affordable Rental Housing

The proposed project will provide 70 units affordable to households at 60% or less of median income, and the developer has committed to the affordability period of 15 years. The project qualifies for 100 points.

Long term affordability

The proposed project will be committed to serving households at the designated rental rates for a period of 20 years. This qualifies the project for 10 points.

Staff has scored the project with 110 points, which qualifies the project for Eleven Years (11) of Land Use Incentive Grant.

The Housing and Community Development Committee reviewed the application at their meeting on June 14, 2016, and unanimously recommended approval of the Land Use Incentive Grant as outlined in this staff report, with the exception that the additional 10 units were not part of the project plan at that time.

The action complies with the following adopted City plans: (1) 2025 Comprehensive Plan; and (2) 2015-2019 Consolidated Plan for the Use of CDBG and HOME Funds.

Pros:

- The proposed project will provide affordable rental housing to 70 households earning 60% or less of area median income, for a period of at least 20 years;
- The proposed project addresses the pressing need for affordable one-bedroom apartments;
- The proposed project has a significant economic impact. Construction wages and material purchases will positively affect the local and regional economy.

Con:

- Cost estimates are not yet fully developed, and project costs as presented may change as it moves towards development.

Estimated value of Land Use Incentive. The current assessed value of the property is $240,000. The developer's estimate of completed project taxable value is $5,000,000. The current annual city tax, based on current assessed value, is $1,140. The annual estimated city tax post completion, based on the developer's estimate of value is $23,750. Therefore, the estimated annual Land Use Incentive Grant would be $22,610, the exact amount to be determined by the length, in years, of the grant award, and the actual assessed value of the development upon completion. If approved for 11 years, the estimated Grant would be $248,710. The subsidy per affordable unit would be $3,553. The subsidy amount per affordable unit/year would be $178.

The estimated amount of fees payable for Zoning Permit, Building Permit, Driveway Permit, Grading Permit, Plan Review Fees and Water Service Connection Fee is $125,000. The value of each 10% of the fee rebate would be $12,500. The exact amount would be determined by the percentage of fee rebate awarded as part of the Land Use Incentive Grant. If approved at the 110 point level, the fee rebate would be $125,000, $1,786 per unit.

This project has been approved for a Housing Trust Fund loan. The loan amount approved is $300,000, for a loan term of 20 years, with an annual 2% interest-only payment, with the principal amount due at the end of the 20 year term. The HTF loan per affordable unit is $4,286. The total combined LUIG and HTF subsidy per unit, if the LUIG is approved, would be $9,625.

Staff recommends that Council set a public hearing on October 11, 2016, to hear and act upon the request of Beaucatcher Commons LLC for a Land Use Incentive Grant.

RESOLUTION BOOK NO. 38 - PAGE 210

D. RESOLUTION NO. 16-220 - RESOLUTION ACCEPTING THE REPETITIVE LOSS AREA ANALYSIS ANNUAL REPORT

Summary: The consideration of a resolution accepting the annual Repetitive Loss Area Analysis report which identifies actions staff has taken since becoming a member of the Community Rating System (CRS) Program.

The City of Asheville joined the Community Rating System (CRS) program administered by the Insurance Services Office (ISO) in 2014. As required by the CRS program, a Repetitive

Loss Area Analysis (RLAA) to supplement the Buncombe's County-wide All Hazards Mitigation Plan was prepared in 2014 by the consultation firm of Brown and Caldwell.

A Repetitive Loss Area (RLA) is defined as an area that contains one or more repetitive loss structures (two or more claims of more than $1,000 that have been paid by the National Flood Insurance Program (NFIP) within any 10-year period since 1978). The RLAA is a mitigation plan developed for those areas with the purpose of reducing damages and increasing awareness from flooding and lowering the cost of claims submitted to the NFIP. The ultimate goal of lowering these costs is to reduce the consistent increase in flood insurance premiums that has been occurring for a number of decades.

The Community Rating System (CRS) is a program administered by the Federal Emergency Management Agency (FEMA). It provides lower insurance premiums under the National Flood Insurance Program. The premium reduction is in the form of a CRS Class. A 5 percent reduction is received by policy holders within the City for each class reduction the community obtains. The classes are obtained by actions that are above and beyond the requirements of the National Flood Insurance Program administered by FEMA. The benefits of joining the CRS program has been a reduction of flood insurance premiums paid for by those citizens who have flood insurance. Currently, the citizens of Asheville receive a 10 percent reduction in their flood insurance premiums because Asheville is a participant in the CRS program.

In order to maintain the current status in the CRS program, staff is required to provide to council the annual report of the Flood Mitigation Actions Items that were part of the RLAA report from Brown and Caldwell adopted by Council on December 10, 2013. As highlighted in the report, staff continues to look for ways to reduce flooding and damage from floods through community awareness through our website and flyers, staff is working with the Army Corps of Engineers on opportunities within the Swannanoa River Basin for flood mitigation opportunities and city staff works with developers and property owner on ways to protect their properties from flooding.

Pros:

- The citizens of Asheville will continue to receive a 10 percent reduction on their flood insurance program.
- Provides higher level of protection through our current flood ordinance
- Promotes public education of the Special Flood Hazard Areas

Con:

- Considerable amount of staff time is necessary to maintain these requirements

There is no additional fiscal impact to continuing the efforts necessary for the CRS program, staff time is currently programmed into the annual operating budget.

Staff requests City Council approve a resolution accepting the report prepared by city staff for the flood mitigation action associated with the repetitive loss area analysis report.

In response to Councilwoman Mayfield, Stormwater Division Manager McCray Coates said that the action items are similar to last year and are on-going.

RESOLUTION BOOK NO. 38 - PAGE 211

E. RESOLUTION NO. 16-221 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A PROFESSIONAL ENGINEERING SERVICES AGREEMENT WITH SCHNABEL ENGINEERING SOUTH, PC, FOR THE NORTH FORK WATER TREATMENT PLANT DAM/SPILLWAY UPGRADE - PHASE II

Summary: The consideration of a resolution authorizing the City Manager to enter into a professional engineering services agreement with Schnabel Engineering South, PC, (Schnabel) for the North Fork WTP Dam/Spillway Upgrade Phase II: Design and Construction Services project for the amount of $4,350,170.

On June 27, 2014, the Water Resources Department (Department) issued a Request for Qualifications (RFQ) for professional engineering services for the upgrade of the North Fork Dam/Spillway. As outlined in the RFQ, engineering services for the project will be conducted in two phases: Design and Construction Services. The selected engineering firm will be responsible for all of the design phase (Phase I) and all of the construction phase (Phase II) aspects of the project. Phase I and II are the engineering phases of the $30 million dam/spillway construction upgrade project to occur at the North Fork Water Treatment Plant in Black Mountain.

On February 24, 2015, City Council awarded the Phase I Design contract to Schnabel in the amount of $3,903,350. Phase I Design included design services, geotechnical exploration, assessment of the existing gated spillway, environmental permitting, bid process support, and public outreach. With Phase I now complete, the Dam/Spillway upgrade project is ready to move onto Phase II.

Phase II Construction Services includes hydrometeorological modeling, contract administration, observation of all construction-related activities, field and laboratory quality control testing, full-time onsite representation, attendance at construction meetings, preparation of reports, and final record drawings. Since the original RFQ included that the selected firm would provide services for both phases, a separate RFQ for Phase II is not required. The department is seeking Council approval for the Phase II contract with Schnabel for the proposed amount of $4,350,170.

Pro:

- This project will allow the Water Resources Department to upgrade the North Fork dam and spillway to comply with State regulations.

Cons:

- The cost for the engineering services agreement, while substantial, is typical for a construction project of this size. The overall construction project is estimated at $30 million.
- Failure to award an engineering services agreement would prevent Water Resources from making the necessary upgrades to the North Fork dam and spillway.

The funding needed for the professional engineering services contract is currently allocated within the North Fork WTP Dam/Tunnel Repairs project in the Water Resources Capital Improvement Projects fund.

Staff recommends City Council adopt a resolution authorizing the City Manager to enter into a professional engineering services agreement with Schnabel, for the North Fork WTP Dam/Spillway Upgrade Phase II: Design and Construction Services project for the proposed amount of $4,350,170.

When Mayor Manheimer asked if the City knows what wages the employer is paying its employees, Director of Water Recourses Director Jade Dundas said that was not asked in preparation of this contract and we don't know.

In response to Councilwoman Mayfield, Mr. Dundas said that the estimated timeframe for the construction bid awards coming to Council will be in the December/January timeframe.

RESOLUTION BOOK NO. 38 - PAGE 214

F. RESOLUTION NO. 16-222 - RESOLUTION AUTHORIZING THE CITY MANAGER TO CONVEY TRANSMISSION AND DISTRIBUTION EASEMENTS TO DUKE ENERGY PROGRESS INC. IN THE RIVER ARTS DISTRICT TRANSPORTATION PROJECT AREA ALONG RIVERSIDE DRIVE

Summary: The consideration of a resolution authorizing the City Manager to convey transmission and distribution easements to Duke Energy Progress, Inc. in the River Arts District Transportation Project (RADTIP) area along Riverside Drive.

The River Arts District Transportation Improvement Project (RADTIP) is a City of Asheville multi-modal transportation project that includes the installation of sidewalks, street trees, public art, bike lanes and greenways. As part of this project, the City is coordinating with Duke Energy on the location of utility poles and aerial lines throughout the project area. There are existing transmission lines and distribution lines that run along City-owned property on Riverside Drive. These lines will either remain in the existing location(s) or will be modified to some degree to accommodate the new roadway, greenway and recreation improvements. Duke is requesting that the City grant easements to clearly identify the areas of the utilities, as follows:

<table>
<tr><th>Location</th><th>Area of Distribution Easement</th><th>Area of Transmission Easement</th></tr>
<tr><td>Parcel 20, 172 Riverside Dr.</td><td>+/- 0.28 acres more or less</td><td>+/- 0.17 acres more or less</td></tr>
<tr><td>Parcel 26 Riverside Dr.</td><td rowspan="3">+/- 1.01 acres across three parcels more or less</td><td rowspan="3">+/- 1.512 acres across four parcels more or less</td></tr>
<tr><td>Parcel 27, Riverside Dr</td></tr>
<tr><td>Parcel 28, 14 Riverside Dr</td></tr>
<tr><td>Parcel 30, 5 Riverside Dr</td><td>NA</td></tr>
<tr><td>Parcel 31, Lyman Street</td><td>NA</td><td>+/- 0.167 acres more or less</td></tr>
</table>

These easements are to be conveyed as part of the Utility Relocation Agreement for the City's RADTIP project and therefore no compensation for the easements is considered. Duke prohibits certain improvements within easement areas, and the City has worked with Duke so that improvements for RADTIP, the new Craven Street River Access point, the upgraded river access at Jean Webb Park, and 14 Riverside project are not in conflict with these easements. City land on the East side of Riverside Drive is not impacted by the easements.

Pros:

- Easements are consistent with current City improvement projects.
- Granting these easements will provide Duke the needed property rights on City property to install or relocate utilities lines as part of the City's RADTIP project.

Con:

- Utility easements limit the use of property.

City staff recommends City Council approve a resolution authorizing the City Manager to convey transmission and distribution easements to Duke Energy Progress, Inc. in the River Arts District Transportation Project area along Riverside Drive.

In response to Councilwoman Mayfield, Real Estate Manager Nikki Reid said that the placement of these easements do not change anything about our development plans. The plans for this Duke utility relocation were designed in concert with the City recreation improvements, as well as the RADTIP improvements and the 14 Riverside Drive improvements.

RESOLUTION BOOK NO. 38 - PAGE 215

Mayor Manheimer asked for public comments on any item on the Consent Agenda, but received none.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Councilman Bothwell moved for the adoption of the Consent Agenda. This motion was seconded by Vice-Mayor Wisler and carried unanimously.

III. PRESENTATIONS & REPORTS:

A. UPDATE ON ASHEVILLE SISTER CITIES

Ms. Karon Korp updated City Council on the Asheville Sister Cities programs and projects that took place this summer and an exciting event that is coming up.

On behalf of City Council, Mayor Manheimer thanked Ms. Korp and the entire Sister Cities organization for their hard work and dedication.

IV. PUBLIC HEARINGS:

A. PUBLIC HEARING TO CONSIDER CONDITIONAL ZONING OF PROPERTY LOCATED AT 25 FORSYTHE STREET FROM RS-8 RESIDENTIAL SINGLE-FAMILY HIGH DENSITY DISTRICT TO RS-8 RESIDENTIAL SINGLE-FAMILY HIGH DENSITY DISTRICT/CONDITIONAL ZONING TO RE-ESTABLISH A PLACE OF WORSHIP

ORDINANCE NO. 4523 - ORDINANCE TO CONDITIONALLY ZONE PROPERTY LOCATED AT 25 FORSYTHE STREET FROM RS-8 RESIDENTIAL SINGLE-FAMILY HIGH DENSITY DISTRICT TO RS-8 RESIDENTIAL SINGLE-FAMILY HIGH DENSITY DISTRICT/CONDITIONAL ZONING TO RE-ESTABLISH A PLACE OF WORSHIP

Urban Planner Jessica Bernstein said that this is the consideration of an ordinance to conditionally zone property located at 25 Forsythe Street from RS-8 Residential Single-Family High Density District to RS-8 Residential Single-Family High Density District/Conditional Zoning to re-establish a place of worship on an existing site with specific conditions to typical zoning requirements. The parcel is owned by Greater Works Church of God and is identified as PIN 9649.24-3580. This public hearing was advertised on September 16 and 23, 2016.

The project site consists of one parcel located at 25 Forsythe Street in the Five Points neighborhood of North Asheville and has an area of 1.44 acres. The area is zoned RS-8 and the surrounding neighborhood is primarily residential. The site contains an existing church building and surface parking.

The applicant is proposing to legally re-establish a place of worship on the site with special conditions related to parking, setbacks and landscaping. The site contains a single structure that is two-stories in height and 12,800 square feet, built around 2001 that is not proposed to be changed or altered.

Access to the site is from two driveways off of Forsythe Street, on either side of the structure. Parking is located to the rear and sides of the structure (north, east and west). There are between 71-86 spaces currently and 78 proposed to remain after restriping, including 6 handicapped accessible spaces. There is an existing concrete sidewalk along part of the project frontage which will remain.

At the northernmost corner of the parking lot, there is an existing garage carport for an adjacent residential property that fronts into and is accessed through the parking lot. This access will remain as an existing break in the landscaped property line buffer.

Landscaping is required for compliance and would typically include street trees, parking lot landscaping, building impact landscaping, screening of the trash enclosure and the USSR-specific property line and street buffers. The applicant was granted an alternative landscaping plan in 2014 consisting of reduced property line buffers and vehicular use area plantings which corresponds to a requested condition, detailed below. The landscaping from the 2014 approval is all in place.

Due to the adaptive reuse of the existing site features, the following conditions accompany this request:

1. Side setbacks will be reduced to 15 feet
   Typically side setbacks are 25 feet for places of worship in residential areas but with this application, the setback would be reduced to 15 feet
2. Landscaping will correspond with the 2014 alternative compliance approval and includes a reduced property line buffer
   Typically a 20 foot property line buffer would be required along the north, east and west; the plan proposes mostly a 15 foot buffer on these boundaries with reduced planting. There are a few sections that do comply with the 20 foot area and areas with less (garage access as mentioned above).
3. Number of parking spaces exceeds the maximum number for the use
   The range of spaces based on the number of seats in the sanctuary (175) is between 22-58; the plan proposes to use 78

This proposal was approved with conditions by the Technical Review Committee on August 15, 2016, and requires review by the City Council and Final TRC prior to zoning approval. Staff has received a number of letters of support for the request to allow the additional parking to remain in the current configuration as it is shared for use with surrounding neighbors.

At the Planning & Zoning Commission meeting on September 7th, the Commission voted to support the request (7-0) and supportive public comment was heard. Staff relayed communication and provided copies of letters signed by adjacent neighbors supporting the request. The Commission was supportive of the proposal to utilize the site as is, especially since off-street parking is noted by residents as being needed as Forsythe, Hillside and other surrounding streets are congested with on-street parking and have narrow rights-of-way, so the ability for neighbors to park on the site is well-received. The Commission suggested a condition formalizing the agreement letting neighbors and members of community park on the site, however Planning and Legal staff do not recommend a condition such as this due to complications and potential unintended consequences from inserting or requiring public parking on a private site.

As stated above, typically places of worship are considered as uses by right, subject to special requirements (USSR) according to Section 7-16-1(c.)(55) of the UDO and therefore necessary upgrades to the site are typically required for compliance. The applicant completed a Level II review process and received a zoning permit for a compliant site plan in 2012. This request would supplant that previous approval and proposes modifying the standards as described above. As variances may not be pursued for USSR projects, a conditional zoning is being sought.

USSR Standards: The standards that are met or not met are indicated below:

- *Lot area*- Minimum lot area required is 5,000 SF and this site is 1.44 acres

- *Lot location*- May be located on any street – Forsythe is publically maintained
- *Access*- Limited to two points – two driveways currently exist and will remain
- *Height* – Limited to 40' with additional height for architectural features. Building is noted as 47' in height overall.
- *Impervious area*- limited to 60% of site
- *Size*- There is a capacity for 175 in the sanctuary and as such, this church would be designated as a "small place of worship" (not more than 300 seats).
- *Lighting* – Various standards to minimize impact to adjacent properties -No change to site lighting.
- *Setbacks*- Front 15 feet front; sides and rear 25 feet, no parking within these areas
    - Applicant is requesting a reduced side setback from 25 feet to 15 feet
- *Parking*- Range between 1 space per 3-8 seats = minimum 22 spaces and maximum 58 spaces
    - Applicant will be requesting a condition to allow greater than the maximum number of parking spaces but not to follow the requirements of section 7-11-2 regarding pervious paving and additional landscaping
- *Specific landscaping* – A 20' Type A buffer is required around three sides of this property and a planting strip is required along the street frontage, both incorporating a wall, berm and/or shrubs as well.
    - Applicant is requesting to follow an alternative compliance plan approved in 2014 with reduced property line buffers and less vehicular use area planting.

While the City seeks to preserve residential neighborhoods for residential uses, the code anticipates that complimentary community supported non-residential uses will often be located within the neighborhoods, such as schools and churches. These uses are given special standards to mitigate the potential negative impacts associated with the increased activity on these sites (typically parking and traffic). This site has been the location of a non-residential use around 2001 when the current building was constructed (permit issued in 1999) and has been used as a church since then. Because of this, the use is considered compatible. However, the proposal does not comply with the additional standards for greater landscaping and parking restrictions that are applied to a place of worship within a neighborhood.

This proposal does not necessarily conflict with the *City Development Plan 2025* but is also not directly supported by the *Plan* either. The Land Use section notes that "many of the older neighborhoods zoned as single family still incorporate a variety of land uses" but also that "protection, preservation and enhancement of existing neighborhoods" is essential, which is typically done through compliance with zoning standards.

The proposal can be said to both align and conflict with the 2036 Council vision regarding *"A Well-Planned and Livable Community."* Traditional neighborhood development incorporates uses such as churches into the fabric of a residential area and the sites are often utilized by neighbors as well (such as for shared parking or gathering spaces); however, typically required standards for mitigating additional impact on neighbors are not met with this application.

Considerations:

- Allows continued use of an existing structure with no additional site disturbance
- Additional landscaping has recently been incorporated into the buffers and parking field
- Places of worship in residential neighborhoods are typically required to comply with non-variable standards related to landscaping and parking restrictions (which are included as requested conditions in this application)

While the use is considered to be a compatible component of the historic development pattern, current standards in place for places of worship in a residential district require standards intended to mitigate impacts to adjacent properties and these are not met with the application. Because of that, staff cannot recommend support of the proposed conditional zoning as proposed.

In response to Councilwoman Mayfield, Ms. Bernstein explained the 2014 landscaping approval and said that what is on the site plan now is what they would do, noting most of it is already in place.

Senior Pastor Ronald Gates of the Greater Works Church explained the different community uses that use their parking lot. Keeping the lot at the 78 spaces helps the community and eliminates the need of overflow into the street. He noted they have a great relationship with the community and they actually watch over the property.

Mayor Manheimer opened the public hearing at 5:44 p.m., and when no one spoke, she closed the public hearing at 5:44 p.m.

Mayor Manheimer said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Young moved to approve concitional zoning request from Residential Single Family High Density District (RS-8) to Residential Single-Family High Density Conditional Zone (RS-8 CZ) with the requested conditions for the use of the site for a place of worship and find that the request is reasonable, is in the public interest, and is consistent with the Comprehensive Plan and other adopted plans in that: (1) the site has historically been a non-residential use in the current configuration, and (2) additional landscaping has been provided on the site through an alternative compliance process. This motion was seconded by Councilwoman Mayfield and carried unanimously.

ORDINANCE BOOK NO. 30 - PAGE 414

B. PUBLIC HEARING TO CONSIDER AN AMENDMENT TO ARTICLE X OF CHAPTER 7 OF THE CODE OF ORDINANCES FOR THE PURPOSE OF ADDING A GENERAL DEVELOPMENT AND PERFORMANCE STANDARD REGULATING STRUCTURES IN THE NAVIGABLE AIRSPACE OF THE GREATER ASHEVILLE REGIONAL AIRPORT

ORDINANCE NO. 4524 - ORDINANCE AMENDING ARTICLE X OF CHAPTER 7 OF THE CODE OF ORDINANCES FOR THE PURPOSE OF ADDING NEW STANDARDS REQUIRING REVIEW AND APPROVAL BY THE FEDERAL AVIATION ADMINISTRATION FOR ANY PROJECT THAT FALL WITHIN THE AIRPORT'S NAVIGABLE AIRSPACE

Principal Planner Shannon Tuch said that this is the consideration of a proposed ordinance to add new standards requiring review and approval by the Federal Aviation Administration (FAA) for any project that fall within the airport's navigable airspace. This public hearing was advertised on September 16 and 23, 2016.

Planning and Urban Design staff were approached by representatives from the Asheville Regional Airport requesting cooperation from the City of Asheville in communicating to the general development community the FAA's restriction on height of structures and features on properties that fall within the aircraft approach and departure zones that extend beyond the boundaries of the airport property.

The navigable airspace for the Asheville Regional Airport crosses multiple jurisdictions including: the City of Asheville, the Town of Fletcher, the Town of Mills River, Buncombe County, and Henderson County. Of the five affected jurisdictions, Asheville has the least amount of land area affected by these approach/departure zones.

The requirement to avoid any encroachments or penetrations into navigable airspace is a federal requirement and applies regardless of whether a municipality chooses to adopt a local standard. However, in order to help communicate this requirement and safeguard against the potential for new construction that violates this standard, many jurisdictions will choose to incorporate standards into their local development code that can be found and referenced during the planning and review stages of a project. The two most common code strategies are:

1. Adopt an airport overlay zoning district with special standards for any property that falls within that overlay area, or
2. Adopt the same or similar special standards as part of the general development code, which are applied only as needed or when applicable and without an overlay.

The first option requires both a wording amendment that adds the special requirements, and a zoning action that applies the overlay zoning district to all affected properties that fall within the runway's clear airspace. The second option also includes a wording amendment but there is no zoning action that applies an overlay. In this strategy, the burden is on the owner/developer to investigate whether these standards apply to their property. Through reference maps supplied to staff by the airport, an effort to identify affected properties would be made.

Given the relatively small amount of land impacted by the FAA restrictions, and the likelihood of that land being developed with structures tall enough to encroach into the navigable airspace, applying an airport overlay may arouse unnecessary concern from property owners as the zoning action is pursued. Primarily for this reason, option #2 is being proposed.

This proposal was reviewed and approved unanimously by the Planning and Zoning Commission at their September 7, 2016, meeting. All wording amendments receive final review by City Council.

This wording amendment complies with City's Comprehensive Plan as it relates to Land Use (Goal X) and Transportation (Goal IX) by guiding growth to accommodate various forms of transportation and by supporting the growth of the Asheville Regional Airport consistent with general aviation and commercial air traffic demands and operational needs.

The wording amendment most closely aligns with the 2036 Council vision in the following ways: (1) ***A Thriving and Local Economy*** - by supporting a regional asset that benefits local Asheville businesses; and (2) ***Transportation and Accessibility*** – by supporting all modes of transportation that provide opportunities and access to Asheville citizens.

This proposal is consistent with goals outlined in the Comprehensive Plan and City Council 2036 Vision, and staff recommends approval of the wording amendment as proposed.

Mayor Manheimer opened the public hearing at 5:49 p.m., and when no one spoke, she closed the public hearing at 5:49 p.m.

Mayor Manheimer said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Smith moved to approve the wording amendment modifying the General Development and Performance Standards and find that the request is reasonable, is in the public interest and is consistent with the Comprehensive Plan and other adopted plans in the following ways: (1) by supporting a regional asset that provides a valuable and needed service to Asheville residents and businesses; (2) by improving communication of development requirements to prevent unnecessary costs and delays; and, (3) by safeguarding the welfare of all air travelers to Asheville by limiting the potential for unsafe obstructions. This motion was seconded by Councilman Haynes and carried unanimously.

V. UNFINISHED BUSINESS:

A. DOWNTOWN PLANNING AND DEVELOPMENT POLICIES

Planning & Urban Design Director Todd Okolichany said that this report outlines staff recommendations for Central Business District (CBD) related requirements regarding:

- Development review thresholds,
- Review process for large projects,
- Development review thresholds and process for review for hotel applications; and,
- Public outreach during the development review process.

This process began in December 2015 with a request by City Council for review of the aforementioned areas of concern. Since that time, staff has conducted a community engagement process that included a public forum, a presentation to the Asheville Lodging Association, an online survey and several updates to City Council, the Downtown Commission and the Planning and Zoning Commission.

The Downtown Commission has received regular updates on the topics concerning downtown development review. In addition, the Commission held a special meeting on September 1st, to respond to and discuss staff's recommendations. While there was a variety of opinions and points expressed on these topics, there was consensus on the need for fairness and to have expectations for developers laid out as clearly as possible. The Commission then voted September 9th on a list of recommendations to be shared with City Council. At that meeting, the Commission also recommended that parking requirements for new downtown projects be studied for a potential UDO amendment.

Based upon feedback received as part of the outreach process, staff offers the following considerations:

DEVELOPMENT REVIEW THRESHOLDS FOR PROJECTS IN CENTRAL BUSINESS DISTRICT

PROCESS FOR REVIEWING LEVEL III PROJECTS IN THE CENTRAL BUSINESS DISTRICT

- Issue:
  Review Thresholds for Level II and Level III projects: Level II projects are proposals that have a gross floor area of greater than 20,000 square feet but not exceeding 175,000 square feet, with a height not exceeding 145 feet. These projects are reviewed by the Technical Review Committee (TRC), the Downtown Commission (DTC) and the Planning and Zoning Commission (PZC).

  Level III projects are those projects that have a gross floor area greater than 175,000 square feet and a height taller than 145 feet. These projects are reviewed by the TRC, the DTC and the PZC with final review by City Council following a review process that differs depending on the location downtown (see the following section for additional comment on the Level III review process).

- Staff recommendation:
  Staff recommends no change to the development review thresholds for Level II and Level III projects. There have not been any projects that have qualified as a Level III project aside for the redevelopment application for the BB&T building on

7 and 11 Patton Avenue (i.e. Arras), which included a change of use for an existing building. There were a number of public comments both for and against changing the established thresholds from the public forum and the online downtown survey. The current review threshold was developed during the Downtown Master Plan (DTMP) process completed in 2009, which included extensive community input and engagement and was ultimately adopted by City Council. While we have had a number of Level II projects proposed and approved since 2010 only two new projects have reached 130,000 square feet or larger.

Staff also reached out to several other cities in North Carolina in order to inquire about how those cities review projects in their respective downtowns. All of the cities that had design guidelines or standards, review downtown projects at the staff level with the rationale that those cities are trying to encourage growth and development in their downtowns. The City of Asheville's existing Unified Development Ordinance (UDO) also contains a similar purpose and intent for Asheville's CBD.

Issue:
The larger Level III projects in the CBD follow either the conditional zoning (CZ) or conditional use permit (CUP) process. Level III projects located in the CBD, but outside of the Traditional Downtown Core, are reviewed following the CUP process. Level III projects located inside the Traditional Downtown Core are reviewed following the CZ process.

A CUP is a site plan review that follows a quasi-judicial process with the City Council as the final review step. A developer must prove through testimony and evidence that the seven standards for CUPs are met through the project proposal. Council can't participate in conversation (no ex parte communication) about the project prior to the public hearing for the review. The inability for Council to communicate early in the process has been the subject of some concern and frustration among the community.

A CZ is a rezoning application to a new zoning district with a site plan and conditions that both Council and the developer must agree to. This discussion between Council and developer may begin early on in the review process. In some cases, a developer may not know at initial submittal what to expect as project conditions. Many community members feel that a CZ process is preferred because of the availability to communicate amongst Council members and with the developer.

- Staff recommendation:
  Staff recommends that all Level III projects in the CBD follow the conditional zoning (CZ) process. Most feedback from the community also supports this change, which would involve an amendment to the UDO.

Councilman Bothwell felt that we should lower the Level III threshold to 100,000 square feet or 100 feet tall and extend it throughout the City. He felt that we will soon see more hotel projects in the River Arts District and west Asheville.

Councilman Smith would like to explore some possible incentive opportunities, if legally permissible. He wondered if certain types of uses should have a higher threshold for review. For example, if a residential project that was greater than 100,000 square feet, but if 80% square footage was devoted to residential purposes, and if 20% of those units were affordable or workforce, and it was clear that this would be for residential only, and that it complied with the

Downtown Master Plan and other design guidelines, that then they might have as lower review threshold since they are meeting some of Council's big goals.

In response to Councilman Bothwell, City Attorney Currin said that we can start with a district that allows a certain number of uses and then Council has the flexibility to negotiate with that developer on what the individual project zoning district will look like. Both sides will have to agree to the conditions. To achieve that flexibility, that might create the need for some new districts that don't exist now.

It was the consensus of Council to direct staff to prepare a wording amendment to the Unified Development Ordinance to amend the development review threshold of Level II projects to 100,000 square feet or less throughout the City with an additional new threshold of 100 feet tall or less in the Central Business District.

It was the consensus of Council to direct staff to prepare a wording amendment to the Unified Development Ordinance to amend the development review threshold of Level III projects throughout the City to anything over 100,000 square feet or over 100 feet tall, which would require a rezoning and which would follow that process; and to establish certain incentive criteria for developers wishing to build residential.

It was the consensus of Council to direct staff to explore using the rezoning process for all Level III projects throughout the City, especially in areas where mutual agreement would like to be reached.

DEVELOPMENT REVIEW THRESHOLDS AND PROCESS FOR REVIEW FOR HOTEL APPLICATIONS IN THE CBD

- Issue:
  Hotels are reviewed like all other uses in the downtown area, which is based on the scale of the project. While there is not consistent feedback about the growth and impacts of the hospitality industry in downtown, it can be acknowledged that a number of the recent larger scale proposals in the downtown are hotel developments. Since 2010 there have been seven hotel projects approved in or near the CBD. Two additional hotel proposals are currently under review. Some of the concerns that have been shared focus on the growth of a single industry sector, concerns about lower wage paying jobs, the need for parking, having a balance of uses in the CBD and the sense that the downtown area is benefitting tourists instead of residents of Asheville.

- Staff recommendation:
  Staff recommends that lodging facilities (e.g. hotels) with 50 or more rooms should be reviewed at a different threshold than other uses in order to allow for additional Council review of hotel developments. Staff proposes that all lodging facilities with 50 or more rooms be reviewed following a conditional zoning process, with final consideration by City Council. This would involve a UDO amendment to implement this change.

  If this threshold had been in place beginning in 2010, all of the hotel proposals would have been reviewed by Council (as the ordinance stands today, only two were). If the change is approved, Council will have the opportunity to consider each proposal individually along with the potential impacts of these projects, and communicate with the developer throughout the development review process.

Councilman Haynes supported making lodging facilities with 20-25 or more rooms a use which would require a rezoning and which would follow that process. He in particular wanted Council review in the downtown area, River Arts District and Haywood Road.

Councilman Smith felt the review should be City-wide because we may be finding hotels just outside the district boundaries. He felt this is a clumsy way to go about managing tourism, and would rather work with Buncombe County and the Tourism Development Authority around a sustainable tourism study that would help us work together to decide how many rooms are enough and how can we achieve environmental and economic and social sustainability with our tourism industry. Until that bigger conversation happens, he feared we will get to where we want to go with the tools we have available.

Councilwoman Mayfield felt we are missing the issue around trying to preserve the historic fabric and feel of downtown of the smaller and older buildings. Mr. Okolichany did advise her that there is an on-going joint working group between the Historic Resources Commission and the Downtown Commission around design guidelines. Also, similar to hotels over a certain size having to come before Council, she suggested if someone was going to tear down an existing building in Asheville that would really change the historic fabric/feel of the street and that should come to Council as well.

Mayor Manheimer said the design guidelines and preservation issues can be a second part to this process. Those issues are on the horizon and Council will tackle those next.

Councilman Bothwell said that in June the Finance Committee heard a report regarding the actual cost of tourism to cities. It was clear that when we hear reports about all the benefits of tourism we never hear about the cost. He felt it would be valuable information to know if it's costing us more than it's worth.

It was the consensus of Council to direct staff to prepare a wording amendment to the Unified Development Ordinance to make lodging facilities with 20-25 or more rooms throughout the City a use which would require a rezoning and which would follow that process.

At the suggestion of Councilman Smith, it was the consensus of Council to direct staff to explore Council reviewing applications for retail space over 3,000 square feet in the Central Business District. In analyzing that change, Mayor Manheimer wanted to know the number of projects that have occurred in the downtown in the past five years that Council would have reviewed.

When Councilwoman Mayfield also asked for information of what existing stores are over 3,000 square feet, Mayor Manheimer felt that may be difficult to find out. Councilman Smith suggested the Downtown Association may be able to help us with that.

Vice-Mayor Wisler noted that the potential review of all applications for retail space over 3,000 in the Central Business District by City Council is a new topic and should be reviewed by various organizations and vetted through public forums.

Councilwoman Mayfield said that Council is not telling developers they can't develop in Asheville. Her view is that if you are going to develop in Asheville what you build needs to add to the City - to contribute to the incredible urban fabric and vibrancy of our downtown which has been built over the years. That building and use, to some degree, has to contribute to the success of Asheville.

PUBLIC OUTREACH DURING THE DEVELOPMENT REVIEW PROCESS

- Issue:
  During the CBD Development Forum held in March, many participants expressed concerns that citizens are not aware of new development proposals early enough in the development review process and that they learn of a proposal only when construction begins. During the Open City Hall survey, four notification methods

were identified as the most helpful: Posting the site with signs at each stage of the approval process, providing information on a web portal, better notification for the developer's required neighborhood meeting and social media communication.

- Staff recommendation:
  Staff recommends that public outreach methods be expanded in order to better communicate development proposals in the CBD. Options to improve the public notification process may include posting the site during different stages of the approval (such as before the Downtown Commission meeting and prior to the developer's neighborhood meeting), requiring that the developer's neighborhood meeting occur at a specific time period prior to TRC review, recommending the use of a facilitator at neighborhood meetings, and working with the city's Communication and Public Engagement (CAPE) division and IT Department to broaden the web portal and social media outreach.

It was the consensus of Council to direct staff to prepare a wording amendment to the Unified Development Ordinance to increase public notification for Level II and Level III projects in the Central Business District in accordance with staff's recommendations.

VI. NEW BUSINESS:

A. CONSIDERATION OF A PARTNERSHIP WITH PISGAH LEGAL SERVICES FOR THEIR POVERTY FORUM

Acting City Manager Ball said that the City has received a partnership request from Pisgah Legal Services. Pisgah Legal Services provides free legal advice, pro bono lawyers, and community legal services for underserved populations in Western North Carolina. The city currently partners with Pisgah Legal Services through the Community Development Division/CDBG. Additionally, in Fiscal Year 2015 & 2016, City Council authorized Pisgah Legal Services' utilization of the U.S. Cellular Center banquet hall for Affordable Care Act sign ups each November at the City interdepartmental rental rate, a 66% discount from the established fees and charges manual. This city partnership was previously approved by Council.

Pisgah Legal Services is requesting Council to consider partnership for their annual poverty forum event. In previous years this event has been held in another venue. According to Pisgah Legal staff members, the event has outgrown the previous venue. The partnership assistance would be for covering fees associated with equipment, labor, and other costs in both the Banquet Hall and Thomas Wolfe Auditorium within the U.S. Cellular Center. Total estimated fees related to the use of U.S. Cellular Center facilities, staffing, contracted labor and equipment is over $9,000. The partnership request from Pisgah Legal is for $4000 to provide off sets in these costs. This does not include any costs associated with catered bar service. Catered bar service will be billed on a consumption basis. Due to restrictions related to the USCC ABC permit, staff does not recommend waiving fees or covering costs associated with bar service.

Options for consideration by City Council include: 1) No Action; 2) Approve a partnership with Pisgah Legal Services for a Council decided amount, up to $4,000, in operational expenses for the event, without a budget amendment, through savings within the City's general fund, which will be transferred to the U.S. Cellular Center enterprise fund to cover associated costs.

Acting City Manager Ball provided additional information about the specific request from Pisgah Legal Services for renting the Thomas Wolfe Auditorium. The total fees for renting the Thomas Wolfe break down as follows:

Rent:	$2,000
Equipment Rental:	$1,750
Staffing:	$3,700
Facility Fees:	$1,000

For a total of $8,450

Pisgah Legal is requesting that this amount be reduced by $4,000.

Of the $8,450 approximately $4,870 is money that the City will pay out of pocket. The breakdown of out-of-pocket costs is $3,700 for staff and approximately $1,170 in utility costs.

Councilman Bothwell felt that part of the justification for this request is that the City doesn't permit donated beer and wine to be brought into the US Cellular Center, and they are having to pay for that as part of their catering. General Manager of the US Cellular Center Chris Corl responded that they are doing an open bar, which is what they sold their tickets as, so they can't do a cash bar. The US Cellular Center occasionally does allow one-time permits in the building, but only for events that are 100% centered around food. He said the timeline to issue a one-time permit has passed. The State ABC application process is a 90-day lead-time for a one-time permit and their decision to move to the Thomas Wolfe Auditorium was less than 30 days ago.

Vice-Mayor Wisler said that she is very supportive of Pisgah Legal Services and supports their work, but she can't support this request. She understands they want to expose more people to this important topic, but it is a fund-raising event and while the fees charged at Thomas Wolfe Auditorium are higher than the Diana Wortham Theatre, they do have an opportunity to recoup at least part of these expenses through more ticket sales. More importantly to her; however, is during our budget process they consider a lot of requests from many worthy non-profits for partnerships. It is a very competitive process and we have to turn down a lot of local non-profits. She didn't believe it is equitable to pull Pisgah Legal Services out and give them a partnership outside of the established process.

Councilwoman Mayfield felt this is a relatively unique situation in that it would have never occurred to them to apply for a partnership given their original parameters of their event. She was less worried about the precedential value of this given the nature of the speaker and the fact that the Thomas Wolfe Auditorium was the only place they could find to house this number of people. She felt it is the City's fees and the City's limitation around alcohol that are causing the increase in expenses. She said we are not actually paying them $4,000 but only reducing the fees they would have to pay.

Councilwoman Mayfield moved to transfer $4,000 from the General Fund to the US Cellular Center Enterprise Fund for the Pisgah Legal Services Poverty Forum.

Councilman Smith was also concerned about the precedent-setting, going outside of the established process, and taking taxpayer money out of the General Fund to support a non-profit fundraiser. As a supporter of Pisgah Legal Services for years, he asked for a friendly amendment to the motion to reduce the amount by $250 which will be a donation he will personally make to Pisgah Legal Services towards this event to reduce their costs. He won't be able to support the request though.

Councilwoman Mayfield agreed to donate $250 as well and amended her motion to transfer $3,500 from the General Fund to the US Cellular Center Enterprise Fund for the Pisgah Services Poverty Forum. This motion was seconded by Councilman Haynes.

Mayor Manheimer said that Council has tried to streamline the process and had a total re-vamp of how we partner with groups in the City. Council even doubled the outside agency funding, but that was done within the parameters of the process. It is a struggle for Council since there are so many worthy applicants. She appreciated all the work of Pisgah Legal Services, but unfortunately she will not be able to support the funding. She would, however, talk to her law firm that is also a stronger supporter of Pisgah Legal Services and see what they might like to do to help offset the costs associated with this event.

Councilman Bothwell also supported Pisgah Legal Services and would donate to them; however, he could not support the motion.

Brother Christopher Chiaronmonte felt City Council should stick to their rules.

The motion made by Councilwoman Mayfield and seconded by Councilman Haynes failed on a 2-5 vote, with Mayor Manheimer, Vice-Mayor Wisler, Councilman Bothwell, Councilman Smith and Councilman Young voting "no."

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

Brother Christopher Chiaronmonte spoke him being in Asheville for 14 years.

Mr. Kennenth Buckner spoke about crowd control issues at the Trump rally in Asheville at the U.S. Cellular Center and the need for buffer zones between opposing groups.

Ms. Kim Roney, member of the Multimodal Transportation Commission and Transit Committee, spoke about transit route changes and evening services.

Mr. Timothy Sadler encouraged Council to work with Buncombe County to have better resources to deal with people that have served their time and need to get back into the community.

Mr. Travis Smith thanked City Council for their public service in making Asheville the best City possible.

Councilwoman Mayfield updated Council on the workshop on our Use of Force/De-escalation Policy.

Closed Session

At 7:00 p.m., Councilman Young moved to go into closed session for the following reasons: (1) To prevent disclosure of information that is privileged and confidential, pursuant to the laws of North Carolina, or not considered a public record within the meaning of Chapter 132 of the General Statutes. The law that makes the information privileged and confidential is N.C.G.S. 143-318.10(a) (3). The statutory authorization is contained in N.C.G.S. 143-318.11(a)(1); (2) To consult with an attorney employed by the City about matters with respect to which the attorney-client privilege between the City and its attorney must be preserved, including, but not limited to, a potential lawsuit. The statutory authorization is contained in N.C. Gen. Stat. § 143-318.11(a)(3). This motion was seconded by Vice-Mayor Wisler and carried unanimously.

At 7:22 p.m., Councilman Bothwell moved to come out of closed session. This motion was seconded by Vice-Mayor Wisler and carried unanimously.

VIII. ADJOURNMENT:

114

Mayor Manheimer adjourned the meeting at 7:22 p.m.

Magdalen Bowlson
CITY CLERK

Edwin E. Manheimer
MAYOR

Tuesday – October 25, 2016 - 5:00 p.m.

Regular Meeting

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Cecil Bothwell; Councilman Brian D. Haynes; Councilwoman Julie V. Mayfield; Councilman Gordon D. Smith; Councilman W. Keith Young; City Manager Gary W. Jackson; City Attorney Robin T. Currin; and City Clerk Magdalen Burleson

Absent: None

PLEDGE OF ALLEGIANCE

Mayor Manheimer led City Council in the Pledge of Allegiance.

Closed Session

Due to technical difficulties with the Public Address System, at 5:03 p.m., Councilman Young moved to go into closed session for the following reasons: (1) to prevent disclosure of information that is privileged and confidential, pursuant to the laws of North Carolina, or not considered a public record within the meaning of Chapter 132 of the General Statutes. The law that makes the information privileged and confidential is N.C.G.S. 143-318.10(3). The statutory authorization is contained in N.C.G.S. 143-318.11(a)(1); (2) To consult with an attorney employed by the City about matters with respect to which the attorney-client privilege between the City and its attorney must be preserved, including, but not limited to, a lawsuit involving the following parties: Alison Rose Kern and the City of Asheville . The statutory authorization is N.C. Gen. Stat. sec. 143-318.11(a)(3); and (3) To establish or to instruct the City's staff or negotiating agents concerning the position to be taken by or on behalf of the City in negotiating the terms of a contract for the acquisition of real property by purchase, option, exchange or lease. The statutory authorization is contained in N.C. Gen. Stat. § 143-318.11(a)(5). The statutory authorization is contained in N.C. Gen. Stat. § 143-318.11(a)(3). This motion was seconded by Councilman Bothwell and carried unanimously.

At 5:29 p.m., Councilman Bothwell moved to come out of closed session. This motion was seconded by Vice-Mayor Wisler and carried unanimously.

I. PROCLAMATIONS:

A. PROCLAMATION PROCLAIMING OCTOBER 25, 2016, AS "HISPANIC RESTAURATEUR DAY"

Councilman Bothwell read the proclamation proclaiming October 25, 2016, as "Hispanic Restaurateur Day" in the City of Asheville. He presented the proclamation to Mr. Aaron Scarboro, and others, who briefed City Council on some activities taking place during the day.

II. CONSENT AGENDA:

Mayor Manheimer said that Consent Agenda "I" has been changed to set the public hearing on December 13, 2016, to hear and act upon the request of Skyland Exchange for a Land Use Incentive Grant.

Vice-Mayor Wisler asked that Consent Agenda "J" be removed from the Consent Agenda for discussion and/or an individual vote.

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON SEPTEMBER 27, 2016

B. RESOLUTION NO. 16-225 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO AN AGREEMENT WITH GENERAL PARTS COMPANY FOR WATER RESOURCES INVENTORY MANAGEMENT

Summary: The consideration of a resolution by City Council authorizing the City Manager to enter into a three year general services agreement with an option to renew for two successive one-year periods with Genuine Parts Company (GPC) for Water Resources Inventory Management for an amount not to exceed the City's approved fiscal year budget for each applicable fiscal year period.

The Water Resources Department (WRD) spends approximately $980,000 in inventory/parts each year. These parts are mainly purchased from local suppliers and warehoused on City property. In the past, the management and distribution of parts has been performed by City staff. While this arrangement has been effective, the level of technological sophistication has been limited and has led to some inefficiency. Transactions are currently handled using paper processing, which is then entered into the City's enterprise management system. Past failures of this system have resulted in stocking shortages, which have caused delays in performing water system repairs. Additionally, the lack of a good inventory database has contributed to the accumulation of a large amount of obsolete inventory.

On February 26, 2016, the WRD issued a Request for Proposals (RFP) for Inventory Management Services. Although this RFP was issued in the spring of 2016, recent discussions with the vendor representatives have confirmed that the proposed service and terms are still valid. In response to the RFP, one vendor responded – Genuine Parts Company (GPC). The service would be provided entirely by GPC and would require that the vendor own and manage all of the WRD inventory and provide central supply distribution for other City departments. The third party provider will be required to manage the inventory using a technologically based inventory management system. GPC will also use their staff and will own the inventory which they are managing for the City.

The annual net cost of the management service is estimated to be $46,000 per year. The net cost of this project represents an increase in the expenses associated with inventory management. The vendor will employ two staff to maintain the inventory and will charge a markup of not to exceed 10% on parts. Through the national buying power of the vendor some inventory items will be purchased a lower price than the City is able to purchase the material.

This contract will allow the City to transfer ownership and management of parts inventory to GPC. The transfer of ownership will be completed upon startup and will involve the outright purchase of all current inventory. Management and distribution of parts will be provided in a timely fashion and on a 24/7 basis. The parts operation will be housed at 200 Bingham Road, the WRD's new maintenance facility. City staff will have limited access to the inventory without the assistance from GPC staff.

Pros:

- The WRD will reduce the cost of carrying obsolete parts or parts that have a very limited usage.
- GPC will provide an advanced level of technology to support the accurate management of inventory.
- Some less specialized items can be purchased at a significant cost savings due to the national buying power of GPC.

Con:

- GPC may not get the same pricing as the City on some of the specialty water parts.

The estimated cost to the City for this service is $174,000 annually with possible annual inflation-adjusted price increases. Over the course of the contract, the cost is not expected to exceed $200,000. The Department is expected to pay more for inventory management on an annual basis than it currently costs to run this as an internal operation. The total additional cost is estimated to be $46,000 per year. While this is a higher cost annually, savings will be received through the elimination of long term benefits and other employment liabilities. Additionally, the City will not carry the cost of obsolescence, loss, or low-use parts. There will also be a large initial payment to the WRD from GPC for the purchase of the inventory. It is recommended that the funds from this initial purchase be placed in a reserve account in case there is a need to terminate the contract in the future and the inventory would need to be purchased back from GPC.

Staff recommends City Council adopt a resolution authorizing the City Manager to enter into a three year general services agreement with an option to renew for two successive one-year periods with Genuine Parts Company for Water Resources Inventory Management for an amount not to exceed the City's approved fiscal year budget for each applicable fiscal year period.

RESOLUTION BOOK NO. 38 - PAGE 219

C. RESOLUTION NO. 16-226 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONSTRUCTION AGREEMENT WITH GILBERT ENGINEERING COMPANY FOR THE WILLIAM DEBRUHL WATER TREATMENT PLANT BULK CAUSTIC TANK REPLACEMENT PROJECT

Summary: The consideration of a resolution authorizing the City Manager to execute a construction agreement with Gilbert Engineering Company for the William DeBruhl Water Treatment Plant Bulk Caustic Tank Replacement Project for the bid amount of $432,000 plus a 10% contingency in the amount of $43,200 for a total project budget in the amount of $475,200.

On September 20, 2016, the Water Resources Department issued an Advertisement for Bids for the William DeBruhl Water Treatment Plant Bulk Caustic Tank Project. This Project includes, but is not limited to: removal and replacement of an existing 9,000 gallon bulk storage tank and associated day tank, piping, secondary containment improvements, and associated electrical upgrades.

In response to the informal construction bid, the department received two bids on October 7, 2016. Companies responding were:

1. Gilbert Engineering Company (Statesville, NC) – bid $432,000
2. JS Haren Company (Athens, TN) – bid $490,000

The bids were reviewed by City Staff and Gilbert Engineering Company was selected as the lowest responsible, responsive bidder in the amount of $432,000. A contingency amount of $43,200 has been added for a total project budget in the amount of $475,200.

Pros:

- This project will replace existing leaking, outdated infrastructure.
- The secondary containment aspect of this project is a new requirement of the Public Water Supply Section of the NC Department of Environmental Quality to ensure that the chemical will be contained in the event of a leak.
- This project is aligned with the City and the WRD goal of continued investment and improvement of the City's water system through Capital Improvement Projects, in order to provide safe and reliable service.

Con:

- Without routine investment in upgrading and replacing water treatment infrastructure, there are greater risks of potential negative impacts on water quality.

The funding needed for the construction agreement is currently allocated within the Water Treatment Plant Improvements project in the Water Resources Capital Improvement Projects fund.

Staff recommends City Council adopt a resolution authorizing the City Manager to execute a construction agreement with Gilbert Engineering Company for the William DeBruhl Water Treatment Plant Bulk Caustic Tank Replacement Project for the bid amount of $432,000 plus a 10% contingency in the amount of $43,200 for a total project budget in the amount of $475,200.

RESOLUTION BOOK NO. 38 - PAGE 220

D. RESOLUTION NO. 16-227 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO AN AGREEMENT WITH ASHEVILLE FORD TO PROVIDE SERVICE FOR LIGHT VEHICLE MAINTENANCE

Summary: The consideration of a resolution authorizing the City Manager to execute a multi-year general services agreement with Asheville Ford to provide service to the City for light vehicle maintenance.

The City is seeking an outside service contract for the maintenance of light vehicles to supplement the in-house services provided by the City Fleet division. This contract will help to provide service in the event that there is no capacity within the shop for additional vehicle maintenance or if the service needs are beyond the capabilities of City staff or equipment.

The agreement stipulates the terms and rates under which services will be provided and establishes a set fee for the purchase of parts provided by this vendor. Labor rates are set for a period of one year at $85 per hour and parts will be purchased at 10% over cost to the service provider.

Outside services have been used through a number of vendors without a formal agreement. This agreement, which will establish formalized rates and terms with Asheville Ford for light vehicle maintenance, will be effective for a one year period, and allows for 4 one year renewal.

Pros:

- The City is able to ensure that vehicles are maintained in a timely manner regardless of the capacity utilization within the City Fleet Maintenance shop.
- This agreement facilitates the use of outside services by establishing a consistent agreement with defined rates and terms.

Con:

- Asheville Ford will not be able to provide service after hours and on weekends. These are times during which the City Fleet Maintenance staff is also only available on call and/or service will be provided through another outside contract.

The City spent $116,188 with Asheville Ford for service in the 2016 fiscal year. This amount is not expected to increase significantly as a result of this contract. This agreement will ensure that a contract is in place to lock in a price structure for all future parts and labor transactions. Funding for anticipated FY 2016-17 expenses is already included in the Adopted Budget.

City staff recommends City Council approve the resolution authorizing the City Manager to execute a multi-year general services agreement with Asheville Ford to provide service to the City for light vehicle maintenance.

RESOLUTION BOOK NO. 38- PAGE 222

E. RESOLUTION NO. 16-228 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A GENERAL SERVICES AGREEMENT WITH CAROLINA TRACTOR & EQUIPMENT CO. INC. TO PROVIDE SERVICE FOR HEAVY VEHICLE AND EQUIPMENT MAINTENANCE

Summary: The consideration of a resolution authorizing the City Manager to execute a multi-year general services agreement with Carolina Tractor & Equipment Co. Inc. (Contractor) to provide service to the City for heavy vehicle and equipment maintenance.

The City is seeking an outside service contract for the maintenance of heavy vehicles and equipment to supplement the in-house services provided by the City Fleet division. This contract will help to provide service in the event that there is no capacity within the shop for additional maintenance or if the service needs are beyond the capabilities of City staff or equipment.

The agreement stipulates the terms and rates under which services will be provided and establishes a set fee for the purchase of parts provided by this vendor. Labor rates are set for a period of one year and vary depending upon the service from $87 per hour to $95 per hour. There are separate charges for call out service including a call out service fee and travel charges associated with distance traveled and the mechanics time to respond to the call. Premium rates will also be charged for after hours and weekend work. The contract also establishes a rate for the purchase of parts. This rate will be 10% over cost to the service provider.

Outside services have been used through a number of vendors without a formal agreement. This agreement will establish formalized rates and terms with the Contractor for heavy vehicle and equipment maintenance, will be effective for a one year period, and allows for 4 one year renewal.

Pros:

- The City is able to ensure that vehicles are maintained in a timely manner regardless of the capacity utilization within the City Fleet Maintenance shop.
- This agreement facilitates the use of outside services by establishing a consistent agreement with defined rates and terms.

Con:

- The Contractor will be able to provide service after hours and on weekends although these services will be billed at a premium labor rate. These are times during which the City Fleet Maintenance staff is also only available on call and/or service will be provided through another outside contract.

The City spent $79,372 with the Contractor for service in the 2016 fiscal year. In establishing this contract the City may utilize the contracted services for repairs that were previously performed with other contractors. Expanding the services provided by this contractor will increase the amount spent with the contractor in the coming fiscal years. It is anticipated that the total cost of service in the coming years will exceed $150,000. This agreement will ensure that a contract is in place to lock in a price structure for all future parts and labor transactions. Funding for anticipated Fiscal Year 2016-17 expenses is already included in the Adopted Budget.

City staff recommends City Council approve the resolution authorizing the City Manager to execute a multi-year general services agreement with Carolina Tractor & Equipment Co. Inc. to provide service to the City for heavy vehicle and equipment maintenance.

RESOLUTION BOOK NO. 38- PAGE 223

F. RESOLUTION NO. 16-229 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO AN AGREEMENT WITH ATLANTIC EMERGENCY SOLUTIONS INC. TO PROVIDE SERVICE FOR HEAVY FIRE EQUIPMENT MAINTENANCE

Summary: The consideration of a resolution authorizing the City Manager to execute a multi-year general services agreement with Atlantic Emergency Solutions Inc. to provide service to the City for heavy fire equipment maintenance.

The City is seeking an outside service contract for the maintenance of heavy fire equipment to supplement the in-house services provided by the City Fleet division. This contract will help to provide service in the event that there is no capacity within the shop for additional vehicle maintenance or if the service needs are beyond the capabilities of City staff or equipment.

The agreement stipulates the terms and rates under which services will be provided and establishes a set fee for the purchase of parts provided by this vendor. Labor rates are set for a period of one year at $111 per hour, a travel rate of $78 per hour and parts will be purchased at 10% over cost to the service provider.

Outside services have been used through a number of vendors without a formal agreement. This agreement will establish formalized rates and terms with Atlantic Emergency Solutions for heavy fire equipment maintenance, will be effective for a one year period, and allows for 4 one year renewal.

Pros:

- The City is able to ensure that vehicles are maintained in a timely manner regardless of the capacity utilization within the City Fleet Maintenance shop.
- This agreement facilitates the use of outside services by establishing a consistent agreement with defined rates and terms.

Con:

- Atlantic Emergency will not be able to provide service after hours and on weekends. These are times during which the City Fleet Maintenance staff is also only available on call and/or service will be provided through another outside contract.

The City is spent $144,986 with Atlantic Emergency Solutions for service in the 2016 fiscal year. The amount spent in future years is not expected to increase significantly as a result of this contract. This agreement will ensure that a contract is in place to lock in a price structure for all future parts and labor transactions. Funding for anticipated FY 2016-17 expenses is already included in the Adopted Budget.

City staff recommends City Council approve the resolution authorizing the City Manager to execute a multi-year general services agreement with Atlantic Emergency Solutions Inc. to provide service to the City for heavy fire equipment maintenance.

RESOLUTION BOOK NO. 38 - PAGE 224

G. ORDINANCE NO. 4525 - BUDGET AMENDMENT FOR THE EDWARD BYRNE JUSTICE ASSISTANCE GRANT - LOCAL SOLICITATION GRANT

Summary: The consideration of a budget amendment in the Special Revenue Fund from the US Dept. of Justice 2016 Edward Byrne Justice Assistance Grant – Local Solicitation in the amount of $55,150.

During its June 28, 2016, meeting, the City Council authorized to apply and enter into an agreement with the US Dept. of Justice 2016 Edward Byrne Justice Assistance Grant (JAG) in the amount of $55,150. This is a predetermined amount of funds based on the Part 1 Uniform Crime Reporting Crimes. The Asheville Police Department and Buncombe County Sheriff's Department will be allocated $55,150 based on the award matrix, with Asheville receiving $43,902 and Buncombe County receiving $11,248. The distribution of funds will be approved through a signed Memorandum of Understanding.

During September 27, 2016, meeting, the Finance Committee was informed of the grant award and need to move the item to the full City Council for approval on October 25, 2016. Funds will be utilized to purchase Taser devices which will serve to enhance officer safety and potentially reduce the propensity for injury that offenders could be exposed to during altercations with officers. Effective Taser applications have demonstrated the capability to incapacitate threatening subjects by using an electrical charge to target the motor nerves that control movement. Ideally, these devices facilitate effective restraint while reducing the opportunity for injury to all involved parties, thereby potentially reducing workers' compensation claims and liability claims.

There will be an expense of $43,902 by the APD for the purchase of approximately 30 Tasers. The Buncombe County Sheriff's Department will be awarded $11,248 for its identified needs. This accounts for the total allocation of $55,150 for this grant.

This is a 100% funded non-local match grant that will serve to enhance officer safety for substantially more patrol officers and potentially reduce the probability of injury for threatening offenders.

This action went before the Finance Committee on September 27, 2016, and their recommendation was support to move forward to City Council.

Pros:

- Increasing the number of Tasers for patrol officers will enhance officer safety and that of the community
- Increased accountability because of the downloadable content related to deployments
- Costs of the devices could offset the costs incurred by workers' compensation or liability claims

Cons:

- Additional burden on future operations budget for the cost of maintenance and replacement after the approximate five-year service life of the device
- Additional training costs associated with purchasing the training cartridges at an approximate cost of $40 per year per device.

There is no local match required, however there will be maintenance and replacement costs for the equipment that needs to be included in future fiscal year budgets.

Staff recommends City Council adopt the budget amendment to accept grant funds through US Dept. of Justice Programs in the amount of $55,150.

ORDINANCE BOOK NO. 30 - PAGE 421

H. RESOLUTION NO. 16-230 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO AN AGREEMENT WITH THE U.S. DEPT. OF JUSTICE FOR THE BALLISTIC VEST PARTNERSHIP PROGRAM

ORDINANCE NO. 4526 - BUDGET AMENDMENT FOR THE BALLISTIC VEST PARTNERSHIP PROGRAM

Summary: The consideration of a resolution authorizing the City Manager to accept funds through US Department of Justice Ballistic Vest Partnership Program in the amount of $21,022; and the associated budget amendment in the amount of $42,044 in the Special Revenue Fund.

The City of Asheville has been awarded $21,022 through the US Department of Justice Ballistic Vest Partnership Program for a grant to fund to offset departmental cost associated with purchasing ballistic vests, which requires the City to match this amount dollar-for-dollar. The budget amendment is necessary to authorize the full project budget amount of $42,044 in this fund. The City's match of $21,022 will come from the Police Department's adopted Fiscal Year 16-17 operating budget.

During September 27, 2016, meeting, the Finance Committee was informed of the grant award and need to move the item to the full City Council for approval on October 25, 2016. Funds will be utilized to purchase approximately 56 bulletproof vests over the next 2 years.

This action went before the Finance Committee on September 27, 2016, and their recommendation was support to move forward to City Council.

Pros:

- Reduction in cost to the City of Asheville for the purchase of ballistic vests
- Increase in officer safety by providing crucial safety equipment

Con:

- None

As noted above, this grant requires a match of $21,022, which will come from the approved Police Department's Fiscal Year 2016/17 General Fund budget (Patrol Division – Supplies – Safety Equipment). It should be noted that by accepting this grant, the overall fiscal impact to the City of Asheville is reduced due to the fact that the APD would have to purchase these vests at full replacement costs if we did not accept award.

City staff recommends City Council adopt (1) the resolution authorizing the City Manager to accept funds through US Department of Justice in the amount of $21,022; and 2) a budget amendment in the amount of $42,044 reflecting $21,022 from US Department of Justice BVP funds and approved Fiscal Year 2016/17 APD General Fund money (421,022) to establish a project budget for the 2016 BVP Program.

I. RESOLUTION NO. 16-231 - RESOLUTION SETTING A PUBLIC HEARING ON DECEMBER 13, 2016, FOR A LAND USE INCENTIVE GRANT FOR THE SKYLAND EXCHANGE (HATHAWAY DEVELOPMENT LLC)

Summary: The consideration of a resolution setting a public hearing on December 13, 2016, for a land use incentive grant agreement for developer of Skyland Exchange (Hathaway Development).

The developer of Skyland Exchange, Hathaway Development, has applied for a Land Use Incentive Grant per the policy adopted by Council, and amended on September 22, 2015. Hathaway Development is developing a 14.32 acre site, located on Miami Circle in South Asheville. The developer estimates a total development cost of $32,710,837 and an improvement value of $36,190,837. The project consists of 290 residential rental apartments, with 10% units (29 units) proposed affordable (80% AMI or less). The site is within 0.25 miles of transit and 0.5 miles of schools; the job centers in Biltmore Park, is over 1 mile.

The project, as presented to staff, appears to meet the following Eligibility Requirements,

- The proposed development consists of three or more dwelling units for rent;
- At least 10% of the units will meet the affordability standards set by the City of Asheville for households earning 80% or less of the Area Median Income.
- The affordable units will be affordable to and leased to income-eligible households for at least 15 years.
- The proposed development must be located inside the city limits.
- The proposed development must be located to provide residents convenient access to jobs, schools and services

Scoring

Affordable Rental Housing - The proposed project will provide 290 units with 29 units (10%) being affordable to households at 80% or less of median income, and the developer has committed to the affordability period of 15 years. This project qualifies for 20 points in this category.

Superior locational efficiency - The proposed project is within 0.5 miles of a school in T.C. Roberson; the project is also within .25 mile of an existing bus-stop served but is not served by a one-half hour ART transit frequency (1.5 hour frequency), HCD Committee has recommended 5 points for the proximity to transit; the site is not within 1 mile of a job center (1.8 miles to Biltmore Park). This project qualifies for 10 points in this category.

Staff has scored the project with a total of 30 points. The project is eligible for a three (3) year Land Use Incentive Grant.

The Housing and Community Development Committee reviewed the application at their meeting on June 14, 2016, and unanimously recommended approval of the Land Use Incentive Grant as outlined in this staff report.

Pros:

- The proposed project will provide affordable rental housing to 29 households earning 80% or less of area median income, for a period of 15 years;
- The proposed project is in close proximity to schools and transit;
- The proposed project has a significant economic impact. Construction wages and material purchases will positively affect the local and regional economy.

Con:

- None

The current assessed value of the two parcels is $1,007,100 ($244,300 and $762,800). The developer's estimate of improvement value is $32,710,837 with a completed estimated project taxable value of $36,190,837. The current annual city tax, based on current assessed value, is $4,783.73. The annual estimated city tax post completion, based on the developer's estimate of value is $171,906.48; therefore, the estimated annual Land Use Incentive Grant would be $167,122.75, the exact amount to be determined by the length, in years, of the grant award, and the actual assessed value of the development upon completion. If approved for 3 years, the estimated Grant would be $501,369. The subsidy per affordable unit would be $17,289. The subsidy amount per affordable unit/year would be $1,153.

The estimated amount of fees payable for Zoning Permit, Building Permit, Driveway Permit, Grading Permit, Stormwater Plan Review Fee, and Water Service Connection Fee is $89,344. The value of each 10% of eligible fee rebates would be $8,934. The exact amount would be determined by the percentage of fee rebate awarded as part of the Land Use Incentive Grant. If approved at the 30 point level, the fee rebate would be $26,802.

The total estimated Land Use Incentive Grant benefit over 3 years is $528,171, which equals a $18,213 subsidy per unit, and $1,214 subsidy per unit per year.

Staff recommends that Council set a public hearing for December 13, 2016, to hear and act upon the request of Skyland Exchange for a Land Use Incentive Grant.

RESOLUTION BOOK NO. 38 - PAGE 226

J. RESOLUTION AUTHORIZING THE CITY MANAGER TO IMPLEMENT A FARE FREE DAY ON NOVEMBER 8, 2016, IN ORDER TO INCREASE OPPORTUNITIES FOR VOTERS ON ELECTION DAY

This item was removed from the Consent Agenda for discussion and/or an individual vote.

K. RESOLUTION NO. 16-233 - RESOLUTION AUTHORIZING A LEASE AGREEMENT WITH HENDERSON COUNTY FOR A TRANSIT VEHICLE

Summary: The consideration of a resolution authorizing the City Manager to enter into an agreement with Henderson County to lease one transit vehicle.

As a result of the 2000 Census, the French Broad Metropolitan Area was reclassified from a non-urbanized area to an urbanized area with a population greater than 200,000 persons and now includes municipalities in Buncombe, Haywood, and Henderson counties. After the reclassification, Henderson County's transit system became part of the transit systems operating in the overall urbanized area. The Federal Transit Administration (FTA) named the City of Asheville the designated recipient and as a result, the City of Asheville oversees all of the FTA funding, including reporting, administration and procurement of goods. The City of Asheville and Henderson County have signed a sub-recipient agreement that specifies how the funds are disbursed. The City of Asheville is accountable to the FTA regarding the use of all FTA funds and owns all the capital items that Henderson County purchases with these funds.

As per Henderson County's request, the City of Asheville ordered a van from a State contract to serve Henderson County's paratransit system, operated by Apple Country Transit. The vehicle is paid with Section 5307 funds and match is provided by Henderson County.

In order for the County to receive the van, a lease agreement, stipulating the terms and conditions to operate this vehicle, must be signed by both parties as required by FTA.

There is no cost obligation for the City with this action other than staff time to accomplish the task.

Pros:

- The lease agreement is an administrative step required by the FTA that protects the City's interests as designated recipient of Federal funds.
- There is **no** cost obligation for the City of Asheville other than administrative expenses.

Con:

- The City of Asheville is responsible for administrative expenses including staff time to oversee the project for the duration of such, approximately five years.

There is no direct fiscal impact to the City of Asheville, however the City's cost of administering the project is not recovered.

City staff recommends that City Council approve a resolution authorizing the City Manager to enter into an agreement with Henderson County to lease one transit vehicle.

RESOLUTION BOOK NO. 38 - PAGE 228

L. ORDINANCE NO. 4527 - BUDGET AMENDMENT FOR THE ENHANCED MOBILITY OF SENIORS AND INDIVIDUALS WITH DISABILITIES FEDERAL GRANT, SECTION 5310

Summary: The consideration of a budget ordinance, in the amount of $479,717, from the Federal Transit Administration to set up the project budgets for the Enhanced Mobility of Seniors and Individuals with Disabilities Federal grant, Section 5310.

The City of Asheville is the designated recipient of the Enhanced Mobility of Seniors and Individuals with Disabilities program, which is a program of the Federal Transit Administration (FTA). This is a formula grant program oriented to improve mobility for seniors and individuals with disabilities by removing barriers to transportation service and expanding transportation mobility options.

This is a program of the Moving Ahead for Progress (MAP) 21 transportation bill passed by Congress in 2012 that consolidated the Elderly and Disabled program that distributed funds to the states and the New Freedom program that was a formula program in which the City was the region's designated recipient.

To be eligible, the program requires an intensive planning process and the development of a Coordinated Public Transportation and Human Services Transportation Plan or CTP-HSTP based on community participation. The CTP-HSTP was developed in conjunction with the French Broad Metropolitan Planning Organization (MPO), Buncombe, Henderson and Haywood Counties, human services agencies, public and private transportation providers, the North Carolina Department of Transportation and the general public to assess current transportation needs, identify gaps and to set goals.

The plan was approved on March 29, 2012, by the French Broad River MPO's governing body (the Board), which includes elected representatives from each of the eighteen local governments which make up the MPO. The CTP-HSTP set the region's priorities and identifies needs; the projects were selected on January 28th, 2016 through a competitive process led by the MPO.

The projects below were selected as city's sub-recipients for the 5310 program. The projects are listed as follows:

Sub-Recipient	Project	Amount funded	Sub-Recipient's match
Jewish Family Service	Transportation for Elder Club	$26,414	$6,603
Council on Aging	Volunteer Driving Program and Travel Training	$22,815	$22,815
Buncombe County	Supplemental elderly and disabled assistance	$86,166	$86,166
City of Asheville	ADA paratransit	$90,000	$22,500
City of Asheville	ADA improvements to the transit station	$67,000	$16,750
City of Asheville	Program Administration	$32,488	N/A

The city needs to set up project budgets in order to pass through the funds and will seek reimbursement directly from the FTA. The sub-recipients will be responsible for the match.

The City will be responsible for the Program Management and, as designated recipient, to oversee the use of the funds according to FTA regulations. The program management will require the use of city resources, mainly staff. As a designated recipient the city will use $32,488 for administration purposes, which will cover the program management expenses for approximately one year.

Pros:

- Project funding is provided by the FTA, 50% for operating projects and 80% of capital projects. The sub-recipients are responsible for the local match.
- The city can use $32,488 for administration purposes.

Con:

- The project cost is $479,717, of those $324,883 are federal funds and the city will seek reimbursement from FTA.

The total financial impact for the subject projects is $479,717 and it will be funded with Federal Funds. $32,488 will be reimbursed to the city for administrative costs.

Staff recommends that City Council adopt a budget amendment in the amount of $479,717 from Federal Funds to setup the project budget for the 5310 projects funded, including the administrative costs.

ORDINANCE BOOK NO. 30 - PAGE 425

M. RESOLUTION NO. 16-234 - RESOLUTION AUTHORIZING THE CITY OF ASHEVILLE FIRE DEPARTMENT TO APPLY FOR A GRANT FROM THE U.S.

DEPT. OF HOMELAND SECURITY TO OBTAIN FUNDING FOR STRUCTURAL FIREFIGHTING PERSONAL PROTECTIVE EQUIPMENT, AND TO ACCEPT GRANT FUNDING IF AWARDED

Summary: The consideration of a resolution authorizing the City of Asheville Fire Department (Fire Department) to apply for a grant in the amount of $500,000 from the US Dept. of Homeland Security to obtain funding for Structural Firefighting Personal Protective Equipment, and to accept grant funding if awarded.

The Department of Homeland Security has recently issued guidance for the Fiscal Year (FY) 2016 Assistance to Firefighters Grant (AFG) program. This is a grant opportunity for fire departments to purchase needed equipment to enhance firefighter safety, service delivery, and effectively train personnel. Towards that end, if the grant request is approved, the Fire Department would purchase Structural Firefighting Personal Protective Equipment to replace equipment that is currently reaching its end of service life. The Structural Firefighting Personal Protective Equipment is one of a firefighter's most critical tools for personal protection and regular replacement ensures that our personnel have the most up-to-date equipment available. The grant program requires communities of greater than 20,000 populations to match Federal grant funds equal to 10 percent of the total project cost, or $50,000.

Staff recommends participation in the AFG Program for the following reasons:

- The grant program was developed to assist in the purchase of critical firefighting equipment and tools to provide greater safety for firefighters.
- If awarded, the City would be able to utilize grant funds for the purchase of required equipment.

This action was unanimously recommended by the Finance Committee to move forward to City Council on September 27, 2016.

Pros:

- Improved safety and efficiency of firefighters when responding to dangerous environments.
- This grant will enable AFD to accelerate our procurement of this equipment.

Cons:

- 10% matching amount of purchase required $50,000

This grant will not increase the Fire Department's budget request as these funds are already programmed into the budget.

City staff recommends that City Council authorize the fire department to apply for a grant in the amount of $500,000 from the US Department of Homeland Security to obtain funding for Structural Firefighting Personal Protective Equipment, and to accept the grant funding if awarded.

RESOLUTION BOOK NO. 38 - PAGE 229

N. RESOLUTION NO. 16-235 - RESOLUTION AUTHORIZING THE CITY MANAGER TO CONVEY AN EASEMENT ON MARTIN LUTHER KING JR. PARK TO BELLSOUTH TELECOMMUNICATIONS, LLC, D/B/A AT&T FOR UTILITY PURPOSES

Summary: The consideration of a resolution authorizing the City Manager to convey an easement on Martin Luther King Jr. Park to BellSouth Telecommunications, LLC dba AT&T for utility purposes.

BellSouth Telecommunications (AT&T) has approached the City of Asheville with a request to locate a utility box on city property at Martin Luther King Jr. Park. AT&T plans to increase internet service offerings in the neighborhood and needs to install additional infrastructure. AT&T has requested a 10'x10' easement to locate a utility cabinet at the corner of the park property. Parks staff met with AT&T onsite and concluded that there is no conflict with the use of the park and the installation/location of the utility box.

AT&T has offered to pay $1000 for the easement, which is in alignment with per square foot easement and land values in the surrounding neighborhood. City staff reviewed recent property transactions in the area, and found a range of values between $5 per square foot and $12 per square foot of land (or approximately $25,000 to $60,000 for a 0.11 acre / 5,000 square foot lot.) The offered amount is consistent with this range of values. AT&T will also pay the established transaction fee of $280 per the City's adopted fee structure for these types of requests.

Pro:

- Easement does not interfere with City's land use at the park.
- Granting these easements will provide AT&T the needed property rights to improve utility services in the area.

Con:

- Utility easements limit the use of property.

The fiscal impact is unbudgeted revenue of $1000 plus fee of $280 to benefit the General Fund.

City staff recommends City Council approve a resolution authorizing the City Manager to convey an easement on Martin Luther King Jr. Park to BellSouth Telecommunications, LLC dba AT&T for utility purposes.

RESOLUTION BOOK NO. 38 - PAGE 230

O. RESOLUTION NO. 16-236 - RESOLUTION AUTHORIZING THE CITY MANAGER TO APPLY FOR AND RECEIVE FUNDS FROM THE N.C. DEPT. OF TRANSPORTATION 2017 BICYCLE AND PEDESTRIAN PLANNING GRANT PROGRAM TO CONDUCT A GREENWAY CORRIDOR STUDY NAMED THE "SWANNANOA RIVER GREENWAY CORRIDOR - PHASE TWO"

Summary: The consideration of a resolution authorizing the City Manager to apply for and receive funds from the N.C. Dept. of Transportation 2017 Bicycle and Pedestrian Planning Grant Program to conduct a greenway corridor study named the "Swannanoa River Greenway Corridor - Phase Two".

The N.C. Dept. of Transportation (NCDOT) Bicycle and Pedestrian Planning grants are small grants to assist with corridor studies for bike and pedestrian projects to encourage bike and pedestrian comprehensive planning. These funds will assist in up to $36,000 for a corridor study, requires a 40% match and has a November 10, 2016 due date. If awarded, the City of Asheville would receive the funds in early March. We would like to request $36,000 with a $24,000 match requirement from the City.

The grant would be for a segment of the Swannanoa River Greenway, a 1.25 mile long project that parallels Swannanoa River Rd and the Swannanoa River from the intersection of Biltmore Ave. to S. Tunnel Rd. If awarded the funds, we will conduct this study simultaneously

with the first phase, the "East Asheville Greenway" segment of the Swannanoa River Greenway that is proposed to be implemented in the bond referendum.

This study area is a key segment of the City's Greenway Master Plan. It is also identified as a priority area in the AIM Plan and is a crucial segment of the Wilma Dykeman Plan. This request of acceptance is supported by the Asheville Multimodal Transportation Commission and the Greenway Committee.

The City's match will either be funds that have been raised by local non-profits who are dedicated to the implementation of the Swannanoa River Greenway or from the City's general funds. The decision depends on the success of the bond referendum. If the bond referendum is successful, the raised funds can be taken from the first study that starts at S. Tunnel Rd. and heads east to Azalea Park. If the bond referendum is not successful, we will need to use funds from the general funds.

Once finished, this feasibility study will poise this project for engineering and final design work.

Pros:

- This will be an adjoining greenway study to "East Asheville Greenway", otherwise known as the Swannanoa River Greenway Phase One.
- A completed feasibility study will provide guidance for future development in this rapidly growing area.

Con:

- Other than the requirement to pay matching funds, there are no foreseen negative impacts.

City will be required to provide a $24,000 match for the study. Matching funds would come from the existing Fiscal Year 2016-17 Adopted General Fund budget.

City staff recommends City Council approve a resolution authorizing the City Manager to apply for and receive funds from the NC DOT to conduct the greenway corridor study named the "Swannanoa River Greenway Corridor - Phase Two".

RESOLUTION BOOK NO. 38 - PAGE 231

P. ORDINANCE NO. 4528 - BUDGET AMENDMENT ACCEPTING A DONATION FOR THE LEXINGTON AVENUE PUBLIC ART PIECE

Summary: The consideration of a budget amendment in the amount of $40,000 from private donations for the Lexington Avenue Public Art Project.

The Asheville Downtown Association Foundation (ADAF) engaged city staff and the Public Art & Cultural Commission members in discussions regarding a commemorative art project that would recognize the vision of many local leaders whose foresight made Lexington Avenue *One of America's Great Places* (American Planning Association 2015). This honor was bestowed on Lexington Avenue because it "is a funky, creative, and delightfully unexpected home to a bustling music and arts scene that plays a crucial role in supporting Asheville's economy."

The ADAF requested use of the area at 65 N. Lexington Avenue which includes two bump outs and a motorcycle parking area. All appropriate city staff have reviewed the area and approved its use for this purpose.

The Public Art & Cultural Commission (PACC) at their regular meeting of January 22, 2015, heard details of the proposed public art project and fundraising goal by the ADAF and recommended approval of the project.

The Asheville Downtown Association Foundation is a 501(c)(3) nonprofit association organized to support and promote activities, projects and programs that support the livability, arts and cultural, economy, safety and infrastructure of downtown Asheville.

Pros:

- The project will allow the acquisition of more public art downtown.
- The cost of the project is fully funded by the Asheville Downtown Association Foundation funding.
- The use of the area will not have any negative impacts to that area for pedestrians or businesses.

Con:

- None noted.

All funding for this project including associated administrative fees are included in this $40,000 donation for the project. City will convey the use of the area noted in this staff's report for the permanent artwork.

City staff recommends City Council to approve the budget amendment authorizing the City Manager to accept the contribution from the Asheville Downtown Association Foundation in the amount of $40,000 from private donations for the Lexington Avenue Public Art Project.

Councilman Smith thanked the Asheville Downtown Association Foundation for working with the community on donations and making this project happen.

ORDINANCE BOOK NO. 30 - PAGE 427

Mayor Manheimer asked for public comments on any item on the Consent Agenda, but received none.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Councilman Bothwell moved for the adoption of the Consent Agenda, with the deletion of Consent Agenda Item "J". This motion was seconded by Councilman Smith and carried unanimously.

ITEMS REMOVED FROM THE CONSENT AGENDA FOR INDIVIDUAL VOTES

J. RESOLUTION NO. 16-232 - RESOLUTION AUTHORIZING THE CITY MANAGER TO IMPLEMENT A FARE FREE DAY ON NOVEMBER 8, 2016, IN ORDER TO INCREASE OPPORTUNITIES FOR VOTERS ON ELECTION DAY

Summary: The consideration of implementing a fare-free day on November 8, 2016, General Election Day.

At the City Council meeting on January 12, 2016, a proclamation was presented proclaiming January 2016 as "Senior Suffrage Month". During that process, a request was made for staff to consider a fare-free day on Election Day. The Multi-Modal Transportation Commission reviewed and discussed this request at their regularly scheduled meeting on February 24, 2016. They were concerned about financial implications and the overall effectiveness of having a fare-free day. After much discussion, the Commission recommended that the Transit Committee and staff conduct additional research including making sure that outreach efforts are made to communicate the promotion to the public. The Transit Committee reviewed and discussed this request at their regularly scheduled meeting on March 1, 2016, and took no action pending consideration by City Council at their March 8, 2016, meeting. The Transit Committee did agree

that fare-free days would be a good topic of discussion at their annual retreat which is scheduled for October 21, 2016.

Resolution No. 16-51, which was approved by City Council on March 8, 2016, authorized the City Manager to implement a fare-free day on March 15, 2016, in order to increase opportunities for voters on Election Day.

Currently, there is a longstanding fare-free day on Veteran's Day that enables veterans to ride for free when they show an appropriate identification card. In addition, there is a reduced fare of $0.25 per ride during "Strive Not to Drive Week" and "Earth Day".

Pros:

- Fare-free days include para-transit services.
- Reduces a transportation barrier to voting.

Con:

- Anticipated loss in daily revenue of about $2,000.

A fare-free day would probably result in an anticipated loss in daily revenue of about $2,000.

City staff recommends that City Council approve a resolution authorizing the City Manager to implement a fare-free day on November 8, 2016, in order to reduce barriers to voting.

Vice-Mayor Wisler said that in March when City Council authorized a fare-free day for the primaries, Council had agreed to look at the effectiveness of whether a fare-free day actually increased voters. Even though the City has no way to determine out, ridership was down that day. Also, the Multimodal Transportation Commission did not recommend this noting that it would be a revenue loss. While she agreed with the objective, she did not feel that it is a barrier to voting. She could support a fare-free day for para-transit services; however, was opposed to making it across the board. She proposed staff and the Multimodal Transportation Commission come up with an alternative that is more effective than a fare-free day.

Councilwoman Mayfield said that the Transit Committee supported this request.

Councilman Smith hoped that the City would consider fare-free days on election days in the City in the future. That would reduce the marketing for it each time and perhaps more people would use the buses because they would automatically know it was a fare-free day. He would be open to hearing the results of the staff and Multimodal Transportation Commission.

Ms. Kim Roney, member of the Transit Committee, supported a policy that would make election days fare-free days.

Councilman Young supported making all election days fare-free days.

Councilwoman Mayfield suggested that proposal be brought to the Finance Committee when other similar proposals are presented.

Councilman Smith moved for the adoption of Resolution No. 16-232. This motion was seconded by Councilman Young and carried on a 6-1 vote, with Vice-Mayor Wisler voting "no".

RESOLUTION BOOK NO. 38 - PAGE 227

III. PRESENTATIONS & REPORTS:

A. HAYWOOD STREET COMMUNITY VISIONING PROCESS UPDATE

Mr. Chris Joyell, Executive Director of the Asheville Design Center, provided Council an update from the Asheville Design Center (ADC) regarding the community visioning process for city-owned properties located at 68-76 Haywood Street and 33-37 Page Avenue in Downtown Asheville.

Regarding public input, the ADC has been collecting public input re: the Haywood & Page properties since May, focusing on what activities people would prefer to do in the space. They have constructed a database to capture all of this input verbatim. ADC is working with a Lenoir-Rhyne graduate class (Visions for Sustainable Communities) to code this input, documenting the uses & amenities, specific design elements, and community benefits identified by the public. This database will be shared with the Advisory Team, and it will ultimately inform their recommendations to Council. In the spirit of full transparency they'd like to make the database public, as well.

To date they have collected public input from the following events and activities, totaling over 1,000 comments, thus far:

- May 19th Project for Public Spaces (PPS) presentation,
- June Open House at 1 Pack Square West,
- July LEAF Downtown event,
- Focus group meetings with Vanderbilt, Battery Park, DARN, & Grove Arcade residents and merchants (we're planning one for Basilica parishioners).
- An internal survey of DARN members,
- On-site intercept surveys,
- Emails sent to directly ADC,
- Open City Hall - Activity Preference Survey.

In addition, Mr. Tom Gallaher has conducted over 100 confidential one-on-one interviews with stakeholders. He has produced two reports—one focused on preferred uses, the other addressing site considerations—which they've provided to Advisory Team members to serve as background information. They have also set up the Haywood/Page physical model at Pack Square library, with PPS's Place Game available to the public. They are encouraging participants to take the Place Game, visit the site, and share their assessment of current conditions and future opportunities.

Regarding the Advisory Team, they have met five times—once a month beginning in June. They have also elected to split into two subcommittees: one focusing on Uses, the other studying the physical constraints and opportunities on the Site. Each subcommittee has met twice. The process has been dynamic, and at each stage ADC seeks input from the team to guide our next steps.

Mr. Andrew Fletcher, Chair of the Haywood Street Advisory Team, explained that adhering to the design principle that "form follows function," the Advisory Team set out to understand first how the public would like to use the space. From there they will begin exploring how those uses can coexist while conforming to the site. As the team began to refine their vision, they anticipated creating a Visual Preference Survey that reflects the team's desired uses and benefits. This gave the public another opportunity to weigh in on more tangible examples of preferred outcomes.

Regarding next steps, the Advisory Team sees their work stretching through the winter, producing a final deliverable in early spring. Prior to producing the final deliverable, they plan to hold a public meeting to present the team's vision (or alternate visions) and receive one last round of feedback. They anticipate that the team's final product would contain a list of preferred

uses and amenities, along with a bubble diagram outlining how those uses and amenities could share the site. They also hope that a series of temporary installations can help inform future designs for the site, and successes and failures of those temporary uses will be seen. Their goal is to try to accommodate as many uses as possible, while reflecting the values and benefits identified by the Advisory Team. He provided Council with over 60 potential temporary uses for the site, noting they are not prioritized, but are in the categories of site amenities, art, food, exercise, performance, revenue producing, seasonal and other. They also range from practical to whimsical. He then provided Council with an example of multiple uses can work together to activate the space. He hoped that Council will review the uses and ask the Advisory Committee to help implement them. They are excited about putting the community back in charge of the space.

On behalf of City Council, Mayor Manheimer thanked the Advisory Committee for their hard work on this major task. She was also excited to see younger people rise in the leadership role. She asked that the Advisory Committee narrow down their recommendations to possibly a consensus of 3-4 items and bring those back to Council for consideration. Narrowing them down will be more manageable for staff to evaluate each recommendation and vet the issues.

Because of the number of uses that could be grouped together, Councilman Bothwell suggested possibly 12 recommendations. Councilwoman Mayfield felt like the more uses on the site will require more management to oversee the activities.

Councilman Young supported uses that are not invasive and uses that don't require a lot of oversight.

B. EFFECTIVE COMMUNICATION OF CITY PROJECTS AND PROGRAMS, GEORGE WASHINGTON CARVER EDIBLE PARK UPDATE

Director of Communication and Public Engagement Dawa Hitch reviewed with Council the communication plan of City projects and programs. She explained that they will continue to grow and improve a diverse communication portfolio, encourage a culture of engagement in the organization and effectively manage engagement in the community. She explained their circle of service, along with the spectrum of public participation. In community communication, they will continue to (1) consider who will be impacted by the project/program (both internal and external); (2) consider a diverse set of tools when choosing the communication medium; and (3) communicate the level of participation in which the City is engaging. They will use a plan to maximize timely communications and minimize misunderstandings.

Director of Parks and Recreation Roderick Simmons briefly explained how the incident regarding the removal of some trees and vegetation in the right-of-way happened, which he noted was a miscommunication of staff. He explained that they are now reviewing all City policies to make sure of adequate communication between all important stakeholders and the neighborhoods prior to taking any action. In addition, they will post notices on the property prior to any work taking place.

Councilwoman Mayfield asked that we make a commitment to build and foster strong relationships within the community in advance of any actions taking place.

The following individuals commented about the need for clarification and revision of the City's communication policies and procedures: the need to understand and protect our edible tree resources; and funding for edible park and planting maintenance and community engagement:

Ms. Kiera Bulan, Coordinator for the Asheville-Buncombe County Food Policy Council
Ms. Darcel Eddins, Executive Director of Bountiful Cities
Ms. C. Nichole Hinebaugh, with Bountiful Cities
Ms. Vicki Meath, Director of Just Economics

Mayor Manheimer said that this issue is being addressed internally.

IV. PUBLIC HEARINGS:

A. PUBLIC HEARING TO CONSIDER LAND USE INCENTIVE GRANTS FOR SIMPSON STREET (BEAUCATCHER COMMONS LLC)

RESOLUTION NO. 16-237 - RESOLUTION APPROVING A LAND USE INCENTIVE GRANT FOR SIMPSON STREET (BEAUCATCHER COMMONS LLC)

Assistant Community & Economic Development Director Jeff Staudinger said that this is a public hearing to consider approving a land use incentive grant for Simpson Street (Beaucatcher Commons LLC). This public hearing was advertised on October 14, 2016.

Mr. Staudinger said that the developer of "Simpson Street," Beaucatcher Commons LLC, has applied for a Land Use Incentive Grant per the policy adopted by Council, and amended on September 22, 2015.

Beaucatcher Commons LLC, represented by Kirk Booth, seeks to develop a 1.63 acre site, located at 43 Simpson Street and including two additional adjacent parcels. The developer estimates a total development cost of $3.3 million. The LUIG application proposed a project that would consist of 60 one-bedroom units, in six buildings with ten units in each building. The project scale has now been increased by 10 units to 70 units, with an estimated cost of $4 million. This increased scale was approved as a CUP by City Council on September 6. Mr. Booth intends to make all 70 units affordable.

The project, as presented to staff, appears to meet the following Eligibility Requirements,

- The proposed development consists of three or more dwelling units for rent;
- At least 10% of the units will meet the affordability standards set by the City of Asheville for households earning 80% or less of the Area Median Income.
- The affordable units will be affordable to and leased to income-eligible households for at least 15 years.
- The proposed development must be located inside the city limits.
- The proposed development must be located to provide residents convenient access to jobs, schools and services

Scoring

Affordable Rental Housing

The proposed project will provide 70 units affordable to households at 60% or less of median income, and the developer has committed to the affordability period of 15 years. The project qualifies for 100 points.

Long term affordability

The proposed project will be committed to serving households at the designated rental rates for a period of 20 years. This qualifies the project for 10 points.

Staff has scored the project with 110 points, which qualifies the project for Eleven Years (11) of Land Use Incentive Grant.

The Housing and Community Development Committee reviewed the application at their meeting on June 14, 2016, and unanimously recommended approval of the Land Use Incentive Grant as outlined in this staff report, with the exception of the additional 10 units, which were not part of the project plan at that time.

Pros:

- The proposed project will provide affordable rental housing to 70 households earning 60% or less of area median income, for a period of at least 20 years;
- The proposed project addresses the pressing need for affordable one-bedroom apartments;
- The proposed project has a significant economic impact. Construction wages and material purchases will positively affect the local and regional economy.

Cons:

- Cost estimates are not yet fully developed, and project costs as presented may change as it moves towards development.

Estimated value of Land Use Incentive. The current assessed value of the property is $240,000. The developer's estimate of completed project taxable value is $5,000,000. The current annual city tax, based on current assessed value, is $1,140. The annual estimated city tax post completion, based on the developer's estimate of value is $23,750. Therefore, the estimated annual Land Use Incentive Grant would be $22,610, the exact amount to be determined by the length, in years, of the grant award, and the actual assessed value of the development upon completion. If approved for 11 years, the estimated Grant would be $248,710. The subsidy per affordable unit would be $3,553. The subsidy amount per affordable unit/year would be $178.

The estimated amount of fees payable for Zoning Permit, Building Permit, Driveway Permit, Grading Permit, Plan Review Fees and Water Service Connection Fee is $125,000. The value of each 10% of the fee rebate would be $12,500. The exact amount would be determined by the percentage of fee rebate awarded as part of the Land Use Incentive Grant. If approved at the 110 point level, the fee rebate would be $125,000, $1,786 per unit.

The total estimated Land Use Incentive Grant, if approved, would be $373,710.

Staff and the HCD Committee recommends that Council approve the request of Beaucatcher Commons LLC for a Land Use Incentive Grant for an 11 year period.

Mayor Manheimer opened the public hearing at 6:45 p.m.

Ms. Amy Kemp asked for information on the matrix of scoring, which was provided to her by Mr. Staudinger.

Mayor Manheimer closed the public hearing at 6:47 p.m.

Councilman Bothwell said that often times the City has to struggle to get developers to provide affordable units, and these 70 units will make a real dent in the goal to provide affordable housing.

Mayor Manheimer said that members of Council have previously received a copy of the resolution and it would not be read.

Councilman Bothwell moved for the adoption of Resolution No. 16-237. This motion was seconded by Vice-Mayor Wisler and carried unanimously.

RESOLUTION BOOK NO. 38 – PAGE 232

B. PUBLIC HEARING RELATIVE TO AMENDING CHAPTER 7 OF THE CODE OF ORDINANCES TO REMOVE THE SIGNAGE PLAN APPLICATION PROCESS

ORDINANCE NO. 4529 - ORDINANCE AMENDING CHAPTER 7 OF THE CODE OF ORDINANCES TO REMOVE THE SIGNAGE PLAN APPLICATION PROCESS

Principal Planner Shannon Tuch said that this is the consideration of an ordinance to amend Chapter 7 of the Code of Ordinances to remove the signage plan application process. This public hearing was advertised on October 14 and 21, 2016.

State and federal courts have recently rendered decisions related to signage regulation and the city's decision-making process for land use applications. This amendment proposes to bring a portion of the Unified Development Ordinance (UDO) into alignment with these decisions by removing the option for a Signage Plan.

The amendment proposes to clarify that properties seeking relief from the sign code may apply for a Board of Adjustment Variance as outlined in UDO Sec. 7-13-9. Variances. This clarification comes as a result of removing UDO Sec. 7-13-10. Signage Plan. which had proposed a nonquasi-judicial, legislative process for projects meeting specified criteria, as an alternative to a Board of Adjustment variance.

This proposal was reviewed and approved unanimously (5:0) by the Planning and Zoning Commission at their October 5, 2016, meeting. All wording amendments receive final review by City Council.

The nature of this wording amendment is to bring the city's development code into alignment with sound land use practices and is not directly addressed in the *Asheville City Development Plan 2025,* although the need for flexible and effective development standards is mentioned throughout.

The nature of this wording amendment is to provide clarification and is not contemplated in the 2036 Council vision. Nevertheless, having a sound development review process and standards of evaluation indirectly supports numerous vision goals.

This proposal supports the goals outlined in the Comprehensive Plan and City Council 2036 Vision, and staff recommends approval of the wording amendment as proposed.

Upon inquiry of Councilman Bothwell, Ms. Tuch said that all variances to the sign ordinance will now be brought before the Board of Adjustment through the quasi-judicial process.

City Attorney Currin responded to Councilman Bothwell when he asked if there was a way for City Council to retain control of sign ordinance variances and still be in compliance with the law.

Mayor Manheimer opened the public hearing at 6:54 p.m., and when no one spoke, she closed the public hearing at 6:54 p.m.

Mayor Manheimer said that members of Council have previously received a copy of the ordinance and it would not be read.

Vice-Mayor Wisler moved to approve the wording amendment removing the application and review process for Signage Plans, is in the public interest and is consistent with the Comprehensive Plan and other adopted plans in that the amendment will result in sign variance applications being directed to the Asheville Board of Adjustment where such reviews are standard and will be determined pursuant to a quasi-judicial process. This motion was seconded by Councilman Smith and carried on a 6-1 vote, with Councilman Haynes voting "no."

ORDINANCE BOOK NO. 30 – PAGE 429

V. UNFINISHED BUSINESS:

VI. NEW BUSINESS:

A. ORDINANCE NO. 4530 - ORDINANCE AMENDING THE SELLING, ENTERTAINING AND DINING ORDINANCE RELATED TO STREET PERFORMANCES

Assistant City Manager Paul Fetherston said that the purpose of this agenda item is to present the City Council with an update on the Downtown Public Space Management initiative as it relates to street performances relative to the High Impact Area proposal as recommended by the Public Safety Committee (Committee). City Council action is requested on ordinance revisions to enable the High Impact Area Program.

Over the past several years, the Committee has worked with staff and community stakeholders to develop a multi-faceted approach intended to address the management of public space within the Downtown. One of the initiatives undertaken was the development of a Downtown Enhancement Plan by the Asheville Police Department which has been in place since July 2014.

Another initiative was a review and analysis of: 1) public safety concerns in areas where street performances take place and 2) illegal sidewalk vending and how these activities act as components of the overall Downtown public space management. The Committee considered research, analysis and recommendations on this issue during meetings in September 2014, April 2015 and August 2015, respectively. Following a presentation of information in April 2015, staff was directed to continue to research options and make recommendations regarding these components of the overall public space management in the Downtown. After considering options and recommendations presented by staff in August 2015, the Committee asked staff to work with stakeholders within the Downtown regarding proposals to enhance the City's Downtown Public Space Management efforts.

Since August 2015, staff has worked with a group of stakeholders with representatives from the following areas: businesses, residents, Asheville Busking Collective, and Asheville Downtown Association. Stakeholder meetings were held in September and December of 2015 and April 2016 for purposes of receiving input, reviewing proposals, and engaging in dialogue about options, considerations and next steps. Staff also met with the stakeholders group in August and September following the June 22 Committee forum and special meeting described below. While there are a diversity of interests and perspectives represented through the stakeholder group, the engagement process has fostered a venue through which ideas are exchanged in a meaningful and respectful manner.

On June 22, 2016, the Committee hosted a forum with representatives of the Downtown Commission, Public Art and Cultural Commission, Recreation Board, Planning and Economic Development Committee, and the community stakeholders referenced herein. The forum focused on a number of components of the Downtown Public Space Management initiative including place making, placement of street furniture in the area of Biltmore/ Patton Avenue, management of vending cart permits within the Downtown, street performance management and

the temporary closure of Wall Street on limited occasions to vehicular traffic for street market purposes. Following the June 22 forum, the Committee held a special meeting during which time the following direction was provided to staff: (a) authorized removal of benches in the right of way at Biltmore/ Patton Avenues with a reconfiguration of seating options; (b) supported stakeholder engagement to consider the possibility of temporary closures of Wall Street to vehicular traffic on limited occasions for street market purposes; and (c) development of a High Impact Program for street performances in the downtown prior to the end of the current season.

A status update on the process and recommendations was provided to the Committee on August 22, with a final presentation of a recommendation for the parameters of a high impact area proposal made to the Committee during its September 26 regular meeting. At that time, the Committee voted unanimously to support a program for designated high impact street performance areas within the Downtown that encompass the following:

1. Locations: Woolworth Walk sidewalk in the vicinity of the intersection of Haywood Street and Battery Park Avenue; and the sidewalk adjacent to the Flat Iron Sculpture at the intersection of Wall Street and Battery Park Avenue
2. Distance Requirements: Only one audible performance could be located between the marked center point and a 120 foot radius
3. Ordinance Revisions: The existing ordinances relative to street performances should be amended in a manner to enable enforcement of the pilot program. The ordinances would be written in a manner that does not sunset, but which could be revisited at any time. The ordinances would place some responsibility on street performers to assist in keeping the minimum sidewalk area clear for pedestrian traffic and to remind pedestrians not to gather or walk in the street due to the street performance.
4. Quarterly Check-ins: Staff would provide the Committee with updates on the high impact pilot program on a quarterly basis, at a minimum. The updates would include feedback from the various representatives of the stakeholders group (business, residents, street performers, police, etc.)

Downtown Asheville High Impact Area Street Performance Program

In accordance with the action of the Committee, the following High Impact Area Street Performance Program is proposed for implementation in Downtown Asheville:

Implement a Public Space Management Program for two specifically designated high impact areas relative to street performances within those areas. Within the specific area, street performances will be allowed as designated by artistic symbols. Within 120 feet of the marked center point of each location, other audible street performances would not be allowed. The minimum distance would be marked on the sidewalk for ease of compliance and enforcement. Only street performances within the two designated areas would be impacted. Street performances in other areas of the Downtown would not be regulated other than through current ordinances. The existing minimum 6 feet of area for pedestrian passage from the curb to the performance currently required by ordinance would be marked in each of the two designated areas.

Staff has worked with a local artist to develop a symbol which will designate each areas center point and minimum distance in which no other audible performances may occur.

The following locations are proposed as a part of the Downtown Public Space Management Pilot Program for High Impact Areas.

<u>Haywood Street in front of Woolworth Walk</u>
The center point for performances would be marked with the artistic symbol on the sidewalk. The 120 ft. space requirement still allows for performances in nearby spots favored by performers. While performances will not be required to fit within a specific designated space,

performances will be required to keep the minimum 6 feet of space between the curb and performance area clear for pedestrian passage.

Flat Iron at Battery Park Avenue and Wall Street
On the flat side of the Flat Iron sculpture, the center point for performances would be marked with the artistic symbol on the sidewalk. While performances will not be required to fit within a specific designated space, performances will be required to keep the minimum 6 feet of space between the curb and performance area clear for pedestrian passage. No other audible performances would be allowed within 120 feet of the marked center point. This distance would eliminate any other audible performances to occur on the opposite corner of Wall Street/ Battery Park Avenue – and would not eliminate non-audible performances on that corner.

- ***Ordinance Revisions***

While ordinance revisions would be required in order to enable enforcement within both the high impact and incentive areas, respectively, all other regulations applicable to street performances and sidewalk vending would remain in effect. The recommended ordinance changes are proposed in a manner that do not expire on a date certain. Instead, staff would monitor the implementation and impacts (intended and unintended) and return to the Committee and Council with information and recommended next steps. Depending on the data secured through the first year of the program, the areas could be expanded or adjusted. City Council would be in the position to amend the applicable ordinances as warranted.

The fiscal impact of implementing the proposed high impact area program is covered within the approved budget.

- ***Update on other Downtown Public Space Management initiatives***:

Information of other initiatives underway to maximize Downtown Public Space Management are listed below. This is provided to Council for informational purposes only and is not presented for consideration or action at this time.

Vending/ Pushcart Permit Management: The City's Code of Ordinances §16-144 currently permits vending/ pushcarts only within the Downtown/ Central Business District and Biltmore Village. Currently, approximately 30 pushcart/ vending locations are currently offered within the Downtown/ Central Business District area. During a review of current conditions impacting both the safety and place making within the Downtown, a number of current pushcart locations were identified in areas that conflict with a high volume of pedestrian traffic, crosswalks, streetscape improvements and utility poles. As a result, two current push cart locations are being eliminated and relocated to other permitted locations within their respective areas. As a part of the Downtown Master Plan update, pushcart locations and guidelines will be analyzed for purposes of ensuring considerations such as public safety and place making are considered in the identification and management of current and future locations.

Monitoring of Kiosk Locations: Based on feedback from stakeholders regarding challenges to the flow of pedestrian traffic due to the current location of the kiosk located near the intersection of Patton/ Biltmore Avenues, staff is working with the Asheville Tourism Development Authority (TDA) to monitor changes made by the city in the vicinity to determine if the kiosk can be removed or relocated. Staff will continue to work with the TDA to maximize the benefits and safety of the locations of such kiosks.

Relocation of benches currently located in public space in the area of Patton/ Biltmore: Based on feedback regarding the challenges created by the current location of benches, the high traffic volume and other uses in the area, staff will work to relocate these benches. The relocation will

enhance the flow of pedestrian traffic in the area. Future public space and place making improvements will be considered as a part of the Downtown Master Plan update.

Temporary Closure of Wall Street on Select Weekends for Public Street Market: Staff has engaged in a process with stakeholders to identify a select number of weekend days during which Wall Street would be closed to traffic in order to create a pedestrian market environment that would include street performances and programming led by Wall Street merchants. Business owners on Wall Street do not support a vendor market with competitive merchandise sales.

Downtown Master Plan Update: With the assistance of the City's Planning and Urban Design Department, staff will engage in a process that updates the public space management and place making components of the Downtown Master Plan. The update process, projected to take approximately 12 months, is tentatively anticipated to begin in the spring of 2017. The scope will encompass the following:

- community concerns regarding management of public spaces,
- enhancement of community character and neighborhoods, and
- expand place making options considered at a range of scales from the entire downtown to the neighborhood level in the Central Business District.
  The effort will be focused on downtown issues in the public realm such as

- overcrowded sidewalks,
- pedestrian crowding in roadways,
- motorist safety,
- blocked crosswalks,
- handicap access,
- the availability and programming of parks,
- sidewalk dining and other encroachments,
- vending permit locations,
- overall functionality of existing public spaces and areas within the right-of-way, and
- noise.

The process is expected to result in an update that focuses on the public realm – including streetscapes – instead of an overall update to the entire Downtown Master Plan.

Next Steps

If the Council approves the recommendations of the Public Safety Committee as outlined herein, (1) center points in traffic areas and 120' boundaries will be marked; (2) educational materials will be developed, distributed, and available through the City's website; (3) quarterly check-ins/updates to the Public Safety Committee based on metrics and feedback; (4) performance metrics will be developed, implemented and monitored; and (5) the High Impact Area Program will be ready for implementation within two weeks (by November 8).

Staff recommends City Council adopt the ordinance revisions necessary for implementation of the high impact area program.

When Councilwoman Mayfield asked about how the 40' distance was determined, City Attorney John Maddux said that it is the same restriction for other performances.

Mr. Andrew Fletcher, representing the Asheville Buskers Coalition, looked forward to this change and hoped that other cities will look to Asheville as being leaders on this

On behalf of City Council, Mayor Manheimer thanked staff, the Public Safety Committee and members of the community who participated in the this portion of management of public space within the downtown.

Mayor Manheimer said that members of Council have previously received copies of the ordinances and they would not be read.

Councilman Young moved for the adoption of Ordinance No. 4530. This motion was seconded by Councilwoman Mayfield and carried unanimously.

ORDINANCE BOOK NO. 30 – PAGE 431

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

Ms. Dawn Nelson hoped that City staff would provide more attention to personal access instead of process.

Councilman Bothwell (1) sadly announced that a frequent City advocate Fred English has died; and (2) announced that a university in Virginia is willing to help with the costs of a tree canopy study of Asheville.

Vice-Mayor Wisler urged everyone to vote and that enrollment for insurance starts November 1.

Councilman Smith (1) congratulated those responsible for keeping the Southern Conference Tournament in Asheville in March; and (2) reported on some of the legislative advocacy goals from the N.C. League of Municipalities meeting he recently attended.

VIII. ADJOURNMENT:

Mayor Manheimer adjourned the meeting at 7:19 p.m.

Magdalen Burleson
CITY CLERK

Esther E. Manheimer
MAYOR

Tuesday – November 8, 2016 - 5:00 p.m.

Regular Meeting

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Cecil Bothwell; Councilman Brian D. Haynes; Councilwoman Julie V. Mayfield; Councilman Gordon D. Smith; Councilman W. Keith Young; Acting City Manager Paul Fetherston; City Attorney Robin T. Currin; and City Clerk Magdalen Burleson

Absent: None

PLEDGE OF ALLEGIANCE

Mayor Manheimer led City Council in the Pledge of Allegiance.

I. PROCLAMATIONS:

II. CONSENT AGENDA:

Mayor Manheimer announced that Consent M (Resolution authorizing the City Manager to enter into a contract for the Cedar Street Bridge Repair Project) has been withdrawn from consideration.

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON OCTOBER 25, 2016

B. RESOLUTION NO. 16-238 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CONSTRUCTION AGREEMENT WITH LAUGHLIN-SUTTON CONSTRUCTION COMPANY FOR THE MILLS RIVER WATER TREATMENT PLANT MEDIA REPLACEMENT AND RELATED UPGRADES PROJECT

Summary: The consideration of a resolution authorizing the City Manager to execute a construction agreement with Laughlin-Sutton Construction Company for the Mills River Water Treatment Plant Filter Media Replacement and Related Upgrades Project for the bid amount of $308,400 plus a 10% contingency in the amount of $30,840 for a total project budget in the amount of $339,240.

On September 20, 2016, the Water Resources Department issued an Advertisement for Bids for the Mills River Water Treatment Plant Filter Media Replacement and Related Upgrades Project. The scope of work for this project includes all labor, materials, equipment, and incidentals required to remove the existing filter media and install new filter media for three filters.

In response to the informal construction bid, the department received three bids on October 14, 2016. Companies responding were:

1. Laughlin-Sutton Construction Company, Browns Summit NC – bid $308,400
2. JS Haren Company, Athens TN – bid $415,000
3. Gilbert Engineering Company, Statesville NC – bid $457,000

The bids were reviewed by City Staff and the project engineers, CDM Smith, with Laughlin-Sutton selected as the lowest responsible, responsive bidder in the amount of $308,400. A contingency amount of $30,840 has been added for a total project budget in the amount of $339,240.

Pros:

- Replacement of the filter media will continue to ensure clean, potable water and aid in particulate filtration.
- This project is aligned with the City and the WRD goal of continued investment and improvement of the City's water system through Capital Improvement Projects, in order to provide safe and reliable service.

Con:

- Without routine investment in upgrading and replacing water treatment infrastructure, there are greater risks of potential negative impacts on water quality.

The funding needed for the construction agreement is currently allocated within the Water Treatment Plant Improvements project in the Water Resources Capital Improvement Projects fund.

Staff recommends City Council adopt a resolution authorizing the City Manager to execute a construction agreement with Laughlin-Sutton Construction Company for the Mills River Water Treatment Plant Filter Media Replacement and Related Upgrades Project for the bid amount of $308,400 plus a 10% contingency in the amount of $30,840 for a total project budget in the amount of $339,240.

RESOLUTION BOOK NO. 38 -PAGE 233

C. RESOLUTION NO. 16-239 - RESOLUTION AUTHORIZING THE CITY MANAGER TO APPLY TO THE FRENCH BROAD RIVER METROPOLITAN PLANNING ORGANIZATION (MPO) FOR GRANTS OF FEDERAL TRANSPORTATION FUNDS, AND IF THE APPLICATIONS ARE SUCCESSFUL, TO ACCEPT GRANTS AND SIGN NECESSARY AGREEMENTS WITH THE MPO, OR STATE OR FEDERAL AGENCIES TO RECEIVE THE FUNDS

Summary: The consideration of a resolution authorizing the City Manager to apply to the French Broad River Metropolitan Planning Organization (MPO) for grants of Federal Transportation Funds.

The MPO has opened a call for projects to use Federal Section 5310 Enhanced Mobility of Seniors and Individuals with Disabilities (5310) funds with an application deadline of November 23, 2016. The application requires City Council's approval. If the applications are successful, this resolution is to accept the grants and sign the necessary agreements with the MPO and/or Federal and State agencies to receive the funds.

The MPO expects to have approximately $325,000 available in 5310 funds for 2017 and these funds are expected to be distributed via this competitive call for projects.

Staff is pursuing funding for the following projects:

- Paratransit service for $112,500; with 80% funded by the grant. This funding helps leverage funds to pay for the current city wide ADA service which is outside of the federal mandate of ¾ of a mile from a transit route.
- Installation of accessible pedestrian signal features at six intersections for $62,500, with 80% funded by the grant. This equipment allows people with low or no vision to use existing pedestrian signals.

If received, these funds would help funding an annual operating expense, ADA service, and a capital project, accessible signals, and both projects would be programmed in the FY 2018 budget; in each case, these funds would help offset costs of normal operations.

Each of these projects is ready to move forward as the funding becomes available.

The Transit Committee and Multimodal Transportation Commission endorsed this application.

Pros:

- Allows the City of Asheville access to up to $140,000 in federal funds for necessary services.
- Allows the City of Asheville to offset existing costs.

Con:

- Commits the city to funding to the match, at least for the time the applications are pending.

If successful, the grant applications will involve the spending of city funds to leverage between 80% grant funding for these projects, up to a grant value of $175,000. Matching funds would need to come from the Fiscal Year 2018 Transportation Department Budget.

City staff recommends City Council adopt a resolution authorizing the City Manager to apply to the French Broad River Metropolitan Planning Organization for grants of federal transportation funds, and if the applications are successful, to accept grants and sign necessary agreements with the MPO, or state or federal agencies to receive the funds.

RESOLUTION BOOK NO. 38- PAGE 235

D. RESOLUTION NO. 16-240 - RESOLUTION AUTHORIZING THE CITY MANAGER TO SIGN THE UNITED STATES GEOLOGICAL SURVEY APPLICATION TO NAME A CREEK IN THE KENILWORTH NEIGHBORHOOD AS "LOUISE GIBSON CREEK"

Summary: The consideration of a resolution authorizing the City Manager to sign the United States Geological Survey (USGS) application to name a creek in the Kenilworth Neighborhood.

As a part of its "Name that Creek" program, RiverLink recently worked with city staff to perform a community engagement process to gather nominations and identify a preferred name for the creek that flows southward along Norfolk Street and under Wyoming Road and Kenilworth Park to the Swannanoa River. The Kenilworth Residents Association identified the creek and the need to maintain and name it as a part of their organization's mission to enhance the quality, safety, and beauty of their neighborhood.

The Kenilworth neighborhood proposed three names and the community-based engagement process initiated by RiverLink and supported by the City of Asheville (City) resulted in the selection of the name "Louise Gibson Creek" to honor the accomplishments of a long-time resident of the area who died in 2009.

In order to complete the application to the United States Geological Naming Convention form to name this water body "Louise Gibson Creek", a local government official must sign the form to demonstrate support and to certify that the naming process followed USGS guidelines.

Because the request came from a Neighborhood Association and the creek is contained within a neighborhood, the request was referred to the City's Neighborhood Advisory Committee (NAC). On October 24, 2016, the NAC reviewed and unanimously approved the following motion:

We advise Council to support the proposed name of "Louise Gibson Creek" for the creek in the Kenilworth Neighborhood that flows through the neighborhood into the Swannanoa River.

Pros:

- Naming of a creek or stream can bring attention to its existence, help identify it as a part of neighborhoods ecosystem, and encourage environmental stewardship that enhances quality of life.
- Supporting this community-driven effort further develops partnerships between groups like RiverLink, the Kenilworth neighborhood and the City.

Con:

- None identified.

There is no fiscal impact related to this item.

Staff recommends City Council authorize the City Manager to sign the USGS form to name the creek in Kenilworth "Louise Gibson Creek".

RESOLUTION BOOK NO. 38 - PAGE 236

E. RESOLUTION NO. 16-241 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO AN CONTRACT WITH THE N.C. GOVERNOR'S HIGHWAY SAFETY PROGRAM FOR A GRANT TO FUND YEAR FOUR OF THE MULTI-JURISDICTIONAL DWI TASK FORCE INVOLVING THE POLICE DEPARTMENT AND THE BUNCOMBE COUNTY SHERIFF'S OFFICE

ORDINANCE NO. 4531 - BUDGET AMENDMENT TO FUND YEAR FOUR OF THE MULTI-JURISDICTIONAL DWI TASK FORCE

Summary: The consideration of (1) a resolution authorizing the City Manager to enter into a contract with the North Carolina Governor's Highway Safety Program (NCGHSP) for a grant to fund year four of the multi-jurisdictional DWI Task Force involving the City of Asheville Police Department (Police Department) and Buncombe County Sheriff's Office (Sheriff's Office); and (2) a budget amendment in the amount of $411,311 to establish a budget for the fourth year of the grant in the City of Asheville's (City) Fiscal Year (FY) 2017.

In the City of Asheville and Buncombe County, the number of impaired drivers has been a serious concern to citizens and law enforcement for many years. Since 2010, there have been 4,434 DWI arrests by Buncombe County law enforcement agencies, more than 1,024 traffic collisions that have involved impaired drivers and 18 fatal collisions as a result of an .08 Blood Alcohol Content (BAC) or higher. This grant is based on the Federal Fiscal Year of October 2017 through November 2018.

In reviewing these statistics, the NCGHSP contacted the Police Department and suggested a DWI Task Force with the goal of (a) reducing the number of DWI-related collisions, injuries and deaths in Asheville and Buncombe County, and (b) educating the public on impaired driving and its effects. This request would continue the last year of a four year grant in the amount of $411,311 in FY 2017 to cover the cost to pay for six officers for DWI enforcement and training (one sergeant and three officers from the Police Department and two officers from the Sheriff's Office). These six officers would conduct a number of important functions including the following:

- targeted DWI enforcement throughout Asheville and Buncombe County,
- DWI, seat-belt and night-time traffic safety checking stations throughout the County, and

- educational events at local high schools that would focus on teen driving safety, impaired driving, distracted driving, and seat-belt compliance.

The City of Asheville and Buncombe County are responsible for a total grant match of 50% or $205,655.50. The City's share of this match in FY 2017 is $133,676.

During its October 25 meeting, the Finance Committee unanimously approved moving the item to the City Council for its consideration and action during its November 8 meeting.

Pros:

- NCGHSP grant funds used to pay for training and pay 50% of the costs of salary and benefits to officers participating in the DWI Task Force.
- Potential reduction in impaired driving collisions, injuries and deaths throughout Asheville and Buncombe County.

Cons:

- Funding from NCGHSP is evaluated annually and not fully guaranteed beyond the first year.
- In year four, the City of Asheville will be required to match 50% of the personnel costs. The grant funding will incrementally decrease each year and after the four-year funding period, 100% of the personnel costs will be the City of Asheville's responsibility.

The FY 2017 general fund impact is $133,676 which is included in the Police Department's adopted FY 2017 budget. If the City chooses to maintain the DWI Task Force at the end of the four year grant, the City's FY 2018 general fund impact would be approximately $267,352 annually to permanently add one sergeant and three officers to the Police Department. The chart below outlines the general fund impact over the remainder of the grant.

Year 4	Fiscal Year 2017	$133,676
Year 5	Fiscal Year 2018	$267,352

Staff recommends City Council adopt (1) a resolution authorizing the City Manager to enter into a contract and accept grant funds through the North Carolina Governor's Highway Safety Program; and (2) a budget amendment in the amount of $411,311 to establish a budget for the fourth year of the grant.

RESOLUTION BOOK NO. 38 - PAGE 237
ORDINANCE BOOK NO. 31 - PAGE 1

F. RESOLUTION NO. 16-242 - RESOLUTION AUTHORIZING THE CITY MANAGER TO APPLY FOR FISCAL YEAR 2016-17 EMERGENCY SOLUTIONS GRANT FUNDS AND PROVIDE FUNDING TO SELECTED AGENCIES

Summary: The consideration of a resolution authorizing the City Manager to apply for Fiscal Year 2016-17 Emergency Solutions Grant (ESG) funds and provide funding to selected agencies.

The City of Asheville has been the fiscal sponsor for Emergency Solutions Grant funding since the 2012 ESG grant cycle. Through the State of North Carolina Division of Aging and Adult Services (DAAS), Housing and Homeless Unit these funds are made available to a regional fiscal sponsor to fund local agencies with capacity to provide emergency shelter and rapid rehousing services for individuals and families. For the FY 2016-17 ESG Grant cycle, the City of Asheville is eligible to apply for $121,992 on behalf of the Asheville-Buncombe Continuum of Care.

Funding recommendations are made to the Housing and Community Development Committee by the Homeless Initiative Advisory Committee. These recommendations follow a process that includes review and preliminary selection by the ESG Subcommittee of the Advisory Committee and joint endorsement by the Asheville Homeless Coalition and the Homeless Initiative Advisory Committee.

The following projects have been recommended for the 2016-17 ESG Grant Application:

2016-2017 ESG Funding Competition	Requests	Recommendations
Emergency Shelter		
Asheville Buncombe Community Christian Ministries	$ 17,930	$ -
Helpmate	$ 33,000	$ 28,671
Salvation Army	$ 20,125	$ 20,125
Rapid Re-Housing		
Helpmate	$ 28,000	$ 28,000
Homeward Bound	$ 63,196	$ 43,196
Homeless Management Information System		
City of Asheville	$ 10,000	$ 2,000
TOTALS	**$ 172,251**	**$ 121,992**

This distribution maintains level funding for existing ESG shelter programs, includes a new rapid re-housing program and continues to support the City's administration of the Homeless Information Management System (HMIS) database.

In the FY 2015-16 cycle, the City of Asheville initially received $118,965. An additional allocation of $28,372 was granted to further expand Rapid Re-housing services and $2,000 was designated for grant administration. Staff anticipates that an unknown amount of similar funds will be available for this cycle in Spring 2017.

Award of funds is conditional on the application being approved by the State. These conditions will include, but are not limited, to adequate documentation of required matching funds. Matching funds have been committed by the individual agencies, as well as, through the City's Community Development Block Grant (CDBG) and HOME Investment Partnership Program contracts.

Pro:

- The Emergency Solutions Grant program is a key funding resource for emergency shelter and for rapid rehousing of persons experiencing homelessness.

Con:

- None noted.

Program funding is entirely from the US Department of Housing and Urban Development, through the State of North Carolina. Existing Community Development Division staff will administer the program. No general funds are requested to support this program.

Staff recommends that Council approve the Housing and Community Development Committee's recommendation to make application on behalf of the Continuum of Care for $121,992 in FY 2016-17 Emergency Solutions Grant funds to the State Division of Aging and Adult Services (DAAS) and accept funds awarded, including any additional allocations.

RESOLUTION BOOK NO. 38 - PAGE 238

G. RESOLUTION NO. 16-243 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO AN AGREEMENT WITH THE N.C. GOVERNOR'S HIGHWAY SAFETY PROGRAM TO PURCHASE EQUIPMENT FOR THE TRAFFIC SAFETY UNIT AND COVER THE COSTS ASSOCIATED WITH THE REGIONAL LIAISON DUTIES

ORDINANCE NO. 4532 - BUDGET AMENDMENT TO PURCHASE EQUIPMENT FOR THE TRAFFIC SAFETY UNIT AND COVER THE COSTS ASSOCIATED WITH THE REGIONAL LIAISON DUTIES

Summary: The consideration of (1) a resolution authorizing the City Manager to accept awarded funds by the North Carolina Governor's Highway Safety Program (GHSP/ program) for the Traffic Safety Unit and cover the costs associated with training for officers and cover travel expenses for the Regional Liaison duties; and (2) an associated Special Revenue Fund budget amendment in the amount of $20,000.

The funds allocated through this program are designed to purchase equipment for the Traffic Safety Unit and cover the costs associated with training for officers and cover travel expenses for the Regional Liaison duties. The expenses created by the purchase of the equipment and the duty related travel are reimbursed through the National Highway Traffic Safety Administration. There is no local match of funds required for this grant.

The Police Department currently participates in the North Carolina Governor's Highway Safety Program Highway Safety campaigns. In order to facilitate better participation and efficiency of highway safety initiatives, a regional law enforcement network was created to enhance communication and effectiveness. The Police Department promotes highway safety statewide by designating a member of the department to serve as the regional liaison for GHSP Region 10 covering Buncombe, Henderson, Madison, Mitchell, Polk, Rutherford, and Yancey counties.

During its October 25 meeting, the Finance Committee unanimously approved moving the item to the full City Council for its consideration and action during its November 8 meeting.

Pros:

- Reimbursement revenue to cover the cost of (a) obtaining the needed equipment including Radars, CDR Software subscription, and laptop computers; and (b) necessary training and travel related to highway safety duties and operations.

Con:

- Dedicate the staff hours for the officer charged with the liaison duties to accomplish the goals stated in the grant contract.

This budget amendment is fully funded with grant revenue with no impact to the General Fund budget.

City staff recommends City Council adopt (1) the resolution authorizing the City Manager to accept funds and enter an agreement with N.C. Governor's Highway Safety Program to provide an officer to act as the Regional Law Enforcement Liaison; and (2) a budget amendment in the amount of $20,000 to establish the project budget for the North Carolina Governor's Highway Safety Program Regional Liaison.

RESOLUTION BOOK NO. 38 - PAGE 239
ORDINANCE BOOK NO. 31 - PAGE 3

H. RESOLUTION NO. 16-244 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A PUBLIC/PRIVATE PARTNERSHIP

STORMWATER AGREEMENT WITH THE DEVELOPER/OWNER OF RAD LOFTS, LLC, TO CONSTRUCT A NEW STORM DRAINAGE SYSTEM WITHIN THE PUBLIC RIGHT-OF-WAY ALONG ROBERTS STREET WHERE IT WILL END AT THE CONNECTION WITH AN EXISTING STORM DRAINAGE SYSTEM LOCATED ON ROBERTS STREET

ORDINANCE NO. 4533 - BUDGET AMENDMENT FOR PUBLIC/PRIVATE PARTNERSHIP STORMWATER AGREEMENT WITH RAD LOFTS LLC

Summary: The consideration of (1) a resolution authorizing the City Manager to execute a public/private partnership stormwater agreement with the developer/owner of RAD Lofts, LLC, to construct a new storm drainage system within the public right of way along Roberts Street; and (2) a budget amendment in the amount of $250,000 from Stormwater fund balance to provide budget authorization for the City of Asheville's (City) cost share amount.

RAD Lofts, a mixed use project including approximately 240 residential units and commercial space located at 146 Roberts St. in the River Arts District, received a Conditional Zoning approval on October 22, 2013 (Ordinance No. 4241) and an amended CZ approval on May 26, 2015 (Ordinance 4414). During the investigation of the future development for the Roberts Street Property, the, RAD Lofts development team approached the City concerning a potential partnership for new infrastructure located within the public right of way. A Land Use Incentive Grant ("LUIG") between the City and RAD Lofts, LLC was approved by Council on August 26, 2014.

As part of the presentation to City Council (Council) regarding the LUIG in August 2014, city staff discussed the stormwater partnership option. The proposed partnership with RAD Lofts would allow the developer to design and construct a new stormwater system by utilizing the property and relocating an existing box culvert currently running under its property to a better suited location on its property and connecting back to the city's right of way where the developer would install a new concrete box culvert. Once construction is complete, the City would reimburse the developer up to $250,000 for the work within the City's right of way. The cost estimate was developed by City staff in conjunction with the project designers for the work in the right-of-way.

Pursuant to North Carolina General Statutes §160A-320, the City may partner and contract with a developer/owner for public enterprise improvements that are adjacent or ancillary to a private land development project to reimburse the developer/owner for costs associated with the design and construction of such improvements in the public right of way. Such a contract is not subject to public bidding requirements if the public cost will not exceed $250,000 and the City determines that the public cost will not exceed the estimated cost for providing such improvements itself or that the coordination of separately constructed improvements would be impracticable.

City staff has determined that (1) the cost of constructing these improvements is $434,809 which exceeds the reimbursement costs ($250,000) for this proposed partnership; (2) the City does not currently have the staff capacity to complete this project within the time needed to meet the developer's schedule; and (3) as a result, this partnership is a benefit to the public.

Pros:

- Provides for the installation of new drainage infrastructure to be located within the public right of way

Cons:

- Requires City funding for a portion of the project cost
- The City will be responsible for the ongoing maintenance of this system

The total construction cost estimate for the portion of the project in the City's right-of-way is $434,809. A maximum of $250,000 for the portion of the project located in the public right of way is proposed to be funded by the Stormwater Utility Enterprise Fund using fund balance. The remaining cost of design and construction is proposed to be paid by the private property owners. The project will be completed by the developer's construction team.

By City policy, the Stormwater Fund must maintain a fund balance equal to 8% of annual expenses. Preliminary year-end estimates for FY 2015-16 indicate that Stormwater Fund balance will exceed the policy target by approximately $1.4 million. The $250,000 appropriation associated with this project will lower the estimated available amount to $1.1 million.

Staff recommends City Council adopt (1) a resolution authorizing the City Manager to execute a public/private partnership stormwater agreement with the developer/owner of RAD Lofts, LLC, to construct a new storm drainage system within the public right of way along Roberts Street; and (2) a budget amendment in the amount of $250,000 from Stormwater fund balance to provide budget authorization for the City's cost share amount.

RESOLUTION BOOK NO. 38 - PAGE 240
ORDINANCE BOOK NO. 31 - PAGE 5

I. RESOLUTION NO. 16-245 - RESOLUTION AUTHORIZING THE CITY MANAGER TO COMPLETE NEGOTIATIONS AND SIGN A CONTRACT WITH HAZEN AND SAWYER ENGINEERING FOR THE PROFESSIONAL SERVICES NEEDED FOR THE STORMWATER IMPROVEMENT PROJECT LOCATED IN THE EDWIN/CELIA/CANTERBURY ROAD AREA

Summary: The consideration of a resolution authorizing the City Manager to (a) complete negotiations and sign a contract with Hazen and Sawyer Engineering for the professional services needed for the design of a stormwater improvement project located in the Edwin/Celia/Canterbury Road Area; and (b) execute any easement documents necessary for the construction of the project and to petition for any stormwater grant opportunities associated with the construction of the project.

During heavy rainfall events, the Edwin/Celia/Canterbury neighborhood area experiences flooding issues as summarized below which has resulted in residents requesting flood mitigation improvements by the City of Asheville (City) within the area:

- The intersection of Edwin Place and Celia Place is flooded and impassable during intense rain events.
- The Canterbury Road area experiences high velocity waters which clog public drains and surface flow over the roadway.

In an effort to evaluate the City's infrastructure and provide a 10 year Capital Improvement Project (CIP) list for stormwater, the Public Works Department's Stormwater Division recently hired the professional team of Brown and Caldwell to develop a 10 year CIP list of projects. Through that process, the Edwin/ Celia/ Canterbury drainage improvement project was identified. This project combines the design of the Edwin and Celia Place drainage improvements, which was identified for year 1 of the CIP, with the Canterbury Road Drainage Improvement, identified for year 2 CIP, for an optimized stormwater quality and flood mitigation project approach. Both components will be designed with a focus on localized flood reduction and to provide additional water quality benefits. Upon completion of the design, staff will seek project funding opportunities such as Clean Water Management Trust Fund.

The City solicited Requests for Qualifications for professional services for the design of this drainage improvement project. Thirteen proposals were submitted which were reviewed and screened. Through that process, the top three proposals were selected for interviews. Following

the interview process, Hazen and Sawyer was identified and recommended for selection as the most qualified team.

The top three proposals were submitted by the following:

Hazen and Sawyer	Charlotte Office, NC
Mattern and Craig	Asheville, NC
WK Dickson	Raleigh Office, NC

Guided by a goal to serve as stewards of the environment, the City will maximize opportunities to implement green infrastructure practices and localized flood mitigation projects, as well as public private partnership funding opportunities.

Pros:

- Reduce flooding along Edwin/Celia/Canterbury.
- The project will provide green infrastructure and will look to provide localized flood mitigation.
- Provide public educational opportunities to promote stormwater quality and flood mitigation measures
- Utilize the stormwater utility fee for construction related projects

Con:

- The project will require partnerships to obtain stormwater easements for the improvements.
- Since this contract is for the design of the stormwater improvement project, the construction of the project will require additional funds.

The City's Stormwater Utility will be responsible for the cost for the professional services contract which will not exceed $692,300. Funding for this contract is included in the adopted Fiscal Year 2016-17 Stormwater Fund budget.

Staff recommends City Council adopt a resolution authorizing the City Manager to (1) complete negotiations and execute a contract with Hazen and Sawyer for the professional services associated with the design of a Edwin/Celia/Canterbury Road Stormwater Improvements Project in the amount of $602,000; (2) execute any change orders to this contract not to exceed 15% of the original contract amount ($90,300) for a total amount up to $692,300; and (3) execute any easements documents necessary for construction of the project and to petition for stormwater grant opportunities associated with the construction of this project.

RESOLUTION BOOK NO. 36 - PAGE 241

J. RESOLUTION NO. 16-246 - RESOLUTION AUTHORIZING THE CITY MANAGER TO CONVEY A SANITARY SEWER EASEMENT TO DDG REAL ESTATE LLC, FOR THE CONSTRUCTION OF TWO SINGLE-FAMILY HOMES ON DUNDEE STREET

Summary: The consideration of a resolution authorizing the City Manager to convey a sanitary sewer easement to DDG Real Estate LLC, for the construction of two single-family homes on Dundee Street.

Dandridge Giltz of DDG Real Estate LLC owns two vacant lots on Dundee Street and wishes to construct two single family homes on the lots. He approached the Metropolitan Sewer District (MSD) for the approvals needed to connect to the sewer system. He was informed that no sewer line currently exists on Dundee Street and the closest connection to an existing sewer line would cross adjacent city property located on Martin Luther King Jr. Drive. The developer then approached the City's Real Estate Division about the possibility of a sewer easement.

The total square footage of permanent easement being requested is 324 square feet, approximately 54 linear feet by 6 feet wide. The developer plans to build a single family home on each affected lot. This development conforms to the current zoning and existing single-family neighborhood land use.

City staff including staff from the Parks Department and Economic Development Department were consulted concerning this easement request and found no conflicts with the granting of this easement. The City property being impacted is already encumbered with service lines that cross city property to the nearest MSD line. A sizable unencumbered footprint still exists on this city property that could be programmed for other city uses, such as park space or affordable housing. The property has frontage on Martin Luther King Jr. Drive and ready access to city utilities.

To develop fair market value for the easement, staff in the City's Real Estate Division used six comparable sales to determine an average price per square foot for land. To reflect the easement value, a percentage of 50% was applied to the amount for a total of $1,113.00. The City also charges a standard real estate transaction fee of $280.00 for a final price of $1,393.00 for the easement, if granted.

Pro:

- The installation of this private sewer service line will allow the developer to build infill homes on Dundee Street and to connect to existing MSD infrastructure. The City of Asheville will have no maintenance responsibility on this sewer line.

Con:

- Granting an easement forfeits the development rights to that limited easement area, but there does not appear to be another feasible way for the developer to access sewer services.

The fiscal impact is unbudgeted revenue of $1,113.00 plus fee of $280.00 to benefit the General Fund.

City staff recommends that the City Council approve a resolution authorizing the City Manager to convey this easement.

RESOLUTION BOOK NO. 38 - PAGE 242

K. RESOLUTION NO. 16-247 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT WITH DR. PAUL MARTIN, MD, D/B/A ASHEVILLE ADDICTION CONSULTANTS, PA, FOR PHYSICIAN SERVICES AT THE CITY OF ASHEVILLE EMPLOYEE HEALTH CENTER

Summary: The consideration of a resolution authorizing the City Manager to enter into a contract with J. Paul Martin, MD, DBA Asheville Addiction Consultants, PA for physician services at the City of Asheville Employee Health Center (Employee Health Center).

In July of 2015, Council authorized a twelve-month contract with Dr. Martin for physician services at the Employee Health Center for a maximum annual contract value of $120,000. In July of 2016, Council authorized a six-month extension to this contract at a value of $60,000 to allow for the solicitation of proposals from physicians or practices to provide professional services.

A Request for Proposals (RFP) solicited offerings from physicians or physician practices to provide professional services at the Employee Health Center. Proposals were received from Dr. Martin (Martin) and Mission Health System, Inc (Mission). Two review panels were convened

to assess the offerings and receive presentations, and these panels included internal and external stakeholders including a community health expert, multiple union representatives, members of the Employee Advisory Committee (EAC), department representatives, senior management, and others.

In the assessment phase, the panels assessed the offerings based on the review criteria stipulated in the RFP, and recommended that both proposals move forward for further consideration. Reference checks were performed for both offerors, and both Mission and Martin passed this step successfully. Finally, there was an analysis of estimated costs. Based on Mission's proposed rate structure which adds variable costs for items identified in the RFP as part of the base scope of work, it has been determined that the total contract costs would be higher for Mission than Martin.

Dr. Martin's offering demonstrated the experience, qualifications, and understanding of the current program, and his rate-based cost proposal devoid of variable cost "extras" will provide the assurance that professional services can be delivered in a predictable and fiscally prudent manner.

For the purpose of delivering physician services at the existing Employee Health Center location, staff recommends the negotiation and execution of a contract with Dr. Martin to provide such professional services at the current service level. Although the proposed contract amount is within the value established in the existing appropriated budget, the contract value is at a level requiring the approval of City Council. Therefore, the recommendation shown below and the accompanying resolution require the consideration of Council.

Mission's proposal features qualified staff and innovative service delivery ideas, including approaches such as telemedicine and expanded service delivery via expanded office hours and geographically dispersed clinics. Mission is already working with the City on key activities such as the on-site delivery of nicotine cessation services. Human Resources (HR) staff is working on the preliminary scope of work for a study of the Employee Health Center, the Asheville Project, and the Wellness Program with a focus on health care outcomes, direct/indirect costs, and delivery mechanisms. The study, led by the HR Manager, will include key input from the new HR Director.

In conjunction with the above-referenced study, staff will explore the innovative ideas offered by Mission by the HR Department as part of a pilot program for expanded service delivery, especially in the areas of after-hours access to health care and geographic expansion of clinic availability. In the current fiscal year, any such pilot program would be paid within the existing departmental budget and within departmental contract approval limits.

The contract with Dr. Martin would support Council's strategic vision in two ways: First, the Thriving Local Economy section indicates "the City values its workers by paying living wages and offering benefits," and the Employee Health Center is a key benefit to staff. Second, the Smart City section indicates "we strive to control our costs and still provide the highest possible level of service," and this contract helps the cost containment effort for our health care program.

Pros:

- Maintains the current service level at the current hourly rate for the current fiscal year (with a COLA in future years), thus containing costs for this key contracted service; and
- Provides time for the proposed assessment of health care outcomes via the existing Employee Health Center & the Asheville Project (including existing program costs), plus an analysis of alternative employee health care delivery options.

Con:

- Postpones expanded service levels, locations, or delivery models.

Funding for physician services is included in the approved FY17 Health Insurance Fund budget, and the proposed expenditures are within the existing budget.

Staff recommends City Council adopt a resolution authorizing the City Manager to negotiate and execute a contract (and any amendments thereto) with J. Paul Martin, MD, DBA Asheville Addiction Consultants, PA for physician services for an initial period of one year with up to two one-year extensions. The contract value should not exceed $60,000 for the half-year period from 01/01/17 to 06/30/17 with subsequent fiscal years having a base value of $120,000 plus an annual cost of living adjustment (COLA).

RESOLUTION BOOK NO. 38 - PAGE 243

L. RESOLUTION NO. 16-248 - RESOLUTION DONATING MICROFILM OF CITY COUNCIL MEETING MINUTES FROM 1849 TO JUNE 24, 2008, TO PACK LIBRARY FOR THE NORTH CAROLINA COLLECTION

Summary: The consideration of a resolution donating microfilm of City Council meeting minutes from 1849 to June 24, 2008, to Pack Library.

The City Clerk's Office has obtained DVD's of all City Council minutes to save the wear and tear of the old minute books. In order to obtain the DVD's the N.C. Dept. of Cultural Resources required the purchase of microfilm before the City of Asheville (City) could purchase DVD's of the City Council meeting minutes from 1849 - June 24, 2008. The City Clerk's Office has DVD's of City Council meeting minutes from June 24, 2008, to present and had purchased same when this option became available.

Because the City does not have a microfilm machine within which to review the microfilm, the City Clerk's Office staff recommends that it is in the City's best interests to donate the microfilm to Pack Library for its North Carolina Collection.

Pros:

- Microfilm would be available for anyone to view.
- Further strengthens the partnership with Buncombe County.

Con:

- None noted.

The approximate value of the donated items is $364.

Staff recommends City Council donate the microfilm of City Council meeting minutes from 1849 to June 24, 2008, to Pack Library for the North Carolina Collection.

RESOLUTION BOOK NO. 38 - PAGE 245

M. RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT FOR THE CEDAR STREET BRIDGE REPAIR PROJECT

This item has been withdrawn from consideration.

Mayor Manheimer asked for public comments on any item on the Consent Agenda, but received none.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Councilman Smith moved for the adoption of the Consent Agenda, with the deletion of Consent Agenda "M". This motion was seconded by Vice-Mayor Wisler and carried unanimously.

ITEMS REMOVED FROM THE CONSENT AGENDA FOR INDIVIDUAL VOTES

III. PRESENTATIONS & REPORTS:

IV. PUBLIC HEARINGS:

V. UNFINISHED BUSINESS:

VI. NEW BUSINESS:

A. BOARDS & COMMISSIONS

Regarding the Asheville-Buncombe Historic Resources Commission, the following individuals applied for a vacancy: Helen Glenn Court, Christopher Brian Cobb, Leslie Humphrey and Kevin Saum. It was the consensus of City Council that this seat be re-advertised in hopes of achieving a more diverse pool of candidates.

Regarding the Homeless Initiative Advisory Committee, the following individuals applied for a vacancy: Dale Davidson, Sarah Lancaster, Emily Whitmire, John Sterling, John Klockner, R. Scott Owen, Kari Korp, Derek Towle, John Rakes, Gene Bell, Jill Moffitt, Beth Russo, Kevin Forner, Kerry Keihn, Gerry Leonard and Val Ball. It was the consensus of City Council that these vacancies be postponed until after the Homeless Initiative Advisory Committee has had an opportunity to make their recommendations.

Regarding the Soil Erosion/Stormwater Review Committee, the following individual applied for a vacancy: Jim Torpey. It was the consensus of City Council to reappoint Pete Hildebrand and re-advertise for the other seat. City Attorney Currin noted that the City Attorney's Office is researching the scope of the Committee and will present any findings to the Boards & Commissions Committee.

RESOLUTION NO. 16-249 – RESOLUTION APPOINTING A MEMBER AND CHAIR TO THE ALCOHOLIC BEVERAGE CONTROL BOARD

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that the term of Bill Lack as a member and Chair on the ABC Board expires on November 13, 2016. It is the responsibility of City Council to appoint the Chair.

The following individuals applied for a vacancy: Jan Davis, Beau Dean, Tod Leaven, James Ellis, Kevin Saum and Matt Massarelli.

It was the consensus of the Boards & Commissions Committee to appoint Jan Davis as a member and Lewis Isaac as Chair.

Councilwoman Mayfield moved to appoint Jan Davis as a member of the ABC Board to serve a three-year term, term to expire November 13, 2019, or until his successor has been appointed. This motion was seconded by Councilman Smith and carried unanimously.

Councilman Bothwell moved to appoint Lewis Isaac as Chair of the ABC Board to serve at the pleasure of City Council. This motion was seconded by Councilman Smith and carried unanimously.

RESOLUTION BOOK NO. 38- PAGE 245

RESOLUTION NO. 16-250 – RESOLUTION APPOINTING A MEMBER TO THE HUB COMMUNITY ECONOMIC DEVELOPMENT ALLIANCE BOARD

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said there currently exists a vacancy on the HUB Community Economic Development Alliance Board left by Mr. Jerome Jones, until August 22, 2018.

The following individuals applied for a vacancy: Kendra Sherrod, Rita Yerby, Mark Collins, Nick Hinton, Keaton Edwards, Zephyr Jost, Travis Smith, Hunter Goosmann and Tommy Dennison.

It was the consensus of the Boards & Commissions Committee to appoint Mark Collins.

Councilman Smith moved to appoint Mark Collins to serve the unexpired term of Mr. Jones, term to expire August 22, 2018, or until his successor has been appointed. This motion was seconded by Councilwoman Mayfield and carried unanimously.

RESOLUTION BOOK NO. 38- PAGE 246

RESOLUTION NO. 16-251 – RESOLUTION APPOINTING MEMBERS TO THE NEIGHBORHOOD ADVISORY COMMITTEE

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that the term of DeWayne Barton (representing 28806 or 28728 zip code); expired on July 1, 2016.

The following individuals applied for a vacancy: Carter Webb, Ken Miller and Fred Fisher Caudle.

It was the consensus of the Boards & Commissions Committee, and recommendation from the Neighborhood Advisory Commission, to appoint Ken Miller.

Vice-Mayor Wisler moved to appoint Ken Miller (representing 28806 or 28728 zip code); to serve a three-year term, term to expire July 1, 2019, or until his successor has been appointed. This motion was seconded by Councilman Smith and carried unanimously.

RESOLUTION BOOK NO. 38- PAGE 247

RESOLUTION NO. 16-252 – RESOLUTION APPOINTING A MEMBER TO THE PUBLIC ART & CULTURAL COMMISSION

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said there currently exists a vacancy on the Public Art & Cultural Commission left by Ms. Alyssa Dreyfus, until June 30, 2018.

The following individuals applied for a vacancy: Matthew Lands, Travis Smith, Shelley Schenker, Susan Dunlap, Chris Patton, Michael Carlebach, Laura Sellers, Emma Hutchens and Micah Mackenzie.

At the recommendation of the Public Art & Cultural Commission, it was the consensus of the Boards & Commissions Committee to appoint Micah Mackenzie.

Vice-Mayor Wisler moved to appoint Micah Mackenzie to serve the unexpired term of Ms. Dreyfus, term to expire June 30, 2018, or until his successor has been appointed. This motion was seconded by Councilman Young and carried unanimously.

RESOLUTION BOOK NO. 38- PAGE 248

RESOLUTION NO. 16-253 – RESOLUTION APPOINTING A MEMBER TO THE RECREATION BOARD

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said there currently exists a vacancy on the Recreation Board left by Ms. Kimberly Reed, until June 30, 2017.

The following individuals applied for a vacancy: Ken Miller, Tiffany DE'Bellott, Ali Mangkang, Beau Dean, Taylon Breeden and Lauren Weldishofer.

At the recommendation of the Recreation Board, it was the consensus of the Boards & Commissions Committee to appoint Tiffany DE'Bellott.

Vice-Mayor Wisler moved to appoint Tiffany DE'Bellott to serve the unexpired term of Ms. Reed, term to expire June 30, 2017, or until her successor has been appointed. This motion was seconded by Councilman Young and carried unanimously.

RESOLUTION BOOK NO. 38- PAGE 249

Closed Session

At 5:10 p.m., Councilman Young moved to go into closed session for the following reasons: (1) to prevent disclosure of information that is privileged and confidential, pursuant to the laws of North Carolina, or not considered a public record within the meaning of Chapter 132 of the General Statutes. The law that makes the information privileged and confidential is N.C.G.S. 143-318.10 (a)(3). The statutory authorization is contained in N.C.G.S. 143-318.11(a)(1); and (2) To consult with an attorney employed by the City about matters with respect to which the attorney-client privilege between the City and its attorney must be preserved. The statutory authorization is N.C. Gen. Stat. sec. 143-318.11(a)(3). This motion was seconded by Councilman Bothwell and carried unanimously.

At 5:31 p.m., Councilwoman Mayfield moved to come out of closed session. This motion was seconded by Vice-Mayor Wisler and carried unanimously.

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

VIII. ADJOURNMENT:

Mayor Manheimer adjourned the meeting at 5:31 p.m.

Magdalen Bullock
CITY CLERK

Esther Manheimer
MAYOR

Tuesday – December 13, 2016 - 5:00 p.m.

Regular Meeting

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Cecil Bothwell; Councilman Brian D. Haynes; Councilwoman Julie V. Mayfield; Councilman Gordon D. Smith; Councilman W. Keith Young; City Manager Gary W. Jackson; City Attorney Robin T. Currin; and City Clerk Magdalen Burleson

Absent: None

PLEDGE OF ALLEGIANCE

Mayor Manheimer led City Council in the Pledge of Allegiance.

I. PROCLAMATIONS:

A. EMPLOYEE RECOGNITIONS

City Manager Jackson recognized Jeff Staudinger for being awarded the Steven Whitesell Affordable Housing Professional of the Year; and Jon Fillman for being awarded the Certified Festival and Event Executive from the International Festivals & Events Association.

Mayor Manheimer thanked the employees on what they do on behalf of the City of Asheville and City Council. She was proud of City staff and looked forward to highlighting more accomplishments.

B. RESOLUTION NO. 16-254 - RESOLUTION AGAINST DISCRIMINATION AND INTIMIDATION

Mayor Manheimer read the following resolution: "Whereas, the City of Asheville takes great pride in being a welcoming and diverse community where all citizens can live and work without fear of physical violence, threats or intimidation; and Whereas, the City of Asheville believes that promoting diversity and inclusion in public policy benefits our community and its citizens in positive ways while the opposite puts the City and its citizens at risk; and Whereas, the City of Asheville is committed to treating every citizen equally and without regard to race, color, creed, religion, national origin, gender (including pregnancy), gender identity or expression, sexual orientation, age, familial status, or disability. NOW, THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF ASHEVILLE THAT (1) This Council is dedicated to ensuring that the City of Asheville remains a welcoming and diverse community where everyone is treated equally and with respect, and to that end states that: (a) Hate crimes, threats or intimidation of a criminal nature will not be tolerated; (b) Every citizen of this great City is called upon to demonstrate that intolerance and hatred will not be accepted within our community; and (c) Any person who is a victim of a crime, has witnessed a criminal act, or has information regarding a criminal act is encouraged to contact the appropriate law enforcement agency."

At the request of Councilwoman Mayfield, Director of Communications and Public Engagement Director Dawa Hitch said that the City will make the phone number for people to report observances easily accessible on the City's website.

When Mayor Manheimer asked for public comments, none were received.

Councilman Bothwell moved for the adoption of Resolution No. 16-254. This motion was seconded by Vice-Mayor Wisler and carried unanimously.

RESOLUTION BOOK NO. 38 – PAGE 250

II. CONSENT AGENDA:

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON NOVEMBER 8, 2016

B. RESOLUTION NO. 16-255 - RESOLUTION CERTIFYING AND DECLARING THE RESULTS OF THE SPECIAL BOND REFERENDUM ON THE BOND ORDERS AUTHORIZING THE ISSUANCE OF $32,000,000 GENERAL OBLIGATION TRANSPORTATION BONDS, AUTHORIZING THE ISSUANCE OF $25,000,000 GENERAL OBLIGATION HOUSING BONDS AND AUTHORIZING THE ISSUANCE OF $17,000,000 GENERAL OBLIGATION PARKS AND RECREATION BONDS HELD FOR THE CITY OF ASHEVILLE, NORTH CAROLINA, ON NOVEMBER 8, 2016

Summary: The consideration of adoption of a resolution certifying and declaring the results of the November 8, 2016, Special Bond Referendum on the Bond Order authorizing the issuance of $25,000,000 Housing Bonds, authorizing the issuance of $32,000,000 Transportation Bonds and authorizing the issuance of $17,000,000 Parks Improvement Bonds.

On August 9, 2016, the City Council conducted a public hearing and adopted a resolution approving the call for referendum on November 8, 2016, for $25,000,000 general obligation housing bonds, $32,000,000 general obligation transportation bonds and $17,000,000 general obligation parks improvement bonds.

The referendum was conducted and the Buncombe County Board of Election has presented their Canvass of Results of the Referendum.

The results are:

33,250 in favor of the housing bonds and 13,442 opposed,
36,151 in favor of the parks improvement bonds and 10,816 opposed,
35,377 in favor of the transportation bonds and 11,289 opposed.

These results will be advertised providing a 30-day period for any action or proceeding to challenge the regularity or validity of this special bond referendum.

This action furthers the City Council's strategic themes set forth in January, 2016, by providing funding to address transportation infrastructure needs, ensuring a high quality of life to the residents of the City of Asheville and addressing the City's affordable housing challenge.

Pros:

- Provides funding for transportation, parks and housing needs as identified in City master plans and Council strategic goals.
- Ensures City's compliance with North Carolina General Statutes.

Con:

- None.

A general obligation bond commits the full faith and credit of the City of Asheville to repayment of the bonded debt. Additional tax levy may be required to fund the debt service over the life of the bonds.

Staff recommends that Council adopt the resolution to certify and declare the results of the special bond referendum.

Assistant City Manager Cathy Ball and Director of Community and Public Engagement Dawa Hitch briefly updated the Council on the General Obligation (GO) Bonds implementation guiding principles of accountability, trust, equity and teamwork. In January 2017, an interim working team will be in place, along with a Council worksession. January-June 2017 the GO bond projects will be included in the 5-year Capital Improvement Plan and Operating Budget. In April Council will hold another budget worksession, with approval of the bond as part of the budget in June.

Councilwoman Mayfield thanked all the voters in Asheville who voted for the bonds.

RESOLUTION BOOK NO. 38 - PAGE 251

C. RESOLUTION NO. 16-256 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CONSTRUCTION CONTRACT WITH HARPER CORPORATION GENERAL CONTRACTORS FOR MISCELLANEOUS WATER TREATMENT PLANT UPGRADES PROJECT

Summary: The consideration of a resolution authorizing the City Manager to execute a construction agreement with Harper Corporation General Contractors for the Miscellaneous Water Treatment Plant Upgrades Project for the bid amount of $1,539,000 plus a 10% contingency in the amount of $153,900 for a total project budget in the amount of $1,692,900.

On October 4, 2016, the Water Resources Department (Department) issued an Advertisement for Bids for the Miscellaneous Water Treatment Plant Upgrades Project. The scope of work for this project includes, but is not limited to, all labor, materials, equipment, and incidentals required for:

(1) replacement of rate of flow controllers, butterfly valves and powered actuators for Filters 1-6 at the North Fork WTP;
(2) replacement of the backwash rate of flow controller and backwash pipe leak repair at North Fork;
(3) construction of backwash lagoon parshall flume flow meter, RTU and wireless transmitter at North Fork;
(4) construction of backwash lagoon ultrasonic level sensor flow meter, RTU, solar panel and wireless transmitter at the Mills River WTP;
(5) repair of leaks around pipe penetrations in the filter gallery wall at North Fork;
(6) construction of an 8-inch high pressure water line and fire hydrant and a 2-inch water line and yard hydrants at North Fork;
(7) architectural and structural building repairs at North Fork; and
(8) repair to stop a leak around inlet pipe penetration in the clearwell at North Fork.

In response to the Advertisement for Bids, the Department received two bids on October 24, 2016. Pursuant to N.C.G.S. § 143-132, three competitive bids are required for formal construction projects. Upon rebidding the project on October 25, 2016, the department received two bids on November 1, 2016, in response to the second advertisement. Companies responding were:

1. Harper Corporation General Contractors, Greenville SC – bid $1,539,000
2. M.B. Kahn Construction Company, Inc., Columbia SC – bid $1,626,626

Following a review of the bids by City Staff and the project engineers, Brown and Caldwell, Harper Corporation was selected as the lowest responsible, responsive bidder in the amount of $1,539,000. A contingency amount of $153,900 has been added for a total project budget in the amount of $1,692,900.

Pros:

- The upgrades planned for this project will ensure that the treatment plants comply with current and proposed drinking water regulations to improve the reliability of the process and to address the rehabilitation needs of aging facilities.
- This project is aligned with the City and the Department's goal of continued investment and improvement of the City's water system through Capital Improvement Projects, in order to provide safe and reliable service.

Con:

- Without routine investment in upgrading and replacing water treatment infrastructure, there are greater risks of potential negative impacts on water quality.

The funding needed for the construction agreement is currently allocated within the Water Treatment Plant Improvements project in the Water Resources Capital Improvement Projects fund. The engineer's estimate for this project was approximately $1.5 million.

Amount Available for Construction	$2,416,283
Amount Needed for Construction Agreement	$1,692,900
Remaining Project Budget	$ 723,383

The funds remaining in the Project Budget will be used to fund additional water treatment plant construction projects.

Staff recommends City Council adopt a resolution authorizing the City Manager to execute a construction agreement with Harper Corporation General Contractors for the Miscellaneous Water Treatment Plant Upgrades Project for the bid amount of $1,539,000 plus a 10% contingency in the amount of $153,900 for a total project budget in the amount of $1,692,900.

RESOLUTION BOOK NO. 38 - PAGE 256

D. RESOLUTION NO. 16-257 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE AN AMENDMENT TO EXTEND THE EXISTING LEASE AGREEMENT WITH DEWINE SEEDS-SILVER DOLLAR BASEBALL FOR USE OF MCCORMICK FIELD STADIUM FACILITY AND PARKING LOT FOR THE ASHEVILLE TOURISTS BASEBALL TEAM

Summary: The consideration of a resolution authorizing the City Manager to execute an amendment to extend the existing lease agreement between DeWine Seeds-Silver Dollar Baseball (DeWine Seeds-Silver Dollar) and the City of Asheville (City) for use of McCormick Field stadium facility and parking lot for the Asheville Tourists baseball team for a period of two years.

In 2012, the City entered into a lease agreement with DeWine Seeds-Silver Dollar for the McCormick Field stadium facility and parking lot at 30 Buchanan Place (identified as PIN # 9648-47-8566-00000) for the operation of the Asheville Tourists minor league baseball team through December 2016. Staff from the Parks and Recreation Department and DeWine Seeds-Silver Dollar have discussed a two year lease extension through December 2018 which would continue the (a) annual Lease fee of $1.00 per year; and (b) existing lease terms including the City's obligation to provide general facility maintenance.

In April 2016, a Facilities Need Assessment was completed for the McCormick Field Stadium which outlined specific capital improvements. If the extension is approved, the City and DeWine Seeds-Silver Dollar will discuss the plans for and financing of future improvements, and identify a proposed capital improvement plan and appropriate lease structure for City Council consideration.

Pros:

- DeWine Seeds Silver-Dollar is committed to minor league baseball
- Continues a beneficial use of city property with an existing tenant

Con:

- None

The amendment which extends the existing lease includes an annual lease payment of $1.00

Staff recommends City Council adopt a resolution authorizing the City Manager to execute an extension to the lease agreement between the City and DeWine Seeds-Silver Dollar.

Mr. Tim Sadler felt this would be a good opportunity to work with DeWine Seeds-Silver Dollar regarding a parking deck in the South Slope area.

RESOLUTION BOOK NO. 38 - PAGE 258

E. RESOLUTION NO. 16-258 - RESOLUTION FIXING DATE OF PUBLIC HEARING FOR JANUARY 10, 2017, ON THE QUESTION OF VOLUNTARY ANNEXATION OF PROPERTY LOCATED AT 12 LOOP ROAD PURSUANT TO N.C. GEN. STAT. SEC. 160A-31

Summary: The consideration of a resolution fixing the date of a public hearing on January 10, 2017, for the voluntary annexation of property located at 12 Loop Road in south Asheville.

The property owner, English Oak Industrial LLC, has petitioned the City of Asheville for the annexation of 4.8 acres located at 12 Loop Rd. and identified in the Buncombe County tax records as PIN 9643-87-5405. The property is contiguous to the primary corporate limits of the City of Asheville and is subject to the standards for annexation of contiguous areas contained in North Carolina General Statutes (NCGS) 160A-31.

Pursuant to NCGS 160A-31, such petitions must be investigated by the City Clerk for sufficiency in accordance with state law. This investigation has been completed and the Certificate of Sufficiency accompanies this petition request.

The next step in this process is for the Asheville City Council to fix the date for the public hearing on this matter. Should the City Council decide to proceed with this request, the effective date for the annexation would be January 10, 2017.

Considerations:

- Provides for the orderly growth of the City and the tax base through the acceptance of appropriate areas into the corporate limits where owners desire annexation.
- Complies with the 2025 Comprehensive Plan in that it supports the strategy of promoting voluntary annexations of developing areas.
- Allows for the subject property to be combined with property already located in the city's jurisdiction, providing frontage on a key commercial corridor.

This request includes the voluntary annexation of 4.8 acres of commercial property into the City which will provide new property tax revenue with only a very small increase to services. There is a commercial retail project proposed for this property which, if developed as currently proposed, would generate approximately $20,000-25,000 in city property tax based on comparable commercial properties in the city.

City staff recommends that City Council adopt the resolution setting the date of January 10, 2017, for a public hearing on the annexation petition.

RESOLUTION BOOK NO. 38 - PAGE 259

F. RESOLUTION NO. 16-259 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO AN AGREEMENT WITH B. ALLEN CONSTRUCTION INC. FOR THE CONSTRUCTION IMPROVEMENTS FOR THE ASHEVILLE WILDLIFE PARK - VISITOR RECEPTION AND WELCOME PLAZA

ORDINANCE NO. 4534 - BUDGET AMENDMENT FOR THE CONSTRUCTION IMPROVEMENTS FOR THE ASHEVILLE WILDLIFE PARK - VISITOR RECEPTION AND WELCOME PLAZA

Summary: The consideration: of 1) a resolution authorizing the City Manager to enter into a contract with B. Allen Construction, Inc. to construct a new Visitor Reception and Welcome Plaza at the Western North Carolina Nature Center (aka Asheville Wildlife Park) in the amount of $1,029,382.00 plus a contingency of $87,000.00 for a total of $1,116,382.00; 2) a budget amendment in the amount of $80,000 from The Friends of the Western North Carolina Nature Center, Inc. to budget an additional contribution toward this project.

The entrance to the Nature Center needs improvements due to the age of the facility as well as the growing visitor attendance at this facility. A new entrance will provide more parking on the entrance level, be more accessible to the visitor and greatly improve the visitor's experience arriving and departing the Nature Center. The improvements include a new visitor center and plaza, restroom improvements, exhibit improvements, a new storage shed, a new parking lot and a network of sidewalks.

In support of this capital improvement project, the City issued an Advertisement for Bids for construction of the renovations and received the bids plus alternates.

1. B. Allen Construction, Candler, NC ($1,029,382.00)
2. Carolina Specialties Construction, LLC, Hendersonville, NC ($1,208,964.00)
3. Buchanan and Sons, Inc., Whittier, NC ($1,410,000.00)

After thorough review and evaluation, staff selected B. Allen Construction, Inc., Candler, NC, as the lowest, responsible bidder. The base bid plus alternates accepted was $1,029,382.00.

In January 2016, City Council approved a budget amendment in the amount of $627,000 to budget initial funding from the Friends of the Western Nature Center for this project. Approximately 50 percent of the initial contribution was funded by a grant awarded to the Friends by the Tourism Development Authority in the Tourism Product Development Fund. The remaining 50 percent of the contribution was funded by institutional and donor directed funds. The budget amendment included with this staff report will increase the Friends contribution to this project by another $80,000, to a new total of $707,000. The City's contribution toward the project, which totals $461,197, will come from the Adopted FY 2016-17 Parks and Recreation Department Capital Improvement Budget.

Pros:

- Improves pedestrian and vehicular accessibility and code compliance issues
- Improves the visitor's experience entering and exiting the facility in terms of staging groups, ticketing and animal exhibits
- Provides more ample parking closer to the entrance to the Nature Center
- Provides a new iconic place-making experience entering with the visual backdrop of the barn

- Contributes towards improvements noted in the 2020 Vision Master Site Plan for the Western North Carolina Nature Center

Con:

- During improvements, some modest interruptions in viewing several of the animal exhibits can occur
- There will be an increase in maintenance and utilities for the new visitor center

The chart below summarizes the budget for this project. As noted above, the City's contribution toward the project will come from the Adopted FY 2016-17 Parks and Recreation Department Capital Improvement Budget.

Revenues:	
Friends of the Western NC Nature Center	$707,000
City Contribution	$461,197
Total Revenues	$1,168,197
Expenses:	
Pre-Construction	$51,815
Construction Contract	$1,116,382
Total Expenses	$1,168,197

Staff recommends that the City Council adopt: 1) a resolution authorizing the City Manager to enter into a contract with B. Allen Construction, Inc., to improve the Asheville Wildlife Park – Visitor Reception and Welcome Plaza for an amount of $1,029,382.00 plus a contingency of $87,000.00 for a total of $1,116,382.00; and 2) a budget amendment in the amount of $80,000 from The Friends of the Western North Carolina Nature Center, Inc. to budget an additional contribution toward this project.

ORDINANCE BOOK NO. 31 - PAGE 7

G. RESOLUTION NO. 16-260 - RESOLUTION ADOPTING THE 2017 CITY COUNCIL MEETING SCHEDULE

Summary: The City Council Formal Meetings will be held at 5:00 p.m. on the 2nd and 4th Tuesdays of each month in the Council Chamber – 2nd Floor of City Hall Building, Asheville, N.C.

In addition, the City Council Organizational Meeting will be held at 4:00 p.m. on Tuesday, December 5, 2017, in the Council Chamber – 2nd Floor of City Hall Building, Asheville, N.C.

The following meetings are hereby cancelled: Tuesday, July 11, 2017; Tuesday, August 8, 2017; and Tuesday, December 26, 2017.

RESOLUTION BOOK NO. 38 - PAGE 263

H. RESOLUTION NO. 16-261- RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CONTRACT WITH BUCKEYE BRIDGE, LLC CONSTRUCTION GROUP, INC. FOR THE CEDAR STREET BRIDGE REPAIR PROJECT

Summary: The consideration of a resolution authorizing the City Manager to execute a contract with Buckeye Bridge, LLC Construction Group, Inc. for the amount of $295,685 for the project known as Cedar Street Bridge Repair, City of Asheville ENG-13-14-003.

The City of Asheville (City), in coordination with the N.C. Dept. of Transportation (NCDOT) performs safety inspections on City owned bridges every two years. These inspections are used to help the Public Works Department identify any defects or maintenance issues that arise. The early detection of these issues help with longevity and safe use of the bridges. The Cedar Street Bridge was recently inspected and found to have deterioration that will require immediate repairs.

The scope of this project includes structural repairs to sections of steel girders, bearing beams, and anchor plates, and sections of the concrete piers they rest upon. Preventative maintenance will also be performed, such as restoring the protective coating to steel members, and cleaning and patching the concrete driving surface. This will stop water infiltration and prevent future damage. The guard rail will be replaced and updated to the latest guardrail standard for safety if hit by a vehicle. The general maintenance issues will be performed to help maintain the longevity and usable life of the bridge.

The project was advertised on October 18, 2016, with a bid opening on November 3, 2016, but could not be awarded at that time due to unresponsive bids and formal purchasing requirements for the next highest bidder. The project was re-advertised on November 4th and opened on November 22, with the following results:

Buckeye Bridge, LLC Construction Group, Canton, NC	$295,685
Lee construction of the Carolinas, Pineville, NC	$331,925
NHM Constructors, LLC, Asheville, NC	$491,108

Pros:

- Confirms Council's commitment invest in Asheville's roads and streets.
- Provides safe transportation and access to communities and attractions to maintain a vibrant city.

Con:

- Construction may cause temporary traffic congestion along this corridor.

The $500,000 was budgeted for this project in the Capital Fund. This amount was approved by City Council and included in the Fiscal Year 2016-2017 budget. The $200,000 difference will cover associated railroad fees (including permitting, insurance, and flaggers), and additional remediation/preventative maintenance work that the contractor may identify while working on the bridge. Of the above amount, $34,000 is already set aside for the design engineer to provide on-site inspections of the structural work, and additional design services if needed.

City staff recommends City Council adopt a resolution awarding the contract to Buckeye Bridge, LLC Construction Group, Canton, NC and authorizing the City Manager to execute a contract in the amount of $295,685.00 with Buckeye Bridge, LLC Construction Group. for the project known as Cedar Street Bridge Repair and further authorizing the execution of any change orders to said contract which may arise during execution of said project, up to the budgeted amount.

RESOLUTION BOOK NO. 38 - PAGE 264

I. ORDINANCE NO. 4535 - ORDINANCE AUTHORIZING AMENDMENTS TO THE DEPARTMENT OF WATER RESOURCES WATER POLICIES

166

ORDINANCE NO. 4536 - ORDINANCE AMENDING THE FEES & CHARGES MANUAL - WATER RESOURCES DEPARTMENT SECTION

RESOLUTION NO. 16-262 - RESOLUTION AMENDING THE WATER RESOURCES DESIGN & CONSTRUCTION MANUAL

Summary: On August 19, 2016, the North Carolina Supreme Court issued a decision invalidating certain water and sewer "impact fees," which were being charged by the Town of Carthage. See Quality Built Homes, Inc. v. Town of Carthage, ___ N.C. ___, 789 S.E.2d 454 (2016). As a result of this decision, municipalities throughout North Carolina are reviewing their water and sewer fee policies to assure compliance with the Court's decision. In Asheville, the City's Water Department and Finance Department, with the assistance of the City Attorney's Office, undertook an analysis of the current fees, which are a part of the City's Department of Water Resources Water Policies (the "Water Policies"), the City of Asheville Fees and Charges Manual (the "Fees Manual"), and the City of Asheville Water Resources Design & Construction Manual (the "Design & Construction Manual"), in light of the Quality Built decision. In performing this analysis, it was discovered that certain parts of these documents should be amended. Some of these amendments were in response to the Quality Built case, while other amendments are considered to be advisable for clarification purposes and more efficient administration.

I. Overview of Law Relating to Water Fees and the Quality Built Case.

The furnishing of water service by municipalities, and the ability to impose fees relating to the same, is governed by the North Carolina General Statutes. In particular, N.C. Gen. Stat. § 160A-312(a) allows cities "to acquire, construct, establish, enlarge, improve, maintain, own, operate, and contract for the operation of [a water system] to furnish services to the city and its citizens." Such services, may also upon certain conditions, be provided outside a city's corporate limits. N.C. Gen. Stat. § 160A-314(a) provides:

> "A city may establish and revise from time to time schedules of rents, rates, fees, charges, and penalties for the use of or the services furnished by any [water supply or distribution system]."

The North Carolina Supreme Court has long held that fees and charges which are for the use of the water system, and the services provided by a municipality's water department are permitted. See, e.g., Town of Spring Hope v. Bissette, 305 N.C. 248, 287 S.E.2d 851 (1982). Quality Built, however, further explained the scope of what types of fees are lawful under § 160A-314(a).

The impact fees which were being collected by the Town of Carthage in Quality Built were to be used for, among other things, the "future expansion" of the Town's water and sewer systems. The fees had to be paid at the time of subdivision approval, "regardless of whether the landowner ever connect[ed] to the system or whether Carthage ever expand[ed] the system." Quality Built, 789 S.E.2d at 455. The impact fees were likewise in addition to regular water and sewer tap fees and monthly service charges.

In declaring the impact fees invalid, the Court found that the language of § 160A-314(a) only allows a municipality to charge for "the use of or the services furnished by any [water supply or distribution system]." This charging power is "operative in the present tense," and, thus, limits fees to those for "the contemporaneous use of water . . . services - not to collect fees for future discretionary spending." 789 S.E.2d at 458 (emphasis added)). The Court distinguished the power afforded to water and sewer "authorities," which allows fees for services "to be furnished." 789 S.E.2d at 458 (quoting N.C. Gen. Stat. § 162A-88 (emphasis added). The words "to be" are not included in the statutory grant of power to municipalities. The ordinance at issue in Quality Built invoked "prospective charging power," because the fees were for the future expansion of the system, which might not ever occur. The fees were likewise not paid at the time of actual

connection to the system, thus, predated an actual need. The Court did reaffirm its holding in the Bissette case, explaining that fees for "services furnished" does encompass necessary improvements to the water system, so long as these are improvements for an existing system, without which the Town could not continue to provide service.

II. Relevant City of Asheville Water Policy, Fees Manual and Design & Construction Manual Provisions.

The City's Fees Manual contains a section which sets forth the fees charged by the Water Resources Department which are required to obtain, among other things, water connections and water service. Staff's review of these fees indicated that one fee should be removed pursuant to the Quality Built case, and that several other amendments to the Water Policies, Fees Manual and the Design & Construction Manual are also needed to more clearly describe certain fees, explain their purpose and facilitate more effective administration.

A. Pump Station/Control Valve Installation Fee.

Section IV of the Water Policies is entitled "EXTENSION POLICY." Subsection B.5. references a "pump station / control valve station maintenance fee," which requires a pump station/control valve station maintenance fee to be paid for all new pumping stations and control valve installations. This fee is intended to cover the future costs of operating and maintaining the pumps and associated equipment. While this fee is paid at the time of the water tap, it appears to relate to services "to be furnished" in the future. See Quality Built. For that reason, all of this subsection should be removed from the Water Policies.

Subsection A. of Section W8 of the Design & Construction Manual, entitled "WATER BOOSTER PUMP STATIONS," also references a "Pump Station Maintenance Fee" which is required to be paid prior to granting final plan approval. For the reason stated above, the paragraph referencing this fee should be removed from this subsection.

B. Development Fee.

Section VIII of the Water Policies is entitled "CONNECTION AND SERVICE FEES." One of the fees that is currently charged for a new connection is called a "Development Fee." See Water Policies Section VIII B.2., p. 53. That fee is defined as follows:

> Development Fee: In addition to a new Connection fee, a non-refundable development fee in the amount set forth in Schedule I shall also be paid by a Customer for a new Connection. This fee is applied to assist toward defraying the costs associated with expansion of the Water System and water service. A development fee shall not be required if a new Connection is the same or smaller than an existing active Connection for the Premises which is in good repair.

The Water Department Staff, along with its outside accountant, engaged in an analysis to determine how the funds collected as a "Development Fee" are actually expended. That analysis revealed that, although the definition of "Development Fee" states that one of its purposes is "expansion of the Water System," none of the Development Fees are actually applied for that purpose. Instead, these fees are used exclusively for the other purpose in the definition, i.e., "defraying the costs associated with . . . water service." All of the Development Fees collected have been used to defray costs for the current and contemporaneous production and delivery of water and the provision of water service to customers of the City water system, so are lawful under Quality Built. Nonetheless, it is our recommendation that the fees be renamed and redefined to clarify and bring the Water Policies in line with actual practice. In addition, the last sentence of the section should be amended to clearly identify the users who are exempt from this fee. The amended provision states as follows:

System Maintenance and Capital Fee: A non-refundable System Maintenance and Capital Fee in the amount set forth in Schedule I, shall be paid by a Customer for a new Connection. This fee is used to contribute to the expenses incurred for the development and rehabilitation of water system assets, which are critical for the contemporaneous and current production and delivery of water, and provision of water services. Water system assets which are critical for the contemporaneous and current production and delivery of water and provision of water services include, but are not limited to: transmission lines, production facilities, storage reservoirs, and distribution system pump stations. These fees will also be used, in combination with other appropriate sources of revenue, to pay debt service on bonds to fund water system asset projects, which assets are likewise critical for the contemporaneous and current production and delivery of water, and provision of water services. If an existing customer requires a new Connection only to replace an existing Connection, for which a System Maintenance and Capital Fee or equivalent fee was previously paid, and the subject property does not require a larger service Connection than the existing Connection, the System Maintenance and Capital Fee shall not be required.

All other references to the term "Development Fee" in the Water Policies and the Fees Manual should also be revised to instead reference "System Maintenance and Capital Fee." References to the term "Development, Service and Other Fees" should be revised to "Development Review, Service and Other Fees." These additional references are found at page 25 of the Water Policies and at the Water Resources Department table of contents page and pages 141, 143, 147 and 149-52 of the Fees Manual.

A. Technology Fee.

One of the fees in the Fees Manual which is required for a "New Tap and Meter," and a "Drop-In Meter," is a "4% Technology Fee." See Fees Manual pp.149-150.. That fee is intended to cover the present costs associated with processing applications to obtain water service, including but not limited to administrative costs and costs for software to allow for the electronic processing of these applications. This fee, although lawful under Quality Built, is more appropriately classified as a part of "Water Engineering Fees," which is also located on page 150 of the Fees Manual. The Water Engineering Fees section also references a technology fee, but the amounts from the respective sections should be combined and located only in the Water Engineering Fees section. Therefore, the 4% Technology Fee should be removed from the "New Tap and Meter" and "Drop-In Meter" sections. A new total Technology Fee for the above-stated purposes is in the process of being calculated and will be added to the Water Engineering Fees section in the near future.

ORDINANCE NO. 4535 - ORDINANCE BOOK NO. 31 - PAGE 9
ORDINANCE NO. 4536 - ORDINANCE BOOK NO. 31 - PAGE 14
RESOLUTION NO. 16-262 - RESOLUTION BOOK NO. 38 - PAGE 265

J. RESOLUTION NO. 16-263 - RESOLUTION DONATING THE SILENT FILM ENTITLED CONQUEST OF CANAAN, CONSISTING OF FOUR REELS OF 35 MM FILM, TO THE LIBRARY OF CONGRESS

Summary: The consideration of a resolution donating 4 reels of 35mm film, titled *The Conquest of Canaan*, to the Library of Congress for adequate storage and preservation.

Released by Paramount Pictures in August of 1921, the four reels of film consist of a 35 mm black and white silent movie that was based on Booth Tarkington's novel *The Conquest of Canaan*, which was written in 1905. The movie was filmed in and around Pack Square in downtown Asheville, and features scenes of the old courthouse building on Pack Square, First Baptist Church, and the old Swannanoa-Berkeley Hotel building.

The film was later discovered in the 1980s to be in the possession of Russian film company Sovexportfilm by WLOS producer William Banner, who created a television special featuring the film and its history.

The Historic Resources Commission was able to obtain what is thought to be the only remaining copy of the film from Sovexportfilm in 1988. Since obtaining the film, the Historic Resources Commission has overseen reproduction of the film to VHS and compact disc formats.

The historic 35 mm film has been stored at University of North Carolina at Asheville D.H. Ramsay Special Collections since 2003. Because the University of North Carolina at Asheville and the City of Asheville lack appropriate long-term storage facilities, they feel it is in the best interests of the City of Asheville to donate the four reels of film to the Library of Congress for adequate conservation and permanent storage.

Pro:

- The film will be preserved and will be available for anyone to view.

Con:

- None noted.

Invoice dating from September 15, 1988, indicate the film value at $1,260 at the time it was acquired.

Staff recommends City Council donate 4 reels of 35mm film, titled *The Conquest of Canaan*, to the Library of Congress.

Mr. Andrew Fletcher spoke in support of this donation.

RESOLUTION BOOK NO. 38 -PAGE 267

K. ORDINANCE NO. 4537 - TECHNICAL BUDGET AMENDMENT TO APPROPRIATE FUNDING FOR PRIOR YEAR CONTRACTS AND PURCHASE ORDERS THAT ROLLED FORWARD TO FISCAL YEAR 2016-17

Summary: The consideration of a technical budget amendment in each of the City's annual operating funds to appropriate from restricted and assigned fund balance the required budget authorization for prior year contracts, purchase orders, and other carry-over appropriations that rolled forward to Fiscal Year (FY) 2016-17.

As part of its ongoing operations, the City enters into various contracts and purchase order agreements throughout the fiscal year. When these contracts and purchase orders are entered into, budget funds are encumbered for the full amount of the expected purchase. Often these contract and purchase orders are not fully completed and paid in one fiscal year. North Carolina General Statutes provide authorization for local governments to reserve the unexpended portion of these prior year commitments and roll those budgets forward to the new fiscal year.

As a part of the FY 2015-16 annual audit, staff identified prior year commitments and carry-over appropriations to roll forward to FY 2016-17, and these dollar amounts were deducted from the unassigned fund balance amounts that were reported in the Comprehensive Annual Financial Report. The technical budget amendment will provide authorization to officially appropriate these amounts in the FY 2016-17 budget for each of the City's annual operating funds.

Pro:

- Provides budget authorization for prior year contracts, purchase orders, and other carry-over appropriations that rolled forward to FY 2016-17.

Con:

- None.

As noted above this budget amendment simply provides budget authorization for prior year commitments which have already been restricted or assigned in the City's FY 2015-16 financial statements. There is no impact on unassigned/available fund balance in the City's operating funds.

City staff recommends City Council approve the technical budget amendment in each of the City's annual operating funds to appropriate from restricted and assigned fund balance the required budget authorization for prior year contracts, purchase orders, and other carry-over appropriations that rolled forward to FY 2016-17.

ORDINANCE BOOK NO. 31 - PAGE 23

L. RESOLUTION NO. 16-264 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ADJUST THE IN-KIND SUPPORT FOR THE STRATEGIC EVENT PARTNERSHIP WITH THE ASHEVILLE SUSTAINABLE AGRICULTURE PROJECT - 2017, 2018 AND 2019

Summary: The consideration of a resolution authorizing the City Manager to adjust the in-kind support for the strategic event partnership with the Asheville Sustainable Agriculture Project – 2017, 2018 and 2019.

In June, 2016, City Council approved a partnership agreement with the Appalachian Sustainable Agriculture Project (ASAP), a local non-profit organization. Under this agreement, the City committed a value of $16,747 of in-kind resources per year to assist ASAP with the costs of event production. In specific, ASAP is proposing to relocate the Asheville City Market to North Market Street, an effort designed to expand the market presence and scope. In-kind support provided to special events commonly includes permits, reserved property use, police, fire, sanitation services, traffic control equipment, and parking meter closures. However after gaining a more detailed understanding of City policy relating to fees for the closure of parking meters, ASAP asked for additional in-kind support to cover the costs.

ASAP has requested an additional in-kind benefit of $9,360 to cover the parking meter closure fees based on the current number of parking meters within the area of street planned for use, and the City's current fee policy for daily parking meter closures. The Planning & Economic Development Committee indicated that the additional in-kind value, if authorized by City Council, would be specific to the Asheville City Market, at its desired location on North Market Street, and for the express purpose of accommodating the necessity for closure of parking meters during hours of event use.

Pros:

- Allows the City to leverage resources for programming and events that serve a wider and more diverse audience
- Supports local food policy and non-profit organizations

Con:

- Lost revenue for parking fees

Associated expense and revenue impacts for the proposed increase in in-kind are accounted for under existing department budgets. As noted, the specific impact of this adjustment is the loss of $9,360 in revenue in the Parking Services Fund.

The Planning & Economic Development Committee recommends City Council adopt a resolution authorizing the City Manager to adjust the strategic event partnership agreement with the Appalachian Sustainable Agriculture Project to include an additional $9,360 value of in-kind support assigned specifically to fees associated with the closure of parking meters for the Asheville City Market on North Market Street for partnership years 2017, 2018 and 2019.

RESOLUTION BOOK NO. 38 - PAGE 268

M. RESOLUTION NO. 16-265 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ADJUST THE IN-KIND SUPPORT UP TO 10% IN THE EVENT THAT CITY FEES INCREASE OR CITY SERVICE REQUIREMENTS RESULT IN ADDITIONAL COSTS TO EVENTS CONDUCTED UNDER THE 2017-19 STRATEGIC EVENT PARTNERSHIP AGREEMENTS

Summary: The consideration of resolution authorizing the City Manager to adjust in-kind support up to 10% in the event that city fees increase or city service requirements result in additional costs to events conducted under the 2017-19 Strategic Event Partnership agreements.

In June, 2016, City Council approved partnership agreements with 8 local non-profit organizations. Under each agreement, the City committed a specific value of in-kind resources per year to assist the partner organizations produce festivals and special events designed to further City Council's 2036 vision. Staff will monitor and track the utilization of in-kind resources throughout the year for each partnership, working with the partners to manage their approved budgets.

Staff has found that the maximum in-kind amount may be insufficient to cover all City fees and charges for events planned within the year. When a financial gap exists, the partner organization is expected to identify other funding sources or make modifications to their plans. As an organizational partner, the City also works to assist where possible in that process.

It has been a City practice in other contracts to authorize a contingency, allowing for small adjustments. Such adjustments may be needed as a result of increases to City fees and requirements over the next three years, or for increases resulting from event expansion and attendance growth. A contingency reduces staff time and the need to return to City Council in the case of small overages in original budget approvals. The Planning & Economic Development Committee considered this item and voted unanimously to move forward to City Council a recommendation for a 10% contingency within the City's 2017-2019 Strategic Event Partnership Agreements, acknowledging cost increases over 10% will be invoiced to the partner.

Pros:

- Reduces staff time and the need to return to City Council for small overages in original budget approvals
- Tempers the potential that non-profit partners will need to issue reimbursement payments to the City for minor overages
- Moderates the impact of small increases in City fees or city service requirements

Con:

- Lost revenue for permits, parking fees and property use fees

In-kind support and fee discounts result in lost revenue. The impact of this action is estimated to increase lost revenue from $151,854 per year to $167,050 per year.

Staff recommends City Council adopt a resolution authorizing the City Manager to approve a resolution permitting 10% contingency for partnership years 2017, 2018 and 2019.

RESOLUTION BOOK NO. 38 - PAGE 269

N. ORDINANCE NO. 4538 - BUDGET AMENDMENT FOR THE ADVANCED BUILDING AND HVAC CONTROLS PROJECT AT THE U.S. CELLULAR CENTER

Summary: The consideration of a budget amendment to transfer funds from the General Fund to the Civic Center Fund for the purpose of installing advanced building and HVAC controls at the U.S. Cellular Center for the bid amount of $22,780 plus a 10% contingency in the amount of $2,278 for a total project budget of $25,058.

The Office of Sustainability is charged with leading the City's effort in meeting City Council's Resolution 11-77 which established a 4% annual carbon footprint reduction goal. By identifying energy saving projects and strategically funding them from the Green Revolving Fund (housed in the General Fund), the Office of Sustainability can better achieve this goal.

The current HVAC controls system at the US Cellular Center was installed in the 1980's and has surpassed its useful life. By installing an advanced, web-based controls system, USCC staff will be more able to observe the conditions and control the operations of their facility remotely. In addition to HVAC, this new system will have the ability to integrate lighting controls, door security control, and energy monitoring. The new controls system, especially when paired with upgraded HVAC equipment in the future, will enable substantial energy savings at the City's most energy intensive facility.

The winning bid for the controls upgrade from Haynes Controls, a division of MB Haynes Corporation, was $22,780. Sustainability staff recommend transferring an additional 10% for contingency costs, bringing the total budget transfer to $25,058.

Pro:

- Enables the US Cellular Center staff to more closely monitor and control building operations, increasing the potential for energy savings

Con:

- None can be identified

The funds needed for this project were allocated as an FY17 priority by the Office of Sustainability staff for the Green Revolving Fund.

City staff recommends City Council adopt a budget amendment to transfer funds from the General Fund to the Civic Center Fund for the purpose of installing advanced building and HVAC controls for the bid amount of $22,780 plus a 10% contingency in the amount of $2,278 for a total project budget of $25,058.

ORDINANCE BOOK NO. 31 - PAGE 25

O. RESOLUTION NO. 16-266 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ACCEPT AND SIGN A GRANT AGREEMENT WITH THE BUNCOMBE COUNTY TOURISM PRODUCT DEVELOPMENT AUTHORITY FROM THE 2015-16 TOURISM PRODUCT DEVELOPMENT FUNDS FOR THE FRENCH BROAD RIVER GREENWAY - WEST

Summary: The consideration of a resolution authorizing the City Manager to accept and execute a grant agreement with Buncombe County Tourism Development Authority (BCTDA) for $700,000 in Tourism Product Development Funds (TPDF).

The purpose of the TPDF Grant is to provide funding assistance for construction projects that will create new and additional lodging room nights in Buncombe County. In 2015, Council approved a TPDF application for up to $2.5 million in grant funds to help construct $5 million worth of Riverfront Destination Development projects.

In response to the TPDF Phase II application, the BCTDA announced an award of $1.7 million to the City of Asheville (City) in late October 2015 for the Riverfront Destination Development Project. An initial grant of $1 million was authorized by City Council with the understanding that a grant for the additional $700,000 was expected from the BCTDA in 2016 when additional funds were available.

The $700,000 grant provides funding for the development of the French Broad River Greenway – West Connector. The grant agreement outlines the required construction start and end dates, the construction cost reimbursement schedule, annual reporting requirements, and other legal requirements.

Pros:

- City Council has identified implementation of riverfront redevelopment capital investments as a key strategic goal for the city
- The TPDF grant award is a significant funding opportunity that leverages the City's investment to move forward on these investments
- The City has shown a commitment to implementing these projects as part of the multi-year Capital Improvement Program (CIP)

Con:

- The grant is a reimbursement grant, which means that for cash flow purposes the City will need to allocate its own capital dollars first and structure its financing to cover these cash needs

Funding from grants and partnerships is an important component of the City's multi-year CIP. This $700,000 grant will be used to provide funding for a key project in the CIP. Dedicated funding for the matching amount is included in the capital program.

City staff recommends City Council authorize the City Manager to accept and execute the grant agreement with BCTDA.

RESOLUTION BOOK NO. 38 - PAGE 270

P. RESOLUTION NO. 16-267 - RESOLUTION APPROVING AMENDMENTS TO THE HOUSING TRUST FUND POLICY

Summary: The consideration of a resolution approving amendments to the Housing Trust Fund Policy.

Housing Trust Fund policy is reviewed periodically to make it responsive to the City's residents' housing needs, the housing market and housing developer demand. The following changes are recommended to the Policy for adoption for the current application cycle.

Priorities Recommendations

Household Income: The development of units serving the lowest income households will have a higher priority.

Multi-modal access: Include access to multi-modal transportation, such as greenways, in the transit corridor priority.

Other Priorities: Remove priority for "large scale development" in light of growing interest in affordable smaller-scale, in-fill development.

Eligible Activities Recommendations

Purchase and Rehab of Existing Housing: Add "purchase" of existing multi-family housing as an eligible activity. Preservation of existing affordable housing, whether subsidized or not, is a critical component of a comprehensive affordable housing strategy.

Container homes, tiny homes, and other innovative housing structures: Add these building types as eligible for Housing Trust Funds.

Affordability Recommendations

Period of Affordability: Establish a minimum 15 year period of affordability for rental housing assisted with Housing Trust Funds.

Maximum Loan Amounts- Maintain the current maximum loan per affordable rental unit of $20,000, but decouple the per-unit request from the maximum loan amount. Raise the maximum rental development loan amount to $1 million.

Interest Rates- Establish a fixed 2% interest rate for all loans this year (except for "Special Term Loans").

Special Terms- Allow for the deferral of principal for the committed term of affordability. For example, LIHTC projects, with a committed term of affordability of 30 years, would have the option of making interest only payments for a term of 30 years. The interest-only option would carry a rate of interest as described above.

Clarify the Fund policy regarding accepting subsidy Vouchers and qualifying for Special Terms: *If units pledged as part of the Special Terms financing are occupied by households without a voucher limiting their personal rent contribution, then the actual rent charged can be no more than the 60% AMI standard as established annually by the City of Asheville.*

Application Process

Third party cost analysis- Instead of at application, require third-party construction cost estimates no later than 14 days prior to loan closing.

Underwriting

Public comment on site plan and elevations- Because public comment is already incorporated into the regulatory process, remove this condition.

90 day commitment- Currently, commitments are for 90 days with staff extensions possible for up to 6 months. Increase the time frame for staff extensions to 12 months from date of loan approval. Additional extensions may be granted by the HCD Committee.

Closing and Funding

Funding land acquisition at closing- Allow funding for land acquisition at closing only if the following circumstances are met: 1) The appraised value of the land is 110% or more of the total of all funds used for acquisition; 2) The land is zoned for the proposed project without additional

permissions needed; 3) All construction financing is committed; 4) The City is in no lower than second security position; 4) a realistic construction schedule, with a start date of no later than three months from closing has been submitted, reviewed and approved by staff prior to closing.

Post-Closing

Worker interviews- Remove this provision from the policy.

The Housing and Community Development Committee reviewed these Policy amendments at their meeting on November 15, 2016, and unanimously recommended approval.

Pros:

- The proposed amendments continue to keep the Housing Trust Fund responsive to the changing needs of the affordable housing marketplace and responsive to developers seeking to create affordable housing.

Con:

- None.

Raising the maximum amount potentially available for a project to $1 million could have an impact on the number of projects able to be funded. However, the anticipated increase in the funds available as a result of the passage of the affordable housing bond could mitigate this.

Staff recommends that Council approve the proposed amendments to the Housing Trust Fund Policy.

Assistant Director of Community & Economic Development Jeff Staudinger responded to questions raised by Council regarding the reasoning behind the minimum 15 year period of affordability.

RESOLUTION BOOK NO. 38 - PAGE 271

Q. RESOLUTION NO. 16-268 - RESOLUTION AUTHORIZING THE PRIVATE SALE OF CITY-OWNED REAL PROPERTY ON PISGAH VIEW ROAD TO ASHEVILLE AREA HABITAT FOR HUMANITY FOR AFFORDABLE HOUSING

Summary: The consideration of a resolution authorizing the private sale of City-owned property on Pisgah View Road to the Asheville Area Habitat for Humanity for affordable housing.

On June 9, 2015, City Council approved the sale of 16 acres owned by the City of Asheville in west Asheville, near the intersection of Pisgah View and Deaverview Roads, to Asheville Area Habitat for Humanity. A Purchase and Sales Agreement between the City and Habitat was executed on October 8, 2015. The approved purchase price was $458,300, with $300,000 to be provided in cash and the remainder to be loaned to Habitat, and subsequently transferred on a pro-rata basis as mortgages on homeowners in the development.

The agreement included two City conditions: that Habitat explore greater density than the 55 units proposed at that time, and that Habitat also explore permanent affordability of all or some of the units. The agreement allowed for Habitat to propose different terms of purchase than indicated above, in light of that investigation and other due diligence Habitat was to perform to determine the feasibility of the project.

Habitat subsequently moved forward with a design and stakeholder engagement process, coordinated by the Asheville Design Center. City staff participated in elements of that process.

As a result of that process, Habitat is now moving forward with site planning for a minimum of 101 units, including duplex and triplex townhouse style units. Andy Barnett, Habitat's Executive Director, has also agreed to participate on a steering committee to explore permanent affordability options.

Habitat has submitted a revised purchase terms proposal. Habitat proposes that the City lend to Habitat the agreed upon entire purchase price of $458,300 at 0% interest and that the loan subsequently be transferred on a pro-rata basis as loans from the City to the new homeowners in the development.

The primary rationale for this is that Habitat estimates that a total subsidy from non-Habitat resources of approximately $1.6 million will be needed to achieve affordability for households at 50%- 70% of median income. By providing this subsidy now in the form of 100% financing of the land, the City can assist Habitat to conserve its other resources for later use, reduce interest costs, and generally lower other subsidy for the project.

The Housing and Community Development Committee reviewed Habitat's revised request at their meeting on November 15, 2016, and unanimously recommended approval.

Pros:

- The new proposed terms of sale will support the construction of over 100 new homes affordable to low-income households;
- The terms will enable Habitat to reduce costs of borrowing, and help produce affordable housing;
- The City funds will be secured by second mortgages that will be due upon sale of the property, and therefore will not negatively affect the affordability of the homes.

Con:

- The original terms called for a cash payment of $300,000 at the time of sale to Habitat. These funds, which were programmed for the Housing Trust Fund, will not be available as projected.

As noted above, anticipated funds to be designated to the Housing Trust Fund will not be available. However, the anticipated increase in the funds available as a result of the passage of the affordable housing bond could mitigate this.

Staff recommends the final approval of the sale of City-owned land located at Pisgah View and Deaverview Roads and acceptance of Habitat's request to finance the purchase price of the Cedar Hill property, to be used 100% for affordable housing for households with income at 80% or less of median income.

RESOLUTION BOOK NO. 38 - PAGE 281

R. RESOLUTION NO. 16-269 - RESOLUTION AUTHORIZING THE CITY MANAGER TO CONVEY A QUIT CLAIM DEED TO VINOD PATEL FOR PROPERTY LOCATED AT 1103 BREVARD ROAD AND STRADLEY MOUNTAIN ROAD

Summary: The consideration of a resolution authorizing the City Manager to convey a quit claim deed to Vinod Patel for any claim that the City has on real property located at 1103 Brevard Road and Stradley Mountain Road.

The property located at 1103 Brevard Road (PIN 9626-64-8826) is improved with one commercial building and three single family houses on 1.43 acres. At some point, a portion of the property was utilized as a water pump station. This pump station was abandoned in place in 2005 when a new station was installed at a higher elevation. On review of the title to the property

at 1103 Brevard Road, it appears that no easement or conveyance of any kind was ever granted to the City of Asheville for this pump station.

The property is being transferred to a new owner and the purchaser is seeking to remove any claim that the City may have to this abandoned pump station. The Water Department has concluded that the City no longer has any use for the abandoned station at this location and it is fully disconnected from the main water system. Without an easement or deed for the pump station, the abandoned building and historical use represent a cloud on the fee holder's title. To resolve this matter, the City Council may authorize a deed to quitclaiming all government interest in the property.

Pros:

- Resolves ownership issues.
- Removes liability issues associated with abandoned station.

Con:

- None noted.

City staff recommends City Council approve a resolution authorizing the City Manager to convey a quit claim deed to Vinod Patel for any claim that the City has on real property located at 1103 Brevard Road and Stradley Mountain Road.

RESOLUTION BOOK NO. 38 - PAGE 282

S. RESOLUTION NO. 16-270 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CONTRACT WITH MATTERN AND CRAIG INC. FOR THE NEW LEICESTER HIGHWAY SIDEWALK DESIGN PROJECT

Summary: The consideration of a resolution authorizing the City Manager to execute a contract with Mattern and Craig, Inc. for the amount of $190,310.00 for the project known as New Leicester Highway Sidewalk Design, City of Asheville TR-15-16-001.

This contract will allow for the design of sidewalk alongside New Leicester Highway (US-63), from Patton Avenue to the City limit where, very little sidewalk currently exists. This sidewalk is identified as a needed linkage in the 2005 Pedestrian Plan Update, and the need for sidewalk informal paths visible on the shoulders of the road. Also, existing ART bus stops on the west side of New Leicester Highway are not currently served by sidewalk.

The scope of this project includes the development of design drawings, construction documents and bid documents. The contract provides environmental certifications and documents required by the Federal Highways Administration, and obtains all required State and City of Asheville Permits.

The City of Asheville followed a qualifications based selection process, and requested designers submit Letters of Interest for this project on April 11, 2016. Five responses were received: Davenport Engineering, Mattern and Craig, TGS Engineers, Vaughn and Melton and Wetherill Engineering. A selection team consisting of City staff determined Mattern and Craig to be the most qualified firm to handle this project.

Pros:

- Provides a design and bid documents for the construction of sidewalk in an area with a demonstrated need for safe pedestrian access.
- Designs sidewalk that will provide pedestrian connection to bus stops that are currently not served by a sidewalk.

Con:

- None.

The cost estimate for this design was $280,000, with an additional $42,000 (15%) for contingency, for a total of $322,000. $350,000 was budgeted for the design portion of the New Leicester Highway project in the Capital Fund. This amount was approved by City Council and included in the Adopted Capital Improvement Program.

The difference between the budget amount and the contract amount is $159,690. A portion of this amount will cover the cost of additional Geotechnical and Structural Engineering services to be added after the schematic design phase. These engineering services are required to overcome topographical challenges presented in this corridor, and cannot be estimated until after the initial alignment is selected. Any remaining funds will be used for inspection services during construction.

City staff recommends City Council adopt the resolution awarding the contract to Mattern and Craig Inc. and authorizing the City Manager to execute a contract and any change orders to said contract which may arise during execution of said project up to the project budget amount of $350,000.

RESOLUTION BOOK NO. 38 - PAGE 283

T. RESOLUTION NO. 16-271 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CONTRACT WITH ESKOLA, LLC. FOR THE WILLIAM DEBRUHL WATER TREATMENT PLANT FACILITY IMPROVEMENTS PROJECT

Summary: The consideration of a resolution authorizing the City Manager to execute a construction agreement with Eskola, LLC for the William DeBruhl Water Treatment Plant Facility Improvements Project for the bid amount of $171,700.00 plus a 10% contingency in the amount of $17,170 for a total project budget in the amount of $188,870.

On November 3, 2016, the Water Resources Department (WRD) issued an Advertisement for Bids for the William DeBruhl Water Treatment Plant Facility Improvements Project. The scope of work for this project includes, but is not limited to, all labor, materials, equipment, and incidentals required for removal and replacement of the existing modified bitumen roof of the treatment building and pumping station, the repointing of various cracks and separations within the façade of the treatment facility, and pumping station building, lintel repairs, façade investigation on the treatment building, and the repair of the column support within the filter gallery.

In response to the Advertisement for Bids, the department received three bids on November 18, 2016. Companies responding were:

3. Eskola, LLC, Morristown TN – bid $171,700
4. Rike Roofing Service, Inc., Charlotte NC – bid $198,900
5. Gilbert Engineering Company, Statesville NC – bid $411,000

Following a review of the bids by City Staff and the project engineers, GHD, Eskola, LLC was selected as the lowest responsible, responsive bidder in the amount of $171,700. A contingency amount of $17,170 has been added for a total project budget in the amount of $188,870.

Pros:

- The upgrades planned for this project will address the rehabilitation needs of an aging facility.

- This project is aligned with the City and the WRD goal of continued investment and improvement of the City's water system through Capital Improvement Projects, in order to provide safe and reliable service.

Cons:

- Without routine investment in upgrading and replacing water treatment infrastructure, there are greater risks of potential negative impacts on water quality.

The funding needed for the construction agreement is currently allocated within the Water Treatment Plant Maintenance project in the Water Resources Capital Improvement Projects fund. The engineer's estimate for this project was approximately $200,000.

Amount Available for Construction	$200,000
Amount Needed for Construction Agreement	$188,870
Remaining Project Budget	$ 11,130

Staff recommends City Council adopt a resolution authorizing the City Manager to execute a construction agreement with Eskola, LLC for the William DeBruhl Water Treatment Plant Facility Improvements Project for the bid amount of $171,700 plus a 10% contingency in the amount of $17,170 for a total project budget in the amount of $188,870.

RESOLUTION BOOK NO. 38 - PAGE 284

U. RESOLUTION NO. 16-272 - RESOLUTION TO ACCEPT FUNDS FROM THE A MONTFORD NEIGHBORHOOD ASSOCIATION TO CONSTRUCT AND INSTALL TWO BUS SHELTERS

ORDINANCE NO. 4539 - BUDGET AMENDMENT FROM MONTFORD NEIGHBORHOOD ASSOCIATION

Summary: The consideration of a resolution to accept privately raised monies ($12,543.12) from the Montford Neighborhood Association to partially fund the construction, and installation of two custom bus shelters; and associated budget amendment in the amount of $25,086.25 to set up the project.

In May 2016, members of the Montford Neighborhood Association approached staff regarding the installation of two bus shelters at the three-way intersection of Montford Ave/ Cullowhee St/ Soco St. There are existing concrete bus shelter pads in these locations that were installed as part of a Traffic and Pedestrian Enhancement project that was completed in 2015. Because these pads are located in the Montford Historic District (MHD), any bus shelters must comply with Historic Resources Commission design guidelines; therefore the shelters must be custom-made as the City's current shelter designs do not comply with the MHD design guidelines.

The Montford Neighborhood Association donated design plans for the two shelters which have been approved by Transit Staff and the Historic Resources Commission, and are currently being reviewed by the Development Services Department. The Montford Neighborhood Association is also offering a donation of $12,543.12 to cover 50% of the cost of construction and installation of the two shelters. This donation has been approved by the board of the Montford Neighborhood Association and is awaiting Asheville City Council approval to accept the funds. The total cost of the project is budgeted at $25,086.25 with remaining funds coming from Traffic Safety funding in the amount of $12,543.13, in the existing Transportation Department General Fund budget.

Pros:

- Improves access to transit and overall quality of service.

- Enhances the neighborhood's sense of place, by conforming to Historic Resources Commission design guidelines.
- Reduces the public cost of the improvements by using private donations to fund part of the project.
- Partnership that allows local residents to help shape the character of their neighborhood.

Con:

- None.

The fiscal impact is in the amount of $12,543.13 from the Traffic Safety fund in the existing Transportation Department General Fund budget.

City staff recommends City Council authorize the City Manager to accept privately raised monies from the Montford Neighborhood Association to partially fund the construction, and installation of two custom bus shelters; and a budget amendment in the amount of $25,086.25 to set up the project in the Transit Capital Projects Fund and appropriate the donations and the City contribution to the project.

Councilman Smith thanked the Montford Neighborhood Association for raising funds for this purpose.

RESOLUTION BOOK NO. 38 - PAGE 286
ORDINANCE BOOK NO. 31 - PAGE 27

V. RESOLUTION NO. 16-273 - RESOLUTION SUPPORTING THE EXPANDED VISION AND CONCEPT OF THE FONTA FLORA STATE TRAIL BEING EXTENDED TO ASHEVILLE VIA MORGANTON AND MARION

Summary: The consideration of a resolution supporting the expanded vision and concept of the Fonta Flora State Trail being extended to Asheville via Morganton and Marion.

In 2015, the NC State Legislature submitted and passed legislation to designate the Lake James Loop Trail in Burke County as a NC State Trail. The NC Division of Parks and Recreation recommended that the concept of the Trail be expanded to extend from Morganton to Asheville to create a regional trail and connection. The Division also suggested that the Lake James Loop Trail be renamed the Fonta Flora State Trail to administratively separate it from Lake James State Park and to reflect the linear nature of the conceptual trail.

To date, the extension of the Fonta Flora State Trail has been adopted by the Cities of Marion, Morganton, Black Mountain, Glen Alpine, and Old Fort. Burke and McDowell Counties have also adopted Resolutions of support for the Trail. Representative partners have approached the City of Asheville staff to ask if the City of Asheville would be in favor of supporting the extension of the trail to the Asheville area.

The State Parks Act (GS 113-44.9) defines the types of units in the State Parks System to include State Parks, State Natural Areas, State Recreation Areas, State Trails, State Rivers and State Lakes.

The proposed Fonta Flora would be a State Trail, not a State Park. Whereas a State Park is operated and managed by the Division of Parks and Recreation, the Fonta Flora State Trail represents a partnership among multiple agencies, landowners and local governments, working together to implement a shared vision. Part of a State Trail may be managed by the Division of Parks and Recreation, but segments of the trail that cross property controlled by others will continue to be managed by those other landowners. NC State Trail designation also gives the NC Division of Parks and Recreation the enhanced ability of the State to help coordinate and facilitate the work of the other partners.

The alignment of the trail would go from McDowell County into Buncombe via the Point Lookout Trail that terminates in Ridgecrest. It would then follow NC 70 and the Swannanoa River to the Asheville area where it could join the Wilma Dykeman Riverway.

There is no request for the implementation of this extension of the Fonta Flora Trail at this time. The trail partners are only seeking a resolution of support for the concept of the extension of the Fonta Flora State Trail to the Asheville area.

Pros:

- Funding from the Park and Recreation Trust Fund exclusively set aside for state trails and parks and the Federal Recreational Trails Grant Program could be available for costs to create, maintain, and manage this extension in city boundaries.
- Authorization of the Fonta Flora State Trail may improve our ability to receive grants.
- Tourism studies have shown that hiking and biking tourists tend to stay in lodging longer and choose to support small businesses more than tourists that arrive in automobiles.
- Asheville would be a destination terminus of a NC State Trail and the intersection of three State Trails – Fonta Flora, French Broad River, and Mountains-to-Sea.

Con:

- There are no negative impacts for this resolution to support.

There is no fiscal impact to support this resolution.

Staff recommends that City Council approve a resolution supporting the extension of the Fonta Flora State Trail to Asheville.

RESOLUTION BOOK NO. 38 - PAGE 287

W. ORDINANCE NO. 4540 - ORDINANCE GRANTING A FRANCHISE TO SLIDR, LLC FOR THE OPERATION OF A LOW SPEED VEHICLE SERVICE WITHIN THE CITY OF ASHEVILLE

Summary: The consideration of an ordinance granting a franchise agreement for the operation of a low speed vehicle shuttle service within the City of Asheville.

Recently, City staff found out that a low speed vehicle shuttle service began operating in Asheville without a franchise agreement. City staff immediately contacted the business owner and a meeting was held on October 26, 2016 that included the business owner, his attorney, the Transportation Department, the Planning Department, and the Legal Department. It should be noted that the business owner was not trying to avoid following the City's regulations; he thought he had already covered all of the bases.

Although a main component of the company's business model is the ability to sell third-party advertising on the outside of the vehicles, the business owner acknowledges that this type of advertising is prohibited by the City's sign ordinance and he wants to proceed with the franchise agreement process. Staff has granted the business owner a temporary approval to operate the service until and if the franchise agreement is approved.

By definition (NCGS # 20-4.01(27)h), a low speed vehicle is a four-wheeled electric vehicle whose top speed is greater than 20 mph but less than 25 mph. It is **not** a golf cart! The vehicle(s) must be equipped with headlamps, stop lamps, turn signal lamps, tail lamps, reflex reflectors, parking brakes, rearview mirrors, windshields, windshield wipers, speedometer, seat belts, and a vehicle identification number. In addition, the vehicle(s) must be insured, registered and licensed in North Carolina.

The business is known as Slidr, LLC and they have five vehicles designated for the Asheville market. Each vehicle has seating for the driver and five passengers and only three vehicles will be operating at the same time because the vehicles must be rotated to allow for recharging. The shuttle service will operate between the hours of 11:00 am and 11:00 pm seven days per week. The City reserves the right to change the hours of operation at its sole discretion with a 30-day notice. The shuttle service will provide **free** point-to-point transportation services (drivers receive their compensation from tips) to its passengers within the coverage area which includes the Central Business District, Biltmore Village, and the River Arts District.

Currently, two low speed vehicle franchise agreements have been approved; however, the Land of Sky Shuttle has not begun operating and the Hilton Garden Inn Shuttle is limited to their guests only.

The business owner has worked closely with the Transportation Department, the Legal Department, and the Asheville Police Department and at this time, all concerns have been addressed. He is very committed for the shuttle service to be successful and he intends to work closely with staff to make any necessary tweaks if needed.

The Public Safety Committee reviewed this franchise agreement on November 28, 2016, and they unanimously endorsed it to move forward to City Council for consideration and approval.

Pros:

- Provides a much needed point-to-point transportation service with the Central Business District, Biltmore Village, and the River Arts District.
- The shuttle service is free (drivers receive their compensation from tips).
- Relieves and/or minimizes traffic congestion.

Con:

- There are no known cons.

There is no known fiscal impact for the subject franchise agreement.

Staff recommends that City Council approve an ordinance granting a franchise agreement to Slidr, LLC for the operation of a low speed vehicle shuttle service within the City of Asheville.

Mr. Mike Trombino, owner of Slidr, said that this is a free on-demand ride service using 100% electric carts operating in a coverage area which includes the Central Business District, Biltmore Village, and the River Arts District. They now operate off a telephone number but soon they will have an app. They have one driver and five passengers and only go 26 miles per hour. Drivers work for tips and the company makes money off their advertising. Drivers are guaranteed a living wage for Buncombe County - $10.09. However, drivers are now averaging between $19-24/hour.

When Councilman Haynes asked if Mr. Trombino would be willing to pay the Just Economics living wage of $13.00 without benefits, he said that if that is the living wage, then he would be happy to guarantee that amount.

Mr. Tim Sadler hoped the City can work with Slidr for an amendment to the franchise agreement to allow advertising on the outside of the vehicle with the contingency of being able to offer free rides.

X. RESOLUTION NO. 16-274 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CONTRACT WITH 4 SEASONS SITE & DEMO INC. FOR THE RADTIP BUILDING DEMOLITION - PHASE II PROJECT

Summary: The consideration of a resolution authorizing the City Manager to execute, on behalf of the City of Asheville, a contract in the amount of $138,515 with 4 Seasons Site & Demo Inc. for the project known as RADTIP Building Demolition – Phase 2, City of Asheville Project # RAD-16-17-001, and further authorizing the execution of any change orders to said contract which may arise during demolition of said buildings, up to a total amount of $200,000.

The demolition of the buildings at 300 Riverside Drive, Asheville NC 28801 is necessary in order to complete the utility relocations for the upcoming RADTIP project. The project was advertised on November 18, 2016. Bids were opened on November 29, 2016, with the following results:

4 Seasons Site & Demo of Wilmington NC,	$138,515
B Allen Construction of Candler NC,	$143,132
Empire Dismantlement of Grand Island NY,	$146,003
Patton Construction Group of Asheville NC,	$194,920
Dore & Assoc. of Bay City MI,	$220,075
DH Griffin of Asheville NC,	$224,071

The work produced from this contract would demolish vacant buildings in poor condition, make room for necessary RADTIP utility relocations and make space for a future project.

Pros:

- Will demolish vacant buildings in poor condition.
- Will make room for RADTIP utility relocations
- Will create space for a future project.

Con:

- Demolition will be disruptive to adjacent residences and businesses.

The total budget for this portion of the RADTIP project is $200,000.

City staff recommends City Council adopt the resolution awarding the contract to 4 Seasons Site & Demo Inc. for the RADTIP Building Demolition – Phase 2 project and giving the City Manager the authority to execute any change orders necessary to complete the project.

RESOLUTION BOOK NO. 38 - PAGE 288

Y. RESOLUTION NO. 16-275 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CONTRACT AMENDMENT AND CHANGE ORDER TO EXTEND A CONTRACT WITH BULLINGTON CONSTRUCTION INC. FOR THE GUARDRAIL INSTALLATION AND MAINTENANCE CONTRACT FOR FISCAL YEAR 2017

Summary: The consideration of a resolution authorizing the City Manager to execute a contract amendment and change order to extend the contract between the City of Asheville and Bullington Construction, Inc. for a one year period, in the amount of $99,952.55, and to execute any change orders to the contract which may arise during the contract term. The City Manager is also authorized to extend the contract for one additional, one year period in an amount up to $102,951.13, contingent upon available funding and budgetary approval.

The City of Asheville has a yearly contract for guardrail installation and maintenance. In Fiscal Year (FY) 15-16, the contract amount was for $95,585.00 and did not require going to

Council. That contract had an option to extend the contract for two additional one year periods. The City of Asheville and Bullington Construction, Inc. wish to extend the contract. This adds $99,952.55 to the contract in FY16-17 and $102,951.13 to FY17-18 (a 3% increase per year per the contract) necessitating Council approval. The results of the original bid were as follows:

Bullington Construction, Inc. of Oakboro, NC	$95,585.00
Reynolds Fence and Guardrail, Inc. of Indian Trail, NC	$107,607.50

The work produced from this contract would install new guardrail where needed and repair guardrail that has been damaged.

Pros:

- Will install new guardrail where it is needed and repair guardrail that has been damaged.
- Will make Asheville's roadways safer.

Con:

- Construction may temporarily impede traffic.

The total budget for FY 16-17 is $99,952.55. Funding is included in the Adopted FY16-17 Public Works Budget.

City staff recommends City Council adopt the resolution authorizing the City Manager to execute a contract amendment and change order to extend the contract with Bullington Construction, Inc. for the project known as Guardrail Installation and Maintenance, Project # ST-16-17-002 and further authorizing the City Manager to extend said contract one additional, one year period, contingent upon available funding and budgetary approval.

RESOLUTION BOOK NO. 38 - PAGE 289

Z. ORDINANCE NO. 4541 - BUDGET AMENDMENT FROM U.S. DEPT. OF HOMELAND SECURITY FOR FIRE PREVENTION AND LIFE SAFETY PROGRAM

Summary: The consideration of a budget amendment in the amount of $96,480 to establish a project budget in the Special Revenue Fund funded by a grant from the US Department of Homeland Security and a City match from the Fire Department's General Fund budget.

At its March 22, 2016, meeting City Council approved a resolution authorizing the City of Asheville Fire Department (Fire Department) to apply for a grant from the US Department of Homeland Security to obtain funding for fire prevention and life safety programs, and to accept grant funding if awarded. Homeland Security accepted and reviewed our application and awarded the Fire Department a grant amount $91,886 for equipment and supplies necessary for a comprehensive home fire safety program, fire extinguisher training props, and an inflatable fire safety house. All successful applicants seeking a FP&S Grant shall agree to make available non-federal funds to carry out such activity in an amount equal to and not less than five (5) percent of the grant awarded, or $4,594.

Staff recommends City Council approve a budget amendment in the amount of $96,480 to establish a project budget in the Special Revenue Fund for the grant award ($91,886) plus the City match ($4,594). Staff recommends approval for the following reasons:

- Assist in decreasing the risk of death in home fires and provide greater safety for firefighters.
- The City would be able to utilize grant funds for the purchase of equipment.
- The City would be able to directly improve fire safety in the City of Asheville.

Pros:

- Improved safety and efficiency of firefighters when responding to dangerous environments.
- Decrease the occupant alerting and fire department response times for fires and carbon monoxide incidents in 400 homes by installation of smoke alarms, carbon monoxide alarms, street address identification and stove top fire extinguishing agent.
- Provide fire extinguisher classes to a greater number citizens as well as businesses in our community.
- Enhance the fire safety of our high risk communities which include our children under 6 years of age, persons with disabilities, as well as our older citizens.

Con:

- 5% cost share amount of the total purchase cost required of $4,594.00.

The City match of $4,594 will come from The Fire Department's existing General Fund.

City staff recommends that City Council authorize a budget amendment in the amount of $96,480 to establish a project budget in the Special Revenue Fund funded by a grant from the US Department of Homeland Security and a City match from the Fire Department's General Fund budget.

ORDINANCE BOOK NO. 31 - PAGE 34

Mayor Manheimer asked for public comments on any item on the Consent Agenda, but received none.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Vice-Mayor Wisler moved for the adoption of the Consent Agenda. This motion was seconded by Councilman Young and carried unanimously.

III. PRESENTATIONS & REPORTS:

A. AUDIT PRESENTATION

Chief Financial Officer and Director of Finance and Management Services Barbara Whitehorn said that this is the consideration of a motion to accept the Fiscal Year (FY) 2016 Comprehensive Annual Financial Report (CAFR) and the results of the FY 2016 annual external audit of the City's financial statements.

Cherry Bekaert has provided the City with an unmodified, or "clean," opinion that the financial statements are fairly presented in conformity with generally accepted accounting principles. This opinion is the highest form of opinion that the external auditors can express on the presentation of the City's financial statements.

The independent audit firm also conducts an analysis of the City's compliance with various federal and state laws, regulations, contracts and grant agreements and reviews the City's accounting and administrative controls

Cherry Bekaert found no instances of deficiencies in internal control that they would consider material weaknesses and no material weaknesses or significant deficiencies in internal control over compliance with federal and major state programs.

Pro:

- City received an unmodified opinion on financial statements and no findings on *internal control, stewardship, accountability and program compliance with federal and state awards.*

Con:

- None noted.

Mr. Eddie Burke, CPA, Audit Partner with Cherry Bekaert LLP, reviewed with Council the Fiscal Year 2016-17 audit which consisted of reviewing the City's major assets, liabilities and other areas within the financial statements issued by management for accuracy and consistency with General Acceptable Accounting Principles. He then reported on the role of the external auditor, the key highlights, internal controls, significant audit areas and financial results. In summary, (1) clean opinions (2) No Adjusted Journal Entries and three Proposed Adjusting Journal Entry; (3) good internal controls; (4) no management letter comments; and (5) full cooperation with management.

It was the consensus of Council to accept the 2016 Comprehensive Annual Financial Report.

B. UPDATE ON WNC FIRES

Fire Chief Scott Burnett briefly updated City Council on the WNC fires. He said that this has been an unprecedented firefighter season. In Western North Carolina there were approximately 65,000 acres burned in November 2016. That compares to hundreds of acres that typically burn during our fall wildfire season. There were over 12 Code Red air quality days in Asheville. Even though Asheville did not have a significant wildfire event (thanks to the efforts of our firefighters), we were impacted and able to assist our neighbors. We had a number of Asheville firefighters that assisted in 20 fires outside of our area during November, 2016 (roughly 20,000 hours combined in and outside City). He said there is only one fire in Clay County which is 95% contained.

C. STRATEGIC PRIORITIES OF CITY COUNCIL UPDATE

The update for the Strategic Priories of City Council were provided to the Council and the public on the website.

D. FINANCE UPDATE

The financial information in this report reflects the City's overall financial position for fiscal year through September, 2016.

"Amendments. There were no budget amendments in the General Fund during the first quarter.

Revenues. Through September 30, 2016, the City has collected $9.0 million in General Fund revenue, which represents approximately 8% of the total General Fund revenue budget. As noted during this year's budget process, the City recently switched to a 90-day accrual period for sales tax and state utility tax revenue to be consistent with other comparable-sized cities in North Carolina. As a result, the September payments from the State of North Carolina for both of these revenue sources, which used to be included in first quarter revenue reports, were accrued back to last fiscal year. Therefore, first quarter General Fund revenues are lower than in prior reports. In addition, staff has less current year trend data in which to make year-end projections, so current year estimates for sales taxes and state utility taxes are based primarily on FY 2015-16 year end revenue collections. With this limited data, Budget staff is currently projecting that FY 2016-17 General Fund revenue will finish the year very close to budget, at $110.25 million.

Expenditures. General Fund expenditures through September 30, 2016 totaled $24.3 million or 21% of budget, which is typical for this point in the fiscal year. In addition to the actual expenses above, departments have another $4.1 million in purchase orders and contracts encumbered against the revised budget. Factoring in these encumbrances along with the actuals expenses, approximately 24% of the expenditure budget is committed at the end of the first quarter. Personnel expenses, the largest component of the General Fund budget, are on budget through the first quarter. It should be noted that even though overall personnel expenses are on budget, expenses in the Fire Department are running approximately $700,000 ahead of budget at the end of the first quarter. Overall, staff is projecting that FY 2016-17 expenditures (including actual expenses and encumbrances) will finish the year at $110.67 million.

Fund Balance. The City began FY 2016-17 with unassigned fund balance of $18.0 million, after subtracting out the $960,000 fund balance appropriation included in the adopted budget. Based on current revenue and expenditure projections for FY 2016-17, staff estimates that unassigned fund balance at June 30, 2017 will increase slightly to $18.1 million or 16.4% of estimated expenditures."

E. HAYWOOD STREET COMMUNITY VISIONING PROCESS

Mr. Andrew Fletcher, Chair of the Haywood Street Advisory Team, provided a brief update from the Asheville Design Center regarding the community visioning process for city-owned properties located at 68-76 Haywood Street and 33-37 Page Avenue in Downtown Asheville.

In October, the Advisory Team presented Council with an extensive list of potential temporary installations to activate the Haywood & Page properties. At Council's request, the team has refined their list, proposing the following unanimous recommendations for temporary installations and amenities at the Haywood & Page properties:

- Open markets;
- Mobile food vending;
- Interactive public art;
- Performance space compatible with the surrounding neighborhood;
- Moveable seating;
- Raised garden beds.

The Advisory Team has expressed a willingness to work with City staff to help identify partner organizations that would make these installations more feasible.

The Advisory Team has agreed to a schedule that will result in presenting their final vision to Council at their meeting scheduled for March 28, 2017. Prior to producing the final deliverable, they plan to hold a public meeting at the US Cellular Center to present the team's vision (or alternate visions) and provide the public a final opportunity for feedback. The Asheville Design Center anticipates organizing that public meeting towards the end of February or beginning of March.

After Council thanked the Task Force and the Asheville Design Center for their time and energy, it was the consensus of Council to have the Task Force work expeditiously with City staff to help identify partner organizations that would make these installations more feasible; implementation plans; etc, after which Council can give direction to the City Manager on the funding and management of the area aspects of the area.

F. HOMESTAY PERMITTING UPDATE - TWELVE MONTH REVIEW

Site Planning & Development Division Manager Chris Collins said that this report is an update on the Homestay Permitting Process enacted via a wording amendment that was adopted on November 17, 2015. The data in this report spans a time frame from November 18, 2015, to November 28, 2016.

Due to strong demand for homestay lodging, City Council passed a text amendment to Section 7-16-1(c)(9) to modify the requirements for a Homestay. Staff from the Development Services Department (DSD) has been charged with providing quarterly updates of Homestay permit activity and Short Term Rental enforcement. To date DSD has provided two updates to Council. The first update was March 22, 2016 and the second update was July 26, 2016. Due to the high level of interest generated around short-term vacation rentals the City Manager requested DSD provide updates in the form of a memo on a monthly basis. The last memo was provided on October 18, 2016.

In July of this year, Council allocated additional resources to the Development Services Department to facilitate the permitting of homestays and the enforcement of illegal short-term rentals.

The City hired one full-time staff member whose primary focus was to manage the Homestay permit process and to actively regulate and enforce illegal short-term vacation rentals. On October 26, 2015 the City hired a Development Review Specialist (DRS) to undertake this effort. The direct costs associated with this position include:

	FY16-FY17 YTD*	FY17 Est
Personnel (Dev. Review Specialist)	67,319	72,632
Operating (Vehicle)	809	2,000
TOTAL	**$68,218**	**$74,632**

**This represents November 2015-October 2015*

It's worth noting that in addition to the DRS numerous other City staff have committed valuable time and resources to managing Homestays and the enforcement of illegal short-term vacation rentals. This includes:

1. City Attorney (2)
2. Planning and Urban Design (1)
3. Development Services (2.5)

The time and resources spent on this effort by the additional staff listed above is variable and as such it is not possible to accurately estimate what the additional costs are but I do believe the costs have been significant this past year given the amount of time spent on tasks such as:

- Ordinance changes
- Records request
- Lawsuits
- Staff reports

On November 10, 2016 city staff began using a database provided by Host Compliance, a third party service engaged in identifying the addresses of properties advertising short term rentals on websites such VRBO, AirBnb and Homeaway. The use of a third party vendor also has a significant cost savings to the city as compared to hiring another FTE. It is worth noting that DSD has hired one part-time Administrative Associate to assist with the growing records

management component associated with this process. The table below shows the updated costs associated with managing the program moving forward:

Resources	Costs
Personnel: 1. DRS 2. Admin Assistant (0.5 FTE)	 72,632 20,000
Operating: 1. Host Compliance Contract 2. Vehicle	 26,370 2,000
TOTAL	**$121,002**

A year contract with Host Compliance would cost $26,370 compared to a $74,632/yr. for one additional DRS which amounts to an annual savings of approximately $50,000/yr.

The DSD began receiving applications for Homestay permits under the new provisions on November 18, 2015. Through November 28, 2016, there have been 164 applications submitted for the Homestay permits. The properties subject to these applications have been primarily focused within a few neighborhoods. However, it can be noted that the geographic distribution of homestay permits has been somewhat more widespread than originally reported.

When the July update was made, it was noted that homestay permit locations were trending into areas east and west of downtown Asheville as well as north. The above map shows this trend toward a more geographically even distribution of homestay permits continuing. The table below (figure two) contains further information related to changes Homestay permitting thus far.

Number of Applications Submitted	**164** ↑
Number of Permits Issued	**148** ↑
Homestays Providing Off-Street Parking	**72%** ↓

Enforcement - In addition to the one full-time Development Review Specialist position employed by the City for permitting Homestays and enforcing illegal short-term rental activity, the City has added a part-time Administrative Assistant position and partnered with a third party software service for assistance in identifying the addresses of violating properties advertising on web sites such as AirBnB and Homeaway.

In July of this year, staff reported a total of 68 total enforcement cases. As of November 28, 2016, that number has risen to 143 total enforcement cases representing a 47% increase in enforcement cases over a four (4) month period. Of those 143 enforcement cases, 52% have been proactively initiated by City Staff. Because City Staff has been successful helping those who can resolve violations by coming into compliance with regulation, only 11 citations have been issued. The table below highlights a selection of detailed results of enforcement cases:

Resolution of Case	Percentage of Cases
Homestay Permit Issued	7%
Violation Corrected (change of use in an allowed zoning district, change to 30 day minimum rental, etc)	10%

Invalid Complaint	10%

As previously mentioned On November 10, 2016, city staff began using a database provided by Host Compliance, a third party service engaged in identifying the addresses of properties advertising short term rentals on websites such VRBO, AirBnb and Homeaway. In its early stages, this tool has identified 915 properties advertising as short term rentals within the Asheville City Limits. Host Compliance has successfully identified physical addresses for 66% of these listings (approximately 604). While results must still be curated and verified by city staff, the use of this service has allowed staff to issue over 15 NOV's to violating properties during the 9 business days between activation of the software and November 28, 2016. The acquisition of this software service has enabled staff to overcome one of the previously listed concerns which was the "adaptation of rental listing website by actions such as the removal of all location identification information from advertisements".

Additionally, a part-time Administrative Assistant position has been added to assist the Development Review Specialist with filing, communications and paperwork associated with homestay permits and violation enforcement. The position was filled on November 28, 2016. This additional staff resource should aid in the expedient processing of both permit applications and notices of violation.

Staff Concerns - Through the administration of the revised permitting program, staff has encountered many different scenarios through homestay applications and enforcement. Included among these concerns are:

- Possible false representation of residency;
- Floorplans not representing legally permitted building work;
- Accurately identifying livable space and unit separation; and
- Continuing press and recognition of the value of the short-term rental market in Asheville.

Next Steps - With further resources in place in the form of additional staff and third party address identification services, a substantial increase in enforcement activity is expected to occur (as can be seen by the increase in the number of NOV's issued in November). Many of these enforcement actions may be eligible to gain compliance through homestay permitting which will, in turn, create an expected substantial increase in homestay permits applied for an issued.

Staff will continue to work with the Host Compliance software service while diligently verifying supplied data to identify properties that are possibly in violation and those which may have the opportunity to gain compliance through Homestay permitting or other means.

When Vice-Mayor Wisler asked when people are contacted about a violation do they understand it's a non-permitted use, Mr. Collins said that they come across people who are unaware that it's illegal or unaware that it can be obtained legally, or just someone who is aware of the law but are continuing to do it because there is a lot of income involved.

Mayor Manheimer said that the City can charge an administrative fee for the permitting that covers the cost for the staffing to administer the program, but if there are any fines received for violations, under the North Carolina Constitution, those fines must be remitted to the North Carolina School System.

Councilwoman Mayfield asked that the total amount collected (broken down by the amount forwarded to the School System and the administrative portion) be included in the reports to Council.

Councilman Bothwell noted that the permitting fees on homestays do not cover the enforcement of short term rentals.

It was the consensus of Council to have an update on homestay permitting every six months.

G. ACCESSORY DWELLING UNIT TASK FORCE REPORT

Mr. Ed Manning, Task Force Facilitator and Executive Director of Leadership Asheville, said that the Accessory Dwelling Unit (ADU) Task Force was charged with developing recommendations for City Council on whether or not to use accessory dwelling units as short term rentals in our community and if so, under what conditions and/or restrictions. He then described the process used to facilitate group discussion and development of the task force recommendations. While the task force did not reach a unanimous decision, it did accomplish some key results (1) collaborative recommencations; (2) a list of concerns; and (3) the list of stakeholders identified. Of note, the task force did not assign any weight to stakeholder concerns prior to evaluating the ideas. It is the opinion of the facilitator, that City Council members should assign a weight to each stakeholder's concern based on their knowledge of the strategic direction of the City and use that weighted list of concerns to evaluate which idea best meets the needs of our community at large.

Mr. Carter Webb presented the super majority idea - Core Idea 1, as follows:

"Our Task Force recommendation ("Core Idea 1") was designed to address the concerns of the following stakeholders: Accessory Dwelling Unit ("ADU") owners, tourists, neighborhoods, City staff, City Council, renters, potential home-buyers, homeless, hotels, bed and breakfast operators, property managers and investors, homeowners, and businesses – current and those seeking to relocate to Asheville.

It is imperative to the local economy for the residents of Asheville to be able to have an affordable place to live. Moreover, we felt that it was equally important for the neighborhoods of Asheville be able to maintain the unique character and charm that so many currently have. Our Task Force strongly feels that allowing an ADU to be considered 'Homestay' operation (as the term is defined in Chapter 7, Article II, Section 7-2-5 of the Code of Ordinances of the City of Asheville) negatively affects the community. Under this Core Idea 1, ADU owners still have the ability to have a steady income stream even without being able to rent the ADU short-term. We believe that the Core Idea 1 is the best option for the City of Asheville to meet the majority of the concerns of the stakeholders listed above.

The purpose of Core Idea 1 is to increase the supply of affordable housing for all Asheville residents through existing programs. These existing programs support the creation and preservation of affordable housing, to include an 'Accessory Dwelling Unit' – as the term is defined in Chapter 7, Article II, Section 7-2-5 of the Code of Ordinances of the City of Asheville – for Asheville citizens of all income levels and will expand other programs to meet the growing need for stable, affordable and long-term housing in the city for its residents. These existing programs will do the following:

1. Inform the citizens of Asheville about the current affordable housing situation within the City of Asheville;
2. Educate the citizens of Asheville regarding the city's role and the support the city has provided to create affordable housing for its citizens;
3. Distribute information to the public about existing and new opportunities within the city that will add affordable housing and will help build financial security for current and prospective property owners; and
4. Offer appropriate resources to individuals to assist them with effective ways to search for safe and affordable housing.

These programs will prioritize and balance economic opportunity and growth with neighborhood stability, harmony and character, but will not undermine the character of Asheville's neighborhoods by permitting short-term lodging.

It is the Task Force's suggestion that City Council consider the following proposals to give the community the ability to continue to provide safe, equitable, diverse and affordable housing opportunities to city residents:

1. Prohibit the use of an ADU as part of a 'Homestay' operation by doing each the following:

    i. Proactively enforcing violations by increasing fines for violations; and
    ii. Educating the public that an ADU use as a Homestay is illegal in residentially zoned areas.

2. Develop a public relations campaign, city-wide, with the purpose of informing the public about Asheville's housing situation and why City Council voted to prohibit the use of an ADU as part of a Homestay Operation with the listed reasons and supporting data:

    i. Provide details regarding the need for more affordable housing, including specifics about the upcoming ballot on the 2016 Bond Referendum for $25 million in housing affordability bonds that would provide support for the Housing Trust Fund (the "HTF") and would enable the city of Asheville to repurpose city-owned land for development that supports housing affordability;
    ii. Provide specific information about how an ADU used as part of a Homestay operation removes that ADU from the rental housing market thereby providing less affordable housing to residents of the city; and
    iii. Show detailed information about how tax dollars are being allocated for affordable housing.

3. Provide incentives to residents to develop an ADU for the sole purpose to rent long term by some of the following:

    i. Use the HTF to encourage residents to upgrade or create ADUs to be used as long term rentals;
    ii. Provide low interest construction loans to residents to build an ADU on their property to be used as a long term rental;
    iii. Award subsidies to residents who offer affordable ADU units to tenants;
    iv. Waive city permit fees to create an ADU unit to be used as a long-term rental or in the alternative, reduce the amount of the fees it takes to obtain such city building permits; and
    v. Provide an approval process by the city to allow more off-street parking for residents of an ADU.

4. Facilitate city-wide programs or seminars to grow the housing economy from the "bottom up" such as the following:

    i. Schedule seminars to be taught by trained professionals on city ordinances to teach residents how to follow the law as a landlord and allow for some form of certification process; such seminars are a requirement for any the HTF loan recipient;
    ii. Educate and inform residents about the benefits of using an ADU as a long term rental option;
    iii. Partner with local non-profit organizations to develop an on-going

support system for landlords to foster successful outcomes;

iv. Design an ADU road-map similar to the City of Asheville Restaurant Startup Guide with the purpose to help residents maneuver through the development and approval process and provide links to appropriate resources; and

v. Partner with local non-profit organizations to provide educational programs for ADU tenants to inform them of their responsibilities and rights.

5. Educate citizens on legal short term rental options including the following:

   i. Homestay program pursuant to Chapter 7 of the Code of Ordinances of the City of Asheville; and
   ii. Change of use permits in commercial districts where lodging is permitted.

6. Encourage Neighborhoods to discuss and plan for ADU development similar to the 'Plan on a Page' process currently in place. Ask neighborhood associations to discuss how ADUs would fit on individual homeowner's properties and within the context of their neighborhood.

7. Develop a "Create an ADU" presentation by doing the following:

   i. Use national and international examples of well-designed, well-planned, and well-built ADUs (both free-standing as well as part of existing homes) for a "road show" to take to target residents in the city – such as homeowners, neighborhood associations, and trade associations;
   ii. Recruit and train ADU supporters to assist the City of Asheville to develop and implement presentations; and
   iii. Educate the community about the benefits of creating ADUs."

Mr. Jackson Tierney presented the minority idea - Core Idea 2, as follows:

"The inclusion of ADUs in Homestay rules seeks to expand an economic opportunity to Asheville residents that allows them to benefit from, and support, the existing tourism industry. The greatest benefit of ADUs is their flexibility of use as the needs of the property owners evolve over time. The more use options there are for ADUs, the greater the incentive is for property owners to undertake the investment in and building of ADUs, which will add to the diversity of housing stock and provide for greater neighborhood resiliency.

The integrity of neighborhoods will be preserved by limiting the number of ADU homestay permits and by ensuring they are operated safely and in accordance with applicable building codes. Permit holders will be present during operation and held to strict adherence to homestay rules. Permit will be revoked if found to be in noncompliance.

In concert with these revised homestay rules, the city will advance programs to support the creation of ADUs and promote long-term rental options. These programs will educate and inform citizens about: the current state of housing in Asheville, existing and new opportunities that add housing and build financial security for current and prospective property owners, and provide training resources on how to manage successful long-term rental units.

Allow ADUs as STR homestays with the following conditions:

1. Limit the number of ADU homestay permits.
   - Cap on total number of ADU homestays by Census Tract
   - Cap on total number of ADU homestays city-wide

- Distance separation
- Permits must be renewed yearly, but cannot exceed X consecutive years by the same ADU location
- Permits not eligible for persons owning an ADU less than X years, or having built an ADU and possessing its C.O. for less than X years
- Provide neighborhood overlays to opt out of ADU homestays

2. ADU homestays will be operated safely, in compliance with building codes and equitably as compared to other lodging options:

   A. The ADU homestay owner or operator shall maintain liability insurance on the property, which covers the ADU homestay use and ADU homestay guests.
   B. The ADU homestay owner or operator must pay any applicable taxes, including occupancy and sales taxes, to the appropriate governmental entity.
   C. The ADU homestay shall comply with all current and applicable building codes.
   D. The ADU homestay must be reviewed annually and inspected for compliance with this subsection.
   E. Permit revocation after three verified violations.

3. The homestay operation shall be managed and carried on by a person who: 1) is a full-time resident of the property; and 2) is present during the homestay term for the entire time lodgers are staying at the property. To be a "full time resident," the person must reside on the property on a permanent basis, and it must be the person's primary home. For purposes of this homestay ordinance, a person can only have one primary, full time residence, and the homestay must be operated from that primary, full time residence. In order to be "present during the homestay term," the full time resident shall be at the property overnight and not away on vacation, visiting friends or family, travelling out of town for business or personal reasons, etc. during the homestay term. The host may be subject to a fine should an issue arise and they are not on the premises or cannot be within a reasonable time. However, the full-time resident may be temporarily absent from the property for purposes related to normal residential activities such as shopping, working, attending class, etc. A minimum of two documents establishing proof of residency shall be supplied from an approved list of documents. Only one homestay shall be permitted per lot/parcel. Homestay permits shall be limited to one per person, at any given time. A picture of the valid homestay permit shall be included on all public advertising pages.

4. All ADU homestays shall require off street parking, including ADUs within one mile of the CBD.

5. Develop program of education and incentives to encourage ADU owners to rent their units long-term (greater than 30 days):

   A. Use city Housing Trust Fund (HTF) to upgrade existing "in-law apartments" to create ADUs with legal provision so they are used as long-term rentals for set period.
   B. Incentivize ADUs to be constructed by reducing city fees with legal provision so they are used as long-term rentals for set period.
   C. Offer landlord classes focused on long-term rentals for small sized structures."

Councilman Bothwell said that in the voting method Mr. Manning wanted to find people who could live with and support one or the other core ideas. He has heard from one member of the Task Force that although he said he could live with the idea, he could not support Core 1. Mr. Manning said the question to the members was "could you live with and support" and all those who could live with and support to raise their hands. He then simply counted the hands raised.

When Vice-Mayor Wisler asked if there was any discussion on what the potential numbers might be in the "X" conditions in Core 2, Mr. Jackson said that they did not spend a lot of time on that. They did throw out some numbers for the feel or sense of what they were talking about.

In response to Councilwoman Mayfield, Mr. Jackson explained the policy objective behind the cooling off period for new homeowners with existing ADUs or homeowners who build new ADUs.

Ms. Kelly Prime, Task Force member, said that the focus lately on the vote itself is a little bit of a red herring. The Task Force decided to submit to Council both Core Idea 1 and Core Idea 2. Focusing on the vote and decision-making between those two is side-tracking. She felt Council should focus on the hard work of the Task Force.

Mr. John Farquhar, Task Force member but speaking as an individual representing himself and other private citizens, talked about the Portland experience and an alternative compromise to move forward: (1) set up 18 month pilot program; (2) keep room homestays; (3) add ADU homestays; (4) reaffirm ban on whole house short term rentals (STR); (5) permit ADU homestays in accordance with existing homestay rules; (6) do not add any additional restrictions; (7) work with Airbnb to insert permit facsimile and report non-compliance (8) allow up to 150 ADU homestay permits on a first-come first-service basis; (9) at end of pilot period, analyze - number, type and source of neighborhood complaints; (10) GIS location of permits; (11) rental market conditions in Metro Asheville; (12) survey results of ADU owners and neighbors; and (13) based on information collected, expand, contractor sunset ADU homestays (data driven decision making). He felt the benefits would be to (1) accelerate Council initiative to encourage ADU construction and increase housing density; (2) provides a data-rich framework for future decision-making; (3) reduces enforcement cost; (4) keeps more tourist dollars - and multiplied spending - in Asheville; and (5) blunt future whole-house STR actions (ADU hosts were significant movers/contributors to the STR lawsuit).

The following individuals voiced their various opinions regarding the issue of ADUs as homestays, along the process used for decision-making and voting by the Task Force.

Dan Rogers, representing the Asheville Bed & Breakfast Association
Rob Neufeld
Casey Campfield, downtown business owner
Tim Sadler
Michael Smith
Individual that runs a homestay
Individual representing more than 100 full-time Asheville residents and active voters
Brandee Boggs
North Carolina Green Party Co-Chair but individual representing himself
Wendy Dean, member on the Task Force, but speaking as an individual
David Rodgers, member of the Task Force
Greta Bush, member of the Task Force
Jane Mathews, member of the Task Force

Councilman Bothwell appreciated the effort made by members of the Task Force; however, he felt the process was deeply flawed for a number of reasons including the methodology, the exclusion of participants, misinformation and a lack of content. He then read

the following statement: "First and most obvious is the reported vote from the Task Force. On Council we can't vote yeah and nay on the same question. Participants were permitted to vote twice, both for legalization and for maintaining the ban on Short Term Rental of Accessory Dwelling Units. Some participants don't seem to understand the vote or the voting method and the lack of transparency is troubling. The results presented were made to appear objective but the interpretation appears to be entirely subjective. At least one participant felt he was misled in the process.

"Secondly, the most critical affected parties were excluded from the discussion. We created a $500 per day fine, boosted enforcement with an extra $120,000, and then asked STR operators to come in and discuss their business. As a practical matter that means they had to quit renting or risk prosecution. Nor could they solicit letters of support from neighbors who were perfectly happy with the STR next door.

"The whole debate has been conducted in the shadow of the Bowen Report which indicated a 2014 rental vacancy rate of 1 percent. But that information was already dated when Mr. Bowen delivered it in January 2015. It has become less and less accurate every month since. Mr. Bowen said a 4-6 percent vacancy rate is normal in a healthy market. In the third quarter of this year one industry analysis shows a 6.8 percent vacancy rate. As measured by Mr. Bowen's yardstick we now have an excess of rental units. Elimination of a few dozen Short Term Rentals had nothing to do with that change.

"Finally this task force did not consider the context of their deliberations. A major driver of the debate is concern expressed by those who say that STRs are a threat to neighborhoods. If that is the issue, then we on Council need to decide how we can best address threats to neighborhoods with the resources we have available. If identifying the most urgent neighborhood problems had been the function of the task force it might have identified barking dogs or gas powered leaf blowers, noise from the stump grinder on Riverside, or parking problems or the need for a new leaf vacuum truck, or any number of things.

"As Chair of the Public Safety Committee I would say the most serious neighborhood problem in Asheville is the fact that we led the state in pedestrian deaths. We have been reminded of that with two cyclists hit in recent weeks and the tragic death of two children crossing a road which has no marked crossings. Judging by the signs around town that urge drivers to slow down, I'd say concern about speeding is widespread. A pedestrian struck by a car going 20 mph has a 95 percent chance of survival. At 40 mph the survival rate goes down to 10 percent. Why do I mention that? Not far from where I live, Barnard Avenue is a cut through between W.T. Weaver Boulevard and Edgewood Road. As more people discovered it, a lot of outsiders began to use it at alarming speeds. Recently the City installed 8 speed bumps and traffic has calmed remarkably in just a few weeks. Most cars are now traveling at the posted speed of 20 mph. Transportation Director Ken Putnam tells me that each speed bump cost is $2,500, so that a $20,000 improvement for that neighborhood.

"The additional STR enforcement money, $120,000, would cover 8 speed bumps in 6 more neighborhoods. We can't afford to put sidewalks on every street like Barnard, but we can afford some traffic calming there. It would be great to give Ken Putnam the resources he needs to address a long list of other streets that need calming.

"So as a Council member who needs to make the best choices for our City, I ask myself, is a neighbor who hosts well-behaved short term guests in an Accessory Dwelling Unit the bigger threat to a neighborhood? Or is it strangers racing through at breakneck speed? We could put down speed bumps in six more neighborhoods each year instead of chasing down your next door neighbor who rents some rooms. Or we could direct that money to sidewalks on Lakeshore or Haw Creek, or install pedestrian crossings on Fairview Road where those two children died. I a clear on the choice I would make for my own neighborhood.

"Here's were I come down. The reported Task Force vote was questionable and contradicted by participants. It did not include substantive input from the most affected parties. It operated under the misapprehension that the 2014 rental housing crisis is ongoing. And in consideration of a purported negative impact on neighborhoods it did not consider the big picture of how the City ought to apportion limited rescurces to address the most serious problems in the community. Finally I note that when the City ran a survey on our website, 77 percent of respondents favored adding Accessory Dwelling Units to the Homestay program, and in testimony before Council a majority of speakers agreed.

"It is time for this Council to make a decision that should have been made a year ago and I believe something like the Portland solution is the best path forward.

"Therefore," Councilman Bothwell moved to instruct staff to prepare the regulatory changes needed to make Short Term Rental of Accessory Dwelling Units legal in the City of Asheville. This motion was seconded by Councilman Haynes.

When Councilwoman Mayfield asked how many ADUs have been built since November, 2015, City Manager Jackson said that he wou'd provide that information to Council.

In response to Councilwoman Mayfield, City Attorney Currin said that she has reached out numerous times to New Orleans regarding their Airbnb enforcement; however, to date she has not had a response.

In response to Mayor Manheimer, City Attorney Currin said that the suggestion to have the Airbnbs give Asheville $1 per night for the affordable housing trust fund would be something she would have to research, as it might be viewed as a tax.

Councilwoman Mayfield said that Council has been provided with a lot of information that will need to be considered; therefore, she was not prepared to vote on a motion at this time.

Councilman Smith respected all of the voices coming forward to deal with this situation across the nation. We are deep in a housing crisis. For those people behind Core 1, there are ideas around incentivizing ADUs for long-term rentals are very appealing. Some of that work has started at the City Council Housing & Community Development Committee already and they have provided some excellent ideas that they will pursue. He said that we are getting an update on the Bowen Report this month. Long term renters are being evicted from ADUs to make room for tourists. He felt that if we proceed with Councilman Bothwell's motion, there would be enforcement at all. The idea of an 18-month pilot program is good, but he felt that we should start with an 18-month pilot program for incentives for long-term rentals for ADUs in our neighborhoods. He felt we need to start addressing our housing crisis for the residents of the City of Asheville before we start talking about how we make sure tourists have a place to stay in our neighborhoods.

Vice-Mayor Wisler said that Council intentionally set up the Task Force with a balance of voices. Until we get to a program that feels closer to the balance of all stakeholders, she was not willing to take away enforcement of the regulations because it will be difficult to begin the enforcement again. She was though, willing to continue to look at the various alternatives to better balance the stakeholders.

Councilman Bothwell said that the point of creating a license system is that we can recover the cost, so we would replace the $120,000 with the fees paid by people who get licenses. Also, he agreed we are not at the point of taking away the regulations, but if we agree to move toward making them legal, we can then embrace the ideas from different cities and find the best answers. As long as they remain illegal he didn't think we will make any progress.

Councilman Haynes felt that Councilman Bothwell's motion is not to end enforcement, but it's moving forward in supporting ADUs as short term rentals.

On behalf of Council, Mayor Manheimer thanked the Task Force for their work and commitment to this process. In terms of process she liked the idea of a Task Force because it allows a group of balanced thinkers to dissect a complicated issue. Because of that, she felt it was important for Council to support the Task Force recommendation. One of her concerns is that there would be so much disruption on what process was used so as to invalidate the Task Force recommendation but most of the Task Force spoke at this meeting. She felt there was a slim majority of those that want to maintain prohibiting ADUs from becoming homestays. She liked the recommendation about teaching people how to do ADUs and that is something the City can certainly do. To her, this is a fluid and evolving issue. Her vote in support of the Task Force recommendation is not closing the door forever on this discussion. She is deeply concerned about people being able to afford to live in their homes and using this as a way to do that, balanced with people who are needing a home and looking to an ADU as their affordable home. She would be willing to revisit this issue because it is quickly evolving.

Councilman Young didn't think Councilman Bothwell's motion invalidates the recommendation of the Task Force. Because it is just a recommendation, he felt it was Council's responsibility to make the tough decisions and choose to follow those recommendations or go in a different direction.

Councilwoman Mayfield agreed that Council needs to focus less on the vote and the process (even though transparency and a good solid process is key) but more on the work of the Task Force.

At the suggestion of Councilman Smith, Mr. Randall Barnett said that it was his understanding that all Task Force members voted twice on a sliding scale. He voted to support Core Idea 2 and could he live with Core Idea 1.

At 8:00 p.m., Vice-Mayor Wisler called the question.

The motion made by Councilman Bothwell and seconded by Councilman Haynes failed on a 3-4 vote, with Mayor Manheimer, Vice-Mayor Wisler, Councilwoman Mayfield and Councilman Smith voting "no."

Councilwoman Mayfield moved to continue this conversation in the realm of the City Council Housing & Community Development Committee.

At the suggestion of Mayor Manheimer, it was the consensus of Council to place this item on the January 10, 2017, agenda and that Council be prepared to recommend further steps.

Councilwoman Mayfield then withdrew her motion.

Closed Session

At 8:05 p.m., Councilman Young moved to go into closed session for the following reasons: (1) To prevent disclosure of information that is privileged and confidential, pursuant to the laws of North Carolina, or not considered a public record within the meaning of Chapter 132 of the General Statutes. The law that makes the information privileged and confidential is N.C.G.S. 143-318.10 (a) (3). The statutory authorization is contained in N.C.G.S. 143-318.11(a)(1); (2) To consult with an attorney employed by the City about matters with respect to which the attorney-client privilege between the City and its attorney must be preserved, including, but not limited to, a lawsuit involving the following parties: City of Asheville vs. The State of North Carolina. The statutory authorization is N.C. Gen. Stat. sec. 143-318.11(a)(3); and (3) To consider the qualifications, competence, performance, character, fitness, or conditions of

appointment of an individual public officer or employee. The statutory authorization is contained in N.C. Gen. Stat. § 143-318.11(a)(6); and to prevent the disclosure of information that is confidential pursuant to N.C. Gen. Stat. § 160A-168, the Personnel Privacy Act. The statutory authorization is contained in N.C. Gen. Stat. § 143-318.11(a)(1). This motion was seconded by Vice-Mayor Wisler and carried unanimously.

At 8:40 p.m., Vice-Mayor Wisler moved to come out of closed session. This motion was seconded by Councilman Bothwell and carried unanimously.

IV. PUBLIC HEARINGS:

A. PUBLIC HEARING TO CONSIDER A LAND USE INCENTIVE GRANT FOR THE SKYLAND EXCHANGE DEVELOPMENT

RESOLUTION NO. 16-276 - RESOLUTION APPROVING A LAND USE INCENTIVE GRANT FOR THE SKYLAND EXCHANGE DEVELOPMENT

Community Development Analyst Chris Hnatin said that this is a public hearing to consider approving a land use incentive grant for the Skyland Exchange (Hathaway Development). This public hearing was advertised on December 2, 2016.

The developer of Skyland Exchange, Hathaway Development, has applied for a Land Use Incentive Grant per the policy adopted by Council, and amended on September 22, 2015. Hathaway Development is developing a 14.32 acre site, located on Miami Circle in South Asheville. The developer estimates a total development cost of $32,710,837 and an improvement value of $36,190,837. The project consists of 290 residential rental apartments, with 10% units (29 units) proposed affordable (80% AMI or less). The site is within 0.25 miles of transit and 0.5 miles of schools; the job centers in Biltmore Park, is over 1 mile.

The project, as presented to staff, meets the following Eligibility Requirements,

- The proposed development consists of three or more dwelling units for rent;
- At least 10% of the units will meet the affordability standards set by the City of Asheville for households earning 80% or less of the Area Median Income.
- The affordable units will be affordable to and leased to income-eligible households for at least 15 years.
- The proposed development must be located inside the city limits.
- The proposed development must be located to provide residents convenient access to jobs, schools and services

Scoring

Affordable Rental Housing

The proposed project will provide 290 units with 29 units (10%) being affordable to households earning 80% or less of the average median income, and the developer has committed to the affordability period of 15 years. This project qualifies for 20 points in this category.

Superior locational efficiency

200

The proposed project is within 0.5 miles of a school in T.C. Roberson; the project is also within .25 mile of an existing bus-stop served, but is not served by a one-half hour ART transit frequency (1.5 hour frequency). HCD Committee has recommended points for the proximity to transit despite the 1.5 hour route frequency; the site is not within 1 mile of a job center (1.8 miles to Biltmore Park). The project scores 5 points in this category.

The Housing and Community Development Committee reviewed the application at their meeting on September 16, 2016. The HCD Committee recommended an additional 5 points for transit access, and recommends approval of the project with a total of 30 points. This would make the project eligible for a three-year Land Use Incentive Grant.

At the October 18, 2016 HCD meeting, Chairman Smith noted that he would like to change his previous vote on the LUIG application for Skyland Exchange Project, which had been considered at the September 16, 2016 HCD meeting, and received a unanimous vote to recommend to City Council 30 points for the LUIG application. As per the minutes of the October 18, 2016 HCD meeting, "It is noted that Gordon Smith would like to change his vote on the LUIG application for Skyland Exchange during the last meeting. The initial vote was to add points for transit, but {he} would like to change vote to remain within policy. This would change the 30 points awarded to 25 points." There was no formal reconsideration of the previous vote by the full committee; however, the October minutes reflect Councilman Smith's comments.

Pros:

- The proposed project will provide affordable rental housing to 29 households earning 80% or less of area median income, for a period of 15 years;
- The proposed project is in close proximity to schools and transit;
- The proposed project has a significant economic impact. Construction wages and material purchases will positively affect the local and regional economy.

Cons:

- The project has been approved for Conditional Zoning, with 10% of the units to be built pledged as affordable. Staff notes that successful affordable housing agreements often combine financial incentives with regulatory agreements.

The current assessed value of the two parcels is $1,007,100 ($244,300 and $762,800). The developer's estimate of improvement value is $32,710,837 with a completed estimated project taxable value of $36,190,837. The current annual city tax, based on current assessed value, is $4,783.73. The annual estimated city tax post completion, based on the developer's estimate of value is $171,906.48; therefore, the estimated annual Land Use Incentive Grant would be $167,122.75, the exact amount to be determined by the length, in years, of the grant award, and the actual assessed value of the development upon completion. If approved for 3 years, the estimated Grant would be $501,369. The subsidy per affordable unit would be $17,289. The subsidy amount per affordable unit/year of affordability would be $1,153.

The estimated amount of fees payable for Zoning Permit, Building Permit, Driveway Permit, Grading Permit, Stormwater Plan Review Fee, and Water Service Connection Fee is $89,344. The value of each 10% of eligible fee rebates would be $8,934. The exact amount would be determined by the percentage of fee rebate awarded as part of the Land Use Incentive Grant. If approved at the 30 point level (30%), the fee rebate would be $26,802.

The total estimated Land Use Incentive Grant benefit over 3 years is $528,171, which equals $18,213 subsidy per unit, and $1,214 subsidy per unit per year of affordability.

Staff recommends that Council approve the request of Skyland Exchange for a Land Use Incentive Grant.

In response to Vice-Mayor Wisler, Assistant Community & Economic Development Director Jeff Staudinger said that the City regularly combines incentives of various natures in order to create an incentive for affordable housing development in the private sector. He said that she saw no problem in moving the conditional zoning process and requests for land use incentive grants process concurrently through the Council process.

Mayor Manheimer opened the public hearing at 8:52 p.m.

Mr. Chris Day, with Civil Design Concepts, explained their request for the grant and asked City Council for their support.

It was noted that Mr. ViJay Kapoor provided written comments since he was unable to attend the meeting. Briefly, he said "The possibility that tax breaks were available never came up during discussions with the St. Barnabas parishioners, at the Planning & Zoning Board or at City Council. As a taxpayer, it outrages me that my tax dollars might subsidize a project that displaced poor, vulnerable families with young children – the same families that the City's affordable housing programs are trying to help."

Mayor Manheimer closed the public hearing at 8:58 p.m.

Councilman Smith said that he could only support the 25 point level because it goes outside of Council's policy regarding transit routes.

Mayor Manheimer said that members of Council have previously received a copy of the resolution and it would not be read.

Councilman Bothwell moved for the adoption of Resolution No. 16-276 at the 30 point level. This motion was seconded by Vice-Mayor Wisler and carried on a 6-1 vote, with Councilman Smith voting "no".

RESOLUTION BOOK NO. 38 – PAGE 290

B. PUBLIC HEARING TO CONSIDER REZONING 90 ASHELAND AVENUE AND 202 ASHELAND AVENUE FROM REGIONAL BUSINESS DISTRICT TO CENTRAL BUSINESS DISTRICT; 206 ASHELAND AVENUE, 216 ASHELAND AVENUE, 222 ASHELAND AVENUE AND 90 SOUTHSIDE FROM OFFICE BUSINESS DISTRICT TO CENTRAL BUSINESS DISTRICT; AND A PORTION OF 88 SOUTHSIDE FROM RM-16 RESIDENTIAL MULTI-FAMILY HIGH DENSITY DISTRICT TO CENTRAL BUSINESS DISTRICT; AND AN AMENDMENT TO THE OFFICIALLY ADOPTED HEIGHT ZONE MAP

ORDINANCE NO. 4542 - ORDINANCE TO REZONE 90 ASHELAND AVENUE AND 202 ASHELAND AVENUE FROM REGIONAL BUSINESS DISTRICT TO CENTRAL BUSINESS DISTRICT; 206 ASHELAND AVENUE, 216 ASHELAND AVENUE, 222 ASHELAND AVENUE AND 90 SOUTHSIDE FROM OFFICE BUSINESS DISTRICT TO CENTRAL BUSINESS DISTRICT; AND A PORTION OF 88 SOUTHSIDE FROM RM-16 RESIDENTIAL MULTI-FAMILY HIGH DENSITY DISTRICT TO CENTRAL BUSINESS DISTRICT

ORDINANCE NO. 4543 - ORDINANCE AMENDING THE OFFICIALLY ADOPTED HEIGHT ZONE MAP

Urban Planner Jessica Bernstein said that this is the consideration of an ordinance to rezone 90 Asheland Avenue and 202 Asheland Avenue from Regional Business District to Central Business District; 206 Asheland Avenue, 216 Asheland Avenue, 222 Asheland Avenue and 90 Southside from Office Business District to Central Business District; and a portion of 88

Southside from RM-16 Residential Multi-Family High Density District to Central Business District; and an amendment to the officially adopted Height Zone Map. This public hearing was advertised on December 2 and 9, 2016.

The City of Asheville is initiating the review of a rezoning for multiple parcels along the east side of Asheland Avenue from Office Business (OB), Regional Business (RB) and Residential Multi-Family High Density (RM-16) to Central Business District (CBD). This review includes an amendment to the height zone map to apply the intermediate height limit to all properties included in the rezoning.

The area proposed for rezoning consists of ten separate PINs on seven parcels along the east side of Asheland Avenue. The lots are developed with a variety of commercial and office uses and range in size from 0.37 acres to 1.57 acres in size.

The parcels are zoned Office Business, Regional Business and one is a portion of a split-zoned area zoned RM-16. There is CBD zoning to the east and north. The west side of Asheland Avenue (not under consideration for rezoning at this time) has Office Business and Regional Business zoning and Office Business continues to the south.

As described in the sections on plan compliance and recent zoning actions below, staff has been anticipating an expansion of the CBD zoning in this area and was originally pursuing rezoning both sides of Asheland Avenue. However, after meetings with the Downtown Commission, Design Review Committee and community representatives from the South French Broad Neighborhood group, the west side of the corridor is not proposed for any zoning change at this time. From the discussions with the aforementioned groups, as well as staff analysis of the limitations to development potential on these parcels, and the potential impacts on the surrounding single-family neighborhood, it was agreed that more time is needed to evaluate the possible expansion of the CBD in this area and whether or not the current CBD regulations are appropriate. Additionally, this corridor is included in the upcoming South Slope Visioning Study Area and more input on appropriate zoning, development or uses directly adjacent to the residential neighborhood may be gleaned from that process.

Along the eastern side of Asheland Avenue, the properties all abut CBD zoning; the concerns relating to rezoning the west side of the corridor are not applicable to these parcels.

Most recently, the property at 200 Asheland was rezoned from RB to CBD in 2015. Multiple other parcels in the vicinity have been similarly rezoned in 2013 and 2014. There have been several Level II projects approved in the vicinity for residential development (88 Southside, 2016; 185 Coxe Avenue, 2015).

Approval of the rezoning proposal requires an amendment to the Downtown Height Zones map and these parcels would be placed within the Intermediate Height Zone. Asheland Avenue is already considered a Key Pedestrian Street. Extension of the context transition edge is not applicable along the majority of the area as there is no adjacent residential zoning (with the exception of 88 Southside Avenue). Any future development would be required to comply with Central Business District design requirements and review standards.

The Downtown Commission (DTC) has discussed this proposal over multiple meetings and unanimously supported the request to rezone these parcels along the east side of Asheland Avenue and apply the intermediate height zone at their meeting on October 14, 2016.

Staff and members of the DTC held a meeting with Asheland Avenue property owners in January 2014 and met with community residents in July and September 2016.

At their meeting on November 2, 2016, the Planning & Zoning Commission voted unanimously in support of this effort. At the meeting, one property owner included in the rezoning

spoke in support. No other communication has been received as of the writing of this report.

Zoning in this area includes CBD to the north and east, OB to the south, and OB and RB to the west. The area is developed with a mix of uses including medical and other offices, residential and some manufacturing and distributive businesses. Uses currently on these sites are allowed in the CBD and considered compatible with the surrounding area.

Design standards mandated by the city's Unified Development Ordinance (UDO) would require that any future development be pulled up towards and activated with the street rather than set back with parking in the front. The maximum height permitted (145 feet) would be significantly greater than current zoning (60 to 80 feet) but is less than the properties adjacent to the west along Coxe Avenue, which are within the tallest height zone.

There are policies throughout the *Asheville City Development Plan 2025* supporting the need for higher-densities and a mix of uses, especially concentrating development in downtown and areas close to the CBD for this type of development. CBD zoning allows for a greater variety of uses and higher residential densities while maintaining and requiring design elements that will encourage multi-modal transportation and an urban form of development that is more amenable to the pedestrian experience.

The Land Use & Transportation section contains a specific goal to "continue to look for opportunities to expand the boundaries of the CBD to areas appropriate for that type of development".

The *Downtown Master Plan* recommends strategies for the continued vitality of the downtown and specifically included this section of Asheland Avenue as an area for expansion of the CBD due to its proximity to the CBD, wide right-of-way and potential for urban growth. A number of maps in the plan expanded beyond the current CBD boundary because these edge areas were noted as having that potential to grow and improve following an urban development pattern.

The proposal aligns with the 2036 Council visions in the following areas: (1) *A Well-Planned and Livable Community* - through the enhanced design standards that accompany development with the CBD zoning designation; (2) *Transportation and Accessibility* – due to the requirements for wider sidewalks, pedestrian-friendly design and urban streetscape possibilities; and (3) *Thriving Local Economy* - from the wider mix of uses and opportunities for more intense development (including a higher residential density)

Considerations:

- Expansion of the CBD is generally recommended in the *2025 Development Plan* and specifically recommended along Asheland Avenue in the *Downtown Master Plan*
- Five similar requests have been approved in this immediate location since 2013, leading to staff and the Downtown Commission pursuing a multi-parcel rezoning effort
- While staff was originally pursuing rezoning both sides of Asheland Avenue to CBD, discussions and analysis have shown that the western side may need a new or separate zoning designation to better balance the goals of the City and development potential with limiting negative impact to adjacent residential neighbors

Staff recommends approval (1) of the proposed rezonings, finding that the proposal to expand the CBD is consistent with City-adopted plans and strategic goals for development in this area as well as following similar rezoning actions in the immediate vicinity; and (2) the amendment to the officially adopted map pertaining to the Central Business District - Height Zone Map.

Mayor Manheimer opened the public hearing at 9:03 p.m. on the rezoning and the amendment to the height zone map; and when no one spoke, she closed the public hearing at 9:03 p.m.

Mayor Manheimer said that members of Council have previously received copies of the ordinances and they would not be read.

Councilman Smith moved to approve the zoning map amendment to rezone 90 Asheland Avenue and 202 Asheland Avenue from Regional Business District to Central Business District; 206 Asheland Avenue, 216 Asheland Avenue, 222 Asheland Avenue and 90 Southside from Office Business District to Central Business District; and a portion of 88 Southside from RM-16 Residential Multi-Family High Density District to Central Business District; and an amendment to the officially adopted Height Zone Map and find find that the request is reasonable, is in the public interest, and is consistent with the Comprehensive Plan and other adopted plans in the following ways: (1) multiple adopted plans support expansion of urban zoning and development in this location; and (2) properties along the block have been rezoned in a piecemeal fashion and this effort creates a consistent and contiguous expansion of the CBD. This motion was seconded by Councilman Bothwell and carried unanimously.

ORDINANCE NO. 4543 - ORDINANCE BOOK NO. 31 - PAGE 40

V. UNFINISHED BUSINESS:

VI. NEW BUSINESS:

A. RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO AN AGREEMENT WITH PINNACLE LANDSCAPES, LLC, FOR THE CONSTRUCTION OF PRITCHARD PARK IMPROVEMENTS

BUDGET AMENDMENT FOR PRITCHARD PARK IMPROVEMENTS

Director of Parks and Recreation Roderick Simmons said that this is the consideration of: 1) a resolution authorizing the City Manager to enter into a contract with Pinnacle Landscapes, LLC to implement landscape improvements at Pritchard Park in downtown Asheville in the amount of $194,349.00 plus a contingency of $38,000.00 for a total of $232,349.00; and 2) a budget amendment in the amount of $232,349.00 from the Parks and Recreation Department General Fund park maintenance budget to establish a capital project in the General Capital Projects Fund.

In support of this capital improvement project, the City issued an Advertisement for Bids for construction of the renovations and received 2 bids plus alternates but one bid was deemed non-responsive.

1. Pinnacle Landscapes, LLC, Asheville, NC ($194,349.00)

After thorough review and evaluation, staff selected Pinnacle Landscapes, LLC, Asheville, NC, as the lowest, responsible bidder. The base bid plus alternates accepted was $194,349.00.

Recognizing Pritchard Park is a highly utilized park and an integral part of downtown Asheville's vibrancy, communication efforts have been diverse. Information regarding the scope of the project and potential impacts on park use was shared with key stakeholders to include City Council's Downtown Commission, Asheville Downtown Association and Downtown Asheville Residential Neighbors (DARN). Stakeholder feedback will be used to minimize impacts once

project work begins. Information has also been shared through the City's news site and social media with regular updates scheduled through the completion of the project.

The Parks and Recreation Department's Adopted FY 2016-17 General Fund included $650,000 for maintenance projects. Funding for the Pritchard Park improvements will come from that budget. Due to the size of the project, Finance staff is recommending that a separate project be established in the City's General Capital Project Fund. The budget amendment will establish this project by moving budget from the General Fund to the General Capital Projects Fund. This includes $232,349.00 to be applied for the cost of the Pritchard Park Improvements for a total base bid with alternates of $194,349.00 plus a contingency of $38,000.00.

Pros:

- Improves security in this urban park via lighting and appropriate plantings
- Improves the conditions and provides protection for the health of the existing trees
- Improves the appearance and place making qualities of this prominent park

Cons:

- While portions of the park will remain open to the public during the construction of the park, it will be necessary to close some areas of the park periodically
- There will be a modest increase in maintenance relative to the existing conditions which is currently being contracted annually with a landscape contractor

The $194,349.00 plus a contingency of $38,000.00 to support Pinnacle Landscapes, LLC contract for the Pritchard Park Improvements is budgeted in the Parks and Recreation Department operating budget as part of the maintenance budget. Due to the nature and size of the project, Finance staff recommends the project be budgeted in the General Capital Projects Fund rather than the General Fund. A budget amendment is required to create a budget in the General Capital Projects Fund.

Mr. Steven Lee Johnson, from Sitework Studios, said Pritchard Park is a heavily used urban park and the landscape of Pritchard Park has gradually declined over the last 15 years since it was initially constructed. There is a need to address security by providing additional lighting, more regulation signs and a landscape that increases visibility. The health of the existing trees and landscape beds have declined and will be improved via air spading the compacted soils, providing master arborist care for all of the existing trees, installation of an irrigation system and an ornamental fence to protect the landscape. The appearance of the park will be improved with attractive landscape plantings, additional ornamental boulders for seating, stone pavers, decorative tiles for the columns and a new drinking fountain and benches. There will only be modest repairs to the existing park concrete sidewalks and brick walls. Portions of the park will remain open to the public during the construction of the park but will be necessary to close some areas of the park periodically. He said that they anticipated construction early next year with final completion in May. He did note that sections will be closed as needed; and said the community can look forward to a lush, urban park that everyone can enjoy.

Staff recommends that the City Council adopt: 1) a resolution authorizing the City Manager to enter into a contract with Pinnacle Landscapes, LLC to implement landscape improvements at Pritchard Park in downtown Asheville in the amount of $194,349.00 plus a contingency of $38,000.00 for a total of $232,349.00; and 2) a budget amendment in the amount of $232,349.00 from the Parks and Recreation Department General Fund park maintenance budget to establish a capital project in the General Capital Projects Fund.

There was a brief discussion, initiated by Councilman Bothwell, about the fence limiting people from getting into the shade in the Park, and the need to be sensitive to the homeless population who utilize the public space.

Councilman Smith then moved to approve the resolution authorizing the City Manager to enter into a contract with Pinnacle Landscapes, LLC to implement landscape improvements at Pritchard Park in downtown Asheville, with an additional "Whereas" to the resolution to read as follows: "Whereas, the City promotes inclusion and diversity of its citizenry;". This motion was seconded by Councilman Bothwell.

After reviewing the rendering of the fenced areas, Councilman Smith withdrew his motion as he felt we should open up a little more of the space and not fence the entire grassed areas.

Mayor Manheimer questioned how we can make sure our parks are healthy, but accessible.

In response to Councilwoman Mayfield, Mr. Johnson said that he was not aware of any homeless advocates showing up at any of the commission meetings where this project was discussed.

It was the consensus of Council continue this matter until the January 24, 2017, meeting so that (1) the matter can be reviewed by the Homeless Initiative Advisory Committee; (2) staff look at bringing the fencing closer around the trees; and (3) additional renderings from the ground level be provided of various vantage points.

B. RESOLUTION NO. 16-277 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A PARTNERSHIP AGREEMENT WITH ASHEVILLE BUNCOMBE PRESCHOOL PLANNING COLLABORATIVE

ORDINANCE NO. 4544 - BUDGET AMENDMENT FOR THE PARTNERSHIP AGREEMENT WITH ASHEVILLE BUNCOMBE PRESCHOOL PLANNING COLLABORATIVE

Councilman Smith moved to recuse Vice-Mayor Wisler from participating in this matter due to a conflict of interest. This motion was seconded by Councilman Bothwell and carried unanimously.

Councilman Gordon Smith said that he invited Jennie Eblen and Melissa Baker from the Asheville Buncombe Preschool Planning Collaborative (ABPPC) to present to the Housing and Community Development Committee at their November 15, 2016, meeting. The Collaborative requested $4,000 of City funds to assist their efforts.

The service contract with ABPPC is an unbudgeted expense. If Council supports the $4,000 agreement, action to be taken would include a budget amendment and an appropriation from fund balance, in addition to authorizing the City Manager to enter into the partnership agreement.

The Housing and Community Development Committee recommended 2-1 to request City Council to enter into a partnership agreement with ABPPC.

Councilman Smith explained that their request of $4,000 of City funds is to assist their efforts to create a collective plan for ensuring that every 3- and 4-year old in Asheville and Buncombe County has access to affordable, high quality preschool. Their estimated budget for the planning process is $43,240 and their Steering Committee requests that each of the organizations currently engaged in the planning effort consider making a contribution to help support the planning process. By supporting this exciting new initiative we will be making a smart investment in our children and our community.

In response to Councilman Young, Ms. Jennie Eblen, Co-Chair of the Steering Committee, said that they have not yet discussed about how the partnership relates to the

funding aspect. She said that there is not really a formal partnership. The partnership is those organizations at the table that are trying to create the plan to increase access for early education. There is not a correlation between the funding and being a partner. The partner is more of those at the table. Being a partner does not require the funding. They do have another ongoing planning phase that they have not sought funcing for. This particular funding will go to support a consultant and administrative support. It might be a potential that they would ask their partners again to support a next phase. Implementation, several years from now, will be large amounts of money and that will not be asked to be furnished by the partners at this time.

Councilwoman Mayfield said that we have been receiving requests outside of our strategic partnership process. She suggested that in our budgeting for next year that we consider reserving some of our strategic partnership funds so that we have money that is available for requests like this that come in not on our regular schedule.

Councilman Smith agreed with Councilwoman Mayfield and felt that the City's once a year allocation calendar doesn't match up with the realities of organizations with their own timetables.

It was the consensus of Council to start this review of process at the Governance Committee.

Councilman Smith moved for the adoption of Resolution No. 16-277 for allocating $4,000 from the general fund. This motion was seconded by Councilman Young.

Councilman Young felt this is an important step toward making sure everyone has some sort of access to early childhood education and specifically pre-k for 3 and 4 year olds. He believed there is a $6,000 gap so he would like to ask for a friendly amendment to provide the amount of $6,200.

Ms. Eblen said that is the gap in this planning phase. She said that they have also made a request to the County and all their partner organizations. Most of the non-profits have not been within their calendar year budget. She said that this phase ends in May of 2017, and there is another very significant phase which is going out to the community and we don't have the funding for that. Any monies that we receive that we did not receive in this phase will go into the next phase.

Councilman Smith moved to amend his motion to $6,200.

Mayor Manheimer said that members of Council have been previously furnished with copies of the resolution and ordinance and they would not be read.

Councilman Smith moved for the adoption of Resolution No. 16-277 for allocating $6,200 from the general fund. This motion was seconded by Councilman Young and carried unanimously on a 6-0 vote (with Vice-Mayor Wisler being recused).

RESOLUTION BOOK NO. 38 – PAGE 291

Councilman Smith moved for the adoption of Ordinance No. 4544 for allocating $6,200 from the general fund. This motion was seconded by Councilman Young and carried unanimously on a 6-0 vote (with Vice-Mayor Wisler being recused).

ORDINANCE BOOK NO. 31 – PAGE 43

C. RESOLUTION NO. 16-278 - RESOLUTION AUTHORIZING THE CITY MANAGER TO SOLICIT QUALIFICATIONS FROM PROFESSIONALS TO

EVALUATE AND ADVISE CITY COUNCIL ON THE DESIGN OF THE I-26 CONNECTOR PROJECT

Mayor Manheimer said that the NCDOT Merger Team has selected Alternative 4B as the preferred alternative for the I-26 Connector Project. In the coming months, the city will continue work with the NCDOT to review possible design enhancements that would minimize the overall footprint of the project and its impact on the City of Asheville, its residents, and economy. To insure the current plan is ultimately acceptable to the City of Asheville and its residents, it is vital that the broad range of environmental and community impacts of the I-26 Connector project be identified, explained to the public, and fully understood by the council to guide the City in its work with NCDOT.

Additional technical expertise is now needed to advise the council and city staff on policy recommendations, as the scope and complexity of the project, is beyond the routine transportation planning that occurs in a City of the size of Asheville.

Council is requesting retention of a consulting firm or firms with the multi-disciplinary skills and technical expertise to evaluate the design of the I-26 project to determine if the City's goal of minimizing the footprint and impacts of Alternative 4B can be accomplished, taking into account federal and state highway design parameters and exceptions. Additionally, the consulting firm will be expected to advise the City on other suggestions and options that should/could be considered feasible, and the various trade-offs involved in each identified suggestion or option.

Multi-disciplinary expertise would include but not be limited to: review and analysis of roadway design and engineering; review and analysis of noise studies and mitigation; review and analysis of traffic forecasts and simulations; review and analysis of NCDOT's construction plans and inherent assumptions (inherent assumptions include roadway design, lane closures, blasting, retaining walls, construction-related impacts, etc.); pedestrian and bike connectivity and accessibility; greenway planning and connectivity; and stormwater mitigation.

If approved, staff would develop a request for qualifications and process for selecting the most qualified consulting firm or firms to perform these services. Staff would anticipate completing the selection process in March 2017.

The authorization for a not-to-exceed contract along with a budget amendment would be on Council's agenda for approval no later than April 2017.

When Mayor Manheimer asked for public comment, no one spoke.

Councilwoman Mayfield moved to for the adoption of Resolution No. 16-278. This motion was seconded by Vice-Mayor Wisler and carried unanimously.

RESOLUTION BOOK NO. 38 - PAGE 292

D. ORDINANCE NO. 4545 - BUDGET AMENDMENT TO ACCEPT FUNDS BY BUNCOMBE COUNTY FOR THE AFRICAN AMERICAN HERITAGE COMMISSION

Mayor Manheimer said that at its meeting on November 15, 2016, the Buncombe County Commissioners approved funding in the amount of $10,000 to support the African American Heritage Commission's efforts to commemorate the contributions of the African American community in Buncombe County and Asheville. The African American Heritage Commission has made a similar request of the City of Asheville in the amount of $10,000. The total amount will be used to fund a facilitated planning and visioning process to develop a project that will commemorate African American heritage in Asheville and Buncombe County.

This action complies with the City Council's vision of a Diverse Community and aligns with the strategic goal to; "In partnership with others, participate in community dialogue and potential strategies to honor history and contributions of the African American community in Asheville, beginning with a community led effort to install a monument to African American heritage"

If City Council supports accepting the $10,000 from the Buncombe County Commissioners and the City's match of $10,000, action to be taken would include a budget amendment to accept the County funds and direction from Council on the City's funding sources for the match.

City Manager Jackson said that actions by Council to support this matter will be to accept the County's $10,000 support along with the City's match of $10,000 from fund balance as a budget amendment.

African American Heritage Commission Chair Sasha Mitchell thanked City Council for their support.

When Mayor Manheimer asked for public comment, no one spoke.

Councilman Bothwell moved to for the adoption of Ordinance Book No. 4545. This motion was seconded by Vice-Mayor Wisler and carried unanimously.

ORDINANCE BOOK NO. 31 - PAGE 45

E. RESOLUTION NO. 16-279 – RESOLUTION APPOINTING MEMBERS TO THE HOMELESS INITIATIVE ADVISORY COMMITTEE

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that the terms of Scott Rogers, David Nash and Hilliard Carlisle as members on the Homeless Initiative Advisory Committee, expire on November 1, 2016. In addition, there currently exists a vacancy left by Amy Upham until November 1, 2018.

The following individuals applied for a vacancy: Dale Davidson, Sarah Lancaster, Emily Whitmire, John Sterling, John Klockner, R. Scott Owen, Kari Korp, Derek Towle, John Rakes, Gene Bell, Jill Moffitt, Beth Russo, Kevin Forrer, Kerry Keihn, Gerry Leonard and Val Ball.

At the recommendation of the Homeless Initiative Advisory Committee (HIAC), it was the consensus of the Boards & Commissions Committee to appoint Gene Bell, John Rakes and Dale Davidson to the HIAC. It was also their recommendation to re-advertise for the homeless/formerly homeless seat.

Vice-Mayor Wisler moved (1) to appoint Gene Bell and John Rakes to serve as members of the Homeless Initiative Advisory Committee, terms to expire November 1, 2019, or until their successors have been appointed; (2) to appoint Dale Davidson to serve the unexpired term of Ms. Upham, term to expire November 11, 2018, or until his successor has been appointed; and (3) to re-advertise for the homeless/formerly homeless seat. This motion was seconded by Councilman Bothwell and carried unanimously.

RESOLUTION BOOK NO. 38- PAGE 293

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

VIII. ADJOURNMENT:

Mayor Manheimer adjourned the meeting at 9:45 p.m.

210

Magdalena Bouldson
CITY CLERK

Edith E. Marks
MAYOR

Tuesday – January 10, 2017 - 5:00 p.m.

Regular Meeting

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Cecil Bothwell; Councilwoman Julie V. Mayfield; Councilman Gordon D. Smith; Councilman W. Keith Young; City Manager Gary W. Jackson; City Attorney Robin T. Currin; and City Clerk Magdalen Burleson

Absent: Councilman Brian D. Haynes

PLEDGE OF ALLEGIANCE

Mayor Manheimer led City Council in the Pledge of Allegiance.

I. PROCLAMATIONS:

A. PROCLAMATION PROCLAIMING 2017 AS "LAND OF THE SKY ASSOCIATION OF REALTORS YEAR"

Mayor Manheimer read the proclamation proclaiming 2017, as "Land of the Sky Association of REALTORS Year" in the City of Asheville. She presented the proclamation to Mr. Randall Barnett, Mr. Terry Horner, and others, who briefed City Council on some activities taking place during the year.

B. PROCLAMATION PROCLAIMING JANUARY 14-16, 2017, AS "DR. MARTIN LUTHER KING JR. DAYS"

Mayor Manheimer read the proclamation proclaiming January 14-16, 2017, as "Dr. Martin Luther King Jr. Days" in the City of Asheville. She presented the proclamation to Ms. Oralene Simmons who briefed City Council on some activities taking place during the days.

II. CONSENT AGENDA:

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON DECEMBER 13, 2016

B. SECOND READING OF ORDINANCE NO. 4540 - ORDINANCE GRANTING A FRANCHISE TO SLIDR, LLC FOR THE OPERATION OF A LOW SPEED VEHICLE SERVICE WITHIN THE CITY OF ASHEVILLE

This item was adopted on its first reading on December 13, 2016.

ORDINANCE BOOK NO. 31 - PAGE 29

C. RESOLUTION NO. 17-280 - RESOLUTION AUTHORIZING THE CITY MANAGER TO APPLY FOR, AND IF AWARDED, ACCEPT FUNDING FROM THE DUKE ENERGY WATER RESOURCES FUND

Summary: The consideration of a resolution authorizing the City Manager to apply for, and if awarded, accept funding from the Duke Energy Water Resources Fund in the amount of $90,000.

On December 15, 2016, City staff received an invitation from the Duke Energy Water Resources Fund -managed by the North Carolina Community Foundation- to apply for the 2017 funding cycle. Submittals are due on January 20, 2017. This invitation came because the City

submitted a successful Letter Of Intent to the program in October 2016. If awarded, $30,000 or less of the funds would be used to offset the cost for a storm water management device on the French Broad River Greenway West Bank, a project that will be constructed as part of the TIGER VI program between 2017-2020; the remaining ($60,000) funds would be used to hire a firm to develop a Restorative Landscape Plan for the River Arts District Transportation Project (RADTIP) area. The plan's purpose would be to increase riparian sustainability and create a riverfront landscape environment (wildlife habitat, erosion and storm water management, shade for citizens, urban garden opportunities) that greatly improves on what is currently planned. This plan would acknowledge that while the RADTIP and other City plans call for two major storm water management devices, a pollinator garden, and required street trees and landscaping, that there are gaps in addressing water quality, tree canopy, and other environmental issues in this area. The scope of work would include an inventory of existing trees and vegetation, an analysis of the current plans including tree removal and new landscape designs to be installed via RADTIP street designs, boat ramp designs, and parking lot designs; and an area wide landscaping plan that focuses on how to deliver the plan via community partnerships. RiverLink, Asheville Greenworks and Boy Scouts of America Daniel Boone Council have met with staff and expressed an interest in being partners in this project.

The Riverfront Commission adopted the following recommendations to Council for 2016, as part of the publication of their 2015 Annual Report:

- Recommendation 3: Focus on water quality. This will require coordination with local governments, the state of North Carolina, and not for profits like RiverLink and Greenworks.
- Recommendation 4: Continue and Improve on Flood mitigation and flood hazard mitigation strategies.

Staff presented the idea to the Planning and Economic Development Committee of City Council on September 20, 2016. While no official vote was called, members expressed support for staff to submit a Letter of Intent, and were told that any decision to apply for the grant would come to the full Council for consideration.

Pro:

- Helps further Council and Community goals with no impact to City budget

Con:

- Requires City staff management/use of human resources (opportunity cost).

No additional City funds are required to match this grant. If awarded, there would be a positive impact to the City's budget in the amount of $90,000.

Staff recommends City Council adopt a resolution authorizing the City Manager to apply for, and if awarded, accept funding from the Duke Energy Water Resources Fund in the amount of $90,000.

RESOLUTION BOOK NO. 38 - PAGE 294

D. RESOLUTION NO. 17-281 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CONSTRUCTION AGREEMENT WITH AAR ROOFING & SHEET METAL OF NC FOR THE BINGHAM ROAD ROOF REPAIRS PROJECT

Summary: The consideration of a resolution authorizing the City Manager to execute a construction agreement with AAR Roofing & Sheet Metal of NC (Contractor) for the Bingham Road Roof Repairs Project for the base bid amount of $646,645 plus a 10% contingency in the amount of $64,665 for a total project budget in the amount of $711,310.

On November 14, 2016, the Water Resources Department (WRD) issued an Advertisement for Bids for the Bingham Road Roof Repairs Project. The scope of work for this project includes, but is not limited to, all labor, materials, equipment, and incidentals required for replacement of approximately 51,000 Square Feet of single ply membrane roofing, tapered insulation, roof accessories, and associated flashings and trim at the new Water Maintenance / Meter Services Facility located at 200 Bingham Road in Asheville.

In response to the Advertisement for Bids, the department received four bids on December 6, 2016 as summarized below:

1. AAR Roofing & Sheet Metal of NC, Kernersville NC – base bid $646,645
2. Benton Roofing, East Flat Rock NC – base bid $683,589
3. Eskola, LLC, Morristown TN – base bic $686,500
4. Frizzell Construction Company, Bristol TN – base bid $783,000

Following a review of the bids by City Staff and the project architects, McMillan Pazdan Smith, the Contractor was selected as the lowest responsible, responsive bidder for the base bid amount of $646,645. A contingency amount of $64,665 has been added for a total project budget in the amount of $711,310. A potential saving of $207,247 may be realized if upon removal of the existing roofing material it is discovered that the roof is pitched. A pitched roof will allow tapered insulation to be removed from the project cost.

Pros:

- This project will replace the existing, leaking roof at the Water Maintenance / Meter Services Facility.
- This project is aligned with the City and the WRD goal of continued investment and improvement of the City's property and infrastructure through Capital Improvement Projects, in order to provide a high quality of life.

Con:

- If the roof is not replaced, it will continue to leak, compromise the structural integrity of the Facility, and possibly lead to health concerns from mold.

The funding needed for the construction agreement is currently allocated within the 200 Bingham Maintenance Facility project in the Water Resources Capital Improvement Projects fund. The engineer's estimate for this project was approximately $500,000.

Amount Available for Construction	$1,700,000
Amount Needed for Construction Agreement (includes contingency)	$ 711,310
Remaining Project Budget for Phase II (Customer Services move)	$ 988,690

The funds remaining in the Project Budget will be used to fund Phase II of the Project, the relocation of the Customer Services Division to 200 Bingham Road. Based upon project design estimates, the remaining project budget is not anticipated to support the completion of the Phase II construction of Bingham Rd. Current estimates suggest that Phase II of this project will cost $1.8 million with a budget balance of $988,000. Staff will continue to value engineer construction phases where possible and include capital budget revisions in the Fiscal Year 2018 budget process for City Council consideration.

Staff recommends City Council adopt a resolution authorizing the City Manager to execute a construction agreement with the Contractor for the Bingham Road Roof Repairs Project for the base bid amount of $646,645 plus a 10% contingency in the amount of $64,665 for a total project budget in the amount of $711,310.

RESOLUTION BOOK NO. 38 - PAGE 295

E. RESOLUTION NO. 17-282 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CONSTRUCTION AGREEMENT WITH T&K UTILITIES INC. FOR THE VAULT AND METER RENEWALS PHASE II PROJECT

Summary: The consideration of a resolution authorizing the City Manager to execute a construction agreement with T&K Utilities, Inc. for the Vault and Meter Renewals Phase II Project for the bid amount of $487,350 plus a 10% contingency in the amount of $48,735 for a total project budget in the amount of $536,085.

On November 22, 2016, the Water Resources Department (WRD) issued an Advertisement for Bids for the Vault and Meter Renewals Phase II Project. The scope of work for this project includes, but is not limited to, all labor, materials, equipment, and incidentals required for the demolition and renewal of 10 large water customer connections, including vault and meter, with all related appurtenances and materials required in order to complete the work.

In response to the Advertisement for Bids, the department received 3 bids on December 21, 2016, which are summarized below:

1. Cooper Construction, Flat Rock NC – bid $488,241
2. T&K Utilities, Asheville NC – bid $487,350
3. Thomas Construction, Johnson City TN – bid $564,040

Bids were reviewed by City staff and the project engineers, Cavanaugh and Associates, P.A.. Upon completion of this review T&K Utilities, Inc. was selected as the lowest responsible, responsive bidder for the bid amount of $487,350. A contingency amount of $48,735 has been added for a total project budget in the amount of $536,085.

Pros:

- This project will replace existing substandard and failing large water meters and vaults with new metering infrastructure designed and constructed in accordance with the City of Asheville standards.
- This project is aligned with the City and the WRD goal of continued investment and improvement of the City's property and infrastructure through Capital Improvement Projects, in order to provide a high quality of life.

Cons:

- Not completing this work will neglect a situation which presents a safety hazard to staff who are required to enter these vaults
- A vault failure could damage water infrastructure and impede water supply to one of the businesses served by these large meters.

The funding needed for the construction agreement is currently allocated within the Meter/Vault Repair project in the Water Resources Capital Improvement Projects fund. The engineer's estimate for this project is approximately $500,000.

Amount Available for Construction	$1,124,485
Amount Needed for Construction Agreement (includes contingency)	$ 536,085
Remaining Project Budget	$ 588,400

The funds remaining in the Project Budget will be used to fund future Vault and Meter Renewals.

Staff recommends City Council adopt a resolution authorizing the City Manager to execute a construction agreement with T&K Ut lities, Inc. for the Vault and Meter Renewals Phase II Project for the bid amount of $487,350 plus a 10% contingency in the amount of $48,735 for a total project budget in the amount of $536,085.

RESOLUTION BOOK NO. 38 - PAGE 298

F. RESOLUTION NO. 17-283 - RESOLUTION AUTHORIZING THE CITY MANAGER TO APPLY FOR, AND IF AWARDED, ACCEPT FUNDING FROM THE N.C. GOVERNOR'S HIGHWAY SAFETY DWI TASK FORCE GRANT

Summary: The consideration of a resolution authorizing the City Manager to make an application to the North Carolina Governor's Highway Safety Program (Governor's Highway Safety Program) for a one year 25% State/75% Local matching fund grant to enable continuation of the multi-jurisdictional DWI Task Force involving the Asheville Police Department (Police Department) and Buncombe County Sheriff's Office (BCSO).

In both the City of Asheville (City) and Buncombe County (County), the number of impaired drivers has been a serious concern to citizens and law enforcement for many years. In an effort to combat impaired driving incidents within the City and County, the Governor's Highway Safety Program granted the Police Department a four year grant in October 2013. Following the development of the Asheville Buncombe DWI Task Force in August 2014, 920 Driving While Impaired arrests have been made and 54 Drug Evaluations have been conducted on impaired drivers.

Based on the success of the program, the Governor's Highway Safety Program recommended the Police Department continue its efforts of reducing DWI related collisions and educating the public regarding the dangers of impaired driving. Since the four year grant will expire in September 2017, the Governor's Highway Safety Program has offered to continue the grant on an annual basis at a 25/75 partnership where the program would provide 25% funding and the City and County providing 75% funding. Under the grant, which operates on a federal fiscal year October 1 to September 30, the DWI Task Force would continue to conduct targeted DWI enforcement and provide educational events for the public throughout Asheville and Buncombe County. Additionally, a member of the task force serves as an active participant and Board Member for Buncombe County Sobriety Court. If approved, the funding would be support one Asheville Police Sergeant, three Asheville Police officers and two Buncombe County Deputies as follows:

Source	Percent	Amount
Governor's Highway Safety Program	25%	$100,583
City	75% combined	$200,493
County		$101,255
TOTAL (October 2017 through September 2018)	100%	$402,331

During its December 13, 2016, meeting, the Finance Committee reviewed and recommended City Council consideration and approval of this grant opportunity.

Pros:

- Receipt of grant funds used to match 25% of the costs of salary and benefits to officers participating in the DWI Task Force.
- Potential reduction in impaired driving collisions, injuries and deaths throughout Asheville and Buncombe County.

Cons:

- Funding of $200,493.75 from the City's general fund in FY 2018.

- Funding from NCGHSP is evaluated annually and not fully guaranteed beyond this year.

The general fund impact to continue funding salaries and benefits for one sergeant and three officers for the DWI Task Force would be approximately $200,493 in FY 2018. The FY 2017 City contribution is budgeted at $133,662, so the increase for FY 2018 will be $66,831.

FY 2018	$200,493

City staff recommends City Council adopt a resolution authorizing the City Manager to apply for grant funds through the North Carolina Governor's Highway Safety Program.

RESOLUTION BOOK NO 38 - PAGE 301

Mayor Manheimer asked for public comments on any item on the Consent Agenda, but received none.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Councilman Bothwell moved for the adoption of the Consent Agenda. This motion was seconded by Vice-Mayor Wisler and carried unanimously.

III. PRESENTATIONS & REPORTS:

A. HOUSING AUTHORITY'S FAMILY SELF-SUFFICIENCY PROGRAM

Chief Operating Officer David Nash briefed Council on the Housing Authority's Family Self-Sufficiency Program. Ms. Katelyn Mattox and Ms. Shaunda Sandford each briefed Council on a success story.

In response to Councilman Young, Mr. Nash said that 200 residents out of 1400 have enrolled in the program. He did note though that not all complete the program.

Council spoke in support of this amazing program that is changing people's lives and making a significant impact on City residents.

IV. PUBLIC HEARINGS:

A. PUBLIC HEARING TO CONSIDER AN AMENDMENT TO THE UNIFIED DEVELOPMENT ORDINANCE ESTABLISHING REQUIREMENTS FOR UTILITY SUBSTATIONS

Councilman Bothwell moved to continue this public hearing until June 13, 2017. This motion was seconded by Councilman Young and carried unanimously.

B. PUBLIC HEARING TO CONSIDER THE VOLUNTARY ANNEXATION OF PROPERTY LOCATED AT 12 LOOP ROAD

ORDINANCE NO. 4546 - ORDINANCE EXTENDING THE CORPORATE LIMITS OF THE CITY OF ASHEVILLE TO INCLUDE PROPERTY LOCATED AT 12 LOOP ROAD

When Mayor Manheimer asked to be recused from this item and the following conditional zoning public hearing due to the applicant being a client of her law firm, Vice-Mayor Wisler moved tor recuse Mayor Manheimer from participating in this matter. This motion was seconded by Mr.

Young and carried unanimously. At this time, Mayor Manheimer handed the gavel over to Vice-Mayor Wisler to preside of the meeting and left the room.

Principal Planner Shannon Tuch said that this is the consideration of an ordinance to extend the corporate limits of the City of Asheville to include property at 12 Loop Road. This public hearing was advertised on December 30, 2016.

The property owner, English Oak Industrial LLC, has petitioned the City of Asheville for the annexation of 4.8 acres located at 12 Loop Road and identified in the Buncombe County tax records as PIN 9643-87-5405. The property currently supports two non-residential structures. The property is contiguous to the primary corporate limits, and qualifies for annexation by petition as set forth in North Carolina General Statutes (NCGS) 160A-31 and N.C. General Assembly Session Law 2005-139.

Pursuant to NCGS 160A-31, a public hearing must be held prior to adopting an ordinance for voluntary annexation. If City Council decides to proceed with this request, the effective date for the annexation would be January 10, 2017.

Considerations:

- Provides for the orderly growth of the City and the tax base through the acceptance of appropriate areas into the corporate limits where owners desire annexation.
- Complies with the 2025 Comprehensive Plan in that it supports the strategy of promoting voluntary annexations of developing areas.
- Allows for the subject property to be combined with property already located in the city's jurisdiction, providing frontage on a key commercial corridor.

This request includes the voluntary annexation of 4.8 acres of commercial property into the City which will provide new property tax revenue with only a very small increase to services. There is a commercial retail project proposed for this property which, if developed as currently proposed, would generate approximately $20,000-25,000 in city property tax based on comparable commercial properties in the city.

City staff recommends that City Council adopt the ordinance annexing the property at 12 Loop Road.

City Attorney Currin noted that a Certificate of Sufficiency has been prepared by the City Clerk that will be incorporated into the record.

Vice-Mayor Wisler opened the public hearing at 5:31 p.m. and when no one spoke, she closed the public hearing at 5:31 p.m.

Vice-Mayor Wisler said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Smith moved for the adoption of Ordinance No. 4546. This motion was seconded by Councilman Bothwell and carried unanimously (Mayor Manheimer recused.)

ORDINANCE BOOK NO. 31 – PAGE 47

C. PUBLIC HEARING TO CONSIDER THE CONDITIONAL ZONING OF 12 LOOP ROAD, 352 AIRPORT ROAD AND A PORTION OF 360 AIRPORT ROAD FROM HIGHWAY BUSINESS DISTRICT TO HIGHWAY BUSINESS DISTRICT/CONDITIONAL ZONING FOR A 7.5 ACRE COMMERCIAL RETAIL DEVELOPMENT

ORDINANCE NO. 4547 - ORDINANCE TO CONDITIONALLY ZONE 12 LOOP

ROAD, 352 AIRPORT ROAD AND A PORTION OF 360 AIRPORT ROAD FROM HIGHWAY BUSINESS DISTRICT TO HIGHWAY BUSINESS DISTRICT/CONDITIONAL ZONING FOR A 7.5 ACRE COMMERCIAL RETAIL DEVELOPMENT

Vice-Mayor Wisler noted that Mayor Manheimer has been recused from participating in this matter.

Principal Planner Shannon Tuch said this is the consideration of an ordinance to conditionally zone 12 Loop Road, 352 Airport Road and a portion of 360 Airport Road from Highway Business District to Highway Business District/Conditional Zoning for a 7.5 acre commercial retail development. Also included in the development is a large parking field, new driveway entrances, sidewalk, landscaping and other related site improvements. This public hearing was advertised on December 30, 2016, and January 6, 2017.

Ms. Tuch said that the site is located at the intersection of Airport Rd. and Loop Rd. According to the survey submitted, the entire project area is 7.6 acres; however, the 4.8 acre parcel located at 12 Loop Rd. is located outside of the city's jurisdiction in Buncombe County and is currently zoned Employment (EMP). The property has mild to moderate topography with clear and easy access from either Airport Rd. or Loop Rd. The project area is located above 2220' in elevation, however, the average natural slope for all three properties is less than 15% and therefore not subject to the city's steep slope development standards. The PINs are 9643-87-7350, 9643-87-5114 and 9643-87-5405 and the owners are English Oak Green LLC, Southridge Assoc. LLC and English Oak Industrial LLC.

Per UDO Sec. 7-5-9(b) the overall project would be categorized as a Level II project, should all of the project be in the city's jurisdiction. However, this application is seeking a conditional zoning in order to adopt a site specific development plan that: 1) would consolidate the project onto one parcel, and into one jurisdiction and zoning designation should a voluntary annexation be approved and, 2) seek relief from sidewalk and landscape standards.

The existing structures are proposed to be demolished and removed in order to make room for a new commercial retail development with a large 72,000 s.f. building (with two tenants) and two smaller outparcels on Airport Rd. The project is described in two phases with Phase I including the large retail structure and a small 5070 s.f. retail structure located on one of the two outparcels along with the large majority of the proposed parking. The second phase shows a small, high-turnover fast food restaurant that is approximately 2000 s.f. on the second outparcel located at the intersection of Airport Rd. and Loop Rd. Overall, the project requires three large retaining walls ranging in height with maximum heights of 17', 20' and 17' respectively.

The overall project area includes a well defined entrance on Airport Rd., as well as a secondary customer entrance on Loop Rd. Two additional service entrances are located further north on Loop Rd. A traffic signal is proposed at the intersection of Loop Rd. and Airport Rd. and would provide easier (especially left turn) movements during periods of high traffic volumes. Off-street parking is located primarily in a large parking field in front of the large retail anchor and provides 266 spaces total, including 10 accessible spaces and 14 bicycle spaces (5% of total).

Sidewalks are required as part of this project and are typically required on all road frontages, including both Airport Rd. and Loop Rd. New sidewalk is shown on Airport Rd. and on Loop Rd. up to the secondary customer entrance. A modification waiving the requirement for the remaining sidewalk on Loop Rd. is being requested.

This commercial project requires a moderate amount of landscaping including: Street buffer, street trees, parking lot landscaping, building impact landscaping, and retaining wall landscaping/screening. The conditional zoning request includes relief from a number of different landscape standards in order to achieve both the proposed tenant's minimum parking needs and

to reserve opportunity for two small outparcels. See *Conditions* below for itemized list of modifications requested.

Open space is required at a rate of 15% of the total project area, which is approximately 49,423 s.f. As designed, the project provides 50,137 s.f. and satisfies this requirement.

This proposal was approved with conditions by the Technical Review Committee (TRC) on October 17, 2016 and requires review by the City Council and Final TRC prior to zoning approval.

At the Planning & Zoning Commission meeting on November 2, 2015, the Commission voted unanimously (7:0) with the condition that three additional tree islands are added to the parking lot, that permeable paving (or other accommodation for the tree's root zones) be used around the islands, and that large maturing trees are substituted for the small trees shown in the islands. The applicant/developer agreed to these changes. Additionally, one member of the public spoke requesting consideration of "net zero" construction but with no specific recommendation.

The applicant wishes to conditionally rezone the entire site, including the proposed annexation area once in the city's jurisdiction, to HB-CZ to allow site specific plan approval of a large retail center which also includes modifications from some basic development requirements.

This project includes a number of recommended conditions found in the B1-Conditions list. Special conditions that result in a modification or reduction to development standards include:

1. Reducing the number of trees located in interior islands from 38 to 21 (overall parking requirements are satisfied). *Updated site plan reduced request from 24 trees per the original plan.*
2. Waiving the requirement for a 20-foot wide interior parking island with landscaping and walkway.
3. Allowing perimeter runs of parking spaces without a tree island (one island required every 15 spaces, two islands missing)
4. Locating parking spaces further than 60-feet from a tree (17 spaces are further than 65-feet from a tree). *Updated site plan reduced request from 52 spaces per the original plan.*
5. Allowing planting island sizes to fall below 200 s.f. per island, and below an average width of 10' and a minimum width of 5'.
6. Providing a gap in street tree spacing that is greater than 65-feet (gap of approximately 100+ feet at loading dock entrance).
7. Reducing the required sidewalk requirement on Loop Rd. (approximately 670 linear feet beyond the customer entrance is required).

A separate but simultaneous application for a voluntary annexation for the upper portion of the site has been submitted. The annexation of this 4.8 acre parcel (PIN 9643-87-5405) is a proposed condition of the site plan approval of the project and must be approved prior to Council review of the conditional zoning for the entire site.

An amendment to a conditional zoning for property on Rockwood Rd. was approved in January 2015 to allow a 7-story hotel.

A zoning text amendment to require an airspace study and approval by the Federal Aviation Administration (FAA) for projects of a certain scale/height that are in proximity to the airport was approved in September 2016 and applies to this project.

The property is zoned HB and is flanked on the east and west sides by more HB zoning.

The property to the north and south are outside the city's jurisdiction and are zoned Employment (EMP) by Buncombe County. Uses along the Airport Rd. corridor include a mix of commercial retail and service uses along with light warehousing, assembly and manufacturing.

The Asheville City Development Plan 2025 highlights the importance of economic growth and the use of zoning tools to support and encourage private investment through development and redevelopment.

The development/redevelopment of the Airport Rd. project area most closely aligns with the 2036 Council vision goal of a ***Thriving Local Economy*** where zoning tools are utilized to support growth and development.

This request includes the voluntary annexation of 4.8 acres of commercial property into the City which will provide new property tax revenue with only a very small increase to services.

Considerations:

- Elements of this proposal support city adopted goals and plans, however, other applicable goals may not be fully satisfied (i.e. ***A Well-planned and Livable Community*** or ***A Clean and Healthy Environment***).
- Land uses proposed are permitted uses in the existing HB zoning district.
- Overall project scale falls within the range of a Level II and would not normally require Council approval.
- Site plan approval includes a request to modify (reduce or waive) several development standards, necessitating the CZ.
- The applicant has a choice to vest a similar development plan for the upper 4.8 acres through Buncombe County but prefers to have the property developed under one jurisdiction.
- Landscape reductions are proposed to be mitigated through the use of pervious paving or other strategies in key areas to improve plant health *(see Required Reviews above for the Planning & Zoning Commission's recommended conditions).*
- Landscape reductions could be reduced or eliminated through the removal of the outparcel development making room for parking and internal landscaping.
- The request to waive the sidewalk requirement along Loop Rd. could be eliminated by paying a fee-in-lieu of sidewalk.
- Conditional zoning request includes the voluntary annexation of 4.8 acres of commercial property.

While this proposal complies with certain aspect of the Comprehensive Plan and other adopted plans, and supports certain strategic goals including an important goal for orderly growth and development; the plan, however, falls short in other ways by failing to meet the city's minimum technical standards. Staff concurs with the Planning & Zoning Commission's recommended conditions to improve the tree canopy coverage and tree health, and feels that these conditions will help move the project closer to compliance and the intent of the landscape ordinance.

When Councilman Bothwell asked that kind of material would be used for the pervious parking lot, Ms. Tuch said that the applicant has not decided at the time the plans were submitted for Council's review.

In response to Councilwoman Mayfield, Ms. Tuch said that the applicant has requested a waiver of the required sidewalk requirement on Loop Road in addition to the fee in lieu of waiver.

When Councilwoman Mayfield asked about the traffic impact study, Ms. Tuch said that there were no issues, but it did warrant a signal at Loop Road and Airport Road. The N.C. Dept. of Transportation has already agreed.

Regarding traffic studies generally, Councilwoman Mayfield asked if the studies require the engineers to look at the traffic impact of their development only or other pending developments in the surrounding area for a cumulative impact. Ms. Tuch said that it is her understanding that the engineers do look at other developments proposed.

Councilwoman Mayfield noted that there will be accessible pedestrian signals at the traffic light. She asked for the pedestrian signals be the kind that you don't have to push to get a walk signal. Ms. Tuch said that the Transportation Department will have to address that detail.

Councilwoman Mayfield said that we have a transit line along Airport Road and suggested we add a condition for the developer to add a pad for a bus stop in the future. Ms. Tuch said that the Transportation Department will need to address that detail as well.

Mr. Greg Edney, applicant, said that he would be happy to make the space available for a bus stop pad. He also said that he would ask the traffic engineer to add the motionless pedestrian signal. He has asked for the voluntary annexation and conditional zoning of the property in order to have it in one jurisdiction.

Vice-Mayor Wisler opened the public hearing at 5:47 p.m. and when no one spoke, she closed the public hearing at 5:47 p.m.

Vice-Mayor Wisler said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Young moved to conditionally zone 12 Loop Road, 352 Airport Road and a portion of 360 Airport Road from Highway Business District to Highway Business District/Conditional Zoning to allow for the development of a commercial retail center with associated site improvements, with the following two conditions: (1) Installing a signal that does not require the pedestrian to push the button to get a walk signal; and (2) if the Transportation Department anticipates a need for a transit stop in this area that the applicant would be willing to pave out a bus pad; and find that the request is reasonable, is in the public interest and is consistent with the Comprehensive Plan and other adopted plans in the following way: 1) uses zoning tools to support economic growth along an active commercial corridor. This motion was seconded by Councilman Bothwell and carried unanimously (Mayor Manheimer recused).

ORDINANCE BOOK NO. 31 – PAGE 49

At this time, Mayor Manheimer re-entered the room and Vice-Mayor Wisler handed the gavel over to her to preside over the remainder of the meeting.

D. PUBLIC HEARING TO CONSIDER AN AMENDMENT TO A PREVIOUSLY APPROVED CONDITIONAL ZONING (ORDINANCE NO. 4414) IN THE URBAN PLACE DISTRICT/CONDITIONAL ZONING FOR CHANGES TO THE CONDITIONS FOR DEVELOPMENT OF A MIXED USE PROJECT AT THE PROPERTY LOCATED AT 146 ROBERTS STREET

ORDINANCE NO. 4548 - ORDINANCE TO AMEND A PREVIOUSLY APPROVED CONDITIONAL ZONING (ORDINANCE NO. 4414) IN THE URBAN PLACE DISTRICT/CONDITIONAL ZONING FOR CHANGES TO THE CONDITIONS FOR DEVELOPMENT OF A MIXED USE PROJECT AT THE PROPERTY LOCATED AT 146 ROBERTS STREET

Urban Planner Jessica Bernstein said that this is the consideration of an ordinance to amend a previously approved conditional zoning (Ordinance No. 4414) in the Urban Place District/Conditional Zoning for changes to the conditions for development of a mixed use project

at the property located at 146 Roberts Street. This public hearing was advertised on December 30, 2016, and January 6, 2017.

The project site consists of two separate parcels with a combined area of approximately 3.26 acres and frontage on Roberts Street, Clingman Avenue Extension and Park Avenue (north) in the River Arts District. The main parcel for development is 2.88 acres in size and the second parcel (0.379 acres) is located across Roberts Street to the south. The parcels (previously zoned CI and River) were conditionally rezoned to Urban Place by City Council in 2013.

The project was first approved by City Council on October 22, 2013, under Ordinance no. 4241 and later modified under Ordinance 4414 on May 26, 2015.

Summary of Changes - The applicant is proposing an AMENDMENT to the previous approval. The project is for the construction of a mixed-use development including residential and retail with parking, both structured within the development as well as a separate surface lot.

	Proposed Change	***2015 Approval***	***Additional Information***
Gross Floor Area	408,400 SF	421,489 SF	3.1% decrease
Residential Density	235 (138 1bd, 97 2bd)	243 (146 1bd, 97 2bd)	3.3% decrease, reducing by 8 units
Retail	17,872 SF	19,378 SF	7.8% decrease, eliminated retail from Clingman Avenue
Office	None	8,789 SF	100% decrease, use eliminated
Building Height on Clingman Avenue	50 feet	60 feet	One-level eliminated, Roberts Street unchanged
Parking	394 spaces (334 garage, 20 Roberts Street lot, 8 on-street, 32 "surface")	375 spaces (343 garage, 24 Roberts Street lot, 8 on-street)	Added 19 parking spaces; 5% increase

The design and site layout is essentially unchanged from the previous approval. The project provides one large building on a base of structured parking. There are two levels of parking and four levels of retail and residential spaces but with the existing grade change on site, the overall height varies. The building is reduced to 50 feet on Clingman and remains 68 feet from Roberts Street.

The access is unchanged from the previous proposal - there are two access points into the site, one two-way driveway from Roberts Street and the other two-way driveway from Clingman Avenue. The parking lot has two single-access driveways off Roberts Street. New sidewalks are shown along both sides of Roberts Street (6.5 feet along surface parking and 10 feet along building side) as well as the project frontage on Clingman Avenue and widths range from 7.5 to 12 feet. Additionally, the project has been designed to incorporate areas of pedestrian amenities both at the corner of Clingman and Roberts.

This project incorporates parking in several locations; there is a 334-space parking structure within the development *(previously 343 spaces)* with an additional 32 in an exposed surface lot accessed from the lower level in the garage; the separate parcel across Roberts Street to the south is shown as a standalone parking lot with 20 spaces (2 HC accessible) and approximately 8 on-street spaces will be delineated through streetscape enhancements *(for a total of 394 spaces)*. Bike parking is also included throughout the site.

Landscaping is required on the site and includes street trees along all road frontages, building impact plantings, parking deck and dumpster screening and parking lot landscaping with a street buffer. Open space is also required in this zoning district, equal to 5% of the lot area. There was an approved condition related to landscaping which remains with this amendment.

Urban Place zoning includes specifics for building design and includes well-defined operable entrances at regular intervals, fenestration requirements for the ground and upper levels and treatments to break up long façades. The previous approval included two variances related to distance between entrances and amount of fenestration; these variance approvals remain in place with this amendment.

The current proposal includes the following conditions that will need to be approved by City Council. *The only new or modified conditions relate to density and retaining wall screening.* All others are unchanged but still carry over to this approval.

1. **Density** - The maximum density allowed by right in Urban Place is 64 units per acre, or 209 units for this site. The applicant is requesting an additional 26 units (a 12% increase - up to approximately 72 units per acre). Five percent of the units will be designated as affordable by the City's standards. ***This condition is slightly changed from the 2015 approval due to the reduction in residential units.*

2. **Building Size** – For buildings exceeding three stories, the maximum footprint is limited to 50,000 square feet with a maximum gross floor area of 200,000. The proposed footprint of the building is 82,531 SF and the gross floor area is 408,400 SF. This condition is a result of building upon a base of structured parking. ***This condition is similar to the 2015 approval.*

3. **Sidewalks** - Sidewalks in the Urban Place District are required to be a minimum of 10' in width. Sidewalks are shown down to 6.5 feet along Roberts Street adjacent to the surface lot but a minimum of 10 feet along the building side and between 7.5 -12 feet along Clingman Avenue. There is an existing 5' sidewalk along Park Avenue which will remain. ***This condition is the same as in the 2015 approval.*

4. **Landscaping** – The applicant is requesting to greatly reduce parking deck landscaping requirements based on the existing site conditions where a grade change effectively shields the exposed deck levels and creates challenges to planting. ***This condition is the same as in the 2015 approval.*

5. **Setback** on Roberts Street - The maximum front setback is 15' and there is an area along Roberts Street that exceeds this standard. ***This condition is the same as in the 2015 approval.*

6. **Retaining Wall Screening** - The amendment includes a wall of approximately 25 feet in height at the northern edge of the interior parking area. Vegetative screening requirements apply to walls over 20 feet but due to the location and configuration of the parking and site; the applicant is requesting to include a creative aesthetic screening treatment.

The Urban Place zoning district was created to foster "higher density, mixed-use development that is economically viable, pedestrian oriented, visually attractive and contributing to the place making character of the City...to enhance the streetscape and offer a wide range of complementary land uses and employment opportunities...[and] intended in areas where the appearance of the built environment is important to the vitality of the area." Additionally, the zoning district was created with areas along the French Broad River in mind. The proposed amendments are in line with the Urban Place zoning district.

This amendment was approved with conditions by the Technical Review Committee on December 5, 2016, and received unanimous support by the Planning & Zoning Commission at their meeting on December 7, 2016. Approval by City Council and Final TRC review is required prior to issuance of a zoning permit

Staff has received comment from adjacent property owners and businesses concerned about access to their properties throughout the construction process as well as maintaining as much on-street parking along Clingman Avenue Extension as possible.

The compatibility for this development was evaluated in detail with the previous approvals; the proposed amendment modifying details of the development can be considered minor and does not impact the high level of compatibility as previously reviewed.

This proposal is aligned with numerous aspects of the *City Development Plan 2025* as previously reviewed and the amendment as proposed does not impact the compliance with adopted plans.

The proposal aligns with the 2036 Council vision in the following areas: (1) *A Well-Planned and Livable Community; (2) Transportation and Accessibility; and (3) Quality Affordable Housing.*

Considerations:

- The amendment eliminates an entire use previously included in the proposal.
- City goals support mixed-use, infill development, especially providing residential uses in a walkable location proximate to transit and the Central Business District.
- Streetscape improvements will enhance the pedestrian experience along Roberts Street and Clingman Avenue Extension.
- All previous conditions as noted in the B.1 list still apply as well as variances previously approved.

Staff recommends approval of the amendment to the previously approved project for the construction of a mixed-use development, including the conditions as proposed by the applicant as detailed above. While the office component is eliminated with this amendment, the amount of office space included the previous plan was minor and the various other modifications with this amendment are not significant and do not greatly alter the look or use of the project site.

Councilman Young wondered since there is a reduction on the number of units, will there be a reduction in affordable housing units. Ms. Bernstein explained that the developer is still committing to 5% affordable units - 12.

In response to Councilwoman Mayfield, Ms. Bernstein explained some of the creative treatments to mitigate the visual impact on the wall, noting that it will not be seen from the outside.

City Manager Jackson said that there is a possibility that the land use incentive grant may have to come back for Council for ratification. Assistant City Attorney Jannice Ashley explained the standards used for the land use incentive grant and that the Community Development Division will review grant and standards to see if it will have to come back to Council for ratification of if any changes can be handled administratively.

When Councilman Smith asked if the developer agreed to siting a grocery use in the retail portion, Ms. Bernstein said that it is something they have talked about but it was not written in as a condition. He said that part of the City's Food Action Plan is to be able to promote grocery uses in food deserts.

Mayor Manheimer opened the public hearing at 6:02 p.m. and when no one spoke, she closed the public hearing at 6:02 p.m.

Mayor Manheimer said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Bothwell moved to recommend approval of the conditional zoning amendment request for RAD Lofts, LLC for property located at 146 Roberts Street from Urban Place Conditional Zone (UP-CZ) to Urban Place Conditional Zone (UP-CZ) including the requested conditions and find that the request is reasonable, is in the public interest and is consistent with the Comprehensive Plan and other adopted plans in that: (1) The proposal supports the strategies found in the City's comprehensive plan on encouraging mixed-use development, especially in areas walkable to downtown and proximate to transit; (2) The proposal supports the goal found in the City's comprehensive plan of pursuing more intense infill development where appropriate; and (3) The design and uses create a pedestrian-oriented streetscape along Roberts Street and part of Clingman Avenue Extension. This motion was seconded by Councilman Young and carried unanimously.

ORDINANCE BOOK NO. 31 – PAGE 59

E. PUBLIC HEARING TO CONSIDER THE ISSUANCE OF A CONDITIONAL USE PERMIT FOR PROPERTY LOCATED AT 192 HAYWOOD STREET

Due to Councilman Haynes absence, Councilman Young moved to continue this public hearing to January 24, 2017. This motion was seconded by Councilman Bothwell and carried unanimously.

V. UNFINISHED BUSINESS:

VI. NEW BUSINESS:

A. DISCUSSION ON WHETHER TO HAVE STAFF DEVELOP AN OUTREACH PLAN TO DETERMINE THE LEVEL OF INTEREST OF THE COMMUNITY ON POTENTIAL CITY RE-DISTRICTING

Mayor Manheimer said that in June then-Senator Tom Apodaca pushed forward legislation to mandate Asheville split into six districts. That bill failed. However, she felt it was appropriate to look at the issue. Cities can initiate a re-districting process and make the decision on a Council level or put it out for a referendum. She said that this discussion will be about whether or not to initiate an outreach program to gauge the interest level in our community for districts. In conjunction with that outreach program, she asked that if the community is interested, they be asked whether they would prefer a Council decision or take the issue to the voters. Personally she didn't see a downside asking staff to look into the issue.

Councilwoman Mayfield agreed to look into the issue.

Councilman Bothwell could support a community discussion; however, he remained convinced that Asheville is too small a city to break into districts. He felt our principal interests are in common across the 85,000-90,000 people in Asheville and he didn't think we have treated different areas of the City differently when appropriating sidewalk money, parks, etc.

Vice-Mayor Wisler felt it was a good idea to gauge the community's interest on this topic.

Councilman Smith was interested in making sure the process can accurately gauge the community's interest. He wanted to be confident of the will of the voters. He felt this would be

helpful to the legislature to know that the City has considered this option so if they decided to deliberate it again we can provide them with more information.

When Councilwoman Mayfield suggested we do official polling similar to the bonds, Councilman Smith felt the education piece that was inherent in the bond polling is more difficult to do with this because of the variety of options and prospectives on the pros and cons.

It was the consensus of Council to direct staff to develop an outreach plan as soon as possible to determine the level of interest of the community on potential City re-districting.

Councilman Young felt that individual Council member's preferences need to be separately distinguished from the process to make sure that it is completely unbiased.

City Attorney Currin said that her office will work with the Community & Public Engagement Division to simplify as much as possible what the potential options are.

B. BOARDS & COMMISSIONS

Vice-Mayor Wisler said that the Asheville City Board of Education will be selecting a new superintendent and they are putting together a community advisory team to help with the selection process. They have asked that there be a representative of City Council on that team. She said that she would be happy to take on that responsibility and it was the consensus of Council to appoint her to that seat.

Regarding the Board of Electrical Examiners, since there were no applicants for the seat of a licensed engineer, it was the consensus of re-advertise for the vacancy.

Regarding the Asheville-Buncombe Historic Resources Commission, the following individuals applied for the vacancy: Christopher Cobb, Leslie Humphrey, Kevin Saum, Wayne Wheeler, Gerry Leonard and Ed Flowers. It was the consensus of Council to interview Gerry Leonard, Wayne Wheeler and Ed Flowers.

Regarding the Asheville Area Riverfront Redevelopment Commission, the following individuals applied for a vacancy: Steve Winter, Nick Hinton, Gerry Leonard, Catherine Rosjford, Darren Green, Shelley Schenker, Jeffrey Horner, Janet Lynn Whitworth, Jerry Sternberg and Viola Spells. Councilman Smith moved to (1) reappoint Cindy Weeks and Carleton Collins; and (2) appoint Darren Green. This motion was seconded by Councilman Young and carried on a 6-1 vote, with Councilman Bothwell voting "no." After a brief discussion, Councilman Smith withdrew his motion. It was then the consensus of Council to interview Darren Green and Jerry Sternberg. Councilman Bothwell moved to reappoint Cindy Weeks and Carleton Collins. This motion was seconded by Councilwoman Mayfield and carried unanimously.

RESOLUTION NO. 17-5 – RESOLUTION APPOINTING MEMBERS TO THE BOARD OF ADJUSTMENT

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing members to the Board of Adjustment.

The terms of Douglas Hattaway (Regular), Pratik Bhakta (Alternate), Mac Swicegood (Alternate) and David Brown (Regular) as members on the Board of Adjustment expire January 21, 2017.

The following individuals applied for the vacancies: Paul Wilczynski, Jonathan Tokay, Richard Carpenter and Misty Miller. Mr. Bhakta (currently an Alternate) was interested in serving as a Regular member.

From the recommendation of the Boards & Commissions Committee, Councilman Smith moved to (1) appoint Pratik Bhakta from an Alternate seat to a Regular seat, to serve a three-year term, term to expire January 21, 2020; (2) appoint Paul Wilczynski (Alternate) to serve a three-year term, term to expire January 21, 2020; (3) appoint Misty Miller (Alternate) to serve a three-year term, term to expire January 21, 2020; and (3) appoint Richard Carpenter (Regular) to serve a three-year term, term to expire January 21, 2020. All appointments are until their successors have been appointed. This motion was seconded by Councilman Bothwell and carried unanimously.

RESOLUTION BOOK NO. 38- PAGE 302

RESOLUTION NO. 17-6 - RESOLUTION APPOINTING A MEMBER TO THE FIREMEN'S RELIEF FUND

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing a member to the Firemen's Relief Fund.

The term of Barbara Whitehorn expired on January 1, 2017.

No individuals applied for the vacancy.

From the recommendation of the Boards & Commissions Committee, Councilman Smith moved to reappoint Barbara Whitehorn to serve an additional two-year term, term to expire January 1, 2019, or until her successor has been appointed. This motion was seconded by Councilman Bothwell and carried unanimously.

RESOLUTION BOOK NO. 38– PAGE 303

RESOLUTION NO. 17-7 - RESOLUTION APPOINTING A MEMBER TO THE METROPOLITAN SEWERAGE DISTRICT BOARD

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing a member to the Metropolitan Sewerage District Board.

The term of Esther Manheimer will expire on January 19, 2017.

The following individuals have applied for the vacancy: John Brigham and Jim Torpey.

From the recommendation of the Boards & Commissions Committee, Councilman Bothwell moved to reappoint Esther Manheimer to serve an additional three-year term, term to expire January 19, 2020, or until her successor has been appointed. This motion was seconded by Councilwoman Mayfield and carried unanimously.

RESOLUTION BOOK NO. 38– PAGE 304

RESOLUTION NO. 17-8 – RESOLUTION APPOINTING MEMBERS TO THE SOIL EROSION/STORMWATER REVIEW COMMITTEE

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that the terms of Pete Hildebrand and Ter Mc Spinner as members on the Soil Erosion/Stormwater Review Committee, expire on November 1, 2016.

The following individuals applied for a vacancy: Jim Torpey, Catherine Rosjford and Rusty Bryant.

On November 8, 2016, Vice-Mayor Wisler moved to reappoint Pete Hildebrand to serve an additional three-year term, term to expire November 1, 2019, or until his successor has been appointed. This motion was seconded by Councilman Smith and carried unanimously.

From the recommendation of the Boards & Commissions Committee, Councilwoman Mayfield moved to appoint Catherine Rosjford to serve a three-year term, term to expire November 1, 2019, or until her successor has been appointed. This motion was seconded by Councilman Bothwell and carried unanimously.

The Boards & Commissions Committee suggested revisiting the stormwater ordinance to see exactly what the scope of the Soil Erosion/Stormwater Review Committee's scope of work entails. Councilwoman Mayfield said she talked to the Chair of the Sustainability Advisory Committee on Energy and the Environment (SACEE), which is prepared to have the broad issue of stormwater referred to them. If, however, the Soil Erosion/Stormwater Review Committee's mandate is expanded to consider stormwater policy, then SACEE would be happy to turn that issue over to it. Councilwoman Mayfield suggested consideration an ordinance amendment to expand the scope of Soil Erosion/Stormwater review Committee and its members. She would like to move on that quickly

Vice-Mayor Wisler invited Councilwoman Mayfield to the next Boards & Commissions meeting and discuss t at that level to determine how to move forward.

RESOLUTION BOOK NO. 38- PAGE 305

RESOLUTION NO. 17-9 - RESOLUTION APPOINTING MEMBERS TO THE SUSTAINABILITY ADVISORY COMMITTEE ON ENERGY & THE ENVIRONMENT

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing members to the Sustainability Advisory Committee on Energy & the Environment (SACEE).

The terms of Mindy Fisher, Duncan McPherson and Sonia Marcus (expertise in field of energy management) expired on December 31, 2016.

The following individuals have applied for the vacancy: April Brown, Emily Boyd, Amanda Fairley, Michael Whitmire, Kenneth Dierks, Anne Keller, Travis Smith, Gerry Leonard, Catherine Rosjford, Andrew Mayronne, Lateef Cannon, Zephyr Jost, Maggie Gulick, Larry Haas and Usula Jorch.

From the recommendation of the Boards & Commissions Committee, Councilwoman Mayfield moved to (1) reappoint Sonia Marcus (expertise in field of energy management) to serve an additional three-year term, term to expire December 31, 2019, or until her successor has been appointed; and appoint Maggie Gulick and Anne Keller to each serve a three-year term respectively, terms to expire December 31, 2019, or until their successors have been appointed. This motion was seconded by Councilman Bothwell and carried unanimously.

RESOLUTION BOOK NO. 38– PAGE 306

RESOLUTION NO. 17-10 – RESOLUTION APPOINTING MEMBERS TO THE TREE COMMISSION

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing members to the Tree Commission.

The terms of Debbie Emmons and Mike Keaton expired on December 31, 2016.

The following individuals applied for the vacancies: Shawn Swartz, Ed Macie and Susan Sertain.

From the recommendation of the Boards & Commissions Committee, Councilwoman Mayfield moved to appoint Ed Macie and Shawn Swartz to each serve a three-year term, terms to expire December 31, 2019, or until their successors have been appointed. This motion was seconded by Councilman Smith and carried unanimously.

RESOLUTION BOOK NO. 38 – PAGE 307

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

Mr. Timothy Sadler urged Council to track and stop using spray foam insulation in City buildings due to its flammability. He also congratulated the City on the N.C. Supreme Court's ruling allowing the City to retain their water system.

Mayor Manheimer congratulated our legal team on their long, hard fight to retain the water system. She also thanked the NC League of Municipalities and other cities who stood by the City on the water issue.

Closed Session

At 6:28 p.m., Councilman Young moved to go into closed session for the following reasons: (1) To prevent disclosure of information that is privileged and confidential, pursuant to the laws of North Carolina, or not considered a public record within the meaning of Chapter 132 of the General Statutes. The law that makes the information privileged and confidential is N.C.G.S. 143-318.10 (a) (3). The statutory authorization is contained in N.C.G.S. 143-318.11(a)(1); and (2) To consult with an attorney employed by the City about matters with respect to which the attorney-client privilege between the City and its attorney must be preserved, including, but not limited to, a lawsuit involving the following parties: Alison Rose Kern vs. the City of Asheville. The statutory authorization is N.C. Gen. Stat. sec. 143-318.11(a)(3). This motion was seconded by Vice-Mayor Wisler and carried unanimously.

At 6:35 p.m., Councilman Bothwell moved to come out of closed session. This motion was seconded by Vice-Mayor Wisler and carried unanimously.

VIII. ADJOURNMENT:

Mayor Manheimer adjourned the meeting at 6:35 p.m.

Magdalen Bowlson
CITY CLERK

Esther E. Manheimer
MAYOR

Tuesday – January 24, 2017 - 5:00 p.m.

Regular Meeting

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Cecil Bothwell; Councilman Brian D. Haynes; Councilwoman Julie V. Mayfield; Councilman Gordon D. Smith; Councilman W. Keith Young; City Manager Gary W. Jackson; City Attorney Robin T. Currin; and City Clerk Magdalen Burleson

Absent: None

PLEDGE OF ALLEGIANCE

Mayor Manheimer led City Council in the Pledge of Allegiance.

I. PROCLAMATIONS:

A. PROCLAMATION PROCLAIMING FEBRUARY 12, 2017, AS "INTERNATIONAL DARWIN DAY" IN THE CITY OF ASHEVILLE

Councilman Bothwell read the proclamation proclaiming February 12, 2017, as "International Darwin Day" in the City of Asheville. He presented the proclamation to Erin Schultz, and others.

II. CONSENT AGENDA:

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON JANUARY 10, 2017

B. RESOLUTION NO. 17-11 - RESOLUTION APPOINTING THE TRANSIT COMMITTEE CHAIRPERSON, OR THE CHAIRPERSON'S DESIGNEE, TO SERVE AS THE URBAN TRANSIT REPRESENTATIVE ON THE FRENCH BROAD RIVER METROPOLITAN PLANNING ORGANIZATION BOARD

Summary: The consideration of a resolution appointing the Transit Committee Chairperson, or the Chairperson's designee, to serve as the Urban Transit Representative on the French Broad River Metropolitan Planning Organization Board.

The French Broad River Metropolitan Planning Organization (MPO) is a partnership between local and state government that makes decisions about transportation planning in urbanized areas and meets planning requirements established by Federal authorizing legislation for transportation funding. Local governments belonging to the MPO include Buncombe, Haywood, Henderson, Madison and Transylvania Counties, and Asheville, Biltmore Forest, Black Mountain, Canton, Clyde, Flat Rock, Fletcher, Hendersonville, Laurel Park, Maggie Valley, Mars Hill, Mills River, Montreat, Waynesville, Weaverville, and Woodfin.

When the MAP 21 Transportation Bill was approved in 2013, MPOs with populations of over 200,000 were required to include transit representation on their governing boards. At that time, the French Broad River MPO Board adopted a resolution setting up two seats for transit representatives on the French Broad River MPO Board, one to rotate between agencies receiving Urban/5307 funding, and another one to rotate between agencies receiving Rural/5311 funding. Currently, Henderson County and the City of Asheville are the only two beneficiaries of Urban/5307 funding.

The Regional Transit Operators group recommended drawing lots to decide on the first round of agencies to nominate a representative; Henderson County was selected to nominate an

urban transit representative two years ago and Haywood County was asked to nominate a rural representative. The two-year cycle is up and now it is time for the City of Asheville to nominate an urban transit representative and for Buncombe County to nominate a rural transit representative to the FBRMPO Board for a two-year cycle. The term of this position will begin in January 2017 and will end in December of 2018.

The Transit Committee reviewed this action at their meeting on November 15, 2016, and recommended that the Transit Committee Chairperson, or the Chairperson's designee, serve as the Urban Transit Representative.

The Multi-Modal Transportation Commission reviewed the Transit Committee's recommendation at their meeting on December 14, 2016, and unanimously approved it.

Pros:

- Gives the City of Asheville an additional voting member on the MPO Board.
- Improves the multi-modal "voice" on the MPO Board.

Con:

- There are no known cons to the recommended action.

There is no known fiscal impact for the recommended action.

Staff recommends that City Council approve a resolution appointing the Transit Committee Chairperson, or the Chairperson's designee, to serve as the Urban Transit Representative as a voting member on the French Broad River Metropolitan Planning Organization Board for a two-year term beginning in January 2017 and ending in December 2018.

RESOLUTION BOOK NO. 38 - PAGE 308

C. RESOLUTION NO. 17-12 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ACCEPT A DONATION BY THE ASHEVILLE BREAKFAST ROTARY CLUB OF AN AUDIO FREQUENCY INDUCTION LOOP SYSTEM FOR USE IN THE COUNCIL CHAMBER

Summary: The consideration of a resolution authorizing the City Manager to accept an Audio Frequency Induction Loop System ("AFILS") hearing system for Council Chamber.

In August of 2016, Mr. Carl Chesnick of All Ears Hear Here reached out to the City Clerk's office to donate an AFILS hearing system on behalf Asheville Breakfast Rotary Club, to be used in the City Hall Council Chamber. The AFILS system is a tool for people with hearing loss. It is a wire that can be tied into the existing PA system and it will work for hard of hearing people who have a t-coil app installed on their hearing aid device. The loop system runs inside the existing cable housing, and therefore will not be visible or alter the Council Chamber.

The AFILS system works by running a low current of electricity through a "loop" of wire, producing a temporary magnetic field. Small antennae in hearing aids called Tele-Coils are able to decipher this signal wirelessly, and the wearer is able to hear sound directly in his/her ears corrected for their individual hearing loss. The technology is internationally recognized and standardized to work with any make or model of tele-coil equipped hearing aid. Approximately 80% of hearing aids today use tele-coil equipped hearing aids, and this number continues to grow.

The donated equipment has a total value of approximately $5,000. This equipment was purchased by the Asheville Rotary Club and has since been authorized to donate the equipment

to the City of Asheville. Mr. Chesnick of All Ears Hear Here has agreed to work with City Staff to install the system at no cost.

Pro:

- The loop system will help hard of hearing visitors to better hear and engage in Council meetings.

Con:

- None noted.

City staff recommends City Council adopt a resolution authorizing the City Manager to accept an Audio Frequency Induction Loop System ("AFILS") hearing system for Council Chamber donated by the Asheville Rotary Club.

RESOLUTION BOOK NO. 38- PAGE 309

D. RESOLUTION NO. 17-13 - RESOLUTION AUTHORIZING THE CITY MANAGER TO CONVEY A QUIT CLAIM DEED TO OMKAR HOTELS INC. FOR ANY CLAIM THAT THE CITY HAS ON REAL PROPERTY LOCATED AT 1103 BREVARD ROAD AND STRADLEY MOUNTAIN ROAD

Summary: The consideration of a resolution authorizing the City Manager to convey a quit claim deed to Omkar Hotels Inc. or current owner for any claim that the City has on real property located at 1103 Brevard Road and Stradley Mountain Road.

The property located at 1103 Brevard Road (PIN 9626-64-8826) is improved with one commercial building and three single family houses on 1.43 acres. At some point, a portion of the property was utilized as a water pump station. This pump station was abandoned in place in 2005 when a new station was installed at a higher elevation. On review of the title to the property at 1103 Brevard Road, it appears that no easement or conveyance of any kind was ever granted to the City of Asheville for this pump station.

The property is being transferred to a new owner and the purchaser is seeking to remove any claim that the City may have to this abandoned pump station. The Water Department has concluded that the City no longer has any use for the abandoned station at this location and it is fully disconnected from the main water system. Without an easement or deed for the pump station, the abandoned building and historical use represent a cloud on the fee holder's title. To resolve this matter, the City Council may authorize a deed to quitclaiming all government interest in the property.

Pros:

- Resolves ownership issues.
- Removes liability issues associated with abandoned station.

Con:

- None noted.

City staff recommends City Council approve a resolution authorizing the City Manager to convey a quit claim deed to Omkar Hotels Inc. or current owner for any claim that the City has on real property located at 1103 Brevard Road and Stradley Mountain Road.

RESOLUTION BOOK NO. 38- PAGE 310

E. RESOLUTION NO. 17-14 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ACCEPT DUKE ENERGY CAROLINAS, LLC, REIMBURSEMENT GRANT FUNDS FOR A SINGLE PORT PLUG-IN

ELECTRIC VEHICLE CHARGING STATION IN THE RANKIN PARKING GARAGE

ORDINANCE NO. 4949 - BUDGET AMENDMENT FOR A SINGLE PORT PLUG-IN ELECTRIC VEHICLE CHARGING STATION IN THE RANKIN PARKING GARAGE

Summary: The consideration of a resolution authorizing the City Manager to accept Duke Energy Carolinas, LLC reimbursement grant funds for a single port Plug-in Electric Vehicle Charging Station in the Rankin Parking Deck; and a budget amendment in the amount of $10,000 in the Parking Services Fund to budget the reimbursement grant.

This project is designed to provide direct financial support to Duke Energy customers, the City of Asheville, that wish to install and own electric vehicle charging stations. The City of Asheville was approved by Duke Energy for installation of a single port plug-in EV charging station in the Rankin Parking Deck.

The total cost for the project is $20,000. Duke Energy has agreed to reimburse the City of Asheville for the cost incurred to produce, construct and install a single port charging station in the Rankin Parking Deck in the amount of $10,000. Thus initial cost of installation of the Plug-in EV charging station would be incurred by the City, from the parking services enterprise fund. Once the project is completed, documentation will be submitted to Duke Energy for the maximum reimbursement amount of $10,000.

Pros:

- Provides more access to EV charging stations in the COA parking decks
- Helps to meet City's carbon reduction goal while leveraging private funds

Con:

- None can be identified

As noted above the total cost of the project is $20,000, with the reimbursement grant covering $10,000 of the cost. The City will cover amounts that exceed the grant limit of $10,000 from the parking services enterprise fund.

City staff recommends City Council adopt a resolution authorizing the City Manager to accept $10,000 in reimbursement grant monies from Duke Energy Carolinas, LLC; and a budget amendment in the amount of $10,000 in the Parking Services Fund to budget the grant.

RESOLUTION BOOK NO. 38 - PAGE 311

F. RESOLUTION NO. 17-15 - RESOLUTION AMENDING THE 2017 CITY COUNCIL MEETING SCHEDULE

Summary: (1) City Council will hold a worksession to hear an update on the implementation of the bonds on Tuesday, February 7, 2017, at 2:30 p.m. in the First Floor North Conference Room of City Hall, Asheville, N.C.; (2) City Council will hold a joint worksession with the Buncombe County Board of Commissioners on Tuesday, February 7, 2017, at 4:00 p.m. at 200 College Street, Asheville, N.C.; and (3) City Council will hold their annual retreat on Friday, February 17, 2017, beginning at 8:30 a.m. in Overlook Hall (300 Field Drive) at the UNC-Asheville Campus, Asheville, N.C.

RESOLUTION BOOK NO. 38 - PAGE 312

G. RESOLUTION NO. 17-16 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CONTRACT AMENDMENT WITH CIVIL DESIGN CONCEPT, P.A., FOR THE CARRIER PARK VELODROME SAFETY PROJECT

Summary: The consideration of a resolution authorizing the City Manager to execute a contract amendment with Civil Design Concept, PA, to increase the existing contract in the amount of $25,292.08 by an additional $72,080.00 for a total project budget of $97,372.08 for the project known as Carrier Park Velodrome Safety.

The Parks and Recreation Department awarded the Engineering Design Services Contract to Civil Design Concepts, PA of Asheville, NC for the renovations of the Carrier Park Velodrome through qualified based selection process in 2013 (RFQ). Under the existing contract Civil Design Concepts prepared preliminary design studies, construction documents, and cost estimates for the project.

As the project now moves to permitting, bidding, and construction additional engineering services are required. Civil Design Concepts has presented a scope of work and fee proposal for engineering services associated with the Velodrome Safety Project and will provide engineering clarifications, contract administration, construction observation/reporting, inspection, materials testing, development of record drawings. Direct oversight and management by the engineer of record is encouraged, to provide continuity and compliance with engineering drawings by the contractor through construction.

Scope of Work: Velodrome resurfacing and amenities, replace lights

Project Budget: $1.1 million. Estimated project cost will be determined during the final architectural and engineering design phase.

Tentative Project Timeline:

Final Architectural and Engineering Design	February 2017
Permitting	March 2017
Request for Construction Bid	April 2017
Construction Begin	Fall 2017
Construction Complete	Fall 2017

Pros:

- Continued use of the engineer of record, Civil Design Concepts, PA, as the most qualified engineering firm to assist with the contracting and construction phases of the project.
- Reduces staff time required to manage and inspect the project.

Con:

- None

Funding for these additional services is already included in the adopted Parks and Recreation Capital Improvement Budget.

Staff recommends City Council adopt the resolution authorizing the City Manager to execute a contract amendment with Civil Design Concepts, PA to increase the existing contract in the amount of $25,292.08 by $72,080.00 for a total project budget of $97,372.08 for the project known as Carrier Park Velodrome Safety and further authorizing the execution of any change orders to said contract which may arise during execution of said project up to the budgeted amount.

RESOLUTION BOOK NO. 38 - PAGE 313

H. RESOLUTION NO. 17-17 - RESOLUTION AUTHORIZING THE CITY MANAGER TO SIGN A CONSTRUCTION AGREEMENT WITH NORFOLK SOUTHERN CORPORATION RELATED TO THE CONSTRUCTION OF THE RIVER ARTS DISTRICT TRANSPORTATION IMPROVEMENT PROJECT

Summary: The consideration of a resolution authorizing the City Manager to sign a construction agreement with Norfolk Southern Railway Company related to the construction of the River Arts District Transportation Improvement Project (RADTIP), with an estimated cost of $828,951.

The RADTIP project will re-construct a 2.2 miles of roadway within the River Arts District and will add sidewalks, bike lanes, on-street parking, a greenway, storm drainage, landscaping and other amenities. Construction is scheduled to begin later in 2017.

Portions of the RADTIP project cross over or are adjacent to railroad facilities owned by Norfolk Southern. In order to construct the project, the City must enter into a construction agreement with Norfolk Southern. The agreement lays out terms and conditions for construction, and includes a force account estimate of the cost of work to be performed by the Railway, including flagging services and inspections throughout the duration of the project. In the agreement, the City agrees to reimburse Norfolk Southern for the actual cost of the work. The cost estimate is as follows:

Construction Engineering		87,929
Accounting		2,097
Flagging Services		248,932
Communications Changes		50,000
Signal and Electrical Changes	88,000	
Track Work		351,993
TOTAL		$ 828,951

Pro:

- This work is necessary for construction of the RADTIP.

Con:

- None

The funds for Norfolk Southern reimbursements are budgeted as part of the construction budget for RADTIP in the City's Capital Improvements Program.

Staff recommends City Council adopt a resolution authorizing the City Manager to sign a construction agreement with Norfolk Southern Railway Company related to the construction of the RADTIP project, with an estimated cost of $828,951.

RESOLUTION BOOK NO. 38 - PAGE 314

I. ORDINANCE NO. 4550 - BUDGET AMENDMENT FROM THE N.C. DEPT. OF REVENUE FOR SUPPLEMENTAL PUBLIC, EDUCATIONAL AND GOVERNMENTAL ACCESS CHANNEL FUNDING

Summary: The consideration of a budget amendment in the amount of $27,582 in the Special Revenue Fund to budget supplemental Public, Educational and Governmental (PEG) Access Channel funds from the North Carolina Department of Revenue.

PEG funding is distributed on a quarterly basis by the North Carolina Department of Revenue. The state distributes $4 million annually as PEG funding. Every quarter, $1 million is distributed with funds divided equally among certified PEG channels.

In 2016 the average quarterly distribution of PEG funds was $6,896 per channel, or $27,582 per year. The City of Asheville met certification criteria in 2016 and is eligible for quarterly allocations of $6,898 or $27,582 per year. The first distribution became available in December 2016.

To be eligible for supplemental PEG funding, a qualifying channel must be operated by a county or city for at least 120 continuous days and:

- Have scheduled programming for at least eight hours a day.
- Not repeat more than fifteen percent (15%) of the programming.
- Not contain more than fifteen percent (15%) of character-generated programming content.

PEG funds can be used only for maintenance expenditures that finance day-to-day operations of a PEG channel. Examples of these expenditures may include, but are not limited to:

- Video production / streaming equipment
- Computer / technology
- Renovation and construction of facilities
- Office furniture

Plans for the City of Asheville's PEG funding may include, but are not limited to video post-production equipment (e.g., computer workstation) and secure external storage for media files.

Pros:

- Investments in Government Channel equipment will support compliance with records retention requirements set forth by the North Carolina Department of Cultural Resources.
- Investments in Government Channel equipment will improve the quality of programming and maximize efficiency in post production work.

Con:

- Acceptance of funding requires administrative work to process funding and track compliance with requirements.

Acceptance of the funding will result in $27,582 of outside revenue. In the last few years, Government Channel equipment investments have come from the Communication and Public Engagement Division's general fund budget leaving few funds for investments in public engagement activities outside of the Government Channel. This outside funding will allow the general fund budget to be allocated towards more professional and inviting public engagement opportunities for the Asheville community.

City staff recommends City Council adopt a budget amendment in the amount of $27,582 in the Special Revenue Fund to budget supplemental PEG funding from the North Carolina Department of Revenue.

ORDINANCE BOOK NO. 31 - PAGE 66

J. RESOLUTION NO. 17-18 - RESOLUTION AUTHORIZING THE MAYOR AND CITY MANAGER TO SIGN AN AMENDMENT TO THE 2012 MUNICIPAL RECORDS RETENTION AND DISPOSITION SCHEDULE

Summary: The consideration of a resolution authorizing the Mayor and City Manager to sign an amendment to the 2012 Municipal Records Retention & Disposition Schedule.

On October 9, 2012, City Council adopted Resolution No. 12-228 approving the 2012 Municipal Records Retention and Disposition Schedule issued September 10, 2012, by the N.C. Dept. of Cultural Resources, Division of Archives and History.

This fourth amendment (dated October 1, 2016) amends Standard 6 (Emergency Services and Fire Department Records) and Standard 9 (Law Enforcement Records).

Pro:

- Promotes municipal records management

Con:

- None noted

Staff recommends City Council adopt a resolution authorizing the Mayor and City Manager to sign an amendment to the 2012 Municipal Records Retention & Disposition Schedule.

RESOLUTION BOOK NO. 38 - PAGE 315

Mayor Manheimer asked for public comments on any item on the Consent Agenda, but received none.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Councilman Bothwell moved for the adoption of the Consent Agenda. This motion was seconded by Vice-Mayor Wisler and carried unanimously.

III. PRESENTATIONS & REPORTS:

A. ASHEVILLE POLICE DEPARTMENT UPDATE

Police Chief Tammy Hooper updated Council on the following items of interest: Property and Evidence; Matrix Recommendations/ Multi-Year Work Plan; Recruitment Plan; 2016 Crime Trends; and Community Policing/ Trust Building Efforts.

She explained the property and evidence room, showing a chart of items purged, with a backlog of 25% yet to be researched/inventoried. Target for completion is June 30, 2017.

The matrix recommendations/multi-year work plan (completed in July, 2016) included: The APD Multi-Year Work Plan Fiscal Year 2017- Fiscal Year 2019: (1) Formulated through a collaborative internal process; (2) Focus areas are strongly influenced by SOP and Matrix Report as well as ensuring alignment with the City Council's 2036 VISION; (3) Maximizes the Police Department's ability to effectively manage resources, provide accountability, and adapt to change; and (4) A guiding document that is constantly reviewed, updated and aligned with our community's values.

In 2016, the APD implemented a Recruitment Plan to guide in actively recruit, hire, train, and promote a qualified workforce that mirrors the community we serve. (1) Out of 560 police officer applicants, 36 were hired (6.4%) (26 were white males, 7 were white females and 3 were Latino males); (2) Attended more than 15 recruiting events in North Carolina, South Carolina and Tennessee; (3) Engaged community partners; (4) Advertised nationally among a network of minority outlets; and (5) Maximize efforts to increase African American applicants and hires.

Part 1 Crime in 2016 increased 1% compared to 2015. (A) Slight reduction in Property Crime; (2) Overall increase driven by Aggravated Assaults (a) Domestic Related Aggravated Assaults increased by 33% (i) Attributable to increased reporting consistent with changes in practices by LE and service providers, as well as advent of Family Justice Center (b) Non-Domestic Aggravated Assaults increased by 22% (i) Significant increase in gun related crimes; and (c) Both Domestic and Non-Domestic above 5 year averages.

Using maps of Asheville, she showed the crime trends for 2016 - Part 1 crimes 3646 (downtown highest area); Violent Part 1 crimes 471 (downtown highest area); Property Part 1 crimes 3175 (downtown highest area); and Vehicle wrecks 7844 (I-240 at Tunnel Road is the highest area).

Regarding accountability, credibility and community trust, the APD has and will continue to implement programs, training and initiatives to promote accountability and strengthen relationships between the department and diverse communities: (1) Body Worn Camera Program; (2) Use of Force Policy Revision; (3) Officer Training – Crisis Intervention Training (CIT), ICAT, Racial Equity Training (REI); (4) Continued partnerships with community members and groups; and (5) Working to mentor youth.

For 2017 and beyond, (1) Complete inventory and purge of Property and Evidence room; (2) Accomplish goals and objectives in the Multi-Year Plan; (3) Increase recruiting efforts to hire, train, and promote a qualified workforce that mirrors the community we serve; (4) Partner with community to reduce crime and violence and improve quality-of-life through evidence based strategies; (5) Police in an equitable manner that reflects community values; and (6) Enhance community policing and trust through programs, training and initiatives that promote accountability and strengthen relationships.

Chief Hooper responded to Councilman Bothwell when he asked about the actual number of applicants hired vs. the number who applied. Chief Hooper explained that there are several steps in the process and each step of the way they lose applicants.

In response to Councilman Smith, City Manager Jackson said that they will highlight staffing needs in the Police Department (downtown and traffic patrol) in the upcoming budget process.

Councilman Smith suggested we ask for the N.C. Dept. of Transportation's help to make the traffic hotspots safer.

Councilwoman Mayfield asked for accident data on the Jeff Bowen Bridge.

Mayor Manheimer noted that the City will be part of a meeting with the Housing Authority to talk about public housing and the kinds of partnerships and other things that we can do to address crime in public housing.

B. COMPREHENSIVE PLAN PROGRESS

Director of Planning & Urban Design Todd Okolichany updated City Council on the Comprehensive Plan process. He provided a brief overview of the six principles of sustainability that are the unifying themes of the plan - (1) a livable built environment; (3) harmony with the nature environment; (3) a resilient economy; (4) interwoven equity; (5) a healthy community; and (6) responsible regionalism.

Goals of the Plan include (1) highlight key aspirations, challenges, and opportunities; (2) set principles and priorities about where the City should devote energy; (3) create a unified vision that integrates existing planning; (4) create a resource to help guide decision-making; (5) design a user-friendly documents; (6) outline specific goals and strategies; (7) develop a high-level

methodology for measuring the City's progress; and (8) balance the big ideas with core service delivery.

The Comprehensive Plan is a tool that the City uses to establish a high-level vision to guide city policy decisions over a 10-15 year period. The update to the Comprehensive Plan, titled, *Living Asheville: a Comprehensive Plan for our Future,* will provide a visionary framework to help guide Asheville's long term development and provide an essential tool that will be used across the City's many departments to guide future decision making.

The Assessment Report provides the background information for development of the Comprehensive Plan. It explains what a Comprehensive Plan is and the purpose, as well as the process for its development. It also includes an overview of existing plans and their progress to date, peer city review with benchmarking and metrics, and preliminary economic and transportation analyses.

He then reviewed community engagement efforts to date, a review of the project timeline (final plan proposed to be completed in the Fall of 2017), and a review of the Assessment Report, developed by Skidmore Owings and Merrill for the project.

Mr. Okolichany responded to various questions/comments from the Council regarding the Plan update and assessment report summary, some being, but are not limited to: clarification of the percentage of vacant homes that are seasonal; define fixed route transit; does household income only include wages; where is the assessment plan located on-line; in the sections regarding transit, please use "elective riders" instead of "choice riders" and use "transit dependent riders" instead of "captive riders;" when you compare the growth rate of the City to the metro area, is there anyway to quantify the impact of the restraint on annexation; request to see the Lee Walker Heights initiative and the vision for economic mobility and economic opportunity regarding public housing reflected in the Plan; request to see large goals regarding equity reflected in the Plan; greenways should be seen as transportation corridors and recognize that they are part of the broader transportation strategy; need to set some big goals on how we are going to get some of the N.C. Dept. of Transportation managed corridors up to the standards the people of Asheville want; have the zoning language match the principles around infill and affordability; if there is going to be a goal to increase residential presence in downtown, we need to look at capping short-term rentals in the Central Business District; request to see the land assemblage and land banking in some of our affordability efforts; request for update on bolstering local business and discouraging national chains in downtown; request to make sure that the neighborhood plans are reflected in this document; and error on the affordability by sub-district chart on page 115.

IV. PUBLIC HEARINGS:

A. PUBLIC HEARING TO CONSIDER REZONING 4 SCOTTISH CIRCLE, 6 SCOTTISH CIRCLE, 8 SCOTTISH CIRCLE, 9 SCOTTISH CIRCLE, 11 SCOTTISH CIRCLE, 15 SCOTTISH CIRCLE AND A PORTION OF RIGHT-OF-WAY ON SCOTTISH CIRCLE FROM OFFICE II DISTRICT TO RS-8 RESIDENTIAL SINGLE-FAMILY HIGH DENSITY DISTRICT

ORDINANCE NO. 4551 - ORDINANCE TO REZONE 4 SCOTTISH CIRCLE, 6 SCOTTISH CIRCLE, 8 SCOTTISH CIRCLE, 9 SCOTTISH CIRCLE, 11 SCOTTISH CIRCLE, 15 SCOTTISH CIRCLE AND A PORTION OF RIGHT-OF-WAY ON SCOTTISH CIRCLE FROM OFFICE II DISTRICT TO RS-8 RESIDENTIAL SINGLE-FAMILY HIGH DENSITY DISTRICT

Urban Planner Shannon Tuch said that this is the consideration of an ordinance to rezone 4 Scottish Circle, 6 Scottish Circle, 8 Scottish Circle, 9 Scottish Circle, 11 Scottish Circle, 15 Scottish Circle and a portion of right-of-way of Scottish Circle from Office II District to RS-8

Residential Single-Family High Density District. This public hearing was advertised on January 13 and 20 2017.

Ms. Bernstein said that applicant (Darren Poupore, agent) is requesting a rezoning of a private road right-of-way and six single family home parcels located on Scottish Circle in south Asheville from Office II District (O2) to RS-8 Residential Single Family High Density District (RS8).

Project Information:

PIN	Address	Owner
9655-01-3113	4 Scottish Circle	Patrick & Karen Davis
9655-01-3221	6 Scottish Circle	Jerrel & Alfred Bruno
9655-01-3227	8 Scottish Circle	Regina Candler
9655-01-4372	9 Scottish Circle	Darren Poupore
9655-01-4369	11 Scottish Circle	Frederick & Michelle Koon
9655-01-3349	15 Scottish Circle	Michael, Timothy & Rita Conway
9655-01-2373	Scottish Circle (portion of ROW)	Harrell & Associates, Realtors (HOA)

The area of the subject property is approximately 1.40 acres, containing six single family home lots and a portion of the private right-of-way for Scottish Circle. The property was originally developed in 2005 by assembling multiple parcels into a new 3.7 acre, single family subdivision containing 17 home sites and new road. The parcels range in size from .13 acres to .23 acres and all have frontage on Scottish Circle. Ten of the 17 parcels are zoned RS8, four are split zoned RS8/O2 and three are zoned O2.

The applicant has requested a standard rezoning from Office II zoning district to Residential High Density Single-Family (RS8) zoning district. Approximately 2/3 of the original subdivision was already zoned RS-8 while the remaining 1/3 was zoned O2. Single family development is permitted in the O2 zoning district so no rezoning was required at the time of development. The owners included in this request would prefer to amend their zoning so that it would be consistent with the rest of the community. One property owner, the owner of 2 Scottish Circle, has elected to not join the request at this time and is not included in the application for rezoning.

The purpose of the RS8 zoning district is to allow for higher density single family home development where public infrastructure is sufficient to support such development, and to stabilize and protect the district's residential character. The purpose of the O2 zoning district is to support the development of small to medium scale office uses compatible with the use and scale of adjacent properties. All six properties have already been developed for single family homes and all comply with the RS8 zoning for lot size and dimensions. The same properties, however, do not comply with the lot size, lot width and building setbacks for the O2 zoning district. The public record is unclear on how the lots were originally created under the existing O2 zoning and these lots may have been permitted in error. This rezoning will correct the non-compliance of the O2 and O2/RS8 split-zoned parcels (save one).

The subject properties are surrounded on three sides (north, west, south) by other RS8 zoned property, most of which have been developed for medium to low density single family homes. The east side of the community is bordered by O2 zoning which allows for small-medium sized office uses and light commercial/service uses. Approximately 260 linear feet of the eastern boundary is undeveloped. Should the subject properties be rezoned, any future development of the adjacent O2 property would be required to install buffers or orient the structures to the street

which would be more reflective of, and compatible with, the single family development pattern that already exists.

At their regular meeting on January 4, 2017, the Planning & Zoning Commission voted unanimously in support of the group rezoning request (7:0). After the Planning & Zoning Commission meeting, one inquiry from a representative for the adjacent O2 zoned property to the east inquired about potential impacts on developing the non-residential property when adjacent to RS8 zoning.

The Asheville City Development Plan 2025 encourages compatible "adaptive reuse, redevelopment and infill development" and states, "areas within the existing urban fabric that are vacant should be targeted for compatible infill development that takes advantage of existing infrastructure". Given that these properties are already developed for single family uses, and have been developed under the RS8 zoning standards, staff feels this rezoning would help brings these properties into alliance with the goals of the Comprehensive Plan.

This action aligns with the 2036 Council Vision in the following area: *A Well-Planned and Livable Community* – the proposed rezoning promotes thoughtful resident-led planning that will result in a zoning designation that is compatible with the existing development pattern.

Considerations:

- This rezoning would correct the existing non-compliant lot sizes, lot widths and setbacks.
- This rezoning would resolve the undesirable split-zoned condition of three properties (one remains).
- The RS8 designation is consistent with the single family home development that has already occurred.
- This rezoning is being considered at the request of the homeowners.
- The RS8 designation affords a small amount of protection to the property owners by ensuring buffering or building orientation that may help mitigate the impact of future O2 development.

Based on the above findings and the analysis provided in the report, staff finds this request to rezone 4, 6, 8, 9, 11, and 15 Scottish Circle, in addition to the O2 zoned portion of the private right-of-way (PIN 9655-01-2373) from O2 to RS8, to be appropriate and consistent with the context of the neighborhood and broader city goals.

Mr. Darren Poupore, property owner and President of the Homeowners Association, asked for the Commission's support to rezone the entire area to residential in order to maintain their small neighborhood. They felt that the rezoning will ensure some protection of buffering. There is now an undeveloped lot zoned Office II District adjacent to their property, with a full tree buffer now. Since their rezoning application submitted in October has been proceeding through the process, City staff has recently received plans for a 48-unit apartment complex on this undeveloped adjacent lot. Because their property is currently zoned Office II, the tree buffer requirement is not required because the developer's plans were submitted prior to Council vote on this rezoning request. It was his understanding when City staff asked the developer to keep the tree buffer, he declined. Because their application was delayed one month in the City process due to an error in legal noticing at the Planning & Zoning Commission hearing level, and since their application has been going through the process since October, they asked that City Council intervene and ask the developer to reconsider the tree buffer (especially since it's existing).

In response to Mayor Manheimer, Ms. Tuch said that the apartment complex is a Level II development and will not come to Council for review. The plans only show a partial buffer, not a full one.

Councilman Bothwell said that the tree canopy in Asheville is a big concern for the Tree Commission. The Commission is working on trying to make developers analyze existing tree covers on their property prior to any development.

Mayor Manheimer opened the public hearing at 6:20 p.m., and when no one spoke, she closed the public hearing at 6:20 p.m.

Mayor Manheimer said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Smith moved to approve the rezoning request from Office II District to RS-8 Residential, Single Family, High Density District to assign a zoning designation that is more compatible with the existing single family development pattern, and find that the request is reasonable, is in the public interest and is consistent with the Comprehensive Plan and other adopted plans in the following ways: the rezoning will, 1) protect the existing residential character by guiding compatible infill development; and, 2) resolve an existing non-compliant situation. This motion was seconded by Vice-Mayor Wisler and carried unanimously.

ORDINANCE BOOK NO. 30 - PAGE 68

B. PUBLIC HEARING TO CONSIDER THE ISSUANCE OF A CONDITIONAL USE PERMIT FOR PROPERTY LOCATED AT 192 HAYWOOD STREET

Mayor Manheimer said that this public hearing was continued from January 10, 2017, meeting.

City Clerk Burleson administered the oath to anyone who anticipated speaking on this matter.

City Attorney Currin reviewed with Council the conditional use process which is a quasi-judicial permit hearing. At this public hearing, all the testimony needs to be sworn and due process protections afforded to the applicant.

After hearing no questions about the procedure, Mayor Manheimer opened the public hearing at 6:47 p.m.

Urban Planner Sasha Vrtunski submitted into the record City Exhibit 1 (Affidavit of Publication), City Exhibit 2 (Certification of Mailing of Notice to Property Owners); and City Exhibit 3 (Staff Report).

Ms. Vrtunski said that this is the consideration of a request for a Level III review for the construction of an eight-story, 185 room, 178,412 square foot hotel with on-site parking located on 2.05 acres in the Central Business District (CBD). This project is considered a Level III (Conditional Use Permit) review pursuant to Section 7-5-9.1 of the city's Unified Development Ordinance (UDO).

The project site consists of one parcel totaling 2.05 acre (Location Map - Attachment to City Exhibit 3). The primary frontage is on Haywood Street, which is not a Key Pedestrian Street in this area. The site is outside of the Traditional Downtown Core, and is in the Tallest Height Zone. The parcel also has frontage along Carter Street and North French Broad Avenue, with North French Broad being the only Key Pedestrian Street.

The project is proposing to build an 8-story hotel building with 185 rooms and 200 parking spaces in a parking structure (City Exhibit 3 - Site Plan). The total commercial building square footage is 178,412 sf and includes 1300 sf of patio space on the first floor, and 5000 sf of outdoor terrace space on the top floor. Building height is 75 feet, to the floor of the top story. The total

height to the top of the parapet is 89 feet. As provided by the UDO, the height is measured from the Primary Pedestrian Entrance, which is on Haywood Street. Since the grade changes along Carter Street, the building has 9 stories on this side of the building, and a taller height from that grade.

Although not required in the CBD, the applicant is providing 200 parking spaces in a structure, including 8 handicapped spaces and 10 bicycle parking spaces. There have been recent concerns expressed about downtown hotels providing enough parking, and it is not clear if 200 spaces is adequate parking for the use. For other areas of the city with an off-street parking requirement, the number of parking spaces would meet the parking requirement. The parking structure borders the southern property line and is visible only from N. French Broad where the access is located.

The driveway on N. French Broad is shown at 20 feet wide. Access to a loading area is shown on Carter Street, and the driveway is proposed to be 28 feet wide, which is larger than allowed by the UDO (7-8-18(f) (11)). The wider driveway on Carter Street has been approved by the Transportation Department Director.

The sidewalks along Haywood and Carter Streets and North French Broad Avenues are 10 feet wide. The plans also show an internal sidewalk from North French Broad Avenue along the northern edge of the parking structure allowing pedestrians to access the rear entrance of the hotel without having to walk through the parking structure.

Plans show the required street trees along the frontages of Haywood (9 trees); Carter Street (7 trees) and N. French Broad Ave (4 trees). Plans also show the required landscaping for the parking structure (18 trees and 37 shrubs). This project received Alternative Compliance approval for the landscaping around the parking structure, to reduce the number of trees by 1, and to use green screens along the face of the parking garage on the southern side. The building to the south, the Asheville Broad Center, is built on the property line, and trees would not be able to survive between the neighboring building and the parking structure. Additional landscaping is not required, but is proposed on the site plan (additional shrubs). Open Space is not required in the Central Business District.

The project has been evaluated against the design standards in Section 7-8-18 of the UDO and found to comply with requirements including pedestrian entrances, fenestration, screening of mechanical equipment and design organization (View from Southwest from Haywood & Montford Avenue Intersection - City Exhibit 3 - A3.05a). (View from looking Northwest from Carter Street - City Exhibit 3 - A3.05b).

The following modifications have been granted as a part of the Technical Review Committee (TRC) review by the Transportation Department Director, per the Standards and Specifications Manual:

1. Driveway width of 24 feet – The Transportation Director has approved a wider driveway of 28 feet.

The project included requests for two variances that were granted by the Planning & Zoning Commission on December 7, 2016. (View from North French Broad looking at Parking Garage - Attachment to City Exhibit A - A3.05c) (View from North French Broad looking towards Haywood Street - Attachment to City Exhibit 3 - A3.05c)

1. Height of Streetwall (before the stepback)
2. Coverage of 80% along frontage of a Key Pedestrian Street (N. French Broad)

The site is currently zoned Central Business District (CBD) and it is located outside of the Traditional Downtown Core; the use proposed is permitted with a conditional use permit.

The TRC recommended approval on August 15, 2016. The application requires a quasi-judicial review by City Council and a Final TRC review prior to final zoning approval or the issuance of any permits.

The developer's design team met with the Downtown Design Review Committee several times to modify the design and increase the compliance with the intent of the ordinance and design guidelines.

The project was reviewed by the Downtown Commission on September 9 and October 14, 2016. The Downtown Commission voted against the project design for Downtown Design Review based on the request for a variance for a wall over 145' long for a floor above 75 feet. Since the Downtown Commission meeting, the building design has been modified to no longer need the variance for a building wall longer than 145 feet long for floors over 75 feet. With the exception of this request, the Downtown Commission was favorable about the overall design of the project.

This project was reviewed by the Planning & Zoning Commission on December 7, 2016, where the project was approved unanimously. The Planning & Zoning Commission also approved two variances for the project.

Section 7-16-2(c) of the UDO states that Asheville City Council shall not approve the conditional use application unless and until it makes certain findings based on the evidence and the testimony received at the hearing. The applicant has provided a statement on the findings.

Mr. Robert W. Oast Jr., attorney representing the applicant Parks Hospitality Group out of the triangle area of North Carolina, entered into evidence one notebook (original documents or certified documents) containing a list of exhibits the applicant would be using during the presentation. Also included was a sealed by Professional Engineer Kevin S. Dean January 23, 2017, memorandum from Kimley-Horn to Shaunak Patel, Parks Hospitality Group, of the Embassy Suites, Asheville, NC - Traffic Assessment (Applicant Exhibit 1). Mr. Oast also entered into evidence another notebook containing an appraisal sealed by Thomas J. Crozier of Cushman & Wakefield (Applicant Exhibit 2).

In response to Councilwoman Mayfield, Mr. Oast said that regarding the variances, Exhibit 7 of Applicant Exhibit 1 is the the certified copy of the variances (one action for two variances).

Mr. Oast said that unfortunately, Mr. Shaunak Patel, President of Parks Hospitality Group is out of town and regrets he is not here for this important project; however, Mr. Trevor Walden, Vice-President of Operations for Parks Hospitality Group, and Mr. Seth Mason, Assistant Property Manager for Parks Hospitality Group, can speak for the Parks Hospitality Group.

Mr. Oast said that this is a 185 room hotel on 2.2 acres on Haywood Street near its intersection with Montford Avenue. It includes conference facilities which are an important niche in the hospitality industry in downtown Asheville. This project is on the western edge of downtown and almost not in the Downtown Design Review overlay area. This area has long been in need for some sort of stimulus. This project is well situated from a transportation standpoint. It is convenient to a lot of points of interest in Asheville - River Arts District, Montford, Central Business District, South Slope area, convenient access to the French Broad River and even West Asheville, convenient to UNC-Asheville and the U.S. Cellular Center. There is also easy access to the roads out of downtown and to other parts of western North Carolina. We understand that there are questions about the over-building of hotels in downtown Asheville. But, he re-emphasized that this project is not in the center of downtown, it's on the edge, and it will actually relieve some of the pressure on downtown and spur an expansion of downtown into this area. In the Downtown Master Plan this area is identified as the Patton/Haywood Gateway area.

The Plan says that this is an area that is appropriate for hospitality development and it's in the tall building zone.

Mr. Oast said that in the conditional use process, Council has to make seven findings (Exhibit 6 of Applicant Exhibit 1). He then read those following standards: (1) That the proposed use or development of the land will not materially endanger the public health or safety; (2) That the proposed use or development of the land is reasonably compatible with significant natural and topographic features on the site and within the immediate vicinity of the site given the proposed site design and any mitigation techniques or measures proposed by the applicant; (3) That the proposed use or development of the land will not substantially injure the value of adjoining or abutting property; (4) That the proposed use or development of the land will be in harmony with the scale, bulk, coverage, density, and character of the area or neighborhood in which it is located; (5) That the proposed use or development of the land will generally conform with the comprehensive plan, smart growth policies, sustainable economic development strategic plan, and other official plans adopted by the city; (6) That the proposed use is appropriately located with respect to transportation facilities, water supply, fire and police protection, waste disposal, and similar facilities; and (7) That the proposed use will not cause undue traffic congestion or create a traffic hazard. The findings must be based on substantial and competent evidence. If the findings are supported, the permit should be granted. He feels that after his expert witnesses collectively address all of the findings, he felt that Council will have plenty of evidence to support each finding.

Mr. Oast then asked for Council to recognize the following experts:

1. Mr. Tommy Crozier from Cushman & Wakefield - Mr. Crozier said that he is a Senior Director with Cushman & Wakefield in Charlotte. He is part of the Hospitality and Gaming Group. He is a licensed Real Estate Appraiser for over 15 years in the State of North and South Carolina. His primary coverage areas are the Carolinas and Georgia. He has a number of professional designations including the MAI. He has completed well over 1,000 real estate appraisals over the course of last 20 years, including several in Asheville. He prepared the Expert Report containing his signature and seal identified as Exhibit 8 in Applicant Exhibit 1.

   With no objection from City Council, Mr. Crozier was recognized as an expert in the field of land appraisal and valuation.

2. Mr. Kevin Dean, Traffic Engineer from Kimley-Horn & Associates out of Raleigh - Mr. Dean said that he prepared the traffic study for this project. He graduated with a BA in Civil Engineering from NC State. He is a registered Professional Engineer in the State of North Carolina. He has testified as an expert in Cary and Apex, North Carolina. He prepared the traffic assessment containing his signature and seal identified as Exhibit 9 in Applicant Exhibit 1.

   With no objection from City Council, Mr. Dean was recognized as an expert in the field of traffic and transportation analysis.

3. Mr. Blake Esselstyn, Principal of Frontwater, LLC, which is a planning and geographical systems consultancy in Asheville. He has been in that position for two years. Prior to that he worked in the City of Asheville's Planning & Urban Design Department for more than 10 years. He has a BA from Yale University. He has a Master's Degree from the University of Pennsylvania. He has been a Certified Planner since 2013. He is also certified as a Geographic Information Systems Professional. During his time with the City of Asheville he evaluated scores of development proposals for their consistency with comprehensive Plans. He also worked on the Downtown Master Plan and he is currently a

member of the Comprehensive Plan Advisory Committee as a volunteer. He is also Adjunct Faculty at Western Carolina University this semester. He is a member of the American Planning Association and the Urban & Regional Information Systems Association. He has testified as an expert in both court setting and quasi-judicial setting.

With no objection from City Council, Mr. Esselstyn was recognized as an expert in the field of land planning.

Mr. Mike Dale, landscape architect with a firm that was formerly Altamont Environmental, walked Council through the more technical aspects of the plan. The project is within most walking distance of most amenities within downtown. There is great ingress and egress to the interstate, which they have aligned with the intersection of Montford Avenue and Haywood Street, using the existing traffic signal. Using City Exhibit 3 (C4.0, A1.00), he showed the internal drop-off, recessed pedestrian plaza with hardscape (bike racks and a bench or two) on Haywood Street, and the entranceway as it continues into the parking deck. There is also access to the parking deck off N. French Broad Avenue. The parking deck has approximately 200 parking spaces which serves the number of spaces for the needs of the hotel. There is a sidewalk off of Haywood Street into the drop-off and a large 8-foot sidewalk that connects from the internal part of the site over to N. French Broad Avenue. They have met all of the requirements for the landscape plan (City Exhibit 3 - C9.0). He said this project received Alternative Compliance approval for the landscaping around the parking structure, to reduce the number of trees by 1, and to use green screens along the face of the parking deck on the southern side (City Exhibit 3 - Site Plan). They are providing street trees along Haywood, Carter and N. French Broad and also internally. The internal drop-off alleviates congestion along Haywood Street. The service entrance is along Carter Street which is the least busiest street of the three streets. The trash dumpster and back of house facilities are inside the building, with a rollaway door. They envision most guests will park and walk downtown. In general, the site slopes to the south and west with the low point being along Carter Street. That has enabled the architect to step the building down towards Carter Street. There are several utilities at the site, i.e., water, sewer and communications. They will bring the stormwater out from the site to the southwest and then run it down Carter Street and tie it into Patton Avenue. Since there is a slight increase between the pre-development and post-development rates, the applicant will need to provide detention for that difference in pre- and post-development rate. There is a City capital improvement project associated with some of the stormwater infrastructure on Carter Street. The applicant has been in communication with the existing church and there is an agreement in place to provide some parking spaces for the Church during their services on Sundays and Wednesdays. The applicant has also agreed to help resurface the Church's parking lot. There will be a little impact along the Church side with trees and the applicant will repair the retaining wall in that area. There are no plans to close Haywood Street or the sidewalk along Haywood Street during construction. They will provide a pedestrian tunnel. They have good access off of Carter Street to load and unload construction materials to the site.

In response to Vice-Mayor Wisler regarding pedestrian activity on Carter Street, Mr. Dale explained that the service entrance on Carter Street is at an angle to 28.5 feet in order to provide truck access to the dumpsters in the building. There is a 10-foot wide sidewalk on Carter Street, along with street trees, and the service entrance is recessed into the building enough that pedestrians should have a clean line of site to see if a truck is pulling in or out of the service area.

Mr. Oast presented into evidence a letter dated September 21, 2016, from Mr. Ken Putnam, Transportation Department Director, to Mr. Mike Dale, which approved the modification request to increase the required maximum driveway width of 24 feet to 28.5 feet. He asked that it be Exhibit 18 and placed into evidence and in the Applicant Exhibit 1 notebook.

Vice-Mayor Wisler wondered if pedestrian activity on Carter Street was considered when the maximum driveway modification was requested, and ultimately approved.

Using City Exhibit 3 - Site Plan - C4.0, Mr. Bill Zehrung, architect with the firm McMillan/Pazden/Smith Architecture, said that they have been working with City staff, the Downtown Commission, and the Downtown Design Review Committee to get feedback and incorporate some of their needs. The project does comply with the UDO and the two variances they sought benefited their project and to the neighbors around the project. The project will comply with all applicable building and accessib lity codes. Although the building is not planned to be LEED certified, they are working on a number of energy efficient concepts, i.e., thermal gazing to reduce heat loss in the building, full continuous insulation wrapping around the entire building, low flow plumbing fixtures, LED lighting, and efficient HVAC systems, etc. Using City Exhibit 3 - Site Plan (C4.0), A1.00, A1.01, A1.02, A1.03 and A.1.04), he explained the plans for the areas on each floor. He explained that the service deliveries can happen any time of day; however, the vast majority of deliveries and trash pick-up are early in the morning. Mr. Zehrung then used City Exhibit 3 - A3.05a, A3.05 b and A3.05c to show the views from the various locations. He then talked about the material pallet that is proposed for the building, using suggestions by the Downtown Design Review Committee. The height of this proposed building is comparable to the Hyatt Place and is actually shorter than the Hotel Indigo (at least on the Haywood Street Elevation). They stepped back their building and worked with the Downtown Commission and the Downtown Design Review Committee on the massing to break up the building to avoid a canyon effect on the Haywood Street side. He felt that Conditional Use Standard No. 1 has been satisfied because the building will be fully code compliant and accessibility compliant; they have created a better vehicular circulation onto and off of the site particularly on the Haywood Street side; they have increased the sidewalk widths; and they are trying to deal with the loading dock as sensitively as possible. He felt that Conditional Use Standard No. 2 has been satisfied because as the site drops off they are bringing the building functions down trying to keep the building fully engaged; they have met all the fenestration requirements; and they have brought the massing down as the site slopes down. He also felt that Conditional Use Standard No. 4 has been satisfied because they were intentional in the way they massed out the project so that the larger mass of the building were closer to those already developed properties.

When Councilwoman Mayfield asked if there would be any commercial space on the first floor, Mr. Zehrung said that there will be 700 square feet of habitable space.

Councilman Bothwell said that the City puts a high premium on recycling and wondered if that was part of the design and if the trash collection design includes commercial compost. Mr. Zehrung said that they will have a recycling effort. From an architectural standpoint, he said they can accommodate commercial compost in the service court if there was a separate container. He said they have a service elevator from the kitchen that goes directly into the service area and then to the service court, but ultimately he felt this was more of an operational component.

In response to Vice-Mayor Wisler, using City Exhibit 3 - Vistas (A.400), Mr. Zehrung showed the skyline and how the building is dropped into picture from various vistas around downtown.

Mr. Tommy Crozier, expert in the field of land appraisal and valuation, reminded Council that his Expert Report containing his signature and seal is identified as Exhibit 8 in Applicant Exhibit 1. He was asked to give his expert opinion on Conditional Use Standard No. 3. On page 21 of Exhibit 8 of Applicant Exhibit 1, he showed properties that adjoin the proposed hotel. Three adjoining sites are Carolina Apartments, First Church of Scientist, and the Asheville Broad Center. After an initial review it looked like a textbook example of "principle of progression in real estate theory" meaning that lower valued properties are enhanced by the value of higher valued properties. In this example, the three adjoining properties are valued for tax purposes under $3 Million and the proposed hotel to be built for approximately $25-25 Million. He felt that theory applies in this case. Part of his analysis included looking at land uses downtown and in the neighborhood. It was obvious that the northwest part of downtown is different from the rest of the

traditional downtown core. Over 90% of the properties are 1-2 story structures and more than ½ of them are more than 50 years old and under-improved. He felt they have a higher and better use at this point. Part of determining that was looking at value trends in this neighborhood. In the report it shows a chart of recent land transactions, which suggested that values have increased substantially over the last few years in this neighborhood specifically (roughly $50 per square foot). He said that two of the three properties that adjoin this site are $8 per square foot and one is $24 per square foot. He contended that market conditions have improved property values over time but he felt what is most attributable is the performance of the Hotel Indigo (which set a precedence in that neighborhood for property values and the impact of hotels on property values). He estimated that this hotel will generate somewhere north of 50,000 new visitors per year. They will not only be patrons of the hotel, but people that will spend money in restaurants, bars, shop locally, etc. They estimate the economic impact would be approximately $3 Million/year. In addition, based on their estimates, the hotel would provide $500,000 a year in hotel occupancy tax, part of which goes to fund the Buncombe County Tourism Development Authority, which invests in public interest projects. The hotel is anticipated to contribute approximately $500,000 a year in property taxes. His conclusion, supported by market data, shows that the proposed hotel will not substantially injure the value of the surrounding properties.

When Councilman Smith asked what Mr. Crozier meant about "values", Mr. Crozier said he was talking about economic value.

When Vice-Mayor Wisler asked if there was any comparables for cities that have two hotels within ¼ mile from a new hotel, Mr. Crozier said that in this case there is proof from the Hyatt Place example that when it opened early last year the performance of the Hotel Indigo has actually increased by approximately 10%. He felt there there is so much demand for new hotel rooms in the market that it will not impact the value of the adjoining downtown hotels in the area. Even though he did not have any comparables in his Expert Report (Exhibit 8 in Applicant Exhibit 1), he said it is a common situation in peer markets. Again, his opinion was that he did not think it will substantially injure the value of adjoining property, based on his Expert Report (Exhibit 8 in Applicant Exhibit 1).

Vice-Mayor Wisler said that the Buncombe County Tourism Development Authority (BCTDA) actually made a pitch to increase the rate on the percentage of hotel tax completely against the statement made by Mr. Crozier. The BCTDA said that as the number of hotel rooms increase, it will negatively affect the current hotels.

Mr. Kevin Dean, expert in the field of traffic and transportation analysis, said the purpose of his traffic analysis was to determine the impact that this site would have on transportation facilities around the site (Exhibit 9 of Applicant Exhibit 1). The site is expected to generate a total of 70 trips in the a.m. peak hour (entering and exiting), and 74 trips in the p.m. peak hour (entering and exiting). Neither of those volumes meet the threshold for a full traffic impact analysis. The City's traffic engineer told them that all the needed to provide was the trip generation table and their anticipated distribution of those trips (Exhibit 9 of Applicant Exhibit 1). They performed a traffic capacity analysis (Exhibit 9 of Applicant Exhibit 1). They collected peak traffic counts on November 10, 2016. They performed the trip generation for the site based on the Institute of Transportation Engineers data and assigned those trips to the roadway network. They then used traffic software to analyze that data. Based on discussions with City staff, they analyzed the intersections of Montford Avenue at the I-240 westbound ramps, Haywood Street at Montford Avenue, Haywood Street at French Broad Avenue, Haywood Street at the I-240 eastbound ramps, and the French Broad at Otis Street. Based on their analysis, those sites are only expected to have a minimal impact and don't represent more than 5% of any intersection in said area. The majority of the intersections operate at a Level of Service B or C and the site traffic is expected to only increase the overall delay at these intersections by about 4 seconds. Only minor restriping of the turn-lane arrows and minor modifications of the traffic signal at Haywood and Montford are necessary to accommodate that site driveway.

When Councilman Bothwell asked by Mr. Dean picked Thursday, November 10, to do the traffic counts, Mr. Dean said that traffic counts are only supposed to be counted between Tuesdays and Thursdays to get a typical weekday condition. That is industry standards.

Councilman Bothwell said that he was in that area on that day and acknowledged there was no traffic to speak of that evening. He wondered why the traffic engineer chose the month of November to do the traffic counts, because September and October are the months that have a lot of tourist traffic. He noted that Mr. Dean's report says there is no expectation of cueing, but there is already cuing when you turn off of Montford and go towards N. French Broad. And, when you have traffic coming from the eastbound exit, he suspected there will be cueing on Haywood Street. Mr. Dean responded that the amount of traffic will be a negligible increase to any cues. He said that the impact of 5% or less is very minor and again, he felt this will not cause any undue additional traffic.

When Vice-Mayor Wisler questioned if the time of day guests normally check in and out were taken into account in the traffic counts, Mr. Dean said they analyzed the peak traffic of the adjacent street. Typically they count 7-9 a.m. and 4-5 p.m. which generally represents the peak hour of the adjacent street. These are industry standard numbers. That might not necessarily reflect the peak hour of a particular use.

Vice-Mayor Wisler asked if other developments planned for the area were taken into account in the traffic assessment. Mr. Dean said that they did not since they were not required to do a full traffic study. They analyzed the existing conditions and analyzed what it would look like with the existing conditions plus the site.

In response to Councilman Smith, Mr. Dean said that they did not reduce their percentage for anyone who elected to walk, ride a bike or transit. They estimated what they expect to be a conservative estimate on what their impact would be.

Mr. Dean said that in his opinion this use is appropriately located with respect to adjacent transportation facilities and that it will not cause undue traffic congestion or create a traffic hazard.

Councilman Smith wondered if the western North Carolina fires would have an impact on the viability of the traffic count. Mr. Dean said that he was not able to speak to the environmental conditions on the date of his traffic count. Using his I-Phone, Councilman Bothwell said that according to the Asheville Citizens-Times, the Lake Lure had not caused smoke in Asheville as of November 10.

Mr. Blake Esselstyn, expert in the field of land planning, talked about the immediate surroundings (City Exhibit 3 - Site Plan). Using Exhibit 17 of Applicant Exhibit 1, said that looking at scale, bulk and coverage there are a number of similar structures in the surrounding area. As far as density, there are two hotel properties nearby, Carolina Apartments, Vanderbilt Apartments and Vanderbilt Apartments (which are high density residential settings). As far as character, the 21st century architecture surrounding the vicinity is harmonious. His expert opinion that this project satisfies Conditional Use Standard No. 4 in that the proposed use is in harmony with the scale, bulk, coverage, density, and character of the area or neighborhood. Regarding Conditional Use Standard No. 5, using Exhibits 10-13 of Applicant Exhibit 1, he read excerpts from the Asheville City Development Plan 2025, the Downtown Master Plan, the Downtown Master Plan Appendices and the Sustainability Management Plan. From the Asheville City Development Plan 2025, he read from the following pages: (1) Page 35 - "Efficient use of land and infrastructure. Efficient land use results from compact building, infill development and reducing the amount of land needed to satisfy street and parking standards."; (2) Page 110 - "Existing infrastructure must be used more efficiently, land must be developed more intensively..."(3) Page 149 - "The City should actively promote infill development..." ; (4) Page 159 - "The City should assure that as land is developed or redeveloped, provision is made for access by various means of transportation." This site is served by not only vehicular access to the interstate, pedestrian

access, but it is also proximate to proposed bicycle facilities and the Greenway Plan Corridor shows the greenway system having connections near the Chamber of Commerce across the interstate.; (5) Page 159 - "The City should work with property owners, institutions, and public and private agencies to enhance the streetscape along streets and roads in the City." There will be a number of roads that this will be an improvement to the streetscape and the pedestrian environment in this area.; and (6) Page 161 - "The City should assure that new development and redevelopment is of high quality, complementing and adding to the character of the City of Asheville." The endorsements by City staff, the Downtown Commission, and the Downtown Design Review Committee, as well as the unanimous approval by the Planning & Zoning Commission (which includes a number of design professionals) is also a testament to the quality and character of the development. From the Downtown Master Plan Appendices, he read the following on Page S3-22 "Patton/River Gateway District - Land Use - Hospitality is also highly appropriate due to highway access and walkable proximity to the Traditional Core, especially Pritchard Park and the Grove Arcade." From the Sustainability Management Plan, he read the following (1) "Public and private sector work to redevelop underused urban properties in the most sustainable manner." and (2) "Asheville's downtown contains several underused sites that are surrounded by otherwise dense development. Redeveloping these sites is an important step towards sustainability because concentrated activity creates an economically viable City center, where pedestrian movement is possible, businesses can benefit from close proximity to one another, and preserved historic downtown architecture provides an aesthetic attraction to visitors and residents. In addition, dense development, as discussed throughout this plan, consumes less energy and produces fewer emissions. Generating density in districts that are already laid out for high density is a logical policy for sustainability." He also noted that in the Asheville In Motion Plan adopted by the City and located at www.ashevillenc.gov, on Page 73 is a map that shows this area along with both Haywood Street and N. French Broad having markings for shared bike lanes, and on Page 83 showing a map with the greenway connection being planned in this area (Exhibit 19 to Applicant Exhibit 3). These maps reinforce the various multimodal options connecting this area to the traditional core as well as River Arts District, French Broad River, Montford, and other adjacent neighborhoods. It was his option that the proposed use or development of the land will generally conform with the comprehensive plan, smart growth policies, sustainable economic development strategic plan, and other official plans adopted by the City.

Vice-Mayor Wisler said that Council's 2036 Vision it says that thoroughfares are aligned with thriving businesses, mixed with residential and office uses and neighborhoods are socio-economic diverse with a range of housing choices. She feels that speaks to diversity and in looking at the proposed corridor, she doesn't feel it is very diverse with three large hotels within ¼ mile of each other. Mr. Esselstyn felt that the Haywood Street corridor is quite diverse in that there is a variety of uses - residential, social service, office space, religious use, utility, etc.

Upon inquiry of Councilman Young, Mr. Esselstyn said that he did not have enough information on whether there were other variances granted by the Planning & Zoning Commission to other building in the area.

In response to an earlier inquiry raised by City Council, Mr. Oast said that the depth of the service bay is 30 feet.

Mr. Trevor Walden, Vice-President of Operations for Parks Hospitality Group, said they are a North Carolina based hotel ownership group. They develop, operate and operate their own hotels. They have 5 hotels in North Carolina (including the Hyatt Place in downtown Asheville) and one in Tennessee. They are not local to Asheville as far as their home office location; however, North Carolina is their home. They want to be involved in their community and take care of their staff. They feel this will be a successful project and that it offers some uniqueness.

Councilman Bothwell said that we are trying to encourage new hotels to start their employees with a living wage. He wondered if that was possible for this project. Mr. Walden said

that this is an upscale project and they pride themselves on offering a competitive wage, typically market driven. This project will require having a set of labor and that they feel confident they will be at or above those requirements.

In response to Councilman Bothwell, Mr. Walden said that they will take into consideration the use of local artists.

There was discussion, initiated by Councilwoman Mayfield, regarding if there is adequate parking for employees and guests of the hotel, and if there was any consideration of adding public parking to the deck. Mr. Walden said that the spaces offering will accommodate the guests of the hotel and 75 associates (employees) of the hotel will park in the general area. He said that guests are gone in the middle of the day, so typically there is a change of parking spaces between guests/associates, noting that several of their associates are local and commute in other ways. He explained why it's not a 1-1 guest room/parking space ratio which is consistent with their other hotels.

Councilman Young felt that since the current Hyatt Place employees are currently utilizing the location of the proposed new hotel, they would have to find somewhere else to park; and if the proposed hotel was build, those employees would also have to find adequate parking as well. Mr. Walden did not think that his employees will add an additional burden to the existing parking situation.

Mr. Oast said that they would be open to consider adding public parking to their deck. The deck has 200 parking spaces and they won't be used at all hours of the day. During non-peak hours and depending on the events in the hotel, the spaces could be made available to the public.

Mr. Walden said that the 5,000 square feet of meeting space will create its own demand. He believed that the Renaissance Hotel has roughly 10,000 square feet. Within the downtown market there is a need for a larger meeting space and it will help them capture additional meetings and events that would otherwise may move to other cities. He said 75% of the building is an all suite product which is different from other markets in the marketplace. The hotel is more leisure friendly. There will be complimentary breakfast offerings along with their evening socials. He feels this will be a great addition to the Asheville market.

Mr. Oast said that this is an impressive project. He felt this is a well designed project and well located. It is consistent with the adopted city plans and meets all of the Code requirements and conditions of the TRC. He said there has been substantial and competent evidence presented as to each of the required seven conditional use standards. He said that this project will contribute to the City in a number of ways, while requiring very little from the City. The permit should be granted on the basis of what has been submitted. After checking with Mr. Walden, he is confident that the parking needs of the hotel (guests and staff) can be accommodated on site. They are willing to discuss public parking with the City.

Mr. Oast, previously having Applicant Exhibit 1 (notebook), Applicant Exhibit 2 (notebook) and Exhibit 18 to Applicant Exhibit 1 (Letter from Ken Putnam) entered into evidence, he asked for Exhibit 19 to Applicant Exhibit 1 (Asheville in Motion maps) be entered into evidence. He noted that some exhibits in Applicant Exhibit 1 have not been referred to in this hearing; however, specifically he asked that the certified copies of the ordinance, certified copy of the variance, all plans, and the two expert reports be entered into evidence.

Mr. Jan Davis spoke in favor of the project from two perspectives - property owner and neighbor. The City needs to do something to develop the western corridor gateway to the City. Coming into the western corridor there is a lot of blight and the activity in that area 30 years ago is gone. We are already seeing a boost in business from employees and guests from the Hyatt Place hotel all the way down to Patton Avenue. This will be a great opportunity for the City to

work with the developer to improve the stormwater system. We have a tremendous amount of crime in that area and this would be an opportunity to clean the area up. As a property owner he would like to see his property values go up. As a member of the Sports Commission, this hotel could fill the needs of the patrons from the U.S. Cellular Center. And, he agreed that we are missing business because of no measurable meeting space downtown.

Ms. Ruth Summers, President of the Grove Arcade Restoration, LLC, and Executive Director of the Grove Arcade Public Market Foundation, said that the hotel industry has invested millions of dollars into our City and she was in favor of density in the Central Business District with no development on our mountainsides. Her biggest concern with this project is the total number of parking spaces. We are at a tipping point for infrastructure issues but she believed that the City has a great opportunity to partner with the Parks Hospitality Group and possibly add additional parking spaces. Additional parking is needed on the western edge of downtown and this would be a wonderful opportunity to eventually provide more parking around the Grove Arcade. All of this said, she supported the project because it will bring business to all of our small business owners, restaurants, shops and breweries. She hoped Council will see the value of this private investment.

Mr. Corey Atkins, Vice-President of Public Policy at the Asheville Area Chamber of Commerce and member of the Civic Center Commission, said that the Chamber wants to continue the positive partnership they have with the City as seen from the bond referendum package and working together on the sales tax redistribution. When considering approval of this project, the Chamber respectfully requests Council to consider the following: (1) revitalization of an outskirt area of downtown; (2) further development of a part of the downtown to eventually the River Arts District Corridor; (3) provides facilities within walking distance of the U.S. Cellular Center and Thomas Wolfe Auditorium; (4) conference room facilities that will allow for more and larger meeting space; and (5) the hotel is providing for parking for their guests; and (6) help build the tax base - property and sales tax. All of these elements are important to the Chamber because they enhance our local business environment and they continue the path that Asheville is on with attracting outside visitors and groups that will spend money in our local economy, support our small businesses, eat at our local restaurants, shop in our locally-owned stores, etc. This project was approved by the Planning & Zoning Commission, the TRC, the Downtown Commission (except for the one variance discussed earlier), and City staff. The Chamber is fully in support of City Council establishing fair and equitable standards and guidelines that promote healthy, sustainable growth and then allow City staff and experts to implement those standards.

Mr. Rich Lee felt that because this is the same owner as the Hyatt Place, this project would have come to City Council as a Level III review because it's over 175,000 square feet and because it is within 500 feet of the Hyatt Place and is being built within 3 years of the Hyatt Place. Mr. Lee said that the UDO notes that the two properties will be considered one development and will be reviewed as such. He thought Council would want clarification if these are being reviewed as a single development with regard to traffic, stormwater, etc.

Ms. Vrtunski said that this project is in front of City Council for two reasons. One is because it is within 500 feet and within 3 years of the Hyatt Place hotel. The second trigger is also because this proposed hotel is over 175,000 square feet. She said that this is not being reviewed as one large development.

City Attorney Currin said that the question before City Council is based on this particular proposal and whether this package meets the seven conditional use permit standards.

Mr. Charles Rawls, Montford resident, was concerned about the safety of drivers and pedestrians at the entrance/exit to the parking deck on N. French Broad.

In response to Mayor Manheimer, Mr. Oast reiterated that they are confident that there is adequate space in the parking deck proposed to accommodate the guests and staff. He said that

during the course of this process, the developer was made aware of parking issues in the area, and they talked to City staff about changing the design of the deck, increasing the number of levels, etc. and the cost. That the cost should not be associated with their project; however, if the City were to provide the funding needed, the applicant might be willing to build those spaces. Those additional spaces could be guaranteed to be available for the public. He said the costs would be construction costs only (the land would not be added into the amount). The per parking space (excluding land cost) is $17,000. City Attorney Currin said that Council cannot, as a part of this, commit City funds as part of your approval.

Councilman Bothwell felt the City needs to look at the nearly complete parking plan before we leap into a decision about where we need parking.

In response to Councilwoman Mayfield, City Attorney Currin said that if Council wants to proceed with the discussion about including public parking spaces to the proposed hotel, the applicant can propose a condition and that Council would review separately. That condition would need to be voted on before Council votes because if Council approves the project and wants to discuss adding public parking spaces later, the applicant can say yes or no; but if Council wants to make it a condition, it would be a requirement for compliance with their conditional use permit.

Mr. Oast provided the following: "As a condition of approval, the Applicant agrees that upon the City's request (which must occur on or before March 17, 2017), the applicant will increase the size of the hotel parking deck to include an additional 135 to 150 parking spaces for use by the public. The design of the larger parking deck will substantially comply with the attached elevation. The Applicant /Owner will pay for the additional spaces, except for the following: (a) The City will contributes an amount not to exceed $17,000 for each additional space; and (b) The City will pay any additional development review costs for the additional spaces." The March 17, 2017, date is a soft deadline.

City Manager Jackson noted that this would be a privately managed garage with rates that would be privately set with the revenue going to the private entity. Mayor Manheimer noted that there is a lot the City doesn't know at this point.

After rebuttal, Mayor Manheimer closed the public hearing at 9:38 p.m.

Vice-Mayor Wisler moved to recommend approval of the conditional use permit site plan review for 192 Haywood Street because it fails to meets the seven conditional use standards, in particular standards 1, 2, 3, 4, 5 and 7. This motion was seconded by Councilman Young and carried unanimously.

Councilman Bothwell felt Conditional Use Standard No. 7 was not satisfied and the site distance from the N. French Broad parking deck was a concern that should be addressed.

Councilwoman Mayfield recognized and agreed with a number of the benefits presented about this development; however, she felt it would be unfortunate to lose the opportunity to address the lack of parking and the general traffic concerns in that part of downtown

City Attorney Currin said that the Findings of Fact and Conclusions of Law will be presented at the next formal Council meeting on February 14, 2017.

V. UNFINISHED BUSINESS:

VI. NEW BUSINESS:

A. CONFIRMATION OF ESSAY QUESTIONS TO ELIGIBLE ASHEVILLE CITY BOARD OF EDUCATION CANDIDATES

Vice-Mayor Wisler said that the Boards & Commissions Committee reviewed all essay questions, for eligible Asheville City Board of Education candidates, submitted by City Council and narrowed them down to five final questions to ask the eligible candidates to respond to in writing.

Vice-Mayor Wisler said that any eligible candidate for an Asheville City Board of Education seat may have to submit to a background check.

It was the consensus of Council to accept the following Boards & Commissions Committee five recommended written essay questions and wait until the deadline of February 1 before the essay questions are sent to all eligible candidates: (1) Please describe a specific experience you have had at a board of director's level and in oversight of a CEO, executive director, or organizational head. In doing so, please describe your views as to the roles and duties of board members versus senior staff; (2) Please share your perspective on relative academic performance of those student groups who are African-American, those in poverty, and those that are not. What would be your priorities as a board member in this regard? How would the employment of more African-American teachers and administrators fit into your vision?; (3) Give us your thoughts about school choice and how does it fit in with public education?; (4) In what ways can the Asheville City Schools effectively innovate?; and (5) What is your opinion on bringing back full student health centers in our schools including a mental health assistance/counseling component for students and healthier food options to our students?

Councilman Bothwell moved to accept the Boards & Commissions Committee five recommended written essay questions. This motion was seconded by Councilman Young and carried unanimously.

Mayor Manheimer announced that the deadline for Asheville City Board of Education applications is Wednesday, February 1, 2017, at 5:00 p.m. and to please contact Deputy City Clerk Sarah Terwilliger for an application form.

B. RESOLUTION NO. 17-19 – RESOLUTION APPOINTING A MEMBER TO THE ASHEVILLE-BUNCOMBE HISTORIC RESOURCES COMMISSION

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said there currently exists a vacancy on the Asheville-Buncombe Historic Resources Commission, left by Ms. Leslie Klingner, until July 1, 2018.

At the November 8, 2016, Council meeting, it was the recommendation of the Historic Resources Commission, and consensus of the Boards & Commissions Committee to re-advertise for the vacancy to see if a more diverse pool of candidates can be found.

The following individuals applied for a vacancy: Christopher Cobb, Leslie Humphrey, Kevin Saum, Wayne Wheeler, Gerry Leonard and Ed Flowers.

At the January 10, 2017, Boards & Commissions Committee meeting, it was the consensus of the Committee to appoint Wayne Wheeler. However, it was the consensus of Council to interview Wayne Wheeler, Gerry Leonard and Ed Flowers.

After Council spoke highly of all candidates interviewed, Wayne Wheeler and Gerry Leonard received no votes and Ed Flowers received 7 votes. Therefore, Ed Flowers was appointed to serve the unexpired term of Ms. Klingner, term to expire July 1, 2018, or until his successor has been appointed.

RESOLUTION BOOK NO. 38- PAGE 316

C. RESOLUTION NO. 17-20 - RESOLUTION APPOINTING MEMBERS TO THE ASHEVILLE RIVERFRONT REDEVELOPMENT COMMISSION

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing members to the Asheville Area Riverfront Redevelopment Commission.

The terms of Joe Ferikes (representing the riverfront property or business owner), Cindy Weeks (representing the riverfront property and business owner), and Carleton Collins (at large) expired on January 1, 2017.

The following individuals applied for a vacancy: Steve Winter, Nick Hinton, Gerry Leonard, Catherine Rosjford, Darren Green, Shelley Schenker, Jeffrey Horner, Janet Lynn Whitworth, Jerry Sternberg and Viola Spells.

On January 10, 2017, Councilman Bothwell moved to (1) reappoint Cindy Weeks (representing the riverfront property or business owner) to serve an additional three-year term, term to expire January 1, 2020; and (2) reappoint Carleton Collins (at large) to serve an additional three-year term, term to expire January 1, 2020. Both terms are until their successors have been appointed. This motion was seconded by Councilwoman Mayfield. Also on January 10, it was the consensus of the Council to interview Jerry Sternberg and Darren Green.

Councilman Bothwell said that Mr. Sternberg has a rich knowledge and history of the area; however, he is only a part-time City resident, therefore, he would have to cast his vote for Mr. Green. After a vote of Council, Darren Green was unanimously appointed as a member of the Asheville Area Riverfront Redevelopment Commission (representing the riverfront property or business owner) to serve a three-year term, term to expire January 1, 2020, or until his successor has been appointed.

RESOLUTION BOOK NO. 38 – PAGE 317

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

Mr. Dave Mittler, representing Asheville City Watch, urged City Council to enforce their towing ordinance related to proper signage (in particular a telephone number for people to contact if their vehicle is towed) and fines to the towing company for illegally towing. It was the consensus of Council to place this item on the Public Safety Committee, along with a report on on City enforcement and citations for predatory towing.

Mr. John Wainscott, representing the WNC Advocacy League, advocated a more open door policy in City government.

Mr. Crocker spoke against a fence being installed in Pritchard Park.

VIII. ADJOURNMENT:

Mayor Manheimer adjourned the meeting at 10:05 p.m.

Magdalen Burleson
CITY CLERK

Esther E. Manheimer
MAYOR

Tuesday – February 7, 2017 - 2:30 p.m.

Bond Implementation Worksession

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Cecil Bothwell; Councilman Brian D. Haynes; Councilwoman Julie V. Mayfield; Councilman Gordon D. Smith; Councilman W. Keith Young; City Manager Gary W. Jackson; and City Clerk Magdalen Burleson

Assistant City Manager Cathy Ball provided Council with an update on the new Capital Projects Department and upcoming budget amendments: (1) Budget amendment to the 2017 operating budget: $197,175; and (2) Budget amendment to the 2017 capital budget: $74,000,000.

Using charts, she reviewed the estimated transportation bond progress by year (road resurfacing and sidewalk improvements; new sidewalks; transportation safety and bus stops; and greenway and connectors), along with the estimated Parks & Recreation bond progress by year (land acquisition; outdoor courts and playgrounds; ballfields and lighting; and park improvements).

Regarding the housing bond implementation, work on the following strategies will progress: (1) Implementing the Comprehensive Affordable Housing Strategy; (2) Attaining Council Goal of 2,800 new affordable housing units by June, 2021; (3) Expanding the supply of permanent place-based affordable housing; (4) Eliminating chronic homelessness; (5) Leveraging City resources; (6) Measuring effectiveness of delivery system by per unit cost, amount of subsidy, length of period of commitment to affordability; and (7) Incorporating location and energy efficiency as key factors of affordability and livability.

Expansion of the Housing Trust Fund: (1) Estimated minimum contribution: $10,000,000; Anticipated availability: July 1, 2017; (3) Anticipated date by which all funds must be expended: June 30, 2024; and (4) Range of potential uses: broad, including investment in rental and homeownership new unit production and preservation. Limited only by bond language.

Regarding preliminary research on the expansion of the Housing Trust Fund, (1) Assistant Community & Economic Development Director currently conducting interviews among affordable housing stakeholders to assess current and anticipated pipeline, assessment of market, economic forecast, and interest in partnership. To be completed by March 1, 2017; (2) Staff investigating market and legal framework for uses other than direct financing of projects. These include: (a) Land Banking; (b) Loan Guarantees; and (c) City as development partner; and (3) Community land trust educational series now in planning stage. To be conducted during March, 2017. She then reviewed the next steps, with implementation and reporting to begin in July of 2017.

Regarding repurposing of City-owned land, based on City-owned property analysis, staff identified high yield properties that could be used to support the development of affordable housing, including: (1) S. Charlotte Street; (2) Matthews Ford Property; and (3) 91 Riverside Drive. She then explained South Charlotte Street is approximately 7.5 acres total; Biltmore Avenue (Matthews Ford site) is approximately 5.5 acres total; and 91 Riverside Drive is 1.03 acres and 81 Riverside Drive is 0.73 acres.

The recommendation on repurposing City-owned land is to proceed with performing due diligence on all 3 properties (12 month process): Environmental site assessments; Appraisals; Surveys; Conceptual designs; Site capacity, number of potential units; Geo tech; and Alignment with City Council goals (proximity to jobs, transit, etc.) . In the Summer/Fall 2018, after due diligence is complete, staff will present to Council to determine whether to proceed with developing a RFP/RFQ for sites

Ms. Ball responded to various questions/comments from the Council, some being, but are not limited to: provide information on a separate break out the road resurfacing and sidewalks; should be consider putting off a project is it still has a useful life; will the City-owned property study prepared in 2005-2006 be considered; confirmation that if one of the projects has an unforeseeable problem, due diligence would not continue and it would be reported back to Council; confirmation that information and a deeper analysis on projects moving forward is available on the website; staff is working on a homeownership program in the Housing Trust Fund; need to proactively push out information on the bond projects; interest in a permanently affordable homeownership program; and possibility of a community forum before projects are brought before a Council Committee.

It was the consensus of Council to have staff proceed with performing due diligence on all 3 properties - (1) S. Charlotte Street; (2) Matthews Ford Property; and (3) 91 Riverside Drive; and the expansion of the Housing Trust Fund as outlined above.

At 3:12 p.m., Mayor Manheimer adjourned the meeting.

Magdalen Bowlson
CITY CLERK

Esther E. Manheimer
MAYOR

Tuesday – February 7, 2017 - 4:00 p.m.
Buncombe County Administrative Building

Joint Asheville City Council and Buncombe County County Commissioner Meeting

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Cecil Bothwell; Councilman Brian D. Haynes; Councilwoman Julie V. Mayfield; Councilman Gordon D. Smith; Councilman W. Keith Young; City Manager Gary W. Jackson; City Attorney Robin T. Currin; and City Clerk Magdalen Burleson

Present: Chair Brownie Newman, Presiding; Vice-Chair Ellen Frost; Commissioner Joe Belcher; Commissioner Jasmine Beach-Ferrara; Commissioner Mike Fryar; Commissioner Robert Pressley; Commissioner Al Whitesides; County Manager Wanda Greene; County Attorney Bob Deutsch; and County Clerk Kathy Hughes

County Commissioner Chair Newman and Mayor Manheimer welcomed the audience to this joint meeting.

County Manager Greene and City Manager Jackson highlighted a list of partnerships and collaborations between the City and County, some being, but are not limited to: emergency management; Asheville-Buncombe County Arson Task Force; Buncombe County Anticrime Task Force; City/County Identification Bureau; Child Advocacy Center; CrimeStoppers; Criminal Justice Information System; DWI Task Force; Family Justice Center; Focused Deterrence; Task Force 2; African American Heritage Commission; Energy Innovation Task Force; Historic Resources Commission; Homeless Initiative Advisory Committee; Asheville Area Riverfront Redevelopment Commission; City of Asheville Youth Leadership Academy; Civil Rights Services; Economic Development; HOME; Libraries; Pack Square Cultural Partnership; WNC Diversity Engagement Coalition; Environmental Control Specialists; Air Quality Management; Alternative Fuel Station; Phase II Organic Waste Processing Feasibility Study; Parks, Greenways & Recreation; WNC Nature Center; Transit; Animal Shelter; Spay/Neuter Services; and Geographic Information System.

Commissioner Frost stressed that the City and County join forces in addressing the opium problem in our community.

Assistant County Manager Jon Creighton and Assistant City Manager Cathy Ball updated the Council and Commissioners on the City and County capital construction projects, along with Buncombe County Manager of Recreation Services Josh O'Conner reviewing the County's greenways.

At the request of Commissioner Frost, Councilman Smith explained the City's land use incentive grant program.

Chair Newman, Councilwoman Mayfield and Mr. Jason Walls, District Manager of Duke Energy, and Virginia Lacy, representing Rocky Mountain Institute, updated the Council and Commissioners on the task of the Energy Innovation Task Force. The effort is to come up with a plan that will (1) reduce the overall energy usage in Asheville and Buncombe County; and (2) reduce peak usage on cold winter mornings. They hope to (1) develop and compare potential actions to avoid a peaking power plant at Duke Energy's Lake Julian; (2) reduce costs for consumers; and (3) identify opportunities for the City and County to leverage existing programs and turbocharge action. They hope to bring back an initial 2-year plan in the coming months.

There was discussion, during the informational session on the Energy Innovation Task Force, about the need to do a better job of connecting customers with programs that will save the customers money and help achieve the Task Force's goals.

County Manager Greene provided an update on the planning for the renovation of East Asheville Library, noting that their architect will draw some alternative plans and they will go back to the community in March. In the meantime they will send out a survey to seek input from other users of the library. It will then be determined if they can site the facility being requested on the existing property and if not, the question will then be where to locate the East Asheville Library.

Mayor Manheimer updated the Commissioners and Council on the Asheville-Buncombe African American Heritage Commission. The Commission's purpose is to recognize African American history in Asheville and Buncombe County. The City and County have recently allocated funds to help facilitate community conversations in a strategic planning session on ways to commemorate the contributions of the African American community. Commissioner Jasmine Beach-Ferrara felt we need to step up in new ways to address racial equity with a new level of commitment, resources and honesty. Commissioner Whitesides was pleased that we are finally starting to show that we are serious about their Commission's purpose.

Chair Newman and Mayor Manheimer adjourned the meeting at 5:46 p.m.

Magdalen Burleson
City Clerk

Esther E. Manheimer
Mayor

Tuesday – February 14, 2017 - 5:00 p.m.

Regular Meeting

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Cecil Bothwell; Councilman Brian D. Haynes; Councilwoman Julie V. Mayfield; Councilman Gordon D. Smith; Councilman W. Keith Young; City Manager Gary W. Jackson; City Attorney Robin T. Currin; and City Clerk Magdalen Burleson

Absent: None

PLEDGE OF ALLEGIANCE

Mayor Manheimer led City Council in the Pledge of Allegiance.

I. PROCLAMATIONS:

A. PROCLAMATION PROCLAIMING MARCH 1-7, 2017, AS "SOUTHERN CONFERENCE BASKETBALL CHAMPIONSHIP WEEK"

Councilman Smith read the proclamation proclaiming March 1-7, 2017, as Southern Conference Basketball Championship Week" in the City of Asheville. He presented the proclamation to Mr. Greg Duff, representing Glory Hound Events, and Mr. Demp Bradford, Sports Commission Executive Director, and others, who briefed City Council on some activities taking place during the week.

II. CONSENT AGENDA:

At the request of Vice-Mayor Wisler, Consent Agenda Item "P" was removed from the Consent Agenda for discussion and/or individual vote.

At the request of Mayor Manheimer, Consent Agenda Item "H" was removed from the Consent Agenda for discussion and/or an individual vote.

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON JANUARY 24, 2017; THE BOND WORKSESSION HELD ON FEBRUARY 7, 2017; AND THE JOINT CITY/COUNTY MEETING HELD ON FEBRUARY 7, 2017

B. MOTION APPROVING THE BOARD OF ALCOHOLIC BEVERAGE CONTROL'S TRAVEL POLICIES ADOPTED JANUARY 26, 2016

Summary: In order to meet the requirements of Chapter 18B-700, Article 7 (g) (2), the Asheville ABC Board seeks to continue to use the travel policies of its appointing authority, the City of Asheville. Section (g) (2) states, "The local board shall annually provide the appointing authority's written confirmation of such approval ..." The ABC Board approved the current policy on January 26, 2016. Last year the ABC Board incorporated all the elements to changes in the City's Travel Policy, and no changes were made to the current policy.

The Asheville ABC Board is requesting formal written confirmation of the approval of the Asheville Board of Alcoholic Control Travel Policy.

C. RESOLUTION NO. 17-21 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A MEMORANDUM OF UNDERSTANDING BETWEEN THE CITY OF ASHEVILLE, BELL ATLANTIC MOBILE OF ASHEVILLE INC (D/B/A VERIZON WIRELESS), AND NEW CINGULAR

WIRELESS, LLC (D/B/A AT&T) FOR THE TOWER REPLACEMENT PROJECT AT 166 RESERVOIR ROAD

ORDINANCE NO. 4552 - BUDGET AMENDMENT ASSOCIATED WITH THE TELECOMMUNICATIONS TOWER REPLACEMENT PROJECT ON CITY-OWNED REAL PROPERTY AT 166 RESERVOIR ROAD

Summary: The consideration of a resolution authorizing the City Manager to enter into a Memorandum of Understanding between the City, Bell Atlantic Mobile of Asheville, Inc. (dba Verizon Wireless), and New Cingular Wireless, LLC (dba AT&T) for the tower replacement project at 166 Reservoir Road; and a budget amendment in the amount of $300,000 to establish a project budget in the City's General Capital Projects Fund with proceeds from the AT&T contribution.

The City of Asheville owns approximately 7.42 acres of real property at 166 Reservoir Road. Because of the property's elevation and location, the property has exceptional range for telecommunications with approximately 300° coverage from northeast to west to southeast. Two telecommunication towers were built at this location in the 1980s.

The lower tower has reached equipment capacity and due to changes in the building code that governs telecom towers, the City-owned tower is no longer serviceable in its present form. T-Mobile, AT&T and the City have equipment on this tower, but equipment upgrades or changes are not possible without significant investment in the structure. That being the case, the cost associated with a total replacement of the tower is more financially feasible than trying to renovate the existing tower. In 2015, the City analyzed the public safety communications system and determined that the City should maintain this tower as a redundant or back up source of communication. With this recommendation, staff researched options for replacing the tower and engaged the tenants on the tower in the process.

With no designated City capital funding for a tower replacement, staff sought to leverage the relationships with the private tenants to provide funding. AT&T, an existing tenant, came forward and expressed interest as the sole funder on the construction project, in exchange for rent abatement. At this time, the following terms have been discussed and agreed upon in principle as a project concept:

- City will serve as project manager for the engineering, design, and construction of this project.
- City agrees to pay all expenses for engineering and permitting costs associated with the tower construction.
- AT&T agrees to pay for the total construction costs of the new tower and demolition of the existing tower. The current estimate is $275,000 and will be determined by final bids and true costs. AT&T contribution is due prior to the City's execution of a construction contract as a lump sum payment.
- In consideration of AT&T's contribution, the City would agree to rental abatement for the full construction amount. The rental abatement will be set forth in a license agreement wherein AT&T is granted a 15 year term of occupancy (structured as 3 - 5 year terms.) and rental abatement is calculated at the current fair market value ($37,500 per year), plus a 3% escalation rate of each year. No rent is paid until construction costs are abated. Current estimates indicate that AT&T will commence paying rent sometime in year seven of the agreement at a graduated rate of approximately $44,700 per year.
- Construction completion is expected before the end of the calendar year 2017.

As a new tenant to the tower, Verizon has been consistent in expressing their desire to co-locate on the new tower once complete. Terms have been set forth, as follows:

- Verizon requests a 15 year term (structured as 3 - 5 year terms.)
- Verizon's rent will commence once the tower construction is complete, at the established fair market value of $37,500 per year with annual increases of 3% per year.
- The City has verified that this rate is consistent with municipal tower rates across North Carolina and is considered fair market value.
- Verizon must also execute the MOU acknowledging the construction project and process.

The location of the new tower is proposed as close to the existing tower as possible in order to maintain the existing coverage and reach. The new tower will be the same height as the old tower at 180 feet. The existing tower and the new tower are of similar design – a self-support, lattice structure rather than a monopole design. This design is necessary to support the requirements of public safety equipment. As soon as the new tower is operational, the tenants will have 60 days to relocate their equipment to the new tower, and thereafter the old tower will be decommissioned and demolished. At the base of the tower, each of the tenants will maintain an equipment area enclosed by chain link fencing.

This property has also been considered for a future park area. A spur trail off of the Beaucatcher Greenway was designed on this property to offer expansive views of Downtown Asheville. A community group, known as the Friends of Overlook Park, in partnership with Asheville Greenworks, established an agreement with the City to begin the vision and master plan process for recreational use of the property. Existing conditions, including the presence of two telecommunications towers and an abandoned and filled reservoir are acknowledged as part of the site constraints. With a planning process currently underway to improve the area for a park, it is likely that landscape buffering or screening around the tower and the ground lease areas will be needed in the future.

In May 2015, City Council approved a wording amendment to the Unified Development Ordinance to allow the replacement of existing permitted cell towers where they are located. The proposed tower replacement project is designed to be in compliance with this provision.

The City Council Finance Committee reviewed this item on January 24, 2017, and provided a recommendation to approve.

Pros:

- Capital improvements - tower construction costs - fully funded by AT&T.
- Long term commitment from the tenants will secure revenue stream for the City.
- Dedicates a portion of the site to long term public safety communications use.
- New tenant (Verizon) contributing rent to the general fund; AT&T will commence paying rental once construction costs have been abated.

Cons:

- Future recreational use will need to accommodate public safety telecommunication towers into the design.
- Uncertain if the existing tenant, T-Mobile, will seek to relocate to the new tower or will move to a different location. T-Mobile's existing lease will end once new tower is completed.

Replacing the existing tower benefits the general fund through continued tower lease revenues and supports upkeep of the City's public safety communications infrastructure with minimal capital expenditures from the City. The Capital Projects budget will be amended to include the one-time revenue from AT&T to fund the tower replacement project.

Staff recommends that the Council adopt the resolution authorizing the City Manager to enter into a Memorandum of Understanding between the City, Bell Atlantic Mobile of Asheville, Inc. (dba Verizon Wireless), and New Cingular Wireless, LLC (dba AT&T) for the tower replacement project at 166 Reservoir Road and the associated budget amendment.

RESOLUTION BOOK NO. 38 - PAGE 318
ORDINANCE BOOK NO. 31 - PAGE 71

D. RESOLUTION NO. 17-22 - RESOLUTION PROPOSING APPROVAL OF A LICENSE AGREEMENT WITH NEW CINGULAR WIRELESS, LLC (D/B/A AT&T) FOR ANTENNAS AT 166 RESERVOIR ROAD, DIRECTING THE CITY CLERK TO ADVERTISE FOR UPSET BIDS, AND AUTHORIZING THE CITY MANAGER TO EXECUTE THE LICENSE AGREEMENT IF NO ALTERNATE BIDS ARE RECEIVED

Summary: The consideration of a resolution proposing to accept/approve a license agreement with New Cingular Wireless, LLC (dba AT&T) for antennas at 166 Reservoir Road, directing the City Clerk to advertise for upset bids, and authorizing the City Manager to execute the license agreement if no alternate bids are received.

The property at 166 Reservoir Road known as White Fawn Reservoir is on a knoll at the western end of the Beaucatcher Mountain ridge. It has exceptional range for telecommunication with approximately 300° coverage from northeast to west to southeast. Two telecommunication towers are located on the property and the City of Asheville leases antenna space on the towers and ground space for related equipment.

The lower tower has reached equipment capacity and due to changes in the building code that governs telecom towers, the City-owned tower is no longer serviceable in its present form. Based on a proposed Memorandum of Understanding (MOU), AT&T has offered to pay for the construction costs associated with replacing the existing tower in exchange for total rent abatement. AT&T is an existing tenant on the lower tower and has had a long-standing relationship with the City as a tenant on the tower. The proposed License Agreement is based on the following terms:

- Per the proposed MOU, AT&T agrees to pay for the total construction costs of the new tower and demolition of the existing tower. The current estimate is $275,000 and will be determined by final bids and true costs. AT&T contribution is due prior to the City's execution of a construction contract as a lump sum payment.
- Per the proposed license agreement, the City would agree to rental abatement for the full construction amount. The rental abatement will be set forth in the terms of the a license agreement wherein AT&T is granted a 15 year term of occupancy (structured as 3 - 5 year terms) and rental abatement is calculated at the current fair market value ($37,500 per year), plus a 3% escalation rate of each year. No rent is paid until construction costs are abated. Current estimates indicate that AT&T will commence paying rent sometime in year seven of the agreement at a graduated rate of approximately $44,700 per year. The City has verified that this rate is consistent with municipal tower rates across North Carolina and is considered fair market value.

Since the license agreement proposal is for a total period longer than ten (10) years, the North Carolina General Statutes state that Council may authorize a lease longer than ten (10) years, but to do so the lease must be administered as a sale in that the process must include an upset bid process or other competitive bid process.

If City Council approves the following resolution, the City Clerk will be directed to publish an advertisement for upset bids for a period of 10 days, in which any interested party may upset

the current bid of $37,500 per year at 3% annual increases. The statutes require that a qualifying bid must increase the current offer by 10% of the first $1,000 and 5% of the remainder. As set forth in the resolution, if no qualifying upset bids are received, then City Council agrees to further authorize the City Manager to execute the license agreement with AT&T.

The City Council Finance Committee reviewed this item on January 24, 2017, and provided a recommendation to approve.

Pros:

- Capital improvements - tower construction costs - fully funded by AT&T.
- Long term commitment from AT&T will secure a future revenue stream for the City.

Con:

- None noted.

License fee revenue is budgeted in the City's General Fund Operating budget. The future revenue for this license agreement will be programmed in the annual operating budget once the rent abatement period ends.

Staff recommends City Council adopt the following resolution proposing to accept/approve a license agreement with New Cingular Wireless, LLC (dba AT&T) for antennas at 166 Reservoir Road, directing the City Clerk to advertise for upset bids, and authorizing the City Manager to execute the license agreement if no alternate bids are received.

RESOLUTION BOOK NO. 38 - PAGE 319

E. RESOLUTION NO. 17-23 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ACCEPT FROM THE OFFICE OF NATIONAL DRUG CONTROL AND POLICY THE 2016 HIGH INTENSITY DRUG TRAFFIC AREA (HIDTA) GRANT FOR THE ASHEVILLE AREA HIDTA TASK FORCE

ORDINANCE NO. 4553 - BUDGET AMENDMENT FOR THE 2016 HIGH INTENSITY DRUG TRAFFIC AREA

Summary: The consideration of a resolution authorizing the City Manager to accept from the Office of National Drug Control and Policy the High Intensity Drug Traffic Area (HIDTA) 2016 grant as a fiduciary for the Asheville Area HIDTA Task Force; and the associated budget amendment, in the amount of $25,000.

The mission of the HIDTA program – authorized by the Anti-Drug Abuse Act of 1988 and administered by the Office of National Drug Control Policy ÷ is to reduce drug trafficking in the most critical areas of the country, thereby reducing the impact of illegal drugs in other areas. Asheville has for many years been designated as a HIDTA site. Asheville HIDTA serves as a key drug trafficking reduction effort, critically positioned between the Atlanta HIDTA and the Appalachia HIDTA. The Asheville HIDTA is comprised of members of the United States Drug Enforcement Administration (DEA), Asheville Police Department, Buncombe County Sheriff's Office, Henderson County Sheriff's Office and McDowell County Sheriff's Office. The Asheville HIDTA is a component of the Asheville DEA Task Force. The HIDTA task force primarily concentrates on high volume, high value drug trafficking. As an example the task force was recently involved in a case involving the large seizure of several controlled substances to include Methamphetamine, Ecstasy, etc. with tie to local and national gangs involved people trafficking narcotics in this regional and beyond.

The City of Asheville serves as the fiduciary for the Asheville HIDTA. The allotted funds from the federal government will go for investigative purposes. The expenditure of all funds are tracked and audited by both local and federal authorities.

Pros:

- Federal HIDTA monies will be used for investigative purposes.
- Continues to foster partnerships with Federal and Local Law Enforcement Agencies.

Con:

- None noted

There is no impact to the City's General Fund budget. The grant funds will be received and disbursed through the City's Special Revenue Fund.

City staff recommends City Council adopt a resolution authorizing the City Manager to accept from the Office of National Drug Control and Policy the High Intensity Drug Traffic Area (HIDTA) 2016 grant as a fiduciary for the Asheville Area HIDTA Task Force; and the associated budget amendment, in the amount of $25,000.

RESOLUTION BOOK NO. 38 - PAGE 320
ORDINANCE BOOK NO. 31 - PAGE 73

F. RESOLUTION NO. 17-24 - RESOLUTION PROPOSING APPROVAL OF A LICENSE AGREEMENT WITH BELL ATLANTIC MOBILE OF ASHEVILLE INC (D/B/A VERIZON WIRELESS) FOR ANTENNAS AT 166 RESERVOIR ROAD, DIRECTING THE CITY CLERK TO ADVERTISE FOR UPSET BIDS, AND AUTHORIZING THE CITY MANAGER TO EXECUTE THE LICENSE AGREEMENT IF NO ALTERNATE BIDS ARE RECEIVED

Summary: The consideration of a resolution proposing to accept/approve a license agreement with Bell Atlantic Mobile of Asheville, Inc. (dba Verizon Wireless) for antennas at 166 Reservoir Road, directing the City Clerk to advertise for upset bids, and authorizing the City Manager to execute the license agreement if no alternate bids are received.

The property at 166 Reservoir Road known as White Fawn Reservoir is on a knoll at the western end of the Beaucatcher Mountain ridge. It has exceptional range for telecommunication with approximately 300° coverage from northeast to west to southeast. Two telecommunication towers are located on the property and the City of Asheville leases antenna space on the towers and ground space for related equipment.

The lower tower has reached equipment capacity and due to changes in the building code that governs telecom towers, the City-owned tower is no longer serviceable in its present form. Based on a proposed Memorandum of Understanding (MOU), the City's intent is to replace and rebuild the existing tower with a new tower.

As a new tenant to the tower, Verizon has been consistent in expressing their desire to co-locate on the new tower once complete. Terms have been set forth, as follows:

- Verizon requests a 15 year term (structured as 3 - 5 year terms.)
- Verizon's rent will commence once the tower construction is complete, at the established fair market value of $37,500 per year with annual increases of 3% per year.
- The City has verified that this rate is consistent with municipal tower rates across North Carolina and is considered fair market value.
- Verizon must also execute the MOU acknowledging the construction project and process.

Since the license agreement proposal is for a total period longer than ten (10) years, the North Carolina General Statutes state that Council may authorize a lease longer than ten (10) years, but to do so the lease must be administered as a sale in that the process must include an upset bid process or other competitive bid process.

If City Council approves the following resolution, the City Clerk will be directed to publish an advertisement for upset bids for a period of 10 days, in which any interested party may upset the current bid of $37,500 per year at 3% annual increases over a 15 year term. The statutes require that a qualifying bid must increase the current offer by 10% of the first $1,000 and 5% of the remainder. As set forth in the resolution, if no qualifying upset bids are received, then City Council agrees to further authorize the City Manager to execute the license agreement with Verizon.

The City Council Finance Committee reviewed this item on January 24, 2017 and provided a recommendation to approve.

Pros:

- Fair market value license agreement.
- Long term commitment from Verizon will secure a future revenue stream for the City.

Con:

- None noted.

License fee revenue is budgeted in the City's General Fund Operating budget. The revenue for this license agreement will be programmed in the annual operating budget for FY 2018.

City staff recommends City Council adopt the following resolution proposing to accept/approve a license agreement with Bell Atlantic Mobile of Asheville, Inc. (dba Verizon Wireless) for antennas at 166 Reservoir Road, directing the City Clerk to advertise for upset bids, and authorizing the City Manager to execute the license agreement if no alternate bids are received.

RESOLUTION BOOK NO. 38 -PAGE 321

G. RESOLUTION NO. 17-25 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A MEMORANDUM OF AGREEMENT WITH THE ASHEVILLE CITY SCHOOLS FOUNDATION TO ADMINISTER THE CITY OF ASHEVILLE YOUTH LEADERSHIP ACADEMY SCHOLARSHIP DISBURSEMENT PROCESS

Summary: The consideration of a resolution reauthorizing the Agreement with Asheville City Schools Foundation (ACS Foundation) to administer the City of Asheville Youth Leadership Academy (CAYLA) scholarship disbursement process.

The CAYLA program has been a partnership between the ACS Foundation and the City of Asheville since the program's founding in 2007. In addition to leadership development and college readiness activities throughout the year, CAYLA has provided area high school students with meaningful and positive employment opportunities during the summer. CAYLA offers an opportunity for students to earn a paycheck and, at the same time, gain quality work experience. The program intentionally creates a learning atmosphere that helps young people discover and explore their talents while contributing to the well-being of their community.

The ACS Foundation has administered the CAYLA scholarship fund beginning with the inaugural class of CAYLA graduates in 2008. City Council approved the CAYLA program and related scholarship fund on consent agenda on May 8, 2007; however, there is no record of a resolution to approve the annual contract between the City and ACS Foundation. This requested action is a technical correction to document that the relationship has been approved by City Council and will continue for the duration of the MOU between the City of Asheville and the ACS Foundation, up to 5 years, based upon satisfactory performance by the ACS Foundation.

Pros:

- Makes explicit the contractual relationship between the City and the ACS Foundation.
- Provides an efficient process for distributing CAYLA scholarships directly to the colleges at which CAYLA graduates are enrolled.
- Documents, through a formal MOU, the relationship between the City and the ACS Foundation.

Con:

- None

No new fiscal impact; relationship has been in place since 2008.

Staff recommends City Council adopt a resolution re-authorizing the CAYLA program agreement and authorizing the City Manager to execute the MOU with ACS Foundation and any associated amendments or documents.

RESOLUTION BOOK NO. 38 - PAGE 322

H. RESOLUTION ADOPTING THE HOMELESS INITIATIVE ADVISORY COMMITTEE 5-YEAR STRATEGIC PLAN ON HOMELESSNESS

This item was removed from the Consent Agenda for discussion and/or an individual vote.

I. RESOLUTION NO. 17-27 - RESOLUTION AUTHORIZING THE CITY MANAGER TO CONVEY AN EASEMENT OVER A PORTION OF CITY-OWNED PROPERTY AT RIVERSIDE CEMETERY TO SHARON BOWLIN FOR THE PURPOSE OF INSTALLING A SEWER LINE TO SERVICE A SINGLE FAMILY RESIDENCE

Summary: The consideration of a resolution authorizing the City Manager to convey an easement over a portion of City Owned property at Riverside Cemetery to Sharon Bowlin for the purpose of installing a sewer line to service a single family residence.

The Riverside Cemetery is owned and maintained by the City of Asheville and is approximately 49 acres in size. An existing MSD sewer line runs along the Northwest property boundary of Riverside Cemetery serves residences on Westover Drive. Sharon Bowlin owns an undeveloped lot on Westover and has reached out to the City to request a sewer line easement to connect to the existing line. This is the only available connection to the sewer line. Both the Riverside Cemetery Director and Al Kopf of Parks and Recreation have been consulted and they have no objection to the easement. Ms. Bowlin is a private developer and she intends to sell this property to a buyer for the construction of a single family residence.

The easement being requested is 28 linear feet long and 6 feet wide for a total square footage of approximately 168 square feet. Using comparable sales figures, the value per square foot of land in this neighborhood is roughly $16.61 per square foot. MSD has a policy of compensating owners according to 50% of land value for an easement and when we apply this to practice to this situation, the cost of the easement would be $1,395 plus the real estate

transaction fee. A sketch is provided to show the approximate location of the sewer line and the manhole where this connection would have to be made.

Pros:

- There is compensation associated with the granting of this easement.
- The easement would not interfere with the operation of the Riverside Cemetery.

Con:

- None

Funds generated by the granting of this easement will be deposited in the General Fund.

Staff recommends City Council adopt a resolution authorizing the City Manager to convey this 168 square foot easement at Riverside Cemetery near Westover Drive to Ms. Bowlin for purposes of installing a sewer service line

RESOLUTION BOOK NO. 38 - PAGE 324

J. ORDINANCE NO. 4554 - BUDGET AMENDMENT IN THE TRANSIT CAPITAL FUND FROM INSURANCE RECOVERY FUNDS FOR A TOTALED BUS TO UTILIZE TOWARDS THE PURCHASE OF A NEW BUS OR BUS MAINTENANCE

Summary: The consideration of a budget amendment in the Transit Capital Fund, in the amount of $25,000, from insurance recovery funds for a totaled bus to utilize towards the purchase of a new bus or bus maintenance.

On May 17, 2016, a City bus was totaled in a motor vehicle accident by a third-party and the City settled the property damage claim for $25,000. The Transportation Department seeks to utilize the settlement funds toward the purchase of a new bus or bus maintenance.

Pro:

- Provides funding to off-set Transportation Department costs for bus replacement or maintenance.

Con:

- None.

The insurance recovery funds are held in the City Property & Liability Fund. Upon City Council approval, the funds will be transferred to the City Transit Capital Fund to be utilized by the Transportation Department.

City staff recommends City Council adopt the budget amendment in the Transit Capital Fund for the Transportation Department to utilize.

ORDINANCE BOOK NO. 31 - PAGE 75

K. RESOLUTION NO. 17-29 - RESOLUTION SETTING A PUBLIC HEARING ON FEBRUARY 28, 2017, TO CONSIDER A LAND USE INCENTIVE GRANT FOR 338 HILLIARD AVENUE (TRIBUTE COMPANIES)

Summary: The consideration of a resolution to set a public hearing on February 28, 2017, for a Land Use Incentive Grant for the development by Tribute Companies of 338 Hilliard Avenue, per the policy adopted by Council, and amended on September 22, 2015. This report summarizes the application and reports on eligibility and points for the public hearing on the application.

Tribute Companies is proposing a rental development on .8 acre at 338 Hilliard Avenue, on property currently owned by the City of Asheville, with an estimated development cost of $5.7 million. The LUIG application proposes a 60 unit development in one building, with the following unit breakdown and amenities:

# of units	60
% 80% AMI or below	82%
# 30% AMI	6
# 60% AMI	12
# 80% AMI	31
# 100% AMI	11
# Market	0
# Reserved for Homeless Households	2
# 1 BR	35
# 2 BR	15
# 3 BR	10
Community Gardens	yes
Child Care Space	yes
Third-Party Sustainability Certification	yes

The project, as presented to staff, appears to meet the following Eligibility Requirements,

- The proposed development consists of three or more dwelling units for rent;
- At least 10% of the units will meet the affordability standards set by the City of Asheville for households earning 80% or less of the Area Median Income.
- The affordable units will be affordable to and leased to income-eligible households for at least 15 years.
- The proposed development must be located inside the city limits.
- The proposed development must be located to provide residents convenient access to jobs, schools and services

Staff has determined that their LUIG application meets the eligibility requirements.

Staff confirms the following scoring:

Affordable Rental Housing
49 of the 60 Units will be rented to households under 80% of AMI.....90 pts.

Workforce Rental Housing
60 of the 60 Units will be rented to households under 100% of AMI.....15 pts.

Superior Locational Efficiency
Within .25 mile of an existing bus stop served by one-half hour
ART transit frequency.....10 pts.

Longer Term Affordability

Committed to 25 years of Affordability.....10 pts.

Total Points **125 pts.**

The HCD Committee reviewed the revised proposal at their meeting on January 17, 2017, and unanimously recommends that Council set a public hearing date for the LUIG application. The LUIG proposal was submitted concurrently with Tribute Companies revised proposal to purchase the site from the City of Asheville and develop the property for affordable and workforce housing. Award of a Land Use Incentive Grant is a condition of Tribute's proposal to purchase and develop the property.

Pros:

- The proposed project will provide affordable rental housing to 49 households earning 80% or less of area median income, for a period of at least 25 years; and an additional 11 "workforce" units for a minimum period of 25 years;
- The proposed project addresses the pressing need for affordable rental apartments within easy walking distance of employment opportunities and transit access;
- The proposed project has a significant economic impact. Construction wages and material purchases will positively affect the local and regional economy.

Con:

- None noted.

Estimated value of Land Use Incentive. The current estimated value of the property is $450,000. The developer's estimate of completed project taxable value is $5,500,000. Although currently non-taxable property, the annual city tax, based on the estimated value, would be $2,138. The annual estimated city tax post completion, based on the developer's estimate of value is $26,125. Therefore, the estimated annual Land Use Incentive Grant would be $23,988, the exact amount to be determined by the length, in years, of the grant award, and the actual assessed value of the development upon completion. If approved for 12.5 years, the estimated Grant would be $299,844. The subsidy per affordable unit would be $6,119. The subsidy amount per affordable unit/year would be $245.

The estimated amount of fees payable for Zoning Permit, Building Permit, Driveway Permit, Grading Permit, Plan Review Fees and Water Service Connection Fee is $8,300. The value of each 10% of the fee rebate would be $830. The exact amount would be determined by the percentage of fee rebate awarded as part of the Land Use Incentive Grant. If approved at the 125 point level, the fee rebate would be $8,300, $238 per unit.

The total estimated Land Use Incentive Grant, if approved, would be $308,144.

Staff recommends that Council accept the HCD Committee recommendation to set the public hearing on February 28, 2017, for the LUIG grant application.

RESOLUTION BOOK NO. 38 -PAGE 326

L. RESOLUTION NO. 17-30- RESOLUTION AUTHORIZING HOUSING TRUST FUND LOANS TO SWANNANOA BEND LLC AND ASHEVILLE AREA HABITAT FOR HUMANITY

Summary: The consideration of the resolution authorizing the approval of Housing Trust Fund loans to Swannanoa Bend, LLC ($350,000) and Asheville Area Habitat for Humanity ($60,000).

Staff received two Housing Trust Fund (HTF) applications totaling $410,000 requested funds for the creation of 76 affordable units: 6 homeowner units and 70 rental units. These

applications were presented to the Housing and Community Development Committee (HCD) on January 17, 2017. The HCD Committee recommended the full amount requested for each project be awarded ($410,000 total) to the applicants.

The following applications have been recommended by HCD for approval:

1) *Simpson Street*: Swannanoa Bend, LLC for the construction of a 70 one-bedroom unit 100% affordable (all at 60% AMI or less) rental development in south-east Asheville, $350,000.

2) *Tunnel Road*: Asheville Area Habitat for Humanity for the construction of a 6 attached housing homeowner development - 3 units sold to households earning 60% AMI or less and all six (6) units being affordable - in East Asheville, $60,000.

Swannanoa Bend, LLC – Simpson Street ($350,000)

Kirk Booth, via Swannanoa Bend, LLC, requests additional HTF funding for the proposed Simpson Street development. Council approved a $300,000 request for this project in 2016. The developer now proposes an additional 10 units, for a 70 unit development, and additional HTF funding of $350,000, for a proposed total HTF investment of $650,000. The project will have 70 1-BR units with all rents below 60% AMI and/or voucher accepted (50% AMI). The project is designed to be modular construction with parking provided under the buildings; it will contain energy efficiency features, 5% of the units will be fully ADA accessible, and have a 20 year affordability period. The project has received a Conditional Use Permit, a Land Use Incentive Grant, a FY 16-17 Housing Trust Fund Loan ($300,000), and is anticipated to begin construction in April 2017.

The proposed project is on a 1.43 acre site located just off of Tunnel Road and Swannanoa River Road behind Target. It is zoned River District and is in a primarily industrial area. Residential is permitted and Planning and Zoning approvals have been obtained. It is 3 miles from downtown, and is within 1/4 mile of jobs and services, as the crow flies, but walking and driving distance to transit and services is 0.9 miles. Developer has committed to improving the transit gaps for these residents by supporting walkway development along utility easement, providing shuttle transportation to existing transit stop, and/or advocate for bus stop along Swannanoa River Road.

The application request results in the following terms, conditions, estimated development costs and subsidy allocation:

Proposed Loan Terms and Conditions					
60% AMI Units	**Loan Amount**	**HTF Investment Per Unit ($350,000 / $650,000)**	**Interest Rate**	**Term (Years)**	**Type**
70	$350,000	$5,000 / $9,286	2%	20	Interest Only (Special Terms)

Proposed Total Development Costs and Investment Allocations (Including $300,000 FY 16-17 HTF Award)						
Total HTF Loan Amount	**Total Development Cost**	**Loan % of Total Development Cost**	**Total cost per unit**	**Additional City Investment***	**Total City Investment**	**Total Est. City Investment Per Unit**
$350,000 / $650,000	$4,314,000	8% / 15%	$61,629	$348,710	$998,710	$14,267
** Land Use Incentive Grant estimated – over 11 years*						

The total Housing Trust Fund investment per unit including previous ask is $9,286 per unit. Total City investment over the life of the project, including LUIG, is $14,267/unit. Developer has submitted updated cost estimates and project is ready to begin as soon as conventional financing is secured. The conventional loan commitment is expected in April 2017 with construction starting immediately. The project scheduled to be completed by December 31, 2017.

Pros:

- 70 1-bedroom rental units serving 60% AMI or less (100% of the project)
- Total HTF investment per unit is less than $10,000/unit
- Offers homelessness to housing transition via vouchers through Homeward Bound
- Project has appropriate permits and environmental studies completed
- Project has $114,000 support from Buncombe County

Con:

- Conventional loan has not been secured

Asheville Area Habitat for Humanity – Tunnel Road ($60,000)

Asheville Area Habitat for Humanity, is proposing a 6 unit affordable housing homeowner development project along Tunnel Road in East Asheville, of which 3 of those units will be sold to households earning 60% AMI or less and three (3) units will be sold to households earning 70% AMI or less. Developer requests a $60,000 three (3) year construction loan, with 0% interest and deferred principal. This request does deviate from the current HTF policy, with a request for 0% interest (current policy offers a deferred 2% interest until principle is due).

The project will combine 4 existing lots on .8 total acres, and will have attached cottages (3 groups of 2) with 2, 3 or possibly 4 bedrooms, ranging from approximately 700 sq. ft. to 1300 sq. ft. All cottages would be either 1 or 2 stories tall and would front on a shared private drive with two dedicated parking spots per unit. All public infrastructure is currently in place and because it is on a major corridor, transit and other amenities are nearby and accessible. The project will be NC Green Built and System Vision certified with will units being fully ADA accessible. By Policy, there is a minimum three (3) year affordability period for these units from the day the units receive a certificate of occupancy under the HTF Policy, which the developer agrees to. AAHH structures their mortgages as permanently affordable, with a 0%, fixed-rate for the life of the loan, but homeowners can sell their houses whenever they wish by paying off both the affordable first mortgage and the 2nd silent (covering the value of volunteer labor and forgivable over the 30 year life of the loan).

The application request results in the following terms, conditions, estimated development costs and subsidy allocation:

Proposed Loan Terms and Conditions					
60% / 80% AMI Units	**Loan Amount**	**HTF Investment Per Unit (@60% / @80% AMI)**	**Interest Rate**	**Term (Years)**	**Type**
3 / 3	$60,000	$20,000 / $10,000	0% deferred principle*	3 Construction Loan	Homebuyer program
**Deviation from the current HTF policy - special term construction loans currently offer deferred 2% interest until principle is due. Principle becomes due at the end of the three (3) year term.*					

Proposed Total Development Costs and Investment Allocations			
Total HTF Loan Amount	**Total Development Cost**	**HTF Loan % of Total Development Cost**	**Total cost per unit***

$60,000	$932,206	6%	$155,368
*For-sale units			

The developer has the land under option and is expected close in June 2017 with construction beginning in November 2018. Occupancy of all 6 units is expected in November 2019. The units are constructed and occupied at a gradual pace, but the project will be completed within one year from the day of initial construction. The project does not have the required permits and/or engineering and environmental reviews because the project is in the early planning stages. This could also mean variations in the total development costs. There will be no need to ask for conditional uses or permits for this project.

The sales price of the homes will match the appraised value, with the first mortgage being considerably lower than that amount. At closing, AAHH executes: 1) a 0% 1st mortgage for the cost of construction reduced by the amount of HTF funds per lot; 2) a 2nd mortgage securing HTF funds with the proper retention language guaranteeing full recapture during the affordability period; 3) a 3rd forgivable mortgage securing the difference between the sales price and mortgage balances. AAHH also maintains the Right of First Purchase, which we consider on a case by case basis.

Overall, the project provides 6 affordable homeowner units: 3 attached homeowner units to homeowners earning 60% AMI or less and 3 units to homeowners earning 70% AMI or less. The site location is in close proximity to transit and amenities and is within 4 miles to downtown. The developer has proven very competent in the Asheville area and is providing a new model for homeownership through the creation of attached housing. Plans, elevations, and site plans were provided. As proposed, AAHH would not build and sell the units quickly enough to recapture mortgages and pay off the construction loans within the three (3) year construction loan period; however, they could obtain funds from additional sources to pay off the remaining balance.

Pros:

- Provides six (6) attached homeowner units: 3 at 60% AMI and 3 at 70% AMI or less
- It will provide three (3) homeowner units to households earning 60% AMI or less
- Will receive SystemVision and NC GreenBuilt certification
- Developer is creating new model for attached homeownership units

Con:

- Early in project planning with construction starting in 2018
- Variation from policy asking for 0% interest with deferred principal (special terms) and an underwriting score under 70 points

The Housing Trust Fund has sufficient cash flow to cover anticipated draw requests for the proposed developments.

The Housing and Community Development Committee recommends City Council approve a resolution approving the following loans subject to the developers meeting all program requirements for loan closing:

1. $350,000 to Swannanoa Bend, LLC for the development of seventy (70) multifamily rental units on Simpson Street (1-BR, 60% AMI including vouchers 50% AMI), amortized at 2.00% annual interest-only with principle deferred for 20 years. The approval is conditioned on the developer providing improved transit access by either contributing to walkway improvements along utility easement; by installing lights, providing private transportation services for residents, or providing other services to meet this condition. Loan is to be made immediately available for disbursement following loan closing.

2. $60,000 construction loan to Asheville Area Habitat for Humanity, for the development of six (6) homebuyer units on Tunnel Road (3 units at 60% AMI or less and 3 for 80% AMI or less). A construction loan at 0% deferred principle until the end of the three (3) year term is to be made immediately available for disbursement following loan closing.

RESOLUTION BOOK NO. 38 - PAGE 327

M. RESOLUTION NO. 17-31 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A GENERAL SERVICES AGREEMENT WITH TIMMONS GROUP FOR THE WATER RESOURCES ENTERPRISE ASSET MANAGEMENT PROJECT

Summary: The consideration of a resolution authorizing the City Manager to execute a general services agreement with Timmons Group for the Water Resources Enterprise Asset Management Project for the proposal amount of $119,480 plus a 10% contingency of $11,948 for a project budget of $131,428.

The Water Resource Department (WRD) currently has an assessment management system, whose functionality is limited, that is due for an upgrade at a cost of $120,000. As a matter of due diligence, the WRD issued a Request for Proposals (RFP) for the Water Resources Enterprise Asset Management Project on July 1, 2016 to see if competing programs could deliver the same or better functionality at a lower price.

As detailed below, a review of the proposals revealed that several providers could (a) supply product and installation for less cost than the cost of updating the existing system; and (b) offer systems that may be utilized by other City departments. Additionally it was discovered that the department will save approximately $55,000 per year in maintenance fees by changing products. The current program requires several supporting programs which cost approximately $75,000 per year.

The scope of work for this project includes, but is not limited to, consultation, data conversion, customization, licensing, training, integrations, and software maintenance required for a new, department-wide Cityworks-Azteca Server Asset Management System (AMS). This software will replace the department's existing, outdated Maximo Work Order System and allow for better system integration with the department's Geographic Information System (GIS) database and software.

The new Cityworks-Azteca AMS enhances the department's ability to track and analyze work orders through a more user friendly product that interfaces with the department's mapping system. The enhanced ability will allow the department to provide better response for system maintenance. The products were also evaluated on the ability for other city departments to use the system for work order management in the future.

In response to the RFP, the department received 8 proposals on August 1, 2016. The evaluation of these proposals required the input of various departments. Stakeholders departments were identified as those that will potentially adopt the use of the tool in the future and departments that will support the software. The conversion to this software is a significant commitment which staff wanted to ensure was made with absolute certainty and due diligence. This extensive evaluation accounts for the time it took to make a decision. Companies responding were:

1. AssetWorks, LLC, Wayne PA – proposal:
    a. $318,332.50 Year 1
    b. $27,226.50 Year 2
    c. $28,587.83 Year 3

2. SADA Systems (Atom), Inc., Los Angeles CA – proposal:
    a. $101,500 Year 1
    b. $57,000 Year 2
    c. $57,000 Year 3
3. Beehive Industries, Los Angeles CA – proposal:
    a. $89,900 Year 1
    b. $32,500 Year 2
    c. $32,500 Year 3
4. Cardno, Clearwater FL – proposal:
    a. $1,065,700 Year 1
    b. $53,300 Year 2
    c. $54,633 Year 3
5. Davenport Group, St. Paul MN – proposal:
    a. $82,816 Year 1
    b. $12,816 Year 2
    c. $12.816 Year 3
6. MainStar, Inc., Irvine CA – proposal:
    a. $247,000 Year 1
    b. $24,840 Year 2
    c. $25,710 Year 3
7. PSD Software, LLC, Marietta GA – proposal:
    a. $119,050 Year 1
    b. $31,500 Year 2
    c. $33,075 Year 3
8. Timmons Group, Richmond VA – proposal:
    a. $119,480 Year 1
    b. $20,000 Year 2
    c. $20,000 Year 3

Following an extensive review of the proposals by City Staff, including reference checks and on-site demonstrations, Timmons Group was selected for the proposal amount of $119,480 plus a 10% contingency of $11,948 for a project budget of $131,428.

Pro:

- While not a mandatory or required project it would replace the existing, out-dated work order system and allow other systems (i.e. GIS) to interface more easily with the work order software.

Con:

- None.

The funding needed for the general services agreement is currently allocated within the Water Resources Water Operating Fund, Contracted Services. This agreement requires City Council approval because the price of the contract exceeds $90,000.

Staff recommends City Council adopt a resolution authorizing the City Manager to execute a general services agreement with Timmons Group for the Water Resources Enterprise Asset Management Project for the proposal amount of $119,480 plus a 10% contingency of $11,948 for a project budget of $131,428.

RESOLUTION BOOK NO. 38 - PAGE 328

N. RESOLUTION NO. 17-32 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CONSTRUCTION AGREEMENT WITH THOMAS CONSTRUCTION COMPANY INC. FOR THE NEIGHBORHOOD

ENHANCEMENT PROJECT AREA 3 WATER DISTRIBUTION SYSTEMS PHASE I PROJECT

ORDINANCE NO. 4555 - BUDGET AMENDMENT FOR THE NEIGHBORHOOD ENHANCEMENT PROJECT AREA 3 WATER DISTRIBUTION SYSTEMS PHASE I PROJECT

Summary: The consideration of a resolution authorizing the City Manager to execute a construction agreement with Thomas Construction Company, Inc., for the NEP Area 3 Water Distribution Systems Phase I Project for the bid amount of $3,978,160.50 plus a 15% contingency in the amount of $596,724.50 for a total project budget in the amount of $4,574,885.00; and a budget amendment in the amount of $2,912,957 utilizing capital reserve funds to fully fund the construction agreement and contingency.

Water Resource's financial consultant Raftelis Financial Consultants Inc. (RFC) has recommended that the department utilize capital reserves fund. The amendment that is proposed as part of this staff report utilizes money from projects that have been closed and no longer require funding. NEP Area 3 was proposed with the capital reserve funds intended as a funding source for the completion of this project. The project sheet shows the subject funding sources.

On December 12, 2016, the Water Resources Department (WRD) issued an Advertisement for Bids for the NEP Area 3 Water Distribution Systems Phase I Project. The scope of work for this project includes, but is not limited to, all labor, materials, equipment, and incidentals required for the installation of approximately 24,500 Linear Feet of 6-inch Ductile Iron Pipe located in the Malvern Hills and Kenilworth Area neighborhoods with related appurtenances required in order to complete the work.

In response to the Advertisement for Bids, the department received 5 bids on January 10, 2017. Companies responding were:

1. Buckeye Bridge, LLC; Canton, NC – Bid: $5,987,770.80
2. Cooper Construction Company, Inc.; Hendersonville, NC – Bid: $4,313,287.00
3. E.S. Wagner Company, LLC; Charlotte, NC – Bid: $5,128,157.50
4. T&K Utilities, Inc.; Asheville, NC – Bid: $4,608,676.00
5. Thomas Construction Company, Inc.; Johnson City, TN – Bid: $3,978,160.50

Following a review of the bids by City Staff and the project engineers, CDM Smith, Thomas Construction Company, Inc., was selected as the lowest responsible, responsive bidder for the bid amount of $3,978,160.50. A contingency amount of $596,724.50 has been added for a total project budget in the amount of $4,574,885.00.

Pros:

- This project will replace existing waterlines. The subject lines are undersized, provide inadequate fire protection, and/or have a high risk of failure. Replacement of these lines will help to improve the service and reliably of the water system.
- This project is aligned with the City and the WRD goal of continued investment and improvement of the City's water system through Capital Improvement Projects, in order to provide safe and reliable service.

Con:

- Failure to award a construction contract would prevent the completion of the water system improvements.

2015 NEP Area 3 Project will be funded using a combination of current water revenue funding and capital reserves funds. The use of capital reserve funds will not impact the operating

reserves for the Water Resources Department and helps to decrease the funds which are currently in the capital reserve fund as recommended by the Department's financial consultant.

Amount Available for Construction	$1,661,928.00
Additional Funds Needed for Construction Agreement	$2,912,957.00
Total Amount for Construction Agreement (includes contingency)	$4,574,885.00

Council approval is required to enter into this contract because the total value of the contract exceeds $90,000.

Staff recommends City Council adopt a resolution authorizing the City Manager to execute a construction agreement with Thomas Construction Company, Inc., for the NEP Area 3 Water Distribution Systems Phase I Project for the bid amount of $3,978,160.50 plus a 15% contingency in the amount of $596,724.50 for a total project budget in the amount of $4,574,885.00; and a budget amendment in the amount of $2,912,957 utilizing capital reserve funds to fully fund the construction agreement and contingency.

RESOLUTION BOOK NO. 38 - PAGE 329

O. RESOLUTION NO. 17-33 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CONTRACT WITH NHM CONSTRUCTORS LLC FOR THE TUNNEL ROAD RETAINING WALL PROJECT

ORDINANCE NO. 4556 - BUDGET AMENDMENT FOR THE TUNNEL ROAD RETAINING WALL PROJECT

Summary: The consideration of a (1) resolution authorizing the City Manager to execute, on behalf of the City of Asheville, a contract in the amount of $451,635.00 with NHM Constructors, LLC for the project known as the Tunnel Road Retaining Wall Project, City of Asheville Project # ST-16-17-003, and further authorizing the execution of any change orders to said contract which may arise during construction, up to a total amount of $497,000; and (2) budget amendment in the amount of $650,000 from debt proceeds to fund the contract and additional costs including geotech design, utility relocation and contract administration costs.

A tributary to Grassy Branch has eroded the substrate of the sidewalk that runs along Tunnel Road in Oteen. A retaining wall must be constructed in order to rebuild the slope and maintain safe pedestrian access along the corridor. The project was advertised on January 20, 2017. Bids were opened on January 31, 2017 with the following results:

NHM Constructors of Asheville NC	$451,635.00
Graham County Land of Robbinsville NC	$539,850.00

The work produced from this contract would include the construction of a retaining wall, replacement of faulty stormwater infrastructure and repair of sidewalk and installation of handrail.

Pros:
- Project will repair sidewalk along a busy road.
- Project will replace faulty stormwater infrastructure.
- Project will eliminate a safety hazard.

Con: None noted.

The total budget for this contract is $497,000.00. Additional costs associated with the project include geotech design, utility relocation and contract administration. The total project budget being requested is $650,000. The City will add this project to the existing Capital

Improvement Program (CIP)/Debt Program and borrow funds to finance the project. With debt payback structured over twenty years, the addition of this project will not materially impact cash flow projections in the CIP model.

City staff recommends City Council adopt the resolution awarding the contract to NHM Constructors, LLC for the Tunnel Road Retaining Wall Project and giving the City Manager the authority to execute any change orders necessary to complete the work; and a budget amendment in the amount of $650,000 from debt proceeds.

P. ORDINANCE AMENDING THE FEES & CHARGES MANUAL FOR THE ASTON PARK TENNIS CENTER

This item was moved from the Consent Agenda for discussion and/or an individual vote.

Q. RESOLUTION NO. 17-34 - RESOLUTION MAKING PROVISIONS FOR THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT THE SOCON JAMFEST

RESOLUTION NO. 17-35 - RESOLUTION MAKING PROVISIONS FOR THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT THE ASHEVILLE HALF MARATHON & 10K

RESOLUTION NO. 17-36 - RESOLUTION MAKING PROVISIONS FOR THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT THE XPAND FEST

RESOLUTION NO. 17-37 - RESOLUTION MAKING PROVISIONS FOR THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT THE ASHEVILLE VEGANFEST

RESOLUTION NO. 17-38 - RESOLUTION MAKING PROVISIONS FOR THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT THE BETTER DADS FESTIVAL

Summary: The consideration of resolutions making provisions for the possession and consumption of malt beverages and/or unfortified wine at the SoCon JamFest, the Asheville Half Marathon & 10K, Xpand Fest, Asheville VeganFest, and the Better Dads Festival.

- Asheville Buncombe Regional Sports Commission has requested through the City of Asheville Community & Economic Development Department that City Council permit them to serve beer and/or unfortified wine at the SoCon JamFest and allow for consumption at this event.

  The SoCon JamFest will be held on Sunday, March 5, 2017 from 2:00 p.m. – 5:00 p.m. within the boundaries of Page Avenue as per the area limits referenced on the accompanying site map.

- Iron Girls, Inc. has requested through the City of Asheville Community & Economic Development Department that City Council permit them to serve beer and/or unfortified wine at the Asheville Half Marathon & 10K and allow for consumption at this event.

The Asheville Half Marathon & 10K will be held on Saturday, June 3, 2017 from 7:00 a.m. – 12:00 p.m. within the boundaries of Pack Square Park as per the area limits referenced on the accompanying site map.

- Xpand Your Vision has requested through the City of Asheville Community & Economic Development Department that City Council permit them to serve beer and/or unfortified wine at Xpand Fest and allow for consumption at this event.

  Xpand Fest will be held on Saturday, June 10, 2017 from 11:00 a.m. – 9:00 p.m. within the boundaries of Banks and Buxton Avenues as per the area limits referenced on the accompanying site map.

- Brother Wolf Animal Rescue has requested through the City of Asheville Community & Economic Development Department that City Council permit them to serve beer and/or unfortified wine at Asheville VeganFest and allow for consumption at this event.

  Asheville VeganFest will be held on Sunday, June 11, 2017 from 11:00 a.m. – 5:00 p.m. within the boundaries of Pack Square Park as per the area limits referenced on the accompanying site map.

- ManKind Project USA has requested through the City of Asheville Community & Economic Development Department that City Council permit them to serve beer and/or unfortified wine at the Better Dads Festival and allow for consumption at this event.

  The Better Dads Fesival will be held on Saturday, June 17, 2017 from 12:00 p.m. – 9:30 p.m. within the boundaries of Pack Square Park as per the area limits referenced on the accompanying site map.

Pro:

- Allows fundraising opportunities for Asheville Buncombe Regional Sports Commission, Iron Girls, Inc., Xpand Your Vision, Brother Wolf Animal Rescue, and ManKind Project USA

Con:

- Potential for public safety issues

There is no fiscal impact.

Staff recommends City Council adopt a resolutions making provisions for the possession and consumption of malt beverages and/or unfortified wine at the SoCon JamFest, the Asheville Half Marathon & 10K, Xpand Fest, Asheville VeganFest, and the Better Dads Festival.

R. ORDINANCE NO. 4558- ORDINANCE AMENDING THE FISCAL YEAR 2016-17 FEES AND CHARGES MANUAL BY INCREASING THE PARKING METER FEE RATE FROM $1.25 PER HOUR TO $1.50 PER HOUR WITH AN EFFECTIVE DATE OF APRIL 1, 2017

Summary: The consideration of an ordinance amending the Fiscal Year 2016-17 Fees and Charges Manual by increasing the parking meter fee rate from $1.25 per hour to $1.50 per hour with an effective date of April 1, 2017.

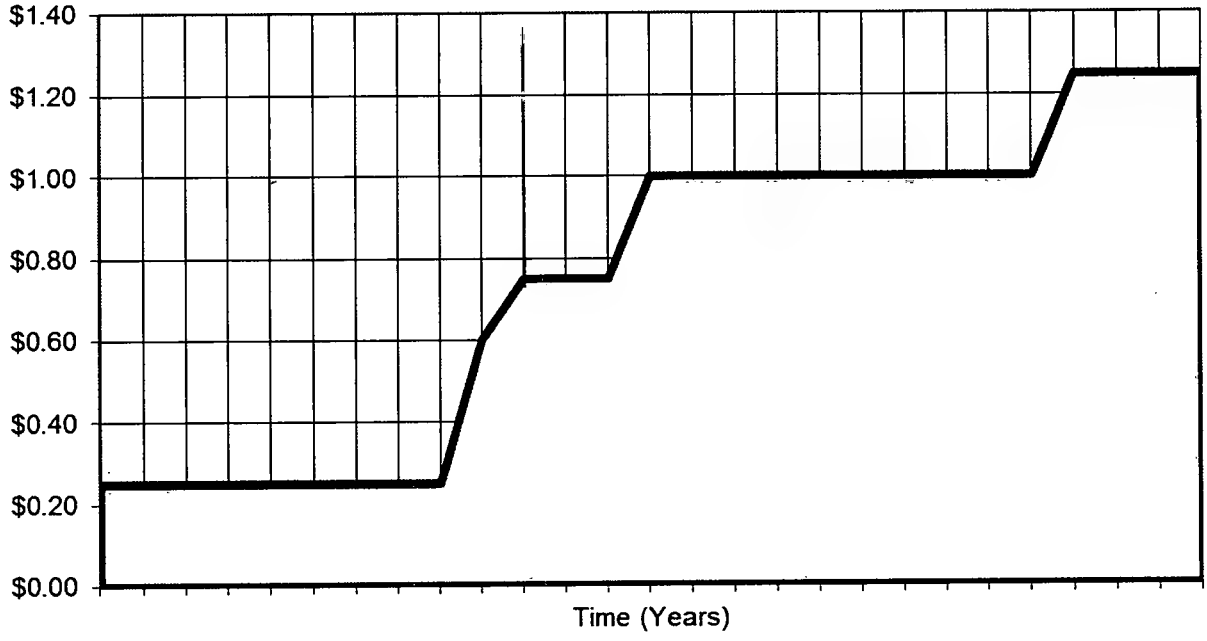
Parking meters date back to the 1980s and the Parking Enterprise Fund was established by City Council during June 1987 with the goal of making downtown parking operations self-sufficient. During FY 1988-89, 53% of the parking revenues came from the General Fund and today, the Parking Enterprise Fund is totally self-sufficient with a fund balance of $1.9 million. Parking garage revenues at the end of FY 2015-16 totaled $2.9 million compared to less than $300,000 in FY 1988-89. The city has four parking garages with a supply of 1,437 parking spaces and three of the parking garages are debt-free.

Parking meter rates have ranged from $0.25 per hour to the current $1.25 per hour since FY 1990-91 but as you can see in Figure 1, for the most part, the rates have remained stable. The current rate has been in effect since July 1, 2013. When the $1.00 per hour rate was approved beginning in FY 2003-04, City staff and the business community agreed to a differential rate between on-street hourly parking and parking garage hourly parking. The differential rate includes having the first hour free in the parking garages and keeping the on-street hourly rate higher than the parking garage hourly rate. The purpose of the differential rate is to encourage longer "stays" (greater than two hours) to use one of the parking garages while creating more turnover for the shorter "stays" (less than two hours) on the street.

The most significant asset belonging to the Parking Enterprise Fund is the parking garages and it is crucial that they are maintained in such a manner to ensure a long and cost efficient service life. The Civic Center Parking Garage is now 40 years old and a recent structural analysis has confirmed that its service life can be extended by 30 years if we commit to spending $9.0 million on it over the next 30 years (which is an average of $300,000 per year). A structural analysis is now being done on the Rankin Avenue and the Wall Street parking garages and those costs will be included in future years. Due to these needs and the numerous parking-related needs that continue to come up, staff has now created a 10-year capital improvement projects plan to help address the needs. The current plan includes; but not limited to, projects to modernize the elevators in the three oldest parking garages, to replace the existing parking meters with smart (credit card) meters, and to extend the Civic Center parking garage service life. The 10-year capital improvements projects plan will be reviewed annually and appropriate adjustments will be made which might trigger the need for parking fee rate increases.

Staff is moving forward to replace the existing parking meters within the next two years (including the current fiscal year) so that we will have more options available including extending enforcement hours, having the ability for variable pricing by location and/or time of the day or season, and having the ability to make parking fee rate increases effective much more quickly compared to today (currently, it can take up to three months because of the age and condition of the existing parking meters).

Figure 1 - City of Asheville Hourly Meter Rate History



A consulting firm was recently hired to prepare a comprehensive parking study (now in draft form) which included the preparation of a financial model to help staff determine parking rate fee increases and benchmarking information from 50+ cities located in the southeast region of the United States. 30 of these cities use parking meters to control on-street parking and 12 of these cities have an hourly parking rate greater than $1.25 per hour. Chapel Hill is the only city in North Carolina that has a rate greater than $1.25 per hour and it is $1.50 per hour. Four of the cities have a rate of $2.00 per hour.

Table 1 provides a summary of the parking fee rate increases that staff is recommending for FY 2017-18. In addition, staff recommends that the parking meters fee rate increase be made effective on April 1, 2017 to enable staff to adjust the existing parking meters to be able to accept the increase and be fully operational by July 1, 2017.

Table 1 – Parking Fee Rate Increases

Description	Increase	Revenue Generated +/-
Parking Meters (Hourly)	$0.25	$275,000
Parking Garages (Hourly)	$0.25	$169,000
Civic Center Parking Garage (Monthly)	$10.00	$55,000
Civic Center Parking Garage (Discounted Monthly)	$5.00	$1,200
Rankin Avenue Parking Garage (Monthly)	$10.00	$12,000
Wall Street Parking Garage (Monthly)	$10.00	$3,600
Parking Meter Temporary Closures (Daily)	$4.00	$4,000
Timed Parking Space Temporary Closures (Daily)	$22.00	$5,500
On-Street Permitted Parking (Monthly)	$10.00	$12,700
Surface Parking Lots (Monthly)	$10.00	$12,000
Surface Parking Lots (Discounted Monthly)	$5.00	$600

The Finance Committee reviewed the proposed parking fee rate increases at their regularly scheduled meeting on January 24, 2017, and unanimously recommended that the action move forward to City Council for consideration as a part of the overall FY 2017-18 Fees and Charges package except for the parking meter fee rates. Due to the age of the existing parking meters, staff needs about two to three months to go on-site and physically adjust the parking meters to accept the new rate.

Pros:

- Maintains a cost differential between on-street metered parking and hourly parking in the parking garages in order to encourage turnover for the on-street parking.
- Maintains the first hour free in the parking garages.
- Creates a steady funding stream to meet the needs of the 10-year CIP.
- Creates a steady funding stream for a new parking garage in the future.

Con:

- Higher cost to park in the Central Business District.

The total anticipated annual revenue that should be generated from all of the fee changes is about $525,300. As noted above, the parking meter fee change alone will generate about $275,000 annually.

Staff recommends that City Council approve an ordinance amending the Fiscal Year 2016-17 Fees and Charges Manual by increasing the parking meter fee rate from $1.25 per hour to $1.50 per hour with an effective date of April 1, 2017.

ORDINANCE BOOK NO. 31 - PAGE 87

S. RESOLUTION NO. 17-39 - RESOLUTION OF INTENT TO PERMANENTLY CLOSE AN UNNAMED ALLEY BETWEEN 7 AND 19 AUSTIN AVENUE AND SETTING A PUBLIC HEARING ON MARCH 14, 2017

Summary: The consideration of a resolution of intent to permanently close an unnamed alley between 7 and 19 Austin Avenue and setting a public hearing on March 14, 2017.

N. C. Gen. Stat. sec 160A-299 grants cities the authority to permanently close streets and alleys.

Pursuant to this statute, adjoining property owners, Mark and Melissa Essig owners of parcel 9649460040 and David and Nancy Stainback owners of parcel 9649460150, have requested the City of Asheville to permanently close a portion of an unnamed alley between unnamed alley between #7 and #19 Austin Ave. A copy of this resolution of intent shall be sent by registered or certified mail to all owner of this property abutting this alley, not joining in the petition to close.

Public Works staff notified other city departments and the utility companies and received no concern with this closure. The Multimodal Transportation Commission met on January 25th, 2017, and approved the closure.

Pros:

- There will be no future compromise of ingress/egress to other property
- The closure would allow for more efficient use of the existing adjacent properties
- Meets Council's goals of efficient land use and planning.

Con:

- None

There will be no fiscal impact related to this closure.

City staff recommends City Council adopt the resolution of intent to permanently close an unnamed alley between 7 and 19 Austin Avenue and setting a public hearing on March 14, 2017.

RESOLUTION BOOK NO. 38 - PAGE 350

T. ORDINANCE NO. 4559 - ORDINANCE TO CHANGE THE SPEED LIMIT ON DEPOT STREET FROM LIVINGSTON STREET TO CLINGMAN AVENUE AND ROBERTS STREET FROM CLINGMAN AVENUE TO LYMAN STREET TO 20 MPH; AND TO CHANGE THE SPEED LIMIT ON CLARENDON ROAD FROM SCHOOL ROAD TO SCHOOL ROAD, CONGRESS STREET FROM CHOCTAW STREET TO LIVINGSTON STREET, DEPOT STREET FROM LIVINGSTON STREET TO END OF CITY MAINTENANCE, FAIRCREST ROAD FROM BEAVERDAM ROAD TO END OF CITY MAINTENANCE, LE-AN-HURST ROAD FROM EDGEWOOD DRIVE TO ROUND TOP ROAD, LONDON ROAD FROM BELVEDERE ROAD TO TO WEST CHAPEL ROAD, PINE ACRE BOULEVARD FROM MIDLAND DRIVE END OF CITY MAINTENANCE, ROBERTS STREET FROM HAYWOOD STREET-W TO CLINGMAN AVENUE, SPOOKS BRANCH ROAD FROM BEAVERDAM ROAD TO END OF CITY MAINTENANCE, AND SWEETEN CREEK ROAD INDUSTRIAL PARKWAY FROM SWEETEN CREEK ROAD TO END OF CITY MAINTENANCE TO 25 MPH

Summary: The consideration of an ordinance to enact and/or change the speed limits on various sections of streets in the City of Asheville.

According to state law (NCGS # 20-141), the statutory speed limit in North Carolina is 35 mph inside municipal corporate limits for all vehicles and 55 mph outside municipal corporate limits for all vehicles except for school buses and school activity buses.

Furthermore, local authorities may authorize by ordinance higher speeds or lower speeds than the statutory 35 mph speed limit on locally-maintained streets provided that the higher speed limit cannot exceed 55 mph. Speed limits authorized by local authorities are effective when the appropriate signs are erected.

City staff recently completed traffic engineering investigations and determined that a 20 mph speed limit would be reasonable and safe on Depot Street from Livingston Street to Clingman Avenue and Roberts Street from Clingman Avenue to Lyman Street.

City staff recently completed traffic engineering investigations and determined that a 25 mph speed limit would be reasonable and safe on Clarendon Road from School Road to School Road, Congress Street from Choctaw Street to Livingston Street, Depot Street from Livingston Street to End of City Maintenance, Faircrest Road from Beaverdam Road to End of City Maintenance, Le-An-Hurst Road from Edgewood Drive to Round Top Road, London Road from Belvedere Road to West Chapel Road, Pine Acre Boulevard from Midland Drive End of City Maintenance, Roberts Street from Haywood St-W to Clingman Avenue, Spooks Branch Road from Beaverdam Road to End of City Maintenance, and Sweeten Creek Industrial Parkway from Sweeten Creek Road to End of City Maintenance.

Pros:

- City staff has been able to respond favorably to citizens' requests.
- The new speed limits will be consistent with roads of like character and design.
- This action will also bring some of the roads into line with our speed limit policies.
- Based on the 85th percentile speeds, most drivers would adhere to the recommended speed limits on these roads.

Cons:

- The initial cost to install the appropriate speed limit signs is about $2,000.00.
- Typically, speed limit signs have a serviceable life of five to seven years.

The initial cost to install the appropriate speed limit signs is about $2,000.00 and is included in the current operating budget for the Transportation Department.

City staff recommends that City Council approve an ordinance enacting 20 mph speed limits on Depot Street from Livingston Street to Clingman Avenue and Roberts Street from Clingman Avenue to Lyman Street. City staff also recommends that City Council approve an ordinance enacting 25 mph speed limits on Clarendon Road from School Road to School Road, Congress Street from Choctaw Street to Livingston Street, Depot Street from Livingston Street to End of City Maintenance, Faircrest Road from Beaverdam Road to End of City Maintenance, Le-An-Hurst Road from Edgewood Drive to Round Top Road, London Road from Belvedere Road to West Chapel Road, Pine Acre Boulevard from Midland Drive End of City Maintenance, Roberts Street from Haywood St-W to Clingman Avenue, Spooks Branch Road from Beaverdam Road to End of City Maintenance, and Sweeten Creek Industrial Parkway from Sweeten Creek Road to End of City Maintenance.

ORDINANCE BOOK NO. 31 - PAGE 89

U. RESOLUTION NO. 17-40 - RESOLUTION AUTHORIZING THE EXCHANGE OF AN EASEMENT IN THE CITY RIGHT-OF-WAY ALONG SOUTHSIDE AVENUE AND SHORT COXE AVENUE FOR A DEEDED TEN-FOOT WIDE STRIP OF LAND FOR USE AS ADDITIONAL PUBLIC RIGHT-OF-WAY AT SHORT COXE AVENUE AND WILBAR AVENUE OWNED BY PT DEVELOPMENT OF ASHEVILLE LLC

Summary: The consideration of a resolution authorizing the exchange of an easement in City right-of- way along Southside Avenue and Short Coxe Avenue for a deeded ten-foot wide strip of land for use as additional public right of way at Short Coxe Avenue and Wilbar Avenue owned by PT Development of Asheville, LLC.

The City of Asheville and PT Development of Asheville, LLC have negotiated a mutually beneficial exchange of and easement in right-of-way along Southside and Short Coxe Avenue for a strip of land that begins at Wilbar Avenue and Short Coxe Ave and runs the width of the property along the roadway at Wilbar. Pursuant to N. C. G. S. 160A-271, a notice was published in the Asheville Citizen Times on February 3rd, 2017 describing the exchange of properties.

PT Development of Asheville, LLC is planning to build approximately eighteen townhomes on a parcel (9648-37-5186) in the South Slope area. In accordance with the Central Business District (CBD) zoning, the townhomes are planned assuming zero lot line setbacks at the road frontage. The development of the parcel is constrained because of the long and narrow shape of the property and the topography at the rear of the property that is steep and unbuildable. The owners determined that in order to build the proposed structures on this site, they would need to put underground footings in front of every unit. These footings would be constructed under the City's sidewalk and would necessitate a subsurface easement of roughly 20 inches in width. It was determined that the easement would extend for approximately 258 linear feet on Southside Avenue and Coxe Avenue for a total square footage of 431 square feet. This request was discussed with the City's Public Works Director and it was determined that the granting of this easement would not substantially impair or hinder the street as a way of passage in compliance with NCGS 160A-273. Exhibit A is a two-page sketch of the subsurface easement that is being requested.

In response to this request, the City of Asheville proposed a land exchange for additional right-of-way at Wilbar Avenue. The City, in consultation with the Housing Authority of the City of Asheville determined that an additional width of 10 feet from Wilbar Avenue and South Coxe Avenue is needed to improve Wilbar Avenue as an access point for the future Lee Walker Heights redevelopment, which is directly above the townhome development site. Widening the right-of-way at Wilbar will allow for improved pedestrian and traffic facilities. PT Development owns the parcel (9648-37-8168) that is adjacent to Wilbar and has agreed to convey a 10 foot wide strip of land in fee simple as right-of-way in exchange for the subsurface easement that is needed for the construction of the townhomes. Exhibit B is provided to show what property is proposed for the exchange. The total area of the new right-of-way land to be conveyed is 1,324 square feet.

In consideration of the fact that the area to be conveyed to the City is much larger than the area requested by PT Development of Asheville, LLC and will be a fee simple conveyance in exchange for an easement interest in the City right-of-way, it has been determined that the City is receiving full and fair value for its property in compliance with the statute.

Pros:

- The right-of-way at Wilbar Avenue is limited and gaining 10 feet in width will allow for enhanced pedestrian and traffic safety improvements along this City street.
- City is receiving a larger land area in exchange for an easement.
- The subsurface easement will not interfere with the sidewalk after construction is complete.

Con:

- City is allowing a permanent improvement in its street right-of-way at Southside and Short Coxe Avenues.

No monetary consideration will change hands in this exchange, therefore no fiscal impact for this transaction.

Staff recommends City Council adopt a resolution approving this land exchange and authorizing the City Manager to convey this 431 square foot easement at Short Coxe and Southside Avenue to PT Development of Asheville, LLC and to accept the conveyance of land at Wilbar Avenue and Short Coxe Avenue.

RESOLUTION BOOK NO. 38 - PAGE 352

V. MOTION APPROVING THE FINDINGS OF FACT AND CONCLUSIONS OF LAW FOR 192 HAYWOOD STREET

Summary: This public hearing was held on January 24, 2017. A copy of the adopted written Findings of Fact and Conclusions of Law for 192 Haywood Street are attached hereto and made a part hereof.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Councilman Bothwell moved for the adoption of the Consent Agenda, with the deletion of Consent Agenda Items "H" and "P". This motion was seconded by Vice-Mayor Wisler and carried unanimously.

ITEMS REMOVED FROM THE CONSENT AGENDA FOR INDIVIDUAL VOTES

H. RESOLUTION NO. 17-26 - RESOLUTION ADOPTING THE HOMELESS INITIATIVE ADVISORY COMMITTEE 5-YEAR STRATEGIC PLAN ON HOMELESSNESS

Summary: The consideration of a resolution authorizing the City Manager to adopt the Homeless Initiative Advisory Committee's (HIAC) Five Year Strategic Plan on Homelessness.

The Homeless Initiative Advisory Committee (HIAC), is a joint committee of the City of Asheville and Buncombe County. The committee completed the Five Year Strategic Plan on Homelessness for the Buncombe County Continuum of Care (NC-501). Looking Homeward: The Ten Year Plan to End Homelessness in Asheville and Buncombe County was adopted as a guiding document in January of 2005 by the City of Asheville and in March of 2005 by Buncombe County and was the culmination of a six-month planning effort by homeless service providers, government administrators, housing developers, community leaders, and the homeless. The plan focused primarily on housing the chronic homeless population in Buncombe County. A significant number of those individuals have moved from homeless into permanent housing as a direct result of the key strategies outlined in that visionary document.

The number of chronically homeless identified in the original 10-year plan was 293. In the past ten years, concerted community-wide efforts steadily reduced that population with the 2016 Point-in-Time (PIT) count showing 72 chronically homeless individuals remain unhoused in Buncombe County. While the Ten Year Plan targeted housing the chronically homeless, the plan was not limited to ending chronic homelessness alone but also addressed all aspects of homelessness. Subsequent policies guided the development of a systems' response to homelessness in Buncombe County that resulted in: the reduction of all types of homelessness, the number of persons that become homeless, the duration and frequency of homeless episodes and a reduction of the number of persons experiencing chronic homelessness. Since 2008, 1,097 homeless persons have been housed at the Housing Authority for the City of Asheville through a homeless preference and over 1,200 have been housed throughout Buncombe County in scattered site housing.

The Asheville-Buncombe Homeless Initiative has now completed a Five Year Strategic Plan to address the ongoing issues of homelessness in Buncombe County and further build on the successes on the Ten Year Plan. The Five Year Strategic Plan sets annual goals that target the needs of specific sub-populations, Veterans and the Chronically Homeless, and ensures emerging trends and best practices are integrated within community strategies over the next five years. The plan allows for adaptation and flexibility in community strategies and acts as a guiding document for comprehensive engagement grounded in best practices.

The Homeless Initiative Advisory Committee (HIAC), the governing body of the Continuum of Care in Buncombe County, solidified 7 Priorities for the Five Year Strategic Plan on Homelessness: Housing, Case Management, Safety and Transitional Services, Healthcare, Education and Employment, Transportation and Prevention and Diversion. The HIAC affirmed its vision, mission, and operating principals and developed these seven priorities from the cumulative work of the HIAC, individual sub-committee and work group recommendations, the Homeless Coalition, a report compiled from a community survey of the homeless conducted in partnership by University of North Carolina at Asheville Health and Wellness Department in the spring of 2016, the 2005-2016 Point-in-Time data, the Housing Inventory Count, Homeless Management Information System (HMIS) data, HUD guidance and a review of the City of Asheville priorities. The HIAC has engaged in an open and deliberative process involving key stakeholders, service providers, the homeless community, and advocates in this process and will continue to cultivate those critical relationships as it develops the annual goals.

The Five Year Strategic Plan on Homelessness continues to emphasize support of public-private partnerships, creation of opportunities to increase the affordable housing supply in the community, system-wide collaboration and measurable actions adopted annually by the HIAC

that are designed to decrease the many barriers homeless individuals and families face in accessing safe, stable and affordable housing.

The Housing and Community Development Committee reviewed the Plan at their December 20, 2016, meeting, with a unanimous recommendation to move the Plan to City Council for adoption.

Pro:

- HUD funding is a key funding resource for permanent supportive housing for homeless individuals and families. The Five Year Strategic Plan on Homelessness is not solely predicated on increased revenue but implementation of community wide strategies within the existing framework to better serve the homeless population in Buncombe County.

Con:

- Program funding and affordable housing availability does not meet the full demand for services and housing needed to assist all the low-income homeless households. HUD funding is allocated yearly in the Congressional Budget process, and is subject to change annually.

Homeless program services and subsidy funding is almost entirely from the US Department of Housing and Urban Development and the State of North Carolina. Existing Community Development staff administer and monitor current programs and initiatives. HUD and ESG homelessness funding through the Continuum of Care currently accounts for over 1.2 million in Buncombe County annually. The City of Asheville and Buncombe County continue to partner on funding the coordination of the Homeless Initiative lead. This funding has remained relatively stable since first made available in 2007. No new major local funding will be requested in the upcoming budget cycle.

Staff recommends City Council adopt a resolution authorizing the City Manager to adopt the Asheville-Buncombe Homeless Initiative Advisory Committee's Five Year Strategic Plan on Homelessness in Buncombe County.

April Burgess-Johnson, Chair of the Homeless Initiative Advisory Committee, spoke in support of the resolution and the many key stakeholders, homeless service providers and advocates that helped in developing the goals outlined in the Five Year Strategic Plan.

Mr. David Nash, former Chair of the Homeless Initiative Advisory Committee, spoke in support of the resolution and thanked Council for their support in making housing a high priority and getting homeless off the streets.

In response to Councilman Bothwell, Mr. Nash said that at the beginning of the 10-Year Plan to end homelessness, there were 298 chronic homeless and the number last year was 72.

Councilman Smith said this is a really ambitious and realistic set of goals. They have moved 1500 people who fell into homelessness back into housing over the last 10 years. And, a set of relationships and systems has been created so now people are doing this more collaboratively, more effectively, and more cost effectively than ever before. We are designing systems that will be in place so when someone falls into homelessness there will be a system to catch them and re-house them as quickly as possible. This plan helps knit together those systems that we have to have if we are going to be successful going forward. One achievable goal is to bring veterans homelessness to functional zero by December of 2017 in Buncombe County.

Rev. Christopher Chiaronmonte was concerned about the amount of time it took to get on a housing list and where people would wait in the meantime.

Councilman Smith moved for the adoption of Resolution No. 17-26. This motion was seconded by Councilman Bothwell and carried unanimously.

RESOLUTION BOOK NO. 38 – PAGE 323

P. ORDINANCE NO. 4557 - ORDINANCE AMENDING THE FEES & CHARGES MANUAL FOR THE ASTON PARK TENNIS CENTER

Summary: The consideration of a proposed fee amendment at the Aston Park Tennis Center (Tennis Center).

A study of Tennis Center operations, completed by City staff in 2014, reviewed opportunities to reduce the level of general fund subsidy. The study included a public engagement process with Tennis Center users including two public meetings, online survey and a focus group.

In a concurrent process, the City engaged Matrix Consulting Group (consultants) to conduct a Cost of Services Study for the Parks and Recreation Department. The consultants reviewed direct and indirect costs of providing fee-based recreation services. The Tennis Center was included as a component of the study.

Based on the results of the Cost of Services Study and staff analysis, a three-year step up pass holder fee schedule was developed to incrementally increase fees over a three-year period. The three-year step up fee schedule was included in the Tennis Center public engagement process. The Finance Committee determined the acceptable annual Tennis Center subsidy at $70,000 and adopted the step up fee schedule.

Based upon the Cost of Service Study and the three-year step up fee schedule, Tennis Center pass holder fees were amended in 2015 for year one, and in 2016 for year two.

The Cost of Services Study and staff recommends amending the current Tennis Center pass holder fees for year three effective immediately, in order for staff to implement the fee change prior to the Tennis Center opening on April 1, 2017. Amending the pass holder fees will continue to reduce the level of operational subsidy at the Tennis Center, in accordance with direction provided by the Finance Committee.

The proposed Tennis Center fee amendment was reviewed by the Finance Committee on January 24, 2017.

Proposed Fee Amendment:

1. Aston Park Tennis Center pass holder fees. If approved, the recommended amendment fees at the Tennis Center will generate additional revenue as summarized below.

Fund	Projected Range of Additional Revenue
General Fund	$20,000 to $25,000

This action complies with the Cost of Services Study for the Parks and Recreation Department.

Pros:

- Provides additional revenue as recommended by the Tennis Center operation study and Cost of Services Study to reduce operational subsidy at the Tennis Center to approximately $70,000, or 31%.

- Provides staff with time to communicate and implement fee amendment to citizens, customers and stakeholders in advance of the April 1, 2017 opening of the Tennis Center.

Con:

- None.

The fiscal impact is (1) Recreation best practices show tennis facilities of this type shift a greater burden of the costs from the taxpayer subsidy to the individual users. Prior to the 2015 fee amendment, the annual Tennis Center subsidy was approximately $150,000; (2) The current Tennis Center subsidy is approximately $97,800, or 42%. The objective of the current fee amendment and the revenue projection is to achieve the goal of reducing the annual Tennis Center subsidy to approximately $70,000, or $31%; (3) The proposed fee amendment is the third phase in a three-year step up pass holder fee proposal; and (4) The anticipated General Fund subsidy for the Tennis Center is projected at approximately $70,000 based on revenue enhancements alone. Further reductions in the subsidy may be realized through operational changes impacting revenues and expenses.

Staff recommends Council to adopt the proposed Aston Park Tennis Center fee amendment.

Vice-Mayor Wisler said that the three-year step up fee was implemented the first year, with an effective date of April 1. The second year of the three-year step up fee was not implemented until July 1 (which let tennis players pay as the same rate they did year one if they signed up at the beginning of the season). She suggested instead of implementing the third year step up fee on April 1, that we split the difference between the year two and year three fees ($62.50 for a resident individual) and have them pay $375 plus $62.50 effective April 1, and then on July 1 we set the fee at the original year 3 step up fee of $500.

Mr. Jeff Joyce, President of the Asheville Tennis Association, said that this will be a 66% increase in each category and suggested Council wait until July 1 to implement the year three fee. The higher the increase the harder it will be to sell the players on paying it.

Vice-Mayor Wisler moved to adopt Ordinance No. 4557 with the amendment that between April 1 and July 1 each category of fees be increased by splitting the difference between year 2 and year 3 fees, and that on July 1, the step up fees for each categories be implemented. This motion was seconded by Councilman Bothwell and carried unanimously.

ORDINANCE BOOK NO. 31 - PAGE 84

III. PRESENTATIONS & REPORTS: None

IV. PUBLIC HEARINGS:

A. PUBLIC HEARING TO CONSIDER AMENDING CHAPTER 7 OF THE CODE OF ORDINANCES

1. TO AMEND CERTAIN PROVISIONS IN THE UNIFIED DEVELOPMENT ORDINANCE RELATING TO LEVEL III, LEVEL II AND LEVEL I PROJECTS, NOTICE STANDARDS, THE CONDITIONAL ZONING PROCESS, ZONING DISTRICTS (INCLUDING THE ADDITION OF EXPANSION DISTRICTS), THE TABLE OF PERMITTED USES, AND ADJUSTMENTS TO THE RELEVANT CODE SECTIONS CONCERNING THESE AMENDMENTS - THIS WILL AFFECT ARTICLES 2, 5, 7, 8, 11, 16 AND 17 OF THE UNIFIED DEVELOPMENT ORDINANCE

ORDINANCE NO. 4560 - ORDINANCE TO AMEND CHAPTER 7 OF THE CODE OF ORDINANCES TO AMEND CERTAIN PROVISIONS IN THE UNIFIED DEVELOPMENT ORDINANCE RELATING TO LEVEL III, LEVEL II AND LEVEL I PROJECTS, NOTICE STANDARDS, THE CONDITIONAL ZONING PROCESS, ZONING DISTRICTS (INCLUDING THE ADDITION OF EXPANSION DISTRICTS), THE TABLE OF PERMITTED USES, AND ADJUSTMENTS TO THE RELEVANT CODE SECTIONS CONCERNING THESE AMENDMENTS - THIS WILL AFFECT ARTICLES 2, 5, 7, 8, 11, 16 AND 17 OF THE UNIFIED DEVELOPMENT ORDINANCE

2. **TO MODIFY THE DEVELOPMENT REVIEW PROCEDURES FOR LEVEL II DEVELOPMENT APPLICATIONS WHEN LOCATED OUTSIDE OF THE CENTRAL BUSINESS DISTRICT**

ORDINANCE NO. 4561 - ORDINANCE AMENDING CHAPTER 7 OF THE CODE OF ORDINANCES TO MODIFY THE DEVELOPMENT REVIEW PROCEDURES FOR LEVEL II DEVELOPMENT APPLICATIONS WHEN LOCATED OUTSIDE OF THE CENTRAL BUSINESS DISTRICT

Assistant Director of Planning & Urban Design Alan Glines said that this is an amendment to Chapter 7 of the Code of Ordinance to amend certain provisions in the Unified Development Ordinance relating to Level III, Level II and Level I projects, notice standards, the conditional zoning process, zoning districts (including the addition of expansion districts), the table of permitted uses, and adjustments to the relevant Code sections concerning these amendments. This will affect Articles 2, 5, 7, 8, 11, 16 and 17 of the Unified Development Ordinance. This public hearing was advertised on February 3 and 10, 2017.

Staff has provided a set of related revisions to the development review process as directed by City Council after a large amount of community discussion and consideration. Site plans are currently reviewed based on size or number of units as Level I, II or III projects. The detail of the review of each increases with each level allowing larger, more complex projects to receive a higher level of attention and input.

In December 2015, staff from the Planning and Urban Design Department presented information to City Council to understand and address concerns about the recent development in the downtown area and the expansion of hotels since the adoption of the Downtown Master Plan and the Central Business District (CBD) zoning changes in 2009 and 2010, respectively. At that meeting City Council directed staff to conduct a series of public engagement activities around this topic that included a public forum, an on-line survey and presentations and updates to a variety of community stakeholder groups. Staff presented these results and recommendations to City Council at their meeting on September 27, 2016. During this meeting, Council directed staff to coordinate the following efforts:

Actions from Downtown Planning and Development Policies:

1. Consensus of Council to direct staff to prepare a wording amendment to the Unified Development Ordinance to amend the development review threshold of Level II projects to 20,000 square feet to 100,000 square feet or under 100 feet tall throughout the City.
2. Consensus of Council to direct staff to prepare a wording amendment to Unified Development Ordinance to amend the development review threshold of Level III projects throughout the City to anything over 100,000 square feet or 100 feet tall, which would require a rezoning and

which would follow that process; and to establish certain incentive criteria for developers wishing to build residential.

3. Consensus of Council to direct staff to explore using the rezoning process outside of the Central Business District, especially in areas where mutual agreement would like to be reached.
4. Consensus of Council to direct staff to prepare a wording amendment to the Unified Development Ordinance to make lodging facilities with 20-25 or more rooms throughout the City a use which would require a rezoning and which would follow that process.
5. Consensus of Council to direct staff to prepare a wording amendment to the Unified Development Ordinance to increase public notification for Level II and Level III projects in accordance with staff's recommendations.

In response to the Council directive, staff have prepared this wording amendment. The main change is that Level III developments will be defined and considered a *use* in the land use table. Level III developments are only to be permitted in the newly created *expansion districts* which a developer will apply to rezone the property into, through the conditional zoning process. The process is outlined as follows:

Proposed Changes to the development review process

A. Proposed changes to the development review process inside the CBD (7-5-9.1):

Level I *Over 500- 19,999 s.f. and projects that do not qualify as a Level II development*	**Level II** *20,000-99,999 s.f.; and/or buildings less than 100' tall*	**Level III Development requires a rezoning** *Aligns with standards 100,000 s.f. or more; buildings 100' or taller; lodging with 21 or more guest rooms*
Pre-application (optional)	Pre-application required. Applicant for a Level II development for site plan review	Pre-application required. Applicant applies for a rezoning to the Central Business Expansion District as a conditional zoning
Applicant submits directly to staff	Developer meeting: Developer holds a meeting for neighbors, posts the site and includes property owners and tenants within the notification range.	Developer meeting: Developer holds a meeting for neighbors, posts the site and includes property owners and tenants within the notification range.
Initial review is complete within 10 days	Applicant submits to DSD for review by the Technical Review Committee (TRC). The development mapper is updated with p ans.	Applicant submits to DSD for review by the Technical Review Committee (TRC). The development mapper is updated with plans.

Council and applicant agree to a specific set of conditions. Since the process is a rezoning, Council and the applicant may discuss the application and conditions before the actual hearing.
		Process follows prescribed notice and meeting schedule to include neighbors, published notice and site is posted. Website is updated.

Expansion Districts (7-8-1; 7-8-2)

This wording amendment provides for the addition of the seven proposed expansion districts that apply to the Central Business District and the following use types: residential, institutional, commercial, lodging, industrial, and mixed use. Each expansion district has a corresponding set of development standards that recognize the added impacts that larger projects can generate. With projects of larger scale, a higher level of site development and design are needed. Generally the standards focus on the placement of new structures, placement of parking areas, access and mobility to and around the site and buffering impacts to neighboring residential uses (if applicable). These standards comply with goals in the city's comprehensive plan to enhance connectivity, placemaking and usability for larger projects within the city.

There will also be the addition of 'Level III development' to the land use table to permit this larger scale of development only in the new expansion districts.

Other Amendments

Revisions to Article II:

7-2-5. New definitions are being added for *Development plan* and *Level III development.*

Revisions to Article V:

7-5-10 Downtown Commission Review. There are some limited amendments to the Downtown Design Review process to update the procedures and current practices with consistent nomenclature. For example fees will be charged for major works review.

7-5-20 Notification. This amendment clarifies alignment with State Statutes regarding notification for public hearings (and not public meetings) and public notification requirements for rezonings.

7-5-21. This section is being removed since it is out of compliance with State Statutes. The Planning and Zoning Commission must always provide a recommendation to City Council for map amendments (rezonings) and wording amendments.

Revisions to Article VI:

7-6-2. This minor revision clarifies that all decisions made by an administrative officer or other boards or commissions may be appealed to the board of adjustment.

Revisions to Article VII:

7-7-8. The revisions to this article focus on adding the expansion districts to the conditional zoning process. These is also a new timeframe specified for the required neighborhood meeting along with other edits to the section to ensure consistency with other parts of the UDO.

Revisions to Article XI:

7-11-3. The expansion districts are being added to the table for property line buffers in this section.

7-11-4. Two expansion districts, the CBD EXP and the IND EXP are both to be exempt from open space standards similar to the general districts: CBD and IND.

Revisions to Article XVI:

7-16-2(b). There are two references in this conditional use section which include Level III projects and Retail with over 100,000 s.f.. Both of these references are replaced with the new Level III process already noted.

Revision to Article XVII:

7-17-3. Lodging facilities with 20 or fewer guest rooms and Lodging facilities with 21 or more guest rooms are being added to the land use impact table. This is needed for evaluating 'changes of use' and the relative impacts of each use which has implications for requirements for site improvements.

This wording amendment supports the City's Comprehensive Plan by 1) promoting compatible infill and redevelopment in areas with sufficient infrastructure to support the development; 2) following a reasonable and effective public participation process through public notice and neighborhood meetings; and, 3) encouraging place making and a higher quality of design in the built environment.

This proposal aligns with the 2036 Council Vision in the following areas: (1) Connected and Engaged Community – through promoting public engagement and encouraging input on development projects with neighborhood meetings, public notice and communication on the city's website; (2) Thriving Local Economy – by encouraging infill and redevelopment in key areas of the city; and (3) A Well-Planned and Livable Community – by encouraging compatibility of larger new development projects within the existing built environment through enhanced access and development standards and opportunities for public engagement through the review process.

At the Planning and Zoning Commission meeting held on February 1st, 2017, the Commission voted to recommend denial of the proposed amendments on a vote of 6 to 1. The Commissioners were concerned about the change in the thresholds for downtown, where growth is expected with some commenting that the amendment is an overreaction to growth in general and to hotels in particular. There was some concern that with the conditional zoning process, a developer may have no clear understanding of what is necessary for a project to move forward and that predictability will be lost. There was also concern that, should the amendment be passed, that development will be curtailed and new proposals will stay within the Level II threshold to avoid the public process.

At the request of the Downtown Commission, Mr. Glines reiterated their recommendations from their September 9, 2016, meeting. They didn't recommend changing the thresholds from $175,000 because that was part of the Downtown Master Plan and that was where we wanted development intensity. They recommended support for whatever the Level III threshold is that those projects be reviewed as conditional zonings. The majority did not agree that hotels be treated differently from other developments but that if this is approved, that we make the standards as clear as possible. He noted that as soon as a developer has a plan they can talk to Council members at any time. Finally, they recommended staff work on outreach and most of that has been incorporated into the recommendations.

Staff recommends approval of the wording amendments modifying the Level III development review process, adopting new expansion zoning districts, and other associated amendments because of community support to amend the review process and scale of development and consistency with the Comprehensive Plan and other adopted plans.

Mayor Manheimer opened the public hearing at 5:47 p.m.

Mr. Byron Greiner, member of the Downtown Commission, said the Commission supports the notification process. The Commission would like clarify what kind of issues City Council will expect so that developers know what Council might want in going through the process.

Rev. Christopher Chiaronmonte felt there people should be able to build on their land without getting the neighborhood approval.

Ms. Camille McCarthy, Co-Chair of the WNC Green Party, was concerned about the gentrification of our community and it's enormous hotel boom.

Mr. Timothy Sadler spoke in support of the proposed amendment.

Mayor Manheimer closed the public hearing at 5:58 p.m.

In response to Mayor Manheimer, Mr. Glines said that since September, the City has 4 pending hotel applications. They will not come before Council due to scale.

Councilman Bothwell felt that we needed to elevate the thresholds in order for Council to oversee what is being built in the City. He felt that City Council is a more public venue to discuss these issues. The McKibbon Standard is more of a moral persuasion because the City is not

allowed to dictate wages or impose environmental rules beyond what the State has allowed. When projects come before Council we hope to be able to encourage them to pay a living wage, use local artists and use local restaurants. Because projects are coming before Council does not mean they will be automatically rejected. Actually since Council will be able to have conversations earlier we can make all of the projects better. He feels it will improve development and the people will have a sense that they had input into those developments.

Councilman Bothwell moved to approve the revised wording amendments to UDO Articles: 2, 5, 7, 8, 11, 16 and 17 which modify the Level III review process along with associated changes, and find that the request is reasonable, is in the public interest, and is consistent with the Comprehensive Plan and other adopted plans in the following ways: the amendment 1) provides for greater development flexibility in higher impact projects; 2) leverages a higher quality of development with multimodal access and placemaking through enhanced development standards; and, 3) provides an early method of communication with the public through neighborhood meetings. This motion was seconded by Councilman Haynes.

Councilwoman Mayfield supported the change of the threshold levels. Regarding the hotel piece, she felt there is a real concern about hotels and tourism and the impacts of that. We do need to be responsive to that and how it's influencing the character of downtown. It's also our obligation to figure out how we want our downtown to look like and to make sure the people who live here always feel like it's their town. She also feels there is a bigger picture which is that Asheville is taking a different approach to big projects. It's just not hotels and downtown development. It's with I-26, closure of the coal plant and substations. The approach now is that we, as a City, are less interested in being told what it is that is going to happen to us. We want to be a part of that discussion and we are doing that on the other big projects. She was uncomfortable with the hotels being singled out, but she did think that is just part of this bigger picture. The public sentiment about hotels includes bigger concerns about tourism, wages, occupancy tax, traffic and affordability of our City. She didn't think that changes we make with this proposed amendment will do very little to address the wrath of other issues out there. She is still unclear about the degree to which the concern about hotels is the use, or design, or size. There are some outstanding and on-going questions around design issues in downtown. She hoped that the downtown design review guidelines and historic preservation guidelines will hopefully come to fruitation soon. She felt we risk aggravating problems, like traffic and parking, to the degree that hoteliers prefer to go outside the City and their guests will be driving in and parking more. She was also concerned about the impact this will have on our downtown businesses that now rely on a steady flow of hotel visitors to eat and shop. Her preference would have been to deal with this in the Comprehensive Plan update or the Downtown Master Plan update. She moved to amend the motion to increase the City Council hotel review from 21 to 50. She was not sure building any hotel in Asheville under 20 rooms is even financially viable and if what we are trying to do is not have any more hotels downtown then we need to be honest about that. She also said that in Charleston's core downtown they limit the size of their hotels to 50. The motion made by Councilwoman Mayfield died for lack of a second.

Councilwoman Mayfield said that regarding the concern of unpredictability in the process for developers, in an attempt to create a little bit more predictability she suggested creating an earlier point in the process where developers have the option to come before Council to talk about their project before they have significantly invested in site design, engineering, etc. Perhaps they could come to Council and show a plan and get feedback on the kinds of things that we might be interested in seeing them do, so they can plan for that. Obviously they can talk to any Council member at any time.

City Attorney Currin said that what Councilwoman Mayfield is suggesting is a bigger discussion. One way to do that would be where a developer would come to Council, the back to the Planning & Zoning Commission, then back to Council. Another way would be having an application that didn't need to be as detailed in the first round and then do an initial presentation to Council. There are a lot of ways to get earlier input but changing it at the table without going

back to the Planning & Zoning Commission is difficult. That is something staff could work on longer-term.

Mayor Manheimer felt that this is a larger concept to craft. If this proposed amendment is adopted, she suggested we look into that concept later.

Councilwoman Mayfield asked that staff report back to Council in six and twelve months to let Council know how the amendment is working.

Councilman Smith supported the proposed amendment. To Councilwoman Mayfield's concerns of the unpredictability in the process, he felt that all of Council know how important tourism and hospitality is to the economy of our City. If we want to have a fruitful discussion around these issues and be able to come to the same table, it makes sense to have a third party sustainable tourism study that would look at wages, traffic impact, parking impact, cultural impacts, money that remains in the community, and money siphoned out of the community, crime impact, etc. Our tourism and hospitality industry must come to the table so we all all speaking the same language. He also felt we need to re-open the occupancy tax distribution conversation. Ultimately we are talking about what is community benefit.

Councilman Bothwell agreed with Councilman Smith in that we need a sustainable tourism study.

Mayor Manheimer said that members of Council have previously received a copy of the ordinance and it would not be read.

The motion made by Councilman Bothwell and seconded by Councilman Haynes carried unanimously.

ORDINANCE BOOK NO. 31 – PAGE 91

Principal Planner Shannon Tuch said that this is an amendment to Chapter 7 of the Code of Ordinance to modify the development review procedures for Level II development applications located outside of the Central Business District. This public hearing was advertised on February 3 and 10, 2017.

She explained that the proposed ordinance would revise and clarify existing regulations affecting the review and administration of Level II projects when NOT located in the Central Business District.

Development projects, based on size or number of units, are categorized as Level I, II or III projects. The detail of the review of each increases with each level allowing larger, more complex projects to receive a higher level of attention and input. Those review processes are as follows:

Level I *Over 500 s.f. or 3-19 units*	**Level II** *35-100K s.f. or 20-49 units*	**Level III (Requires CUP)** *>100K s.f. or 50 units*
Pre-application (optional)	Pre-application (optional)	Pre-application required
Applicant submits directly to staff	Applicant submits to DSD for review by the Technical Review Committee (TRC)	Applicant submits to DSD for review by the Technical Review Committee (TRC)
Initial review is complete within 10 days	TRC performs a ***ministerial*** review and makes a recommendation to Planning & Zoning Commission	TRC performs a ***ministerial*** review and makes a recommendation to Planning & Zoning Commission
	Planning & Zoning Commission performs a final	Planning & Zoning Commissions performs a

	ministerial review	*legislative* review & makes a recommendation to City Council
	Process follows prescribed notice and meeting schedule	City Council performs a *quasi-judicial* review
		Process follows prescribed notice and meeting schedule

Prior to June 2011, all Level II projects were reviewed and approved by the city's Technical Review Committee (TRC). The TRC is comprised of representatives from all city departments that have a role in the development review and approval process, along with a representative from the city's Tree Commission and the Metropolitan Sewerage District (MSD). These individuals are experts in their respective fields and effectively and equitably apply city, state and federal development standards to projects meeting Level II and Level III thresholds. The TRC performs what is commonly called a ***ministerial*** review which describes a governmental decision involving little or no personal judgment by the public official as to the wisdom or manner of carrying out the project. The public official merely applies the law to the facts as presented but uses no special discretion or judgment in reaching a decision. A ministerial decision involves only the use of fixed standards or objective measurements, and the public official cannot use personal, subjective judgment in deciding whether or how the project should be carried out.

Events prior to June 2011 caused city officials to question not whether the review should be ministerial in nature, but rather whether the body approving the project should be different in order to allow for a more public forum where citizens could attend and offer comment and input. As a result, a change to the review process was adopted that moved the final review of a Level II project from the TRC to the Planning & Zoning Commission. Under this process, the TRC still performs its technical review which is then, to some degree, duplicated by the Planning & Zoning Commission who is limited in their ability to review to the same ministerial standards that the city staff is bound by.

After five years, it is apparent that this change did not produce the desired results and a request to return the final review of Level II projects back to the TRC was made at the August 2014 meeting of the Planning & Economic Development Committee (PED). In this meeting, the PED moved to recommend that Council consider this change but to apply it only to those Level II projects proposed for areas outside of the downtown (non-CBD projects) and to identify strategies to maintain or improve public notice and opportunity for input.

The Planning & Zoning Commission, as part of their stated recommendations and priorities in 2015, also included the return of final review of Level II projects to the TRC citing concerns with: public frustration at the Commission's inability to consider non-technical matters; the Commission's unfamiliarity with technical industry standards and how they should be applied; undue pressure from the community to make a legislative decision that could later be challenged legally; and the disincentive that comes with an additional review (time delay) by an appointed body (fear of subjective decisions).

North Carolina cities are not required to provide public notification for a ministerial review and most cities in the state do not provide any notification beyond a simple electronic agenda or email notice. City staff, however, are proposing that a similar level of notification and availability of information be provided that is currently afforded Level II projects going before the Planning & Zoning Commission and these measures, if adopted, greatly exceed what is required under state statutes. These recommendations are similar to those adopted for Major Subdivisions earlier this year, which place an emphasis on earlier public notification, and include the following:

1) Require a community meeting be held by the developer prior to application. All property owners within 200' of the subject property would be notified and invited to attend.

Contact information for both the developer and the appropriate city staff will be provided for those with specific questions or for those who cannot or choose not to attend the meeting. The use of a meeting facilitator is recommended.

2) Require that a summary of that meeting be submitted with the application packet. All points raised in the meeting will be directly addressed in the TRC staff report.
3) Once application is made, city staff would post a "Notice of Technical Review Meeting" sign on all road frontages included in the subject property. This sign will also have a copy of the TRC agenda, city website, and the contact information where questions may be directed.
4) Development Services will upload all submitted documents to the development map (MapAsheville/TRC Projects) within one week of submittal.
5) A "Notice of Technical Decision" will be mailed via US mail to all property owners within 200' of the subject property within 10 days of the TRC decision. This letter would provide official notice to anyone wishing to appeal.

The focus of this amendment is to update the review and approval process for Level II projects, however, a number of clarifying amendments are proposed. These clarifications do not change the purpose and intent of the existing language.

This zoning text amendment was reviewed by the Planning & Zoning Commission at their regular meeting on November 2, 2016, and approved unanimously (7:0).

This wording amendment supports the City's Comprehensive Plan by (1) making the development review process clear and predictable; and, (2) following a reasonable and effective public participation and notification process.

Staff recommends approval of the wording amendment text modifying the (non-CBD) Level II review process as the amendment would revise and clarify the review process and is consistent with the Comprehensive Plan and other adopted plans.

Mayor Manheimer opened the public hearing at 6:23 p.m.

Ms. Kim Roney thanked Council for just not focusing on the downtown area.

Mayor Manheimer closed the public hearing at 6:24 p.m.

Mayor Manheimer said that members of Council have previously received a copy of the ordinance and it would not be read.

Vice-Mayor Wisler moved to approve the proposed wording amendments to UDO Section 7-5-9 which modifies the non-CBD Level II review process, and find that the request is reasonable, is in the public interest, and is consistent with the Comprehensive Plan and other adopted plans in the following ways: (1) Makes the development review process clear and predictable; and, (2) Provides a reasonable and effective public participation and notification. This motion was seconded by Councilman Bothwell and carried unanimously.

ORDINANCE BOOK NO. 31 – PAGE 137

V. UNFINISHED BUSINESS:

A. ORDINANCE NO. 4562 - BUDGET AMENDMENT TO BUDGET CAPITAL PROJECTS DEPARTMENT OPERATING COSTS FOR THE REMAINDER OF FISCAL YEAR 2016-17 AND $74 MILLION IN CAPITAL PROJECTS APPROVED AS PART OF THE NOVEMBER 2016 GENERAL OBLIGATION BOND REFERENDUM

Interim Capital Projects Director Jade Dundas said that this is the consideration of a: 1) a budget amendment in the General Fund from unassigned fund balance in the amount of $197,175 to support the staffing and administration of the new Capital Project Department for the remainder of the 2017 budget year and 2) a budget amendment in the General Capital Projects Fund in the amount of $74,000,000 to budget capital improvements approved as part of the November 2016 General Obligation Bond Referendum and funded with future debt proceeds.

On November 8, 2016, the citizens of Asheville voted to authorize the City to issue $74,000,000 in bonds to make capital improvements in the areas of transportation, affordable housing, and parks and recreation. These bonds allow seven years for the completion of key projects which are widely distributed throughout the City. These projects will be built in addition to the City existing capital list which include Innovation Districts and the suite of projects in the River Arts District which is funded through a time sensitive Federal grant.

In order to complete these projects a new department that will focus on capital program development has been proposed. The new department will consist of project teams that concentrate on specific categories of projects. This method of project completion will allow staff to specialize in one field of program management. Through this concentrated effort, staff will develop a particular project skillset which will lead to projects being constructed with greater efficiency.

The budget amendments presented by this staff report will support the staffing and administration of the new department during the remainder of the 2017 budget year. The adjustment to the operating budget includes staff salary and benefits. Staffing will initially include the department director, three program managers, and the business services supervisor. Other positions will be hired during the 2017 budget year but the expenses of these positions will be small and likely offset by salary savings within the general fund budget. Other small incidental operating expenses are also suggested in this amendment which will fund equipment and software.

Council is also being asked to make a capital budget amendment in the amount of $74 million dollars. Projects will be funded using available cash reserves and bonds will not be issued until individual projects are completed. The suggestion to adopt the full bond amount immediately eliminates the need to consider annual adoption of the incremental amendments. Since the entire funding amount will be spent over the life of the program it is acceptable and advised to amend the capital budget for the full amount of $74,000,000.

Pros:

- Making these budget amendments will ensure that funding is available to complete bond and grant funded projects on time and cost effectively.
- Adopting a capital budget amendment in the full bond amount of $74,000,000 facilitate the full financing of all bond projects without the need for annual budget amendments.

Con:

- These budget amendments will place and additional financial burden on the general fund budget but without this reorganization, the City will have a difficult time constructing the projects and meeting the funding source requirements.

Creation of a Capital Projects Department has an impact on the City's general fund department by adding costs which would not be necessary if the bonds funding had not been approved. The approval of bond and grant funding do however have scheduling requirements which require that projects be completed within a certain timeframe. The consequence of not meeting these timeframes can be a forfeiture and/or repayment of funds.

It is important that the City be committed to providing adequate time and attention to the completion of capital projects. Authorizing the budget amendments suggested in this staff report

will help to insure that the City meets the obligations of the various project funding sources. The suggestion to adopt the full bond amount immediately, eliminates the need to consider annual adoption of the incremental amendments. Since the entire funding amount will be spent over the life of the program it is acceptable and advisec to amend the capital budget for the full amount.

Staff recommends City Council adopt a: 1) a budget amendment in the General Fund from unassigned fund balance in the amount o: $197,175 to support the staffing and administration of the new Capital Project Depa tment for the remainder of the 2017 budget year and 2) a budget amendment in the General Capital Projects Fund in the amount of $74,000,000 to budget capital improvements approved as part of the November 2016 General Obligation Bond Referendum and funded with future debt proceeds.

Mr. Dundas responded to Vice-Mayor Wisler when she asked the process for transparency and communication amongst the citizens and Council.

In response to Vice-Mayor Wisler, Director of Finance Barbara Whitehorn said that the $197,175 should not have any material effect on Fund Balance.

When Mayor Manheimer asked for public comments, none were received.

Mayor Manheimer said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Bothwell moved for the adoption of Ordinance No. 4562. This motion was seconded by Councilman Young and carried unanimously.

ORDINANCE BOOK NO. 31 - FAGE 140

B. CONFIRMATION OF ASHEVILLE CITY BOARD OF EDUCATION INTERVIEWEES

Vice-Mayor Wisler said that the terms of Peggy Dalman, Leah Ferguson and Matt Buys, as Asheville City Board of Education members, expire on April 1, 2017.

The following individuals have applied for a vacancy on the Asheville City Board of Education and completed the necessary essay questions to be qualified for consideration for appointment: Pepi Acebo, Margaret Hutchison Allan, Joyce Brown, Margaret Ervin Bruder, Steve Cochran, Brian John Dockery, Patricia Griffin, Lockie Hunter, Yvette Jives, John Michael Kledis, Julie Koenke, James Lee, Mary Ellen Lewis, Dewana Little, Joe Lordi, Morgan Marshall-Clark, Mary McDermott, Sallie Porter, Amy Ray, Adam Reagan, Drew Shelfer, Kathleen Slowiczek, Phyllis Utley, J. Vann Vogel, Elizabeth Ward, Mary Ann Warren, Melissa Weiderman and Larry Wilson.

After reviewing all applications and essay questions, and after speaking highly of all the strong candidate who applied, Yvette Jives received 6 votes; James Lee received 6 votes; Amy Ray received 6 votes; Joyce Brown received 5 votes; Patrician Griffin received 3 votes; Mary Ellen Lewis received 3 votes; Steve Cochran received 2 votes; Pepi Acebo received 1 vote; Margaret Bruder received 1 vote; Phyllis Utley received 1 vote; and Larry Wilson received 1 vote.

Therefore, it was the consensus of Council to interview the top six candidates: Yvette Jives, James Lee, Amy Ray, Joyce Brown, Patricia Griffin and Mary Ellen Lewis. Those interviews will be held in the afternoon of February 28, 2017, with appointments being made later that evening in the formal session. All appointments will be effective April 1, 2017.

C. RESOLUTION NO. 17-41 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO AN AGREEMENT WITH PINNACLE

LANDSCAPES, LLC FOR THE PRITCHARD PARK IMPROVEMENTS

ORDINANCE NO. 4563 - BUDGET AMENDMENT FOR THE PRITCHARD PARK IMPROVEMENTS

Director of Parks and Recreation Roderick Simmons said that this is consideration of: (1) a resolution authorizing the City Manager to enter into a contract with Pinnacle Landscapes, LLC to implement landscape improvements at Pritchard Park in downtown Asheville in the amount of $194,349.00 plus a contingency of $38,000.00 for a total of $232,349.00; and (2) a budget amendment in the amount of $232,349.00 from the Parks and Recreation Department General Fund park maintenance budget to establish a capital project in the General Capital Projects Fund.

The landscape of Pritchard Park has gradually declined over the last 15 years since it was initially constructed. There are a number of factors contributing to the need for such improvements including but not limited to the following:

- Maximize the sense of place for visitors to the park through attractive landscape plantings, additional ornamental boulders for seating, stone pavers, decorative tiles for the columns and a new drinking fountain and benches;
- Optimize the conditions through which existing trees and landscape beds can thrive by spading the compacted soils, providing master arborist care for all of the existing trees, installation of an irrigation system and an ornamental fence to protect the landscape;
- Complete modest repairs to the existing park concrete sidewalks and brick walls; and
- Enhance the experience of the park by adding lighting and park regulation signage along with a landscape that enhances visibility as recommended by the Crime Prevention Through Environmental Design (CPTED) report by the Asheville Police Department dated September 9, 2014.

While portions of the park will remain open to the public during construction, periodic closures of some areas of the park will be necessary. Staff will work with contractors and stakeholders including event organizers to maximize access to the area and notification of impacts.

Since Pritchard Park is a highly utilized park and an integral part of downtown Asheville's vibrancy, communication efforts regarding the planned improvements have been diverse. Information regarding the scope of the project and potential impacts on park use was shared with key stakeholders to include City Council's Downtown Commission, Tree Commission, Parks & Recreation Board, Asheville Downtown Association, Downtown Asheville Residential Neighbors (DARN). Information has also been shared through the City's news site and social media with regular updates scheduled through the completion of the project.

During City Council consideration of this item during its December 13, 2016, regular meeting, City Council requested that staff reach out to additional stakeholders regarding the improvements proposed for Pritchard Park. In furtherance of that request, staff engaged in the following outreach:

- Sponsored an open house on January 12th at the board room of the Asheville Housing Authority. The open house was communicated to a number of community groups as well as publicized through a media release, with a flyer at Pritchard Park, the city blog and social media postings. The two hour forum enabled staff, the consultant and architect to informally discuss the proposed improvements. Information was shared, questions were answered, and feedback was garnered through discussion and comment cards.
    - Feedback yielded the following themes:
        - Creating a setting where all people feel welcome
        - Concerns about extensiveness of fencing

    - Suggestions to design the park to accommodate use by people in all areas through the following (i.e. additional hardscaping, grass, Astroturf).
    - Suggestions for additional amenities:
        - Public restrooms
        - Family and kid-friendly amenities
        - Dog amenities
        - Emergency phone
    - Support for the project as proposed
- Worked with the Homeless Initiative Advisory Committee at its January 24th meeting to discuss the proposal; the Committee offered the following feedback (in order of importance):
    - Preserve downtown green space
    - Do what's best for all people, consider homeless with all people; all have equal right to use space
    - Continue to listen to the voices of homeless people
    - Move forward with safety needs (i.e. lights)
    - Investigate "hangout spots" for homeless people; find a different way to save the trees; get broad public feedback
    - Fence only outside areas to prevent jaywalking
- Met with each member of the City Council to review and discuss the elements of the project and received feedback; and
- Attended a meeting of DARN at Pritchard Park regarding the improvements on February

Based on the feedback received to date, the original bid is presented to City Council for review and consideration. The project – as bid – can move forward to meet the needs and feedback received by ensuring that fencing is of the height and location in areas to encourage pedestrians to cross at marked crosswalks and to protect the large tree (to the dripline) from root damage. While some modifications can be made, the project may need to be re-bid if the scope of the project changes significantly.

Mr. Simmons reviewed the original design and said the main concern was about the height and placement of the fence - narrowing down the usable areas in the Park. Basically there was no Council concern with lighting, signage, landscaping and irrigation. In order not to lose the trees, he showed pictures of cables holding the trees together in order to keep them from splitting. That was the reason for the fencing around the tree. The fencing was designed to be outside the drip line and not have any impact on the root system. In terms of the fence height, 40" is best practices. Anything below 30" will not deter foot traffic. We recommend proceeding with the 40" fence height. After receiving feedback, he showed a revised design where staff and the consultant tried not to eliminate public space. Their overall goal to protect the big tree and keep the fencing within the drip line; and install fencing on Patton Avenue to force pedestrians to the crosswalks. In order to address losing programmable space within the park, they looked at portion of the Park on Haywood Street. They recommend not fencing the area but mulching it with the addition of sitting boulders.

In support of this capital improvement project, the City issued an Advertisement for Bids for construction of the renovations and received two bids plus alternates. One bid was deemed non-responsive.

After thorough review and evaluation, Pinnacle Landscapes, LLC, Asheville, NC, was selected as the lowest, responsible bidder. The base bid plus alternates accepted was $194,349.00.

The Parks and Recreation Department's Adopted FY 2016-17 General Fund included $650,000 for maintenance projects. Funding for the Pritchard Park improvements will come from that budget. Due to the size of the project, the Finance Department is recommending that a separate project be established in the City's General Capital Project Fund. The budget

amendment will establish this project by moving budget from the General Fund to the General Capital Projects Fund. This includes $232,349.00 to be applied for the cost of the Pritchard Park Improvements for a total base bid with alternates of $194,349.00 plus a contingency of $38,000.00.

Pros:

- Maximizes the place making qualities in a prominent park located within an urban downtown setting
- Enhances the conditions and provides protection for the health of the existing landscape beds and trees
- Improves security in this urban park via lighting and appropriate plantings

Cons:

- While portions of the park will remain open to the public during the construction of the park, it will be necessary to close some areas of the park periodically
- There will be a modest increase in maintenance relative to the existing conditions which is currently being contracted annually with a landscape contractor.

The $194,349.00 plus a contingency of $38,000.00 to support Pinnacle Landscapes, LLC contract for the Pritchard Park Improvements is budgeted in the Parks and Recreation Department operating budget as part of the maintenance budget. Due to the nature and size of the project, Finance staff recommends the project be budgeted in the General Capital Projects Fund rather than the General Fund. A budget amendment is required to create a budget in the General Capital Projects Fund.

Staff recommends that the City Council adopt: 1) a resolution authorizing the City Manager to enter into a contract with Pinnacle Landscapes, LLC to implement landscape improvements at Pritchard Park in downtown Asheville in the amount of $194,349.00 plus a contingency of $38,000.00 for a total of $232,349.00; and 2) a budget amendment in the amount of $232,349.00 from the Parks and Recreation Department General Fund park maintenance budget to establish a capital project in the General Capital Projects Fund.

When Councilman Smith asked what will happen if we don't fence the tree, Mr. Simmons said that he didn't know how many more years the tree would live. The pedestrian traffic on the root system is taking a toll on the tree and we want to take an early approach to preserve it as long as we can.

Councilman Bothwell said that other parks protect their trees by constructing wooden platforms to keep off the roots opposed to installing a fence around the tree. He felt for the last 15 years we haven't done anything in the way of loosing the soil and adding mulch. He was concerned that the Drum Circle people have not been consulted on this design and that is our biggest one use that we have in the Park.

In response to Councilman Bothwell, Mr. Roderick said that staff briefly reviewed the wooden platform idea but there has not been any engineering to determine how that would work in this particular instance. That is possible, but staff would need more time to make an informed decision. If Council decides to proceed with the wooden platform around the tree, we would need to re-bid the project.

The following individuals spoke in support of the revised design for improvements to Pritchard Park:

Ms. Susan Robbins, current Chair of the Downtown Asheville Residential Neighbors (DARN) Steering Committee
Mr. Timothy Sadler (suggested incorporation of artistic effort on the wall)
Rev. Christopher Chiaronmonte

Mr. Byron Greiner, member of the Asheville Downtown Association

Mr. Larry Holt, downtown resident and member of DARN and Asheville Downtown Association, supported the original plan.

Councilman Bothwell supported the revised plan; however, felt the better way to protect the tree roots would be by installing some sort of wooden deck platform. He would also like the Drum Circle to have input on the plans and preferred the the entire park plans be reconsidered.

Mayor Manheimer said that members of Council have been previously furnished with copies of the resolution and ordinance and they would not be read.

Councilman Smith moved for the adoption of Resolution No. 17-41 with the revised design. This motion was seconded by Vice-Mayor Wisler and carried on a 4-3 vote with Councilman Bothwell, Councilman Haynes and Councilman Young voting "no".

Councilman Smith moved for the adoption of Ordinance No. 4563. This motion was seconded by Vice-Mayor Wisler and carried on a 4-3 vote with Councilman Bothwell, Councilman Haynes and Councilman Young voting "no".

RESOLUTION BOOK NO. 38 - PAGE 353
ORDINANCE BOOK NO. 31 - PAGE 143

VI. NEW BUSINESS:

Regarding the Homeless Initiative Advisory Committee, the following individuals applied for the homeless/formerly homeless vacancy: Joey Grisanti, Angela Dubs and Randy Stoudt. It was the consensus of Council to wait until the Homeless Initiative Advisory Committee submits a recommendation.

A. RESOLUTION NO. 17-28 - RESOLUTION APPOINT A MEMBER TO THE BOARD OF ELECTRICAL EXAMINERS

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that Mr. Gus Sims (filling the seat as a licensed engineer) has resigned as a member of the Board of Electrical Examiners, thus leaving an unexpired term until July 1, 2018.

The following individual applied for the vacancy of a licensed engineer: Russell Thacher.

It was the consensus of the Committee to appoint Russell Thacher.

Vice-Mayor Wisler moved to appoint Russell Thacher (licensed engineer) to serve the unexpired term of Mr. Sims, term to expire July 1, 2018, or until his successor has been appointed. This motion was seconded by Councilman Bothwell and carried unanimously.

RESOLUTION BOOK NO. 38 - PAGE 325

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

Rev. Christopher Chiaronmonte spoke about the need to truly forgive each other.

Mr. John Brigham presented several questions regarding the Asheville City Schools System, noting that we need to figure out how to educate our people.

Mr. Timothy Sadler supported the Police Chief's request for additional operating funds if we can look at some very innovative approaches to how we address laws, most notably whether they are criminal justice issues or public health issues.

Mr. Joe Connolly made a suggestion regarding the hearing system in the Council Chamber.

Closed Session

At 7:14 p.m., Councilman Young moved to go into closed session for the following reasons: (1) to prevent disclosure of information that is privileged and confidential, pursuant to the laws of North Carolina, or not considered a public record within the meaning of Chapter 132 of the General Statutes. The law that makes the information privileged and confidential is N.C.G.S. 143-318.10(A)(3). The statutory authorization is contained in N.C.G.S. 143-318.11(a)(1); and (2) To consult with an attorney employed by the City about matters with respect to which the attorney-client privilege between the City and its attorney must be preserved. The statutory authorization is N.C. Gen. Stat. sec. 143-318.11(a)(3). This motion was seconded by. Councilman Bothwell and carried unanimously.

At 7:35 p.m., Councilman Bothwell moved to recessed the closed motion to return to the formal meeting, noting that the closed session would continue at the end of the formal meeting. This motion was seconded by Councilwoman Mayfield and carried unanimously.

VIII. ADJOURNMENT:

Mayor Manheimer adjourned the meeting at 7:35 p.m.

Magdalen Bourleon
CITY CLERK

Esther E. Manheimer
MAYOR

192 HAYWOOD STREET
DENIAL OF CONDITIONAL USE PERMIT

CITY OF ASHEVILLE CITY COUNCIL

FINDINGS OF FACT AND CONCLUSIONS OF LAW

This application for a conditional use permit ("CUP") for a hotel in the Central Business District ("CBD") came before the Asheville City Council (the "Council") on January 24, 2017 for a quasi-judicial hearing. Based on the testimony of the witnesses, the documentary evidence, the CUP Application and related materials, the exhibits and other evidence presented at the January 24, 2017 hearing, the Council finds that the CUP should be denied, and in support thereof, makes the following Findings of Fact and Conclusions of Law:

FINDINGS OF FACT

1. Section 7-16-2(c) of the City of Asheville Unified Development Ordinance (the "UDO") provides as follows:

> "*Conditional use standards.* The Asheville City Council shall not approve the conditional use application and site plan unless and until it makes the following findings, based on the evidence and testimony received at the public hearing or otherwise appearing in the record of the case:
>
> (1) That the proposed use or development of the land will not materially endanger the public health or safety;
>
> (2) That the proposed use or development of the land is reasonably compatible with significant natural and topographic features on the site and within the immediate vicinity of the site given the proposed site design and any mitigation techniques or measures proposed by the applicant;

(3) That the proposed use or development of the land will not substantially injure the value of adjoining or abutting property;

(4) That the proposed use or development of the land will be in harmony with the scale, bulk, coverage, density, and character of the area or neighborhood in which it is located;

(5) That the proposed use or development of the land will generally conform with the comprehensive plan, smart growth policies, sustainable economic development strategic plan, and other official plans adopted by the city;

(6) That the proposed use is appropriately located with respect to transportation facilities, water supply, fire and police protection, waste disposal, and similar facilities; and

(7) That the proposed use will not cause undue traffic congestion or create a traffic hazard."

(hereinafter referenced as the "CUP Standards").

2. The property at issue (PIN 9649-20-1616) (the "Property") is located at 192 Haywood Street in downtown Asheville and consists of a 2.05 acre parcel of land. The Property is located in the Central Business District (the "CBD") and is located outside of the Traditional Downtown Core.

3. The Property Owner and CUP Applicant is PHG Asheville, LLC (the "Applicant").

4. The CUP Application requests an eight-story, 178,412 square foot hotel, with 185 rooms and an on-site parking structure (the "Hotel"). The Hotel includes 1,300 square feet of patio space located on the first floor, as well as 5,000 square feet of outdoor terrace space located on the top floor, and 5,000 square feet of meeting space.

5. Pursuant to the UDO, the Hotel must be reviewed as a Level III Site Plan, which requires a CUP from the Council.

6. The Property has frontage along three streets: Haywood Street, Carter Street and North French Broad Avenue.

7. The uses of property adjacent to the proposed Hotel are: 1) a church (First Church of Scientist); 2) an apartment building (the Carolina Apartments); 3) an office building (Asheville Broad Center); and 4) the Salvation Army.

8. The Property's primary frontage is along Haywood Street, which borders the Property's entire northern property line. The Property also has frontage along Carter Street, which borders the Property's entire western property line, and North French Broad Avenue, which is the only key pedestrian street which borders the Property. The Hotel is oriented towards Haywood Street.

9. Pursuant to the UDO, the height of the Hotel is measured from the primary pedestrian entrance, which is located along Haywood Street. At that location, the height of the building, from the floor to the top story, is 75 feet. The building also has a parapet and the height of the building measured to the top of the parapet is 89 feet.

10. The Hotel is significantly taller and has a greater bulk and scale than the adjacent church, apartment building, office building and the Salvation Army.

11. Ninety percent of the existing improvements in the area are one and two story structures and approximately 72 percent of those structures are less than 10,000 square feet. The Hotel would constitute the third hotel within a several block radius (approximately ¼ mile). The addition of this third hotel would change the visual character of the area, and would create a cluster of hotels in the immediate vicinity, where there were previously smaller buildings and more diverse uses.

12. The Hotel as proposed did not comply with the requirements of the UDO. Specifically, the building was required to: 1) be constructed along 80% of the frontage line of the lot along North French Broad Avenue, the key pedestrian street ("lot frontage"); and 2) have a one story building height at the streetwall

("streetwall"). See UDO Section 7-8-18. The Applicant asserted that it was unable to meet these requirements because the requirements would create an "unnecessary hardship" and was, thus, granted variances by the Asheville Planning and Zoning Commission (the "P&Z").

13. While the P&Z found that the lot frontage and streetwall variances met the variance requirements under UDO Section 7-6-1 (including unnecessary hardship), "harmony" with the scale, bulk, coverage and character of the neighborhood, are not requirements for a variance in Section 7-6-1. See UDO Section 7-16-2(c)(4).

14. Therefore, whether the Hotel was in "harmony" with the scale, bulk, coverage and character of the neighborhood was not a standard that the P&Z was required to find in order to grant the frontage and streetwall variances, but this is a part of the Council's decision on the CUP. See UDO Section 7-16-2(c)(4). There was no evidence that any other buildings in the neighborhood, including the other hotels in the area, were allowed the same or similar variances, and these building modifications preclude the Hotel from being in harmony with the area as required by CUP Standard 4.

15. The Hotel would have a basement in the lower portion of the building along Carter Street. The Applicant proposed to locate a loading area in this basement and to provide access to the loading area via a driveway from Carter Street (the "Carter Street Driveway").

16. There is a significant amount of pedestrian traffic in the area near and around the Carter Street Driveway.

17. The Carter Street Driveway is 28 feet wide, which is wider than the 24 foot driveway width allowed by City Standards. The Applicant obtained a modification from the City's Transportation Department Director to allow for the wider driveway. The Transportation Department Director's written decision to allow the modification, however, does not address the impact of the wider driveway on the public health and safety and there was no evidence presented that would indicate the wider driveway would provide the same level of protection to

the public, particularly pedestrians, as a driveway which would comply with City requirements.

18. An appraiser, Tommy Crozier, testified on behalf of the Applicant and presented an "Expert Report," which purported to show that CUP Standard 3 was met, i.e., that the development of the Hotel would "not substantially injure the value of adjoining or abutting property." However, Mr. Crozier's testimony and the Expert Report do not contain facts and data sufficient to prove that there would not be a substantial adverse impact on such values following construction of the Hotel.

19. Mr. Crozier's testimony and the Expert Report state generally, and the Council accepts as fact, that the values of property in this area of Asheville (northwest downtown) have been increasing in recent years, and that recent sales prices exceed the assessed tax values of properties in the area. There was, however, no evidence to establish the date of the tax appraisals or evidence that would indicate how these tax values would have any relevance to CUP Standard 3. There was no evidence, through facts and data, to indicate how the Hotel would affect or impact such an increase in value (assuming such an increase would continue) on the adjacent and adjoining properties.

20. There was no sales data presented and there are no comparable sales in the Expert Report, which provide information about the sale prices of properties adjacent to hotels in Asheville, or elsewhere, before and after a hotel was constructed on the tract in question. In fact, there was no data through, e.g., comparable sales, that could show the before and after value of properties adjacent to any hotels in the City, even though the Expert Report indicates there have been multiple hotels constructed in the City in recent years, and at least two in the immediate area.

21. That property values are increasing in the area generally over time does not establish the impact of this Hotel on the adjoining and adjacent tracts, nor whether the value of those particular tracts would suffer an adverse impact if the Hotel is constructed.

22. There was no data or comparable sales to substantiate Mr. Crozier's claim that the Hotel Indigo was in part, the reason for the recent increase in property values in this area of downtown Asheville, or to show such increases were higher or lower than in other parts of the City during the same time period.

23. There was no evidence or data that could show the impact on the value of adjacent properties, when the proposed Hotel would be the third hotel in a several block radius. It appears that additional hotels could increase the value of other nearby hotels, but no facts or data were provided that could establish that property with other uses would not be substantially diminished.

24. The Expert Report also contains the following statements, which brings the reliability of the Expert Report into question:

a. "The information contained in the Report or upon which the Report is based has been gathered from sources the Appraiser assumes to be reliable and accurate. The owner of the Property may have provided some of such information. Neither the Appraiser nor C&W [Cushman & Wakefield] shall be responsible for the accuracy or completeness of such information, including the correctness of estimates, opinions, dimensions, sketches, exhibits and factual matters. . . . ."

b. "This report assumes that the subject will secure an affiliation with Embassy Suites or a similar chain. If the subject does not maintain a similar affiliation, it could have a negative impact on the subject's market value."

c. "Our financial analyses are based on estimates and assumptions which were developed in connection with this appraisal engagement. It is, however, inevitable that some assumptions will not materialize and that unanticipated events may occur which will cause actual achieved operating results to differ from the financial analyses contained in the report, and these difference may be material. It should be further noted that we are not responsible for the effectiveness of future management and marketing efforts upon which the projected results contained in this report may depend."

25. The CUP application does not request that the Hotel be only an Embassy Suites hotel or a "similar chain."

26. The methodologies employed, and data provided, by the Applicant's witness, Mr. Crozier, were inadequate to allow Council to find that the Hotel would not substantially injure the value of adjoining properties.

27. There is significant traffic in downtown Asheville near and around the Property in September and October, and in the summer months. The vehicular traffic in the area will increase if the Hotel is constructed.

28. The Applicant presented the testimony of a traffic engineer, Kevin Dean, as well as Mr. Dean's written "Traffic Assessment." The Traffic Assessment did not provide any facts or data which could show the level of traffic or traffic counts for any time of the year, except during a four hour period during the day on November 10, 2016, which was a Thursday. The level of traffic in this area is much higher at other times of the year, particularly the summer months; however, there were no traffic counts or any traffic data provided for any date other than November 10.

29. Mr. Dean was not aware of the environmental conditions on November 10, 2016, or whether such conditions could have affected traffic volumes on that date.

30. The Applicant's traffic counts were done on November 10, 2016 between the hours of 7 a.m. and 9 a.m., and between the hours of 4 p.m. and 6 p.m. Under industry standards, this is apparently "assumed" to be the time of highest traffic on nearby streets, but there was no evidence which could establish this would be the case for this area of Asheville.

31. The number of trips generated from the Hotel in the Traffic Assessment was also derived from an industry standard, and not the actual trips expected from this Hotel at this location. Hotels in downtown Asheville have an occupancy rate in excess of 85%, but the general rate for an efficient market is 65%. The Traffic Assessment did not take this expected higher occupancy of the Asheville market into account.

32. The Applicant did not submit any traffic data for Friday through Sunday, even though those are typically the days that tourists visit the City and traffic volumes are higher.

33. The estimated traffic counts used for the Traffic Assessment and Mr. Dean's opinion, were also these on a "typical weekday." There was no weekend data collected, even though this is the time that most tourists visit the Asheville downtown.

34. Without accurate traffic counts for any days other than Thursday November 10, there is no data or evidence to determine whether the additional trips generated by the Hotel (as well those from the other tourists which the Hotel will attract but who do not stay at the hotel) would not decrease the existing level of service to an unacceptable level. The Level of Service Summary in the Traffic Assessment was not based on complete information or data.

35. There was no data or evidence presented that could show what the level of traffic would be with three hotels (Indigo, Hyatt and Embassy Suites) located within a several block area for Friday, Saturday and Sunday during the summer months or other high traffic periods.

36. The Traffic Assessment did not account for traffic that will be generated by future hotels and apartments in the downtown area that are planned and approved, but which are not yet fully constructed and operational.

37. The proposed Hotel includes a twenty-foot wide driveway, which provides street access to and from the parking structure and North French Broad Avenue.

38. There is a blind hill with limited visibility in the vicinity of the Hotel's parking deck's entrance and exit onto North French Broad Avenue. To determine whether the addition of that entrance/exit would cause a safety issue would require a "sight distance check." A sight distance check was not a part of the Traffic Assessment and no other evidence was presented to show the parking deck entrance or exit would not endanger driver or pedestrian safety. The Traffic

Assessment did no analysis relating to traffic safety as it relates to vehicles entering and exiting this driveway.

39. The Hotel will have 5,000 square feet of meeting space, which would potentially attract visitors to the Hotel, other than guests staying at the Hotel. This meeting space use was not included in the Traffic Assessment nor included in the traffic analysis.

40. The Hotel would bring more than 50,000 new visitors to the City each year. Not all of these new visitors would be patrons of the Hotel, but would frequent downtown businesses and, therefore, add to the already dense downtown area. The Traffic Assessment did not account for any traffic caused by additional visitors, other than an estimate of trips by Hotel patrons and employees.

41. The Hotel parking deck would have 200 vehicular parking spaces. The Hotel contains 185 rooms and will have 75 employees. There are insufficient spaces in the proposed Hotel parking deck to accommodate this number of guests and employees, even if they all do not drive automobiles to the Hotel.

42. There is currently a shortage of public parking in downtown Asheville and there are often insufficient parking spaces to meet the demand. The development of the Hotel would exacerbate the parking shortages in the area, because of the limited number of parking spaces planned in the parking deck and the Applicant's failure to provide sufficient parking to accommodate all of its guests and employees.

43. The City's 2036 Vision Plan includes the following goal:

> **"A WELL-PLANNED AND LIVABLE COMMUNITY**
>
> Asheville promotes community through thoughtful, resident-led planning that results in pedestrian oriented development for all ages and abilities, harmonized with an integrated transportation system. Asheville's unique character is reflected in our land use, preserved in our historic structures, and honored when incorporated in new development. Thoroughfares are lined with thriving businesses

mixed with residential and office uses, and neighborhoods are socioeconomically diverse with a range of affordable housing choices. Open spaces, parks, greenways, community gardens, and edible landscapes are abundant throughout the city."

44. The addition of a third large hotel within a quarter mile radius creates a cluster of hotel uses in this neighborhood, and adds 185 more lodging rooms to the hundreds of hotel rooms which already exist on essentially the same block. As a result, the Hotel would not enhance, and in fact would adversely impact the neighborhood's mix of uses and socioeconomic diversity.

CONCLUSIONS OF LAW

Pursuant to the foregoing FINDINGS OF FACT and UDO Section 7-16-2(c), the Council makes the following Conclusions of Law:

1. The Applicant bears the burden of proving to the City Council, by competent, material and substantial evidence, that the proposed Hotel meets the seven CUP standards in the UDO. If the Applicant fails to meet its burden of producing competent, material and substantial evidence as to any one of the CUP Standards, the CUP must be denied.

2. In this case, the City Council finds that the CUP should be denied, for the following reasons, pursuant to UDO Section 7-16-2(c):

(1) The Applicant failed to produce competent, material and substantial evidence that the Hotel will not materially endanger the public health or safety;

(2) The Applicant failed to produce competent, material and substantial evidence that the Hotel is reasonably compatible with significant natural and topographic features of the site and within the immediate vicinity of the site given the proposed site design and any mitigation techniques or measures proposed by the applicant;

(3) The Applicant failed to produce competent, material and substantial evidence that the Hotel will not substantially injure the value of the adjoining or abutting property;

(4) The Applicant failed to produce competent, material and substantial evidence that the Hotel will be in harmony with the scale, bulk, coverage, density, and character of the area or neighborhood in which it is located and, moreover, the evidence instead showed the Hotel would not be in harmony with the scale, bulk, coverage and character of the area and neighborhood;

(5) The Applicant failed to produce competent, material and substantial evidence that the Hotel will generally conform to the comprehensive plan, smart growth policies, sustainable economic development strategic plan and other official plans adopted by the City and, moreover, the evidence instead showed the Hotel would not generally conform to the City's 2036 Vision Plan; and

(7) The Applicant failed to produce competent, material and substantial evidence that the Hotel will not cause undue traffic congestion or create a traffic hazard.

ACCORDINGLY, based on the foregoing FINDINGS OF FACT and CONCLUSIONS OF LAW, the Applicant's request for a CUP for the Hotel is denied.

This the 14th day of February, 2017.

Esther Manheimer
Mayor

Friday – February 17 - 9:00 a.m.
UNC-Asheville - Overlook Hall

Retreat

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Cecil Bothwell; Councilman Brian D. Haynes; Councilwoman Julie V. Mayfield; Councilman Gordon D. Smith; Councilman W. Keith Young; City Manager Gary W. Jackson; City Attorney Robin T. Currin; and City Clerk Magdalen Burleson

Absent: None

Mayor Manheimer welcomed everyone to the City Council Annual Retreat.

Mayor Manheimer then convened the retreat and introduced Ms. A. Tyler St. Clair, who would be facilitating the retreat. Ms. St. Clair said the purpose of the retreat is to assist City Council in reaffirming its vision and priorities and to develop roles and operating guidelines that maximize its success as an elected body.

Ms. St. Clair reviewed the roles of Council members and the facilitator.

Council had a brief climate setting which included their family of origin, a person from their early life that had the most impact on who they are today, an event from their early life that had the most impact on who they are today, what they liked to do in their spare time, and one way they would like to contribute leadership to Council.

Ms. St. Clair reviewed the Local Elected Leadership model which is a model that can assist Council in providing effective governance for the City.

She shared the characteristics of an effective vision that Council used last year to craft their 2036 Vision - vivid, unique, challenging, clarity, focused and shared. Last year, Council thought about what they wanted to keep and what they wanted to change. Then they sorted them into vision themes with a list of priorities which turned into goals and individual action plans.

Council reviewed and reaffirmed their Vision statement to provide intent and inspiration for the role and direction of City Council. They then identified many successes in moving toward the Council's vision over the past year, some being, but are not limited to: revision of the use of force policy; overwhelming support for the bond program; moving ahead on planning for Comprehensive Plan; working on form-based code; 29 neighborhoods did the Plan on a Page; moving ahead on hiring an Equity Inclusion Manager; new investments in transit; regarding zoning, created new and improved opportunities for people to weigh in on development - first in subdivisions, then for downtown; Energy Innovation Task Force was created and is moving forward solidly in partnership with the County, Duke Energy and other stakeholders; won the water lawsuit; big jump in funding for affordable housing due to approval of bonds; made first agreement to transition City-owned land to affordable housing with private partner; unanimously created many task forces to addresses difficult issues; used Land Use Incentive Grant to advance affordable housing; created our partnership with NCDOT to improve the I-26 Connector; improved communications with the community, including new website; becoming more of an open data city; implemented Ban the Box; started asking about renter/homeownership on board & commission applications to make sure we were getting diversity; started construction of River Arts District Transportation Improvement Project; co-funded the African American Heritage Commission's visioning process for deciding how to honor contributions of the African American community; funded a disparity study; secured funding for other multi-modal improvements (outside of bonds/other sources), including $4 Million for Craven Street bridge; adopted new 5-Year plan on homelessness, aimed at ending veteran homelessness by the end of this year as its highest priority; retained Southern Conference Basketball; unanimously passed resolutions on several social/civil rights issues; committed funding for the reconstruction of Lee Walker Heights;

have done a lot of technology - parking technology, the Asheville App, Open City Hall, SimpliCity; partnership with Arboretum on Holiday Downtown Lighting Display; open streets and walkable Wall Street; busking regulations that everyone loves is pleased with; 3% growth in private investment; more businesses in Asheville (predominantly in the City's Innovation District, and especially in the South Slope, Downtown, River where infrastructure is targeted; managing the substation placement process to minimize impacts on neighborhoods and have adequate power for the downtown area; partnerships with Buncombe County and others (African American Heritage Commission, Equity, Family Justice Center, Energy Innovation Task Force, second phase of composting study, and potential for affordable housing and transit, etc.); advanced greenways; Transit Department worked with N.C. Dept. of Transportation on analyzing pedestrian safety issues; provided funding to Festival of Neighborhoods; approved improvements to Pritchard Park; still working on major projects/major works partnership with TDA, including $20 Million proposal for Central Business District and South Slope improvements; In Real Life Program now has a permanent line item; and participated in planning and co-funded universal access to Pre-K.

After reviewing the successes over the past year, Council and management staff each listed out their observations of those accomplishments.

Council reviewed the three-year primary goals to assess the status and reaffirm intent. They identified them as completed, continue or eliminate and agreed not to add new priorities.

Ms. St. Clair then assisted City Council in clarifying roles and establishing operating guidelines that will maximize its success as an elected body. Council broke out into two groups to discuss two areas each - Council decision-making effectiveness; Council's ability to facilitate staff productivity/use resources effectively; Council cohesive/Ability to work together; and Council ability to us boards/commissions/committees effectively. The following were the draft results of the discussion, with Ms. St. Clair to tweak the guidelines for Council approval:

Council Cohesion/Working Together

1. Mayor's monthly meetings - mix up composition regularly
2. Use more worksessions for bigger issues
3. Upcoming agenda items at end of each agenda, discuss process, timing

Boards/Commissions/Committees/Liaisons/Task Forces

1. Maintain (neutral) interested citizenry list from boards & commission process for appointment (consideration) to Task Forces
2. Simultaneous process for review of complex issues by multiple boards & commissions; specific agenda item and timeline for each board & commission so they each see the same proposal
3. Annual assessment/review of boards & commission by Boards & Commission Committee (checking to make sure some boards/commissions are making good policy, if they are within their role, etc.)
4. Re-evaluation of the effectiveness of Council liaisons. Should we keep and if so, better define roles. Need to define liaison role and make sure the applicable board/commission members committee know of Council's liaison role.

Council decision making

1. Council will delegate to the City Manager and Mayor review all items on agenda to make sure it has gone through the appropriate committee/commission if needed.

2. Council will ask Boards & Commission Committee to identify a systematic process (template) for for gaining community input/engagement for special advisory task forces (i.e., outlining the task and timeline, what are the expectations, parameters on decision-making process; whether a Council liaison should be appointed, etc.)

3. Boards & Commissions Committee will be responsible for evaluating community engagement process and roles with special issues. Evaluate issues that don't fall into regular decision-making structure - task forces.

Staff productivity:

1. Council will send questions to City Manager and copy his assistant.

2. Council will ask for updates or status of committees and commissions issues from committee chairs or council liaisons (or other knowledgeable resources)

3. Council will indicate their expectations regarding a response (such as fyi, may be worth looking into, etc.) when they send e-mails to the City Manager.

4. Council will direct emerging issues to appropriate council committee, and if none, then refer to Governance Committee

5. Stronger leadership role by Council/liaison/commission chair & staff guidance with boards and commission committees and their scope of work

6. If one member of Council is requesting information-gathering on emerging issues that exceeds a certain amount of staff time that it should receive four nods before staff proceeds with obtaining that information.

Council instructed the City Clerk to add tentative upcoming agenda items on each agenda.

It was the consensus of Council to move forward with the next steps as outlined by Ms. St. Clair as follows: (1) Ms. St. Clair will send report to City Manager and his assistant, including the operating guidelines; (2) City Manager will share report with Council and ask for comments; (3) City Manager will then realign any changes in priorities with staff and communicate any relevant notes; (4) Strategic Operating Plan will be revised to reflect any changes and will be sent out again; (5) staff to send out via social media successes; and (5) Council to approve the operating guidelines at a future Council meeting under New Business.

Mayor Manheimer adjourned the meeting at 4:40 p.m.

Magdalen Bleiker
City Clerk

Esther E. Manheimer
Mayor

Tuesday – February 28, 2017 - 5:00 p.m.

Regular Meeting

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Cecil Bothwell; Councilman Brian D. Haynes; Councilwoman Julie V. Mayfield; Councilman Gordon D. Smith; Councilman W. Keith Young; City Manager Gary W. Jackson; City Attorney Robin T. Currin; and Deputy City Clerk Sarah Terwilliger

Absent: None

PLEDGE OF ALLEGIANCE

Mayor Manheimer led City Council in the Pledge of Allegiance.

I. PROCLAMATIONS:

A. RECOGNITION OF VOLUNTEER OF THE YEAR - STEVE MITCHELL

Mayor Manheimer, along with Ms. Elaine Poovey, Chair of the Neighborhood Advisory Committee, was pleased to present Mr. Steve Mitchell with the 2017 Volunteer of the Year Award. Mr. Mitchell has left an indelible mark on the places where he has lived and it is clear that his caring and concern for his neighbors defines his mission. The hard work and time he has devoted to Wilshire Park, Malvern Hills, and the City of Asheville as a whole has had a lasting and inspiring effect. He is an outstanding example of a neighbor and citizen.

B. PROCLAMATION PROCLAIMING MARCH 10, 2017, AS "ZELDA FITZGERALD DAY"

Mayor Manheimer read the proclamation proclaiming March 10, 2017, as "Zelda Fitzgerald" in the City of Asheville. She presented the proclamation to Mr. James MacKenzie, who briefed City Council on some activities taking place during the day.

II. CONSENT AGENDA:

Mayor Manheimer asked that a resolution denouncing threats against those of the Jewish faith be added to the Consent Agenda.

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON FEBRUARY 14, 2017; AND THE CITY COUNCIL RETREAT HELD ON FEBRUARY 17, 2017

B. MOTION ADOPTING THE 2017-18 ANNUAL OPERATING BUDGET SCHEDULE

Summary: The consideration of a motion to approve the Fiscal Year 2017/2018 Budget Schedule.

As a part of the Fiscal year 2017/2018 Operating and Capital Budgets development process, which began internally in the Fall of 2016, staff is proposing a budget schedule which encompasses the following:

- A series of Budget Worksessions with City Council beginning in March 2017,
- Formal presentation of the City Manager's Proposed Budget on May 9, 2017,
- Budget public hearing on May 23, 2017, and

- Budget adoption on June 13, 2017.

The proposed schedule, which outlines the key dates in the budget process.

Staff recommends that City Council review the proposed Fiscal Year 2017/2018 Budget Schedule, make changes as needed, and approve the motion to adopt the Fiscal Year 2017/2018 Budget Schedule.

C. RESOLUTION NO. 17-42 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE AN AMENDMENT TO THE EXISTING LEASE AGREEMENT WITH EAST ASHEVILLE YOUTH ACTIVITIES BOOSTER CLUB FOR CHARLIE BULLMAN PARK LOCATED ON NEW HAW CREEK ROAD

Summary: The consideration of a resolution authorizing the City Manager to execute an amendment to the existing lease agreement between the East Asheville Youth Activities Booster Club (East Asheville) and the City of Asheville for Charlie Bullman Park, located at New Haw Creek Road and Bell Road.

The recreation area known as the Charlie Bullman Park is owned by the East Asheville Youth Activities Booster Club. In 2011, the City of Asheville entered into a lease agreement with East Asheville for property located at New Haw Creek Road and Bell Road (identified as PIN # 9659-92-4876-00000). The property and any improvements thereupon were to be used exclusively for recreational purposes. The park was needed for recreational programming activities in East Asheville.

The current lease expired in August 2016 and the City approached East Asheville expressing interest in renewing the lease for an additional 5 (five) years at the current rate of $1.00 per year. East Asheville is agreeable to an extension of the lease for another 5 years.

Existing terms of the lease will continue, such as the City's commitment to maintain the facilities, make any necessary repairs and cover all utility costs.

Pros:

- City utilizes the facility for nominal rent.
- City is free to make any improvements it deems appropriate.

Con:

- None Noted

The lease commits the City to costs to maintain the facility. Parks and Recreation staff, however; negotiated with local leagues relative to the provisions of an MOU. This MOU specifies and limits the City's obligation to issues such as field readiness for play.

City staff recommends City Council adopt a resolution authorizing the City Manager to execute an amendment to the lease agreement with East Asheville to continue recreational programming at this site.

RESOLUTION BOOK NO. 38 - PAGE 354

D. RESOLUTION NO. 17-43 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CONSTRUCTION AGREEMENT WITH COOPER CONSTRUCTION COMPANY INC. FOR THE NEIGHBORHOOD ENHANCEMENT PLAN AREA 1 WATER DISTRIBUTION SYSTEMS PHASE I PROJECT

Summary: The consideration of a resolution authorizing the City Manager to execute a construction agreement with Cooper Construction Company, Inc., for the NEP Area 1 Water Distribution Systems Phase I Project for the bid amount of $1,244,068.00 plus a 10% contingency in the amount of $124,406.00 for a total project budget in the amount of $1,368,474.00.

On January 3, 2017, the Water Resources Department (WRD) issued an Advertisement for Bids for the NEP Area 1 Water Distribution Systems Phase I Project. The scope of work for this project includes, but is not limited to, all labor, materials, equipment, and incidentals required for the installation of approximately 11,650 Linear Feet of 8-inch and 6-inch Ductile Iron Pipe and related appurtenances located in the Bingham Road, Lindsey Road and Starnes Cove Areas of the City of Asheville Water Distribution System.

In response to the Advertisement for Bids, the department received 3 bids on January 31, 2017. Companies responding were:

1. Buckeye Bridge, LLC; Canton, NC – Bid: $1,845,088.00
2. Cooper Construction Company, Inc.; Hendersonville, NC – Bid: $1,244,068.00
3. Thunder Contracting, Inc; Waynesville, NC – Bid: $1,558,413.00

Following a review of the bids by City Staff and the project engineers, McGill Associates, Cooper Construction Company, Inc., was selected as the lowest responsible, responsive bidder for the bid amount of $1,244,068.00. A contingency amount of $124,406.00 has been added for a total project budget in the amount of $1,368,474.00.

Pros:

- This project will replace existing waterlines. The subject lines are undersized, provide inadequate fire protection, and/or have a high risk of failure. Replacement of these lines will help to improve the service and reliability of the water system.
- This project is aligned with the City and the WRD goal of continued investment and improvement of the City's water system through Capital Improvement Projects, in order to provide safe and reliable service.

Con:

- Failure to award a construction contract would prevent the completion of the water system improvements.

The funding needed for the construction agreement is currently allocated within the Water Resources Capital Improvements Project (CIP) Fund in the 2015 NEP Area 1 Project.

Staff recommends City Council adopt a resolution authorizing the City Manager to execute a construction agreement with Cooper Construction Company, Inc., for the NEP Area 1 Water Distribution Systems Phase I Project for the bid amount of $1,244,068.00 plus a 10% contingency in the amount of $124,406.00 for a total project budget in the amount of $1,368,474.00.

RESOLUTION BOOK NO. 38 - PAGE 355

E. ADOPTION OF REPORT OF SETTLEMENT STATEMENT WITH ALISON ROSE KERN PURSUANT TO N.C. GEN. STAT. SEC. 143-318.11 (A) (3)

Summary: Settlement Statement is attached to and made a part hereof.

F. RESOLUTION NO. 17-45 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE EASEMENT AGREEMENTS WITH PRIVATE PROPERTY OWNERS WHO DONATE EASEMENTS TO THE CITY FOR THE

PURPOSE OF THE CITY CONSTRUCTING NEW SIDEWALKS OR IMPROVING EXISTING PUBLIC SIDEWALKS

Summary: The consideration of a resolution authorizing the City Manager to execute easement agreements with private property owners who donate easements to the City for the purpose of the City installing new sidewalk or improving existing public sidewalks.

Currently, staff brings each easement for sidewalk maintenance, repair or installation to city Council for approval. In 1988, Resolution 88-28 gave the City Manager authority to execute easements with private property owners for constructing and/or maintaining storm sewer systems. The current request for consideration would allow easements for sidewalks to be handled in a like manner.

In 2015, the city recorded 13 sidewalk easements, under the current practice, each easement would require time and resources to develop necessary staff reports and resolutions to be approved by City Council for each specific easement. With the recent approval of the bond program, the need for executing new public sidewalk easements will likely increase.

Pros:

- Helps to standardize how easements donated to the City by private property owners for sidewalks construction are handled by the City.
- The easements would allow for installation of new public sidewalks and improvements to existing public sidewalks.
- Allow for a more expedient acceptance of easements for sidewalk construction.
- Reduce staff time associated with development of staff reports and resolutions for each individual easement request when the easements are donated.

Con:

- None.

There will be no fiscal impacts with this resolution; all easements which would be purchased would still require Council's approval.

City staff recommends City Council adopt a resolution authorizing the City Manager to execute easement agreements with private property owners who donate easements to the City for the City to construct and improve City owned sidewalks.

RESOLUTION BOOK NO. 38 - PAGE 360

G. RESOLUTION NO. 17-46 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A SIDEWALK MAINTENANCE AGREEMENT WITH THE N.C. DEPT. OF TRANSPORTATION TO MAINTAIN A NEW SIDEWALK THAT THE N.C. DEPT. OF TRANSPORTATION WILL CONSTRUCT ALONG A PORTION OF THE NORTH SIDE OF SMOKY PARK HIGHWAY

Summary: The consideration of a resolution authorizing the City Manager to execute a sidewalk maintenance agreement between the N.C. Dept. of Transportation (NCDOT) and the City of Asheville for the city to maintain a new sidewalk that NCDOT will construct along a portion of the north side of Smoky Park Highway.

The NCDOT has developed plans and has the necessary funds to construct a new sidewalk along the north side of US 19-23-74 (Smoky Park Hwy) from the McDonalds restaurant to the existing sidewalk at the Shell Station, for a distance of about 700 linear feet, in the immediate area of the I-40 interchange at Exit # 44. Daily traffic volumes along I-40 in the

immediate area exceed 80,000 vehicles per day and 20,000 vehicles per day along US 19-23-74 (Smoky Park Hwy). From a pedestrian perspective, sidewalks are an important feature through interchange areas to clearly define the area that pedestrians should use.

Per NCDOT policy, local governments typically are required to participate in the construction cost for pedestrian facilities within the public right-of-way for state-maintained streets, which is 40% for the City of Asheville. In this case, the NCDOT is fully funding the project. Pursuant to NCGS 160A-296 and a longstanding NCDOT policy, the City will be responsible for maintaining the new sidewalk. .

Pros:

- Increases the inventory of completed sidewalk sections.
- NCDOT is fully funding the construction of the sidewalk section.
- Enhances pedestrian flow and safety through a high traffic volume interchange area.

Con:

- The City is responsible for all maintenance responsibilities.

There is no immediate fiscal impact regarding this action and future maintenance needs will be addressed with the Public Works Department's operating budget along with other existing sidewalk needs.

Staff recommends that City Council approve a resolution authorizing the City Manager to execute a sidewalk maintenance agreement between the NCDOT and the City of Asheville for the city to maintain a new sidewalk that NCDOT will construct.

RESOLUTION BOOK NO. 38 - PAGE 361

H. RESOLUTION NO. 17-47 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CONTRACT WITH APPALACHIAN PAVING AND CONCRETE INC. FOR THE BROADWAY AVENUE SIDEWALK AND RETAINING WALL REPAIR PROJECT

Summary: The consideration of a resolution authorizing the City Manager to execute a contract with Appalachian Paving and Concrete, Inc. for the amount of $94,510 and to authorize change orders up to the $9,451 or 10% of the contract price for the project known as Broadway Avenue Sidewalk and Retaining Wall Repair, City of Asheville CPM-14-15-013.

The section of sidewalk that is in need of repair was built over a vaulted area used for storage from a previous building.

The scope of this project includes the demolition of the existing sidewalk, drive apron, concrete piers, hand railing and concrete curb and gutter. The project also includes construction of a retaining wall, sidewalk, 6 inch thick drive apron, aluminum safety railing and granite curb. The retaining wall will support the sidewalk and hand rail that will rest above it. The new hand railing will be safer and aesthetically pleasing to pedestrians in the downtown area.

The project was advertised on January 3, 2017, and bids were opened on February 1, 2017, with the following results:

Appalachian Construction, Swannanoa, NC	$94,510
Graham County Land Company, Robbinsville, NC	$94,628
K and T Construction, NC, Green Mountain,	$105,000
Cherokee Enterprises, Cherokee, NC	$123,151
Carolina Cornerstone, Asheville, NC	$123,625

Patton Construction, Asheville, NC	$160,430
Armen Construction, Charlotte, NC	$209,880

Pros:
- Confirms Council's commitment invest in Asheville's roads and streets.
- Provides safe transportation and access to communities and attractions to maintain a vibrant city.

Con:
- Construction may cause temporary pedestrian detours and lane closures along the section of Broadway near the intersection of Walnut St.

Funding for this project is included in the Adopted Capital Improvement Program Budget.

City staff recommends City Council adopt the resolution awarding the contract to Appalachian Paving and Concrete, Inc. and authorizing the City Manager to execute a contract with Appalachian Paving and Concrete, Inc. for the project known as Broadway Avenue Sidewalk and Retaining Wall repair and further authorizing the execution of any change orders up to a cost of $9,451 or 10% of the contract which may arise during execution of said project up to the budgeted amount.

RESOLUTION BOOK NO. 38 - PAGE 362

I. RESOLUTION NO. 17-48 - RESOLUTION DENOUNCING THREATS AGAINST THOSE OF THE JEWISH FAITH

Summary: Mayor Manheimer read the following resolution: "WHEREAS, on Monday, February 27, 2017 the Asheville Jewish Community Center (JCC) received a bomb threat; and WHEREAS, according to the JCC Association of North America, on February 27, there were 31 incidents of bomb threats called into 23 JCCs and eight Jewish day schools in Alabama, Arizona, California, Delaware, Florida, Indiana, Maryland, Michigan, New Jersey, Nevada, New York, North Carolina, Pennsylvania, Rhode Island, Virginia, Washington state, and Calgary (Canada); and WHEREAS, these incidents are part of several waves of threats and vandalism against centers of Jewish Faith that have occurred over the past few months; and WHEREAS, in December 2016 the City of Asheville passed No. 16-254, "Resolution Against Discrimination and Intimidation," stating that we take great pride in being a welcoming and diverse community where all citizens can live and work without fear of physical violence, threats or intimidation; and WHEREAS, hate crimes, threats or intimidation that target the Jewish people or any other people will not be tolerated. NOW, THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF ASHEVILLE THAT the City Council strongly denounces the vandalism and threats made against those of the Jewish faith.

RESOLUTION BOOK NO. 38 - PAGE 363

Mayor Manheimer asked for public comments on any item on the Consent Agenda, but received none.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Councilman Bothwell moved for the adoption of the Consent Agenda. This motion was seconded by Vice-Mayor Wisler and carried unanimously.

III. PRESENTATIONS & REPORTS:

A. SECOND QUARTER FINANCIAL UPDATE

The financial information in this report reflects the City's overall financial position for the fiscal year through December, 2016.

"Amendments. The General Fund budget presented in this second quarter report reflects the adopted budget of $110,834,666 along with two budget amendments approved by City Council. A summary of the budget amendments is presented below.

Adopted Budget	110,834,666
Budget Amendments:	
Asheville/Buncombe Preschool Planning Collaborative*	6,200
County Participation – African American Heritage Commission	10,000
12/31/2016 General Fund Budget	$110,850,866

*Fund Balance Appropriation

Revenues. Through December 31, 2016, the City has collected $59.5 million in General Fund revenue, which represents approximately 54% of the total General Fund revenue budget. This percentage is driven primarily by property tax collections. The City receives the majority of these revenues in December and January of each year. 74.5% of the budgeted property tax revenue for FY 2016-17 has been received fiscal year-to-date. The City has received four months of sales tax revenue this fiscal year, and collections are up 7.3% compared to the prior fiscal year. Intergovernmental revenue is trencing on budget. Revenue from Development Service fees is trending lower than anticipated through the first six months of the year, and currently stands at 42% of budget. Overall, based on collection trends through the first two quarters, staff is currently projecting that *FY 2016-17 General Fund revenue will exceed budget by $617,000 or 0.56%.*

Expenditures. General Fund expenditures through December 31, 2016 totaled $49.2 million or 44% of budget, which is typical for this point in the fiscal year. Personnel expenses, the largest component of the General Fund budget, are trending slightly under budget through the first two quarters. It should be noted that even though overall personnel expenses are on budget, expenses in the Fire Department are running approximately $800,000 ahead of budget at the end of December. Solutions to the ongoing overtime challenges in the Fire Department are being discussed as part of the FY 2017-18 Budget. The simplest solution would be to increase the overtime budget; however, this is a short-sighted solution that fails to evaluate the underlying cause of excessive overtime costs. While the overtime budget will likely be increased going forward, it will be as part of a comprehensive plan to track trends and better manage staffing. As of February, interviews for the Fire Analyst position are complete and there should be someone in the role by the end of March, which will enable more analysis by the Budget Division in concert with the Fire Department. There are no other areas of concern with regard to current expenditure trends. Overall, staff is projecting that *FY 2016-17 expenditures (including actual expenses and encumbrances) will finish the year at $109.84 million.*

Fund Balance. The City began FY 2016-17 with unassigned fund balance of $18.0 million, after subtracting out the $960,000 fund balance appropriation included in the adopted budget. Since the start of the fiscal year, Council has appropriated an additional $6,200 from unassigned fund balance. An additional $197,175 appropriation for the operating costs associated with the capital improvement program was approved by Council on February 14, 2017. Based on *current revenue and expenditure projections for FY 2016-17, staff estimates that unassigned fund balance at June 30, 2017 will increase to $19.6 million or 17.9% of estimated expenditures.* Unassigned fund balance in excess of the City's policy minimum is being considered as a funding source for one-time expenditures in the upcoming fiscal year. Recommendations will be included as part of the FY 2017-18 Budget."

B. QUARTERLY I-26 CONNECTOR UPDATE

Director of Transportation Ken Putnam updated the Council on the I-26 Connector. The Project Page was launched on February 10, 2017. There has been seven working group meetings, along with internal working group meetings and N.C. Dept. of Transportation (DOT) community meetings. The Consultant Team Request for Qualifications was released on February 22, 2017, with the proposal deadline being March 17, 2017. The selection team will consist of five members and the contract decision/award will be made on April 25, 2017.

Councilwoman Mayfield said that the DOT is in the midst of a lot of analysis now about the number of lanes, design changes, etc. Most of their last meeting they talked about bike and pedestrian betterments that the City wanted to see. DOT provided their responses and cost estimates for those and because the cost would be an extraordinary amount of money that the City would have to pay, we are going through the list to perhaps look at different ways to get to the same objective.

IV. PUBLIC HEARINGS:

A. PUBLIC HEARING TO CONSIDER A LAND USE INCENTIVE GRANT FOR 338 HILLIARD AVENUE (TRIBUTE COMPANIES)

Mayor Manheimer announced that this public hearing has been withdrawn from the agenda.

V. UNFINISHED BUSINESS:

A. RESOLUTION NO. 17-44 - RESOLUTION APPOINTING MEMBERS TO THE ASHEVILLE CITY BOARD OF EDUCATION

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing members to the Asheville City Board of Education. She said that all background checks on the potential candidates came back with no flags or negative items.

The terms of Peggy Dalman, Leah Ferguson and Matt Buys expire on April 1, 2017. Ms. Dalman is not eligible for reappointment; and Ms. Ferguson and Mr. Buys were not interested in reappointment.

The following individuals have applied for a vacancy on the Asheville City Board of Education and completed the necessary essay questions to be qualified for consideration for appointment: Pepi Acebo, Margaret Hutchison Allan, Joyce Brown, Margaret Ervin Bruder, Steve Cochran, Brian John Dockery, Patricia Griffin, Lockie Hunter, Yvette Jives, John Michael Kledis, Julie Koenke, James Lee, Mary Ellen Lewis, Dewana Little, Joe Lordi, Morgan Marshall-Clark, Mary McDermott, Sallie Porter, Amy Ray, Adam Reagan, Drew Shelfer, Kathleen Slowiczek, Phyllis Utley, J. Vann Vogel, Elizabeth Ward, Mary Ann Warren, Melissa Weiderman and Larry Wilson.

After reviewing all applications and essay questions, Council chose to interview the following candidates: Yvette Jives, James Lee, Amy Ray, Joyce Brown, Patricia Griffin and Mary Ellen Lewis.

Council spoke highly of all the very qualified candidates and after noting it was a difficult decision, Yvette Jives received 1 vote, James Lee received 5 votes, Amy Ray received 4 votes, Joyce Brown received 5 votes, Patricia Griffin received 5 votes, and Mary Ellen Lewis received 1 vote.

Therefore, James Lee, Joyce Brown and Patricia Griffin were appointed as members of the Asheville City Board of Education, to each serve a four year term respectively, terms to begin April 1, 2017, and expire April 1, 2021, or until their successors have been appointed.

RESOLUTION BOOK NO. 38 – PAGE 359

B. DISCUSSION REGARDING OUTREACH OPPORTUNITIES FOR POTENTIAL DISTRICT ELECTIONS

Mayor Manheimer read the following letter from Senator Chuck Edwards, which she received earlier in the day: "It has come to my attention that it is the intent of the Asheville City Council, maybe as early as tonight, to conduct discussions to the "possibility" and mechanics of partitioning the city into districts for the purpose of municipal elections. I applaud the openness of the council to engage this topic. I further understand that the matter may be tabled and no actionable items may take place. Having learned this and out of respect for the time and possibility the monetary resources of your council, I wanted to inform you of my intent to soon file a bill in the Senate that will require Asheville to conduct district elections. It will also provide that 'six' will be the number of required districts. It will offer some flexibility for your council to determine the geography of the districts. I am open to realistic conversation as to the timing of the requirements. I am confident that this measure will pass both the Senate and the House. As a courtesy I am informing you of this intent with the hope that your discussion may revolve more around 'how' to district, and forego the discussion of 'should' we district. My actions are the result of trends taking place in municipalities as well as a great deal of feedback from citizens of Buncombe County. If I or the resources of the General Assembly may assist you in the development of your district plans please do not hesitate to call on me."

Council members were disappointed in this overreach of ignoring municipalities and their citizens wishes.

Councilwoman Mayfield not only supported polling our citizens but also suggested that we schedule, during the legislature's spring break in April, a public forum on this issue inviting our local delegation to be present.

Councilman Bothwell said that the districting question really doesn't have a right or wrong answer - it's just an opinion. Since the City will be spending money on a poll, he suggested two other questions be posed as well - one regarding the disposition of the Haywood Street property, and the other one regarding short term rentals in the City.

Councilwoman Mayfield noted that she met with Senator Edwards about a month ago and he said that he was continuing to get calls from people who are advocating for re-districting. Since she has not received any calls to re-district, she urged the citizens to contact City Council with their thoughts on this issue. She stressed that it's City Council's duty to be responsive to the people who elected them.

Communication & Public Engagement Director Dawa Hitch provided a brief overview of options for gathering public input on the subject of district elections.

The City of Asheville's Charter states the Council consists of a mayor and six council members, "all nominated and elected by the city at large."

North Carolina General Statute (N.C.G.S.) § 160A-101 allows a city to "alter its form of government," including the "[m]ode of election of the council" by one of five ways. Four of the five options relate to district elections. These five options are summarized in Table 1.

Table 1.

Options outlined in N.C.G.S.	Candidates	All Voters	Voters residing in each district
Option "a" (Current mode) AT LARGE ELECTION		x	
Option "b" DISTRICT ELECTION	Candidates reside in and represent each district May also include "at-large" seats which represent the entire city	(x) Elect at large candidates for entire city, if any	(x) Elect candidates who reside in the district
Option "c" DISTRICTS	Candidates reside in and represent each district May also include "at-large" seats which represent the entire city	(x) Elect candidates who reside in and represent each district (x) Elect at large candidates for entire city, if any	
Option "d" DISTRICTS	One half of Council seats are "at-large" seats with candidates residing in and representing a specific district One half of Council Seats divided into "ward seats" with candidates residing in and representing a specific district	(x) Elect "at-large seat" in each district	(x) Elect "ward seat" in each district
Option "e"	Candidates reside in and represent specific district May also include "at-large" seats representing the entire city	In non-partisan primary election, all voters elect two at-large candidates for each seat apportioned to the entire city at-large (x) Elect all candidates during Regular Election	In non-partisan primary election, voters residing in the district elect two candidates who reside in the district

Before committing to a formal council vote to adopt a different mode of election, a city council has a range of options for better understanding community opinion regarding the mode of

election. Options range from general engagement using tools in the city's engagement portfolio (e.g., Open City Hall, community meetings) to scientific polling.

General Engagement
PROS: no fiscal impact, creates an outlet for interested residents to share input, input is openly available to any interested party

CONS: While open City Hall does allow for the tracking of some demographic data, there is no mechanism to measure whether or not input received is representative of the community at large.

Polling
PROS: by design, polling intentionally seeks to gather input from a representative sample of the community and includes measurements that assess how likely the results represent the opinion of the community at large.

CONS: there is a fiscal impact to pay a professional firm to administer a research poll.

In soliciting community feedback on the subject of redistricting, there are a number of areas that could be explored through general engagement or polling such as:

- Preference for the options outlined in N.C.G.S. 160A-101(6)
- input on the # of districts
- input on the # of at-large seats
- whether or not there is a preference for a referendum

General engagement and polling are two options that could be performed in the short-term. Specifically, general engagement could be completed by the beginning of April. The polling option could be completed by the beginning of May. If Council chooses to add a referendum question to the ballot, that decision would need to be made by June 1, 2017, in order to meet statutory requirements for meetings and other process steps.

It is worth noting that there are also aspects of redistricting that are limited by general statute. Clearly communicating these aspects will set the essential context for a successful public engagement effort. For example, if a council chooses to change a mode of election to an option that involves district elections, G.S. 160A-101 sets forth that district boundaries be drawn by the council.

Finally, if a council decides on a formal vote to amend the City Charter to change the mode of election, general statutes require three separate meetings take place, each allowing time for public comment before the formal vote is taken. The agenda items for each of the three separate meetings would include: 1) Adopt a Resolution of Intent and set a public hearing, 2) Public hearing and 3) Adopt ordinance. Another relevant statutory provision that provides opportunity for public input is N.C.G.S. S. § 160A-102 which allows for a change adopted by ordinance to be effective only upon a vote of the people. If that option is not taken, the ordinance is subject to a referendum petition if enough signatures are obtained.

A poll with a margin of error of +/- 4.9% is estimated to be approximately $10,000. This cost is not currently budgeted.

General public engagement can be run in house. The impact would be in opportunity costs for upcoming public engagement efforts. In other words, staff resources would be redirected to supporting this engagement effort and may delay upcoming efforts or impact the design of upcoming efforts.

This item was discussed at the February 14, 2017, Governance Committee meeting where it was the unanimous direction of the committee to bring a recommendation for polling forward to the full Council. Committee discussion also identified the following five areas as areas to explore through polling:

- Preference for the options outlined in N.C.G.S. 160A-101(6)
- input on the # of districts
- input on the # of at-large seats
- whether or not there is a preference for a referendum
- preference for how district boundaries would be drawn (e.g., independent third party working with Council, independent third party working with Council with input from a task force, etc.)

Staff is seeking direction on 1) Council's preference, if any, for short-term engagement approaches and 2) if an engagement effort is desired, the type of input City Council is interested in seeking.

Councilman Bothwell noted that there is an automated (landline) poll available that was only $350 and it was quick.

Discussion surrounded the timing of the poll, launching Open City Hall, trying to get the results of the poll by the end of March, and the arrangement of a public meeting during the April 12-21 legislature spring break.

Ms. Hitch said that she will do everything possible to find a viable poll source geared at getting the results by the end of March, noting that the expedited timeframe for results might affect the estimated $10,000 to conduct the poll.

Ms. Pat Thobe felt that if a poll is performed, the person being polled should be asked to read an information sheet explaining the pros and cons prior to stating their preference. She stressed that the public should be educated prior to any re-districting questions being asked.

Mayor Manheimer agreed with Councilwoman Mayfield that at some point a public forum is a good idea because this is a complicated issue and we need to talk about all various options and how they work. Legislatures should also be invited to listen and explain why they might be supporting the potential bill.

Councilman Smith moved to move forward to poll with the five areas outlined above because at least it will provide information that will help us determine what the districts should look like if Raleigh requires us to district. This motion was seconded by Councilman Young and carried unanimously.

VI. NEW BUSINESS:

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

Mayor Manheimer said that since there is some interest in looking at the definition of "homestay", she asked Council if they had any interest to explore expanding the definition of "homestay" to include rooms under the roof of a house. Vice-Mayor Wisler felt that opening this issue up so soon after the task force completed its work is unfair and insulting to the task force members. After a brief discussion, the majority of Council agreed to direct staff to look at expanding the definition of "homestay" to include rooms under the roof of a house and that staff bring it back to City Council for review, prior to taking it to the Planning & Zoning Commission as a Unified Development Ordinance text amendment.

In response to Councilman Smith, City Attorney Currin briefly explained the issue regarding signs on vehicles. In summary, business signs are permitted when the vehicle is part of the business operation and used during the normal course of business, but would not be allowed when the sign becomes an off-premise advertisement for the business or for any other third party. City Manager Jackson said that the issue will be reviewed again at the City Council Planning & Economic Development Committee as to how they are working with business groups and property owners.

Mr. Mike Lewis felt that Councilman Young should reveal the details of the property he purchased in Arden, North Carolina.

Councilman Smith urged the public to attend the Southern Conference Basketball Tournament at the U.S. Cellular Center from March 2-6, 2017.

II. ADJOURNMENT:

Mayor Manheimer adjourned the meeting at 6:19 p.m.

SETTLEMENT AGREEMENT

This SETTLEMENT AGREEMENT (the "Agreement") is made and entered into by and between Alison Rose Kern ("Ms. Kern") and the City of Asheville (the "City") (collectively the "Parties") as of the date provided below.

WITNESSETH

WHEREAS, on or about June 25, 2014, Ms. Kern alleges she fell and injured herself while walking on a sidewalk located at 82 Patton Avenue, Asheville, North Carolina;

WHEREAS, on May 13, 2016, Ms. Kern filed an action against the City in the Superior Court Division of Buncombe County, file number 16 CVS 02087, and asserted a claim of negligence based on her June 25, 2014 fall and injury (the "Lawsuit");

WHEREAS, the City disputes its liability to Ms. Kern for any damages pertaining to her June 25, 2014 fall;

WHEREAS, on December 19, 2016, the Parties participated in a mediated settlement conference and reached an agreement to settle fully and finally all disputes between them, as well as any other claims that could have been asserted;

WHEREAS, the agreement reached by the Parties, attached hereto as Exhibit 1, in the mediated settlement conference was contingent upon the approval by the Asheville City Council (the "Council") of such agreement;

WHEREAS, at its meeting on January 10, 2017, the Council approved the agreement reached by the Parties in the mediated settlement conference;

NOW, THEREFORE, in consideration of the mutual promises, covenants, and agreements set forth herein, the sufficiency of which the Parties hereby acknowledge, it is agreed as follows:

1. **Payment to Ms. Kern.** The City agrees to pay to Ms. Kern Seventy Thousand Dollars ($70,000.00) as full and complete settlement of any and all asserted claims (the "Payment"). The Payment shall be paid by no later than February 9, 2017, and shall be paid to the Trust Account of Plaintiff's counsel, Mark Melrose of Melrose Law, PLLC.

2. **Payment of Mediator's Fees.** The City agrees to pay, on behalf of the Parties, the mediator's fees in the amount of Two Thousand Sixty-Two Dollars and Fifty Cents ($2062.50), associated with the mediated settlement conference which occurred on December 19, 2016.

3. **Dismissal of Lawsuit.** In addition to all other consideration provided herein, Ms. Kern, within five (5) days of Plaintiff's counsel's receipt of the Payment and prior to the disbursement of the Payment to Plaintiff by Plaintiff's counsel, shall voluntarily dismiss with prejudice the Lawsuit.

4. **Release of the City by Ms. Kern.** For valuable consideration, the receipt and adequacy of which is hereby acknowledged, including the consideration provided in Paragraphs 1 and 2 herein, Ms. Alison Rose Kern, on behalf of herself and her heirs, executors, administrators, assigns, and any and all persons or entities claiming by and through her, hereby releases, acquits, and forever discharges the City of Asheville and its predecessors, successors, affiliates, subsidiaries and assigns, and any person or entity acting for or on the City's behalf, including, in their capacities as such, without limitation, their respective past, present and future officers, directors, employees, attorneys, agents, administrators, representatives, successors, and assigns, and their respective administrators, representatives, successors, and assigns, from any and all past, present, or future claims, demands, obligations, rights, damages, actions, causes of actions, suits, costs (including court costs), expenses, attorneys' fees, judgments, sums of money or claims of any kind or nature whatsoever, known or unknown, whether named or unnamed, both to person and property, absolute or contingent, whether at law or in equity, up to and through the date of this Agreement. These claims include, but are not limited to, claims arising under federal, state, and local statutory or common law, and the law of contract and tort.

5. **No Admission of Liability.** The terms and conditions outlined herein are not to be construed as an admission of any liability or violation of any federal, state, or local statute or regulation or of any duty owed by and between the Parties, and the Parties expressly deny and continue to deny any and all liability.

6. **Acknowledgement.** The Parties acknowledge that this Agreement effects important rights and includes an agreement to release any and all claims arising out of any violations of Ms. Kern's rights. Ms. Kern has been advised to consult with an attorney prior to executing this Agreement and has had the counsel of Mark Melrose, an attorney of her choosing, in negotiating and reviewing this Agreement.

7. **Execution by the Parties.** This Agreement may be executed in multiple counterparts, all of which taken together shall collectively constitute one agreement binding the Parties.

8. **Governing Law.** This Agreement shall be governed by and construed in accordance with the laws of the State of North Carolina.

9. **Amendments, Changes, and Modifications.** This Agreement may not be amended, changed, modified, or altered except by written agreement signed by both Parties.

10. **Entire Agreement.** This Agreement, including Exhibit 1 incorporated herein by reference, constitutes the entire agreement between the Parties, superseding all prior written and oral agreements.

11. **Severability.** Each provision of this Agreement is intended to be severable. If any provision or any part of any provision of this Agreement shall for any reason be held invalid, unenforceable, or contrary to public policy or any law, then the remainder of this Agreement shall not be affected thereby.

12. **Interpretation.** For purpose of construction or interpretation of this Agreement, it is stipulated and agreed that this document has been jointly prepared and drafted by counsel to all of the Parties hereto.

13. **Binding Effect.** This Agreement shall be binding upon Ms. Kern and her respective executors, heirs, estate, legal representatives, beneficiaries, and other successors in interest, and shall inure to the benefit of the City and its respective successors and assigns.

14. **Voluntary Execution.** The Parties hereto, who are each represented by counsel, intending to be legally bound, apply their signatures voluntarily and with full understanding of the contents of this Agreement and after having had ample time to review and study this Agreement with their counsel.

IN WITNESS WHEREOF, the Parties have caused this Agreement to be executed as of the date indicated below.

Defendant.

MEDIATED SETTLEMENT AGREEMENT

The parties hereto stipulate and agree that at the Mediated Settlement Conference held on the 19th day of December, 2016 at the law offices of McGuire, Wood & Bissette, P.A. in Asheville, North Carolina, a full and final agreement of all issues was reached. The terms of this agreement are:

1. Contingent upon approval by the Asheville City Council ("Council") at its meeting scheduled for January 10, 2017, Defendant shall pay to the Trust Account of Plaintiff's Attorney the sum total of Seventy Thousand Dollars ($70,000).00) within thirty days of Council's approval.

2. Plaintiff shall execute such general releases as required by Defendant, in a form acceptable to Defendant and shall file a Voluntary Dismissal with Prejudice within five (5) days of receipt of such funds and prior to the disbursement of such funds to Plaintiff by Plaintiff's counsel.

3. Also contingent upon approval by Council, the City shall pay the mediator's fees associated with this mediation.

EXHIBIT 1

Tuesday – March 14, 2017 - 3:00 p.m.

Budget Worksession

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Cecil Bothwell; Councilman Brian D. Haynes; Councilwoman Julie V. Mayfield; Councilman Gordon D. Smith; Councilman W. Keith Young; City Manager Gary W. Jackson; City Attorney Robin T. Currin; and City Clerk Magdalen Burleson

Absent: None

Director of Finance and Management Services Barbara Whitehorn used a PowerPoint while she provided the Council with a brief discussion of the revaluation, building a budget, operating budget, and capital budget.

Regarding property revaluation, the City-wide increase is between 25-30%. The current revenue neutral estimate is 39.5 cents, not including the General Obligation Bonds). The current rate is 47.5 cents.

In building the base budget, it assumes revenue neutral tax rate, growth in revenue, increasing cost and continuation budget (no significant operational changes).

As of December 31, 2016, the Fiscal Year 2016-17 performance is (1) revenue performing about 4% ahead of budget (sales tax 8% over prior year; and forecast $600,000 over budgeted revenue); and (2) expenditures at 44% of budget (forecast 99% of budgeted expenditures; and $1 Million savings). The estimated forecast of increase to Fund Balance is $1.6 Million.

Regarding revenues, licenses and permits are down 10%; sales tax receipts are +5-7%; and property tax receipts are +2.4%. Regarding expenditures, health insurance is $600,000; compensation (general increase, public safety steps) is $1.75 Million; and transit (full year service improvements) is $267,000.

Possible budget priorities which will require adjustments to the base include Transit Master Plan, Energy Innovation Task Force (energy study; weatherization program); downtown safety; Facilities Master Plan; and downtown sanitation improvements.

Regarding the existing 5-Year Capital Improvement Plan, pressures include construction costs, right-of-way costs and utility relocation. Opportunities include value engineering, cost management/re-scope projects to fit budget, pursue state and federal grant funding, and evaluation of Capital Improvement Plan scheduling.

Ms. Whitehorn then reviewed the Capital Program planning and implementation; along with General Obligation Bond information.

All-in Revenue Neutral is 25-30% revaluation increase; 3.5-cent General Obligation Bonds; and Revenue Neutral with Bonds: 39.5-cents + 3.5-cents = 43.0-cents. The opportunity would be the current property tax rate is 47.5-cents; all-in revenue neutral rate of 43.0-cents; and remaining 4.5-cents = $6.28 Million.

The budget forecast is (1) planning for Council priorities and commitments; (2) community input; (3) operational needs and serve improvements; and (4) capital investment decisions (a) construction cost increases; and (b) developing needs.

Throughout Ms. Whitehorn's presentation and discussion, she responded to various questions/comments from Council, and those which could not be readily responded to would be

provided to Council in either a memorandum format at or prior to the March 28 worksession. Some questions raised and information requested include: has staff taken into consideration in this budget of the federal government talking about increasing interest rates; has staff taken into consideration the sales tax reallocation bill reintroduced again; has this budget planned for the possibilities of Community Development Block Grant and HOME funds being eliminated and question on how far is Council willing to go to backfill any lost funds; request for information on our Fund Balance and what kind of one-time funds would be available; does the continuation budget include pay increases for staff and request for more information about those increases; do we have any information on the proposed County tax rate; how much of the $3 Million of improvements can the Transportation Department implement in one year; request to see the breakdown and timing of the $3 Million for transit; does the continuation budget absorb the new transit management contract; who sets the school tax rate; information on the federal reduction of funds for transit over the next three years; request for information about public safety - status quo, needs and price tag; request to see numbers on the downtown APD unit; are the River Arts District Transportation Improvement Plan funds secure; reasons why crime increase in downtown and if it involves locals or guests so we can understand the need; request for detailed map of downtown showing high crime area and the time of day of the crimes; request for more information on the Facilities Master Plan, and downtown sanitation improvements; and information on when the Facilities Master Plan analysis is being performed in the buildings, whether a review of the energy efficiency of that building could be folded into the scope of work and if so, the increase in cost.

Councilwoman Mayfield presented draft recommendations from the Energy Innovation Task Force that leverage existing resources and effectively address both peak and overall energy demand in Buncombe County. The initial investment requested is meant to be a first step in further development and implementation of a two-year work plan. The existing City goals from the County-approved clean energy framework totals $60,000. New programs or projects total $1,160,000, with the investments in existing programs that provide low income weatherization to city homes being $1 Million. She asked for Council to include some or all of these recommendations in the budget. She asked for a commitment on the overall policy objective in moving forward with energy as a priority and making investments that way. Buncombe County is developing their own set of recommendations, which focus is around institutions and structures. Her thought is the City should be focused on people's lives and saving people money.

Mayor Manheimer was not comfortable in supporting anything over a tax rate of revenue neutral plus the GO bond tax increase.

Councilman Young could support the weatherization program; however, his main concerns are transit and affordable housing.

Mayor Manheimer said that she will need to see other recommendations and priorities for next year and then determine what they can realistically move forward with.

Councilman Smith wanted to approach the budget with caution due to the uncertainties of the federal and state budgets and the revaluation.

Councilman Bothwell said that the Tree Commission is requesting $25,000 to begin a canopy study and a Tree Master Plan, which is stipulated in the Unified Development Ordinance but has not bee implement. Also, Homeward Bound will be sending a proposal to the Housing & Community Development Committee for $150,000 to provide afternoon programming 365 days a year.

Mayor Manheimer said that when Council looks at the Capital Improvement Plan budget, she wanted to make sure to preserve the funds we set aside for Lee Walker and to preserve funding for the choice of improvements to swimming pools. She also wanted to make sure that we are careful in prioritizing our Capital Improvement Plan due to the increase cost of

construction. She would be open to staff being flexible with the timeline and re-prioritizing those projects.

Regarding the Capital Improvement Plan budget, Vice-Mayor Wisler would prefer that Council see what is currently budgeted and that staff highlight what we are seeing as potential cost increases. She also preferred that staff not rearrange the timing without Council's input.

Ms. Whitehorn said that staff will bring Council the 5-Year Capital Improvement Plan with cost pressures and models on how projects might be re-arranged.

Ms. Whitehorn then reviewed the upcoming dates associated with adoption of the budget, with the next worksession on the operating budget being on March 28, 2017; the worksession on the capital budget on April 11, 2017; the City Manager's proposed budget presentation to City Council on May 9, 2017; the Fiscal Year 2017-18 budget public hearing on May 23, 2017, and the budget adoption on June 13, 2017.

At 4:01 p.m., Mayor Manheimer adjourned the worksession.

Tuesday – March 14, 2017 - 5:00 p.m.

Regular Meeting

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Cecil Bothwell; Councilman Brian D. Haynes; Councilwoman Julie V. Mayfield; Councilman Gordon D. Smith; Councilman W. Keith Young; City Manager Gary W. Jackson; City Attorney Robin T. Currin; and Deputy City Clerk Sarah Terwilliger

Absent: None

PLEDGE OF ALLEGIANCE

Mayor Manheimer led City Council in the Pledge of Allegiance.

I. PROCLAMATIONS:

II. CONSENT AGENDA:

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON FEBRUARY 28, 2017

B. RESOLUTION NO. 17-49 - RESOLUTION DIRECTING THE CITY CLERK TO ADVERTISE FOR UPSET BIDS FOR THE SALE OF 0.013 ACRES (APPROXIMATELY 550 SQUARE FEET) OF REAL PROPERTY LOCATED AT FLINT STREET AND MAGNOLIA AVENUE TO LYNN M. REDDEN

Summary: The consideration of a resolution proposing to accept an offer for sale of 0.013 acres (approximately 550 square feet) and directing the City Clerk to advertise for upset bids, and if no upset bid, authorize the City Manager to execute any and all documents necessary to convey the property located at Flint Street and Magnolia Avenue to Lynn M. Redden.

The City of Asheville owns a parcel of property located at 51 Magnolia Avenue (PIN # 964913853200000). The property is currently vacant and is being maintained by the City's Parks and Recreation Department. Short Flint Street traverses this parcel and provides access for several parcels that would otherwise be landlocked. The City maintains the lot which includes trees that are between the house at 229 Flint and Short Flint Street roadway. The house at 229

Flint Street was built in 1920 with part of the house and a small side porch encroaching on the City's property. It also appears that the front porch appears to be infringing on the City's right of way on Flint Street. It was sold "as is" by heirs of the original owner in February of 2017. It is the new owner who is requesting this action in order to clear the title and to bring the house into compliance with current zoning requirements The new owner has offered to tear down the side porch, but wants to rehabilitate the house and possibly add an additional story. A survey was done to determine the minimum amount of land that would be needed to eliminate the house encroachment and to accommodate six foot setbacks. It was determined that this would be roughly 550 square feet. The new homeowner at 229 Flint Street has approached the City with an offer to buy the land for $12,557. This bid was determined by examining comparable sales of vacant land in the area.

The Parks and Recreation Department and Development Services have been consulted and do not object to the sale of this small amount of land in order to remove the encroachment and comply with zoning requirements.

The method chosen to establish fair market value is the upset bid process set forth in NCGS 160A-269. If City Council approves the following resolution, the City Clerk will be directed to publish an advertisement for upset bids for a period of 10 days, in which any interested party may upset the bid of $12,557. The statutes require that a qualifying bid must increase the current offer by 10% of the first $1,000 and 5% of the remainder (i.e. $13,144.85 or higher). Since the function of the upset bid process is to confirm fair market value, the resolution provides that if no qualifying, competing bid is received, then the City Council agrees to convey the parcel to Lynn M. Redden for $12,557.

Pro:

- Private sale will convert public land into taxable real property and will relieve the City of Asheville of ongoing maintenance responsibility.

Con:

- The City is relinquishing land albeit a small amount.

Proceeds from the sale will benefit the General Fund.

City staff recommends City Council adopt a resolution proposing to accept an offer for sale of 0.013 acres (approximately 550 square feet) and directing the City Clerk to advertise for upset bids, and if no upset bid, authorize the City Manager to execute any and all documents necessary to convey the property located at Flint Street and Magnolia Avenue to Lynn M. Redden.

RESOLUTION BOOK NO. 38 - PAGE 364

C. ORDINANCE NO. 4564 - BUDGET AMENDMENT FOR GRANT FUNDS RECEIVED FROM THE STATE OF NORTH CAROLINA, DEPT. OF HEALTH & HUMAN SERVICES, DIVISION ON AGING AND THE LAND OF SKY REGIONAL COUNCIL/AREA AGENCY ON AGING THROUGH FISCAL YEAR 2016-17 FOR SENIOR CENTER GENERAL PURPOSE FUNDING AT THE SENIOR OPPORTUNITY CENTER AND THE HARVEST HOUSE

Summary: The consideration of budget amendments in the amount of $3,625 for Senior Opportunity Center and $3,625 for Harvest House for an appropriation from the State of North Carolina, Department of Health and Human Services, Division on Aging and the Land of Sky Regional Council/Area Agency on Aging through the Senior Center General Purpose Funding.

Funds will be used at the Senior Opportunity Center to clean and paint the exterior of the building. The allocation requires a 25% local match which will be provided via in-kind services of staff time to manage the project.

Funds will be used at Harvest House to purchase 1) materials for the woodworking shop to support classes, 2) flower planters for the main entrance, and 3) deck furniture. This allocation also requires a 25% local match which will be provided via in-kind services of staff time to manage the project.

Pro:

- Purchases and improvements will enhance the customer experience and expand programming opportunities

Con:

- None

The allocation will increase the City's General Fund budget by $7,250 in accounts designated for the Senior Opportunity Center and Harvest House. The 25% local match will be provided through in-kind services of staff time to manage the projects.

Staff recommends City Council approval of the budget amendment authorizing the City Manager to establish a budget in the amount of 1) $3,625 for Senior Opportunity Center, and 2) $3,625 for Harvest House for facility improvements and equipment.

ORDINANCE BOOK NO. 31 - PAGE 145

D. RESOLUTION NO. 17-51 - RESOLUTION DIRECTING THE CITY MANAGER TO SELL CITY PROPERTY LOCATED AT 600 N. SKYLOFT DRIVE, UNIT A-201, TO CAMERON ORTIZ

Summary: The consideration of a resolution directing the City Manager to sell City property located at 600 N. Skyloft Drive, Unit A-201, to Cameron Ortiz for $145,000.

In 2008, the City established a deferred Housing Trust Fund Loan on property at 600 N. Skyloft Drive, Unit A-201 (PIN 9648-68-1640-C201) in the amount of $30,000. In July 2014, the City of Asheville purchased this condominium at a foreclosure auction in order to resell it and protect the City's original investment. The City's total purchase price at auction was $100,438.00. As of February 28, 2017, the City has paid out an additional $8,697 in bills to include an unpaid property tax bill, utility bills, condominium owner fees, and repairs to the unit. Including the original Housing Trust Fund loan, the foreclosure purchase price, and additional fees, the City has invested a total of $139,135 in this property.

Following the acquisition of this property, the Housing and Community Development Committee approved marketing the property to City Employees with affordable housing restrictions placed on the deed, including (1.) households must earn 100% or less the of Annual Median Income (AMI); (2.) the Skyloft condo must be their primary residence; and, (3.) the affordability restrictions would apply to any resale. Marketing was extended to all County employees and then to all government employees after a period of time. This did not yield a qualified buyer, therefore, City staff posted the listing on Zillow for $140,000 and on November 12, 2015, the City received an offer for the asking price, but the deal fell through because of the equity split provision within the deed restriction. Staff undertook work to restructure the deed restriction to satisfy the needs of a potential lender for future buyers. On January 31, 2017, staff finalized the revised deed restriction and adjusted the price to $145,000 to cover additional costs to the unit and to cover real estate broker listing and sales fees. This price would allow the City to break even if the sale included buyers' agent fees and some closing costs and still maintain affordable for income eligible buyers. Before staff actively listed the property with a real estate

agent, agent Chrissy Edwards of Keller Williams Realty, representing Cameron Ortiz, responded to the Zillow add and submitted a qualifying application at the asking price of $145,000.

N. C. Gen. Stat. sec. 153-163 authorizes a city that acquires a property by foreclosure in order to secure a debt due to the city, to sell said property by private sale for not less than the amount of its bid. According to N.C. Gen. Stat. sec. 160A-267 (private sale procedure), the City Council can authorize the appropriate City official to dispose of property by private sale at a negotiated price. The resolution provides authorization for the City Manager to sell the property at 600 N. Skyloft Drive, Unite A-201 to Cameron Ortiz for $145,000, subject to income eligibility, permanent deed restrictions concerning long-term affordability of the unit, and a requirement that the unit must be the primary residence of the owner. If the following resolution is adopted, a public notice summarizing the resolution will be published and the transaction will not take place until at least 10 days after publication.

Pros:

- Sale of an affordable unit to an income eligible buyer.
- Deed restrictions will preserve the property as permanently affordable.
- Private sale will recoup funds spent by the Housing Trust Fund to further affordable housing goals.

Con:

- None

Because this property is associated with the Housing Trust Fund Loan Program, the financial proceeds are to benefit that program as managed by the Community and Economic Development Department, and will reimburse the HTF account with the $139,135 that was invested in the property.

City staff recommends City Council adopt a resolution authorizing the City Manager to sell the property located at 600 N. Skyloft Drive, Unit A- 201A to Cameron Ortiz for $145,000, subject to income eligibility, permanent deed restrictions concerning long-term affordability of the unit, and a requirement that the unit must be the primary residence of the owner. In the event that Cameron Ortiz cannot complete the transaction due to financing issues or otherwise, then the City Manager is hereby directed to dispose of the property for the amount of $145,000, with a 10% increase or decrease in price subject to affordability standards, to an eligible buyer subject to the affordability restrictions as recognized above. Additionally, the City Manager is hereby authorized to execute any and all documents necessary to give full effect to this resolution subject to approval by the City Attorney, and compliance with applicable North Carolina law.

RESOLUTION BOOK NO. 38 - PAGE 366

E. RESOLUTION NO. 17-52 - RESOLUTION GRANTING THE CONVEYANCE OF 16.26 SQUARE FEET OF PERMANENT EASEMENT FOR EXISTING COLUMNS IN THE CITY RIGHT-OF-WAY AND PROPOSING TO ACCEPT AN OFFER FOR SALE OF 602.52 SQUARE FEET OF AIR RIGHTS AT 68 PATTON AVENUE TO MRK 68 PATTON ASHEVILLE LLC; AND DIRECTING THE CITY CLERK TO ADVERTISE FOR UPSET BIDS FOR THE SALE OF AIR RIGHTS AND IF NO BIDS ARE RECEIVED OR ACCEPTED, AUTHORIZING THE CITY MANAGER TO EXECUTE ANY AND ALL DOCUMENTS NECESSARY TO CONVEY THE EASEMENT AND AIR RIGHTS

Summary: The consideration of a resolution (1) granting the conveyance of 16.26 square feet of permanent easement for existing columns in the city right-of-way and proposing to accept an offer for sale of 602.52 square feet of air rights at 68 Patton Avenue to MRK 68 Patton Asheville, LLC; (2) directing the City Clerk to advertise for upset bids for the sale of air rights, and,

if no other bids are received or accepted, authorizing the City Manager to execute any and all documents necessary to convey the easement and air rights.

The City of Asheville controls the sidewalk and street right-of-way located at 68 Patton Avenue and in turn controls encroachments into the overhead airspace above the sidewalk. At this time, MRK 68 is planning to renovate the current structure in order to convert it into a hotel/ commercial building with balconies starting at the third floor. The plans call for the balconies to extend into the City controlled air space on the back side of the building on Commerce Street. Being that balconies are permanent, this encroachment into the public air space must be treated as a sale of property, and therefore the City requires that the sale of air rights follow certain disposition procedures; specifically the upset bid process. Exhibit A shows a sketch of the air space that is being requested on the back side of the building, which overlooks Commerce Street

The project was approved in January by the Technical Review Committee (TRC) with conditions. The project design was reviewed by the Downtown Commission but not approved. Only a review was mandatory. The project was presented to the Planning and Zoning (P & Z) Committee in February and approved contingent upon satisfying the conditions in the TRC report. Discussion of the air rights and easement by the Downtown Commission and P & Z was minimal due to the fact that this is not new construction and the columns that require an easement already exist and the balcony that requires a grant of air rights is being added onto an existing roof that encroaches into the right of way. Additionally, the granting of easements or sale of air rights is a City Council decision. There is an air rights policy that was drafted by the Planning Department and reviewed by the Downtown Commission, but not officially approved. Because the air rights being requested are on the back side of the project, namely on Commerce Street, it is in compliance with the draft policy which limits the balcony to five feet and requires that it be opaque.

On February 20, 2017, a qualifying bid was received from MRK 68 in the amount of $6,628 for the purchase of 602.52 square feet of air space for the purpose of constructing a permanent balcony onto an existing roof overhang during the proposed building renovation at 68 Patton Avenue. The proposed balcony is on the back side of the building which faces Commerce Street. This bid was based on a 2016 Commercial Appraisal of a nearby commercial property and reflects fair market value for the air rights. If the City Council approves the following resolution, the City Clerk will be directed to publish an advertisement for upset bids for a period of 10 days, in which any interested party may upset the current bid of $6,628. The statutes require that a qualifying bid must increase the current offer by 10% of the first $1,000 and 5% of the remainder (i.e. $7,010 or higher). Since the function of the upset bid process is to confirm fair market value, this resolution provides that if no qualifying, competing bid is received, then the City Council agrees to convey this specified area of air rights to MRK 68 for $6,628.

MRK 68 has also requested that they be granted a permanent easement for the existing structural columns that are on the Commerce Street side of the parcel. The City Staff recommends that the easement be granted at no cost because the columns have existed within the right-of-way since the building was constructed. The easement was calculated on the exact footprint of the columns that extend into the City's right of way. The total amount of square footage is 16.26 square feet.

Pros:

- The sale of the air rights will be at fair market value.

Cons:

- There is no negative impact.

Financial proceeds associated with this disposition are to benefit the City's General Fund.

City staff recommends City Council adopt a resolution (1) granting the conveyance of 16.26 square feet of permanent easement for existing columns in the city right of way and proposing to accept an offer for sale of 602.52 square feet of air rights at 68 Patton Avenue to MRK 68 Patton Asheville LLC; and (2) directing the City Clerk to advertise for upset bids for the sale of said air rights; and if no other bids are received or accepted, authorizing the City Manager to execute any and all documents necessary to convey the easement and air rights.

RESOLUTION BOOK NO. 38 - PAGE 367

Mayor Manheimer asked for public comments on any item on the Consent Agenda, but received none.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Councilwoman Mayfield moved for the adoption of the Consent Agenda. This motion was seconded by Vice-Mayor Wisler and carried unanimously.

III. PRESENTATIONS & REPORTS:

A. STRATEGIC OPERATING PLAN UPDATE

A written report was provided to the Council regarding edits to the Council's adopted strategic priorities from the 2017 Council Retreat.

In February 2017, Asheville City Council held the 2017 Council Retreat. At this time, Council reviewed their adopted Strategic Vision and Priorities. There were requested edits to Goals 9b, 10a/b, and 25. Below is also additional information to provide context for the edits.

Council Direction from Retreat:

Insert Goal 9c: Develop North Charlotte Street Innovation District (to start in 1-2018)
Continue; in examining the street, discovered some controversy that suggested that a new approach might be needed. The neighborhood is prepared to do something and the City may be out of sync. We should keep this goal queued and evaluate when to move it to the priority list. We may want to work with property owners to review and revise the current overlay district.

- Goal 9c has been added. The work plan will be developed by Cathy Ball and Todd Okolichany.

Goal 10a: Implement Zero Waste Asheville, including effective implementation of a pilot program and change management strategies for Pay As You Throw
Goal 10b: Implement Zero Waste Asheville, including the use of composting programs
Continue, but merge 10a and 10b again as "Goal 10: Implement Zero Waste Asheville" and revise the work plan

- Goals have been merged, an overall Zero Waste Asheville plan will be designed by Cathy Ball and Amber Weaver using components of the work plans developed for Pay As You Throw and Composting.

Goal 25: Research and recommend a portfolio of options toolbox for small business support (Zoning, Retention, Minority Business, Economic Incentives, and Communication regarding the work opportunity tax credit)
Continue; Break this goal into sub-goals (i.e. 25a, 25b, etc.) with components such as retention, incentives, small business support, zoning, and communication on the work opportunity tax credit. Create a work plan for each sub-goal.

Small Business Support –

- Minority Business Program -actively seeks to identify minority and women-owned businesses for an opportunity to participate as providers of goods and services to the city
    - Bidding Process - City staff works to promote minority business participation in the City's Capital Improvement Program projects by outreach with construction companies when they bid for work with the City.
    - Government-Business-Connect Fair aims to connect minority and women-owned business with City departments that contract out various jobs, from landscape maintenance to consulting.
    - Training and Workshops –
        - Doing Business with the Airport: NCDOT conducted training on certification but also the Airport staff met with attendees on how to find opportunities.
        - Public contracting training to help these businesses learn the process.
        - Small Business Program presentation on services and assistance they can receive as businesses.
        - Lending session hosted by Mountain BizWorks, with information about community development financial institutions, such as Self Help Credit Union, Carolina Small Business Development Fund, as well as traditional lenders

- Start Up in a Day Grant – used to launch Asheville Open For Business online tool to assist business owners in determining the zoning and business requirements for starting a new business in Asheville. http://openforbusiness.ashevillenc.gov/

- DSD Restaurant Guide – produced to help Asheville restaurateurs navigate the ins and outs of needed permits and inspections.

IV. PUBLIC HEARINGS:

A. PUBLIC HEARING TO CONSIDER THE PERMANENT CLOSING OF AN UNNAMED ALLEY BETWEEN 7 AND 19 AUSTIN AVENUE

RESOLUTION NO. 17-53 - RESOLUTION PERMANENTLY CLOSING AN UNNAMED ALLEY BETWEEN 7 AND 19 AUSTIN AVENUE

Interim Street Superintendent McCray Coates said that this is the consideration of a resolution to permanently close an unnamed alley between 7 and 19 Austin Avenue. This public hearing was advertised on February 17, 24, March 3 and 10, 2017.

N. C. Gen. Stat. sec 160A-299 grants cities the authority to permanently close streets and alleys.

Pursuant to this statute, adjoining property owners, Mark and Melissa Essig owners of parcel 9649460040 and David and Nancy Stainback owners of parcel 9649460150, have requested the City of Asheville to permanently close a portion of an unnamed alley between unnamed alley between 7 and 19 Austin Avenue. A copy of this resolution of intent was sent by registered or certified mail to all owner of this property abutting this alley, not joining in the petition to close.

Public Works staff notified other city departments and the utility companies and received no concern with this closure.

The Multimodal Transportation Commission met on January 25, 2017, and approved the closure.

Pros:

- There will be no future compromise of ingress/egress to other property
- The closure would allow for more efficient use of the existing adjacent properties
- Meets Council's goals of efficient land use and planning.

Con:

- None

There will be no fiscal impact related to this closure.

City staff recommends City Council adopt the resolution to permanently close an unnamed alley between 7 and 19 Austin Avenue.

Mayor Manheimer opened the public hearing at 5:02 p.m.

Ms. Melissa Essig, applicant, was available for questions.

Mayor Manheimer closed the public hearing at 5:02 p.m.

Mayor Manheimer said that members of Council have previously received a copy of the resolution and it would not be read.

Councilman Bothwell moved for the adoption of Resolution No. 17-53. This motion was seconded by Councilman Smith and carried unanimously.

RESOLUTION BOOK NO. 38 – PAGE 368

V. UNFINISHED BUSINESS:

VI. NEW BUSINESS:

A. ORDINANCE NO. 4565 - ORDINANCE ADOPTING THE 2017-18 FEES & CHARGES

Budget Manager Tony McDowell said that this is the consideration of an ordinance adopting the fee adjustments for Fiscal Year 2017-18.

Fees and charges are a significant revenue source for the City of Asheville, comprising 35% of city-wide revenue and 10% of General Fund revenue. Utilizing a fee for service model allows the City to recover service costs directly from those that benefit from the service. These fees generally fall into three major categories: general user fees and charges; regulatory fees; and public enterprise fees and charges.

Fees and charges are evaluated throughout the year, taking into consideration changes in service levels, demand for the service, and related costs of providing service. The proposed FY 2017-18 fee adjustments were reviewed by the City Council Finance Committee in detail on February 28, 2017, and unanimously suggested the changes in the fees. A full summary of the proposed adjustments to fees and charges was provided to Council. As staff continues preparation of the FY 2017-18 Manager's Recommended Budget, there may be additional fee adjustments that are brought forward as part of the budget presentation in May. All of the proposed fee adjustments would be effective July 1, 2017, but changes to the charges on the combined utility bill for water and stormwater will not be applied until September 1, 2017, to ensure that only services provided at the new rate are being billed.

Pros:

- Provides opportunity to recover the cost of services from those that directly utilize or benefit from the service where appropriate, reducing the financial burden of city services on taxpayers.
- Provides additional revenue to help balance the FY 2017-18 budget.
- Allows staff to communicate fee changes to citizens, customers, and stakeholders so they are aware of changes that will be implemented on July 1.

Con:

- A slight increase in the annual costs to Asheville citizens and customers.

Fees	FY17 Annual Cost	FY18 Annual Cost	Increase
Water - Single Family (5 CCF avg. monthly usage)	$323.76	$328.62	$4.86
Stormwater - Single Family (2,001-4,000 sq ft)	$52.92	$55.56	$2.64
Total Average Cost	$376.68	$384.18	$7.50

The proposed adjustments would generate estimated revenue as follows:

GENERAL FUND	$147,000
WATER FUND	$506,100
STORMWATER FUND	$423,700
TRANSIT FUND	$48,000
PARKING FUND	$266,100
US CELLULAR CENTER FUND	$120,000

Staff recommends City Council review the proposed fee adjustments for Fiscal Year 2017-18 and adopt the ordinance.

Vice-Mayor Wisler asked that the rental charge fee for 14 Riverside Drive be reviewed in approximately one year after the building is up and running.

Councilman Bothwell wondered if there is an estimate on increased parking revenues after the new parking meters are installed and they can be extended to a couple of more hours after 6:00 p.m.

When Mayor Manheimer asked for public comments, none were received.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the ordinance and it would not be read.

Councilman Smith moved for the adoption of Ordinance No. 4565. This motion was seconded by Councilman Bothwell and carried unanimously.

ORDINANCE BOOK NO. 31 – PAGE 147

B. RESOLUTION NO. 17-50 – RESOLUTION APPOINTING A MEMBER TO THE HOMELESS INITIATIVE ADVISORY COMMITTEE

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that the term of Hilliard Carlisle as the homeless or formerly homeless member on the Homeless Initiative Advisory Committee passed away.

The following individuals applied for the homeless/formerly homeless vacancy: Joey Grisanti, Angela Dubs and Randy Stoudt.

At the recommendation of the Homeless Initiative Advisory Committee (HIAC), Vice-Mayor Wisler moved to appoint Randy Stoudt to serve as the homeless/formerly homeless member on the Homeless Initiative Advisory Committee, term to expire November 1, 2019, or until his successors has been appointed. This motion was seconded by Councilman Smith and carried unanimously.

RESOLUTION BOOK NO. 38 - PAGE 365

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

Ms. Dee Williams, Rev. Amy Cantrell and Ms. Angel Archer all spoke to Council about the need to gather additional information before any increase in Asheville Police Department budget. They all felt that the $1 Million request for additional officers would be better spent on people and other life changing resources that create a safer community.

Mr. Joe Pendergraff spoke to Council about the need for more police presence at the Western North Carolina Aids Project parking lot.

Mayor Manheimer reminded Council to refrain from communicating with Task Force members while they deliberate on the task Council assigned to them.

Closed Session

At 5:24 p.m., Councilman Young moved to go into closed session for the following reasons: (1) To prevent disclosure of information that is privileged and confidential, pursuant to the laws of North Carolina, or not considered a public record within the meaning of Chapter 132 of the General Statutes. The law that makes the information privileged and confidential is N.C. Gen. Stat. § 143-318.10(a)(3). The statutory authorization is contained in N.C. Gen. Stat. § 143-318.11(a)(1); and (2) To consult with an attorney employed by the City about matters with respect to which the attorney-client privilege between the City and its attorney must be preserved. The statutory authorization is contained in N.C. Gen Stat. § 143-318.11(a)(3). This motion was seconded by Councilman Bothwell and carried unanimously.

At 5:37 p.m., Councilman Smith moved to come out of closed session. This motion was seconded by Councilman Bothwell and carried unanimously.

VIII. ADJOURNMENT:

Mayor Manheimer adjourned the meeting at 5:37 p.m.

Magdalen Bowlesan
CITY CLERK

Esther E. Manheimer
MAYOR

Tuesday – March 28, 2017 - 3:00 p.m.

Budget Worksession

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Cecil Bothwell; Councilman Brian D. Haynes; Councilwoman Julie V. Mayfield; Councilman Gordon D. Smith; Councilman W. Keith Young; City Manager Gary W. Jackson; City Attorney Robin T. Currin; and City Clerk Magdalen Burleson

Absent: None

Transit Expenditures Forecast and Planning Priorities

Assistant City Manager Cathy Ball said that Asheville's transit system is in a transitional period as we implement changes to transit operations, update the transit master plan, and absorb reduced federal funding.

The last transit master plan occurred in 2009. The following key statistics compare today's system to 2009:

Transit Statistics	**2009**	**2018**
Operating budget	$5,089,593	~$6,700,000
Number of routes	24	18
Number of buses	20	22
Revenue Hours	64,000	75,000
Peak demand	16 buses	17 buses
Ridership	1.6 million	2.2 million

2009 transit plan recommendations that have been accomplished include the following:

- Sunday service added to 9 routes for a total of 81 hours per week
- Improved service through fewer deviations
- Improved southbound service with the S6

2009 transit plan recommendations that did not occur include the following:

- Yearly commitment to purchase buses
- Design and construction of new Transit Center, Maintenance Facility, and Satellite Facilities
- Headway increases (to 15 min)

The Transit Committee recommendations (12/20/16) include 1) maintaining existing service, 2) expanding service until 10 p.m. on select routes, and 3) high-frequency service on major corridors.

New transit management contract. Looking forward, although we will not have a contract in place until Fiscal Year 2018, an independent transit operations estimate was developed that assumes a cost of $89.38 per hour of service for a total estimate of $6,722,359.

This budget is approximately $1,000,000 more than Fiscal Year 2017 due to:

- increased service as a result of a new route (S6) and additional service hours started in January 2017, and
- expected additional costs associated with the new 'turn-key' contract, which may also require additional city staff for management and oversight

It is possible that total costs may decrease as the contractor will carry incentives to reduce costs under the model. The current estimate was developed in order to help staff determine the responsiveness of bids, and the new contract will be solidified by July 1, 2017.

FTA apportionment. At the same time that transit costs are rising, the funding formula for FTA Section 5307 will reduce Asheville's share of federal dollars as Buncombe and Haywood County now qualify for a share of the urbanized area apportionment. It is expected that Asheville's share of 5307 funding will be reduced from 82.8% to 42.6% over a three year period, a 51% reduction. This cut will primarily affect the transit budget's capital needs.

Transit master plan. In one month we will release an Request for Proposals for a transit master plan to review the transit system comprehensively. The plan is expected to be complete in the Spring of 2018.

Key Considerations:

- Bus Fleet. The bus fleet has not kept up with an adequate replacement schedule. Under current conditions, ten (10) new buses should be purchased within the next three years or we jeopardize bus service. After this replacement, we need to begin a regular bus purchase schedule of two to three vehicles per year just to maintain a balanced fleet.
- On Time Performance. On Time Performance (OTP) for buses was 63% in FY15, 60% in FY16, and is currently 55% for FY17. Staff have determined that poor OTP is due to both operational issues and systemic issues related to route timing and configuration. The operational issues will be addressed through the new 'turn-key' contract, and the systemic issues will be addressed with the new Transit Master Plan.
- Transit Center and Maintenance Facility. The Downtown Transit Center is at capacity and the interior is in poor condition. The Maintenance Facility ("Transit Garage") that houses and repairs buses was built in 1971 and is reaching the end of its 50 year useful life.

Staff recommends that near-term budget decisions prioritize funding to support an adequate bus fleet and any needs associated with the new transit management contract, including an additional city transportation staff person. Next year the transit master plan will deliver a thorough review of the transit system, which will allow us to prioritize the budget accordingly.

She provided Council with the Bus Replacement Schedule, which provides the current and proposed bus fleet projected over the next fifteen years. The expected life of buses is twelve years or 500,000 miles. The bottom of the chart highlights the number of buses that should be ordered each year in order to maintain a healthy fleet.

She also provided Council with the ART service expansion estimate (Just Economics' request). This document provided the financial impacts of expanded ART service that would occur should the transit service be expanded according to the following alternative scenarios: (1) Expansion of service to all routes to 10:00 p.m. and midnight service on major corridors; and (2) Only midnight service on major corridors.

She asked for Council's support to (1) implement the management contract change; (2) update the Transit Master Plan; and (3) begin design for the capital improvements to the transit facility.

Throughout the presentation and discussion, City Manager Jackson and various staff responded to various questions/comments from Council, and those which could not be readily responded to would be provided to Council in a memorandum format. Some questions raised include: what is the cost difference between the old management contract vs. what we expect with the new management contract; details on the FTA reduced amount to Asheville; request to have the numbers in the Transit Master Plan early in order to prepare the budget for 2018-19; need to focus on the federal legislative agenda and make sure that our representatives are aware of the impact further cuts would have on people in their districts; how will the City try to make up the reduction of Asheville's share of federal dollars; possibility of creating additional revenue when parking meters are programmed longer in the evenings; request for a breakdown of cost recovery from the following sources: ridership, grant resources, parking subsidy and General Fund subsidy; and is there transit service expansion possible without capital investment.

Councilwoman Mayfield encouraged communication with transit advocates to figure out what the high priorities should be coming out of the Transit Master Plan.

It was the consensus of Council to support implementation of the management contract change, to update the Transit Master Plan, and to begin design for the capital improvements to the transit facility.

Energy Innovation Task Force

Councilwoman Mayfield presented a list of Energy Innovation Draft Recommendations to City Council, similar to what was presented to Council at the March 14, 2017, worksession.

After considerable discussion and responses from Councilwoman Mayfield and staff, the City Manager was directed to build the Fiscal Year 2017-18 budget with the following elements to come out of Fund Balance: (1) Implement education and training for city staff, building professionals, HVAC contractors, building owners and the general public - $25,000; (2) pursue opportunities for renewable energy and storage installations on City facilities and properties - $25,000; (3) encourage voluntary, quantifiable efficiency retrofits in privately owned commercial buildings - $25,000; (4) promote program offerings from EITF with City employees via education, outreach and support/remove barriers - $2,500; (5) Comprehensive Energy Audit for all City-owned facilities -$75,000; and (6) support ongoing engagement of Rocky Mountain Institute in analysis of programs and creation of EITF 2-Year Action Plan - $50,000. In addition, the investments in existing programs that provide low income weatherization to city homes (amount to be determined) to be reviewed by the Housing & Community Development Committee for use of Housing Trust Fund monies.

Master Urban Forest Plan

Councilman Bothwell said that the Tree Commission shared information to the City Council Planning & Economic Development Committee regarding guiding Asheville toward creating and implementing a Master Urban Forest Plan. The tree canopy study is part of the master plan. Eventually, the plan may require adding an Urban Forester position to City staff.

A summary of the overview of the Master Urban Forest Plan implement activities are as follows: (1) Gap Analysis - estimated cost $20,000 - 1 year estimated time to complete; (2) Urban Tree Canopy Analysis - estimated cost $10,000 ($5,000 NCFS match) - 9 months estimated time to complete; (3) Inventory of City-owned Streets & Park Trees - estimated cost $75,000 - gap analysis plus 1 year is estimated time to complete; (4) Community Engagement - estimated cost $20,000 - gap analysis plus 1 year is estimated time to complete; (5) Valuation

and Analysis - estimated cost $30,000 - inventory plus 6 months is estimated time to complete; (6) Plan Preparation - estimated cost $25,000 - valuation and analysis plus 6 months is estimated time to complete; and (7) Requisition of Application of Custom Monitoring System in Support of Management Outputs - estimated cost $15,000 - inventory plus 6 months is estimated time to complete.

City Manager Jackson was directed to build the Fiscal Year 2017-18 budget with the $25,000 for the Tree Canopy Study to come out of Fund Balance.

City Manager Jackson updated the Council on some of the outstanding items out of the March 14, 2017, worksession.

Mayor Manheimer announced at the April 11, 2017, worksession, the discussion will be on the capital budget and fund balance.

At 4:20 p.m., Mayor Manheimer adjourned the worksession.

Tuesday – March 28, 2017 - 5:00 p.m.

Regular Meeting

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Cecil Bothwell; Councilman Brian D. Haynes; Councilwoman Julie V. Mayfield; Councilman Gordon D. Smith; Councilman W. Keith Young; City Manager Gary W. Jackson; City Attorney Robin T. Currin; and City Clerk Magdalen Burleson

Absent: None

PLEDGE OF ALLEGIANCE

Mayor Manheimer led City Council in the Pledge of Allegiance.

I. PROCLAMATIONS:

A. RECOGNITION OF DONATION OF AUDIO FREQUENCY INDUCTION LOOP SYSTEM IN COUNCIL CHAMBER

Mayor Manheimer said that in August, 2017, Mr. Carl Chesnick of All Ears Hear Hear reached out to the City to donate an Audio Frequency Induction Loop System in the Council Chamber on behalf of the Asheville Breakfast Rotary Club. This system is a tool for people with hearing loss. The system is tied into the existing PA system and will work for hard of hearing people who have a t-coil app installed on their hearing aid device. The system has been installed for the last month and we have received positive responses from those who have used the system.

On behalf of the City Council and the citizens of Asheville, she thanked Mr. Chesnick and Mr. Danny LaSure, President of the Asheville Breakfast Rotary Club, and Mr. David Nelson, representing the Asheville Chapter of the Hearing Loss Association of America, for enabling our citizens to better hear and engage in Council meetings.

B. PROCLAMATION PROCLAIMING APRIL 4, 2017, AS "NATIONAL SERVICE RECOGNITION DAY"

Councilman Bothwell read the proclamation proclaiming April 4, 2017, as "National Service Recognition Day" in the City of Asheville. He presented the proclamation to Ms. Stacy

Friedsland, Foster Grandparent Program Manager of the Land-of-Sky Regional Council, and others, who briefed City Council on some activities taking place during the day.

C. PROCLAMATION PROCLAIMING APRIL 6, 2017, AS "NATIONAL TARTAN DAY"

Vice-Mayor Wisler read the proclamation proclaiming April 6, 2017, as "National Tartan Day" in the City of Asheville. She presented the proclamation to Mr. Judson Lohr, and others, who briefed City Council on some activities taking place during the day.

II. CONSENT AGENDA:

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON MARCH 14, 2017

B. ORDINANCE NO. 4566 - BUDGET AMENDMENT FOR THE TRANSIT MASTER PLAN STUDY

Summary: The consideration of a budget ordinance amendment in the amount of $120,000 from federal grant funding and a local City match from the Transit Operating Fund to set up the project budget for the update of the City of Asheville Transit Master Plan.

The City of Asheville was awarded federal Surface Transportation Program - Directly Attributable (STP-DA) funds for the update of the Transit Master Plan on October 14, 2015. The City received $120,000, with 80% or $96,000 funded by the grant with 20% or $24,000 match requirement.

The City of Asheville was awarded federal Surface Transportation Program - Directly Attributable (STP-DA) funds for the update of the Transit Master Plan on October 14, 2015. The City received $120,000, with 80% or $96,000 funded by the grant with 20% or $24,000 match requirement.

As the city grows the system is facing new challenges that affect performance, such as congestion, events, festivals, etc. that require a fresh look and a close analysis of the operational conditions. The update of the Transit Master Plan will reexamine operational and maintenance requirements and projected capital needs in the short, medium and long term.

The Request for Proposals will be released when this budget amendment is approved. Staff estimates that it will take 13-15 months to go through the evaluation process and project development. The update will be available for public review in about 12 months and eventual Council adoption thereafter.

Pro:

- These funds will allow the city to update the Transit Master Plan, seeking operational efficiencies and planning for future capital needs.

Con:

- Project is funded with Surface Transportation Program - Directly Attributable (STP-DA) funds in the amount of $96,000. The city is responsible for the local match in the amount of $24,000 that come from the Transit Operating budget.

The total financial impact for the subject projects is $120,000, 80% funded with federal funds and 20% from the Transit Operating budget. The match will come from the existing FY 2016-17 Transit Fund budget.

Staff recommends that City Council adopt a budget ordinance amendment in the amount of $120,000 from Federal Funds to setup the project budget for update of the Transit Master Plan.

ORDINANCE BOOK NO. 31 - PAGE 152

C. RESOLUTION NO. 17-54 - RESOLUTION AUTHORIZING THE CITY MANAGER TO CONVEY A SANITARY SEWER EASEMENT AT 172 S. CHARLOTTE STREET TO THE METROPOLITAN SEWERAGE DISTRICT FOR MAINTENANCE

Summary: The consideration of a resolution authorizing the City Manager to convey a sanitary sewer easement to the Metropolitan Sewerage District of Buncombe County (MSD) to accommodate maintenance on the service lines at the White Labs site at 172 S. Charlotte Street.

The City of Asheville owns property at 172 South Charlotte Street. In 2015, the City approved an economic development agreement wherein the property was leased to White Labs, Inc. to locate a yeast manufacturing facility in this location. White Labs, Inc. is currently making improvements to the property and this includes changes to the utilities on site. The MSD sewer line that crosses the property will now terminate at a new manhole which is near the entrance on South Charlotte Street. White Labs installed the manhole and has been required by MSD to extend an easement beyond the manhole to the first cleanout of each of the existing service lines in order to allow maintenance.

MSD is requesting an easement that is 10 (ten) feet on either side of the service line for a total of 701.5 square feet of permanent easement. The City of Asheville has consulted with White Labs to insure that the easement serves their needs. City stakeholders have also been consulted and City staff finds no issues with the granting of this easement.

Pros:

- Granting of the easement will allow MSD to continue regular maintenance on sewer infrastructure that serves 172 S. Charlotte Street.
- Utility Improvements have been made that were paid for by the tenant.

Cons:

- None

No monetary consideration involved in this conveyance.

City staff recommends City Council approve a resolution authorizing the City Manager to convey a 701.5 square foot permanent easement across City-owned property at 172 South Charlotte Street.

RESOLUTION BOOK NO. 38 - PAGE 370

D. RESOLUTION NO. 17-55 - RESOLUTION ACCEPTING THE DOWNTOWN COMPREHENSIVE PARKING STUDY

Summary: The consideration of a resolution to accept the Downtown Asheville Comprehensive Parking Study to be used as a resource document and to provide policy direction to staff.

Although the Parking Enterprises Fund has been and continues to be very healthy, staff continues to receive requests regarding parking needs on a regular basis. In order to address

these needs and to make the most efficient use of the overall limited funds, staff is developing a long-term parking program (LTPP).

The steps in developing a long-term parking program (LTPP) include having a consistent and ongoing revenue stream, having available resource documents (for example; the comprehensive parking study), and having a 10-year parking capital improvements program (PCIP).

The comprehensive parking study includes a background section listing general statutes and City ordinances related to parking functions, a benchmarking section providing information on public on-street and off-street parking facilities for 50 peer cities, a section on various parking strategies used throughout the United States, a section on various funding strategies used throughout the United States, and analyses regarding the possibility of a downtown shuttle that includes two phases. The first phase includes the downtown central business district and the second phase includes the downtown central business district, Biltmore Village, the River Arts District, and Haywood Road in West Asheville. In addition, a 10-year financial model has been prepared that helps staff determine when additional debt could be incurred including any fee and rate increases that would be needed to meet the anticipated capital needs. The comprehensive parking study will be a valuable resource document that complements the various parking studies that have been completed including the downtown parking study that is updated on a two-year cycle with new occupancy data for on-street and off-street parking facilities. The next update is scheduled to occur during October 2017. Staff is currently working with Buncombe County to update all of the land uses in the Central Business District.

The 10-year parking capital improvement program (PCIP) is reviewed and updated on an annual basis and appropriate adjustments are made during each budget cycle. The foundation or anchoring piece of the program is the need to make sure that the parking infra-structure, especially the four parking garages, is well maintained, up-to-date, and customer friendly. Since the Civic Center Parking Garage is 40 years old, a structural engineer has performed an assessment and has prepared an action plan to extend its service life by 30 years by investing a total of $9,000,000 over the 30-year period. This action plan is now incorporated into the PCIP. Similar assessments are now being done for the Rankin Avenue and Wall Street parking garages.

Table 1 includes parking strategies that have been accomplished, are currently underway, and are identified within a 10-year timeframe.

Table 1

Parking Strategy	Status
Prepare a parking study in the CBD including supply and demand.	This strategy was accomplished in 2008 and the occupancy rates are updated on a two-year cycle. The next update is scheduled to occur during October 2017.
Initiate an advertising program regarding parking in the CBD.	This strategy has been accomplished. A yearlong contract has been executed with Asheville Radio Group for 2017.
Seek the Accredited Parking Organization (APO) award from the International Parking Institute (IPI).	This strategy is in process. The application has been submitted and the site visit has occurred.
Replace the existing elevator in the Civic Center Parking Garage.	This strategy is in process. Construction bids have been opened and are currently being reviewed. The contract should be coming to City Council during April 2017.
Implement the action plan to extend the service life of the Civic Center Parking Garage to 30 years.	This strategy is in process. Appropriate steps will begin during FY 2018 (the action plan is now included in the 10-year PCIP).

Assess the Rankin Avenue Parking Garage to prepare an action plan to be able to extend its service life by 30 years.	This strategy is in process. A structural engineer is currently assessing the parking garage and preparing the appropriate action plan.
Assess the Wall Street Parking Garage to prepare an action plan to be able to extend its service life by 30 years.	This strategy is in process. A structural engineer is currently assessing the parking garage and preparing the appropriate action plan.
Replace existing on-street parking meters in the CBD with smart (credit card) parking meters.	This strategy is in process. A RFP has been issued and proposals are due on March 24, 2017. All the existing on-street parking meters should be replaced by June 30, 2018.
Install new smart (credit card) parking meters in the South Slope of the CBD.	This strategy should begin during FY 2019 (after the existing parking meters are replaced).
Install new smart (credit card) parking meters in other areas of the city.	This strategy is subject to City Council policy direction (establish new meter zones).
Expand enforcement hours for on-street parking in the CBD beyond 6:00 pm.	This strategy is subject to City Council policy direction (could begin during FY 2019 after the existing parking meters are replaced).
Replace and/or update existing parking equipment including gates and associated software.	This strategy should begin during FY 2019.
Consider a reduced parking rate for city residents.	This strategy is subject to City Council policy direction (could be studied after the strategy to replace and/or update the existing parking equipment including gates and associated software is completed).

The Downtown Commission reviewed the document on March 10, 2017.

The Planning and Economic Development Committee reviewed the document on February 21, 2017, and recommended that it move forward to City Council.

Pros:

- Serves as a resource document including extensive benchmarking from peer cities.
- Complements various parking studies that have been completed.

Cons:

- There are no known cons.

There is no immediate fiscal impact for the recommended action.

Staff recommends that City Council accept the Downtown Asheville Comprehensive Parking Study to be used as a resource document and to provide policy direction to staff.

At the request of Councilman Bothwell, Traffic Engineer Jeff Moore said that he would provide Council with information on how the Parking Study is being applied (since it is dated July, 2016) and how we are moving forward on some of the ideas.

Councilman Smith said that after the Planning & Economic Development Committee review of the document, they asked the City Manager to work on action steps that came out of that based on previous Council direction. City Manager Jackson noted that the resolution includes direction to staff as follows: (1) The City Council hereby accepts the Downtown Asheville Comprehensive Parking Study to be used as a resource document and to provide policy direction to staff; (2) The City Council accepts the recommendation for a series of rate

adjustments to fund multiple capital projects for system growth as well as enhancements; (3) The City Council accepts the recommendation to revisit the Code of Ordinances as they relate to the parking violation fines, penalties, and late fees. Additionally, the City Council accepts the recommendation to investigate expanding the hours of enforcement later in the evening; (4) The City Council accepts the recommendation to establish a "Repair and Replacement" Fund and make pre-determined annual budget allocations for this purpose; and (5) The City Council accepts the recommendation to continue investing aggressively in short and long-term "smart" parking technologies and programs. He said that he will come back with an action plan for the Parking Study.

RESOLUTION BOOK NO. 38 - PAGE 371

E. RESOLUTION NO. 17-56 - RESOLUTION AUTHORIZING THE CITY MANAGER TO APPLY TO THE FRENCH BROAD RIVER METROPOLITAN PLANNING ORGANIZATION FOR GRANTS OF FEDERAL TRANSPORTATION FUNDS, TO SIGN A LETTER OF COMMITMENT FOR LOCAL MATCHING FUNDS, AND IF THE APPLICATIONS ARE SUCCESSFUL, TO ACCEPT GRANTS AND SIGN THE APPROPRIATE AGREEMENTS

Summary: The consideration of a resolution authorizing the City Manager to apply to the French Broad River Metropolitan Planning Organization (MPO) for grants of federal transportation funds, to sign a letter of commitment for local matching funds, and if the applications are successful to accept grants and sign necessary agreements with the MPO, or state or federal agencies to receive the funds.

The French Broad River MPO plays a role in programming federal transportation dollars for local projects. Some of the funding is programmed through a competitive call for projects.

A call for projects is currently open until March 31, 2017 from the funding source of STBG-DA (formerly STP-DA) for fiscal years 2018 and 2019. Local governments in Buncombe, Haywood and Henderson counties and NCDOT Division offices are eligible to apply.

In the past, the City of Asheville received awards from this funding source for sidewalks on Hendersonville Road and New Leicester Highway, right of way funding for the RADTIP, and other small projects.

City staff evaluated eligible projects in the City's Capital Improvements Program, and developed an application for funds based on the following criteria:

- Alignment of the project timeline with availability of the funds in FY 18 and FY 19.
- Ability of the project to meet all federal requirements.
- Competitive project that will provide multi-modal transportation facilities.

Based on these criteria, City staff selected the Beaucatcher Greenway Project as a candidate for these funds. City staff intends to submit an application requesting funding in the amount of $4 million, which is 80% of the projected cost of approximately $5 million. This most recent estimate accounts for rising construction costs in the current economic climate. The cost estimate reflects a revised scope based on the main alignment for the greenway and does not include spur connections.

Staff has not identified an alternate project that meets the above criteria, specifically projects with available matching funds in the FY 18 and FY 19 budget.

The Finance Committee will review this recommendation at their March 28, 2017 meeting.

Pros:

- This funding will enable the City to deliver a multi-modal transportation project that is programmed in the CIP.
- Funding availability is aligned with the scheduled construction timeline.
- The required matching funds are already budgeted for this project.

Con:

- None

This project is currently programmed in the City's Capital Improvements Program. The amount of programmed funding already in the City's approved capital budget will provide the required match for these federal funds.

Staff recommends City Council adopt a resolution authorizing the City Manager to apply to the French Broad River MPO for grants of federal transportation funds, to sign a letter of commitment for local matching funds, and if the applications are successful to accept grants and sign necessary agreements with the MPO, or state or federal agencies to receive the funds.

RESOLUTION BOOK NO. 38 - PAGE 372

F. ORDINANCE NO. 4567 - ORDINANCE AMENDING THE DOWNTOWN COMMISSION MEMBERSHIP

Summary: The consideration of a resolution amending the Asheville Downtown Commission ordinance relative to the Asheville Downtown Association seat on the Asheville Downtown Commission.

The Asheville Downtown Commission was established by City Council to serve as an advisory body for the sustainability and continued development of downtown. The Commission consists of 11 members, including two members appointed by the Buncombe County Board of Commissioners, one member of the City Council appointed by the City Council, seven members appointed by the City Council from the private sector of the community, and one member as a representative from the Asheville Downtown Association.

Chapter 2, Article III, Division 3 of the Asheville City Code specifies the requirements for the Asheville Downtown Association seat. In the past, the code has required that the representative in this seat be the President, a Board Member and/or a Member of the Asheville Downtown Association.

At the January 10, 2017, Downtown Commission meeting, Commissioners voted to recommend a wording amendment to the affiliation requirements for the Asheville Downtown Association seat. The wording of Section 2-76(b)(4) in Division 3 of Chapter 2 would read, "A member of the board of directors or the executive director of the Asheville Downtown Association." The wording of 2-76(c) would be amended to remove "the President of" the Asheville Downtown Association.

The proposed amendment aligns with the City Council 2036 Vision, most specifically with the goal of having a connected and engaged community. While the Asheville Downtown Commission as a whole contributes to this Vision, the wording amendment also ensures that the City is building upon its partnership with the Asheville Downtown Association to support effective engagement and enhanced communication between organizations. Specifying that the Asheville Downtown Association representative be a board member or the executive director of the organization helps ensure that the initiatives from both bodies are being communicated and coordinated, thus more effectively representing downtown interests and advising Council.

With strengthened coordination between the Asheville Downtown Association and Asheville Downtown Commission, other goals identified in City Council's 2036 Vision may be supported more effectively, such as supporting local businesses (Thriving Local Economy) and improving walkability (Transportation and Accessibility), both of which are initiatives of the Asheville Downtown Association.

This item was reviewed by the Boards & Commissions Committee on March 14, 2017, and they unanimously recommended approval and that the item be moved forward to City Council.

Pro:

- Strengthens Asheville Downtown Association representation on the Asheville Downtown Commission, supporting enhanced communication and coordination.

Con:

- Provides Asheville Downtown Association with limited flexibility on who they may appoint as their representative on the Asheville Downtown Commission.

City staff and the Downtown Commission recommend that City Council approve revisions to the wording of Ordinance 2-76(b)(4) and 2-76(c) in Article III, Division 3 of Chapter 2 in the City Code of Ordinances

ORDINANCE BOOK NO. 31 - PAGE 154

G. RESOLUTION NO. 17-60 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CONSTRUCTION CONTRACT WITH BUCKEYE BRIDGE, LLC, FOR THE NEIGHBORHOOD ENHANCEMENT PROJECT AREA 2 WATER DISTRIBUTION SYSTEMS PROJECT

Summary: The consideration of a resolution authorizing the City Manager to execute a construction agreement with Buckeye Bridge, LLC, for the NEP Area 2 Water Distribution Systems Project for the bid amount of $2,674,820 plus a 12% contingency in the amount of $321,000 for a total project budget in the amount of $2,995,820.

On February 20, 2017 the Water Resources Department (WRD) issued an Advertisement for Bids for the NEP Area 2 Water Distribution Systems Project. The scope of work for this project includes, but is not limited to, all labor, materials, equipment, and incidentals required for the installation of approximately 26,100 Linear Feet of 6-inch Ductile Iron Pipe and related appurtenances located in the Tiny Farms and Mt. Carmel Acres Subdivisions located in the northwest area of the City of Asheville Water Distribution System.

In response to the Advertisement for Bids, the department received five bids on March 14, 2017. Companies responding were:

1. Buckeye Bridge, LLC; Canton, NC – Bid: $2,674,820
2. Cooper Construction Company, Inc.; Hendersonville, NC – Bid: $2,677,467
3. Hall Contracting Corporation; Charlotte, NC– Bid: $3,787,920.00
4. Steppe Construction, Inc; Mill Springs, NC - Bid: $3,473,855.00
5. T&K Utilities, Inc.; Asheville, NC– Bid: $3,312,200.00

Following a review of the bids by City Staff and the project engineers, W.K. Dickson & Co., Inc., Buckeye Bridge, LLC, was selected as the lowest responsible, responsive bidder for the bid amount of $2,674,820. A contingency amount of $321,000 has been added for a total project budget in the amount of $2,995,820.

Pros:

- This project will replace existing waterlines. The subject lines are undersized, provide inadequate fire protection, and/or have a high risk of failure.
- This project is aligned with the City and the WRD goal of continued investment and improvement of the City's water system through Capital Improvement Projects, in order to provide safe and reliable service.
- Replacement of these lines will help to improve the service and reliability of the water system with an overall reduction of water loss due to the older lines being more prone to undetectable leaks and failures.

Con:

- Failure to award a construction contract would prevent the completion of the water system improvements.

The funding needed for the construction agreement is currently allocated within the Water Resources Capital Improvements Project (CIP) Fund in the 2015 NEP Area 2 Project.

Staff recommends City Council adopt a resolution authorizing the City Manager to execute a construction agreement with Buckeye Bridge, LLC, for the NEP Area 2 Water Distribution Systems Project for the bid amount of $2,674,820 plus a 12% contingency in the amount of $321,000 for a total project budget in the amount of $2,995,820.

RESOLUTION BOOK NO. 38 - PAGE 376

H. RESOLUTION NO. 17-58 - RESOLUTION AUTHORIZING THE CITY MANAGER TO APPLY TO THE FRENCH BROAD RIVER METROPOLITAN PLANNING ORGANIZATION FOR SECTION 5310 FUNDS, AND IF AWARDED, TO SIGN ALL APPROPRIATE AGREEMENTS

Summary: The consideration of a resolution authorizing the City Manager to apply to the French Broad River Metropolitan Planning Organization (FBRMPO) for Section 5310 Funds, and if the application is successful, to accept the grant(s) and sign all the appropriate agreements with the FBRMPO, State, and/or Federal agencies to receive the funds.

The FBRMPO has opened a call for projects to use FTA Section 5310 Funds, which are used to provide enhanced mobility to seniors and individuals with disabilities with an application deadline of March 31, 2017.

The FBRMPO expects to have about $324,822 available from the FY 2016 FTA apportionment and the funds are expected to be distributed via this competitive call for projects.

Staff is pursuing funding in the amount of $187,500 to help offset the annual cost of providing paratransit service. If the city is awarded the grant, the funds would be programmed in the city's operating fund for FY 2018-19.

The project is ready to move forward as funding becomes available.

This action complies with the City Council's 2036 Vision in the Transportation and Accessibility focus area by making sure that transportation options are available for everyone.

Pros:

- Enables the use of Federal funds to help provide needed assistance.
- Enables the City to offset part of the annual operating cost to provide transit service.

Con:

- City would be responsible for the local match which would be a maximum of $37,500.

The maximum amount of the grant is $187,500 and it includes the local match which would be $37,500 which is 20% of the total amount. The local match would come from the transit operating budget for FY 2018-19.

City staff recommends that City Council adopt a resolution authorizing the City Manager to apply to the French Broad River Metropolitan Planning Organization (FBRMPO) for Section 5310 Funds, and if the application is successful, to accept the grant(s) and sign all the appropriate agreements with the FBRMPO, State, and/or Federal agencies to receive the funds.

RESOLUTION BOOK NO. 38 - PAGE 374

I. RESOLUTION NO. 17-59 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO AN AMENDED MEMORANDUM OF UNDERSTANDING BETWEEN THE CITY OF ASHEVILLE, BELL ATLANTIC MOBILE OF ASHEVILLE INC (D/B/A VERIZON WIRELESS), AND NEW CINGULAR WIRELESS, LLC (D/B/A AT&T) FOR THE TOWER REPLACEMENT PROJECT AT 166 RESERVOIR ROAD

ORDINANCE NO. 4568 - BUDGET AMENDMENT REGARDING THE TOWER REPLACEMENT PROJECT AT 166 RESERVOIR ROAD

Summary: The consideration of a resolution to authorize the City Manager to enter into an amended Memorandum of Understanding between the City, Bell Atlantic Mobile of Asheville, Inc. (dba Verizon Wireless), and New Cingular Wireless, LLC (dba AT&T) for the tower replacement project at 166 Reservoir Road; and a budget amendment in the amount of $300,000 to eliminate (reduce) the project budget previously established in the City's General Capital Projects Fund for this project.

On February 14, 2017 the City Council adopted a resolution authorizing the City Manager to enter into a Memorandum of Understanding concerning the replacement of the lower telecommunications tower on City-owned property at 166 Reservoir Road. After further discussions with the primary tenant, AT&T, staff is bringing forward a revised project concept for Council's consideration.

Under the prior arrangement, AT&T had agreed to provide funding for the project with the City serving as project manager for the engineering, design and construction of the project. Last fall, the City had engaged a Raleigh-based tower engineering firm, Vertical Solutions, Inc., to provide preliminary engineering services for the tower project and the City planned to continue working with Vertical Solutions through the construction phase. A major setback occurred when this firm abruptly closed its business in late February. Although preliminary engineering work for the new tower was complete, the City faced a significant hurdle to achieve an on-time project with the loss of its primary engineering lead.

Upon sharing this information, AT&T proposed a new arrangement to essentially modify the roles for each entity in the project, with the same financial and timeline objectives as originally agreed upon. Rather than the City serve as the project and construction lead, AT&T would assume responsibility to construct the tower. At this time, the following modified terms have been discussed and agreed upon in principle as an updated project concept:

- AT&T will serve as project manager for the engineering, design, and construction of this project. AT&T will perform the construction of the new tower and demolition of the old tower.
- AT&T agrees to pay for the total construction costs of the new tower and demolition of the existing tower. The current estimate is $275,000 and will be determined by final bids and true costs.

- In consideration of AT&T's contribution, the City would agree to rental abatement for the full construction amount. The rental abatement will be set forth in a license agreement wherein AT&T is granted a 15 year term of occupancy (structured as 3 - 5 year terms.) and rental abatement is calculated at the current fair market value ($37,500 per year), plus a 3% escalation rate of each year. No rent is paid until construction costs are abated. Current estimates indicate that AT&T will commence paying rent sometime in year seven of the agreement at a graduated rate of approximately $44,700 per year.
- Construction completion is expected before the end of the calendar year 2017.

As a new tenant to the tower, Verizon's agreement remains the same as before. Terms have been set forth, as follows:

- Verizon requests a 15 year term (structured as 3 - 5 year terms.)
- Verizon's rent will commence once the tower construction is complete, at the established fair market value of $37,500 per year with annual increases of 3% per year.
- The City has verified that this rate is consistent with municipal tower rates across North Carolina and is considered fair market value.
- Verizon must also execute the MOU acknowledging the construction project and process.

The City will continue to work hand in hand with AT&T to ensure a quality final product. The design, placement and other project elements that were represented in the prior report will remain unchanged. Given their experience in tower construction, AT&T has capacity to perform this project on time and on budget.

Pros:

- Capital improvements - tower construction costs - fully funded and construction managed by AT&T.
- Long term commitment from the tenants will secure revenue stream for the City.
- Dedicates a portion of the site to long term public safety communications use.
- New tenant (Verizon) contributing rent to the general fund; AT&T will commence paying rental once construction costs have been abated.

Cons:

- Future recreational use will need to accommodate public safety telecommunication towers into the design.
- Uncertain if the existing tenant, T-Mobile, will seek to relocate to the new tower or will move to a different location. T-Mobile's existing lease will end once new tower is completed.

Replacing the existing tower benefits the general fund through continued tower lease revenues and supports upkeep of the City's public safety communications infrastructure with minimal capital expenditures from the City. The Capital Projects budget will be amended to eliminate the budget previously established for the tower replacement project.

Staff recommends that the Council adopt the amended resolution authorizing the City Manager to enter into a Memorandum of Understanding between the City, Bell Atlantic Mobile of Asheville, Inc. (dba Verizon Wireless), and New Cingular Wireless, LLC (dba AT&T) for the tower replacement project at 166 Reservoir Road and the associated budget amendment.

RESOLUTION BOOK NO. 38 - PAGE 375
ORDINANCE BOOK NO. 31 - PAGE 155

J. ORDINANCE NO. 4569 - BUDGET AMENDMENT FOR BIKE SHARE FEASIBILITY STUDY

Summary: The consideration of a budget amendment in the City's Special Revenue Fund in the amount of $50,000 to budget $25,000 in federal grant funds awarded through the French Broad River Metropolitan Planning Organization (MPO) along with the City's budgeted match of $25,000 for the city's bike share feasibility study.

In July 2014 City Council authorized the City Manager to apply for and to execute agreements to accept the funding for several grants from the French Broad River MPO, including $25,000 for a bike share feasibility study. The agreement for the study is now in place, and matching funds are in the budget, but the budget must be amended to authorize the receipt and expenditure of the grant funds.

Pros:

- allows the City to move forward a bike share feasibility study to explore the opportunity before committing significant labor and capital
- leverages $25,000 in grant funding

Con:

- grant requires $25,000 in local match, which is already in the budget

As noted above, the City's local match is $25,000, and it is already included in the Transportation Department's Adopted FY 2016-17 General Fund budget.

Staff recommends City Council adopt the budget amendment in the City's Special Revenue Fund in the amount of $50,000 to budget $25,000 in federal grant funding awarded through the French Broad River MPO along with the City's match of $25,000.

ORDINANCE BOOK NO. 31 - PAGE 157

K. RESOLUTION NO. 17-57 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A SERVICE AGREEMENT WITH BBC RESEARCH & CONSULTING FOR THE 2016 DISPARITY STUDY PROJECT

Summary: The consideration of a resolution authorizing the City Manager to execute a service agreement with BBC Research & Consulting for the 2016 Disparity Study Project in the amount of $319,948.

On December 14, 2016, the Community & Economic Development Department issued an Advertisement for Request for Proposals for consultant services to conduct the Minority Business Program Disparity Study. The project will include:

- Study of the City's contractual awards in construction, goods, services, architectural and engineering services for the period Fiscal Year 2011 through Fiscal Year 2016.
- To determine the effectiveness of the current programs and recommend modifications and adjustments, if necessary, to the City program that are in compliance with law based on the opinion of an attorney licensed in the State of North Carolina who has substantial experience in this area of law.
- To provide current legal guidance not only relative to new legislation, policies and procedures to meet any constitutional mandates, but also the programmatic needs of the constituencies of the City.

In response to the advertisement, the department received six (6) consultant proposals on January 18, 2017. Companies responding were:

Name of Company	Cost Proposal Amount	Business Main Office
Drakeford, Scott & Associates L.L.C.	$151,200.00	Durham, NC
BBC Research & Consulting (BBC)	$319,948.00	Denver, CO
MGT of America	$321,496.00	Tallahassee, FL
Mason Tillman Associates, Ltd.	$324,144.00	Oakland, CA
Griffin & Strong P.C.	$345,025.00	Atlanta, GA
Miller[3] Consulting, Inc.	$455,825.00	Atlanta, GA

The proposals were reviewed by City Staff and BBC Research & Consulting was selected in the amount of $319,948. Criteria for this RFP included:

- Experience and qualification of firm
- Experience and qualifications of proposed staff
- Understanding of the project (proposed project plan)
- Proposed cost
- Overall proposal and completeness
- Legal requirement that any legal opinions be provided by NC licensed attorney

This action went before the Planning and Economic Development Committee on March 21, 2017, and their recommendation was support to move forward to City Council.

Pros:
- Study will replace outdated disparity study completed in 1993.
- The project will result in an updated Minority & Women Business Plan that is up to date with all current legal requirements and best practices.

Con:
- None identified.

Funds for this consultant agreement are currently allocated within the Community & Economic Development Department budget for FY17.

Staff recommends City Council adopt a resolution authorizing the City Manager to execute a service agreement for consultant services with BBC Research & Consulting for the 2016 Disparity Study Project in the amount of $319,948.

In response to Councilwoman Mayfield, Economic Development Specialist Brenda Mills said that the study is specifically for contracting and purchasing. City Manager Jackson noted; however, that our Equity Program is intended to look at far more than just the disparity study.

Mr. Grant Millin provided Council with a PowerPoint which addressed the Asheville and Buncombe County's Agenda for People with Disabilities and the City's Disparity Study.

RESOLUTION BOOK NO. 38 - PAGE 373

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Vice-Mayor Wisler moved for the adoption of the Consent Agenda. This motion was seconded by Councilman Smith and carried unanimously.

III. PRESENTATIONS & REPORTS:

A. HAYWOOD STREET COMMUNITY VISIONING

Councilwoman Mayfielc gave a brief background of how the Haywood Street Visioning Task Force was created.

On behalf of City Council, Mayor Manheimer thanked the Asheville Design Center and the Haywood Street Visioning Task Force for the thousands of volunteer hours they devoted to this task.

Mr. Chris Joyell, Executive Director of Asheville Design Center provided a brief update from the Asheville Design Center regarding the community visioning process for city-owned properties located at 68-76 Haywood Street and 33-37 Page Avenue in Downtown Asheville. He reported that the Haywood Advisory Team (AT) has completed its assignment, having recently voted 16-1 to approve their final recommendations.

Mr. Andrew Fletcher, Chair of the Haywood Street Visioning Task Force, briefly reviewed with Council their 17-page final report, which included their vision statement, site analysis, full exploration of uses and amenities, and appendix of collected community input.

Beginning in June, 2016, the AT held eleven regular meetings, two alternate meetings (to accommodate members who could not attend the regularly scheduled meetings), and a four-hour visioning workshop on February 18, 2017. Buncombe County's representative bowed out of the process in November, citing the demanding time commitment, leaving us with 17 voting members. Overall, AT meetings enjoyed an attendance rate of over 90%.

The AT's recommendations include a desired "sense of place," a site analysis, an overview of the team's process, and preferred site uses. The AT's vision includes a combination of active civic space and passive civic green space contained and activated on its edges by mixed-use development. The AT really wants a future that animates the site sooner than later.

The following table illustrates the various compatible and complimentary uses identified by the AT.

	Civic	**Mixed**	**Other**
Active	Community Gardening Farmers Market Performance Play Area Public Art	Local Food Local Retail Business Incubator Education Housing	Services & Utilities Offsite Public Gathering Safety / Security Traffic Calming
Passive Green Civic Space	Shade Native Landscaping Seating Water Feature Urban Trail Station Information Kiosk	Public Rest Rooms	Trash/Recycling Lighting Views Neighborhood Identity

When Mayor Manheimer asked if a decision was reached whether the alleyway that bisects the property has to remain open for vehicular traffic, Mr. Fletcher said that the AT didn't want to box in a single solution to that concern, so they acknowledged the issue and would let people with greater expertise to solve the problem.

At the request of Councilman Bothwell, Mr. Fletcher read the AT Sense of Place statement.

Councilman Smith thanked the Asheville Design Center and the AT for this monumental task of considering topography, site lines, history and all the viewpoints to come up with a common-sense compromise vision that honors all the different pieces. He would be hopeful to see some kind of housing at the 33-35 Page Avenue area.

Councilman Smith then moved to direct staff to design and issue a Request for Proposals for a design firm to deliver several design options using the Haywood Street visioning process outcomes. This motion as seconded by Vice-Mayor Wisler.

The following individuals spoke regarding the visioning process:

Ms. Kim Roney thanked the volunteers.
Ms. Sharon Willin asked Council to consider middle-class housing in this area.
Ms. Clare Hanrahan wanted a public plaza and public garden to honor people in the neighborhood.
Mr. Coleman Smith questioned how people not part of a professional firm can have their visions be considered.
A gentlemen felt the area should focus on the local community and artist community.
Ms. Dee Williams supported a park.

Councilman Bothwell felt that the City would do well to follow the advice of the Project for Public Spaces. Their website states that the best spaces evolve by experimenting with short-term improvements that can be tested and refined over many years. Examples include places to site, sidewalk café, community event, garden, painted crosswalks. These are examples of lighter, quicker, cheaper changes that capitalize on the creative energy of the community. If one thing doesn't work then you can try something else. If there is a success, you can build on it. He wondered if we want to seek a design firm first, or try these lighter, quicker, cheaper things which the AT recommended to Council in December.

Mayor Manheimer noted that the motion made by Councilman Smith is for long-term and not to side-step the short-term uses. To be clear, it was the consensus of Council to support proceeding with the action plan for implementation of the interim uses for the Haywood Street property as outlined in the following report provided by Downtown Development Specialist Dana Frankel.

"At City Council's December 12, 2015 meeting, staff was directed to recommend a process to consider the future use and design of city-owned parcels located on Haywood Street and Page Avenue downtown following a long history of potential development opportunities. In March 2016, City Council approved a public visioning process for the properties, contracting with Asheville Design Center to serve as a facilitator for a Council-appointed community advisory team to develop a long-term vision for the properties, while also identifying opportunities for temporary installations to enliven the space in the short term.

The Community Advisory team began meeting in June of 2016, soliciting feedback from the public and taking steps towards developing both a long term vision and recommendations for interim uses. At the October 25, 2016, Council Meeting, the Community Advisory Team presented a list of possible temporary uses and installations for the site. With direction from City Council to narrow down the list, the Advisory Team returned to City Council's December 13, 2016, meeting and presented the following temporary uses and installations to be considered:

1. Raised garden beds
2. Interactive public art
3. Mobile food vending
4. Open vendor markets
5. Movable seating
6. Designated performance space

Following their presentation, City Council directed staff to consider feasibility and recommendations for implementation of the proposed temporary uses.

Objectives and Overview - The primary objective of the temporary installations is to activate the subject sites on an interim basis while permanent solutions are being planned and implemented. A secondary goal is to test particular uses and installations in order to learn more about their function, successes and impacts in this public space and in the community at large.

The recommendations that follow are intended to support flexible use of the sites, including those proposed, with a fair and consistent approach to site access and programming. Recommendations also consider efficiency in terms of staff time, administrative processes and costs.

Implementation of the uses and installations as proposed are achievable, with an estimated *$73,871* for site improvements, furnishings and management of installation, *$43,765* for the first year of operations and maintenance, and a minimum of *$78,000* for management of programming and to help fund programming itself (*$195,636 total*). Additional funds may be requested annually for capital needs related to maintenance and site enhancements, as well as budget adjustments for additional operational and staffing needs.

Recommendations are presented below, beginning with site planning and analysis of needs, designation of respective parcels for each proposed use, site improvements recommended for success of those uses, and processes for implementation for those components. Site maintenance and management of programming is then considered including staff and community roles, and a timeline is included at the end of this report.

Site Planning and Analysis of Needs

Use of parcels - The temporary uses proposed by the Community Advisory Team are not site specific. The group and City staff acknowledged together that the lots currently used for parking should remain available for parking, considering the needs for both short term and monthly parking.

Without disrupting those areas, sites available for temporary uses are the parcels on Page Avenue (Area A) and on Haywood Street (Area B). Both sites are relatively flat with gravel surfaces, and are currently vacant secured by fencing.

Garden Beds - Considering the unique needs for raised garden beds including open and easy access and availability of sun, Area A is recommended for use. Accessible from the sidewalk and self-contained from the other proposed uses, the site is well-positioned for maximum community benefit. Staff is proceeding to include Area A in the City's Community Garden Program, an Asheville Edibles initiative being managed by the Office of Sustainability. A request for applications (including design, management and public art) is expected to be released in April, 2017.

Interactive Public Art - Public art will be included in both Area A and B.

Area A: requested for incorporation in Area A as part of the Community Garden program being coordinated by the Office of Sustainability.

Area B: For implementation of "interactive public art" recommended by the Advisory Team, an RFP can be released for the design and installation of an artistic intervention or semi-transparent covering to be placed on the fence on Haywood Street. Through specification in the RFP, the artist would include interactive elements in the design and/or incorporated into the installation. The City's Public Art and budget may be able to contribute up to $10,000.

In addition, a "free expression wall" could be considered in Area B as part of an initiative underway by the City's Public Works Department.

Other interactive public art such as music, projection art, movies and performances would be encouraged in Area B. Informal, non-permitted performances such as busking would be allowed and encouraged in Area B during times when permitted events are not occurring.

Mobile Food Vending, Vendor Markets, Movable Seating, Performance Space
Implementation of the other proposed uses is recommended for Area B.

Site Improvements - Site planning and improvements would support flexible uses, including those proposed. Investments in site improvements are intended to support temporary uses and activities for 1-3 years, while planning and implementation of long-term uses is underway.

Staff recommends contracting with an external entity through a competitive process to manage design-build services for site planning, material purchasing and physical installations of required/recommended infrastructure, furnishings and amenities. A total budget could be outlined in a RFQ (*estimated $73,871*). Applicants would be encouraged to identify supplemental sources of funding for completing the work required, and would be asked to use creatively produced/ sourced materials and furnishings including reused and recycled. By contracting with an external party, the timeline for implementing the improvements can be expedited, expertise on site-design is enabled, and staff capacity can be conserved while participation and community buy-in can be garnered. A team of staff including representatives from Parks and Recreation, Capital Projects, Planning and Urban Design, Community and Economic Development, Development Services and Public Works would participate in the RFQ review process.

Possible site improvements are outlined below. Expanded details on each component are available but not included for the purposes of this memo.

1. **Electrical Access – required by UDO (Area B)**
2. **Trash cans – required (Area B)**
3. **Furnishings, landscaping and placemaking – required but flexible (Area B)**
   To include movable seating and designated performance space. Items may be sourced/built and could include re-purposed materials. Other furnishings are recommended in order to create a safe, inviting, interesting and comfortable experience for passive and active uses.

3. **Surface treatment – recommended (Area B)**
   Uses permitted as outdoor special events can be legally accommodated on gravel lots/uneven surfaces, however, the Community Advisory Team and staff recommends accommodating access for all citizens, including those with limited mobility and those in wheelchairs. A non-slip surface can be installed in areas adjacent to the primary uses/amenities.
4. **Water Access - recommended (Area A)**
   Installation of a water spigot is recommended in Area A to support the feasibility and success of the community garden program.
5. **Informational signage - recommended (Area A and Area B)**
   Signage may be designed and installed for the purpose of posting rules/ordinance regulations, hours of access, background information on the initiative, programming schedules and to display community partners and sponsors.
6. **Restrooms - optional**
   Existing public restrooms are available nearby. Event organizers may be responsible for providing on-site restrooms to meet the needs of their events. Temporary restroom facilities including toilets and portable sinks could be added to the site and are included in cost estimates.

Site Operations, Maintenance and Management

In Area A, the designated community garden contact (as specified in the program) will be primarily responsible for managing maintenance.

For maintenance and on-going management of Area B, staff recommends that it be managed as a "temporary park" by the City's Parks and Recreation Department, with secured access open to the public during standard hours (dawn until dusk) and used as flexible, programmable space with curated events managed by an external entity.

Maintenance, Access and Security - The City's Parks and Recreation department would oversee maintenance of Area B's amenities, as well as access to the site, though the expansion of existing maintenance and security contracts. Maintenance will include amenity cleaning, litter control, trash removal, leaf removal, debris removal, horticultural maintenance and pest control as needed. Security services include opening and closing of the gate at specified times in Area B. There may be other requests for budget adjustments from the Parks and Recreation Department due to increased staff necessary to support maintenance and security management.

The Asheville Police Department would extend downtown coverage to monitor and respond to issues in Areas A and B. The current $1M budget request for additional downtown unit staffing would support coverage of this site. If the budget request is not approved, there may be other requests for budget adjustments due to increased staff necessary to support patrol and response of these areas. The hiring of a full time Park Warden may be considered for the site.

The City's Public Works department would add Areas A and B to their service routes for trash collection, litter pick-up and graffiti removal. The Public Works department may submit budget adjustments due to increased staff necessary to support additional coverage of these services.

Programming and Permitting - Staff recommends that an RFP be released to contract with an external entity to manage programming of the site and promotion of that programming, following specified guidelines on the type and frequency of activities and engagement that should take place.

The City's Community and Economic Development would coordinate the application and review processes for both the site improvements and for programming. The department would provide assistance to both management entities, helping to coordinate department review processes. A budget adjustment would be submitted for a part-time position required to assist with increased special event permitting and overall coordination.

The minimum estimated budget to pay for event management is *$78,000* for one year, based on a rate of $1,500 per week (or $500 per event if programmed three times per week). The fee would include management and a modest budget for programming and promotion, with requirements specified (i.e. 80% of the funding used towards programming). The management entity or would follow the existing outdoor special event permitting process, which enables all departments to participate in review.

The management entity would be responsible for management of the space during programming, carrying appropriate liability coverage and returning the site to its original condition following events. Existing guidelines in the City's Outdoor Special Event Guide would be followed, as well as the City's fees and charges that may be applicable. Supplemental services required in the Outdoor Special Event Guide or requested by the City would be paid for by the management entity.

Role of Community - The Community Advisory Team's designated temporary use sub-committee would be expected to assist the event management company to identify possible programming partners and help garner participation, as well as to assist with promotional efforts. Staff including Dana Frankel (downtown development specialist) will support and advise the sub-committee and event management company in these efforts.

The sub-committee may also help with fundraising efforts led by the event management company, which may include opportunities for sponsorship and crowdfunding.

Timeline

Target Start Date: ***QUARTER 2, 2017***

Q2, 2017	Develop and issue RFQ for site design and installation services
	Release application requests for community garden in Area A
	Develop and issue an RFP for public art
Q3, 2017	Develop and issue RFQ/RFF for management of programming
	Review RFQ/RFP responses for site design and installation; execute contracts
	Review proposals for public art; install
	Design and install of site features
Q4, 2017	Review RFQ/RFP for management of programming; execute contracts
	Programming on Haywood Street site begins
2018	On-going programming, evaluation and adjustment"

Councilman Bothwell also felt we need to make a front-end piece of that consideration of vehicular traffic.

Councilwoman Mayfield asked that there be a significant public involvement piece as part of this Request for Proposals process.

The motion made by Councilman Smith and seconded by Vice-Mayor Wisler carried unanimously.

IV. PUBLIC HEARINGS:

A. PUBLIC HEARING TO CONSIDER CONDITIONAL ZONING OF PROPERTY LOCATED ON 236 CHARLOTTE STREET AND 336 HILLSIDE STREET FROM RM-16 RESIDENTIAL MULTI-FAMILY HIGH RESIDENTIAL DENSITY DISTRICT AND COMMUNITY BUSINESS I DISTRICT TO COMMUNITY BUSINESS II DISTRICT/CONDITIONAL ZONING FOR THE EXPANSION OF AN EXISTING COMMUNITY CENTER AND CHILD DAY CARE FACILITY

ORDINANCE NO. 4570 - ORDINANCE TO CONDITIONALLY ZONE PROPERTY LOCATED ON 236 CHARLOTTE STREET AND 336 HILLSIDE STREET FROM RM-16 RESIDENTIAL MULTI-FAMILY HIGH RESIDENTIAL DENSITY DISTRICT AND COMMUNITY BUSINESS I DISTRICT TO COMMUNITY BUSINESS II DISTRICT/CONDITIONAL ZONING FOR THE EXPANSION OF AN EXISTING COMMUNITY CENTER AND CHILD DAY CARE FACILITY

Mayor Manheimer disclosed that she is a member of the Jewish Community Center; however, she has no conflict of interest.

Urban Planner Jessica Bernstein that this is the consideration of an ordinance to conditionally zone property located on 236 Charlotte Street and 336 Hillside Street from RM-16

Residential Multi-Family High Residential District and Community Business I District to Community Business II District/Conditional Zoning for the expansion of an existing community center and child day care facility. This public hearing was advertised on March 17 and 24, 2017.

The project site consists of two separate parcels, located at 236 Charlotte Street and 336 Hillside Street. There is an overall project area of 1.57 acres. The community center lot (Charlotte Street) is split-zoned RM-16 and CBI and the daycare parcel on Hillside Street is zoned RM-16.

Surrounding parcels are zoned RM-16, CBI and RS8 (across Charlotte Street). Additionally, portions of this site fall within the Charlotte Street Transition Overlay District (7-9-10).

Uses in the vicinity include both single and multi-family residential to the north, west and south as well as retail, office and commercial to the north and south along Charlotte Street. The sites contain existing buildings and surface parking and have multiple street frontages for each parcel.

The proposal for 236 Charlotte Street is to demolish the existing pool area (which will be relocated to 40 Clyde) and expand the existing building in that location. The existing structure is two-stories and 18,397 square feet and the project proposes a 7,588 square foot, one-story expansion resulting in a total gross floor area of approximately 25,985 square feet.

The application also includes 336 Hillside Street, Hilde's House, which is a 1,020 square foot existing child day care use that does not comply with the specific special requirements (USSR) for this use in the underlying zoning district. The plans would keep the use and site operating as-is.

An additional component of the overall project is the construction of the new pool facility, open space areas and associated parking at 40 Clyde Street, which has been reviewed and approved under a Level II permit (16-12163PZ) and is not included under the conditional zoning application.

Access to the site(s) and parking is proposed to remain in the current configuration with all vehicular traffic entering from Lennox Court. The driveway onto Hillside Street will remain exit-only. The existing parking area for the community center is located to the west of the building and plans show 27 spaces in the lot. There are two staff spaces in the driveway at Hilde's House, resulting in 29 actual parking spaces provided on-site for this project. Taking into account the 20% reduction allowed in the CBII zoning district, the uses in the building(s) (day care facility and community cultural center) requires a minimum of 43 parking spaces.

Additional parking for users of the community center is provided in the pool parking lot at 40 Clyde Street, *although the lot location exceeds the maximum distance allowable by-right for remote parking and this will be addressed in a condition specific to the project.*

There are either existing or proposed sidewalks along all street frontages, ranging in width from approximately five to ten feet. Existing sidewalks along Charlotte Street do not meet the City's standard and are proposed to remain where the rock wall and vegetation are proposed to be preserved. Staff recommends widening sidewalks along the remainder of Charlotte Street and along Hillside adjacent to the parking area to a minimum of ten feet where possible. The applicant will be eliminating the existing loading area and curb cut on Hillside close to Charlotte Street and proposes to replace with sidewalk matching the existing width in this section.

Landscaping is required for this project and includes a property line buffer along four areas adjacent to or facing residential zoning (Lennox Court, interior property line, Murdock Avenue and a portion of Hillside Street), a street buffer in three locations (Lennox Court, Hillside and Murdock), street trees along all five street frontages, parking lot landscaping and building

impact landscaping. The applicant is requesting specific conditions relating to landscaping as detailed below. Open space is adequately provided in the playground areas on both sites and through the active and passive recreational uses at 40 Clyde Street.

The majority of the Charlotte Street parcel falls under the Charlotte Street Transition Overlay which applies architectural standards to new development and restricts gross floor area. See requested conditions below.

Due to the reuse of the majority of the site layout and the practical challenges from including an addition onto the existing site, there are a number of site-specific conditions detailed below as well as in the Exhibit B.1 list.

1. Setbacks
    - Front setback Charlotte Street (overlay) - maximum 20 feet / minimum 5 feet (request to 35 foot maximum for existing building and 80 foot maximum for new addition on Charlotte Street)
    - Second front Lennox Court (overlay) - maximum 20 feet (request maximum 25 feet)
    - Corner side setback Lennox Street (overlay) -10 feet (request to reduce to eight feet for new building along Lennox Street)
    - Corner side setback Murdock - minimum 15 feet (request to allow encroachment of existing shed into property line)

2. Landscaping
    - Property line buffer for 236 Charlotte Street (eliminate type A buffer requirement along internal property line, Lennox Court, Murdock and Hillside due to existing condition to maintain parking lot and placement of new building addition)
    - Property line buffer for Hilde's House (reduce type A buffer requirement along internal property lines to maintain existing conditions)

3. Parking
    - Number of spaces (minimum required 43 spaces, 27 provided in parking lot on-site and 2 at Hilde's House for a total of 29 actual spaces)
    - Distance to remote parking (maximum distance per UDO is 500 feet, additional parking provided at 40 Clyde Street, 620 feet away)
    - Parking within setback (existing parking area encroaches into setback along Hillside Street)

4. Sidewalks
    - Existing sidewalks along Charlotte Street do not meet the City's standard and are proposed to remain where the rock wall and vegetation are proposed to be preserved. Staff recommends widening sidewalks to ten feet along the remainder of Charlotte Street and along Hillside to the driveway at a minimum.

5. Charlotte Street Transition Overlay Requirements
    - Gross floor area - maximum 12,000 square feet allowed (addition is 7,588 square feet, existing building is 18,397 square feet GFA; resulting total is approximately 25,985 square feet).
    - Orientation of building - required to interact with Charlotte Street (building is oriented towards Lennox Court and away from Charlotte Street due to the nature

and programming of the use as described in the narrative)
- Number of stories - required to have two-stories at Charlotte Street (addition is for a one-story expansion, however existing building to remain is two-stories)
- Facade variation - required to break up facade every 35 feet (while there is one long roof line from both Charlotte Street and Lennox Court, the building is articulated under the roof along classroom divisions and provide recesses)
- Fenestration - required 40% on ground level (request to reduce to 20% due to the use and orientation towards Lennox Court rather than Charlotte Street)

This proposal was evaluated by the Technical Review Committee on February 20, 2017, and approved with conditions. The proposal requires review by the City Council and Final TRC prior to zoning approval.

The Planning & Zoning Commission reviewed this request at their meeting on March 1, 2017, and voted 6-0 in support of the proposed request. A member of the public was present and spoke about the need for wider sidewalks in this area, especially along Hillside Street.

The day care and community center uses are permitted in the underlying and proposed zoning; however there are aspects where the proposal does not comply with standards due to the continuation of the existing site layout and the programming of the existing use in the new building area, thus resulting in the need for the conditional zoning application.

There is a conditional zoning currently under review several blocks south at 95 Charlotte Street. The Level II was approved for 40 Clyde Street, as noted above, on January 24, 2017.

The expansion of the existing child care facility and community center in this location fits with the mix of uses along the Charlotte Street corridor. The use was established in this location around 1990 when the existing building and parking area were constructed. The Charlotte Street Transition Overlay and Community Business II districts both anticipate medium intensity, community-based businesses and uses in this location. While the request includes eliminating buffers, modifying setbacks and orienting the addition away from Charlotte Street, the plan utilizes an existing layout that has become a part of the fabric of the area. The most intense part of the Community Center use, the outdoor pool and parking demands associated with the recreational facility, has been moved to Clyde Street. This should greatly reduce the impact that the surrounding residential neighbors on Murdock, Lennox Street and Lennox Court have experienced in the past and should increase compatibility despite the reductions in buffers and parking.

The expansion of an existing community-based use in this location supports elements of the Comprehensive Plan in that the development along a corridor surrounded by residential neighbors is accessible by walking or transit and is a use in an established location complementary to the mix of residential, office and commercial activities in the general vicinity. There are aspects of the project that do not align with recommendations found in the plan with regards to activation and urban development along a corridor as this proposal orients the front of the building away from Charlotte Street.

The Charlotte Street Corridor Plan (1999) notes the community center as a positive part of the mix of uses along the corridor and includes recommendations to maintain mature vegetation and existing site features such as rock walls (both of which are proposed to remain along the existing frontage) but also includes recommendations related to the overlay for buildings to activate Charlotte Street.

The proposal aligns with the 2036 Council vision in the following areas: (1) "A Well-Planned and Livable Community" in that the infill expansion is located on a major corridor along complementary uses. The community center, associated green space and recreational uses are

walkable to multiple neighborhoods in the area and provides elements for all ages of the community; and (2) "Transportation and Accessibility" in that this is an ideal location for the use and plans incorporate a transit shelter, sidewalks on all frontages and bicycle spaces.

Considerations:

- Expands an existing community-supported use in the existing location
- The most intense part of the use, the pool and recreation facility, is relocated to a location with sufficient parking, alleviating some of the parking demand and residual impact from the primary site
- Building addition consolidates child care component under one roof rather than in multiple locations as currently provided (with the exception of the infant care at Hilde's House)
- Parking and lobby/drop-off are interior to the site (from Lennox Court)
- Streetscape improvements are proposed along multiple frontages, resulting in some new or upgraded sidewalks, but additional width should be provided to maintain and improve pedestrian safety and accessibility
- Existing mature vegetation and rock wall will be preserved along Charlotte Street; however the building does not activate the corridor and the placement of the rock wall means the sidewalk would not be widened in this location

Based on policies stated in the Comprehensive Plan and other plans, staff does find this request to be reasonable and within the best public interest and does recommend support of the proposed conditional zoning as proposed with the conditions as noted in Exhibit B.1. Staff suggests widening of the sidewalk along most of Charlotte Street and Hillside; however, the applicant does not agree to this condition.

Ms. Dorothea Schultz, architect representing Clark Nexsen, showed various pictures and explained the overall Master Plan and the addition in particular.

Mr. Chris Day, representing Civil Design Concepts, did explain that the rezoning necessitated a lot of conditions since this is an established use. He asked that Number 3 in the Exhibit B.1 Conditions be amended to allow them to explore Lennox Court to be a 2-way access (with no loss of their parking area) with the Transportation Department reviewing it with final TRC approval. In looking at this briefly, they do have the ability to widen the access and still maintain the parking spaces. Due to the rising construction costs, they asked that not be required to widen the sidewalks to ten feet along the remainder of Charlotte Street and along Hillside Street. And finally, he requested Number 17 in the Exhibit B.1 Conditions be amended that the fenestration along Charlotte Street on the new addition be reduced to 20% for a more solid wall for security.

City Attorney Currin and Mr. Day agreed to revising (1) Condition No. 3 to read "Access to the sites will remain as currently used with vehicles entering the surface parking area from Lennox Court and the driveway onto Hillside Street," again noting that there would be no parking reduction; and (2) Condition No. 17 to read "Fenestration along Charlotte Street on the new addition is 20% due to the nature of the use as child care and the interior orientation."

Mayor Manheimer opened the public hearing at 6:36 p.m.

Ms. Lael Gray, Executive Director of the Jewish Community Center, spoke in support of the conditional zoning, noting that they wish to explore Lennox Court as a 2-way access for security purposes. They want the ability to look at ways to reconfigure the entry and exit to their parking lot.

Mayor Manheimer closed the public hearing at 6:39 p.m.

Mayor Manheimer said that members of Council have previously received a copy of the ordinance and it would not be read.

Vice-Mayor Wisler moved to approve the conditional zoning request from Residential Multi-Family High Density (RM-16) and Community Business I (CBI) districts to Community Business II Conditional Zone (CBII-CZ) with the requested conditions as noted in the Exhibit B.1 list (with the amendments to Condition 3 and 17 as noted above) and find that the request is reasonable, is in the public interest, and is consistent with the Comprehensive Plan and other adopted plans in that: (1) The project expands an existing community-supported use in the existing location; (2) The most intense aspect of the use, the pool and recreation facility, is relocated to a location with sufficient parking, alleviating some of the parking demand and residual impact from the primary site; (3) Streetscape improvements are proposed along multiple frontages and vehicular access is interior to the site; and (4) Existing mature vegetation and rock wall will be preserved along Charlotte Street. This motion was seconded by Councilman Bothwell and carried unanimously.

ORDINANCE BOOK NO. 31 - PAGE 159

B. PUBLIC HEARING TO CONSIDER CONDITIONAL ZONING OF PROPERTY LOCATED AT 95 CHARLOTTE STREET FROM OFFICE DISTRICT/CONDITIONAL ZONING TO COMMUNITY BUSINESS II DISTRICT/CONDITIONAL ZONING TO ALLOW LODGING AND OFFICE USES

At the request of Councilman Smith, Councilman Bothwell moved to recuse Councilman Smith from participating in this matter due to a developing reciprocal referral relationship with the applicant. This motion was seconded by Vice-Mayor Wisler and carried unanimously.

Urban Planner Jessica Bernstein that this is the consideration of an ordinance to conditionally zone property located at 95 Charlotte Street from Office District/Conditional Zoning to Community Business II District/Conditional Zoning to allow lodging and office uses. The site was previously reviewed and approved as a conditional zoning in 2015 (Ordinance No. 4454). This public hearing was advertised on March 17 and 24, 2017.

The project site consists of a single parcel, 1.23 acres in size, owned by Siemens Real Estate Holdings, LLC (PIN 9649-63-1039). The parcel is located at 95 Charlotte Street on the southeast corner of East Chestnut Street and is zoned Office Conditional Zone (rezoned in 2015).

The site is the location of the historic Patton Parker House - built in 1868-9 and a designated local historic landmark as well as a contributing resource within the Chestnut Hill National Register Historic District. There is a two-story, two-unit residential building currently under construction on the parcel as shown on approved plans from 2015.

Adjacent zoning includes CBII (vacant) and RM-16 (vacant and multi-family apartments) with Office, CBI and CBII (retail, restaurant) zoning in the immediate area. The Charlotte Street corridor is largely commercial in this vicinity with some residential to the north and there is a residential neighborhood to the east, immediately adjacent.

The 2015 approval permitted use of the main historic house for offices and for the construction of two new residential units on the rear of the site, all under Office conditional zoning. Plans also included site improvements including parking in both the front and rear and landscaping. The applicant is not proposing any deviation from those approved site plans but is requesting to change the zoning to CB-II so that additional uses would be allowed: two short-term lodging units using the newly constructed structure at the rear of the site and occasional special events.

Access, sidewalks and parking for the site are proposed to remain in the existing

locations, both from Charlotte Street and East Chestnut Street. The approved plans from 2015 remain for this proposal with a total of 18 parking spaces on the site.

The site is proposed to remain according to plans reviewed and approved by the Historic Resources Commission in accordance with the Local Landmark designation and the Secretary of the Interior's Standards for Rehabilitation.

The Historic Resources Commission has reviewed and approved the various aspects of building and site design for this project.

As there are no changes to the site plan approved in 2015, the conditions related to landscaping and parking location from ordinance 4454 will carry over.

This proposal was not required to be reviewed by the Technical Review Committee as they had already issued final approval on the site plan in 2015. No communication has been received from the public as of the writing of this report.

The Planning & Zoning Commission reviewed this request at their meeting on March 1, 2017, and voted 5-1 in support of the proposed request. Commissioners noted that the existing zoning along the corridor already allows for lodging while also discussing the need to preserve and maintain residential options.

The change in zoning is being requested to allow for uses allowed in CB-II, notably lodging.

There is a conditional zoning currently under review several blocks north at the Jewish Community Center.

The mix of office and residential originally approved for the parcel in 2015 is consistent with other uses along the Charlotte Street corridor and provides a transition to the residential zoning adjacent to the east. Community Business II (CB-II) zoning is adjacent to the south on the large vacant parcel, which could be developed with any uses allowed in that district, including lodging. As per Section 7-8-13 of the UDO, the CB-II District is "...Established to provide areas for medium-to-high-density business and service uses serving several residential neighborhoods. This community business center may serve as a workplace for many residents in the surrounding neighborhoods and should be sensitive to a significant pedestrian population, but also provide for adequate and safe vehicular access. The Community Business II District is designed to be located primarily along minor and major thoroughfare streets which serve multiple residential neighborhoods". Because of this, allowing lodging on this site is not entirely incompatible. Also, this block along East Chestnut Street has another lodging use already, the historic Princess Anne Hotel.

However, the site plan was approved with a reduced property line buffer between the new building and the residential zoning to the east. Both the existing Office and proposed CB-II zoning districts would require a 20 foot wide landscaped buffer along the property line adjacent to RM-16 to the east. Typically, less incidences of negative impacts (noise, trash, etc) are expected from a long-term residential use rather than a short-term lodging use and the reduced buffer would not have been as supported by staff for a commercial use in the structure.

The adaptive reuse of the historic structure for office uses and incorporation of residential on the site is aligned with multiple aspects of the Comprehensive Plan, including strategies supporting historic preservation and infill development. The Plan also notes that quality tourism is a key component of Asheville's economic development; however in that same section, the lack of and the high cost of housing is highlighted as a top weaknesses for the City.

The proposal both aligns and conflicts with the 2036 Council vision in the following areas: (1) "A Well-Planned and Livable Community" through the mix of uses and adaptive reuse provided for with this project, but maintaining residential choices is also highlighted in this strategy; (2) "Transportation and Accessibility" in that this is an ideal location for residential uses, on a transit line and walkable to urban amenities; and (3) "Quality Affordable Housing" in that while this project does not provice "affordable" housing units but the strategy on housing also notes that the City should have "innovative and historic housing options".

Considerations:

- Adjacent zoning to the north and south permits lodging
- Allowing short-term lodging uses does not preclude long-term residential in the future
- Housing, especially close to downtown, urban amenities and transit, continues to be in high demand
- The reduced property line buffer in this location was based on a long-term residential use and not a commercial lodging activity

Based on policies stated in the Comprehensive Plan and other plans related to the need to maintain and preserve existing residential opportunities and protect existing residential neighborhoods, staff does not find this request to be reasonable and within the best public interest and does not recommend support of the proposed conditional zoning as proposed.

In response to Vice-Mayor Wisler, Ms. Bernstein said that lodging facilities, which definition includes short-term rentals, is allowed in Community Business I District and Community Business II District, but not allowed in Office District.

Mayor Manheimer asked why the rezoning request is not a straight rezoning request to Community Business II District. Ms. Bernstein responded that the site is conditionally zoned and has particulars that go along with it. It was RM-16 to Office District/Conditional Zoning. Given the nature of the historic landmark for the building as well as the site, the landmark designation went to the landscaping, use of the yard, to artifacts that may be on the site, etc. Staff wanted to give more particular careful consideration to what happens on this site than just a straight rezoning. Also, with a straight rezoning, the applicant could do any use allowed in the Community Business II District. In addition, when the applicant came to staff, he wanted the ability to use the two residential units for long-term rental or have the ability to use them on a shorter-term basis. He was not interested in doing any real commercial activity on the site. When the request originally came in to rezone it to Office District/Conditional Zoning, the landscape requirement in the rear was 20-foot wide property line buffer between Office District and Community Business II District. Staff supported that slight buffer reduction because it had RM-16 on one side and this would be a similar long-term residential use. If that request came in for a lodging use (expected to be more intense), staff would have wanted that 20-foot wide buffer protection in place for the long-term residents on the RM-16 parcel.

Mayor Manheimer was uncomfortable about allowing short-term rentals in this location because it seems like it's a case by case scenario where people come and ask their property to be rezoned for a short-term rental. But, when she looks at the property embedded in the Community Business II District corridor, her initial thought is why isn't this being rezoned to Community Business II District where lodging is allowed. She is not inclined to support this request because she doesn't want to start a precedence where Council allows short-term rentals on a case by case process.

In response to Councilwoman Mayfield, Ms. Bernstein said that staff talked to the applicant about the Office District/Conditional Zoning vs. Community Business II District/Conditional Zoning but because the primary use of the property was for an office and not for a commercial use, the zoning chosen was Office District.

When Councilwoman Mayfield asked if the zoning were changed to Community Business II District/Conditional Zoning would any changes be allowed to the main house, Ms. Bernstein replied that the only changes would be for the two residential units in the back. He would have the ability to use those as short-term rentals.

In response to Councilman Haynes, Mr. Jim Siemens, applicant, said that the buffer was reduced to preserve a tree. He has spoken with neighbors and they have no objection to this request.

In response to Mayor Manheimer, Mr. Siemens said that the buffer cannot be increased because of the property line and building; however, he can build a fence but now there is a bamboo thicket that is very thick.

Mr. Siemens felt this is not a precedent-setting case because this is the only property like it in Asheville with the landmark status that has a combination of uses and a degree of restriction that he has gladly accepted. He has to comply with numerous federal, state and local regulations on this property and has a legal obligation to preserve the property. The conditions approved when his offer on the Patton-Parker House was accepted included conditions included rezoning to Community Business I or II District. He recalled that Stacy Merten, the Executive Director of the Historic Resources Commission, suggested the Office District/Conditional Zoning. It was his mistaken in not looking at the Unified Development Ordinance to see that lodging was not a use in the Office District. He said that he was not planning to do lodging but he didn't want to rule it out in the conditional zoning in August of 2015. In August 2015 he advised his architect to design the new building to make sure that they design it to R-1, which is the lodging code, which is more expensive. He felt this would be the only short-term rental in Asheville that is actually built to a lodging code. He read a portion of the 2010 Plan regarding the Charlotte Street corridor that provided a history of the development of Charlotte Street. He carefully prepared the Patton-Parker House to be a law office by day and it can also be available to the community and people interested in the history by night. He asked for Council's support.

Mayor Manheimer opened the public hearing at 7:02 p.m.

The following individuals spoke in support of the conditional zoning request, for various reasons, some being, but are not limited to: relatively minor change of the two units and will fit into the pattern of the surrounding neighborhood; there is existing lodging in the neighborhood; the applicant has demonstrated an excellent track record in the area; fit into the vision on Charlotte Street; and businesses may not want to come to Charlotte Street because this may been seen as not pro-business area:

Mr. David Nutter
A gentlemen who was the closest full-time resident to the property
Mr. Patrick O'Cain, restaurant owner on Charlotte Street
Mr. James Parker, great grandson of Thomas Patton

The following individuals spoke in opposition of the conditional zoning request, for various reasons, some being, but are not limited to: this will take away long-term housing at a location were they are sidewalks and buses; short-term rental and occasional special events will increase the traffic and noise on the property, along with an increase in commercial activity immediately adjacent to a residential area; possible precedent to lower buffer areas between residential and commercial areas; what will be done about parking for the special events; need for long-term housing units; applicant has other tenants in house to receive additional income; applicant currently receives various tax credits; and applicant didn't have to build to lodging code:

Ms. Grace Curry, resident on Edgemont
Mr. David Rodgers
Mr. Mike Lewis, north Asheville resident

Mayor Manheimer closed the public hearing at 7:21 p.m.

Councilman Bothwell recognized the concerns expressed about spot zoning for short-term rentals; however, he felt this is a different situation because it has commercial properties on both sides, along with the Princess Ann hotel on the same block.

Councilman Bothwell moved to approve the conditional zoning request from Office conditional zone to Community Business II conditional zone with the requested conditions to include lodging as a use on this site, subject to limiting the short-term rental use to the smaller accessory structure and not to the main house, and find that the request is reasonable, is in the public interest, and is consistent with the Comprehensive Plan and other adopted plans in that: (1) Adjacent zoning to the north and south permits lodging; and, (2) allowing short-term lodging uses does not preclude long-term residential in the future. This motion was seconded by Councilman Haynes.

Councilwoman Mayfield said that the short-term rental aspect does not bother her because she agrees that the area is largely commercial; however, she felt this is a property owner coming to Council to spot-zone specifically for a short-term rental. Whether we are intending to set precedence, she felt we might see more of these.

Vice-Mayor Wisler didn't hear any reason to change the zoning other than the applicant wanting to make more money and that isn't a valid reason to change it.

The motion made by Councilman Bothwell and seconded by Councilman Haynes failed on a 3-3 vote, with Councilman Bothwell, Councilman Haynes and Councilman Young voting "yes" and Mayor Manheimer, Councilwoman Mayfield and Vice-Mayor Wisler voting "no." Councilman Smith was recused from participating in the discussion and vote.

V. UNFINISHED BUSINESS:

VI. NEW BUSINESS:

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

Mr. Richard Fireman urged Council to put more energy into creating Asheville as a solar city.

Ms. Bridget Herring encouraged support for the Energy Innovation Task Force recommendations.

Closed Session

At 7:30 p.m., Councilman Young moved to go into closed session for the following reasons: (1) To prevent disclosure of information that is privileged and confidential, pursuant to the laws of North Carolina, or not considered a public record within the meaning of Chapter 132 of the General Statutes. The law that makes the information privileged and confidential is N.C.G.S. 143-318.10(a)(3). The statutory authorization is contained in N.C.G.S. 143-318.11(a)(1); and (2) To consult with an attorney employed by the City about matters with respect to which the attorney-client privilege between the City and its attorney must be preserved, including, but not limited to, a lawsuit involving the following parties - PHG Asheville, LLC vs. City of Asheville; and Kron vs. City of Asheville. The statutory authorization is N.C. Gen. Stat. sec. 143-318.11(a)(3). This motion was seconded by Vice-Mayor Wisler and carried unanimously.

At 7:59 p.m., Vice-Mayor Wisler moved to come out of closed session. This motion was seconded by Councilwoman Mayfield and carried unanimously.

VIII. ADJOURNMENT:

Mayor Manheimer adjourned the meeting at 7:59 p.m.

Magdalen Burleson
CITY CLERK

Esther E. Manheimer
MAYOR

Tuesday – April 11, 2017 - 3:00 p.m.

Budget Worksession

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Cecil Bothwell; Councilman Brian D. Haynes; Councilwoman Julie V. Mayfield; Councilman Gordon D. Smith; Councilman W. Keith Young; City Manager Gary W. Jackson; City Attorney Robin T. Currin; and City Clerk Magdalen Burleson

Absent: None

Director of Finance and Management Services Barbara Whitehorn said that this worksession will provided a recap of where we have been and what impact it potentially holds for the operating budget; and review of the basic assumptions and building blocks for the CIP/bond implementation in 2018.

Staff summarized summarize where Council discussions have led us over the past two sessions, using examples of revenue neutral plus three cents for CIP, energy out of CDBG/housing trust, transit assumptions and tree canopy from base budget. Staff then requested Council's preferences and a relative measure of priority for possible additional transit operating budget alternatives, in order to address Council's question about "what can be done without new buses?" Staff then summarized the additional pressures added in building the base budget, recurring and which may qualify for use of non-recurring fund balance.

Regarding the base budget additions - recurring, Ms. Whitehorn noted that the following are included in the General Fund operating budget: Transit south service improvements - full year - $267,000; Reduction in Federal transit funds - $281,143; In-Source temporary labor (10.25 positions added) - $248,000; and Police staffing (15 positions added) - $567,000. This totals $1,363,143.

Ms. Whitehorn then provided Council with the Fund Balance analysis. The Fund Balance above policy minimum is estimated at $1,692,662. She then outlined the following base budget additions - one-time allocations of Fund Balance: Energy Innovation Task Force - $205,000; Tree Canopy Study - $25,000; Payroll/Benefits Audit Recommendations - $200,000; Accident Replacement Fire Truck - $520,000; Police Staffing Vehicles - $384,000; and Election Costs - $275,000. This leaves an estimated balance of $81,662 of unallocated Fund Balance.

Following the review of the operating budget, staff provided details on the 2017-18 capital budget priorities and the major building blocks of the capital program. The existing 5-year capital plan was reviewed with a discussion of projects that have changed in scope, cost or timing. They then reinforced how they are staffing the CIP project management, and said that they plan to leave the base CIP intact while allowing for budget amendments for TIGER VI and RADTIP, as well as specifically earmark $2 million for Walton Street pool and increasing future year allocations for Malvern Hills pool. They also reminded Council about what the bond referendum projects get implemented in 2017-18.

Ms. Whitehorn responded to questions from Council regarding the one-time allocations, in particular the payroll/benefits audit recommendations and possible saving outcomes.

Councilman Bothwell suggested a Request for Proposals be developed for an audit to see how much our banking is costing us. He wondered if there might be a savings in changing banks. A $30,000 audit (one-time allocation from Fund Balance) might cover analyzing our total cost for banking, since that has not happened for over 70 years. Vice-Mayor Wisler responded that at the Finance Committee, they directed staff to look at local banking arrangements and try to figure out whether there are certain functions of our banking that could be taken over by a local bank. That information was requested to come back to the Finance Committee in 60 days.

Councilman Haynes said that his position is not meant to show a lack of support or respect for either Chief Hooper or the APD. The Chief is to be applauded for working with community leaders to come up with a Use of Force Policy, emphasizing de-escalation training and recognizing the importance of building trust in the community. However, he did not support Chief Hooper's request for $1 Million to expand the police force, and that he agreed with the over 500 signees of the petition "A Million Dollars for the People." He would rather see these funds go towards the root causes of crime, poverty, substance abuse and mental illness. Like the County's recently passed measures, we seek ways to keep people in the workforce and out of the criminal justice system. He does not believe this request could have come at a worse time: (1) at a time when African American communities distrust of police forces across our nation are at an all-time high; (2) at a time when over a two-year period roughly 3 people a day have been fatally shot by police in the United States; (3) at a time when police forces across the U.S. are militarized at an alarming rate; (4) at a time when militarized police forces used dogs, water cannons, rubber bullets and other excessive force measures against the peaceful water protectors at the Dakota Access Pipeline; and (5) at a time when at least 18 states including North Carolina have introduced legislation to curb the rights of protesters. Some even suggesting that protesters causing property damage could be charged as economic terrorist.

Councilman Bothwell asked for downtown crime statistics. He felt that increased police patrol makes some people feel more secure but doesn't make any impact on crime. He would like to see studies from other cities on how that increase would decrease crime.

Chief Tammy Hooper provided Council with a PowerPoint outlining the APD's multi-year work plan, noting that the growth of the City has created a substantial increase in demand for services by the Police Department. Calls for service have increased by an average of 1,000 per day for the past eight years and are projected to continue at or above that rate with the City's current planned growth. In Fiscal Year 2016, APD officers responded to over 116,000 calls for service. If growth remains consistent, that number is expected to rise to nearly 121,000 in the next two years. In addition to calls for service, officer workload also includes traffic enforcement, foot and bike patrols, community engagement and many other duties related to community policing. More growth is planned and expected, i.e., South Slope, River Arts District, south Asheville, etc. No officers have been added to address the growth of our City or the increasing demands for police services in those areas. APD is requesting 12 additional officers, two sergeants, and one lieutenant position to address these needs. The addition of these resources is necessary to maintain our current level of service. A minimum of two years will be required to hire and train these positions. She then provided information on various crimes and nuisance crimes in the various locations in Asheville.

In response to Councilman Bothwell, Chief Hooper said that she hoped to get a grant for the $700,000 command post vehicle proposed for in the future.

Chief Hooper responded to Vice-Mayor Wisler when she asked what are some of the things the APD is doing to address the downtown crimes more holistically.

Vice-Mayor Wisler suggested we re-visit the Downtown Improvement District.

In response to Mayor Manheimer, Chief Hooper felt said that these hires would reduce overtime of existing officers. She felt the estimated cost savings when the unit would actually be initiated (July 2019) would be about $375,000 a year.

Councilman Bothwell confirmed that these requested 15 additions would be in addition to the current 20 unfilled vacancies.

Councilman Smith said that Council has received a lot of e-mails about this from people who really want to make sure that City Council is supporting all the people of Asheville and really

interested in assuring justice and equity throughout our community. They've also receive a lot of e-mails wanting to make sure that as our population grows that our police presence can grow along with it and that we can make sure that when you call 911 someone is there fast. There is enormous amount of care for the City of Asheville in all of these things. And we are also in this locally and nationally where we are demanding more accountability from our police forces, and demanding quicker responses from trusted and trained staff. That level of accountability makes perfect sense. He said that officers who choose this line of work choose this life of service to our community. He wanted to acknowledge that and celebrate that at the same time because that call for accountability has been the vilification of many officers who are incredibly ethical and incredibly hard-working who get caught up in a more kind-of blanket move to make sure that police is accountable. He felt that Chief Hooper has embraced the process and policy around use of force and it's going to make us one of the national leaders in the regard. Also, Chief Hooper has been doing bridge building within the department to make sure that the department is working well together and isn't fractionalizing. Also, he commended Chief Hooper for her hiring practices, as well as Critical Incident Training for officers who are too often are front-line mental health responders. He noted that our population is up 28% since 1997. Our police staffing is up 23% since 1997. This proposal would take us to 27%. The 2.9 officers per 1,000 people vs. the state average of 4.8 really resonates with him and even though he didn't know what that number becomes if this proposal goes through, but it certainly doesn't go up to 4.8. He also talked about the dichotomy that is out there - money for the police vs. money for the people. This is not something that resonates with him. He doesn't think that is how this budget process works or how our City should work. We don't have to pit public safety vs. public benefit. This year we are going to have record spending on affordable housing, transit, transportation infrastructure, and our parks. He knows that we are a living wage organization that only gives economic incentives to living wage organizations. And, that we are moving forward with our equity initiatives. He noted that mental health, substance abuse and other social services are not the function of the City of Asheville - they are the function of the County of Buncombe. So, we clearly have an enormous work to do for justice and equity in our community and he doesn't know anyone on this Council who isn't committed. We also have to meet the responsibilities of the public safety of the community. He was open to this request and he's also open to a portion of this request if Council feels it's too big an ask. But he didn't think we can ignore the population rise, the figures that we are seeing from APD, and responsibly turn it down.

Director of Transportation Ken Putnam responded to Councilman Bothwell regarding transit and our capacity with buses.

Councilwoman Mayfield said that Mr. Putnam had provided Council with information on what service expansion options might be absorbed. Those were expanding Sunday service on all routes from 8:00 a.m. to 5:00 p.m.; and adding 8 hours of additional evening hours Monday - Saturday at a total cost of approximately $630,000. She understood that the more the buses are used, the increased rate of replacement. She supported those two options to be funded with a ½ cent tax increase, noting that we need to have a bigger conversation on a capital program for buses, with perhaps dedicating a piece of the tax rate for transit. She stressed that her personal priorities in the base budget would be transit, police and employee raises.

Councilman Young said that he is working on a neighborhood opportunity fund reserve for smaller amounts of money into the hands of neighborhood associations and loosely organized groups. That is still being worked out, but he would like to have a placeholder for a pilot program of $50,000, with the assumption of revisiting it in a year or so to fund the program for 5 years. City Manager Jackson said that upon Council's concurrence, we will have the flexibility of providing the $50,000 out of the estimated balance of $81,662 of unallocated Fund Balance.

Councilwoman Mayfield also supporting the Strategic Partnership Fund grant amount from $158,000 to $200,000.

After discussion, it was the consensus of Council to use the estimated unallocated Fund Balance of $81,662 to increase the Strategic Partnership Fund grant amount by $42,000, have a placeholder of $50,000 for the neighborhood opportunity fund reserve, and direct the City Manager to find the additional approximately $10,000.

All of Council agreed, except for Councilman Haynes, to add to the recurring base budget the Transit south service improvements; Reduction in Federal transit funds; In-Source temporary labor; and Police staffing.

All of Council agreed, except for Councilman Haynes, to include the one-time allocations of Fund Balance: Energy Innovation Task Force; Tree Canopy Study; Payroll/Benefits Audit Recommendations; Accident Replacement Fire Truck; Police Staffing Vehicles; Election Costs; Increase to the Strategic Partnership Fund grants ($42,000); and placeholder for the neighborhood opportunity fund reserve ($50,000).

All of Council agreed to add to the recurring base budget expanding Sunday service on all routes from 8:00 a.m. to 5:00 p.m.; and adding 8 hours of additional evening hours Monday - Saturday (approximately $630,000), and funding that with a ½ cent over revenue neutral and the bonds.

At 4:27 p.m., Mayor Manheimer adjourned the worksession.

Tuesday – April 11, 2017 - 5:00 p.m.

Regular Meeting

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Cecil Bothwell; Councilman Brian D. Haynes; Councilwoman Julie V. Mayfield; Councilman Gordon D. Smith; Councilman W. Keith Young; City Manager Gary W. Jackson; City Attorney Robin T. Currin; and Deputy City Clerk Sarah Terwilliger

Absent: None

PLEDGE OF ALLEGIANCE

Mayor Manheimer led City Council in the Pledge of Allegiance.

I. PROCLAMATIONS:

II. CONSENT AGENDA:

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON MARCH 28, 2017

B. RESOLUTION NO. 17-61 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A LEASE WITH THE CITY OF ASHEVILLE ALCOHOLIC BOARD OF BEVERAGE CONTROL FOR REAL PROPERTY AT 179 CHARLOTTE STREET, ASHEVILLE, N.C.

Summary: The consideration of a resolution authorizing the City Manager to enter into a Lease Amendment with the City of Asheville Board of Alcoholic Control for real property located at 179 S. Charlotte Street.

The property at 179 S. Charlotte Street has been in operation as an ABC Store since 1984. The property is improved with a brick building measuring 3,406 square feet on a 0.84 acre lot. As a result of the bond referendum passed in November 2016, the Charlotte Street location is under consideration for redevelopment that includes affordable housing. The ABC Board will need time to find an alternate location, particularly one that is capable of servicing downtown commercial locations (e.g. restaurants, bars) with alcoholic beverages and spirits. At this time, the Board of Alcoholic Control has offered to enter into an amendment to their current lease that is consistent with market based pricing, as follows:

(1) Term of two years and a one year renewal option, subject to Landlord approval
(2) Annual rental fee of $55,075 with a yearly escalation of 3%
(3) Lessee to pay all utilities and maintenance associated with premises
(4) Lease can be terminated by either party on 180 days prior written notice

This lease amendment was developed in accordance with the newly approved City of Asheville Lease Policy guidelines.

In order to achieve market-based pricing, City staff established the rate by commissioning a market rent analysis for this location. The rental rate is consistent with area fair market value for this type of building and use at $16.17 per square foot per year. All proceeds of this lease benefit the Community Development Block Grant budget as Program Income.

The Notice of Intent to enter into a Lease Amendment with the City of Asheville Board of Alcoholic Control was published on March 10, 2017, in the Asheville Citizen-Times. Thirty days have passed since the publication and authorization to execute the Lease Agreement is being requested.

Pros:

- Strategic real property management, through the renewal of lease agreements, presents the City with revenue enhancements, which in this case benefits the Community Development Block Grant program.
- The Asheville ABC Board has consistently agreed to pay fair market lease rates.
- The short lease period frees up the property for other uses, but allows the current tenant time in order to find a new location.
- The City of Asheville Board of Alcoholic Control is a consistent and well established tenant in that location

Con:

- None.

The revenue from the annual rental fee of $55,075 with a yearly escalation of 3% will benefit the Community Development Block Grant as program income.

City staff recommends City Council adopt a resolution authorizing the City Manager to execute the lease amendment agreement with the City of Asheville Board of Alcoholic Control on behalf of the City of Asheville.

RESOLUTION BOOK NO. 38 - PAGE 377

C. REQUEST TO MOUNT A CEREMONIAL PLAQUE ON THE EXTERIOR OF THE MUNICIPAL BUILDING RECOGNIZING THE BRICK WORK OF JAMES VESTER MILLER

Summary: Announcement of a request to have a ceremonial plaque honoring James Vester Miller, a prominent African-American brick mason who performed the bricklaying on the Municipal Building in 1925 and 1926, mounted on the Municipal Building.

The City of Asheville has received a request from Ms. Andrea Clarke, grand daughter of James Vester Miller, to mount a ceremonial plaque on the Asheville Municipal Building honoring Mr. Miller's bricklaying on the Municipal Building.

Pursuant to the City's policy on public naming, Ms. Clarke provided City Council with the request including at least 30 signatures of registered voters of the City. Also pursuant to the policy, Council shall make the announcement at a scheduled public meeting so as to provide for an opportunity to receive input from appropriate sources. Prior to voting, the Council may solicit the advice of surrounding property owners, residents, affected parties, and other City officials or anyone else that the Council believes can contribute meaningful input.

In order to receive that input, Council will make a decision at their next regularly scheduled meeting.

The City Clerk's Office has verified with the Buncombe County Board of Elections that at least 30 signatures on the request are registered voters of the City. In addition, the Director of Historic Resources has verified the information on the request. Finally, Ms. Clarke has submitted three possible locations that she wishes the plaque to be placed. The General Services Director is in the process of reviewing the three locations and will submit a location recommendation at the April 25 meeting.

There will be no fiscal impact to the City as the plaque and mounting will be paid for by Ms. Clarke.

Staff recommends City Council solicit input from the public on mounting a ceremonial plaque on the Municipal Building honoring the brick work of James Vester Miller and his construction firm Miller Construction Company.

Ms. Dee Williams thanked City Council for their consideration of this plaque. She suggested the African American Heritage Commission be tasked with a process to recognize Mr. Miller on other buildings and others who provide service to the community.

Ms. Carol Cosgrove spoke in favor of the commemorative plaque and said we owe a big debt to the African American community and was glad we are going to acknowledge Mr. Miller.

D. RESOLUTION NO. 17-62 - RESOLUTION AUTHORIZING THE CITY MANAGER TO APPLY FOR, AND IF AWARDED, ACCEPT FUNDING FROM THE DUKE ENERGY GRANT PROGRAM TO COVER COSTS DUE TO INCREASED STAFFING LEVELS DURING THE 2016 FALL WILDLAND SEASON

Summary: The consideration of a resolution authorizing the City Manager to apply for, and if awarded, accept funding from the Duke Energy Grant Program to recover costs due to increased staffing levels during the 2016 fall wildland season.

The 2016 fall wildfire season Western North Carolina experienced was exceptionally busy. During the period that started November 1, 2016 to December 5, 2016, The City of Asheville Fire Department (Fire Department) committed staff and apparatus to support North Carolina Forestry Service and Buncombe County Fire Service neighbors. Due to the increased threat that wildland fire posed to customers within the City of Asheville (City) and the depleted mutual aid resources available to assist with those fires in the city, the decision was made to increase staffing levels. An Engine, staffed with 4, as well as a Brush truck, staffed with 2 were placed in service to quickly and aggressively respond to wildland fire calls. The Fire Department, which responded to 44 outside vegetation fires during the aforementioned period, incurred overtime expenses in the amount of $42,862. Due to the increased response levels, these fires

were mostly contained to an acre or less. It should also be noted that these units were available to Mutual Aid partners to assist with additional wildland fires in their areas, had there been a need.

This action went to the City Council Finance Committee for review on March 28, 2017, with the unanimous recommendation that it move forward to the full Council.

Pro:

- Receiving funds from this grant will reduce the impact this service had on the fire department overtime budget.

Con:

- None Identified

These reimbursement funds, available through the Duke Energy Grant Program and once received will be to fund fire department overtime expenses. If the grant is awarded, staff will return to Council for a budget amendment to appropriate the exact amount of the award.

Staff recommends City Council adopt a resolution authorizing the City Manager to apply for, and if awarded, accept funding from the Duke Energy Grant Program to recover costs due to increased staffing levels during the 2016 fall wildland season.

RESOLUTION BOOK NO. 38 - PAGE 378

E. RESOLUTION NO. 17-63 - RESOLUTION ACCEPTING FUNDS FROM PACEBOOK & ASSOCIATES INC. TO PAY THE ADMINISTRATIVE FEE TO REVIEW A POSSIBLE QUIET ZONE IN THE OAKLEY COMMUNITY

ORDINANCE NO. 4571 - BUDGET AMENDMENT TO SET UP THE PROJECT BUDGET FOR A PAYMENT OF THE ADMINISTRATIVE FEE FOR A POSSIBLE QUIET ZONE IN THE OAKLEY COMMUNITY

Summary: The consideration of a resolution, and its associated budget amendment, to accept a payment of $5,400 from Pacebook & Associates, Inc. that would then be sent to Norfolk Southern to pay the administrative fee to begin the process of a possible quiet zone at the Stoner Road at-grade crossing in the Oakley Community in East Asheville.

Historically, railroads have sounded train horns in advance of grade crossings as a safety precaution. In 2005, the federal Train Horn Rule was enacted, which set nationwide standards for the sounding of train horns. Under the current federal regulations, train horns begin sounding 15-20 seconds before entering public highway-rail grade crossings, no more than one-quarter mile in advance.

The 2005 Rule established a process for communities to obtain relief from the routine sounding of train horns, by providing criteria for the establishment of quiet zones. A quiet zone is a section of a rail line at least one-half mile in length that contains one or more consecutive public highway-rail grade crossings at which locomotive horns are not routinely sounded when trains are approaching the crossing. Train horns may still be sounded in emergency situations or to comply with other rules. Only a public authority, the governmental entity responsible for traffic control or law enforcement at the crossing, is permitted to create quiet zones.

Because the absence of routine horn sounding increases the risk of a crossing collision, a public authority that wishes to establish a quiet zone is required to mitigate this additional risk by installing Supplemental Safety Measures (SSM). SSMs are pre-approved risk reduction engineering treatments installed at public highway-rail crossings, such as a four quadrant gate system. Public authorities seeking to establish a quiet zone must finance the installation of SSM. Costs can vary greatly depending on the number of crossings and type of safety improvements

required. The Federal Railroad Administration strongly recommends that all crossings in a proposed quiet zone first be reviewed by a diagnostic team that includes representatives from the public authority, railroad, State agency responsible for crossing safety and FRA grade crossing managers.

The City of Asheville previously went through the Quiet Zone process and established a 24-hour Quiet Zone at the Lyman Street at-grade crossing in the River Arts District with an effective date of January 8, 2014. Unlike the Stoner Road crossing request described below, the appropriate SSM, which was a four-quadrant gate system, was already in place at the Lyman Street crossing and had been installed during November 2011 at an estimated cost of $540,000. The total additional costs to the City to establish the Quiet Zone was approximately $5,500, which included the administrative fee, warning signs, and pavement markings. A developer also contributed funds to establish the quiet zone.

Pacebook & Associates, Inc. is currently building a 254-unit apartment complex known as River Mill Lofts adjacent to Thompson Street and Stoner Road in the Oakley Community in East Asheville. The developer is interested in having a quiet zone established at the Stoner Road at-grade crossing since the crossing is in the immediate vicinity of the project. Only the City of Asheville, as the public authority having jurisdiction, is entitled to establish a quiet zone at this crossing.

On behalf of the developer, staff reached out to Norfolk Southern to get a preliminary "ballpark" cost to add the appropriate SSM to be able to move forward with a quiet zone. The preliminary cost exceeds $700,000 and the developer has now requested an on-site meeting with Norfolk Southern staff (and City of Asheville staff) to be sure that the cost is accurate.

Norfolk Southern staff will not meet with the developer until the $5,400 administrative fee (current standard administrative fee to review quiet zones) is paid and they won't accept payment from the developer since the developer is not the public authority. As such, the developer has requested that the City accept payment from the developer for the cost of the administrative fee; and that the City request the meeting with Norfolk Southern and submit the administrative fee.

The developer's request, and establishing a quiet zone, would require City Council action. Staff has identified several points of consideration, which are listed below:

- Only the City may apply for and establish a quiet zone - which means the City would be ultimately responsible for the quiet zone any costs required to establish and maintain the quite zone.
- The federal rules regarding quiet zones are intended to remove failure to sound the horn as a cause of action in lawsuits involving collisions that have occurred at grade crossings within duly established quiet zones - however, the courts will ultimately determine who will be held liable if a collision occurs, based on the facts of each case.
- There are several railroad crossings within the City where quiet zones may potentially be established. Is this particular location an area where the City would like to establish a quiet zone and how would the City treat similar requests from citizens in the future (ie: requests to establish a quiet zone where there is not already a sufficient SSM)?

The Public Safety Committee reviewed this item on March 27, 2017, and recommended that it move forward to City Council for review and approval.

Pros:

- If the project moves forward and is successfully accomplished, the quiet zone would eliminate routine train horn sounding at the subject at-grade crossing.
- The appropriate funds are coming from a private source.

Cons:

- If the project moves forward and is successfully accomplished, the City would be ultimately responsible for the quite zone and responsible for half of the annual maintenance cost ($1,200 to $3,800).
- May set a precedent for future requests from private citizens to have the City establish a quite zone in their neighborhood.
- Granting requests to establish quite zones when private parties pay the associated costs, may result in establishing quite zones in areas where citizens can afford to pay the associated costs, as opposed to other areas where citizens live near train crossings and cannot afford the cost to establish a quite zone.

There is no direct immediate fiscal impact to the City. The $5,400 payment is coming from a private source and the City is simply sending it to Norfolk Southern to pay an appropriate administrative fee regarding quiet zones.

Staff recommends that City Council approve a resolution and its associated budget amendment to accept a payment of $5,400 from Pacebook & Associates, Inc. that would then be sent to Norfolk Southern to pay the administrative fee to begin the process of a possible quiet zone at the Stoner Road at-grade crossing in the Oakley Community in East Asheville.

In response to Councilman Bothwell, Transportation Director Ken Putnam said that if Norfolk Southern does approve the appropriate SSM to be able to move forward with a quiet zone, the City will be ultimately responsible for any costs required to establish and maintain the quite zone - approximately $2,000.

RESOLUTION BOOK NO. 38 - PAGE 379
ORDINANCE BOOK NO. 31 - PAGE 176

F. RESOLUTION NO. 17-64 - RESOLUTION AUTHORIZING THE APPROVAL OF THE 2017-18 STRATEGIC PARTNERSHIP FUND GRANTS

Summary: The consideration of a resolution approving the recommendations of the Housing & Community Development (HCD) Committee for the 2016-17 Strategic Partnership Fund.

The HCD Committee received applications from 24 eligible organizations for Strategic Partnership Funds for 2017-18. The Committee considered these applications at their meeting on March 24, 2017, and now recommends 15 applications for funding. The recommendations are:

AGENCY	AWARD
Asheville Area Arts Council	$5,000
Bountiful Cities	$11,000
Children First	$20,000
Getting Back to Basics	$3,500
Green Opportunities	$10,000
Homeward Bound	$30,000
i.b.mee (I Be Me)	$3,700
My Daddy Taught Me That	$20,000

OnTrack Financial	$12,000
One Youth at a Time	$5,000
Positive Changes Youth Ministries	$6,500
Read to Succeed	$5,000
The SPARC Foundation	$13,300
United Way 211	$1,400
YWCA	$12,000
TOTAL	**$158,400**

Total recommended funding is $158 400. This amount is unchanged from last year's Strategic Partnership Fund Program.

This Annual Action Plan directly supports Council's 2036 Vision in the following categories: (1) A Diverse Community: Quality education access and family services will support low-income students. Low-income households will receive financial services; (2) Quality Affordable Housing: Homeless support services, financial counseling and support for low-income neighborhoods; and (3) Thriving Local Economy: Job training, skills' development and job creation.

Pros:

- Approval of the Strategic Partnership Fund provides operating support to Asheville-based organizations that are providing direct services for Asheville residents.
- The Strategic Partnership Fund reflects the carefully considered recommendations of the City's Housing & Community Development Committee.

Con:

- Budget constraints continue to curtail the availability of funds; supported organizations will need to find alternate sources of program support. All worthy proposals could not be funded.

Strategic Partnership Funds are funced from the City's general fund. The funding recommendations do not exceed the fiscal limits included in the FY 2017-2018 Budget of $158,400.

The HCD Committee recommends approval of the 2017-18 Strategic Partnership Fund grants as presented.

The following individuals spoke regarding the inadequate funding for the worthy proposals that submitted requests, noting that they understood the fund was increased to $200,000 next fiscal year but that is still not enough:

Dawn Chavez, representing Asheville GreenWorks
Libby Kyles, an elementary school teacher
Dewana Little, Director of Positive Changes Youth Ministry
Nicole Hinebaugh, Program Director of Bountiful Cities
Timothy Sadler

Councilman Smith said that the meeting where the funds were allocated was a difficult meeting and this illustrates how much need is going unmet in our community. The cost for these programs is being pushed from the state and federal levels to municipalities. Even though we will probably never have enough to meet the needs, that responsibility is rapidly shifting to our shoulders. He felt the community also needs to reach out to our state and federal representatives because these are common values.

Councilman Young said that even though the CDBG funds may go away with the financial shift going to local governments, he, as well as this Council, will continue to advocate for the worthy programs. He can't promise that everyone who has an ambition to help others will get funded, but he will try to make sure most of our community is able to keep us in good standing with each other. He is working on a neighborhood opportunity fund, noting that to those that did apply and did not get funds, there are things that are in the works.

Councilman Bothwell said that there are so many good projects but not all of them can get funded and those that get some funds, it's not all of what they need. He stressed how difficult it is to appropriate the allocated funds.

Mayor Manheimer said it was important for people to understand there is a strategy from the top down to force the cuts on non-profits from the federal and state level, to push these decisions and funding burdens on local government. She explained how this decision-making process is really challenging each year. There are so many great initiatives, but we must work within the parameters we have.

RESOLUTION BOOK NO. 38 - PAGE 380

G. RESOLUTION NO. 17-65 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT WITH PATTON CONSTRUCTION COMPANY TO MODERNIZE THE CIVIC CENTER GARAGE ELEVATOR

Summary: The consideration of a resolution authorizing the City Manager to enter in a contract with Patton Construction to modernize the Civic Center Garage elevator.

The three oldest City owned parking garages, Civic Center, Rankin Avenue, and Wall Street, are starting to show age related deterioration. To forestall this, Parking Services is conducting parallel programs to systemically evaluate the structures and elevators to determine their current condition and to plan on how to continue to maintain them for the long term.

In 2016, the City published a Request for Qualifications for interested engineering firms to evaluate the elevators in the three oldest garages. The Wooten Company was chosen and entered in to a contract with the City for evaluation, design, bid, and construction management services for the elevators. The Wooten Company completed the initial condition evaluations in late summer 2016. As expected of elevators between 28 and 40 years old, they require extensive rehabilitation to bring them up to current codes and standards. The 40 year old Civic Center Garage elevator is in the worst shape and selected for modernization first.

The Civic Center Garage elevator is an eight story cable mechanism that is hopelessly out of date and plagued by frequent malfunctions. At times the City's elevator repair company has to have parts handmade to keep it in operation. The engineer determined, that as quickly as possible, the whole thing needed to be replaced and the mechanical room brought up to current building and fire safety standards, to include fire suppression and alarm systems. Repairs will include replacing the elevator car and associated hoisting mechanisms, replacement of all control mechanisms in the mechanical room, structural repairs to the mechanical room, and additions of fire suppression and alarm systems in the mechanical room. The Wooten Company prepared the design and specifications for repairs in the fall of 2016. On January 3, 2017 the City published a

Request for Bids, for interested construction companies, with a proposal due date of February 3, 2017. On that date, the City received two bids. Another Request for Bids with a due date of February 24, 2017 was issued. On that date, again the City only received two bids. The apparent responsive company with the lowest bid was Patton Construction Company at $339,950.00. The Wooten Company has evaluated Patton Construction Company's bid, researched the firm, and contacted references of prior work. They have determined and recommended it as a responsible bid and that Patton Construction is capable of completing the work.

Pros:

- Improves customer service in the garage by proving safe and reliable elevator service.
- Brings the elevator and mechanical room up to current building and fire safety codes.

Cons:

- The elevator will be out of service for about 90 days while the car and hoist mechanisms are replaced.
- Expenditures of $339,950.00.

Funds for the project are available in Parking Services' FY 17 Capital Budget. The construction bid and contingency of $355,000 is less than the original budget estimate of $493,400.

City staff recommends City Council adopt a resolution authorizing the City Manager to enter in a contract with Patton Construction Company in an amount not to exceed $355,000.00 (bid amount plus contingency) for modernization of the Civic Center Garage elevator.

RESOLUTION BOOK NO. 38 - PAGE 381

H. ORDINANCE NO. 4572 - BUDGET AMENDMENT FROM THE N.C. DEPT. OF PUBLIC SAFETY TO PROVIDE REGIONAL HAZARDOUS MATERIALS EMERGENCY FOR REGION 6

Summary: The consideration of a budget amendment, in the amount of $6,000, from the N.C. Dept. of Public Safety, for State Regional Hazardous Materials Response Team Number 6.

On June 26, 2016, the N.C. Dept. of Public Safety and the City of Asheville signed the Notice to Proceed for the contractual agreement to the City of Asheville (City) for Hazardous Materials Emergency Response Services for contract years of July 1, 2016 through June 30, 2020. The signed contract agreement increased the level of Training Funds from the previous contract of $19,000 per calendar year to $25,000 per calendar year. The increase of $6,000 was not captured in the FY 2017 budget due to the contract timing. The City of Asheville Fire Department (Fire Department) requests a budget amendment in the amount of $6,000 for fiscal year 2017 to reflect this revenue increase.

North Carolina is divided into seven geographical regions for the purpose of hazardous material emergency response. The North Carolina Department of Public Safety contracts with municipalities across the state to respond into the geographical regions and provide technician level hazardous materials emergency response. Within the Contract for Hazardous Materials Regional Response Team Services, NC provides funding for training and education to maintain subject matter mastery so that the team can safely respond to incidents involving hazardous materials and/or acts of terrorism.

This action went to the City Council Finance Committee for review on March 28, 2017, with the unanimously recommended it move forward to the full Council.

Pros:

- The State of North Carolina provides funds for training members of the Fire Department to enable it to competently handle hazardous materials emergencies. This amount was increased at the last contract renewal from $19,000 per calendar year to $25,000 per calendar year.
- The City has full use of the truck and all specialty equipment within the City. Without this contract, Asheville taxpayers would need to provide much of resources necessary to properly respond to emergencies within Asheville. With the contract, the City has the benefit of the equipment and resources being funded at the state level, rather than at the local level.
- Firefighter and community safety will be enhanced.

Con:

- None have been identified or known at this time.

This budget amendment will increase the Fire Department's General Fund budget by $6,000 and is entirely funded with revenue from the N.C. Dept. of Public Safety.

City staff requests City Council adopt the budget amendment to increase the Fire Department Training budget by $6,000 to reflect this increase in training funds received from N.C. Dept. of Public Safety to provide regional hazardous materials emergency response for Region 6.

ORDINANCE BOOK NO. 31 - PAGE 169

I. RESOLUTION NO. 17-66 - RESOLUTION ADOPTING THE COMMUNITY DEVELOPMENT BLOCK GRANT POLICY AND PROCEDURE MANUAL

Summary: The consideration of a resolution adopting the Community Development Block Grant Policy and Procedure Manual for the City of Asheville.

The City of Asheville (CCA) is an entitlement jurisdiction for federal formula grants through the U.S. Department of Housing and Urban Development's (HUD) Community Development Block Grant (CDBG) Program. The intent of the grant funds is to provide decent housing, provide suitable living environment and to expand economic opportunities, primarily for low and moderate-income persons. Basic requirements for a local CDBG program are set forth in CDBG Program Regulations 24 CFR Part 570. Federal requirements allow extensive leeway for how a local CDBG program shall be managed. Local community needs, resources, priorities and procedures for managing the CDBG program have been approved by the City Council in the past as part of the City's five-year Consolidated Plan for the Community and Economic Development Department. In addition, each year City Council approves the current year's Action Plan which includes objectives and outcomes identified in the plan, an evaluation of past performance and activities to be undertaken in the next year. Although both the Consolidated Plan and the Action Plan describe the performance standards and procedures City staff will use to evaluate and monitor activities and ensure compliance with HUD requirements, it is necessary to outline and document all programmatic policies and procedures.

The City of Asheville Community Development Block Grant program generally funds public entities or nonprofit organizations to serve as a subrecipient to assist low to moderate income residents. In this role, subrecipients are responsible for screening applicants for eligibility, adhering to program requirements and administering the CDBG program.

24 CFR 570.501(b) states that "The recipient of HUD funds is responsible for ensuring that CDBG funds are used in accordance with all program requirements. The use of designated public agencies, subrecipients, or contractors does not relieve the recipient of this responsibility."

The proposed policy anc procedure manual include:

- General CDBG program rules, regulations and requirements;
- Basic eligibility requirements for subrecipients and low to moderate income participants;
- A listing of ineligible activities;
- Financial responsibilities of subrecipients;
- Explanation of records to be mainta ned;
- How to obtain CDBG funding;
- Detailed home repair and rehabilitation requirements of a program;
- Outline of other federal requirements with a CDBG program;
- And staff monitoring process to ensure CDBG compliance requirements is met.

At HCD's and staff's request, community agencies utilizing CDBG funds were invited to comment on and make suggestions for the policy manual. Comments and suggestions were received and incorporated into the final document.

Pro:

- Ensures City of Asheville compliance with HUD regulations in administering Community Development Block Grant funds

Con:

- None

No fiscal impact. CDBG funds themselves come directly from the federal government.

Staff recommends City Council approve the HCD Committee's recommendation to adopt the CDBG policy and procedure manual, and authorize the City Manager to direct implementation.

RESOLUTION BOOK NO. 38 - PAGE 382

J. ORDINANCE NO. 4573 - BUDGET AMENDMENT TO REFLECT UPDATED FISCAL YEAR 2016-17 REVENUE AND EXPENDITURE PROJECTS FROM THE U.S. CELLULAR CENTER

Summary: The consideration of a budget amendment, in the amount of $460,000 from U.S. Cellular Center Operating Revenue, to increase the U.S. Cellular Center Fund budget to reflect updated Fiscal Year 2016-17 revenue and expenditure projections.

The US Cellular Center event load in FY 2016-17 has been significantly higher than initially forecasted during last year's budget process as numerous large scale events have been added during this fiscal year. Both revenues and expenses are now on pace to exceed budget. The center will, during early 4th quarter, collect revenues equal to that which was budgeted for the entire fiscal year. In order to fund anticipated expenses over the last quarter of the current fiscal year, staff is recommending that the U.S. Cellular Center Fund budget be increased by $460,000. It is anticipated that revenue generated by concessions & other show related revenues will cover all of the cost of the budget amendment; therefore, no additional transfer from the General Fund is required at this time. The U.S. Cellular Center has several events scheduled before June 30 that will generate significant revenues.

This amendment has been presented to the Civic Center Commission and recommended to City Council.

Pro:

- Provides sufficient budget authorization for anticipated expenditures in the U.S. Cellular Center Fund without increasing the General Fund transfer.

Con:

- There is a slight chance that year-end revenues could fall short of current estimates if ticket sales are less than expected or concession revenues are lower, however in this case expense needs will be reduced as well.

As noted above, this budget amendment is funded with U.S. Cellular Center operating revenues that will exceed original budget estimates. Therefore, there is no expected impact to the City's General Fund budget.

Staff recommends City Council adopt a budget amendment to increase the U.S. Cellular Center Fund budget by $460,000 to reflect updated Fiscal Year 2016-17 revenue and expenditure projections.

ORDINANCE BOOK NO. 31 -PAGE 171

K. RESOLUTION NO. 17-67 - RESOLUTION AUTHORIZING THE CITY MANAGER TO APPLY FOR, AND IF AWARDED ACCEPT, FUNDING FROM THE FEDERAL EMERGENCY MANAGEMENT ADMINISTRATION TO RECOVER COSTS ASSOCIATED WITH THE MUTUAL AID RESPONSE FOR THE PARTY ROCK WILDFIRE

Summary: The consideration of a resolution authorizing the City Manager to apply for, and if awarded, accept funding from the Federal Emergency Management Association, Fire Management Assistance grant, to cover costs associated with the mutual aid response for the Party Rock Wildfire.

The 2016 fall wildfire season Western North Carolina experienced was exceptionally busy. From November 11, 2016 to November 25, 2016, the City of Asheville Fire Department (Fire Department) committed staff and apparatus to support Buncombe County Fire Service neighbors at the Party Rock Fire, near Chimney Rock. The Fire Department crews were committed to protecting structures around the clock during this time, as well as maintaining the fire line around the fire boundary. This effort was staffed and resourced at a total cost of $23,354 as detailed below:

Resource	Cost
Overtime	$11,421
Equipment	$11,933
TOTAL	**$23,354**

This action went to the City Council Finance Committee for review on March 28, 2017, with the unanimous recommendation that it move forward to the full Council.

Pro:

- Receiving funds from this grant will reduce the impact providing this service had on the Fire Department's overtime budget.

Con:

- None Identified

These reimbursement funds, available through the Fire Management Assistance Grant, will reimburse the Fire Department for overtime expenses and equipment costs. If the grant is awarded, staff will return to Council for a budget amendment to appropriate the exact amount of the award.

Staff recommends City Council adopt a resolution authorizing the City Manager to apply for, and if awarded, accept funding from the Federal Emergency Management Association, Fire

Management Assistance grant, to cover costs associated with the mutual aid response for the Party Rock Wildfire.

RESOLUTION BOOK NO. 38 - PAGE 383

L. ORDINANCE NO. 4574 - BUDGET AMENDMENT TO FUND ADDITIONAL FULL-TIME EMPLOYEES, PERMANENT PART-TIME AND TEMPORARY/SEASONAL STAFF TO REPLACE THE CONTRACT STAFFING IN THE PUBLIC WORKS DEPARTMENT

Summary: The consideration of a budget amendment from General Fund fund balance in the amount of $45,285 to fund additional full-time employees (FTE), permanent part-time and temporary/seasonal staff to replace contract staffing in the Public Works (PW) Department.

The City of Asheville has contracted to provide temporary laborers to the U.S. Cellular Center (USCC) and PW Department for several years. In the past year, the City conducted an analysis of its practice of utilizing a temporary workforce for certain services in the City.

Staff has been working to identify various services these temporary workers provided. A breakdown of the various types of services is listed in the table below.

Department	Division	Service
Public Works	Streets	Litter collection and graffiti removal
Public Works	Sanitation	Brush collection
Community and Economic Development	USCC	Food & Beverage - Inventory/Setup
Community and Economic Development	USCC	Operations/Maintenance

Additionally, staff identified and evaluated the various ways in which the service is delivered and considered the time and number of work hours necessary to provide the service.

These services are included in the current operating budget at $317,000 annually. The FY 2016-17 Budget has proven inadequate to the level of service required. An additional $117,717 is needed to allow PW and the US Cellular Center to continue to provide the existing level of service through the end of FY 2016-17. USCC's portion of the funding ($72,432) is included in the budget amendment that is a separate agenda item at the April 11, 2017, City Council meeting. The PW share of the cost $45,285) will be appropriated from General Fund fund balance as a part of this action item.

Four options for continued service were presented to Finance Committee on March 28, and the Committee recommended that staff bring Option 2 to full Council on April 11 for approval.

Option 2 (Finance Committee recommended):

- Adding full-time staff to crews that are not fully staffed;
- Part-time staffing for work that does not require full-time staff; and,
- Temporary staff for large events at the USCC or high volume brush collection services (seasonal).

Additional Budget FY 2016-17: $117,717

Net increase in annual cost (FY 2017-18 Budget): $248,000
TOTAL ANNUAL COST: $565,000

Pros:

- Provides for staffing to meet the City's service demands.
- Services would be provided by staff that are paid a living wage.

- Less expensive than options 3 and 4.

Cons:

- Hiring full-time and part-time employees provides less flexibility to right-size staff during more challenging economic times.
- Does not include the flexibility of a temporary labor pool that is created under options 3 and 4.
- More expensive than Option 1.

The 2016-17 additional cost is $117,717. The annual operating budget increase for FY 2017-18 is $248,000.

City staff recommends City Council adopt a budget amendment from General Fund fund balance in the amount of $45,285 to fund additional full-time employees , permanent part-time and temporary/seasonal staff to replace contract staffing in the Public Works (PW) Department and endorse the Finance Committee recommendation of Option 2, directing the City Manager to include funds in the FY 2017-18 budget to cover the additional costs.

ORDINANCE BOOK NO. 31 - PAGE 173

M. RESOLUTION NO. 17-68 - RESOLUTION APPROVING EARLY REPAYMENT OF THE SECTION 108 LOAN ON THE WOODFIN APARTMENTS BY THE HOUSING AUTHORITY OF THE CITY OF ASHEVILLE AND REPURPOSING THOSE FUNDS FOR COMMUNITY DEVELOPMENT BLOCK GRANT PROGRAMMING

Summary: The consideration of a resolution for early repayment of the Section 108 loan on the Woodfin building by the Housing Authority of the City of Asheville and repurposing those funds for CDBG programming.

A Section 108 loan was made to the Housing Authority in 2004 for the rehabilitation of the Woodfin Apartments. This building contains 19 units of affordable housing, and is currently occupied by formerly homeless households who have had the highest barriers to housing in partnership with Homeward Bound – sometimes referred to as "hard to house". The original loan was made in the amount of $620,000, at 5% interest, with monthly payments. These regular payments (and payments from other old section 108 loans) have been used exclusively to make interest and principal payments on the Section 108 loan that was obtained for the Eagle Market Street development (now Eagle Market Place). HUD CDBG "Program Income" (which this is) must be used for CDBG eligible purposes, and the repayment of Section 108 loans is one of those purposes. Current principal owed is $554,895.

The Housing Authority has requested an early repayment of this loan, with a discount applied for early repayment. Staff recommends 50% of principal payoff with commitment by the Housing Authority to retain the Woodfin Apartments as affordable housing for the hard-to-house for a minimum period of 20 years, affordable to households at 60% or less AMI.

Staff also recommends reinvesting the approximately $270,000 as CDBG program income to be considered as part of the 2017-2018 Annual Action Plan for HUD.

Pros:

- Approval of the Section 108 Loan Payoff proposal secures affordable housing for the hard-to-house population for a minimum of 20 years
- Provides approximately $270,000 for additional CDBG-eligible proposals in the 2017-18 HUD Annual Action Plan.

Con:

- The 50% discount applied to the early repayment reduces the amount of income from this loan repaid on original payment schedule.

Additional approximate $270,000 for 2017-18 CDBG funds, reduced loan repayment from original payment schedule.

HCD recommends to City Council adopt a resolution for the early repayment of the Section 108 loan on the Woodfin Apartments under the terms above, and the reinvestment of those funds as CDBG program income.

Councilman Smith said that the $270,000 will be returned to the CDBG fund and re-distributed in our community in a quicker fashion.

RESOLUTION BOOK NO. 38 - PAGE 384

N. RESOLUTION NO. 17-69 - RESOLUTION AUTHORIZING THE SALE OF ONE 2005 WESTERN STAR DUMP TRUCK DEEMED SURPLUS CITY PERSONAL PROPERTY

Summary: The consideration of a resolution authorizing the sale of one 2005 Western Star Dump Truck deemed surplus City personal property.

The City's Water Resources Department, Division of Maintenance, identified a 2005 Western Star Dump Truck, as surplus personal property, with no anticipation of utilization by the City. Pursuant to N.C.G.S. §160A-266, the Sale and Disposal of Personal Property valued at $30,000 or more must be approved by City Council. The City's Purchasing Manager has authority to dispose of personal property valued at less than $30,000 by private negotiation and sale. The estimated value of the Western Star Dump Truck is listed at $5,000. Bids were solicited online and received from twelve potential purchasers. The final bid amount at the close of the Auction on Sunday, April 2, 2017, was $51,000.00. City Council is being asked to approve the disposal and sale of the Dump Truck for $51,000.00.

Pros:

- Promotes City of Asheville fiscal responsibility of disposing of surplus property which generates revenue.
- Space utilization eliminates the need to store large, unused equipment.
- Competitive process yielded market price, statute contemplates.

Con:

- None

The Dump Truck is fully depreciated and the Water Resources Fund will recognize the entire $51,000 as revenue from the sale of assets. This adds to programming available for Water Resources Department Plan of capital improvements.

City staff recommends City Council adopt a resolution approving the disposal and sale of the 2005 Western Star Dump Truck to the perspective purchaser for the amount of $51,000.

In response to Councilman Bothwell, Purchasing Manager Amy Patterson said that we were lucky to have 12 bidders and were lucky to get that value out of the dump truck.

RESOLUTION BOOK NO. 38 - PAGE 385

O. RESOLUTION NO. 17-70 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ACCEPT A BUNCOMBE COUNTY TOURISM DEVELOPMENT

AUTHORITY FROM THE 2016 TOURISM PRODUCT DEVELOPMENT FUND CYCLE

ORDINANCE NO. 4575 - BUDGET AMENDMENT TO SUPPORT RENOVATIONS AND IMPROVEMENTS AT THE U.S. CELLULAR CENTER

Summary: The consideration of (1) a resolution authorizing the City Manager to accept a grant awarded by the Buncombe County Tourism Development Authority's (TDA) Tourist Product Development Fund; and (2) a budget amendment in the amount of $3,290,600 to support renovations and improvements at the U.S. Cellular Center, along with the City's matching funds.

At the May 17, 2016, City Council meeting, council approved a resolution (#16-118) authorizing 'The City Manager to submit a preliminary and final grant application to the Buncombe County Tourism Development Authority for the 2016 Tourism Product Development Fund cycle, and accept if awarded.'

In October of 2016, after preliminary and final grant application, staff was advised that the City had indeed been awarded a grant in the amount of $1,500,000. Per the grant application, the total amount of the City's match for this grant is $1,790,600 as TPDF grants will match 50/50 on construction cost with the award recipient required to cover all design fees. The City's match will be funded from the following accounts:

- USCC Capital Fund: $375,000
- COA CIP 16/17: $315,600
- COA Green CIP: $100,000
- COA Economic Development Savings: $1,000,000

These funds were identified prior to submission of the application in 2016 and placed in a reserve for the grant match.

The grant contract, based heavily on the City's grant application has the following highlight conditions set as deal points:

1. Providing the Grantor with continuation of exclusive naming rights to the ExploreAsheville.com Arena, for eight years after receipt of the last grant payment received from the Grantor associated with this project.
   Staff Note The Facility's arena is currently named as the ExploreAsheville.com Arena.
2. Requirement to submit annual reports to the TDA through four years after the completion of the project.
   Staff Note USCC Staff is already completing annual reports as part of past grants received from the TDA.
3. Requirement to 'source' all in-bound groups requiring ten or more hotel rooms per night through the CVB Group Sales Department.
   Staff Note USCC staff is already sourcing these groups through the CVB Group Sales Department.
4. Requirement for USCC to provide free use of space for Grantor to host an event once annually for eight years after receipt of the last grant payment received from the Grantor associated with this project.
   Staff Note USCC is currently providing the CVB with free use of space once annually per requirement from past grant contracts. Cost to USCC for this has averaged at under $2,000 annually.
5. Requirement for a 'Rental Fee Waiver' for five 'Group Events' occurring between 2018 and 2025, with no more than one 'Group Event' occurring in any given calendar year during that time. A 'Group Event' is defined as a

group sourced through the CVB Group Sales Department meeting the following criteria;

i. A minimum of two contracted hotels would be used to provide delegate housing;
ii. A minimum of 700 cumulative room nights contracted;
iii. The group has a verifiable meetings history; and,
iv. The group agrees to a minimum cumulative food, beverage and concession spend of $10,000 with the U.S. Cellular Center during the contracted event.

The 'Rental Fee Waiver' program covers base rental costs (excluding AV, F&B, staffing costs, etc.) for the contracted length of the event.

Staff Note Although providing the facility with a rental cost of $0, the USCC sill earn a substantial amount of revenue by bringing groups of this size to Asheville. A group of this size hosting an event for 3 days or more will generate a minimum of $60,000 in revenue to the facility over and above revenues generated from rent.

The project is to construct a comprehensive set of improvements and enhancements to the facility which will increase the venue's ability to host larger conferences and additional concert/performance events. The project wil create another venue within the facility by building a theater inside the ExploreAsheville.com Arena with a flexible capacity between 2,500 and 4,500 as needed. The overall project will include the following elements:

1. Meeting room renovation: Conversion of a current storage area to a permanent meeting room equal in capacity to the facility's second largest room, complete with all necessary audio/visual and internet needs.

2. Arena Theater System and Sound & Light Package: Purchase & installation of equipment and materials to create a flexible capacity theater within the ExploreAsheville.com Arena. This theater system will come equipped with the necessary curtaining, trussing, sound and light equipment necessary for a basic concert or performance event. Sound and light components are mobile equipment which will have the ability for use in both the Thomas Wolfe Auditorium and the ExploreAsheville.com Arena, allowing for more frequent use and ability to generate additional event dates.

3. Related Infrastructure: Converting storage space into meeting space & creating temporary 'walls' via theater curtain will require additional infrastructure updates to the facility in order for all components to function. This includes expanding current storage areas in the facility's exhibit level, Internet infrastructure enhancements and significant improvements to the facility's HVAC system.

Pros:

- City Council has identified the need to use our debt capacity and revenue wisely in order to maintain and improve the City's infrastructure.
- The TDPF is a significant funding opportunity and is the keystone to allowing these improvements to take place.
- The improvements will allow the facility to operate one step closer to revenue neutral.

Con:

- Requires a City match of $1,790,600.

Per the grant application, the total amount of the City's match for this grant is $1,790,600. The City's match will be funded from the following accounts:

- USCC Capital Fund: $375,000
- COA CIP 16/17: $315,600

- COA Green CIP: $100,000
- COA Economic Development Savings: $1,000,000

Staff recommends City Council approve 1) a budget amendment in the amount of $3,290,600 to budget an awarded grant by the Buncombe County Tourism Development Authority's (TDA) Tourism Product Development Fund (TDPF) to support renovations and improvements at the U.S. Cellular Center, along with the City's matching funds; and 2) a resolution authorizing the City Manager to accept the TPDF Grant with conditions.

RESOLUTION BOOK NO. 38 - PAGE 386
ORDINANCE BOOK NO. 31 - PAGE 275

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Councilman Bothwell moved for the adoption of the Consent Agenda. This motion was seconded by Vice-Mayor Wisler and carried unanimously.

III. PRESENTATIONS & REPORTS:

A. RESULTS OF RE-DISTRICTING POLL

Mr. Tige Watts, representing Campaign Research & Strategy, Inc., used a PowerPoint to explain his results. He provided Council with the background the methodology. The goal of this research is to determine perceptions and attitudes of residents who live in the City of Asheville on a number of issues which include: (1) how well the city is represented by its current composition of City Council, (2) their support of or opposition to potential ballot items that might alter how citizens select their council members, and (3) their agreement levels to several statements people could make in relation to measures that may be on the ballot and how citizens should elect members of City Council in the future. CRS and the City of Asheville worked together to define the survey instrument and the final version of the questionnaire was approved by City staff before it was put "into the field."

403 telephone surveys were conducted with registered voters of the City of Asheville by CRS' in-house interviewers between the evenings of March 20th and March 22nd, 2017. Interviews were conducted with respondents over land line and on mobile phones.

The representative sample of the City of Asheville, NC was randomly selected with respect to voter registration records of the city and are reflective of turnout during a typical November election cycle. All survey respondents were 18 years of age and older.

The margin of error for this study is 4.9% at a confidence interval of 95%. This means if the study were repeated 100 times, then the results would be within that 4.9% margin of error 95 times out of 100. The margin of error within specific demographic subsections would be higher.

There may be instances when figures do not always equal 100.0 percent, due to rounding of decimals.

He gave the results of residents' perceptions on several questions. Questions were (1) what would you say is the number one challenge here in the City of Asheville; (2) how would you rate the performance of the Asheville City Council this past year; (3) do you believe your voice and your personal opinions are represented fairly on Asheville City Council; and (4) do you believe the voices of people who have different opinions than you are represented fairly on Asheville City Council.

He provided the results for the following (1) The Mayor and 6 other members of City council are all currently elected at-large, which means every voter in the city gets to cast a vote for each seat on City Council. There has been consideration in the past to replace that system with one that elects the 6 members of City Council from single-member districts they represent. Do you believe Asheville should KEEP its current system of electing at-large representatives or should it CHANGE to electing its members from single-member districts? (2) Do you believe City Council should put a measure on the ballot that asks voters how members of City Council should be elected; (3) If there were a question on the ballot that read... "Shall the City of Asheville amend the Asheville City Charter to require each City Council Member shall reside in, and be elected from, a single-member district by a majority of the qualified voters of each respective district," Would you vote YES in favor of the change or NO against the change to single-member districts?; (4) Of the 16 cities with the largest populations in North Carolina, 3 elect council members from single-member districts only and another 3 elect them from at-large seats only. However, 10 elect council members from both single-member AND at-large seats. Would you SUPPORT or OPPOSE the City of Asheville electing its members to city council from both at-large and single-member districts?; (5) What do you believe is the proper amount of at-large seats to have on a 7-member City Council; and (6) If single-member districts do end up ultimately being created for City Council, it will require drawing boundary lines for an undetermined number of districts. City Council is ultimately responsible for approving boundary lines. Who do you prefer have the power to DRAW those boundary lines? Should it be (a) an independent third party; (b) a task force working with a third party; (c) City Council working with a third party; or (d) not sure.

He then provided the results for the questions related to the 5 different ways a city council can be constructed, according to state law. He asked that after he read the description of each one, to please tell him if you think the type of council would work best for Asheville. 5 means it's the best fit, 1 means it's the worst fit... (1) All City Council representatives are elected to at-large seats that are chosen by all voters in the City of Asheville; (2) All City Council representatives are elected form single-member districts by voters in each district of City Council; (3) Some City Council members are elected to at-large seat chosen by all voters while other members are elected to serve single-member districts by voters in each district; (4) Each district is represented by two members. One member is elected by voters in the district and the other member is elected by all voters in the City; and (5) Most Council members are elected from single-member districts while some may be elected to at-large seats. This happens after voters in each contest choose two candidates in each race to advance past a primary election.

When individuals were asked about who should have the power to draw the boundary lines, 34% wanted an independent third party, 23% wanted a task force with an independent third party, 19% wanted City Council working with an independent third party, and 16% were not sure.

In summary, the following is the analysis and recommendations for the single-member district only: Overall support to change to All Single-Member seats trails the support to keep ALL At-Large seats by 20%. Support to KEEP all at-large seats is higher among voters age 51-64 (65%), other races (60%), registered Democrats (67%), in Zip Codes 28801 (62%) and 28806 (61%), and among those who vote in municipal elections (63%). Support to CHANGE to all Single-Member seats is higher among voters under age 35 (38%), African-Americans (54%), males (41%), Registered Republicans (45%) and Independents (39%), in Zip Codes 28803 and 28805 42%), and among those who don't vote in municipal elections (42%).

In summary, the following is the analysis and recommendations for single-member and at-large seats: Overall support to keep ALL at-large seats is greater than the support to CHANGE to single-member AND at-large seats for City Council. Support to KEEP all at-large seats is higher among voters age 51-64 (53%), other races (65%), registered Republicans (55%), and in Zip Codes 28801 (60%), and 28804 (56%). Support to CHANGE to a system of single-member and at-large seats is higher among voters under age 35 (31%), African-Americans (35%), Registered Independents (32%), and in Zip code 28803 (34%).

Ultimately, he felt there is a lot of fluidity on this issue. Some want change, but when they get into the details, they are more resistant to change.

After considerable discussion, noting that time is a factor to get an issue on the ballot, it was the consensus of Council to instruct the City Attorney and City Manager to come back to council and lay out a time line with options for how to move forward for an independent commission that will ultimately result on a ballot question regarding districts.

Mayor Manheimer updated Council on two water-related bills Representative Chuck McGrady recently filed.

IV. PUBLIC HEARINGS:

V. UNFINISHED BUSINESS:

VI. NEW BUSINESS:

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

The following individuals spoke to Council about the $1 Million request for additional officers would be better spent on people and other life changing resources:

Ms. Nicole Townsend
Rev. Amy Cantrell
Ms. Matilda Bliss
Ms. Dewana Little

Ms. Dawn Chavez, representing GreenWorks, provided Council with information on the numerous projects and costs associated with those projects, noting that 85% of the projects take place within the City. She thanked Council for their financial investment in GreenWorks.

Mr. Timothy Sadler suggested the Buncombe County Tourism Development Authority create a committee to look at issues the community faces and develop a strategy to help address those issues.

Mr. Elliott Miller, Mr. Tariq Zeidan and a gentlemen commented and raised questions on the districting poll.

Closed Session

At 7:01 p.m., Councilman Young moved to go into closed session for the following reasons: (1) to prevent disclosure of information that is privileged and confidential, pursuant to the laws of North Carolina, or not considered a public record within the meaning of Chapter 132 of the General Statutes. The law that makes the information privileged and confidential is N.C.G.S. 143-318.10(a)(3). The statutory authorization is contained in N.C.G.S. 143-318.11(a)(1); and (2) To discuss matters relating to the location or expansion of industries. The statutory authorization is N.C. Gen. Stat. sec. 143-318.11(a)(4). This motion was seconded by Vice-Mayor Wisler and carried unanimously.

At 7:06 p.m., Vice-Mayor Wisler moved to come out of closed session. This motion was seconded by Councilman Young and carried unanimously.

VIII. ADJOURNMENT:

Mayor Manheimer adjourned the meeting at 7:06 p.m.

Magdalen Bouldson
CITY CLERK

Ethan G. Harker
MAYOR

Tuesday – April 25, 2017 - 5:00 p.m.

Regular Meeting

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Cecil Bothwell; Councilman Brian D. Haynes; Councilwoman Julie V. Mayfield; Councilman Gordon D. Smith; Councilman W. Keith Young; City Manager Gary W. Jackson; City Attorney Robin T. Currin; and City Clerk Magdalen Burleson

Absent: None

PLEDGE OF ALLEGIANCE

Mayor Manheimer led City Council in the Pledge of Allegiance.

I. PROCLAMATIONS:

A. PROCLAMATION PROCLAIMING APRIL, 2017, AS "PARKINSON'S DISEASE AWARENESS MONTH"

Councilman Bothwell read the proclamation proclaiming April, 2017, as "Parkinson's Disease Awareness Month" in the City of Asheville. He presented the proclamation to Ms. Nancy Hall, and others, who briefed City Council on some activities taking place during the month.

B. PROCLAMATION PROCLAIMING APRIL, 25, 2017, AS "METASTATIC BREAST CANCER AWARENESS DAY"

Councilwoman Mayfield read the proclamation proclaiming April 25, 2017, as "Metastatic Breast Cancer Awareness Day" in the City of Asheville. She presented the proclamation to Ms. Jean Sellers of the North Carolina Oncology Navigators Association, Dr. Rachel Raab, and others, who briefed City Council on some activities taking place during the day.

C. PROCLAMATION PROCLAIMING APRIL, 25, 2017, AS "NATIONAL DAY OF PRAYER"

Councilman Young read the proclamation proclaiming April 25, 2017, as "National Day of Prayer Day" in the City of Asheville. He presented the proclamation to Ms. Karen Brooks, who briefed City Council on some activities taking place during the day.

D. PROCLAMATION PROCLAIMING APRIL, 2017, AS "STAND AGAINST RACISM MONTH"

Vice-Mayor Wisler read the proclamation proclaiming April, 2017, as "Stand Against Racism Month" in the City of Asheville. She presented the proclamation to YWCA CEO Beth Maczka and YWCA Racial Justice Coordinator Gerry Leonard, who briefed City Council on some activities taking place during the month.

E. PROCLAMATION PROCLAIMING MAY, 2017, AS "BUILDING SAFETY MONTH"

Councilman Smith read the proclamation proclaiming May, 2017, as "Building Safety Month" in the City of Asheville. He presented the proclamation to Chief Code Official Mark Matheny and others, who briefed City Council on some activities taking place during the month.

F. PROCLAMATION PROCLAIMING MAY 7-13, 2017, AS "NATIONAL DRINKING WATER WEEK"

DRINKING WATER WEEK"

Councilwoman Mayfield read the proclamation proclaiming May 7-13, 2017, as "National Drinking Water Week" in the City of Asheville. She presented the proclamation to Water Resources Director Jade Dundas and Interim Resources Director David Melton who briefed City Council on some activities taking place during the week.

II. CONSENT AGENDA:

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON APRIL 11, 2017

B. RESOLUTION NO. 17-71 - RESOLUTION AMENDING POLICY GOVERNING CITY COUNCIL APPOINTMENTS TO CLARIFY THE ROLE OF CITY COUNCIL LIAISONS

Summary: The consideration of a resolution amending the Rules on Boards and Commissions policy to clarify the Council Liaison's role on boards and commissions.

There has been some confusion regarding the role of the Council Liaison to the various Boards and Commissions. On April 11, 2017, the Boards and Commissions Committee discussed this issue and is recommending the policy be amended as follows:

Remove the following Section 4 of the "Board at Work":

"The City Council may appoint a City Council person as liaison to the board or commission and that member is entitled to receive all agendas, minutes, and other correspondence and be eligible to attend all meetings of the board including closed sessions. The role of the liaison shall be to serve as a direct communication link between the City Council and the board or commission, and not to play an active role in the deliberation of the board or commission. The liaison shall notify the board or commission of long-range issues and projects under consideration by the Council which would be of interest to that board or commission and shall likewise advise the Council of such matters under consideration by the board or commission."

Replace with the following amended Section 4 of the "Board at Work":

"The City Council may appoint a City Council person as liaison to the board or commission. The role of the liaison shall be to provide information regarding long-range issues and projects under consideration by the Council which would be of interest to that board or commission and assist the board with procedural questions and scope of work. The liaison can address questions regarding Council's strategic goals and feasibility, but shall not play an active role in deliberation of the board or commission. Council liaisons are encouraged to attend meetings, but it is not required."

Pro:

- Clarification of the Council Liaison's role on Boards and Commissions

Con:

- None noted

City staff recommends City Council adopt the amendment to the policy governing Boards and Commissions.

Councilman Smith said this is simply a clarification that Council members, serving as liaisons are there to be a conduit between Council and citizen boards and commissions. That liaison is to be a two-way communicator to carry forward the efforts of the boards and commissions and to carry to the boards and commissions the strategic goals and priorities of Council.

RESOLUTION BOOK NO. 38 - PAGE 387

C. RESOLUTION NO. 17-72 - RESOLUTION AUTHORIZING THE MAYOR TO APPLY FOR, AND IF AWARDED, ENTER INTO A GRANT AGREEMENT WITH THE N.C. DEPT. OF ENVIRONMENT AND NATURAL RESOURCES FOR A NORTH CAROLINA PARKS AND RECREATION TRUST FUND GRANT FOR FIRST PHASE OF RENOVATION OF THE MONTFORD CENTER COMPLEX

Summary: The consideration of a resolution authorizing the Mayor to apply for and, if awarded, enter into a grant agreement with the North Carolina Department of Environment and Natural Resources for a North Carolina Parks and Recreation Trust Fund (PARTF) grant for first phase of renovation of the Montford Center Complex.

Funds are available through the North Carolina Department of Environment and Natural Resources, Division of Parks and Recreation in PARTF to assist with the development of parks, recreational facilities, and greenways. The City of Asheville wishes to submit a grant application not to exceed $402,150. If awarded, grant funds will be used to reimburse the city for future expenses related to the first phase of renovation of the Montford Center Complex.

The primary features of the first phase of renovation of the Montford Center Complex include a new playground, outdoor multipurpose recreation area, expanded parking, plaza area, sidewalks, and a trail.

The grant application requires a dollar for dollar cash match not to exceed $402,150. The cash match is available in the existing capital improvement program for the Montford Center Complex Renovation.

The Montford Center Complex project is budgeted in the capital improvement program and funded by the bond program. If awarded, the PARTF grant will leverage the existing project budget and enhance project scope of work.

The Montford Center Park Master Plan was developed in February 2015. Three community engagement meetings for the plan were held on April 10, June 3, and June 17, 2014.

The Montford Center Park Master Plan was endorsed by the Recreation Advisory Board on March 9, 2015.

The Finance Committee will review this recommendation at their April 25, 2017, meeting.

Pro:

- If awarded, the grant will reimburse the city up to $402,150 for future construction expenditures at the Montford Center Complex.

Con:

- None

If awarded, the grant is for one-time facility construction cost at the Montford Center Complex that will increase the budget not to exceed $402,150. This increase is funded by a grant

from the State of North Carolina in the Department of Department of Environment and Natural Resources. The grant application requires a dollar for dollar cash match not to exceed $402,150, which is available in the existing capital improvement program for the Montford Center Complex Renovation. There is no impact to the City's General Fund budget.

Staff recommends City Council adopt a resolution authorizing the Mayor to apply for and enter into an agreement for a grant through the North Carolina Department of Environment and Natural Resources Parks and Recreation Trust Fund not to exceed $402,150 for reimbursement of future construction costs for the Montford Center Complex.

RESOLUTION BOOK NO. 38 - PAGE 393

D. RESOLUTION NO. 17-73 - RESOLUTION AUTHORIZING THE CITY MANAGER TO APPLY FOR A JOB ACCESS AND RESERVE COMMUTE FEDERAL GRANT TO PARTIALLY FUND TRANSIT SUNDAY SERVICE AND ROUTE 170 TO BLACK MOUNTAIN

Summary: The consideration of a resolution authorizing the City Manager to apply for a FY 2016 and FY 2017 Job Access and Reverse Commute (JARC) Federal Grant to partially fund transit Sunday Service and Route 170 to Black Mountain.

Job Access and Reverse Commute (JARC) is a Federal Transit Administration (FTA) grant program that is targeted at providing job access in urbanized and suburbanized areas. The job access refers to projects relating to the development and maintenance of transportation services designed to transport low-income individuals to and from jobs and activities related to their employment. The reverse commute refers to a public transportation project designed to transport residents of urbanized areas to suburban employment opportunities.

JARC is funded through a 10% allocation of FTA 5307 funds that are administered by the French Broad River Metropolitan Planning Organization (FBRMPO). The FBRMPO posted the call for projects on March 27, 2017 for $260,238 of FY 2016 funds and $150,824 of FY 2017 funds. A total of $411,062 is available for projects in the FBRMPO region.

The City of Asheville has used this funding source in past years to fund Sunday Service and Route 170 to Black Mountain. Staff is requesting permission to submit two applications to continue funding these services:

1. One year of Sunday Service - $187,200 in grant funding;
2. Two years of Route 170 Service - $104,963 in grant funding;

Funding at this level will maintain Sunday Service at its current level. This will also allow for a slight expansion of service on Route 170 by providing an additional daily trip, which will help make up for some of the service that was lost in the summer of 2016 when part of the route was cut due to a loss of funding from local partners.

The Finance Committee will review this action at their regularly scheduled meeting on April 25, 2017.

Pros:

- This funding will help maintain existing transit services that are essential to many residents.
- This funding will help offset operating costs.

Cons:

- The City is responsible to provide the 50% local match.

The local match for JARC is 50% for operations funding. If the application is approved by the MPO, the City of Asheville will be responsible for providing $187,200 annually for Sunday Service and $104,963 annually for Route 170. These services are already in the transit operating budget so this will not be an additional expense for the City of Asheville.

Staff recommends City Council adopt a resolution authorizing the City Manager to apply for a FY 2016 and FY 2017 Job Access and Reverse Commute (JARC) Federal Grant to partially fund transit Sunday Service and Route 170 to Black Mountain.

RESOLUTION BOOK NO. 38 - PAGE 394

E. ORDINANCE NO. 4576 - ORDINANCE AMENDING CHAPTER 19 OF THE CODE OF ORDINANCES IN ORDER TO PROHIBIT PARKING IN A DESIGNATED BICYCLE LANE

Summary: The consideration of an ordinance amending Chapter 19 of the Code of Ordinances in order to prohibit parking in a designated bicycle lane.

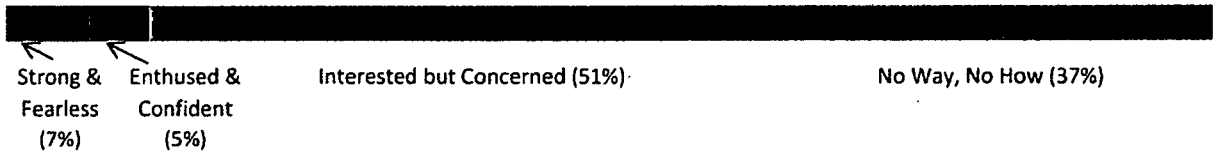
Staff continues to work with the Bicycle & Pedestrian Task Force to seek ways to improve the bicycle experience and an updated written report was included as an agenda item at the Public Safety Committee on February 27, 2017. A short discussion of the issues occurred between the committee members and the Transportation Department Director.

Unfortunately, there are no simple solutions that will satisfy all of the needs including, but not limited to, the ongoing conflict between on-street parking and bicycle lanes and loading and/or unloading activities. As a first step, staff and task force members agree that an actual parking prohibition should be included in the Code of Ordinances in order to eliminate any confusion when enforcement activities occur.

At this time, the City's bicycle network totals about 10 miles including seven miles of designated bicycle lanes and three miles of designated climbing lanes. By definition, the term bicycle lane typically means one designated lane for each direction of travel along a two-way street and the term climbing lane typically means one designated lane along the uphill approach of a street. As a designated bicycle lane, a climbing lane would also be covered by the proposed revision.

While bicyclists are not required to use designated bicycle lanes, most do when available. In 2005, as the City of Portland, Oregon, began to consider what it would take to dramatically increase bicycle use they developed four general categories of bicyclists from the "strong and fearless" to the "no way no how." Since 2005 with additional research not only in Portland, Oregon but throughout major cities in the United States, the proportions have shifted somewhat among the groups (see figure below) but the largest category remains those who are "interested but concerned". This group of bicyclists would probably use bicycles as a means of transportation if the appropriate infrastructure was in place. It is important not only to have the infrastructure but to keep it clear of obstructions because obstructions, such as parked vehicles, could cause a bicyclist to suddenly move or shift from a bicycle lane into a vehicular travel lane resulting in a crash.

Four Types of Potential Transportation Cyclists
by proportion of the population
(Survey of 50 largest metros, 2016)



The Public Safety Committee reviewed this item on March 27, 2017, and recommended that it move forward to City Council for review and approval.

Pros:

- Improves bicycle experience.
- Eliminates confusion when enforcement activities occur.

Con:

- There are no known cons.

There is no known fiscal impact to the subject action.

Staff recommends that City Council approve an ordinance amending Chapter 19 of the Code of Ordinances in order to prohibit parking in a designated bicycle lane.

ORDINANCE BOOK NO. 31 - PAGE 177

F. RESOLUTION NO. 17-74 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT WITH APPALACHIAN PAVING AND CONCRETE INC. FOR THE CONCRETE REPAIR -UTILITY CUTS PROJECT

Summary: The consideration of a resolution authorizing the City Manager to execute on behalf of the City of Asheville a contract in the amount of $243,537.50 plus a contingency of $43,837 (18%) for a total of $290,000.00 with Appalachian Paving and Concrete, Inc. for annual concrete repair work in the Street Cut Utility Fund.

As part of the Street Cut Utility Program utilities that damage public concrete infrastructure during the installation or maintenance of their underground infrastructure do not perform repairs to the concrete. The proposed contract provides for two one year extensions bringing the potential contract length to 3 years. Both the City and contractor shall agree before an extension is activated and Council shall approve each extension. This is the fourth year that a private contractor has performed this service. The project was advertised on March 9, 2017 and bids were opened on March 30, 2017 with the following results:

Appalachian Paving and Concrete, Inc., Swannanoa, NC	$243,537.50
Patton Construction Group, Arden, NC	$389,110.00

Pro:

- Provides for the timely repair on concrete infrastructure that has been damaged by the installation of utilities.

Con:

- Project management and contract administration will consume staff time.

The Street Cut Utility Program is an enterprise fund that is funded by fees paid by the four partners participating in the program. The partners will be billed 100% of the repair cost meaning that the City realizes full cost recovery.

Staff recommends City Council adopt a resolution authorizing the City Manager to execute on behalf of the City of Asheville a contract in the amount of $247,537.50 plus a contingency of $43,837 (18%) with Appalachian Paving and Concrete, Inc. for annual concrete repair work in the Street Cut Utility Fund.

RESOLUTION BOOK NO. 38 - PAGE 395

G. ORDINANCE NO. 4577 - BUDGET AMENDMENT FROM INSURANCE RECOVERY PROCEEDS AND GENERAL FUND UNASSIGNED FUND BALANCE TO REPLACE THE FIRE ENGINE THAT WAS INVOLVED IN AN ACCIDENT ON JANUARY 7, 2017

Summary: The consideration of a budget amendment in the General Capital Projects Fund in the amount of $600,000 from insurance recovery proceeds and General Fund unassigned fund balance to replace a fire engine.

On January 7, 2017, Fire Engine 6 was totaled when it slid off the highway due to ice on the road during a winter storm occurring that evening. The cost of a new fire engine to replace Fire Engine 6 is $600,000. The insurance funds available for the purchase of a new fire engine are $91,933. The Asheville Fire Department requests budget authorization of $600,000 in the General Capital Projects Fund to purchase a replacement engine. The purchase will be funded by insurance recovery funds held in the City Property & Liability Fund along with $508,067 from General Fund unassigned fund balance.

Pros:

- Increases operational ability of the fire department to perform its mission. Currently reserve apparatus are being rotated into service as a temporary solution.
- Improves the average age of our fleet which reduces maintenance and repair cost long term.
- Injects modern sustainability features into our fleet.

Con:

- Requires an appropriation from fund balance.

This will be heard at the April 25th Finance Committee meeting. If there is not a unanimous vote this will be brought to the attention of Council at the April 25th Council meeting.

Upon City Council approval, the insurance recovery funds held in the City Property & Liability Fund will be transferred to the General Capital Projects Fund. The difference between the insurance recovery funds and the cost to purchase the fire engine will be transferred from the General Fund unassigned fund balance.

Staff recommends City Council approve the budget amendment for the General Capital Projects Fund in the amount of $600,000 from insurance recovery proceeds and General Fund unassigned fund balance to allow the Asheville Fire Department to utilize those funds for the procurement of a new fire engine.

ORDINANCE BOOK NO. 31 - PAGE 179

H. RESOLUTION NO. 17-75 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONSTRUCTION CONTRACT WITH SPORTS

CONSTRUCTION MANAGEMENT INC. FOR INSTALLATION OF SYNTHETIC TURF AT THE JOHN B. LEWIS SOCCER COMPLEX

Summary: The consideration of a resolution authorizing the City Manager to enter into a construction contract for installation of synthetic turf with Sports Construction Management, Inc. at the John B. Lewis Soccer Complex in the amount of $755,565 plus a contingency of $187,000 for a total of $942,565.

The John B. Lewis Soccer Complex opened in 2005. It is a significant regional sports tourism destination featuring four synthetic turf soccer fields with over 500,000 park visitors and serves over 7,000 youth and adult soccer players annually. The fields were installed with synthetic turf with an expected lifespan of 10 years. The fields have exceeded their useful life and the worn turf needs to be replaced. The resulting turf conditions constitute safety concerns for park users to serve the vibrant regional soccer community.

The scope of the project includes the following:

- Remove the existing synthetic turf and replace it with new synthetic turf with an infill of rubber and sand mixture
- Recommend recycling the existing synthetic turf rather than reuse since the existing turf is in poor condition, will further deteriorate upon removal, and would not meet an installation warranty
- Recycle existing artificial turf following the a recycling plan as identified and verified by contractor
- Fine-grade the surface of the fields to restore gentle and even slopes
- Improve the stormwater drainage system within the fields

The turf consultant, CHA Consulting, Inc., recommends using a synthetic turf with a rubber infill product since the majority of the soccer fields are located within a floodplain. This type of turf product performs best in a floodplain environment compared to other synthetic turf products with organic infill material.

The City of Asheville will purchase the synthetic turf materials through The Cooperative Purchasing Network (TCPN) pursuant to the North Carolina General Statute 143-129 (e) (3) which permits purchases made through this competitive bidding group purchasing program. Through this statutory exemption and a delegation of authority to the City's purchasing agent, the purchase of the synthetic turf can be made without City Council approval. The TCPN proposal for the synthetic turf materials is $1,114,395. Therefore, the total budget for the John B. Lewis Soccer Complex Synthetic Turf Replacement will total $2,056,960. This includes the purchase of the synthetic turf materials, turf installation construction contract and a 10% contingency of turf material purchase and construction contract costs.

In support of this capital improvement project to restore the soccer fields to its original and optimum performance, the City issued an Advertisement for Bids for construction of the turf installation. As of the bid opening date on April 3, 2017, the City did not receive a minimum of three bids as required by the City's purchasing policy. The City re-advertised the project and received one bid with alternates by the bid opening date on April 11, 2017, which met the City's purchasing policy.

After thorough review and evaluation, staff selected Sports Construction Management, Inc. located in Lexington, North Carolina as the lowest, responsive, responsible bidder. The base bid of $755,565.00 was accepted which included two alternates to 1) recycle the existing turf as identified and verified in the turf recycling plan and 2) assign the turf product contract warranties and guarantees to the contractor.

The Recreation Board heard the John B. Lewis Soccer Complex Synthetic Turf Replacement project at its meeting on March 14, 2016.

The Public Safety Committee considered the John B. Lewis Soccer Complex Synthetic Turf Replacement at its meeting on March 28, 2016. The Committee recommended staff to 1) move ahead using the synthetic turf product as proposed by the consultant, and 2) consider alternative synthetic turf products using organic infill when replacing the synthetic turf at Memorial Stadium.

Pros:

- Improves the safety of the John B. Lewis Soccer Complex for park users by replacing the worn synthetic turf due to years of use, solar exposure and flooding events.
- Improvements will occur during the summer which is an optimum time of the year to install the synthetic turf product as opposed to cooler seasons.

Con:

- The John B. Lewis Soccer Complex will be partially closed during renovations since the majority of work is scheduled to take place during the summer. Any closure will be coordinated with and through the Asheville Buncombe Youth Soccer Association (ABYSA).

The total project cost for turf product purchase, turf construction contract, and 10% contingency cost is $2,056,960. The funds to support project cost is budgeted in the City's Capital Improvement Program. The ABYSA will contribute $1,456,960 (includes $1,100,000 million Tourism Product Development Fund grant) to the City to support construction cost. The City will appropriate $600,000 to support construction which is earmarked in the Capital Improvement Program for the Parks and Recreation Department over a five-year period FY 2016 through FY 2020.

Staff recommends the consideration of a resolution authorizing the City Manager to enter into a construction contract for the installation of synthetic turf with Sports Construction Management, Inc. at the John B. Lewis Soccer Complex in the amount of $755,565 plus a contingency of $187,000 for a total of $942,565, and to execute any change orders to contract or documents which may arise during construction of project within the approved budget.

RESOLUTION BOOK NO. 38 - PAGE 396

I. RESOLUTION NO. 17-76 - RESOLUTION SUPPORTING RAISING THE AGE OF JUVENILE JURISDICTION FROM 16 TO 18 IN NORTH CAROLINA FOR MISDEMEANANTS AND NON-VIOLENT FELONS

Summary: The Asheville City Council calls on the N.C. General Assembly and Governor Roy Cooper to support legislation during the 2017-2018 legislative session automatically raising the age of juvenile jurisdiction from 16 to 18 for all crimes other than Class A through E felonies and traffic offenses.

RESOLUTION BOOK NO. 38 - PAGE 397

J. RESOLUTION NO. 17-77 - RESOLUTION MAKING PROVISIONS FOR THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT THE ASHEVILLE CITY SOCCER CLUB GAME ON MAY 6, 2017

Summary: The consideration of a resolution authorizing the City Manager to approve a resolution making provisions for the possession and consumption of malt beverages and/or unfortified wine at the Asheville City Soccer Club Game.

- Asheville Brewers Alliance has requested through the City of Asheville Community & Economic Development Department that City Council permit them to serve beer and/or unfortified wine at the Asheville City Soccer Club Game and allow for consumption at the event.

  The Asheville City Soccer Club Game will be held on Saturday, May 6, 2017 from 6:00 p.m. – 10:00 p.m. within the boundaries of Memorial Stadium as per the area limits referenced on the accompanying site map.

Pro:

- Allows fundraising opportunities for Asheville Brewers Alliance

Con:

- Potential for public safety issues

Staff recommends City Council adopt a resolution authorizing the City Manager to approve a resolution making provisions for the possession and consumption of malt beverages and/or unfortified wine at the Asheville City Soccer Club Game.

RESOLUTION BOOK NO. 38- PAGE 399

Mayor Manheimer asked for public comments on any item on the Consent Agenda, but received none.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Councilman Bothwell moved for the adoption of the Consent Agenda. This motion was seconded by Vice-Mayor Wisler and carried unanimously.

III. PRESENTATIONS & REPORTS:

A. RACIAL DEMOGRAPHICS OF TRAFFIC STOPS AND SEARCHES IN ASHEVILLE

Mr. Ian Mance, staff attorney for the Southern Coalition for Social Justice (SCSJ), provided City Council with information on racial demographics of traffic stops and searches data in Asheville.

Using a PowerPoint, he explained that the SCSJ's Open Data Policing initiative works throughout North Carolina with community groups and police agencies that are interested in using data to improve the quality of policing in their communities. They make use of North Carolina's first-of-its-kind data collection statute to promote racial equity in policing.

He showed Council N.C. Gen. Stat. sec. 143B-903 - Collection of traffic law enforcement statistics. Unpublished data is available at www.OpenDataPolicing.com.

For Asheville, the data shows: (1) SCSJ and PRC Applications recently conducted an audit of 50 known traffic stops in Asheville for compliance with the statute; (2) 50 random traffic citations, identified through the public court calendar, were pulled from the County Clerk's office and compared to the SBI database published on OpenDataPolicing; and (3) 58% of confirmed APD traffic stops did not appear in the SBI database as required by law.

Using a graph for traffic stops, black drivers in Asheville, over the last decade and a half, have been stopped at rate 50% higher than their representation in the city population. So far in

2017, black drivers have accounted for 27% of all reported traffic stops, a rate more than 100% greater than their representation in the local population.

Using a graph for search data by race/ethnicity, since data began being collected in 2002, black drivers in Asheville have been more than 100% more likely to be searched than white drivers, despite being less likely to be found carrying contraband (28% v. 29%). 2017 marks the first year that APD has reported searching more black motorists than white motorists, with blacks accounting for 55% of all searches.

Using a graph for average departmental search rate for vehicle stops, the reported data suggests a significant reduction in the city-wide stop and search rate in Asheville in recent years, albeit with an uptick in 2017. However, racial disparities in stops and searches have persisted.

Using a chart for the likelihood of search by "stop cause," black drivers in Asheville remain significantly more likely to be searched than white drivers when stopped for the same offenses.

Using a chart for contraband "hit-rate," over the last decade and a half, Asheville PD found contraband on white drivers at a higher rate than black drivers.

His other observations included (1) Asheville PD relies heavily on drivers' consent for purposes of conducting searches; (2) Vehicle searches disproportionately impact black drivers, who account for up to 40% of drivers searched annually; (3) 56% of APD's reported searches over the last five years have been conducted pursuant to motorists' purported grant of consent to search; (4) This number is significantly higher than many departments around the state, including those that search at much higher volumes than APD; (5) Last year, just 3% of Fayetteville PD's traffic-based searches were based on a motorist's grant of consent. In Durham, the number was 13%, and in Concord, the city closest to Asheville in size, the percentage was 21%; (6) Regulatory and equipment-based traffic stops disproportionately impact black motorists in Asheville; and (7) The difference is significant. Since the beginning of 2011, 40% of all black motorists stopped by APD were stopped for equipment or regulatory violations, compared with 32% of all white motorists stopped.

Policy suggestions include (1) Scrutinize and address APD's data reporting practices to ensure compliance with 143B-903; (2) Prohibit or de-emphasize regulatory and equipment-based stops; (3) Institute a mandatory written consent-to-search policy; and (4) Order periodic audits of individual officer stop-and-search data.

Prohibit or formally de-prioritize regulatory and equipment-based traffic stops known to disproportionately impact black motorists. Police agencies, in North Carolina and nationwide, are increasingly re-evaluating the wisdom of initiating traffic stops for regulatory and equipment based violations. These types of stops generally do not impact public safety and they are known to disproportionately impact poor and minority drivers. They are a significant driver of racial stop disparities. Both Fayetteville PD and Greensboro PD formally deprioritized these types of stops in recent years, a decision that has helped shrink racial stop disparities. Chapel Hill's town council recently directed its police chief to follow suit and begin phasing out regulatory stops. Durham's police chief recently voiced skepticism about such stops and is currently considering a similar directive.

He showed a The New York Times article that said "most black Greensboro drivers were stopped for regulatory or equipment violations, infractions that officers have the discretion to ignore." The Greensboro PD has seen a 10% reduction in its black-to-white stop disparities since The New York Times article prompted a change in policy.

Mandate written consent to search for all consent-based searches. Multiple police agencies across North Carolina, including those in Chapel Hill, Durham, and Fayetteville,

currently require officers to obtain written authorization from the party to be searched for all consent-based searches. Written consent-to-search policies make it more difficult for officers to engage in abusive search practices and can help reduce racial search disparities. Social science research indicates that black motorists experience greater social pressure to accede to requests to search than white motorists. Written consent policies help normalize the experience among black and white drivers.

The New York Times article title is "Activists Wield Search Data to Challenge and Change Police Policy." In Durham, written consent has produced positive results (1) 74% reduction in consent searches citywide over the last two years: Prior to the policy shift, 60% of all searches were consent-based; afterwards, 17%; (2) The reduction in consent searches has contributed to a modest, but significant, 11% reduction in searches citywide; and (3) Although written consent generally does not make a significant dent in racial search disparities, it is a more racially equitable policy.

Conduct routine audits of individual officer stop-and-search data. - http://www.OpenDataPolicing.com includes a feature built specifically for use by police executives. Police chiefs can enter a code into the "Officer ID" field available at https://opendatapolicing.com/nc/search/ and immediately populate a page listing an individual officer's traffic stops as well as her career stop and search patterns, broken down by race and ethnicity. This feature can be used to ensure (1) officers are reporting their stops and searches, as required by N.C.G.S. 143B-903, and (2) to monitor the racial impact of an individual officer's stop practices. Numerous departments in North Carolina currently utilize this website for these purposes. When used properly, the site can serve as an early warning system for identifying officers engaged in discriminatory enforcement practices.

In North Carolina, numerous agencies are already using the site as a management and supervisory tool.

Throughout Mr. Mance's presentation, City Council asked various questions/comments and requests for clarifications.

Councilman Smith was interested in learning about how we can implement the four policy suggestions provided by Mr. Mance. He suggested the Public Safety Committee get into the weeds and bring their recommendations forward to the full Council.

City Manager Jackson said that the Police Chief should have the opportunity to respond to the recommendations and bring that response to the Public Safety Committee and/or the full Council for their consideration. A thoughtful consideration of the data and recommendations presented would be in order.

Councilman Bothwell, Chair of the Public Safety Committee, said they heard this presentation and felt it should be heard by the full Council before they dig deeper into the policy recommendations.

In response to Councilwoman Mayfield, Mr. Mance speculated that departments have a great deal of flexibility on how they report their data. Most departments he works with designate one person to make sure that all reports are submitted. Most reports are done electronically to the state server. He didn't know how it is that so many are not reported. There are clearly officers in the APD that are reporting all their stops. His guess is that there is probably a group of officers who are really good at reporting and some that are not reporting at all.

Councilwoman Mayfield thanked Mr. Mance for providing this information. Her guess is that if people dug into this data at many, many cities across the country, particularly in the south, we would find similar things. We are fortunate to have a Police Chief who has indicated a willingness to tackle these kinds of issues. We have someone in place who is willing to engage in

a conversation about these issues and move us forward. Policing is changing in our world everyday and a city like Asheville can be on the forefront of moving forward. She looked forward to having that conversation.

Councilman Young also thanked Mr. Mance for this information. One issue that he sees is the presumed lack of reporting and the City Manager will be providing Council with information on that issue. The other issue is driving while black in Asheville is real based on the information presented. One slide shown showed that black motorists have a greater likelihood of being searched over 200% of the time opposed to white motorists. But, contraband that is found is about equal. He would like to know how we will address the issue.

Mayor Manheimer summarized that Council is very interested in these suggestions and is grateful for Mr. Mance making the presentation. The next stop will be in the Public Safety Committee to allow the Police Chief time to review the information (with Mr. Mance confirming that he would be available to talk with her for any follow-up needed) and to take a hard look at these policy recommendations.

Councilman Young understood that we have a committee system; however, he felt that Mr. Mance and his data have been through the committee system. He believed that the information from the APD response should come directly to City Council and not to the Public Safety Committee.

Mayor Manheimer said that the purpose of sending it to the Public Safety Committee would be so that they could have a more thorough conversation, along with additional public comment. She wanted to make sure we have a thorough process that gives the staff the opportunity to absorb this and figure out what we need to do as a city to make a difference. Normally we honor the committee structure, but would have no problem with it coming directly to City Council. She did not want to set us up for failure and wanted to make this a successful process.

Councilwoman Mayfield said that if the Police Chief won't be ready to report back to Council for another month, then she didn't know why this couldn't make an interim stop at the Public Safety Committee. Back and forth dialogue is generally easier to have in the smaller Committee meetings. Ultimately the purpose of the committee meetings is that three members of Council will make a recommendation to the full Council. She didn't feel strongly about it one way or another.

When City Attorney Currin asked Mr. Mance to share the background data on which he based his data conclusions on, Mr. Mance said that all the data is available on line at www.OpenDataPolicing.com.

Councilman Smith didn't see any harm in having the Public Safety Committee review this before Council since it will increase the opportunity for people to come and hear the information and have public comment.

Councilman Bothwell said that the next Public Safety Committee meeting would be May 22 and if we give the Police Chief a month to prepare her report, the next formal Council meeting would be May 23. He felt that the Public Safety Committee may have other recommendations and didn't see any harm in having the report be given to that Committee.

City Manager Jackson pointed out that the budget public hearing will be held on May 23. Also, if the Public Safety Committee hears the report on May 22, staff will need time to prepare the APD report and recommendations from the Public Safety Committee to present to Council, which will move the City Council report to the June 13 meeting.

It was the consensus to have the staff analyze data presented, evaluate the recommendations provided and provide any clear or additional policy proposals the APD may suggest, with an interim or full report to Council on May 9, 2017.

Councilman Haynes agreed with Councilman Young that he would like to see the APD report come back to Council as soon as possible. He, too, didn't see the need for it to be reviewed by the Public Safety Committee prior to coming to the full Council. He said that though the data was not surprising, it is still extremely disturbing and should be addressed quickly.

B. ANNUAL UPDATE OF THE SUBDIVISION REVIEW PROCESS

The following is the one year update following the adoption of changes to the review process for subdivisions.

On April 12, 2016, the Asheville City Council approved a zoning text amendment to the Unified Development Ordinance (UDO) regarding subdivision review. This amendment had two components: 1) changes to the subdivision standards; and, 2) changes to the review and permitting process for major subdivisions. The changes related to the standards were primarily clarifications and reorganization and did not result in substantive changes. Updating the process for the review of major subdivisions included three things:

- Moving the final review from the Planning & Zoning Commission back to the Technical Review Committee (as had been the practice years prior)
- A new requirement for a mandatory neighborhood meeting prior to the submittal of an application for a major subdivision
- A new requirement that final notice be sent to all property owners within 200 feet of the subject property once the subdivision is approved

Recognizing the change in practices, Council requested a one year update to check-in on the relative success of the amendment and/or to better understand any on-going concerns.

Since the adoption of the current subdivision standards there have been eight major subdivisions submitted to the city for review that have tested the effectiveness of the updated ordinance. These eight subdivision projects include:

- 29 W. Oakview
- Bear Creek Homes
- Blalock Ave.
- Hounds Ear
- Mears Ave.
- Osprey Ln.
- Zitin Subdivision
- Onteora Subdivision

In speaking with the staff who handled these reviews, neighbors have expressed clear appreciation for the early contact and mandatory neighborhood meeting, and staff have received numerous calls from residents prior to the Technical Review Committee seeking additional clarification or understanding. No appeals of a subdivision's approval have been received, nor has staff received any calls after the final letters for these projects were mailed.

The only concern expressed in the last 12 months has been disappointment that some of the neighbors input or feedback went unaddressed in the developers' final plans. This concern is not a new one and is commonly associated with any review that is ministerial and for which a review meeting is mandatory but compliance optional. While not an uncommon concern generally, this has not been a frequent or defining result from the changes.

This report is informational only.

IV. PUBLIC HEARINGS:

A. PUBLIC HEARING TO CONSIDER AN AMENDMENT TO THE PREVIOUSLY APPROVED CONDITIONAL ZONING FROM RM-16 RESIDENTIAL MULTI-FAMILY HIGH DENSITY DISTRICT TO URBAN PLACE DISTRICT/CONDITIONAL ZONING FOR THE PURPOSE OF INCREASING DENSITY AND ADDING NEW ROAD AND SIDEWALK INFRASTRUCTURE TO THE PROJECT LOCATED AT 50 WILBAR AVENUE AND ADDING TWO PARCELS LOCATED AT 99999 & 319 BILTMORE AVENUE

ORDINANCE NO. 4578 - ORDINANCE TO AMEND A PREVIOUSLY APPROVED CONDITIONAL ZONING FROM RM-16 RESIDENTIAL MULTI-FAMILY HIGH DENSITY DISTRICT TO URBAN PLACE DISTRICT/CONDITIONAL ZONING FOR THE PURPOSE OF INCREASING DENSITY AND ADDING NEW ROAD AND SIDEWALK INFRASTRUCTURE TO THE PROJECT LOCATED AT 50 WILBAR AVENUE AND ADDING TWO PARCELS LOCATED AT 99999 & 319 BILTMORE AVENUE

Principal Planner Shannon Tuch said that this is the consideration of an ordinance to amend a previously approved conditional zoning from RM-16 Residential Multi-Family High Density District to Urban Place District/Conditional Zoning for the purpose of increasing density from 199 to 212 units total and adding new road and sidewalk infrastructure to the project located at 50 Wilbar Avenue and adding two parcels located at 99999 & 319 Biltmore Avenue. This public hearing was advertised on April 14 and 21, 2017.

As part of the amendment, two properties to the east have been added to the application through an easement that has been secured by the applicant for the purpose of providing a new road connection and entrance to the development. Demolition of the existing building will be required. The PINs for the two properties are 9648-46-1623 & 9648-46-0425 and the property owner is Duke Progress Energy Inc.

The applicant, through this amendment, is seeking to create a new road connection between the community and the main road corridor. This new road connection is proposed to include a 50-foot right-of-way, two travel lanes, on-street parking (both sides), curb and gutter, and a 10-foot wide sidewalk on the north side of the road. The new road and sidewalk is proposed to be built to the city's standard and is expected to be publicly maintained. Also included in this amendment is a request to raise the total unit count from 199 to 212 units with no changes to the buildings or site. This is accomplished through the addition of the second entrance which now satisfies a fire code requirement that will allow the unit count to exceed 199 units. Lastly, there is a small addition to the sidewalk along Wilbar Ave. where a new segment of sidewalk is proposed to be added to the western side of the road connecting the community to Short Coxe Ave.

Access to the property is being enhanced to include a new road connection to Biltmore Ave. which will serve as the primary entrance to the community. A secondary entrance off of Short Coxe Ave. via Wilbar Ave. will be retained and improved. All roads in the project, including the new connection, provide 50-foot rights-of-way and will be built to the city's standard for new roads including wide sidewalks as required per the Urban Place zoning.

233 parking spaces were originally proposed, scattered throughout the development, and are found in a combination of traditional parking lot spaces with on-street parking spaces. The new road connection will include an additional 24 on-street parking spaces raising the total count to 257 spaces.

In addition to the landscaping required with the main site, the new road connection will necessitate the addition of large maturing street trees.

A number of conditions were included with the original approval and are noted in the list of B1 conditions. A new condition is proposed to add a transit shelter to the future bus shelter location identified on the site plan.

This conditional zoning amendment was approved with conditions by the Technical Review Committee (TRC) on February 20, 2017. The proposal requires review by the City Council and Final TRC prior to zoning approval.

The Planning & Zoning Commission reviewed this request at their meeting on April 5, 2017, and voted 7:0 in support of the amendment with the recommendation that a bike lane or sharrows be added. No communication has been received from the public as of the writing of this report.

The applicant successfully rezoned the residential RM-16 property to Urban Place Conditional Zone (UP-CZ) in order to allow for a denser, mixed-use urban development. While the project area has expanded, no additional zoning changes are required with this amendment.

The conditional zoning for the Lee Walker Heights community was first approved on April 26, 2016. Other actions have been noted in the previous staff report and can be summarized to include an 18-unit townhome development directly north of the subject property that is currently under construction, and various rezonings on Asheland Ave. that resulted in the expansion of the Central Business District (CBD) over several years.

The new road connection traverses adjacent parcels zoned Regional Business (RB) that front Biltmore Ave. The new road will not only help serve the community but will also provide new opportunity for future infill development.

Considerations:

- New on-street parking is 150-500' from the nearest building.
- Due to right-of-way constraints, additional sidewalk segment on Wilbar Ave. does not fully meet the technical standards for sidewalk widths.
- Provides improved transportation connections and internal pedestrian connections.

The new road will be constructed as part of the project costs. Once all work is completed, it is anticipated that the developer will petition the city for maintenance of the new road and sidewalk. These maintenance costs will be part of the Department of Public Works operations budget, funded by the city's general fund. As with all new infrastructure, maintenance costs initially are very low and increase over time as the infrastructure ages.

Based on policies stated in the Comprehensive Plan and other plans staff finds this request to be reasonable, and within the best public interest, and recommends support of the proposed conditional zoning amendment as proposed.

Mr. David Nash, Chief Executive Officer of the Housing Authority, said thanked the City for securing the negotiated easement across the property to allow a new entrance for the new Lee Walker Heights development. It will help provide the reconnection of the community to the rest of the City.

Councilwoman Mayfield also thanked Duke Energy for making this possible.

Mayor Manheimer opened the public hearing at 6:21 p.m. and when no one spoke, she closed the public hearing at 6:21 p.m.

Mayor Manheimer said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Bothwell moved to approve the amendment to the previously approved Urban Place Conditional Zoning (UP-CZ) request to allow for an increase in the number of dwelling units from 199 to 212 units total, and to provide for new transportation infrastructure including sidewalk and new road, along with the submitted conditions, site plan and cross-section and find that the request is reasonable, is in the public interest and is consistent with the Comprehensive Plan and other adopted plans in the following ways: 1) expands affordable and workforce housing choices in the city; and, 2) supports smart growth by increasing density and improving transportation and pedestrian infrastructure. This motion was seconded by Councilman Young and carried unanimously.

ORDINANCE BOOK NO. 31 - PAGE 181

B. PUBLIC HEARING TO CONSIDER A CONDITIONAL ZONING FROM INSTITUTIONAL DISTRICT TO INSTITUTIONAL DISTRICT/CONDITIONAL ZONING FOR THE EXPANSION AND UPGRADE OF A WASTE TRANSFER STATION AT THE PROPERTY LOCATED AT 190 HOMINY CREEK ROAD

Councilman Smith moved to continue this public hearing until May 9, 2017. This motion was seconded by Vice-Mayor Wisler and carried unanimously.

C. PUBLIC HEARING TO CONSIDER AN ORDINANCE AMENDING CHAPTER 7 OF THE CODE OF ORDINANCES TO AMEND STANDARDS FOR COTTAGE DEVELOPMENTS

ORDINANCE NO. 4579 - ORDINANCE AMENDING CHAPTER 7 OF THE CODE OF ORDINANCES TO AMEND STANDARDS FOR COTTAGE DEVELOPMENTS

Principal Planner Shannon Tuch said that this is the consideration of an ordinance amending Chapter 7 of the Code of Ordinance to amend standards for Cottage Developments. This public hearing was advertised on April 14 and 21, 2017.

In June 2007, the City of Asheville adopted development standards for a new style of residential development called "Cottage Development". A *Cottage development* is defined as:

> *Cottage development* means a cluster of small detached single-family residences constructed to specific design standards and arranged around common open space generally at higher density than the underlying zoning would allow for traditional detached single-family residential development.

A number of special standards were adopted, along with the definition, which were intended to achieve compatibility/harmony with the surrounding neighborhoods. The value of some of these conditions has now come into question and a private citizen has submitted a request to amend the standards, as allowed per the Unified Development Ordinance Sec's. 7-7-2 & 3, by **removing** two requirements that were identified as potential barriers to cottage development. Those two requirements are:

1) 15% finished grade, and
2) 1,000 foot separation (between cottage developments)

In review of all of the standards regulating cottage developments, staff has also identified a number of requirements that could be amended to be more consistent with

current city goals for infill and community development. These changes are also included in the proposed amendment.

All of the standards for a cottage development have been summarized in the following table, along with the recommended changes:

Existing Standard	Recommended Change
1. Eligible only in higher density residential zoning districts (~~RS-4~~*, RS-8, RM-6, RM-8, RM-16)	~~Expand eligible areas to include RS-4 zoning with the existing 1000' separation requirement~~*
2. A minimum lot size of 30,000 s.f. (.7 acres)	Eliminate minimum lot size, recognizing that buffers, open space and parking will control the minimum size of the property.
3. A minimum of 5 units and a maximum of 12	Increase the maximum to 15 units
4. Prohibits steep slope sites from being developed for cottage developments, or sites with a finished grade of greater than 15%	Maintain prohibition on developing in steep slope areas but eliminate the 15% finished grade requirement
5. A 1,000 foot separation between cottage developments	Reduce the separation to 200', ~~except in RS-4 where the 1000' separation is maintained~~*
6. Setbacks standard for RM-8/RS-8 (15' front/rear; 6' side)	Change to meet the requirements of the underlying zoning district
7. Maximum height of 28' (height measured from grade to midpoint of roof peak)	-No Change-
8. Maximum footprint of 1200 s.f. & a maximum gross floor area of 1400 s.f.	-No Change-
9. Maximum 800 s.f. for all accessory structures	-No Change-
10. Number of accessory structures limited to no more than 60% of the homes	-No Change-
11. Number of Accessory Dwelling Units (ADUs) limited to no more than 50% of the homes (max 6 ADUs)	Remove standards for ADUs in lieu of raising the maximum number of units (see item #3). *Note: ADU style structures may still be constructed.*
12. ADUs limited to no more than 400 s.f. and must be above a garage	Remove standard for ADUs
13. Off-street parking required at a rate of 1-2 spaces per home & 1 per ADU	Remove standard for ADU (not necessary per 11 & 12 above)
14. Parking may not be closer than 25' to a ROW unless screened with a 20' vegetated buffer	Maintain buffer when over six spaces, reduce to screening (fence or evergreen hedge) when six or fewer spaces
15. Parking must be distributed across the site with groupings of no more than 12 spaces	-No Change-
16. Open space must be provided and meet the following:	
- 500 s.f. for each home; 300 s.f. for each ADU	No change to the requirement for the cottages but remove standards for ADUs
- 75% of homes must *front* on a common green	Change to require that 75% of homes be directly *adjacent* to the common green and add a requirement that requires that units placed along an existing road be oriented towards that road.
- 300 s.f. of private open space provided directly adjacent to each home (may be split into two areas no less than 100 s.f.)	-No Change-
17. Design requirements that include:	

- A roofed, unenclosed front porch (minimum of 80 s.f. and min. dimension of 8')	Remove (not permitted per NC General Statutes)
- Gable or hip roof with a pitch of 4:12 or greater	Remove (not permitted per NC General Statutes)
- Orientation of home within 25' of right-of-way to face the road	Re-write standard for orientation to require homes to front on existing roads.
- Specified siding (clapboard, stucco, stone, brick	Remove (not permitted per NC General Statutes)

**Strikethroughs indicate language originally included in draft changes and shared with NAC & AHAC but removed upon further research and analysis.*

In reviewing these items, staff met with both the Neighborhood Advisory Committee (NAC) and the Affordable Housing Advisory Committee (AHAC). The Neighborhood Advisory Committee received a summary report on February 27, 2017 from staff and offered general support for the changes with two exceptions: 1) members of the committee expressed strong concern over adding RS-4 (part of the original proposal) to the districts in which a cottage development could be built, and 2) while there was recognition that the separation requirement could be a problem in finding suitable sites, the Committee was uncomfortable with eliminating the requirement and suggested a reduction of the requirement as an alternative. Upon further review, staff agreed with NAC and dropped RS-4 from eligible zoning areas upon researching the average density for permitted cottage developments to be 9.8 units/acre, and also reduced the separation from 1,000 to 200 feet as opposed to eliminating it entirely.

Staff also provided an update to the Affordable Housing Advisory Committee (AHAC) at their regular meeting on March 2, 2017. Committee members expressed general support and sought to understand how many cottage developments had been constructed and where they were located (see Considerations below for a list of cottage development sites). In both cases, the petitioner for the wording amendment was also in attendance and offered additional context and answered general questions.

This proposal was reviewed and approved unanimously by the Planning and Zoning Commission at their April 5, 2017, meeting. All wording amendments receive final review by City Council.

Other considerations:

- A separate but simultaneous amendment for neighborhood scale residential infill is in process.
- There have been seven cottage developments approved including:
  - 45 Nancy St.
  - 18 Sevan Ct.
  - 444 Beaucatcher Rd.
  - 129 Aurora Dr.
  - 2 Cottage Cove Ln. (unfinished, 2 of 6 units constructed)
  - 64 Shiloh Rd. (permitted but not constructed)
  - 10 Gaia Ln.
- The smallest community contained seven units, the largest community contained 12. No cottage developments included accessory structures.

This proposal supports the goals outlined in the Comprehensive Plan and City Council 2036 Vision, and staff recommends approval of the wording amendment as proposed.

Mayor Manheimer opened the public hearing at 6:29 p.m.

Mr. Barry Bialik, Chairman of the Affordable Housing Advisory Committee and developer of small footprint subdivisions, explained the revisions to this great zoning tool which will make the ordinance more usable and easier to use the density allowed in the zoning.

Mayor Manheimer closed the public hearing at 6:30 p.m.

Mayor Manheimer said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Smith moved to approve the wording amendment modifying the standards regulating Cottage developments and find that the request is reasonable, is in the public interest and is consistent with the Comprehensive Plan and other adopted plans in the following ways: (1) Improves an existing zoning tool to support the supply and diversity of housing; and, (2) Applies development standards that ensure good site design and neighborhood compatibility. This motion was seconded by Councilman Bothwell and carried unanimously.

ORDINANCE BOOK NO. 31 – PAGE 187

V. UNFINISHED BUSINESS:

A. REPORT AND DISCUSSION REGARDING DISTRICT OPTIONS

City Attorney Currin said that at the April 11, 2017, Council meeting there was a discussion regarding the method and timing for putting an ordinance changing the mode of City Council elections on the ballot for a vote by the people at the November, 2017, election. Currently the City elects all Council members "at large."

The Council is authorized under N. C. Gen. Stat. secs. 160A-101, 160A-102, and 160A-105, to amend the City Charter and change the mode of election from the current at-large form to, among other things, one with six districts, or to a combination of at-large and district seats. The Council can make this Charter amendment "effective only if approved by a vote of the people."

A bill has been filed by Senator Chuck Edwards with the General Assembly which would require the City to adopt a Charter amendment to divide the City into six districts. There is an interest in letting the citizens vote on whether they would approve of this change.

In order to meet the deadline to place an ordinance/charter amendment on the ballot for November 7, 2017, election, certain things must occur by certain dates pursuant to the N.C. General Statutes and County election laws. Set forth below are the dates of which Council should be aware, should it desire to use this process in Asheville.

June 13, 2017	Date to adopt resolution of intent describing amendment and calling for a public hearing on the new ordinance.
June 27, 2017	Public hearing on new ordinance
July 25, 2017	Adopt ordinance and adopt resolution calling for special election

After a short discussion with City Attorney Currin stating that she would provide the language to City Council as soon as possible, it was the consensus of Council to have City Attorney Currin to begin the statutory process with the first action to occur on June 13, 2017. Mayor Manheimer asked that this action also be reviewed by the Governance Committee.

B. CONSIDERATION OF INITIATION OF TEXT AMENDMENT FOR EXPANDING THE DEFINITION OF HOMESTAYS IN THE UNIFIED DEVELOPMENT ORDINANCE TO

INCLUDE ACCESSORY DWELLING UNITS UNDER THE SAME ROOF AS THE MAIN RESIDENCE

Mayor Manheimer announced that this item has been withdrawn from the agenda.

VI. NEW BUSINESS:

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

Ms. Dee Williams offered the assistance of the NAACP Criminal Justice Committee and other allies as Council moves forward with reviewing the policy recommendations by Mr. Mance. She felt that the City should not allocate any additional funds to the Police Department until there is clear policy direction.

Ms. Jan Kubinik, resident on Reservoir Road, was disappointed with the City's response to planned right-of-ways in front of her home. City Attorney Currin said that they are corresponding with Ms. Kubinik's attorney regarding her concerns.

Mr. Patrick Conant and his employee were frustrated that Council was considering having the Public Safety Committee review the traffic stop data again. This information has been presented several times but they have had no response from the Police Department. The suggestions presented by Mr. Mance will improve our police force and don't cost any money. He urged Council to move forward quickly and consider the recommendations.

Mr. Rich Lee suggested City Council make take an interim step on the traffic stop data until the policy recommendations are thoroughly vetted through the process. He also expressed his thoughts on district options and the referendum.

In response to Mr. Joe Coble, Councilman Bothwell explained in Asheville's form of government that City Council can only interact with their three employees - City Manager, City Attorney and City Clerk. City Council makes the policies and staff implements them.

When Mr. Chuck Pickering was about to discuss the conditional zoning item on the County waste transfer station that was continued to May 9, City Attorney Currin advised him that his comments should be made at the public hearing. Councilman Smith also noted that Mr. Pickering was welcome to e-mail his comments to City Council.

Ms. Kim Roney suggested a special meeting of the Public Safety Committee be held so that their recommendations could be taken into consideration prior to the full report being made at City Council.

At the request of Councilman Smith, City Manager Jackson said that Sustainability Officer Amber Weaver will make a presentation to City Council on May 9 regarding the pieces of the Food Action Plan that were implemented last week.

VIII. ADJOURNMENT:

Vice-Mayor Wisler adjourned the meeting at 7:05 p.m.

Magdalen Burleson
CITY CLERK

Esther E. Manheimer
MAYOR

Tuesday – May 9, 2017 - 5:00 p.m.

Regular Meeting

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Cecil Bothwell; Councilman Brian D. Haynes; Councilwoman Julie V. Mayfield; Councilman Gordon D. Smith; Councilman W. Keith Young; City Manager Gary W. Jackson; City Attorney Robin T. Currin; and City Clerk Magdalen Burleson

Absent: None

PLEDGE OF ALLEGIANCE

Mayor Manheimer led City Council in the Pledge of Allegiance.

I. PROCLAMATIONS:

A. RECOGNITION OF CITY OF ASHEVILLE YOUTH LEADERSHIP ACADEMY STUDENTS

Mayor Manheimer ten years ago, former Mayor Terry Bellamy and the Asheville City Council envisioned a new program that would place students with meaningful summer internships with City departments and partnering organizations throughout Asheville. This program would empower its students to get involved in our community, support them in their quest for college, and reward them with a generous scholarship. After a rigorous application process each spring, 25 City of Asheville Youth Leadership Academy (CAYLA) students are placed in prestigious summer internships that allow them to explore careers and learn from caring adult professionals. Members of the CAYLA Class of 2017 interned with valuable community partners, including Habitat for Humanity, CarePartners, and the Omni Grove Park Inn. Each Friday during the summer, the students attended day-long leadership workshops that focused on social entrepreneurship. Students learned about the triple bottom line that considers a company's social, economic and environmental impact. The students also met business professionals whose passions have led to the creation of local social enterprises, and took a variety of field trips to see such careers in action. Of the graduating seniors, all have been accepted to colleges – and many have earned significant merit scholarships, including the UNC Asheville AVID Scholars award, the Golden Doors Scholarship, and the Civitan and Rotary scholarships. This year, the total merit scholarship money earned by CAYLA students since 2008 will surpass $1.3 million. Beginning last June, the CAYLA students began planning in-depth social justice projects. They organized the sixth annual MLK Youth Summit, which brought together more than 60 teenagers from all of Buncombe County's high schools to discuss issues of importance to youth. The CALYA students also taught a class each week for Asheville City Schools Foundation's IRL afterschool program. Over the years, CAYLA students have given more than 3,600 volunteer hours to our community. In recognition of their accomplishments and the critical role they will play in Asheville's future, the City of Asheville awards each CAYLA student a scholarship in the amount of $2,000. We are proud of the leadership that the CAYLA students exhibit each day, and look forward to hearing of their achievements in the years to come.

With that, she provided a certificate to the following 2017 CAYLA students: Candida Alas-Ortega, CeeCret Allen, Isabel Arredondo, Angelique Ayoade, Mercy Beveridge, Devin Boston, Dana Campbell, Jr., Zoe Cecil, Korina Dariy, Tanya Davila, Cederia Davis, D'Angelo Elliott, Itzel Garcia Ruiz, Keenan Hines, Erykah Howard, Rayanna Inniss, Shamone Jones, Arianna Moore, Myra Pearson, Jamie Rhodes, Jasmine Riddle, Sophia Rutherford, Angel Vasquez Ramirez, Zion Walker, and Ashley White.

Mayor Manheimer praised Erika Germer for her hard work on this program.

B. EMPLOYEE RECOGNITIONS

City Manager Jackson recognized the following individuals for their work on the Public Safety Radio System Update: Jonathan Feldman, Jeff Reble, Capt. Jeremy Edmonds, Capt. Gary Gudac, Boyd McCaskIII, Lt. Bill Wilke, Norris Going, Dan Lemley, Cathey Trimnal, Joy Griffin, Tim Reimers, Steve Frey, Stan Smith, Fire Chief Scott Burnette, Police Chief Tammy Hooper, Assistant City Manager Paul Fetherston, and Finance Director Barbara Whitehorn; with partners of ERC - Fiber Provider; Buncombe County – Strategic Partner; Communications Service - Steve Robison; and Trott Communications - Keith Whitt. In addition, City Manager Jackson recognized Director of Communications & Public Engagement Dawa Hitch and her team of Jaime Matthews, Dan Phairas, Christy Edwards, Sarah Sheldon, Christen McNamara, and Melissa Van Sickle for their work in obtaining the following three Excellence in Communications Awards from the North Carolina City & County Communicators recognized the City of Asheville with three Excellence in Communications Awards: (1) First place for the bond campaign in the category of Citizen Participation; (2) Second place for the bond campaign projects tour; and (3) One-time special video programming award for the bond campaign video.

Mayor Manheimer thanked the employees on what they do on behalf of the City of Asheville and City Council. She was proud of City staff and looked forward to highlighting more accomplishments.

C. PROCLAMATION PROCLAIMING MAY, 2017, AS "MOTORCYCLE AWARENESS MONTH"

Mayor Manheimer read the proclamation proclaiming May, 2017, as "Motorcycle Awareness Month" in the City of Asheville. She presented the proclamation to Jody Martin, representing the Concerned Bikers Association of North Carolina, who outlined some activities taking place during the month.

D. PROCLAMATION PROCLAIMING MAY 19, 2017, AS "ENDANGERED SPECIES DAY"

Councilwoman Mayfield read the proclamation proclaiming May 19, 2017, as "Endangered Species Day" in the City of Asheville. She presented the proclamation to Ms. Sue Massi - Volunteer with WNC Nature Center, Appalachian Wildlife Refuge, Wolf Conservation Center and the Endangered Species Coalition, who outlined some activities taking place during the day.

E. PROCLAMATION PROCLAIMING MAY 21-27, 2017, AS "NATIONAL PUBLIC WORKS WEEK"

Councilman Smith read the proclamation proclaiming May 21-27, 2017, as "National Public Works Week" in the City of Asheville. He presented the proclamation to Public Works Director Greg Shuler, Bryant Williams (Sanitation Division), Gary Reynolds (Streets Division), Justin Boll (Stormwater Division), Keisha Lipe (Administration) and Sarah Sheldon (GIS Team).

II. CONSENT AGENDA:

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON APRIL 25, 2017

B. RESOLUTION NO. 17-78 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A TERMINATION OF EASEMENT AGREEMENT FOR AN ABANDONED WATER LINE LOCATED AT 24 EDGEWOOD ROAD EAST

Summary: The consideration of a resolution authorizing the City Manager to execute a termination of easement agreement for an abandoned water line located at 24 Edgewood Road East.

The City's Water Resource Department has been working to abandon an existing 6-inch waterline that crossed under a house at 24 Edgewood Rd E (PIN No. 9658-86-7099). The owner of the property is in the process of trying to sell the house but the lending company would not close on the loan till the existing waterline was abandoned and the waterline easement terminated. The waterline is 1920's vintage and is no longer necessary for domestic or fire protection needs. The Water Resource Department has confirmed that the line has officially been cut and abandoned in place. The Termination of Easement Agreement relieves the City of Asheville from all liability associated with the easement and abandoned waterline at 24 Edgewood Road East.

In order to release the easement, City Council must authorize the City Manager to execute a termination of easement between the City and the current property owner, Carlton Wheeler.

Pros:

- Removes liability issues associated with waterline under a structure.
- This Termination of Easement aligns with the Main Waterline Study Assessment that identifies and addresses structures located over active water lines.

Con:

- None noted.

City staff recommends City Council approve a resolution authorizing the City Manager to execute a termination of easement agreement for an abandoned water line located at 24 Edgewood Road East.

RESOLUTION BOOK NO. 38 - PAGE 402

C. RESOLUTION NO. 17-79 - RESOLUTION AUTHORIZING THE CITY MANAGER TO CONVEY AN EASEMENT OVER A PORTION OF CITY-OWNED PROPERTY AT THE SHILOH PARK & COMMUNITY CENTER TO CATHERINE KINNARD FOR THE PURPOSE OF INSTALLING A SEWER LINE TO SERVICE A SINGLE FAMILY RESIDENCE

Summary: The consideration of a resolution authorizing the City Manager to convey an easement over a portion of City Owned property at the Shiloh Park & Community Center to Catherine Kinnard for the purpose of installing a sewer line to service a single family residence.

The Shiloh Park and Community Center is owned and maintained by the City of Asheville. An existing MSD sewer line runs northwest from Hampton Street and crosses the park. Several lateral lines already exist from homes on Kent Street and they have been allowed in the past with the stipulation that they do not interfere in the recreational activities. Catherine Kinnard owns an undeveloped lot on Kent Street and has reached out to the City to request a sewer line easement to connect to the existing line. This is the only available connection to the sewer line. Al Kopf of Parks and Recreation has been approached and after consulting with other staff in the Parks division, they have no objection to the easement. Ms. Kinnard plans to build a single family residence on the property and it will be her primary residence.

The easement being requested is approximately 25 linear feet long and 6 feet wide for a total square footage of approximately 150 square feet. Using comparable sales figures, the value per square foot of land in this neighborhood is roughly $ 6.87 per square foot. MSD has a policy of compensating owners according to 50% of land value for an easement and when we apply this

to practice to this situation, the cost of the easement would be $516.00 plus the real estate transaction fee.

Pros:

- There is compensation associated with the granting of this easement.
- The easement would not interfere with the recreational programming at Shiloh Park.

Con:

- None

Funds generated by the granting of this easement will be deposited in the General Fund.

Staff recommends City Council adopt a resolution authorizing the City Manager to convey this 150 square foot easement at Shiloh Park near Kent Street to Ms. Kinnard for purposes of installing a sewer service line.

RESOLUTION BOOK NO. 38 - PAGE 403

D. RESOLUTION NO. 17-80 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT WITH IPS GROUP INC. TO FURNISH PARKING METERS, AND PROVIDE ADMINISTRATIVE SUPPORT, IN THE CITY OF ASHEVILLE

Summary: The consideration of a resolution authorizing the City Manager to enter in a contract with IPS Group Inc. to furnish parking meters, and provide administration support, in the City of Asheville.

The City currently operates parking meters only in the Central Business District. The current inventory of parking meters, while quite old, has served the needs of the City quite well. They are of rugged construction, and with the exception of needing battery replacement several times a year, quite reliable. Heretofore, our policy has been to squeeze all the useful life out of the mechanisms to ensure the public received the best return on investment. But stretching the life of the mechanisms also brings challenges. The age of the meters makes it quite difficult to change rates, get reports, "train" for new coins, etc. Parking Service employees must go to each meter and insert a "prong" in to download or upload information in to the mechanism. This is a laborious process and in past rate increases, we had to purchase new mechanisms because the legacy mechanisms were so old the manufacturer didn't support them any longer.

The age of the meters also led to a declining of our ability to provide excellent customer service. Our use of double space meters (one meter serving two spaces) creates confusion among customers on which side to pay. This is also a challenge with pay-by-cell systems while selecting space numbers. While the existing meters are still quite capable of accepting nickels, dimes, and quarters, our customers' buying habits have changed. Rarely do customers carry pockets full of coins to activate the meters. And, as our meter rates have increased over the years, the need for more coins has grown.

To help ameliorate this need for more and more coins, the City entered in to a contract with Passport Parking to provide pay-by-cell service to pay for parking meters via credit or debit card. While quite successful for our customers, and the City, this pay-by-cell system does have some drawbacks. With the exception of 35 test meters, the time purchased does not display on the meter which can lead to some customer confusion. And, since time purchased via pay-by-cell, does not display on the meter, the Parking Enforcement Officer must query either their handheld ticket writer or smart phone to ascertain if the meter has been paid. Again a laborious process repeated many times a day. Despite these drawbacks, pay-by-cell has been a huge success for the City. And, we felt it was time to make a great leap forward in technology to better serve our customers.

In the spring of 2016, the City received 35 modern meters, from IPS Group, to test to determine if the system would be advantageous to our customers and staff. Key points we wanted to investigate were solar power, credit/debit card acceptance, ability to accept pay-by-cell information, ease of rate changes, reporting capability, data protection, etc. The test met all our parameters and expectations.

In February 2017, the City published a Request for Proposals, under the provisions of NCGS 143-129.8 for purchase of information goods and services, for interested firms to replace our existing inventory of existing parking meters with more modern ones. Parking Services wants to replace existing meters, and expand current meter coverage, over several years. Key requirements of the request for proposal were:

- Provide new solar powered "smart" meters connected, via cellular network, to the internet,
- Accept all United States issued nickels, dimes, and quarters,
- Accept credit and debit cards as payment options,
- Allow pay-by-cell information to be "pushed" to the meters and displayed thereon,
- All credit/debit card transactions must be PCI compliant to safeguard customer information,
- Provide "back office" administration collection, and processing of payment information,
- Illumination feature for nighttime operations,
- Payment indicators visible from street,
- Provision for decorative sleeves and bases,
- Per unit pricing for single space units or double space units,
- Ability to purchase over several years as City needs expand,
- Provision of per month costs of "back office" administrative and data processing activities.

On March 24, 2017, the City received three proposals for providing new parking meters. Firms submitting were POM Meters (our existing vendor), IPS Group (test meter provider), and MacKay Meters. An inter-departmental team consisting of members from Information Technology Services, Transportation, and Parking Services evaluated each submittal. The team determined that the best solution for the City would be single space meters provided by IPS Group. While all proposals came in well below our planning figures, the initial outlay, per unit, for the IPS meters themselves is in the middle of the three proposals, will be slightly higher (7%) than the lowest and well below (10%) the highest quoted unit price. The advantages of the IPS system however makes it the clear choice.

Pros:

- Improves customer service by providing additional payment options.
- Improves customer's ease with meters by eliminating confusion as to which space to pay for.
- Allows easier rate changes; to include variable pricing.
- Provides better statistical and financial reporting than current meters.
- More aesthetically pleasing with decorative sleeves and bases.
- PCI compliant to ensure customers' data security.
- Provides capability to extend hours later in the evening
- Pay-by-cell information pushed to, and displayed, on the meter thereby providing better customer service.
- Single space meters make it easier to provide meter closures for businesses, trades workers, moving companies, etc. by allowing one space to be closed. Currently, with dual space meters, we have to close two spaces even if the requestor only wants one space. This results in the requestor paying for two spaces when only needing one, or the City losing revenue on one space because the payment devices are covered.

Cons:

- Some interruption of service as new meters are installed.
- Estimated expenditures of $900K over three years.

Funds for the first year of replacements are available in the current Parking Services' Fund Operating Budget. Funding for the second year of purchases is included in the City Manager's Proposed 2017-18 Budget.

City staff recommends City Council adopt a resolution authorizing the City Manager to execute an initial three year term contract not to exceed $900,000 with IPS Group Inc. to furnish parking meters and provide administration support; and the option to extend the term of the contract for up to an additional three years to an amount in the approved budget. Also, further authorized to execute any change order to said contract which might arise during the time period of the contract up to the budgeted amount.

RESOLUTION BOOK NO. 38 - PAGE 404

E. **RESOLUTION NO. 17-81 - RESOLUTION MAKING PROVISIONS FOR THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT THE ACSC GAMES**

RESOLUTION NO. 17-82 - RESOLUTION MAKING PROVISIONS FOR THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT THE BEER CITY FESTIVAL

RESOLUTION NO. 17-83 - RESOLUTION MAKING PROVISIONS FOR THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT DOWNTOWN AFTER FIVE EVENTS

RESOLUTION NO. 17-84 - RESOLUTION MAKING PROVISIONS FOR THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT BREWS & BEARS

RESOLUTION NO. 17-85 - RESOLUTION MAKING PROVISIONS FOR THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT THE ASHEVILLE WINE & FOOD FESTIVAL

RESOLUTION NO. 17-86 - RESOLUTION MAKING PROVISIONS FOR THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT THE ASHEVILLE RUNNING EXPERIENCE

Summary: The consideration of resolutions making provisions for the possession and consumption of malt beverages and/or unfortified wine at the ACSC Games, Downtown After 5, the Beer City Festival, Brews & Bears, the Asheville Wine & Food Festival, and the Asheville Running Experience.

- The Asheville Brewers Alliance has requested through the City of Asheville Community & Economic Development Department that City Council permit them to serve beer and/or unfortified wine at the ACSC Games and at the Beer City Festival, and allow for consumption at the events.

  The ACSC Games will be held on Wednesday, May 17, Friday, May 19, Thursday, June 8, Tuesday, Saturday, June 17, June 20, Saturday, July 1, and Saturday, July 8, 2017 from 6:00 p.m. – 10:00 p.m. within the boundaries of Memorial Stadium as per the area limits referenced on the accompanying site map.

The Beer City Festival will be held on Saturday, May 27, 2017 from 12:00 p.m. – 5:00 p.m. within the boundaries of Pack Square Park as per the area limits referenced on the accompanying site map.

- The Asheville Downtown Association has requested through the City of Asheville Community & Economic Development Department that City Council permit them to serve beer and/or unfortified wine at Downtown After 5 and allow for consumption at the event.

  Downtown After 5 will be held on Fridays, May 19, June 16, July 21, August 18, and September 15, 2017 from 5:00 p.m. – 10:00 p.m. within the boundaries of Lexington Avenue as per the area limits referenced on the accompanying site map.

- The Friends of the WNC Nature Center has requested through the City of Asheville Community & Economic Development Department that City Council permit them to serve beer and/or unfortified wine at Brews & Bears and allow for consumption at the event.

  Brews & Bears will be held on Friday, July 21, 2017 from 4:00 p.m. – 9:00 p.m. within the boundaries of the WNC Nature Center as per the area limits referenced on the accompanying site map.

- Slow Food Asheville has requested through the City of Asheville Community & Economic Development Department that City Council permit them to serve beer and/or unfortified wine at the Asheville Wine & Food Festival and allow for consumption at the event.

  The Asheville Wine & Food Festival will be held on Friday, August 18 and Saturday, August 19, 2017 from 1:00 p.m. – 6:00 p.m. within the boundaries of Pack Square Park as per the area limits referenced on the accompanying site map.

- The Blue Ridge Roller Derby has requested through the City of Asheville Community & Economic Development Department that City Council permit them to serve beer and/or unfortified wine at the Asheville Running Experience and allow for consumption at the event.

  The Asheville Running Experience will be held on Saturday, September 23 from 5:00 a.m. – 9:00 p.m. within the boundaries of Coxe Avenue as per the area limits referenced on the accompanying site map.

Pro:

- Allows fundraising opportunities for Asheville Brewers Alliance, the Asheville Downtown Association, Friends of the WNC Nature Center, Slow Food Asheville, and the Blue Ridge Roller Derby

Con:

- Potential for public safety issues

Staff recommends City Council adopt resolutions authorizing the City Manager to approve resolutions making provisions for the possession and consumption of malt beverages and/or unfortified wine at the ACSC Games, Beer City Festival, Downtown After 5, Brews & Bears, Asheville Wine & Food Festival, and Asheville Running Experience.

F. RESOLUTION NO. 17-87 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ACCEPT A GRANT FROM THE N.C. DEPT. OF ENVIRONMENTAL QUALITY FOR A COMMUNITY WASTE REDUCTION AND RECYCLING GRANT

ORDINANCE NO. 4580 - BUDGET AMENDMENT FOR A COMMUNITY WASTE REDUCTION AND RECYCLING GRANT

Summary: The consideration of a resolution authorizing the City Manager to accept Community Waste Reduction and Recycling (CWRAR) grant funds from the N.C. Dept. of Environmental Quality (NCDEQ); and a budget amendment in the amount of $28,301 in the Special Revenue Fund to budget the grant and the City's match.

In October 2015, the City of Asheville partnered with the Housing Authority of the City of Asheville (HACA) to launch a recycling pilot project for the 280 public housing units of the Erskine, Walton and Livingston Street communities. With CWRAR funding from NCDEQ, "Big Blue" 96-gallon recycling roll carts were distributed to each residence and significant outreach was conducted. In 2016 City was awarded a second grant, Phase II, to expand this recycling project to 388 more units in the communities of Deaverview and Hillcrest in FY17. Participating communities are now collectively recycling over 5,000 pounds of materials every week.

Phase III of the CWRAR grant expands recycling collection to the Pisgah View community, which is an additional 256 households, in the hopes that continued success will lead to curbside recycling collection for all applicable low-rise public housing communities.

In addition to expanding curbside recycling services in public housing, the FY18 CWRAR Grant includes composting at the US Cellular Center (USCC). In order to help achieve greater waste reduction, the City plans to implement a composting program at the USCC, Asheville's largest event space, starting with the Thomas Wolfe Auditorium. The Thomas Wolfe Auditorium hosts an average of 85 events each year, which generates an average of 26 tons of waste. This grant supports projects that demonstrate potential to significantly reduce a community's overall diversion of materials from the solid waste stream. The Office of Sustainability believes that Phase I, composting in Thomas Wolfe, has the potential to divert around 11 tons of waste annually from the USCC.

The total cost for the pilot project is $28,301. The CWRAR grant would require a 30% cash match from the City of Asheville. Thus $8,784 would be contributed by the City, from the sustainability street light savings in the general fund, while the grant would cover the remaining $19,517.

On April 25, 2017, the Finance Committee reviewed this action and unanimously recommended it move forward to the full Council.

Pros:
- Provides more equitable access to recycling services for residents of public housing
- Helps to meet City's waste reduction goal while leveraging state funding

Con:
- None can be identified

As noted above the total cost of the project is $28,301 with the grant covering $19,517 or 70% of the cost. The 30% City match of $8,784 will come from sustainability street light savings that have been designated for green projects.

City staff recommends City Council adopt a resolution authorizing the City Manager to accept $19,517 in grant monies from NCDENR; and a budget amendment in the amount of $28,301 in the Special Revenue Fund to budget the grant and the City's match.

RESOLUTION BOOK NO. 38 - PAGE 423
ORDINANCE BOOK NO. 31 - PAGE 190

G. RESOLUTION NO. 17-88 - RESOLUTION TO ACCEPT/APPROVE A LICENSE AGREEMENT WITH USCOC OF GREATER NORTH CAROLINA LLC (D/B/A US CELLULAR) FOR ANTENNAS AT 166 RESERVOIR ROAD, DIRECTING THE CITY CLERK TO ADVERTISE FOR UPSET BIDS, AND AUTHORIZING THE CITY MANAGER TO EXECUTE THE LICENSE AGREEMENT IS NO ALTERNATE BIDS ARE RECEIVED

Summary: The consideration of a Resolution proposing to accept/approve a license agreement with USCOC of Greater North Carolina, LLC (DBA US Cellular) for antennas at 166 Reservoir Road, directing the City Clerk to advertise for upset bids, and authorizing the City Manager to execute the license agreement if no alternate bids are received.

The property at 166 Reservoir Road known as White Fawn Reservoir, is on a knoll at the western end of the Beaucatcher Mountain ridge. It has exceptional range for telecommunication with approximately 300° coverage from northeast to west to southeast. Two telecommunication towers are located on the property and the City of Asheville leases antenna space on the towers and ground space for telecom equipment.

This property has also been considered for a future park area. The Beaucatcher Greenway was designed to terminate at this property to offer expansive views of Downtown Asheville. A community group, known as the Friends of Overlook Park, established an agreement with the City to begin the vision and master plan process for recreational use of the property. Existing conditions, including the presence of two telecommunications towers and an abandoned and filled reservoir are acknowledged as part of the site constraints of the design.

US Cellular has been a tenant on the upper tower for a number of years and their current license agreement with the City expires in 2019. As part of the prior agreement, US Cell agreed to provide in-kind services to benefit the City's public safety communications infrastructure. Specifically, US Cell provides a conditioned telco room for the City's public safety communications equipment at this location, access to US Cellular's backup generator and electrical service to the site.

US Cellular has approached the City requesting that a new license agreement be negotiated before the existing lease expires because of the importance of this site to their overall operations in the Greater Asheville area. The following terms have been set forth, as follows:

- US Cellular has requested a ten year term with two optional renewals for four years each. The total would be 18 years.
- US Cellular has agreed to a rate of $55,032 per year with 3.5% annual increases.
- The City has verified that this rate is consistent with municipal tower rates across North Carolina and is considered fair market value.
- If approved, the existing license agreement would terminate upon execution of a new license agreement.
- US Cellular will continue to provide in-kind services to the City as part of the agreement.

Since the license agreement proposal is for a total period longer than ten (10) years, the North Carolina General Statutes state that Council may authorize a lease longer than ten (10) years, but to do so the lease must be administered as a sale in that the process must include an upset bid process or other competitive bid process.

If City Council approves the following resolution, the City Clerk will be directed to publish an advertisement for upset bids for a period of 10 days, in which any interested party may upset the current bid of $55,C32 per year at 3.5 % annual increases over an 18 year term. The statutes require that a qualifying bid must increase the current offer by 10% of the first $1,000 and 5% of the remainder. As set forth in the resolution, if no qualifying upset bids are received, then City Council agrees to further authorize the City Manager to execute the license agreement with US Cellular.

Pros:

- Fair market value license agreement.
- Long term commitment from US Cellular will secure a future revenue stream for the City.
- In-kind services benefit the City's public safety communications.

Con:

- None noted.

License fee revenue is budgeted in the City's General Fund Operating budget. The revenue for this license agreement will be programmed in the annual operating budget for FY 2018.

Staff recommends City Council adopt the following resolution proposing to accept/approve a license agreement with USCOC of Greater North Carolina, LLC (dba US Cellular) for antennas, equipment and expanded buildings at 166 Reservoir Road, directing the City Clerk to advertise for upset bids, and authorizing the City Manager to execute the license agreement if no alternate bids are received.

RESOLUTION BOOK NO. 38 - PAGE 424

Mayor Manheimer asked for public comments on any item on the Consent Agenda, but received none.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Councilman Bothwell moved for the adoption of the Consent Agenda. This motion was seconded by Councilman Young and carried unanimously.

III. PRESENTATIONS & REPORTS:

A. BUDGET PRESENTATION

Finance and Management Services Director Barbara Whitehorn provided Council the revenue neutral calculation with the latest estimate being 39.39-cents. The total proposed property tax rate arrived at (1) revenue neutral - 39.5-cents (39.39-cents); (2) debt service on General Obligation Bonds - 3.5-cents; (3) transit funding - .05-cents; (4) proposed rate - 43.5-cents (4-cents lower than our current rate). She then provided information on the base budget, which she noted the budgeted operating costs reduced year-over-year is $138,000.

She outlined the Fund Balance with Fund Balance above policy minimum is $1,690,662. Out of that Fund Balance with direction from Council is as follows: Energy Innovation Task Force - $205,000; Tree Canopy Study $25,000; Payroll/Benefits Audit Recommendations - $200,000; Accident Replacement Fire Truck - $510,000; Police Staffing Vehicles - $384,000; Election Costs - $275,000; Additional Strategic Partnership Funding - $42,000; and Neighborhood Fund - $50,000. This leaves the Fund Balance above policy minimum being $338.

She said the 2017-18 proposed General Fund Budget is $121,184,489. She then reviewed the existing Capital Improvement Project and 2016 General Obligation Bond Programs. She then briefly reviewed the other fund budgets - Water Resources, Parking Services, Stormwater, U.S. Cellular Center, and Transit Services.

The 2017-18 Proposed Operating Budget is $174,900,890. Uncontrollable budget variables between now and budget adoption include (1) economic downturn (a) uncertainty in global market; and (b) consumer spending decrease; (2) legislative climate (a) Sales Tax Bill - SB 126 - reduces sales tax distribution to Asheville by $1.1 Million; and (3) bottom line reductions (a) lower Fund Balance would call for reduction in allocations; and (b) reduction in on-going revenue would call for service cuts or tax increase.

At the request of Councilman Smith, Ms. Whitehorn explained the current sales tax distribution formula, noting that out of every dollar spent, the City only realizes 3-cents. The sales tax distribution bill will have a big impact on the City of Asheville.

City Manager Jackson said that we have deliberately and intentionally positioned ourselves to absorb budget crunches for those type of actions with the rainy-day funds that we have. Our reserves are in good shape and are right in the financial management criteria that this Council has set. We have quarterly reporting and close watch on all operations of the City. As we present this budget, we try to be aware of what the risks are and move forward on a sound financial basis.

Mayor Manheimer said that people who own property in Asheville are struggling with their new tax valuation figures and are wondering what the impact will be on their tax bill. We have landed in a place where we have built in the 3.5 cents for the General Obligation bonds because the voters approved the bonds. We went to revenue neutral with the additional 3.5 cents for the bonds. But, she continues to have concern over the additional ½ cent for transit; however, she knows that this Council is committed to growing our transit program to reflect enhancements, which roughly come out to approximately $600,000. She personally asked the City Manager to look at a budget that does not raise taxes beyond the bond requirement, but that does incorporate the additional ½ cent transit funding.

Councilman Bothwell wondered if delaying the roll-out of the APD Downtown District could account for the ½ cent for transit. He also said Council might consider a slight reduction in the City contribution to the Affordable Housing Trust Fund because we do have the bond issue for affordable housing. He also supported revenue neutral plus the 3.5 cents for the bonds.

Councilwoman Mayfield still supported the ½ cent transit funding with a tax increase. Regarding the Affordable Housing Trust Fund, she discovered that we can't use bond funds for the low-income weatherization program recommended by the Energy Innovation Task Force, so it may have to come out of the General Fund allocation for the Affordable Housing Trust Fund.

Mayor Manheimer said that Council can give some broad direction to the City Manager and have him make suggestions on how to allocate the funds.

Councilwoman Mayfield noted that the proposal to change the way that we structure our contract with the transit management company is estimated to be $850,000. She knew the number would be high, but she didn't know it would be that much. She understood there is an

RFP out, but wondered if we can look at the cost analysis and if we have $850,000 to spend on transit, do we want to spend it on a different structure of a management system or expand services. City Manager Jackson said that if Council has specific areas that you want him to look at to find $850,000, he would appreciate the general direction. He will come back on May 23 with alternative scenarios.

Councilman Young agreed with Mayor Manheimer if we can be revenue neutral with the 3.5 cents for bonds. He suggested possibly delaying the public safety allocation.

Mayor Manheimer clarified that we still want to make a commitment to public safety growth, but it may be delayed in order to find additional funds for this year. She again, would not want to see an increase in taxes beyond the bond commitment.

Councilwoman Mayfield said that the overall increase in transit funding is approximately 3-cents. She asked that we explore a 3-cent dedicated source of funding for transit since we are going to need that if we are going to get to the transit system we need. As the value of our property grows, the value of that 3-cents will grow as well giving us a continuous increase in transit funding over time. She asked for some projections of what a 3-cent increase this year might be over time.

Councilman Smith supported continuing to grow our transit system and liked the idea of a dedicated source of funding for transit. He felt affordable housing crisis is real and we should not be raiding the bond money for the Affordable Housing Trust Fund. He, too, would like to keep the taxes at revenue neutral plus 3.5-cents for the bonds. He supported ensuring the community development needs of our community are being recognized and met and supported increasing the Strategic Partnership Funds in the coming year over and above what we are doing currently. He also remained supportive of the Asheville Police Department and further restructuring at a logistical level.

Councilman Haynes did not support funding the increase in Police Department staffing. He supported seeing the transit system fully funded and an increase for the Strategic Partnership Fund. He, too, agreed for a revenue neutral tax with the 3.5-cents for bonds.

City Manager Jackson said that any additional questions from Council tonight and up to the May 23 meeting will go into a comprehensive response included with the May 23 agenda. He said that he will present an option for no tax increase, noting that 85 position requests and $11 Million have not been funded. He said that he anticipated that Council might want to go to revenue neutral and has begun looking at options.

Mayor Manheimer said that the budget public hearing will be held on May 23, 2017, with the final adoption of the budget on June 13, 2017.

B. ASHEVILLE POLICE DEPARTMENT REPORT ON TRAFFIC STOPS AND SEARCH DATA

Deputy Chief Wade Wood said that Police Chief Hooper had a long-standing commitment supporting the National Law Enforcement Week efforts in Washington, D.C., and was unable to attend this meeting. He then summarized the following Chief Hooper's report:

"During its April 25, 2017 Regular Meeting, City Council received a presentation from Attorney Ian Mance of the Southern Coalition for Social Justice regarding his analysis of traffic stop data reported by the Asheville Police Department (APD) over a 15 year period from the website opendatapolicing.com. From this analysis, Mr. Mance made the following recommendations:

- Scrutinize and address APD's data reporting practices to ensure compliance with North Carolina General Statute (NCGS) §143B-903 entitled Collection of law enforcement statistics.
- Prohibit or de-emphasize regulatory and equipment-based stops.
- Institute a mandatory written consent-to-search policy.
- Order periodic audits of individual officer stop-and-search data.

Following a question and answer period between the City Council and Mr. Mance, the City Council requested that the APD analyze the data presented and evaluate Mr. Mance's recommendations. The City Council requested that an interim or full report be provided at the May 9, 2017 Regular Meeting of City Council.

The purpose of this report is to provide a response to the findings and recommendations by Mr. Mance, and to outline the ongoing progressive initiatives underway within the APD to continue moving it towards a model twenty-first century Police Department.

BACKGROUND AND ANALYSIS

The information in the opendatapolicing.com report was first brought to the attention of the APD during a November 30, 2016 meeting with Ms. Dee Williams and Mr. Patrick Conant. During the meeting, Ms. Williams and Mr. Conant indicated that Mr. Mance would be coming to a Lunch and Learn event organized by Ms. Williams to discuss the information. During that meeting, a copy of the report was not provided to APD. Assistant City Manager Paul Fetherston requested that Ms. Williams and Mr. Conant meet with staff prior to the event to discuss their findings and they agreed.

On January 11, 2017, a follow up meeting occurred at the Eddington Center in which Mr. Mance was present and discussed his findings and recommendations. Over the following several months, the report was presented at the Lunch and Learn event, at the February meeting of CPAC, and to the Public Safety Committee in March, which directed that the presentation be given to Council.

Since becoming aware of the report, APD staff has been looking into the data as well as surveying other agencies referenced in the report to verify the validity of the conclusions as well as determine the department's direction regarding the policy recommendations.

Compliance

One of the primary assertions by Mr. Mance is that APD has not had an acceptable level of compliance to the reporting requirements in NCGS §143B-903. To demonstrate this, he asserted that he pulled 50 random traffic citations to determine if the stops had been reported as required and stated that 58% were not in the SBI database.

Since July 2016, APD has conducted monthly compliance audits of traffic stop reports and at no time have such audits found any data whatsoever that is consistent with Mr. Mance's assertion. Since starting monthly compliance audits , the APD's average compliance rate when comparing traffic stop reports to documented traffic stops in APD's Records Management System (RMS) is 102% (if more than one vehicle is pulled over during a traffic post, it generates a separate traffic stop report). Even when the APD examines its Computer Aided Dispatch data (CAD) and adds additional calls that *could but do not necessarily* require a traffic stop report such as "crime prevention" where a suspicious vehicle is encountered etc., the average compliance is 85%.

To address this inconsistency, the APD asked Mr. Mance for the list of citations on which he based his assertion. Mr. Mance, who declined to provide them, responded via email stating, in part, the following:

> Just to be clear, I have not asserted that we pulled a random representative sample, nor did I say that the under-reporting rate I found in the cases I looked at reflected the under-reporting rate for the whole department.

Another frequent example where compliance is questioned for a time period prior to APD's monthly audits is the data submitted for 2015. Mr. Mance asserts that it is improbable that Asheville had only 7409 traffic stop reports in 2015, when other similarly sized cities in North Carolina had far more such as Concord, which reported 21,000.

When examining this information, APD contacted Concord and determined that traffic enforcement is a high priority for their agency, since the city lies on the northern border of Charlotte and experiences a high volume of commuter traffic on I-85 and other alternate routes into the city. The following compares call volume and crime in 2015:

2015	Calls Dispatched	Part I Violent Crime	Part I Non-Violent Crime	Total Part I Crime	Total Part II Crime
Asheville	114,954	444	4,257	4,701	5,019
Concord	87,475	120	2,599	2,719	2,056

Based on crime and call load, officers in Concord have far more time to conduct traffic enforcement and other discretionary duties. Further, Concord did not experience the more than 10 million estimated visitors that Asheville had in 2015. Although similarly sized, Concord may not be a valid comparator.

Nonetheless, it is important to ask - is 7409 reported stops in 2015 a drastic reduction compared to previous years and if so, why? To answer this, it is appropriate to look at the number of stops APD reported to the SBI database in 2015 compared to the number of stops listed in their database. This revealed an anomaly in the listed stops in the SBI database for the months of February and August 2015.

2015 Traffic Stop Data	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec	Total
Stops Reported by APD to SBI	710	691	827	763	765	635	824	622	723	781	744	635	**8719**
Stops Listed in SBI Database	710	9	827	763	761	633	823	2	723	781	743	634	**7409**

The uploading of traffic stop data to the SBI database is an entirely automated process. A disclaimer on its site explains that a small variance is not unusual, however, APD reported more than 1300 traffic stops in those two months that do not appear in their database. It is unclear why this occurred and there have been no subsequent similar anomalies.

Further, it is well documented that APD did not have use of speed measuring devices (Radar or Lidar) for a period of time due to issues with calibrations. All speed measuring devices were pulled out of service in October 2014. APD did not receive clearance from North Carolina Training and Standards to return them to service until September 2015, and even after that, most of the officers who use them required re-certification. This resulted in little to no use of these instruments during the entirety of 2015 causing a substantial reduction in speeding violations.

Finally, when looking at the overall number of traffic stops reported over the past several years, there has been a general year to year reduction. The last year in which more than 10,000 stops were reported was 2012 with declining totals for 2013-2016 of 7918, 7460, 8719, and 6512 respectively.

Based on this research, there is no evidence that APD has been largely non-compliant in reporting traffic stops during 2015 or 2016. APD will continue to monitor this through monthly compliance audits through our Professional Standards Section.

Policy Recommendations by Jurisdiction

	Prohibits Regulatory Stops	**Requires Written Consent**	**Has BWC Program**	**Audits**
Asheville	No	No – BWC required	Yes – Full implementation by June 30	Monthly Compliance Audits
Greensboro	No	No – BWC Required	Yes	Quarterly Audits
Fayetteville	No	Yes-but low priority w/BWC	Yes	Quarterly Audits
Durham	No	Yes	Yes – currently 20% implemented	Quarterly Audits
Chapel Hill	No	Yes	No-Testing phase	Quarterly Audits

Regulatory Stops

In his presentation, Mr. Mance stated that regulatory and equipment based traffic stops disproportionately impact black motorists in Asheville and reported that an analysis of stops beginning in 2011 revealed that 40% of black motorists were stopped for these violations compared to 32% of white motorists. APD does not dispute these calculations. The reasons why drivers, regardless of race, chose to operate vehicles that are not properly registered, have defective equipment issues, or other regulatory concerns is debatable, but it stands to reason that a substantial portion of these violations are the result of the inability of people in lower income circumstances to afford to keep their vehicle in compliance with these laws. As such, these stops necessarily have a disparate impact on African American drivers.

APD officers will not be prohibited from conducting lawfully permitted traffic stops for regulatory or equipment violations. At the same time, these violations are not, and have not been a priority for APD and will not be emphasized as such. This is consistent with the practices of other agencies mentioned by Mr. Mance in his report as shown above. Further, in February 2017, APD officers were directed in instances where a traffic stop for regulatory or equipment violations does occur, to issue warnings rather than tickets for minor regulatory and equipment violations whenever feasible, particularly if it's the first time a vehicle is stopped for this reason. The purpose of this is to minimize the financial impact on people who already struggle financially, an issue that was brought up as a primary concern to members of the Racial Justice Coalition during a February 23, 2017, meeting with Chief Hooper in which Mr. Mance's report was discussed. This direction was subsequently relayed to members of the Racial Justice Coalition at a follow up meeting on April 28, 2017.

Consent Searches

Mr. Mance reported that there has been a significant reduction in the city-wide stop and search rate "in recent years." He further stated that 56% of all searches over the last five years are consent searches, pointing out that this is a higher percentage than many other departments in the state.

Mr. Mance is correct that the search rate has reduced. The data suggests that the reduction in the number of searches for all reasons has continued a downward trend beginning in 2013 and continuing through 2016 as compared to the period of 2010 through 2012. In addition, the total number of stops has also decreased as discussed above.

	Total Stops	**% Searched for any reason**	**% Consent Searches**
2010-2012	35,171	8%	5%
2013-2016	28,885	4%	1.5%
ONLY 2015-2016	13,726	3%	1%

In the period of 2010-2012, the number of consent searches actually exceeded the number of other searches, equating to approximately 59% of all searches. This represents an unusually high percentage of consent searches, for which Mr. Mance's concerns are well taken. However, in the four years following, 2013-2016, the number of consent searches equate to about 39% of all searches. Looking only at the last two years, 2015-2016, consent searches equate to 34% of all searches. Still a high percentage, but continuing to trend downward.

There is no specific provable explanation for the reduction. Over the past several years, all APD officers have received training specific to implicit bias as well as other racial sensitivity training which may be a factor in the reduction. Further, since July 2015 APD has been steadily gaining momentum in incorporating 21st Century Policing practices with a focus on procedural justice and community engagement.

The issuance of body worn cameras is a substantial step forward in ensuring that drivers are being treated in a fair and constitutional manner during all stops. The legal test for consent is that it is given freely and voluntarily. In most cases, written consent is preferred over verbal consent as an extra means to ensure this. However, the recording of an entire interaction via body worn camera video is even more certain documented evidence as to whether or not the consent is obtained in a lawful and constitutional manner. APD's policy on Body Worn Camera

use ensures that this information is captured and provides a means to not only test the constitutionality of consent, but to ensure that the request for consent is based on reasonable suspicion and not being disparately applied.

Audits

There is no dispute that audits of the traffic stop data are an important component of proper oversight. Recognizing this, APD began conducting internal compliance audits in July 2016, well before this report was presented by Mr. Mance. In addition to checking the level of compliance, APD will implement quarterly audits comparing the opendatapolicing.com information to APD's internal data to ensure consistency as well as to determine if there are trends regarding disparate treatment and impacts on African Americans citizens in our city.

Conclusion

The APD welcomes the opportunity to examine its practices and procedures to ensure that they are consistent with our goal of addressing crime, violence, and quality of life issues through modern, evidence based strategies integrated with the principles of community policing. The history of disparate and racist treatment of African Americans, including in our own community, must be acknowledged. Reports such as the one presented by Mr. Mance bring examples of this to light that can be specifically addressed and corrected. APD will accomplish this by minimizing the financial impact of regulatory and equipment violations through the issuance of warnings in lieu of citations, requiring body worn camera recordings of all vehicle searches, continuing monthly compliance audits and conducting quarterly audits of opendatapolicing.com data.

APD continues to work toward incorporating 21st Century policing principles and has already made substantial progress through the following initiatives:

- implementation of a body worn camera program,
- incorporating community input in its Use of Force Policy revision,
- ensuring all officers are trained in de-escalation, implicit bias, cultural sensitivity, crisis intervention and more, and
- continuing to develop and nurture partnerships, build trust, and instill confidence in its ability to maximize the community's quality of life by providing a high performing law enforcement services.

Through incorporation of the practices listed above, APD will gain further momentum toward becoming a model department."

Councilman Bothwell noted a correction in the report from Police Chief Hooper it asserts that Mr. Mance did not provide the list of citations to the Police Department. However, Mr. Mance did, but the Police Department missed the e-mail and discovered it later.

When Vice-Mayor Wisler asked if warnings for regulatory stops will be documented, Deputy Chief Wood said yes.

Vice-Mayor Wisler asked if there was research that documents whether a written consent may or may not be more effective than verbal. She wondered if we move to 100% written consent, would the officer have to explain it. Or, if someone was illiterate or intimidated by legal language or by the officer, a written consent may have the opposite effect than intended. Deputy Chief Wood said there are multiple studies and he would provide that information to Council.

Vice-Mayor Wisler suggested the Asheville Police Department (APD) look into publishing the results of the audits regarding body cam footages.

Councilwoman Mayfield wanted to see the APD and the community succeed in addressing these issues. One key way to do that is when we all work from the same set of data. Making that data available on a more frequent basis in an aggregated format is the only way we will work from a common piece of information. She hoped the community will get around the table to solve these issues and regular frequent reporting will help us see where we are and where we need to go.

Mayor Manheimer noted that our Information Technology Department is currently working on an open data piece around this issue.

Councilman Bothwell has heard that a written consent form is more likely to inform the driver that they can refuse to consent. When there is a verbal request, he wondered if the officer advises the driver that they don't have to consent. Deputy Chief Wood said that is officer dependent. He said ideally you are soliciting the consent to search and again the legal test for consent is that it is given freely and voluntarily.

Councilman Young said there is a tremendous degree of expectations that are placed on our police officers; however, there is a public perception that historically it seems as though police in and around the country are the only institutions that are above reproach. The public does not always see things the way the law enforcement community does and as public servants we need to be cognizant of what the public's perception is. Regarding the uploading of the traffic stop data to the SBI database, we are told it is completely an automated process. As seen in the 2015 data in February and August, he was concerned by the Asheville Police Department (APD) did not find out why their reports were not recorded by the SBI data. When we start the monthly check, we need to make sure that our stops are being recorded. Regarding regulatory and equipment based traffic stops disproportionately impact black motorists in Asheville, the APD feels that it's because of the inability of people in lower income circumstances can't afford to keep their vehicles in compliance, and as such these stops necessarily have a disparate impact on African American drivers. To accept this premise, since African Americans only make up a small percentage of individuals in the City, he questioned where are the poor white drivers in Asheville. Regarding consent, he recommended that the APD make written consents mandatory. He strongly felt that written consent searches benefit the individual that is being pulled over to know for a fact that the officer cannot search their car without their consent.

Mayor Manheimer asked for clarification on the percentages for regulatory stop data.

At the request of Mayor Manheimer, it was the consensus of Council to receive written quarterly audits.

Councilwoman Mayfield said that as cities progress to body worn cameras that written consent seems to be decreasing. It makes sense that the body worn cameras would provide the best evidence of consent and lack of bullying and provide the best check on the officer's behavior.

Deputy Chief Wood said that a body worn camera provides a picture of full interaction of all parties involved; however, only the Police Chief and parties involved (with their attorneys) can view the body cam footage, according to state law.

When Councilman Smith asked City Attorney Currin if the confidential memorandum regarding traffic stops and consent searches that she provided to Council is open to be released, City Attorney Currin said that Legal staff will remove any attorney-client privilege information and make the data contained therein available to the public.

Mayor Manheimer felt the written consent search has a lot of benefit but if you don't have the video to back it up, there might be some discrepancy on how that consent was obtained. She would assume a video would trump a written consent on determining whether or not there was consent provided for the search. Not having expertise in policing, she has to defer to the APD if they feel the camera consent is better than written consent she will have to go with that recommendation. She did feel it would be helpful for Council to have a 6-month follow-up to look at the number of consent searches vs. the number of probable cause searches and how those consent searches were documented.

Mayor Manheimer said that she has never seen the written consent form so she didn't know if it advises the driver that they have the option to say no or not. She said that would be an interesting thing to look at.

Councilman Haynes supported mandatory written consents.

City Manager Jackson summarized the following additional information Council has requested: (1) are there independent studies of written consent effectiveness and advice on recommended practices; (2) response to SBI data questions raised; (3) is it possible to compile aggregate data of performance audits and make available as open records and quarterly reports to Council; and (4) what is the APD plan for creating other key disparity metrics.

C. UPDATE ON FOOD ACTION POLICY PLAN

Assistant City Manager Cathy Ball provided Council with the following report by Sustainability Officer Amber Weaver:

"The purpose of this status report from the Office of Sustainability (OoS) is to provide City Council an update on the Asheville Edibles Program and the revision of the City's Food Policy Action Plan.

On January 22, 2013, Asheville City Council passed a resolution establishing the City of Asheville's Food Action Plan in support of the Asheville Buncombe Food Policy agenda. The Food Policy Action Plan included 14 specific areas to review or take action on to support the shared goals of the City of Asheville and the Asheville Buncombe Food Policy Council.

The Food Policy Action Plan Website and Programming project charter (March 2016) described an aim to provide "programming that supports the City's Food Policy Action Plan and the measures within the plan that address; specifically, urban agriculture through farmer's markets, local food purchasing policies, public private partnerships for composting, edible native landscaping, native pollinator plants that support Bee City USA resolution, food production, and education to the community at large."

The Asheville Edibles program has been developed to meet this need and includes processes for community gardens, Adopt-A-Spot, and large agriculture leases. The program debuted at the 2017 Earth Day celebration.

Update:

Asheville Edibles Program:

The purpose of this program is to provide an opportunity for community members to grow food and pollinator plants on publicly-owned land; goals identified in both Resolution 13-17 Food Policy Action Plan and the designation of Asheville as the inaugural Bee City USA, Resolution 12-

153. New this year, the City of Asheville is partnering with Asheville GreenWorks to expand Bee City and pollinator projects through Adopt-A-Spot.

The Asheville Edibles Program consists of three different opportunities: Adopt-A-Spot, Community Gardens, and Urban Agriculture Leases.

Adopt-A-Spot - The City has teamed up with Asheville GreenWorks to provide oversight of the new Adopt-A-Spot program. Businesses, organizations, or individuals can apply to adopt a City-owned piece of property. Once an application is approved, the responsibility of the adopter will be to maintain either an edible or pollinator garden in the location. Adopters will be recognized with a sign at the adopted spot.

Community Gardens - Asheville's Community Gardens Program provides residents with an opportunity to organize community gardens on designated City-owned land. For the 2017 growing season, four (4) sites have been identified by city staff. For successful applicants, there is no cost to lease the land, and each garden location has room for several plots. This is a great way to bring a neighborhood and/or organization together to grow local, fresh, and healthy produce to create a stronger, more resilient community.

Urban Agriculture Leases - The Urban Agriculture Leases Program has parcels of City-owned land prepared to be leased at fair market value. The terms of the leases are 3 years with an option to renew. For the 2017 growing season, two (2) sites have been identified by city staff. This program is designed to support urban agriculture development to increase local food production and community food security. The City encourages applications from qualified individuals, businesses, and/or nonprofit organizations to apply for a lease agreement. This is a great opportunity for those who want to grow food on a larger scale, but do not have the property to do so.

Those interested in any of the opportunities in the Asheville Edibles Program can visit the OoS website to review the rules and find an application form.

Food Policy Action Plan:

Through the City's contract with Bountiful Cities, the Asheville Buncombe Food Policy Coordinator (ABFPC) and the OoS have been working to revise and update the City's Food Policy Action Plan (FPAP).

The FPAP revision public survey closed at the end of February with 145 participants having submitted their input regarding priorities around Asheville's food system. Included in this process was a public input session held at Hillcrest on February 10th in an attempt to support the participation of low income individuals to complete the survey, as well.

The ABFPC coordinator processed the survey results, grouping answers into categories based on priorities expressed along with the present goals within the City's existing plan. Additional experts from the State's Local Food Council, NC and Community Food Strategies have been invited to weigh in on the suggesting action items identified.

Next steps include draft recommendations to be presented to the necessary COA departments and personnel for approval/input; followed by a presentation to Planning & Economic Development Committee this summer."

In response to Councilman Bothwell, Ms. Ball said that we are looking at best practices for a model for community gardens.

IV. PUBLIC HEARINGS:

A. PUBLIC HEARING TO RECEIVE COMMENTS REGARDING THE CONSOLIDATED ACTION PLAN FOR FISCAL YEAR 2017-18 WHICH SETS OUT THE PROPOSED USE OF FEDERAL COMMUNITY DEVELOPMENT BLOCK GRANT AND HOME INVESTMENT PARTNERSHIP ACT FUNDS FOR THE COMING YEAR

RESOLUTION NO. 17-89 - RESOLUTION AUTHORIZING SUBMISSION OF THE CITY'S CONSOLIDATED ANNUAL ACTION PLAN FOR 2017-18 TO THE U.S. DEPT. OF HOUSING AND URBAN DEVELOPMENT

Community Development Manager Heather Dillashaw said that this is a public hearing to receive comments regarding the proposed Consolidated Action Plan for Fiscal Year (FY) 2017-18, which sets out the proposed use of federal Community Development Block Grant (CDBG) and HOME Investment Partnership Act (HOME) funds for the coming fiscal year; followed immediately by Council's consideration of a resolution authorizing submission of this Consolidated Action Plan to the US Department of Housing and Urban Development (HUD). This public hearing was advertised on April 28 and May 5, 2017.

Ms. Dillashaw was happy to report that the federal budget for HUD Community Development Block Grant (CDBG) and HOME Investment Partnership Funds for Fiscal Year 2017-18 was adopted. Basically, this means the recommendations made by the Housing & Community Development Committee and the HOME Consortium Board will be able to be fully funded with the approval of the Asheville City Council.

It is estimated that based on last year's federal allocation the City will have available approximately $1,271,940 in CDBG funds and $981,153 in HOME funds in the fiscal year beginning July 1, 2017.

The City's Housing and Community Development Committee has made recommendations for the use of CDBG funds, which must be used in housing or community development programs in Asheville, and the Asheville Regional Housing Consortium has recommended uses for the HOME funds, which must be used for housing programs within the four-county Consortium area (Buncombe, Henderson, Madison, and Transylvania counties). A total of 31 programs are recommended for funding. Allocations are consistent with the proposed Strategic Housing & Community Plan for 2015-2019.

The Community Development Division will continue to monitor the current federal budget status and propose amendments as needed, once an approved federal budget is in place.

A public hearing will be held at the Council meeting of May 9, 2017. Comments received at the meeting will be incorporated into the Plan, as will comments submitted in writing. The plan is due to be submitted to HUD by May 15. The following is a summary of funding recommendations.

SUMMARY OF ANNUAL ACTION PLAN FOR 2017-2018

CDBG PROGRAM

Projected Revenue:

Estimated 2017-18 Program Income	$ 339,939
Unbudgeted Program Income	-
Funds available for reallocation	-
New CDBG Entitlement Grant	$ 932,001
Total CDBG Funds Available:	**$ 1,271,940**

Proposed Use of Funds:

2017-2018 PROGRAM	Funding Recommend.
Asheville Area Habitat for Humanity - Home Repair	$ 64,000
Asheville Area Habitat for Humanity - Homeowner Services	$ 58,836
Carolina Small Business Development Fund – Western Women's Business Center	$ 85,000
Eagle Market Street Development Corporation – IDA for Small Business	$ 70,000
Green Opportunities – Workforce Development: New Model for Stability & Growth	$ 175,000
Helpmate - Domestic Violence Services	$ 20,000
Homeward Bound - AHOPE Coordinated Assessment	$ 50,000
Homeward Bound – Prevention and Rapid Re-Housing	$ 90,000
Housing Authority of the City of Asheville - Lee Walker Heights	$ 179,703
Mountain BizWorks – Opportunity Asheville	$ 88,750
Mountain Housing Opportunities - Emergency Home Repair	$ 110,000
OnTrack - Financial Capabilities Program	$ 20,000
Pisgah Legal Services - Homelessness Prevention Project	$ 41,000
YWCA - Drop in Childcare	$ 19,263
City of Asheville - Program Administration	$ 200,388
RECOMMENDED FUNDING	**$1,271,940**

HOME INVESTMENT PARTNERSHIP PROGRAM

Projected Revenue:

Estimated 2017-18 Program Income	$ 19,526
Unbudgeted 2016-2017 Program Income	-
Funds available for reallocation	-
New HOME Entitlement Grant	$ 961,627
Total HOME Funds Available:	$ 981,153

Proposed Use of Funds:

2017-2018 PROGRAM	Funding Recommend.
Asheville Area Habitat for Humanity – Tunnel Road Development	$ 68,038
Homeward Bound – Asheville Tenant Based Rental Assistance	$ 55,000
Mountain Housing Opportunities – East Haven Apartments	$ 675,000
Homeward Bound-TBRA Buncombe County wide	$ 85,000
City of Asheville - Program Administration	$ 98,115
RECOMMENDED FUNDING	**$ 981,153**

Pros:

- Approval of the Action Plan paves the way for the receipts of over $2,250,000 of HUD funding to the City, which will be used to create affordable housing, create jobs, and improve public infrastructure.
- Reflects the carefully considered recommendations of the City's Housing & Community Development Committee and the Asheville Regional Housing Consortium.

Con:

- It is not possible to fund all the applications received, and most of those funded will receive less than the amount requested.

The Action Plan is fully funded from federal CDBG & HOME entitlement grants, unused funds from previous completed projects, and estimated program income. Staff costs to administer the program are also fully paid from federal sources. The funded programs will provide new construction and other economic activity in the City and region, creating and sustaining employment. New assisted housing units to be constructed in Asheville will add significantly to the City's tax base.

Staff recommends approval of the resolution authorizing submission of the City's Consolidated Annual Action Plan for 2017-18 to the U. S. Dept. of Housing and Urban Development.

Councilman Smith said that once the bond passed, the Housing Authority questioned if they might be able to qualify for some of the bond funding rather than having it come out of the CDBG funds. As always, there is more people applying for funds than we have. The Housing Authority said they would volunteer to come out of CDBG funding if they can guarantee their funding from another source within the City. What that did was to allow us to fully fund every single application. If Council moves to have the Housing Authority money come out of the bond funds, it will allow us to have an additional $315,000 towards community efforts this year. Council will be required to take action on whether to leave the Lee Walker Heights money in CDBG or to move it out and allow for that reserve allocation to happen later in the year.

Mayor Manheimer opened the public hearing at 7:13 p.m. and when no one commented, she closed the public hearing at 7:13 p.m.

Mayor Manheimer said that members of Council have previously received a copy of the resolution and it would not be read.

Councilwoman Mayfield moved to (1) approve the recommended funding levels as presented, with the deletion of the Housing Authority Lee Walker Heights Project allocation of $179,703, allocate the $179,703 to reserve, and submit the City's Consolidated Annual Action Plan for 2017-18 to the U. S. Dept. of Housing and Urban Development; and (2) proceed with amending the City's 2016-17 Consolidated Action Plan to reallocate the Housing Authority Lee Walker Heights allocation of $179,703. This motion was seconded by Vice-Mayor Wisler and carried unanimously.

Councilwoman Mayfield moved that $179,703 funding previously allocated for the Housing Authority Lee Walker Heights Project not come out of the CDBG funds but instruct staff to find replacement funding either through bond funding or possibly Section 108 money. This motion was seconded by Vice-Mayor Wisler and carried unanimously.

RESOLUTION BOOK NO. 38 – PAGE 425

B. PUBLIC HEARING TO CONSIDER A CONDITIONAL ZONING FROM INSTITUTIONAL DISTRICT TO INSTITUTIONAL DISTRICT/CONDITIONAL

ZONING FOR THE EXPANSION AND UPGRADE OF A WASTE TRANSFER STATION AT THE PROPERTY LOCATED AT 190 HOMINY CREEK ROAD

ORDINANCE NO. 4581 - ORDINANCE TO CONDITIONALLY ZONING FROM INSTITUTIONAL DISTRICT TO INSTITUTIONAL DISTRICT/CONDITIONAL ZONING FOR THE EXPANSION AND UPGRADE OF A WASTE TRANSFER STATION AT THE PROPERTY LOCATED AT 190 HOMINY CREEK ROAD

Mayor Manheimer said that this public hearing was continued from the April 25, 2017, meeting to this date.

Urban Planner Sasha Vrtunski said that this is the consideration of an ordinance to conditionally zone from Institutional District to Institutional District/Conditional Zoning for the expansion and upgrade of a waste transfer station at the property located at 190 Hominy Creek Road. This public hearing was advertised on April 14 and 21, 2017.

Since the original submittal, Buncombe County has changed their proposal to include a sidewalk and additional trees along the greenway to increase the screening of the new building. Those items are reviewed below.

The project site is 12.40 acres on Hominy Creek Road along the French Broad River and is the current site of the Buncombe County Transfer Station. The transfer station is located on an old landfill site, surrounded by trees on all sides. This parcel was newly created in early February from a parent tract of 22 acres (not yet mapped by Buncombe County). Adjacent to the property is Hominy Creek Park at the southern end of the road. The French Broad River greenway runs north from the park, along the eastern edge of the subject property next to the river, connecting to Carrier Park and other greenway trails. Notably, this property is located near two existing greenways and a potential future greenway leading to the WNC Farmers Market, and the road is frequently used by cyclists, paddlers and walkers/runners.

The proposal is for the renovation and expansion to the existing Buncombe County transfer station. The project includes a new building, parking and vehicular use area and upgrades. The proposed new building is 19,801 square feet and contains a smaller lower level. The new building will be approximately 7 feet taller than the existing transfer station building.

The site currently has two driveways leading to two different buildings and functions. The driveways are proposed to stay unchanged. Parking spaces are being provided for the service bays and employees, and total 14 spaces with one required handicapped space. Two bicycle parking spaces are shown on the plans. For a redevelopment project of this type, a sidewalk is required per UDO standards. The applicant has proposed providing a 6 foot back of curb sidewalk for the upper portion of the site, with a pedestrian crossing to the other side of the street, and continuing with a 10 foot multi-use path and a 5 foot landscape strip for the remaining parcel frontage. She said an additional sentence on this condition (which Buncombe County has agreed to) would be that the six foot sidewalk will extend between 218 feet and 320 feet before crossing Hominy Creek Road. City staff will work with Buncombe County to determine the best point of crossing based on pedestrian safety and flood regulations, and will be so indicated on the site plan at that time.

Required landscaping for this project includes street trees, building impact, parking lot landscaping and street buffers. There are significant trees and plant material already present on the perimeters of the site, and it is anticipated that there will be more than enough tree credits to fulfill the tree requirement for building impact landscaping.

The applicant is requesting landscaping reductions for the parking lot landscaping. Parking lot landscaping is required to be within 15 feet of the vehicle use area, making it difficult

to meet as this site has severe restrictions on planting on top of the landfill. Shrubs, however, can be planted around the vehicular use areas.

This project includes a several conditions found in the B1-Conditions list. Modifications and special conditions to note include:

1. Reduced parking lot landscaping: reduced by 54 trees.
2. Additional landscaping along the greenway to provide additional screening between the greenway and the new building. Applicant is proposing to plant 54 trees in this area.

This proposal was approved with conditions by the Technical Review Committee (TRC) on February 20, 2017. As with all conditional zoning applications, this proposal was reviewed by the Planning and Zoning Commission on April 5, 2017, and was approved with a 5-2 vote. Several commission members were concerned about the applicant not building a sidewalk on Hominy Creek Road. The discussion focused on the amount of traffic related to Hominy Creek Park (Cycling, paddling) and the connection between the park and the Hominy Creek Greenway that ends at Shelburne Road, very close to Hominy Creek Road.

City Council provides the final review of the conditional zoning request. The proposal will return to the Technical Review Committee for a final TRC review if approved by City Council. Transportation staff has received communication from members of the Greenway Committee and Friends of Hominy Creek Greenway. These citizens were concerned about the original plans which called for no sidewalk along Hominy Creek Road, and there were also concerns about the view of the new building from the greenway.

The change in zoning is required because under the current Institutional zoning a waste transfer station is not allowed; therefore, an expansion of a non-conforming use is not allowed. Industrial zoning is the appropriate zoning for the operation.

There are no recent projects close to this site. In the general area, recent projects include the Ashecroft Subdivision (Major Subdivision, 2017, in final review) and the Hampton Inn and Suites (Level II project, 2016, under construction).

This site is fairly isolated, located between I-40, the Biltmore Estate and the NC Farmer's Market, accessed only by Hominy Creek Road. The majority of surrounding zoning is Buncombe County zoning: Public Service (PS) district for the WNC Farmer's Market, Conference Center/Resort (CR) zoning for the Biltmore Estate. Given the isolated nature and scale of the site and the unique attributes of the on-going operation, staff believes that this will continue to be a compatible use for this location.

This proposal aligns with several aspects of the *City Development Plan 2025* including "Continue to promote and facilitate effective and efficient governmental coordination" and "Continue to direct a substantial amount of solid waste and organic materials away from landfill disposal... through recycling and reuse."

Considerations:

- Project expands a current use in an isolated location with very limited impacts on the nearby West Asheville neighborhoods.
- The transfer station is substantially screened by existing vegetation.
- Applicant has revised plans to include a sidewalk and multi-use path along the parcel frontage.
- Owner/applicant has proposed adding trees along the greenway to further reduce the visual impact of the new building from the greenway.

Based on policies stated in the Comprehensive Plan and other plans, such as the 2036

Council Vision, staff finds this request to be reasonable and within the best public interest and recommends support of the conditional zoning as proposed.

When Councilwoman Mayfield asked if there are any plans to extend a path to the entrance of the park, Ms. Vrtunski said that the Buncombe County Greenway Plan calls for a greenway to happen on either side of that creek that would connect the Hominy Creek Greenway into the park. There is also a proposed greenway that would come over from the Farmer's Market across that creek.

Mr. Jon Creighton, Assistant County Manager, said that they want to replace their existing transfer station. He showed various views around the transfer station and said that they will work with City staff to determine the best point of crossing based on pedestrian safety and flood regulations.

Mayor Manheimer opened the public hearing at 7:29 p.m.

Mr. Rich Lee, Vice-Chair of the Greenway Committee and member of the Multimodal Transportation Commission, was excited to see the compromise on the sidewalk and multi-use path for this vital connector for bicycles and pedestrians.

Mayor Manheimer closed the public hearing at 7:31 p.m.

Mayor Manheimer said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Smith moved to approve the the conditional zoning request from Institutional District (INST) to Industrial Conditional Zone (IND-CZ) with the requested condition for the reduced landscaping and find that the request is reasonable, is in the public interest, and is consistent with the Comprehensive Plan and other adopted plans in that: (1) the site has historically been an industrial use; (2) additional landscaping and the location serves to largely conceal the facility from adjacent uses and the nearby neighborhood; (3) the facility is integral to the City's solid waste and recycling functions; and, (4) the expansion and upgrading of the facility eliminates the need to relocate this use to another part of the community. This motion was seconded by Councilman Bothwell and carried unanimously.

ORDINANCE BOOK NO. 31 - PAGE 192

Closed Session

At 7:32 p.m., Councilman Young moved to go into closed session for the following reasons: (1) to prevent disclosure of information that is privileged and confidential, pursuant to the laws of North Carolina, or not considered a public record within the meaning of Chapter 132 of the General Statutes. The law that makes the information privileged and confidential is N.C.G.S. 143-318.10(a)(3). The statutory authorization is contained in N.C.G.S. 143-318.11(a)(1); and (2) To consult with an attorney employed by the City about matters with respect to which the attorney-client privilege between the City and its attorney must be preserved, including, but not limited to, a lawsuit involving the following parties: Civil Service Board Grievance - Richard Grant; and City of Asheville v. Robert H. Frost. The statutory authorization is contained in N.C. Gen. Stat. § 143-318.11(a)(3). This motion was seconded by Vice-Mayor Wisler and carried unanimously.

At 7:55 p.m., Vice-Mayor Wisler moved to come out of closed session. This motion was seconded by Councilman Smith and carried unanimously.

V. UNFINISHED BUSINESS:

VI. NEW BUSINESS:

A. RESOLUTION NO. 17-90 - RESOLUTION REAPPOINTING MEMBERS AND CHAIR TO THE CIVIL SERVICE BOARD

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that it is the responsibility of City Council to appoint the Chair of the Civil Service Board and the Chair of the Civil Service Board shall be appointed annually by City Council. In addition, the terms of Carol Goins and Alan Escovitz as members of the Civil Service Board expire June 11, 2017.

In 2013, a process was established for future appointments to the chair role of the Civil Service Board. Said process offered members of the Civil Service Board to express interest in serving as Chair.

All members were advised to contact Deputy City Clerk Sarah Terwilliger if they were interested in serving as Chair. Mr. Alan Coxie was the only interested member. The term of the current Chair Alan Coxie expires on June 28, 2017.

Vice-Mayor Wisler moved to reappoint Mr. Alan Coxie as Chairman of the Civil Service Board to serve a one-year term until his successor is duly appointed or until his term on the Civil Service Board expires, whichever occurs first. This motion was seconded by Councilman Smith and carried unanimously.

Vice-Mayor Wisler then moved to reappoint Ms. Carol Goins and Mr. Alan Escovitz to each serve an additional two year term, terms to expire June 11, 2019, or until their successors have been appointed. This motion was seconded by Councilman Bothwell and carried unanimously.

RESOLUTION BOOK NO. 38 - PAGE 426

B. RESOLUTION NO. 17-91 – RESOLUTION APPOINTING A MEMBER TO THE HOMELESS INITIATIVE ADVISORY COMMITTEE

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that Allison Bond, representative for the veterans' administration on the Homeless Initiative Advisory Committee (HIAC), resigned, thus leaving an unexpired vacancy until November 1, 2018.

The following individual, who fit the designated seat vacancy, applied for the vacancy: Whitney Lott.

At the recommendation of the Homeless Initiative Advisory Committee (HIAC) to appoint Ms. Lott even though she is not a City resident. They felt that 40% of our homeless population are veterans, making it critical for the lead person in the VA Homeless Programs office to be a seated member of HIAC. There is not a city resident who holds this position at the VA and would be able to bring the knowledge and expertise critical to HIAC's work on reducing and ending veteran homeless in our community. It was the consensus of the Boards & Commissions Committee to appoint Whitney Lott.

Vice-Mayor Wisler moved to appoint Whitney Lott to serve as the veterans' administration representative on the Homeless Initiative Advisory Committee, term to expire November 1, 2018, or until her successors has been appointed. This motion was seconded by Councilman Bothwell and carried unanimously.

RESOLUTION BOOK NO. 38- PAGE 427

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

Vice-Mayor Wisler said that at the Boards & Commissions Committee meeting held earlier in the day, they talked about the Citizens-Police Advisory Committee (CPAC) and the possible establishment of a Human Relations Commission. Due to time constraints, it was the consensus of the Committee to hold a special meeting on Monday, May 22, 2017, at 10:00 a.m. in Room 209 of City Hall to continue the discussion of (1) the mission/make-up of CPAC; (2) potential formation of a Human Relations Commission; and (3) Neighborhood Opportunity Fund.

Due to the number of individuals requesting to speak on items presented under the Presentations portion of the meeting, Councilwoman Mayfield moved to waive the rules and allow speakers to comment on those items. This motion was seconded by Councilman Bothwell and carried unanimously.

Mr. Vijay Kapoor commented on the 2017-18 budget and felt there was a lack of information on specific projects related to the bonds. He also felt that an additional 15 police officers requested is one year is rare and asked for the demonstrated need for those additional officers.

Mr. Sidney Bach expressed concern on the City's accounting system and the upcoming approval of a property tax increase to pay the interest and principal on the yet-issued General Obligation bonds.

The following individuals commented on the Asheville Police Department and Mr. Ian Mance's reports on traffic stops and search data:

Ms. Dee Williams, Chair of the NAACP Criminal Justice Committee
Mr. Patrick Conant
Mr. Ian Mance, attorney with the Southern Coalition for Social Justice
Ms. Catherine Kerr
Ms. Darlene Azarmi
Ms. Ashley Cooper
Mr. Rondell Lance

Councilman Smith urged the public to advocate to our legislators in Raleigh to raise the age of juvenile jurisdiction from 16 to 18 in North Carolina for misdemeanants and non-violent felons. On April 25, 2017, City Council supported this action.

Councilman Bothwell urged the community to support a new organization called Appalachian Wild who take care of injured wildlife.

Councilman Young stated that he attended a class at the School of Government that focused on evaluating and assessing boards and commissions. He will provide Council with the best practices formulated across the state.

VIII. ADJOURNMENT:

Mayor Manheimer adjourned the meeting at 8:46 p.m.

Magdalen Burleson
CITY CLERK

Esther E. Manheimer
MAYOR

Tuesday – May 23, 2017 - 4:00 p.m.

Budget Worksession

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Cecil Bothwell; Councilman Brian D. Haynes; Councilwoman Julie V. Mayfield; Councilman Gordon D. Smith; Councilman W. Keith Young; City Manager Gary W. Jackson; City Attorney Robin T. Currin; and City Clerk Magdalen Burleson

Absent: None

Follow-Up on Council Questions

Director of Finance and Management Services Barbara Whitehorn provided Council with information regarding all Council questions raised at their May 9, 2017, worksession, along with other questions raised throughout the week.

She, along with Police Chief Tammy Hooper, provided Council with alternatives for phasing in the hiring of additional Asheville Police Department (APD) officers. With the phasing in of new officers, along with reallocation from within the APD of $430,000 and $137,800 reallocated from other City departments, the proposed increase to the APD 2017-18 operating budget would be zero.

She then provided Council with alternatives to a tax increase to fund the service improvements and capital investment for transit. Option 1 would be revenue neutral, including transit, which would require cuts, deferrals and other options for shifting funding to transit from all City departments. Option 2 is revenue neutral plus .05 cents ($711,500) dedicated for transit. Option 3 would be to raise revenues, other than property taxes, e.g., cutting specific programs, cutting strategic fund partnership grants, etc.

Ms. Whitehorn then showed Council a model that dedicates to transit the property tax rate equivalent of the General Fund annual subsidy.

Throughout Ms. Whitehorn's and Police Chief Hooper's presentation, Council asked several questions and discussed the police staffing and transit models.

Councilwoman Mayfield said that cutting from other departments with Option 2 is not a sustainable way to fund transit. She supported a .05 cent increase dedicated to transit and then have a conversation about having a dedicated revenue stream that grows over time for transit going forward. It was the consensus of Council to refer the funding mechanism of a dedicated revenue stream for transit to the Finance Committee.

Councilman Haynes could not support the hiring of additional police officers.

Vice-Mayor Wisler said that at the Finance Committee earlier in the day they discussed the retirement funding for Asheville firefighters. In 2007 during the budget process, Council adopted Resolution No. 07-164 creating a 401A retirement plan for firefighters since they elected not to be covered by Social Security and the City did not contribute towards social security for them. The City approved a 2% match during the first year of implementation, which plan was to incrementally increase that City match by 2% each year over the next two budget years until there was a 6% total matching City contribution. Due to the national and local economic situation, that continued contribution did not happen. It was the consensus of the Finance Committee to work toward that City contribution of 6%, starting with a 2% increase on January 1, 2018. That would require a General Fund increase of $150,000. In future years the 2% match would be $300,000. It was the consensus of Council to direct staff to include a 2% increase to the

firefighters' 401A beginning January 1, 2018, with the Finance Committee reviewing in detail to see if there is anyway to do this administratively for a better outcome for all employees.

Mayor Manheimer explained that the budget before Council assumes a 39.39-cents (revenue neutral) plus .5-cents (transit) plus 3.5-cents (General Obligation Bonds) for a total of 43.39-cents. She clarified that the budget before Council does include the increase in personnel for the APD but it is from a reallocation of funds from the APD and $137,000 reallocation of funds from all other City departments.

At 4:59 p.m., Mayor Manheimer adjourned the worksession.

Tuesday – May 23, 2017 - 5:15 p.m.

Regular Meeting

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Cecil Bothwell; Councilman Brian D. Haynes; Councilwoman Julie V. Mayfield; Councilman Gordon D. Smith; Councilman W. Keith Young; City Manager Gary W. Jackson; City Attorney Robin T. Currin; and City Clerk Magdalen Burleson

Absent: None

PLEDGE OF ALLEGIANCE

Mayor Manheimer led City Council in the Pledge of Allegiance.

Interpreters were present at the Council meeting and they thanked Council for allowing them to provide this service.

I. PROCLAMATIONS:

A. PROCLAMATION PROCLAIMING MAY, 2017, AS "LYME DISEASE AWARENESS MONTH"

Councilman Bothwell read the proclamation proclaiming May, 2017, as "Lyme Disease Awareness Month" in the City of Asheville. He presented the proclamation to Jan Dooley, Tess Burton and another, who briefed City Council on some activities taking place during the month.

B. PROCLAMATION PROCLAIMING JUNE 2, 2017, AS "GUN VIOLENCE AWARENESS DAY"

Mayor Manheimer read the proclamation proclaiming June 2, 2017, as "Gun Violence Awareness Day" in the City of Asheville. She presented the proclamation to Ms. Jean Smith, local Asheville lead for Moms Demand Action for Gun Sense in America, and others, who briefed City Council on some activities taking place during the day.

C. PROCLAMATION PROCLAIMING JUNE 5-11, 2017, AS "HEMP HISTORY WEEK"

Councilman Haynes read the proclamation proclaiming June 5-11, 2017, as "Hemp History Week" in the City of Asheville. He presented the proclamation to Timothy Sadler, and others, who briefed City Council on some activities taking place during the month.

II. CONSENT AGENDA:

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON MAY 9, 2017

B. RESOLUTION NO. 17-92 - RESOLUTION AUTHORIZING THE CITY MANAGER TO SIGN THE UNITED STATES GEOLOGICAL SURVEY APPLICATION TO NAME A CREEK THAT FLOWS THROUGH THE RIVER ARTS DISTRICT AND WEST END/CLINGMAN AVENUE NEIGHBORHOOD AS BACOATE BRANCH

RESOLUTION NO. 17-93 - RESOLUTION RENAMING CLINGMAN FOREST GREENWAY TO BACOATE BRANCH GREENWAY

Summary: The consideration of (1) a resolution authorizing the City Manager to sign the United States Geological Survey (USGS) application to name a creek that flows through the River Arts District (RAD) and West End/Clingman Avenue Neighborhood (WECAN) as Bacoate Branch; and (2) a resolution renaming Clingman Forest Greenway to Bacoate Branch Greenway.

(1) Naming the creek: As a part of its "Name that Creek" program, RiverLink recently worked with city staff to perform a community engagement process to gather nominations and identify a preferred name for the creek that begins in Aston Park near the intersection of Hilliard and Clingman Avenues. It parallels Clingman before ducking under several buildings, Clingman Avenue and Riverside Drive, flowing into the French Broad near 14 Riverside Drive, which is the site of the River Arts District visitor center set to open spring 2017. RiverLink asked the three representative community groups in the area (River Arts District Artists (RADA), River Arts District Business Association (RADBA) and West End Clingman Avenue Neighborhood (WECAN)) to submit names to be included in a RiverLink poll. It was agreed by all groups that naming the creek will call attention to the creek and increase the community's sense of ownership of the creek.

RADA, RADBA, and WECAN proposed eight names and the community-based engagement process initiated by RiverLink and supported by the City of Asheville (City) resulted in the selection of the name "Bacoate Branch." This name is in honor of Osie Bacoate, the matriarch of the Bacoate Family. She was a teacher, cosmetologist, business owner and community leader in the African American community. Her son, Matthew Bacoate, Jr., a community leader in Asheville, was the General Manager of AFRAM, a pioneer African American manufacturer that became the largest black-owned business in the history of Asheville. AFRAM was located in what is now the Wedge Building in the River Arts District. He is still alive today and lives in the WECAN neighborhood. His son also lives in Asheville. The Bacoate family is not opposed to this action. It is important to note that Thomas Clingman did not have heirs and there are no known citizens with the name Clingman in Asheville.

In order to complete the application to the United States Geological Naming Convention form to name this water body "Bacoate Branch", a local government official must sign the form to demonstrate support and to certify that the naming process followed USGS guidelines.

Because of the location of the creek and its proximity to the French Broad River, the request was referred to the Asheville Area River Redevelopment Commission (AARRC). On March 9, 2017, the AARRC reviewed and unanimously approved the following motion: *The Asheville Area Riverfront Redevelopment Commission accepts Bacoate Branch as suggested by the results from the RiverLink poll to rename the tributary, and recommends to Council that they support the adoption of this name.*

(2) Renaming the Clingman Forest Greenway: The Clingman Forest Greenway, slated for construction in 2019, is a 0.45 mile greenway that starts near the Clingman Avenue and Hilliard Ave intersection and ends at the northern side of Clingman Avenue Extension. It follows

the path of the creek discussed in part one, above. The WECAN Association approached the City requesting the name of the greenway be changed.

The neighborhood provided the following reasoning: Thomas Lanier Clingman, for whom Clingman Avenue, Clingman's Dome & this future greenway are currently named, was an attorney, NC State and federal representative and senator, and a pro slavery, confederate army general. As WECAN represents a diverse, active & caring community, the WECAN Board feels strongly that the naming of this future greenway after one who supported the institution of slavery sends the wrong message to and about our community.

If Council moves to name the adjacent waterbody "Bacoate Branch," WECAN, along with RADA and RADBA, would like the name of Clingman Forest Greenway to be changed to "Bacoate Branch Greenway." Two City Commissions and one City Committee reviewed the matter; all three voted unanimously to support the name change: The Greenway Committee on March 2, 2017; The Multimodal Transportation Commission on March 22, 2017; and the AARRC on March 9, 2017. The African American Heritage Commission reviewed the request and had no comments.

Staff has worked closely with the key stakeholders on both of these items and finds both community requests align with Council adopted policies and plans.

The request to the name the creek follows the Stream Naming Policy, and the request to rename Clingman Forest Greenway follows the City's Naming Policy. Staff further notes that the names of all greenways in the Greenway Master Plan are named after natural features in the proximity of the greenway --usually, water bodies (e.g. French Broad River Greenway, Reed Creek Greenway). The suggestion of "Bacoate Branch Greenway," therefore, also aligns with the City's informal naming conventions for greenways. Staff has not heard of anyone opposed to either of these naming requests.

Pros:

- Naming of a creek or stream can bring attention to its existence, help identify it as a part of the River District ecosystem, and encourage environmental stewardship that enhances quality of life.
- Supporting this community-driven effort further develops partnerships between groups like RiverLink, RADA, RADBA and WECAN and the City.

Con:

- None identified.

There is no fiscal impact related to this item.

Staff recommends City Council authorize the City Manager to sign the USGS form to name the creek in the River Arts District "Bacoate Branch" and to rename the Clingman Forest Greenway to "Bacoate Branch Greenway."

RESOLUTION NO. 17-92 - RESOLUTION BOOK NO. 38 - PAGE 428
RESOLUTION NO. 17-93 - RESOLUTION BOOK NO. 38 - PAGE 429

C. APPROVAL TO MOUNT A CEREMONIAL PLAQUE ON THE EXTERIOR OF THE MUNICIPAL BUILDING RECOGNIZING THE BRICK WORK OF JAMES VESTER MILLER

Summary: Motion to approve a request to mount a ceremonial plaque honoring James Vester Miller, a prominent African-American brick mason who performed the bricklaying on the Municipal Building in 1925 and 1926, on the Municipal Building.

The City of Asheville has received a request from Ms. Andrea Clarke, grand daughter of James Vester Miller, to mount a ceremonial plaque on the Asheville Municipal Building honoring Mr. Miller's bricklaying on the Municipal Building.

Ms. Clarke has followed the City's policy on public naming, and pursuant to the policy, on April 11, 2017, City Council made an announcement of the request and solicited input from surrounding property owners, residents, affected parties, and other City officials or anyone else who can contribute meaningful input.

The African American Heritage Commission received this information and had no concerns.

Ms. Clarke has submitted three possible locations that she wishes the plaque to be placed. After the General Services Director reviewed all three possible locations, it was his recommendation that the plaque be placed in the brick work centered between the windows beneath the "Asheville Police Department' sign on the exterior face of the Municipal Building.

There will be no fiscal impact to the City as the plaque and mounting will be paid for by Ms. Clarke.

Staff recommends City Council approve mounting a ceremonial plaque be placed in the brick work centered between the windows beneath the "Asheville Police Department" sign on the exterior face of the Municipal Building honoring the brick work of James Vester Miller and his construction firm Miller Construction Company.

D. ORDINANCE NO. 4582 - BUDGET AMENDMENT FOR SWANNANOA RIVER GREENWAY CORRIDOR STUDY

Summary: The consideration of a budget amendment, in the amount of $86,803 in the City's Special Revenue Fund, from the N.C. Dept. of Transportation and private donations, to set up the project budget for the Swannanoa River Greenway Corridor Study.

City Council authorized staff to apply for a planning grant, and accept the funds if awarded, from the N.C. Dept. of Transportation (NCDOT) Bicycle/Pedestrian Division Grant Program via Resolution # 16-236 on October 25, 2016. The project area for this study will be along the Swannanoa River from Biltmore Avenue to South Tunnel Road. It is contiguous to a greenway project that will be designed and constructed from bond funds that begins at South Tunnel Road and ends at Azalea Park. Matching funds will be paid for by funds raised by the Asheville Park and Greenway Foundation and the Friends of Connect Buncombe.

Once finished, the corridor study will provide the City with a preferred greenway alignment for this section of the Swannanoa River Greenway corridor and we will be ready to begin engineered designs.

The corridor study is supported by the Asheville Greenway Committee and Multi-modal Transportation Commission.

Pros:

- This project will be 100% funded by grant funds and donations from private entities.
- We will have an alignment plan for a greenway in a rapidly growing area of the City.

Con:

- There are no known cons.

The total cost of the corridor study is expected to be $60,000 with the grant providing $36,000 and private entities providing $24,000 (local match). The remaining $26,803 in local match funds will be used for communication and promotional material for public outreach. No City funds are needed or required for this project.

City staff recommends that City Council approve an ordinance to set up the project budget for the Swannanoa River Greenway Corridor Study.

ORDINANCE BOOK NO. 31 - PAGE 198

E. RESOLUTION NO. 17-94 - RESOLUTION AMENDING THE 2017 CITY COUNCIL MEETING SCHEDULE TO ADD A WORKSESSION ON LIVING ASHEVILLE COMPREHENSIVE PLAN ON JUNE 27, 2017, AT 3:00 P.M. IN THE FIRST FLOOR NORTH CONFERENCE ROOM IN CITY HALL

RESOLUTION BOOK NO. 38 - PAGE 430

F. RESOLUTION NO. 17-95 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CHANGE ORDER WITH MOUNTAIN ENVIRONMENTAL SERVICES INC. FOR 14 RIVERSIDE DRIVE

ORDINANCE NO. 4583 - BUDGET AMENDMENT FOR 14 RIVERSIDE DRIVE

Summary: The consideration of (1) a resolution authorizing the City Manager to execute a change order increasing the contract with Mountain Environmental Services, Inc by $33,136.64; and (2) and a budget amendment in the amount of $33,137 from debt proceeds to increase the overall 14 Riverside Drive project budget to $966,757.

On September 26, 2016, following a competitive bid process, the City entered into a contract with Mountain Environmental Services, Inc to provide contaminated soil disposal services in the River Arts District. This original contract included soil disposal associated with new Duke transmission poles on Parcel 27. The original contract was written for $33,220 and had a contingency of $16,780 for a total contract value of $50,000.

Additional services were required to remove contaminated soil from the adjacent Parcel 28 at the 14 Riverside Drive project construction site. A change order was awarded in the amount of $33,220 to cover the additional costs. The total revised contract amount totaled $83,220.

Due to higher than expected volumes of contaminated soil at the site, the cost of services exceeded the contract amount for work associated with the 14 Riverside Drive project. Staff is seeking a change order to the existing contract in the amount of $33,136.64, increasing the total contract amount to $116,356.64. Since this total contract amount now exceeds $90,000, City Council approval is required to authorize this change order.

A budget amendment in the amount of $33,137 is required for this project to ensure that it is adequately funded to cover all outstanding costs.

Pro:

- The suggested changes will allow for the completion of the 14 Riverside Drive project.

Con:

- Not authorizing these changes could lead to a dispute with the contractor who has provided the City with the services and is currently awaiting payment.

The use of $33,137 in debt proceeds to increase the overall project budget to $966,757. This change will be incorporated into the multi-year debt model for the Capital Improvement Program (CIP). This project and proposed amendment are funded using Special Obligation

Bonds.

Staff recommends City Council adopt (1) a resolution authorizing the City Manager to execute,a change order increasing the contract with Mountain Environmental Services, Inc by $33,136.64; and (2) a budget amendment of $33,137 from debt proceeds to increase the overall project budget to $966,757.

RESOLUTION BOOK NO. 38 - PAGE 431
ORDINANCE BOOK NO. 31 - PAGE 200

G. RESOLUTION NO. 17-96 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE DOCUMENTS TO MODIFY AN EXISTING EASEMENT AGREEMENT FOR AN AREA BEHIND AN EXISTING WATER METER LOCATED AT 30 MANDERLEY WAY

Summary: The consideration of a resolution authorizing the City Manager to execute documents to modify an existing of easement agreement for an area behind an existing water meter located at 30 Manderley Way, PIN 9644-15-1434.

The current owner of 30 Manderley Way has requested that the waterline easement be modified to be removed out from under the footprint of the existing house. The owner of said property is attempting to sell the house and the closing attorney for the client will not close till the existing waterline easement document has been modified so that the easement does not extend into the footprint of the house.

When this development was originally constructed, the City required waterline easements to extend 10 feet beyond the water meter. In this particular instance, the existing waterline easement extends thru part of the property owner's porch. With more of these types of subdivisions being built and homes being constructed closer to the road, the City changed the requirements to no longer require easements to extend 10 feet beyond the meter. By removing the requirement we no longer have situations where waterline easements extend inside of homes. The existing meter will still be located within the main waterline easement.

In order to modify the easement, City Council must authorize the City Manager to execute documents to modify the existing easement between the City and the current property owners, Michael and Lynette Marks. No physical work to relocate the water lines is necessary, only a modification of the easement paperwork to clarify the limits of the easement.

Pro:

- Eliminates the issue of having a waterline easement within the walls of a house.

Con:

- None noted.

This action has no fiscal impact.

City staff recommends City Council approve a resolution authorizing the City Manager to execute documents to modify an existing easement agreement at 30 Manderley Way, PIN 9644-15-1434.

RESOLUTION BOOK NO. 38 - PAGE 432

H. RESOLUTION NO. 17-97 - RESOLUTION IN SUPPORT OF NC SB 85 AND HB 102 RATIFYING THE EQUAL RIGHTS AMENDMENT (ERA) AND THE US CONGRESS HOUSE JOINT RESOLUTION 53 TO REMOVE THE DEADLINE FOR ERA RATIFICATION

Summary: The City of Asheville supports (1) the adoption of US Congress House Joint Resolution 53 to remove the time limit for ratification of the Equal Rights Amendment (ERA); and (2) supports the adoption of North Carolina SB 85 and HB 102 to ratify the ERA.

Ms. Ann Von Brock thanked Council for supporting full citizenship for women.

RESOLUTION BOOK NO. 38 - PAGE 433

I. ORDINANCE NO. 4584 - BUDGET AMENDMENT FOR CONSTRUCTION OF STRUCTURAL REPAIRS AT MCCORMICK FIELD

Summary: The consideration of a budget amendment in the amount of $19,413 to transfer funds from the Parks and Recreation Department (Department) deferred maintenance operating budget in the General Fund to the McCormick Field structural repair capital project in the General Capital Projects Fund.

The Department's deferred maintenance cost center in the General Fund is used for repairs and improvements for parks and recreation facilities. There are items budgeted there in the current fiscal year that relate to large projects including $19,413 to complete a structural repair at McCormick Field.

Staff is requesting City Council to approve a budget amendment to increase the McCormick Field project by $19,413 in the General Capital Project Fund from the Department's deferred maintenance budget. There is currently an available balance of $64,247 in the McCormick Field project; this budget amendment will bring the total available budget in that project to $83,660. The project includes repairs to the existing structural supports and walkways.

Pros:

- This action will allow the capital project to reflect all the expenditures related to the construction of the structural repair

Cons:

- None

The funds are budgeted in the Parks and Recreation Department's General Fund budget. The budget amendment, which will move that funding to the General Capital Projects Fund, will not increase the City's total overall budget.

City staff recommends City Council approve the budget amendment authorizing the City Manager to increase the McCormick Field structural repair capital project by $19,413.

ORDINANCE BOOK NO. 31 - PAGE 202

J. RESOLUTION NO. 17-98 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CONTRACT WITH FRENCH BROAD PAVING INC. FOR THE FISCAL YEAR 2017 ASPHALT PAVING IMPROVEMENTS - RESURFACING PROJECT

Summary: The consideration of a resolution authorizing the City Manager to execute on behalf of the City of Asheville a contract in the amount of $1,493,980.74 plus a contingency of 15% ($224,097) with French Broad Paving, Inc. for the project known as FY 17 Asphalt Paving Improvements – Resurfacing, City of Asheville Project K1701.

A list of warranted streets was assembled to be addressed by this contract. The project was advertised on April 7, 2017. Bids were opened on May 1, 2017, with the following results:

French Broad Paving, Inc. of Marshall, NC	$1,493,980.74
Rogers Group, Inc. of Nashville, TN	$1,773,901.40
Harrison Construction Company of Asheville, NC	$2,678,283.90

French Broad Paving, Inc. proposes to perform all of the work included in the contract other than pavement markings. New Dimensions in Pavement Markings, Inc. from Fletcher, NC will install the pavement markings. Both French Broad Paving, Inc. and New Dimensions in Pavement Markings, Inc. are certified as Disadvantaged Business Enterprises and Woman Business Enterprises.

A 15% contingency ($224,097) has been added to allow payment for any unforeseen costs that typically arise during construction and to do additional street resurfacing. The work produced from this contract would fix a number of roads that are in need of repair.

Pros:

- Will repair approximately 4.6 miles of roadways within the Asheville City limits.
- Will improve mobility and safety on city streets.

Con:

- Construction will be disruptive to adjacent residences and businesses.

The total budget for the FY17 Streets Program is $2.8 million. This funding is our annual pay-as-you-go repaving process and is not bond funded. The total cost of this contract, including contingency, is S1,718,077.74. The remaining funds in this budget will be used for other paving needs. This contract will be presented to Council during a later meeting. Also, contracts for the first seven streets to be resurfaced by bond funding will also be presented to Council in the near future in a separate contract.

City staff recommends City Council adopt a resolution awarding the contract to French Broad Paving, Inc. and authorizing the City Manager to execute on behalf of the City of Asheville a contract in the amount of $1,493,980.74 plus a contingency of $224,097 (15%) for the contract known as FY 17 Asphalt Paving Improvements – Resurfacing, City of Asheville Project K1701.

RESOLUTION BOOK NO. 38 - PAGE 434

K. RESOLUTION NO. 17-99 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A PROFESSIONAL SERVICES AGREEMENT WITH HAZEN AND SAWYER FOR THE WATER SYSTEM MASTER PLAN UPDATE

Summary: The consideration of a resolution authorizing the City Manager to execute a professional services agreement with Hazen and Sawyer for the Water System Master Plan Update for the proposal amount of $475,300 plus a contingency of $95,060 for a total of $570,360.

On July 1, 2016, the Water Resources Department (WRD) issued a Request for Qualifications (RFQ) seeking a professional engineering firm to provide professional services for the preparation of a new Water System Master Plan. The scope of work for this project includes, but is not limited to:

(1) A hydraulic model update,
(2) Field tests,
(3) Model calibration,
(4) Evaluation of the existing system,
(5) Population and demand projections,
(6) Evaluation of the future system,
(7) Master plan report and training, and

(8) Project administration.

The WRD will add the following services at a later time as the project progresses:

(a) Evaluation of water quality sampling and flushing,
(b) Surge analysis at two pump stations,
(c) A vulnerability assessment, and
(d) Public Outreach through stakeholder meetings.

The technical components of the Master Plan outlined above are scheduled to commence in June 2017. Following completion of the majority of this technical phase, the public engagement component is anticipated to commence in July 2018. This engagement component, which will include various stakeholder meetings, will focus on obtaining feedback on priorities, desired outcomes and rate models.

In response to the RFQ, the department received 3 Statements of Qualifications (SOQs) on July 27, 2016. Companies responding were:

1. Brown and Caldwell, Charlotte NC
2. CDM Smith, Charlotte NC
3. Hazen and Sawyer, Charlotte NC

Following an extensive review of the SOQs by City Staff, including reference checks and on-site interviews, Hazen and Sawyer was selected as the firm for this project. WRD staff then worked with Hazen and Sawyer to negotiate a cost for the Project.

Pros:

- This project will update the May 2009 Water System Master Plan by Jordan, Jones & Goulding (JJG). The cost for 2009 Water System Master Plan was $550,000. It is a water industry standard to update master plans every 5-10 years. This project is directly related to the Rate Model Study. Updating the Master Plan is intuitive for building an accurate rate structure and providing a sustainable water system.

Con:

- None.

The funding needed for the professional services agreement is currently allocated within the Water Resources Capital Improvements Project (CIP) Fund in the Water Model & Master Plan Update Project.

Staff recommends City Council adopt a resolution authorizing the City Manager to execute a professional services agreement with Hazen and Sawyer for the Water System Master Plan Update for the proposal amount of $475,300 plus a contingency of $95,060 for a total of $570,360.

RESOLUTION BOOK NO. 38 - PAGE 435

L. RESOLUTION NO. 17-100 - RESOLUTION MAKING PROVISIONS FOR THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT THE MOUNTAIN SPORTS FESTIVAL

Summary: The consideration of a resolution authorizing the City Manager to approve a resolution making provisions for the possession and consumption of malt beverages and/or unfortified wine at the Mountain Sports Festival.

- Mountain Sports Festival has requested through the City of Asheville Community & Economic Development Department that City Council permit them to serve beer and/or unfortified wine at the Mountain Sports Festival and allow for consumption at this event.

  The Mountain Sports Festival will be held on Friday, May 26, 2017 from 4:00 p.m. to 10:00 p.m., Saturday, May 27, 2017 from 10:00 a.m. to 10:00 p.m., and Sunday, May 28, 2016 from 11:00 a.m. to 6:00 p.m. within the boundaries of Carrier Park as per the area limits referenced on the accompanying site map.

Pro:

- Allows fundraising opportunities for the Mountain Sports Festival

Con:

- Potential for public safety issues

Staff recommends City Council adopt a resolution authorizing the City Manager to approve a resolution making provisions for the possession and consumption of malt beverages and/or unfortified wine at the Mountain Sports Festival.

RESOLUTION BOOK NO. 38- PAGE 436

M. RESOLUTION NO. 17-101 - RESOLUTION SETTING A PUBLIC HEARING ON JUNE 13, 2017, FOR THE LAND USE INCENTIVE GRANT APPLICATION OF 338 HILLIARD

Summary: The consideration of a resolution to set a public hearing on June 13, 2017, for the Land Use Incentive Grant Application of 338 Hilliard by the developer of "Aston Place," Kassinger Development Group.

Kassinger Development Group has applied for a Land Use Incentive Grant per the policy adopted by Council, and amended on September 22, 2015. The developer is developing a mixed income development at 338 Hilliard Avenue, Asheville NC - the former Parks Maintenance site. The project consists of 64 residential rental apartments, with 33 of those units being reserved for affordable housing (households earning 80% AMI or less). The site is within 0.25 miles of transit, 0.25 miles of amenities, and 1 mile to job centers in downtown. The developer estimates a total development cost of $7,955,000 and an estimated tax value of $4,480,000 post completion.

The project, as presented to staff, appears to meet the following Eligibility Requirements,

- The proposed development consists of three or more dwelling units for rent;
- At least 10% of the units will meet the affordability standards set by the City of Asheville for households earning 80% or less of the Area Median Income.
- The affordable units will be affordable to and leased to income-eligible households for at least 15 years.
- The proposed development must be located inside the city limits.
- The proposed development must be located to provide residents convenient access to jobs, schools and services

Scoring

Affordable Rental Housing

The proposed project will provide thirty-three (33) units affordable to households at 80% or less of median income, with thirteen (13) of those units being rented to households earning 60% AMI or less. The developer has committed to the affordability period of fifty (50) years. Under this category, the project qualifies for 60 points.

Long term affordability

The proposed project will be committed to serving households at the designated rental rates for a period of fifty (50) years. This qualifies the project for 20 points.

Superior locational efficiency

The proposed project is within 0.25 miles of an existing bus-stop served by multiple bus lines, is within 1 mile of a job center in downtown, and is within .5 miles of public amenity in an ART bus stop served by an existing sidewalk. The project qualifies for 20 points in this category.

Staff has scored the project with 100 points, which qualifies the project for ten years (10) of Land Use Incentive Grant.

The Housing and Community Development Committee reviewed the application at their meeting on May 16, 2017, and unanimously recommended approval of the Land Use Incentive Grant as outlined in this staff report.

Pros:

- The proposed project will provide 60 affordable rental housing units to households earning 80% or less of area median income, with 13 units serving households earning 60% AMI or less;
- The proposed project will have an affordability period of fifty (50) years
- The proposed project addresses the pressing need for affordable one-bedroom apartments;
- The proposed project has a significant economic impact. Construction wages and material purchases will positively affect the local and regional economy.

Con:

- Cost estimates are not yet fully developed, and project costs as presented may change as it moves towards development.

The current estimated assessment value for this property is $450,000 (as estimated by Community Development Division). The developer's estimate of improvement value is $4,030,000 with a completed estimated project taxable value of $4,480,000. The annual estimated city tax post completion, based on the developer's estimate of value, is $19,143. Over a ten year period, if approved at that level, the total estimated Land Use Incentive Grant would be $191,430, the exact amount to be determined by the length in years, of the grant award, and the actual assessed value of the development upon completion. Based on these estimates, the subsidy per affordable unit would be $5,801. The subsidy amount per affordable unit/year would be $116.

The estimated amount of fees payable for Zoning Permit, Building Permit, Driveway Permit, Grading Permit, Stormwater Plan Review Fee, and Water Service Connection Fee is $100,000. The value of each 10% of eligible fee rebates would be $10,000. The exact amount would be determined by the percentage of fee rebate awarded as part of the Land Use Incentive Grant. If approved at the 100 point level, the fee rebate would be $100,000.

The total estimated Land Use Incentive Grant benefit over 10 years is $291,430, which equals to $8,831 subsidy per affordable unit, and $177 subsidy per unit per year.

Staff recommends City Council adopt a resolution setting a public hearing on June 13, 2017, to hear and act upon the request of Kassinger Development Group for a Land Use Incentive Grant.

RESOLUTION BOOK NO. 38 - PAGE 439

N. RESOLUTION NO. 17-102 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE GROUND LESSOR'S ESTOPPEL CERTIFICATE AND AMENDMENT TO GROUND LEASE RELATED TO ASSIGNMENT AND REFINANCING OF PACK PLACE GARAGE COMPLEX

Summary: The consideration of a resolution authorizing the City Manager to execute Ground Lessor's Estoppel Certificate and Amendment to Ground Lease related to assignment and refinancing of Pack Place Garage Complex.

The complex of buildings known as Pack Place is the result of redevelopment efforts undertaken by the City in the early 1980's. Part of the complex is lease to and occupied by various quasi-public uses (i.e. Asheville Art Museum; Diana Wortham Theatre); some of it is occupied by private interests including the parking garage and the retail uses along Eagle Street. The City owns the land underlying the parking garage and related uses and has leased it to a developer, Pack Plaza Associates Limited Partnership (now Pack Square Investors II, LLC) who, pursuant to a Master Agreement and Master Lease entered into in 1987 (herein "Lease"), constructed the improvements (parking garage/retail buildings) on the property. Under the Lease, the permanent improvements become the property of the City at the end of the Lease term, which is 99 years (Lease Term ends in 2086). During this term, the "Lessee" (Pack Square Investors) its, successors or assigns, operates the buildings at no cost to the City and receives the income from it. The City is the "Ground Lessor" or "Lessor" and the developer is the "Tenant" or "Lessee".

It was contemplated from the beginning of this project that the Tenant would require substantial financing for the improvements, and would pledge the improvements (and its interest in the Lease-"Leasehold Estate" or "Leasehold Interest") as security for the financing. Accordingly, the Master Lease contains provisions that require the City, as Lessor, to execute certain documents and provide certain assurances to enable the Tenant to secure financing or refinancing. This is applicable to the garage/retail part of the project. Additionally, according to the terms of the Master Lease, the Lease is freely assignable as long as the Assignee, i.e. "New Tenant" expressly assumes and agrees to all of the terms of the existing Lease.

On April 24, 2017, the City received notice that Pack Square Property, LLC (also known as WPCM Acquisition, LLC) intends to purchase the Leasehold Interest of Pack Square Investors and the Lease would be assigned to them and they would become the new Lessee or Tenant. As part of this Assignment, Pack Square Property will be refinancing the property and their Lender, Deutsche Bank, requires the execution of an Estoppel Certificate and Amendment to the Ground Lease. This Proposed Estoppel and Amendment is not substantially different from documents that the Council agreed to in 1988 and 2006, related to previous Lessee refinancing, and is usual and normal in commercial real estate financing transactions of this nature. The requested documents essentially give the Lender certain rights in the leased premises, such as the right to step in and operate the project, make or complete improvements, market and re-lease the premises, and dispose of insurance proceeds in case of property damage. These documents amount to a third-party agreement, bringing the Lender into the transaction. The estoppels certificate is basically a statement by the Lessor, that the Tenant is not in default under the lease. The Lease incorporates most, if not all, of the terms contained in the Proposed Amendment, and amounts to little more than allowing the new Lender to step into the transaction.

Pros:

- Proposed Amendment does not change the City's position in the Lease from previous Lessee refinancing or amendments.
- Proposed amendment is not unusual in transactions of this nature.
- Lease requires the city to execute documents as reasonably required to facilitate financing and granting authorization to City Manager to sign such documents now and in the future will allow the City to better meet this requirement.

Con:

- None

City staff recommends City Council adopt a resolution authorizing the City Manager to execute on behalf of the City of Asheville the requested Estoppel Certificate and Amendment to the Ground Lease and similar documents which may be requested in the future that do not substantially change the terms and conditions of the existing Master Lease.

RESOLUTION BOOK NO. 38 - PAGE 440

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Vice-Mayor Wisler moved for the adoption of the Consent Agenda. This motion was seconded by Councilman Bothwell and carried unanimously.

III. PRESENTATIONS & REPORTS:

A. BOND PROGRAM UPDATE

Interim Capital Projects Director Jade Dundas said that the purpose of this update is to provide an overview of the presentation which will be given to City Council on May 23, 2017, related to the efforts of the Capital Projects Department to develop communication tools to help inform the public of the progress of the various Bond and Capital improvement projects.

Communications Expectations - The City is committed to making capital project information accessible to the public. The citizens of Asheville voted to fund the bond program in November of 2016. Good stewardship of these public funds in part means communicating to the public how, when and where funds are being used. The efforts of the projects team have been to use existing software to develop an interactive set of tools so that citizens can easily access current project information.

Communication improvement has both an internal and external focus. The internal work will help to facilitate project development and implementation. The external effort will focus on sharing information. He showcased the external communications tools prior to their implementation.

Dashboards - Staff has developed a set of dashboards which provide relevant and current project information. The dashboards provide a snapshot of project financing, location, phase of development and an overall financial summary for the particular program area. The individual bond program areas include Parks and Recreation, Transportation, and Affordable Housing. Additional work is also being done on developing similar tools for the capital improvement budget. The bond portion of this work is ready for use.

Interactive Map - Staff from multiple departments is also working on developing an interactive "story map" which will allow citizens to find projects based upon location and get a more in depth summary of the projects. Information which will be available on the story maps

include things like project description, project contacts, photos of the projects, as well as financial information related to funding and expenses. An example of this tool was shared with the City Council but noted it is still under development and is planned to be released in July.

Bond Project Updates - Staff will be providing a general update related to the progress of the bond projects with a focus on road resurfacing, playground improvement work, affordable housing. City Council will be asked as part of this update to approve a contract to authorize the City Manager to enter into a contract for design services related for playground improvements.

At the suggestion of Councilman Smith to include the Sports Commission in the programming up front for Memorial Stadium, City Manager Jackson said that for each major community plan, each major stakeholder will be a part of the engagement process.

RESOLUTION NO. 17-103 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CONTRACT WITH SURFACE 678, P.A., TO PROVIDE DESIGN SERVICES FOR ASHEVILLE PARKS PLAYGROUND UPGRADES/RENOVATION PROJECT

Summary: The consideration of a resolution authorizing the City Manager to execute a contract with Surface 678, PA, to provide design services for Asheville Parks Playground Upgrades/ Renovations for an amount not to exceed $190,000.

The primary goal of the project is to address maintenance backlog for playgrounds while building for the future by replacing site components as required because they have reached the end of their service life.

Playground projects have been prioritized focusing on underserved areas of the city addressing the needs of diverse park users through replacement of existing assets in parks to better reflect changing neighborhoods and their long-term recreation requirement.

The following preliminary playground sites within the current scope of work are: Herb Watts Park, Lakewood Park, Magnolia Park, and West Asheville Center. The playgrounds will be designed to reflect their individual neighborhood setting, utilize ideas and trends from some of the best playgrounds in the country, and create unique play experience for all users. Playground upgrades may include playground equipment, rubber fall zone surface, site furniture, plant materials, park shelters, shade structures, associated facilities, open or nature play areas, vehicular and accessible pedestrian circulation systems, among other Park and Recreation park standard elements.

The City of Asheville (City) issued a Request for Qualifications (RFQ) for design services for the Asheville Parks Playground Upgrades/Renovations. In response to the RFQ, the City received seventeen (17) Statements of Qualifications to be considered for this project. After thorough review and evaluation, staff recommended Surface 678, PA, 215 Morris Street; Suite 150, Durham, North Carolina as the most qualified to perform the design services for the Asheville Parks Playground Upgrades/Renovations.

Scope of Work: Surface 678 has presented a scope of work and fee proposal for professional services associated with the Asheville Parks Playground Upgrades/Renovations project and will provide full design services, bidding administration, and contract administration/reporting during construction.

Project Budget: $1,015,000 million n General Obligation (GO) Bond Funding.

Tentative Project Timeline:

Engineering/Design Services	Summer/Fall 2017
Permitting	Winter 2017

Request for Construction Bid	Winter/Spring 2018
Construction Begin	Spring/Summer 2018
Construction Complete	Summer 2019

The action complies with the following adopted City plans: (1) Parks, Recreation, Cultural Arts, and Greenways Master Plan.

Pros:

- Address immediate maintenance needs and critical failures that are otherwise unattached to capital investments
- Focus on underserved areas of the city
- Address the needs of diverse park users through replacement of existing assets in parks to better reflect changing neighborhoods
- Meet the Parks and Recreation goal of increasing accessibility and equity

Con:

- None

Funding for these services are already included in the adopted Capital Improvement Budget through the City's General Obligation (GO) Bond Funding.

Staff recommends City Council adopt the resolution authorizing the City Manager to execute a contract with Surface 678, PA to provide design services for Asheville Parks Playground Upgrades/Renovations for an amount not to exceed $190,000, and further authorizing the execution of any change orders to said contract which may arise during execution of said project.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Vice-Mayor Wisler moved for the adoption of Resolution No. 17-103. This motion was seconded by Councilwoman Mayfield and carried unanimously.

RESOLUTION BOOK NO. 38 - PAGE 4441

B. HAYWOOD STREET TEMPORARY ACTIVATION UPDATE

Downtown Development Specialist Dana Frankel provided Council with the following update on timeline and next steps of implementing short term uses at the subject sites, including pop-up programming at the Haywood Street property.

Background - At City Council's December 12, 2015, meeting, staff was directed to recommend a process to consider the future use and design of city-owned parcels located on Haywood Street and Page Avenue downtown following a long history of potential development opportunities. In March 2016, City Council approved a public visioning process for the properties, contracting with Asheville Design Center to serve as a facilitator for a Council-appointed community advisory team to develop a long-term vision for the properties, while also identifying opportunities for temporary installations to enliven the space in the short term.

The Community Advisory team began meeting in June of 2016, soliciting feedback from the public and taking steps towards developing both a long-term vision as well as recommendations for interim uses. At the October 25, 2016 Council Meeting, the Community Advisory Team presented a list of possible temporary uses and installations for the site. With

direction from City Council to narrow down the list, the Advisory Team returned to City Council's December 13, 2016, meeting and presented the following recommended temporary uses and installations:

1. Raised garden beds
2. Interactive public art
3. Mobile food vending
4. Open vendor markets
5. Movable seating
6. Designated performance space

Following their presentation, City Council directed staff to consider feasibility and recommendations for implementation of the proposed temporary uses.

On March 27, 2017, a memorandum was shared with City Council detailing a proposed implementation and management plan for accommodating the proposed uses. This report is an update on progress.

Overview of Objectives - The primary objective of the pop-up and temporary uses is to activate the subject sites on an interim basis while permanent solutions are being planned and implemented. A secondary goal is to test particular uses and installations in order to learn more about their function, successes and impacts in that location and in the community at large.

The goal is to support flexible use of the sites, including those proposed, with a fair and open approach to site access and programming.

Use of Parcels - The temporary uses proposed by the Community Advisory Team were not site specific. The group and City staff acknowledged together that the lots currently used for parking should remain available for parking considering the needs for both short term and monthly parking.

Without disrupting those areas, sites available for temporary uses are the parcels on Page Avenue (Site A) and on Haywood Street (Site B).

Site A: This property has been included as one of four sites in the City's recently launched community garden program, part of the Asheville Edibles initiative being managed by the Office of Sustainability. A request for applications (including design, management and public art) was released on April 24, 2017. This site may also serve as a demonstration site to help inform other community members on how to build and maintain a successful community garden, including how to build structures to capture rainwater and runoff inexpensively.

Site B: This site can accommodate a range of passive and active temporary uses, including those proposed by the advisory team. Staff proposes a period of one year for pop-up uses that would require minimum site and operational investment, and a two year period following, for continued temporary use, where additional physical and programmatic considerations could be implemented to support success.

In order to prepare the site for pop-up uses, improvements to the space are underway. To expedite the process and minimize costs, the work is being managed in-house. The following is taking place:

- Removal of gravel on portions of the site (to have a flat, wheelchair accessible, maintainable surface)
- Installation of electricity (to provide for operational needs and lighting)
- Installation of trees in planters (recommended for Level I projects)

- Purchasing and installation of seating/tables, trash cans and other key amenities (using recycled and repurposed materials when possible)
- Production of informational signage (to include project information, hours and rules)

The total cost of these site improvements is estimated to be $30,000. Funds have been secured from the City's general fund.

The City's Parks and Recreation Department will oversee maintenance and access to the site during the pop-up use period through the expansion of existing maintenance and security contracts. The estimated cost for those operations is $17,500 for one year. Funding from the City's general fund has been secured. Additional improvements and amenities may be considered and installed on the site throughout the pop-up phase while operational needs will also be evaluated.

Site Activation - Pop-up programming on the site can be accommodated in the following two ways:

1 – Request for Expressions of Interest (Pop-up Programming)

A Request for Expressions of Interest (RFEI) can be released in order to solicit proposals from community groups and/or organizations that are interested in activating the site (in part during set days/times, or in full) for one year.

The following criteria will be considered in evaluating proposals, informed by the selection process for existing outdoor special event partnerships:

- Alignment with City Council's 2036 Vision
- Community benefit
- Compatible with the surrounding neighborhood
- Organizational capacity
- Audience diversity
- Prior history
- City services cost/impact

Programming on the site must comply with the City's minimum requirements for emergency medical services, liability insurance, building safety and fire compliance, law enforcement, environmental health/food sales requirements, restrooms and sanitation, Alcohol Beverage Commission approvals as per the City's outdoor special event guide.

Multiple proposals may be selected and accommodated based on scheduling and compatibility.

Organizations and their proposed programs may be self-funded (through existing capacity, fundraising or sponsorship) or may request financial support from the City, including waived permit and property fees. If financial support, including fee waivers is requested, staff will return to Council for approval.

Staff would release the RFEI by the end of May, with a question and answer session held the second week in June. The proposal period would be open for approximately 3 weeks. Selections will be made by a panel of interdepartmental staff and representatives from the Haywood Street Advisory Team's Temporary Uses Sub-Committee. Once selections are made, staff will work with the identified partners to schedule and permit the programs. The goal is to have the site activated with pop-up uses August 1, 2017. Depending on interest, rolling calls for proposals may continue.

2 – Special Event Programming

In addition to soliciting proposals through the RFEI process, Haywood Street / Site B can be made available for programming by organizations through the City's existing outdoor special event permitting process. This will provide a consistent mechanism for community members and organizations to activate the site when it is not in conflict with already-scheduled uses.

Staff will release an informational sheet specific to the site in July, and will begin accepting applications after initial partners/scheduling has already been secured through the RFEI process. Special event permits may be issued as early as September 2017.

The initial one-year period for pop-up programming will be treated as a test period for information gathering. Additional funds may be requested in fiscal year 2018 to support the success of temporary uses including financial support for programming and/or for physical upgrades to the site.

Concurrent to the projected 3 year period of pop-up and temporary uses, long term design and planning will be underway for the properties.

Timeline – Key Dates

May 2017
- Site improvements initiated
- City Council Update
- RFEI for pop-up programming released
- Level I site plan reviewed

June 2017
- Site improvements continue
- RFEI question and answer session
- Review pop-up programming proposals

July 2017
- Site improvements complete
- Site opens for informal/passive use
- Selections for pop-up programming and development of schedule
- Issuance of necessary permits for pop-up programming
- Applications accepted for independent special events (through existing permitting process)

August 2017
- Pop-up programming begins
- Site remains available for informal/passive use when programs are not scheduled

August 2017 – August 2018
- Pop-up programming continues
- Site remains available for informal/passive use when programs are not scheduled
- Evaluation and adjustment as needed; preparation for next phase of temporary use
- Feedback garnered from community on pop-up programming and independent special event programming
- Next phase of temporary uses determined and planned

September 2017
- Independent special event programming begins (in addition to RFEI pop-up use)

August 2018 – August 2020

- Temporary uses continue while long term planning is underway

Councilman Bothwell questioned the Haywood Street Advisory Team's involvement in the RFEI. He understood Council commissioned them to do the visioning of the area, not the administration, especially since there was not a lot of Council oversight in the appointments. Ms. Frankel explained that they are representatives from around the area and felt they would be a good representative group which will provide Council with a good product. Since seeking input from people in the area is a good idea and ultimately the decision will have to come before Council, it was the consensus of Council to continue with that process.

When Councilman Smith was made aware that groups that chose to do gardens are responsible for their own water tap fees ($4,000), it was the consensus of Council to have the Finance Committee review this.

IV. PUBLIC HEARINGS:

A. PUBLIC HEARING RELATIVE TO ADOPTION OF THE FISCAL YEAR 2017-18 ANNUAL OPERATING BUDGET

Director of Finance and Management Services Barbara Whitehorn said that City Council conducts a public hearing each year to receive public input on the Proposed Annual Operating Budget prior to adoption of the Annual Budget Ordinance. This public hearing was advertised on May 13, 2017.

The 2017-18 Proposed Annual Operating Budget was presented to City Council on May 9, 2017. The Proposed Budget presented on that date was balanced with an Ad Valorem tax rate of $0.435 per $100 of assessed value. Based on updated FY 2017-18 revaluation estimates, the Proposed Budget can be balanced with an Ad Valorem tax rate of $0.4339. All essential City services are continued in the Proposed Budget. A copy of the Proposed Budget is available for public inspection in the City Clerk's office. The Proposed Budget is also available for viewing on the City's website (www.ashevillenc.gov).

In accordance with the North Carolina Local Government Budget and Fiscal Control Act, a summary of the Proposed Budget along with a notice of the Public Hearing was published on May 13, 2017. Adoption of the Fiscal Year 2017-18 Budget Ordinance is scheduled for June 13, 2017, at the regularly scheduled City Council meeting. The Proposed Budget may be changed by City Council in any way before adoption. It may also be changed by budget amendment after adoption, with the only exception being the Ad Valorem Tax rate, which cannot be changed once the Budget is adopted.

Staff recommends City Council conduct the public hearing on the City of Asheville Fiscal Year 2017-18 Proposed Annual Operating Budget and include public input in its consideration of the Budget.

Mayor Manheimer explained that the budget before Council assumes a 39.39-cents (revenue neutral) plus .5-cents (transit) plus 3.5-cents (General Obligation Bonds) for a total of 43.39-cents. She clarified that the budget before Council does include the increase in personnel for the APD but it is from a reallocation of funds from the APD and $137,000 reallocation of funds from all other City departments.

Mayor Manheimer opened the public hearing at 6:21 p.m.

The following individuals were opposed to any increase in police staffing for various reasons, but mainly because they felt the money should be dedicated to long term solutions that make the community stronger:

Nichole Townsend
Patrick Conant
Alan Luis
Chris Peterson
Jay Slaughter
Martha Mosseller
Michael Collins
Elizabeth Schell (presented petition from Downtown business owners)
Alan Olson
Vicki Meath
Hilliary Brown
Maxwell Reed
Amy Cantrell (presented petition entitled "A Million Dollars for the People" and banner from children expressing what they would like the dollars spent on)
Emma Nash
Brit Castaneda
Jake Swett
Casey Campfield
Angel Archer
Dewana Little
Alan Ditmore
Dee Williams
Jay Springer
James Grambrell
Evan Moustafor
Grayson Morris
Matilda Bliss
Jaclyn Mace
Kim Roney
Interpreter

The following individuals spoke in support of providing the resources requested by Police Chief Hooper for various reasons, but basically to be proactive with Asheville's growth and community engagement:

Susan Watts
Brandon McGaha, President of the Police Benevolent Association in this region
Richard Tullis
Rondell Lance, President of the Fraternal Order of Police

Mr. ViJay Kapoor was unable to tell what impact the bonds would have on the City's budget, and felt there be a projected 5-year spreadsheet. He also questioned the City's use of $320,000 to a Colorado consulting firm tasked with studying equity issues in the City. Mayor Manheimer explained that there was a projected spreadsheet discussed during the bond process. In addition, she said that the City must have a study in order to award contracts and there was not a local bid received.

Mr. Sidney Bach questioned where the additional 3.5-cents for the General Obligation Bonds will be going while the City waits to issue the bonds, noting that no bonds can be issued as long as litigation is pending. He stated that he, along with Chris Peterson, is currently involved in litigation with the City over the bonds.

Mayor Manheimer closed the public hearing at 9:06 p.m.

Councilman Bothwell felt that this budget has been transparent and what has made this more difficult is the revaluation. He explained that most of the budget is for the people, including

transit, affordable housing, sidewalks, etc. He felt that Council is working for the people of Asheville.

Councilman Young felt that what he has heard is people wanting to be closer to the decision-making process. He suggested Council think about participatory budgeting.

Councilman Smith said that much is this is deep structural issues that have to be addressed across the county and our community. He outlined the millions of dollars dedicated to the many, many people-oriented services included in the budget, including the increase in the transit system; new buses and bus stops; youth leadership program; money dedicated to affordable housing; sidewalks; etc. However, it is clear that Council is not doing enough, but they are dedicated to work to improve our entire community.

Councilman Haynes does not support the increase in staffing for the Police Department this year. As seen from the petition, there are several downtown businesses that do not support it as well. We are told that some communities are being over-policed. He felt we need to look at better uses of the officers we currently have, including filling the current vacancies.

Mayor Manheimer said that adoption of the Fiscal Year 2017-18 Annual Operating Budget will occur on June 13, 2017.

B. PUBLIC HEARING TO CONSIDER REZONING A PORTION OF A LOT LOCATED ON THE NORTHWEST CORNER OF BROADWAY STREET AND MAGNOLIA AVENUE FROM RS-8 RESIDENTIAL SINGLE-FAMILY MEDIUM DENSITY DISTRICT TO NEIGHBORHOOD CORRIDOR DISTRICT

ORDINANCE NO. 4585 - ORDINANCE TO REZONE A PORTION OF A LOT LOCATED ON THE NORTHWEST CORNER OF BROADWAY STREET AND MAGNOLIA AVENUE FROM RS-8 RESIDENTIAL SINGLE-FAMILY MEDIUM DENSITY DISTRICT TO NEIGHBORHOOD CORRIDOR DISTRICT

Principal Planner said that this is the consideration of an ordinance to rezone a portion of a lot located on the northwest corner of Broadway Street and Magnolia Avenue from RS-8 Residential Single-Family Medium Density to Neighborhood Corridor District. This public hearing was advertised on May 13 and 19, 2017.

Ms. Tuch said that the subject property is approximately .18 acres (7,840 square feet), currently undeveloped but supporting some informal parking. The property has frontage on both Magnolia Ave. and Broadway St. but is most easily accessed from Magnolia Ave.

The property was originally purchased by the current owner, Marketplace Developments LLC, in 2005 as a .12 acre parcel. In 2008, the owner acquired additional unused right-of-way from the state of North Carolina increasing the size of the parcel to the current .18 acres – this purchase included the 675 square feet of RS8 zoned property. In 2002, prior to the current owner's purchase, the City of Asheville rezoned much of the property along the Broadway St. corridor to the newly established NCD zoning district. At that time, the right-of-way was also rezoned to match the existing property lines. The recombining of the right-of-way with the main parcel resulted in the split-zoned condition that exists today.

The applicant has requested the RS8 zoned portion of the property to be rezoned to NCD to be consistent with the remainder of the property.

The purpose of the RS8 zoning district is to allow for higher density single family home development where public infrastructure is sufficient to support such development, and to stabilize and protect the district's residential character. The purpose of the NCD zoning district is to support the development of medium density, mixed-use development that is economically

viable, pedestrian oriented and contributing to the place making character of the built environment. The rezoning is desired, in part, to improve the viability of the NCD property for future development. Future improvements would include a 20' wide Type B landscape buffer adjacent to the residentially zoned portion of the property.

The subject properties are surrounded on three sides by other RS8 zoned property, most of which is undeveloped city owned land reserved for open space and greenways along with NCDOT right-of-way. Across Magnolia Ave. and Broadway St. is more NCD zoned property. This rezoning, if approved, has a negligible impact on surrounding RS8 zoned property.

At their regular meeting on May 3, 2017, the Planning & Zoning Commission voted unanimously in support of the rezoning request. The subject property does not lie within any special review areas or overlay zoning districts and does not require review by any other advisory body. Standard rezoning requests are first reviewed by the Planning & Zoning Commission with final review performed by City Council.

The Asheville City Development Plan 2025 encourages compatible "adaptive reuse, redevelopment and infill development" and states, "areas within the existing urban fabric that are vacant should be targeted for compatible infill development that takes advantage of existing infrastructure". This strategically located parcel would be made slightly more developable with consistent zoning across the parcel and staff feels this rezoning would help brings these properties into alliance with the goals of the Comprehensive Plan.

This action aligns with the 2036 Council Vision in the following area: (1) *A Well-Planned and Livable Community* – the proposed rezoning supports future compatible, pedestrian-oriented development for a strategically located property on a major transportation corridor.

Considerations:

- This rezoning would correct the existing split-zoned condition.
- This rezoning would provide more room for future development, including required landscape buffers.
- The adjacent RS8 zoned property is primarily city owned land and NCDOT right-of-way that will not be negatively impacted by future mixed-use development.

Based on the above findings and the analysis provided in the report, staff finds this request to rezone (the approximate) 675 square foot portion of the property located at 99999 Broadway St. to be appropriate and consistent with the existing neighborhood and broader city goals.

Mayor Manheimer opened the public hearing at 6:15 p.m. and when no one spoke, she closed the public hearing at 6:15 p.m.

Mayor Manheimer said that members of Council have previously received a copy of the ordinance and it would not be read.

Vice-Mayor Wisler moved to approve the rezoning request from RS-8 Residential Single-Family High Density District to Neighborhood Corridor District to assign a zoning designation that is more compatible with the majority of the existing property and find that the request is reasonable, is in the public interest and is consistent with the Comprehensive Plan and other adopted plans in the following ways: the rezoning will, 1) supports smart growth through compatible infill development that takes advantage of existing infrastructure; and, 2) resolves an existing split-zoned condition. This motion was seconded by Councilman Bothwell and carried unanimously.

ORDINANCE BOOK NO. 31 – PAGE 204

V. UNFINISHED BUSINESS:

VI. NEW BUSINESS:

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

Vice-Mayor Wisler said that the Boards & Commissions Committee has met and has determined that there are policing issues in the community that the Citizens-Police Advisory Committee (CPAC) is not charged with addressing. Therefore, they recommend that a Human Relations Commission (HRC) be established to deal with police relationships and some of the broader issues regarding equity and how we address and move forward towards fixing it. Prior to that establishment of the HRC, the Committee also recommends that a Blue Ribbon Committee (BRC) made up of community members that will help formulate the HRC and explore productive approaches, best practices for a HRC in Asheville. Suggested representatives from the following areas will be included on the BRC: Asheville African American history, policy expertise, city hall operations, land use, economic development, housing, arts, law, and a CPAC representative. Also at-large members of the community will be appointed to the BRC. She asked that Council contact individuals that they feel will best meet the qualifications to see if they would be interested in serving for a three-month period. Council members should submit the names of the nominees, if the nominees agree, to the City Clerk's office by June 12, 2017 with a brief reason for the nomination. If interested, nominees would need to contact the City Clerk's Office to fill out an application. Boards and Commissions Committee will review nominations on June 13, 2017 and bring the nominations to City Council for review on June 13, 2017. The application deadline for City Council nominations and at-large appointments will be on Wednesday, July 19, 2017. We hope to have the BRC begin their work on August 1, 2017, and wrap up with a report to Council on November 1, 2017. The size of the BRC is yet to be determined but will be approximately 12-15 members. Staff from the City Manager's Office and the City Attorney's Office will be a resource to the BRC. City Manager Jackson said that they are in the final stages of recruiting for an Equity Inclusion Manager and that person would be a resource for the BRC. All meetings of the BRC will be open and held around the community. It was the consensus of Council to proceed with the establishment of the BRC.

Mr. Todd Stimson asked for Council to adopt a resolution supporting the use of medical cannabis.

Mr. Alan Ditmore felt that due to building permit requirements, the City is perpetuating the housing crisis.

VIII. ADJOURNMENT:

Mayor Manheimer adjourned the meeting at 9:40 p.m.

Magdalen Bowleson
CITY CLERK

Esther Manheimer
MAYOR

Tuesday – June 13, 2017 - 5:00 p.m.

Regular Meeting

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Cecil Bothwell; Councilman Brian D. Haynes; Councilwoman Julie V. Mayfield; Councilman Gordon D. Smith; Councilman W. Keith Young; City Manager Gary W. Jackson; City Attorney Robin T. Currin; and City Clerk Magdalen Burleson

Absent: None

PLEDGE OF ALLEGIANCE

Mayor Manheimer led City Council in the Pledge of Allegiance.

I. PROCLAMATIONS:

A. PROCLAMATION PROCLAIMING JUNE, 2017, AS "BEE CITY USA POLLINATION CELEBRATION MONTH"

Mayor Manheimer read the proclamation proclaiming June, 2017, as "Bee City USA Pollination Celebration Month" in the City of Asheville. She presented the proclamation to Ms. Phyllis Stiles who briefed City Council on some activities taking place during the month.

II. CONSENT AGENDA:

At the request of City staff, Councilman Bothwell moved to continue Consent Agenda Item "O" (Resolution authorizing the City Manager to enter into a lease agreement with Beverly-Grant/ Barnhill to use 314 Riverside Drive as construction job offices during the construction of the TIGER VI projects) until June 27, 2017. This motion was seconded by Councilman Young and carried unanimously.

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON MAY 23, 2017

B. RESOLUTION NO. 17-104 - RESOLUTION SUPPORTING A STATE GOAL OF 100% CLEAN ENERGY BY 2050 AND THE CREATION OF GREEN JOBS

Summary: The City of Asheville endorses the State of North Carolina and the United States to establish a transition from a fossil fuel-based economy and infrastructure to a 100% renewable energy for an all energy sectors-based economy, while increasing protections that keep forests standing, by January 1, 2050 or sooner to avoid climate catastrophe, to promote job creation and economic growth, and to protect the Earth for current and future generations from climate catastrophe.

Councilwoman Mayfield said this resolution was adopted by the Sustainability Advisory Committee on Energy & the Environment (SACEE) prior to the Trump administration pulling out of the Paris Accords. This resolution indicates an on-going commitment from the City to get to clean energy as soon as we can. She said that SACEE will start looking at the City's carbon reduction goal, which is currently 80% carbon reduction by 2030, and Council might hear a proposal from them for the City to set a new goal.

RESOLUTION BOOK NO. 38 - PAGE 442

C. ORDINANCE NO. 4586 - ORDINANCE AMENDING THE FIRST PAGE OF ORDINANCE NO. 4379, AN ORDINANCE ESTABLISHING CONDITIONAL

ZONING FOR PROPERTY LOCATED AT 99999 FAIRVIEW ROAD, TO REFLECT A CONDITION THAT WAS AGREED UPON BY THE APPLICANT AND CITY COUNCIL TO DEDICATE 7% OF THE UNITS AT AN AFFORDABLE RENT FOR A PERIOD OF TEN YEARS

ORDINANCE NO. 38 - PAGE 208

D. RESOLUTION NO. 17-1-5 - RESOLUTION AUTHORIZING THE MAYOR TO EXECUTE A FEDERAL AVIATION ADMINISTRATION GRANT AGREEMENT FOR PROJECT NO. 3-37-0005-049-2017

Summary: The consideration of a resolution authorizing the execution by the Mayor of a Federal Aviation Administration (FAA) Grant Agreement for Project No. 3-37-0005-049-2017 in the amount of $18,200,000.

The FAA has offered a grant agreement to the Asheville Regional Airport. This grant, in an amount of $18,200,000 is for the Airport Project to Rehabilitate Runway (Phase 7 Paving, Lighting and NAVAIDs Installation, Permanent Runway 17/35).

Pro:

- Supports service enhancements at Airport

Con:

- None noted

Staff recommends adoption of the resolution authorizing the Mayor to execute the grant agreement for Project No. 3-37-0005-049-2017.

RESOLUTION BOOK NO. 38 - PAGE 445

E. RESOLUTION NO. 17-106 - RESOLUTION NAMING FIRE STATION 9 IN MEMORY OF CITY OF ASHEVILLE FIREFIGHTER GRADY WILSON SR.

Summary: The consideration of naming Fire Station 9 in memory of City of Asheville Firefighter Grady Wilson, Sr.

City of Asheville Firefighter Grady Dock Wilson Sr. tragically lost his life on June 28th, 1948, while on duty at the original Fire Station 3. The Asheville Fire Department requests that Firefighter Wilson be honored by naming City of Asheville Fire Station 9 after Grady Dock Wilson Sr. Firefighter Wilson's family has requested that Fire Station 9 be named in his memory.

This was reviewed by the Public Safety Committee on May 22nd, 2017, and was unanimously recommended to move forward to the City Council.

Pro:

- Having a City of Asheville owned facility that has been named to honor a public servant who has died in the line of duty is an ultimate recognition of their public service and sacrifice.

Con:

- None have been identified or known at this time.

The purchase of a plaque commemorating the naming would be the associated expense to this consideration.

Staff recommends that the Asheville City Council name Fire Station 9 located after 749 Fairview Road in memory of Grady Wilson, Sr.

RESOLUTION BOOK NO. 38 - PAGE 446

F. RESOLUTION NO. 17-107 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A PROFESSIONAL ENGINEERING SERVICES SUPPLEMENTAL AGREEMENT WITH BROWN AND CALDWELL FOR THE SUPERVISORY CONTROL AND DATA ACQUISITION (SCADA)/SOFTWARE UPGRADES FOR THE WATER TREATMENT PLANTS

Summary: The consideration of a resolution authorizing the City Manager to execute a professional engineering services supplemental agreement with Brown and Caldwell for the Supervisory Control And Data Acquisition (SCADA)/Software Updates for the Water Treatment Plants for the not-to-exceed amount of $140,946.

All Water Resources Department Water Treatment Plants have a SCADA computer system that monitors and controls infrastructure and facility-based processes at the water treatment plants and pump stations. This upgrade would consist of hardware and software upgrades. The last system upgrade was performed in 2008.

All hardware and software upgrades will include all components required to complete the project scope of work. Hardware upgrades include: new servers, UPS, server racks, power distribution, network switches, and cabling. Software upgrades include upgrades to the iFix software keys, Historian, and reporting software. The Water Resources Department has worked with the City's Information Technology Services Department to identify all required hardware and software needed for the upgrade.

Through a Request for Qualifications (RFQ) process for engineering services, the City of Asheville selected three engineering firms to provide on-call professional services for Water Treatment Plant Projects. Brown and Caldwell was one of the selected firms and the City of Asheville executed a Master Agreement with them on June 10, 2015, for On-Call Professional Services for Water Treatment Plant Projects. If approved, the proposed engineering services described herein will be developed into a Supplemental Agreement under the terms and conditions of the executed Master Agreement.

Pros:

- All machines that currently run the SCADA software are operating on Windows XP, which is no longer supported by Microsoft. This upgrade will provide a critically needed upgrade to the SCADA system.
- These improvements will enhance performance and reliability of the water system. The WRD relies heavily on the SCADA system to be able to respond quickly to various issues throughout the water system. The upgrade will help address issues quickly that otherwise could be catastrophic to the general public.

Con:

- Not replacing these machines could cause a potential threat to the system security and is mandated by our ITS policy to be replaced.

The funding needed for this agreement will be funded from the Water Resources Department Software Updates/HMI Capital Improvement Project.

Software Updates/HMI Project Budget	$200,000
Amount Needed for Brown and Caldwell Supplemental Agreement	$140,946
Amount Remaining in Project Budget	$ 59,054

The remaining budget in the Software Updates/HMI Capital Improvements Project will be used to purchase the software needed to complete the upgrades.

Staff recommends City Council adopt a resolution authorizing the City Manager to execute a professional engineering services supplemental agreement with Brown and Caldwell for the SCADA / Software Updates for the Water Treatment Plants for the not-to-exceed amount of $140,946.

RESOLUTION BOOK NO. 38 - PAGE 447

G. RESOLUTION NO. 17-108 - RESOLUTION AUTHORIZING THE HYDROPLUS INC., FUSEGATE SYSTEM AS A PREFERRED BRAND ITEM FOR THE NORTH FORK SPILLWAY AND EMBANKMENT IMPROVEMENTS PROJECT

Summary: The consideration of a resolution to: (1) Approve the written justification for the use of the Hydroplus, Inc., Fusegate System as the preferred brand item for the North Fork Spillway and Embankment Improvements Project; (2) Approve the specifications and performance standards for the Hydroplus, Inc., Fusegate System; and (3) Add the Hydroplus, Inc., Fusegate System as an independent line item in the "Unit Price Work" Bid Form when the construction portion of the Project is bid.

The Water Resources Department's North Fork Spillway and Embankment Improvements Project ("Project") will soon be ready to bid. The Project is estimated at approximately $40 million and will include: (1) raising the dam by four feet; (2) improvements to the principal spillway and the addition of an auxiliary spillway; (3) modifications to the raw water piping through the dam and to the water treatment plant; and (4) earth buttressing to reinforce the main dam and saddle dam for seismic stability. Once completed, the dam will be able to better withstand inflow from severe storm events, as well as add capacity to the reservoir.

NCGS 133-3 allows the City to specify a preferred brand item based on performance standards if the preferred item will provide cost savings, maintain or improve the functioning of any process or system affected by the preferred item, or both and a justification identifying these criteria is made available in writing to the public.

Exhibit "A" is a Memorandum from the project engineers, Schnabel Engineering South, P.C., and Hydroplus, Inc., Fusegate System specifications containing performance standards for approval. These items are being presented and requested for approval in order to meet the requirements of NCGS 133-3

As outlined in Exhibit "A", the Hydroplus, Inc., Fusegate System is the only system of its kind in the world. For example, the Fusegates provide a release of the gate with no human intervention or power requirements to activate. This is especially important during a storm when other systems require mechanical operation during a storm event, i.e., with other systems if the operator is unable to get to the site due to the storm or if power is out, the gates cannot be activated.

Pros:

- The Hydroplus Fusegate System is the only one of its kind in the world that functions in its manner to release without mechanical, electrical, or human involvement. It releases at predetermined water elevations.
- The Hydroplus Fusegates are beneficial to the environment by being independent and non-polluting, requiring no energy other than the natural power of water.
- The Hydroplus Fusegates make it possible to delay the need to build new structures, thereby reducing the social and environmental impact relating to the flooding of new land.

- The system allows for a smaller footprint than conventional passive systems, thereby reducing environmental impact, construction duration, and costs.
- This Project is aligned with the City and the WRD goal of continued investment and improvement of the City's water system through Capital Improvement Projects, in order to provide safe and reliable service.

Con:

- Failure to authorize the WRD to use the Hydroplus Fusegate System will result in additional costs to develop an entirely new and different design for the new spillway to accommodate an inferior gate system. This also would delay construction and implementing this system which would increase the risk of flooding, loss of life, and damage downstream until a new design could be made.

There is no fiscal impact to this action. The Hydroplus Fusegate System will be added as an independent bid item to the total construction cost of the entire Project.

Staff recommends City Council adopt a resolution authorizing: (1) Approval of the written justification for the use of the Hydroplus, Inc., Fusegate System as the preferred brand item for the North Fork Spillway and Embankment Improvements Project; (2) Approval of the specifications and performance standards for the Hydroplus, Inc., Fusegate System; and (3) The addition of the Hydroplus, Inc., Fusegate System as an independent line item in the "Unit Price Work" Bid Form when the construction portion of the Project is bid.

RESOLUTION BOOK NO. 38 - PAGE 448

H. RESOLUTION NO. 17-109 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CONTRACT AMENDMENT WITH SITE DESIGN STUDIO, PLLC, FOR THE MONTFORD COMPLEX PHASE I PROJECT

Summary: The consideration of a resolution authorizing the City Manager to execute a contract amendment with Site Design Studio, PLLC, to increase the existing contract in the amount of $64,000 for a total budget of $124,000 for the project known as Montford Complex Phase 1.

The Parks and Recreation Department awarded the design services contract to Site Design Studio, PLLC of Weaverville, NC for the first phase of renovations to the Montford Complex through a Qualifications Based Selection process. Under the existing contract the consultants are to prepare design/engineering plans and cost estimates for the project. Phase 1 site development was defined in the facility site plan (2015), and includes: the construction of an expanded parking lot, entrance plaza, playground, trellis covered seating area, outdoor classroom, landscape improvements including edible plantings, and an accessible route to serve future sport courts and additional parking.

With the approval of the Parks and Recreation bond full project funding is now available. In order to complete the project, permitting, bidding, and construction administration services are now required. Direct oversight and management by the designer/engineer of record is encouraged to provide continuity and compliance with construction drawings by the contractor through construction. This contract amendment will authorize staff to enter into an agreement with the project designer to provide construction services.

Site Design Studio, PLLC has presented a scope of work and fee proposal for additional professional services associated with the Montford Complex Phase 1 project and will provide full design services, bidding administration, and contract administration/reporting during construction. The project budget is $1,700,000 million in General Obligation (GO) Bond Funding.

Tentative Project Timeline:

Engineering/Design Services	Summer/Fall 2017
Permitting	Winter 2017
Request for Construction Bid	Winter/Spring 2018
Construction Begin	Summer 2018
Construction Complete	Winter 2018

Pros:

- Address immediate maintenance needs and critical failures that are otherwise unattached to capital investments
- Focus on underserved areas of the city
- Address the needs of diverse park users through replacement of existing assets in parks to better reflect changing neighborhoods
- Meet the Parks and Recreation goal of increasing accessibility and equity

Con:

- None

Funding for these additional services is already included in the adopted Capital Improvement Budget through the City's General Obligation (GO) Bond Funding. City Council is being asked to authorize this contract because as an amendment to the original contract the total cost of the contract exceeds the City Manager's approval authority of $90,000.

Staff recommends City Council adopt the resolution authorizing the City Manager to execute a contract amendment with Site Design Studio, PLLC, to increase the existing contract in the amount of $64,000 for a total project budget of $124,000 for the project known as Montford Complex Phase 1 and further authorizing the execution of any change orders to said contract which may arise during execution of said project.

RESOLUTION BOOK NO. 38 - PAGE 506

I. ORDINANCE NO. 4587 - BUDGET AMENDMENT FROM THE FEDERAL EMERGENCY MANAGEMENT ASSOCIATION'S FIRE MANAGEMENT ASSISTANCE GRANT FOR THE PARTY ROCK FIRE REIMBURSEMENT

Summary: The consideration of a budget amendment in the General Fund in the amount of $23,354 awarded from the Federal Emergency Management Association's Fire Management Assistance grant.

In November 2016, the City of Asheville Fire Department committed staff and apparatus to support Buncombe County Fire Service at the Party Rock fire near Chimney Rock. The around-the-clock effort of crews protecting structures and maintaining the fire line around the fire boundary accumulated a total cost of $23,354 in staff and equipment. On April 11, 2017 City Council voted on a resolution authorizing the City Manager to apply for and accept funding from the Federal Emergency Management Association's Fire Management Assistance grant to cover the costs associated with this mutual aid response. The fiscal impact statement of the staff report presented on April 11th indicated a return to Council to appropriate the exact amount of the award. Because the costs associated with the wildfire were realized in Fiscal Year 2016 – 2017, best practice is to allocate the funds received from the grant in the same fiscal year.

Pro:

- Reduction of overtime impact on Asheville Fire Department's overtime budget.

Con:

- None identified.

Upon City Council approval, a budget amendment will be made in the current fiscal year to accept this reimbursement and reduce the overtime impact to the Asheville Fire Department.

Staff recommends City Council approve a budget amendment for the General Fund in the amount of $23,354 from the reimbursement monies awarded by the Federal Emergency Management Association's Fire Management Assistance grant to reimburse the City for covering the costs associated with the mutual aid response for the Party Rock wildfire.

ORDINANCE BOOK NO. 31 - PAGE 226

J. RESOLUTION NO. 17-110 - RESOLUTION SETTING A PUBLIC HEARING ON JUNE 27, 2017, FOR AN ECONOMIC DEVELOPMENT INCENTIVE GRANT FOR RIVERBEND MALT HOUSE

Summary: The consideration of a resolution authorizing a public hearing to be held on June 27, 2017, to consider an economic development incentive grant for Riverbend Malt House.

City of Asheville has been requested by Asheville-Buncombe EDC for consideration of a performance based incentive grant under the City Economic Development policy to an existing manufacturing company, Riverbend Malt House. The purpose of the City's participation would be to induce Riverbend Malt House to make investments in the City for expenditures to acquire and install machinery/equipment, make facility improvements which increase the tax value as determined by the Buncombe County Tax Department in the amount of $9,500,000, and create 22 new quality jobs. The City of Asheville is considering offering a performance based grant in an amount not to exceed $95,000. North Carolina state law requires a public hearing be held before an incentive grant can be officially awarded.

Pros:

- Performance driven grant that is distributed after job and investment is achieved or mutually agreed performance bench marks are established;
- Supports job creation and capital investment in Asheville;
- Supports regional and state cooperation in the project.

Con:

- Grant is formulated based on use of a portion of the new incremental increase from property tax revenue generated by the project for a 5 year period.

The project has an overall positive fiscal impact on tax revenues received by the city. Initially (during the grant period), the City will receive 50% of the new incremental property tax revenues, as well as the existing property tax revenues from the project. After the grant period of 5 years, the City will henceforth receive 100% capture of all city taxes.

City staff recommends Council approve a resolution authorizing a public hearing to be held on June 27, 2017, on an economic development incentive grant agreement to support Riverbend Malt House.

RESOLUTION BOOK NO. 38 - PAGE 507

K. MOTION SETTING A PUBLIC HEARING ON JUNE 27, 2017, TO CONSIDER CHANGING THE NAME OF HILLCREST DRIVE TO LUNA LANE

Summary: The consideration of a motion setting a public hearing on June 27, 2017 for City Council to consider renaming Hillcrest Drive to "Luna Lane."

The duplication of street names has the potential for misdirection or miscommunication, which can hinder the response of emergency services. Changes to existing public street names shall be approved through a resolution of the City Council following a public hearing advertised with state open meeting laws. Notice to be posted prominently on each end of the street. Notice published at least once in a newspaper. Notice mailed to all property owners adjoining the right-of-way.

The Public Safety Committee reviewed the renaming request at their April 24, 2017, meeting and recommended Hillcrest Drive be renamed if the majority of the property owners could agree on a new street name. A super majority of the property owners have agreed and petitioned the City of Asheville to rename the street to "Luna Lane."

Pro:

- Potential emergency response will be enhanced with a unique street name.

Con:

- Cost and labor of replacing two street name signs.

The cost to re-install new street name sign blades to the existing poles are about $100 each and is included in the current operating budget for the Transportation Department.

Staff recommends City Council adopt a motion authorizing the City Manager to set a public hearing on June 27, 2017, to consider renaming Hillcrest Drive to "Luna Lane."

L. RESOLUTION NO. 17-111 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CONTRACT WITH APPALACHIAN PAVING AND CONCRETE INC. FOR CONCRETE MAINTENANCE AND AMERICANS WITH DISABILITIES ACT IMPROVEMENTS FISCAL YEAR 2018 PROJECT

Summary: The consideration of a resolution authorizing the City Manager to execute a contract in the amount of $222,255 plus a contingency of $33,338.25 (15%) for a total of $255,593.25 with Appalachian Paving and Concrete, Inc. for the project known as Concrete Maintenance and ADA Improvements FY18.

Review: This contract is our annual Concrete Maintenance Contract. The project was advertised on May 1, 2017, and bids were opened on May 24, 2017, with the following results:

Appalachian Paving and Concrete, Swannanoa, NC	$222,255.00
Patton Construction Group, Arden, NC	$226,150.00
Graham County Land Company, Robbinsville, NC	$256,881.00

A list of the proposed project sites to be completed under the maintenance contract were provided. This list is subject to change pending unforeseen ADA or maintenance issues.

Pros:

- Will correct a number of sidewalk issues throughout the City.
- Addresses pedestrian safety by providing the required sidewalk maintenance.

Con:

- Project management and contract administration will consume staff time.

Funding for this contract is included in the Fiscal Year 2017-2018 that City Council is scheduled to adopt at this same meeting. This funding is our annual pay-as-you-go sidewalk maintenance program and is not bond or debt funded.

City staff recommends City Council adopt a resolution awarding the contract to Appalachian Paving and Concrete Inc. and authorizing the City Manager to execute a contract in

the amount of $222,255.00 plus a contingency of $33,338.25 (15%) for Concrete Maintenance and ADA Improvements for FY 18.

RESOLUTION BOOK NO. 38 - PAGE 508

M. MOTION SETTING A PUBLIC HEARING ON JUNE 27, 2017, TO CONSIDER CHANGING THE SPELLING OF KITCHEN PLACE TO KITCHIN PLACE

Summary: The consideration of a motion setting a public hearing on June 27, 2017 for City Council to consider renaming Kitchen Place with the spelling of "Kitchin Place."

Many of the property owners and businesses have spelled the name after the family name "Kitchin." The City's E911 database, the City's currently displayed street name signs. The property owners brought the street name spelling to staff's attention and petitioned the City to rename the street to "Kitchin Place." The street is currently a City maintained street. Changes to existing public street names shall be approved through a resolution of the City Council following a public hearing advertised with state open meeting laws. Notice to be posted prominently on each end of the street. Notice published at least once in a newspaper. Notice mailed to all property owners adjoining the right-of-way.

The Public Safety Committee reviewed the renaming request at their April 24, 2017, meeting and recommended Kitchen Place be renamed with the spelling of "Kitchin Place."

Pro:

- Potential emergency response will be enhanced with a consistent street spelling.

Con:

- Cost and labor of replacing two street name signs.

The cost to re-install new street name sign blades to the existing poles are about $100 each and is included in the current operating budget for the Transportation Department.

Staff recommends City Council adopt a motion authorizing the City Manager to set a public hearing on June 27, 2017, to consider renaming Kitchen Place with the spelling of "Kitchin Place."

N. RESOLUTION NO. 17-112 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONSTRUCTION CONTRACT WITH GRAHAM COUNTY LAND COMPANY, LLC, FOR RENOVATION OF THE VELODROME AT CARRIER PARK

Summary: The consideration of a resolution authorizing the City Manager to enter into a construction contract for renovation of the velodrome at Carrier Park, with Graham County Land Company, LLC in the amount of $1,199,000 plus a contingency of $119,900 for a total of $1,318,900.

Carrier Park is home to the velodrome, a track used for racing and recreational cycling, as well as general park use for running, walking, and special events. It has been determined the existing track has met or exceeded its useful life resulting in continual maintenance needs and conditions that constitute safety concerns. The primary goal of the project is to address maintenance backlog for the track while building for the future by replacing site components as required because they have reached the end of their service life.

The project is designed to improve the track surface, site drainage, and earthwork that reflects the park setting. Project improvements include new pavement, storm water drainage, fencing, signage, and general site renovations.

The tentative project timeline is June 2017 - Fall 2017.

In support of this capital improvement project, the City issued an Advertisement for Bids for construction. As of the bid opening date on May 9, 2017, the City did not receive a minimum of three bids as required by the City's purchasing policy. The City re-advertised the project and received two bids on the bid opening date on May 17, 2017. One bid was determined non-responsive, making Graham County Land Company, LLC located in Robbinsville, North Carolina as the lowest, responsive, responsible bidder with a base bid of $1,199,000.00.

Pros:

- Improves the safety of the Carrier Park velodrome for park users by replacing the asphalt track, providing signage, and fencing.
- Improvements will occur during the summer which is an optimum time of the year to install the asphalt pavement as opposed to cooler seasons.

Con:

- The Carrier Park velodrome and portions of the in-field will be partially closed during renovations since the majority of work is scheduled to take place during the summer. Any closure will be advertised and coordinated with general park users, Parks and Recreation programming and Outdoor Special Events Coordinator.

The original adopted CIP budget for this project was $527,000. Additional funding to cover the full cost of the contract is included in the FY 2017-18 Capital Improvement Program utilizing approved cash flow and funding from the FY 2016-17 Parks and Recreation Department annual CIP allocation.

Staff recommends City Council to adopt a resolution authorizing the City Manager to enter into a construction contract for renovation of the Velodrome at Carrier Park, with Graham County Land Company, LLC in the amount of $1,199,000 plus a contingency of $119,900 for a total of $1,318,900, and to execute any change orders to contract or documents which may arise during construction of project within the approved budget.

RESOLUTION BOOK NO. 38 - PAGE 509

O. RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A LEASE AGREEMENT WITH BEVERLY-GRANT/BARNHILL TO USE FOR 314 RIVERSIDE DRIVE AS CONSTRUCTION JOB OFFICES DURING THE CONSTRUCTION OF TIGER VI PROJECTS

At the request of City staff, Councilman Bothwell moved to continue this resolution until June 27, 2017. This motion was seconded by Councilman Young and carried unanimously.

P. ORDINANCE NO. 4588 - BUDGET AMENDMENT FROM DUKE WATER RESOURCE FUND FOR RIPARIAN RESTORATION PLAN FOR THE RIVER ARTS DISTRICT TRANSPORTATION IMPROVEMENT PROJECT AREA

Summary: The consideration of a budget amendment in the City's Special Revenue fund in the amount of $60,000 from the Duke Water Resources Fund for the City to engage the community and create a riparian area landscaping plan for the RADTIP project area in the River Arts District.

On December 15, 2016, City staff received an invitation from the Duke Energy Water Resources Fund -managed by the North Carolina Community Foundation- to apply for the 2017 funding cycle. Council approved a consideration to apply for the grant on January 10, 2017. The City submitted a request to the fund on January 20, 2017 for up to $90,000 to help fund storm water improvements and to create a riparian landscaping plan for the RADTIP area. Because of

construction plan changes that did not align with the request for storm water funds, City staff amended the request to a reduced amount-$60,000- for the riparian plan only. The funds would be used to hire a firm to develop a Restorative Landscape Plan for the River Arts District Transportation Project (RADTIP) area. The plan's purpose would be to increase riparian sustainability and create a riverfront landscape environment (wildlife habitat, erosion and storm water management, shade for citizens, urban garden opportunities) that builds on what is currently planned under the RADTIP project. This new plan would acknowledge that while the RADTIP and other City plans call for two major storm water management devices, a pollinator garden, and required street trees and landscaping, that there are opportunities to use additional landscaping planning to strategically addressing water quality, tree canopy, and other environmental issues in this area- aka green infrastructure planning. The proposed scope of work would include an inventory of existing trees and vegetation, an analysis of the current plans including tree removal and new landscape designs to be installed via RADTIP street designs, boat ramp designs, and parking lot designs; and an area wide landscaping plan that focuses on how to deliver the plan via community partnerships. RiverLink, Asheville Greenworks and Boy Scouts of America Daniel Boone Council, and the Asheville Tree Commission have agreed to help steer the project.

The Riverfront Commission adopted the following recommendations to Council for 2016, as part of the publication of their 2015 Annual Report: (1) Recommendation 3: Focus on water quality. This will require coordination with local governments, the state of North Carolina, and not for profits like RiverLink and Greenworks; and (2) Recommendation 4: Continue and Improve on Flood mitigation and flood hazard mitigation strategies.

Staff presented this proposal to the Planning and Economic Development Committee of City Council on September 20, 2016. While no official vote was called, members expressed support for staff to submit a Letter of Intent, and were told that any decision to apply for the grant would come to the full Council for consideration.

Council adopted a resolution to authorize the City Manager to apply for, and if awarded, accept grant funds up to $90,000 on January 10, 2017.

The work proposed via this grant is in alignment with the Wilma Dykeman RiverWay Master Plan, the Sustainability Management Plan, the 2025 plan (Comprehensive Plan), and the implementation of the site plan for RADTIP.

Pro:

- Helps further Council and Community goals via partnerships

Con:

- Requires City staff management/use of human resources (opportunity cost).

No additional City funds are required to match this grant. If adopted, the proposed budget amendment would create a positive impact to the City's budget in the amount of $60,000.

Staff recommends City Council adopt a budget amendment in the City's Special Revenue Fund in the amount of $60,000 from the Duke Water Resources Fund for the City to engage the community and create a riparian area landscaping plan for the RADTIP project area in the River Arts District.

ORDINANCE BOOK NO. 31 - PAGE 228

Q. RESOLUTION NO. 17-113 - RESOLUTION SETTING A PUBLIC HEARING ON JUNE 27, 2017, TO CONSIDER THE VOLUNTARY ANNEXATION OF PROPERTY AT 421 AIRPORT ROAD

Summary: The consideration of a resolution fixing the date of a public hearing on June 27, 2017, for the voluntary annexation of property located at 421 Airport Road in south Asheville.

The property owner, MPG Kernersville LLC, has petitioned the City of Asheville for the annexation of 1.26 acres located at 421 Airport Rd. and identified in the Buncombe County tax records as PIN 9643-85-0724. The property is contiguous to the primary corporate limits of the City of Asheville and is subject to the standards for annexation of contiguous areas contained in North Carolina General Statutes (NCGS) 160A-31.

Pursuant to NCGS 160A-31, such petitions must be investigated by the City Clerk for sufficiency in accordance with state law. This investigation has been completed and the Certificate of Sufficiency accompanies this petition request.

The next step in this process is for the Asheville City Council to fix the date for the public hearing on this matter. Should the City Council decide to proceed with this request, the effective date for the annexation would be June 27, 2017.

Considerations:

- Provides for the orderly growth of the City and the tax base through the acceptance of appropriate areas into the corporate limits where owners desire annexation.
- Complies with the 2025 Comprehensive Plan in that it supports the strategy of promoting voluntary annexations of developing areas.

This request includes the voluntary annexation of 1.26 acres of commercial property into the City which will provide new property tax revenue with only a very small increase to services. There is a commercial restaurant project under construction which, at completion, would generate approximately $6,000-7,000 in city property tax based on comparable commercial properties in the city.

City staff recommends that City Council adopt the resolution setting the date of June 27, 2017, for a public hearing on the annexation petition.

RESOLUTION BOOK NO. 38 - PAGE 510

R. RESOLUTION NO. 17-114 - RESOLUTION AUTHORIZING THE CITY MANAGER TO APPLY FOR THE 2017 FEDERAL TRANSIT ADMINISTRATION'S LOW OR NO EMISSION VEHICLE PROGRAM IN ORDER TO PURCHASE BATTERY-POWERED BUSES AND THE RELATED CHARGING EQUIPMENT

Summary: The consideration of a resolution authorizing the City Manager to apply for the 2017 Federal Transit Administration's (FTA) Low or No Emission Vehicle Program in order to purchase battery-powered buses and the related charging equipment.

The FTA has opened a competitive opportunity for $55 million for the purchase or lease of low or no emission vehicles. The FTA will reimburse up to 85 percent of the cost of the vehicles and up to 90 percent of the cost of the equipment or facilities. Transportation Department staff proposes to collaborate with Proterra to apply for this application, which according to the grant is deemed to satisfy the requirement for a competitive procurement under 49 U.S.C. 5325(a). In 2016, transit agencies who partnered with Proterra for the Low or No Emission Vehicle Program received more than two thirds of the awarded grants.

The deadline for the application is June 26, 2017, and it requires City Council approval.

Staff is pursuing the following project:

- The purchase of six battery-powered buses and charging equipment for a total cost of $3,149,000. Federal portion would total $2,491,000.
- The local match will come from two sources: 1) the General Fund Capital Improvement Program (CIP) funding for bus fleet replacement ($558,000) and 2) the Office of Sustainability will be contributing $100,000 from Green Savings. Total local contribution is $658,000, a 21% match. Although the minimum required match is only 15%, we are overmatching in order to have a better chance of being awarded funding for this highly competitive national grant.

If received, these funds would help to bring ART's bus fleet into a state of good repair, which is necessary because by 2019 six buses will have met or surpassed their useful life. In addition, this grant opportunity will function as a catalyst to begin the conversion of Asheville's bus fleet toward a zero emission fleet within 8-10 years, significantly reducing the carbon footprint of the city's transportation system.

The Finance Committee reviewed this item on May 23, 2017, and recommended that it move forward to City Council for review and approval.

Pros:

- If funded ART will receive six electric buses for the approximate cost of six diesel buses, when considering all costs over the useful life of the buses
- Decreases maintenance costs
- Decreases dependence on liquid fossil fuels by about 10,000 gallons per bus per year (60,000 gallons of diesel per year for six buses)
- Contributes to the city's carbon reduction goal by decreasing carbon output approximately 40 metric tons per bus per year (240 metric tons for six buses)
- Reduces energy consumption by 60% because electric motors are so much more efficient than combustion engines
- Reduces harmful local emissions by over 1,000 pounds per bus per year (6,000 pounds per year for six buses)
- By partnering with a pre-approved partner successful applications will be deemed to satisfy the requirement for a competitive procurement

Cons:

- Commits the city to funding to the match, at least for the time the applications are pending
- Commits the city to funding a yearly operating lease for the batteries

If successful, the grant application will be supported with $658,000 in city funds ($558,000 from the General Fund CIP and $100,000 from the Office of Sustainability's Green Savings). The cost of the yearly operating lease for the batteries will be funded within the annual Transit Operating Budget.

Staff recommends that City Council approve a resolution authorizing the City Manager to apply for the 2017 Federal Transit Administration's Low or No Emission Vehicle Program in order to purchase battery-powered buses and the related charging equipment.

RESOLUTION BOOK NO. 38 - PAGE 513

Mayor Manheimer asked for public comments on any item on the Consent Agenda, but received none.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Vice-Mayor Wisler moved for the adoption of the Consent Agenda. This motion was seconded by Councilman Young and carried unanimously.

III. PRESENTATIONS & REPORTS:

A. HOMESTAY PERMITTING UPDATE

Site Planning & Development Division Manager Chris Collins, said that staff has been charged with providing quarterly updates of Homestay permit activity and Short Term Rental enforcement. The data in this report spans a time frame from November 2015 through May 26, 2017.

Rental of a property within the City of Asheville for a duration of less than 30 days is considered "Short-term". Rental of an entire home/apartment on a short-term basis is not allowed in residential districts and some commercial districts. Rental of private rooms within a dwelling on a short-term basis is allowed with a valid *Homestay permit* from the City.

November 2015, due to strong demand for homestay lodging, City Council passed a text amendment to Section 7-16-1(c)(9) to modify the requirements for a *Homestay.* The Development Services Department (DSD) began receiving applications for *Homestay permits* under the new provisions on November 18, 2015.

July 2016, Council allocated additional resources and staff to DSD to facilitate the permitting of Homestays and enforcement of illegal short-term rentals.

November 2016, the City engaged a third party contractor (Host Compliance) to assist with locating short-term rental violations throughout the City. The Address Identification service provides a monthly report with complete address information and screenshots of all identifiable short-term rentals in our jurisdiction.

Update on Homestay Permit Activity: According to data compiled by Host Compliance, there are approximately 331 listings advertising partial home rentals for properties located within the City of Asheville. Partial home rental activity is that which is most likely to be eligible for the issuance of a Homestay permit. It can be concluded from the permit data that a large percentage of eligible properties identified by Host Compliance are now operating with a legally issued homestay permit.

Time Period	Permits Issued
Nov 2015- Oct 2016; 12 month span	102
Nov 2016- May 2017; 7 month span	247
Total Active Homestay Permits (All Time Spans)	326

Update on Enforcement Activity: As directed, Development Services staff has increased proactive (staff initiated) enforcement of short-term rental violations. From November 2015 to November 2016, staff issued an average of 10 notices of violation for short-term rentals per month. From November 2016 to May 2017, City staff has issued an average of 72 notices of violation for short term rentals. From November 2015 to the date of this report, the City has sent a total of 536 notices of violation. Of the total noticed violations, only 13.7% originate through citizen complaints. 86.3% of the violations noticed by the city have been proactively originated by city staff with the assistance of the third party.

Time Period	Average Violations Noticed, Monthly
Nov 2015- Oct 2016; 12 month span	10

Nov 2016- May 2017; 7 month span	72
Percentage Increase, Proactive Enforcement	**720%**

The majority of the cases opened are resolved through the correction of the violation or issuance of a homestay permit where applicable. The table below highlights the most noteworthy resolutions:

Resolution of Case	**Percentage of Cases**
Homestay Permit Issued	20%
Violation Corrected, Case Closed (change of use in an allowed zoning district, change to 30 day minimum rental, etc)	43%
Invalid Complaint	7%

Staff Concerns: Through the administration of the revised Homestay permitting and proactive enforcement programs, staff has encountered many different scenarios that have informed the following areas of concern:

- Possible false representation of residency, web postings, and leases;
- Property owners seeking to operate homestays from detached structures;
- Accurate identification of livable space and unit separation; and
- Continuing media, recognition of the value of the short-term rental market in Asheville.

Next Steps: Staff will continue to work with the Host Compliance software service while diligently verifying supplied data to identify properties that are possibly in violation and those which may have the opportunity to gain compliance through Homestay permitting or other means. However, the number of new and unique violations identified by the Address Identification Service is decreasing. As such, the number of violations issued is expected to decrease in the future.

Mr. Collins responded to various questions/comments from Council, noting that the permit fees do not cover the enforcement costs.

IV. PUBLIC HEARINGS:

A. PUBLIC HEARING TO CONSIDER AN AMENDMENT TO THE UNIFIED DEVELOPMENT ORDINANCE ESTABLISHING REQUIREMENTS FOR UTILITY SUBSTATIONS

Mayor Manheimer briefly updated the Council on the Duke utility substation locations. She said that Duke has shifted off the three in tial sites and is now focused on a site on McDowell and they have an option contract for the old Volvo dealership on Patton Avenue.

Councilman Bothwell moved to continue this public hearing until August 22, 2017. This motion was seconded by Councilman Young and carried unanimously.

B. REDEVELOPMENT PLAN FOR 338 HILLIARD AVENUE

RESOLUTION NO. 17-115 - RESOLUTION AUTHORIZING THE LEASE OF CITY-OWNED PROPERTY AT 338 HILLIARD AVENUE TO THE KASSINGER GROUP FOR AN AFFORDABLE HOUSING DEVELOPMENT

RESOLUTION NO. 17-116 - RESOLUTION APPROVING A LOAN FROM THE CITY'S HOUSING TRUST FUND TO KASSINGER GROUP

PUBLIC HEARING TO CONSIDER A LAND USE INCENTIVE GRANT FOR ASTON PARK, 338 HILLIARD AVENUE (KASSINGER DEVELOPMENT GROUP)

RESOLUTION NO. 117 - RESOLUTION APPROVING A LAND USE INCENTIVE GRANT FOR ASTON PARK, 338 HILLIARD AVENUE (KASSINGER DEVELOPMENT GROUP)

Councilman Smith noted that this will be Assistant Director of Community & Economic Development Jeff Staudinger's last presentation to Council. On behalf of Council, he thanked Mr. Staudinger for his dedication, devotion and keen mind that has resulted in nearly off of the affordable housing policies that we are using today.

Mr. Staudinger said that this is the consideration of (1) a resolution authorizing lease of City-owned property by Kassinger Development Group for the development of affordable housing at 338 Hilliard Street, (2) a resolution approving a Housing Trust Fund loan to the development, and (3) a resolution approving a Land Use Incentive Grant to the development. The public hearing to consider a a Land Use Incentive Grant Application of 338 Hilliard by the developer of "Aston Place," Kassinger Development Group was advertised on June 2, 2017.

On September 6, 2016, Council accepted staff and Housing & Community Development (HCD) Committee recommendation that negotiations proceed with Tribute Companies for the development of the City-owned Parks Maintenance property located on Hilliard Avenue. In April of this year, Tribute withdrew their proposal. In accord with the provisions of the Request for Proposals, staff contacted Kassinger Development Group (Kassinger), the other developer that submitted a proposal for the development of the site. Kassinger agreed to submit a revised proposal. That proposal is summarized in this report.

Kassinger proposes a 64 unit rental development, with an estimated development cost of $7.9 million. In summary, the major elements of the proposal are:

	Proposed
# of units	64
% 80% AMI or below	52%
# 30% AMI	0
# 60% AMI	13
# 80% AMI	20
# 100% AMI	0
# Market	31
# Reserved for Homeless Households	0
# 1 BR	49
# 2 BR	15
# 3 BR	0
Third-Party Sustainability Certification Period of Affordability	Yes 50 Years

Two other key elements are proposed:

- 50 year land lease from the City; with a lease payment of 10% of net cash flow made annually to the City for the term of the lease;
- 50 year period of affordability

The Kassinger Group's proposal meets or exceeds all original RFP requirements, except that no three-bedroom units are proposed. This enabled the developer to increase the number of units from 60 to 64, and the number of affordable units from 31 to 33.

Cost estimates are still early and could change once plans are drawn, but estimates are on the high side indicating a conservative estimate. Developer is seeking financing with a HUD guarantee for $6,675,000 and is expected to receive a commitment by January 2018 with closing in March 2018 and construction scheduled to start in July 2018.

The HCD Committee reviewed the proposal at their meeting on May 16, 2017, including applications for Housing Trust Funds and a Land Use incentive Grant, and unanimously recommended that City Council accept the proposal.

Kassinger seeks the following incentives:

$1,280,000 Housing Trust Fund loan. The loan request is for a 50 year term at 2% interest. Although principal payments would be made upon achieving stabilization (93% occupancy), interest payments would be deferred until the project achieves a Debt Service Coverage ratio (DCR) of 1.30 for its bank debt (this provision would be a condition of the primary financer).

Proposed Loan Terms and Conditions

60% AMI Units	80% AMI Units	Market Rate Units	Loan Amount	Assistance Per Unit/Affordable Unit	Interest Rate	Term (Years)	Type
13	20	31	$1,280,000	$20,000 / $38,789	2%	50	Amortizing, Deferred Interest until 1.3 DCR

Proposed Total Development Costs and Assistance Allocations

Total Loan Amount	Total Development Cost	Loan % of Total Development Cost	Total cost per unit	Est. Cost Per Square Foot	Additional Assistance Request*	Total Assistance	Total Est. Assistance Per Affordable Unit
$1,280,000	$7,955,000	16%	$124,297	$199	$291,430	$1,571,430	$47,619

** Land Use Incentive Grant – estimated 10 year benefit*

The developer and the City have also discussed voucher holders will be eligible for these units. That is households of 50% median income whose rents would be supported through a Housing Choice Voucher.

10 year Land Use Incentive Grant. The developer has scored 100 points using the City's scoring matrix. The project, as presented to staff, appears to meet the following Eligibility Requirements,

- The proposed development consists of three or more dwelling units for rent;
- At least 10% of the units will meet the affordability standards set by the City of Asheville for households earning 80% or less of the Area Median Income.
- The affordable units will be affordable to and leased to income-eligible households for at least 15 years.
- The proposed development is located inside the city limits.
- The proposed development is located to provide residents convenient access to jobs,

schools and services

Scoring for the LUIG:

Affordable Rental Housing - The proposed project will provide thirty-three (33) units affordable to households at 80% or less of median income, with thirteen (13) of those units being rented to households earning 60% AMI or less. The developer has committed to an affordability period exceeding the minimum 15 year affordability requirement. Under this category, the project qualifies for 60 points.

Long term affordability - The proposed project will be committed to serving households at the designated rental rates for a period of fifty (50) years. This qualifies the project for 20 points.

Superior locational efficiency - The proposed project is within 0.25 miles of an existing bus-stop served by multiple bus lines, is within 1 mile of a job center in downtown, and is within .5 miles of public amenity in an ART bus stop served by an existing sidewalk. The project qualifies for 20 points in this category.

Staff has scored the project with 100 points, which qualifies the project for ten years (10) of Land Use Incentive Grant.

The total public cash assistance proposed for this project is $1,571,430 ($1,280,000 Housing Trust Fund and estimated $291,430 Land Use Incentive grant), which averages $24,554 assistance per unit and $47,619 per affordable unit. With a fifty (50) year affordability period, this incentive is $491 per year for all units and $952 per year per affordable unit.

The action complies with the following adopted City plans: (1) 2025 Comprehensive Plan; and (2) 2015-2019 Consolidated Plan for the Use of CDBG and HOME Funds.

Pros:

- 64 units of new mixed-income rental housing will be developed in the City's Central Business District, with excellent transportation access as well as walkable proximity to jobs, schools, services, and amenities ;
- 33 of those units will be affordable to low and moderate income households for 50 years;
- The new construction will be Energy-Star certified;
- The development will be of high-quality.
- The City will have expanded its public-private partnerships for the development of affordable housing, and will have supported an alternative to the highly competitive 9% LIHTC program.

Concerns:

- The project is highly leveraged and depends on the developer obtaining a HUD finance guarantee.

The project seeks a total of cash incentive from the City of $1,571,430: $1,280,000 in a loan from the Housing Trust Fund, and an estimated $291,430 in a Land Use Incentive Grant. This is a total incentive per unit of $24,554 and $47,619 per affordable unit. The promised 50 year term of affordability means the incentive per year per affordable unit is $952, and $491 per year for all units. This compares reasonably with other incentives provided. For example, the Simpson Street development incentive is estimated at $731/unit/year of affordability (70 units, 100% affordable); the Smith Mill Place assistance is $678/unit/year of affordability (72 units, 50% affordable).

Lease payments, new City property tax revenues and Housing Trust Fund repayments will provide revenue to the City over the term of the project. Estimated cash revenues are $344,300 in 10 years, $1,322,800 in 20 years and $3,996,473 in 50 years.

Staff recommends City Council approve the HCD's recommendation to adopt (1) a resolution authorizing lease of City-owned property by Kassinger Development Group for the development of affordable housing at 338 Hilliard Street, (2) a resolution approving a Housing Trust Fund loan to the development, and (3) a resolution approving a Land Use Incentive Grant to the development.

Councilman Bothwell said that we are getting a 50 year agreement because the City is making the land available.

Mayor Manheimer opened the public hearing at 5:35 p.m.

Ms. Sabrah n'haRaven asked that instead of using the percentages of "ami" that dollar amounts be used so people will understand exactly who the units will be affordable for. Mr. Staudinger then provided that information, along with the rates.

Ms. Melissa Clark felt that these rent rates will do nothing for low income people. Mr. Staudinger explained that the rental numbers come from a national standard. He then explained how the vouchers will be available in this project

Ms. Dewana Little felt that proposal is still not affordable for the people who live here. She felt it should be mandatory that vouchers be accepted for a certain number of apartments.

Ms. Ashley Cooper felt that this is only appeasing to a certain population of people and does not address the lower income people.

Mayor Manheimer closed the public hearing at 5:59 p.m.

Councilman Young suggested that in future projects, we consider revising our policy to get a project that will provide more units for ower income people in our community. He didn't want to undervalue what the City brings to the table.

Councilman Smith felt it would be good to revisit our policy; however, due to escalating construction costs, it may limit developers from submitting proposals. He understood the the rents will not be affordable to everyone, but it will be important to the people who live there. He didn't want to underestimate the good faith of the developers who are trying to make the numbers work.

Councilwoman Mayfield said that every piece of City-owned property that we use for this purpose will have different components. We want to make as many affordable units as we can on City land, but we need a partner to accomplish that task.

Mayor Manheimer said that this is this the first time we have gone into this type of arrangement for City property, as we move forward, our discussion will be more informed and meaningful.

Councilman Smith said that the term "affordable housing" the City is using comes from the U.S. Dept. of HUD. There is a significant need in this area, but acknowledged we need more housing for the homeless, people on fixed income and people on minimum wage.

Councilman Bothwell noted that addressing affordable housing hinges hugely on federal money and we have to abide by the regulations established by the federal government.

Councilman Haynes said that the City's land is valuable and he hoped our next project will include units for the lower income community.

Mayor Manheimer said that members of Council have previously received copies of the resolutions and they would not be read.

Councilman Smith moved for the adoption of Resolution No. 17-115. This motion was seconded by Councilman Bothwell and carried on a 6-1 vote, with Councilman Young voting "no".

RESOLUTION BOOK NO. 38 - PAGE 514

Councilman Smith moved for the adoption of Resolution No. 17-116. This motion was seconded by Vice-Mayor Wisler and carried on a 6-1 vote, with Councilman Young voting "no".

RESOLUTION BOOK NO. 38 - PAGE 515

Councilman Smith moved for the adoption of Resolution No. 17-117. This motion was seconded by Vice-Mayor Wisler and carried on a 6-1 vote, with Councilman Young voting "no".

RESOLUTION BOOK NO. 38 - PAGE 516

V. UNFINISHED BUSINESS:

A. ORDINANCE NO. 4589 - ORDINANCE ADOPTING THE FISCAL YEAR 2017-18 ANNUAL OPERATING BUDGET AND AMENDMENTS TO THE FEES & CHARGES MANUAL

City Manager Jackson provided Council with some key performance outcomes and measures from the Police Department, Fire Department, Human Resources Department, Parks & Recreation Department, Office of Sustainability, and Community & Economic Development Department.

Director of Finance & Management Services Barbara Whitehorn said that this is the consideration of an ordinance to adopt the Fiscal Year 2017-18 Annual Budget, and amendments to the Fees & Charges Manual

The Fiscal 2017-18 Proposed Annual Operating Budget was presented to City Council on May 9, 2017. In accordance with the North Carolina Local Government Budget and Fiscal Control Act, a summary of the Proposed Budget along with a notice of the Public Hearing was published on May 13, 2017. City Council conducted a public hearing on the Proposed Budget on May 23, 2017.

The 2017-18 Proposed Budget includes a property tax rate of $0.4339, an increase from the revenue neutral property tax rate of $0.3939. 0.035 (3.5-cents) is dedicated to debt service for the 2016 GO Bond program. The additional 0.050 (0.5-cents) to the General Fund will pay for Transit service enhancements and the purchase of new buses.

Changes to the Proposed Budget - Since the Proposed Budget was presented to City Council, there have been some adjustments per Council direction that have altered the budget that is presented tonight for Council adoption.

- **Revenue Neutral Property Tax Rate.** The revenue neutral estimate in the Proposed Budget document is $0.395. The proposed budget now includes a revenue neutral estimate of $0.3939, slightly less than the original estimate.

- **Firefighter 401(a).** An increase to the City matching contribution to the fire personnel 401(a) retirement program from 2% to 4%, effective January 1, 2018. Approximate cost: $150,000. This expenditure has been added to the Fire Department budget with an

offsetting increase to revenue that reflects more refined information about revenue trends.

- **Compensation Budget clarification.** The operating budget includes a 2.5% increase to all City employees to be implemented with the July 1-14 pay period. This is a general wage increase. Performance metrics for the implementation of merit increases in FY 2018-19 are included in management work plans.

- **Organizational Changes.** Modifications to the City's organizational structure which, though they do not involve changes to the total budget being adopted by City Council, alter the budgeted amounts and the full-time equivalent (FTE) position count in certain departments. These changes include:

    - The City's Real Estate function is being reassigned from the Community and Economic Development Department to the General Services Department.
        - 2 FTE positions and
        - $170,855 reallocated between the two departments.
    - Zoning Enforcement and Board of Adjustments responsibilities are being reassigned from the Development Services Department (DSD) to the Planning and Urban Design Department.
        - 3 FTE positions and
        - Approximately $246,000 reallocated between the two departments.
    - The DSD FTE position count in the budget document has been adjusted by 1.5 FTE positions to reflect the amount that was originally included in the adopted FY 2016-17 budget. This is a correction only and does not have a fiscal impact.

Fees and Charges Manual Amendments

City Council adopted fee adjustments for Fiscal Year 2017-18 at its March 14, 2017 meeting. Since that time, additional minor fee adjustments have been brought forward in Development Services and Parking Services, and are included with adoption of the FY 2017-18 budget ordinance. These adjustments, which were reviewed by the Finance Committee at its May 23, 2017 meeting, are summarized below.

- Development Services: Fee structure modification to provide a rate for the construction of roofed porches and screened porches - $150 plus $0.30 per square foot over 500 square feet for porches with a roof, including screened porches, but excluding sunrooms. Staff also recommends a retroactive adjustment for the fiscal year 2016-17 in order to offer refunds to customers who paid this higher rate and make the refund request in writing.

- Parking Services:
    - Use of parking space for an entire day (metered) – New fee = $22.00 (Current fee = $18.00)
    - Use of parking space for an entire day (non-metered) – New fee = $22.00 (Current fee = $0.00)
    - Validation Tickets (Parking Garages) – New fee = $1.50 (Current fee = $1.25)

Budget Ordinance (Capital Fund Amounts)

The Capital Improvement Program (CIP) presented in the Proposed Budget Document reflects expected cash flows over the next five fiscal years for debt-funded projects and includes a number of projects that have budgets that have been fully adopted in prior years. The FY 2017-18 Budget Ordinance, however, only includes the adoption of new project budgets and budget additions to existing projects, some of which may be non-debt related. Budget staff provided

Council with a detailed listing of new projects and project budget additions that are included in the FY 2017-18 Budget Ordinance.

This action complies with the Thriving Local Economy and Smart City focus areas of City Council's Strategic Themes. The budget reflects City Council's ongoing commitment to providing a living wage as an example for other organizations in the area and managing the City to the highest levels of fiscal responsibility and prudence.

Pros:

- Ensures City's compliance with North Carolina General Statutes that require local governments to adopt a balanced budget ordinance by July 1 of each year.
- General Fund Budget is balanced with no fund balance appropriation for ongoing operating expenses and all essential City services are continued.

Con:

- None.

As noted above, the Proposed FY 2017-18 General Fund budget is balanced with no fund balance appropriation for ongoing operating expenses. The FY 2017-18 General Fund does budget includes a $1.18 million appropriation from fund balance for one-time expenditure items, which is consistent with the City's fund balance policies and the FY 2016-17 revenue and expenditure forecast.

In response to Mayor Manheimer, Ms. Whitehorn explained that the proposed budget on-line has not been changing after each worksession. All changes are tracked and then made in the adopted budget. Moving forward, a reconciliation will be posted on-line after each worksession, as we want to be as transparent as possible.

In response to Councilman Bothwell, Ms. Whitehorn explained the $430,000 in the Police Department's budget was accumulated by shifting resources from a different number of line items in the Police Department's budget in order to address some of their staffing issues. She said that we are delaying purchases.

Mayor Manheimer has asked the City Manager to come up with a plan to absorb the $630,000 in transit improvements without the .5-cent additional property tax increase.

City Manager Jackson said that staff has prepared a summary of the impact to the FY 2018 Proposed Budget if transit funding was increased by $630,000 annually without a ½ cent property tax rate increase. In general, absorbing this amount into the current budget would include several strategies some of which include longer term service impacts. Staff will attempt to outline those impacts in terms of strategies with shorter and longer term impacts.

The following strategies could be considered:

(1) ***Managing vacancies - except in public safety and bond implementation ($100,000)*** Evaluate vacant positions to determine where positions could remain open for six to nine months with the least impact on service delivery.

(2) ***Deferring maintenance/ replacement of fleet ($315,000) and facilities ($50,000)*** - Defer the replacement of fleet equipment (likely one large vehicle) and some less critical facility maintenance work (like painting, concrete repairs, carpet, pressure washing, etc.).There is also the possibility to realize savings in the cost of new fleet purchases in the upcoming fiscal year.

(3) ***Reducing temp/seasonal employees by limiting hours worked and the number of workers- ($50,000)*** - Reducing temp/seasonal employee hours would result in less

maintenance in parks and program staffing for summer camp and after-school programming.

(4) ***Delaying contracted services ($65,000)*** - Evaluating all discretionary contracts and deferring some, such as the Citizens Survey, that are not time sensitive or required to meet basic operational needs.

(5) ***Managing overtime ($50,000)*** - Managing overtime by converting eligible employees to compensatory time (comp time). While improving cash flows when the comp time is awarded, comp time owed to employees is a long-term liability of the City and must be paid out with separation. Service is impacted while the employee works for the City and uses the comp time. There is a fiscal impact with separation from the City.

Strategies (1), (3),(4) and (5) will be recurring costs that will need to be included in the FY 2019 budget if the intent is for these savings to be a one year only.

City Manager Jackson said that he would come back in the next quarter and let Council know what the forecast will look like.

Vice-Mayor Wisler moved to approve the budget as proposed with all but one of the adjustments itemized in the staff's report above, and that would be to remove the ½-cent property tax increase to fund Transit operations and the purchase of buses. Instead of the ½-cent property tax rate increase, the City Manager and department directors will determine a reallocation of funds within the General Fund to cover the $630,000 in Transit Costs. This will make the Property tax rate: 42.89-cent and General General fund budget total - $120,705,145. This motion was seconded by Councilman Bothwell.

Councilwoman Mayfield read a prepared statement. In summary, she explained that the proposed budget to add new police officers has been reduced by almost half and most of that money will come from reallocating existing dollars in the police budget rather than from new allocations. While to some degree the additional funding does not address deeper problems, it does not mean the funding is not needed. She agreed with Councilman Smith that this is a budget for the people and it advances many priorities that help people and improve our quality of life. This year we are increasing funding for affordable housing, sidewalks, sidewalks, crosswalks, greenways, parks, youth programs, partnerships with nonprofits, staff salaries, and retirement for firefighters. She was also pleased with the over $2 Million increase for transit. Asheville is being responsive in the areas of sustainability/energy/climate, affordable housing/food policy/insecurity, and multimodal transportation, and is also being responsive in the areas of equity and race, but this will not be solved overnight. She will work on the issues and try to be effective.

Councilman Young read a prepared statement. In summary, he supported the City to look at their budget process and seriously consider moving toward participatory budgeting. This is a move that will bring people closer to democracy in our City and closer to transparency and the decision-making. He asked Council to support directing staff to bring information forward on the participatory budgeting concept to the Finance and Governance Committees. Because our community needs a voice in decision-making and needs to work together for a stronger community, he supported the efforts of creating a new Human Resources Commission. That Commission will focus on the needs of our community and offer tangible solutions for serious Council consideration. We need to promote policies that provide serious and momentous opportunities for dialogue and action involving residents and police that will lead to better relationships, more equitable treatment by the police, greater police responsiveness and accountability, and greater willingness of residents to work with police. He did not believe this budget is bad, that it does not serve our community or it doesn't allocate funds to areas that serve the most vulnerable. However, he could not support the budget because he stands in empathetic support not only for the courage shown of those who protest a process and seek better

transparency and equitable outcomes, but also for those who serve in public safety roles who deserve a better process, as well as one that will support a thorough recruitment and retention effort that would include a better opportunity for minority recruitment and a very attractive compensation package, and an emphasis on higher educational and mental standards for officers that would be compensated appropriately. He would also like to see active efforts in recruiting home grown talent from the same communities that harbor distrust in police.

Mayor Manheimer said that this has been one of the most challenging budget she has worked on in her past seven years on Council. Even though the budget is not perfect, it does reflect a lot of input we have heard from the community. She felt that a participatory budget is an interesting idea and should be explored for the upcoming budget process.

Mayor Manheimer stated that since the public hearing was held on May 23, 2017, no public comment would be accepted.

Mayor Manheimer said that members of Council have previously received a copy of the revised ordinance and it would not be read.

The motion made by Vice-Mayor Wisler and seconded by Councilman Bothwell carried on a 5-2 vote, with Councilman Haynes and Councilman Young voting "no."

ORDINANCE BOOK NO. 31 – PAGE 230

VI. NEW BUSINESS:

A. RESOLUTION NO. 17-118 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONSTRUCTION AGREEMENT WITH THE N.C. DEPT. OF TRANSPORTATION FOR A PROJECT TO IMPROVE PEDESTRIAN SAFETY ALONG FAIRVIEW ROAD FROM BLEACHERY BOULEVARD TO NC 81 (SWANNANOA RIVER ROAD)

ORDINANCE NO. 4590 - BUDGET AMENDMENT TO FUND THE CITY'S 50% SHARE OF THE CONSTRUCTION AGREEMENT WITH THE N.C. DEPT. OF TRANSPORTATION FOR A PROJECT ALONG FAIRVIEW ROAD

Director of Transportation Ken Putnam said that this is the consideration of (1) a resolution authorizing the City Manager to enter into a construction agreement with the N.C. Dept. of Transportation (NCDOT) for a project to improve the pedestrian safety along Fairview Road from Bleachery Boulevard to NC 81 (Swannanoa River Road); and (2) a budget amendment in the amount of $450,000 from fee-in-lieu-of sidewalk revenue to fund the City's 50% cost share of the project.

A tragic crash occurred on December 1, 2016, at 6:17 pm involving a motor vehicle and three pedestrians along US 74-A (Fairview Road) at a point east of the intersection at US 74-A (Fairview Road) and Gold's Gym / Babies R Us / River Ridge Business Park. Two of the pedestrians, ages 10 and 5, died and the third pedestrian was injured.

The crash was thoroughly investigated by the Asheville Police Department, the NCDOT's Western Regional Field Operations Engineer, the NCDOT's Blue Ridge Mountains Region Traffic Safety Engineer, and the Pedestrian & Bicycle Working Group (Working Group). The Working Group includes local NCDOT and City staff members.

After much review and discussion, the Working Group recommends a joint safety-related project on a 50%/50% basis between the NCDOT and the City of Asheville (City) that will improve the pedestrian experience and safety in the area. The project would include a new sidewalk along the "north" side of Fairview Road from Bleachery Boulevard to NC 81 (Swannanoa River

Road), pedestrian friendly safety rails along the bridges, and pedestrian amenities (pedestrian signals and marked crosswalks) at the three signalized intersections. The total estimated cost of the project is approximately $900,000. Once the funds are approved, the work should be accomplished during the Summer and Fall months of 2017. The NCDOT will handle all aspects of the work including preliminary engineering, design, utilities, and construction and the City will be responsible to maintain the new sidewalk. In addition, the City is moving forward with Duke Energy to install new street lights along the Fairview Road corridor.

In order for the NCDOT to obligate funds including Spot Safety and Small Construction Funds, a resolution from the City indicating its support of and participation in the project is required.

The Multi-Modal Transportation Commission reviewed this item on May 12, 2017, and endorsed it. The Public Safety Committee also reviewed this item on May 22, 2017, and recommended that it move forward to City Council for review and approval.

Pros:

- A much needed safety project will be constructed via a partnership between the NCDOT and the City of Asheville.
- The pedestrian experience will be improved for the citizens of the Oakley Community.
- A second direct connection to the future Swannanoa River Greenway will be provided.

Con:

- The City's local match of $450,000

The City would be responsible for 50% ($450,000) of the total estimated cost ($900,000). The City's share is proposed to be funded from the current balance in the sidewalk "fee-in-lieu-of" monies.

Staff recommends City Council adopt (1) a resolution authorizing the City Manager to enter into a construction agreement with the NCDOT for a project to improve the pedestrian safety along Fairview Road from Bleachery Boulevard to NC 81 (Swannanoa River Road); and (2) a budget amendment in the amount of $450,000 from fee-in-lieu-of sidewalk revenue to fund the City's 50% cost share of the project.

When Ms. Melissa Clark asked if the property owners along this route will be compensated for any loss of right-of-way, Mr. Putnam said that the NCDOT owns all the right-of-way.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolution and ordinance and they will not be read.

Councilwoman Mayfield moved for the adoption of Resolution No. 17-118. This motion was seconded by Councilman Bothwell and carried unanimously.

B. RESOLUTION NO. 17-119 - RESOLUTION RE-AFFIRMING THE CITY OF ASHEVILLE'S COMMITMENT TO REDUCING CLIMATE POLLUTION IN ALIGNMENT WITH THE CITY COUNCIL VISION, AND CONTINUED

SUPPORT OF THE PRINCIPLES OF THE PARIS AGREEMENT AND THE PARTICIPATION OF THE UNITED STATES OF AMERICA AS A PARTY TO THE PARIS AGREEMENT

Mayor Manheimer read the resolution. In summary, the City of Asheville re-affirms its commitment to taking action to reduce climate pollution in alignment with the City Council Vision, the City of Asheville continues to support the principles of the Paris Agreement and the participation of the United States of America as a party to the Paris Agreement; and that the City of Asheville will continue to stand with cities and other public and private sector partners throughout the world to advance actions to reduce climate change.

Mr. Joe Caudle spoke in support of the resolution.

Ms. Melissa Clark felt that the City of Asheville needs to do more if we want to change global warming.

Councilman Bothwell moved for the adoption of Resolution No. 17-119. This motion was seconded by Vice-Mayor Wisler and carried unanimously.

RESOLUTION BOOK NO. 38 - PAGE 518

C. RESOLUTION NO. 17-120 - RESOLUTION OF INTENT TO CONSIDER AMENDING THE CITY OF ASHEVILLE CHARTER TO PROVIDE FOR SIX SINGLE-MEMBER ELECTORAL DISTRICTS GOVERNING THE NOMINATION AND ELECTION OF CITY COUNCIL MEMBER AND SETTING A PUBLIC HEARING ON JUNE 27, 2017, ON THE PROPOSED CHARTER AMENDMENTS

City Attorney Currin said that this is the consideration of a resolution of intent to consider an ordinance amending the City of Asheville Charter to provide for six single-member electoral districts governing the nomination and election of City Council member and setting a public hearing on June 27, 2017, on the proposed Charter amendments.

The City of Asheville Charter provides for the composition of the City Council, as well as the method used for electing Councilmembers and the Mayor. Currently, the Charter provides that the Council is comprised of six (6) Councilmembers and a Mayor. All Councilmembers and the Mayor are elected by all qualified voters of the City (commonly referred to as an "at-large" method of election). N.C. Gen. Stat. §160A-102 allows the City Council to change the mode of election by ordinance, and also allows Council to provide that such an ordinance will only become effective "if approved by a vote of the people."

A bill ("SB 285") has been filed in the North Carolina General Assembly, which would require the City to amend the Charter to create six (6), single-member electoral districts, to govern the nomination and election of Councilmembers. The bill also requires that the qualified voters of each electoral district shall nominate and elect City Council candidates who reside in the district for the seat apportioned to that district. The Mayor would still be elected at-large. At this time, SB 285 provides that, if the City fails to create electoral districts within the time set forth in the bill, the General Assembly will establish electoral districts for the City.

The City commissioned a poll to determine, among other things, the preferences of the citizens as to the mode of election, and whether the citizens would like to vote on the mode of election by referendum. The majority of the citizens polled indicated they would like to have the question regarding the mode of election to be on the ballot. City Council has indicated a desire to move forward with such a referendum, and to put the question regarding whether the City Council should be elected from six districts on the November 2017 ballot. As explained below, the first action toward this objective is before the Council on June 13.

The General Statutes set forth a statutory process that cities must follow when enacting Charter amendments which change the mode of electing City Council members, and to submit the same to a vote of the people by referendum. The statutes require action at a series of three Council meetings. Below is a summary of the steps Council must take at each Council meeting, as well as the date on which each meeting will be held, to allow Council to vote to approve the charter amendments prior to the current proposed deadline for Council to act in SB 285, and to place the ordinance on the ballot in November.

First Council Meeting (June 13, 2017)	Adopt a resolution of intent to consider an ordinance amending the Charter. At the same meeting, call a public hearing on the proposed Charter amendments.
Second Council Meeting (June 27, 2017)	Hold a public hearing on the proposed Charter amendments.
Third Council Meeting (July 25, 2017)	Adopt an ordinance amending the Charter. If Council chooses to make that ordinance effective only upon a vote by the people, at the same meeting, adopt a resolution calling for an election on the referendum.

The action taken at the June 13 Council meeting will be the first step in the statutory process.

Mayor Manheimer said that we do not know if the bill will pass or not; however, if we want to move forward with a referendum on this issue, adoption of the resolution and setting a public hearing needs to occur at this meeting.

When Mayor Manheimer asked for public comments, none were received.

Councilman Bothwell moved to: 1) adopt a resolution of intent to consider an ordinance amending the City of Asheville Charter to provide for six single-member electoral districts to govern the nomination and election of City Council Members; and 2) to set a public hearing on the proposed charter amendments, to be held by the City Council of the City of Asheville during the regular meeting of the City Council on June 27, 2017, beginning at 5:00 pm in the Council Chamber on the second floor of the City Hall Building of the City of Asheville. This motion was seconded by Councilwoman Mayfield and carried unanimously.

RESOLUTION BOOK NO. 38 – PAGE 520

D. BOARDS & COMMISSIONS

Regarding the African American Heritage Commission, the following individuals have applied for a vacancy: Michael Zuckerman, Debra Barnes and Samantha Singer. It was the consensus of Council to continue this vacancy until attendance records can be obtained.

Regarding the Historic Resources Commission, the following individuals have applied for a vacancy: Christopher Brian Cobb, Leslie Humphrey, Kevin Saum, Wayne Wheeler and Gerry Leonard. It was the consensus of Council to re-advertise for the vacancies.

Regarding the Multimodal Transportation Commission, the following individuals have applied for a vacancy: Helen Hyatt, Han Winogrond, Keaton Edwards, Carson Dellinger, Tina Wexler, Scott Dickens, Andrew Stephen Kirby and Randy Warren. It was the consensus of Council, at the request of the Commission, to postpone appointment until the Multimodal Transportation Commission can review all applications and make a recommendation.

RESOLUTION NO. 17-121 - RESOLUTION APPOINTING MEMBERS TO THE CIVIC CENTER COMMISSION

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that the terms of Corey Atkins, Carol Ann Lydon and Yvonne Cook-Riley as members on the Civic Center Commission, expire June 30, 2017.

The following individuals have applied for a vacancy: Freddy Morgan, Ali Conroy, Christine Sykes Lowe, Tana Macalusco and Larry Layton.

The Boards & Commission Committee recommended (1) postponing the seat of Mr. Atkins until they receive a clarification on attendance; and (2) reappointing Ms. Cook-Riley; and (2) appointing Christine Sykes Lowe.

Vice-Mayor Wisler moved to (1) reappoint Yvonne Cook-Riley to serve an additional three-year term, term to expire June 30, 2020, or until her successors has been appointed; and (2) appoint Christine Sykes Lowe to serve a three-year term, term to expire June 30, 2020, or until her successor has been appointed. This motion was seconded by Councilman Bothwell and carried unanimously.

RESOLUTION BOOK NO. 38 – PAGE 522

RESOLUTION NO. 17-122 - RESOLUTION APPOINTING MEMBERS TO THE CRIMESTOPPERS BOARD OF DIRECTORS

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that the terms of Anthony Mitchell and Karl Katterjohn, as members on the CrimeStoppers Board of Directors, expire on June 30, 2017.

The following individuals have applied for a vacancy: Beau Dean, Travis Smith, Alvin Malesky, Douglas Oeser and Tana Macalusco.

The Boards & Commission Committee recommended appointing Beau Dean and Tana Macalusco.

Vice-Mayor Wisler moved to appoint Beau Dean and Tana Macalusco to each serve a three-year term respectively, terms to expire June 30, 2020, or until their successors have been appointed. This motion was seconded by Councilwoman Mayfield and carried unanimously.

RESOLUTION BOOK NO. 38 – PAGE 523

RESOLUTION NO. 17-123 – RESOLUTION APPOINTING MEMBERS TO THE NEIGHBORHOOD ADVISORY COMMITTEE

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that the terms of Philip Lenowitz (representing 28804 zip code); Barber Melton (representing 28805 zip code); and Elaine Poovey (at-large member) expire on July 1, 2017. In addition, Greta Bush (at-large member) resigned, thus leaving an unexpired term until July 1, 2018.

The following individuals applied for a vacancy: Fred Caudle, Gerry Leonard, Kristin Baldwin, Carter Webb, Jackson Tierney and Mike Wasmer.

It was the consensus of the Boards & Commissions Committee, and recommendation from the Neighborhood Advisory Commission, to reappoint Philip Lenowitz, and Barber Melton appoint Carter Webb and Mike Wasmer.

Councilman Bothwell moved to (1) reappoint Philip Lenowitz (representing 28804 zip code) and Barber Melton (representing 28805 zip code); to serve each serve an additional three-year term respectively, terms to expire July 1, 2020, or until their successors have been appointed; and (2) interview Mike Wasmer, Carter Webb and Jason Tierney for an at-large seat. This motion was seconded by Councilwoman Mayfield and carried unanimously.

RESOLUTION BOOK NO. 38- PAGE 524

RESOLUTION NO. 17-124 - RESOLUTION APPOINTING MEMBERS TO THE PUBLIC ART & CULTURAL COMMISSION

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that the terms of Jay Miller, Andrew Fletcher, Jay Fields, Gwen Rukenbrod Smith, Guillermo Rodriguez and Ron Laboray, as members of the Public Art & Cultural Commission, expire on June 30, 2017.

The following individuals applied for this vacancy: Travis Smith, Shelley Schenker, Susan Dunlap, Chris Patton, Michael Carlebach, Laura Sellers, Gerry Leonard, Emma Hutchens, Theodore Windish, Allen Roda and Katie Cornell.

It was the consensus of the Boards & Commissions Committee to (1) reappoint Jay Miller, Andrew Fletcher, Jay Fields, Guillermo Rodriguez and Ron Laboray; and (2) appoint Katie Cornell.

Vice-Mayor Wisler moved to (1) reappoint Jay Miller, Andrew Fletcher, Jay Fields, Guillermo Rodriguez and Ron Laboray as members of the Public Art & Cultural Commission to serve a three-year term respectively, terms to expire June 30, 2020, or until their successors have been appointed; and (2) appoint Katie Cornell as a member to the Public Art & Cultural Commission to serve a three-year term, term to expire June 30, 2020, or until her successor has been appointed. This motion was seconded by Councilwoman Mayfield and carried unanimously.

RESOLUTION BOOK NO. 38 - PAGE PAGE 525

RESOLUTION NO. 17-125 - RESOLUTION APPOINTING MEMBERS TO THE RECREATION BOARD

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that the terms of Todd Dunnuck, Tiffany DE'Bellott, Sheneika Smith and Patrick Dennehy, as members of the Recreation Board, expire on June 30, 2017.

The following individuals applied for this vacancy: Ali Mangkang, Beau Dean, Taylon Breeden, Lauren Weldishofer, Gerry Leonard, Jeff Luttrell and Ron Nelson.

It was the consensus of the Boards & Commissions Committee to reappoint Ms. DE'Bellott and Patrick Dennehy and to appoint Ali Mangkang and Lauren Weldishofer.

Vice-Mayor Wisler moved to (1) reappoint Tiffany DE'Bellott and Patrick Dennehy as members of the Recreation Board to each serve a three-year term, terms to expire June 30, 2020, or until their successors have been appointed; and (2) appoint Ali Mangkang and Lauren Weldishofer as members to the Recreation Board to each serve a three-year term, term to expire June 30, 2020, or until their successors have been appointed. This motion was seconded by Councilman Smith and carried unanimously.

RESOLUTION BOOK NO. 38 – PAGE 526

E. BLUE RIBBON COMMITTEE ON HUMAN RELATIONS COMMISSION

Vice-Mayor Wisler provided the Council with the proposed charge of the Blue Ribbon Committee on Human Relations Commission as follows: "The purpose of the Blue Ribbon Committee on a Human Relations Commission will be to serve in an advisory capacity to define a mission and scope concerning a newly created Human Relations Commission. The Committee will hold one initial orientation meeting at which time the Chair, Vice-Chair and subcommittees will be formed. The Committee shall hold at least three broad community meetings. The Committee will meet at least one time a month. The City Manager's Office, with Legal Department support, will be responsible for providing support to the Committee. The Committee will select its own Chair and self-facilitate. The Committee and all subcommittees shall adhere to the City of Asheville Rules on Boards and Commissions and North Carolina Open Meeting Laws and all other applicable laws and regulations. The Committee is expected to achieve the following goals: define and provide recommendations of the mission, scope and duties of the Human Relations Commission. After the Committee's first meeting, the Chair and Vice-Chair shall present at the next regular Boards & Commissions Committee meeting the operation and process strategy of the Committee. The Committee must submit final recommendations to City Council by November 6, 2017. The Committee shall be composed of no more than 15 members. Appointments to the Committee shall be made in accordance with the Rules of Procedure for City Council. All recommendations for appointments to the Blue Ribbon Committee will be made by the Boards and Commissions Committee and voted on by Council in an open meeting. Decisions of the Committee are reached by a simple majority vote of the members unless otherwise required by law. All voting will be conducted in open meetings with a quorum present. When the Committee has completed its function, as determined by City Council, the Committee shall be dissolved and the members of the committee shall be informed of the termination by e-mail from the City Clerk's office. City Council will consider, but not be bound by, the Committee's recommendations or concerns."

Vice-Mayor Wisler moved to approve the charge of the Blue Ribbon Committee on Human Relations Commission. This motion was seconded by Councilman Young.

When Councilman Bothwell suggested a friendly amendment that the votes be taken by secret ballot, City Attorney Currin said that it would be a violation of the Open Meetings Law. Councilman Bothwell then withdrew his friendly amendment suggestion.

The motion made by Vice-Mayor Wisler and seconded by Councilman Young carried unanimously.

Mr. Joe Caudle recommended Council look at the City of Atlanta as they have a well-established Human Relations Commission.

Ms. Ashley Cooper questioned what type of power the Human Relations Commission will be charged with.

Ms. Nichole Townsend wanted to make sure that the Human Relations Commission will have the power to make changes and that a diverse group of citizens is appointed to the Commission.

Vice-Mayor Wisler said that Council members have been in the process of sending in their nominations for the Committee and noted that applications for Council-nominated applicants and at-large members are due by Wednesday, July 19, 2017, at 5 p.m. The Boards & Commissions Committee recommended Council appoint the five Council nominations received. Therefore, she moved to appoint Mr. Patrick Conant, Dr. Dwight B. Mullen, Dr. Darin J. Waters, Mr. Joseph Hackett and Ms. Marta Alcala-Williams to serve on the Blue Ribbon Committee for the Human Relations Commission. This motion was seconded by Councilman Bothwell and carried unanimously.

Vice-Mayor Wisler said that the Council is looking to appoint people with expertise in the following areas: Asheville African American history, policy experience, City Hall operations, land use, economic development, community development, housing, arts, law, a Citizen-Police Advisory Committee representative, along with at-large members.

City Clerk Burleson was directed to contact other Council nominations to remind them of the application deadline of July 19, 2017, at 5 p.m.

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

Ms. Sharon Sumrall, resident on Beaucatcher Mountain, expressed concern over the clear-cutting of property on Beaucatcher Mountain. Mayor Manheimer asked Ms. Sumrall to provide the pictures and information to City Manager Jackson who would follow-up on her complaint.

Ms. Dewana Little relayed an incident in which she was discriminated against when she tried to register her children for summer camp. City Manager Jackson noted that he would follow-up on the complaint.

Closed Session

At 7:48 p.m., Councilman Young moved to go into closed session for the following reasons: (1) to prevent disclosure of information that is privileged and confidential, pursuant to the laws of North Carolina, or not considered a public record within the meaning of Chapter 132 of the General Statutes. The law that makes the information privileged and confidential is N.C.G.S. 143-318.10(a)(3). The statutory authorization is contained in N.C.G.S. 143-318.11(a)(1); and (2) To consult with an attorney employed by the City about matters with respect to which the attorney-client privilege between the City and its attorney must be preserved, including, but not limited to, a lawsuit involving the following parties: Siemens Real Estate Holdings, LLC, and Jim Siemens, individually, vs. the City of Asheville. The statutory authorization is N.C. Gen. Stat. sec. 143-318.11(a)(3); and (3) To discuss matters relating to the location or expansion of industries. The statutory authorization is contained in N.C. Gen. Stat. sec. 143-318.11 (a) (4). This motion was seconded by Vice-Mayor Wisler and carried unanimously.

At 8:08 p.m., Councilman Young moved to come out of closed session. This motion was seconded by Councilman Bothwell and carried unanimously.

VIII. ADJOURNMENT:

Mayor Manheimer adjourned the meeting at 8:08 p.m.
